What is this product?

Type

This product is an investment fund.

Objectives

Investment objective

To generate a return in excess of the Benchmark (detailed below) with similar levels of volatility over the medium to long-term before fees and expenses, whilst taking environmental, social and governance ("ESG") factors into account.

Investment policies

The Fund will:

- invest the majority of its net asset value in Fallen Angels included in the Benchmark. Fallen Angels are defined as sub-investment grade bonds and similar debt securities (rated Ba1/BB+/BB+ or below by Standard & Poor's, Moody's Investor Services, Fitch Ratings or an equivalent recognised rating agency) that were previously rated as investment grade;
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income;
- invest globally with no particular industry or sector focus; and
- promote environmental and social characteristics pursuant to Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

The Fund may:

- invest in fixed rate corporate and government bonds and similar debt securities;
- invest in bonds and similar debt securities not included in the Benchmark but are expected to be included in the future;
- invest up to 10% of its net asset value in aggregate in collective investment schemes including open-ended exchange traded funds (ETFs);
- invest up to 10% of its net asset value in aggregate in transferable securities which are not admitted to or dealt in on an eligible market; and
- hold cash for the purpose of hedging or liquidity.

Benchmark

The Fund will measure its performance against Bloomberg Barclays US HY Fallen Angel 3% Cap Total Return Index Value Unhedged (the "Benchmark").

The Investment Manager will use the Benchmark to construct the investment universe. The Fund is actively managed and does not seek

to replicate the full constituents of the Benchmark. The Investment Manager has limited discretion to invest outside the Benchmark where the relevant security meets the requirements of and is expected to be included in the Benchmark in the future.

The majority of the Fund's holdings will be constituents of the Benchmark and as a result the Fund will be similar in its currency, duration as well as sector exposures and credit quality profile, subject to investment constraints. However the Investment Manager will not seek to reflect the Benchmark's maturity profile.

The investment strategy provides similar volatility to the Benchmark over the medium to long-term.

Redemption and Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish Time) on each day which is a business day in Ireland and the U.S. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is None.

Distribution Policy: net income from investments will be retained within the Fund and reflected in the value of your shares.

Product Term

This product does not have a maturity date. The board of BNY Mellon Global Funds, plc may terminate the Fund unilaterally in accordance with the fund documentation.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 3 years and are prepared to take on a medium-low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of BNY Mellon Fund Management (Luxembourg) S.A. to pay you.

Be aware of currency risk. Where the share class is denominated in a different currency to that of your home jurisdiction, you will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.bnymellonim.com.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between November 2021 and December 2022.

Moderate: this type of scenario occurred for an investment between February 2018 and February 2021.

Favourable: this type of scenario occurred for an investment between December 2018 and December 2021.

Where insufficient fund performance history exists, an appropriate benchmark has been used as a proxy.

What happens if BNY Mellon Fund Management (Luxembourg) S.A. is unable to pay out?

BNY Mellon Fund Management (Luxembourg) S.A. is responsible for management and administration of the Fund. It does not hold the assets of the Fund, including monies payable to investors. The Depositary is responsible for the safekeeping of the assets of the Fund. Investors may suffer loss, up to the value of their entire investment, if the Fund or the Depositary is unable to pay out. BNY Mellon Fund Management (Luxembourg) S.A. has no obligation to pay out in this scenario and there is no applicable investor compensation scheme to cover any loss in such an event.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- ¥ 10,000 is invested.

Example Investment ¥ 10,000	if you exit after 1 year	if you exit after 3 years (recommended holding period)
Total Costs	¥ 10	¥ 34
Annual cost impact*	0.1%	0.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.3% before costs and 7.2% after costs.
