NOTES TO THE CONDENSED FINANCIAL STATEMENTS

Note 1 – Establishment and Organisation

The Fund is an open-ended umbrella unit trust established in Ireland as a UCITS pursuant to the UCITS Regulations. The Fund was constituted on February 24, 1998 and commenced trading on March 2, 1998. It was initially established as the Mediolanum Long-term Fund. The name was changed to the Mediolanum CHALLENGE Fund on March 5, 1999 and to CHALLENGE Funds on January 25, 2000. These condensed financial statements cover the financial period January 1, 2023 to June 30, 2023.

"Manager" means Mediolanum International Funds Limited or any other company approved by the Central Bank as manager of the Fund.

"Delegate Investment Manager" means any one or more persons or companies or any successor person or company appointed by the Manager in accordance with the requirements of the Central Bank of Ireland to act as delegate investment manager of some or all of the assets of a Sub-Fund. The Delegate Investment Managers for each Sub-Fund are listed in the 'General Information' section of these financial statements.

As at June 30, 2023, the Fund had twenty five active Sub-Funds, denominated in Euro - CHALLENGE North American Equity Fund, CHALLENGE European Equity Fund, CHALLENGE Italian Equity Fund, CHALLENGE Germany Equity Fund, CHALLENGE Spain Equity Fund, CHALLENGE Pacific Equity Fund, CHALLENGE Emerging Markets Equity Fund, CHALLENGE Energy Equity Evolution, CHALLENGE Industrials and Materials Equity Evolution, CHALLENGE Healthcare Equity Evolution, CHALLENGE Financial Equity Evolution, CHALLENGE Technology Equity Evolution, CHALLENGE Liquidity Euro Fund, CHALLENGE Liquidity US Dollar Fund, CHALLENGE Euro Income Fund, CHALLENGE International Income Fund, CHALLENGE Euro Bond Fund, CHALLENGE International Bond Fund, CHALLENGE International Equity Fund, CHALLENGE Solidity & Return, CHALLENGE Provident Fund 1, CHALLENGE Provident Fund 2, CHALLENGE Provident Fund 3, CHALLENGE Provident Fund 4 and CHALLENGE Provident Fund 5.

As at June 30, 2023, CHALLENGE Global Smaller Cap Equity Fund has not yet been launched.

The assets of a Sub-Fund will be invested separately in accordance with the investment objectives and policies of the Sub-Fund as set out in the Sub-Fund Information Card attached to the Prospectus.

Note 2 – Significant Accounting Policies

(a) Basis of Accounting

The Fund's financial statements for the financial period ended June 30, 2023 have been prepared in compliance with Financial Reporting Standard 104 Interim Financial Reporting ("FRS 104") applicable in the UK and Republic of Ireland, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) ("UCITS Regulations"), Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("CBI UCITS Regulations") and the Trust Deed.

The Fund has not applied the full disclosure requirements of FRS 102 as according to FRS 104, issued by the Financial Reporting Council, disclosures demanded by Financial Reporting Standards are generally not required for semi-annual reports.

(b) Accounting policies

The same accounting policies, presentation and methods of computation are followed in these condensed financial statements as were applied in the preparation of the Fund's financial statements for the financial year ended December 31, 2022.

Note 3 – Units

Units of each Sub-Fund are all freely transferable and, subject to the differences between units of different Classes as outlined below, are all entitled to participate equally in the profits and distributions (if any) of that Sub-Fund and in its assets in the event of termination. The units, which are of no par value and which must be fully paid for upon issue other than in certain circumstances which are at the discretion of the Manager, carry no preferential or pre-emptive rights. Fractions of units may be issued up to three decimal places.

A unit in a Sub-Fund represents the beneficial ownership of one undivided share in the assets of the relevant Sub-Fund attributable to the relevant Class.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 3 – Units (continued)

The Fund is made up of the Sub-Funds, each Sub-Fund being a single pool of assets. The Manager may, whether on the establishment of a Sub-Fund or from time to time, create more than one Class of units in a Sub-Fund to which different levels of subscription fees and expenses (including the management fee), minimum subscription, minimum holding, designated currency, hedging strategy (if any) applied to the designated currency of the Class, distribution policy and such other features as the Manager may determine may be applicable. Units shall be issued to investors as units in a Class.

“A” units are accumulating Classes and are not entitled to receive distributions whereas “B” units are distributing Classes and may be entitled to receive distributions.

The net assets attributable to holders of redeemable participating units are at all times equal to the Net Asset Value of the Fund. The participating units are in substance a liability of the Fund to Unitholders under FRS 102 as they can be redeemed at the option of the Unitholder.

Note 4 – Taxation

The Fund qualifies as an investment undertaking as defined in Section 739B (1) of the Taxes Act. Under current Irish law and practice, it is not chargeable to Irish tax on its income and capital gains. Tax may arise on the happening of a chargeable event. A chargeable event includes any distribution payments to Unitholders or any encashment, redemption or transfer of units. No tax will arise on the Fund in respect of chargeable events in respect of:

- (i) a Unitholder who is not Irish resident and not ordinarily resident in Ireland at the time of the chargeable event; or
- (ii) certain exempted Irish resident investors who have provided the Fund with the necessary signed statutory declarations; or
- (iii) units held in a recognised clearing system as designated by the order of the Irish Revenue Commissioners.

Distributions and interest on securities issued in countries other than Ireland may be subject to taxes including withholding taxes imposed by such countries. The Fund may not be able to benefit from a reduction in the rate of withholding tax by virtue of the double taxation agreement in operation between Ireland and other countries. The Fund may not, therefore, be able to reclaim withholding tax suffered by it in particular countries.

