**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**BACKGROUND TO THE COMPANY**

The following information is derived from, and should be read in conjunction with, the full text and definitions section of Crown Sigma UCITS plc's (the "Company") prospectus (the "Prospectus").

**Structure**

Fund size (NAV as at 30 April 2025):	EUR 4,307,894,433
Date of incorporation:	27 March 2012
Investment vehicle type:	Umbrella investment company with variable capital and segregated liability between sub-funds

The Company is an umbrella investment company with variable capital and segregated liability between sub-funds which is open-ended and was authorized by the Central Bank of Ireland pursuant to the provisions of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

The Company's Prospectus, along with sub-fund Supplements, was last updated with effect from 21 May 2025 as approved by the Central Bank of Ireland.

Effective 1 May 2024, the LGT EM LC Bond Sub-Fund has changed its functional and reporting currency from EUR to USD. The Directors believe that the USD represents the primary economic environment in which the Sub-Fund operates as the change allows for enhanced operational efficiency of the Sub-Fund, keeping in mind the asset category and its currency exposures.

During the period the Directors decided to terminate the LGT Crown Liquid Private Equity Opportunities Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund and LGT Sustainable Equity Market Neutral Sub-Fund, after having considered in detail the asset growth, prevailing market conditions, outlook and the best interest of the shareholders. The financial statements for these sub-funds have been prepared on a termination basis. Daily valuations and dealings continued until the final valuation day of the relevant sub-fund, as follows:

Sub-Fund	Final NAV Valuation Day	Redemption proceeds paid out in full
LGT Crown Liquid Private Equity Opportunities Sub-Fund	16 September 2024	18 September 2024
LGT Bond EM Credit Opportunities Sub-Fund	30 April 2025	4 May 2025
LGT Sustainable Bond Corporates Sub-Fund	30 April 2025	5 May 2025
LGT Sustainable Equity Market Neutral Sub-Fund	31 January 2025	4 February 2025

As at the end of the reporting period, the Company comprised of nine active sub-funds, all with segregated liability. The first subscription dates of the active sub-funds were as follows:

- LGT Crown Listed Private Equity – 18 February 2013.
- LGT EM LC Bond Sub-Fund – 29 April 2016.
- LGT Sustainable Equity Global Sub-Fund – 29 April 2016.
- LGT Sustainable Equity Europe Sub-Fund – 29 April 2016.
- LGT Sustainable Bond Global Sub-Fund – 29 April 2016.
- LGT Sustainable Bond Global Hedged Sub-Fund – 29 April 2016.
- LGT Sustainable Quality Equity Sub-Fund – 31 March 2016.
- LGT EM HC Bond Sub-Fund: 15 June 2021.
- LGT EM Frontier LC Bond Sub-Fund: 23 June 2021.

A new sub-fund, LGT CP Impact Equity Global Sub-Fund, has been authorized since the year end on 3 June 2025.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**BACKGROUND TO THE COMPANY (continued)**

**Sustainable Finance Disclosure Regulation (“SFDR”)**

LGT Crown Listed Private Equity does not promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR or has sustainable investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR and therefore has been categorized as an Article 6 financial product for the purposes of SFDR. Accordingly, SFDR does not require any ongoing disclosures in the periodic reports for this sub-fund.

For the purpose of the EU’s regulation on the establishment of a framework to facilitate sustainable investment (the “Taxonomy Regulation”), it should be noted that the underlying investments of this sub-fund does not take into account the EU criteria for environmentally sustainable economic activities.

All other sub-funds promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR and therefore has been categorized as an Article 8 financial product for the purposes of SFDR. The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

**Investment objective**

The investment objectives of the active sub-funds are as follows:

*LGT Crown Listed Private Equity*

The sub-fund’s investment objective is to invest the available funds in companies that are active in, or associated with, the private equity industry with the purpose of spreading investment risks and enabling its shareholders to achieve an appreciation of capital over the medium to long-term. The anticipated returns are expected to be correlated to listed private equity returns. The base currency of the sub-fund is Euro.

*LGT EMLC Bond Sub-Fund*

The investment objective of the sub-fund is to generate consistent medium-term capital appreciation by investing primarily in a broad range of fixed income securities listed or traded on a recognized exchange (such as bonds, including inter alia inflation-linked, high-yield or convertible bonds, credit linked notes, treasuries and money market instruments) which are issued by issuers from Emerging Markets and / or denominated in Emerging Markets currencies or otherwise linked or related to Emerging Markets. Furthermore, financial derivative instruments (“FDI”) may be used to achieve the investment objective including futures, swaps, currency forwards and options. The base currency of the sub-fund is Euro.

*LGT Sustainable Equity Global Sub-Fund*

The investment objective of the sub-fund is to generate consistent long-term capital appreciation by investing primarily in a broad range of equity securities and instruments (shares, participatory certificates and profit-sharing certificates) listed or traded on a recognized exchange. Furthermore, FDI may be used to achieve the investment objective including futures, swaps, currency forwards and options. The base currency of the sub-fund is Euro.

*LGT Sustainable Equity Europe Sub-Fund*

The investment objective of the Sub-Fund is to generate consistent long-term capital appreciation by investing primarily in a broad range of equity securities and instruments (such as shares, participatory certificates and profit-sharing certificates) listed or traded on a recognized exchange. Such securities and instruments will be either (i) issued by companies with their registered office in, or operating most of their business activities in, a European country, or (ii) holding companies that primarily hold participations in companies with registered offices in European countries. Furthermore, FDI may be used to achieve the investment objective including futures, swaps, currency forwards and options. The base currency of the sub-fund is Euro.

*LGT Sustainable Bond Global Sub-Fund*

The investment objective of the sub-fund is to generate consistent medium term capital appreciation by investing primarily in a broad range of debt securities and instruments (such as bonds, including inter alia inflation-linked, high-yield or convertible bonds, credit linked notes, treasuries and money market instruments listed or traded on a recognized exchange. Furthermore, FDI may be used to achieve the investment objective including futures, swaps, currency forwards and options. The base currency of the sub-fund is Euro.

**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**BACKGROUND TO THE COMPANY (continued)**

**Investment objective (continued)**

*LGT Sustainable Bond Global Hedged Sub-Fund*

The investment objective of the sub-fund is to generate consistent medium term capital appreciation by investing primarily in a broad range of debt securities and instruments (such as bonds, including inter alia inflation-linked, high-yield or convertible bonds, credit linked notes, treasuries and money market instruments listed or traded on a recognized exchange and issued by private or public debtors globally. Furthermore, FDI may be used to achieve the investment objective including futures, swaps, currency forwards and options. The base currency of the sub-fund is US Dollar.

*LGT Sustainable Quality Equity Sub-Fund*

The investment objective of the sub-fund is to generate consistent long term capital appreciation by investing primarily in a broad range of equity securities and instruments (shares, participatory certificates and profit sharing certificates) listed or traded on a recognized exchange. Furthermore, FDI may be used to achieve the investment objective including futures, swaps, currency forwards and options. The base currency of the sub-fund is US Dollar.

*LGT EM HC Bond Sub-Fund*

The investment objective of the sub-fund is to generate consistent long term capital appreciation by investing primarily in fixed income securities, namely government bonds, money market instruments, floating rate notes and fixed or variable rate commercial paper and in cash, of emerging market or frontier markets denominated currencies. The Investment Manager will pursue a long only strategy. Furthermore, FDI may be used to achieve the investment objective including futures, total return swaps, currency forwards, options and warrants. The base currency of the sub-fund is US Dollar.

*LGT EM Frontier LC Bond Sub-Fund*

The investment objective of the sub-fund is to generate consistent long term capital appreciation by investing primarily in fixed income securities such as bonds, treasuries and money market instruments, floating rate notes and fixed or variable rate commercial paper and in cash, of mainly emerging market or frontier markets denominated currencies. The Investment Manager will pursue a long/short strategy. Furthermore, FDI may be used to achieve the investment objective including futures, total return swaps, currency forwards, options and warrants. The base currency of the sub-fund is US Dollar.

There can be no assurance that the Sub-Funds will achieve their investment objective and investment results may vary substantially on a monthly, quarterly and annual basis, and over the course of a market cycle.

**Additional information for Swiss investors**

The Company's official publication medium is the electronic platform [www.fundinfo.com](http://www.fundinfo.com).

The Prospectus and the Key Information Document (KID), the Memorandum and Articles of Association and the annual and semi-annual reports (if these have already been published) in respect of the Company, can be obtained free of charge from the representative and paying agent in Switzerland.

The issue and redemption prices per share of each segment are published on a weekly basis on the electronic platform [www.fundinfo.com](http://www.fundinfo.com). The NAV may be published with the note “exclusive commissions“ in place of the issue and redemption prices.

## **INVESTMENT MANAGER'S REPORT**

### **Macro backdrop**

The year 2024 was marked by continued US economic exceptionalism, as macro data consistently exceeded expectations. The US economy maintained growth near its potential, standing out against a backdrop of subdued global activity. Investors welcomed the election of Donald Trump and the Republican "Red Sweep" in November, with optimism centered on potential pro-business policies, including deregulation and tax cuts. This political shift bolstered sentiment, fueling confidence in the resilience of the US economy. As the year progressed, disinflation trends began to stall, as economic growth remained robust. This combination prompted market participants to reduce their rate cut expectations and the "higher for longer" narrative surrounding US interest rates resurfaced.

Across the Atlantic, Europe faced a contrasting macro landscape. Despite efforts by the European Central Bank to support economic activity by cutting rates, economic momentum failed to revive consumer and business confidence. The manufacturing sector struggled amid sluggish global trade and competition with China, while political uncertainty exacerbated the region's challenges. France experienced political upheaval as parliamentary opposition to the budget bill triggered the formation of a new government, unsettling markets. Meanwhile, Germany announced snap elections following the collapse of its coalition government, adding further uncertainty.

China's economy contended with a balance sheet recession and deflationary pressures throughout the year. Activity in key sectors, including property, remained muted, and consumer confidence lagged. Policymakers introduced measures in an attempt to stimulate economic activity, but early responses from markets were underwhelming. However, as the government intensified its efforts in September, some credibility was restored, offering a glimmer of stabilization.

Amid these global challenges, the benign US-led macro backdrop proved favorable for global risk assets. Equity markets delivered another year of exceptional performance despite bouts of volatility. August saw a confluence of market stress, including the unwinding of carry trades, seasonal liquidity constraints, mixed technology earnings, and temporary recession fears, which led to a global market sell-off. Yet, equity markets quickly rebounded, and growth stocks once again spearheaded the rally, driving indexes to end the year in positive territory.

In Switzerland, the central bank cut its key interest rate four times over the course of 2024 to tame the strength of the Swiss franc. As a result, the Swiss franc ended the year flat against the euro and depreciated considerably against the US dollar. The latter was the best performing G10 currency, benefiting from strong economic fundamentals and favorable interest rate differentials. This robust macro environment, coupled with recalibrated expectations for interest rates, weighed on duration assets. High-grade bonds eked out only modest gains, while riskier fixed-income segments outperformed, delivering solid returns. Tight credit spreads, healthy corporate fundamentals and low default rates characterized the benign environment for higher yielding bonds in 2024.

### **Alternative investment industry and outlook**

While uncertainties around the US policy path have increased with the return of Trump to the White House, US growth looks robust and leads us to expect a continuation of US exceptionalism. Regional divergences are likely to persist and risks outside the US are tilted to the downside. The political sphere will keep being a source of market volatility. Uncertainties related to Trump's policies are a risk. However, much of his tariff plans are likely to serve as a foundation for negotiations, with selective application and modest increases to avoid undermining the positive momentum in the US economy. Also, the European former powerhouses Germany and France are battling homemade issues, while lacking effective leadership to tackle structural challenges. Geopolitical dynamics continue to be a wildcard, introducing an element of unpredictability into the economic and market landscape. Despite these uncertainties, the macroeconomic backdrop remains generally benign. Should significant political and geopolitical risks materialize, safe haven assets such as the Swiss franc would benefit, as would the US dollar – given that Trump's policy agenda creates a favorable environment for the greenback to strengthen further, even if such an outcome is contrary to his intentions.

Barring significant external shocks, the US economic trajectory suggests a recession is possible but unlikely. By contrast, Europe's outlook remains tepid and challenged, with little evidence to suggest a meaningful pick up in economic activity. However, the significant negativity already priced into European markets offers potential for incremental improvement and, consequently, positive surprises. In China, persistent structural challenges cast a shadow over its secular growth prospects. The key question remains whether policymakers will deploy a decisive stimulus package to bolster broad demand or opt for a more measured, gradual approach to sustain market confidence.

**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**INVESTMENT MANAGER'S REPORT (continued)**

**Alternative investment industry and outlook (continued)**

In most regions, inflation remains a critical issue, with little indication it will meet central banks' target levels, especially in the US. Persistent price pressures, particularly within the services sector, present formidable challenges to achieving further deflation. This suggests that the deflationary path will likely be bumpy. Against this backdrop, central banks may reduce interest rates less and slower than market participants currently anticipate. However, central banks' rate paths are set to remain divergent. While the SNB is likely to remain on easing mode, the ECB has room to cut rates as well, given the region's weak economic activity. The US Federal Reserve, on the other hand, might defy broader market expectations by keeping its interest rates higher for longer. The Bank of Japan is set to be the outlier and to tighten its monetary policy further.

For the coming quarters, the macroeconomic backdrop is likely to remain broadly supportive to risk assets. However, equities—particularly US equities—face a high hurdle in terms of elevated valuations and ambitious earnings forecasts. The rally observed over the past years, primarily driven by AI and technology stocks, is likely to broaden to other sectors and companies. But higher levels and volatility of bond yields will at times weigh on equities that are already confronted by stretched positioning and sentiment. Elevated valuations in equities, coupled with credit spreads near historical lows, and depressed default rates, underscore the importance of disciplined investment approaches and proper diversification.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

## **DIRECTORS' REPORT**

The Directors submit their annual report together with the audited financial statements, which comprise the Statement of Comprehensive Income, the Balance Sheet, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, the Statement of Cash Flows, the related notes for the Company and its sub-funds and the Portfolio of Investments for each sub-fund, for the year ended 30 April 2025.

### **Statement of Directors' responsibilities**

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with Irish law which requires the Directors to prepare financial statements for each financial year that gives a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year. Under that law the Directors have prepared the financial statements in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS Accounting Standards" or "IFRS").

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing the financial statements, the Directors are required to:

- (i) select suitable accounting policies and then apply them consistently;
- (ii) make judgments and estimates that are reasonable and prudent;
- (iii) state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- (iv) prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the audited financial statements.

LGT Crown Liquid Private Equity Opportunities Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund and LGT Sustainable Equity Market Neutral Sub-Fund have been prepared on a termination basis as it is the intention of the Directors to liquidate the sub-funds once proceeds from the sale of final investments are received. These financial statements may be available on the website of LGT Capital Partners Limited and/or any regulatory website as may be required by law and/or regulations. The Directors are responsible for the maintenance and integrity of corporate and financial information included on the Company's website.

A new sub-fund has been authorized since the year end, namely LGT CP Impact Equity Global Sub-Fund, on 3 June 2025.

Furthermore, effective 1 May 2024, the LGT EM LC Bond Sub-Fund has changed its functional and reporting currency from EUR to USD. The Directors believe that the USD represents the primary economic environment in which the Sub-Fund operates as the change allows for enhanced operational efficiency of the Sub-Fund, keeping in mind the asset category and its currency exposures. In accordance with IAS 21, 'The effects of changes in foreign exchange rates', the change in functional currency has been accounted for prospectively i.e. all items have been translated into the new functional currency using the exchange rate at the date of change. As the date of change was the first day of the current period, no change was required in the statement of comprehensive income as no items had yet been recorded. In accordance with IAS 8, 'Accounting policies, changes in accounting estimates and errors', comparative information has been restated into USD. See Note 2 for further details.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- (i) correctly record and explain the transactions of the Company;
- (ii) enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- (iii) enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**DIRECTORS' REPORT (continued)**

Under the UCITS regulations, the Directors are required to entrust the assets of the Company to the Depository for safe-keeping. The Depository appointed as at the year end is CACEIS Investor Services Bank S.A., Dublin Branch.

**Directors' compliance statement**

The Directors acknowledge that they are responsible for securing the Company's compliance with its relevant obligations. The Directors confirm that they have;

- (i) drawn up a compliance policy statement setting out the Company's policies respecting compliance by the Company with its relevant obligations;
- (ii) put in place appropriate arrangements or structures that are designed to secure material compliance with the Company's relevant obligations; and
- (iii) conducted a review, during the financial year ended 30 April 2025, of the arrangements and structures, referred to at (ii) above.

**Corporate governance statement**

The Board has adopted a voluntary Corporate Governance Code for Collective Investment Schemes & Management Companies (the "Code") issued on 14 December 2011 by the Irish Funds Industry Association. The Company has been in compliance with the Code for the entire year.

**Accounting records**

The measures taken by the Directors to secure compliance with the Company's obligation to keep adequate accounting records are the use of appropriate systems and procedures which are carefully implemented by the Administrator. The accounting records are kept at the registered office of the Company.

**Investment objective**

The Company's investment objective is to spread investment risk and enable its shareholders to achieve an appreciation of capital over the medium to long-term. The investment objectives of each individual sub-fund are detailed in the Background to the Company section of these financial statements.

**Review of business and future developments**

Recent disruptions associated with current geopolitical events have had a global impact, and uncertainty exists as to their implications. Such disruptions can potentially adversely affect the assets, and thus performance of the sub funds. The Manager, together with the Investment Manager continues to monitor these developments and evaluate their impact on the Company.

A detailed review of the business is included in the Investment Manager's Report. A summary of future developments is included in the events since the period end note.

The Directors do not propose to change the current strategy or investment objectives of the Company for the foreseeable future. The Directors believe that the Company and the Sub-Funds have adequate resources to continue in operational existence for the foreseeable future. For this reason, they have adopted the going concern basis in preparing the financial statements.

**Risk management objectives and policies**

The Company is exposed to a variety of financial risks including: market, currency, interest rate, credit and liquidity risks and attributes great importance to professional risk management. The Company has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy and has established processes to monitor and control the economic impact of these risks. The Investment Manager provides the Company with investment recommendations that are consistent with the Company's objectives. The nature of the Company's risks and the actions taken to manage these risks are analyzed in more detail in Note 4 to these financial statements. The Company's capital is represented by the net assets attributable to holders of redeemable participating shares. The policies in place to ensure the preservation of this capital and to ensure the ability to continue as a going concern is detailed in Note 4(f) to these financial statements.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**DIRECTORS' REPORT (continued)**

**Connected parties**

Chapter 10 of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (SI No 420 of 2015) (the "Regulations") – ‘Dealings by promoter, manager, trustee, investment adviser and group companies’ states that any transaction carried out with a UCITS by a promoter, manager, trustee, investment adviser and/or associated or group companies of these (“connected parties”) must be carried out as if negotiated at arm’s length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Chapter 10 of the Regulations are applied to all transactions with connected parties; and the Directors are satisfied that transactions with connected parties entered into during the period complied with the obligations set out in this paragraph.

**Results and distributions**

The results for the year are set out in the Statement of Comprehensive Income. Total dividends of EUR 36,631,291 (2024: EUR 41,147,209) were paid during the year ended 30 April 2025 on the following distribution dates.

<b>Sub-Fund</b>	<b>Distribution Date</b>	<b>Amount</b>
LGT EM LC Bond Sub-Fund	28 April 2025	USD 1,425,857
LGT Sustainable Equity Global Sub-Fund	28 April 2025	EUR 10,931,483
LGT Sustainable Bond Global Sub-Fund	28 April 2025	EUR 2,151,169
LGT Sustainable Quality Equity Sub-Fund	28 April 2025	USD 11,218,553
LGT EM Frontier LC Bond Sub-Fund	7 November 2024	EUR 3,552,851
LGT EM Frontier LC Bond Sub-Fund	28 April 2025	EUR 7,774,292

**ERISA declaration**

The Company does not constitute “plan assets” as defined under the Employee Retirement Income Security Act (“ERISA”) as less than 25% of the Company is owned by “benefit plan investors”.

**Events since the Balance Sheet date**

Events since the Balance Sheet date are disclosed in Note 16 to the financial statements.

