### c) Information about risks

#### Method for calculating total risk

The calculation method used by the Management Company to measure the overall risk of this fund is the commitment method.

#### Exposure to securitisation

The UCI has no exposure to securitisation.

#### Risk management

As part of its risk management policy, the asset management company establishes a risk management policy and risk management procedures that are effective, appropriate and documented and that allow it to identify risks related to its activities, processes and systems.

For more information, please see the UCI's KIID and more specifically its "Risk and return profile" section, or its prospectus, which may be obtained on request from the asset management company.

#### Liquidity management

The portfolio management company has defined a liquidity management policy for its open-end UCIs, based on measurements and indicators that show illiquidity and the impact on portfolios in the event of forced sales following large-scale redemptions by investors. Measures are applied according to a frequency appropriate to the management type, according to various simulated redemption scenarios, and are compared with predefined alert thresholds. The liquidity of collateral is monitored weekly using identical parameters.

UCIs identified as sensitive because of the level of illiquidity identified or because of the impact of forced sales undergo additional analysis of their liabilities. The frequency of these tests changes according to the asset management techniques used and/or the markets in which the UCIs invest. As a minimum requirement, the results of these analyses are presented in governance committee meetings.

The asset management company therefore relies on a liquidity control and monitoring system that ensures that investors are treated fairly. Any change to this policy during an accounting period that affects the UCI's documentation will be indicated in the "material changes" section of this document.

### Treatment of non-liquid assets

Since the split on **25 september 2020**, the fund has consisted almost exclusively of illiquid private placements and is in liquidation. Its objective is now to manage its assets in an extinctive manner. The liquidation of the fund will be finalised as soon as all its illiquid assets are sold.

### d) Environmental, social and governance (ESG) criteria

The UCI does not take into account all three ESG criteria at the same time.

### SFDR :

Within the framework of the "SFDR" regulation (Regulation (EU) 2019/2088 of the European Parliament of November 27th, 2019 on the publication of information on sustainability in the financial services sector), this UCITS/IAF does not come under the Article 8, nor Article 9 of SFDR and, therefore, belongs to the category of funds covered by Article 6.

The main criteria taken into account in investment decisions are macroeconomic analysis, capital flows, and relative market valuation.

Consideration of sustainability risk (as defined in SFDR as an environmental, social, or governance event or circumstance that, should it occurs, could have a material, adverse impact on the value of an investment ) is performed through systematic exclusions based on the regulations in place and the sectors and countries subject to international sanctions.

In addition, the investment firm, in the management of this UCITS/IAF:

- Excludes all actors involved in the production, use, storage, marketing, and transfer of anti-personnel mines and cluster bombs, in line with the Oslo and Ottawa conventions;

- Imposes additional control and approval from the Company's "Compliance" department for any investment linked to issuers based in countries identified as "high risk" in terms of combat against money laundering and terrorism financing (including in particular, but not exclusively, countries considered by the Financial Action Task Force (FATF) as exhibiting strategic deficiencies in their method for combating money laundering and terrorism financing, the European Union lists of high risk countries and non-cooperative jurisdictions for tax purposes, etc.).

The UCITS is currently unable to take into account the principal adverse impacts (or "PAI") of investment decisions on sustainability factors due to:

- A lack of availability of reliable data;

- The use of derivative financial instruments for which PAI aspects are not yet accounted for, nor defined.

### Taxonomy (Regulation [EU] 2020/852) :

This UCITS/IAF's underlying investments do not take into account EU criteria regarding environmentally sustainable economic activities.

### 2. Governance and compliance obligations

### Procedure for selecting and assessing intermediaries and counterparties – Order execution

As part of the asset management company's compliance with its "best execution/best selection" obligation, the selection and monitoring of intermediaries are covered by a specific process.

The asset management company's policies regarding intermediary/counterparty selection and order execution are available on its website at http://www.h2o-am.com (in the « Regulatory informations » section).

### Voting policy

Details of how the asset management company intends to exercise voting rights attached to shares held by UCIs in their portfolios can be viewed on its website at http://www.h2o-am.com (in the « Regulatory informations » section).

The voting policy is available in this same section and is described in the shareholder engagement and voting policy.

### Remuneration policy

H<sub>2</sub>O AM applies a remuneration policy in line with the UCITS V and AIFM directives. These directives imply that asset management companies must establish and apply remuneration policies and practices that encourage healthy and effective risk management and do not encourage risk-taking that is inconsistent with the UCI's risk profile.

The remuneration policy is subject to supervision and approval by a remuneration committee consisting of members who do not have executive roles within H2O. The remuneration policy is validated once per year by the H2O remuneration committee. The committee was set up in 2012 to ensure that remuneration arrangements support both H2O's strategic targets as well as the recruitment, motivation and retention of staff members, while complying with rules established by regulatory and governance authorities.

Regarding the remuneration policy, employees are paid on the basis of a fixed salary in accordance with market practices plus an annual bonus, based on their individual performance and their contribution to the overall business. Employees who are also shareholders are entitled to dividends up to their stake in the capital of the group's holding company, based on the group's profitability.

The remuneration of the asset management company's staff, including "identified staff members" (i.e. material risk-takers who may affect the risk profile of the asset management company or the portfolios it manages) is based on the following principles and criteria:

• A risk management approach and a remuneration structure that are healthy, effective and consistent with the interests of the asset management company, portfolios and investors, including solid policies and procedures regarding valuations, risk management, liquidity and regulations;

• Emplyee wages that are in line with market levels in view of their roles.