To the extent that a chargeable event arises in respect of an Irish Unitholder, the Fund may be required to deduct tax in connection with that chargeable event and pay the tax to the Irish Revenue Commissioners. A chargeable event can include dividend payments to Unitholders, appropriation, cancellation, redemption, repurchase or transfer of units, or a deemed disposal of units every 8 years beginning from the date of acquisition of those units. Certain exemptions can apply to tax exempt Irish investors to the extent that these Unitholders have appropriate tax declarations in place with the Fund, in which case there may be no requirement to deduct tax.

Note 5 – Contingent Liabilities

There were no contingent liabilities at the financial period end (there were no contingent liabilities as at December 31, 2022).

Note 6 – Soft Commission Arrangements

For the financial period ended June 30, 2023, investment research fees were paid directly by the Sub-Funds (these fees were paid directly by the Sub-Funds for the financial period ended June 30, 2022).

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

RBC Investor Services Ireland Limited, the Transfer Agent, receives out of the assets of the Fund an annual fee, accrued daily and payable monthly in arrears at a rate of Euro 82,000 for the Fund and Euro 1,600 per Class of units (plus VAT, if any) (June 30, 2022: Euro 82,000 for the Fund and Euro 1,600 per Class of units (plus VAT, if any)).

The Transfer Agent received fees of Euro 97,681 for the financial period ended June 30, 2023 (June 30, 2022: Euro 96,049).

The fees for all CHALLENGE Sub-Funds may be paid out of the capital of the Sub-Funds. During the financial period ended June 30, 2023 and June 30, 2022, no fees were paid out of the capital of the Sub-Funds.

Note 8 – Performance Fee

The Manager shall be entitled to a performance fee in respect of each Class of Units in issue at the Valuation Day prior to the Calculation Date equal to a percentage of the amount by which the Net Asset Value per Unit of each Class of Units (before the deduction of the applicable performance fee and adjustment for any distributions) exceeds the Performance Target Value as at the Valuation Day prior to the Calculation Date. Any such performance fee, where payable, will be subject to a cap of 1% of the Net Asset Value of the relevant Class of Units at the end of the relevant Calculation Period. In any given Calculation Period, the **Performance Target Value** for each Class of Units is defined as being equal to the high-water mark (the “**HWM**”) increased by the relevant hurdle rate (“**Hurdle Rate**”) for that Calculation Period only. In calculating the Performance Target Value, adjustments may also be made for subscriptions and redemptions. The adjustments are required so that the performance fee rewards the Manager for the profits earned by the Sub-Fund, as attributable to the relevant Class (es) of Units (i.e. actual absolute value) in the relevant Calculation Period as opposed to artificial increases in the performance fee simply due to a higher NAV resulting from new subscriptions (i.e. such increases should not be taken into account). Such artificial increases in the performance fee most notably happen shortly after a new Sub-Fund launch where the size of inflows are material relative to the value of the assets of the Sub-Fund, attributable to the relevant Class (es) of Units. Any required adjustments would be made to the accrued performance fee at the time of the relevant subscriptions. Investors should be aware that the performance fee is calculated at the level of the Class of Units and not at individual investor level (on a per Unit basis). The HWM is described below and the relevant percentages and Hurdle Rates applicable to each type of Sub-Fund are as indicated in the table below.

The HWM of a Class of Units will initially be set at the initial offer price of a Class of Units on the creation of that Class of Units. The initial HWM will remain unchanged until such time as a performance fee crystallises and becomes payable at the end of a subsequent Calculation Period. Upon such crystallisation and payment of a performance fee, the HWM will be adjusted upwards (i.e. on the outperformance of the Performance Target Value). The adjusted HWM will be equal to the Net Asset Value per Unit of the Class of Units at the end of that Calculation Period for which a performance fee crystallised and became payable. Where the Net Asset Value per Unit does not outperform the Performance Target Value as at the Valuation Day prior to the Calculation Date, no performance fee is payable (even where the Net Asset Value per Unit exceeded the Performance Target Value during the Calculation Period) and the HWM remains unchanged from the end of the previous Calculation Period.

The performance fee is calculated on the first Dealing Day of January of each year (the “**Calculation Date**”). The Calculation Period is the 12 month period immediately preceding the Calculation Date (the “**Calculation Period**”). The initial offer price of a Class of Units on the creation of that Class of Units shall be used as the HWM for the purposes of the calculation of the performance fee in the first Calculation Period for a Class of Units. For a new Class of Units, the first Calculation Period will commence on the final day of the initial offer period for that Class of Units and will conclude at the end of the first Calculation Period. The performance fee shall accrue daily and will crystallise, be payable and credited to the Manager annually in arrears at the end of each Calculation Period. For the calculation of the performance fee, the total Net Asset Value of each Class of Units in issue for the relevant Sub-Fund is taken into consideration.

The Net Asset Value per Unit for a Class of Units used for subscription or redemption purposes may include an allowance for performance fee accrual, where applicable. For determination of accruals, where applicable, the Calculation Period is defined as the period to the Valuation Date from the previous Calculation Date.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 8 – Performance Fee (continued)

In the event that a Unitholder redeems during a Calculation Period, any performance fee accrued up until the time of their redemption will be payable on a pro rata basis. For purpose of the calculation of such performance fee, the Hurdle Rate set out in the table below will be applied on a pro rata basis up until the time of redemption during the Calculation Period.