**Directors**

The persons who were Directors at any time during the year ended 30 April 2025 along with any changes in Directors during the year, are as follows.

Kevin Mathews (Irish)\*

Roger Gauch (Swiss) (resigned 10 September 2024)

Kathryn O’Driscoll (Irish)

Sivakumar Sethuraman (Swiss)

\* denotes Independent Director

**Directors' and Secretary's interests**

The Directors have the power to appoint any person to be a Director. Directors are not required to retire by rotation. A Director must, however, be a person approved for that purpose by the Central Bank of Ireland.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**DIRECTORS' REPORT (continued)**

The Company, by ordinary resolution of which extended notice has been given in accordance with the provisions of the Companies Act 2014, may remove any Director notwithstanding anything in the Articles of Association of the Company (the "Articles") or in any agreement between the Company and such Director and may, if thought fit, by ordinary resolution appoint another Director in his stead. The prior approval of the Central Bank of Ireland, and a majority of the shareholders (by way of a special resolution) shall be required to any amendment to the Articles.

The Directors and Secretary and their families had no direct interests in the shares of the Company at 30 April 2025. No Director had at any time during the period, a material interest in any contract of significance, existing during or at the end of the period, in relation to the business of the Company. Certain Directors may have indirect interests in the shares of the Company by way of their co-investments in the various LGT funds.

The Directors of the Company may also be directors of the Investment Manager and Sub-Distributor or Manager and Distributor or both. No Directors are or have been directors of LGT Capital Partners (Ireland) Limited and LGT Fund Managers (Ireland) Limited during the year.

**Remuneration disclosure**

The AIFMD disclosure provisions of Article 13 of the Directive 2011/61/EC (in particular Annex II) and European Securities and Markets Authority's ("ESMA") "Guidelines on sound remuneration policies under AIFMD" have been applied at the level of the Management Company. Disclosures regarding remuneration policy are included in the Financial Information (unaudited) section at the back of these financial statements.

**Relevant audit information**

The Board of Directors is satisfied there is no relevant audit information of which the Company's statutory auditors are unaware. Furthermore, the Board of Directors confirm they have taken all appropriate steps in order to make themselves aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

**Audit Committee**

The Directors believe that there is no requirement to form an audit committee as the Board has only non-executive Directors and one independent Director and the Company complies with the provisions of the Irish Funds' Corporate Governance Code. The Directors have delegated the day-to-day investment management and administration of the Company to the Investment Manager, Manager and to the Administrator respectively. The Directors have also appointed CACEIS Investor Services Bank S.A., Dublin Branch as depositary of the assets of the Company.

**Independent Auditors**

PricewaterhouseCoopers have expressed their willingness to continue in office in accordance with section 383 of the Companies Act 2014.

**Director**

**Report of the Depositary to the Shareholders  
For the year ended 30 April 2025**

As required by the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) ("the Regulations"), and solely within the context of our oversight duties as depositary, we are pleased to present our report as follows.

In our opinion, Crown Sigma UCITS plc (the "Company") has been managed for the year ended 30 April 2025:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association and the Regulations; and
- (ii) Otherwise in accordance with the provisions of the Memorandum & Articles of Association and the Regulations.

## ***Independent auditors' report to the members of Crown Sigma UCITS plc***

### **Report on the audit of the financial statements**

---

#### **Opinion**

In our opinion, Crown Sigma UCITS plc's financial statements:

- give a true and fair view of the Company's and Sub-Funds' assets, liabilities and financial position as at 30 April 2025 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Balance Sheet as at 30 April 2025;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Portfolio of Investments for each of the Sub-Funds as at 30 April 2025; and
- the notes to the financial statements for the Company and for each of its Sub-Funds, which include a description of the accounting policies.

---

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### ***Independence***

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

---

#### **Emphasis of matter - financial statements prepared on a basis other than going concern**

In forming our opinion on the financial statements, which is not modified, we draw attention to note 2 to the financial statements which describes the reasons why the financial statements of LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund and LGT Crown Liquid Private Equity Opportunities Sub-Fund have been prepared on a basis other than going concern.

---

#### **Conclusions relating to going concern**

With the exception of LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund and LGT Crown Liquid Private Equity Opportunities Sub-Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Sub-Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund and LGT Crown Liquid Private Equity Opportunities Sub-Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Sub-Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

---

## Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 April 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

---

## Responsibilities for the financial statements and the audit

### *Responsibilities of the directors for the financial statements*

As explained more fully in the Statement of Directors' responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Sub-Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:  
[https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf).

This description forms part of our auditors' report.

### *Use of this report*

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

---

## **Other required reporting**

### **Companies Act 2014 opinions on other matters**

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

---

### **Companies Act 2014 exception reporting**

#### *Directors' remuneration and transactions*

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**NOTES TO THE FINANCIAL STATEMENTS**

**1. GENERAL**

Crown Sigma UCITS plc (the “Company”) is an open-ended investment company with variable capital and is structured as an umbrella investment company with segregated liability between sub-funds, which is authorized by the Central Bank of Ireland pursuant to the provisions of the Companies Act 2014 and the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”). The Company was incorporated on 27 March 2012.

As at 30 April 2025 the Company comprised of nine sub-funds (2024: thirteen Sub-Funds), with four sub-funds ceasing to trade during the current year as indicated by “\*”: LGT Crown Listed Private Equity, LGT EM LC Bond Sub-Fund, LGT Sustainable Equity Global Sub-Fund, LGT Sustainable Equity Europe Sub-Fund, LGT Sustainable Bond Global Sub-Fund, LGT Sustainable Bond Global Hedged Sub-Fund, LGT Sustainable Quality Equity Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund\*, LGT Sustainable Bond Corporates Sub-Fund\*, LGT Sustainable Equity Market Neutral Sub-Fund\*, LGT Crown Liquid Private Equity Opportunities Sub-Fund\*, LGT EM HC Bond Sub-Fund and LGT EM Frontier LC Bond Sub-Fund.

The Company’s investment objective is to achieve long-term capital growth with principles designed to minimize the risk of capital loss. However, there can be no assurance that the investment objective will be met. Details of the investment objective and policies for each Sub-Fund of the Company appear in the Supplement for the relevant Sub-Fund and in the Background to the Company section of these financial statements.

Copies of the Company’s Prospectus, simplified prospectus, annual and semi-annual financial reports are available at the registered office of the Company and may be received free of charge. A Statement of Portfolio Changes is available at the registered office of the Company and is sent to shareholders at their registered addresses. The base currency of account of each sub-fund is specified in the relevant Supplement to the Prospectus of the Company. The functional currency of LGT Crown Listed Private Equity, LGT Sustainable Equity Global Sub-Fund, LGT Sustainable Equity Europe Sub-Fund and LGT Sustainable Bond Global Sub-Fund is the Euro (“EUR”) (collectively “the Euro denominated sub-funds”). The functional currency of LGT EM LC Bond Sub-Fund, LGT Sustainable Bond Global Hedged Sub-Fund, LGT Sustainable Quality Equity Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund, LGT Crown Liquid Private Equity Opportunities Sub-Fund, LGT EM HC Bond Sub-Fund and LGT EM Frontier LC Bond Sub-Fund is the US Dollar (“USD”) (collectively “the USD denominated sub-funds”).

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

**2.1 Basis of preparation**

The financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (“EU”) (“IFRS Accounting Standards” or “IFRS”) and those parts of the Companies Act 2014 applicable to companies reporting under IFRS.

The financial statements have been prepared on a going concern basis except for LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund and LGT Crown Liquid Private Equity Opportunities Sub-Fund which ceased trading during the year and which have been prepared on a termination basis. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss. The preparation of financial statements in conformity with IFRS as adopted by the EU requires the use of accounting estimates and assumptions. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies.

\*ceased trading during the current year

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**

All references to the net asset value (“NAV”) or net assets throughout this document refer to the net assets attributable to holders of redeemable participating shares unless otherwise stated.

(a) *Standards and amendments to published standards that are mandatory for the financial year beginning on or after 1 May 2024*

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 May 2024 that have a material effect on the financial statements of the Company.

(b) *Standards and amendments to published standards that are not yet effective*

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 May 2024 and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Company.

(c) *Change in accounting policy – LGT EM LC Bond Sub-Fund*

Effective 1 May 2024, the LGT EM LC Bond Sub-Fund has changed its functional and reporting currency from EUR to USD. The Directors believe that the USD represents the primary economic environment in which the Sub-Fund operates as the change allows for enhanced operational efficiency of the Sub-Fund, keeping in mind the asset category and its currency exposures.

In accordance with IAS 21, ‘The effects of changes in foreign exchange rates’, the change in functional currency has been accounted for prospectively i.e. all items have been translated into the new functional currency using the exchange rate at the date of change. As the date of change was the first day of the current period, no change was required in the statement of comprehensive income as no items had yet been recorded.

In accordance with IAS 8, ‘Accounting policies, changes in accounting estimates and errors’, comparative information has been restated into USD. The assets and liabilities have been restated by translating all amounts into USD at the closing rates of exchange. The comparatives and associated notes have been translated from EUR to USD as follows: (i) assets and liabilities were translated into USD at closing rates of exchange at the statement of financial position date; (ii) income and expenses and shareholders’ capital transactions were translated into USD at the average rates of exchange for the period; and (iii) differences resulting from the retranslation on the opening net assets and the results for the period have been taken to the Statement of Comprehensive Income as “Other comprehensive income”.

In accordance with IAS 8 comparative information has been converted from EUR to USD for each prior period presented for each line item affected (i) 30 April 2024 and (ii) opening balances as at 1 May 2023, as disclosed overleaf.

Closing balances as at 30 April 2024, for LGT EM LC Bond Sub-Fund, were translated into USD at an exchange rate of 1.0684 for operating purposes for new take-on balances at 1 May 2024, resulting in an exchange difference of USD 144,122 in the financial statements presented, which has been taken to the Statement of Comprehensive Income "Other comprehensive income".

The exchange rates used to convert comparative information from EUR to USD were as follows:

	<b>USD/EUR</b>
At 1 May 2023	1.1040
At 30 April 2024	1.0693
Period average 1 May 2023 to 30 April 2024	1.0825

**2.2 Use of estimates**

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions with a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year are:

*Fair value of non-quoted investments*

The Board of Directors uses its judgment to select a variety of methods and makes assumptions that are not always supported by observable market prices or rates. The use of valuation techniques requires them to make estimates and assumptions. Changes in assumptions could affect the reported fair value of these investments. As at 30 April 2025 and 30 April 2024, the Board of Directors made no fair value adjustments for unquoted investments.

**2.3 Foreign currency translation**

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the euro ("Euro" or "EUR"), which is also the currency in which the majority of the investors have subscribed into the Company. The Company has also chosen the Euro to be its presentation currency. The USD denominated sub-funds have a presentation and functional currency of USD as the majority of investors in these sub-funds have subscribed into the sub-funds in this currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Comprehensive Income.

**2.4 Financial assets and financial liabilities at fair value through profit or loss**

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the investments' performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Company's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Company's business model's objective.

Derivative contracts that have a negative fair value are presented as financial liabilities at fair value through profit or loss.

Consequently, all investments are measured at fair value through profit or loss.

The Company's policy is for LGT Capital Partners (Ireland) Limited ("Manager") and the Board of Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

Financial assets that are not at fair value through profit or loss include receivable for investments sold and account receivables. Financial liabilities that are not at fair value through profit or loss include payable for investments purchased and other accounts payable. These amounts are recognized initially at fair value and subsequently measured at amortized cost.

Purchases and sales of investments are recognized on the trade date, i.e. the date on which the Company commits to purchase or sell the investment. Investments are initially recognized at fair value and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred. Investments are derecognized when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when the obligation specified in the contract is discharged, cancelled or expired.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income within net changes in unrealized gain/(loss) on fair value of financial assets and liabilities at fair value through profit or loss in the year in which they arise.

As at 30 April 2025 and 2024 all investments were classified as financial assets and liabilities at fair value through profit or loss.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Company utilizes the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. Where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

The underlying investments of the Company are valued as follows:

- bonds: bonds are valued at the last reported price on the last business day of the valuation period.
- futures: futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organized market. The futures contracts are collateralised by cash or marketable securities; changes in the futures contracts' value are settled daily with the exchange and valued at mark-to-market. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organized financial market.

For open futures contracts, changes in the fair value of the contract are recognized as unrealized gains or losses by "marking-to-market" the value of the contract at the Balance Sheet date and are included in the net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realized gain or loss.

- forward currency contracts: the unrealized gain or loss on open forward currency contracts is calculated as the difference between the original contracted rate and the rate at the period end. Unrealized gains or losses on open forward currency contracts are included in financial assets or financial liabilities at fair value through profit or loss in the Balance Sheet. Realized gains or losses on forward currency contracts as reflected in the Statement of Comprehensive Income include net gains/(losses) on forward currency contracts that have been settled as at the Balance Sheet date.
- exchange traded funds: exchange traded funds are valued at the last reported price on the main exchange.
- transferable securities: transferable securities (being equity securities) are valued at the last reported price on the main exchange.
- fund investments/collective investment schemes: the fair value of investments in unlisted investment funds/collective investment schemes is based on the latest available unaudited net asset value provided by the relevant fund's manager or administrator.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**

- option contracts: when the Company purchases an option, an amount equal to fair value which is based on the premium paid is recorded as an asset. When the Company writes an option, an amount equal to fair value which is based on the premium received by the Company is recorded as a liability. Unrealized gains or losses on options are included in net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is recognized as a realized gain or loss.
- warrants: When the Company purchases a warrant, an amount equal to the premium paid by the Company is reflected as an asset. The amount of the asset is subsequently marked to market to reflect the current market value of the warrant. When a security is purchased or sold through the exercise of a warrant, the related carrying amount of the warrant is added to the cost of the security acquired or deducted from the proceeds of the security sold. When a warrant expires (or the Company enters into a closing transaction), the Company realizes a gain or loss on the warrant to the extent of the premiums paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid).

**2.5 Prepayments for financial assets at fair value through profit or loss**

Prepayments for financial assets at fair value through profit or loss is comprised of amounts paid in advance of the April dealing dates of the underlying investments.

**2.6 Determination of gains or losses on financial assets and liabilities at fair value through profit or loss**

Both realized and unrealized gains and losses on financial assets and liabilities at fair value through profit or loss are taken to income as incurred. Realized gains and losses on futures, exchange traded funds, transferable securities, collective investment schemes and options are calculated on a first-in-first-out basis. Realized gains and losses on forward currency contracts are calculated on an actual basis. The difference between the cost and the fair value of financial assets and liabilities at fair value through profit or loss are reflected in the Statement of Comprehensive Income as the change in unrealized gains or losses on financial assets and liabilities at fair value through profit or loss.

**2.7 Redeemable participating shares**

The Company issues redeemable shares, which are redeemable at the holder's option and do not have identical rights. Such shares are classified as financial liabilities. Redeemable shares can be put back to the Company at any dealing date for cash equal to a proportionate share of the Company's net asset value attributable to the share class. Shares are redeemable daily or weekly. The redeemable shares are carried at the redemption amount that is payable at the Balance Sheet date if the holder exercises the right to put the share back to the Company.

**2.8 Cash and cash equivalents**

Cash and cash equivalents include all cash in hand and short-term deposits with maturity of three months or less. Cash and cash equivalents are recorded at nominal value. Bank overdrafts that are repayable on demand form an integral part of the Company's cash management and, if any, are shown as current liabilities in the Balance Sheet.

**2.9 Margin cash**

Margin cash provided by the Company, if any, is identified in the Balance Sheet as margin cash and is not included as a component of cash and cash equivalents. The carrying value of margin cash represents its approximate fair value.

**2.10 Receivables**

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are recognized initially at fair value, and subsequently measured at amortized cost using the effective interest rate method, less provision for impairment. A provision for impairment is established when there is objective evidence that the Company will not be able to collect all amounts to be received. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganization, and default in payments are considered indicators that the amount to be received is impaired.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**2. SUMMARY OF MATERIAL ACCOUNTING POLICIES (continued)**

**2.11 Payables**

Payables are recognized initially at fair value and subsequently stated at amortized cost. The difference between the proceeds and the amount payable is recognized over the period of the payable using the effective interest method.

**2.12 Expenses**

Expenses are recognized in the Statement of Comprehensive Income on an accruals basis.

**2.13 Distributions payable to holders of redeemable participating shares**

Proposed distributions to holders of participating shares are classified in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares when they are ratified by a board meeting of the Company.

**2.14 Interest income and expense from cash and cash equivalents and interest from financial assets at fair value through profit or loss**

Interest is recognized on a time-proportionate basis using the effective interest method. Interest income and expense includes interest from cash and cash equivalents and cash overdrafts. Interest from financial assets at fair value through profit or loss includes interest from debt securities.

**2.15 Dividend income**

Dividend income relating to exchange traded equity investments is recognized in the Statement of Comprehensive Income on the ex-dividend date. Dividend income is recognized on a gross basis excluding withholding tax, which is disclosed separately in the Statement of Comprehensive Income.

**2.16 Withholding tax**

The Company currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income. Withholding tax and capital gains tax are shown as separate items in the Statement of Comprehensive Income.

**2.17 Redemptions payable to holders of redeemable participating shares**

Redemptions payable to holders of redeemable participating shares relate to redemptions made by holders of redeemable shares during the year that were paid after the year end.

**2.18 Subscriptions received in advance**

Subscriptions received in advance relate to monies paid in advance by investors in advance of the April dealing dates of the underlying sub-funds.

**2.19 Transaction costs**

Some transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or liability is recognized initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability. They include fees and commissions paid to agents, advisors, brokers and dealers.

Transaction costs on the purchase and sale of bonds, transferable securities, futures, forwards and options are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed. Custody transaction costs are included in Depositary and trustee fees.

**3. EFFICIENT PORTFOLIO MANAGEMENT**

A sub-fund may employ techniques and instruments relating to transferable securities and/or other financial instruments in which it invests for efficient portfolio management purposes. Use of such techniques and instruments are made for one or more of the following reasons:

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**3. EFFICIENT PORTFOLIO MANAGEMENT (continued)**

- (i) the reduction of risk;
- (ii) the reduction of cost; or
- (iii) the generation of additional capital or income for the sub-fund with an appropriate level of risk.

*Forward currency contracts*

Individual sub-funds use forward currency contracts which alter the currency characteristics of assets held by the relevant sub-fund. Assets of a sub-fund may be denominated in a currency other than the base currency of the sub-fund, which is the Euro for the Euro denominated sub-funds or USD for the USD denominated sub-funds and changes in the exchange rate between the base currency and the currency of the asset may lead to a depreciation of the value of the sub-fund's assets expressed in Euro or USD. Forward currency contracts are also used for share class hedging purposes, where share classes of a relevant sub-fund are denominated in a currency different to the base currency, Euro or US Dollars. Gains, losses and transaction costs of such contracts are attributable solely to the relevant share class. Further details regarding the exposure obtained through forward currency contracts are disclosed in Note 4(b). Details of open forward currency contracts and the counterparties to those transactions are disclosed in the portfolio of investments.

The revenue/(loss) arising from such efficient portfolio management techniques for the period are detailed in the table below. Direct and indirect operational costs and fees incurred (i.e. transaction costs) cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**4. FINANCIAL RISK MANAGEMENT**

The Company maintains positions in a variety of financial instruments as dictated by its investment management strategy. The Company's investing activities expose it to various types of risk that are associated with the financial instruments and markets in which it invests. Below is a description of the principal risks inherent in the Company's activities along with the actions it has taken to manage these risks.

The Company's assets and liabilities comprise financial instruments which include:

- Exchange traded funds, transferrable securities, futures, bonds, forward currency contracts, option contracts and warrants are held in accordance with the Company's investment objectives and policies;
- Forward currency contracts; these are held in order to hedge against foreign exchange gains/(losses) in some non-USD share classes in LGT EM LC Bond Sub-Fund LGT, Sustainable Equity Global Sub-Fund, LGT Sustainable Bond Global Hedged Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund, LGT EM HC Bond Sub-Fund and LGT EM Frontier LC Bond Sub-Fund.
- Cash, liquid resources and short-term receivables and payables that arise directly from its investment activities.

