Background to the Trust

Putnam World Trust (the "Trust") is an umbrella Unit Trust authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") pursuant to the provisions of the Central Bank under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") and regulated by the Central Bank, under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

Carne Global Fund Managers (Ireland) Limited ("Carne") acts as the Manager of the Trust. For the purposes of these financial statements, all references to the "Manager" shall refer to Carne Global Fund Managers (Ireland) Limited throughout, unless otherwise stated. The Putnam Advisory Company, LLC (the "Investment Advisor" or "Putnam") acts as Investment Advisor to the Trust.

The Trust comprises Funds (each a "Fund", collectively the "Funds") in which different classes of Units may be issued from time to time. Each Fund represents interests in a trust comprising a separate and distinct portfolio of investments. The Manager may issue different classes of Units in each Fund. Each Fund will bear its own liabilities and shall not bear the liabilities of any other Fund.

As of 31 December 2024, the following Funds and classes of Units are in issue:

Fund	Classes of Units currently in issue	Fund's Functional Currency
Putnam Global High Yield Bond Fund	Classes A, B, C, E, E2, I, S and S3	U.S. Dollar
Putnam U.S. Large Cap Growth Fund	Classes A, E and I	U.S. Dollar
Putnam Ultra Short Duration Income Fund*	Classes A, A2, A3, C, C2, I , I2 and I3	U.S. Dollar

^{*} Class A3 Units and Class I3 Units of Putnam Ultra Short Duration Income Fund launched on 14 November 2024.

For Funds with Class E Units and Class E2 Units, unit values of these unit classes are stated in euro (€) throughout this report.

For Funds with Class S Units and Class S3 Units, unit values of these unit classes are stated in sterling (£) throughout this report.

Remaining classes as listed in the table are stated in U.S. Dollar throughout the report.

Investment Objectives

The assets of each Fund will be invested separately in accordance with the investment objectives and policies of the Fund. Each Fund has its own investment goal and strategy for pursuing it.

Putnam Global High Yield Bond Fund

The Fund seeks high current income. Capital growth is a secondary objective when consistent with the objective of high current income. The Fund is actively managed in reference to the ICE BofA Global High Yield Investment Grade Country Constrained Index, which is an unmanaged, USD-hedged index of high yield corporate bonds from those countries that issue investment-grade government bonds. The Fund is not limited to a specific geographic focus.

The Fund seeks to achieve its objective by investing at least two-thirds of its total assets (after deduction of ancillary liquid assets) in high-yielding, lower-rated debt securities worldwide such as those rated lower than S&P's BBB or Moody's Baa and listed or traded on Recognised Exchanges (including unleveraged freely transferable loan participations securitised and traded on a Recognised Exchange, zero-coupon bond and payment-in-kind bonds) constituting a portfolio which the Investment Advisor believes does not involve undue risk to income or principal. The Fund may also invest in 144A securities.

Putnam U.S. Large Cap Growth Fund

The investment objective of the Fund is to seek capital appreciation. The Fund seeks to achieve its objective by investing at least two-thirds of its total assets (after deduction of ancillary liquid assets) in equity securities and equity-related securities such as warrants, convertible stocks or preferred stocks issued by large capitalisation U.S. companies which are listed or traded on Recognised Exchanges globally, with a focus on growth stocks. Growth stocks are issued by companies whose earnings are expected to grow faster than those of similar firms, and whose business growth and other characteristics may lead to an increase in stock price. The Investment Advisor uses fundamental investment research to seek opportunities and may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in the industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments. The Fund is actively managed in reference to the Russell 1000 Growth Index.

Putnam Ultra Short Duration Income Fund

The Fund's investment objective is to seek capital preservation and a rate of current income higher than U.S. Treasury bills by investing in a diversified portfolio composed of short duration, investment-grade money market and other fixed-income securities. The Fund is actively managed in reference to the ICE BofA U.S. Treasury Bill Index.

The Fund's investments may include obligations of the U.S. government, its agencies and instrumentalities, which are backed by the full faith and credit of the United States (e.g., U.S. Treasury bonds and Ginnie Mae mortgage-backed bonds) or by only the credit of a federal agency or government-sponsored entity (e.g., Fannie Mae or Freddie Mac mortgage-backed bonds), U.S. corporate debt obligations, taxable municipal debt securities, securitised debt instruments (such as mortgage and asset-backed securities), certificates of deposit, commercial paper (including asset-backed commercial paper), time deposits, Yankee and Eurodollar securities and other money market instruments. The Fund may also invest in U.S. Dollar-denominated foreign securities of this type. The Fund may also invest in 144A securities. Under normal circumstances, the effective duration of the Fund's portfolio will generally not be greater than one year and the dollar-weighted average portfolio maturity of the Fund is not expected to exceed three and one-half years. The Fund is not limited to a specific geographic focus.

