This interim report and unaudited financial statements (the "Report and Financial Statements") may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Financial Statements. To the extent that there is any inconsistency between the English language Report and Financial Statements and the Report and Financial Statements in another language, the English language Report and Financial Statements will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Financial Statements in a language other than English, the language of the Report and Financial Statements on which such action is based shall prevail. Any disputes as to the terms of the Reports and Financial Statements regardless of the language of the Report and Financial Statements, shall be governed by and construed in accordance with the Laws of Ireland.

Company information

Legal & General UCITS ETF Plc (the “Company”) is organised as an open-ended investment company with variable capital. The Company has segregated liability between its sub-funds and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (the “Companies Act”). The Company is subject to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”).

The objective of the Company is the collective investment in transferable securities and other liquid financial assets of capital raised from the public, operating on the principle of risk spreading in accordance with the UCITS Regulations.

The Company is structured as an umbrella fund with segregated liability between sub-funds and comprises separate sub-funds (each a “Fund” and together the “Funds”), in that the Directors may from time to time, with the prior approval of the Central Bank of Ireland (the “Central Bank”), issue different series of shares representing separate portfolios of assets. The assets of each Fund will be invested in accordance with the investment objective and policies applicable to such Fund as disclosed in the prospectus of the Company (the “Prospectus”) and the relevant Fund supplement (the “Supplement”).

As at 31 December 2023, the following 62 Funds (30 June 2023: 62 Funds) of the Company were approved by the Central Bank, 50 of which were open for subscriptions and operational at the financial period end (30 June 2023: 49 Funds). The corresponding indices tracked/replicated by each Fund are also shown below:

⁶The Fund closed on 11 October 2023.

⁷These Funds were approved by the Central Bank on 23 February 2017. No shares of the Funds have been issued as at the date of the Financial Statements.

Company information (continued)

Investment objective and policy of the Funds

Each of the Funds, unless otherwise stated, seeks to provide a return equivalent to the return of a financial index.

Depending on the nature of the relevant index tracked/replicated by each Fund, the Investment Manager (or relevant Sub-Investment Manager) may employ alternative techniques in order to gain exposure to the index, including (but not limited to):

- entering into financial derivative instruments (in particular, total return swaps) with one or more counterparties;
- investing directly in the portfolio of transferable securities or other relevant assets which comprise the constituents of the relevant index; and/or
- investing directly in an optimised/representative sample of the index constituents together with other eligible assets which may be unrelated to the index constituents.

The actual method used by a Fund to track its index is as set out in the investment policy of that Fund in the Fund specific Supplement to the Company's Prospectus.

For the avoidance of doubt, total return swaps are only entered into with eligible financial counterparties that are subject to prudential supervision and belonging to categories approved by the Central Bank. Please refer to the section entitled "Counterparty Eligibility" in the Company's Prospectus for further details of the eligibility criteria for financial counterparties.

The table below shows which stock exchanges each Fund (or share class thereof where the relevant Fund is comprised of more than one share class) was listed on as at 31 December 2023.

¹The Fund was approved by the Central Bank on 30 August 2023. The Fund launched on 25 September 2023.

²The Fund was approved by the Central Bank on 26 November 2022. The Fund launched on 31 October 2023.

Each Fund may have more than one share class allocated to it. The shares of each share class within a Fund will rank *pari passu* with each other in all respects except that the share classes within a Fund may differ as follows or as the Directors may otherwise determine:

- Currency of denomination of the shares
- Dividend policy
- Total expense ratio
- Minimum subscription and redemption size
- Currency hedging policy

The term "Fund" means a Fund of the Company, or if the context so requires, the Company or the Manager (or its delegate) for the account of the relevant Fund.

The term "NAV" is used to represent Net Asset Value.

The term "Manager" means LGIM Managers (Europe) Limited.

The term "Global Distributor" means Legal & General Investment Management Limited.

The term "Investment Manager" means Legal & General Investment Management Limited, as the context requires.

The term "Sub-Investment Manager" means E Fund Management (Hong Kong) Co., Limited.

The term "LGIMH" means Legal & General Investment Management (Holdings) Limited.

The term "L&G Group" means subsidiaries of Legal & General Group plc.

The term "for the financial period ended 31 December 2023" means the six month period which began on 1 July 2023 and ended on 31 December 2023.

The term "equity" or "equities" also refers to common stock.

The term "Administrator" means BNY Mellon Fund Services (Ireland) Designated Activity Company.

The term "Depository" means The Bank of New York Mellon SA/NV, Dublin Branch.

Other Information:

Geopolitical Events

In response to events in Eastern Europe and the Middle East, the Directors of the Company are closely monitoring financial markets and any potential liquidity and volatility risks which may have an impact on the Funds. Further details in relation to Russian securities exposure is set out in Note 11 to the financial statements.

Fund review

The performance of the Funds during the financial period under review is as set out below:

The performance returns disclosed are the performance returns for the primary share class for each Fund, net of fees, which have been selected as a representative share class. The primary share class represents the class of share invested into by the majority of investors in the Fund, or the class of share where the relevant Fund is comprised of only one share class. Performance returns for any other share class can be made available on request.

Fund review (continued)

Realised Tracking Error outside Anticipated Tracking Error

L&G DAX® Daily 2x Long UCITS ETF

The tracking error was due to transaction costs including a swap and repurchase agreement spread that were larger than expected.

L&G Clean Energy UCITS ETF

The tracking error was due to overexposure from a suspended constituent (ENERGIA INNOVACION Y DESARRO suspended on 14th April 2023) that was removed from the index and the Fund was unable to sell during this period. The Fund sold its position in the stock on 29 and 30 August 2023 which resulted in tracking on 29 August 2023 of -45 bps and 30 August 2023 of 2.5bps.

L&G Quality Equity Dividends ESG Exclusions Europe ex-UK UCITS ETF

The tracking error was due to a large overexposure to a security that was acquired and removed from the index, whereby we are awaiting proceeds from this acquisition to reinvest across the portfolio. Also, at times there is a difference in Withholding tax between the Fund and the index where the Fund has beneficial rates and outperforms accordingly.

L&G Optical Technology & Photonics ESG Exclusions UCITS ETF

The tracking error was due to a discounted rights issue in AMS-Osram AG. The Fund subsequently took up the discounted rights issue, resulting in relative outperformance versus the benchmark.

L&G Japan ESG Exclusions Paris Aligned UCITS ETF

The tracking error was due to the Fund being optimised at low levels of assets under management. Some of the security positions that were underweight outperformed significantly versus the index.

L&G Gerd Kommer Multifactor Equity UCITS ETF

The Fund was seeded with \$15m (USD), the underlying index is incredibly broad, containing over 5,000 securities. To put forward an economic seed portfolio, the company launched the Fund with around 1,300 securities in a relatively high state of optimisation with active risk of around 0.35% annualised. Compounding this challenge was our lack of exposure to the Indian custody market (3.2% of index) caused by the typical opening delays associated with this market.

The portfolio holding count has accordingly increased from 1,300 to 2,800 securities, with its active risk now in the region of 0.11% on an annualised basis. The Fund should now be well placed to reflect smoother tracking and lower volatility going forward.

Fund review (continued)

Synthetically-Replicating Funds: Tracking difference (i.e. the difference between the performance of each Fund and the performance of its corresponding index) can be attributed to the portfolio transaction costs deducted from the Fund associated with the Over The Counter (OTC) swap transactions entered into with counterparties to track the performance of the corresponding indices as well as the Total Expense Ratio (TER) which is deducted from the Fund and paid to the Manager. The respective indices tracked by the Funds do not incur any of the foregoing costs or charges, therefore each Fund will always be expected to deviate from its corresponding index in this respect. Each Fund has a different management fee and swap spread which is why the tracking difference figures vary between Funds. For example, the 2x short and 2x leveraged Funds will typically have higher swap spreads and, therefore, higher tracking difference figures.

Tracking Error (i.e. the volatility of the differences between the return of the Fund and the return of the corresponding index) in these Funds can be attributed to the over/under exposure of the swap contract, which can only be adjusted when trading occurs or at the monthly reset dates, and the swap accruals, which are set at the monthly reset date and not updated throughout that month for changes in Fund NAV. The Anticipated Tracking Error levels per the Company's Prospectus are the anticipated levels 'under normal market conditions'. Due to increased volatility in markets since February 2020, the factors mentioned above have been more material and in some instances the Funds have realised Tracking Errors that are greater than the anticipated levels per the Company's Prospectus.

Physically-Replicating Funds: Tracking difference (i.e. the difference between the performance of each Fund and the performance of its corresponding index) can be attributed to the portfolio transaction costs deducted from the Fund associated with buying and selling investments as part of the index replication strategy as well as the Total Expense Ratio (TER) which is deducted from the Fund and paid to the Manager. The respective indices tracked by the Funds do not incur any of the foregoing costs or charges, therefore each Fund will always be expected to deviate from its corresponding index in this respect. Additionally, some of the Funds employ an optimised / representative sampling strategy which means that they do not hold all of the underlying constituents of their respective indices. Accordingly, the strategy can cause a Fund to either outperform or underperform its corresponding index over the given period.

Tracking Error (i.e. the volatility of the differences between the return of the Fund and the return of the corresponding index) in these Funds can be attributed to the differing taxation fee treatments between the Funds and the corresponding index, and replication differences, where the Fund does not exactly match the composition of the corresponding index. The Anticipated Tracking Error levels per the Company's Prospectus are the anticipated levels 'under normal market conditions'. Due to increased volatility in markets since February 2020, the impact of replication differences have increased and has led to some Funds having realised Tracking Errors greater than the anticipated levels per the Company's Prospectus.

Market commentary – December 2023

Economic overview

Over the past six months, inflationary pressures and tighter monetary policy continued to dominate the thoughts of market participants. Fears of an economic slowdown remain at the forefront of the minds of investors but, even with inflation falling across developed markets, most observers expect that interest rates will remain higher for longer and don't anticipate any sharp rate cuts any time soon.

In the UK, annualised inflation fell sharply to 4.6% in October, from 6.7% in September, reflecting the recent reduction in energy prices. The Bank of England ("BoE") kept interest rates on hold at the 15-year high of 5.25%, having hiked at a constant pace over the past 18 months or so, although three of the nine members of the Monetary Policy Committee still voted to raise rates at the November meeting. Meanwhile, with a general election expected in 2024, Chancellor Jeremy Hunt's Autumn Statement included headline tax cuts, tempered with longer-term spending restraint.

In the US, the economy grew at a faster-than-expected pace in the third quarter, expanding at its highest pace in nearly two years. This came despite the backdrop of interest rates at a multi-year high of between 5.25% and 5.5%, albeit with the US Federal Reserve's (the "Fed") rate-hiking programme now seemingly at an end. The economy expanded at an annualised rate of 4.9%, boosted by notably strong levels of consumer spending. Meanwhile, US annualised inflation fell to 3.2% in October, from 3.7% in September; still some way above the central bank's long-term 2% target. However, the US dollar weakened late in the period on expectations of potential rate cuts as early as mid-2024, with the greenback hitting a three-month low.

Fund review (continued)

Market commentary – December 2023

Economic overview (continued)

Having raised rates steadily through much of the period, the European Central Bank ("ECB") paused its rate-hiking programme in October, keeping rates at an all-time high of 4.5%. Eurozone annualised inflation fell to 2.4% in November, from 2.9% in October, to its slowest pace since the summer of 2021. Germany, the region's largest economy, also saw its annualised inflation rate fall sharply once again, to 2.3% in November, from 3.8% in October. Market participants continue to speculate over the likely timing of a ECB rate cut, although consensus seems to be that such a move won't happen until 2025.

