Allianz International Investment Funds - Allianz Thematica Fund Share Class W (Acc) (GBP)

Managed by Allianz Global Investors GmbH, part of Allianz Global Investors

ISIN: GB00BMV5S920

Objectives and Investment Policy

The investment objective of the Allianz Thematica Fund is to achieve long-term capital growth through investment in global equity markets with a focus on Thematic Investing, aiming to outperform (net of fees) the Target Benchmark, the MSCI All Country World Index Total Return (Net) GBP over a rolling 5 year period.

The ACD will utilise a Thematic Investing approach to achieve its investment objective. The investible themes will typically be derived from long-term structural shifts; these megatrends could for example include urbanisation, technological innovation, resource scarcity and demographic & social change. Within these themes the ACD targets investment in companies that the ACD believes have a competitive advantage/product/solution in their respective markets. Information on current themes can be found on fact sheets which are published by the ACD on a monthly basis. The Fund will invest at least 70% in equities and securities equivalent to equities (e.g. American Depositary Receipts, Global Depositary Receipts) worldwide. In addition, up to 15% of the Fund's assets may be invested in index certificates and other certificates on equities, adequately diversified equity baskets, participation certificates and warrants. Up to 50% of the Fund's assets may be invested in securities or instruments where the issuers or the issuers of the underlying securities have their registered offices in Emerging Market Countries (as defined in

the Prospectus) of which up to 10% of the Fund's assets may be invested in Chinese A-Shares either directly via Stock Connect or indirectly through all eligible instruments as set out in the investment policy. The ACD may also utilise deposits and money market instruments in the management of the portfolio and their value, together with money market funds, may make up to a maximum of 15% of the Fund's assets. The Fund may also invest up to a maximum of 10% of the Fund's assets in other Funds managed by Allianz Global Investors and its group of companies and other collective investment schemes managed by third parties. The ACD may use derivatives for efficient portfolio management (Including for hedging).

The Fund will apply the Minimum Exclusion Criteria. All details are set out in the Prospectus.

Benchmark of the fund is MSCI All Country World Index Total Return (Net) GBP.

You may redeem shares of the fund usually on each business day by 12:00.

We reinvest the income into the fund.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

This risk and reward indicator is based on past performance data. It may not be a reliable indication of the future risk profile of the fund.

The categorisation of the fund is not guaranteed and may change in the future.

Even the lowest category 1 does not mean a risk-free investment.

Why is the fund in this category?

Past data for this fund is not available yet. The analysis of the fund's potential target asset mix allocation has revealed that the fund should be assigned to category 6. Funds of category 6 have shown in the past a high volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 6 might be subject to high price fluctuations based on the historical volatilities observed.

Due to the fact that the Sub-Fund may invest into the China A-Shares market via both, Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect, various additional risks which include but are not limited to regulatory risks and suspension risks may thereby be caused and should be emphasised to the general investment and equity related risks.

Charges

These charges are used to pay the costs of running the fund, including the costs of marketing and selling. They reduce the potential growth of your investment.

One-off charges deducted before or after you invest

Entry Charge	0.00%
Exit Charge	0.00%

This is the maximum charge that might be taken out of your money before it is invested or before the proceeds of your investments are paid out.

Charges taken from the fund over a year

Ongoing Charges	0.73%
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find actual entry and exit charges from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges. It does not include transaction costs incurred when we buy or sell assets for the fund.

A dilution levy may be charged on purchases and redemptions of shares to protect the remaining investors against the costs incurred by the fund in buying or redeeming its investments. This levy may be charged where the fund is experiencing large levels of net purchases/redemptions and on “large deals” (i.e. deals of 2% or more of the value of the fund). The amount of any such dilution levy is calculated by reference to the estimated costs of dealing in the underlying investments using the rates calculated for the preceding quarter.

You will find more details about the calculation of the charges in the prospectus.

Past Performance

We do not yet have performance data for one complete year. Therefore we can not provide a useful indication of past performance to you.
