What is this product?

Type: Shares in a Sub-Fund of Amundi, an undertaking for collective investment in transferable securities (UCITS), established as an investment fund.

Term: The Sub-Fund has an unlimited term. We are entitled to terminate the management of the Fund, subject to a notice period of at least six months, via an announcement in the Federal Gazette (Bundesanzeiger) and also in the annual or semi-annual report.

We may suspend the redemption of units if exceptional circumstances so require, taking into account the interests of investors.

Objectives: The Sub-Fund is a passively managed index-tracking UCITS. Until 15 March 2020, the Sub-Fund replicates the STOXX[®] Europe 600 price index with ISIN EU0009658202; from 16 March 2020 to 2 November 2021 the Net Total Return (EUR) (ISIN EU0009658210); and from 3 November 2021 to 22 July 2024 the STOXX[®] Europe 600 ESG Broad Market EUR Net Return (ISIN CH1107032455). As of 23 July 2024, the Sub-Fund replicates the STOXX[®] Europe 600 ESG+ Net Return (ISIN CH0462361772) (the "Index" of this Sub-Fund) as a benchmark and pursues the investment objective of providing investors with a return that tracks the performance of the STOXX[®] Europe 600 ESG+ Net Return.

The index calculated by STOXX Ltd. replicates the performance of approximately 480 securities of the STOXX[®] Europe 600, following the application of a series of compliance, exposure and ESG performance rating criteria. Companies that do not meet the criteria of the ISS ESG standards-based rating or are involved in controversial weapons are not eligible for selection. Additional exclusion criteria are applied to check companies operating in the areas of tobacco, thermal coal, unconventional oil and gas, civil firearms and military contracts. The remaining securities are ranked in descending order of their ESG ratings within pre-defined sector groupings. The STOXX[®] Europe 600 ESG+ index selects the highest-ranked securities in each ICB sector until the number of selected securities reaches 80% of the number of securities on the STOXX[®] Europe 600.

The composition of the index is reviewed quarterly in March, June, September and December. Reweighting operations have an impact on the costs to be paid by the Sub-Fund and thus on the performance of the Sub-Fund.

A tracking error of up to 2% can be expected when linking to the performance of the Index. Information about the index is available online at <https://qontigo.com/index/sxxresgp/>.

In compliance with the investment policy and investment limits described in the investment conditions and prospectus, the Sub-Fund shall endeavour to achieve the investment objective by acquiring all (or, exceptionally, a significant number of) parts of the Index in the same proportion as the Index (as determined by the investment manager).

Fully replicating ETFs may not hold every part or the exact weighting of a part in the benchmark. Instead, they may seek exposure to a benchmark through the use of optimisation techniques (so-called sampling) and/or investments in securities that are not part of a benchmark. Securities loan transactions and repurchase agreements may not be concluded.

The Sub-Fund may invest a maximum of 10% of its assets in shares of other domestic or foreign UCITS or CIUs. The use of derivative financial instruments is possible only in special situations in the interest of investors. The value of derivative financial instruments may not exceed 10% of the Sub-Fund.

At least 92 percent of the value of the UCITS special fund is invested in equity investments as defined by § 2 (8) Investment Tax Act.

Intended retail investors: This product is intended for investors who have basic knowledge and no or limited experience of investing in funds and who are able to absorb losses up to the investment amount.

Redemption and dealing: The shares of the Sub-Fund are listed and traded on at least one stock exchange. Under normal circumstances, you may trade shares during stock exchange trading hours. Only eligible participants (e.g. selected financial institutions) can trade shares directly with the Management Company via the Sub-Fund on the primary market. For further details, please refer to the Amundi prospectus.

Distribution policy: The Sub-Fund income is ordinarily distributed.

More information: You can obtain further information about the Sub-Fund, including the prospectus, investor information document and financial report, free of charge on request from:

Depositary: BNP Paribas S.A. Germany branch.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. The risk of potential losses from future performance is therefore classified as medium. In very unfavourable market conditions, it is possible that the ability to execute your redemption requests will be compromised.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Further information can be found in the prospectus or the investor information document of Amundi.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is created and maintained for each Sub-Fund of Amundi. The assets and liabilities of the Sub-Fund are separate from those of other Sub-Funds and from those of the Management Company and there is no mutual liability. The Sub-Fund shall not be liable if the Management Company or a contracted service provider fails or falls into arrears.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you keep the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

Example investment EUR 10,000

Scenarios	If you exit after	
	1 year	5 years*
Total costs	€19	€129
Annual Cost Impact**	0.2%	0.2%

* Recommended holding period.

* This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is projected to be 6.51% before costs and 6.31% after costs.

We do not charge an issue premium.

If you are invested in this product as part of an insurance contract, the costs shown do not include additional costs that you could potentially bear.

* Secondary market: Since the Fund is an exchange-traded fund, investors who are not eligible participants can generally only buy or sell shares on the secondary market. Accordingly, investors pay brokerage fees and/or transaction costs in connection with their transactions on the stock exchange(s). These brokerage fees and/or transaction costs are not levied by the Fund or the Management Company and are not payable to them, but to the investor's intermediary. In addition, investors can also bear the costs of the bid-ask margins, i.e. the difference between the prices at which shares can be bought and sold.

Primary market: Eligible participants trading directly with the Fund will pay the corresponding primary market transaction costs.

How long should I hold it and can I take money out early?

Recommended holding period: Five years, based on our assessment of the risk and reward characteristics and costs of the Sub-Fund. This product is designed for medium-term investment. You should be willing to remain invested for at least five years. You can redeem your investment at any time, or hold the investment longer.

Order schedule: See "What is this product?" for details on the trading frequency. Please refer to the "What are the costs?" section regarding any exit costs.