The days of widespread ultra-loose central bank monetary policy are seemingly over, with the Bank of Japan ("BoJ") – the last bastion of such an approach – making the notable move to tweak its yield curve control in July. The policy, in place since 2016, limited the movement of the 10-year bond yield to 0.5%; its easing to a 1% band was expected to herald the very gradual unwinding of a long period of ultra-loose monetary policy. Indeed, a further loosening late in October, to allow yields to rise above 1%, is seen by some as a first step towards scrapping yield controls completely.

Equities

Global equity markets made strong gains over the six months in US dollar terms, despite developed market monetary tightening in progress and recessionary fears coming to the fore.

US equities made notable gains over the period in US dollar terms and outperformed the global average. Technology led the way, with communication services and consumer discretionary sectors also posting double-digit returns for the six months. Consumer staples and utilities were the only areas of the market to lose ground over the period.

UK equities finished the six-month period marginally in the red in sterling terms, lagging significantly behind the global average. At the sector level, while technology and energy enjoyed very strong performances, these were more than offset by weakness from other sectors. Telecoms endured a torrid six months, while healthcare and consumer staples were also in the doldrums.

European equity markets rose over the six months in euro terms but underperformed the global average over the period. The six months saw double-digit returns from the real estate, banks, financials and energy sectors. Meanwhile, areas of weakness included travel and leisure and consumer staples.

Asia Pacific equity markets lost marginal ground over the past six months in US dollar terms and underperformed global equities. While Chinese equities had rallied at the turn of the year as Beijing announced an easing of its pandemic restrictions, the rebound could not be sustained. Indeed, over the six months the Chinese market lost ground on fears about the state of its property market and the general health of its ailing economy. India bucked the regional trend and made very strong gains for the period.

Meanwhile, emerging markets made small gains over the six months, but underperformed the global average. Aside from the aforementioned travails of China and performance of India, the period also saw Brazil finish the period with double-digit returns.

Bonds

Benchmark developed market government bond yields rose (prices fell) notably over the period, however, the picture was far more nuanced than that. The yield on 10-year US Treasuries rose the most over the six months, with the move exaggerated in October against the backdrop of strong economic data and persistent inflation. Yields then fell sharply (prices rose) late in the period on expectations that Fed rate hiking has finished. The yield on the 10-year German Bund also moved higher but by a lesser extent, before easing late on, while the yield on 10-year UK Gilts made a large inter-period move, jumping notably in May, June and July to match the heady highs it reached during the brief tenure of the Liz Truss-led Conservative government, before moving lower on better-than-expected inflation data late on in the period.

Japanese government bond yields moved higher over the period as a whole. Towards the end of the period the BoJ made the notable move to tweak its yield curve control. The policy, in place since 2016, limited the movement of the 10-year bond yield to 0.5%; its easing to a 1% band is expected to herald the very gradual unwinding of a long period of ultra-loose monetary policy. Yields jumped on the news. Indeed, in late October the BoJ then announced it would be loosening the controls further, allowing yields to rise above 1%.

Fund review (continued)

Market commentary – December 2023

Bonds (continued)

Spreads on UK investment-grade bonds narrowed over the six months. Spreads on US investment-grade bonds narrowed too but were tighter than their UK peers, while spreads also narrowed by a lesser extent on European investment-grade bonds. High yield bond yield spreads, having fluctuated midway through in the period, also narrowed over the six months as a whole.

Property

The effects of higher interest rates, coupled with reduced loan availability and softer economic growth, were increasingly felt across the property market over the period. In the UK commercial property market, retail capital values fell, a trend matched in the warehouses and offices space. Industrial capital values bucked this trend, though, continuing to edge higher, supported by robust rental growth. Elsewhere, there has been a notable drop off in UK office investment over the period, while economic uncertainty has seen UK office availability remain well above its five-year average. Finally, the UK residential property market continued to weaken as interest rates sustained their ascent. However, the Nationwide House Price Index fell by 2.0% in the year to November, a slower pace than anticipated and an improvement on the previous month. Indeed, prices rose by 0.2% month on month, providing some hope that the market could be close to turning the corner.

Outlook

Looking ahead, the fall in bond yields and the weaker US dollar has significantly eased credit conditions. In addition, the Fed's dovish pivot signals that they are prepared to ease monetary policy further, even before inflation is brought fully under control. This should boost economic growth going forward and reduces the chance of a US recession in 2024. However, equity and credit markets have already reacted to this, with valuations at elevated levels as we start the new year. Anything but a US soft landing could therefore be a disappointment for investors. In addition, inflation is still some distance from target, while growth prospects are still challenged across Europe and China. In addition, geopolitical risk remains a potential headwind, particularly as we head into a busy year for elections. This all suggests that economic optimism should be tempered somewhat.

Notes to the Financial Statements

For the financial period ended 31 December 2023

1. Significant Accounting Policies

A. Basis of Preparation and Statement of Compliance

The unaudited financial statements for the financial period ended 31 December 2023 have been prepared in accordance with International Accounting Standard (“IAS”) 34, Interim Financial Reporting and Irish Statute comprising the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”). The unaudited financial statements should be read in conjunction with the annual report and audited financial statements for the financial year ended 30 June 2023, which have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (“EU IFRS”) and Irish Statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations.

L&G Global Brands UCITS ETF and L&G Emerging Markets ESG Exclusions Paris Aligned UCITS ETF launched during the financial period and therefore there are no comparatives in the financial statements.

L&G ESG Green Bond UCITS ETF and L&G US Energy Infrastructure MLP UCITS ETF closed on 19 May 2023 and 11 October 2023, respectively, and are pending application to the Central Bank to revoke the Funds' authorisation.

L&G US Energy Infrastructure MLP UCITS ETF has been prepared on a non-going concern basis.

B. New standards, amendments and interpretations effective for the financial period beginning from 1 July 2023

- **Narrow-scope amendments to IAS 1, Practice statement 2 and IAS 8**

The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies. The amendments apply for annual reporting periods beginning on or after 1 January 2023.

- **Amendment to IAS 12 – deferred tax related to assets and liabilities arising from a single transaction**

These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences. The amendments apply for annual reporting periods beginning on or after 1 January 2023.

The adoption of the above amendments did not have a significant impact on the Company's financial statements.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

1. Significant Accounting Policies (continued)

C. New standards, amendments and interpretations issued but not yet effective from 1 July 2023 and not early adopted

- **Classification of Liabilities as Current or Non-current (Amendments to IAS 1)**

The amendments clarify a criterion in IAS 1 for classifying a liability as non-current: the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.

The amendments:

- specify that an entity's right to defer settlement must exist at the end of the reporting period;
- clarify that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement;
- clarify how lending conditions affect classification; and
- clarify requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

The amendments apply retrospectively for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted.

The Company is currently evaluating the impact, if any, that this amendment will have on its financial statements.

- **IFRS S1 - General Requirements for Disclosure of Sustainability-related Financial Information**

The objective of IFRS S1 is to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to users of general-purpose financial reports in making decisions relating to providing resources to the entity. IFRS S1 requires an entity to disclose information about all sustainability-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term (collectively referred to as 'sustainability-related risks and opportunities that could reasonably be expected to affect the entity's prospects'). IFRS S1 is effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted as long as IFRS S2 Climate-related Disclosures is also applied.

- **IFRS S2 - Climate-related Disclosures**

The objective of IFRS S2 is to require an entity to disclose information about its climate-related risks and opportunities that is useful to users of general-purpose financial reports in making decisions relating to providing resources to the entity. IFRS S2 requires an entity to disclose information about climate-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term (collectively referred to as 'climate-related risks and opportunities that could reasonably be expected to affect the entity's prospects'). IFRS S2 is effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted as long as IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information is also applied.

The Company is currently evaluating the impact, if any, that these standards will have on its financial statements.

There are no other standards, amendments and interpretations issued that are not yet effective that are expected to have a significant impact on the Company.

3. Taxation

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- a) a shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the Company;
- b) certain exempted Irish tax resident Investors who have provided the Company with the necessary signed statutory declarations;
- c) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another fund;
- d) any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- e) certain exchanges of shares between spouses and former spouses on the occasion of judicial separation and/or divorce;
- f) an exchange by a shareholder, effected by way of an arm's length bargain where no payment is made to the shareholder of shares in the Company for other shares in the Company.

In the absence of an appropriate declaration, the Company will be liable for Irish tax on the occurrence of a chargeable event, and the Company reserves its right to withhold such taxes from the relevant shareholders.

Other Countries:

Interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

4. Cash, Cash Equivalents and Bank Overdrafts

Cash and cash equivalents comprises of current deposits and overdrafts held with The Bank of New York Mellon SA/NV, plus holdings in sub-funds of LGIM Liquidity Funds Plc (LGIM Sterling Liquidity Fund, LGIM US Dollar Liquidity Fund and LGIM Euro Liquidity Fund).

The Company may also hold cash in the base currency of the Funds, or the currency in which the assets are denominated. For example, L&G E Fund MSCI China A UCITS ETF may hold cash in US Dollars or Chinese Renminbi or both. Included in the cash balance of L&G E Fund MSCI China A UCITS ETF is a restricted cash amount of \$nil (30 June 2022: \$3,260) which is held with HSBC Securities Services as a minimum reserve contribution with the China Securities Depository and Clearing Corp in order to trade in the China A share market.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

4. Cash, Cash Equivalents and Bank Overdrafts (continued)

The Company, in line with the Central Bank's Guidance paper entitled Umbrella Funds – Cash Accounts Holding Subscription, Redemption and Dividend Monies published in March 2016, operates umbrella "collection accounts" which are subscription and redemption accounts in the name of the Company operated at umbrella level through which subscription, redemption and dividend monies and Fund liquidation proceeds are paid. Subscription and redemption accounts have not been established at Fund level. But a number of collection accounts have been established, one for each of the dealing currencies used by the Funds of the Company. All subscription monies, redemption proceeds, dividend payments and Fund liquidation payments are paid through the collection accounts. The balances on these cash collection accounts as at 31 December 2023 and 30 June 2023 are deemed immaterial in respect of the relevant Fund to which they are due, with the exception of L&G FTSE 100® Leveraged (Daily 2x) UCITS ETF which has been adjusted in "Cash and cash equivalents" in the statement of financial position as at 31 December 2023 (ETFs Battery Value-Chain UCITS ETF, L&G Clean Water UCITS ETF and L&G Gerd Kommer Multifactor Equity UCITS ETF as at 30 June 2023).

5. Collateral

In connection with their investments in OTC swaps, the Synthetically–Replicating Funds may enter into reverse repurchase agreements or receive collateral either in the form of cash or securities.

(i) Collateral received for reverse repurchase agreements

The tables below show the amounts representing collateral received by the Synthetically–Replicating Funds in respect of reverse repurchase agreements, the counterparty and the fair value of the corresponding reverse repurchase agreements as at 31 December 2023 and 30 June 2023:

Fund	Counterparty	Reverse Repurchase Agreement Fair Value as at 31 December 2023	Collateral Fair Value as at 31 December 2023*	% of Position
L&G DAX® Daily 2x Long UCITS ETF	Merrill Lynch International	€31,505,100	€31,277,792	99%

Company Total	\$1,366,918	–	–	\$1,366,918

Cash collateral pledged by/to swap counterparties are included as cash for margin calls to/by counterparties in the statement of financial position.