### 2. Governance and compliance obligations

The asset management company only grants discretionary bonuses after it has added together and received performance and management fees for the period concerned. Variable remuneration, including the deferred portion, is discretionary, and so may fall to zero if negative returns occur.

### Information about employees' remuneration

The asset management company has designated the following people as "identified staff members": a) management;

b) portfolio management, client relations and business development staff members;

c) persons responsible for the middle office, quantitative development, finance, legal and human resources; d) staff members with control functions; and

e) any employee whose total remuneration places him/her in the same remuneration bracket as management and risktakers

(b, c and d).

Apart from the identified staff members above, the asset management company does not have any material risk-takers.

Above defined thresholds, H<sub>2</sub>O ensures that a substantial proportion of any component of variable remuneration received by identified staff members is deferred and consists of:

a) units or shares in the UCITS where possible; or

b) equivalent stakes in the portfolios concerned where possible; or

c) share-based compensation relating to the portfolios concerned; or

d) equivalent non-monetary instruments relating to the portfolios concerned by incentives, which are as effective as any of the instruments referred to in points a) to c).

Instruments are subject to an appropriate retention policy designed to align incentives for staff members with the long-term interests of:

a) the portfolios they manage; andb) investors in those portfolios; andc) H<sub>2</sub>O.

### 2. Governance and compliance obligations

The asset management company's staff members are remunerated solely by the asset management company itself and not by the portfolios they manage. H2O has ensured that all variable remuneration, including all deferred portions, is only paid or awarded if it is:

(1) Justified by the performance of:

- a) portfolios;
- b) the commercial unit; and
- c) the person concerned; and

(2) Sustainable given H2O's overall financial position.

You will find below the figures relating to the remuneration:

# 3. Fees and Tax

### Brokerage fees

The asset management company pays research costs directly.

### Withholding taxes

The UCI is not affected by withholding taxes.

### b) Annual financial statements – Notes

### 1. Accounting rules and methods

The annual accounts are presented as provided by the ANC Regulation 2014-01 modified.

General accounting principles apply:

- fair picture, comparability,
- regularity, trustworthiness,
- prudence,

- consistency of methods employed from one accounting period to another.

The accounting method used to record income from fixed-income securities is that of interest received.

Acquisitions and disposals of securities are recorded excluding costs. The reference currency for portfolio accounting is euros. The duration of the accounting period is 12 months.

### **Asset Valuation Rules**

Transition to extinctive management and abandonment of the going concern principle. As the fund is managed on an extinctive basis, the going concern principle has been abandoned since the creation of the side pocket UCITS on September 25, 2020.

### Significant Events: Assets Side-pocketing

Given the valuation uncertainties of certain securities held by H2O VIVACE, it was decided on September 25, 2020 to proceed with the side-pocketing of these assets, in accordance with the regulations in force. Thus, the UCITS was renamed H2O VIVACE SP, and, since that date, it only holds "private" instruments. From now on, only acts of management intended to ensure its liquidation under the best conditions aimed at preserving the interests of unitholders are authorised. The number of fund units will remain unchanged until total liquidation (no issuance of new units and no redemption of existing units, which are amortised gradually). This side-pocketing procedure of "private" instruments from the H2O VIVACE SP (Side Pocket) fund has been implemented under the conditions provided for in Article L. 214-8-7 of the Monetary and Financial Code.

### **Partial Reimbursement**

On March 19, 2024, the FCP made a first reimbursement of EUR de 1 039 444.

### Asset valuation rules on the closing date of the Side-Pocket as of 29/12/2023

The asset management company estimated the present value of the illiquid assets by way of the following method and based on all information available as of June 28, 2024.

In December 2020, H2O AM appointed a financial advisor. Jointly with the company's legal advisor, they counsel H2O on the determination and execution of the disposal policy of the Tennor group assets.

In May 2021, following the very marginal completion of the sale contract with Evergreen Funding which provided for the gradual sale of illiquid assets between June 2020 and June 2021, and after having assessed the risks, deadlines, and prices of the various solutions, the restructuring of assets, with a view to streamlining the funds' exposure to the Tennor group, has been retained. This restructuring resulted in a firm commitment to restructure the positions until now held on the balance sheet (excluding ADSs, the La Perla and Avatera shares) via a new issuance.

A Dutch court declared Tennor Holding BV in default in November 2021. Tennor Holding BV then appealed against this decision and the court cancelled in second instance the declaration of default from the Tennor Group in December 2021.

It is worth reminding that the valuation uncertainty that led to the fund's side-pocketing remains. Only the liquidation will allow for an exact valuation.

Thus, at the end of June 2024, the management company values the H2O Vivace SP fund as follows: 1. the fund has 53 768 EUR in liquidity, an amount held mainly in EUR and USD.

2. The bonds are valued at 2 285 981 EUR. Their valuations as of June 28, 2024 are based on their recovery value (estimated value of the security after default), determined from information obtained on the companies

In December 2023, the management company H2O AM EUROPE waived the provisioned management fees.

As of June 28, 2024, the delay in payment of expired coupons on all securities except for ADS led the management company to no longer take into account their accrued coupons in the valuation and to constitute a provision for the expected amount of all unpaid expired coupons (**4 820 844 EUR** for unpaid expired coupons).