Sub-Fund Type	Hurdle Rate*	Percentage to be applied on the amount by which the Net Asset Value per unit exceeds the Performance Target Value
Equity	5%	20%
Multi-Asset	3%	20%
Fixed Income	1%	20%

*Where a performance fee is not payable at the end of a Calculation Period the Hurdle Rate for the following Calculation Period will be applicable for that Calculation Period only at the rates set out in the table above and will not be a cumulative rate including the previous Calculation Period in which a performance fee was not payable. For example, if no performance fee is payable at the end of the first Calculation Period for an Equity Sub-Fund, the Hurdle Rate for the following Calculation Period will remain at 5% for that Calculation Period on a pro rata basis and will not be cumulative of both the first and second Calculation Periods (i.e. 10%).

The Net Asset Value of a Class of Units used in the performance fee calculation is net of all costs and charges incurred by the relevant Sub-Fund, as attributable to that Class, but will be calculated without deducting the accrued performance fee itself, provided that in doing so it is in the best interests of Unitholders.

The performance fee shall be calculated by the Administrator (subject to verification by the Trustee) and shall be due and payable 10 Business Days following the Calculation Date.

The Manager is only entitled to and shall only be paid a performance fee if the percentage difference between the Net Asset Value per unit and the performance target value is a positive figure as at the relevant valuation day at the end of the relevant Calculation Period.

Included in that calculation shall be net realised and unrealised capital gains plus net realised and unrealised capital losses as at the relevant Dealing Day at the end of the relevant Calculation Period. As a result, performance fees may be paid on unrealised gains which may subsequently never be realised.

Reference to "Equity" Sub-Funds in the above table was to CHALLENGE North American Equity Fund, the CHALLENGE European Equity Fund, the CHALLENGE Italian Equity Fund, the CHALLENGE Germany Equity Fund, the CHALLENGE Spain Equity Fund, the CHALLENGE Pacific Equity Fund, the CHALLENGE Emerging Markets Equity Fund, the CHALLENGE Energy Equity Evolution, the CHALLENGE Industrials and Materials Equity Evolution, the CHALLENGE Healthcare Equity Evolution, the CHALLENGE Financial Equity Evolution, the CHALLENGE Technology Equity Evolution and the CHALLENGE International Equity Fund.

Reference to "Multi-Asset" Sub-Funds in the above table was to the CHALLENGE Solidity & Return.

Reference to "Fixed Income" Sub-Funds in the above table was to the CHALLENGE Euro Income Fund, the CHALLENGE International Income Fund, the CHALLENGE Euro Bond Fund and the CHALLENGE International Bond Fund.

Performance fees crystallised on redemption amounted to Euro 326,019 (June 30, 2022: Euro 1,372,445). The amount payable to the Manager as at June 30, 2023 is Euro 329,075 (December 31, 2022: Euro 1,728,503).

Performance fees accrued as at June 30, 2023 amounted to Euro 9,028,589 (June 30, 2022: Euro 6,243,228). However, the amount payable to the Manager is only what is accrued at the date of redemption or at December 31, 2023.

The Performance Fees are not calculated using an equalisation or series accounting methodology. As a result, the impact of the Performance Fee on a Unitholder will be different than if performance fees were individually calculated for each Unitholder based on the performance of that Unitholder's investment. Whether a Unitholder is disadvantaged or advantaged by this will depend on the timing of investments by that Unitholder and on the performance of the relevant Class of Units.

Note 11 – Derivative Contracts

UCITS Regulations permits Funds to invest in financial derivative instruments both for investment purposes and for efficient portfolio management/hedging purposes, in each case subject to the conditions and within the limits laid down by the Central Bank of Ireland and the Fund's investment policies. The Sub-Fund Information Card outlines the permitted techniques and instruments for each Sub-Fund. During the financial period the instruments used by the Sub-Funds were for investment purposes and for efficient portfolio management/hedging purposes. These instruments consisted of options, futures and swaps. The Sub-Funds also entered into forward currency contracts to purchase or sell a specific currency at a future date at a price set at the time of the contract.

The Sub-Funds entered into these contracts to hedge against changes in currency exchange rates. The Sub-Funds can use one currency (or a basket of currencies) to hedge against adverse changes in the value of another currency (or a basket of currencies) when exchange rates between the two currencies are positively correlated.

Please see Note 10 for details of cash and cash equivalents, cash collateral held/due to brokers and margin cash receivable/payable and Notes 12 to 15 for details of forwards, options, futures and swaps.

Note 15 – Swaps

The Fund may enter into various swap contracts including, but not limited to, credit default swaps (including credit default swap on indices such as CDX), and interest rate swaps. The purpose is to create, manage or reduce the Fund's exposure to interest rate movements, defaults of corporate and sovereign debts, or other markets, as appropriate.

Credit default swap contracts involve an arrangement between the Fund and a counterparty which allow the Fund to protect against losses incurred as a result of default on certain designated bonds by a specified reference entity. A credit default swap index is a credit derivative used to hedge credit risk or to take a position on a basket of credit entities. Unlike a credit default swap, which is an OTC credit derivative, a credit default swap index is a completely standardised credit security and may therefore be more liquid and trade at a smaller bid-offer spread.

A Sub-Fund may utilise total return swap contracts where the Sub-Fund may exchange interest rate cash flows for cash flows based on the return of, for example, an equity or fixed income instrument or a securities index. These contracts allow a Sub-Fund to manage its exposures to certain securities or securities indexes. For these instruments, the Sub-Fund's return is based on the movement of interest rates relative to the return on the relevant security or index.

As at June 30, 2023, the Fund had entered into the following swaps contracts:

Note 16 – Risks Associated with Financial Instruments

The Fund is exposed to risk, which includes market risk, currency risk, liquidity risk, credit risk and interest rate risk arising from the financial instruments it holds. The Fund may use derivatives and other instruments in connection with its risk management activities.