6. Share Capital

On incorporation, the authorised and fully paid share capital of the Company was \$2.00 divided into two "subscriber shares" of \$1.00 each and 500,000,000,000,000,000 participating shares of no par value. The subscriber shares do not form part of the Company's NAV when determining the NAV per Fund. They are thus disclosed in the financial statements by way of this note only. The subscriber shares are held by LGIMH and the Manager.

The subscriber shares entitle the holders to one vote per subscriber share, on a poll, and do not entitle the holders to any dividends and on winding up entitle the holders to receive the amount paid up thereon but not otherwise participate in the net assets of the Company. Each of the participating shares of the Company entitles the holder to one vote per share, dividends as the Directors may from time to time declare and, in the event of a winding up or dissolution of the Company, be entitled, in priority to the holders of the subscriber shares, firstly to an amount equal to the NAV of the shares of each class or series held at the date of winding up and, after payment to the holders of the subscriber shares of the nominal amount paid up thereon, to participate in surplus assets of the Company (if any).

The issued and fully paid redeemable participating share capital is at all times equal to the NAV of the Company. Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

7. Efficient Portfolio Management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the Central Bank, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund and taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations.

These techniques and instruments may include investments in repurchase agreements, reverse repurchase agreements and stocklending. Such techniques and instruments will be utilised in accordance with the requirements of the Central Bank. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques. A Fund may enter into repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management in accordance with the requirements of the Central Bank. The Funds enter into these agreements as a cash management strategy with the intention to achieve greater returns than holding deposits. The three counterparties of the Company for reverse repurchase transactions are Barclays Bank Plc, Citigroup Global Markets Limited and Merrill Lynch International. Please refer to Note 5 ("*Collateral*") for the fair value of reverse repurchase agreements and the type and amount of the collateral received. There are no transaction costs associated on the purchase and sale of reverse repurchase agreements for the financial periods ended 31 December 2023 and 31 December 2022.

Please refer to the description "Income on reverse repurchase agreements" in the statement of comprehensive income for details on the revenue earned from reverse repurchase agreements during the financial periods ended 31 December 2023 and 31 December 2022.

The Funds, where applicable, may enter into forward currency contracts to purchase or sell a specific currency at a future date at a price set at the time of the contract. A Fund may enter into these contracts to hedge against fluctuations in currency exchange rates. The Funds may use one currency (or a basket of currencies) to hedge against adverse fluctuations in the value of another currency (or a basket of currencies) when exchange rates between the two currencies are positively correlated.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

8. Significant Agreements and Related Party Transactions

The Manager

The Company pays out of the assets of each Fund to the Manager a management fee which is, a fixed total expense ratio ("TER") based on the NAV of each Fund which accrues daily and is payable monthly in arrears. The Manager, the Auditors and the Directors have been paid out of the TER. The Manager's fee is the difference between the TER and other fees and expenses payable. The respective TER's of the Funds are detailed on pages 10 to 12. There has been no change to the TER's of the Funds during the financial periods ended 31 December 2023 and 31 December 2022.

The Manager is responsible for discharging, from the TER, the general expenses of the Company, which includes the fees payable to the Administrator, Depositary, Auditor, Investment Manager, Sub-Investment Manager, Registrar, Sponsor, Distributors and other service providers of the Company. Any excess in expenses over the TER shall be borne by the Manager.

Total management fees incurred at the Company level during the financial period ended 31 December 2023 amounted to \$29,384,701 (31 December 2022: \$25,867,540), of which \$4,994,110 (30 June 2023: \$4,806,771) remained outstanding as at 31 December 2023.

As the Company is not a self-managed UCITS Fund, the Manager is responsible for managing capital as required by the Central Bank.

The Company may, in its normal course of business, enter into arm's length transactions with LGIM Managers (Europe) Limited and related entities in line with IAS 24. These related party transactions may include the purchase and sale of money market funds issued by LGIM Managers (Europe) Limited and its related entities. As at 31 December 2023, holdings in the sub-funds of LGIM Liquidity Funds Plc (LGIM Sterling Liquidity Fund, LGIM US Dollar Liquidity Fund and LGIM Euro Liquidity Fund) are included within cash & cash equivalents as shares in these funds can be exchanged immediately for known amounts of cash. The fair value of investments held in these related entities as at the financial period ended amounts to \$1,244,751 (30 June 2023: \$1,101,324) and the amount of income earned is \$34,765 during the financial period ended 31 December 2023 (31 December 2022: \$41,441).

Authorised Participants

Only Authorised Participants are permitted to subscribe for and redeem the shares of the Funds directly with the Company. The below is a list of the Authorised Participants as at the financial reporting date:

- Optiver VOF
- Société Générale S.A.
- Susquehanna International Securities Limited
- UBS AG
- Unicredit Bank A.G.*
- Virtu Financial Ireland Limited

*New Authorised Participants since 30 June 2023

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

8. Significant Agreements and Related Party Transactions (continued)

Director Relationships

Mr. Feargal Dempsey, Mr. David Fagan and Mr. Donard McClean are all independent non-executive Directors and each earned fees of €22,500, €22,500 and €20,000, respectively for services to the Company for the financial period ended 31 December 2023 (31 December 2022: €22,500, €22,500 and €20,000, respectively).

Mr. Howie Li and Ms. Patrizia Libotte are non-executive Directors of the Manager and the Company.

Other than Mr Fergal Dempsey, Mr David Fagan and Mr. Donard McClean, none of the other Directors receive any remuneration for holding the role of Director of the Company.

None of the Directors, the Secretary who held office, nor their families holds or held shares in the Company as at 31 December 2023 and 31 December 2022 or at any time during the financial periods.

The subscriber shares are held by LGIMH and the Manager.

Connected Persons

In accordance with the requirements of Regulation 43(1) of the Central Bank UCITS Regulations, the Manager shall ensure all transactions carried out with the Company by the Manager, Depositary, Investment Manager and their respective associated and/or group companies (together, the "Connected Persons") must be carried out as if negotiated on an arm's length basis and be in the best interest of shareholders.

In accordance with Regulation 81(4) of the Central Bank UCITS Regulations, the Board of Directors of the Manager are satisfied that:

- (i) there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43 (1) are applied to all transactions with a connected person; and
- (ii) all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

9. Operating Expenses

Pursuant to the depositary agreement between the Company, the Manager and the Depositary, the Depositary provides various custodial services and ancillary services to the Company. In connection with the provision of the services, various fees are levied. The fees relate to any transfers including both cash transfers and securities settlement. On top of fees relating to transfers, depositary fees (as a percentage of assets under management) are also applied. Although the Depositary has been appointed directly by the Company, its fees (other than portfolio transactions charges, which are charged to each relevant Fund) are paid by the Manager out of the TER that it receives from the Company.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

9. Operating Expenses (continued)

In relation to the Synthetically–Replicating Funds, the Company has entered into tri–party agreements with The Bank of New York Mellon (the “Collateral Manager”) and each of Barclays Bank Plc, Citigroup Global Markets Limited and Merrill Lynch International (the “Repo Counterparties”) pursuant to which The Bank of New York Mellon acts as Collateral Manager with respect to all collateral transferred to the Company pursuant to the reverse repurchase agreements entered into between the Company and the Repo Counterparties. As is common with respect to tri–party collateral management arrangements, the collateral receiver (i.e. the Company) does not pay any fees with respect to the collateral management services. Any fees associated therewith are paid by the relevant collateral provider (i.e. the relevant Repo Counterparty).

With respect to L&G E Fund MSCI China A UCITS ETF, the Fund’s cash (received from subscriptions) is converted from US Dollar (USD) into Chinese Yuan Renminbi (RMB) for the purpose of purchasing Chinese domestic equities. Conversely, when there is a redemption, a proportion of the Chinese equities are sold and the proceeds are converted back from RMB into USD. Any excess pre–funding amount associated with a subscription also needs to be converted back from RMB to USD for repayment to the relevant Authorised Participant. The FX transactions are entered into with The Bank of New York Mellon (an affiliate of the Depositary and the Administrator) and are instructed by the Sub–Investment Manager on behalf of the Fund.

The Manager has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company (the “Administrator”) to act as Administrator, Transfer Agent and Registrar of the Company with responsibility for performing the day-to-day administration of the Company, including the calculation of the NAV and the NAV per share of each Fund. The Administrator’s fee is paid by the Manager out of the TER that it receives from the Company.

The Investment Manager’s fee and Sub–Investment Manager’s fees are paid by the Manager out of the TER that it receives from the Company.

Dealing/Transaction Fees

Since the launch of the Company, primary market transaction costs (defined as “Duties and Charges” in the Prospectus) relating to ETF trades have been excluded from NAV calculations. These fees correspond to what Authorised Participants are charged on top of the NAV per share price when subscribing or redeeming shares to reflect the costs incurred by the Company in acquiring or disposing of investments on foot of the relevant subscription/redemption. They form no part of ongoing charges and are therefore not disclosed in the financial statements.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

10. Swap Fees

Swap fees are charged to net gain/(loss) on financial assets and liabilities at fair value through profit or loss and relate to the finance costs and fees associated with the swap contracts entered into with the swap counterparties. The swap interest is linked to the relevant SOFR/Euribor/SONIA, plus a spread reflecting the fees charged by the swap counterparties. The following table shows the swap interest (including the spread) in respect of each of the applicable Funds for the financial periods ended 31 December 2023 and 31 December 2022.

Fund	Financial period ended 31 December 2023	Financial period ended 31 December 2022

¹ The Fund closed on 11 October 2023.

11. Financial Instruments and Associated Risks

1. Management of Risk

The Company's activities expose it to a variety of financial risks – market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk and cyber risk which are discussed in this note.

Global exposure is calculated using the commitment approach in the context of the Physically-Replicating Funds and using the relative value at risk approach for the Synthetically-Replicating Funds as detailed in Note 11.5 (*Global Exposure*).

The Manager has delegated investment management activities (i.e. the investment and re-investment of the Company's assets) to the Investment Managers pursuant to an investment management agreement. While the Directors of the Company are ultimately responsible for monitoring the risks associated with the Company and its Funds, including the overall supervision of investment performance risk monitoring, the day-to-day management of investment risk has been delegated to the Investment Manager by the Manager. In the context of L&G E Fund MSCI China A UCITS ETF, the Investment Manager has sub-delegated the investment management activities (i.e. the investment and re-investment of the Fund's assets) to the relevant Sub-Investment Manager.

The Investment Manager are responsible to the Manager, and ultimately the Company's Directors, in regard to the investment management of the assets of the Company.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

1. Management of Risk (continued)

The investments of the Company are subject to normal market fluctuations and other risks inherent in investing in securities and other financial instruments. There can be no assurance that any appreciation in the value of investments will occur, and the capital value of an investor's original investment is not guaranteed. The value of investments may go down as well as up, and an investor may not get back the original amount invested.

The information provided below is not intended to be a comprehensive summary of all the risks associated with the Company's investments and investors should refer to the Company's Prospectus and any Fund specific Supplements (under the headings "Risk Factors") for a detailed summary of the risks inherent in investing in the Company's Funds.

In addition to identifying risks during their consideration of creating new Funds, the Manager, on a quarterly basis, undertakes a review of the investment management and operation of the Funds as well as a list of financial counterparties and Authorised Participants. In addition, the Directors receive periodic compliance and risk reports from the Investment Manager, which are designed to identify any significant risk issues. The Directors may seek additional information from other parties such as the money laundering reporting officer (MLRO), Manager, Administrator or Depositary.