The Fund may use derivatives, including futures, forwards, options, swaps, and mortgage-related derivatives, for investment purposes or to hedge against risk. The Fund may also use forward foreign exchange contracts or other currency derivatives for managing and hedging the Fund's exposure to changes in currency exchange rates.

The Fund may use repurchase agreements or reverse repurchase agreements (the exchange of a security for an agreement to repurchase (or resell, if reverse) the security at a fixed future date and price) to generate additional income and capital for the Fund or for efficient portfolio management purposes.

Policies

Distribution Policy

Each of the Funds is certified (with respect to certain classes of Units) as a Reporting Fund under Regulation 51 of the Offshore Funds (Tax) Regulations 2009.

Each Fund has its own specific distribution policy. If the Manager decides to make a distribution, it will be paid at the Manager's discretion as set out in the relevant Prospectus supplement for the Fund. For certain Funds, the Manager will distribute all net investment income of a Fund at least annually and sometimes more frequently as specified in the relevant supplement. Distributions shall be made to the Unitholders on record on the date of distribution in accordance with the number of Units held in that particular Fund. The distributions payable to Unitholders will be reinvested in Classes of Units of the relevant Fund unless otherwise requested by the Unitholder.

Distributions are payable to Unitholders who have elected to receive distributions in cash by transfer of funds (any charges being at the expense of the Unitholder) unless the amount of such distribution is USD50 or less or such other amount as determined by the Manager from time to time. Such amount shall not be distributed but shall be retained and reinvested.

The Manager does not currently intend to distribute net investment income with respect to the following Funds and Classes; not all classes listed below are currently in issue, see the section entitled "Background to the Trust" for classes in issue:

- Class E2 Units and Class S3 Units of Putnam Global High Yield Bond Fund:
- Class A Units, Class E Units and Class I Units of Putnam U.S. Large Cap Growth Fund; and
- Class A2 Units, Class A3 Units, Class C2 Units, Class I2 Units and Class I3 Units of Putnam Ultra Short Duration Income Fund.

If, in the future, it is determined that these Classes will distribute net investment income, the amount to be distributed to Unitholders will be decided upon by the Manager.

Calculation of Net Asset Value

The Net Asset Value ("NAV") of each Fund will be expressed in the functional currency of the relevant Fund and will be calculated on each Dealing Day by ascertaining the value of the assets of the Fund on such Dealing Day and deducting, from such value, the liabilities of the Fund on such Dealing Day. The Net Asset Value per Unit is calculated by dividing the Net Asset Value of the relevant Fund by the number of Units then outstanding for that Fund, or the Net Asset Value of the relevant Fund attributable to the Class of Unit divided by the number of Units in that Class then in issue or deemed to be in issue on such Dealing Day and rounding the result to the nearest unit of currency.

The most recently available Net Asset Value per Unit by Class on each Dealing Day will be made public at the registered office of State Street Fund Services (Ireland) Limited (the "Administrator") and at the following website addresses: www.fundinfo.com for investors in Switzerland or www.fundinfo.com for all other investors and/or in such other publication that the Manager may from time to time determine. Investors should note that the Trust and the Manager are not responsible for any other content (other than Net Asset Value) provided on the foregoing non-Putnam websites, and do not guarantee or assume responsibility for their contents.

Calculation of Sales Charges

An initial sales charge of up to 6.25% of the Net Asset Value per Unit may be charged on certain classes or a contingent deferred sales charge ("CDSC") of up to 4% of the Net Asset Value per Unit may be charged at the discretion of the Manager.

Currently, Class A Units, Class M Units and Class T Units may be subject to a sales charge of up to 6.25% of the Net Asset Value per Unit except for Class A Units, Class M Units and Class T Units of Putnam Ultra Short Duration Income Fund, which are not subject to sales charge.

Currently, Class B Units and Class C Units are offered without an initial sales charge at the time of purchase but a higher ongoing management fee is paid out of assets allocated to the relevant Fund and Class. Class C Units and Class C2 Units of Putnam Ultra Short Duration Income Fund may have initial sales charge of up to 1.50% of the Net Asset Value per Unit. Unitholders who purchase Class B Units may incur a CDSC of up to 4% if Units are redeemed within four years as set out in the Prospectus. Unitholders who purchase Class C Units and Class C2 Units may incur a 1% CDSC if Units are redeemed within one year of purchase.

