What is this product?

Type

The Fund is an Irish collective asset-management vehicle ("ICAV"). The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long-term capital growth.

Investment Policy:

In normal market conditions, the Fund will invest at least 90% of its assets in shares (or securities similar to shares) of companies incorporated in the US or those that earn the majority of their revenue from the US.

The Investment Manager identifies stocks which may or may not comprise the S&P 500 Index (USD Net Total Return) and uses a proprietary quantitative investment process to create a portfolio which focuses on risk premia offered by exposure to factors such as value, quality, momentum, low risk and size.

The investment approach is subject to ongoing research regarding the above factors. A portfolio is then created which maximises the exposure to the highest ranked equity securities based on the above factors while minimising the portfolio's risk.

The Fund may hold cash and money market instruments such as bills, commercial paper, and certificates of deposits for ancillary liquidity purposes.

The Fund may invest up to 10% of its assets in other funds, including HSBC funds.

The Fund may invest up to 10% of its assets in total return swaps. However, this exposure is not expected to exceed 5%.

The Fund may also invest in derivatives for efficient portfolio management purposes (such as to manage risk and costs, or to generate additional capital or income).

- ◆ The Fund may enter into securities lending transactions for up to 30% of its assets. However, this is not expected to exceed 25%.
- ◆ The reference currency of the Fund is USD. The reference currency of this share class is GBP.
- ◆ Income is reinvested.
- ◆ You may sell your investment on most working days.
- ◆ The Fund is actively managed and does not track a benchmark. The Fund has an internal or external target to a reference benchmark, S&P 500 Net total Return index.
- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on

active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.

- ◆ The deviation of the Fund's performance relative to the benchmark is also monitored, but not constrained, to a defined range.

Intended Retail Investor

Designed for investors seeking capital appreciation and planning to invest for at least 5 years. The Fund may appeal to investors who are looking for a core equity investment with exposure to US equity investments.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

Additional Information:

This document describes a single share class of a sub-fund of the UCITS. Further information about the UCITS including the Prospectus, the most recent annual and semi-annual reports of the UCITS and the latest prices of shares, may be obtained free of charge, in English, from the Administrator by emailing ifsinvestorqueries@hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and French. The Prospectus, annual and semi-annual reports are prepared for the entire UCITS.

The Depository is HSBC Continental Europe. The Fund's assets are kept safe by the Depository and are segregated from the assets of other Funds.

It is possible to switch your shares into shares of a different share class or sub-fund within the ICAV. Details of how to do this are in the "How to convert between sub-funds / Classes" section of the Prospectus.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 Years		If you exit after 1 year	If you exit after 5 years
Investment of GBP 10,000			
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenarios	What you might get back	GBP 960	GBP 1,180
	Average Return each year	-90.45 %	-34.78 %
Unfavourable Scenario	What you might get back	GBP 9,180	GBP 11,080
	Average Return each year	-8.25 %	2.08 %
Moderate Scenario	What you might get back	GBP 11,270	GBP 19,840
	Average Return each year	12.72 %	14.69 %
Favourable Scenario	What you might get back	GBP 13,980	GBP 22,930
	Average Return each year	39.80 %	18.06 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between December 2021 and January 2024. The moderate scenario occurred for an investment between December 2014 and December 2019. The favourable scenario occurred for an investment between April 2016 and April 2021. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations.

In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ GBP 10,000 is invested.

Recommended Holding Period: 5 Years Investment of GBP 10,000	If you exit after 1 year	If you exit after 5 years
Total Costs	24 GBP	241 GBP
Annual cost impact % *	0.2%	0.3% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.97% before costs and 14.69% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
