Production Date: 28 November 2024.

Share Class: S1CHGBP

ISIN: IE000W1A6W32

Website: <http://www.assetmanagement.hsbc.com>

What is this product?

Type

The Fund is an Irish collective asset-management vehicle ("ICAV"). The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth.

Investment Policy:

The Fund employs HSBC's proprietary cross asset trend strategy (the Strategy) by investing through the use of financial derivative instruments in a diversified range of asset classes (including equity, fixed income, currency and commodities) on a global basis, including investments in emerging markets. In normal market conditions, the Fund's average volatility is expected to be around 10% over the investment horizon of 3-5 years. The Fund may also invest in other funds in order to achieve its investment objectives.

The Fund implements the Strategy by investing primarily (both long and short positions) in financial derivative instruments including, but not limited to futures, forwards, and swaps, including total return swaps. The Strategy specifically allows for net exposures of: up to 200% of NAV through Index futures; up to 600% of NAV through interest rate derivatives; up to 100% of NAV to commodity indices through total return swaps; up to 400% of NAV to currency forwards and non-deliverable currency forwards. The Fund may also invest up to 95% of NAV in money market instruments and may hold cash and cash instruments for ancillary liquidity purposes.

With the exception of permitted investments in unlisted securities, over-the-counter derivative instruments or funds, the securities in which the Fund invests will be listed or traded in recognized markets, as defined in the Prospectus. Where the underlying assets comprise fixed income instruments, these will be investment grade and may have any maturity or duration. The fixed income instruments may have a fixed or floating rate and may be issued by either government or corporate entities.

The Strategy is a proprietary strategy model created and calculated by the Investment Manager, that aims to identify trend-following signals or momentum across equity, bond, currency and commodities markets with the target volatility of 10%. The purpose of the Strategy is to aim to go long in rising markets and short in falling markets. The Fund does not invest in the underlying assets directly, but instead receives the return linked to the performance of those assets through the use of derivatives. The Investment Manager utilises the Strategy to determine the investment universe and portfolio allocation of the Fund. Exposures are monitored and rebalanced daily, as required. Please

refer to the Fund's Supplement for more details on the proprietary strategy model.

The Fund may invest up to 10% of its assets in other funds and may invest in total return swaps.

The Fund may also invest in derivatives for investments, hedging and efficient portfolio management purposes (such as to manage risk and costs, or to generate additional capital or income).

- ◆ The reference currency of your shares is GBP. Your shares seek to hedge the currencies of denomination of the underlying portfolio assets to GBP.
- ◆ Income is reinvested.
- ◆ You may sell your investment on most working days.
- ◆ The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is Euro Short-Term Rate (ESTR).

Intended Retail Investor

Designed for investors seeking capital appreciation and planning to invest for at least 3-5 years.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

Additional Information:

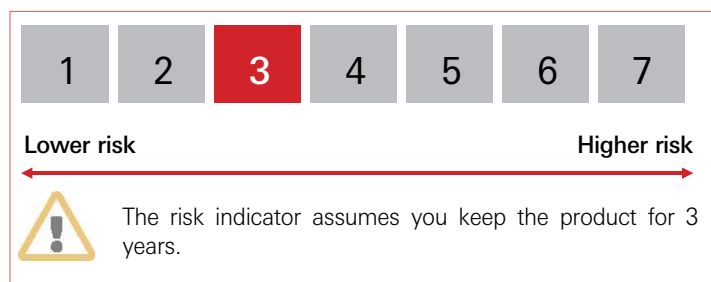

This document describes a single share class of a sub-fund of the UCITS. Further information about the UCITS including the Prospectus, the most recent annual and semi-annual reports of the UCITS and the latest prices of shares, may be obtained free of charge, in English, from the Administrator by emailing ifsinvestorqueries@hsbc.com, or by visiting www.global.assetmanagement.hsbc.com. The most recent Prospectus is available in English and French. The Prospectus, annual and semi-annual reports are prepared for the entire UCITS.

The Depositary is HSBC Continental Europe. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds.

It is possible to switch your shares in shares of a different share class or sub-fund within the ICAV. Details of how to do this are in the "How to convert between sub-funds / Classes" section of the Prospectus.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 3 Years		If you exit after 1 year	If you exit after 3 years
Investment of GBP 10,000			
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.		
Stress Scenario	What you might get back after costs	GBP5,500	GBP5,930
	Average return each year	-45.02 %	-15.97 %
Unfavourable Scenario	What you might get back after costs	GBP8,260	GBP9,400
	Average return each year	-17.44 %	-2.05 %
Moderate Scenario	What you might get back after costs	GBP10,560	GBP11,740
	Average return each year	5.61 %	5.48 %
Favourable Scenario	What you might get back after costs	GBP12,600	GBP14,030
	Average return each year	25.98 %	11.94 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between September 2022 and September 2024. The moderate scenario occurred for an investment between June 2021 and June 2024. The favourable scenario occurred for an investment between October 2014 and October 2017. A suitable benchmark was used where the Fund had insufficient history.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations. In the event of a bankruptcy or insolvency of the Depositary or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- ◆ In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- ◆ GBP 10,000 is invested.

Recommended Holding Period: 3 Years Investment of GBP 10,000	If you exit after 1 year	If you exit after 3 years
Total Costs	60 GBP	212 GBP
Annual cost impact % *	0.6%	0.6% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.11% before costs and 5.48% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	Up to 0 GBP
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.47% of the value of your investment per year. This figure is an estimate due to a change of fee structure.	47 GBP
Transaction costs	0.13% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	13 GBP
Incidental costs taken under specific conditions		
Performance Fees	There is no performance fee for this product.	0 GBP

A conversion charge may be payable.

How long should I hold it and can I take money out early?

Recommended Holding Period: 3 years

Investment in this Fund may be appropriate for investors who plan to invest over a medium term.

There are no penalties if you wish to redeem your holdings in the Fund prior to the recommended holding period. An exit fee may be applicable, please refer to the "Composition of Costs" table for details.

How can I complain?

Complaints about the product, or the about the conduct of HSBC Investment Funds (Luxembourg) S.A., or the person advising on or selling the product, should be addressed in writing to 18 Boulevard de Kockelscheuer, 1821 Luxembourg, Grand Duchy of Luxembourg, or by e-mail to hifl.complaint@hsbc.com.

Other relevant information