The main risks arising from the Company's financial instruments are market price, foreign currency, interest rate, credit, liquidity and capital risks. The Board of Directors reviews and agrees policies for managing each of these risks and they are summarized below:

**(a) Market price risk**

The Company's investments are susceptible to market price risk arising from uncertainties about future values of the positions held. The Company's Manager provides the Company with investment recommendations that are consistent with the Company's objectives.

*Value at Risk*

The Company applies absolute Value at Risk ("VaR") methodology to its portfolio as well as to the individual investments in order to estimate the risk of positions held at certain times. The risk analysis refers to a specified time horizon and to a given level of confidence and in this respect derives the potential losses that could occur on these positions as a result of market movements affecting the exposures held. VaR is a statistically based estimate of the potential loss on the program (referring to portfolio composition at a particular point of time) from adverse market movements. It expresses the maximum amount the program might lose, but only to a certain level of confidence (99%). There is therefore a specified statistical probability (1%) that actual losses could be greater than the VaR estimate. The positions have been fully modelled for the purpose of these risk estimates. The VaR-methodology employed is historical 1-day VaR99 based on 1 year input data.

Actual outcomes are monitored regularly to test the validity of this VaR calculation. The employment of different methodologies, also with greater forward looking characteristics, generates information about the robustness of the risk figures.

*Limitations to this Value at Risk Model*

The reference input timeframe may or may not be suitable to predict future behavior at a particular point in time.

The methodology employed for this risk illustration is only one type of risk information considered and the complexity of risks analysis for fund strategy portfolios requires the use of various different methodologies.

Note:

<sup>1)</sup> Definition of leverage: The level of leverage represents the sum of absolute notional exposures to FDIs in percentage of the Net Asset Value of the respective sub-fund. This number may seem high, if the Manager allocates an increased proportion of the portfolio to FDIs which have high notional exposures due to their specific characteristics, but with lower levels of volatility and VaR, such as interest rate futures. For example, given a comparable expected volatility, the notional exposure of interest rate futures may represent a multiple of the notional exposure of equity index futures or commodity index futures. As such, notional exposure of different FDIs may not necessarily be comparable in their risk profile. Strategies based on interest rate futures typically have a lower VaR than a comparable exposure to other permitted assets, hence they require a much higher notional exposure versus a strategy investing in other permitted assets. Therefore, the leverage of the respective sub-fund may increase as the sub-fund's allocation to particular strategies which deploy interest rate futures is increased. The sub-fund may seek exposure to these particular strategies as they may provide attractive risk adjusted returns and contribute to the diversification of the sub-fund. In general, the sum of notional exposure to FDIs tends to be higher when underlying markets are less volatile.

The performance of the investments and the compilation of the investment portfolio held by the Company is monitored by the Manager on a weekly basis and reviewed regularly by the Board of Directors.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**4. FINANCIAL RISK MANAGEMENT (continued)**

**(b) Foreign currency risk**

Foreign currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company invests in securities and other investments that are denominated in currencies other than the Euro (for Euro denominated sub-funds) or the USD (for US Dollar denominated sub-funds). Accordingly, the value of the Company's assets may be affected favorably or unfavorably by fluctuations in currency rates and therefore the Company will be subject to foreign exchange risk. In accordance with the Company's policy, the Manager monitors the Company's currency position on a monthly basis and the Board of Directors reviews it on a regular basis.

Some of the share classes of LGT EM LC Bond Sub-Fund, LGT Sustainable Equity Global Sub-Fund, LGT Sustainable Bond Global Hedged Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund, LGT EM HC Bond Sub-Fund and LGT EM Frontier LC Bond Sub-Fund are denominated in currencies other than the US Dollar. The Directors currently instruct the Manager to hedge the Euro/US Dollar equivalent exposure of these share classes in the sub-fund. The Company may utilize a variety of financial instruments such as derivatives to hedge against changes in currency values which may affect the value of the relevant share classes and such transactions are clearly attributable to each relevant share class. Details of forward currency contracts held at 30 April 2025 are included in the portfolio of investments.

The FX profit and loss arising from these forward currency contracts are attributed only to that specific share class.

The Company does not seek to hedge currency risk on investments not denominated in a sub-fund's base currency. The exposure to non-Euro currencies (for Euro denominated sub-funds) and to non-USD currencies (for US Dollar denominated sub-funds) at the reporting date were as follows:

**(c) Interest rate risk**

Interest rate risk arises from the effects of fluctuations in the prevailing levels of markets interest rates on the fair value of financial assets and liabilities and future cash flows. The Company holds fixed interest securities that expose the Company to fair value interest rate risk. The Company's policy requires the Manager to manage this risk by measuring the mismatch of the interest rate sensitivity gap of financial assets and liabilities and calculating the average duration of the portfolio of fixed interest securities. The average effective duration of the Company's portfolio is a measure of the sensitivity of the fair value of the Company's fixed interest securities to changes in market interest rates.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**4. FINANCIAL RISK MANAGEMENT (continued)**

**(d) Credit risk**

The Company is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company is exposed to counterparty credit risk on trading derivative products, government bonds, corporate bonds, collective investment schemes, cash and cash equivalents, amounts due from brokers and other receivable balances. Impairment provisions are provided for losses that have been incurred by the Balance Sheet date, if any. There were no impairment provisions for the year ended 30 April 2025 (2024: none).

Financial assets, which potentially expose the Company to credit risk, consist principally of cash, investments and balances arising from other contractual transactions. The Company seeks to mitigate its exposure to credit risk by conducting its contractual transactions with institutions which are reputable and well established. In accordance with the Company's policy, the Manager monitors the Company's credit position on a monthly basis and the Board of Directors reviews it on a regular basis.

Credit risk arising from receivables from underlying portfolio sub-funds relates to redemptions or transactions awaiting settlement. Risk relating to unsettled receivables is considered small due to the short settlement period involved and the due diligence performed on the portfolio companies. The maximum exposure related to unsettled trades equals the amounts shown on the Balance Sheet.

The Company's Depository and Trustee is CACEIS Investor Services Bank S.A., Dublin Branch ("Depository"). Some of the cash of the Company is held by the Depository at the year end. The Company is exposed to credit risk through the use of the Depository for their cash and cash equivalents. Bankruptcy or insolvency of the Depository may cause the Company's rights with respect to its cash held by the Depository to be delayed or limited. The maximum exposure to this risk at 30 April 2025 and 2024 is the amount of cash disclosed in Note 9.

To mitigate the risks the Company is exposed to from the use of the Depository, the Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Company. The Company only transacts with custodians that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. The credit rating of the Depository at 30 April 2025 was A-1+/AA- (30 April 2024: A-1+/AA-) (Source: Standard and Poor's).

The Company has also cash accounts held with LGT Bank AG as at 30 April 2025 and 30 April 2024. The cash accounts are held for the purposes of trading in derivative financial instruments. Bankruptcy or insolvency may cause the Company's rights with respect to its cash held by this financial institution to be delayed or limited and would rank the Company pari passu with other creditors. The maximum exposure to this risk at 30 April 2025 and 2024 is the amount of cash disclosed in Note 9. The credit ratings per Standard and Poor's of this financial institution as at the year-end was A-1/A+ (2024: A-1/A+).

LGT EM LC Bond Sub-Fund, LGT Sustainable Bond Global Sub-Fund, LGT Sustainable Bond Global Hedged Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT EM HC Bond Sub-Fund and LGT EM Frontier LC Bond Sub-Fund invests in a broad range of bonds, including high yield and emerging market bonds which may be either investment grade or below investment grade.

The Company's overall exposure to credit risk on derivative instruments can change substantially within a short period, as it is affected by each related transaction with the respective counterparty. All derivatives are shown on the Balance Sheet on a gross basis by investment type. As set out in the counterparty agreements, certain amounts can be subject to offset/netting as outlined in the following table.

**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**4. FINANCIAL RISK MANAGEMENT (continued)**

**(e) Liquidity risk**

Liquidity risk is the risk that the Company cannot generate sufficient cash resources to meet its payment obligations in full as they fall due or can only do so at materially disadvantageous terms. Depending on the sub-fund, the Company is exposed to daily or weekly cash redemptions of participating shares. If significant redemptions of participating shares are requested, it may not be possible to liquidate the Company's investments at the time such redemptions are requested, or it may be possible to do only at prices which the Directors believe do not reflect the true value of such investments, resulting in an adverse effect on the return to the investors.

It therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of; it invests only a limited proportion of its assets in investments not actively traded. The Company's listed securities are considered to be readily realizable as they are listed on recognized stock exchanges. In accordance with the Company's policy, the Manager and Investment Manager monitors the Company's liquidity position on a daily basis. There have been no material changes made to these liquidity management systems and procedures described above during the year.

Substantially all of the sub-funds' financial liabilities have maturities of one to three months from the Balance Sheet date to the contractual maturity date. Maturities are outlined in the Portfolio of Investments of the respective sub-funds.

**(f) Capital risk management**

The capital of the Company is represented by the net assets attributable to the holders of redeemable participating shares and the Manager monitors this on an ongoing basis. The Company's objective when managing the capital is to safeguard the ability to continue as a going concern in order to provide returns for holders of redeemable participating shares and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Company.

In order to maintain or adjust the capital structure, the Company's policy is to perform the following:

- monitor the level of daily subscriptions and redemptions relative to the assets it expects to be able to liquidate within one week and adjust the amount of distributions the Company pays to holders of redeemable participating shares.
- redeem and issue new shares in accordance with the constitutional documents of the Company, which include the ability to restrict redemptions and require certain minimum holdings and subscriptions.

**(g) Fair value estimation**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Company utilizes the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value. An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**4. FINANCIAL RISK MANAGEMENT (continued)**

IFRS 13 requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability. The determination of what constitutes ‘observable’ requires significant judgment by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include futures, warrants, exchange traded funds, transferable securities, and certain government bonds. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. The Company currently classifies forward currency contracts, collective investment schemes, options, certain government bonds and corporate bonds held as at 30 April 2025 and 2024 as Level 2 investments as their fair value is based on observable inputs.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or represent unlisted equity securities. As at 30 April 2025 the Company held no level 3 securities (30 April 2024: LGT Crown Liquid Private Equity Opportunities Sub-Fund held one equity security which delisted during the year and is represented as a Level 3 investment).

The following tables below analyze within the fair value hierarchy the Company’s financial assets (by class) designated as fair value through profit or loss at 30 April 2025:

The following table presents the movement in Level 3 instruments for the year ended 30 April 2025:

**LGT CROWN LIQUID PRIVATE EQUITY OPPORTUNITIES SUB-FUND**

Equity Investments (in USD)	2025	2024
Opening fair value at 1 May	6,333,244	-
Sales	(6,588,824)	-
Realised loss	(2,029,326)	-
Movement in unrealised loss	2,284,906	-
Transfer in	-	6,333,244
<b>Closing fair value at 30 April</b>	<b>-</b>	<b>6,333,244</b>
Total unrealized loss for the year included in the Statement of Comprehensive Income for assets held at the end of the year	-	<b>(2,284,906)</b>

There was no transfers between levels for the year ended 30 April 2025 (2024: one transfer). For the remaining assets and liabilities which are carried at amortized cost; their carrying values are a reasonable approximation of fair value (2024: same). This includes cash and cash equivalents, receivable and payable for investments sold and purchased, subscriptions receivable, redemptions payable, other receivables, various expenses payable and other liabilities.

**5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS IN APPLYING ACCOUNTING POLICIES**

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

*Functional currency*

The Board of Directors considers the Euro the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions at the level of the Company. Although some sub-funds' functional currencies may be different to the Euro, the Euro is the currency in which the Company measures its overall performance and reports its results, as well as the currency of its underlying investments. This determination also considers the competitive environment in which the Company is compared to other global investment products.

The functional currency of LGT EM LC Bond Sub-Fund, LGT Sustainable Bond Global Hedged Sub-Fund, LGT Sustainable Quality Equity Sub-Fund, LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund, LGT Crown Liquid Private Equity Opportunities Sub-Fund, LGT EM HC Bond Sub-Fund and LGT EM Frontier LC Bond Sub-Fund is the US Dollar as the shares in these sub-funds are predominantly issued in US Dollar and therefore represents the primary economic environment in which they operate.

**6.2 Administration fee**

The Administrator is CACEIS Investor Services Ireland Limited (the “Administrator”). The administration fee covers both administration and transfer agency services. The Company pays the Administrator out of the assets of each sub-fund the following fees:

In respect of all daily dealing sub-funds:

- (a) The Administrator, in relation to the provision of its core service as fund administrator is entitled to a fee payable out of the assets of the sub-fund, accruing daily or weekly, depending on the dealing frequency of the sub-fund and payable monthly in arrears at the end of each calendar month at a rate not exceeding 0.0225% of the Net Asset Value of the sub-fund, subject to a minimum annual fee for the sub-fund, exclusive of out-of-pocket expenses and transaction fees, not exceeding USD 20,000 per annum, per sub-fund up to two classes. Additional annual fees of USD 1,000 will apply per each additional class.
- (b) The sub-fund shall also be subject to fund tax, year-end support, transfer agency maintenance and transaction charges, which shall not exceed normal commercial rates.
- (c) The Administrator shall also be entitled to reimbursement of all reasonable out-of-pocket expenses incurred for the benefit of the Sub-Fund.
- (d) Fees are exclusive of VAT, if any. The Administrator is also entitled to charge to the sub-fund all agreed fees and transaction charges, at normal commercial rates, together with all reasonable and properly vouched out-of-pocket expenses (plus any applicable taxes), it incurs on behalf of the sub-fund in the performance of its duties under the Administration Agreement, which shall be payable quarterly in arrears.

The exact rates based on the NAV are as follows:

For CACEIS Investor Services Ireland Limited

First USD 100 million of net asset value:	2.25 basis points p.a.
Next USD 150 million of net asset value:	1.75 basis points p.a.
Next USD 250 million of net asset value:	1.25 basis points p.a.
Thereafter:	1.00 basis points p.a.

**6.3 Performance fee**

No sub-fund is subject to performance fees.

**6.4 Depositary and trustee fees**

In respect of all daily dealing sub-funds (all sub-funds except LGT Crown Listed Private Equity):

- (a) The Depositary shall be entitled to a fee payable out of the assets of the sub-fund accruing daily and payable monthly in arrears at the end of each calendar month at an annual rate not exceeding 0.015% of the Net Asset Value of the sub-fund, subject to a minimum annual fee for the sub-fund, exclusive of out-of-pocket expenses, of USD 12,000 per annum, per sub-fund.
- (b) Safekeeping fees based on the Net Asset Value of the sub-fund may also be charged which shall vary from 0.03% to 0.80% subject to a minimum annual fee, exclusive of transaction charges and out-of-pocket expenses, of USD 3,300 per annum.
- (c) The sub-fund shall also be subject to transaction charges, which shall not exceed normal commercial rates.
- (d) The Depositary shall also be entitled to reimbursement of properly vouched out of pocket expenses incurred by the Depositary, or any sub-custodian, for the benefit of the sub-fund.
- (e) Fees are exclusive of VAT, if any. In addition, the Depositary is also entitled to charge to the sub-fund all agreed fees and transaction charges, at normal commercial rates, together with all reasonable and properly vouched out-of-pocket expenses (plus any applicable taxes), it incurs on behalf of the sub-fund in the performance of its duties under the Depositary Agreement, which shall be payable quarterly in arrears.

---

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**6. FEES AND EXPENSES (continued)**

In respect of LGT Crown Listed Private Equity:

First USD 100 million of net asset value:	1.50 basis points p.a.
Next USD 400 million of net asset value:	1.00 basis points p.a.
Thereafter:	0.50 basis points p.a.

and subject to a minimum fee of USD 12,000 per annum. This fee accrues weekly and is payable monthly in arrears. In addition, a safekeeping fee will be charged that will vary by investment type, subject to a minimum fee of USD 3,300 per annum.

**6.5 Operation fee**

The Manager is entitled to an Operation Fee for the management and administration of each sub-fund at the following maximum rate:

<b>Sub-Fund</b>	<b>2025</b>	<b>2024</b>
LGT Crown Listed Private Equity	n/a	n/a
LGT EM LC Bond Sub-Fund	0.20	0.20
LGT Sustainable Equity Global Sub-Fund	0.11	0.11
LGT Sustainable Equity Europe Sub-Fund	0.14	0.14
LGT Sustainable Bond Global Sub-Fund	0.14	0.14
LGT Sustainable Bond Global Hedged Sub-Fund	0.14	0.14
LGT Sustainable Quality Equity Sub-Fund	0.11	0.11
LGT Bond EM Credit Opportunities Sub-Fund	0.25	0.25
LGT Sustainable Bond Corporates Sub-Fund	0.15	0.15

LGT Crown Liquid Private Equity Opportunities Sub-Fund	0.12	0.12
LGT EM HC Bond Sub-Fund	0.25	0.25
LGT EM Frontier LC Bond Sub-Fund	0.30	0.30

This fee is calculated on the basis of the Net Asset Value per Class (before debiting the management and operation fee), as at each Valuation Day. The operation fee will be accrued on each Valuation Day and debited at the end of each month. This Operation Fee includes the manager fee, the fees of the Depositary and Administrator and the transaction fees.

**6.6 Directors' fees**

Director's fees of EUR 5,000 were charged in respect of Kevin Mathews' services during the year (2024: EUR 5,000).

**6.7 Audit fees**

Audit fees relate to the Company's statutory audit carried out by PricewaterhouseCoopers Dublin. The total audit fees incurred by the Company for the year was EUR 163,816 (2024 EUR 176,290). This fee is inclusive of out-of-pocket expenses. Non-audit fees relating to tax advisory services for the year was Nil (2024: EUR 92,732).

**6.8 Fees paid to LGT Fund Managers (Ireland) Limited**

LGT Fund Managers (Ireland) Limited is entitled to company secretarial fees of EUR 5,000 per annum respectively. These fees are included in "Other expenses" in the Statement of Comprehensive Income.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**7. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS (continued)**

Details of derivative instruments held at 30 April 2025 are included in the portfolio of investments. The Company holds the following financial derivative instruments:

**(a) Futures**

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organized market. The futures contracts are collateralized by cash or marketable securities; changes in the futures contracts' value are settled daily with the exchange. Interest rate futures are contractual obligations to receive or pay a net amount based on changes in interest rates at a future date at a specified price, established in an organized financial market.

Investment in such derivative financial instruments is a primary feature of the Company and is used for direct investment and for the purposes of asset allocation, taking views on the pricing of assets (whether overpriced or underpriced) or likely direction of markets, currency management, maintaining the required level of exposure, hedging, cash management and efficient investing.

**(b) Forward currency contracts**

A forward currency contract is an agreement between two parties to exchange two currencies at a given exchange rate at some point in the future, usually 30, 60, or 90 days hence. A forward currency contract mitigates foreign exchange risk for the parties and is most useful when both parties have operations or some other interest in a country using a given currency. Forward currency contracts are over-the-counter contracts.

Some of the share classes of the sub-funds are denominated in other currencies other than the Euro Dollar. The Directors currently instruct the Manager to hedge the Euro and USD equivalent exposure of these share classes in the relevant sub-fund. The Company utilizes a variety of financial instruments such as derivatives to hedge against changes in currency values which may affect the value of the relevant share classes and such transactions are clearly attributable to each relevant share class.

**(c) Options**

Options are the right to buy or sell a specific quantity of a specific asset at a fixed price at or before a specified future date. A sub-fund may invest in two forms of options: put or call options. Put options are contracts sold for a premium that gives one party (the buyer) the right, but not the obligation, to sell to the other party (the seller) of the contract, a specific quantity of a particular product or financial instrument at a specified price. Call options are similar contracts sold for a premium that gives the buyer the right, but not the obligation, to buy from the seller of the option. Options may also be cash settled. A sub-fund may be a seller or buyer of put and call options.

**(d) Warrants**

Warrants are a form of security that provides the holder the right to buy a specific number of equity shares at a stated price before an expiration date. Purchased warrants are non-income producing investments.

**8. SHARE CAPITAL**

**(a) Participating shares**

The Company has authorized participating share capital of 1,000,000,000,000 shares of no par value initially designated as unclassified shares and 3 management shares of EUR 1 each. The unclassified shares are available for issue as shares. The issue price is payable in full upon acceptance. There are no rights of pre-emption attaching to the shares in the Company.