The Manager has implemented a detailed business plan for the Company's business which sets out the material risks pertaining to the management of the Company and the methods used to monitor and measure these risks. The Company's Prospectus further sets out the risks related to the management of and investment in the Funds.

The investment objective of L&G E Fund MSCI China A UCITS ETF is to provide exposure to the equity markets in China. In order to achieve this investment objective, L&G E Fund MSCI China A UCITS ETF aims to track the performance of the MSCI China A Onshore Index by investing primarily in an optimised portfolio of A Shares that, as far as possible and practicable, consists of the component securities of the MSCI China A Onshore Index. The component securities of the MSCI China A Onshore Index are equity securities, referred to as "A Shares", issued by companies incorporated in mainland China and denominated and traded in RMB on the Shenzhen and Shanghai stock exchanges.

In addition, the Investment Manager employs a risk management programme in the daily management of the Company's investment in financial derivative instruments. In the context of L&G E Fund MSCI China A UCITS ETF, the Sub-Investment Manager employs a risk management programme with respect to any investment by the Company in exchange-traded futures. As at the financial period ended 31 December 2023 and the financial year ended 30 June 2023, L&G E Fund MSCI China A UCITS ETF did not hold any investment in futures. The foregoing risk management programmes are utilised by the Investment Manager and the Sub-Investment Manager to manage and monitor the risks associated with investment by the Funds in the relevant types of financial derivative instruments.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

2. Physically-Replicating Funds

A. Market Risk

Market risk is the risk that the value of instruments held will fluctuate due to changes in market prices resulting from price risk, currency risk and interest rate risk.

(i) Price Risk

Price risk arises when the fair value or future cash flows of an investment will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

Several of the Company's Funds are either "thematic", sector specific, country specific or focused on a single commodity or commodity industry. The prices of commodities are influenced by factors such as, but not limited to, changes in supply and demand for commodities, technological changes which can influence the level of production of commodities, trade protectionism or liberalisation, environmental changes, agricultural, fiscal, monetary, and exchange control programmes and policies of governments (including government intervention in certain markets).

(ii) Currency Risk

Currency risk is the risk that the value of a Fund's net assets as denominated in the Fund's functional currency will fluctuate due to changes in foreign currency rates.

The Physically-Replicating Funds hold assets denominated in currencies other than the Fund's functional currency. They can therefore be exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates.

(iii) Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates.

Each Fund's interest rate risk is managed by the Investment Manager or Sub-Investment Manager in accordance with the objectives and policies and procedures in place as given in the Company information section. The Investment Manager is of the view that there is minimal exposure to interest rate risk for the Physically-Replicating Funds, with the exception of bond Funds, as the exposure is limited to cash and cash equivalents. Debt securities are subject to interest rate risk. In general, if prevailing interest rates rise, the values of debt securities will tend to fall, and if interest rates fall, the values of debt securities will tend to rise. Changes in the value of a debt security usually will not affect the amount of income a Fund receives from it or the ability of a Fund to realise the par value of the security upon its maturity but may affect the value of a Fund's shares prior to the maturity of those securities owned by a Fund and issued in a lower prevailing interest rate environment. Interest rate risk is generally greater for debt securities with longer maturities or durations.

L&G Asia Pacific ex Japan Equity UCITS ETF, L&G ESG GBP Corporate Bond 0-5 Year UCITS ETF, L&G ESG GBP Corporate Bond UCITS ETF, L&G ESG Emerging Markets Government Bond (USD) 0-5 Year UCITS ETF, L&G China CNY Bond UCITS ETF, L&G UK Gilt 0-5 Year UCITS ETF, L&G ESG USD Corporate Bond UCITS ETF, L&G ESG Emerging Markets Corporate Bond (USD) UCITS ETF and L&G India INR Government Bond UCITS ETF invest in both fixed and floating rate securities. Any change to the interest rates may result in income either increasing or decreasing, or the Investment Manager being unable to secure similar returns on the expiry of contracts or the sale of securities.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

2. Physically–Replicating Funds (continued)

A. Market Risk (continued)

(iii) Interest Rate Risk (continued)

For those Funds holding primarily interest bearing securities and as such exposed to the risk of fluctuations in the prevailing levels of market interest rates, the Investment Manager monitors the Funds' exposure to interest fluctuations on a daily basis. Whilst primarily an investment decision, the Investment Manager employs proprietary systems and processes to best position the Funds to benefit from, or limit the risk of, any fluctuations in the prevailing market levels of market interest rates.

B. Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company's Funds.

In addition to the processes employed by the Investment Manager as part of the day-to-day oversight of transactions with the counterparties, the Investment Manager reviews the list of counterparties on an ongoing basis to ensure no significant issues which could affect the ability of the counterparties to meet their obligations are identified.

L&G ESG GBP Corporate Bond 0-5 Year UCITS ETF, L&G ESG GBP Corporate Bond UCITS ETF, L&G ESG Emerging Markets Government Bond (USD) 0-5 Year UCITS ETF, L&G China CNY Bond UCITS ETF, L&G UK Gilt 0-5 Year UCITS ETF, L&G ESG USD Corporate Bond UCITS ETF, L&G ESG Emerging Markets Corporate Bond (USD) UCITS ETF and L&G India INR Government Bond UCITS ETF are primarily exposed to credit risk from investments in debt instruments which have an investment grade as rated by Standard & Poor's and Moody's. Such credit risk is managed by the Investment Manager as required by the investment objectives for the Funds.

Debt securities are subject to both actual and perceived measures of creditworthiness. The amount of credit risk may be assessed using the issuer's credit rating which is assigned by one or more independent rating agencies. This does not amount to a guarantee of the issuer's creditworthiness but provides an indicator of the likelihood of default. Securities which have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities. Companies often issue securities which are ranked in order of seniority which in the event of default would be reflected in the priority in which investors might be paid back. The "downgrading" of an investment grade rated debt security or adverse publicity and investor perception, which may not be based on fundamental analysis, could decrease the value and liquidity of the security, particularly in a thinly traded market.

(i) Transactions with Authorised Participants

Credit risk arising on subscriptions and redemptions with Authorised Participants relates to transaction settlement risk. In the event that (i) in respect of a cash subscription, an Authorised Participant fails to deliver the required cash within the settlement time specified in the relevant Fund Supplement, or (ii) in respect of a cash subscription resulting in a Directed Transaction, an Authorised Participant fails to deliver the required cash within the settlement time specified in the relevant Fund Supplement or the Authorised Participant Designated Broker fails to transfer to the Company (via the Depositary) the relevant underlying investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), the Company and/or the Manager (or its appointed delegate) reserves the right to cancel the relevant subscription application.

With respect to the Physically–Replicating Funds (other than L&G E Fund MSCI China A UCITS ETF), risk relating to unsettled transactions is limited given that subscriptions and redemptions are all settled on a "delivery versus payment" basis in the relevant settlement system.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

2. Physically–Replicating Funds (continued)

B. Credit Risk (continued)

(i) Transactions with Authorised Participants (continued)

With respect to the Physically–Replicating Funds (other than L&G E Fund MSCI China A UCITS ETF), the Company may, at the discretion of the Sub–Investment Manager, enter into transactions for the purchase and sale of investments with the relevant Authorised Participant (or a broker designated by it) in connection with any subscription and redemption application (“Directed Transactions”). The sections entitled “Failure to settle” within the “dealing” section of the Company’s Prospectus set out the recourse arrangements pursuant to which the Company shall be entitled to indemnification by the relevant Authorised Participant for any failure by it (or its designated broker) with respect to the timely completion of any such Directed Transactions.

With respect to L&G E Fund MSCI China A UCITS ETF, subscriptions are settled on a “free of payment” basis, however, the risk associated with settlement lies with the relevant Authorised Participant given the fact that all subscriptions must be “pre–funded” by Authorised Participants in accordance with the terms and conditions of the Fund specific Supplement to the Prospectus of the Company. Redemptions are settled on a “delivery versus payment” basis.

(ii) Counterparty risk to the Paying Agent - dividend and fund liquidation monies

The Paying Agent (“The Bank of New York Mellon, London Branch”) for the Funds is responsible for arranging payments to participants relating to dividend monies and the proceeds of any compulsory redemptions of ETF Shares on the relevant payment dates.

Prior to the relevant payment date, monies for distribution to participants as dividends will be transferred from the Company’s cash accounts with the Depositary to the Paying Agent. During the interim period, dividend monies are held with the Paying Agent (or its associated depositary bank) in the form of cash and the Company will have credit risk exposure, in respect of such cash, to the Paying Agent and its associated depositary bank. Cash held by the Paying Agent will not be segregated in practice but will be a debt owing from the Paying Agent (or its associated depositary bank) to the Company as a depositor. In the event of the insolvency of the Paying Agent (or its associated depositary bank) during the interim period, the Company will be treated as a general unsecured creditor of the Paying Agent (or its associated depositary bank) in relation to the cash. The Company may face difficulties and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the Company may lose some or all of the dividend monies being distributed by the Paying Agent resulting in a reduction in the value of a Fund.

C. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The main liquidity risk to the Company arises from the redemption requests of investors (in the Company’s case, the Authorised Participants). The Company’s shareholders may redeem their shares on any business day for cash equal to a proportionate share of a Fund’s NAV, and it is therefore exposed to the liquidity risk of meeting daily redemptions by its shareholders.

The Funds provide for the subscription and redemption of shares and, therefore are, exposed to the liquidity risk associated with shareholder redemptions in accordance with the terms of the Prospectus. These terms include the discretion to pay redemption distributions in cash or in kind or to limit redemptions to 10% of the NAV of the relevant Fund on any dealing day. The portfolios are managed to include liquid investments sufficient to meet normal liquidity needs although substantial redemptions of shares in the Funds could require the Funds to liquidate investments more rapidly than otherwise desirable in order to raise cash for redemptions. These factors could adversely affect the value of the shares redeemed and the valuation of the shares that remain outstanding and the liquidity of remaining assets if more liquid assets have been sold to meet redemptions.