There are no initial or deferred sales charges with respect to Class A2 Units, Class A3 Units, Class D Units, Class E Units, Class E2 Units, Class I Units, Class I2 Units, Class I3 Units, Class NK Units, Class S Units, Class SK Units, Class S2 Units, Class S3 Units, Class S4 Units and Class Y Units.

Any initial sales charges are accounted for before monies come into the Fund.

Policies cont

Financial Derivative Instruments

The Manager may, on behalf of each Fund, employ techniques and instruments relating to transferable securities and money market instruments under and in accordance with conditions or requirements imposed by the Central Bank. The derivatives used by the Funds may include futures, swaps, swaptions, options, TBA purchases and sales, forward contracts, and contracts for difference, and they may be used for hedging and for investment purposes, including as a substitute for direct investment in securities or to obtain additional exposure beyond that which might be obtained from a traditional securities portfolio, subject always to the restrictions and requirements of the Central Bank.

Details of the derivatives that may be used are set out in the derivatives risk management process filed with the Central Bank. The Funds may also use forward foreign exchange contracts and other currency instruments for hedging or to alter the currency exposure characteristics of transferable securities held by the Funds as an alternative currency exposure management strategy. The techniques and instruments that the Manager may use on behalf of the Trust or any Fund are set out in Appendix II of the Prospectus and, if applicable to a particular Fund, the relevant supplement.

For the purpose of providing margin or collateral in respect of the application of transactions in techniques and instruments, State Street Custodial Services (Ireland) Limited (the "Depositary") may transfer, mortgage, charge, or encumber any assets or cash forming part of the relevant Fund, on proper instruction from the Investment Advisor.

Investment Advisor's Report

Total Return for the financial period ended 31 December 2024

The total return tables for the Funds are disclosed in each Investment Advisor's Report.

Total return is the change in unit value and assumes reinvestment of all distributions back into the Fund. Investment returns and principal value will fluctuate so an investor's units, when sold, may be worth more or less than their original cost. Fund performance data does not take into account any adjustment for taxes payable on reinvested distributions. All performance in this table is based on U.S. Dollar valuations.

Performance data represent past results. Past performance may not be a reliable guide to future performance. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Units. More recent returns may be less or more than those shown.

Investment return, Net Asset Value, and market price of investments will fluctuate, and you may have a gain or a loss when you sell your Units. Performance assumes reinvestment of distributions at Net Asset Value and does not account for any taxes or sales charges. The payment of any sales charges will reduce performance.

For Funds with income as an objective, income may fluctuate in accordance with market conditions and taxation arrangements. Changes in the exchange rates may have an adverse effect on the value, price, or income of the Funds.

The Funds are sub-funds of Putnam World Trust, an umbrella Unit Trust domiciled in Ireland. The Trust is established as an undertaking for collective investment in transferable securities pursuant to the Central Bank UCITS Regulations. Prior to 18 February 2000, Putnam Global High Yield Bond Fund was domiciled in the Cayman Islands and was subject to lower fees and expenses.

Putnam Global High Yield Bond Fund

For the six months ended 31 December 2024, the Fund's unit classes posted positive returns and outperformed their respective benchmarks. The Fund's benchmark, the ICE BofA Global High Yield Investment Grade Country Constrained Index, returned 5.61% in U.S. dollar terms, 4.70% in euro terms, and 5.44% in sterling terms. See page 6 for ICE BofA benchmark disclosure.

At the sector level, security selection within industrials and utilities, plus underweight positioning and security selection within automotive contributed to relative returns. On the other hand, underweight positioning and security selection within cable & satellite, telecommunications, and broadcasting detracted from relative returns. At the issuer level, out-of-benchmark exposure to Boeing and Apollo Global Management were the top contributors to relative returns. Overweight exposure to Teva Pharmaceutical contributed as well. On the other hand, underweight exposure to Lumen Technologies, EchoStar, and Altice Numericable were the largest detractors from relative performance.

Putnam U.S. Large Cap Growth Fund

For the six months ended 31 December 2024, the Fund's unit classes generated solid absolute returns. The benchmark Russell 1000 Growth Index returned 10.49% in US dollar terms and 14.35% in euro terms. See page 6 for Russell benchmark disclosure.