The issued redeemable participating share capital is at all times equal to the net asset value of the Company.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**8. SHARE CAPITAL (continued)**

The right of holders of any shares to participate in the assets of the Company is limited to the assets (if any) of the sub-fund relating to such shares. If the realized net assets of any sub-fund are insufficient to pay any amounts due on the relevant shares in full in accordance with the relevant sub-fund supplement and the Articles, the relevant shareholders will have no further right of payment in respect of such shares or any claim against any other sub-fund or any other assets of the Company.

If a sub-fund has two or more classes of shares, the claims of the holders of such classes to the assets of the relevant sub-fund will, subject to the terms of the relevant sub-fund, rank pari passu with each other, and, on a winding-up of the Company, the holders of each such class will participate in the assets (if any) comprised in such sub-fund pro rata to the amount paid up on the shares of each such class. Each separate class relating to one sub-fund will have recourse only to the assets comprised within the relevant sub-fund. Consequently, if on the winding-up of the Company, the assets of a sub-fund (after payment of all fees, expenses and other liabilities (other than amounts owing to shareholders) which are to be borne by such sub-fund) are insufficient to pay the full repurchase proceeds payable in respect of all classes of shares relating to the relevant sub-fund, the proceeds of the relevant sub-fund will be distributed equally amongst each shareholder of the relevant sub-fund pro rata to the amount paid up on the shares held by each shareholder.

The Directors are given authority to affect the issue of shares and to create new classes of shares (in accordance with the requirements of the Central Bank of Ireland) and have absolute discretion to accept or reject in whole or in part any application for shares. Provided applications are received before the valuation point, the Directors may at their sole discretion accept a subscription application and/or subscription monies after the relevant dealing deadline. Issues of shares will normally be made with effect from a dealing day in respect of applications received on or prior to the dealing deadline. Dealing days and dealing deadlines relating to each sub-fund are specified in the relevant sub-fund supplement.

The Directors may temporarily suspend the calculation of the net asset value of a particular sub-fund or class and/or the issue, redemption and conversion of shares under certain instances detailed in the Prospectus. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible in a manner that is, in the opinion of the Directors, in the best interests of the shareholders of the particular sub-fund.

As at 30 April 2025 the following shares were in issue:

**8. SHARE CAPITAL (continued)**

**(b) Management shares**

Management shares issued by the Company amount to EUR 3, being three management shares of EUR 1 each. The management shares do not form part of the net asset value of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Board of Directors, this disclosure reflects the nature of the Company's business as an investment fund.

The 3 management shares were held by LGT Fund Managers (Ireland) Limited, LGT Bank AG, Dublin Branch and LGT Capital Partners (Ireland) Limited as at 30 April 2025 and 2024.

**10. MARGIN CASH**

Margin cash represents margin deposits held in respect of open exchange-traded futures contracts as well as some open forward currency and options contracts. The margin cash, if any, for futures contracts is held with LGT Bank AG who may, but not at present, request deposit for variation margin for open futures positions. The margin cash for forward currency and options contracts is held with LGT Bank AG (2024: CACEIS Investor Services Bank S.A., Dublin Branch) where they serve as the counterparty for the respective open contracts. Margin cash, if requested and deposited is recorded at nominal value and is shown separately on the Balance Sheet.

**11. RELATED PARTY TRANSACTIONS**

Parties are considered to be related if one party has the ability to control the other party or exercise considerable influence over the other party in making financial or operating decisions. In the opinion of the Board of Directors, LGT Capital Partners Limited, LGT Capital Partners (Ireland) Limited, LGT Fund Managers (Ireland) Limited and LGT Bank AG, Dublin Branch are related parties under IAS 24 "Related Party Disclosures".

Director's fees of EUR 5,000 were charged in respect of Kevin Mathews' services during the year (2024: EUR 5,000). Kevin Mathews also received EUR 1,000 as the appointed Money Laundering Report Officer for the Company.

Details of cash and margin cash held with LGT Bank AG at 30 April 2025 and 2024 can be found in Note 9 and Note 4(c), respectively.

The three management shares were held by LGT Fund Managers (Ireland) Limited, LGT Bank AG, Dublin Branch and LGT Capital Partners (Ireland) Limited as at 30 April 2025 and 2024.

**CROWN SIGMA UCITS PLC**  
**ANNUAL REPORT AND AUDITED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**14. EXCHANGE RATES (continued)**

The average USD/EUR exchange rate used for the purposes of consolidation on the Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares was 0.9291 (2024: 0.9238).

**15. TAXATION**

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; or the Company has been authorized by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (b) certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

Any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognized clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in a recognized clearing system.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

**16. EVENTS SINCE THE BALANCE SHEET DATE**

A new sub-fund, LGT CP Impact Equity Global Sub-Fund, has been authorized since the year end on 3 June 2025.

Final redemption proceeds for LGT Bond EM Credit Opportunities Sub-Fund, LGT Sustainable Bond Corporates Sub-Fund, LGT Sustainable Equity Market Neutral Sub-Fund were paid out in full on 4 May 2025, 5 May 2025 and 2 May 2025, respectively.

There have been no other material events that could impair the integrity of the information presented in the financial statements or requiring disclosure.

**17. APPROVAL OF FINANCIAL STATEMENTS**

The Board of Directors approved the financial statements on 20 August 2025.

**SFT Regulation Disclosure**

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTs) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information in their annual and semi-annual reports on the use made of SFTs and total return swaps (TRS).

For the year ended 30 April 2025 the Company has not engaged in securities borrowing in the form of contracts for difference (“cfds”) (i.e. total return swaps) trading, which are in scope for this SFT regulation or other securities financing transactions.

**Remuneration policy**

The Management Company operates a remuneration policy in accordance with the principles set out in the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (“the Regulations”). The policy contains uniform compensation guidelines which adequately take into consideration the Management Company’s capital, liquidity and risk profile, as well as its long-term success, thus representing incentives for employees.

The Management Company does not guarantee any variable remuneration. Fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration in order to incentivize employees and to allow the operation of a fully flexible policy on variable remuneration, including the possibility to pay no variable remuneration. The measurement of performance used to calculate variable remunerations, or pools of variable remuneration, includes a comprehensive adjustment mechanism to integrate all relevant types of current and future risks.

Identified employees of the Management Company are defined as senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior managers and risk takers, whose professional activities have a material impact on the risk profiles of the Management Company for the funds under management. The disclosures below have been adjusted to reflect the total net variable compensation breakdown for identified staff as it applies to liquid funds under management by the Management Company, based on the relevant share of total assets under management.

	<b>2025</b>

SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: LGT EM LC Bond Sub-Fund

Legal entity identifier: 549300XI70HWIEKQX753

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<span style="color: green;">●●</span> <b>Yes</b>	<span style="color: grey;">●○</span> <b>X No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it took into account ESG related factors in the asset selection and investment consideration and / or monitoring process in the following ways:

The Investment Manager conducted an assessment of ESG factors, in the process to identify a universe of investable issuers through a systematic process which relies on information from underlying issuers (the **“Country Selection Model”**), resulting in a specific country classification (the **“ESG Rating”**).

Environmental and/or social characteristics considered as part of the ESG Rating (and therefore promoted as environmental and/or social characteristics by the Sub-Fund) included:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Green energy, emissions, natural resources, education, health, standards of living, civil liberties, gender equality, institutional strength, corruption, democracy, political stability.
- Environmental and/or social characteristics are further enriched with economic development inputs, such as economic growth and economic stability, on the basis that such characteristics are often intrinsically linked with the long-term ESG direction of Emerging Markets.

The above characteristics were assessed on a backward-looking basis using systematic data and enriched on an ongoing basis with forward-looking dissemination of in-house research, political assessments and research meetings.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics.

● ***How did the sustainability indicators perform?***

**Integration of ESG.** The Investment Manager considers the Sub-Fund has successfully and consistently integrated ESG in the investment process in the following manner:

- The ESG Rating as part of the Sub-Fund's Country Selection Model was successfully and consistently applied. In the Country Selection Model, quantitative and qualitative data was used. A greater weight was given to the long-term development of countries, which was consequently reflected in the ESG Rating the Investment Manager applied to countries. The Sub-Fund did not make any invests into F rated countries or currencies and avoided government bonds of C rated countries.
- The Investment Manager successfully and consistently applied the Sub-Fund's ESG exclusion policy.
- At the end of the reporting period 96.3% (incl. collaterals) of the investments were aligned with environmental and social characteristics.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/ or social characteristics was 1.1% lower than in the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager considered the following principal adverse impact indicators as part of the asset allocation process. These indicators are computed as part of the ESG rating system. This allows for enhanced insight in the adverse impacts caused by issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility
<b>Indicators applicable to investments in sovereigns and supranationals</b>				
GHG intensity (country's Scope 1, 2 and 3 GHG emissions per million GDP)	GHG intensity (country's Scope 1, 2 and 3 GHG emissions per million GDP)	584.89	79.3%	96.9%
Investee countries subject to social violations	Number of investee countries subject to social violations (absolute number and relative number divided by all investee countries), as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	0.00	79.3%	96.9%

**What were the top investments of this financial product?**

The top investments are listed below. For the identification of the top investments, we consider the weights at the end of each quarter and take an average of these. In doing so, it provides a comprehensive view of the holdings over the course the reference period 01.05.2024-30.04.2025.

**What was the proportion of sustainability-related investments?**

96.3% of the portfolio promoted environmental and social characteristics (incl. collaterals).

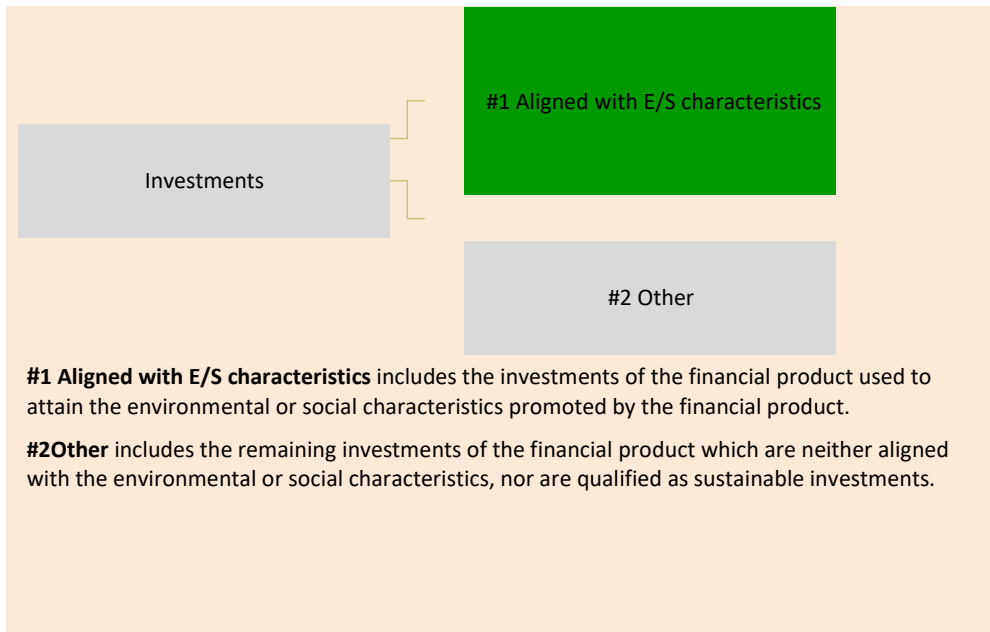

**What was the asset allocation?**

The Sub-Fund allocated 96.3% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics).

The remaining portion of 3.7% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other). It consisted solely of the investments described under "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?".

**Asset allocation** describes the share of investments in specific assets.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Investments were made in government bonds, bonds issued by AAA-rated supranational issuers and development banks and FX derivatives and options.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Sub-Fund did not invest in environmentally sustainable economic activities aligned with the EU Taxonomy.

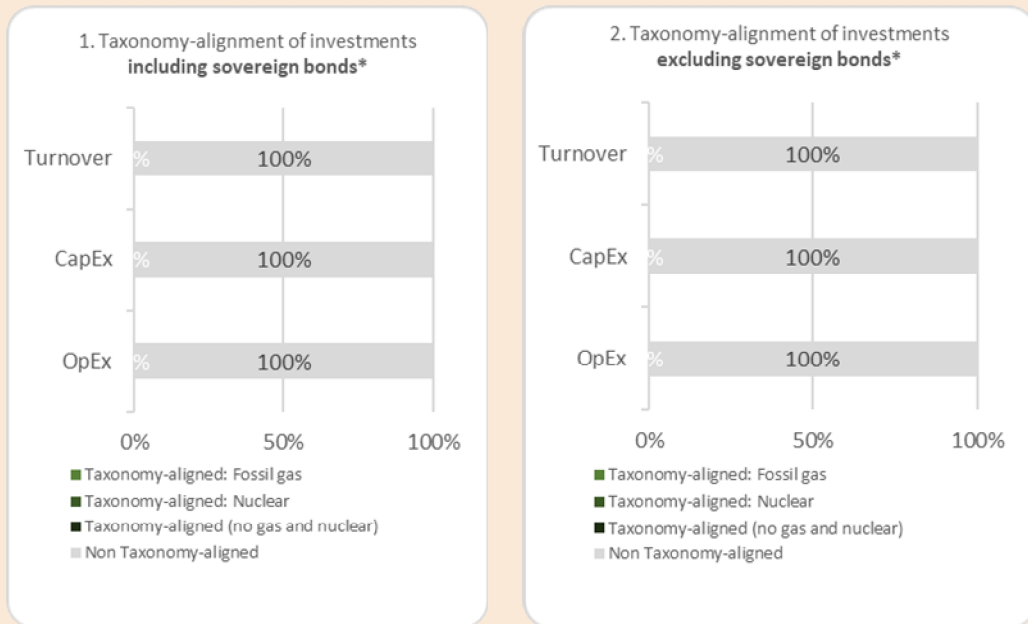

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**  
 The Sub-Fund did not invest in transitional and enabling activities aligned with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
 Not applicable.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**  
 Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

**What was the share of socially sustainable investments?**

● Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Investments under “#2 Other” were investments which are not aligned with the environmental or social characteristics. The instruments in this category were FX derivatives and options. The Sub-Fund does not use derivatives specifically for the purpose of attaining the environmental and or social characteristics it promotes.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

Rather, the Sub-Fund may use derivatives for ordinary purposes, that is, for investment purposes, hedging and/or for efficient portfolio management purposes.

A screening was conducted to capture countries subject to comprehensive sanctions, per the Investment Manager's policy, which was taken into account as part of the final ESG Rating of an applicable country. Therefore, in line with the exclusion policy, the Sub-Fund did not invest into countries rated as F, based on Country Selection Model or currencies (FX derivatives or options) of these countries.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

Further, the Investment Manager interacted actively with issuers, which included the following:

#### Direct Engagement

- The Investment Manager established and maintained dialogue with issuers on topics related to the attainment of the Fund's strategy and investment objective. This included on-the-ground research visits to meet the country representatives.

#### Indirect Engagement

- The Investment Manager engaged issuers indirectly through its active participation in industry associations or organizations on sustainability related topics that partook in dialogue with issuers. The Investment Manager is committed to being an active collaborator and thought leader, which is further demonstrated through its participation in UN Principles for Responsible Investment, the Institutional Investors Group on Climate Change and the Climate Action 100+ initiative.

Details on engagement activities are reported on an annual basis and are available in LGT Capital Partners Active Ownership Report 2024 available on [www.lgtcp.com](http://www.lgtcp.com).

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

#### **● How does the reference benchmark differ from a broad market index?**

Not applicable.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (Unaudited)**

Product name: LGT Sustainable Equity Global Sub-Fund

Legal entity identifier: 54930053MKRLX5T5TK55

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

**Yes**

It made **sustainable investments with an environmental objective: \_\_\_%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: \_\_\_%**

**No**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 72.6% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it seeks to take into account ESG related factors in the asset selection and investment consideration and/or monitoring process in the following ways:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**ESG Exclusion Policy:** Exclusions were applied in the investment selection process based on ESG factors as a means of promoting environmental and social characteristics. For example, the following companies are excluded from investment consideration:

- Companies that, to the best of the Investment Manager’s knowledge, generate any revenue from inhumane weapons; and
- Companies that generate a significant amount of their revenue from certain industries or business activities deemed by the Investment Manager to be controversial (e.g. arms, tobacco, pornography, nuclear power production, coal).

**ESG Rating:** The following are key performance indicators on ESG factors related to an investee company that are included in the LGT CP ESG cockpit, which is a proprietary tool used as part of the ESG rating system discussed below, in the process to identify a universe of investable companies through a systematic process which relies on information from underlying companies (and therefore promoted as environmental and/or social characteristics by the Sub-Fund: greenhouse gas emissions, energy consumption, water and sanitation natural resources and biodiversity, waste and emissions, labour conditions, health and safety, human resources, diversity, education, suppliers, community relations and product impact.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted.

The Investment Manager’s consideration of ESG factors, which included SDGs and climate factors, provided additional insights into both risk and value drivers, enabled optimisation of ESG in portfolio management and the asset selection process.

● ***How did the sustainability indicators perform?***

During the reported period, the Sub-Fund achieved 99.5% underlying investments which promoted environmental and/or social characteristics of which 72.6% were considered sustainable investments. The primary binding element is a commitment of at least 90.0% of the assets of the Sub-Fund to underlying investments, which promote environmental and/or social characteristics.

The assessment of whether this binding element has been attained, is measured by the following sustainability indicators:

- **ESG Exclusion Policy:** The first factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently executed its ESG exclusion policy. The Investment Manager successfully and consistently executed the Sub-Fund’s ESG Exclusion Policy.
- **Screening based on ESG Rating:** Another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its ESG rating in the process to identify a universe of investable companies and in the investment monitoring. This resulted in the exclusion of any security that are in the lowest 25% of the universe as described further in the Supplement of the Prospectus under the following SFDR Annex section: “What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?”. The Sub-Fund has successfully and consistently executed its ESG assessment, by ensuring no investment in the lowest 25% was held in the portfolio.
- **Sustainable Investments:** The aggregate weight of all sustainable investments held by the Sub-Fund shall be calculated and used to measure the attainment by the Sub-Fund of the environmental and/or social characteristics it promotes. The Sub-Fund has successfully aggregated the sustainable investments of the fund: 72.6%.
- **United Nations Sustainable Development Goals (“UN SDGs”):** In terms of considering whether investments of the Sub-Fund which are eligible for selection may be categorised as sustainable investments which are aligned with SFDR, another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its policy relating to investing in sustainable investments, i.e. in the context of the proportion of the Sub-Fund in sustainable investments only including investments with a positive net contribution to the UN SDGs by virtue of a net positive SDG score, based on the outputs from the ESG rating system. For the avoidance of doubt, the net positive SDG score, and therefore the level of sustainable investments, is determined on the basis of how

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

an investment contributes, in terms of a total impact contribution (which includes an analysis of products, services and operational alignment), to an environmental or social objective. The Investment Manager successfully and consistently applied its methodology relating to UN SDGs. Sustainable investments were fully comprised of investments meeting the prescribed UN SDG criteria and therefore 72.6% of the Sub-Fund had investments align with the UN SDGs.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/or social characteristics was equal (rounded to the nearest 1%) to the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments of the Sub-Fund targeted a combination of environmental and social objectives across the spectrum, as per below, based on alignment of such investments with the UN SDGs.

An investment with an environmental objective aligned with SFDR is one which is measured, for example, by key resource efficiency indicators on the use of energy, renewable energy, raw materials, water and land, on the production of waste, and greenhouse gas emissions, or on its impact on biodiversity and the circular economy.

An investment with a social objective aligned with SFDR is an investment that contributes to tackling inequality or that fosters social cohesion, social integration and labour relations, or an investment in human capital or economically or socially disadvantaged communities.

The objective of the sustainable investment was to have a net positive SDG Score.

72.6% of the Sub-Fund contributed to a net positive SDG Score. Highest scores were attained for a net positive contribution to UN SDG 5 (Gender Equality) and UN SDG 10 (Reduced Inequalities).

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

In terms of ensuring that the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective, a requirement for sustainable investments was the positive net contribution to UN SDGs, which covered a broad set of ESG activities.

In addition, the portfolio was systematically screened for controversies across environmental and/or social issues as part of LGT Capital Partner's "do no significant harm" assessment.