The Company may suspend calculation of the NAV and the subscription and redemption of shares of one or more Funds under certain circumstances.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

2. Physically–Replicating Funds (continued)

C. Liquidity Risk (continued)

The Directors may, subject to the rules of any relevant central securities depositories, and/or the rules of a relevant exchange, declare a temporary suspension of the determination of the NAV of any particular class, and of the issue and redemption of any particular class, of shares:

- I. during the whole or any part of any period when any of the principal markets on which any significant portion of the constituents of the Index relating to the relevant Fund or the investments of the relevant Fund, as the case may be, from time to time are quoted, listed, traded or dealt in, or when the foreign exchange markets corresponding to the base currency of the Fund or the currency in which a considerable portion of the constituents of the Index relating to the relevant Fund or the Fund's investments (as the case may be) are denominated, is closed (otherwise than for customary weekend or ordinary holidays) or during which dealings therein are restricted or suspended or trading on any relevant futures exchange or market is restricted or suspended;
- II. during the whole or any part of any period when, as a result of political, economic, military or monetary events or any other circumstances outside the control, responsibility and power of the Directors, any disposal or valuation of investments of the relevant Fund is not, in the opinion of the Directors, reasonably practicable without this being detrimental to the interests of owners of shares in general or the owners of shares of the relevant Fund or if, in the opinion of the Directors, the NAV cannot fairly be calculated or such disposal would be materially prejudicial to the owners of shares in general or the owners of shares of the relevant Fund;
- III. during the whole or any part of any period during which any breakdown occurs in the means of communication normally employed in determining the value of any of the investments of the Company or when for any other reason the value of any of the investments or other assets of the relevant Fund cannot reasonably or fairly be ascertained;
- IV. during the whole or any part of any period when the Company is unable to repatriate funds required for the purpose of making redemption payments or when such payments cannot, in the opinion of the Directors, be effected at normal prices or normal rates of exchange or during which there are difficulties or it is envisaged that there will be difficulties, in the transfer of monies or assets required for subscriptions, redemptions or trading;
- V. at the discretion of the Directors in circumstances where the Directors consider such a suspension to be in the best interest of the Company, or the Fund or the investors of the Fund as a whole;
- VI. upon the publication of a notice convening a general shareholder meeting for the purpose of resolving to wind up the Company or terminate any Fund;
- VII. when dealings of the shares on any relevant stock exchange are listed are restricted or suspended;
- VIII. when settlement or clearing of securities in a recognised clearing and settlement system is disrupted;
- IX. any period when the dealing of shares is suspended pursuant to any order or direction issued by a relevant regulatory authority; or
- X. any period when an Index is not compiled or published.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

2. Physically–Replicating Funds (continued)

C. Liquidity Risk (continued)

Notice of the beginning and end of any period of suspension will be communicated immediately (and in any event during the business days on which the suspension takes place/ends) to the central bank and relevant stock exchanges and, to the extent required by the law or practices of the country concerned, to any other competent authority in a member state or other country in which shares are registered for marketing. Such notice shall also be published in such publication(s) as the Board of Directors may determine and, in any event, shall be communicated through the media by which share prices are published.

Notice will likewise be given to any person applying to subscribe or redeem shares in the Fund's concerned. Any applications for shares received during any period of suspension will normally be held over until the next dealing day.

The Company, where possible, will take all necessary steps to bring any period of suspension to an end as soon as possible.

If total requests for redemption on any dealing day for any Fund represent 10% or more of the NAV of that Fund, each redemption request in respect of shares in such Fund may, at the discretion of the Manager, be reduced rateably so that the total number of shares of such Fund for redemption on that dealing day shall not exceed 10% of the NAV of such Fund. Any part of a redemption request to which effect is not given by reason of the exercise of this power by the Manager shall be treated as if a request had been made in respect of the next dealing day and each succeeding dealing day (in relation to which the Manager shall have the same power) until the original requests have been satisfied in full.

During such suspension, it may be difficult for investors to buy or sell shares on the secondary market and the secondary market price may not reflect the NAV per share. In the event that the Company has to suspend the subscription and/or redemption of shares of a Fund, or if a stock exchange on which a Fund's underlying investments are traded is closed, it is expected that larger discounts or premiums could arise.

3. Synthetically–Replicating Funds

A. Risks Associated With Usage of OTC Swaps

There are various risks associated with the use of OTC Swaps, including no assurance that a Fund will achieve its stated investment objective. Additionally, a Fund may not receive the desired return from a counterparty for a number of reasons which may include:

- a material increase in the counterparty's costs of hedging its exposure to a Fund under the OTC Swap (e.g. holding a physical position in an index's underlying securities) or a material change or impediment to maintaining such hedging, resulting in an amendment to the terms of the OTC Swap, an increase in the fees payable to the counterparty by a Fund, a postponed or reduced payment of return under the OTC Swaps, the payment of return under the OTC Swaps in the currency of the hedge, or physical settlement or termination of the OTC Swaps;

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

A. Risks Associated With Usage of OTC Swaps (continued)

- an increase or decrease in a Fund's exposure to an index through the OTC Swap as a result of the issue or redemption of shares in a Fund. The cost and method of doing this with the counterparty may mean that the price at which the Fund issues or redeems shares will not correspond exactly to the price at which the Fund may have issued or redeemed such shares if the Fund had invested directly in the relevant index constituents;
- the termination of an OTC Swap earlier than its anticipated term, for reasons such as modification or cancellation of the relevant index or reference assets for the relevant Fund, illegality, material impediment to the counterparty to maintain or effect its hedge, default or market disruption. Where an OTC Swap terminates early, a termination payment may be payable to the counterparty by the relevant Fund and this would reduce both the exposure of the Fund to the relevant index and the return to shareholders in the Fund;
- at the end of the term of an OTC Swap, the Company will need to enter into another OTC Swap. It may not be possible to enter into an OTC Swap with similar arrangements and terms to the original OTC Swap;
- the delivery to the Fund of a return at the end of the anticipated term of the OTC Swap is based on the performance of an index at a particular point in time as determined by the counterparty. The method of determining that value can involve delays and may mean that the price at which shares are redeemed at the end of an OTC Swap may not correspond exactly to the value of the index;
- the valuation of an index may be impaired or delayed as a result of market disruption events specified in the relevant OTC Swap;
- exposure to credit risk through the insolvency or inability of a counterparty to an OTC Swap to meet its obligations under the OTC Swap, resulting in a loss to a Fund and a potentially significant impact on the investment performance of the Funds. Please note that the foregoing counterparty risk is mitigated by the fact that, on a daily basis, the relevant profit/loss on the index swap is collateralised by the parties in the form of cash (in the base currency of the relevant Fund). In order to avoid daily transfers of immaterial amounts of cash, transfers of cash collateral are made only to the extent that the relevant profit/loss amount on any given day exceeds the agreed minimum transfer amount for the relevant Fund (such minimum transfer amounts which are set in accordance with the limits prescribed by EMIR);
- changes in the rates of exchange between the base currency of a Fund and the currency of denomination may cause the value of the OTC Swap to rise or fall due to the impact of currency exchange rates on the constituents of the index;

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

A. Risks Associated With Usage of OTC Swaps (continued)

- state intervention at the European, International and National level, including any new legislation affecting the relevant products and markets, which may include, but shall not be limited to, EMIR and the Dodd–Frank Act, which may affect the future ability of the Company to enter into or continue such OTC Swap transactions and/or increase the costs thereof;
- in certain circumstances, valuations of OTC Swaps and/or indices may only be available from a limited number of market participants who may also act as counterparties to these transactions. The valuation or close out position of an OTC Swap used to track or replicate an index in such circumstances may be calculated by reference to an adjusted value of the index or to the hedging positions entered into by the counterparty to the OTC Swaps to track or replicate such index, rather than by reference to the actual value of the index, and there could be a material difference between such values. Valuations received from such market participants may therefore be subjective and there may be substantial differences between any available valuations; and/or
- the charging structure of the Fund which may mean that there may be variations used in the formulae which are used to calculate returns to a Fund under the relevant OTC Swap causing changes (including possible reductions) to the anticipated returns to investors.

B. Market Risk

Market risk is the risk that the value of instruments held will fluctuate due to changes in market prices resulting from price risk, currency risk and interest rate risk.

(i) Price Risk

Price risk arises when the fair value or future cash flows of an investment will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market.

Several of the Synthetically–Replicating Funds seek to achieve a leveraged return or a leveraged inverse (i.e. short) return against the performance of a globally–recognised benchmark index (i.e. either the DAX 30 or FTSE 100) (each, the “Underlying Index”).

Leveraged Funds

In order to achieve a leveraged return against an Underlying Index, a Fund will track a leveraged version of the relevant Underlying Index (each, a “Leveraged Index”) which aims to provide twice the daily percentage change in the level of the Underlying Index less an implied amount reflecting the cost of borrowing additional capital to invest in the index portfolio to create the leveraged position which is comprised of an overnight interest rate and a liquidity spread cost reflecting the cost of sourcing long term liquidity to finance the leveraged position (the “Financing Cost”).

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

B. Market Risk (continued)

(i) Price Risk (continued)

Leveraged Funds (continued)

This means that the Fund will seek to deliver a leveraged return to shareholders which corresponds to twice the daily percentage change in the level of the Underlying Index on that day less the Financing Cost built into the leveraged methodology and fees and expenses levied at Fund–level.

In the event that the index produces a positive return on a particular day, the Fund should record a positive return equivalent to twice the percentage change in the level of the Underlying Index on that day (before adjustment reflecting the Financing Cost built into the leveraged methodology and fees and expenses applied at Fund–level).

Conversely, in the event the index produces a negative return on a particular day, the Fund should record a negative return equivalent to twice the percentage change in the level of the Underlying Index on that day (before adjustment reflecting the Financing Cost built into the leveraged methodology and fees and expenses applied at Fund–level).

Accordingly, a Leveraged Fund’s exposure to market risk is linked directly to the fluctuation of the value of the Underlying Index and its constituents.

Leveraged Inverse Funds

In order to achieve a leveraged inverse return against an Underlying Index, a Fund will track a leveraged inverse version of the relevant Underlying Index (each, a “Leveraged Inverse Index”) which aims to provide twice the daily percentage change in the level of the Underlying Index on an inverse basis plus an implied amount reflecting the interest accruing on the cash proceeds earned from the sale of the index portfolio (the “Overnight Interest Rate”) less an implied amount reflecting the cost of borrowing the index portfolio to maintain the leveraged short exposure (the “Borrowing Cost”).

This means that the Fund will seek to deliver an inverse return to Shareholders which corresponds to twice the daily percentage change in the level of the Underlying Index on an inverse basis on that day plus the Overnight Interest Rate and less the Borrowing Cost (both of which are built into the leveraged methodology) and fees and expenses levied at Fund–level.

In the event that the index produces a positive return on a particular day, the Fund should record a positive return equivalent to twice the daily percentage change in the level of the Underlying Index on an inverse basis on that day (before adjustment reflecting the Overnight Interest Rate and Borrowing Cost built into the leveraged methodology and fees and expenses applied at Fund–level).

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

B. Market Risk (continued)

(i) Price Risk (continued)

Leveraged Inverse Funds (continued)

Conversely, in the event the index produces a negative return on a particular day, the Fund will record a negative return equivalent to twice the percentage change in the level of the Underlying Index on an inverse basis on that day (before adjustment reflecting the Overnight Interest Rate and Borrowing Cost built into the leveraged methodology and fees and expenses applied at Fund–level).

Accordingly, a Leveraged Inverse Fund’s exposure to market risk is linked directly to the fluctuation of the value of the Underlying Index and its constituents.

A Fund tracking a Leveraged Inverse Index may not be suitable for investment over extended periods of time. Due to the daily rebalancing of the Index, the actual change in the value of the Fund may differ significantly from the change in the inverse return of the Underlying Index multiplied by a leverage factor of two (the “Unbalanced Leveraged Return”).

Price volatility may also result in long–term returns of the Fund being significantly different from the Unbalanced Leveraged Return. The daily rebalancing of the index may result in the index being under–leveraged or over–leveraged relative to the Unbalanced Leveraged Return on the day following such rebalancing. Accordingly, this may result in the underperformance of the Fund compared to the performance arising from the Unbalanced Leveraged Return. Even after taking into account the Overnight Interest Rate and Borrowing Cost built into the leverage methodology and the fees and expenses applied at Fund–level, investors should not expect the actual percentage return for shares in the Fund to be equal to the percentage change in the Unbalanced Leveraged Return for periods of longer than one day.

