

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

**(an umbrella investment company with variable capital having segregated liability between its Funds
incorporated with limited liability in Ireland under registration number 267219)**

ANNUAL REPORT AND

AUDITED FINANCIAL STATEMENTS

For the financial year ended 31 December 2022

No subscriptions should be made on the basis of the financial report alone. Subscriptions should only be made on the basis of the current Prospectus supplemented by the latest Annual Report and the latest Semi-Annual Report, if published thereafter.

Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Background to the Company

The following information is derived from and should be read in conjunction with the full texts and definitions section of the Prospectus.

Natixis International Funds (Dublin) I plc (the “Company”) is structured as an open-ended umbrella investment company with variable capital and segregated liability between its funds, incorporated under the laws of Ireland on 26 June 1997 as a public limited company pursuant to the Companies Act 2014. The Company has been authorised by the Central Bank of Ireland (the “Central Bank”) as an investment company pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”). The Company commenced operations on 30 June 1997.

The Fund’s Key Investor Information Documents (“KIID”) are structured by share class type focusing on the representative share for a given class. There are currently Redeemable Participating Shares of seven Funds (the “Funds”) in issue, Natixis International Funds (Dublin) I - Loomis Sayles Multisector Income Fund* (hereafter “Loomis Sayles Multisector Income Fund”), Natixis International Funds (Dublin) I - Loomis Sayles High Income Fund** (hereafter “Loomis Sayles High Income Fund”), Natixis International Funds (Dublin) I - Loomis Sayles Global Opportunistic Bond Fund** (hereafter “Loomis Sayles Global Opportunistic Bond Fund”), Natixis International Funds (Dublin) I - Loomis Sayles Alternative Risk Premia Fund** (hereafter “Loomis Sayles Alternative Risk Premia Fund”), Natixis International Funds (Dublin) I - Loomis Sayles Euro High Yield Fund** (hereafter “Loomis Sayles Euro High Yield Fund”), Natixis International Funds (Dublin) I - Loomis Sayles Euro Credit Fund** (hereafter “Loomis Sayles Euro Credit Fund”) and Natixis International Funds (Dublin) I - Loomis Sayles Sustainable Euro Credit Fund** (hereafter “Loomis Sayles Sustainable Euro Credit Fund”).

These KIID were submitted to the Central Bank on the following dates:

- Loomis Sayles Multisector Income Fund – 14 February 2022
- Loomis Sayles High Income Fund – 14 February 2022
- Loomis Sayles Global Opportunistic Bond Fund – 14 February 2022
- Loomis Sayles Alternative Risk Premia Fund – 14 February 2022
- Loomis Sayles Euro High Yield Fund – 14 February 2022
- Loomis Sayles Euro Credit Fund – 14 February 2022
- Loomis Sayles Sustainable Euro Credit Fund – 14 February 2022

* Authorized in Hong Kong and available to the public in Hong Kong.

** Not authorized in Hong Kong and not available to the public in Hong Kong.

Japanese Yen (JPY)	Class I and Class S
Swiss Franc (CHF)	Class H-I, Class H-N, Class H-N1, Class H-R, Class H-RE, Class H-S and Class H-S2
Australian Dollar (AUD)	Class H-I, Class H-S, Class H-R and Class H-RE

As at 31 December 2022, there were no CW and no J share classes in issue.

Investment Objectives and Policies

Loomis Sayles Multisector Income Fund

The investment objective of Loomis Sayles Multisector Income Fund (the “Fund”) is high total investment return through a combination of current income and capital appreciation. The Fund invests at least 80% of its Net Asset Value in bonds and other related fixed income securities issued or guaranteed by the U.S. Government or its authorities or instrumentalities or fixed income securities issued by supranational entities (e.g. the World Bank) as well as commercial paper, zero coupon securities, asset-backed securities, mortgage-backed securities (including collateralised mortgage obligations), when-issued securities, Regulation S Securities, Rule 144A securities, structured notes and convertible securities in accordance with the UCITS Regulations.

The Fund may invest up to 20% of its Net Asset Value in securities other than those described above, such as common stocks, preferred stocks, and closed-ended U.S. real estate investment trusts (“REITS”). The Fund may invest up to 10% of its Net Asset Value in units of undertakings for collective investment. The Fund may invest any amount of its assets in securities of U.S. and Canadian issuers (such securities being listed or traded on a global basis on the markets set out in the Prospectus) and up to 30% of its Net Asset Value in securities of other non-U.S. or non-Canadian issuers including issuers in emerging markets. The Fund may invest any amount of its Net Asset Value in securities issued by supranational issuers. The Fund may invest in securities denominated in any currency including currencies of emerging markets countries. The Fund may invest in securities of any maturity. The Fund may also invest up to 35% of its Net Asset Value in securities of below investment grade quality. Securities of below investment grade quality are securities rated less than BBB- (Standard & Poor’s Rating Services), Baa3 (Moody’s Investor Service, Inc.), an equivalent rating by Fitch Ratings or, if unrated, determined by the Management Company or any Investment Manager to be of equivalent quality. The Fund does not impose limits on the amount of its assets invested in cash or money market instruments.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Background to the Company (Continued)

Investment Objectives and Policies (Continued)

Loomis Sayles High Income Fund

The investment objective of Loomis Sayles High Income Fund (the “Fund”) is high total investment return through a combination of current income and capital appreciation. The Fund invests at least 51% of its Net Asset Value in fixed income securities, which are listed or traded on a global basis on the markets set out in the Prospectus. The fixed income securities in which the Fund may invest include corporate securities, securities issued or guaranteed by the U.S. Government or its authorities or instrumentalities (“U.S. Government Securities”), or supranational entities (e.g. the World Bank), commercial paper, zero coupon securities, mortgage-backed securities, collateralised mortgage obligations, asset-backed securities, U.S. real estate investment trust (“REITS”), Regulation S Securities, Rule 144A securities and convertible securities in accordance with the UCITS Regulations.

The Fund may invest up to 49% of its Net Asset Value in cash or securities other than those described above. The Fund invests no more than 20% of its Net Asset Value in preferred stocks and no more than 10% of its Net Asset Value in common stocks and up to 10% of its Net Asset Value in units of undertakings for collective investment. It may also invest any portion of its Net Asset Value in securities of U.S., Canadian and supranational issuers and up to 50% of its Net Asset Value in the securities of other non-U.S., non-Canadian and non-supranational issuers. The Fund may invest any portion of its assets in securities of below investment grade quality.

Loomis Sayles Global Opportunistic Bond Fund

The investment objective of Loomis Sayles Global Opportunistic Bond Fund (the “Fund”) is high total investment return through a combination of high current income and capital appreciation. The Fund invests primarily in fixed income securities of issuers located in any country of the world, selected on an opportunistic basis. The Fund invests at least two-thirds of its Net Asset Value in investment grade fixed income securities issued by issuers on a world-wide basis, such securities being listed or traded on a global basis on the markets set out in the Prospectus and, for hedging and efficient portfolio management purposes, in global currencies including currency exchange transactions. Fixed income securities in which the Fund may invest include corporate fixed income securities, fixed income securities issued or guaranteed by sovereign governments or public international bodies as well as zero coupon securities, Regulation S Securities, Rule 144A securities, asset-backed securities and mortgage-backed securities. Investment grade fixed income securities are securities rated at least BBB- (Standard & Poor’s Ratings Services), Baa3 (Moody’s Investors Service, Inc.), an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality.

The Fund may invest in fixed income securities that may be denominated in any currency and may be issued by issuers located in countries with emerging securities markets. The Fund may invest in fixed-income securities of any maturity. The Fund may invest in currencies other than the Base Currency.

The Fund may invest up to one-third of its Net Asset Value in cash or securities other than those described above, such as hybrid bonds, commercial paper, collateralised mortgage obligations, convertible securities, equities and other equity-type securities in accordance with the UCITS Regulations and up to 20% of its Net Asset Value in securities of below investment grade quality (commonly known as “junk bonds”). The Fund may invest up to 10% of its Net Asset Value in units of undertakings for collective investment. The Fund may invest up to 10% of its total assets in fixed income securities listed on the China Interbank Bond Market through the mutual bond market access between mainland China and Hong Kong (the “Bond Connect”). The Fund may not invest more than 25% of its Net Asset Value in convertible bonds and no more than 10% of its Net Asset Value in equities and other equity-type securities such as common stocks, warrants, depositary receipts for any of those equity securities.

Loomis Sayles Alternative Risk Premia Fund

The investment objective of Loomis Sayles Alternative Risk Premia Fund (the “Fund”) is to seek positive absolute returns and capital growth. The Fund will seek to achieve this investment objective by aiming to capture risk premia linked to several investment factors across a broad range of asset classes.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Background to the Company (Continued)

Investment Objectives and Policies (Continued)

The Fund will seek to invest globally in the full spectrum of permitted investments namely debt securities, equity securities, shares or units of undertakings for collective investment (including exchange traded funds), derivatives, cash and near cash instruments. The Fund may make significant use of derivative instruments. The Fund may also have exposure to commodities through eligible exchange traded notes (ETNs) that qualify as transferable securities within the meaning of Regulation 3(1) of the Regulations and through Total Return Swaps (TRS) on commodity indices.

The debt securities in which the Fund may invest include public debt obligations (for example government bonds) or private debt obligations (for example corporate bonds). They are issued or guaranteed by issuers anywhere in the world, including but not limited to corporations, governments (including their agencies, instrumentalities and sponsored entities) and supranational entities (e.g. the World Bank). The Fund may invest in floating-rate securities, commercial paper, Regulation S Securities, Rule 144A securities and convertible securities issued by corporate issuers.

The Fund may invest any portion of its Net Asset Value in investment grade and below investment grade securities. Investment grade securities are securities rated greater than BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. Below investment grade securities are securities rated less than BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality.

The equity securities in which the Fund may invest are common stocks, preferred stocks, equity-related instruments on an ancillary basis such as warrants and equity-linked notes whose value is derived from the value of any of those equity securities, and depositary receipts for any of those equity investments.

The Fund may invest up to 10% of its Net Asset Value in undertakings for collective investment, including but not limited to, exchange traded funds that qualify as UCITS.

For investment and efficient portfolio management purposes, the Fund may:

- enter into futures contracts and options on financial indices, equities, debt securities and interest rates in order to gain exposure globally across the full range of permitted assets including equity and debt securities;
- enter into futures contracts and options on currencies and currency forwards allowing the Fund to gain exposure to various currencies;
- enter into TRS on financial indices in order to gain exposure to commodities or assets that may otherwise be inefficient or costly to access through traditional investments in physical securities;
- engage in the credit derivatives market by entering into credit default swaps and obtaining exposures to credit-based indices through futures and options on such indices in order to sell and buy protection;
- enter into interest rate swaps in order to adequately extract rate premium from global markets by swapping fixed-rate interest payments (in a bull market) for floating-rate interest payments (in a bear market) or vice versa (as market movements dictate); and
- invest in ETNs in order to gain indirect exposure to commodities.

To support the Fund's use of derivative instruments, the Fund may invest in money market instruments, short-term debt securities and hold cash. Money market instruments, short-term debt securities, cash and cash equivalents may include, among others, certificates of deposit, commercial paper, U.S. treasury bills, corporate debt securities (such as corporate bonds) and short-term bonds issued or guaranteed by sovereign governments, public international bodies or other public issuers and time deposits.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Background to the Company (Continued)

Investment Objectives and Policies (Continued)

In addition to taking long positions in respect of each of the asset classes named above, the Fund may take synthetic short positions through derivatives in any asset class. The Fund is not permitted to enter into “physical short sales”. The Fund will generally invest in a portfolio of up to 250% of its Net Asset Value in long positions, and up to 250% of its Net Asset Value in short positions. The Investment Manager may aim to generate positive returns from both long and short positions, although short positions may also be used to hedge out certain risk exposures in the portfolio (for example, currency or interest rate risk).

Loomis Sayles Euro High Yield Fund

The investment objective of Loomis Sayles Euro High Yield Fund (the “Fund”) is to seek return through a combination of income and capital appreciation.

The Fund may invest any portion of its Net Asset Value in below investment grade, debt securities issued by companies (such as corporate bonds) denominated in Euro. The debt securities in which the Fund invests may be issued by companies anywhere in the world, which are also listed or traded on Regulated Markets. Below investment grade debt securities are securities rated less than BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. No more than 10% of the Fund's Net Asset Value may be invested in below investment grade debt securities of a highly speculative nature, being securities rated either B+, B or B- (Standard & Poor's Ratings Services), B1, B2 or B3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. The Fund may invest up to 30% of its Net Asset Value in investment grade debt securities; being securities rated greater than or equal to BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. In the instance of a split-rated issue, the average of the ratings will apply.