In keeping with the strategy's fundamental, stock-driven process, stock selection contributed positively to returns for the six-month period, while sector allocation was also additive. Stock selection was strongest in the information technology sector, followed by communication services and materials. Weakness in consumer discretionary weighed somewhat on relative results.

During the reporting period, top individual contributors included overweight positions in Broadcom and Netflix, as well as underweight exposure to Microsoft. Among the holdings that detracted most from relative performance were overweight positions in Dexcom and AstraZeneca, as well as avoidance of Palantir Technologies.

While we remain vigilant about macroeconomic factors, our process is driven through a bottom-up stock selection process married with top-down growth themes. We are mindful of valuations but believe we are invested in quality growth companies where we have visibility into the duration of growth—and thus we are comfortable paying a modest premium (5%-10%). We continue to see structural tailwinds and exciting multiyear trends that we believe can drive sustained growth for many businesses. More broadly, we believe that the innovation in the economy will come from traditional growth sectors in the next five years.

Our thematic approach remains a critical part of our investment process and a distinct feature of the strategy. Together with a team of analysts, we examine global trends as well as problems and potential solutions. From this analysis, we identify which themes could drive sustained growth for businesses over a multiyear time horizon. We continue to see exciting trends that we believe can drive growth for many businesses we own.

Putnam Ultra Short Duration Income Fund

For the six months ended 31 December 2024, the Fund's I share class posted positive returns of 2.98% and outperformed its respective benchmark. The Fund's benchmark, the ICE BofA US Treasury Bill Index, returned 2.61%. See page 6 for ICE BofA benchmark disclosure.

Corporate credit was the largest contributor to the Fund's relative performance during the six-month period, as short-term corporate credit spreads continued to grind tighter. Issuer selection in the banking sector, the largest sector allocation within the Fund, was the top contributor to performance. The Fund's allocation to commercial paper contributed to returns as well. We keep a balance of short-maturity commercial paper for liquidity purposes and as a source of returns. Lastly, the Fund's allocation in securitized sectors, including non-agency residential mortgage-backed securities and asset-backed securities, augmented performance. The portfolio management team continues to focus allocations in this area on highly rated securities that are senior in the capital structure.

1. Basis of Preparation

The condensed interim unaudited financial statements (the "Financial Statements") have been prepared for the six months ended 31 December 2024.

All references to net assets throughout the documents refers to Net assets attributable to holders of Redeemable Participating Units unless otherwise stated.

Statement of compliance

These financial statements have been prepared on a going concern basis and in accordance with Financial Reporting Standard 104: "Interim Financial Reporting" ("FRS 104"), and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended, (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those issued by the Financial Reporting Council ("FRC"). The financial statements should be read in conjunction with the Annual Audited Financial Statements, on which the auditors' opinion was unqualified, and which were prepared in accordance with FRS 102: the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102").

The Trust has continued to avail of the exemption available to open-ended investment funds under FRS 102 and is not presenting a Cash Flow Statement.

Critical accounting estimates and assumptions

The critical accounting estimates and assumptions applied in preparing the Financial Statements are consistent with those applied and disclosed in the Trust's annual audited Financial Statements as at and for the financial year ended 30 June 2024.

Fair Value Hierarchy

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires disclosure relating to the fair valuation hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

Funds closed to investment but not yet revoked by the Central Bank

The Funds below have been closed to investment and all their unit classes have been redeemed in prior financial years and are pending application to the Central Bank to revoke the Funds' authorisation. Financial statements have not been prepared in relation to these Funds, and they are disclosed in this note only.

As at 31 December 2024, Putnam Fixed Income Global Alpha Fund, Putnam Multi-Asset Absolute Return Fund and Putnam Total Return Fund continue to hold one security with zero value. All these positions are illiquid and considered worthless.

2. Accounting Policies

The accounting policies set out in this note have, unless otherwise stated, been applied consistently to all financial years/periods presented in these financial statements.

Functional and Presentation Currency

The Board of Directors of the Manager considers the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions to be U.S. Dollar for all Funds. The U.S. Dollar is the currency in which each Fund measures its performance and reports its results.

Assets and liabilities, including net assets attributable to redeemable participating Unitholders, are translated at the closing rate at each Statement of Financial Position date. Exchange differences arising between the rate of translation of subscriptions and redemptions are also attributed to the redeemable participating Unitholders. The units of all Funds are classified as financial liabilities.

for the financial period ended 31 December 2024 cont.