The table below lists the Funds tracking Leveraged Indices or Leveraged Inverse Indices and the corresponding Underlying Index for each:

Fund Name	Leveraged Index	Underlying Index
L&G DAX® Daily 2x Long UCITS ETF	LevDAX® x2 Index	DAX® Index
L&G FTSE 100® Leveraged (Daily 2x) UCITS ETF	FTSE 100® Daily Leveraged Index	FTSE 100® Net Dividend Total Return Index

Fund Name	Leveraged Inverse Index	Underlying Index
L&G DAX® Daily 2x Short UCITS ETF	ShortDAX® x2 Index	DAX® Index
L&G FTSE 100® Super Short Strategy (Daily 2x) UCITS ETF	FTSE 100® Daily Super Short Strategy Index	FTSE 100® Total Return Declared Dividend Index

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

B. Market Risk (continued)

(i) Price Risk (continued)

An investment in a Fund tracking a Leveraged Index or a Leveraged Inverse Index exposes an investor to the market risks associated with fluctuations in the Underlying Index and the value of securities comprised in the Underlying Index. Due to the leverage inherent in the Leveraged Index or Leveraged Inverse Index, the market risk is greater than that for the Underlying Index.

For further information, please refer to the Fund–specific risk factors contained in the Fund specific Supplements to the Company’s Prospectus and the section of the Company’s Prospectus entitled “Leveraged Return and Inverse Return” which contain further information on the risks associated with Funds tracking Leveraged Indices and Leveraged Inverse Indices.

(ii) Currency Risk

Currency risk is the risk that the value of a Fund’s net assets as denominated in the Fund’s functional currency will fluctuate due to changes in foreign currency rates.

The Synthetically–Replicating Funds held OTC Swaps during the financial period, which were issued in the functional currency of the relevant Funds, and all other assets and liabilities were denominated in each Fund’s functional currency. Hence, there is no exposure to currency risk.

(iii) Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. All of the Company’s Synthetically–Replicating Funds primarily hold swaps, the interest of which is wholly or partially offset by the return on reverse repurchase agreements held. The Investment Manager is of the view that there is minimal exposure to interest rate risk, as the exposure is limited to cash holdings which are swept into short term investment funds. These amounts are classified as money market instruments on the statement of financial position of each Fund.

Each Fund’s interest rate risk is managed by the Investment Manager or Sub–Investment Manager in accordance with the objectives and policies and procedures in place as given in the Company information section.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

C. Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company's Funds. As the Synthetically–Replicating Funds each primarily enter into OTC Swaps and reverse repurchase agreements, there is exposure to credit risk from the parties with which these arrangements are made and these are disclosed in Note 5 ("*Collateral*").

(i) OTC Swaps and Reverse Repurchase Agreements

The Synthetically–Replicating Funds use total return index swaps entered into with one or more OTC swap counterparties (during the current financial period and prior financial year, these were Barclays Bank Plc, Citigroup Global Markets Limited and Merrill Lynch International) to track the performance of the relevant index.

As the OTC Swaps used are all "unfunded" swaps, the cash received by a Fund from subscriptions is retained by the Fund (i.e. it is not transferred to the swap counterparties as would be the case with a "funded" swap). The retained cash is then managed by the Investment Manager in accordance with the Company's efficient portfolio (cash) management policy by investing:

- the majority of the cash into reverse repurchase agreements with Repo Counterparties pursuant to which the Company (for the account of the relevant Fund) exchanges the cash for securities which are transferred to it by the Repo Counterparty (full legal title transfer) subject to an obligation by the counterparty to repurchase the securities from the Company on demand ("Reverse Repurchase Arrangements"). The Reverse Repurchase Arrangements are documented by way of a collateral management master agreement between the Company (for the account of each relevant Fund) and The Bank of New York Mellon (the "Collateral Manager") to whom the establishment and maintenance of the collateral accounts has been delegated by the Depositary.

The securities transferred to the Company (for the account of the relevant Fund) must satisfy certain eligibility criteria. On a daily basis, the collateral securities are valued (i.e. "marked-to-market") and, to the extent that their value is less than the notional cash value of the Reverse Repurchase Arrangements (i.e. the value of the cash transferred to the Repo Counterparty), the Repo Counterparty will be required to transfer additional collateral securities to the Company (for the account of the relevant Fund) to match the notional cash value of the Reverse Repurchase Arrangements. Conversely, to the extent that the value of the collateral securities is greater than the notional cash value of the Reverse Repurchase Arrangements, the Company will transfer a proportion of the securities (equivalent to the excess) back to the Repo Counterparty.

- a small proportion of the cash into UCITS AAA money market funds which are not managed or otherwise connected with the Company, the Manager or the ETF Securities group (Short-Term Investment Funds ("STIFs")). The STIFs are used because they have daily liquidity and therefore, where there is a margin call on the swap (see paragraph below), a proportion of the cash held in the STIF can be quickly unwound and transferred to the swap counterparty.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically-Replicating Funds (continued)

C. Credit Risk (continued)

(i) OTC Swaps and Reverse Repurchase Agreements (continued)

As the value of the relevant index tracked by a Fund increases or decreases, the total return index swaps entered into with a swap counterparty records either a gain or loss for the Fund. The profit or loss on the swap is settled between the Company (for the account of the relevant Fund) and the swap counterparty on a monthly basis. However, on an intra-month basis, the Company (for the account of the relevant Fund) and the swap counterparty transfers cash collateral (in the base currency of the Fund only) back and forth in amounts matching the daily profit/loss on the index swap to the extent that the relevant profit/loss exceeds an agreed threshold amount. In order to avoid daily transfers of immaterial amounts of cash, transfers of cash collateral are made only to the extent that the relevant profit/loss amount on any given day exceeds the agreed minimum transfer amount for the relevant Fund which is set in accordance with the limits prescribed by the Central Bank UCITS Regulations and European Markets Infrastructure Regulation ("EMIR").

Any cash transferred to the Company (for the account of the relevant Fund) by the swap counterparty as collateral on the swap is invested in the Reverse Repurchase Arrangements and the STIFs (as described above) in proportions determined by the Investment Manager. Conversely, where the Company (for the account of the relevant Fund) is required to transfer cash collateral to the swap counterparty under the swap, it unwinds a proportion of the Reverse Repurchase Arrangements / STIFs to cover the relevant amount.

As at the statement of financial position date, all of the cash collateral received in respect of OTC derivative transactions was re-invested in money market funds. Non-cash collateral received by way of title transfer collateral arrangements in relation to OTC derivative transactions, cannot be sold, re-invested or pledged. Income earned by the Funds from the reinvestment of cash collateral in money market funds, net of any interest payable to the relevant counterparty, amounted to \$4,689,844 for the financial period ended 31 December 2023 (31 December 2022: \$1,993,725) and is disclosed in the statement of comprehensive income.

The Investment Manager employs internal procedures to determine a counterparty's creditworthiness in accordance with the Central Bank UCITS requirements and that the OTC Swaps are issued under the International Swaps and Derivatives Association Master Agreement ("ISDA") and ancillary industry-standard confirmation agreements.

As at 31 December 2023 and 30 June 2023, the Synthetically-Replicating Funds held OTC Swaps issued by Barclays Bank Plc, Citigroup Global Markets Limited and Merrill Lynch International. All reverse repurchase agreements entered into by the Company on behalf of the Synthetically-Replicating Funds are contracted with Barclays Bank Plc, Citigroup Global Markets Limited and Merrill Lynch International.

In addition to the processes employed by the Investment Manager as part of the day-to-day oversight of transactions with the counterparties, the Investment Manager reviews the list of counterparties on an ongoing basis to ensure no significant issues which could affect the ability of the counterparties to meet their obligations are identified.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

C. Credit Risk (continued)

(i) OTC Swaps and Reverse Repurchase Agreements (continued)

As at 31 December 2023, the Funds that held margin cash, cash, money market instruments, reverse repurchase agreements and OTC Swaps as detailed below:

OTC Swaps and Reverse Repurchase Agreements	Bank of New York Mellon 31 December 2023	% of Net Assets	Merrill Lynch International 31 December 2023	% of Net Assets	Barclays Bank Plc 31 December 2023	% of Net Assets
Company Total	\$158,147,975	1%	\$108,239,499	1%	\$2,097,912,121	12%

As at 30 June 2023, the Funds that held margin cash, cash, money market instruments, reverse repurchase agreements and OTC Swaps as detailed below:

OTC Swaps and Reverse Repurchase Agreements	Bank of New York Mellon 30 June 2023	% of Net Assets	Merrill Lynch International 30 June 2023	% of Net Assets	Barclays Bank Plc 30 June 2023	% of Net Assets
Company Total	\$153,857,246	1%	\$154,010,011	1%	\$2,051,473,687	14%

(ii) Transactions with Authorised Participants

Credit risk arising on subscriptions and redemptions with Authorised Participants relates to transaction settlement risk. In the event that (i) in respect of a cash subscription, an Authorised Participant fails to deliver the required cash within the settlement time specified in the relevant Fund Supplement, or (ii) in respect of a cash subscription resulting in a Directed Transaction, an Authorised Participant fails to deliver the required cash within the settlement time specified in the relevant Fund Supplement or the Authorised Participant Designated Broker fails to transfer to the Company (via the Depositary) the relevant underlying investments (or part thereof) within the settlement time prescribed by the Manager (or its appointed delegate), the Company and/or the Manager (or its appointed delegate) reserves the right to cancel the relevant subscription application.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

C. Credit Risk (continued)

(iii) Counterparty risk to the Paying Agent - dividend and fund liquidation monies

The Paying Agent for the Funds is responsible for arranging payments to participants relating to dividend monies and the proceeds of any compulsory redemptions of ETF Shares on the relevant payment dates.

Prior to the relevant payment date, monies for distribution to participants as dividends will be transferred from the Company's cash accounts with the Depositary to the Paying Agent. During the interim period, dividend monies are held with the Paying Agent (or its associated depositary bank) in the form of cash and the Company will have credit risk exposure, in respect of such cash, to the Paying Agent and its associated depositary bank. Cash held by the Paying Agent will not be segregated in practice but will be a debt owing from the Paying Agent (or its associated depositary bank) to the Company as a depositor. In the event of the insolvency of the Paying Agent (or its associated depositary bank) during the interim period, the Company will be treated as a general unsecured creditor of the Paying Agent (or its associated depositary bank) in relation to the cash. The Company may face difficulties and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the Company may lose some or all of the dividend monies being distributed by the Paying Agent resulting in a reduction in the value of a Fund.

With respect to the Synthetically–Replicating Funds, risk relating to unsettled transactions is limited given that subscriptions and redemptions are all settled on a "delivery versus payment" basis in the relevant settlement system.

D. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The main liquidity risk to the Company arises from the redemption requests of investors (in the Company's case, the Authorised Participants). The Company's shareholders may redeem their shares on any business day for cash equal to a proportionate share of a Fund's NAV, and it is therefore exposed to the liquidity risk of meeting daily redemptions by its shareholders.

The Funds provide for the subscription and redemption of shares and, therefore are, exposed to the liquidity risk associated with shareholder redemptions in accordance with the terms of the Prospectus. These terms include the discretion to pay redemption distributions in cash or in kind or to limit redemptions to 10% of the NAV of the relevant Fund on any dealing day. The portfolios are managed to include liquid investments sufficient to meet normal liquidity needs although substantial redemptions of shares in the Funds could require the Funds to liquidate investments more rapidly than otherwise desirable in order to raise cash for redemptions. These factors could adversely affect the value of the shares redeemed and the valuation of the shares that remain outstanding and the liquidity of remaining assets if more liquid assets have been sold to meet redemptions.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

D. Liquidity Risk (continued)

The Company may suspend calculation of the NAV and the subscription and redemption of shares of one or more Funds under certain circumstances.