The Fund may invest no more than 20% of its Net Asset Value in investment grade and/or below investment grade public debt securities (such as government bonds). They are issued or guaranteed by issuers anywhere in the world, including but not limited to governments (including their agencies, instrumentalities and sponsored entities) and supranational entities (e.g. the World Bank). The Fund may invest up to 10% of its Net Asset Value, at time of purchase, in debt securities denominated in currencies other than Euro.

The Fund may not invest in asset backed securities and will not invest in any equity securities. The Fund may invest up to 10% of its Net Asset Value in units of undertakings for collective investment.

The Fund may not invest in debt securities rated at or below CCC+ (Standard & Poor's Ratings Services), Caa1 (Moody's Investors Service, Inc.), an equivalent rating by Fitch Ratings or if unrated, determined by the Investment Manager to be equivalent. If the credit ratings of any debt securities are downgraded below B- (Standard & Poor's Ratings Services), B3 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings, the Fund may continue to hold the affected debt securities. Subject to state of the markets at the relevant time and provided it is in the best interests of investors, the affected security shall be sold within six months from the downgrade unless a subsequent upgrade restores the credit rating to a level meeting the relevant limit as set out above during this same period.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Background to the Company (Continued)

Investment Objectives and Policies (Continued)

For investment purposes and for the purposes of efficient portfolio management, the Fund may:

- use futures, swaps, currency options and forward contracts in order to expose its assets to, or hedge its assets against, risks linked to interest rates, exchange rates or credit, within the limits described in Appendix II of the Prospectus, under the Section entitled "Investment in Financial Derivative Instruments ("FDIs") – Efficient Portfolio Management/Direct Investment";
- enter into interest rate swaps in order to adequately extract rate premium from global markets by swapping fixed-rate interest payments (in a bull market) for floating-rate interest payments (in a bear market) or vice versa (as market movements dictate);
- access the credit derivatives market by entering into, among other things, credit default swaps in order to sell and buy protection. The Fund may use credit derivatives in order to hedge the specific credit risks of certain issuers in its portfolio by buying protection. In addition, the Fund may, provided it is in its best interest, buy protection using credit derivatives without holding the underlying assets. Provided it is in its best interest, the Fund may also sell protection using credit derivatives in order to acquire a specific credit exposure; and
- on an ancillary basis, invest in financial derivative instruments linked to one or more credit indices such as, but not limited to, Markit iTraxx® Europe Main Index and Markit iTraxx® Crossover Index. Information related to these indices may be obtained from the Markit website (www.markit.com). The constituents of such indices are generally rebalanced on a semi-annual basis. The costs associated with the rebalancing of such indices are generally expected to be negligible.

To support the Fund's use of derivative instruments, the Fund may invest in money market instruments, short-term debt securities and hold cash. Financial derivative instruments may be used for investment purposes and for efficient portfolio management subject to compliance with the conditions and limits set out in Appendix II of the Prospectus. Please see the section on the "Use of Financial Derivative Instruments" of the Prospectus for further details. The Fund may be leveraged up to 100% of its Net Asset Value using the Commitment Approach.

The maximum proportion of the Fund's Net Asset Value that can be subject to TRS is 100%. The expected proportion of the Fund's Net Asset Value that will be subject to TRS is 0%. The maximum proportion of the Fund's Net Asset Value that can be subject to SFTs is 100%. The expected proportion of the Fund's Net Asset Value that will be subject to SFTs is 0%. Please refer to the Section entitled Appendix II of the Prospectus, under the Section entitled "Investment in Financial Derivative Instruments ("FDIs") – Efficient Portfolio Management/Direct Investment" for additional information on TRSs and SFTs.

If the investment limit percentages set forth above are exceeded for reasons beyond the control of the Fund or as a result of the exercise of subscription rights, the Fund will adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of Shareholders.

Loomis Sayles Euro Credit Fund

The investment objective of Loomis Sayles Euro Credit Fund (the "Fund") is to seek return through a combination of income and capital appreciation.

The Fund may invest any portion of its Net Asset Value in investment grade, debt securities issued by companies (such as corporate bonds) denominated in Euro. The debt securities in which the Fund invests may be issued by companies anywhere in the world, which are also listed or traded on Regulated Markets. Investment grade debt securities are securities rated greater than or equal to BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. In the instance of a split-rated issue, the lower of the ratings will apply. The Fund may also invest any portion of its Net Asset Value in investment grade public debt securities (such as government bonds) issued by governments (including their agencies, instrumentalities and sponsored entities) and supranational entities (e.g. the World Bank).

The Fund may invest up to 10% of its assets in securities rated below investment grade; however such securities must be rated no lower than BB- (Standard & Poor's Ratings Services), Ba3 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings at the time of purchase. The Fund may invest up to 10% of its Net Asset Value, at time of purchase, in debt securities denominated in currencies other than Euro.

The expected proportion of the Fund's Net Asset Value that will be subject to SFTs is 0%. Please refer to the Section entitled Appendix II of the Prospectus, under the Section entitled "Investment in Financial Derivative Instruments ("FDIs") – Efficient Portfolio Management/Direct Investment" for additional information on TRSs and SFTs.

If the investment limit percentages set forth above are exceeded for reasons beyond the control of the Fund or as a result of the exercise of subscription rights, the Fund will adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of Shareholders.

Loomis Sayles Sustainable Euro Credit Fund

The investment objective of Loomis Sayles Sustainable Euro Credit Fund (the "Fund") is to seek to create investment return in the form of capital appreciation and income, through an investment process that includes Environmental, Social and Governance ('ESG') considerations.

The Fund may invest any portion of its Net Asset Value in investment grade, debt securities issued by companies (i.e. corporate bonds) denominated in Euro. The debt securities in which the Fund invests may be issued by companies anywhere in the world, which are also listed or traded on Regulated Markets.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Background to the Company (Continued)

Investment Objectives and Policies (Continued)

The debt securities in which the Fund invests may also be Green Bonds, subject to the Principal Investment Strategy described above and the specifications set out in this Investment Policy. Investment grade debt securities are securities rated greater than or equal to BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. In the instance of a split-rated issue, the lower of the ratings will apply. The Fund may also invest any portion of its Net Asset Value in investment grade public debt securities (such as government bonds) issued by governments (including their agencies, instrumentalities and sponsored entities) and supranational entities (e.g. the World Bank).

The Fund may invest up to 10% of its assets in securities rated below investment grade; however such securities must be rated no lower than BB- (Standard & Poor's Ratings Services), Ba3 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings at the time of purchase. The Fund may invest up to 10% of its Net Asset Value, at time of purchase, in debt securities denominated in currencies other than Euro.

The Fund may not invest in asset backed securities and will not invest in any equity securities. The Fund may invest up to 10% of its Net Asset Value in units of undertakings for collective investment.

The Fund may not invest in debt securities rated at or below B+ (Standard & Poor's Ratings Services), B1 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings. If the credit ratings of any debt securities are downgraded below BB- (standard & Poor's Ratings Services), Ba3 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings, the Fund may continue to hold the affected debt securities. Subject to state of the markets at the relevant time and provided it is in the best interests of investors, the affected security shall be sold within six months from the downgrade unless a subsequent upgrade restores the credit rating to a level meeting the relevant limit as set out above during this same period.

For investment purposes and for the purposes of efficient portfolio management, the Fund may:

- use futures, swaps, currency options and forward contracts in order to expose its assets to, or hedge its assets against, risks linked to interest rates, exchange rates or credit, within the limits described in Appendix II of the Prospectus, under the Section entitled "Investment in Financial Derivative Instruments ("FDIs") – Efficient Portfolio Management/Direct Investment";

The latest version of the Prospectus is also available from the Administrator at the address listed on page 1.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Investment Manager's Reports

Loomis Sayles Multisector Income Fund

1 Year Performance	
Loomis Sayles Multisector Income Fund (Class I/D (USD))*	-12.83 %
Bloomberg Barclays U.S. Government/Credit Bond Index (Total Return)	-13.58 %

For indicative purposes, the Fund's performance is compared to the Bloomberg Barclays U.S. Government/ Credit Bond Index (Total Return) (the "Reference Index"). The Fund outperformed its Reference Index in the 12 months ended 31 December 2022.

- Yield curve positioning was the primary source of outperformance given the duration of the Fund was lower than the index.
- Performance was aided by defensive, reserve-like positions such as cash and short term treasuries as risk-off sentiment prevailed.
- An allocation to emerging market credit was a detractor particularly Chinese property developers.
- High yield detracted, including a handful of higher conviction positions in the communications sector.

* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

Loomis Sayles High Income Fund

1 Year Performance	
Loomis Sayles High Income Fund (Class I/D (USD))*	-14.03 %
Bloomberg Barclays U.S. Corporate High-Yield Bond Index (Total Return)	-11.19 %

For indicative purposes, the Fund's performance is compared to the Bloomberg Barclays U.S. Corporate High-Yield Bond Index (Total Return) (the "Reference Index"). The Fund underperformed its Reference Index in the 12 months ended 31 December 2022.

- Security selection within high yield credit was the primary source of underperformance, in particular a handful of higher conviction positions, particularly in the communications and consumer non-cyclical sectors.
- Emerging market corporate credit detracted, particularly in Asia credit.
- An allocation to defensive, reserve-like positions and US Treasuries was beneficial as risk-off sentiment prevailed.

* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Loomis Sayles Global Opportunistic Bond Fund

1 Year Performance	
Loomis Sayles Global Opportunistic Bond Fund (Class I/D (USD))*	-17.18 %
Bloomberg Barclays Global Aggregate Index (Total Return)	-16.25 %

For indicative purposes, the Fund's performance is compared to the Bloomberg Barclays Global Aggregate Index (Total Return) (the "Reference Index"). The Fund underperformed its Reference Index in the 12 months ended 31 December 2022.

- The Fund performed similarly to its Reference Index. Local market positioning in the US dollar, British Pound Sterling, and Australian dollar-pay markets were primary contributors. The duration underweight in the US was beneficial as yields surged throughout the year.
- Overweight allocation to corporate credit sectors detracted, in particular, risk-adjusted overweights to banking, financial other, and transportation.
- Conversely, underweights to agency MBS and sovereign issuers contributed positively to relative performance. Currency allocation detracted driven by allocation to the Swedish krona, Japanese yen, and euro.

* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. Performance shown is net of all Fund expenses, but does not include the effect of sales charges or correspondent bank charges, and assumes reinvestment of distributions. If such charges were included, returns would have been lower. Performance for other share classes will be more or less depending on differences in fees and sales charges. Unless otherwise indicated, all defined terms used herein shall have the same meaning as set out in the Prospectus of the Company.

85% ICE BofA BB Euro High Yield Non-Financial Constrained Index (Total Return), 15% ICE BofA Euro Subordinated Financial Index (Total Return)	-11.56 %

For indicative purposes, the Fund's performance is compared to the 85% ICE BofA BB Euro High Yield Non-Financial Constrained Index and 15% ICE BofA Euro Subordinated Financial Index (the "Reference Index"). The Fund outperformed its Reference Index in the 12 months ended 31 December 2022.

- The Fund outperformed its Reference Index due to security selection.
- The industries that contributed the most were industrial goods & services, oil & gas, insurance, health care and automotive.
- The industries that detracted the most were real estate, food & beverage and technology.
- Positioning in Citycon, CPI Property, Goodyear Tire, Ardagh Metal Packaging and Samhallsbyggnadsbolaget i Norden, detracted the most from relative returns.
- Positioning in Gazprom, ZF Friedrichshafen, International Consolidated Airlines Group, Fosun International and IHO Verwaltungs, contributed the most to relative returns.

* Performance data shown represents past performance and is not a guarantee of future results. More recent performance may be lower or higher. Principal value and returns fluctuate over time (including as a result of currency fluctuations) so that shares, when redeemed, will be worth more or less than their original cost. NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Report of the Depositary to the Shareholders

We have enquired into the conduct of Natixis International Funds (Dublin) I plc (“the Company”) for the financial year ended 31 December 2022, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (“the UCITS Regulations”), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company’s constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Directors' Report

The Directors submit their annual report together with the audited financial statements of Natixis International Funds (Dublin) I plc (the "Company") for the financial year ended 31 December 2022.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and International Financial Reporting Standards as adopted by the European Union (EU).

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for that financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The financial statements are published on www.im.natixis.com website. The Directors, together with the Investment Manager are responsible for the maintenance and integrity of the financial information on this website.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to a Depositary for safekeeping. In carrying out this duty, the Company has entrusted safekeeping of the Company's assets to Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary"). The Depositary is regulated by and under the supervision of the Central Bank of Ireland.

Directors' Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in Section 225 of the Companies Act 2014. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations and which arrangements and structures have been reviewed during the reporting period. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations. These relevant obligations under Section 225 of the Companies Act 2014 are separate from and additional to the legal and regulatory requirements to which the Company is subject by virtue of its regulation by the Central Bank of Ireland.

