Total Expense Ratio (TER)

The Total Expense Ratio (TER) is the sum of the Management Fee and Other Fees for the period in relation to the average of the net assets of the unit category. The Management Fee is calculated using the average of the net assets for the past month for each unit category.

Other Fees include all other costs (auditor, publication of the net asset value, subscription tax, etc.) and fees (Custodian Bank, Administrative Agent, etc.) with the exception of related costs and fees relating to transactions.

In the specific case of sub-funds and unit categories launched during the financial year, the TER has been calculated on the basis of management fees and other fees recorded since launch and extrapolated over a period of 12 months.