As an additional safeguard, the mandatory principal adverse impacts ("PAI") set out in Annex 1 of the regulatory technical standards supplementing the SFDR are used to further screen against activities that may significantly harm any of the environmental or social objectives, whereby investments that do not meet minimum thresholds applied by the Investment Manager for each of the mandatory PAI indicators in Annex 1 shall be excluded from investment consideration.

During the reporting period the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Principal adverse impacts on sustainability factors were considered in the following manner:

- Principal adverse impact indicators were captured under the “do no significant harm” principle for sustainable investments outlined in the SFDR Annex of the Supplement to the Prospectus section entitled “How did the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?”
- Principal adverse impacts were assessed as part of the ESG rating system.
- Principal adverse impact indicators were reported on as outlined in the SFDR Annex of the Supplement to the Prospectus section entitled “How did this financial product consider principal adverse impacts on sustainability factors?”

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Yes, the Investment Manager monitored breaches and controversies for new and existing investments which largely relies on the quality of data supplied by external data providers.

Where the Investment Manager identifies clear breaches of norms outlined in the a) OECD Guidelines for Multinational Enterprises, b) the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and c) the International Bill of Human Rights the Investment Manager will seek to exclude the investee company from investment by the Sub-Fund.

During the reporting period there were no breaches of norms outlined in the above-mentioned norms.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager considered the following principal adverse impact indicators in the investment management process. This is calculated with the Investment Manager’s proprietary ESG rating system and is part of our overall ESG Rating. This allows for enhanced insight in the adverse impacts caused by investee companies or issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

### What were the top investments of this financial product?

The top investments are listed below. For the identification of the top investments, we consider the weights at the end of each quarter and take an average of these. In doing so, it provides a comprehensive view of the holdings over the course the reference period 01.05.2024-30.04.2025.

Largest investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	7.5%	United States
Alphabet Inc	Communication Services	6.7%	United States
Nvidia Corp	Information Technology	4.9%	United States
Taiwan Semiconductor Manufacturing Co	Information Technology	4.2%	Taiwan
Nasdaq Inc	Financials	3.4%	United States
Resmed Inc	Health Care	3.4%	United States
Medtronic	Health Care	3.3%	United States
Autozone Inc	Consumer Discretionary	3.2%	United States
Apple Inc	Information Technology	3.0%	United States
Colgatepalmolive Co	Consumer Staples	2.9%	United States
Sap Se	Information Technology	2.7%	Germany
Sse	Utilities	2.6%	United Kingdom
Nintendo Co	Communication Services	2.6%	Japan
Ross Stores Inc	Consumer Discretionary	2.5%	United States
Morgan Stanley	Financials	2.4%	United States

### What was the proportion of sustainability-related investments?

The Sub-Fund allocated 99.5% of its NAV to investments aligned with environmental and/or social characteristics.

#### Asset allocation

describes the share of investments in specific assets.

#### What was the asset allocation?

The Sub-Fund allocated 99.5% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics). The Sub-Fund allocated 72.6% to sustainable investments (#1A Sustainable), of which 55.4% was social sustainable investments and 17.2% was environmental sustainable investments.

The remaining portion of 0.5% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other).

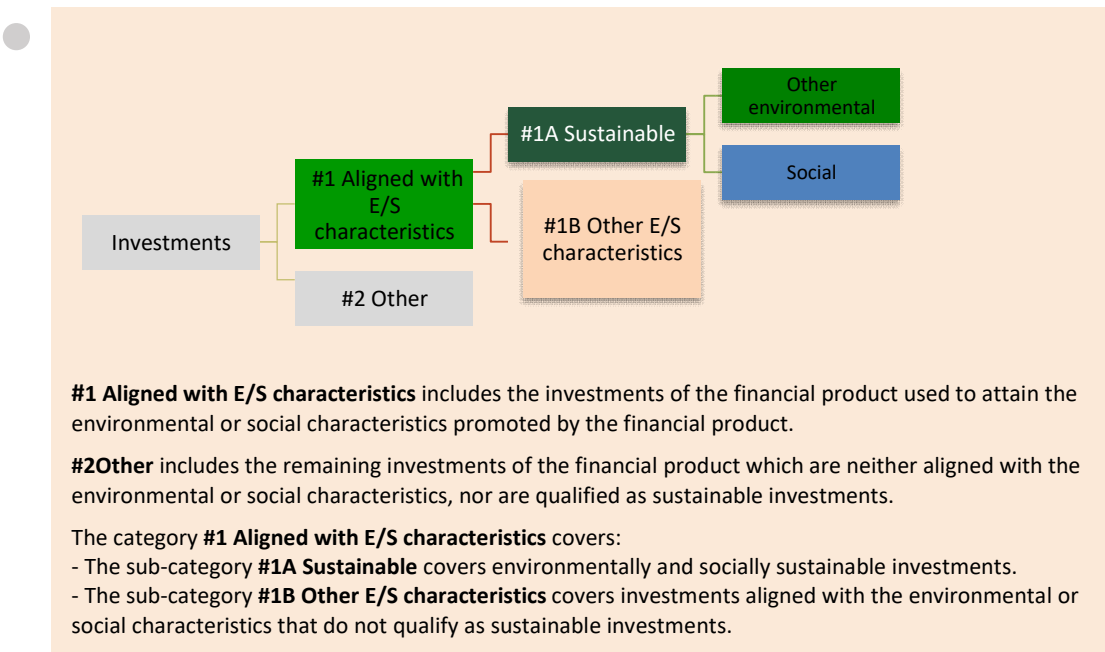

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

#### Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

#### Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#### In which economic sectors were the investments made?

Investments were made through a diversified asset allocation and a broad variety of economic sectors in accordance with the Supplement of the Prospectus in respect of the Sub-Fund.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

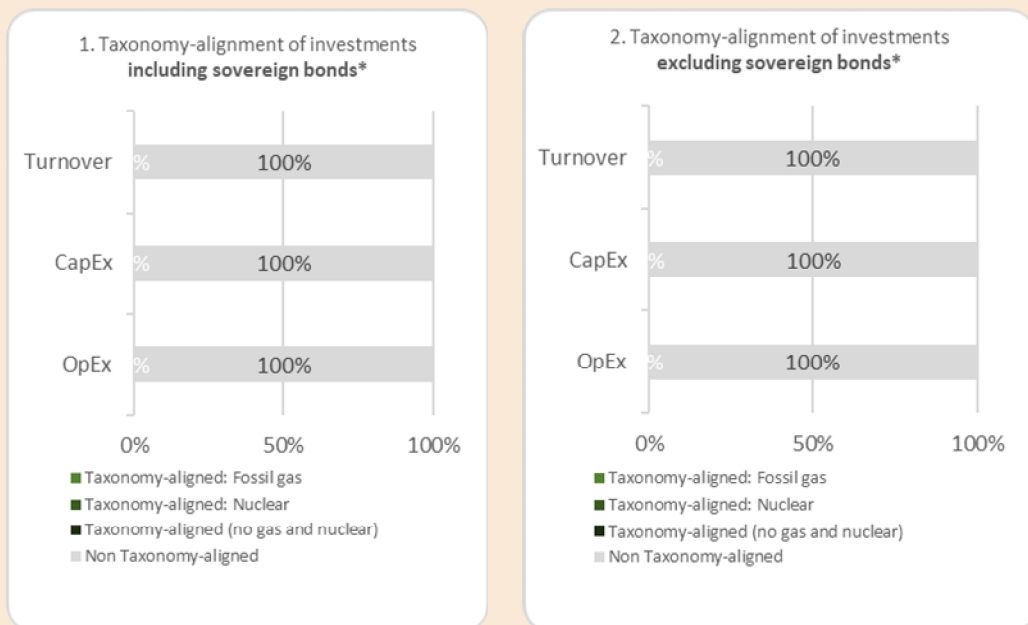

The Sub-Fund did not invest in environmentally sustainable economic activities aligned with the EU Taxonomy.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The Sub-Fund did not invest in transitional and enabling activities aligned with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 18.9%.

### **What was the share of socially sustainable investments?**

The share of socially sustainable investments was 55.4%.

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund made 0.5% of investments in “#2 Other”.

Investments under “#2 Other” were investments which were neither aligned with the environmental or social characteristics nor qualify as sustainable investments, for example:

- There may be insufficient data available to verify any classification under sustainable investments or investments with environmental and/or social characteristics.
- There may have been exposures where an ESG assessment could not be applied or there was lacking market practice for appropriate quantification of ESG factors.
- Exposures consisting of certain FDI, hedging, cash or cash equivalents.

The Investment Manager applied minimum safeguards through a screening that is conducted to capture severe controversies or violations of social norms, taken into account as part of the final ESG score of an investee company of the Sub-Fund. Investors should note that, while the Investment Manager has developed a comprehensive tool to rate securities on ESG-related metrics, there may exist instances where data is lacking, and such assessment may be impacted on this basis.

Exclusions are also applied by the Investment Manager in the investment selection process based on ESG factors.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

The Investment Manager conducted the following engagements:

- **Engagement with direct investments:** As an active direct investor in equities, the Investment Manager are in continuous dialogue with companies. It is a two-way dialogue that allows the Investment Manager to express its expectations as a sustainable investor, while also providing companies with the opportunity to offer further clarification and insight into their ESG practices and aspirations.

Some of the most frequent topics of engagement included climate action (greenhouse gas, transition), water risks and biodiversity.

- **Industry engagement:** We work together with international partners, networks and initiatives to raise awareness for ESG issues and enhance analytical tools.

In respect of additional actions taken to meet the environmental and/or social characteristics during the reference period, the Investment Manager continued alignment of the Sub-Fund’s carbon footprint in line with the Net Zero Emissions by 2050 budget. This alignment included carbon budgets for each security.

Investors should note, the Sub-Fund does not target a climate transition objective as specified under EU 2019/2088, nor does it explicitly promote such investment objective or characteristic, however, the Investment Manager applies general principles and tools of carbon budgeting to assess alignment with international targets, such as the Net Zero Emissions by 2050 for comparative and performance management purposes.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

The Benchmark used by the Sub-Fund is a mainstream index and does not take account of ESG factors and is therefore not consistent with the environmental and social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: LGT Sustainable Equity Europe Sub-Fund

Legal entity identifier: 5493004MA4PF7Y0G5539

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 89.1% of sustainable investments <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with a social objective</li> </ul> <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it seeks to take into account ESG related factors in the asset selection and investment consideration and/or monitoring process in the following ways:

**ESG Exclusion Policy:** Exclusions were applied in the investment selection process based on ESG factors as a means of promoting environmental and social characteristics. For example, the following companies are excluded from investment consideration:

- Companies that, to the best of the Investment Manager’s knowledge, generate any revenue from inhumane weapons; and

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Companies that generate a significant amount of their revenue from certain industries or business activities deemed by the Investment Manager to be controversial (e.g. arms, tobacco, pornography, nuclear power production, coal).

**ESG Rating:** The following are key performance indicators on ESG factors related to an investee company that are included in the LGT CP ESG cockpit, which is a proprietary tool used as part of the ESG rating system discussed below, in the process to identify a universe of investable companies through a systematic process which relies on information from underlying companies (and therefore promoted as environmental and/or social characteristics by the Sub-Fund: greenhouse gas emissions, energy consumption, water and sanitation natural resources and biodiversity, waste and emissions, labour conditions, health and safety, human resources, diversity, education, suppliers, community relations and product impact.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted.

The Investment Manager's consideration of ESG factors, which included SDGs and climate factors, provided additional insights into both risk and value drivers, enabled optimisation of ESG in portfolio management and the asset selection process.

● ***How did the sustainability indicators perform?***

During the reported period, the Sub-Fund achieved 99.1% underlying investments which promoted environmental and/or social characteristics of which 89.1% were considered sustainable investments. The primary binding element is a commitment of at least 90.0% of the assets of the Sub-Fund to underlying investments, which promote environmental and/or social characteristics.

The assessment of whether this binding element has been attained, is measured by the following sustainability indicators:

- **ESG Exclusion Policy:** The first factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently executed its ESG exclusion policy. The Investment Manager successfully and consistently executed the Sub-Fund's ESG Exclusion Policy.
- **Screening based on ESG Rating:** Another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its ESG rating in the process to identify a universe of investable companies and in the investment monitoring. This resulted in the exclusion of any security that are in the lowest 25% of the universe as described further in the Supplement of the Prospectus under the following SFDR Annex section: "What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?". The Sub-Fund has successfully and consistently executed its ESG assessment, by ensuring no investment in the lowest 25% was held in the portfolio.
- **Sustainable Investments:** The aggregate weight of all sustainable investments held by the Sub-Fund shall be calculated and used to measure the attainment by the Sub-Fund of the environmental and/or social characteristics it promotes. The Sub-Fund has successfully aggregated the sustainable investments of the fund: 89.1%.
- **United Nations Sustainable Development Goals ("UN SDGs"):** In terms of considering whether investments of the Sub-Fund which are eligible for selection may be categorised as sustainable investments which are aligned with SFDR, another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its policy relating to investing in sustainable investments, i.e. in the context of the proportion of the Sub-Fund in sustainable investments only including investments with a positive net contribution to the UN SDGs by virtue of a net positive SDG score, based on the outputs from the ESG rating system. For the avoidance of doubt, the net positive SDG score, and therefore the level of sustainable investments, is determined on the basis of how an investment contributes, in terms of a total impact contribution (which includes an analysis of products, services and operational alignment), to an environmental or social objective. The Investment Manager successfully and consistently applied its methodology relating to UN SDGs. Sustainable investments were fully comprised of investments meeting the prescribed UN SDG criteria and therefore 89.1% of the Sub-Fund had investments align with the UN SDGs.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/or social characteristics was equal (rounded to the nearest 1%) to the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments of the Sub-Fund targeted a combination of environmental and social objectives across the spectrum, as per below, based on alignment of such investments with the UN SDGs.

An investment with an environmental objective aligned with SFDR is one which is measured, for example, by key resource efficiency indicators on the use of energy, renewable energy, raw materials, water and land, on the production of waste, and greenhouse gas emissions, or on its impact on biodiversity and the circular economy.

An investment with a social objective aligned with SFDR is an investment that contributes to tackling inequality or that fosters social cohesion, social integration and labour relations, or an investment in human capital or economically or socially disadvantaged communities.

The objective of the sustainable investment was to have a net positive SDG Score.

89.1% of the Sub-Fund contributed to a net positive SDG Score. Highest scores were attained for a net positive contribution to UN SDG 5 (Gender Equality) and UN SDG 10 (Reduced Inequalities).

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

In terms of ensuring that the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective, a requirement for sustainable investments was the positive net contribution to UN SDGs, which covered a broad set of ESG activities.

In addition, the portfolio was systematically screened for controversies across environmental and/or social issues as part of LGT Capital Partner's "do no significant harm" assessment.

As an additional safeguard, the mandatory principal adverse impacts ("PAI") set out in Annex 1 of the regulatory technical standards supplementing the SFDR are used to further screen against activities that may significantly harm any of the environmental or social objectives, whereby investments that do not meet minimum thresholds applied by the Investment Manager for each of the mandatory PAI indicators in Annex 1 shall be excluded from investment consideration.

During the reporting period the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

Principal adverse impacts on sustainability factors were considered in the following manner:

- Principal adverse impact indicators were captured under the "do no significant harm" principle for sustainable investments outlined in the SFDR Annex of the Supplement to the Prospectus section entitled "How did the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?"
- Principal adverse impacts were assessed as part of the ESG rating system.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

- Principal adverse impact indicators were reported on as outlined in the SFDR Annex of the Supplement to the Prospectus section entitled “How did this financial product consider principal adverse impacts on sustainability factors?”

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Yes, the Investment Manager monitored breaches and controversies for new and existing investments which largely relies on the quality of data supplied by external data providers.

Where the Investment Manager identifies clear breaches of norms outlined in the a) OECD Guidelines for Multinational Enterprises, b) the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and c) the International Bill of Human Rights the Investment Manager will seek to exclude the investee company from investment by the Sub-Fund.

During the reporting period there were no breaches of norms outlined in the above-mentioned norms.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager considered the following principal adverse impact indicators in the investment management process. This is calculated with the Investment Manager’s proprietary ESG rating system and is part of our overall ESG Rating. This allows for enhanced insight in the adverse impacts caused by investee companies or issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility
<b>Indicators applicable to investments in investee companies</b>				
GHG Emissions	Total Scope 1 GHG Emissions (Tons of CO <sub>2</sub> eq.)	861.74	98.1%	98.1%
GHG Emissions	Total Scope 2 GHG Emissions (Tons of CO <sub>2</sub> eq.)	213.50	98.1%	98.1%
GHG Emissions	Total Scope 3 GHG Emissions (Tons of CO <sub>2</sub> eq.)	11,329.50	98.1%	98.1%
GHG Emissions	Total GHG Emissions (Tons of CO <sub>2</sub> eq.)	12,404.75	98.1%	98.1%

### What was the proportion of sustainability-related investments?

The Sub-Fund allocated 99.1% of its NAV to investments aligned with environmental and/or social characteristics.

**CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025**

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

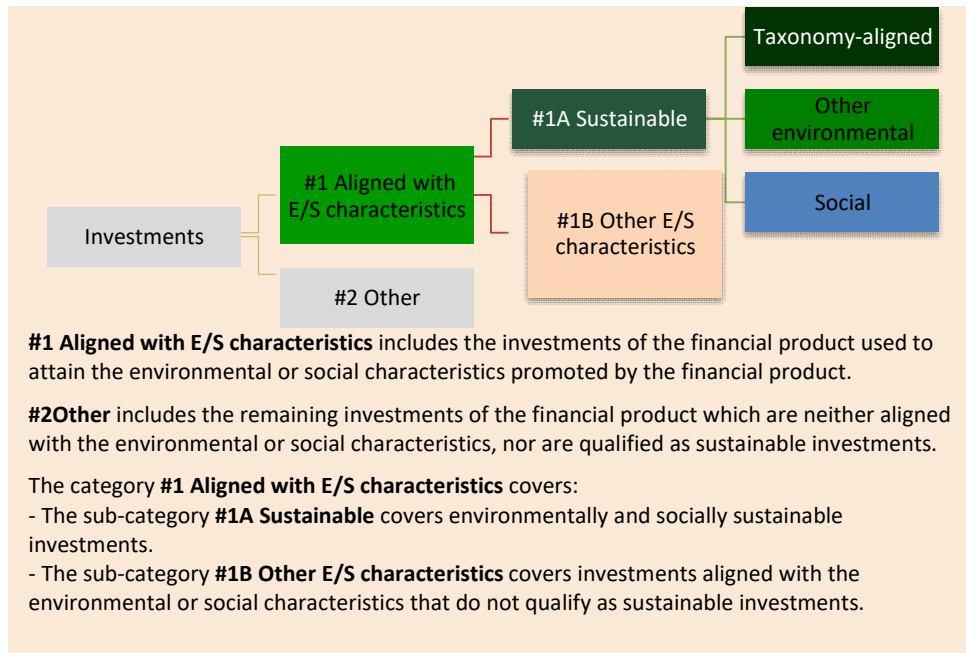

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the asset allocation?**

The Sub-Fund allocated 99.1% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics). The Sub-Fund allocated 89.1% to sustainable investments (#1A Sustainable), of which 66.7% was social sustainable investments and 22.4% was environmental sustainable investments.

The remaining portion of 0.9% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other).