Accounting records

The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records are the use of appropriate systems and procedures and the appointment of experienced administrators and service providers. To this end, the Directors have appointed Brown Brothers Harriman Fund Administration Services (Ireland) Limited ("the Administrator") to provide fund accounting, fund administration and transfer agency services. The accounting records are kept by Brown Brothers Harriman Fund Administration Services (Ireland) Limited, at 30 Herbert Street, Dublin D02 W329, Ireland. The Administrator is regulated by and under the supervision of the Central Bank of Ireland.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Directors' Report (Continued)

Principal Activities

The Company was originally authorised by the Central Bank as an investment company pursuant to Part 24 of the Companies Act 2014. On 24 August 2000, the Company was granted approval by the Central Bank as an investment company pursuant to the UCITS Regulations.

The investment objectives and policies of each Fund are outlined on pages 6 to 13.

Review of Business and Future Developments

The Investment Manager's Reports on pages 14 to 20 contain a review of the factors which contributed to the performance of each Fund for the financial year. The value of Net Assets of Loomis Sayles Multisector Income Fund decreased by USD 227 million, a percentage decrease of 28 %. The value of Net Assets of Loomis Sayles High Income Fund decreased by USD 8 million, a percentage decrease of 48 %. The value of Net Assets of Loomis Sayles Global Opportunistic Bond Fund decreased by USD 23 million, a percentage decrease of 28 %. The value of Net Assets of Loomis Alternative Risk Premia Fund decreased by USD 5 million, a percentage decrease of 17 %. The value of Net Assets of Loomis Sayles Euro High Yield Fund decreased by EUR 5 million, a percentage decrease of 15 %. The value of Net Assets of Loomis Sayles Euro Credit Fund decreased by EUR 19 million, a percentage decrease of 16 %. The value of Net Assets of Loomis Sayles Sustainable Euro Credit Fund increased by EUR 216 million, a percentage increase of 120 %.

The Directors do not anticipate any changes in the structure or investment objectives of the Loomis Sayles Multisector Income Fund, Loomis Sayles High Income Fund, Loomis Sayles Global Opportunistic Bond Fund and Loomis Sayles Alternative Risk Premia Fund, Loomis Sayles Euro High Yield Fund, Loomis Sayles Euro Credit Fund and Loomis Sayles Sustainable Euro Credit Fund. Our standard practice includes periodic review of the Funds' structures, investment objectives and performance in the context of the current market landscape and the interests of investors.

Information relating to each of the Funds' year-to-date performance may be found on www.im.natixis.com.

Risk Management - Objectives and Policies

Investment in the Company carries with it a degree of risk including, but not limited to, the risks referred to in Note 13 of these financial statements and those described in the Company's Prospectus.

Results and Dividends

It is intended that each Fund will declare and pay dividends on the distributing shares of each Fund equal to the net operating income of that Fund. Each Fund will also distribute the excess of realised capital gains over realised capital losses in respect of investments of the Company.

Details of dividends declared by the Company during the financial year are disclosed in the Statement of Comprehensive Income.

The results for the financial year are set out in the Statement of Comprehensive Income on page 34.

Directors

The names of the persons who were Directors at any time during the financial year ended 31 December 2022 are set out below. For further information, please see Corporate Governance and Composition of the Board later in this Report.

Daniel Morrissey (Irish)
Jason Trepanier (US)
Lynda Wood (née Schweitzer) (US)
John Nolan (Irish)
Christopher Yiannakou (Irish)

Directors' and Secretary's Interests

The Directors and Secretary and their families did not hold any interest in the shares of the Company during the financial year ended 31 December 2022.

Directors' Report (Continued)

Transactions Involving Directors and Secretary

Apart from the transactions disclosed in Note 12 to the financial statements, the Board of Directors is not aware of any other contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Secretary had any interest as defined in the Companies Act 2014 at any time during the financial year ended 31 December 2022.

As contemplated by the Corporate Governance Code issued by Irish Funds (see overleaf), Letters of Appointment have been entered into between the Company and each of the Directors, all terminable on three months notice.

The fees paid to Directors during the financial year are disclosed in Note 3 to the financial statements.

Employees

There were no employees of the Company throughout the financial year ended 31 December 2022.

Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- as far as he/she is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the Company's auditor is unaware; and
- he/she has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Audit committee

The Board of Directors acknowledge that they are required, under Section 167 of the Companies Act 2014, to consider the establishment of an audit committee. The Directors have decided not to establish an audit committee because in the Directors' opinion, at this time, the responsibilities of an audit committee under Section 167 (i.e. the monitoring of internal control, internal audit, risk management, the financial reporting process, statutory audit and statutory financial statements, the review and monitoring of the independence of the auditors and the provision by the auditors of additional services to the Company) are already being fulfilled by virtue of the Board's corporate governance regime and the existing arrangements and structures in place (including, in particular, those arrangements in place at the level of the Company's promoter and delegate, Natixis Investment Managers S.A.) designed to secure compliance with the extensive legal and regulatory obligations imposed on UCITS investment companies in relation to the Company's management.

Remuneration

The Company has adopted a remuneration policy in order to meet the requirements of the UCITS V Directive in a way and to the extent that it is considered to be appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities.

The total amount of remuneration paid by the Company for the financial year relates to fixed remuneration only. No variable remuneration was paid during the reporting period.

Fixed remuneration paid by the Company to identified staff comprises Directors' fees only, paid solely to Mr Daniel Morrissey and Mr John Nolan in their capacity as non-executive Directors. Directors who are also employees within Natixis Investment Managers International Distribution, (Jason Trepanier) and Loomis, Sayles & Company, L.P., the Investment Manager (Lynda Wood (née Schweitzer) and Christopher Yiannakou), do not receive any remuneration from the Company. Details of the Directors' fees paid are disclosed in Note 3.

The Directors' fees are calculated on the basis of an agreed annual fee. The remuneration policy has been subject to internal review and no changes have been made to the policy during the financial year. Please refer to Appendix I for copies of the remuneration policies of the Company and the Investment Manager.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Directors' Report (Continued)

Independent Auditors

PricewaterhouseCoopers, Chartered Accountants and Registered Auditors, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

Material Events During the Financial Year

The 2022 reporting period has seen a high level of volatility of all financial markets due to the Russian/Ukrainian crisis, the mid-year inflation and interest rates rises and the concerns over global recession and monetary tightening. **There were no material events affecting the Company during the financial year other than those disclosed in Note 17.**

Post Balance Sheet Events

There were no subsequent events after the financial year end other than those detailed in Note 19.

Corporate Governance Statement

The Company is subject to and complies with Irish statute comprising the Companies Act 2014 and with the Central Bank UCITS Regulations.

The Board has adopted and operated on a voluntary basis the corporate governance code of Irish Funds ("Irish Funds Code") which came into effect on 1 January 2012, demonstrating the Company has robust governance arrangements, which include a clear organisational structure with well defined, transparent and consistent lines of responsibility, effective processes to identify, manage, monitor and report the risks it is or might be exposed to, and adequate internal control mechanisms, including sound administrative and accounting procedures that are consistent with and promote sound and effective risk management. The Irish Funds Code is available on the Irish Funds website¹.

Connected Persons

The UCITS Regulations states that, inter alia, any transaction carried out with a UCITS by the management company or depositary; and the delegates or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders of the Company. Those transactions include transactions carried out by connected persons on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from its delegates that the connected persons carrying out those transactions do carry them out on a similar basis.

Shareholders should have regard to the governance structure of the Company as more particularly described in the corporate governance section of this Directors' Report and the roles and responsibilities of the Company's respective delegates subject to the overall supervision of the Board. Further, Shareholders should refer to the Prospectus which identifies many of the connected party transactions and the general nature of the contractual arrangements with the principal connected persons but it is not exhaustive of all connected party transactions. Shareholders should also refer to the Provisions of the Prospectus dealing with conflicts of interest.

Therefore, having regard to confirmations from the Company's management and its relevant delegates, the Directors of the Company are satisfied that:

- (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the UCITS Regulation are applied to all transactions with connected persons; and
- (ii) transactions with connected persons entered into during the period complied with the obligations set out in the UCITS Regulation.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Directors' Report (Continued)

Connected Persons (Continued)

Note 12 details related party transactions in the financial year as required by applicable financial reporting standards. However, Shareholders should understand that not all “connected persons” are related parties as such latter expression is defined by those financial reporting standards. Details of the fees paid to related parties and certain connected persons are set out in notes 3, 6, 7, 9 and 12.

On behalf of the Board

Director

Director

XX April 2023

Independent auditors' report to the members of Natixis International Funds (Dublin) I plc

Report on the audit of the financial statements

Opinion

In our opinion, Natixis International Funds (Dublin) I plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2022 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2022; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 22, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
 - In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
 - The financial statements are in agreement with the accounting records.
-

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Other matter

In addition to our responsibility to audit and express an opinion on the financial statements in accordance with Irish law and ISAs (Ireland), we have been requested by the directors to express an opinion on the financial statements in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 under the Investment Advisers Act of 1940 (the "Custody Rule"). We have reported separately in this respect on page 30.

Patricia Johnston
for and on behalf of PricewaterhouseCoopers
Chartered Accountants and Statutory Audit Firm
Dublin
06 April 2023

Report of Independent Auditors

To the Directors of Natixis International Funds (Dublin) I plc

Opinion

We have audited the accompanying financial statements of the Company and each of its Funds, which comprise the Statement of Financial Position for the Company and Funds, including the Schedule of Investments for each of the Funds, as of 31 December 2022 and 31 December 2021 and the related Statement of Comprehensive Income, Statements of Changes in Net Assets Attributable to Redeemable Participating Shareholders, Statement of Cash Flows for the Company and each of its Funds including the related notes for the years then ended (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company and each of its Funds as of 31 December 2022 and 31 December 2021, and the results of their operations, changes in their net assets, and their cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Irish law and IFRSs as adopted by the European Union, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company and each of its Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's and Funds' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

Management is responsible for the other information included in the Annual Report and Audited Financial Statements (the “annual report”). The other information comprises the information included in the annual report, but does not include the financial statements and our auditor’s reports thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Restriction of Use

This report, including the opinion, has been prepared for and only for the directors in relation to the requirements of Rule 206(4)-2 of the Investment Advisers Act of 1940 (the “Custody Rule”) as it applies to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

The notes on pages 40 to 122 are an integral part of these financial statements.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022

1. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated in the following text.

a) Basis of Presentation

The financial statements have been prepared in accordance with IFRS, as adopted by the European Union (EU) ("IFRS") and Irish statute comprising the Companies Act 2014 and the UCITS Regulations. The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 1(b).

The Investment Manager is registered with and regulated by the Securities and Exchange Commission ("SEC") in the United States as an investment adviser. The Company evaluates that there are no material differences between IFRS and U.S. Generally Accepted Accounting Principles ("US GAAP") equivalent disclosures to be reconciled for the purpose of SEC Custody Rule 206.

The Loomis Sayles Multisector Income Fund is authorised under the Section 104 of the Hong Kong Securities and Futures Ordinance (the "SFO") and the Fund is subject to the requirements of the Code on Unit Trusts and Mutual Funds.

The Company evaluates that these complemented financial statements are prepared in accordance with Hong Kong law requirements.

(i) Standards and amendments to existing standards effective 1 January 2022.

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2022 that have a material effect on the financial statements of the Fund.

(ii) New standards, amendments and interpretations effective after 1 January 2022.

There are no new standards, amendments to standards and interpretations for annual periods beginning after January 1, 2022.

There are no new standards, amendments to standards and interpretations that are not yet effective that would to have a material effect on the Financial Statements of the Fund.

b) Critical Accounting Estimates and Assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results and the differences could be material. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined below.

(i) Fair value of derivative financial instruments

The Company may, from time to time, hold financial instruments that are not quoted in active markets, such as over-the-counter derivatives. The value of any over-the-counter ("OTC") derivatives contracts shall be valued at least daily at a price obtained from the counterparty or by an alternative valuation provided by a competent person (which may be the Investment Manager) appointed by the Company and approved by the Depositary for such purpose, or by any other means provided the value is approved by the Depositary.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Critical Accounting Estimates and Assumptions (Continued)

If a derivative instrument is valued in any other way, the Company will follow international best practice and adhere to the principles on valuation of OTC instruments established by bodies such as International Organisation of Securities Commissions (“IOSCO”) and Alternative Investment Management Association (“AIMA”) and such alternative valuation, provided by a competent person appointed by the Directors and approved for the purpose by the Depositary, shall be reconciled on at least a monthly basis to a valuation provided by the counterparty and any significant difference shall be promptly investigated and explained.

(ii) Fair value of securities not quoted in an active market

The value of any investment which is not quoted, listed or normally dealt in on a regulated market shall be the probable realisable value estimated with care and in good faith by a competent person, firm or association making a market in such investment (approved for the purpose by the Depositary) and/or any other competent person, in the opinion of the Directors (and approved for the purpose by the Depositary).

c) Critical Judgements: Functional Currency

The Board of Directors considers the U.S. Dollar the currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The U.S. Dollar is the currency in which the Company measures its performance and reports its results.

d) Financial Assets and Financial Liabilities at Fair Value

The Company has classified all investments into the ‘fair value through profit or loss’ category. The category of financial assets and financial liabilities at fair value through profit or loss comprises two sub-categories: financial assets and liabilities held for trading and those designated by Directors at fair value through profit or loss on initial recognition.