3. Number of Units in Issue and Net Assets attributable to redeemable Participating Unitholder

Each of the units entitles the holder to participate equally on a pro rata basis in the profits and dividends of the Funds attributable to such Class of units and to attend and vote at meetings of the Fund represented by those units. No class of units confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other class of units or any voting rights in relation to matters relating solely to any other class of units. Each unit represents an undivided beneficial interest in the relevant Fund.

The return on an investment in the Funds will depend solely upon the investment performance of the assets and liabilities in that Fund and the increase or decrease (as the case may be) in the Net Asset Value of the Units. The amount payable to a Unitholder in respect of each unit upon liquidation of the relevant Funds will equal the Net Asset Value of the Units of that Fund.

Net Assets attributable to Unitholders represent a liability on the Statement of Financial Position, carried at the redemption amount that would be payable at the Statement of Financial Position date if the Unitholder exercised the right to redeem his/her Units to the Fund.

If the number of Units in a Fund falling to be redeemed on any Dealing Day is equal to 10% or more of the total number of Units in issue or deemed to be in issue in that Fund on such Dealing Day, the Manager may in its discretion refuse to redeem any Units in that Fund in excess of 10% of the total number of Units in issue or deemed to be in issue in that Fund as aforesaid and, if the Manager so refuses, upon notification to the relevant Unitholders, the requests for redemption of Units in that Fund on such Dealing Day shall be reduced rateably and the Units in that Fund to which each request relates which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all the Units in that Fund to which the original request related have been redeemed provided, however, that the Manager may at its discretion, redeem in full the Units of smaller redemption requests (that represent 1% or less of Units in issue or deemed to be in issue) rather than including them in the pro rata calculation with the larger redemption requests received on such Dealing Day. Redemption requests will be dealt with fairly in accordance with the above.

The Manager may also apply a provision for market spreads and duties and charges in any other case where it considers such a provision to be in the best interests of a Fund. Any such provision may be deducted from the subscription amount received from an investor in the case of subscriptions or deducted from the redemption proceeds to be paid to such Unitholder in the case of redemption proceeds to be paid to such Unitholder in the case of a redemption. Any such sum will be paid into the account of the relevant Fund. Notwithstanding the foregoing, the levy with respect to Putnam Global High Yield Bond Fund will not exceed 1% of the Net Asset Value of that Fund under normal market conditions.

Distributions Payable to Redeemable Participating Unitholders

Distributions to holders of redeemable units are recognised in the Statement of Comprehensive Income when the Funds incur a legal or constructive obligation to pay such a distribution. The distribution on these redeemable units is recognised in the Statement of Comprehensive Income as a finance cost. Certain classes of the Funds were certified as reporting funds by HM Revenue & Customs in the UK for the financial period ending 31 December 2024. The Trust has been approved for the UK reporting regime for the financial period ending 31 December 2024. There was no change in the nature of the Trust's business during the financial period.

During the financial period ended 31 December 2024, distributions of USD 279,460 were declared from Putnam Global High Yield Bond Fund (financial period ended 31 December 2023: USD 301,913) and USD 2,574,265 from Putnam Ultra Short Duration Income Fund (financial period ended 31 December 2023: USD 2,026,181). There were no distributions declared from any of the other Funds for the financial periods ended 31 December 2024 and 31 December 2023.

5. Risks Associated with Financial Instruments

As defined in FRS 102 Financial Instruments, risk can be separated into the following components: market risk (which includes market price risk, foreign currency risk and interest rate risk), liquidity risk and credit or default risk. The Trust's risk management process consists of a multi-layered and cross functional review that provides a system of checks and balances. The Investment Advisor performs reviews at least monthly and agrees on policies for managing each of these risks which are summarised below. The Board of Directors of the Manager of the Trust receives monthly reporting on risk matters and reviews the risk management process on an annual basis. These policies have remained substantially unchanged since the beginning of the financial period to which these financial statements relate.

Market conditions

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the contracting party to the transaction to perform (credit risk). The Funds may be exposed to additional credit risk that an institution or other entity with which the Funds have unsettled or open transactions will default as discussed in previous notes.

Russian invasion of Ukraine

On 24 February 2022, Russia initiated unprovoked military actions in the sovereign territory of Ukraine. The Manager of the Trust is closely monitoring developments that may impact financial markets including sanctions, actions by governments and developments of the crisis. The Manager of the Trust will further assess the impact on the Funds' portfolio operations and valuation and will take any potential actions needed, as facts and circumstances are subject to change and may be specific to investment strategies and jurisdictions. In light of the ongoing conflict, a decision was made for the directly held Russian based equity positions to be fair valued at zero.

