Informations about the Fund

Classification

Eurozone equities.

Determination and allocation of distributable sums

Accumulation and/or distribution at the discretion of the Management Company.

Tax treatment

The Fund is eligible for the Plan d'Épargne en Actions ("PEA" reserved for French investors) and life insurance policies. The Fund may provide a support vehicle for life insurance policies denominated in units of account.

The UCITS, by its nature, is not subject to taxation. However, unitholders may be taxed on any income distributed by the Fund or when they sell Fund units. The tax treatment applicable to amounts distributed by the Fund or unrealised or realised capital gains or losses will depend on the individual unitholder's tax situation, residence for tax purposes and/or the investment jurisdiction of the Fund. If an investor is uncertain of his or her tax position, the investor should consult a financial advisor or a professional investment consultant to determine the tax rules applicable to his or her particular situation before any investment. Some income distributed by the UCITS to unitholders residing outside France may be subject to withholding tax in France.

Benchmark index

The Fund's benchmark index is the euro-denominated DAX NET RETURN Index with net dividends reinvested (net total return).

The DAX NET RETURN Index is a "share" index published by Deutsche Börse and calculated by the international index provider STOXX ("STOXX "). The equities in the DAX NET RETURN Index are leading securities traded in the German markets. It includes the 30 highest and most actively traded market caps on the "Prime Standard" market segment of the Frankfurt Stock Exchange.

The investment universe of the DAX NET RETURN Index aims to cover approximately 80% of this market segment's entire float-adjusted market capitalisation.

Management fees & commissions

Subscription and redemption fees: 0.10% including tax.

Subscription fee retained by the Fund: 0.05%.

In compliance with current regulations, this mutual fund has, during the financial period just ended, levied charges at rates which are in line with those stated in the Prospectus and used under the following headings:

- Notes to the Annual Accounts /- Management fees
- Shareholders' Funds /- Subscription and/or redemption fees /- Management fees.

Investment objective

The Fund's management objective is to replicate as closely as possible the value of the DAX NET RETURN Index (see the section "Benchmark index"), whether the Index rises or falls.

The Fund is managed so as to ensure that the difference between changes in its NAV and that of the DAX NET RETURN Index (hereinafter the "DAX NET RETURN Index") is as small as possible. The target for maximum tracking error between changes in the Fund's NAV and the NAV of the DAX NET RETURN Index is 2%.

If the tracking error exceeds 1%, the aim would nevertheless be to remain below 5% of the volatility shown by the DAX NET RETURN Index.

UCITS AMUNDI ETF DAX UCITS ETF DR

Investment strategy

The Fund is managed “passively”.

1. **Strategy employed:**

The Fund’s management is “index linked” with the aim of replicating the performance of the DAX NET RETURN Index using a method that directly replicates the DAX NET RETURN Index, which consists of investing in the financial securities that make up the Index in proportions extremely close to those of the Index.

The Fund may use forward financial instruments and/or temporary acquisitions and sales of securities for hedging and/or exposure.

The Fund shall observe the investment rules stipulated in Articles R214-21, R214-22 and R214-23 the French Monetary and Financial Code.

The Fund’s assets consist of the directly held assets described in the “Assets used” section, which comply with the provisions of Article R 214-21 of the French Monetary and Financial Code.

The Fund’s exposure to the index may benefit from special ratios application to indexed UCITS as stipulated in Article R214-22 of the French Monetary and Financial Code (CMF). That Article stipulates that an index may comprise up to 20% equities or debt securities issued by the same entity; this limit may be raised to 35% maximum for a single issuing entity, when such increase is justified by special market circumstances such as the regulated markets where some marketable securities or some money-market instruments are largely dominant.

2. **Assets used (except embedded derivatives):**

- Equities:

The Fund will be permanently 60% exposed at least to one or more markets for equities issued in one or more Eurozone countries. The Fund will be permanently 60% exposed at least to the German equities market.

The equities in the Fund’s assets will be equities comprising the DAX NET RETURN Index, listed on the Frankfurt Stock Exchange.

Over 75% of the portfolio’s value will, at all times, consist of stocks of companies registered in a Member State of the European Union, or in another State which is part of the European Economic Area (EEA) and has signed a tax convention with France that provides for administrative assistance to prevent fraud and tax evasion. This minimum level of equity exposure makes the Plan d’Epargne en Actions (French Stock Savings Plan - PEA).

At least 65% of the Fund will be permanently invested in listed shares. For the purposes of interpreting this ratio, shares issued by REITs (as defined by the German Ministry of Finance) or UCIs are not considered as shares.