Financial assets or liabilities held for trading are acquired and incurred principally for the purpose of selling and repurchasing in the short term. Derivatives are also categorised as held for trading, as the Company does not designate any derivatives (other than forward foreign currency exchange contracts) as hedges in a hedging relationship.

Regular-way purchases and sales of investments are recognised on trade date, the date on which the Funds commit to purchase or sell the asset. Investments are initially recognised at fair value, and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Funds have transferred substantially all risks and rewards of ownership.

Gains and losses arising from changes in the fair value of the financial assets at fair value through profit or loss category are included in the Statement of Comprehensive Income in the period in which they arise. Interest income from financial assets at fair value through profit or loss is calculated using the effective interest method and presented in the Statement of Comprehensive Income.

e) Investments at Fair Value

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the statement of financial position date. When a Fund holds derivatives with offsetting market risk, it uses mid-market prices as a basis of establishing fair values for the offsetting risk positions. Unlisted securities are valued using external pricing vendors, broker quotations or fair valuation methodologies approved by the Investment Manager’s Pricing Oversight Committee.

If the market for a financial instrument is not active, the Directors may establish fair value by using a valuation technique. The Funds use a variety of methods and make assumptions that are based on market conditions existing at each statement of financial position date.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

e) Investments at Fair Value (Continued)

Valuation techniques include the use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in the actual market.

As at 31 December 2022, there were two investments held by the Loomis Sayles Multisector Income Fund priced using the valuation techniques described above with a market value of USD 91,582 (31 December 2021: three valued at USD 316,596) which is 0.02 % (31 December 2021: 0.04%) of Net Asset Value. There was one investment held by the Loomis Sayles High Income Fund priced using the valuation techniques described above with a market value of USD 46,570 (31 December 2021: one valued at USD 28,056) which is 0.54 % (31 December 2021: 0.17%) of Net Asset Value.

To be Announced Securities

The Company may enter into To Be Announced ("TBA") purchase commitments to purchase securities for a fixed unit price at a future date beyond customary settlement time. Although the unit price has been established, the principal value has not been finalised. The Company holds and maintains until settlement date, cash or high grade debt obligations in an amount sufficient to meet the purchase price, or the Portfolio may enter into offsetting contracts for the forward sale of other securities that they own. Income on the securities will not be earned until settlement date. Unsettled TBA purchase commitments are valued at the current fair value.

The Company may enter into TBA sale commitments to hedge Fund portfolio positions or to sell/owned/hold mortgage backed securities under delayed delivery arrangements. Proceeds of TBA sales commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities or an offsetting TBA purchase commitment deliverable on, or before the sale commitment date, are held as "cover" for the transaction. Unsettled TBA sale commitments are valued at current fair value, generally according to the procedures described previously in the accounting policies.

As at 31 December 2022, there were no TBA securities held by Loomis Sayles Global Opportunistic Bond Fund (31 December 2021: two valued at USD 1,308,861 which was 1.61% of Net Asset Value). There were no TBA securities held by Loomis Sayles Multisector Income Fund (31 December 2021: nil), Loomis Sayles High Income Fund (31 December 2021: nil), Loomis Sayles Alternative Risk Premia Fund (31 December 2021: nil), Loomis Sayles Euro High Yield Fund (31 December 2021: nil), Loomis Sayles Euro Credit Fund (31 December 2021: nil) and Loomis Sayles Sustainable Euro Credit Fund (31 December 2021: nil).

Investment Funds

The fair value of any investment which is a unit of or participation in an investment fund is the latest available unaudited Net Asset Value of such unit or participation. Units or shares in exchange traded funds will be valued at the latest available Net Asset Value, or if listed or traded on a regulated market, at the last quoted trade price.

f) Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts, and open foreign currency exchange spot contracts, is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the valuation date. Net gains or losses on contracts which have been settled are included in the Statement of Comprehensive Income of each relevant Fund. Gains or losses on open forward foreign currency exchange contracts are reported as financial assets or liabilities at fair value through profit or loss as appropriate in the Statement of Financial Position of each relevant Fund.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

f) Foreign Currency Exchange Contracts (Continued)

Changes in gains or losses at the financial year end are reported in the Statement of Comprehensive Income of each relevant Fund. Gains or losses on open foreign currency exchange spot contracts are included in the Statement of Financial Position and changes in gains or losses since the prior financial year end are reported in the Statement of Comprehensive Income for each relevant Fund. For class level hedges, the gains or losses are allocated solely to the relevant share class.

g) Futures Contracts

Futures contracts may be used to manage a fund's exposure to the securities market. Buying futures tends to increase a Fund's exposure to the underlying instrument. Selling futures tends to decrease a fund's exposure to the underlying instrument. Upon entering into a futures contract, a fund is required to deposit with its futures broker, an amount of cash or U.S. government obligations in accordance with the initial margin requirements of the broker or exchange. The Company and the broker agree to exchange an amount of cash equal to the daily fluctuations in the value of the futures contract ("futures margin").

Gains or losses are recognised but not considered realised until the contracts expire or are closed. Futures contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed in the Statement of Financial Position.

Losses may arise from the changes in the value of the underlying instrument, if there is an illiquid secondary market for the contracts, or if counterparties do not perform under the contract terms.

Futures contracts are valued at the latest traded price at the valuation point on the dealing day for such instruments on such markets.

Securitized collateral which is pledged to the broker is annotated on the relevant security in the Portfolio of Investments.

h) Options

The unrealised gain or loss on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. The fair value of the options which are dealt in on a securities market are the settlement price as determined by the market. Unrealised gains or losses on open option positions are included in financial assets and liabilities at fair value through profit or loss in the Statement of Financial Position.

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses.

i) Swaps Contracts

The Company may enter into credit default, interest rate and total return swap agreements. The Company may enter into these swap transactions for investment and efficient portfolio management purposes. A swap transaction involves an agreement between two parties to exchange different cash flows based on a specified or "notional" amount. The cash flows exchanged in a specific transaction may be, among other things, payments that are the equivalent of interest on a principal amount, payments that would compensate the purchaser for losses on a defaulted security or basket of securities, or payments reflecting the performance of one or more specified currencies, securities or indices.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Swaps Contracts (Continued)

Unrealised gains or losses on open swap contract and initial upfront payment received or made upon entering into a swap contract are included in the fair value of the swap in the Statement of Financial Position. Changes in unrealised gains or losses on swap contracts at the reporting period end are reported in the Statement of Comprehensive Income. A liquidation payment received or made at the termination of the swap contract is recorded as realised gain or loss in the Statement of Comprehensive Income. Investment interest expense on swap contract is included in “Net Gains/(Losses) on Financial Assets and Financial Liabilities at Fair Value through Profit or Loss” in the Statement of Comprehensive Income. Collateral in the form of cash or securities may be required to be held with the Depository or broker in accordance with the swap agreement.

j) Income and Expense

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses.

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities listed as “ex-dividend”. Income is accounted for gross of any non reclaimable/irrecoverable withholding taxes and net of any tax credits. The withholding tax is shown separately in the Statement of Comprehensive Income. Realised gains and losses on investment transactions are calculated using the first in first out method.

Realised gains and losses on investments transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

k) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

All cash at bank balances are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depository the following day. A breakdown of the financial institutions where the cash was deposited at the financial year end is contained in Note 5.

In response to the CBI publishing the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (the “Investor Money Regulations” or “IMR”) in March 2015 (effective from 1st July, 2016), the Investment Manager undertook a review together with the Administrator of the way in which subscription, distribution and redemption monies are channelled to and from the Company. As a result of this review, effective from 1st July, 2016, subscription and redemption monies will be channelled through an umbrella cash collection account in the name of the Company.

l) Foreign Currency Transactions

In accordance with IAS 21, items included in the individual Fund’s financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). This is considered to be U.S. Dollar (USD) due to the investment strategy of the individual Funds.

The individual Funds have also adopted their functional currency as the presentation currency. Income and expenditure transactions are translated to the functional currency of the relevant Fund at the rate of exchange ruling on the date of the transaction. Assets and liabilities in foreign currencies are translated into USD at the rates of exchange ruling at the Statement of Financial Position date.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

1) Foreign Currency Transactions (Continued)

Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions.

For each relevant Fund;

(i) Currency gains and losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included, where appropriate, in the dividend and bond income figure in the Fund's Statement of Comprehensive Income;

(ii) Currency gains and losses realised on security purchases and sales transactions are included in the Fund's Statement of Comprehensive Income;

(iii) The change in unrealised currency gains and losses on securities held at the financial year end are included in the Fund's Statement of Comprehensive Income; and

(iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the relevant reporting date and exchange differences are recorded in the Fund's Statement of Comprehensive Income.

The financial statements are presented in USD and EUR. The following exchange rates at 31 December 2022 and 31 December 2021 have been used to translate assets and liabilities held in currencies other than USD:

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) Income Equalisation

The Company utilises the accounting practice known as income equalisation by which a portion of the subscription and redemption price of the Fund's shares, representing income included in the share price on the date of the share transaction, is credited or charged respectively to income each time there is a relevant subscription or redemption.

n) Redeemable Participating Shares

The Funds issue Redeemable Participating Shares which are redeemable at the shareholder's option and are classified as financial liabilities.

The Redeemable Participating Shares can be put back to the Company on any dealing day for cash equal to a proportionate share of the Company's Net Asset Value. The participating share is carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholder exercised its right to put the share back to the Company.

Redeemable Participating Shares are issued and redeemed at the shareholder's option at prices based on the Fund's Net Asset Value per Share at the time of issue or redemption. The Fund's Net Asset Value per Share is calculated by dividing the Net Assets Attributable to Redeemable Participating Shareholders by the total number of outstanding Redeemable Participating Shares.

o) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

p) Distributions Payable to Holders of Redeemable Participating Shares

The distributions to holders of Redeemable Participating Shares are recognised as finance costs in the Statement of Comprehensive Income.

q) Purchase/Sale of Securities Awaiting Settlement

Amounts due to/from brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered by the end of the financial year.

r) Transaction Costs

Transaction costs are the costs incurred in the acquisition, issue or disposal of financial assets and liabilities. Transaction costs include fees and commissions paid to brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. These costs are accounted for as they are incurred and are recognised as an expense for financial reporting purposes in the Statement of Comprehensive Income.

s) Transfers between Levels of the Fair Value Hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

t) Swing Pricing

The Funds may apply a single swing pricing mechanism in accordance with relevant Supplement to the Prospectus instead of the single price mechanism. During the year ended 31 December 2022 only the Loomis Sayles High Income Fund, Loomis Sayles Euro High Yield Fund, Loomis Sayles Euro Credit Fund and Loomis Sayles Sustainable Euro Credit Fund have the ability to apply a single swing pricing mechanism in accordance with its Supplement to the Prospectus.

During the year ended 31 December 2022, Loomis Sayles High Income Fund, Loomis Sayles Euro High Yield Fund, Loomis Sayles Euro Credit Fund and Loomis Sayles Sustainable Euro Credit Fund applied swing pricing adjustments. During the year ended 31 December 2021, only Loomis Sayles Euro Credit Fund, Loomis Sayles Euro High Yield Fund and Loomis Sayles Sustainable Euro Credit Fund applied swing pricing adjustments.

As at the year ended 31 December 2022, there were no swing pricing adjustments applied on the Net Asset Value per Share of any other Funds (As at the year ended 31 December 2021: nil).

Swing pricing methodology is an operation for which the Price on a given Dealing Day may be adjusted in order to take into account the dilution impacts and to protect the Shareholders' interests in the event of large subscriptions, redemptions and/or conversions in and/or out of a Fund on such Dealing Day. This means that, if on any Dealing Day, the aggregate transactions in Shares of a Fund exceed a threshold determined by the Directors, the Net Asset Value may be adjusted by an amount, not exceeding 2% of the relevant Net Asset Value, in order to reflect both the estimated fiscal charges and dealing costs that may be incurred by the Fund and the estimated dealing spread of the assets in which the Fund invests/disinvests. In such event, the official Net Asset Value per Share, as published, is the Net Asset Value for which the swing pricing has been applied. Where such an adjustment is applied, it will typically increase the Net Asset Value per Share when there are large net inflows into the Fund and decrease the Net Asset Value per Share when there are large net outflows.

Notes to the Financial Statements as at 31 December 2022 (Continued)

8. SHARE CAPITAL

Authorised

The authorised share capital of the Company is USD 70,000 divided into 70,000 Subscriber Shares of a par value of USD 1 each and 5,000,000,000 shares of no par value designated as unclassified shares. The unclassified shares are available for issue as Redeemable Participating Shares.