The Fund has in place guidelines that set out its overall business strategies and its general risk management philosophy and has established processes to monitor and control economic hedging transactions in a timely and accurate manner. The Manager employs a risk management process to monitor and control position risk in a timely and accurate manner.

The Fund's accounting policies in relation to derivatives are consistent with those that were applied for the annual audited financial statements.

The Sub-Funds utilise various methods to value investments measured at fair value on a recurring and non-recurring basis.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement (lowest being level 3).

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 16 – Risks Associated with Financial Instruments (continued)

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Manager's assumptions, made in good faith, about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The determination of what constitutes observable requires significant judgment by the Manager. The Manager considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Manager's perceived risk of that instrument.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Manager's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Manager uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The three levels of inputs are defined as follows:

Level 1 - The unadjusted quoted price in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 - Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly; and

Level 3 - Inputs that are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The following tables summarise the inputs used to value the Sub-Funds' financial instruments measured at fair value on a recurring and non-recurring basis as at June 30, 2023:

Valuation Techniques

When fair values of listed equity, as well as publicly traded derivatives at the reporting date, are based on quoted market prices or binding dealer price quotations, without any deduction for transaction costs, the instruments are included within level 1 of the hierarchy. Fair values of debt securities are included within level 2 of the hierarchy.

For all other financial instruments, fair value is determined using valuation techniques. Valuation techniques include net present value techniques, comparison to similar instruments for which market observable prices exist, options pricing models and other relevant valuation models.

The Fund uses widely recognised valuation models for determining fair values of over-the-counter derivatives. For these financial instruments, inputs into models are market observable and are therefore included within level 2.

The fair values of currency exchange contracts are calculated by reference to current exchange rates for contracts with similar maturity and risk profiles.

The fair values of any investments in any open ended investment funds are based on the Net Asset Value (market value of the Sub-Fund's assets less liabilities / number of units) calculated by the administrator of the underlying investment funds. The Net Asset Value of the underlying investment funds is adjusted for any factors that indicate that the Net Asset Value per share, as calculated by the administrator of the underlying investment funds, may not be the fair value. Investments in investment funds are categorised in level 2, except for any exchange traded funds which may be classified as level 1.

Level 3 securities are valued by a competent person selected by the Directors of the Manager and approved for such purpose by the Trustee with care and in good faith in accordance with the Fund's valuation policies.

The investment objective of each Sub-Fund is as follows:

CHALLENGE North American Equity Fund

The investment objective of CHALLENGE North American Equity Fund is to achieve long-term capital appreciation by primarily investing in or taking exposures (both long and short) to a diversified portfolio of North American equities and equity related securities, and currencies listed or traded on North American recognised exchanges.

The Schedules of Investments on pages 118 to 330 are representative of the type of investments held during the financial period.

The Fund has investment guidelines that set out its overall business strategies, its tolerance for risk and its general risk management philosophy and has established processes to monitor and control economic hedging transactions in a timely and accurate manner. The Fund has a Risk Management Process in place for the use of financial derivative investments which has been approved by the Directors of the Manager and the Central Bank of Ireland.

Set out below is a description of some of the more important types of risk and an outline of the processes the Manager has implemented to assess, monitor and control these specific risks.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 16 – Risks Associated with Financial Instruments (continued)

The main risks arising from the Sub-Funds financial instruments are market price, foreign currency, liquidity, credit and interest rate risks.

(a) Market Price Risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Sub-Funds might suffer through holding market positions in the face of price movements. Certain Sub-Funds may invest in emerging markets. Such securities may involve a high degree of risk and may be considered speculative. Risks include (i) greater risk of expropriation, confiscatory taxation, nationalisation, and social, political and economic instability; (ii) the small current size of the markets for securities of emerging markets issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility; (iii) certain national policies which may restrict a Sub-Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

The Manager considers the asset allocation of the portfolios of the Sub-Funds to minimise the risk associated with particular market sectors whilst continuing to follow the investment objectives.

Global Exposure to Financial Derivative Instruments

The Manager's risk management department has assessed the risk profile of the Fund and the related Sub-Funds on the basis of the investment policy, strategy and the use of financial derivative instruments. Based on the risk profile and where the Sub-Fund holds financial derivative instruments, risk management has determined that the method for the calculation of the global exposure to financial derivative instruments for all Sub-Funds will be the commitment approach. The exceptions to using the commitment approach are CHALLENGE Solidity & Return and CHALLENGE Euro Bond Fund where the absolute VaR approach is used; the Sub-Funds changed from Parametric to a Historical methodology on September 1, 2020.

(b) Currency Risk

The value of the assets of the Sub-Fund will be affected by fluctuations in the value of the currencies in which the Sub-Fund's portfolio securities are quoted or denominated relative to the base currency. Currency exchange rates may fluctuate significantly over short periods of time, causing together with other factors the Sub-Fund's Net Asset Value to fluctuate. Sub-Funds that invest in investment funds have indirect exposure to the currencies of the underlying investments within those investment funds.

As disclosed in Note 11, Sub-Funds may invest in financial derivative instruments, including currency derivatives, for investment and efficient portfolio management purposes which will increase or decrease the relevant Sub-Fund's exposure to individual currencies relative to the portfolio of investments held.

The Manager or the Delegate Investment Manager, as appropriate, may try to mitigate currency risk for hedged unit Classes by using financial instruments such as currency forwards. If the Manager or the Delegate Investment Manager, as appropriate, enters into such transactions, then the gains/losses on and the resultant costs of the relevant transactions will be solely attributable to the relevant Class of units and may not be combined or offset against the exposures of other Classes or specific assets.