● **In which economic sectors were the investments made?**

Investments were made through a diversified asset allocation and a broad variety of economic sectors in accordance with the Supplement of the Prospectus in respect of the Sub-Fund.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The share of sustainable investments with an environmental objective aligned with the EU Taxonomy was 2.6%.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>3</sup>?**

<sup>3</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

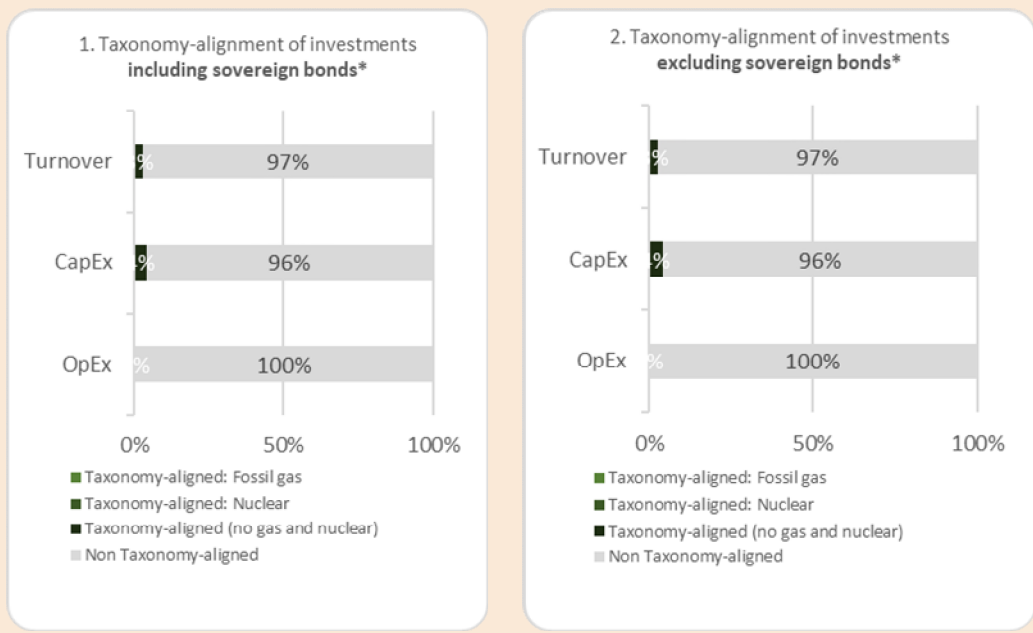

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- **What was the share of investments made in transitional and enabling activities?**  
 The share of investments made in transitional activities was 0.0%.  
 The share of investments made in enabling activities was 2.4%.
- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
 The share of investments that were aligned with the EU Taxonomy was 2.9% lower than in the previous reporting period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 19.7%.

### What was the share of socially sustainable investments?

The share of socially sustainable investments was 66.7%.

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Sub-Fund made 0.9% of investments in “#2 Other”.

Investments under “#2 Other” were investments which were neither aligned with the environmental or social characteristics nor qualify as sustainable investments, for example:

- There may be insufficient data available to verify any classification under sustainable investments or investments with environmental and/or social characteristics.
- There may have been exposures where an ESG assessment could not be applied or there was lacking market practice for appropriate quantification of ESG factors.
- Exposures consisting of certain FDI, hedging, cash or cash equivalents.

The Investment Manager applied minimum safeguards through a screening that is conducted to capture severe controversies or violations of social norms, taken into account as part of the final ESG score of an investee company of the Sub-Fund. Investors should note that, while the Investment Manager has developed a comprehensive tool to rate securities on ESG-related metrics, there may exist instances where data is lacking, and such assessment may be impacted on this basis.

Exclusions are also applied by the Investment Manager in the investment selection process based on ESG factors.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

The Investment Manager conducted the following engagements:

- **Engagement with direct investments:** As an active direct investor in equities, the Investment Manager are in continuous dialogue with companies. It is a two-way dialogue that allows the Investment Manager to express its expectations as a sustainable investor, while also providing companies with the opportunity to offer further clarification and insight into their ESG practices and aspirations.

Some of the most frequent topics of engagement included climate action (greenhouse gas, transition), water risks and biodiversity.

- **Industry engagement:** We work together with international partners, networks and initiatives to raise awareness for ESG issues and enhance analytical tools.

In respect of additional actions taken to meet the environmental and/or social characteristics during the reference period, the Investment Manager continued alignment of the Sub-Fund’s carbon footprint in line with the Net Zero Emissions by 2050 budget. This alignment included carbon budgets for each security.

Investors should note, the Sub-Fund does not target a climate transition objective as specified under EU 2019/2088, nor does it explicitly promote such investment objective or characteristic, however, the Investment Manager applies general principles and tools of carbon budgeting to assess alignment with international targets, such as the Net Zero Emissions by 2050 for comparative and performance management purposes.

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

The Benchmark used by the Sub-Fund is a mainstream index and does not take account of ESG factors and is therefore not consistent with the environmental and social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: LGT Sustainable Bond Global Sub-Fund

Legal entity identifier: 549300IL72DEVHYGEW34

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

●● Yes	●● X No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 66.6% of sustainable investments <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with a social objective</li> </ul> <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it took into account ESG related factors in the asset selection and investment consideration and / or monitoring process in the following ways:

**ESG Exclusion Policy:** Exclusions were applied in the investment selection process based on ESG factors as a means of promoting environmental and social characteristics. Different factors applied to companies and to governments as the issuer of the instruments.

The following **companies** were excluded from investment consideration:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Companies that, to the best of the Investment Manager's knowledge, generate any revenue from inhumane weapons; and
- Companies that generate a significant amount of their revenue from certain industries or business activities deemed by the Investment Manager to be controversial (e.g. arms, tobacco, pornography, nuclear power production, coal).

**Countries** were excluded from investment consideration based on the below criteria:

- if the country had not signed certain international treaties on **controversial weapons**;
- if the country failed to meet basic requirements with respect to **human rights and democracy** (assessed among other things based on Freedom House Index, rating of the Reporters Without Borders Press Freedom, ratification of conventions and treaties in respect of human rights and labour conditions);
- if the country had a high level of **corruption** (assessed among other things based on Transparency International Corruption Perception Index and if a country's military budget exceeded 4% of gross domestic product);
- if the country was subject to **sanctions** under Art 41 of the UN security council to eliminate terrorism and weapons proliferation, oppose human rights violations or violations of international treaties, money laundering and deliberate destabilization of sovereign countries and drug trafficking; or
- if the country was considered a jurisdiction with **strategic AML/CFT deficiencies** by the Financial Action Task Force ("FATF").

**ESG Rating:** The following are key performance indicators on ESG factors related to an issuer that are included in the ESG cockpit, which is a proprietary tool used as part of the ESG rating system discussed below, in the process to identify a universe of investable issuers through a systematic process which relies on information from underlying issuers (and therefore promoted as environmental and/or social characteristics by the Sub-Fund):

- Companies as issuers: greenhouse gas emissions, energy consumption, water and sanitation natural resources and biodiversity, waste and emissions, labour conditions, health and safety, human resources, diversity, education, suppliers, community relations and product impact.
- Supranational organizations as issuers: controversial practices, business ethics & product responsibility, environmental principles and action plans, community & human rights.
- Countries as issuers: CO2 intensity, biodiversity and resources, corruption and business climate, public spending for education.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted.

### ● ***How did the sustainability indicators perform?***

During the reported period, the Sub-Fund achieved 110.9% underlying investments which promoted environmental and/or social characteristics of which 66.6% were considered sustainable investments. The primary binding element is a commitment of at least 90.0% of the assets of the Sub-Fund to underlying investments, which promote environmental and/or social characteristics. The assessment of whether this binding element has been attained, is measured by the following sustainability indicators:

**1) ESG Exclusion Policy.** The first factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently executed its ESG exclusion policy. The Investment Manager considers that the Sub-Fund has successfully and consistently executed its ESG exclusion policy. Enforcement of the ESG Exclusion Policy occurred through ongoing monitoring.

**2) Screening based on ESG Rating.** Another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its ESG rating in the process to identify a universe of investable issuers and in the investment monitoring. The Sub-Fund has successfully and consistently applied its ESG rating system in the process to identify a universe of investable issuers in the investment monitoring process.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**3) Sustainable Investments.** The aggregate weight of all sustainable investments held by the Sub-Fund shall be calculated and used to measure the attainment by the Sub-Fund of the environmental and/or social characteristics it promotes. The Sub-Fund has successfully aggregated the sustainable investments of the fund: 66.6%.

**4) United Nations Sustainable Development Goals (“UN SDGs”).** Sustainable investments of the Sub-Fund target a combination of environmental and social objectives across the spectrum based on the alignment of such investments with the UN SDGs. Thus, another factor contributing to whether the Sub-Fund is attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its policy relating to investing in sustainable investments. The Asset Manager considers as sustainable investments, which are aligned with SFDR, only instruments which either:

- qualify as a Green, Social or Sustainable use of proceeds (“UOP”) instrument according to the principles of the International Capital Markets Associations (“ICMA”), which align with UN SDGs, or
- have a positive net contribution to UN SDGs measured by the issuer net SDG score, based on the outputs from the ESG rating system. For the avoidance of doubt, the net positive SDG score, and therefore the level of sustainable investments, is determined on the basis of how an investment contributes, in terms of a total impact contribution (which includes an analysis of products, services and operational alignment) to an environmental or social objective.

The Investment Manager successfully and consistently applied its policy relating to UN SDGs in respect of the Sub-Fund as 66.6% made a positive contribution to such UN SDGs.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/ or social characteristics was 15.8% higher than in the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sub-Fund invested in issuers that positively contributed to the UN SDGs, thus promoting environmental and/or social characteristics through a combination of environmental and social objectives.

An investment with an environmental objective aligned with SFDR was one which is oriented towards, for example, climate change adaptation (e.g. support adaptation related research), climate change mitigation (e.g. develop renewable energy technologies), protection of biodiversity (e.g. promote organic farming), reduction of air, water and soil pollution.

An investment with a social objective aligned with SFDR was an investment that contributed to tackling inequality or that fostered social cohesion, social integration and labour relations, or an investment in human capital or economically or socially disadvantaged communities.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

To ensure that the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective, a requirement for sustainable investments was the positive contribution to UN SDGs, which cover a broad set of ESG activities.

In addition, the portfolio was systematically screened for controversies across environmental and / or social issues as part of the Investment Manager's "do no significant harm" assessment in respect of issuers as well as in respect of projects that are financed through the UOP instruments. A sudden drop due to an ESG controversy will generally lead to an alert to be triggered so further assessment and action can be taken. These controversies are being systematically logged in an inhouse engagement tool and reported in the annual Active Ownership Report classified as re-active engagements.

As an additional safeguard, the applicable mandatory principal adverse impacts set out in Annex 1 of the regulatory technical standards supplementing the SFDR were used to further screen against activities that may significantly harm any of the environmental or social objectives. Investments that do not meet minimum thresholds applied by the Investment Manager for each of the mandatory PAI indicators in Annex 1 were excluded from investment consideration. Such investments included companies active in the fossil fuel sector or UN global compact violators.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

Principal adverse impacts on sustainability factors were considered in the following manner:

- Principal adverse impact indicators were captured under the "do no significant harm" principle for sustainable investments as outlined in the Prospectus.
- Principal adverse impact indicators were assessed in the exclusion of securities as part of the ESG rating system as outlined in the Prospectus.
- Principal adverse impact indicators were reported on as outlined in the Prospectus.

***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The Investment Manager monitored breaches and controversies for new and existing investments which largely relies on the quality of data supplied by external data providers. Where the Investment Manager identified clear breaches of norms outlined in the

- a) OECD Guidelines for Multinational Enterprises,
- b) the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and
- c) the International Bill of Human Rights the Investment Manager were excluded from investment by the Sub-Fund.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager considered the following principal adverse impact indicators as part of the asset allocation process. These indicators are computed as part of the ESG rating system and impact the ESG rating. This allows for enhanced insight in the adverse impacts caused by investee companies or issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility

Societe Des Grands Projets Epic	Sovereign Agency	1.8%	France

### What was the proportion of sustainability-related investments?

The Sub-Fund allocated 110.9% of its NAV to investments aligned with environmental and/or social characteristics.

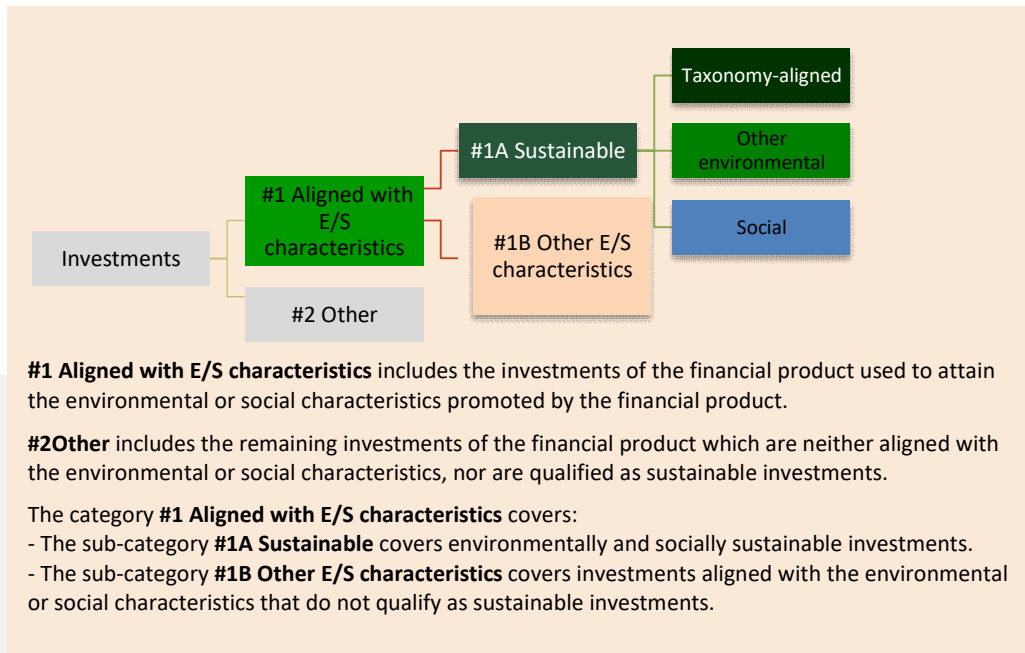

#### ● What was the asset allocation?

The Sub-Fund allocated 110.9% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics). The Sub-Fund allocated 66.6% to sustainable investments (#1A Sustainable), of which 13.8% was social sustainable investments and 52.8% was environmental sustainable investments.

The remaining portion of -10.9% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other).

**Asset allocation** describes the share of investments in specific assets.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Investments were made globally in government, corporates and supranational bonds. Economic sectors related to the corporate exposure, include the financial, energy, communications, consumer goods and services, healthcare, technology, utilities and industrial sector.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The share of sustainable investments with an environmental objective aligned with the EU Taxonomy was 1.3%.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>4</sup>?**

Yes:

In fossil gas     In nuclear energy

No

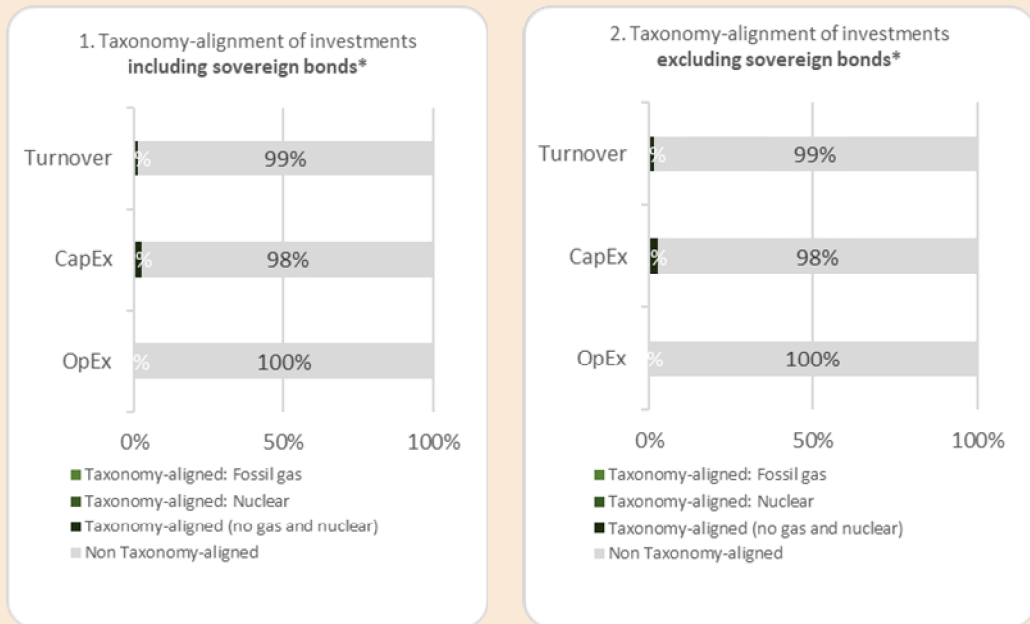

<sup>4</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0.0%.

The share of investments made in enabling activities was 0.4%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 51.5%.

● **What was the share of socially sustainable investments?**

The share of socially sustainable investments was 13.8%.

● **What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund made -10.9% of investments in "#2 Other".

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

Investments under “#2 Other” were investments which were neither aligned with the environmental or social characteristics nor qualify as sustainable investments, for example:

- There may be insufficient data available to verify any classification under sustainable investments or investments with environmental and/or social characteristics.
- There may have been exposures where an ESG assessment could not be applied or there was lacking market practice for appropriate quantification of ESG factors.
- Exposures consisting of certain FDI, hedging, cash or cash equivalents.

The Investment Manager applied minimum safeguards through a screening that is conducted to capture severe controversies or violations of social norms, taken into account as part of the final ESG score of an issuer. Investors should note that, while the Investment Manager has developed a comprehensive tool to rate securities on ESG-related metrics, there may exist instances where data is lacking, and such assessment may be impacted on this basis.

Additionally, to the extent possible and / or where any investments in “#2 Other” form a portion of the strategic asset allocation, the Investment Manager’s proprietary ESG rating was applied to the investments making up the ‘Other’ section of the Sub-Fund in order to continually consider and review such investments.

Exclusions are also applied by the Investment Manager in the investment selection process based on ESG factors as described in the Prospectus.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

Further, the Investment Manager interacted actively with issuers, which included the following:

#### **Direct Engagement**

- The Investment Manager established and maintained dialogue with issuers on topics related to the attainment of the Fund’s strategy and investment objective.

#### **Indirect Engagement**

- The Investment Manager engaged issuers indirectly through its active participation in industry associations or organizations on sustainability related topics that partook in dialogue with issuers. The Investment Manager is committed to being an active collaborator and thought leader, which is further demonstrated through its participation in UN Principles for Responsible Investment, the Institutional Investors Group on Climate Change and the Climate Action 100+ initiative.

Details on engagement activities are reported on an annual basis and are available in LGT Capital Partners Active Ownership Report 2024 available on [www.lgtcp.com](http://www.lgtcp.com).

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

The Benchmark used by the Sub-Fund is a mainstream index and does not take account of ESG factors and is therefore not consistent with the environmental and social characteristics promoted by the Sub-Fund.

#### **● How does the reference benchmark differ from a broad market index?**

Not applicable.

---

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: LGT Sustainable Bond Global Hedged Sub-Fund

Legal entity identifier: 549300XINX01IPT3TO68

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
●● Yes	●● X No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 70.6% of sustainable investments <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with a social objective</li> </ul> <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it took into account ESG related factors in the asset selection and investment consideration and / or monitoring process in the following ways:

**ESG Exclusion Policy:** Exclusions were applied in the investment selection process based on ESG factors as a means of promoting environmental and social characteristics. Different factors applied to companies and to governments as the issuer of the instruments.

The following **companies** were excluded from investment consideration:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Companies that, to the best of the Investment Manager's knowledge, generate any revenue from inhumane weapons; and
- Companies that generate a significant amount of their revenue from certain industries or business activities deemed by the Investment Manager to be controversial (e.g. arms, tobacco, pornography, nuclear power production, coal).

**Countries** were excluded from investment consideration based on the below criteria:

- if the country had not signed certain international treaties on **controversial weapons**;
- if the country failed to meet basic requirements with respect to **human rights and democracy** (assessed among other things based on Freedom House Index, rating of the Reporters Without Borders Press Freedom, ratification of conventions and treaties in respect of human rights and labour conditions);
- if the country had a high level of **corruption** (assessed among other things based on Transparency International Corruption Perception Index and if a country's military budget exceeded 4% of gross domestic product);
- if the country was subject to **sanctions** under Art 41 of the UN security council to eliminate terrorism and weapons proliferation, oppose human rights violations or violations of international treaties, money laundering and deliberate destabilization of sovereign countries and drug trafficking; or
- if the country was considered a jurisdiction with **strategic AML/CFT deficiencies** by the Financial Action Task Force ("FATF").