In order to provide for the minimum share capital on incorporation required under Irish law, the Investment Manager subscribed for 69,993 Subscriber Shares for cash at par fully paid up and a further seven Subscriber Shares have been issued fully paid up for cash at par to nominees. Subsequently, the issue of the participating shares, the Investment Manager redeemed its 69,993 shares at par and no further Subscriber Shares will be issued.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

8. SHARE CAPITAL (Continued)

Number of Shares Issued and Fully Paid (Continued)

The seven Subscriber Shares have been issued and are fully paid up to the value of USD 7 and as they do not form part of the Redeemable Participating Shares of the Company, they do not form part of the Net Asset Value of the Company. They are thus disclosed in the financial statements by way of this note only.

Share Rights

The holders of the Subscriber Shares are entitled to one vote per holder on a vote taken on a show of hands and on a poll, to one vote per Subscriber Share. The holders of Subscriber Shares are not entitled to any dividends and, in the event of a winding up or dissolution of the Company, shall be entitled to the return of capital, provided sufficient funds exist. The holders of Redeemable Participating Shares are entitled to one vote per holder on a vote taken on a show of hands and, on a poll, to one vote per Redeemable Participating Share. The holders of Redeemable Participating Shares are entitled to such dividends as the Directors may from time to time declare and in the event of a winding up or dissolution of the Company, shall have the entitlements referred to in the Company's Prospectus.

Neither the Subscriber Shares nor the Redeemable Participating Shares carry pre-emption rights.

9. FEES

The Company pays the Management Company a monthly fixed fee at the rates listed below. The Management Company received USD 10,471,574 during the financial year ended 31 December 2022 (31 December 2021: USD 12,115,295) of which USD 885,298 was outstanding at 31 December 2022 (31 December 2021: USD 1,007,608).

11. TAXATION

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax can arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation, transfer or deemed disposal of shares for Irish tax purposes, arising as a result of holding shares in the Company for a period of eight years or more, or the appropriation or cancellation of shares by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer. No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with Schedule 2B of the TCA are held by the Company and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct or the Company has been authorised by the Irish Revenue Commissioners to make gross payments in the absence of appropriate declarations; or
- b) a shareholder who is an exempt Irish investor (as defined in Section 739D), at the time of the chargeable event, provided the declarations in accordance with Schedule 2B of the TCA, are held by the Company and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct or the company has been authorized by the Irish Revenue Commissioners to make gross payments in the absence of a.

There were **no** chargeable events during the financial year under review.

Capital gains, dividends, and interest received (if any, on investments made) by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

The TCA provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting the “equivalent measures”. A company wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

12. RELATED PARTY DISCLOSURES

Parties are described as related if any one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Company’s Directors and Natixis Investment Managers S.A., the Company’s Management Company and Distributor are disclosed on page 1. Amounts expensed in the financial year to these parties are disclosed in Note 3. Amounts receivable from and payable to the Management Company and Distributor are disclosed in Note 6 and Note 7, respectively. Details of the Investment Manager’s and Administrator’s fee are disclosed in Note 9. Loomis, Sayles & Company, L.P. is the Company’s Investment Manager. The Management Company is responsible for paying out of its fees the fees and expenses of the Investment Manager.

Natixis Investment Managers S.A. and Loomis, Sayles & Company, L.P. are both subsidiaries of Natixis Investment Managers Group, an international asset management group based in Paris, France that is ultimately controlled by Natixis, Paris, France.

Mr. Daniel Morrissey, a Director of the Company, was, up to 31 December 2021 also a partner in William Fry LLP, the Company’s legal counsel to whom fees were paid during the financial year ended 31 December 2022 amounting to EUR 174,419 (31 December 2021: EUR 150,950). Mr. Jason Trepanier is a Director of the Company and also an executive of Natixis Investment Managers S.A., the Company’s Management Company and Promoter and Distributor. Mrs. Lynda Wood (née Schweitzer) is a Director of the Company and also an executive of Loomis, Sayles & Company, L.P., the Investment Manager. Mr. Christopher Yiannakou is a Director of the Company and also an executive of Loomis Sayles Investments Limited, UK (a wholly owned subsidiary of the Investment Manager).

13. FINANCIAL RISK MANAGEMENT

Strategy in Using Financial Instruments

The Funds' activities expose them to a variety of financial risks: market risk (including market price risk, currency risk, interest rate risk and derivatives risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. Both the Investment Manager and the Investment Manager implement a risk management process of which the activities are described below.

The Investment Manager and the Investment Manager implement their liquidity risk monitoring by using processes on the correlation between asset and liability liquidity risk to anticipate liquidity issues. Otherwise, both entities did not change how market price risk, currency risk, interest rate risk, credit risk and liquidity risk were managed since the prior financial year end.

The IROC ("Investment Risk Oversight Committee") is the key governance body at the Investment Manager in term of investment risk oversight in the context of the operations of the Funds.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Strategy in Using Financial Instruments (Continued)

Market risk activities are overseen at the Investment Manager level as appropriate through the monitoring of the key risk indicators implemented for each Fund reviewed by IROC. Additionally, credit risk activities are overseen at the Investment Manager level as appropriate through the monitoring of investment compliance guidelines, the monitoring of approved brokers and counterparties as well as the key risk indicators implemented for each Fund. Results of this monitoring may lead the Investment Manager to challenge the Investment Manager from time to time.

IROC acts as a review and validation body for financial risk management activities and regularly provides reports to the Board of Directors of the Company. In addition, when market, credit or liquidity risk matters give rise to concern, it is escalated to the Board of Directors of the Company as appropriate. Based on the Investment Manager's assessment of Funds' risk profiles, the Company uses the commitment approach except for the Loomis Sayles Alternative Risk Premia Fund where the Absolute Value at Risk (VaR) approach is used, to calculate the global exposure of the Company in accordance with the requirements of the Central Bank of Ireland.

Market Price Risk

All securities investments present a risk of loss of capital.

At a first level of control, the Investment Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits, as set forth in the Company's Prospectus.

The Funds' overall market positions are monitored on a daily basis by the Investment Manager and are periodically reviewed by the Board at its meetings.

The Funds' equity securities are susceptible to market price risk arising from uncertainties about future prices of the instruments.

The Funds' market price risk is managed through diversification of the investment portfolio ratios by exposures.

The Investment Manager's processes for dealing with market price risk entail rigorous security-by-security research by experienced security analysts, intelligence gathered about the market for those securities through a professional securities trading desk and integration of the information (supplied by the analysts and traders) by qualified portfolio managers who make the decisions to buy and sell securities.

In addition, the Investment Manager created a Quantitative Research and Risk Management Group to support the investment decision process by building quantitative tools and models to complement the fundamental economic and market experience. The Investment Manager's advanced proprietary investment analytics capabilities include several risk management tools. These tools address general risk characteristics, ex-ante tracking error, position risk, performance attribution, top down valuations and performance dispersion.

The primary risk management system that was developed provides comprehensive information including daily constituents, weights, characteristics and statistics. Specifically, the risk tool analyses duration, yield curve, currency, country, sector, quality, industry, prepayment exposure and tracking error.

This risk tool is supplemented by additional market risk tools that calculate ex-ante tracking error, ex-post excess return and return optimisation. Other proprietary risk systems calculate performance attribution through detailed duration, spread duration, quality allocation, sector allocation and security selection analysis.

Position risk is monitored through technologies that analyse position size, option adjusted spread ("OAS") versus quality ratings, OAS changes, Loomis Sayles Rating Outlook, liquidity risks, correlation to the market as well as the firm-wide position sizes.

The Investment Manager uses Bloomberg, Citigroup Yield Book and Barclay's POINT as its analytical providers, and if a security is owned by a benchmark (i.e. Merrill Lynch) the analytics are provided by the benchmark sponsor. Priority is on Bloomberg and, for mortgage securities, Citigroup Yield Book. The primary benefit of these providers is their ability to provide analytics for all types of securities, mostly securities with embedded options and structured securities.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Market Price Risk (Continued)

At a second level of control, the Investment Manager maintains sufficient oversight over the risks taken by the Funds.

After defining the risk profile of each Fund by considering the asset class exposures, the complexity of the investment strategy and the complexity, volume and frequency of the financial derivatives instruments or structured products to be used, the Investment Manager independently monitors the fund's risk specificities. The Investment Manager has selected appropriate key risk indicators ("KRIs") (e.g., VaR, Tracking Error) which are currently monitored through various internal and external systems by dedicated risk teams on a daily basis. The list of KRIs and their associated limits are reviewed for continued relevancy at least once a year and communicated to the Board of Directors.

In addition, the Investment Manager's Pricing Oversight group is responsible for overseeing the pricing of the Funds and for monitoring compliance with the related pricing policies and procedures.

The Funds' concentrations in market price exposures at 31 December 2022 and 31 December 2021 are detailed in their Schedules of Investments on pages 123 through 218.

Loomis Sayles Multisector Income Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Multisector Income Fund would amount to approximately USD 218,769 (31 December 2021: USD 2,517,376).

Loomis Sayles High Income Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles High Income Fund would amount to approximately USD 123 (31 December 2021: USD 1,698).

Loomis Sayles Global Opportunistic Bond Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Global Opportunistic Bond Fund would amount to approximately USD nil (31 December 2021: nil).

Loomis Sayles Alternative Risk Premia Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Alternative Risk Premia Fund would amount to approximately USD 833,245 (31 December 2021: USD 5,020,938).

Loomis Sayles Euro High Yield Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Euro High Yield Fund would amount to approximately EUR nil (31 December 2021: nil).

Loomis Sayles Euro Credit Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Euro Credit Fund would amount to approximately EUR nil (31 December 2021: nil).

Loomis Sayles Sustainable Euro Credit Fund

At 31 December 2022, had the market price increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders of the Loomis Sayles Sustainable Euro Credit Fund would amount to approximately EUR nil (31 December 2021: nil).

13. FINANCIAL RISK MANAGEMENT (Continued)

Currency Risk

The primary sensitivities of the Funds are interest rates and credit spreads on bonds held in the portfolios. The risks associated with these exposures are covered under interest rate risk and credit risk, respectively.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain amounts of the Funds' assets, liabilities and income are denominated in currencies other than U.S. Dollar, the functional currency. The Funds are therefore exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. Income denominated in foreign currencies is converted to U.S. Dollar on receipt.

Currency risk is managed by the Investment Manager, in part, through the use of forward foreign currency exchange contracts for hedging purposes. These contracts obligate the holder to buy or sell the currency at a specified quantity and on a specified future date. They may protect the value of specific portfolio positions and may be used in anticipation of changes in relative values of currencies in which current or future portfolio holdings of the Funds are denominated. Where the Funds invest in forward foreign currency exchange contracts for hedging purposes, the exposures on these contracts can be netted against each other, reducing global exposure.

The tables overleaf document the Company's exposure to currency risks as at 31 December 2022 and as at 31 December 2021, including sensitivity analysis.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Interest Rate Risk

The Funds' interest-bearing financial assets and liabilities expose them to risk associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows.

Interest rate risk is managed, in part, by the security-selection process of the Investment Manager, which includes predictions of future events and their impact on interest rates, diversification and duration. The prices of securities held by the Funds may be sensitive to interest rate fluctuations and unexpected fluctuations in interest rates could cause the corresponding prices of the Funds' positions to move in directions which were not initially anticipated.

The tables below and overleaf summarise the Funds' exposure to interest rate risks. It includes the Funds' financial assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>(154,160)</u>	<u>(154,160)</u>
Sensitivity analysis						<u>8,063,026</u>

All other financial assets and financial liabilities are either non-interest bearing or recoverable within one month.

The sensitivity analysis reflects an increase/(decrease) in the Net Assets Attributable to Redeemable Participating Shareholders, for each fund, had there been an increase/(decrease) of 100 basis points in interest rates.

The Funds' overall interest rate sensitivity is monitored on a weekly basis by the Investment Manager. Any significant concerns in this area are immediately brought to the attention of the Board of Directors, otherwise it is periodically reviewed by the Board at its meetings.

Derivatives Risk

The Funds trade in financial instruments, taking positions in traded and over the counter instruments, including derivatives. At 31 December 2022, the Funds' derivatives were forward foreign currency exchange contracts, futures and swaps (31 December 2021: forward foreign currency exchange contracts, futures and swaps).

All appropriate controls relevant to the Central Bank UCITS Regulations using the Funds' global exposure are delegated to BBH for the commitment approach and performed internally at the Investment Manager for the absolute Value-at-Risk (VaR) approach*. The global market exposure for sub-funds using the commitment approach methodology is limited to 100 percent of the Net Asset Value of the sub-fund. The global market exposure for sub-funds using the absolute VaR approach methodology is limited to 20% of the Net Asset Value of the sub-fund. Individual position exposure and global exposure are each monitored daily by a dedicated control team. Results are supervised by the Investment Manager. The use of cash settled derivatives will at all times be fully covered with cash or other liquid securities. For any derivative that involves physical delivery, these will be covered by the underlying asset. Derivatives may be used for hedging, efficient portfolio management and investment purposes.