6. Fair Valuation Hierarchy

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires disclosure relating to the fair valuation hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair valuation hierarchy as required under the amendment to FRS 102 is based on the valuation inputs used to fair value the financial assets and liabilities and consideration of the market activity for each individual financial asset and liability. The definition for levels 1, 2 and 3 are set out below.

- Level 1: The best evidence of fair value is a quoted price for an identical asset in an active market. Quoted in an active market in this context means quoted prices are readily and regularly available and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted price is usually the last traded market value price.
- Level 2: When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the entity can demonstrate that the last transaction price is not a good estimate of fair value (e.g., because it reflects the amount that an entity would receive or pay in a forced transaction, involuntary liquidation or distress sale), that price is adjusted.
- Level 3: If the market for the asset is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, an entity estimates the fair value by using a valuation technique. The objective of using a valuation technique is to estimate what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal business considerations.

Investments typically classified within level 1 include active listed equities, exchange traded derivatives and exchange traded investment funds/companies. Investments typically classified as level 2 include investments in fixed income securities, rights and warrants, certain listed equities, repurchases agreements and over-the-counter derivatives. Investment funds/companies are also considered level 2 investments if there is evidence that redemptions occurred during the financial period and there were no restrictions preventing redemptions at the financial period end. Investments typically classified within level 3 include certain corporate bonds and certain equities.

Many securities markets and exchanges outside the U.S. closed prior to the scheduled close of the New York Stock Exchange and therefore the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the scheduled close of the New York Stock Exchange.

To the extent a pricing service or dealer is unable to value a security or provides a valuation that the Trustee does not believe accurately reflects the security's fair value, the security will be valued at fair value by the Trustee in accordance with policies and procedures approved by the Trustee. Certain investments, including certain restricted and illiquid securities and derivatives, are also valued at fair value following procedures approved by the Trustee. These valuations consider such factors as significant market or specific security events such as interest rate or credit quality changes, various relationships with other securities, discount rates, U.S. Treasury, U.S. swap and credit yields, index levels, convexity exposures, recovery rates, sales and other multiples and resale restrictions. These securities are classified as Level 2 or as Level 3 depending on the priority of the significant inputs.

There are no Level 3 securities as at 31 December 2024 and 30 June 2024.

7. Taxation

Under current law and practice, the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended ("TCA"). On that basis, it is not chargeable to Irish tax on its income or capital gains provided that the Trust is resident for tax purposes in Ireland. The Trust shall be regarded as resident in Ireland for tax purposes provided that it is authorised by the Central Bank of Ireland.

However, Irish tax can arise on the happening of a "chargeable event" in the Trust. A chargeable event includes any distribution payments to Unitholders or any encashment, redemption, cancellation or transfer of Units and any deemed disposal of units arising as a result of holding units in the Trust for a period of eight years or more. An eight year period begins with the acquisition of the units by the unitholder and each subsequent period of eight years begins immediately after the preceding eight year period.

No Irish tax will arise on the Trust in respect of "chargeable events" in respect of a unitholder who is an Exempt Irish Investor (as defined in Section 739D of the TCA) or who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided, in each case, that an appropriate valid declaration in accordance with Schedule 2B of the TCA is held by the Trust and the Trust is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct, or where the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations. In the absence of an appropriate declaration or Irish Revenue authorisation the Trust will be liable for Irish tax on the occurrence of a chargeable event.

Dividends, interest and capital gains received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

The Trust intends to comply with any regulations issued by the Irish government to give effect to the Ireland/U.S. Intergovernmental Agreement ("IGA") (signed in December 2012) and to implement the terms of the U.S. Foreign Account Tax Compliance Act ("FATCA"). The Trust also intends to comply with any applicable regulations issued with respect to the Common Reporting Standard ("CRS") and to implement the terms of the CRS in line with OECD guidance, where applicable. There are significant similarities between both reporting regimes and under the CRS, the Trust has similar obligations in terms of account onboarding and annual reporting. The Trust, in conjunction with assistance from its service providers where necessary, will endeavour to ensure that it satisfies any applicable obligations imposed on it in relation to the CRS.