In order to meet its investment objective and/or manage intermediate financial flows, the Fund may hold up to 10% of its assets in bonds and debt securities, and money market instruments denominated in euros:

- Interest-rate instruments:

The Fund may invest in any kind of bond instruments.

Portfolio securities will be selected according to the best judgement of the management and in compliance with the Management Company’s internal credit risk monitoring policy.

For the purpose of stock-picking, management does not – either exclusively or automatically – rely on the ratings issued by rating agencies, but bases its buy and sell opinion about a security on its own credit and market analyses. For information, management may specifically deal in securities with minimum ratings, at the time of purchase, of BBB- in the S&P and Moody’s scale (“investment grade” rating).

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments.

Foreign debt instruments will be denominated in the currency of one of the OECD member countries.

UCITS AMUNDI ETF DAX UCITS ETF DR

- Debt instruments and money market instruments in euros:

Cash flow will be managed through money market instruments.

Portfolio securities will be selected according to management decision and in compliance with the internal credit risk monitoring policy of the Management Company.

For the purpose of stock-picking, management does not - neither exclusively nor automatically - rely on the ratings issued by rating agencies, but bases its buy and sell opinion about a security on its own credit and market analyses. For information, management may specifically deal in securities with minimum ratings of AA in the S&P and Moody's scale.

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments. The average maturity of these instruments will not exceed 10 years.

- UCITS units or shares:

The Fund may hold up to 10% of its assets in units and/or shares of UCITS. These UCITS are representative of all asset classes, in compliance with the Fund's requirements.

They may be UCITS managed by the Management Company, or by other entities, which may or may not belong to the Crédit Agricole SA Group, including related companies.

3. Derivatives:

Counterparties are selected through the procedure in effect within the Amundi Group and is based on the principle of selecting the best market counterparties.

This includes specifically:

- a double validation of the counterparties by the Amundi Intermediation Manager and by Amundi's Asset Management Credit Committee after analysis of their financial and operational profiles (type of activities, governance, reputation, etc.) conducted by a team of credit analysts working independently of the management teams.

- a limited number of financial institutions with which the UCITS trades.

Amundi AM relies on the expertise of Amundi Intermédiation in the context of providing services regarding the selection of counterparties.

Amundi Intermédiation provides Amundi AM with an indicative list of counterparties, the eligibility of which is approved beforehand by the Amundi (Group) Credit Risk Committee, concerning the aspects of counterparty risk.

This list is then approved by Amundi AM at ad-hoc meetings of its "Broker Committees". The purpose of the Broker Committees is to:

- monitor volumes (share broking and net amounts for other products) by intermediary/counterparty, instrument type and market, where applicable;
- express their opinion on the quality of the service provided by the Amundi Intermédiation trading desk;
- carry out a review of the brokers and counterparties, and draw up the list for the coming period. Amundi AM may decide to limit the list or ask to extend it. If Amundi AM proposes to extend the list of counterparties, at a committee meeting or subsequently, the Amundi Credit Risk Committee must analyse and approve the list once again.

The Amundi AM Broker Committees include Management Directors or their representatives, representatives of the Amundi Intermédiation trading desk, an operations manager, a Risk Control manager and a Compliance manager.

The Fund may take positions in the following derivatives:

Type of market:

- regulated
- organised
- over-the-counter

Categories of risk in which the Fund intends to take a position:

- equity risk
- interest rate risk
- currency risk

UCITS AMUNDI ETF DAX UCITS ETF DR

- credit risk
- other risks

Nature of positions to be taken, which must be limited to those required to meet the management objective:

- hedging
- exposure
- arbitrage
- other

Types of instruments used:

- futures: on equities and indices
- options: on equities, currencies and indices
- total return swaps: on equities and indices

The Fund may enter into exchange contracts in two combinations from the following types of flows:

- fixed rate;
- variable rate (indexed on the Eonia, Euribor, or any other market benchmark),
- performance linked to one or more listed currencies, equities, stock market indices or securities,
- UCIs or investment funds,
- dividends (net or gross),
- total return swap
- credit derivatives: credit default swaps
- other

Strategies for use of incorporated derivatives to achieve the management objective:

- constructing synthetic exposure to a particular security, sector and/or to the DAX NET RETURN Index via the use of total return swaps.
- management of intermediate cash flows (dividends, subscriptions/redemptions, etc.) to reach the desired degree of exposure to a particular stock and/or sector and/or to the DAX NET RETURN Index via the use of futures.
- management of intermediate cash flows (dividends, subscriptions/redemptions, etc.) to reach the desired degree of exposure to a particular stock and/or sector and/or to the DAX NET RETURN Index via the use of options.