As at June 30, 2023 the following Sub-Funds have hedged unit Classes:

CHALLENGE North American Equity Fund
CHALLENGE European Equity Fund
CHALLENGE Pacific Equity Fund
CHALLENGE International Income Fund
CHALLENGE International Bond Fund
CHALLENGE International Equity Fund

In executing Class hedging, the Manager employs a look through approach in respect of currency exposure of investment funds.

Where the Manager or the Delegate Investment Manager, as appropriate, seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Manager or the Delegate Investment Manager. However over-hedged positions will not exceed 105% of the Net Asset Value and hedged positions will be under review by the Manager or the Delegate Investment Manager to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 16 – Risks Associated with Financial Instruments (continued)

(c) **Liquidity Risk**

Liquidity risk is the risk that an entity will encounter difficulty in realising assets or otherwise raising funds to meet commitments associated with financial instruments.

Generally the Sub-Funds' assets are composed of actively traded and highly liquid securities. The liquidity risks associated with the need to satisfy Unitholders' requests for redemptions are mitigated by maintaining a constant pool of cash to satisfy usual levels of demand.

The Sub-Funds avoid entering into derivative contractual arrangements that produce an exposure not covered by sufficient liquid assets or a total investment exposure in excess of total Unitholders' funds. The risk management guidelines adopted by the Manager require coverage to be composed of cash reserves or physical securities.

Concentration Risk

Certain Sub-Funds may have a concentrated Unitholder base where large institutional type Unitholders hold a significant portion of the net assets of a Sub-Fund. This exposes other Unitholders in the Sub-Fund to certain risks. These risks include the risk that a large portion of the assets of a Sub-Fund may be redeemed on any day which could impact the overall viability of the Sub-Fund or could impact the ability of other Unitholders, who have not submitted redemption requests on that day, to redeem from the Sub-Fund.

(d) **Credit Risk**

Credit risk arises where there exists a possibility that a loss may occur from the failure of another party to perform according to the terms of a contract. Each Sub-Fund will have credit exposure to counterparties by virtue of investment positions in bonds, swaps, options, repurchase transactions and forward exchange rate and other contracts held by the Sub-Fund.

To the extent that a counterparty defaults on its obligation and the Sub-Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. A Sub-Fund's exposure to any one counterparty in respect of any of the techniques or instruments employed by the Sub-Fund for the purpose of efficient portfolio management or for protection against exchange risks may not exceed 5% of the Net Asset Value of the Sub-Fund. This limit is raised to 10% of the Net Asset Value of the Sub-Fund where the counterparty is a credit institution that falls into certain categories as outlined in the UCITS Regulations. Please see the categories below:

- i) a credit institution authorised in the European Economic Area (EEA) (European Union Member States, Norway, Iceland, Liechtenstein);
- ii) a credit institution authorised within a signatory state, other than a Member State of the EEA, to the Basel Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States);
- iii) a credit institution authorised in United Kingdom, Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

Credit risk also arises when the Sub-Fund holds cash or deposits with a credit institution or the Trustee; credit risk crystallises when the counterparty fails to repay the amount as required. According to UCITS Regulations, a Sub-Fund may not invest more than 20% of its net assets in deposits made with the same credit institution. Deposits made with any one credit institution that is not included in the above mentioned categories must not exceed 10% of net assets.

Where necessary, a Sub-Fund will accept collateral from its counterparties in order to reduce counterparty risk exposure generated through the use of over the counter FDIs and efficient portfolio management techniques. Any collateral received by a Sub-Fund shall comprise of cash collateral and/or government backed securities of varying maturity which satisfy the requirements of the Central Bank of Ireland relating to non-cash collateral which may be received by a UCITS.

Any cash collateral received will not be reinvested and all collateral received by a Sub-Fund on a title transfer basis shall be held by the Trustee. For other types of collateral arrangements, the collateral may be held with a third party custodian which is subject to prudential supervision and which is unrelated to the collateral provider.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 16 – Risks Associated with Financial Instruments (continued)

(d) Credit Risk (continued)

Collateral received, other than cash, will be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received will be issued by an entity that is independent from the counterparty and is not expected to display a high correlation with the performance of the counterparty. Collateral will be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the relevant Sub-Fund's Net Asset Value. If a Sub-Fund is exposed to different counterparties, the different baskets of collateral will be aggregated to calculate the 20% limit of exposure to a single issuer. Furthermore, a Sub-Fund may be fully collateralised in different transferable securities and Money Market Instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member State belongs. In this instance, the relevant Sub-Fund will receive securities from at least 6 different issues, but securities from any single issue will not account for more than 30% of the relevant Sub-Fund's Net Asset Value.

The level of collateral required to be posted may vary by counterparty with which a Sub-Fund trades and shall be in accordance with the requirements of the Central Bank of Ireland. The haircut policy applied to posted collateral will be negotiated on a counterparty basis and will vary depending on the class of asset received by the Sub-Fund, taking into account the characteristics of the assets received as collateral such as the credit standing or the price volatility and the outcome of any liquidity stress testing policy.

As at June 30, 2023, RBC Investor Services Bank S.A., Dublin Branch has a long-term credit rating of AA- with S&P (as at December 31, 2022: AA- with S&P).