**ESG Rating:** The following are key performance indicators on ESG factors related to an issuer that are included in the ESG cockpit, which is a proprietary tool used as part of the ESG rating system discussed below, in the process to identify a universe of investable issuers through a systematic process which relies on information from underlying issuers (and therefore promoted as environmental and/or social characteristics by the Sub-Fund):

- Companies as issuers: greenhouse gas emissions, energy consumption, water and sanitation natural resources and biodiversity, waste and emissions, labour conditions, health and safety, human resources, diversity, education, suppliers, community relations and product impact.
- Supranational organizations as issuers: controversial practices, business ethics & product responsibility, environmental principles and action plans, community & human rights.
- Countries as issuers: CO2 intensity, biodiversity and resources, corruption and business climate, public spending for education.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted.

### ● ***How did the sustainability indicators perform?***

During the reported period, the Sub-Fund achieved 115.9% underlying investments which promoted environmental and/or social characteristics of which 70.6% were considered sustainable investments. The primary binding element is a commitment of at least 90.0% of the assets of the Sub-Fund to underlying investments, which promote environmental and/or social characteristics. The assessment of whether this binding element has been attained, is measured by the following sustainability indicators:

**1) ESG Exclusion Policy.** The first factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently executed its ESG exclusion policy. The Investment Manager considers that the Sub-Fund has successfully and consistently executed its ESG exclusion policy. Enforcement of the ESG Exclusion Policy occurred through ongoing monitoring.

**2) Screening based on ESG Rating.** Another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its ESG rating in the process to identify a universe of investable issuers and in the investment monitoring. The Sub-Fund has successfully and consistently applied its ESG rating system in the process to identify a universe of investable issuers in the investment monitoring process.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

**3) Sustainable Investments.** The aggregate weight of all sustainable investments held by the Sub-Fund shall be calculated and used to measure the attainment by the Sub-Fund of the environmental and/or social characteristics it promotes. The Sub-Fund has successfully aggregated the sustainable investments of the fund: 70.6%.

**4) United Nations Sustainable Development Goals (“UN SDGs”).** Sustainable investments of the Sub-Fund target a combination of environmental and social objectives across the spectrum based on the alignment of such investments with the UN SDGs. Thus, another factor contributing to whether the Sub-Fund is attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its policy relating to investing in sustainable investments. The Asset Manager considers as sustainable investments, which are aligned with SFDR, only instruments which either:

- qualify as a Green, Social or Sustainable use of proceeds (“UOP”) instrument according to the principles of the International Capital Markets Associations (“ICMA”), which align with UN SDGs, or
- have a positive net contribution to UN SDGs measured by the issuer net SDG score, based on the outputs from the ESG rating system. For the avoidance of doubt, the net positive SDG score, and therefore the level of sustainable investments, is determined on the basis of how an investment contributes, in terms of a total impact contribution (which includes an analysis of products, services and operational alignment) to an environmental or social objective.

The Investment Manager successfully and consistently applied its policy relating to UN SDGs in respect of the Sub-Fund as 70.6% made a positive contribution to such UN SDGs.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/ or social characteristics was 19.5% higher than in the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sub-Fund invested in issuers that positively contributed to the UN SDGs, thus promoting environmental and/or social characteristics through a combination of environmental and social objectives.

An investment with an environmental objective aligned with SFDR was one which is oriented towards, for example, climate change adaptation (e.g. support adaptation related research), climate change mitigation (e.g. develop renewable energy technologies), protection of biodiversity (e.g. promote organic farming), reduction of air, water and soil pollution.

An investment with a social objective aligned with SFDR was an investment that contributed to tackling inequality or that fostered social cohesion, social integration and labour relations, or an investment in human capital or economically or socially disadvantaged communities.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

To ensure that the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective, a requirement for sustainable investments was the positive contribution to UN SDGs, which cover a broad set of ESG activities.

In addition, the portfolio was systematically screened for controversies across environmental and / or social issues as part of the Investment Manager's "do no significant harm" assessment in respect of issuers as well as in respect of projects that are financed through the UOP instruments. A sudden drop due to an ESG controversy will generally lead to an alert to be triggered so further assessment and action can be taken. These controversies are being systematically logged in an inhouse engagement tool and reported in the annual Active Ownership Report classified as re-active engagements.

As an additional safeguard, the applicable mandatory principal adverse impacts set out in Annex 1 of the regulatory technical standards supplementing the SFDR were used to further screen against activities that may significantly harm any of the environmental or social objectives. Investments that do not meet minimum thresholds applied by the Investment Manager for each of the mandatory PAI indicators in Annex 1 were excluded from investment consideration. Such investments included companies active in the fossil fuel sector or UN global compact violators.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

Principal adverse impacts on sustainability factors were considered in the following manner:

- Principal adverse impact indicators were captured under the "do no significant harm" principle for sustainable investments as outlined in the Prospectus.
- Principal adverse impact indicators were assessed in the exclusion of securities as part of the ESG rating system as outlined in the Prospectus.
- Principal adverse impact indicators were reported on as outlined in the Prospectus.

***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The Investment Manager monitored breaches and controversies for new and existing investments which largely relies on the quality of data supplied by external data providers. Where the Investment Manager identified clear breaches of norms outlined in the

- a) OECD Guidelines for Multinational Enterprises,
- b) the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and
- c) the International Bill of Human Rights the Investment Manager were excluded from investment by the Sub-Fund.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager considered the following principal adverse impact indicators as part of the asset allocation process. These indicators are computed as part of the ESG rating system and impact the ESG rating. This allows for enhanced insight in the adverse impacts caused by investee companies or issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility
<b>Indicators applicable to investments in investee companies</b>				
GHG Emissions	Total Scope 1 GHG Emissions (Tons of CO <sub>2</sub> eq.)	1,315.81	30.8%	30.8%

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 54.3%.

### **What was the share of socially sustainable investments?**

The share of socially sustainable investments was 15.5%.

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund made -15.9% of investments in “#2 Other”.

Investments under “#2 Other” were investments which were neither aligned with the environmental or social characteristics nor qualify as sustainable investments, for example:

- There may be insufficient data available to verify any classification under sustainable investments or investments with environmental and/or social characteristics.
- There may have been exposures where an ESG assessment could not be applied or there was lacking market practice for appropriate quantification of ESG factors.
- Exposures consisting of certain FDI, hedging, cash or cash equivalents.

The Investment Manager applied minimum safeguards through a screening that is conducted to capture severe controversies or violations of social norms, taken into account as part of the final ESG score of an issuer. Investors should note that, while the Investment Manager has developed a comprehensive tool to rate securities on ESG-related metrics, there may exist instances where data is lacking, and such assessment may be impacted on this basis.

Additionally, to the extent possible and / or where any investments in “#2 Other” form a portion of the strategic asset allocation, the Investment Manager’s proprietary ESG rating was applied to the investments making up the ‘Other’ section of the Sub-Fund in order to continually consider and review such investments.

Exclusions are also applied by the Investment Manager in the investment selection process based on ESG factors as described in the Prospectus.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

Further, the Investment Manager interacted actively with issuers, which included the following:

#### **Direct Engagement**

- The Investment Manager established and maintained dialogue with issuers on topics related to the attainment of the Fund’s strategy and investment objective.

#### **Indirect Engagement**

- The Investment Manager engaged issuers indirectly through its active participation in industry associations or organizations on sustainability related topics that partook in dialogue with issuers. The Investment Manager is committed to being an active collaborator and thought leader, which is further demonstrated through its participation in UN Principles for Responsible Investment, the Institutional Investors Group on Climate Change and the Climate Action 100+ initiative.

Details on engagement activities are reported on an annual basis and are available in LGT Capital Partners Active Ownership Report 2024 available on [www.lgtcp.com](http://www.lgtcp.com).

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

The Benchmark used by the Sub-Fund is a mainstream index and does not take account of ESG factors and is therefore not consistent with the environmental and social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: LGT Sustainable Quality Equity Sub-Fund

Legal entity identifier: 54930003L8V1USVNSG26

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

●● Yes	●● X No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input checked="" type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 81.5% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input checked="" type="checkbox"/> with a social objective</li> </ul> <input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it seeks to take into account ESG related factors in the asset selection and investment consideration and/or monitoring process in the following ways:

**ESG Exclusion Policy:** Exclusions were applied in the investment selection process based on ESG factors as a means of promoting environmental and social characteristics. For example, the following companies are excluded from investment consideration:

- Companies that, to the best of the Investment Manager’s knowledge, generate any revenue from inhumane weapons; and

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Companies that generate a significant amount of their revenue from certain industries or business activities deemed by the Investment Manager to be controversial (e.g. arms, tobacco, pornography, nuclear power production, coal).

**ESG Rating:** The following are key performance indicators on ESG factors related to an investee company that are included in the LGT CP ESG cockpit, which is a proprietary tool used as part of the ESG rating system discussed below, in the process to identify a universe of investable companies through a systematic process which relies on information from underlying companies (and therefore promoted as environmental and/or social characteristics by the Sub-Fund: greenhouse gas emissions, energy consumption, water and sanitation natural resources and biodiversity, waste and emissions, labour conditions, health and safety, human resources, diversity, education, suppliers, community relations and product impact.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted.

The Investment Manager's consideration of ESG factors, which included SDGs and climate factors, provided additional insights into both risk and value drivers, enabled optimisation of ESG in portfolio management and the asset selection process.

### ● ***How did the sustainability indicators perform?***

During the reported period, the Sub-Fund achieved 99.5% underlying investments which promoted environmental and/or social characteristics of which 81.6% were considered sustainable investments. The primary binding element is a commitment of at least 90.0% of the assets of the Sub-Fund to underlying investments, which promote environmental and/or social characteristics.

The assessment of whether this binding element has been attained, is measured by the following sustainability indicators:

- **ESG Exclusion Policy:** The first factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently executed its ESG exclusion policy. The Investment Manager successfully and consistently executed the Sub-Fund's ESG Exclusion Policy.
- **Screening based on ESG Rating:** Another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its ESG rating in the process to identify a universe of investable companies and in the investment monitoring. This resulted in the exclusion of any security that are in the lowest 25% of the universe as described further in the Supplement of the Prospectus under the following SFDR Annex section: "What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?". The Sub-Fund has successfully and consistently executed its ESG assessment, by ensuring no investment in the lowest 25% was held in the portfolio.
- **Sustainable Investments:** The aggregate weight of all sustainable investments held by the Sub-Fund shall be calculated and used to measure the attainment by the Sub-Fund of the environmental and/or social characteristics it promotes. The Sub-Fund has successfully aggregated the sustainable investments of the fund: 81.6%.
- **United Nations Sustainable Development Goals ("UN SDGs"):** In terms of considering whether investments of the Sub-Fund which are eligible for selection may be categorised as sustainable investments which are aligned with SFDR, another factor contributing to whether the Sub-Fund will be considered to be attaining the environmental and/or social characteristics it promotes will be an assessment of whether the Sub-Fund has successfully and consistently applied its policy relating to investing in sustainable investments, i.e. in the context of the proportion of the Sub-Fund in sustainable investments only including investments with a positive net contribution to the UN SDGs by virtue of a net positive SDG score, based on the outputs from the ESG rating system. For the avoidance of doubt, the net positive SDG score, and therefore the level of sustainable investments, is determined on the basis of how an investment contributes, in terms of a total impact contribution (which includes an analysis of products, services and operational alignment), to an environmental or social objective. The Investment Manager successfully and consistently applied its methodology relating to UN SDGs. Sustainable investments were fully comprised of investments meeting the prescribed UN SDG criteria and therefore 81.6% of the Sub-Fund had investments align with the UN SDGs.

---

**CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025**

---

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/or social characteristics was equal (rounded to the nearest 1%) to the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments of the Sub-Fund targeted a combination of environmental and social objectives across the spectrum, as per below, based on alignment of such investments with the UN SDGs.

An investment with an environmental objective aligned with SFDR is one which is measured, for example, by key resource efficiency indicators on the use of energy, renewable energy, raw materials, water and land, on the production of waste, and greenhouse gas emissions, or on its impact on biodiversity and the circular economy.

An investment with a social objective aligned with SFDR is an investment that contributes to tackling inequality or that fosters social cohesion, social integration and labour relations, or an investment in human capital or economically or socially disadvantaged communities.

The objective of the sustainable investment was to have a net positive SDG Score.

81.6% of the Sub-Fund contributed to a net positive SDG Score. Highest scores were attained for a net positive contribution to UN SDG 5 (Gender Equality) and UN SDG 10 (Reduced Inequalities).

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

In terms of ensuring that the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective, a requirement for sustainable investments was the positive net contribution to UN SDGs, which covered a broad set of ESG activities.

In addition, the portfolio was systematically screened for controversies across environmental and/or social issues as part of LGT Capital Partner's "do no significant harm" assessment.

As an additional safeguard, the mandatory principal adverse impacts ("PAI") set out in Annex 1 of the regulatory technical standards supplementing the SFDR are used to further screen against activities that may significantly harm any of the environmental or social objectives, whereby investments that do not meet minimum thresholds applied by the Investment Manager for each of the mandatory PAI indicators in Annex 1 shall be excluded from investment consideration.

During the reporting period the sustainable investments did not cause significant harm to any environmental or social sustainable investment objective.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

Principal adverse impacts on sustainability factors were considered in the following manner:

- Principal adverse impact indicators were captured under the "do no significant harm" principle for sustainable investments outlined in the SFDR Annex of the Supplement to the Prospectus section entitled "How did the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?"

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025**

- Principal adverse impacts were assessed as part of the ESG rating system.
- Principal adverse impact indicators were reported on as outlined in the SFDR Annex of the Supplement to the Prospectus section entitled “How did this financial product consider principal adverse impacts on sustainability factors?”

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Yes, the Investment Manager monitored breaches and controversies for new and existing investments which largely relies on the quality of data supplied by external data providers.

Where the Investment Manager identifies clear breaches of norms outlined in the a) OECD Guidelines for Multinational Enterprises, b) the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work, and c) the International Bill of Human Rights the Investment Manager will seek to exclude the investee company from investment by the Sub-Fund.

During the reporting period there were no breaches of norms outlined in the above-mentioned norms.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Investment Manager considered the following principal adverse impact indicators in the investment management process. This is calculated with the Investment Manager’s proprietary ESG rating system and is part of our overall ESG Rating. This allows for enhanced insight in the adverse impacts caused by investee companies or issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility
<b>Indicators applicable to investments in investee companies</b>				
GHG Emissions	Total Scope 1 GHG Emissions (Tons of CO <sub>2</sub> eq.)	2,316.03	99.5%	99.5%
GHG Emissions	Total Scope 2 GHG Emissions (Tons of CO <sub>2</sub> eq.)	3,321.03	99.5%	99.5%

### What were the top investments of this financial product?

The top investments are listed below. For the identification of the top investments, we consider the weights at the end of each quarter and take an average of these. In doing so, it provides a comprehensive view of the holdings over the course the reference period 01.05.2024-30.04.2025.

Largest investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	6.8%	United States
Alphabet Inc	Communication Services	5.9%	United States
L'Oreal	Consumer Staples	5.6%	France
Unilever	Consumer Staples	5.1%	United Kingdom
Stryker Corp	Health Care	5.0%	United States
Taiwan Semiconductor Manufacturing Co	Information Technology	4.5%	Taiwan
Agilent Technologies Inc	Health Care	4.4%	United States
Idexx Laboratories Inc	Health Care	3.8%	United States
Nintendo Co	Communication Services	3.8%	Japan
Nvidia Corp	Information Technology	3.5%	United States
Heineken Nv	Consumer Staples	3.5%	Netherlands
Apple Inc	Information Technology	3.4%	United States
Amadeus It Group	Consumer Discretionary	3.3%	Spain
Resmed Inc	Health Care	3.1%	United States
Tencent Holdings	Communication Services	3.0%	China

## What was the proportion of sustainability-related investments?

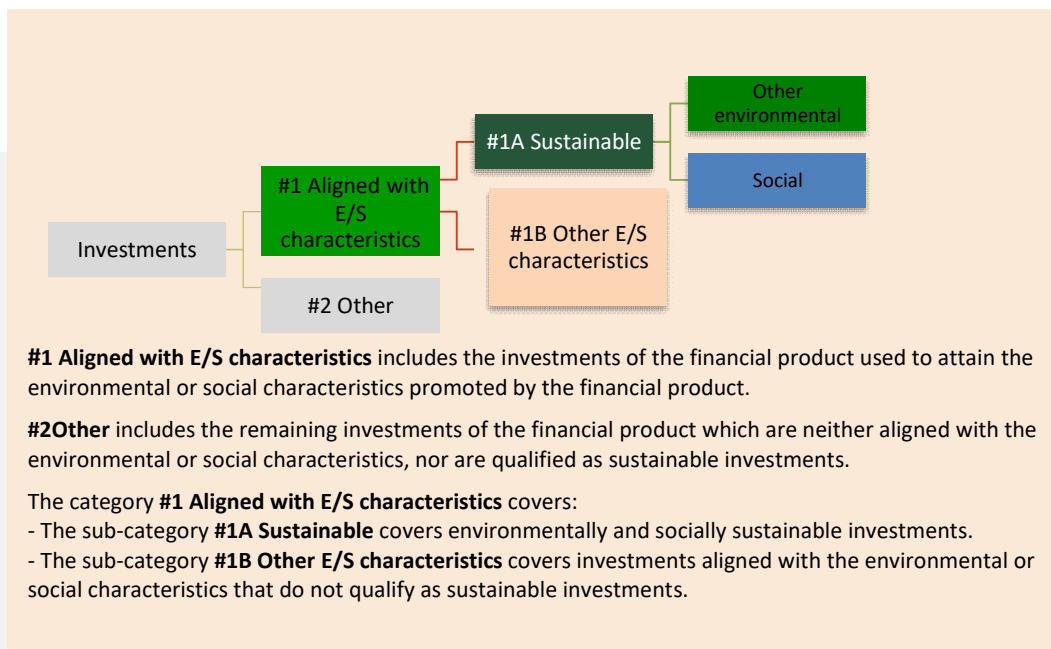

The Sub-Fund allocated 99.5% of its NAV to investments aligned with environmental and/or social characteristics.

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The Sub-Fund allocated 99.5% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics). The Sub-Fund allocated 81.6% to sustainable investments (#1A Sustainable), of which 59.7% was social sustainable investments and 21.8% was environmental sustainable investments.

The remaining portion of 0.5% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### In which economic sectors were the investments made?

Investments were made through a diversified asset allocation and a broad variety of economic sectors in accordance with the Supplement of the Prospectus in respect of the Sub-Fund.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund did not invest in environmentally sustainable economic activities aligned with the EU Taxonomy.

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

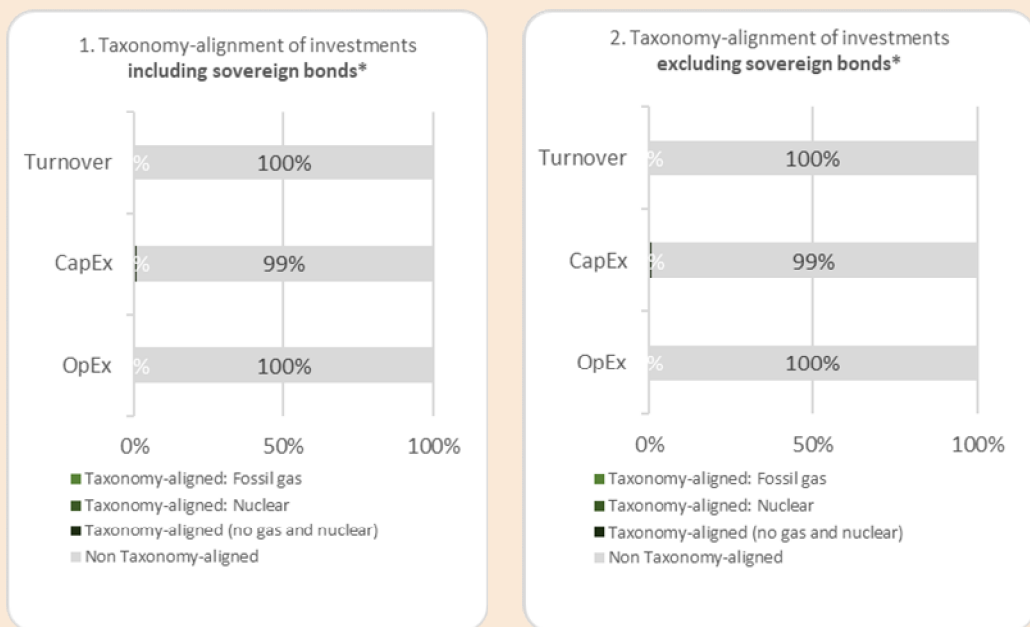

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>6</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The Sub-Fund did not invest in transitional and enabling activities aligned with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

<sup>6</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The share of sustainable investments with an environmental objective not aligned with the EU Taxonomy was 21.8%.