The Directors may, subject to the rules of any relevant central securities depositories, and/or the rules of a relevant exchange, declare a temporary suspension of the determination of the NAV of any particular class, and of the issue and redemption of any particular class, of shares:

- I. during the whole or any part of any period when any of the principal markets on which any significant portion of the constituents of the Index relating to the relevant Fund or the investments of the relevant Fund, as the case may be, from time to time are quoted, listed, traded or dealt in, or when the foreign exchange markets corresponding to the base currency of the Fund or the currency in which a considerable portion of the constituents of the Index relating to the relevant Fund or the Fund's investments (as the case may be) are denominated, is closed (otherwise than for customary weekend or ordinary holidays) or during which dealings therein are restricted or suspended or trading on any relevant futures exchange or market is restricted or suspended;
- II. during the whole or any part of any period when, as a result of political, economic, military or monetary events or any other circumstances outside the control, responsibility and power of the Directors, any disposal or valuation of investments of the relevant Fund is not, in the opinion of the Directors, reasonably practicable without this being detrimental to the interests of owners of shares in general or the owners of shares of the relevant Fund or if, in the opinion of the Directors, the NAV cannot fairly be calculated or such disposal would be materially prejudicial to the owners of shares in general or the owners of shares of the relevant Fund;
- III. during the whole or any part of any period during which any breakdown occurs in the means of communication normally employed in determining the value of any of the investments of the Company or when for any other reason the value of any of the investments or other assets of the relevant Fund cannot reasonably or fairly be ascertained;
- IV. during the whole or any part of any period when the Company is unable to repatriate funds required for the purpose of making redemption payments or when such payments cannot, in the opinion of the Directors, be effected at normal prices or normal rates of exchange or during which there are difficulties or it is envisaged that there will be difficulties, in the transfer of monies or assets required for subscriptions, redemptions or trading;

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

D. Liquidity Risk (continued)

- V. at the discretion of the Directors in circumstances where the Directors consider such a suspension to be in the best interest of the Company, or the Fund or the investors of the Fund as a whole;
- VI. upon the publication of a notice convening a general shareholder meeting for the purpose of resolving to wind up the Company or terminate any Fund;
- VII. when dealings of the shares on any relevant stock exchange are listed are restricted or suspended;
- VIII. when settlement or clearing of securities in a recognised clearing and settlement system is disrupted;
- IX. any period when the dealing of shares is suspended pursuant to any order or direction issued by a relevant regulatory authority; or
- X. any period when an Index is not compiled or published.

Notice of the beginning and end of any period of suspension will be communicated immediately (and in any event during the business days on which the suspension takes place/ends) to the central bank and relevant stock exchanges and, to the extent required by the law or practices of the country concerned, to any other competent authority in a member state or other country in which shares are registered for marketing. Such notice shall also be published in such publication(s) as the Board of Directors may determine and, in any event, shall be communicated through the media by which share prices are published.

Notice will likewise be given to any person applying to subscribe or redeem shares in the Fund's concerned. Any applications for shares received during any period of suspension will normally be held over until the next dealing day.

The Company, where possible, will take all necessary steps to bring any period of suspension to an end as soon as possible.

If total requests for redemption on any dealing day for any Fund represent 10% or more of the NAV of that Fund, each redemption request in respect of shares in such Fund may, at the discretion of the Manager, be reduced rateably so that the total number of shares of such Fund for redemption on that dealing day shall not exceed 10% of the NAV of such Fund. Any part of a redemption request to which effect is not given by reason of the exercise of this power by the Manager shall be treated as if a request had been made in respect of the next dealing day and each succeeding dealing day (in relation to which the Manager shall have the same power) until the original requests have been satisfied in full.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

3. Synthetically–Replicating Funds (continued)

D. Liquidity Risk (continued)

During such suspension, it may be difficult for investors to buy or sell shares on the secondary market and the secondary market price may not reflect the NAV per share. In the event that the Company has to suspend the subscription and/or redemption of shares of a Fund, or if a stock exchange on which a Fund's underlying investments are traded is closed, it is expected that larger discounts or premiums could arise.

For OTC swaps, the values in the statement of financial position represent the fair value as at the current and prior financial periods and at the time of payment, the fair value might change based on the market movement. The notional amounts of these OTC swaps are disclosed in the schedule of investments.

4. Fair Value of Financial Assets and Financial Liabilities

The Company's accounting policy on fair value measurement requires a fair value hierarchy when financial instruments are recognised at fair value, based on the following levels:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities;

Level 2 – Inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value of a financial instrument is categorised in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measure is considered a level 3 measurement. Assessing the significance of a particular input to the overall fair value measurement of a financial instrument requires judgement, considering factors specific to the particular asset or liability.

The financial instruments not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. These include the following:

(i) cash and cash equivalents and balances due from/to brokers. These are short-term financial assets and financial liabilities whose carrying amounts approximate fair value, because of their short term nature and the high credit quality of counterparties. The cash and cash equivalents and balances due from/to brokers are categorised into level 2 of the fair value hierarchy; and

(ii) net assets attributable to holders of redeemable participating shares. The Fund routinely redeems and issues the redeemable participating shares at the amount equal to the proportionate share of net assets of the Fund at the time of redemption, calculated on a basis consistent with that used in these financial statements. Accordingly, the carrying amount of net assets attributable to holders of redeemable participating shares approximates their fair value. The shares are categorised into level 1 of the fair value hierarchy.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

4. Fair Value of Financial Assets and Financial Liabilities (continued)

The Company's cash balances may be swept into interest-bearing short term AAA rated money market investment funds that are classified as money market instruments in the Company's statement of financial position. These money market instruments are held in the name of The Bank of New York Mellon SA/NV, Dublin Branch, the Depositary on behalf of the Company.

As at 31 December 2023, no Fund held more than 7.13% (30 June 2023: 3.01%*) of its net assets in cash.

* These amounts exclude cash held as collateral.

The following table shows financial assets and financial liabilities recognised at fair value, analysed between the three different levels described previously:

Eastern Europe

On 24 February 2022, Russia launched a large-scale invasion of Ukraine causing geopolitical and economic uncertainty across the global economy and financial markets. As a result, economic sanctions have been imposed by many countries. The L&G Quality Equity Dividends ESG Exclusions Emerging Markets UCITS ETF has direct exposure to Russia through investments in equities.

The Manager has implemented the following fair value pricing policies in relation to the realisable value of Russian securities exposure within the Funds of the Company where applicable:

Investment type:

- Equities: nil value
- ADR's/GDR's: nil value
- Local currency bonds: nil value
- Non-local currency bonds: market value as per observable inputs

The following table details the fair value and % impact to Net Assets Attributable to Holders of Redeemable Participating Shares in relation to Russian securities exposure as at 31 December 2023:

Fund	Investment Type	Level	Fair Value (USD)	% Impact to Net Assets
L&G Quality Equity Dividends ESG Exclusions Emerging Markets UCITS ETF	Equities	3	Nil	Nil

The following table details the fair value and % impact to Net Assets Attributable to Holders of Redeemable Participating Shares in relation to Russian securities exposure as at 30 June 2023:

Fund	Investment Type	Level	Fair Value (USD)	% Impact to Net Assets
L&G Quality Equity Dividends ESG Exclusions Emerging Markets UCITS ETF	Equities	3	Nil	Nil
L&G Artificial Intelligence UCITS ETF	Equities	3	Nil	Nil
L&G Digital Payments UCITS ETF	ADR's	3	Nil	Nil

As the remaining Funds of the Company have no direct or indirect exposure to Russia, it is the view of the Directors that the developments in Eastern Europe, and resulting sanctions, are unlikely to have a significant direct or indirect impact to these Funds. The Directors continue to monitor the developments in Eastern Europe and any potential direct or indirect economic impact to the Funds of the Company on an on-going basis.

11. Financial Instruments and Associated Risks (continued)

4. Fair Value of Financial Assets and Financial Liabilities (continued)

Level 3 Securities

As at 31 December 2023 and 30 June 2023, there were level 3 securities held which suspended trading of their shares prior to the reporting date. However, the fair value measurement objective remains the same, i.e. an exit price from the perspective of a market participant that holds the asset or owes the liability. For each of the suspended securities, in the judgement of the competent person, there is no evidence to suggest that an adjustment should be made to the last traded price; and that the last traded price remains the best measure of the fair value of the suspended securities. As judgement is used by the competent person to determine an appropriate fair value for the suspended securities, this is considered to be a significant unobservable input.

There were Level 3 securities recorded at fair value of zero as at 31 December 2023 for L&G Russell 2000 US Small Cap Quality UCITS ETF, L&G UK Equity UCITS ETF, L&G Global Equity UCITS ETF, L&G Europe ESG Exclusions Paris Aligned UCITS ETF, L&G Hydrogen Economy UCITS ETF and L&G Quality Equity Dividends ESG Exclusions Emerging Markets UCITS ETF.

There were level 3 securities recorded at fair value of zero as at 30 June 2023 for L&G UK Equity UCITS ETF, L&G Global Equity UCITS ETF, L&G Asia Pacific ex Japan Equity UCITS ETF, L&G Europe ESG Exclusions Paris Aligned UCITS ETF, L&G Artificial Intelligence UCITS ETF, L&G Digital Payments UCITS ETF and L&G Quality Equity Dividends ESG Exclusions Emerging Markets UCITS ETF.

During the financial period ended 31 December 2023 and the financial year ended 30 June 2023, there were transfers between levels of the fair value hierarchy for financial assets and financial liabilities which were recorded at fair value. Transfers from level 1 or level 2 into level 3 are a result of suspended trading or manager prices based on unobservable inputs. Transfers out of Level 3 occur when those securities are no longer suspended or manager priced based on unobservable inputs.

The following table sets out information about the significant unobservable inputs used in the Company's valuation of investments and financial instruments that are categorised within level 3 of the fair value hierarchy as at 31 December 2023 and 30 June 2023.

This table also sets out sensitivity to changes in the significant unobservable inputs, and demonstrate the effect of a 10% discount on the value of investments and the effect on the NAV of the Fund. Management have chosen to apply a 10% discount to perform sensitivity analysis, as this could be considered appropriate as an adjusted exit price for illiquid securities.

For the financial period ended 31 December 2023 (continued)

11. Financial Instruments and Associated Risks (continued)

5. Exposure to Derivatives

A. Global Exposure

In the context of the Physically-Replicating Funds, global exposure has been calculated using the commitment approach. The commitment approach is an integral part of the ongoing monitoring and management of the Funds' market risk. The reason the commitment approach is suitable is because, as per the Central Bank UCITS Regulations, these forty three Funds will not use financial derivative instruments as part of a complex investment strategy. Each Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of futures shall be calculated on at least a daily basis (where futures are held) and may at no time exceed 100% of the Fund's NAV.

B. Value-at-risk ("VaR")

During the current and prior financial periods, the Investment Manager applied the relative value-at-risk ("relative VaR") approach with respect to the determination of the global exposure for the remaining Funds. The Funds track indices (for a daily leveraged index, the non-leveraged index, is used as the benchmark for relative VaR as per the Central Bank UCITS Regulations) and are based on a confidence level of 99%. The relative VaR is reported monthly.

The leverage is calculated using the sum of the notionals, which converts the swap into the underlying assets. The leverage is monitored and targeted at 100% relative to the NAV value. The 100% target is to the nearest percentile and was maintained throughout the financial year. Effectively this shows the Fund is tracking the underlying index on a one-to-one basis less fees and accruals. The one-tailed confidence level of the Fund shall be 99% and the holding period shall be one day. The historical observation period will not be less than one year, however, a shorter observation period may be used when appropriate.