As at June 30, 2023 and December 31, 2022 financial assets exposed to credit risk included financial derivative instruments as disclosed in Notes 12 to 15, as well as cash and cash equivalents, cash collateral held/due to brokers and margin cash receivable/payable as disclosed in Note 10. Details on the valuation of financial derivative instruments are disclosed in Note 16. The carrying amounts of these financial assets represent the maximum credit risk exposure at the reporting date. Details of collateral accepted in respect of securities lending are outlined in Note 19.

(e) Custody and Title Risk

The duties of the Trustee are to provide safekeeping, oversight and asset verification services in respect of the assets of the Fund and each Sub-Fund in accordance with the provisions of the UCITS Regulations. The Trustee will also provide cash monitoring services in respect of each Sub-Funds' cash flows and subscriptions.

The Trustee will be liable to the relevant Sub-Fund and its Unitholders for loss of a financial instrument held in custody (i.e. those assets which are required to be held in custody pursuant to the UCITS Regulations) or in the custody of any sub-custodian appointed by the Trustee. However the Trustee shall not be liable for the loss of a financial instrument held in custody by the Trustee or any sub-custodian if it can prove that loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Trustee shall also be liable to the relevant Sub-Fund and its Unitholders for all other losses suffered by them as a result of the Trustee's negligent or intentional failure to properly fulfil its obligations under the UCITS Regulations.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Sub-Fund. Therefore, in such jurisdictions, there is a risk that, if a sub-custodian becomes bankrupt or insolvent, the Sub-Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Sub-Fund.

In those jurisdictions where the Sub-Fund's beneficial ownership of its assets is ultimately recognised, the Sub-Fund may suffer delay and cost in recovering those assets. The Sub-Funds may invest in markets where custodial and/or settlement systems are not fully developed, such as Russia and Argentina, the assets of a Sub-Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk. When the Trustee employs a sub-custodian, the Trustee retains responsibility for the assets of the Sub-Funds.

(f) Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Sub-Funds may invest in interest bearing securities, which may in particular be exposed to interest rate risk.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 16 – Risks Associated with Financial Instruments (continued)

(g) Fair Value of Financial Assets and Financial Liabilities

All of the financial assets and financial liabilities of the Sub-Funds are stated at fair value in the financial statements.

(h) Emerging Markets Risk

Due to the developing nature of the countries in which the Sub-Funds may invest, their markets are similarly of a developing nature. Accordingly, these markets may be insufficiently liquid and levels of volatility in price movements may be greater than those experienced in more developed economies and markets. In addition, reporting standards and market practices may not provide the same degree of information as would generally apply internationally and therefore may increase risk. In addition, an issuer may default on payments and such circumstances could mean that investors may not receive back on redemption or otherwise the amount originally invested.

As the Sub-Funds may invest in markets where custodial and/or settlement systems are not fully developed, the assets of the Sub-Funds which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk. When the Trustee employs a sub-custodian, the Trustee retains responsibility for the assets of the Sub-Funds.

(i) Default Risk

Certain Sub-Funds may invest in securities which have low credit status (be they rated or unrated) and may therefore be exposed to a higher credit risk than Sub-Funds which do not invest in such securities. The lower ratings of certain securities held by a Sub-Fund and the unrated nature of others reflect a greater possibility that adverse changes in the financial condition of the issuer, or in general economic conditions, or both, or an unanticipated rise in interest rates, may impair the ability of the issuer to make payments of interest and principal. Such securities carry a higher degree of default risk which may affect the capital value of an investment.

(j) Securities Lending Risk

Certain Sub-Funds may engage in securities lending activities. As with any extensions of credit, there are risks of delay and recovery. Should the borrower of securities fail financially or default in any of its obligations under any securities lending transaction, the collateral will be called upon. The value of the collateral will be maintained to exceed the value of the securities transferred. In the event of a sudden market movement, there is a risk that the value of the collateral may fall below the value of the securities transferred. For details on securities lending please see Note 19.

(k) Performance Fee Risk

Where a performance fee is payable by a Sub-Fund, this will be based on net realised and net unrealised gains and losses as at the end of each performance period. As a result, performance fees may be paid on unrealised gains which may subsequently never be realised.

In addition, the payment of the performance fee to the Manager based on the performance of the Sub-Fund may provide the Manager with an incentive to cause the Sub-Fund to make more speculative investments than might otherwise be the case. The Manager will have discretion as to the timing and the terms of the Sub-Fund's transactions in investments and may therefore have an incentive to arrange such transactions to maximise its fees. Please see Note 8 for details on performance fees.

(l) Futures and Options Risk

The Manager may engage in various portfolio strategies on behalf of the Sub-Funds through the use of futures and options. Due to the nature of futures, cash to meet margin monies will be held by a broker with whom each Sub-Fund has an open position. In the event of the insolvency or bankruptcy of the broker, there can be no guarantee that such monies will be returned to each Sub-Fund. On execution of an option, the Sub-Funds may pay a premium to counterparty. In the event of the insolvency or bankruptcy of the counterparty, the option premium may be lost in addition to any unrealised gains where the contract is in the money.

(m) Counterparty Risk

Each Sub-Fund will have credit exposure to counterparties by virtue of investment positions in swaps, options, repurchase transactions and forward exchange rate and other contracts held by the Sub-Fund. To the extent that a counterparty defaults on its obligation and the Sub-Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights.

Note 16 – Risks Associated with Financial Instruments (continued)

(n) Pandemic Risk

With globalisation, urbanisation and environmental change, infectious disease outbreaks and epidemics have become global threats requiring a collective response.

In addition to the substantial burden on healthcare systems, a pandemic has major economic consequences for the affected countries. Pandemics are currently a risk factor for all industries. They cause material risks with the potential to affect all lines of investments through impacts on financial markets and business disruption. The impacts may be both direct and indirect, for example supply chain disruption, new ways of working and changes in customer behaviours. Additionally, market risk and heightened volatility arise due to the macroeconomic impact of rolling lockdowns.

