What is this product?

Type

Aegon European High Yield Bond Fund is a sub-fund of Aegon Asset Management Europe ICAV.

Term

The term of the Fund is unlimited and therefore there is no maturity date. The Fund Manager / Manufacturer may decide to terminate the Fund unilaterally as set out in the Prospectus of the Funds. Situations that give rise to an automatic termination are not foreseen in the Funds Prospectus, but may be foreseen by laws and regulations applicable to the Fund.

Objective: The investment objective is to provide long term capital growth.

Policy: This fund is actively managed. The Fund will seek to achieve its investment objective by investing at least 67% of its net assets directly in high yield corporate bonds and notes, which may be at a fixed or floating rate and are rated by rating's agencies as set out below. The Fund may hold selected investment grade bonds and notes. All bonds and notes held will be denominated either in Euro or in the currency of another European country which is not a member of the Euro.

The Fund will invest in assets denominated both in Euros and in the currencies of other European countries. Where non-Euro denominated assets are held, the Investment Manager will seek to hedge the associated currency risk back to Euros. The Fund will invest at least 67% of its net assets in corporate bonds with credit ratings deemed to be 'high yield', defined as meeting one or more of the following rating criteria: Ba1 or lower by Moody's Investor Services (Moody's); BB+ or lower by Standard & Poor's Rating Services (S&P) or Fitch Ratings Inc (Fitch). The average quality of the Fund's holdings will usually be in the range of B3 to Ba1 (B- to BB+), but may fluctuate. The Fund will not generally seek to invest in bonds rated Ca1 (CC+) or lower. The Fund may invest at most 20% of its net assets in bonds issued by companies whose credit rating is deemed to be 'investment grade', defined as meeting one or more of the following rating criteria: Baa3 or higher by Moody's Investor Services (Moody's); BBB- or higher by Standard & Poor's Rating Services (S&P) or Fitch Ratings Inc (Fitch).

The Fund may invest up to 20% of its net assets in what the Investment Manager considers to be smaller, less-developed or emerging markets. The Fund will invest

predominantly in bonds issued by issuers located within Europe, but may also invest in bonds issued by issuers located outside Europe. The Fund may invest in financial derivative instruments for investment purposes and for the purposes of efficient portfolio management or hedging purposes

The fund promotes E/S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation (SFDR).

Other information: You can buy, sell or switch shares of the Fund on any business day (see 'Essential Information on Buying and Selling' in the supplement of the Prospectus of the Fund for more information).

Income the Fund receives will be paid out every month.

Intended retail investor

The Fund is designed for retail and institutional investors seeking pooled exposure to the high yield global bond market and who are comfortable with a medium level of investment risk. It is expected that the Fund will be held by investors as a part of a diversified portfolio which may include other assets such as bonds, equities, property and cash. Share prices will fluctuate and may fall significantly in value. It is important to understand that the Fund should be viewed as a medium to long term investment.