The Funds employ no leverage directly, the only leverage applicable to the 2x short and 2x leveraged Synthetically-Replicating Funds is built into the relevant tracked index by each Fund, not at Fund level. The Funds look at relative VaR which is always 1 with the exception of the 2x short and 2x leveraged Funds which have a relative VaR of 2. This is because the VaR of the Fund is measured against the VaR of the non-leveraged index rather than the VaR of the directly tracked index which has leverage built in. ETF VaR 1D represents the daily volatility of the Fund's NAV over the course of the financial period, equating to the standard deviation of daily returns, assuming a normal distribution with a 99% confidence level.

6. Cyber Security Risk

The Manager maintains and continually improves a cyber and information security framework, ensuring the integrity of our operations and the confidentiality of information. This consists of an overarching information security strategy, a set of policies, standards, and controls operating within LGIM management framework. Responsibilities for information security are designated across the organization, supported by specialist teams, training, awareness campaigns, and security testing.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

12. Distributions to Redeemable Participating Shareholders

Each Fund has been approved (or, unless otherwise indicated, shall be approved within a reasonable period following its approval by the Central Bank) as a reporting fund under the United Kingdom offshore fund rules. As reporting Funds, the Company will not ordinarily, but may at the Directors' discretion, declare dividends at a specified date. The Directors may establish share classes with different distribution policies from time to time. Dividends, if paid, will (unless otherwise stated in a relevant Fund Supplement) be declared in the base currency of the applicable Fund.

During the financial periods ended 31 December 2023 and 31 December 2022, the following Funds paid the below distributions:

13. Segregated Liability

The Company is structured as an umbrella fund with segregated liability between its Funds. As a matter of Irish law, the assets of one Fund will not be available to meet the liabilities of another (a provision which also applies in insolvency and is also generally binding upon creditors). Furthermore, and by operation of Irish law, any contract entered into by the Company in respect of a Fund (or Funds) shall include an implied term to the effect that recourse by the contract counterparty may not be had to assets of Funds other than the Fund or Funds in respect of which the contract was entered into. The index-based OTC swaps which the Funds will enter into from time to time will also contain express provisions entrenching such Irish law segregated liability principle.

However, as the Company is a single legal entity that may operate or have assets held on its behalf or be subject to claims in other jurisdictions that may not necessarily recognise such segregation, in the event an action to enforce a debt or liability of a Fund was brought against the Company in a venue other than Ireland, there remains a risk that a creditor may seek to seize or attach assets of one Fund in satisfaction of a debt or liability owed by another Fund and the jurisdiction in which the claim is being heard may not recognise the principle of segregated liability between the Funds.

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

15. Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the Company's other components, whose operating results are reviewed regularly to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported include items directly attributable to a segment.

It is considered that each Fund is an operating segment which is investing in line with its investment objective. The segment information provided to the Board of the Company is the same as that disclosed in the statement of comprehensive income and the statement of financial position for each Fund. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Directors.

Geographic Information

The Investment Manager's asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant index of each Fund, and each Fund's performance is evaluated by reference to the relevant index. The revenue attributable to each Fund is derived from geographical locations (i.e. country of incorporation of the issuer of the instruments) in line with those outlined in the schedule of investments for the Physically-Replicating Funds. The daily asset allocation decisions are made by the Investment Manager for each Fund. For the Synthetically-Replicating Funds, the revenue attributable for the reverse repurchase agreements and the money market instruments is derived from the country of incorporation of the issuer of these instruments and for the swap contracts there is no specific country allocation.

The Company is domiciled in Ireland. All of the Company's income from investments is primarily from entities incorporated in countries other than Ireland. The breakdown of the major components of income from other countries is disclosed below.

	United Kingdom	Rest of Europe	United States	Japan	Rest of World	Company Total
	\$	\$	\$	\$	\$	\$
For the financial period ended 31 December 2023						
Segmental net revenue*	130,356,826	131,756,358	566,857,511	89,471,185	(34,871,801)	883,570,079

	United Kingdom	Rest of Europe	United States	Japan	Rest of World	Company Total
	\$	\$	\$	\$	\$	\$
For the financial period ended 31 December 2022						
Segmental net revenue*	29,458,446	87,404,999	(95,689,052)	10,708,257	(8,723,858)	23,158,792

* Represents total revenue less interest expense

Notes to the Financial Statements (continued)

For the financial period ended 31 December 2023 (continued)

15. Segment Reporting (continued)

Major Customers

The Company does not regard the holders of redeemable participating shares of its Funds as clients or customers as it does not deal directly with investors other than Authorised Participants (i.e. the Company does not permit subscriptions and redemptions with investors other than Authorised Participants). However, strictly for the purposes of satisfying the disclosure requirements regarding “major customers” pursuant to IFRS 8.34, the Company shall treat the holders of redeemable participating shares of its Funds as customers as it relies on the TER deducted from the assets of each Fund for the purposes of funding the operations of each Fund.

The Company employs the International Central Securities Depository (the “ICSD”) settlement model. Under the ICSD settlement model, all holdings in the Company are registered in the Company’s register of members in the name of a single legal shareholder, namely The Bank of New York Depository (Nominees) Limited as the entity appointed as the Common Depository’s Nominee. Therefore, The Bank of New York Depository (Nominees) Limited is a major customer, holding legal, but not beneficial, title to 100% of the issued share capital of the Company.

In order to identify beneficial holders of shares in the Company, the Company receives participant reports from the ICSD evidencing beneficial title to shares in the Company held through the ICSD settlement model (the “Participant Report”). However, end–investors who purchase and sell shares on stock exchanges (i.e. the ultimate beneficial holders) typically do not appear on the Participant Report. This is because they typically hold their units via an intermediary (broker/nominee or local common depository) which appears on the Participant Report on their behalf.

For end–investors who purchase and sell their shares on exchanges which use local clearing and settlement systems (e.g. Borsa Italiana), end–investors will be a further step removed from the Participant Report. This is because the relevant clearing and settlement system used by a particular stock exchange (e.g. Monte Titoli for transactions executed on Borsa Italiana) will usually appear on the Participant Report in respect of all investments made on the relevant foreign exchange. The foreign settlement system will in turn have its own records as to the local intermediaries (brokers/nominees) who hold on behalf of end–investors.

It is therefore impossible for the Company to identify all end–investors (i.e. beneficial holders) who hold an interest in its shares. It is also impossible for the Company to quantify exactly how many end–investors there are for a given share class of the Company. Accordingly, it is only possible for the Company to identify the single legal shareholder of the Company, The Bank of New York Depository (Nominees) Limited.

Securities financing transactions regulation

I. Global Data

“*Securities or commodities lending*” is defined in Article 3(7) of Regulation (EU) 2015/2365 of the European Parliament and of the Council on transparency of securities financing transactions and of reuse (the “Securities Financing Transactions Regulation”). The Company has not, in respect of any of its Funds, engaged in securities or commodities lending during the financial period ended 31 December 2023.

“*Securities financing transaction*” or “*SFT*” is defined in Article 3(11) of the Securities Financing Transactions Regulation. During the financial period ended 31 December 2023, the only SFTs in which the Company invested were reverse repurchase transactions, which it entered into with respect to the Synthetically-Replicating Funds only.

“*Total return swap*” is defined in Article 3(18) of the Securities Financing Transactions Regulation. During the financial period ended 31 December 2023, the Company entered into total return swaps (defined as “OTC Swaps” in these financial statements) with respect to the Synthetically-Replicating Funds only.

During the financial period ended 31 December 2023, the Synthetically-Replicating Funds earned revenue from reverse repurchase transactions. This income was remitted in full to each of the respective Synthetically-Replicating Funds and is disclosed in the statement of comprehensive income beginning on page 36.

II. Concentration Data

The tables below list the ten largest issuers by value of non-cash collateral received (i.e. held) by each Synthetically-Replicating Fund pursuant to reverse repurchase transactions as at 31 December 2023:

Collateral Issuer	Market Value of Collateral Received	Collateral Issuer	Market Value of Collateral Received

For details regarding the settlement, clearing and safekeeping of collateral received (i.e. held) and granted by each Synthetically-Replicating Fund, please refer to the section entitled "3.C.(i) OTC Swaps and Reverse Repurchase Agreements" in Note 11 of these financial statements.

For details regarding the reuse of collateral, please refer to the section entitled "3.C.(i) OTC Swaps and Reverse Repurchase Agreements" in Note 11 of these financial statements.

The two counterparties of the Company for reverse repurchase transactions and OTC Swaps are Barclays Bank Plc and Merrill Lynch International ("Repo Counterparties"). The country of establishment of each counterparty is the United Kingdom.

Securities financing transactions regulation (continued)

III. Transaction Data (continued)

Collateral Eligibility

OTC Swaps: Only cash (in the base currency of the relevant Fund) is eligible to be transferred as collateral under the “unfunded” swaps.

Reverse Repurchase Agreements:

All collateral securities received from the Repo Counterparties for each Fund satisfy the general rules and criteria prescribed by the Central Bank UCITS Regulations. All of the collateral transferred to the Fund satisfies the requirements of the European Securities and Markets Authority's (“ESMA”) “Guidelines on ETFs and other UCITS issues”. The collateral securities transferred to a Fund must satisfy certain eligibility criteria, including that they must be either equity securities or government and/or supranational fixed income securities. A tri-party collateral agreement (“Eligible Collateral Schedule”) has been put in place pursuant to which the Company (for the account of the relevant Fund), Repo Counterparty and Collateral Manager (which is a delegate of the Depositary) have agreed to certain criteria that must be satisfied in order for collateral to be “eligible” for transfer between the parties, a summary of which is provided below for equities and fixed income securities, respectively. This ensures that only collateral which satisfies the eligibility criteria prescribed by the Central Bank UCITS Regulations (and which is agreed by the parties under the Eligible Collateral Schedule) can be transferred to the Company (for the account of the relevant Fund). Collateral related to the relevant swap or Repo Counterparty is not eligible for inclusion.

Please refer to Note 5 (“*Collateral*”) for details of amounts representing collateral received for reverse repurchase agreements and OTC swaps.

Fixed income

Government bonds and supranational bonds must have a minimum long-term credit rating of AA and AAA (Standard & Poor's), respectively. The maturity of a government or supranational bond is not a criteria for selection, however, it is relevant to the determination of the applicable haircut which range between 0% and 2%. For each Fund, a concentration limit of 20% is imposed with respect to each issuer (with respect to government bonds, the issuer concentration limit is applied per country of issue).

Equities

Equity securities may be transferred as collateral only if they are a member of a specified index stated in the Eligible Collateral Schedule. On top of this, haircuts are applied between 5% and 10% depending on which index the equity security is a member of. For each Fund, a concentration limit of 5% is imposed with respect to each issuer and a further concentration limit is applied per country of incorporation of the issuers, such country concentration limit which varies depending on the relevant country of incorporation. Finally, no Fund may hold more than 2.5% of the market capitalisation per security and no more than 100% of the 30 day average daily value traded per security.

Collateral securities issued by the relevant Repo Counterparty are not eligible for inclusion.

L&G E Fund MSCI China A UCITS ETF

Statement of significant purchases

The Statement of Significant Changes in Composition of Portfolio reflects the largest 20 purchases/sales, or the aggregate purchases/sales, of a security exceeding one per cent of the total value of purchases/sales for the period. Where there are less than 20 purchases/sales, all purchases/sales are disclosed for the period.