The global market risk exposure of the Sub-Funds for the year ended December 31, 2022 and 2021 was calculated under the commitment approach except for the Loomis Sayles Alternative Risk Premia Fund where the VaR approach was used.

For sub-funds under commitment approach, the amounts of commitments as of 31 December 2022, for Loomis Sayles Multisector Income Fund, Loomis Sayles High Income Fund, Loomis Sayles Global Opportunistic Bond Fund, Loomis Sayles Euro High Yield Fund, Loomis Sayles Euro Credit Fund and Loomis Sayles Sustainable Euro Credit Fund were 3.78%, 0.99%, 13.57%, 9.08%, 5.59% and 5.47% respectively, of the Total Assets (31 December 2021: 9.83%, 2.17%, 15.09%, 8.48% 9.68% and 11.26% respectively). Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate). In the case of currency hedging, the portfolio managers and portfolio specialists periodically review the hedged position to determine whether it remains consistent with movements in the underlying assets.

* Absolute VaR means a measure of the maximum expected loss at a given confidence level over a specific time period.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Derivatives Risk (Continued)

For the sub-fund under VaR approach, the model utilized to calculate the daily absolute VaR is an historical model based on a 99% confident level for a holding period of 20 days and an observation period of 500 days. From 1 January 2022 to 31 December 2022, based on Natixis Investment Managers internal model, the low, high and average VaR of the Loomis Sayles Alternative Risk Premia Fund were 1.24%, 9.18% and 3.18% respectively (from 1 January 2021 to 31 December 2021: 2.91%, 10.95% and 6.42% respectively). In addition, in managing the strategy of the Loomis Sayles Alternative Risk Premia Fund, the Delegated Investment Manager does not utilize bank borrowing. However, the use of derivatives results in leverage. The level of leverage is calculated as the sum of the notional amounts of the derivatives used. As such, the level of leverage for the strategy from 1 January 2022 to 31 December 2022 averaged 377.18% of its net assets based on daily input data (from 1 January 2021 to 31 December 2021: 287.01%). Concerns are reported to the Board of Directors as promptly as possible depending on the significance (including immediately where appropriate).

In addition, the Investment Manager's Derivatives Committee reviews all aspects of proposed derivatives activity, with particular emphasis on risk management, and is responsible for ensuring that all trading, reporting, operations, pricing and legal and compliance issues have been addressed before a new derivative strategy is approved for use by the Risk Management Committee. The Derivatives Committee is made up of representatives from Senior Management, Equity Portfolio Management, Fixed Income Portfolio Management, Trading, Operations, Legal and Compliance, Technology and Client Services. The conclusions are also submitted to the Investment Manager's Board of Directors for approval.

Credit risk

The Company takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Credit risk is managed, in part, by certain of the Funds' investment restrictions, including that, subject to other provisions set forth in the Company's Prospectuses, (i) each Fund may not invest more than 10% of net assets in transferable securities or money market instruments of the same issuer, and (ii) the total value of transferable securities and money market instruments of issuers as to which a Fund invests more than 5%, must be less than 40%.

Cash held via accounts opened on the books of Brown Brothers Harriman & Co. ("BBH") are obligations of BBH while cash held in accounts opened directly on the books of a third party cash correspondent bank, sub-custodian or a broker (collectively, 'agency accounts') are obligations of the agent. Cash held via agency cash accounts are liabilities of the agent, creating a debtor/creditor relationship directly between the agent and the Company.

Accordingly, while BBH is responsible for exercising reasonable care in the administration of such agency cash accounts where it has appointed the agent (i.e., in the case of cash correspondent banks and sub-custodians), it is not liable for their repayment in the event the agent, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

The Funds' cash is swept on a nightly basis to pre-approved financial institutions. As at 31 December 2022, the institutions where the Funds' cash was held and their respective credit ratings, at that date, are listed below:

Institution	Short Term Credit Indicator
Brown Brothers Harriman & Co.	High Grade
Australia and New Zealand Banking Group, London	High Grade
Banco Bilbao Vizcaya Argentaria, Madrid	Upper Medium Grade
BNP Paribas, Paris	High Grade
Credit Suisse Group AG	Upper Medium Grade
HSBC, Hong Kong	High Grade
JPMorgan Chase & Co.	High Grade

Royal Bank of Canada, Toronto	High Grade
Skandinaviska Enskilda Banken AB	High Grade
Standard Chartered PLC	High Grade
Sumitomo Mitsui Banking Corporation	High Grade

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Credit Risk (Continued)

As at 31 December 2021, the institutions where the Funds' cash was held and their respective credit ratings, at that date, are listed below:

Institution	Short Term Credit Indicator
Brown Brothers Harriman & Co.	Upper Medium Grade
Australia and New Zealand Banking Group, London	Upper Medium Grade
Banco Bilbao Vizcaya Argentaria, Madrid	Lower Medium Grade
BNP Paribas, Paris	High Grade
Credit Suisse Group AG	Lower Medium Grade
DBS Bank Limited	High Grade
HSBC, Hong Kong	High Grade
MUFG Bank, Tokyo	Upper Medium Grade
Royal Bank of Canada, Toronto	High Grade
Skandinaviska Enskilda Banken AB	High Grade
Sumitomo Mitsui Banking Corporation	Upper Medium Grade

High Grade – an obligor rated High Grade has strong capacity to meet its financial commitments.

Upper Medium Grade – an obligor rated Upper Medium Grade has satisfactory capacity to meet its financial commitments.

Lower Medium Grade – an obligor rated Lower Medium Grade has adequate capacity to meet its financial obligations.

The Depository must ensure that there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. As Depository, Brown Brothers Harriman Trustee Services (Ireland) Limited ("BBHTS") must ensure the ownership of each asset and the location of documents of title for each asset.

All securities that BBH holds in custody (as global sub-custodian for and on behalf of BBHTS for further benefit of its underlying clients) are segregated from BBH's own assets, whether they are held in BBH's vault, in segregated accounts on the books of their sub-custodians, or in an account maintained at a central securities depository. BBH maintains segregated accounts per client on its own books as well as on the books of the sub-custodian in the local market, where this is possible. As Depository, BBHTS must also ensure non-cash assets are held on a fiduciary basis through BBH's network of global sub-custodians. BBH's sub-custodians are required by contract with BBH and generally by operation of law to segregate the securities of custody clients from the general banking assets of the sub-custodian.

BBH performs both initial and ongoing due diligence reviews on the sub-custodians within its global custody network through its Network Management group. Such reviews include an assessment of service level standards, management expertise, market information, custody operations, reporting and technology capabilities at the sub-custodian, as well as reviews in relation to their reputation and standing in the market and their ongoing commitment to providing custody services.

Service level agreements are put in place with each sub-custodian, as well as the usual contractual arrangements, and these are reviewed on a regular basis through service review meetings, including on-site due diligence meetings.

Regular financial analysis of all sub-custodians is carried out by BBH's Risk and Credit Group and is focused on the sub-custodian bank's capital adequacy, asset quality, earnings, liquidity and credit ratings as key indicators, amongst others. These reviews form part of BBH's routine assessment of a sub-custodian's financial strength and standing.

In addition, as the Company may invest in markets where custodial and/or settlement systems are not fully developed, the assets of the Company which are traded in such markets and which have been entrusted to sub-custodians, in the circumstances where the use of such sub-custodians is necessary, may be exposed to risk in circumstances whereby the Depository will have no liability.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Credit Risk (Continued)

While cash held by the sub-custodian is identifiable as belonging to the Company, the Company will be exposed to the credit risk of the financial institution where cash is deposited. In the event of insolvency of the financial institution, the Company will be treated as a general creditor of the financial institution in relation to cash holdings of the Company.

Portfolio by Rating Category

The Funds' Investment Manager utilises well-known rating agencies for determining credit quality of the financial assets. For assets that are unrated by these well-known rating agencies, the Investment Manager assigns a rating using an approach that is consistent with the rating agencies.

* Ratings are based solely on Moody's ratings scales and ratings and/or coverage of assets rated by Moody's may change from year to year.

** Included in "Not Rated" are Cash, Equities and debt securities. In order to monitor the credit quality of the "Not Rated" underlying debt securities, the Investment Manager, on the basis of internal research, prepares its own shadow ratings for the various debt instruments for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt instruments in order to calculate the implied ratings for each of these investments. The majority of unrated debt securities have been assessed by the Investment Manager to have credit quality consistent with BBB/Baa rated securities. A BBB/Baa rating is the lowest rating that a bond can have and still be considered investment-grade. An investment grade bond is a bond considered to have a relatively low risk of default.

* Ratings are based solely on Moody's ratings scales and ratings and/or coverage of assets rated by Moody's may change from year to year.

** Included in "Not Rated" are Cash, Equities and debt securities. In order to monitor the credit quality of the "Not Rated" underlying debt securities, the Investment Manager, on the basis of internal research, prepares its own shadow ratings for the various debt instruments for which publicly available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt instruments in order to calculate the implied ratings for each of these investments. The majority of unrated debt securities have been assessed by the Investment Manager to have credit quality consistent with BBB/Baa rated securities. A BBB/Baa rating is the lowest rating that a bond can have and still be considered investment-grade. An investment grade bond is a bond considered to have a relatively low risk of default.

* Ratings are based solely on Moody's ratings scales and ratings and/or coverage of assets rated by Moody's may change from year to year.

** Included in "Not Rated" are Cash, Equities and debt securities. In order to monitor the credit quality of the "Not Rated" underlying debt securities, the Investment Manager, on the basis of internal research, prepares its own shadow ratings for the various debt instruments for which publically available credit ratings are not available. The Investment Manager reviews the key financial metrics of the issue and structural features of the debt instruments in order to calculate the implied ratings for each of these investments. The majority of unrated debt securities have been assessed by the Delegate Investment Manager to have credit quality consistent with BBB/Baa rated securities. A BBB/Baa rating is the lowest rating that a bond can have and still be considered investment-grade. An investment grade bond is a bond considered to have a relatively low risk of default.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

In order to minimise credit risk further, the Investment Manager will normally use the Funds' Depository to execute its currency hedges to the extent that competitive rates and execution can be achieved. Additionally, in order to seek competitive pricing, the Investment Manager will generally buy from, or sell to, large, well-known financial institutions (almost always banks) with high credit ratings. As a result, counterparty risk in currency hedge activities is believed to be negligible.

In accordance with the Investment Manager counterparty risk policy principles, the Investment Manager seeks to mitigate counterparty credit risk in the following manner:

- The Investment Manager has adopted Derivative Counterparty Risk Policies and Procedures to assist it in monitoring, managing and mitigating, where possible, the counterparty risk associated with Counterparty Risk Transactions.
- The Investment Manager will not execute Counterparty Risk Transactions for an account with any counterparty that is not on the Approved Derivatives Counterparty List of the trading desk that is responsible for trading the account.
- In order to be added to the Approved Derivatives Counterparty List, a counterparty must have a credit rating of Baa3 and BBB- by Moody's and S&P. If the counterparty is split rated, the lower rating will apply.
- The credit rating of a counterparty is not solely indicative of the risk associated with the counterparty. While a counterparty may satisfy the minimum credit rating requirement, the spread on a 5 year credit default swap ("CDS") on a counterparty, if available, is also a very good measure of the perceived market risk associated with the counterparty. Therefore, if the spread on a 5 year CDS on a counterparty is 350 basis points or more, said counterparty will be considered to be on 'Watch', whereby the Delegate Investor Manager's Derivative Counterparty Risk Committee ("Committee"), will review the process. If the spread on a 5 year CDS on a counterparty is 500 basis points or more, said counterparty will be subject to a formal review by the Committee which will determine what it believes to be the appropriate course of action as discussed below.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Credit Risk (Continued)

Portfolio by Rating Category (continued)

- If a counterparty no longer satisfies the minimum credit rating required as an Approved Derivatives Counterparty or is otherwise deemed to be at risk based on the 5 year CDS spread on the counterparty, if available, the Committee will determine the appropriate course of action. Such action may include:
 - Suspension of some or all trading with the counterparty;
 - Removal of the counterparty from the Approved Derivatives Counterparty List; and/or
 - Closing out or assigning unsettled transactions with the counterparty.
- The Committee receives reports on the aggregate unrealised gains associated with any unsettled Counterparty Risk Transactions with Approved Derivatives Counterparties on a daily basis. The Investment Manager's Fixed Income Research Department will periodically review the creditworthiness of all counterparties contained on the Approved Derivatives Counterparty List and notify the Head of Trading, Chief Compliance Officer and the Committee if any credit issues arise with respect to such counterparties. Separately, the Fixed Income Trading Desk provides the Committee with weekly reports on the spreads of 5 year CDS spread on all Approved Derivatives Counterparties, if available. In addition to reviewing the daily counterparty exposure reports, the Committee meets at least quarterly and when deemed necessary to evaluate counterparty risk.
- To further mitigate counterparty risk the Investment Manager enters into International Swap and Derivatives Association agreements ("ISDAs") with their Approved Derivatives Counterparties on behalf of many of their clients where possible. The ISDAs establish the agreed upon terms and conditions of the transactions effected under an ISDA, and they also provide for the movement of collateral from the Approved Derivatives Counterparty to a client's depository when Counterparty Risk Transactions are "in-the-money". Conversely, the ISDA requires the movement of collateral from a client's custody account to the Approved Derivatives Counterparty, when the investment is in a loss position. The ISDA also provides that the amounts owed to or payable by one party to the other can be netted to ensure the efficient use of capital. The requirement that a counterparty post collateral with a client's depository in the amount a contract is in-the-money mitigates the credit risk exposure to such counterparty, since the client will be able to take possession of the collateral in the event of the default of the counterparty.
- The negotiation and execution of ISDAs is a lengthy and difficult process. Not all Counterparties have ISDAs in place, but the Investment Manager continues to seek to put them in place where it can.
- Finally, requests to add a new derivatives counterparty or changes to existing ones must be pre-approved by the Head of Trading and the Chief Compliance Officer at the Investment Manager through their automated broker-dealer approval system and communicated to the Investment Manager as it regards the Company.

