e) Data on the type and quality of collateral

Collateral received must comply with the Natixis Investment Managers International policy, which was established to guarantee a high level of quality and liquidity as well as the absence of direct correlation with the counterparty to the transaction. Additionally, the Natixis Investment Managers International collateralisation policy sets out levels of over-collateralisation for each type of security, intended to offset any variation in their value. Lastly, a daily margin call system is in place to offset the mark-to-market variations of securities.

i) Data on the reuse of collateral

UCITS funds must reinvest all of their cash collateral (i.e. maximum amount = maximum amount used = 100%) but cannot reuse their securities collateral (i.e. maximum amount = amount used = 0%).

Furthermore, in accordance with the conditions set out in the regulations, in the event that collateral is received in cash, it must only be:

- deposited;
- invested in high-quality government bonds;
- used in reverse repurchase agreements;
- invested in short-term money market undertakings for collective investment (UCIs).

For transactions made by Natixis TradEx Solutions, acting as an "agent" or "principal", the amounts received in respect of cash collateral on temporary sales of securities are invested in an interest-bearing deposit account.

k) Data on the custody of collateral provided by the UCI

All collateral provided by the UCI is transferred under full ownership.

**I) Data on income and costs, broken down**

The Management Company has entrusted Natixis TradEx Solutions with performing securities lending and repurchase agreement transactions for the UCITS.

Income from these transactions is returned to the UCITS. These transactions give rise to costs that are borne by the UCITS. Natixis TradEx Solutions' invoicing cannot exceed 40% of the revenue generated by these transactions and is deducted from the income recognised by the UCITS.

The amounts shown do not include remuneration from the investment of cash collateral in deposit accounts.