Under the IGA and any related Irish regulations, Irish financial institutions (as defined under the IGA) are required to report annually to the Irish Revenue Commissioners details of its U.S. account holders including the name, address and taxpayer identification number ("TIN") and certain other details. The Trust was also required to amend its account on-boarding procedures with effect from 1 July 2014 in order to identify new U.S. account holders and report this information to the Irish Revenue. The Trust, in conjunction with assistance from its service providers where necessary, will endeavour to ensure that it satisfies any obligations imposed on it in relation to FATCA.

Unitholders are encouraged to consult with their own tax advisors regarding the possible implications of FATCA and CRS on their interest in the Trust.

8. Fees

The fees of the Manager, the Administrator and the Depositary are borne individually by each of the Funds.

Administrator, Depositary and Transfer Agent

The Administrator, Depositary and Transfer Agent together shall each be entitled to receive out of the assets of each Fund annual fees, and those fees will not in total exceed 0.40% of the average Net Asset Value of each Fund calculated on the last Dealing Day of each month (plus VAT if any thereon). The Depositary shall also be entitled to receive out of the assets of each Fund an annual safekeeping (depositary) fee not to exceed 0.50% of the average Net Asset Value of each Fund. The Administrator and the Depositary shall also be entitled to be paid any transaction charges and expenses and any sub-depositary fees, which shall be at normal commercial rates. The Administrator shall also be entitled to an annual fee of US\$10,000 out of the assets of the relevant Funds for general administration services. This shall be apportioned pro rata among the Funds. The "Average Net Asset Value" shall refer to the average monthly Net Asset Value. Citibank Europe plc, the Transfer Agent for all Funds, received its fees out of the assets of the relevant Funds. Please note that the foregoing fees, along with other operating expenses of certain of the Funds, are currently subject to an overall expense cap, as described in Note 11.

9. Soft Commission Arrangements and Directed Brokerage

Soft dollar transactions occur when the Investment Advisor used certain investment research services which assisted in the management of the Funds' portfolio investments, which were paid for by certain brokers. These services could include, for example, research and analysis of the relative merits of individual shares or markets. In return, the Investment Advisor placed a proportion of business with these brokers including transactions relating to the Funds' investments. The Investment Advisor has satisfied itself that it obtained best execution on behalf of the Funds and that these arrangements were to the benefit of the Funds. During the financial periods ended 31 December 2024 and 31 December 2023, there were no soft dollar transactions in the Funds. There were no directed brokerage arrangements entered into by the Funds during the financial periods ended 31 December 2024 and 31 December 2023.

10. Master Agreements

Each Fund is a party to International Swap and Derivatives Association, Inc. ("ISDA") Master Agreements that govern OTC derivative and foreign exchange contracts and Master Securities Forward Transaction Agreements ("Master Agreements") that govern transactions involving mortgage-backed and other asset-backed securities that may result in delayed delivery with certain counterparties entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the Funds and the applicable counterparty. Collateral requirements are determined based on the Funds' net position with each counterparty. With respect to ISDA Master Agreements, termination events applicable to the Funds may occur upon a decline in the Funds' net assets below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the Funds' counterparties to elect early termination could impact the Funds' future derivative activity.

Under the terms of ISDA Master Agreements with certain brokers, the Funds allow certain counterparties the right to hold and re-register collateral in the name of the counterparty or in another name other than the Funds, to pledge, repledge, hypothecate, rehypothecate, sell, lend, or otherwise transfer or use any amount of the collateral, and to use or invest cash collateral at its own risk.

11. Significant Agreements and Related Party Transactions

Transactions with entities who have significant influence

Fees charged to the Funds by the Manager and/or Investment Advisor and the amount due at the period end are shown in the Statement of Comprehensive Income and the Statement of Financial Position (as part of Expenses Payable), respectively.

Management and Investment Advisory fees

The fees of Putnam, as Investment Advisor, were borne individually by each of the Funds.

Putnam, as Investment Advisor, is entitled to receive a fee out of the assets of each Fund at the same annual rate below. Such fees shall accrue daily and be payable monthly in arrears. All management fee rates as disclosed in the following table are the same as at 30 June 2024, unless otherwise stated in the footnotes to the table, or where a unit class launched or fully redeemed during the period (refer to Note 14 for details).

The fees charged to the Funds by the Investment Advisor are shown as "Investment Advisor Fees" in the Statement of Comprehensive Income with the associated payable disclosed within "Expenses Payable" in the Statement of Financial Position.