These instruments may be used to hedge up to 100% of the Fund's net assets.

For information purposes, when the fund is being set up, the total return swaps represent approximately 0% of net assets and they represent up to 110% during its life cycle.

The assets held by the Fund and on the performance of which the total return swaps are retained by the depositary.

The forward total return swap is kept in position in the depositary's books.

The commitments arising from derivatives may not exceed 100% of net assets.

4. Securities with embedded derivatives:

Risks in which the manager intends to trade:

- equity risk
- interest rate risk
- currency risk
- credit risk
- other risks
- hedging
- exposure
- arbitrage
- other

Types of instruments used:

- certificates
- warrants
- convertible bonds

UCITS AMUNDI ETF DAX UCITS ETF DR

Strategy for using embedded derivatives to meet the investment objective:

- hedging currency risk or exposing the portfolio to equities,
- constructing synthetic exposure to particular assets or risks,
- increasing market exposure and details on the leverage effect.

The Fund will not overexpose its assets: all its commitments on derivatives and embedded derivatives may not exceed 100% of the Fund's NAV.

5. Deposits and liquid assets:

The Fund may hold up to 10% of its net assets in deposits for a maximum term of twelve months. The deposits are used for cash management purposes and help the Fund achieve its cash management objectives.

6. Borrowing:

The Fund may temporarily, and in exceptional cases, borrow up to 10% of its net assets in order to optimise its cash flow management.

7. Temporary acquisitions and sales of securities:

In order to generate additional returns, the Fund may use temporary sales of securities.

Type of transactions used:

- repurchases and reverse purchases pursuant to the CMF
- securities loans and borrowings pursuant to the CMF
- other

These transactions will cover all the authorised assets, excluding UCIs, as described in point 2. "Assets used".

These assets are held with the Depositary.

Types of transactions and description of all operations that must be limited to the achievement of the investment objective:

- cash management
- optimisation of the income of the UCITS
- other
- cash management
- optimisation of the Fund's income
- other

For information purposes, temporary purchases and sales of securities could represent 20% of the average net assets per year and a maximum of 25%.

The commitment arising from temporary purchases and sales of securities is limited to 100% of the assets.

These transactions generate costs that are paid by the Fund.

Fees: See Costs and Fees paragraph

Information relating to financial guarantees (temporary purchases and sales of securities) and total return swaps:

Type of collateral:

In the context of temporary purchases and sales of securities and OTC derivative transactions, the Fund may receive collateral of securities and cash.

The discounts that may be applied to the collateral received will take into account the nature, maturity, credit quality, currency and price volatility of the securities, as well as the results of the stress tests performed.

The securities received as collateral must adhere to the criteria defined by the Management Company. They must be:

- liquid
- transferable at any time

UCITS AMUNDI ETF DAX UCITS ETF DR

- diversified in compliance with the eligibility, exposure and diversification rules of the UCITS
- issued by an issuer that is not an entity of the counterparty or its group

For bonds, the securities will also be issued by high-quality issuers located in the OECD whose minimum rating may be AAA to BBB- on the scale of Standard & Poor's or with a rating deemed equivalent by the management company. Bonds must have a maximum maturity of 50 years.

The criteria described above are detailed in a Risk Policy available on the Management Company's website at www.amundi.com and may be subject to changes, particularly in the event of exceptional market circumstances.

The discounts that may be applied to the collateral received will take into account the credit quality, the price volatility of the securities and the results of the stress tests performed.

Reuse of cash received as collateral: Cash received as collateral may be reinvested in deposits, government bonds, repurchase agreements or short-term money market UCITS in accordance with the Management Company's Risk Policy.

Reuse of securities received as collateral:

Not authorised: Securities received as collateral may not be sold, reinvested or provided as collateral.

Semi-Annual Report

September 2020

The fund's objective is to track the MSCI Germany index while remaining eligible for the PEA (i.e. the fund undertakes to hold 75% of its assets in PEA-eligible equities at all times). It therefore holds a basket of shares and a performance swap which turns the Fund's equity exposure into an exposure to the MSCI Germany.

For the period under review, the portfolio AMUNDI ETF DAX UCITS ETF DR performance is 27.92%. The benchmark performance is 27.67%.

Past performance is no guarantee of future performance.