13. FINANCIAL RISK MANAGEMENT (Continued)

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Funds are exposed to daily cash redemptions of Redeemable Participating Shares. The Funds generally retain a certain portion of their assets in cash, which is available to satisfy redemptions. In addition, in accordance with the Prospectus, only a limited portion of the assets of each Fund is invested in transferable securities or money market instruments that are not readily tradable. Should it be necessary to raise cash quickly, the Funds are entitled to borrow, on a temporary basis, provided that their individual aggregate borrowings do not exceed 10% of their respective Net Asset Values.

Liquidity risk is also managed by provisions that authorise the Board of Directors to suspend or otherwise limit redemptions in certain circumstances, including when total redemption requests for a Fund on a particular day exceed 10% of its total number of Redeemable Participating Shares outstanding. The Board of Directors has not invoked this provision for any Fund since establishment.

The Investment Manager has designed proprietary liquidity management systems and procedures and/or uses industry risk modules to measure the liquidity risk of the Funds and ensures that the liquidity profile of the Funds' investments is in line with the obligations and in particular that the Funds will be in a position to satisfy Unitholders' redemption requests in accordance with the provisions of the Prospectus.

For the Funds, liquidity risk indicators such as cost to liquidate and time to liquidate based on various stress market scenario are calculated. By analysing the liquidity profile of the Funds' investments, the Investment Manager defined some liquidity risk signals. The Investment Manager monitors the liquidity risk indicators on a daily basis.

In addition, the Investment Manager monitors redemptions coverage ratios by stressing the liquid portion of the Funds (from time to liquidate bucketing) with an estimated redemption, as well as Liquidity Shortfall monitoring for example. This monitoring is implemented to confirm that the Funds have sufficient liquidity to meet redemptions.

There was one investor holding 21% of the net assets of the Loomis Sayles Multisector Income Fund at 31 December 2022, two investors holding 58% of the net assets of the Loomis Sayles High Income Fund at 31 December 2022, two investors holding 83% of the net assets of the Loomis Sayles Global Opportunistic Bond Fund at 31 December 2022, one investor holding 98% of the net assets of the Loomis Sayles Alternative Risk Premia Fund at 31 December 2022, two investors holding 93% of the net assets of the Loomis Sayles Euro High Yield Fund at 31 December 2022, two investors holding 76% of the net assets of the Loomis Sayles Euro Credit Fund at 31 December 2022 and one investor holding 25% of the net assets of the Loomis Sayles Sustainable Euro Credit Fund at 31 December 2022 Refer to the Note 12 of the financial statements for more details.

When appropriate, a specific liquidity risk process based on a qualitative approach is implemented by the Investment Manager with the Investment Manager to confirm and evidence the liquidity of specific less liquid assets.

The Funds' liquidity positions are also monitored on a daily basis by the Investment Manager. Any significant concerns in these areas are immediately brought to the attention of the Board of Directors, otherwise they are periodically reviewed by the Board as its meetings.

Particularly for derivatives, given the nature of the financial derivative instruments used in the Funds, the currencies involved and the relatively low position sizes, the level of liquidity risk is expected to be low.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Capital Risk Management

The capital of the Fund is represented by the net assets attributable to holders of redeemable shares. The amount of net asset attributable to holders of redeemable shares can change significantly on a daily basis, as the Funds are subject to daily subscriptions and redemptions at the discretion of shareholders, as well as changes resulting from the Funds' performance. The Funds' objectives when managing capital are to safeguard the Funds' abilities to continue as a going concern in order to provide returns for shareholders and maintain a strong capital base to support the development of the investment activities of the Funds.

In order to maintain the capital structure, the Funds' policies are to redeem and issue new shares in accordance with the constitutional documents of the Funds, which include the ability to restrict subscriptions and redemptions.

The Board of Directors and Investment Manager monitor capital on the basis of the value of net assets attributable to redeemable shareholders.

Fair Value Estimation

The Company has classified Financial Instruments measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities; U.S. government treasury bills and certain non-U.S. sovereign obligations. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and certain non-U.S. sovereign obligations, listed equities and over the counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments include certain corporate debt securities. As observable prices are not available for these securities, the Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Investment Manager. The Investment Manager, in consultation with the Administrator, considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

13. FINANCIAL RISK MANAGEMENT (Continued)

Offsetting

None of the financial assets and financial liabilities are offset in the Statement of Financial Position. The disclosures set out in the tables overleaf include financial assets and financial liabilities that are subject to an enforceable ISDA Master Agreement.

The ISDA Master netting arrangements do not meet the criteria for offsetting in the Statement of Financial Position. This is because they create a right of set-off of recognised amounts that is enforceable only following an event of default, insolvency or bankruptcy of the Company or the counterparties. In addition, the Company and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

Loomis Sayles Multisector Income Fund

At 31 December 2022 all derivatives were held with Brown Brothers Harriman & Co (31 December 2021: Brown Brothers Harriman & Co) and therefore all derivative amounts have a right to offset only in the event of default, insolvency or bankruptcy. Net liability exposure at 31 December 2022 amounted to USD (78,812) (31 December 2021: USD (77)). Further details of the derivatives held at 31 December 2022 are presented in the Schedule of Investment on pages 123 to 140.

Loomis Sayles High Income Fund

At 31 December 2022 all derivatives were held with Brown Brothers Harriman & Co (31 December 2021: Brown Brothers Harriman & Co) and therefore all derivative amounts have a right to offset only in the event of default, insolvency or bankruptcy. Net liability exposure at 31 December 2022 amounted to USD (137) (31 December 2021: USD (2,390)). Further details of the derivatives held at 31 December 2022 are presented in the Schedule of Investment on pages 141 to 155.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

14. EFFICIENT PORTFOLIO MANAGEMENT

The Company may, for the purposes of efficient portfolio management and hedging of currency risks, engage in financial derivative instruments to the extent permitted by the investment objectives and policies of the Funds and subject to the limits set down by the Central Bank of Ireland from time to time and to the provisions of the Prospectus. During the financial year ended 31 December 2022, the Company engaged in efficient portfolio management techniques through the use of interest rates future transactions.

The Company entered into forward currency transactions for the purpose of hedging currency risk on investment and cash holdings, to hedge benchmark risk. The Company also entered into forward currency transactions for the purpose of share class hedging.

Contracts outstanding at 31 December 2022 are disclosed in the Schedule of Investments. Realised gains and losses on financial instruments used for efficient portfolio management purposes are included in the table below.

At 31 December 2022

Fund	Futures Commission Expense	Realised Gain/ (Loss)	Change in Unrealised Gain/ (Loss)

17. MATERIAL EVENTS AFFECTING THE COMPANY DURING THE FINANCIAL YEAR

In response to the Central Bank’s “CP86 Letter” to the funds industry in October 2020, the Board of Directors of the Company approved an action plan to appoint an EU regulated UCITS management company to transition the Company away from a self-managed structure. On 21 January 2022, Natixis Investment Managers S.A. was appointed as management company to the Company. Natixis Investment Managers S.A. will no longer be referred as the Investment Manager, Promoter and Distributor but as the Management Company and Promoter instead. Natixis Investment Managers S.A., acting in its capacity as management company, has delegated the role of distributor for the Company to Natixis Investment Managers International.

The Company created seven (7) dividend gross (“DG”) share classes in the Loomis Sayles Multisector Income Fund. The DG share classes are an income Distributing Share Class which seeks to provide an enhanced yield to Shareholders. In order to provide such enhanced yield the Directors may, at their discretion, pay fees out of capital.

The 2022 reporting period has seen a high level of volatility of all financial markets due to the Russian/Ukrainian crisis, the mid-year inflation and interest rates rises and the concerns over global recession and monetary tightening. Market disruptions associated with current geopolitical events have had a global impact, and uncertainty exists as to their implications. Such disruptions can adversely affect assets of the Funds and thus their performance. The Funds will continue to be monitored to evaluate these recent events and the potential impact.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

Notes to the Financial Statements as at 31 December 2022 (Continued)

17. MATERIAL EVENTS AFFECTING THE COMPANY DURING THE FINANCIAL YEAR (Continued)

The current Prospectus was approved by the Central Bank of Ireland on 21 January 2022 and replaced the Prospectus dated 24 September 2020.

On 8 June 2022, Christopher Yiannakou was appointed as a Director of Company.

There were no other material events affecting the Company during the financial year.

18. FINANCE COSTS

During the financial year ended 31 December 2022 and 31 December 2021, the Company declared and paid the following dividends:

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the year and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the year is available, upon request, at no extra cost from the Administrator.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

APPENDIX I (Unaudited)

Remuneration Policy (Unaudited)

Remuneration Policy for Natixis International Funds (Dublin) I PLC

The Company is authorised by the Central Bank of Ireland (the “Central Bank”) as a UCITS investment company.

The purpose of the Policy is to describe the remuneration practices of the Company in relation to its identified staff, namely the non-executive directors of the Company (the “Directors”). The Company’s board of Directors (the “Board”) has established these practices to ensure that they are consistent with and promote sound and effective risk management and do not encourage risk taking that is inconsistent with the risk profile and articles of association of the Company.

The funds currently managed by the Company are:

- **Natixis International Funds (Dublin) I – Loomis Sayles Multisector Income Fund**
- **Natixis International Funds (Dublin) I – Loomis Sayles Global Opportunistic Bond Fund**
- **Natixis International Funds (Dublin) I – Loomis Sayles High Income Fund**
- **Natixis International Funds (Dublin) I – Loomis Sayles Alternative Risk Premia Fund**
- **Natixis International Funds (Dublin) I – Loomis Sayles Euro High Yield Fund**
- **Natixis International Funds (Dublin) I – Loomis Sayles Euro Credit Fund**
- **Natixis International Funds (Dublin) I – Loomis Sayles Sustainable Euro Credit Fund**

(the “Funds”).

The total net assets of the Company as at the most recent year end date (31 December 2022) were an aggregate amount of USD 1,247,136,006.

Identified Staff

The categories of staff, including senior management, risk takers and control functions whose professional activities may have a material impact on the risk profile of the Company and of the Funds are identified in the Schedule to this Policy (the “Identified Staff”).

The only Identified Staff are the Directors.

Types of Remuneration

This policy applies to all forms of payments or benefits paid by the Company to the Identified Staff in exchange for professional services. Such forms of payment or benefit may include:

1. fixed remuneration (payments or benefits without reference to performance); and
2. variable remuneration (additional payments dependent on performance or other contractual criteria as described below).

The Company currently only pays fixed remuneration to the independent non-executive directors (namely Mr Daniel Morrissey and Mr John Nolan).

Directors who are also employees within the Natixis Investment Managers group, (Jason Trepanier), Loomis, Sayles & Company, L.P., the Investment Manager (Lynda Wood (née Schweitzer)) and Loomis Sayles Investments Limited, UK, a wholly owned subsidiary of the Investment Manager (Christopher Yiannakou), do not receive any remuneration from the Company.

Remuneration Policy

The Company's policy is to pay the relevant Identified Staff (in the Company’s case, only the independent non-executive directors) fixed remuneration only with no variable component being paid. Directors who are also employees within the Natixis Investment Managers group will be subject to the Natixis Investment Managers International Remuneration Policy, and may also be considered as “identified staff” within the Natixis Investment

APPENDIX I (Unaudited) (Continued)

Remuneration Policy (Unaudited) (Continued)

Remuneration Policy (Continued)

Managers SA Remuneration Policy. The Natixis Investment Managers SA Remuneration Policy is available on the following website: www.im.natixis.com/intl-regulatory-documents.