Carne, as the Manager, shall be paid a fee out of the assets of the Funds, calculated and accrued on each Dealing Day and payable monthly in arrears, up to a maximum of 0.05% of the Net Asset Value of the relevant Fund, subject to a monthly minimum fee up to €1,500 per Fund. The Manager is also entitled to receive out of the assets of the Funds reasonable and properly vouched expenses.

There were no cash distributions made to the related parties during the financial period ended 31 December 2024 and financial year ended 30 June 2024.

The Manager is not aware of any other transactions with related parties during the period, other than those disclosed in these financial statements.

Dealings with Connected Persons

Regulation 43(1) of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person conducted a) at arm's length; and b) in the best interest of the unitholders of the UCITS".

As required under Central Bank UCITS Regulation 81(4), the Directors of the Manager, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

12. Efficient Portfolio Management

Each Fund utilises Financial Derivative Instruments ("FDI") for investment purposes and/or for efficient portfolio management purposes. In addition to the investments in FDI set down in the Prospectus and subject to the conditions and within the limits laid down by the Central Bank, each Fund may employ techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund and may not be speculative in nature. These techniques and instruments may include investments in FDI. New techniques and instruments may be developed which may be suitable for use by a Fund and the Manager may employ such techniques and instruments. Techniques and instruments which relate to transferable securities and money market instruments and which are used for the purpose of efficient portfolio management, including FDI which are not used for direct investment purposes, shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- (a) they are economically appropriate in that they are realised in a cost-effective way;
- (b) they are entered into for one or more of the following specific aims:
 - (i) reduction of risk;
 - (ii) reduction of cost;
 - (iii) generation of additional capital or income for the Fund with a level of risk which is consistent with the risk profile of the Fund and the risk diversification rules set out in the UCITS Regulations;
- (c) their risks are adequately captured by the risk management process of the Fund; and
- (d) they cannot result in a change to the Fund's declared investment objectives or add supplementary risks in comparison to the general risk policy as described in the sales documents.

for the financial period ended 31 December 2024 cont.

12. Efficient Portfolio Management cont.

Investment in FDI are subject to the conditions and limits laid down by the Central Bank.

The direct and indirect operational costs and fees are not readily identifiable and therefore are not split out separately on the face of the Statements of Comprehensive Income.

All of the Trust's Funds are actively managed in reference to a specific index, as highlighted in the "Investment Objectives" section.

Set out below are details of the efficient portfolio management techniques and instruments currently used across the Putnam Ultra Short Duration Income Fund during the financial period ended 31 December 2024 and financial year ended 30 June 2024.

Repurchase Agreements: The Fund listed above entered into repurchase agreements, which are used as short-term cash management vehicles. The interest income earned on repurchase agreements is disclosed as part of interest income in the Statement of Comprehensive Income. Repurchase agreements are secured by collateral, typically U.S. government or agency securities. It is the Fund's policy that the Depositary take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. In the event of default by the counterparty, a Fund has the contractual right to liquidate the collateral securities and to apply the proceeds in satisfaction of the obligation.

During the financial period ended 31 December 2024 and financial year ended 30 June 2024, other than the Fund listed above, none of the other Funds entered into repurchase agreements.

13. Foreign Exchange

The rates of exchange to USD as at 31 December 2024 and 30 June 2024 were as follows:

Currency	31 December 2024	30 June 2024

Euro	0.96539	0.93375
South Korean Won	1,472.15000	1,376.50000
Swiss Franc	0.90755	0.89845

14. Significant Events during the Period

Russian invasion of Ukraine

Events arising in Ukraine, as a result of military action being undertaken by Russia in Ukraine, may impact on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia ("Russian Securities"). The Directors are monitoring developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions. As at 31 December 2024, no Funds have direct or indirect exposure to any Russian Securities.

With effective date 1 November 2024, there was a change of Global Distributor for Putnam World Trust. A novation agreement was signed from Putnam Investments Limited to Franklin Templeton International Services S.à r.l..

Class A3 Units and Class I3 Units of Putnam Ultra Short Duration Income Fund launched on 14 November 2024.

15. Subsequent Events

The Board of Directors of the Manager have considered the impact of the Russian invasion of Ukraine from a post year end perspective and determined that there has been no significant change to the assessments as detailed in Note 5 and Note 14 to the financial statements.

A shareholder notice was issued to unitholders on 3 February 2025 to notify them of the proposed merger with Franklin Templeton. A vote on the merger will take place at the Extraordinary General Meeting on 14 March 2025.

There were no other significant events since the financial period end which would require disclosures in the financial statements.

16. Availability of Portfolio Information