(o) Country Risk

The risk that economic, social, and political conditions and events in a foreign country will affect the current or projected value of a Sub-Fund. Country risk can reduce the expected return of financial instruments being issued within such countries, or by companies doing business or holding exposure in such countries.

While protection against some country risks like hedging is available, others risks stemming from political instability and war have the potential to have catastrophic risks on the relevant Sub-Fund.

It is important to note that the Sub-Funds are susceptible to a variety of additional risks in addition to those described above. For further information and a non-exhaustive description of risk factors refer to the Prospectus of the Fund in the section entitled 'Risk Factors'.

The Fund has employed the use of income equalisation. This is an accounting practice which is used to apportion income on a per-unit-basis which consequently seeks to mitigate the impact of Unitholder activity (in the form of subscriptions and redemptions) on the level of income yield and therefore on income distributions.

Note 22 – Related Party Transactions

FRS 102 Section 33 ‘Related Party Disclosures’ requires the disclosure of information relating to material transactions with parties who are deemed to be related to the reporting entity.

Mediolanum International Funds Limited is considered to be a related party. Ukraine War Impact

Inflation remains the key focus of investors as central banks try to deal with the high levels that emerged post COVID-19 and was amplified by the war in Ukraine. This, of course resulted in central banks raising interest rates aggressively and caused significant volatility in equity and bond markets last year due to concerns that higher rates may result in an economic downturn.

Today inflation is on a downward trajectory, but the direction of the global economy is still largely dependent on successfully reducing inflation. Despite significant interest rate hikes over the past two years, inflation rates remain above central banks' target of 2%, and some additional monetary policy tightening is expected in the United States, Eurozone, and the United Kingdom.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)

Note 25 – Significant Events that Took Place During the Financial Period (continued)

Ukraine War Impact (continued)

Central banks have a difficult task of trying to prevent inflation from becoming entrenched, while avoiding economic stress. The longer high inflation persists, the more likely that households adjust to it and the stickier it becomes.

In a worst-case scenario, another inflation surge could lead to a contraction of the global economy and further market losses. Therefore, it is important for policymakers to closely monitor the situation and, if required, take action to ensure stability and prevent another economic downturn. This could include measures to safeguard the stability of the financial system, support businesses and workers, and promote sustainable growth.

Encouragingly the global economy has weathered the surge in inflation relatively well so far, as high household savings from the pandemic and strong pent-up demand have maintained economic growth.

The Board of Directors of the Manager regards these events for the Fund and its Sub-Funds as non-adjusting events after the reporting period. Although neither the Fund's nor its Sub-Funds' going concern status, nor operations, at the date of this report, have been significantly impacted by the above, the Board of Directors of the Manager continues to monitor the evolving situation and its impact on the financial position of the Fund and of their Sub-Funds.

In this environment there could potentially be an adverse impact on the value of the Fund's investments and the ability of the Manager to access markets or implement the Fund's investment policy in the manner originally contemplated. Government interventions or other limitations or bans introduced by regulatory authorities or exchanges and trading venues as temporary measures in light of significant market volatility, may also negatively impact on the Manager's ability to implement the Fund's investment policy. Russian securities under sanction which have been marked down by the Manager are identified within the "Schedule of Investments" section related to each Sub-Fund. The Fund's access to liquidity could also be impaired in circumstances where the need for liquidity to meet redemption requests may rise significantly.

There were no other subsequent events which require disclosure in the condensed financial statements.

APPENDIX – Additional Information

1) Securities Financing Transactions Regulation Disclosures

i) Securities Lending

A Sub-Fund may utilise stocklending agreements. In such transaction the Sub-Fund may temporarily transfer its securities to a borrower, with agreement by the borrower to return equivalent securities to the Sub-Fund at pre-agreed time. In entering into such transactions the Sub-Fund will endeavour to increase the returns on its portfolio of securities by receiving a fee for making its securities available to the borrower.

In the context of stocklending arrangements, after deduction of such other relevant amounts as may be payable under the relevant securities lending authorisation agreement, all proceeds collected on fee income arising off the securities lending programme shall be allocated between the relevant Sub-Fund and the Securities Lending Agent in such proportions (plus VAT, if any) as may be agreed in writing from time to time and disclosed in the annual report of the Fund. All costs or expenses arising in connection with the securities lending programme, including the fees of the Trustee, should be borne by the relevant Sub-Fund, the Securities Lending Agent and any sub-agent appointed by the Securities Lending Agent in such proportions as may be agreed in writing from time to time and disclosed in the annual report of the Fund.

There are securities lending agreements in place for CHALLENGE North American Equity Fund, CHALLENGE European Equity Fund, CHALLENGE Italian Equity Fund, CHALLENGE Germany Equity Fund, CHALLENGE Spain Equity Fund, CHALLENGE Pacific Equity Fund, CHALLENGE Emerging Markets Equity Fund, CHALLENGE Energy Equity Evolution, CHALLENGE Industrials and Materials Equity Evolution, CHALLENGE Healthcare Equity Evolution, CHALLENGE Financial Equity Evolution, CHALLENGE Technology Equity Evolution, CHALLENGE Euro Income Fund, CHALLENGE International Income Fund, CHALLENGE Euro Bond Fund, CHALLENGE International Bond Fund, CHALLENGE International Equity Fund, CHALLENGE Solidity & Return, CHALLENGE Provident Fund 1, CHALLENGE Provident Fund 2, CHALLENGE Provident Fund 3 and CHALLENGE Provident Fund 5.

2) Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorised party to gain access to assets of the Sub-Funds, Unitholder data, or proprietary information, or may cause the Fund, the Manager, the Delegate Investment Managers, the Distributors, the Paying Agents, the Administrator or the Trustee to suffer data corruption or lose operational functionality.

The Fund may be affected by intentional cybersecurity breaches which include unauthorised access to systems, networks, or devices (such as through “hacking” activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Unitholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Fund, the Manager, the Distributors, the Administrator, the Trustee, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Unitholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Sub-Fund invests, and thereby cause a Sub-Fund’s investments to lose value, as a result of which investors, including the relevant Sub-Fund and its Unitholders, could potentially lose all or a portion of their investment with that issuer.

Comprehensive enterprise technology solutions are in place to protect from multiple different types of cyber threat, external or internal. We leverage next generation firewalls with IPS/IDS, Layer 7 Web application firewalls, Intelligent Antivirus and Antimalware with proactive threat response. All our security metrics are ingested into our SIEM (Security Information and Event Management) solution, which is constantly monitored by dedicated security professionals. Mediolanum International Funds Limited also have independent certification validating our security posture with ISO 27001, the international standard on information security management.

3) Fund Distributions

The Prospectus of the Fund states: “Where the amount of any distribution payable to an individual “B” Unitholder is between Euro 0.05 and Euro 5, that amount shall not be distributed but shall be automatically reinvested in the relevant Class of Units. Where the distribution payable is below Euro 0.05, that amount shall not be distributed but shall be retained and reinvested within and for the benefit of the relevant Sub-Fund”.

During 2021 the Manager reinvested for the benefit of individual “B” Unitholders distribution amounts between Euro 0.05 and Euro 5. Distributions below Euro 0.05 were not be reinvested on behalf of individual “B” Unitholders but were retained and reinvested within and for the benefit of the relevant Sub-Fund.

APPENDIX – Additional Information (continued)

4) Mediolanum International Funds Ltd - CRS Data Protection Information Notice

The Fund hereby provides the following data protection information notice to all Unitholders in the Fund either as at 31 December 2015 or at any point of time since this date.

For the avoidance of doubt, this notice applies equally to any Unitholders that have ceased to hold units in the Fund since January 1, 2016. Furthermore, it should be noted that this notice may be applicable to Controlling Persons of certain Unitholders.

The Fund hereby confirm that they intend to take such steps as may be required to satisfy any obligations imposed by (i) the OECD's Standard for Automatic Exchange of Financial Account Information in Tax Matters ("the Standard"), which therein contains the Common Reporting Standard ("CRS"), as applied in Ireland by means of the relevant international legal framework and Irish tax legislation and (ii) EU Council Directive 2014/107/EU, amending Directive 2011/16/EU as regards mandatory automatic exchange information in the field of taxation ("DAC2"), as applied in Ireland by means of the relevant Irish tax legislation, so as to ensure compliance or deemed compliance (as the case may be) with the Standard/CRS and the DAC2 from 1 January 2016.

In this regard, the Manager on behalf of the Fund is obliged under Section 891F and Section 891G of the Irish Taxes Consolidation Act, 1997 (as amended) and regulations made pursuant to those sections to collect certain information about each Unitholder's tax arrangements (and also collect information in relation to relevant Controlling Persons of specific Unitholders).

In certain circumstances, the Manager on behalf of the Fund may be legally obliged to share this information and other financial information with respect to a Unitholder's interests in the Fund with the Irish Revenue Commissioners (and, in particular situations, also share information in relation to relevant Controlling Persons of specific Unitholders). In turn, and to the extent the account has been identified as a Reportable Account, the Irish Revenue Commissioners will exchange this information with the country of residence of the Reportable Person(s) in respect of that Reportable Account.

In particular, information that may be reported in respect of a Unitholder (and relevant Controlling Persons, if applicable) includes name, address, date of birth, place of birth, account number, account balance or value at year end (or, if the account was closed during such year, the balance or value at the date of closure of the account), any payments (including redemption and dividend/interest payments) made with respect to the account during the calendar year, tax residency(ies) and tax identification number(s).

Unitholders (and relevant Controlling Persons) can obtain more information on the Fund's tax reporting obligations on the website of the Irish Revenue Commissioners (which is available at <http://www.revenue.ie/en/business/aeoi/index.html>) or the following link in the case of CRS only: <http://www.oecd.org/tax/automatic-exchange/>.

All capitalised terms above, unless otherwise defined above, shall have the same meaning as they have in the Standard or DAC2 (as applicable).

5) Sustainable Finance Disclosure Regulation and Taxonomy disclosures

The Sub-Funds do not promote environmental or social characteristics, and do not have as objective sustainable investment (as provided by articles 8 or 9 of Sustainable Finance Disclosure Regulation ("SFDR")). The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities (article 7 TR).

Unless a Sub-Fund promotes environmental or social characteristics, or have as its objective sustainable investment, the underlying investments do not take into account the EU criteria for environmentally sustainable economic activities. Accordingly, the minimum share of investments in environmentally sustainable economic activities aligned with the EU Taxonomy including in transitional and/or enabling activities is deemed to be 0%.

If a Sub-Fund promotes environmental or social characteristics, or have as its objective sustainable investment, it may invest/gain exposure to issuers who engage in economic activities which contribute to climate change mitigation/climate change adaptation under the Taxonomy Regulation. In such cases, additional information in relation to Taxonomy Regulations can be found in the Sub-Funds' Periodic Annex disclosures.