Disclosure

The Company will comply with the disclosure requirements set out in:

- (a) Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities as amended by Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 as regards depositary functions, remuneration policies and sanctions, including its mandatory implementing regulations on an EU or Home Member State level and as further amended from time to time (the “UCITS Directive”);
- (b) any regulations enacted or adopted from time to time by the European Commission pursuant to or in accordance with the UCITS Directive, whether as delegated acts or otherwise;
- (c) the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 S.I. No 420 of 2015; and
- (d) the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD issued pursuant to Article 14a(4) of the UCITS Directive (the “UCITS Remuneration Guidelines”).

The Company’s up to date remuneration policy will be disclosed on the following website: www.im.natixis.com/intl-regulatory-documents. A summary statement in relation to this Policy has been included in the Company’s Prospectus and in each of the Company’s KIIDs.

The total amount of remuneration for the financial year, split into fixed and variable remuneration (if any), paid by the Company to the relevant Identified Staff will be disclosed in the Company’s annual report, as will the aggregate amount of remuneration broken down by senior management whose actions have a material impact on the risk profile of the Company and of the Funds.

The Board considers that this policy is in line with the strategy, objectives and values of the Company and the Funds and is not inconsistent with the best interests of the Company, the Funds and its/their investors.

Remuneration Committee/Board Oversight

The Board has determined in light of the size, internal operations, nature, scale and complexity of the Company that a remuneration committee is not required. Remuneration matters will be dealt with by the Board with the relevant affected director absenting himself from such discussions.

The Company has in place a Directors’ conflicts of interest policy and the remuneration policy and its implementation shall be subject to the requirements of such conflicts of interest policy.

Application

It is the Company’s intention to apply this policy in accordance with the UCITS Remuneration Guidelines, as may be amended from time to time.

Review

The Board will review the implementation of this remuneration policy on an annual basis and will review its practices for compliance with the policy on an annual basis.

APPENDIX I (Unaudited) (Continued)

Remuneration Policy (Unaudited) (Continued)

Scope

This is the Company's remuneration policy and does not extend to any of the Company's delegates.

The Company pays investment management fees in respect of each Fund to the Company's appointed investment manager which are disclosed in the Company's Prospectus documentation and annual report. The Company does not pay any performance related investment management fees.

The below named Board Members are the Identified Staff.

Jason Trepanier
Lynda Wood (née Schweitzer)
Christopher Yiannakou

APPENDIX II (Unaudited)

Remuneration Disclosure (Unaudited)

Remuneration Disclosure for Natixis Investment Managers S.A. in its capacity as Investment Manager of Natixis International Funds (Dublin) 1 Plc (the “Company”)

Natixis Investment Managers S.A. as the Investment Manager of the Fund (the “Investment Manager”) has implemented a Remuneration Policy that is designed to promote sound and effective risk management and to discourage taking excessive risks for both the Investment Manager itself and for the funds it manages. The Policy is reviewed on an annual basis.

Further details on the remuneration policy of the Company are available by referring to the following website www.im.natixis.com/intl-regulatory-documents and a paper copy of such details is available on request and without charge.

The below tables sets out the proportion of the total fixed and variable remuneration of the staff identified as “Material Risk Takers” of the Investment Manager and Investment Manager attributable to all the funds of the Company.

The organization of the Investment Manager does not allow such amounts to be identified per fund managed. The figures below therefore show the amount of the remuneration on a pro-rata basis compared to the total assets under management. The portion of total remuneration paid or payable to Identified Staff of entities to whom the Investment Manager has delegated portfolio management functions (the “Delegate(s)”) is also set out below.

Total remuneration paid by Natixis Investment Managers, S.A. to its’ staff identified as 'Material Risk Takers' including the identified staff of the delegate(s) in the year ending 31 December 2022 is as follows:

Identified Staff of the Investment Manager

Fixed Remuneration	203,234 EUR
Variable Remuneration	284,378 EUR
Total	487,612 EUR
Number of beneficiaries:	13

Identified Staff of the delegate(s)

Fixed Remuneration	522,770 EUR
Variable Remuneration	790,069 EUR
Total	1,312,839 EUR
Number of beneficiaries:	17

Fixed remuneration is inclusive of 2022 base salary and variable remuneration consists of both cash and deferred components of incentive awards.

NATIXIS INTERNATIONAL FUNDS (DUBLIN) I PLC

APPENDIX II (Unaudited) (Continued)

Remuneration Disclosure (Unaudited) (Continued)

In addition, the aggregate amount of remuneration is further broken down as follows for the Identified Staff of the Investment Manager:

Identified Staff of the Investment Manager

Senior Management*	161,117 EUR
Other members having a material impact on risk profile of the Fund	326,495 EUR
Total	487,612 EUR
Number of other member beneficiaries:	9

*Senior Management includes:

De Poncharra, Florian

Horsfall, Patricia

Pinto, Joseph

APPENDIX IV (Unaudited)

Securities Financing Transaction Regulation (Unaudited)

Securities Financing Transaction Regulation (“SFTR”) introduces reporting requirements for securities financing transactions (“SFTs”) and Total Return Rate Swaps.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement
- securities or commodities lending and securities or commodities borrowing
- a buy-sell back transaction or sell-buy back transaction, or
- a margin lending transaction

As at 31 December 2022 the Funds did not hold any instruments under the scope of the SFTR.

Article 6 Sub-Funds

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Article 8 Sub-Funds

The following Sub-Funds promote environmental and/or social characteristics but do not have a sustainable investment objective and, as such, fall within the scope of Article 8 of the Sustainable Finance Disclosure Regulation: Loomis Sayles Global Opportunistic Bond Fund, Loomis Sayles Euro High Yield Fund, Loomis Sayles Euro Credit Fund, Loomis Sayles Sustainable Euro Credit Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Loomis Sayles Global Opportunistic Bond Fund**

Legal entity identifier: GRN8DO5Q28D6Y7RN0D20

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0.0% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager managed the fund in accordance with its objective to promote the environmental characteristics of climate change impact reduction (the "E/S Characteristic"). As of 31st of December 2022, the Investment Manager invested 16% of the fund's Net Asset Value in these E/S Characteristics.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● *How did the sustainability indicators perform?*

As mentioned in the previous paragraph, as of 31st of December 2022, the Investment Manager invested 16% of its fund's Net Asset Value in the E/S Characteristics noted above. Of the 16%, 2% of the Fund met the climate change mitigation indicator, 14% met the renewable energy usage indicator, and 0% met the leaders in climate change mitigation indicator.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not Applicable

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not Applicable

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not Applicable

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not Applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts (“PAI”) of the Fund’s investments on sustainability factors by monitoring and analysing the following principal adverse impact indicators when managing the Fund:

- GHG emissions (Scope 1 & 2 and Total GHG Emissions (also Scope 1 & 2));
- Carbon footprint;
- GHG intensity of investee companies;
- GHG intensity of investee countries;
- Exposure to companies active in the fossil fuel sector;
- Share of non-renewable energy consumption and production;
- Energy consumption intensity per high impact climate sector;
- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons);
- Investments in companies without carbon emission reduction initiatives;
- Number of identified cases of severe human rights issues and incidents;
- Share of bonds not certified as green under a future EU act setting up an EU Green Bond Standard; and
- Average political stability score.

The above listed principal adverse impact indicators were taken into consideration by the Investment Manager in various ways as part of its ongoing management of the Fund, including through the assessment of issuers against the sustainability indicators outlined above.

What were the top investments of this financial product?

Sovereign	1.64%	Japan
Bank	1.62%	Luxembourg
Sovereign	1.61%	Japan
Mortgage-Backed Securities	1.55%	Unknown country

What was the proportion of sustainability-related investments?

Not Applicable

What was the asset allocation?

The Investment Manager met its objective to invest a minimum of 10% of the fund's Net Asset Value in investments which promote the E/S Characteristics. As of 31st of December 2022, the Investment Manager had invested 16% of its fund's Net Asset Value in investments which met the sustainability indicators outlined above.

In which economic sectors were the investments made?

To achieve the portfolio's E/S characteristics, we made investments in green bonds, high renewable energy-consuming corporate issuers and climate change mitigation leaders sourced from the Banking, REIT, Communications and Technology industries.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not Applicable

- **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with EU Taxonomy¹?**

Yes :

In fossil gas In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** shows the green investments made by investee companies, e.g. relevant for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments **including** sovereign bonds*

2. Taxonomy-alignment of investments **excluding** sovereign bonds*

This graph represents **100%** of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**

Not Applicable

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not Applicable

What was the share of socially sustainable investments?

Not Applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The 84% of the Fund’s NAV that did not meet the sustainability indicators was held in a combination of one or more of the following: (i) securities which did not align with the E/S Characteristics as they did not meet the sustainability indicators; (ii) derivatives entered into for the purposes of hedging and liquidity management; (iii) other liquidity management tools, such as money market instruments, cash and cash equivalents.

In relation to the securities of companies which did not align with the E/S characteristics, such investments were subject to the minimum environmental and social safeguards in the investment process the Investment Manager follows for the Fund, including that the principal adverse impacts of such investments were considered by the Investment Manager.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As in previous periods, we used our ESG integration, negative exclusion lists, and positive selection process to source an investment portfolio that met the E/S characteristic criteria during the time period. In specifically taking action to meet the three key indicators to address the E/S characteristic criteria, we executed the following processes: 1)Green bonds: Investments were made in issuances of green bonds where the Investment Manager verified that the use of proceeds of those bonds was to promote climate change mitigation, 2)Renewable energy usage (% of renewable energy utilised): Investments were made in issuers where at least 50% of the power that they used was generated by renewable or nuclear energy resources. and 3)Leaders in climate change mitigation: Investments were made in issuers which the Investment Manager determined to be leaders in climate change mitigation.

How did this financial product perform compared to the reference benchmark?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not Applicable

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not Applicable

- ***How did this financial product perform compared with the reference benchmark?***

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 0.0% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Manager managed the fund in accordance with its objectives to promote the environmental characteristics of climate change mitigation, the transition to a circular economy and the protection and restoration of biodiversity and ecosystems (the "E/S Characteristics"). As of 31st of December 2022, the Investment Manager invested 34% of the fund's Net Asset Value in these E/S Characteristics.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

- **How did the sustainability indicators perform?**

As mentioned in the previous paragraph, as of 31st of December 2022, the Investment Manager invested 34% of its fund's Net Asset Value in the E/S Characteristics noted above. Of the 34%, 33% of the Fund promoted the climate change indicator, 1% promoted the circular economy indicator, and 2% promoted the deforestation prevention indicator.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not Applicable

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not Applicable

How were the indicators for adverse impacts on sustainability factors taken into account?

Not Applicable

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not Applicable

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered the principal adverse impacts (“PAI”) of the Fund’s investments on sustainability factors by monitoring and analysing the following principal adverse impact indicators when managing the Fund:

- Greenhouse Gas Emissions (Scope 1);
- Exposure to companies in the fossil fuel sector;
- Share of non-renewable energy consumption and production;
- Violations of the UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises;
- Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises;
- Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons);
- Investments in companies without carbon emission reduction targets; and
- Lack of a human rights policy.

The above listed principal adverse impact indicators were taken into consideration by the Investment Manager in various ways as part of its ongoing management of the Fund, including through the assessment of issuers against the sustainability indicators outlined above.

What was the proportion of sustainability-related investments?

Not Applicable

What was the asset allocation?

The Investment Manager exceeded its objective to invest a minimum of 10% of the fund's Net Asset Value in investments which promote the E/S Characteristics. As of 31st of December 2022, the Investment Manager had invested 34% of its fund's Net Asset Value in investments which promoted the E/S Characteristics outlined above.

In which economic sectors were the investments made?

Investments were made across the following sectors: Telecommunications, Automobiles & Parts, Banks, Health Care, Industrial Goods & Services and Insurance

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not Applicable

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions on switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with EU Taxonomy¹?**

Yes :

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- **What was the share of investments made in transitional and enabling activities?**

Not Applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not Applicable

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of socially sustainable investments?

Not Applicable

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The 66% of the Fund’s NAV that did not meet the sustainability indicators was held in a combination of one or more of the following: (i) securities which did not align with the E/S Characteristics as they did not meet the sustainability indicators; (ii) derivatives entered into for the purposes of hedging and liquidity management; (iii) other liquidity management tools, such as money market instruments, cash and cash equivalents.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager combined a “top-down” market view with “bottom-up” research of each individual debt issuer that is selected. As a key component of its bottom-up approach, the Investment Manager used a proprietary ESG process first to reduce the investment universe of the fund and then to analyse the impact a proposed investment with a specific debt issuer may have on the Characteristics which are being promoted by the Fund. Taking into account the Fund’s objective to invest a minimum of 10% of the fund’s Net Asset Value in investments which promoted the E/S Characteristics.