INFORMATION ON INCIDENTS RELATED TO THE COVID-19 CRISIS

The Covid-19 health crisis has had no material impact on the UCI over the financial year.

e) Type and quality (collateral)

Amundi Asset Management undertakes to accept only securities of a high credit quality and to increase the value of its collateral by applying valuation discounts to securities loaned to it. This process is regularly reviewed and updated.

i) Data on reuse of collateral

"The regulations governing UCITS forbid the reuse of collateral securities. Cash collateral received is:

- reinvested in short-term money market funds (as defined by ESMA in its 'Guidelines on ETFs and other UCITS issues');
- placed on deposit;
- reinvested in high-quality long-term government bonds;
- reinvested in high-quality short-term government bonds; or
- used for the purpose of reverse repurchase transactions.

The maximum proportion of received collateral that may be reused is 0% in the case of securities and 100% in the case of cash.

The effective usage amounts to 0% for collateral securities and 100% for cash collateral.

k) Data on safekeeping of collateral granted by the collective investment undertaking

Amundi Asset Management undertakes to do business with a limited number of depositaries, selected to ensure the adequate custody of securities received and cash.

I) Data on return and cost broken down

For securities lending transactions and repurchase agreements, Amundi Asset Management has entrusted Amundi Intermédiation, acting on behalf of the UCITS, with the following responsibilities: selecting counterparties, ordering the implementation of market agreements, monitoring counterparty risk, performing qualitative and quantitative monitoring of collateralisation (dispersion checks, ratings, liquid assets), repurchase agreements and securities lending. Income generated from these transactions is paid into the UCITS. Costs generated by these transactions are incurred by the UCITS. Charges by Amundi Intermédiation must not exceed 50% of the income generated by these transactions.

Significant events during the financial period

Specific details

Voting rights

In accordance with the Fund's Rules and the Fund Manager's stated policy, the Fund Manager exercises the voting rights attached to the securities held by the Fund and decides on contributions in the form of securities, except where the securities are those of the Fund Manager itself or of any associate company as defined in Art L. 444-3 of the French Labour Code (Code du Travail).

Two documents, "Voting Policy" and "Report on the Exercise of Voting Rights", prepared by the Fund Manager in compliance with the current regulations are available upon request.

This mutual fund (OPC) has not been selected as one of the funds which currently exercise voting rights.

Soft commissions

The Fund Manager has received no "soft" commissions.

Movement commission

The Fund Manager has received no commissions on trade.

Use of credit derivatives

The Fund has not used credit derivatives during the period under consideration.

Group funds

Details of the financial instruments held by the Fund which are issued by the Fund Manager or its associates will be found in the Auditor's Report for the latest financial period (enclosed herein) under the following headings of annuals accounts:

- Further details.
- Group financial instruments held by the Fund.

Calculating overall risk

- Overall risk calculation method: the mutual fund uses the commitment calculation method to calculate the mutual fund's overall exposure to financial contracts.

STATUTORY AUDITOR'S REVIEW REPORT
Statement of net assets as of 30 September 2020

This is a free translation into English of our statutory auditor's review report, the original of which was prepared in French for signature. All possible care has been taken to ensure that the translation is an accurate representation of the original. However, in all matters of interpretation of information therein, the original language version of our report takes precedence over this translation.

AMUNDI ETF DAX UCITS ETF DR
OPCVM CONSTITUE SOUS FORME DE FONDS COMMUN DE PLACEMENT
Governed by the French Monetary and Financial Code

Management company
AMUNDI ASSET MANAGEMENT
90, boulevard Pasteur
75015 PARIS

To the Unitholders,

In our capacity as Statutory Auditor of the AMUNDI ETF DAX UCITS ETF DR, and as required by the provisions of Article L. 214-17 of the French Monetary and Financial Code (*Code monétaire et financier*) and of Article 411-125 of the general Regulation of the French financial markets Authority (*Autorité des marchés financiers*) relating to the review of the statement of net assets, we have prepared this statutory auditor's review report on the information provided in the accompanying statement of net assets as of September 30, 2020.

This information has been prepared under the responsibility of the management company on the basis of the available elements in the evolving context of crisis related to Covid-19. Our responsibility is to express a conclusion on the consistency of the information provided in the accompanying statement of net assets with the knowledge of the fund that we have acquired in the context of our statutory audit engagement.

We conducted our review in accordance with the professional standards generally accepted in France. These procedures, which constitute neither an audit nor a limited review, consisted principally in applying analytical procedures and making inquiries with the persons who produce and verify the information provided.

Based on our work, we have no comment to make about the consistency of the information provided in the accompanying document with the knowledge of the fund that we have acquired in the context of our statutory audit engagement.

Neuilly sur Seine, November 27 2020