### **What was the share of socially sustainable investments?**

The share of socially sustainable investments was 59.7%.

### **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Sub-Fund made 0.5% of investments in “#2 Other”.

Investments under “#2 Other” were investments which were neither aligned with the environmental or social characteristics nor qualify as sustainable investments, for example:

- There may be insufficient data available to verify any classification under sustainable investments or investments with environmental and/or social characteristics.
- There may have been exposures where an ESG assessment could not be applied or there was lacking market practice for appropriate quantification of ESG factors.
- Exposures consisting of certain FDI, hedging, cash or cash equivalents.

The Investment Manager applied minimum safeguards through a screening that is conducted to capture severe controversies or violations of social norms, taken into account as part of the final ESG score of an investee company of the Sub-Fund. Investors should note that, while the Investment Manager has developed a comprehensive tool to rate securities on ESG-related metrics, there may exist instances where data is lacking, and such assessment may be impacted on this basis.

Exclusions are also applied by the Investment Manager in the investment selection process based on ESG factors.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

The Investment Manager conducted the following engagements:

- **Engagement with direct investments:** As an active direct investor in equities, the Investment Manager are in continuous dialogue with companies. It is a two-way dialogue that allows the Investment Manager to express its expectations as a sustainable investor, while also providing companies with the opportunity to offer further clarification and insight into their ESG practices and aspirations.

Some of the most frequent topics of engagement included climate action (greenhouse gas, transition), water risks and biodiversity.

- **Industry engagement:** We work together with international partners, networks and initiatives to raise awareness for ESG issues and enhance analytical tools.

In respect of additional actions taken to meet the environmental and/or social characteristics during the reference period, the Investment Manager continued alignment of the Sub-Fund’s carbon footprint in line with the Net Zero Emissions by 2050 budget. This alignment included carbon budgets for each security.

---

**CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025**

---

Investors should note, the Sub-Fund does not target a climate transition objective as specified under EU 2019/2088, nor does it explicitly promote such investment objective or characteristic, however, the Investment Manager applies general principles and tools of carbon budgeting to assess alignment with international targets, such as the Net Zero Emissions by 2050 for comparative and performance management purposes.

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

The Benchmark used by the Sub-Fund is a mainstream index and does not take account of ESG factors and is therefore not consistent with the environmental and social characteristics promoted by the Sub-Fund.

<span style="color: green;">●●</span> <b>Yes</b>	<span style="color: grey;">●○</span> <b>X No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ____% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ____%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it took into account ESG related factors in the asset selection and investment consideration and / or monitoring process in the following ways:

The Investment Manager conducted an assessment of ESG factors, in the process to identify a universe of investable issuers through a systematic process which relies on information from underlying issuers (the **“Country Selection Model”**), resulting in a specific country classification (the **“ESG Rating”**).

Environmental and/or social characteristics considered as part of the ESG Rating (and therefore promoted as environmental and/or social characteristics by the Sub-Fund) included:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Green energy, emissions, natural resources, education, health, standards of living, civil liberties, gender equality, institutional strength, corruption, democracy, political stability.
- Environmental and/or social characteristics are further enriched with economic development inputs, such as economic growth and economic stability, on the basis that such characteristics are often intrinsically linked with the long-term ESG direction of Emerging Markets.

The above characteristics were assessed on a backward-looking basis using systematic data and enriched on an ongoing basis with forward-looking dissemination of in-house research, political assessments and research meetings.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics.

● ***How did the sustainability indicators perform?***

**Integration of ESG.** The Investment Manager considers the Sub-Fund has successfully and consistently integrated ESG in the investment process in the following manner:

- The ESG Rating as part of the Sub-Fund's Country Selection Model was successfully and consistently applied. In the Country Selection Model, quantitative and qualitative data was used. A greater weight was given to the long-term development of countries, which was consequently reflected in the ESG Rating the Investment Manager applied to countries. The Sub-Fund did not make any invests into F rated countries or currencies and avoided government bonds of C rated countries.
- The Investment Manager successfully and consistently applied the Sub-Fund's ESG exclusion policy.
- At the end of the reporting period 96.9% (incl. collaterals) of the investments were aligned with environmental and social characteristics.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/ or social characteristics was 1.9% lower than in the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

### How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the following principal adverse impact indicators as part of the asset allocation process. These indicators are computed as part of the ESG rating system. This allows for enhanced insight in the adverse impacts caused by issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility
<b>Indicators applicable to investments in sovereigns and supranationals</b>				
GHG intensity (country's Scope 1, 2 and 3 GHG emissions per million GDP)	GHG intensity (country's Scope 1, 2 and 3 GHG emissions per million GDP)	859.12	99.2%	99.2%
Investee countries subject to social violations	Number of investee countries subject to social violations (absolute number and relative number divided by all investee countries), as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	0.05	99.2%	99.2%

### What were the top investments of this financial product?

The top investments are listed below. For the identification of the top investments, we consider the weights at the end of each quarter and take an average of these. In doing so, it provides a comprehensive view of the holdings over the course the reference period 01.05.2024-30.04.2025.

### What was the proportion of sustainability-related investments?

96.9% of the portfolio promoted environmental and social characteristics (incl. collaterals).

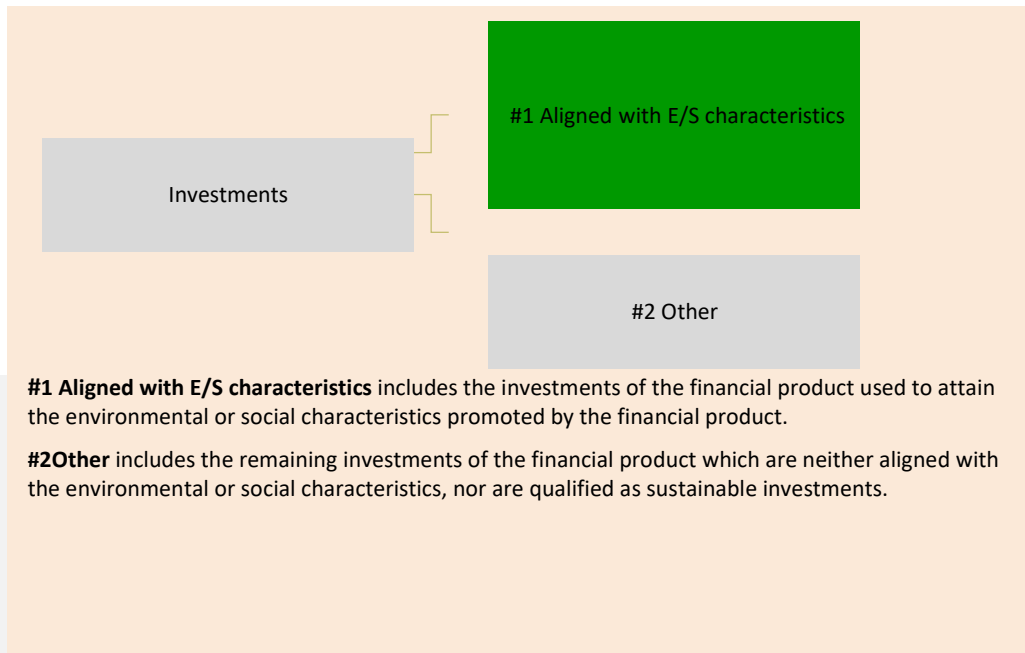

### What was the asset allocation?

The Sub-Fund allocated 96.9% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics).

The remaining portion of 3.1% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other). It consisted solely of the investments described under "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?".

**Asset allocation** describes the share of investments in specific assets.

**CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Investments were made in government bonds. FX and interest rate derivatives were used for risk management purposes.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Sub-Fund did not invest in environmentally sustainable economic activities aligned with the EU Taxonomy.

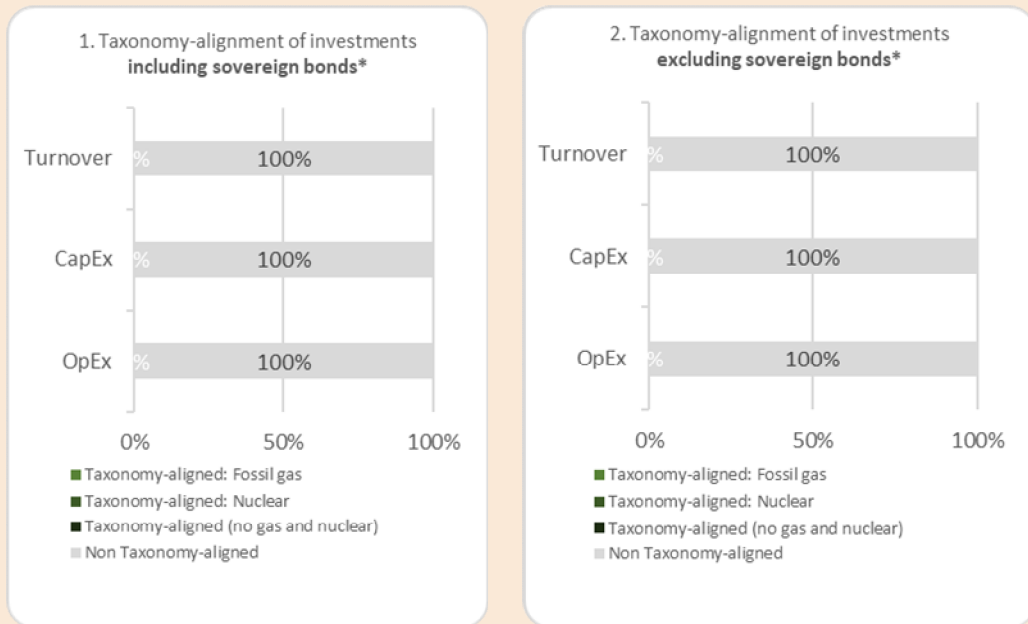

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>7</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

<sup>7</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**  
 The Sub-Fund did not invest in transitional and enabling activities aligned with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**  
 Not applicable.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**  
 Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

● **What was the share of socially sustainable investments?**  
 Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Investments under “#2 Other” were investments which are not aligned with the environmental or social characteristics. The instruments in this category were FX derivatives and options. The Sub-Fund does not use derivatives specifically for the purpose of attaining the environmental and or social characteristics it promotes.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

Rather, the Sub-Fund may use derivatives for ordinary purposes, that is, for investment purposes, hedging and/or for efficient portfolio management purposes.

A screening was conducted to capture countries subject to comprehensive sanctions, per the Investment Manager's policy, which was taken into account as part of the final ESG Rating of an applicable country. Therefore, in line with the exclusion policy, the Sub-Fund did not invest into countries rated as F, based on Country Selection Model or currencies (FX derivatives or options) of these countries.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with the pre-contractual commitments.

Further, the Investment Manager interacted actively with issuers, which included the following:

#### Direct Engagement

- The Investment Manager established and maintained dialogue with issuers on topics related to the attainment of the Fund's strategy and investment objective. This included on-the-ground research visits to meet the country representatives.

#### Indirect Engagement

- The Investment Manager engaged issuers indirectly through its active participation in industry associations or organizations on sustainability related topics that partook in dialogue with issuers. The Investment Manager is committed to being an active collaborator and thought leader, which is further demonstrated through its participation in UN Principles for Responsible Investment, the Institutional Investors Group on Climate Change and the Climate Action 100+ initiative.

Details on engagement activities are reported on an annual basis and are available in LGT Capital Partners Active Ownership Report 2024 available on [www.lgtcp.com](http://www.lgtcp.com).

### **How did this financial product perform compared to the reference benchmark?**

The Sub-Fund has not designated a specific index as a reference benchmark to determine whether it is aligned with the environmental and/or social characteristics that it promotes.

#### **● How does the reference benchmark differ from a broad market index?**

Not applicable.

---

CROWN SIGMA UCITS PLC  
SUPPLEMENTAL INFORMATION  
FOR THE YEAR ENDED 30 APRIL 2025

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

Product name: LGT EM Frontier LC Bond Sub-Fund

Legal entity identifier: 549300WBW2FCTXCREH23

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective?

<span style="color: green;">●●</span> <b>Yes</b>	<span style="color: grey;">●○</span> <b>X No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager considers that the environmental and/or social characteristics have been met in accordance with pre-contractual commitments.

The Sub-Fund promoted environmental and social characteristics, as it took into account ESG related factors in the asset selection and investment consideration and / or monitoring process in the following ways:

The Investment Manager conducted an assessment of ESG factors, in the process to identify a universe of investable issuers through a systematic process which relies on information from underlying issuers (the **“Country Selection Model”**), resulting in a specific country classification (the **“ESG Rating”**).

Environmental and/or social characteristics considered as part of the ESG Rating (and therefore promoted as environmental and/or social characteristics by the Sub-Fund) included:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

---

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

---

- Green energy, emissions, natural resources, education, health, standards of living, civil liberties, gender equality, institutional strength, corruption, democracy, political stability.
- Environmental and/or social characteristics are further enriched with economic development inputs, such as economic growth and economic stability, on the basis that such characteristics are often intrinsically linked with the long-term ESG direction of Emerging Markets.

The above characteristics were assessed on a backward-looking basis using systematic data and enriched on an ongoing basis with forward-looking dissemination of in-house research, political assessments and research meetings.

No reference benchmark was designated for the purpose of attaining the environmental or social characteristics.

● ***How did the sustainability indicators perform?***

**Integration of ESG.** The Investment Manager considers the Sub-Fund has successfully and consistently integrated ESG in the investment process in the following manner:

- The ESG Rating as part of the Sub-Fund's Country Selection Model was successfully and consistently applied. In the Country Selection Model, quantitative and qualitative data was used. A greater weight was given to the long-term development of countries, which was consequently reflected in the ESG Rating the Investment Manager applied to countries. The Sub-Fund did not make any invests into F rated countries or currencies and avoided government bonds of C rated countries.
- The Investment Manager successfully and consistently applied the Sub-Fund's ESG exclusion policy.
- At the end of the reporting period 98.0% (incl. collaterals) of the investments were aligned with environmental and social characteristics.

● ***...and compared to previous periods?***

The share of investments that promoted environmental and/ or social characteristics was 1.0% higher than in the previous reporting period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Sub-Fund did not make a commitment to sustainable investments.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any*

### How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the following principal adverse impact indicators as part of the asset allocation process. These indicators are computed as part of the ESG rating system. This allows for enhanced insight in the adverse impacts caused by issuers.

Based on the performance of these indicators, the Investment Manager expects to mitigate the effects of the Sub-Fund over a longer time horizon.

Indicator	Metric	Portfolio Exposure	Portfolio Coverage	Portfolio Eligibility

### What was the proportion of sustainability-related investments?

98.0% of the portfolio promoted environmental and social characteristics (incl. collaterals).

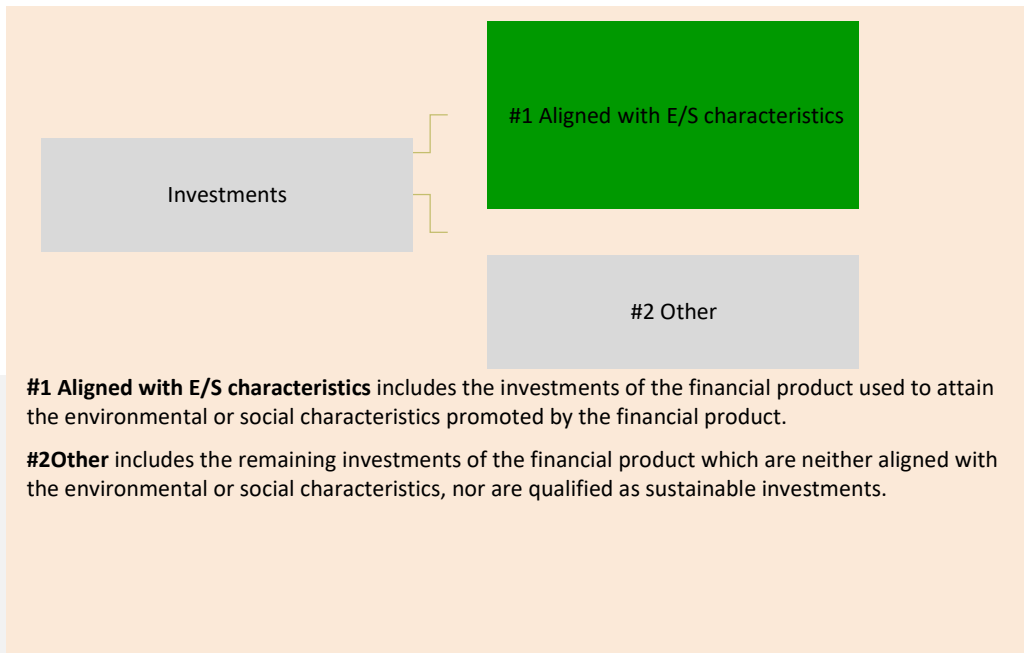

### What was the asset allocation?

The Sub-Fund allocated 98.0% to investments aligned with environmental and/or social characteristics (#1 Aligned with E/S characteristics).

The remaining portion of 2.0% are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments (#2 Other). It consisted solely of the investments described under "What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?".

**Asset allocation** describes the share of investments in specific assets.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Investments were made in government bonds, bonds issued by AAA-rated supranational issuers and development banks and FX derivatives and options.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Sub-Fund did not invest in environmentally sustainable economic activities aligned with the EU Taxonomy.

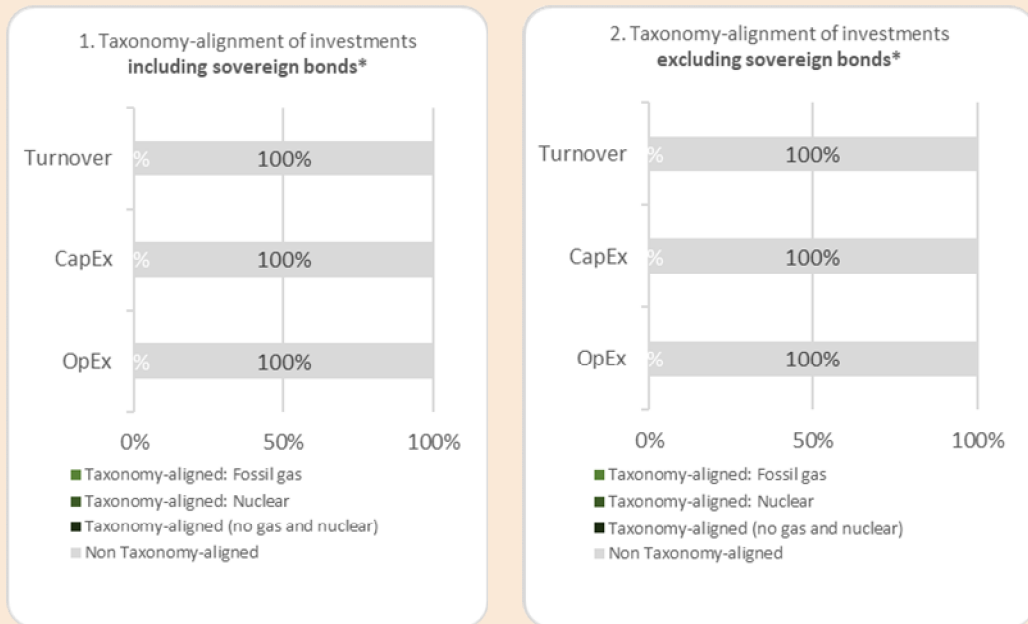

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>8</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

<sup>8</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**CROWN SIGMA UCITS PLC**  
**SUPPLEMENTAL INFORMATION**  
**FOR THE YEAR ENDED 30 APRIL 2025**

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:
