INVESTMENT MANAGER'S REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

Investment Manager's Report, Full Year 2023

After a turbulent 2022, risk assets and fixed income recovered to produce strong returns in 2023. Whilst global bond yields reached multi-year highs during 2023, they stabilised and retreated somewhat later in the year. Risk assets generally performed well with credit spreads tightening and strong equity returns. In particular, the S&P500 index rallied over 24% during the year.

Central banks globally continued their relentless rate hiking cycle through the first half of the year as inflation remained high and labour market figures surprised to the upside. Attention in the first half of the year turned to the stability of financial markets in the wake of the Silicon Valley Bank (SVB) collapse. This led to further stress across the United States regional banks, before drifting across to Europe where Credit Suisse came under intense pressure and then being acquired by Union Bank of Switzerland (UBS) in a deal brokered by the Swiss government.

In the second half of the year, inflationary pressures moderated and central banks globally turned more dovish with a majority pausing rate hikes. The United States economy gravitated toward a "soft landing" as inflation eased substantially whilst the labour market remained healthy with the unemployment rate ending the year at 3.7%.

The European economic picture began to show signs of divergence from that of the United States over the year as growth remained sluggish with eurozone GDP entering contractionary territory. Whilst inflation continued to fall towards the ECB's 2% target at 2.9%, ECB rhetoric remained hawkish with latest forecasts estimating stickier inflation than in the United States. Following the Fed's lead, the Bank of England and the ECB left rates unchanged at 5.25% and 4%, respectively in their last meetings of the year. However, commentaries from both banks were decidedly less dovish than the Fed's, and in the United Kingdom, a third of the policy committee voted in favour of a further hike.

Emerging market economies were well positioned to handle sticky inflation after aggressively hiking rates in 2022. In particular, many emerging market central banks hiked rates ahead of their developed market counterparts. These actions helped to alleviate high inflation figures in many emerging market economies, which put several in a position to begin cutting rates in the latter half of 2023. Emerging market debt performed strongly during the year, especially as fixed income assets responded favourably to lower inflation readings and more dovish Fed rhetoric at the end of the year. Latin America outperformed relative to other regions given its stronger economic position and commodity exports.

Towards the end of the year in the United States, the combination of better inflation prints, a resilient economy, strong labour markets and dovish Fed rhetoric paved the way for a broad market rally as sentiment turned positive. Against this backdrop, 10-year United States Treasury and United Kingdom Gilt yields ended the year at 3.88% and 3.54% respectively after falling sharply from their peak. Meanwhile, 10-year German Bund yields similarly decreased 97 bps from their earlier peaks to end the year at 2%.

The global economy has overall fared better in 2023 relative to market expectations at the beginning of the year. However, the regional divergences that have emerged in the recent months with the resilience of the United States economy contrasting with signs of economic slowdown in other parts of the world like the euro-area, the United Kingdom or China, will be of key focus going forward.

*** Launched 6 October 2023, returns for share class and benchmark through this date.

**** Launched 7 November 2023, returns for share class and benchmark through this date.

***** Launched 15 August 2023, returns for share class and benchmark through this date.

The Fund's US Dollar share class had a return of 5.64% during the year.

Yields continued to move higher in the first half of 2023, before starting to reverse this trend late in the year as major central banks paused rate hikes in the face of falling inflation. Likewise, recession fears supported demand for longer duration bonds early in the year, with yield curves inverting further before seeing a sharp steepening of the curve as the growth outlook improved. Given lower starting yields, European bonds generally performed worse than other developed markets. Whilst recessionary concerns created some volatility in credit markets, wider credit spreads at the beginning of the year along with positive economic growth surprises led credit sectors to outperform government bonds with lower rated credits generally outperforming. In emerging market debt, favourable market technicals and a supportive tone in credit markets helped the sector outperform US Treasury bonds. In this environment, the Fund experienced positive returns for the year.

As global bond yields reached their peaks during the year before driving lower, the Fund's US Dollar share class yield decreased from 7.59% at the beginning of the year to 7.28% at the end of December. Meanwhile, the Fund actively reduced duration from 1.94 years at the beginning of the year to zero at the end of December. The average credit quality increased modestly from BBB- to BBB+ as we positioned the Fund for a more challenging credit market environment.

The Fund actively managed its credit allocation to take advantage of market volatility and rotated allocations into issuers and industries which are better positioned to withstand a period of slower growth. In particular, the Fund favoured industries and corporate issuers that are expected to be able to maintain profitability despite higher funding rates and sticky inflationary pressures. Within the securitised sector, the Fund adopted a more cautious stance reducing its exposure to sectors that are more vulnerable in a higher yield environment such as real estate.

*** Re-launched 10 March 2023, returns for share class and benchmark through this date.

The Fund's US Dollar share class had a return of 6.06% during the period.

Yields continued to move higher in the first half of 2023, before starting to reverse this trend late in the year as major central banks paused rate hikes in the face of falling inflation. Likewise, recession fears supported demand for longer duration bonds early in the year, with yield curves inverting further before seeing a sharp steepening of the curve as the growth outlook improved. Given lower starting yields, European bonds generally performed worse than other developed markets. Whilst recessionary concerns created some volatility in credit markets, wider credit spreads at the beginning of the year along with positive economic growth surprises led credit sectors to outperform government bonds with lower rated credits generally outperforming. In emerging market debt, favourable market technicals and a supportive tone in credit markets helped the sector outperform US Treasury bonds. In this environment, the Fund experienced positive returns for the year.

As global bond yields reached their peaks during the year before driving lower, the Fund's US Dollar share class yield decreased from 5.47% at the beginning of the year to 4.78% at the end of December. Meanwhile, the Fund's duration profile decreased duration from 6.04 years at the beginning of the year to 5.91 years at the end of December, whilst the average credit quality remained at AA.

The Fund actively managed its credit allocation to take advantage of market volatility and rotate allocations into issuers and industries which are better positioned to withstand a period of slower growth. In particular, the Fund favoured industries and corporate issuers that are expected to be able to maintain profitability despite higher funding rates and sticky inflationary pressures. Within the securitised sector, the Fund adopted a more cautious stance reducing its exposure to sectors that are more vulnerable in a higher yield environment such as real estate.

US Dollar Class	11.74%	11.59%

* The base currency of the Fund is the US Dollar. Unless otherwise stated, all other share classes are currency hedged at the NAV level (100% versus US Dollar, with the exception of the Swiss Franc share class, which hedges only the benchmark hard currency 70%).

** 70% JPMorgan EMBI Global Diversified Bond Index / 30% JPMorgan GBI-EM Global Diversified Index (USD unhedged).

The Fund's US Dollar share class had a return of 11.74% during the year.

Yields continued to move higher in the first half of 2023, before starting to reverse this trend late in the year as major central banks paused rate hikes in the face of falling inflation. Likewise, recession fears supported demand for longer duration bonds early in the year, with yield curves inverting further before seeing a sharp steepening of the curve as the growth outlook improved. Whilst recessionary concerns created some volatility in credit markets, wider credit spreads at the beginning of the year along with positive economic growth surprises led credit sectors to outperform government bonds with lower rated names generally outperforming. Favourable market technicals helped emerging market sovereign and corporate bonds outperform US Treasury bonds. In this environment, the Fund experienced positive returns for the year.

As global bond yields reached their peaks during the year before driving lower, the Fund's US Dollar share class yield decreased from 9.21% at the beginning of the year to 8.43% at the end of December. With the belief that central banks are past terminal rates, and that market focus on inflation and growth will become more balanced, the Fund marginally increased duration from 6.07 years at the beginning of the year to 6.39 years at the end of December. The average credit quality increased modestly from BB+ to BBB-.

In core Emerging Market countries, we focus on those with a more stable socio-political backdrop, healthy local financing channels, and a reform-oriented economic framework. In smaller markets, we focus on countries that can access diverse financing sources, including those in good standing with multi/bilateral partners, as well as those with healthy external balances. Finally, the Fund took advantage of opportunities across select emerging market currencies that provide both good yield enhancement as well as currency appreciation potential.

Payden Global Equity Income Fund (the "Fund")

Share Class	Fund (net)	Benchmark*
Sterling Class (Distributing)	6.80%	5.22%
US Dollar Class (Accumulating)	13.18%	11.51%

* MSCI World Value Index (N).

Global developed equities posted a strong year of returns for 2023 on better-than-expected global economic growth and inflation data continuing to normalise. Equity prices ended the year near record highs led by mega-cap technology stocks that surged higher in price on optimism surrounding Artificial Intelligence, which helped overcome concerns of higher interest rates, several bank failures, and heightened geopolitical tension (Middle East/Eastern Europe). From a regional perspective, the United States, Europe, and Japan were among the best performers in dollar terms. All areas posted gains for the year led by growth-oriented sectors (technology, communications, consumer discretionary), whilst energy and more defensive sectors (consumer staples and utilities) were the market laggards.

The US Dollar share class of the Fund returned +13.18% for the year. The Fund maintained a focus on companies with durable cash flows and healthy balance sheets, while continuing to emphasise diversification across countries, sectors, and individual companies. The Fund targeted healthy allocations to technology, communication, and industrial sectors for most of the financial year to better capture companies that we believed were better positioned to withstand the higher interest rate environment due to their better growth prospects and attractive valuations. But as the market tone became more bullish in early November after central banks signaled a potential end to interest rate hikes, the Fund's cyclical exposure (industrials, consumer discretionary, materials) were increased into year-end, and exposures to traditional defensive sectors (health care, utilities) and technology were reduced.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INVESTMENT MANAGER'S REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

(continued)

Payden Global Inflation - Linked Bond Fund (the "Fund")

Share Class*	Fund (net)	Benchmark**
Euro Class (Accumulating)	1.75%	1.81%
Sterling Class (Accumulating)	3.24%	3.32%
Sterling Class (Distributing)	3.25%	3.32%
US Dollar Class (Accumulating)	4.08%	4.32%

* The base currency of the Fund is the US Dollar. Unless otherwise stated, all other share classes are currency hedged at the NAV level.

** Hedged Classes: Bloomberg Barclays World Government Inflation-Linked G7 Bond Index (Hedged) / Unhedged Classes: Bloomberg Barclays World Government Inflation-Linked G7 Bond Index (Unhedged-GBP).

The Fund's US Dollar share class had a return of 4.08% during the year.

Yields continued to move higher in the first half of 2023, before starting to reverse this trend late in the year as major central banks paused rate hikes in the face of falling inflation. Likewise, recession fears supported demand for longer duration bonds early in the year, with yield curves inverting further before seeing a sharp steepening of the curve as the growth outlook improved. Given lower starting yields, European bonds generally performed worse than other developed markets. In this environment, the Fund experienced positive returns for the year.

As global bond yields reached their peaks during the year before driving lower, the Fund's US Dollar share class yield decreased from 4.55% at the beginning of the year to 4.00% at the end of December. The Fund marginally increased duration from 9.48 years at the beginning of the year to 9.73 years at the end of December, whilst the average credit quality remained at AA+.

Payden Global Short Bond Fund (the "Fund")

Share Class*	Fund (net)	Benchmark**
Australian Dollar Class (Accumulating)	3.15%	3.41%
Euro Class (Accumulating)	2.51%	2.79%
Norwegian Krone Class (Accumulating)	3.00%	3.31%
Sterling Class (Accumulating)	4.03%	4.27%
US Dollar Class (Accumulating)	4.64%	4.87%
US Dollar Class (Distributing) Unhedged	4.16%	4.43%

* The base currency of the Fund is the US Dollar. Unless otherwise stated, all other share classes are currency hedged at the NAV level.

** FTSE World Government Bond Index 1-3 year (Currency Hedged for all share classes except the US Dollar Class Distributing which is unhedged).

The Fund's US Dollar share class had a return of 4.64% during the year.

Yields continued to move higher in the first half of 2023, before starting to reverse this trend late in the year as major central banks paused rate hikes in the face of falling inflation. Likewise, recession fears supported demand for longer duration bonds early in the year, with yield curves inverting further before seeing a sharp steepening of the curve as the growth outlook improved. Given lower starting yields, European bonds generally performed worse than other developed markets. Whilst recessionary concerns created some volatility in credit markets, wider credit spread at the beginning of the year along with positive economic growth surprises led credit sectors to outperform government bonds with lower rated credits generally outperforming. In emerging market debt, favourable market technicals and a supportive tone in credit markets helped the sector outperform US Treasury bonds.

As global bond yields reached their peaks during the year before driving lower, the Fund's US Dollar share class yield decreased from 5.91% at the beginning of the year to 5.07% at the end of December. The Fund began and ended the year with a duration profile of 1.8 years, whilst the average credit quality increased modestly from A+ to AA as we positioned the Fund for a more challenging credit market environment.

The Fund actively managed its credit allocation to take advantage of market volatility and rotate allocations into issuers and industries which are better positioned to withstand a period of slower growth. In particular, the Fund favoured industries and corporate issuers that are expected to be able to maintain profitability despite higher funding rates and sticky inflationary pressures. Within the securitised sector, the Fund adopted a more cautious stance reducing its exposure to sectors that are more vulnerable in a higher yield environment such as real estate.

Sterling Class (Distributing)	5.64%	4.78%

* The base currency of the Fund is the Sterling Pound. Unless otherwise stated, all other share classes are currency hedged at the NAV level.

** ICE BofA SONIA Overnight Rate Index.

The Fund's Sterling share classes had a return of 5.64% during the year.

Yields continued to move higher in the first half of 2023, before starting to reverse this trend late in the year as major central banks paused rates in the face of falling inflation. Likewise, recession fears supported demand for longer duration bonds early in the year, with yield curves inverting further before seeing a sharp steepening of the curve as the growth outlook improved. Whilst recessionary concerns created some volatility in credit markets, wider credit spread at the beginning of the year along with positive economic growth surprises led credit sectors to outperform Gilts with lower rated credits generally outperforming. In this environment, the Fund experienced positive returns for the year.

As global bond yields reached their peaks during the year before driving lower, the Fund's yield rose from 4.27% at the beginning of the year to 5.27% at the end of December. The Fund's duration marginally increased from 0.93 years at the beginning of the year to 1 year at the end of December. The average credit quality remained at AAA.

The Fund actively managed its credit allocation to take advantage of market volatility and rotate allocations into issuers and industries which are better positioned to withstand a period of slower growth. In particular, the Fund favoured industries and corporate issuers that are expected to be able to maintain profitability despite higher funding rates and sticky inflationary pressures. Within the securitised sector, the Fund adopted a more cautious stance reducing its exposure to sectors that are more vulnerable in a higher yield environment such as real estate.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT

The Board of Directors of the Company (or the “Directors”) have the pleasure in presenting their Directors’ Report together with the audited financial statements of Payden Global Funds public limited company (the “Company”) for the financial year ended 31 December 2023.

Statement of Directors’ Responsibilities

Irish company law requires the Directors to prepare financial statements for each financial year. Under the law, the Directors have elected to prepare the financial statements in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102). Under Irish company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the Company for the financial year and otherwise comply with the Companies Act 2014.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies for the Financial Statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and Directors’ report comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended (“the UCITS Regulations”) and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (“the Central Bank UCITS Regulations”) (as amended) and the listing rules of Euronext Dublin, and enable the financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to a Depositary for safe keeping. In carrying out this duty, the Company has appointed Brown Brothers Harriman Trustee Services (Ireland) Limited (the “Depositary”) to act as the Depositary of the Company.

Statement of Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- As far as they are aware, there is no relevant audit information of which the Company’s auditor is unaware; and
- They have taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Company’s auditor is aware of that information.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Directors' Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors confirm that a compliance policy document has been drawn up that sets out policies, that in their opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations, appropriate arrangements or structures are in place that are, in their opinion, designed to secure material compliance with the Company's relevant obligations and during the financial year, the arrangements or structures referred to above have been reviewed. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Principal Activities

The Company is an umbrella fund with segregated liability between its sub-funds (individually referred to as the "Fund" and collectively as the "Funds") and was incorporated as an investment company on 1 July 1999 under the laws of Ireland as Payden & Rygel Global Funds public limited company. The Company changed its name on 14 December 2005. The Company is an investment company with variable capital. Shares in each of the Funds of the Company (other than those not yet funded), have been admitted to listing on the Official List and to trading on the Main Securities Market of Euronext Dublin. The Company is authorised in Ireland by the Central Bank of Ireland (the "Central Bank") as an undertaking for collective investment in transferable securities pursuant to the UCITS Regulations.

During the financial year ended 31 December 2023, and as at financial year ended 31 December 2023, the Company had 14 Funds (distributed in Switzerland among other jurisdictions) in which shares were funded. These are as follows:

Payden Absolute Return Bond Fund
Payden Global Aggregate Bond Fund
Payden Global Bond Fund
Payden Global Emerging Markets Bond Fund
Payden Global Emerging Markets Bond Fund (Hard Currency)
Payden Global Equity Income Fund
Payden Global Government Bond Index Fund
Payden Global High Yield Bond Fund
Payden Global Inflation - Linked Bond Fund
Payden Global Short Bond Fund
Payden Sterling Reserve Fund
Payden US Core Bond Fund
Payden US Dollar Liquidity Fund
Payden USD Low Duration Credit Fund

All shareholders of Payden Euro Liquidity Fund had fully redeemed on 28 March 2022 and this Fund is no longer being offered to investors. As at 12 March 2024, the Central Bank withdrew its approval of Payden Euro Liquidity Fund.

There are two unfunded Funds approved by the Central Bank in the Company namely Payden Global Corporate Bond Fund and Payden US Equity Income Fund.

Payden Absolute Return Bond Fund

The Fund aims to achieve a return of 300 basis points above local currency overnight deposit rates over a 3-year period, while seeking preservation of capital. The Fund invests predominantly in a wide variety of fixed and floating rate investment grade and below investment grade debt instruments and income-producing securities traded on regulated markets worldwide. While the Fund may invest in debt instruments and government securities of issuers located in any geographic region, the Fund may invest a portion of its net asset value in debt instruments and government securities of issuers organised or headquartered in emerging markets.

Payden Euro Liquidity Fund⁽¹⁾

The Fund sought to maximise total return, consistent with the preservation of capital, by investing primarily in a portfolio of investment grade debt securities, both fixed and floating, which included, but was not be limited to, issuers from the United States, Canada, Australia, New Zealand, Europe and Japan.

⁽¹⁾ All shareholders of Payden Euro Liquidity Fund had fully redeemed on 28 March 2022 and this Fund is no longer being offered to investors. As at 12 March 2024, the Central Bank withdrew its approval of this Fund.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Payden Global Aggregate Bond Fund

The Fund seeks to maximise total return by investing primarily in a portfolio of investment grade debt securities, both fixed and floating rate.

Payden Global Bond Fund

The Fund seeks to maximise total return by investing primarily in a portfolio of investment grade debt securities, both fixed and floating rate. The Fund's investments include, but will not be limited to, issuers from the United States, Canada, Australia, New Zealand, EU Member States, the United Kingdom and Japan.

Payden Global Emerging Markets Bond Fund

The Fund seeks to maximise total return by investing in a wide variety of investment grade debt instruments and income-producing securities traded on regulated markets. Investments primarily consist of securities of issuers located in the Emerging Markets of Latin America, Asia and Europe and which are traded out of New York and London. Investments are primarily denominated in US Dollar, Euro and local currencies. The Fund may also invest in such securities denominated in local currency units and traded on regulated markets. For the avoidance of doubt, the Fund can invest in investment grade debt instruments.

Payden Global Emerging Markets Bond Fund (Hard Currency)

The Fund seeks to maximise total return by investing in a wide variety of investment grade debt instruments and income-producing securities traded on regulated markets. Investments primarily consist of securities of issuers located in the Emerging Markets of Latin America, Africa, Asia, the Middle East and Europe. Investments are primarily denominated in US Dollar and other hard currencies which include Sterling, Euro, Canadian Dollar, Australian Dollar and Japanese Yen. The Fund may also invest in securities denominated in local currency units of the relevant Emerging Markets.

Payden Global Equity Income Fund

The Fund seeks to achieve its objective by investing primarily in large capitalisation value equities, i.e. equities with above-average dividend yields and large market capitalisations, and other income-producing equity securities, including preferred equities, real estate investment trusts ("REITs") and master limited partnerships ("MLPs").

Payden Global Government Bond Index Fund

The Fund seeks to track the total return of global developed market government bonds as reflected by the FTSE World Government Bond Index, gross of fees, by investing in a representative sample of bonds. The Fund currently expects to invest primarily in global developed market government debt securities.

Payden Global High Yield Bond Fund

The Fund seeks to maximise total return by investing primarily in high yield, below investment grade debt securities listed or traded on a regulated market in a member state of the Organisation for Economic Cooperation and Development ("OECD") and denominated in a currency of an OECD member state.

Payden Global Inflation - Linked Bond Fund

The Fund seeks to protect investors from a possible rise in inflation by investing in a globally diversified range of investment grade inflation-linked bonds, issued by governments and government agencies in developed countries. The Fund will invest in debt securities issued by the governments and government agencies of the United States, Canada, Australia, New Zealand, EU Member States, the United Kingdom and Japan.

Payden Global Short Bond Fund

The Fund seeks to maximise total return, consistent with the preservation of capital, by investing primarily in a portfolio of global investment grade debt securities, both fixed and floating rate. The Fund invests in securities of any issuer and in any currency.

Payden Sterling Reserve Fund

The Fund seeks to provide capital security, liquidity and a yield in excess of that offered by money market funds and bank deposits by investing in a diversified range of Sterling-denominated, investment grade, fixed and floating rate securities. The Fund invests only in Sterling-denominated, investment grade debt securities.

The intention is to invest the Fund in a way that is consistent with the maintenance of an AAA rating from Fitch or equivalent from other major rating agencies.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Payden US Core Bond Fund

The Fund seeks to maximise total return by investing primarily in a wide variety of investment grade debt securities, both fixed and floating rate, primarily denominated in US Dollars. Investments include, but are not limited to, issuers from the United States, Canada, Australia, New Zealand, EU Member States, the United Kingdom and Japan. The Fund is not limited with respect to the amount of its assets that can be invested in the securities of issuers in any one of the aforementioned countries.

The Fund may also invest to a lesser extent in debt securities of issuers based in other countries including Emerging Markets. The Fund invests in debt securities of any maturity, and there is no limit on the Fund's maximum average portfolio maturity.

Payden US Dollar Liquidity Fund

The Fund seeks to maximise total return, consistent with the preservation of capital, by investing primarily in a portfolio of investment grade debt securities, both fixed and floating rate, denominated in US dollars. The Fund's investments include, but will not be limited to, issuers from the United States, Canada, Australia, New Zealand, Europe and Japan.

Payden USD Low Duration Credit Fund

The Fund seeks to maximise total return by investing primarily in a portfolio of corporate debt securities, both fixed and floating rate, denominated in US Dollars. Investments will include, but not be limited to, debt securities of US issuers and non-US issuers. This may include issuers in emerging market countries. Investments will be primarily denominated in US Dollars; however, investments may be denominated in other currencies, including emerging market currencies.

Review of Business and Future Developments

Both the level of business and the year-end financial position were satisfactory and the Directors expect a consistent level of activity in the future. Please also refer to Note 22 to the financial statements for details of subsequent events since the financial year. The results for the year and the assets, liabilities and financial position of the Company are stated in the Profit and Loss Account on pages 124 to 129 and Balance Sheet on pages 130 to 135. The business of the Company is reviewed in detail in the Investment Manager's Report.

Risk Management Objectives and Policies

The Company's investment activities expose it to various types of risk, which are associated with the financial instruments and markets in which it invests. Details of the risks inherent in investing in the Company are disclosed in Note 15 to the financial statements.

Dividends

The Directors have authorised the payment of dividends during the financial year to shareholders of Payden Absolute Return Bond Fund, Payden Global Bond Fund, Payden Global Emerging Markets Bond Fund, Payden Global Equity Income Fund, Payden Global Government Bond Index Fund, Payden Global High Yield Bond Fund, Payden Global Inflation - Linked Bond Fund, Payden Global Short Bond Fund, Payden Sterling Reserve Fund, Payden US Core Bond and Payden USD Low Duration Credit Fund. The Directors reserve the right to pay dividends or make any other distribution in the future. Please refer to Note 16 for further details of dividend distributions.

Corporate Governance Statement

The Directors have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds ("IF") in December 2011 (the "Code"). The Directors have adopted all corporate governance practices and procedures in the Code with effect from 13 November 2012. The Code is available for inspection at the request of any shareholder from the Administrator free of charge. The Code can be reviewed on the below Central Bank of Ireland web address:

<http://www.centralbank.ie/regulation/Pages/Codes.aspx>.

The European Communities (2006/46 EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010 amending the Companies Act 2014) introduced a requirement for the Directors of all companies with securities admitted to trading on a regulated market to make an annual statement on corporate governance. The statement is required to include commentary on compliance with applicable codes of governance, systems of risk management and internal controls together with other details, including the operation of the Directors and arrangements for shareholders meetings. Pursuant to the Companies Act 2014, the Directors hereby make the following disclosures.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Corporate Governance Statement (continued)

Financial reporting process – description of main features:

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Directors have procedures in place to ensure that all relevant account records are properly maintained and are readily available, including production of annual and interim financial statements. The annual and interim financial statements of the Company are required to be approved by the Directors and filed with the Central Bank. The annual financial statements of the Company are also required to be filed with Euronext Dublin. The annual financial statements are required to be audited by an independent auditor who reports annually to the Directors on their findings.

The Directors have established processes regarding internal control and risk management systems to ensure their effective oversight of the financial reporting process. These include appointing Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") to maintain the books and records of the Company independently of the Investment Manager and the Depositary. The Administrator is authorised and regulated by the Central Bank and complies with the rules imposed by the Central Bank.

The Directors evaluate and discuss significant accounting and reporting issues as the need arises. From time to time the Directors also examine and evaluate the Administrator's financial accounting and reporting routines and monitor and evaluate the independent auditors' performance, qualifications and independence. The Administrator has operating responsibility in respect of its internal controls in relation to the financial reporting process and the Administrator's report to the Directors.

Risk assessment:

The Directors are responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Directors have also put in place processes to identify changes in accounting rules and recommendations and to ensure that these changes are accurately reflected in the Company's financial statements.

Control activities:

The Administrator maintains control structures to manage the risks over financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in financial reporting for every significant account balance in the financial statements and the related notes in the annual report of the Company. Examples of control activities exercised by the Administrator include analytical review procedures, reconciliations and automatic controls in information technology systems.

Information and communication:

The Company's policies and the Directors' instructions with relevance to financial reporting are updated and communicated via appropriate channels, such as e-mail, correspondence and meetings, to ensure that all financial reporting information requirements are met in a complete and accurate manner.

Monitoring:

The Directors receive regular presentations and review reports from the Depositary, the Manager, the Investment Manager and the Administrator. The Directors also have an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the independent auditor.

Capital structure:

No Director has a significant direct or indirect holding of securities in the Company. No Director has any special rights of control over the Company's share capital. There are no restrictions on voting rights. With regard to the appointment and replacement of Directors, the Company is governed by its memorandum and articles of association (the "Articles of Association"), the Companies Act 2014 (the "Companies Act"), the UCITS Regulations and Central Bank UCITS Regulations, and the Listing Rules of Euronext Dublin as applicable to investment funds. The Articles of Association themselves may be amended by special resolution of the shareholders.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Corporate Governance Statement (continued)

Power of the Directors:

The Directors are responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Administrator and other parties, subject to the supervision and direction by the Directors. Waystone Management Company (IE) Limited has been appointed as manager of the Company pursuant to the Management Agreement with responsibility for the investment management, distribution and administration services of the Company with power to delegate such functions subject to the overall supervision and control of the Directors. The Manager has delegated the day-to-day administration of the Company to the Administrator, and the investment management and distribution functions to the Investment Manager.

The Directors may, in consultation with the Manager, at any time, temporarily suspend the calculation of the net asset value of a particular Fund and the issue, repurchase and conversion of shares in certain instances more particularly described in the Company's prospectus.

Shares may be transferred by instrument in writing in a form approved by the Directors and with the prior written consent of the Company.

Shareholder meetings:

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting. Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a shareholders' meeting. Not less than twenty one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen clear days' notice must be given in the case of any other general meeting unless the auditor of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

The annual general meeting of the Company is held in Ireland. Notice convening the annual general meeting each year at which the audited financial statements of the Company will be presented together with the Directors' and Auditor's Reports will be sent to the shareholders at their registered addresses.

Two shareholders present either in person or by proxy constitutes a quorum at a general meeting. Every shareholder present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll every shareholder is entitled to one vote in respect of each share held by him. The chairman of a general meeting of the Company or at least two members present in person or by proxy or any shareholder or shareholders present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to adopt an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company or of the shareholders of a particular Fund or class requires a simple majority of the votes cast by the shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the shareholders of a particular Fund or class requires a majority of not less than 75% of the shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Any resolution to alter the class rights of the shares requires the approval of 75% of the holders of the shares represented or present and voting at a general meeting of the class. The quorum for any general meeting of the class convened to consider any alteration to the class rights of the shares shall be such number of shareholders being two or more persons holding shares issued of at least one third of the shares in that class.

Each of the shares other than subscriber shares entitles the shareholder to participate equally on a pro-rata basis in the dividends and net assets of the Fund in respect of which the shares have been issued. Subscriber shares entitle the shareholders holding them to attend and vote at all general meetings of the Company but do not entitle holders to participate in the dividends or net assets of a Fund.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Corporate Governance Statement (continued)

Composition and operation of the Directors and Committees:

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. There are six Directors as of 31 December 2023, two of whom are independent of the Investment Manager.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Act or by the Articles of Association of the Company required to be exercised by the Company in a general meeting. A Director may, and the company secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The Directors meet at least quarterly. There are currently no sub-committees of the Board of the Directors.

Each Director has signed a letter of engagement in respect of their appointment as requested by the Corporate Governance Code. The Articles of Association do not provide for retirement of Directors by rotation. The Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Companies Act.

Diversity Report:

Appointments to the Board of Directors are made on merit with due regard to the requirements of the Central Bank of Ireland and IF Code in relation to, inter alia, the composition, independence, skills, experience, fitness and probity of the Directors. In respect of future appointments, it will also be the policy of the Directors to take into consideration the benefits of diversity (including age, gender, educational and professional backgrounds and other diversity factors) during the selection and appointment process. The Directors remain committed to appointing candidates with the most suitable range of skills and experience, taking into consideration diversity, and no formal diversity objectives or targets have been set against which to report.

Non-executive Directors

The Directors who held office during the financial year under review were:

Joan A. Payden (American)
Peter Blessing (Irish)* resigned on 25 April 2023
Robin Creswell (British)
Mary Beth Syal (American)
Erinn King (Canadian) resigned on 31 March 2023
Nigel Jenkins (British)
Carol Mahon (Irish)*
Hazel O'Flynn (Irish)* appointed on 22 March 2023

**Independent directors*

Directors' Interests

Other than as disclosed in Note 18 to the financial statements, the Directors are not aware of any shareholding in the Company by any Director, Secretary or their families at any time during the financial years ended 31 December 2023 and 31 December 2022.

Transactions Involving Directors

There were no contracts or arrangements of any significance in relation to the business of the Company in which the Directors had any interest as defined in the Companies Act 2014 at any time during the financial year ended 31 December 2023, except as disclosed in Note 18.

Results

The results for the financial year are set out in the Profit and Loss Account on pages 124 to 129.

Significant events during the year

Please refer to Note 21 for details of significant events during the financial year.

Subsequent events

Please refer to Note 22 for details of subsequent events since the financial year.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

DIRECTORS' REPORT (continued)

Adequate accounting records

The Directors have employed the Administrator to ensure appropriate accounting systems and accounting books and records are in place and ensure compliance with Sections 281 to 285 of the Companies Act 2014 in respect of the requirement to keep adequate accounting records. The Company's accounting records are kept by Brown Brothers Harriman Fund Administration Services (Ireland) Limited at 30 Herbert Street, D02 W329, Ireland.

Independent Auditor

The auditors, Grant Thornton, Chartered Accountants and Statutory Audit Firm, have expressed their willingness to continue in office and therefore will be re-appointed in accordance with Section 383(2) of the Companies Act 2014.

Audit Committee

During the financial year ended 31 December 2023 the Company did not have an audit committee in place. The Directors have decided not to establish an audit committee as this was deemed most appropriate to the Company's structure as a UCITS fund and the nature, scale and complexity of the Company's operations at this time.

Signed on behalf of the Board of Directors

Robin Creswell

Hazel O'Flynn

23 April 2024

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Payden Global Funds plc (the “Company”) for the financial year ended 31 December 2023, in our capacity as Depositary to the Company.

This report including this opinion has been prepared for and solely for the shareholders of the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the “UCITS Regulations”), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association and the UCITS Regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (“the Central Bank UCITS Regulations”); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Payden Global Funds Public Limited Company (or the “Company”), which comprise the Balance Sheet and Schedule of Investments as at 31 December 2023 and the Profit and Loss Account and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the financial year then ended, and the related notes to the financial statements, including the summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and FRS 102 accounting standards issued by the Financial Reporting Council including FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (Generally Accepted Accounting Practice in Ireland).

In our opinion, the Company’s financial statements:

- give a true and fair view in accordance with Generally Accepted Accounting Practice in Ireland of the assets, liabilities and financial position of the Company as at 31 December 2023 and of its financial performance or the financial year then ended; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (or “ISAs (Ireland)”) and applicable law. Our responsibilities under those standards are further described in the ‘Responsibilities of the auditor for the audit of the financial statements’ section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (or “IAASA”), and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the entity. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Board of Directors (or the “Directors”) use of going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the Directors’ assessment of the Company’s ability to continue as a going concern basis of accounting included:

- Obtaining an understanding of the Company’s going concern assessment including obtaining and reviewing the Directors’ formal assessment covering a period of at least twelve months from the date of the approval of financial statements.
- Reviewing and evaluating the reasonableness of the key factors considered by the Directors in making their assessment of going concern including consideration of future capital activity in the Company and the availability of liquid assets to meet ongoing operational costs. In assessing these, we obtained and reviewed the liquidity terms of each sub-fund offers to investors together with reviewing post year-end capital activity and corroborated through enquiry with the Investment Manager as to whether there are any subsequent events, including performance, that might give rise to conditions which could lead the Directors to discontinue the operations of the Company.
- Assessing the adequacy of the disclosures made in the financial statements with respect to the going concern assumption.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY (continued)

Conclusions relating to going concern (continued)

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and the directing of efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and therefore we do not provide a separate opinion on these matters.

Overall audit strategy

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we looked at where the Directors made subjective judgements, for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. We also addressed the risk of management override of internal controls, including evaluating whether there was any evidence of potential bias that could result in a risk of material misstatement due to fraud.

Based on our considerations as set out below, our areas of focus included the valuation of financial assets and financial liabilities at fair value through profit or loss.

How we tailored the audit scope

The Company is an open-ended investment company with variable capital and organised under the laws of Ireland as a public limited company pursuant to the Irish Companies Act 2014. As at 31 December 2023, there were fourteen active sub-funds in existence. The Directors control the affairs of the Company and they are responsible for the overall investment policy, which is determined by them. The Company engages the Investment Manager and the Manager to manage certain duties and responsibilities with regards to the day-to-day management of the Company.

The Directors have delegated certain responsibilities to the Administrator, including maintenance of the accounting records. The financial statements, which remain the responsibility of the Directors, are prepared on their behalf by the Administrator. The Company has also appointed a Depositary to act as depositary of the Company's assets.

We tailored the scope of our audit taking into account the types of investments within the Company, the involvement of third party service providers, the accounting processes and controls, and the industry in which the Company operates.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY (continued)

Key audit matters (continued)

How we tailored the audit scope (continued)

In establishing the overall approach to our audit, we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality and audit approach

The scope of our audit is influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, such as our understanding of the entity and its environment, the history of misstatements, the complexity of the Company and the reliability of the control environment, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole.

Based on our professional judgement, we determined materiality for each of the sub-funds to be 1.00% of each sub-fund's Net Asset Value as at 31 December 2023. We have applied this benchmark because the main objective of each sub-fund is to provide investors with a total return at a sub-fund level.

We have set performance materiality for each sub-fund at 75% of materiality, having considered our prior year experience of the risk of misstatements, business risks and fraud risks associated with the sub-funds and their control environment. This is to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements in the financial statements exceeds materiality for the financial statements as a whole.

We agreed with the Directors that we would report to them misstatements identified during our audit above 5% of materiality of each sub-fund, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Significant matters identified

The risks of material misstatement that had the greatest effect on our audit, including the allocation of our resources and effort, are set out below as significant matters together with an explanation of how we tailored our audit to address these specific areas in order to provide an opinion on the financial statements as a whole. This is not a complete list of all risks identified by our audit.

Significant matter	Description of Significant Matter and Audit Response
Valuation of financial assets and financial liabilities at fair value through profit or loss (see note 2 and note 15 of the financial statements)	<p>There is a risk that the valuation methodology basis applied is not appropriate and results in the valuation of the financial assets and financial liabilities at fair value through profit or loss is materially misstated.</p> <p>As at 31 December 2023, the financial assets at fair value through profit or loss of the Company were US\$4,271,325,338 and financial liabilities at fair value through profit or loss was US\$57,558,083, which on a net basis represents 95% of the net asset of the Company.</p> <p>Significant auditor's attention was deemed appropriate as financial assets and financial liabilities at fair value through profit or loss represent significant balances on the Balance Sheet and impacts the Company's performance and net asset value. As at 31 December 2023 the financial assets and financial liabilities at fair value through profit or loss held by the Company are all classified as Level 1 or Level 2 in the fair value hierarchy.</p> <p>The following audit work has been performed to address the key audit matters:</p> <ul style="list-style-type: none"> • We obtained the Administrator's internal controls report in order to gain an understanding of the controls in place and performed an evaluation of the design and implementation of the processes and operating effectiveness of the relevant controls in relation to the valuation of the financial assets and financial liabilities at fair value through profit or loss; • We verified the financial assets and financial liabilities at fair value through profit or loss by using an independent pricing source. We compared the independent prices obtained to the prices as per the accounting records and investigated any material differences identified; and • We reviewed the classification and adequacy of disclosures in the financial statements in accordance with FRS 102. <p>No issues were identified during the course of our audit.</p>

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY (continued)

Other information

Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon, including the Directors and Other Information, Investment Manager's Report, Directors' Report, Report of the Depositary to the Members, Schedule of Significant Portfolio Movements (Unaudited) and the unaudited appendices. The Directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies in the financial statements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion, the information given in the Directors' Report is consistent with the financial statements. Based solely on the work undertaken in the course of our audit, in our opinion, the Directors' Report has been prepared in accordance with the requirements of the Companies Act 2014.

Matters on which we are required to report by exception

Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' Report.

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of the Companies Act 2014 have not been made. We have no exceptions to report arising from this responsibility.

Corporate governance statement

In our opinion, based on the work undertaken in the course of our audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process, specified for our consideration and included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.

Based on our knowledge and understanding of the Company and its environment obtained in the course of our audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.

Responsibilities of the Directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities, the Directors are responsible for the preparation of the financial statements which give a true and fair view in accordance with Generally Accepted Accounting Practice in Ireland, including FRS 102, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY (continued)

Responsibilities of the auditor for the audit of the financial statements

The objectives of an auditor are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Irish Auditing and Accounting Supervisory Authority's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditor's report.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatement in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (Ireland). The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to compliance with the Companies Act 2014, the Listing Rules of Euronext Dublin and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and Irish tax law. The audit engagement partner considered the experience and expertise of the engagement team specialising on audits of Financial Services including the review of the respective ITGC of the Company with the assistance of internal ITGC specialist to ensure that the team had appropriate competence and capabilities to identify or recognise non-compliance with the laws and regulation.

We evaluated the Directors' incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial performance and management bias through judgements and assumptions in significant accounting estimates, in particular in relation to significant one-off or unusual transactions. We apply professional scepticism through the audit to consider potential deliberate omission or concealment of significant transactions, or incomplete/inaccurate disclosures in the financial statement.

In response to these principal risks, our audit procedures included but were not limited to:

- enquiries of the Directors on the policies and procedures in place regarding compliance with laws
- and regulations, including consideration of known or suspected instances of non-compliance and whether they have knowledge of any actual, suspected or alleged fraud;
- inspection of the Company's regulatory and legal correspondence and review of minutes of board meetings during the year to corroborate enquiries made;
- gaining an understanding of the entity's current activities, the scope of its authorisation and the effectiveness of its control environment;
- gaining an understanding of the internal controls established to mitigate risk related to fraud;
- discussion amongst the engagement team in relation to the identified laws and regulations and regarding the risk of fraud, and remaining alert to any indications of non-compliance or opportunities for fraudulent manipulation of financial statements throughout the audit;
- identifying and testing journal entries to address the risk of inappropriate journals and management override of controls;
- designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing;
- challenging assumptions and judgements made by the Directors in their significant accounting estimates; and
- review of the financial statement disclosures to underlying supporting documentation and inquiries of the Directors.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY (continued)

Responsibilities of the auditor for the audit of the financial statements (continued)

The primary responsibility for the prevention and detection of irregularities including fraud rests with those charged with governance and management. As with any audit, there remains a risk of non-detection or irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or override of internal controls.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Report on other legal and regulatory requirements

We were appointed by the Directors in August 2022 for the 31 December 2022 year-end. This is the second year that we have been appointed to audit the financial statements of the Company.

We have not provided non-audit services prohibited by the IAASA's Ethical Standard and have remained independent of the entity in conducting the audit.

The audit opinion is consistent with the additional report to the board of directors.

Julianne Nolan
For and on behalf of

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023

1. ESTABLISHMENT

Payden Global Funds public limited company (the “Company”) is an umbrella fund with segregated liability between its sub funds and was incorporated as an investment company on 1 July 1999 under the laws of Ireland as Payden & Rygel Global Funds public limited company. The Company changed its name on 14 December 2005. The Company is an investment company with variable capital. The shares of the Company are admitted to the Official List and to trading on the Main Securities Market of Euronext Dublin and the Company is authorised in Ireland by the Central Bank of Ireland (the “Central Bank”) as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the “UCITS Regulations”).

During the financial year ended 31 December 2023, the Company had fourteen sub-funds, which are distributed in Switzerland (amongst other countries), (each sub-fund individually referred to as the “Fund” and collectively as the “Funds”) in which shares were funded as follows:

Payden Absolute Return Bond Fund
Payden Global Aggregate Bond Fund
Payden Global Bond Fund
Payden Global Emerging Markets Bond Fund
Payden Global Emerging Markets Bond Fund (Hard Currency)
Payden Global Equity Income Fund
Payden Global Government Bond Index Fund
Payden Global High Yield Bond Fund
Payden Global Inflation - Linked Bond Fund
Payden Global Short Bond Fund
Payden Sterling Reserve Fund
Payden US Core Bond Fund
Payden US Dollar Liquidity Fund
Payden USD Low Duration Credit Fund

All shareholders of Payden Global Emerging Markets Corporate Bond Fund had fully redeemed on 5 May 2021 and this Fund was no longer being offered to investors. As at 10 January 2023, the Central Bank withdrew its approval of Payden Global Emerging Markets Corporate Bond Fund.

All shareholders of Payden Euro Liquidity Fund had fully redeemed on 28 March 2022 and this Fund is no longer being offered to investors. As at 12 March 2024, the Central Bank withdrew its approval of Payden Euro Liquidity Fund.

There are two unfunded Funds approved by the Central Bank in the Company namely Payden Global Corporate Bond Fund and Payden US Equity Income Fund. At the 31 December 2023, these two sub-funds have not commenced operations.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies adopted by the Company:

i) Basis of preparation and accounting convention

The financial statements presented have been prepared in accordance with accounting standards generally accepted in Ireland, including FRS 102 *The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland* (“FRS 102”), Irish Statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations and the listing rules of Euronext Dublin. Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council (“FRC”).

The aggregated financial statements for the Company are denominated in US Dollar (“USD”).

The financial statements of the Company are prepared on a going concern basis, under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The financial statements of Payden Euro Liquidity Fund* have been prepared on a non-going concern basis of accounting.

The information required to be included in the Statement of Total Recognised Gains and Losses and a Reconciliation of Movements in Shareholders Funds, is, in the opinion of the Directors contained in the Profit and Loss Account and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares starting on pages 124 and 136, respectively. The Company has availed of the exemption available to investment funds under FRS 102 not to prepare a cash flow statement.

* See Note 1.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

i) Basis of preparation and accounting convention (continued)

A Fund may invest in other investment funds, including other Funds of the Company. Investments held by a sub-fund of the Company in another sub-fund of the Company as at 31 December 2023 and 31 December 2022 are disclosed in Note 18.

The total columns in Profit and Loss Account, Balance Sheet and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares have been adjusted in respect of the related cross investments.

ii) Financial assets and liabilities at fair value through profit or loss

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by management at fair value through profit or loss at inception.

In accordance with Section 11.2 and Section 12.2 of FRS 102, the Company has adopted the recognition and measurement provisions of IFRS 9 Financial Instruments and IAS 39 (as amended following the publication of IFRS 9), the disclosure requirements of Sections 11 and 12 of FRS 102 and the presentation requirements of paragraph 11.38A and 12.25W of FRS 102.

In accordance with FRS 102: “Financial Instruments: Recognition and Measurement”, all of the Company’s investments are classified as held for trading. Financial assets and liabilities held for trading are securities that were either acquired for generating a profit from short-term fluctuations in price or dealer margins, or are included in a portfolio where a pattern of short-term trading exists. Derivatives, unless designated as effective hedging instruments, are categorised as held for trading. While positions within the portfolio will often be held with a view to long term capital gains, the Company also undertakes short term trading and, accordingly, for the purpose of FRS 102, the Directors have classified the Company’s portfolio as financial assets and liabilities held for trading.

Regular-way purchases and sales of investments are recognised on the trade date – the date on which the Company commits to purchase or sell the assets. Investments are initially recognised at fair value, and transaction costs for all financial assets carried at fair value through profit or loss are expensed as incurred. Investments are subsequently re-measured at fair value at year-end. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

Transaction costs are costs incurred in connection with the purchase and sale of financial assets and liabilities at fair value through profit or loss. They include such fees as commissions paid to agents, brokers or dealers. Details of transaction costs incurred by each Fund are disclosed in Note 11.

Gains and losses arising from changes in the fair value of the “financial assets and liabilities at fair value through profit or loss” category are included in the Profit and Loss Account in the financial year in which they arise. The fair value of financial instruments traded in active markets (such as publicly traded derivatives, trading securities and shares or units in investment funds) is based on quoted market prices at the balance sheet date. Realised gains and losses on financial assets and liabilities disposals are calculated using first in first out basis.

When the Company holds derivatives with offsetting market risks it uses mid-market prices as a basis for establishing fair values for the offsetting risk positions. In order to determine the net asset value of the Company for subscriptions and redemptions, investments have been valued using last traded prices in accordance with the prospectus. The quoted market price used for financial assets and liabilities held by the Company is the current last traded price.

iii) Investment Funds

Shares or units in open ended investment funds are valued by reference to the latest available net asset value of the shares or units of the relevant investment funds priced by the underlying Administrator and provided by a vendor. Shares or units in closed ended investment funds are valued by reference to the latest available net asset value of the shares or units of the relevant investment funds priced by the underlying Administrator and provided by a vendor. If such prices are unavailable and if appropriate in the opinion of the Directors, shares or units in investment funds are valued at the estimated net asset value of the shares or units as provided by the Administrator.

iv) Loans

The Company may purchase participations in or assignments of floating rate mortgages or other commercial loans that are liquid and which may be secured by real estate or other assets. These participations may be interests in, or assignments of, the loan and may be acquired from banks or brokers that have made the loan or members of the lending syndicate.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

iv) Loans (continued)

Loan participation notes are typically traded over the counter and will have similar liquidity to other debt instruments which are traded over the counter. The liquidity of loan participation notes may be affected by specific economic events, such as a deterioration in the creditworthiness of the borrower, and also may make it more difficult to assign a value to the loan participation note for the purposes of valuing a Fund's portfolio and calculating its net asset value.

To the extent that a Fund invests in loan participation notes, the notes in which it invests are securitised and result typically in the Fund having a contractual relationship with the issuer of the note and not with the underlying borrower. The Fund has the right to receive payments of principal, interest and any fees to which it is entitled from the issuer and typically only upon receipt by the issuer of the payments from the borrower. In connection with purchasing loan participations notes, a Fund generally has no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan participation note, nor any rights of set-off against the borrower, and a Fund may not directly benefit from any collateral supporting the loan to which the note relates.

In connection with purchasing participations in or assignments of floating rate mortgages or other commercial loans, a Fund generally has no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan, nor any rights of set-off against the borrower, and a Fund may not directly benefit from any collateral supporting the loan in which it has purchased the participation.

The fair value of loans is based on the market price at the balance sheet date. Unrealised gains or losses on loans are included in financial assets/liabilities at fair value through profit or loss on the Balance Sheet. Realised and unrealised gains or losses on loans are included within the net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account.

v) Future contracts

Initial margin deposits are made upon entering into future contracts and are generally made in cash at bank. Future contracts are valued based upon their quoted daily settlement prices. Changes in the value of open future contracts are recognised as unrealised gains or losses on future contracts until the contracts are expired at which time realised gains and losses are recognised.

Unrealised gains or losses on future contracts are included in financial assets/liabilities at fair value through profit or loss on the Balance Sheet. The initial margin receivable or payable at the reporting date is reported as an asset or liability, as applicable on the Balance Sheet.

Realised and unrealised gains or losses on future contracts are included within the net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account. Transaction costs for purchases and sales of futures are included in the net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account for each Fund.

vi) Forward foreign currency contracts

The Company may use forward foreign currency exchange contracts to hedge the risk to the portfolio of exchange price movements or for share class hedging purposes. Contracts outstanding at the year-end are valued at their market value. The resulting gain or loss is included in net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account.

The fair value of open forward foreign currency contracts is calculated as the difference between the contractual rate and the current forward rate that would close out the contract on the valuation date.

vii) Options

The unrealised gain or loss on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. The fair value of the options which are dealt in on a securities market are the settlement price as determined by the market. Unrealised gains or losses on open option positions are included in financial assets and liabilities at fair value through profit and loss in the Balance Sheet.

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

viii) Swaps

Credit default swaps, interest rate swaps and inflation swaps are recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at their fair value. The swaps are valued by the counterparty daily and verified at least weekly by a competent person appointed by the Directors (such as the Investment Manager) approved for such purpose by the Depositary and who is independent of the counterparty on the basis of their marked-to-market price.

Centrally cleared swaps

Centrally cleared swaps are cleared on a central clearing house and are subject to clearing house rules, including initial and variation margin requirements. Margin for centrally cleared swaps is included in the Balance Sheet in margin on derivative contracts.

All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

Unrealised gains or losses on open swap contracts and initial upfront payment received or made upon entering into a swap contract, if any, are included in financial assets/liabilities at fair value through profit or loss on the Balance Sheet. Investment interest payable on swap contracts is recorded as Interest/dividends receivable/payable on the Balance Sheet.

Changes in unrealised gains or losses on swap contracts at the reporting period end are included within the net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account. Investment interest expense on swap contracts is included in Interest expense on swaps in the Profit and Loss Account.

ix) Swaptions

When a Fund writes a swaption, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current fair value of the swaption written. Premiums received from the written swaptions which expire unexercised are treated by the Fund on the expiration dates as realised gains. If a written call swaption is exercised, the premium is added to the proceeds from the sale of the underlying swap in determining the realised gain or loss. If a written put swaption is exercised, the premium reduces the cost basis of the swap purchased.

When a Fund purchases a swaption, an amount equal to the premium paid by the Fund is recorded as an asset and is subsequently adjusted to the current fair value of the swaption purchased. Premiums paid for the purchase of swaptions which expire unexercised are treated on the expiration date as realised losses. If a purchased payer swaption is exercised, the premium is subtracted from the proceeds of the underlying swap in determining whether the relevant Fund has realised a gain or a loss. If a purchased receiver swaption is exercised, the premium is added to the cost basis of the floating rate investment that has been swapped.

Unrealised gains or losses on swaptions are included in financial assets/liabilities at fair value through profit or loss on the Balance Sheet. Realised and unrealised gains or losses on swaptions are included within the net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account.

x) Interest income and expenses

Bank interest and income on debt securities are included in the Profit and Loss Account on an effective yield basis. Income and/or expenses on debt securities are included in income on debt securities in the Profit and Loss Account and may have a negative balance. Expenses and withholding taxes are accounted for on an accruals basis.

xi) Distribution policy

Distributions to holders of redeemable participating shares are classified as finance costs in the Profit and Loss Account. All net investment and net realised capital gains are retained by the Company and are reflected in the net asset value of the Funds. In the event that the Company has paid or decided to pay any dividend on behalf of a Fund, such dividend will be paid in compliance with Euronext Dublin regulations and in accordance with the Articles of Association, i.e. out of the profits available for distribution. The distributions for the financial year are set out in Note 16 to the financial statements.

xii) Dividend income

Dividends are credited to the Profit and Loss Account on the dates on which the relevant securities are listed as "ex-dividend". Income is shown gross of any non-recoverable withholding taxes and net of any tax credits. Withholding tax is recognised in the Profit and Loss Account.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

xiii) Foreign currencies

Assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates ruling at the financial year end.

Functional and presentation currencies of the Funds are disclosed in Note 19 to the financial statements. Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the dates of the transactions. All gains and losses arising on foreign currency translations are included in the Profit and Loss Account. A notional foreign exchange adjustment is included in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

The following exchange rates at the financial year end have been used to translate assets and liabilities in other currencies to USD:

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

xiv) Cash and cash collateral

Cash comprises current deposits with banks. Cash is held at face value at the financial year-end date.

Cash received as collateral is recorded as an asset on the Balance Sheet and is valued at its fair value. A related liability to repay the collateral is recorded as a liability on the Balance Sheet and is also valued at its fair value in line with the requirements of FRS 102.

Cash collateral which is pledged to a broker is recorded as an asset to the relevant Fund within “Cash collateral” on the Balance Sheet, and is valued at its fair value. A related liability (collateral broker-owned) is recorded as a liability within “Cash collateral payable” on the Balance Sheet and is also valued at its fair value.

The Funds pledge and receive non-cash collateral against financial derivative instruments. Such collateral cannot be sold, re-invested or re-pledged. As a result, pledged collateral remains an asset of a Fund and is included in the Balance Sheet. Equally, securities received as collateral are not considered assets of a Fund and will not appear in the Balance Sheet. Under these collateral agreements, upon a counterparty default (including bankruptcy), the Funds may terminate all derivatives with that counterparty, determine the net amount owed by either party and sell or retain any collateral held up to the net amount owed to the Funds, with an obligation to return excess collateral to the counterparty.

xv) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder’s option and are classified as financial liabilities. The dividend, if any, on these redeemable participating shares is recognised in the Profit and Loss Account as finance costs. The shares can be redeemed at any time for cash equal to a proportionate share of the relevant Fund’s net asset value. A share is carried at the redemption amount that is payable at the Balance Sheet date if the shareholder exercised its right to put the share back to the Fund. The fair value of the financial liability for the shares is the redemption amount per share, calculated as the net asset value per share less any associated duties and charges and any redemption dividend which is payable on the shares redeemed.

xvi) Swing pricing

In the appropriate circumstances, swing pricing is employed as a mechanism to protect Shareholders against the effects of dilution. Dilution may occur as a result of transaction related costs associated with the price at which the underlying securities of a Fund are bought or sold relative to the mid-price of those securities. It is that mid-price which forms the basis of the valuation of the Fund in the absence of a price swing resulting from investor subscriptions or redemptions.

Net investor subscriptions above a materiality threshold (“Swing Threshold”, set by the Directors from time to time) will cause an upward swing in the net asset value per share; net investor redemptions a downward swing. The magnitude of the swing (the “Swing Factor”) is applied to all share classes of that Fund.

The price swing means that the transacting investor will contribute to the cost of the resulting transactions in underlying securities. The swung NAV will be the official NAV for that particular day and all investor transactions will take place at that value. Shareholders should note that due to adjustments being made to the NAV, the volatility of a Fund’s NAV may not fully reflect the true performance of the Fund’s underlying securities.

On 31 December 2023 and 31 December 2022, there were no swing pricing adjustments applied on the net asset value per share of any Funds.

3. ADMINISTRATION AND DEPOSITARY FEES

i) Administration fees

Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the “Administrator”) is entitled to receive administration and fund accounting fees at the applicable rate specified in the table below per annum of the month end net asset value of each Fund. Additional classes in excess of two classes per Fund shall be charged at USD250 per month subject to a monthly minimum fee per Fund of USD2,000. All such fees shall accrue daily and will be paid monthly in arrears.

Aggregate Total Net Assets	Rate (basis points)
First USD500 million	2.50
Next USD500 million	2.25
Next USD2 billion	1.75
Next USD2 billion	1.15
Over USD5 billion	0.75

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

3. ADMINISTRATION AND DEPOSITARY FEES (continued)

The Administrator shall also be entitled to receive transaction and reporting charges for fund accounting, administration and registrar and transfer agency services at normal commercial rates which shall accrue daily and be paid monthly in arrears.

The Administrator shall also be entitled to be reimbursed by the Company for all reasonable and vouched out-of-pocket expenses incurred by it for the benefit of the Company in the performance of its duties under the Administration Agreement.

The Administration fee for the financial years ended 31 December 2023 and 31 December 2022 is disclosed in the Profit and Loss Account under the heading 'Administration fees' and the amount payable at financial year end is disclosed in the Balance Sheet under the heading 'Administration fee payable'.

ii) Depositary fees

Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") shall be entitled to receive out of the assets of the Company a trustee fee, accrued daily and payable monthly at the applicable rate specified in the table below.

Aggregate Total Net Assets	Rate (basis points)
First USD1 billion	1.35
Next USD3 billion	1.10
Over USD4 billion	0.85

The Depositary will also receive from each Fund a custodial fee of up to 0.008% of the total market value of the investments of each Fund in each relevant market at month end. Such fees shall accrue daily and be paid monthly in arrears and are subject to a minimum charge of USD1,000 per month per Fund.

The Depositary shall also be entitled to receive transaction charges and all sub-custodian charges will be recovered by the Depositary from the Company as they incur by the relevant sub-custodians. All such charges shall be at normal commercial rates. The Depositary is also entitled to reimbursement of all reasonable out-of-pocket expenses incurred for the benefit of the Company in the performance of its duties under the Depositary Agreement.

The Depositary fee for the financial years ended 31 December 2023 and 31 December 2022 is disclosed in the Profit and Loss Account under the heading 'Depositary fees' and the amount payable at financial year end is disclosed in the Balance Sheet Account under the heading 'Depositary fee payable'.

4. INVESTMENT MANAGER FEE

Payden & Rygel Global Limited (the "Investment Manager") receives a quarterly fee payable in arrears from the Company at the below annual percentage rates applied to the average daily net asset value of the Funds as follows:

Fund	Portion of net asset value	Annual Rate
Payden Absolute Return Bond Fund*	Total	0.45%
Payden Euro Liquidity Fund**	Total	0.10%
Payden Global Aggregate Bond Fund	Total	0.30%
Payden Global Bond Fund	First USD2 billion	0.30%
	Over USD2 billion	0.25%
Payden Global Emerging Markets Bond Fund	Total	0.50%
Payden Global Emerging Markets Bond Fund (Hard Currency)	Total	0.50%
Payden Global Equity Income Fund	Total	0.55%
Payden Global Government Bond Index Fund	Total	0.12%
Payden Global High Yield Bond Fund	First USD2 billion	0.60%
	Over USD2 billion	0.50%
Payden Global Inflation - Linked Bond Fund	Total	0.20%
Payden Global Short Bond Fund	First USD2 billion	0.30%
	Over USD2 billion	0.25%
Payden Sterling Reserve Fund	Total	0.12%
Payden US Core Bond Fund	Total	0.32%
Payden US Dollar Liquidity Fund	Total	0.10%
Payden USD Low Duration Credit Fund	Total	0.23%

* Payden Absolute Return Bond Fund - Sterling Class (Accumulating) (SI) and Payden Absolute Return Bond Fund - US Dollar Class (Accumulating) (SI): the Investment Manager receives a quarterly fee payable in arrears from the Company at an annual percentage rate of 0.35%.

** See Note 1.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

4. INVESTMENT MANAGER FEE (continued)

If the total operating expenses of the particular Fund exceeds the fee cap voluntarily imposed by the Directors, the Investment Manager agrees to pay to the Company for the account of the Fund in question such amount as is necessary to enable the Fund to pay such expenses without further recourse to the Fund's assets. These limits may be increased by the Directors at any time on notice to the shareholders in the relevant Fund.

The annual expenses of the Company are currently capped at the below annual percentages of the average daily net asset value of the Funds as follows:

Fund	Total Operating Expenses
Payden Absolute Return Bond Fund*	0.50%
Payden Euro Liquidity Fund**	0.16%
Payden Global Aggregate Bond Fund	0.35%
Payden Global Bond Fund	0.35%
Payden Global Emerging Markets Bond Fund	0.66%
Payden Global Emerging Markets Bond Fund (Hard Currency)	0.63%
Payden Global Equity Income Fund	0.65%
Payden Global Government Bond Index Fund	0.15%
Payden Global High Yield Bond Fund	0.75%
Payden Global Inflation - Linked Bond Fund	0.25%
Payden Global Short Bond Fund	0.35%
Payden Sterling Reserve Fund	0.18%
Payden US Core Bond Fund	0.40%
Payden US Dollar Liquidity Fund	0.16%
Payden USD Low Duration Credit Fund	0.30%

* Payden Absolute Return Bond Fund - Sterling Class (Accumulating) (SI) and Payden Absolute Return Bond Fund - US Dollar Class (Accumulating) (SI) annual expenses are currently capped at 0.40% of the average daily net asset value.

** See Note 1.

The Investment Manager fees for the financial years ended 31 December 2023 and 31 December 2022 are disclosed in the Profit and Loss Account under the heading 'Investment Manager fees' and the amount payable at financial year end is disclosed in the Balance Sheet under the heading 'Investment Manager fee payable'. The amount rebated to the Company during the financial years ended 31 December 2023 and 31 December 2022 is disclosed in the Profit and Loss Account under the heading 'Rebate due from the Investment Manager' and the amount receivable at financial year end is disclosed in the Balance Sheet under the heading 'Rebate receivable from the Investment Manager'.

5. MANAGEMENT FEES

The Manager will receive a quarterly fee payable in arrears from the Company of up to 0.015% of the Net Asset Value of the relevant Fund decreasing at increments to 0.0030% where assets under management of the Company exceed €5 billion. The Management fees are based on a sliding scale applied to the aggregate assets across all sub-funds, specified in the table below. The Manager shall also be entitled to be reimbursed by the Company for all reasonable disbursements and out-of-pocket expenses incurred.

The management fee will be subject to a minimum fee per annum of:

Number of sub-funds	Fee (for each sub-fund)
Single sub-fund	€65,000
Next five incremental sub-funds	€15,000
Next five incremental sub-funds	€12,500
Additional sub-fund thereafter	€10,000

The Management fees for the financial years ended 31 December 2023 and 31 December 2022 are disclosed in the Profit and Loss Account under the heading 'Management fees' and the amount payable at financial year end is disclosed in the Balance Sheet under the heading 'Management fee payable'.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

6. OTHER EXPENSES

The other expenses in the Profit and Loss account comprise the following:

	31 December 2023 (USD)	31 December 2022 (USD)
Audit fee ⁽¹⁾	97,461	60,845
Legal/Professional/Secretarial fee	790,228	883,028
Stock exchange fee	15,290	25,740
Sundry expense	383,688	279,213
	<u>1,286,667</u>	<u>1,248,826</u>

⁽¹⁾ The auditor's remuneration of the Company comprises of the following:

	31 December 2023 (USD)	31 December 2022 (USD)
Audit of individual accounts	97,461	53,259
Tax advisory services	–	7,586
	<u>97,461^{(2),(3)}</u>	<u>60,845^{(2),(4)}</u>

⁽²⁾ Excluding VAT.

⁽³⁾ Paid to Grant Thornton.

⁽⁴⁾ Paid to Deloitte Ireland LLP.

Remuneration of EUR91,438 (USD101,007) (exclusive of VAT) was earned by Grant Thornton for the year ended 31 December 2023 and was outstanding as at 31 December 2023. Remuneration of EUR87,500 (USD93,384) (exclusive of VAT) was earned by Grant Thornton for the year ended 31 December 2022 and was outstanding as at 31 December 2022. The amount payable at financial year end is disclosed in the Balance Sheet under the heading 'Audit fee payable'.

There were no other fees paid to the Auditors in respect of non-audit services.

7. DIRECTORS' FEES

The Directors who are not partners, officers or employees of Payden & Rygel or of the Investment Manager, will be entitled to remuneration by the Company for their services as Directors provided however that the aggregate of all fees paid to each Director in respect of any twelve-month accounting year shall not exceed a fixed sum of €25,000 plus €1,000 per board meeting or such higher amount as may be approved by the Company in general meeting.

In addition, the Directors will also be entitled to be reimbursed for their reasonable and vouched out-of-pocket expenses incurred in discharging their duties as Directors.

Any Director who serves on any committee or who otherwise performs services which, in the opinion of the Directors are outside the scope of the ordinary duties of a Director, may be paid such extra remuneration as the Directors may determine.

The Directors' fees for the financial years ended 31 December 2023 and 31 December 2022 are disclosed in the Profit and Loss Account under the heading 'Directors' fees' and the amount payable at financial year end is disclosed in the Balance Sheet under the heading 'Directors' fee payable'.

8. CASH AT BANK AND MARGIN ON DERIVATIVE CONTRACTS

Cash held via accounts opened on the books of Brown Brothers Harriman Trustee Services (Ireland) Limited ("BBH") are obligations of BBH while cash held in accounts opened directly on the books of a third party cash correspondent bank, sub-custodian or a broker (collectively, "agency accounts") are liabilities of the agent, creating a debtor/creditor relationship directly between the agent and the Funds.

Accordingly, while BBH is responsible for exercising reasonable care in the administration of such agency cash accounts where it has appointed the agent (i.e., in the case of cash correspondent banks and sub-custodians), it is not liable for their repayment in the event the agent, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

The Funds enrolled in BBH's cash management service, are managed such that the Funds' cash is swept on a nightly basis to pre-approved financial institutions.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

9. COLLATERAL (continued)

The Funds pledge and receive non-cash collateral against financial derivative instruments. Such collateral cannot be sold, re-invested or re-pledged. As a result, pledged collateral remains an asset of a Fund and is included in the Balance Sheet. Equally, securities received as collateral are not considered assets of a Fund and will not appear in the Balance Sheet. Under these collateral agreements, upon a counterparty default (including bankruptcy), the Funds may terminate all derivatives with that counterparty, determine the net amount owed by either party and sell or retain any collateral held up to the net amount owed to the Funds, with an obligation to return excess collateral to the counterparty.

The following securities were provided to the Funds as collateral at 31 December 2023:

Fund name	Security	Coupon	Maturity	Amount USD
Payden Global Emerging Markets Bond Fund	United States Treasury Inflation Indexed Bonds	0.500%	15-Apr-2024	39,000
Payden USD Low Duration Credit Fund	United States Treasury Bill	0.000%	19-Mar-2024	286,000
Payden USD Low Duration Credit Fund	United States Treasury Bill	0.000%	11-Apr-2024	521,000
Payden USD Low Duration Credit Fund	United States Treasury Note/Bond	1.000%	15-Dec-2024	20,000
Payden USD Low Duration Credit Fund	United States Treasury Note/Bond	1.500%	30-Nov-2024	17,000
Payden USD Low Duration Credit Fund	United States Treasury Note/Bond	2.875%	15-Aug-2028	95,000

No security was pledged as collateral by the Funds as at 31 December 2023.

As at 31 December 2022, no pledged collateral and no security was provided to the Funds as collateral.

10. FINANCIAL DERIVATIVE INSTRUMENTS AND EFFICIENT PORTFOLIO MANAGEMENT

The Investment Manager may invest in financial derivative instruments for investment purposes as specified in the Company's prospectus.

In addition, each Fund may utilise techniques and instruments for efficient portfolio management purposes or to protect against foreign exchange rate risks, subject to the conditions and within the limits laid down by the Central Bank. Such techniques and instruments include, but are not limited to, futures, options, swaps, warrants, stock lending arrangements, repurchase/reverse repurchase agreements, forward foreign currency contracts and when issued and/or delayed delivery securities.

Efficient portfolio management transactions relating to the assets of a Fund may be entered into with one of the following aims: a reduction of risk, a reduction of cost with no increase or a minimal increase in risk or generation of additional capital or income with no, or an acceptably low level of risk (relative to the expected return).

The Company currently invests in futures, options, swaps and forward foreign currency contracts in order to hedge currency and market exposure as well as increase capital and income returns. Forward foreign currency contracts are used to hedge against anticipated future changes in exchange rates which otherwise might either adversely affect the value of the Company's portfolio securities or adversely affect the price of securities which the Company intends to purchase at a later date. Forward foreign currency contracts are also used to take small active currency positions, where guidelines permit. The counterparties of the forward foreign currency contracts are shown in the Schedule of Investments. The details of all open transactions at the financial year end are disclosed in the Schedule of Investments. Gains/(losses) on derivatives are set out in Note 12.

During the financial years ended 31 December 2023 and 31 December 2022, the Company has not used any stock lending arrangements or entered into any repurchase/reverse repurchase agreements.

11. TRANSACTION COSTS

Transaction costs are costs incurred in connection with the purchase and sale of financial assets or liabilities at fair value through profit or loss. They include fees such as commissions paid to agents, brokers or dealers.

Transaction costs on equities, collective investment schemes, options and futures are included in the net gains/(losses) on financial assets and liabilities at fair value through profit or loss and foreign currencies in the Profit and Loss Account for each Fund.

Transaction costs on bonds are included in the purchase and sale price of the investment as per standard fixed income market practice. They cannot be practically or reliably gathered as they are embedded in the cost of investment and cannot be separately verified or disclosed.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

11. TRANSACTION COSTS (continued)

Similarly, transaction costs on the purchase and sale of forward foreign currency contracts and swaps are included in the purchase and sale prices of the investment and cannot be separately verified or disclosed.

The depositary transaction costs for the financial years ended 31 December 2023 and 31 December 2022 are disclosed in the Profit and Loss Account under the heading 'Depositary fees'.

All the transactions below are carried out on normal commercial terms.

The following table shows the transaction costs for the financial years ended 31 December 2023 and 31 December 2022:

Fund	Base Currency	31 December 2023	31 December 2022
Payden Absolute Return Bond Fund ⁽¹⁾	USD	528,404	524,279
Payden Euro Liquidity Fund ⁽¹⁾ *	EUR	–	–
Payden Global Aggregate Bond Fund ⁽¹⁾	USD	13,469	7,652
Payden Global Bond Fund ⁽¹⁾	USD	8,605	13,386
Payden Global Emerging Markets Bond Fund ⁽¹⁾	USD	2,247	1,746

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

13. TAXATION

The Company qualifies as an investment undertaking as defined in Section 739B of the Tax Consolidation Acts, 1997, as amended. It is not subject to Irish tax on its income and gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of the shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; and
- (b) certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

Where there is uncertainty over future income tax treatments that may arise on the sale of investments an accrual is in place for capital gains tax and is disclosed separately in the Balance Sheet. This accrual currently relates to Brazilian emerging market investments and can change depending on the market value of these investments. A decrease in the market value of these investments may require a reduction in the accrual which can result in a positive value in the Profit and Loss Account. For the calculation of capital gain tax on Brazilian investments, a holding period of up to one year is classified as short-term and anything more than that is long term.

14. SHAREHOLDERS' FUNDS

i) Authorised Shares

The authorised share capital of the Company is 500 billion shares of no par value initially designated as unclassified shares. The unclassified shares are available for issue as participating shares. The capital of the Company is equal to the net asset value of the Company.

Seven subscriber shares are in issue (issued for the purposes of the incorporation of the Company), one of which is held by Payden & Rygel and the remainder of which are each held by a Managing Director of Payden & Rygel for the benefit of Payden & Rygel. Each subscriber share gives the holder the right to vote and to one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll.

ii) Redeemable Participating Shares

Redeemable participating shares carry the right to a proportionate share in the net assets of the Funds and the holders of the shares are entitled to one vote for every share held in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll. The issued redeemable participating share capital is at all times equal to the net asset value of the Company.

The net asset value per share is determined by dividing the value of the net assets of each Fund for each share class by the total number of shares in issue in the relevant Fund for that share class at that time.

15. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS

To the extent permitted by the investment objectives, restrictions and policies set forth in the Company's prospectus and supplements, the Funds may participate in various derivative-based transactions. Derivative securities are instruments or agreements whose value is derived from an underlying security, currency or index.

Investment in equities, bonds, loans, asset-backed securities and derivatives expose the Funds to varying risks, including market risk (market price risk, foreign exchange risk and interest rate risk), liquidity risk, credit risk and fair value estimation risk. A description of the specific risks and the policies for managing these risks are included below. An analysis of the types of securities held at the financial year-end is contained in the Funds' Schedule of Investments. Investments held at the financial year end are representative of the type of investments held during the year.

i) Market price risk

Market risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Funds might suffer through holding market positions in the face of price movements. The investments of the Funds are subject to normal market fluctuations and the risks inherent in investment in international securities markets. Stock markets can be volatile and security prices can change substantially. The value of the assets of the Funds may be affected by uncertainties such as international political developments, changes in government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in applicable laws and regulations. The Investment Manager considers the asset allocation of the Funds in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the Funds investment objectives. By diversifying the portfolio, the risk that a price change of a particular movement will have a material impact is minimised.

The overall market price exposures at 31 December 2023 and 31 December 2022 are set out in the Schedule of Investments.

ii) Foreign exchange risk

Currency risk is defined in FRS 102 "Financial instruments: Disclosures" as the risk that a fair value of a financial instrument will fluctuate because of changes in foreign exchange rates. The risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured.

The Funds may enter into future and forward foreign currency contracts to hedge the foreign exchange risk implicit in the value of portfolio securities denominated in a foreign currency. Forward Foreign Currency Contracts ("FCCT's") are also used to secure a particular exchange rate for a planned purchase or sale of securities. The Funds' Investment Manager tries to mitigate the risk of depreciation due to foreign exchange movements by using financial instruments such as forward foreign currency contracts.

Share classes of certain Funds, Payden Absolute Return Bond Fund, Payden Global Aggregate Bond Fund, Payden Global Bond Fund, Payden Global Emerging Markets Bond Fund, Payden Global Emerging Markets Bond Fund (Hard Currency), Payden Global Equity Income Fund, Payden Global Government Bond Index Fund, Payden Global High Yield Bond Fund, Payden Global Inflation - Linked Bond Fund, Payden Global Short Bond Fund and Payden USD Low Duration Credit Fund, are denominated in a currency other than that of the functional currency of the Funds. The Funds' Investment Manager tries to mitigate the risk of depreciation due to foreign movements using financial instruments such as forward foreign currency contracts. Investors should be aware that this strategy might substantially limit shareholders of the hedged class from benefiting if the denominated class currency falls against the functional currency. In such circumstances, shareholders of the hedged class of each Fund may be exposed to fluctuations in the net asset value per share reflecting the gain or loss on and the costs of the relevant financial instruments. Details of FCCT's open at 31 December 2023 are given in Schedule of Investments.

Risk management is central to the currency investment process, which falls under the auspices of a five member currency group made of currency specialists who are responsible for currency research, setting currency strategy and implementing it. The Funds' Investment Manager looks, for example, to take a diverse set of small currency positions rather than relying on one or two larger allocations, and both shorter and longer-term criteria are used to justify positions. A proprietary system to calculate ex ante tracking error has been developed, and all positions are entered into this system on a "what if" basis ahead of trading, so that it is possible to see in advance the effects on total currency and total portfolio risk. This system looks at risk estimates over years as short as one month and as long as three years.

For the purposes of FRS 102, currency risk does not arise from financial instruments that are non-monetary or from financial instruments denominated in the functional currency. The tables in the subsequent pages set out the Fund's total exposure (portfolio hedging and share class hedging) to foreign currency risk as at 31 December 2023 and 31 December 2022.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

**NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023
(continued)**

15. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (continued)

iii) Interest rate risk

This risk is defined as the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. This risk arises on financial instruments whose fair value is affected by changes in interest rates.

Debt securities in which the Funds invest are interest rate sensitive and may be subject to price volatility due to such factors including, but not limited to, changes in interest rates, market perception of the creditworthiness of the issuer and general market liquidity. The magnitude of these fluctuations that are tied to changes in interest rates will normally be greater when the maturity of the outstanding securities is longer. One exception to this is when a security has a floating rate coupon which adjusts with interest rate movements. In addition, derivatives may be used to manage overall Fund interest rate exposure. An increase in interest rates will generally reduce the value of fixed-income securities, while a decline in interest rates will generally increase the value of fixed-income securities.

Interest rate risk is managed using multiple tools. The Investment Manager has developed a proprietary portfolio management system that can break down interest rate risk exposures to the security level. Then, if required, it can consolidate them by multiple different criteria e.g. maturity or country, to allow rate exposure to be analysed versus many other variables. The Investment Manager also makes use of the analytics in commercially available systems supplied by Bloomberg, Aladdin, and the dealer community. Fund interest rate exposure, as expressed by duration, is detailed in the Investment Manager's Report. Overall duration and interest rate exposure may differ from the maturity profiles outlined below due to the use of floating rate securities and derivatives.

The table below summarises the Company's security exposure to interest rate risks at the end of the financial year. It includes the Company's assets and liabilities at fair value, categorised by maturity dates:

iv) Liquidity risk

Generally, the Funds' assets are composed of actively traded liquid securities. The liquidity risks associated with the need to satisfy shareholders' requests for redemptions are mitigated by maintaining some level of cash to satisfy usual levels of demand.

The Funds avoid entering into derivative contractual arrangements that produce an exposure not covered by sufficient liquid assets or a total investment exposure in excess of total shareholders' funds.

A large proportion of the Funds' assets are in liquid securities. The Investment Manager does not generally buy securities known to be illiquid. On occasion securities may be bought that are less liquid at certain times but these will be kept to a small proportion of a Fund's value. The compliance system is programmed to help in maintaining position sizes in both specific issues and/or sectors within the Investment Manager's desired limits. Generally these limits will cover all holdings and products, except government bonds of the major industrialised countries. The Investment Manager maintains strong working relationships with many counterparties and believes this will enhance its ability to effectively manage the Funds at times of market stress.

⁽¹⁾ The Net Assets have been adjusted to account for the Collection Account balances.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

15. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (continued)

v) Credit risk

The Company takes on exposure to credit risk which is the risk that a counterparty will be unable to pay amounts in full when they fall due. The carrying amount of financial assets best represents its maximum exposure to credit risk at the reporting date. The Funds minimise concentration of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges.

The Investment Manager runs two main sets of reports to measure the credit risk taken by the Funds. These reports comply with the regulations laid down by the Central Bank, the Funds' regulatory authority. The criteria and metrics used are from the Basel Capital Accord risk measures. The first report monitors credit exposure specifically in Financial Derivatives Instruments ("FDI"). The results are combined with a second report that monitors credit exposure from security holdings. Holdings are also regulated by the compliance system in the pre trading routine.

The Funds have International Swaps and Derivatives Association ("ISDA") agreements in place with all counterparties with whom they deal in over the counter ("OTC") derivatives, and in the event of bankruptcy and a counterparty failing to meet their obligations, a netting process is instigated to allow settlement of the mutual obligations on a net basis.

To mitigate the risks the Company is exposed to from the use of the Depositary and counterparties, the Investment Manager employs appropriate procedures to ensure that the Depositary and the counterparties are reputable institutions and that their credit risk is acceptable to the Company. Under the terms of the Depositary Agreement, the Depositary is required to hold the Company's transferable securities and money market instruments segregated from its assets and that of its agents. Thus, in the event of insolvency or bankruptcy of the Depositary, the Company's transferable securities and money market instruments would be segregated and protected. The Company is, however, exposed to the credit risk of the Depositary, or any depository used by the Depositary, in relation to the Company's cash held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Company would be treated as a general creditor of the Depositary in relation to cash holdings of the Company.

The ultimate parent company of Brown Brothers Harriman Trustee Services (Ireland) Limited is Brown Brothers Harriman & Co with a Fitch credit rating of A+ (2022: A+).

Detailed below are the long term credit ratings, as rated by Fitch, for each of the counterparties with whom the Company holds derivative positions and each of the leveraged loans bank agents at 31 December 2023:

The Company invests in debt instruments that may receive a credit rating from a well-known rating agency, or if unrated, may be assigned a credit rating using an approach which is consistent with that used by rating agencies. The credit rating in the tables below and overleaf are calculated as a percentage of fixed income securities, where there is a significant proportion of that Fund held as fixed income. As of 31 December 2023 and 31 December 2022 the exposures by credit rating for each applicable Fund were as follows:

	31 December 2023 Investment	31 December 2022 Investment

vi) Value at Risk

Value at Risk (VaR) is used in order to measure and manage risk volatility. VaR methodology is a statistical model of risk measurement used as a sophisticated and independent control over leverage. The methodology may be applied to any single security or aggregate of securities, which may make up a sector or an entire portfolio of assets. The approach helps to predict, over a specified year, the probability of losses of a specific level, or the level of loss associated with a specific confidence level. The VaR model used by the Investment Manager is the Aladdin's analytical VaR model which is based on historical simulation.

Within the Company structure, each portfolio has a stated investment objective which is used to define appropriate risk parameters. For the fixed interest funds, an absolute VaR model is used to monitor the expected potential gain/loss of a portfolio's construction. The absolute VaR limit of any fund is defined by the UCITS IV regime as 4.40% of the net asset value.

The number of forward-looking days used to calculate VaR is known as the investment horizon or time horizon year, all funds run with a one day time horizon. This is run with a 99% confidence level such that the resulting VaR number represents the level of loss that should be exceeded in only one out of one hundred periods.

The figures below represent with a 99% confidence level the VaR of the Funds at 31 December 2023 and 31 December 2022.

Fund	31 December 2023	31 December 2022
Payden Absolute Return Bond Fund	0.12%	0.41%
Payden Global Aggregate Bond Fund	0.74%	0.76%

15. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (continued)

vi) Value at Risk (continued)

The Investment Manager uses the Aladdin system to estimate ex-ante VaR for the Funds. The analytical VaR model has a 2-year look-back history, 26 week half-life and a 99% confidence level.

Aladdin's analytical VaR is a parametric measure based on variance-covariance matrix of various risk factors. It is based on linear sensitivities of a portfolio to a broad set of systematic market risk factors and idiosyncratic risk factors. Each security in a portfolio is mapped to various risk factors and security-level exposures to each of these risk factors are calculated accordingly. These security-level exposures are then aggregated to compute the portfolio-level exposures. These portfolio-level exposures are then used to produce VaR and stress-testing analyses. The parametric sensitivities are calculated for every security in a portfolio to changes in key interest rates, spreads and other risk factors. The parametric exposures are summed using the appropriate portfolio weights based on different mapping methodology to compute a portfolio's exposure to these systematic market risk factors. The parametric return model uses the risk factor changes and the exposures to estimate the return of a portfolio.

In Aladdin's Analytical VaR model, it is assumed risk factor returns are joint-normally distributed. Therefore, combinations of those risk factors, including the portfolio systematic parametric return and idiosyncratic return, will also be normally distributed. From there VaR is calculated based on the required one tail confidence level and holding period.

VaR methodology is used to assess market risk exposure and to ensure that the leverage effect of utilising FDI is not significant enough to cause disproportionate losses to overall value. The systems used allow the marginal VaR of any individual security, and by inference a collection of securities, to be calculated. Thus global exposure, or any subset of it, may be analysed separately to judge its effect at a Fund level.

The approach helps to predict, over a specific year, the probability of losses of a specific size, or the level of loss associated with a specific confidence level. The model runs daily using a 1 year historical data set.

A one tailed 99% confidence level is used such that the resulting VaR number represents the level of loss that should be exceeded in only one out of one hundred years. The time horizon for the VaR reports is 1 day for all Funds.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

15. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (continued)

vii) Fair value estimation

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. FRS 102 Section 2A.1 to 2A.6 on "Fair Value: Disclosure" requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three level fair value hierarchy for the inputs used in valuation techniques to measure fair value. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted prices in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

It will create a fair value hierarchy based upon inputs (observable and unobservable), that is familiar to preparers and users of financial statements, rather than on valuation techniques.

Fair value hierarchy of the financial assets and liabilities measured at fair value is as follows:

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

15. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (continued)

vii) Fair value estimation (continued)

Investments, the values of which are based on quoted market prices in active markets, are classified within Level 1. They include government and government-related bonds that are both investment grade and denominated in their own currency, exchange traded derivatives and other quoted securities such as exchange traded investment funds and equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include agency and corporate bonds, investment funds, leveraged loans and OTC derivatives. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently. Unobservable inputs shall be used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. The fair value measurement objective remains the same, i.e. an exit price from the perspective of a market participant that holds the asset or owes the liability. Therefore, unobservable inputs shall reflect the assumptions that the Directors would use when pricing the asset or liability, including assumptions about risk.

There were no investments classified within Level 3 at the financial year ended 31 December 2023 (31 December 2022: none).

There were no transfers of securities from Level 1 to Level 2 as at 31 December 2023:

Transfers of securities from Level 1 to Level 2 as at 31 December 2022:

Fund	Value
Payden Absolute Return Bond Fund	USD26,534,613
Payden Global Aggregate Bond Fund	USD148,653
Payden Global Bond Fund	USD863,946
Payden Global Emerging Markets Bond Fund	USD2,210,121
Payden Global Emerging Markets Bond Fund (Hard Currency)	USD776,330
Payden Global Short Bond Fund	USD13,601,927

Transfers of securities from Level 2 to Level 1 as at 31 December 2023:

Fund	Value
Payden Global Aggregate Bond Fund	USD394,085
Payden Global Bond Fund	USD765,657
Payden Global Emerging Markets Bond Fund	USD2,942,593
Payden Global Emerging Markets Bond Fund (Hard Currency)	USD1,065,896
Payden US Core Bond Fund	USD352,538

There were no transfers of securities from Level 2 to Level 1 as at 31 December 2022.

There were no transfers of securities in and out of Level 3 as at 31 December 2023 and 31 December 2022.

16. DISTRIBUTIONS TO HOLDERS OF REDEEMABLE PARTICIPATING SHARES

The Company currently pays a dividend monthly in respect of Payden Absolute Return Bond Fund – Sterling Class (Distributing), Swiss Franc Class (Distributing) and Payden Global High Yield Bond Fund – Euro Class (Distributing).

The Company also currently pays a dividend quarterly in respect of Payden Global Bond Fund – Euro Class (Distributing), Payden Global Equity Income Fund – Sterling Class (Distributing), Payden Global Government Bond Index Fund – Singapore Dollar Class (Distributing) and Sterling Class (Distributing), Payden Global Inflation - Linked Bond Fund – Sterling Class (Distributing), Payden Global Short Bond Fund – US Dollar Class (Distributing) Unhedged and Payden Sterling Reserve Fund – Sterling Class (Distributing).

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

16. DISTRIBUTIONS TO HOLDERS OF REDEEMABLE PARTICIPATING SHARES (continued)

However, the Directors may at their discretion alter the frequency with which a dividend is paid. In the event that a dividend is to be paid, shareholders in a Fund may, at their discretion, receive cash if they elect to do so. The Company reserves the right to pay dividends or make other distributions in the future in respect of any of the other Funds. In the event that the Company decides to pay any dividend on behalf of a Fund, such dividend will be paid in accordance with the rules of Euronext Dublin and in accordance with the Articles of Association, i.e., out of profits available for distribution. The dividend is paid out of net investment income and the net amount of all realised and unrealised capital gains (less realised and unrealised losses). Distributions recorded in the accounts include equalisation.

The distributions paid during the financial years ended 31 December 2023 and 31 December 2022 were as follows:

Fund	Currency	31 December 2023	31 December 2022
Payden Absolute Return Bond Fund

18. RELATED PARTIES AND CONNECTED PERSONS (continued)

In compliance with the Central Bank UCITS Regulations 81(4)(a), the Manager confirms that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43 (1) of the Central Bank UCITS Regulations are applied to all transactions with a connected person.

19. FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which each Fund operates (the "functional currency"). In accordance with FRS 102 - Section 30: "Foreign Currency Translation" the functional currency of each Fund has been re-evaluated by the Directors.

The functional currency of Payden Absolute Return Bond Fund, Payden Global Aggregate Bond Fund, Payden Global Bond Fund, Payden Global Emerging Markets Bond Fund, Payden Global Emerging Markets Bond Fund (Hard Currency), Payden Global Equity Income Fund, Payden Global Government Bond Index Fund, Payden Global High Yield Bond Fund, Payden Global Inflation - Linked Bond Fund, Payden Global Short Bond Fund, Payden US Core Bond Fund, Payden US Dollar Liquidity Fund and Payden USD Low Duration Credit Fund is US Dollar ("USD").

The functional currency of Payden Sterling Reserve Fund is Sterling pound ("GBP").

The functional currency of Payden Euro Liquidity Fund* is Euro ("EUR").

The presentation currency is the same as the functional currency for the Funds. The presentation currency of the Company is USD. A currency adjustment arises from the re-translation of the opening net asset value at the financial year end exchange rates. This method of allocation has no effect on the value of net assets allocated to the individual Funds.

20. SEGREGATED LIABILITY

The Company avails of the segregated liability provisions of the Companies Act 2014. As such, under Irish law the Company generally will not be liable as a whole to third parties and there generally will not be the potential for cross liability between the Funds.

21. SIGNIFICANT EVENTS DURING THE YEAR

The Directors have continued to monitor the impact of geopolitical and macro-economic events occurring or persisting in the financial year on financial markets and on the sub-funds and to receive briefings from key service providers upon any impact on the provision of their services. The extent of the impact to the financial performance of the sub-funds will depend on future developments, including the changing geopolitical landscape, the depth and breadth of economic sanctions in certain instances and the effects of the same on the real economy and financial markets. These future impacts are highly uncertain of course. The Directors have applied appropriate contingency plans, including the active adjustment of swing pricing factors, monitoring of valuation methodologies and making appropriate adjustments, reductions in exposure to regions of conflict and political upheaval, observance of sanctions, increased vigilance of key suppliers' cybersecurity arrangements as well as continued assessment of the financial situation and economic performance. The Company has no direct service providers located in current conflict zones.

As at 10 January 2023, the Central Bank withdrew its approval of Payden Global Emerging Markets Corporate Bond Fund.

Hazel O'Flynn (Irish) was appointed as a Director on 22 March 2023.

Erinn King (Canadian) resigned as a Director on 31 March 2023.

Peter Blessing (Irish) resigned as a Director on 25 April 2023.

On 10 March 2023, Payden Global Aggregate Bond Fund US Dollar Class (Accumulating) was re-launched.

On 28 April 2023, the Company issued an addendum to its prospectus together with related Annex II to include revised pre-contractual annexes as set out in Commission Delegated Regulation (EU) 2023/363.

On 3 May 2023, the Company issued an addendum to its prospectus to reflect that new Share Classes are to be launched in Payden Absolute Return Bond Fund, namely Sterling Class (Distributing) (SI), Sterling Class (Accumulating) (SI), US Dollar Class (Distributing) (SI), US Dollar Class (Accumulating) (SI), Euro Class (Distributing) (SI) and Euro Class (Accumulating) (SI).

* See Note 1.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2023 (continued)

21. SIGNIFICANT EVENTS DURING THE YEAR (continued)

On 27 July 2023, Payden Global High Yield Bond Fund Euro Class (Accumulating) and Payden Global High Yield Bond Fund Euro Class (Distributing) were launched.

On 11 August 2023, Payden USD Low Duration Credit Fund Sterling Class (Accumulating) was launched.

On 15 August 2023, Payden Absolute Return Bond Fund US Dollar Class (Accumulating) (SI) was launched.

On 29 September 2023, KBA Consulting Management Limited, the Manager of the Company, completed its merger with Waystone Management Company (IE) Limited (“WMC”). WMC is the surviving entity post-merger and as such, the Company’s Manager is WMC from this date.

On 6 October 2023, Payden Absolute Return Bond Fund Australian Dollar Class (Accumulating), Payden Global High Yield Bond Fund Australian Dollar Class (Accumulating) and Payden USD Low Duration Credit Fund Australian Dollar Class (Accumulating) were launched.

22. SUBSEQUENT EVENTS

All shareholders of Payden Euro Liquidity Fund had fully redeemed on 28 March 2022 and this Fund is no longer being offered to investors. As at 12 March 2024, the Central Bank withdrew its approval of Payden Euro Liquidity Fund.

There have been no other subsequent events affecting the Company since the financial year ended 31 December 2023.

23. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the Directors at the Board meeting held on 23 April 2024.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

SCHEDULE OF SIGNIFICANT PORTFOLIO MOVEMENTS (UNAUDITED)

The following Schedule of Significant Portfolio Movements reflects the aggregate purchases of a security exceeding one per cent of the total value of purchases and aggregate disposals greater than one per cent of the total sales for the financial year. At a minimum the largest 20 purchases and 20 sales must be given. Should there have been less than that amount of transactions, all such transactions have been disclosed.

PAYDEN GLOBAL FUNDS PUBLIC LIMITED COMPANY

APPENDIX 1 – REMUNERATION POLICY (UNAUDITED)

The Manager has designed and implemented a remuneration policy (the “Policy”) in line with the provisions of S.I. 257 of 2013 European Union (Alternative Investment Fund Managers) Regulations 2013 (the “AIFM Regulations”), S.I. 352 of 2011 European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and of the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the “ESMA Guidelines”). The Policy is designed to ensure that the remuneration of key decision makers is aligned with the management of short and long-term risks, including the oversight and where appropriate the management of sustainability risks in line with the Sustainable Finance Disclosure Regulations.

The Manager’s remuneration policy applies to its identified staff whose professional activities might have a material impact on the Company’s risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the Company. The Manager’s policy is to pay identified staff a fixed component with the potential for identified staff to receive a variable component. It is intended that the fixed component will represent a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component. When the Manager pays a variable component as performance related pay, certain criteria, as set out in the Manager’s remuneration policy, must be adhered to. The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the relevant staff rank and professional activity as well as best market practice. The Manager’s remuneration policy is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the funds it manages.

These disclosures are made in respect of the remuneration policies of the Manager. The disclosures are made in accordance with the ESMA Guidelines.

Total remuneration (in EUR) paid to the identified staff of the Manager fully or partly involved in the activities of the Company that have a material impact on the Company’s risk profile during the financial year to 31 December 2023:

Fixed remuneration	EUR
Senior Management	1,578,804
Other identified staff	-
Variable remuneration	
Senior Management	28,006
Other identified staff	-
Total remuneration paid	1,606,810

No of identified staff – 17

Neither the Manager nor the Company pays any fixed or variable remuneration to identified staff of the Investment Manager.

On 29 September 2023, KBA Consulting Management Limited, the Manager of the Company, completed its merger with Waystone Management Company (IE) Limited (“WMC”). WMC is the surviving entity post-merger and as such, the Company’s Manager is WMC from this date and the above remuneration figures are the total remuneration for WMC.

There have been no material changes made to the Remuneration Policy or the Manager’s remuneration practices and procedures during the financial year.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Absolute Return Bond Fund Legal entity identifier: 5493000ZUNPSNNP34018

Environmental and/or social characteristics

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was at least 25% lower than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden’s assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund’s sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is at least 25% lower than the Corporate GHG of the ESG Universe.	Portfolio at least 25% less than ESG Universe: Corporate GHG Intensity	56% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	48% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	14%

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Fund does not commit to making sustainable investments.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Fund does not commit to making sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Money Markets	3.1%	United States
BRAZIL LTN 10/1/2023	Emerging Markets	1.8%	Brazil
U.S. TREASURY NOTE 11/30/2025	Government Related	1.6%	United States
U.S. TREASURY NOTE 7/31/2025	Government Related	1.4%	United States
U.S. TSY INFLATION INDEX NOTE 10/15/2028	Government Related	1.3%	United States
CAS 2019-R01 2B1 7/25/2031	Mortgage-Backed Securities	1.2%	United States

BRAZIL LTN 4/1/2024	Emerging Markets	1.0%	Brazil
BRAZIL LTN 1/1/2024	Emerging Markets	1.0%	Brazil
APID 2017-27A A2R 7/17/2030	Asset-Backed Securities	0.8%	Cayman Islands
ISHARES JPM EM LOCAL GOVERNMENT BOND	Emerging Markets	0.8%	Ireland
U.S. TREASURY BILL 5/4/2023	Government Related	0.8%	United States
OCP 2014-6X BR 10/17/2030	Asset-Backed Securities	0.7%	Cayman Islands
OAKIG 2020-1A A5 TNL 11/20/2050	Asset-Backed Securities	0.6%	United States
RIAL 2022-FL8 B 1/19/2037	Commercial Mortgage-Backed Securities	0.6%	Bermuda

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

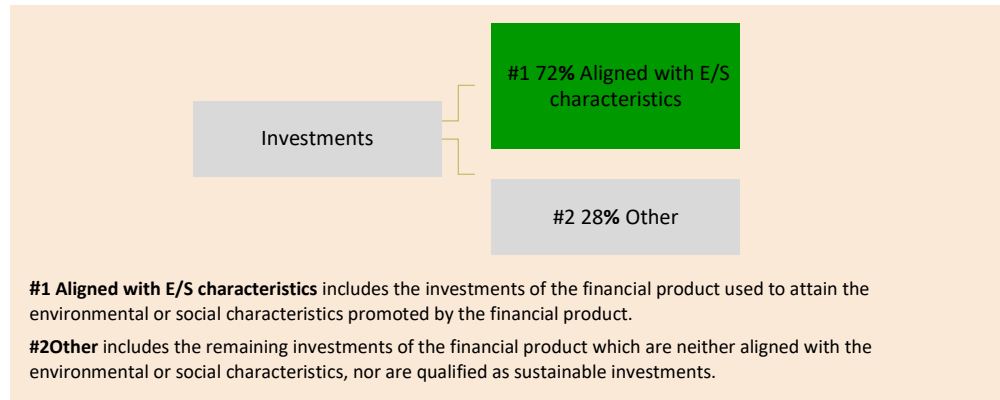

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 72%.

● **What was the asset allocation?**

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

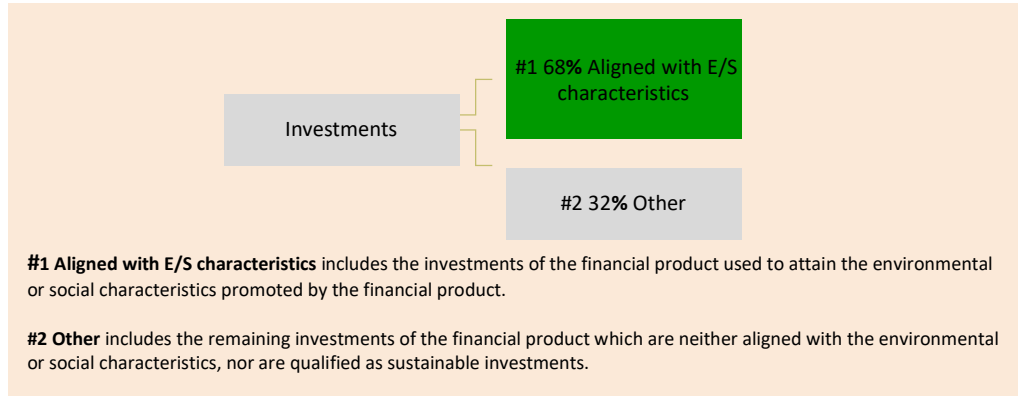

#1 Aligned with E/S characteristics: 72%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 28%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 68%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 32%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Investment Grade Corporates	28.25%
Commercial Mortgage-Backed Securities	18.00%
Asset-Backed Securities	17.25%
Emerging Markets	11.25%
High Yield	8.00%
Mortgage-Backed Securities	7.75%
Government Related	7.25%
Money Markets	2.25%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 4.36% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Global Aggregate Bond Fund Legal entity identifier: 549300M4O7A3C8LTLO80

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was at least 25% lower than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden’s assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund’s sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is at least 25% lower than the Corporate GHG of the ESG Universe.	Portfolio at least 25% less than ESG Universe: Corporate GHG Intensity	50% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	30% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	10%

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Governments/Cash	4.9%	United States
PAYDEN GLOBAL HIGH YIELD FUND	Corporates	4.4%	Mutual Funds
JAPAN GOVT 12/20/2045	Governments/Cash	2.5%	Japan
JAPAN GOVT 12/20/2025	Governments/Cash	2.4%	Japan
U.S. TREASURY BOND 5/15/2038	Governments/Cash	2.1%	United States
JAPAN GOVT 6/20/2028	Governments/Cash	1.9%	Japan
U.S. TREASURY NOTE 2/15/2051	Governments/Cash	1.7%	United States
GERMANY 1/4/2037	Governments/Cash	1.5%	Germany
U.K. GILT 12/7/2038	Governments/Cash	1.5%	United Kingdom
GERMANY 8/15/2026	Governments/Cash	1.5%	Germany
BTPS-ITALY GOVT 7/1/2025	Governments/Cash	1.3%	Italy
FRANCE O.A.T. 11/25/2028	Governments/Cash	1.3%	France
U.K. GILT 7/22/2027	Governments/Cash	1.0%	United Kingdom
U.S. TREASURY BILL 9/7/2023	Governments/Cash	1.0%	United States
GERMANY 8/15/2048	Governments/Cash	1.0%	Germany

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

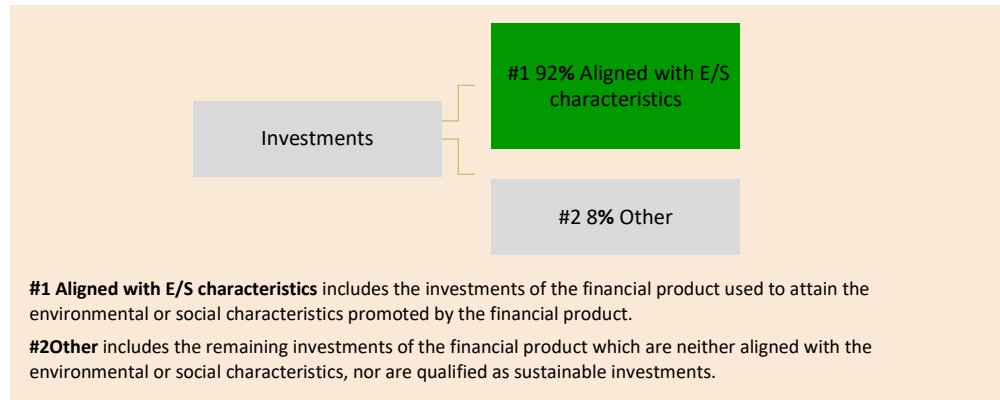

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 92%.

● **What was the asset allocation?**

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

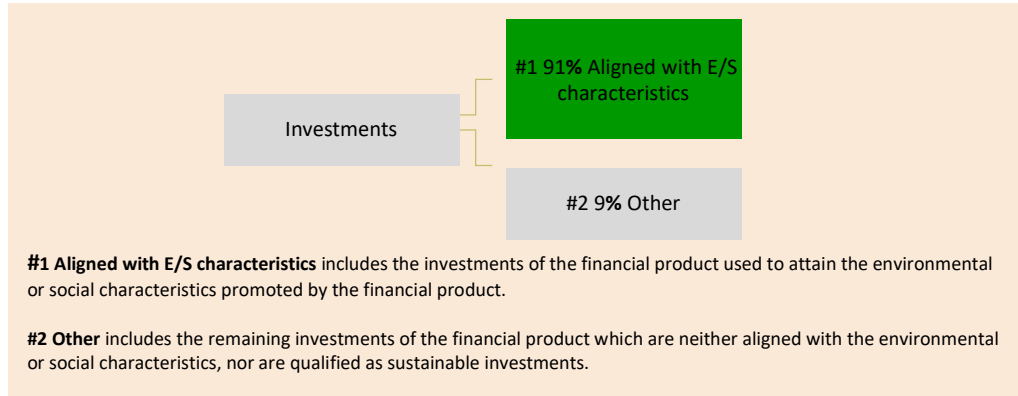

#1 Aligned with E/S characteristics: 92%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 8%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund’s asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 91%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 9%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Governments/Cash	49.25%
Corporates	30.00%
Mortgage-Backed	13.25%
Other	4.50%
Government Related	2.50%
Asset-Backed	0.50%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 2.21% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

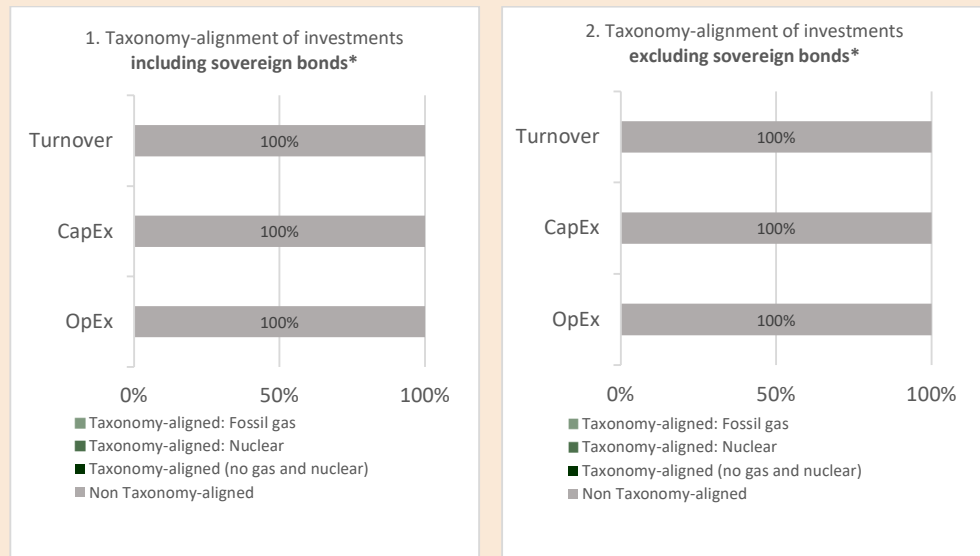

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Global Bond Fund Legal entity identifier: 549300QLHP100OZKZ558

Environmental and/or social characteristics

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was at least 25% lower than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden’s assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund’s sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is at least 25% lower than the Corporate GHG of the ESG Universe.	Portfolio at least 25% less than ESG Universe: Corporate GHG Intensity	64% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	22% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	2%

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Governments/Cash	6.0%	United States
GERMANY 7/4/2034	Governments/Cash	5.5%	Germany
JAPAN GOVT 3/20/2050	Governments/Cash	4.0%	Japan
BTPS-ITALY GOVT 7/1/2025	Governments/Cash	3.4%	Italy
BTPS-ITALY GOVT 8/1/2031	Governments/Cash	2.7%	Italy
BTPS-ITALY GOVT 12/1/2032	Governments/Cash	2.4%	Italy
FRANCE O.A.T. 11/25/2028	Governments/Cash	2.3%	France
FRANCE O.A.T. 4/25/2035	Governments/Cash	2.3%	France
MBONO 5/31/2029	Governments/Cash	2.2%	Mexico
MALAYSIA 5/31/2027	Governments/Cash	2.2%	Malaysia
JAPAN GOVT 12/20/2025	Governments/Cash	2.1%	Japan
SPAIN GOVT 10/31/2030	Governments/Cash	1.9%	Spain
EUROPEAN UNION 6/2/2028	Governments/Cash	1.7%	Supranational
U.S. TREASURY NOTE 10/31/2027	Governments/Cash	1.7%	United States
U.S. TREASURY BILL 4/6/2023	Governments/Cash	1.6%	United States

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

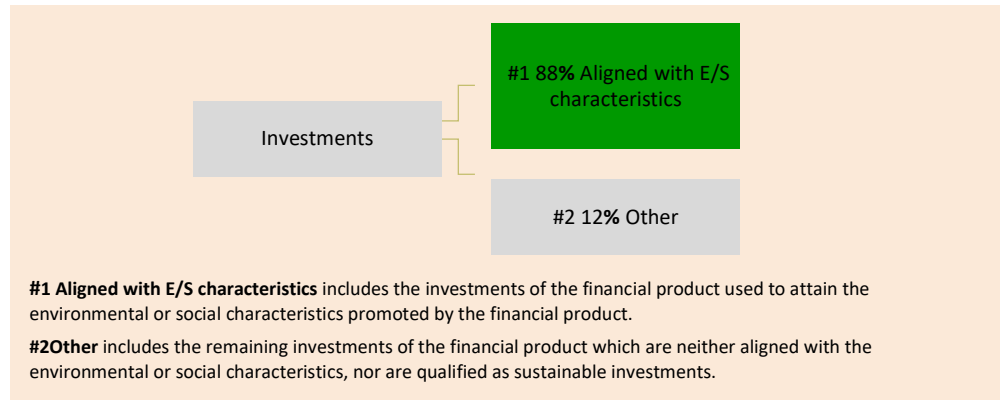

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 88%.

● **What was the asset allocation?**

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

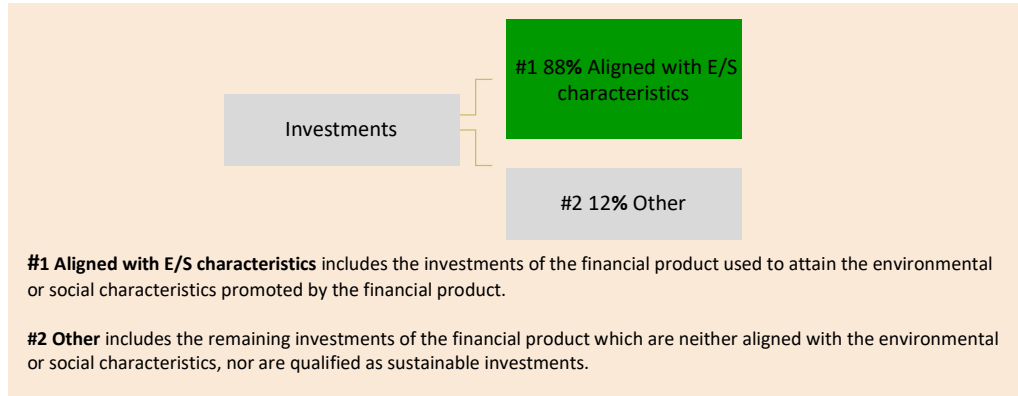

#1 Aligned with E/S characteristics: 88%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 12%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 88%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 12%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Governments/Cash	73.75%
Corporates	10.75%
Government Related	7.50%
Mortgage-Backed	3.50%
Other	2.50%
Asset-Backed	2.00%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 0.37% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Payden Global Emerging Markets Bond Fund
Legal entity identifier: 2DB2HJJUXUAZ507B3G63

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden's assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund's sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is less than the Corporate GHG of the ESG Universe.	Portfolio is less than ESG Universe: Corporate GHG Intensity	18% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	3% Less

Theme	Exclusion Description	Metric	Performance for the Period

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

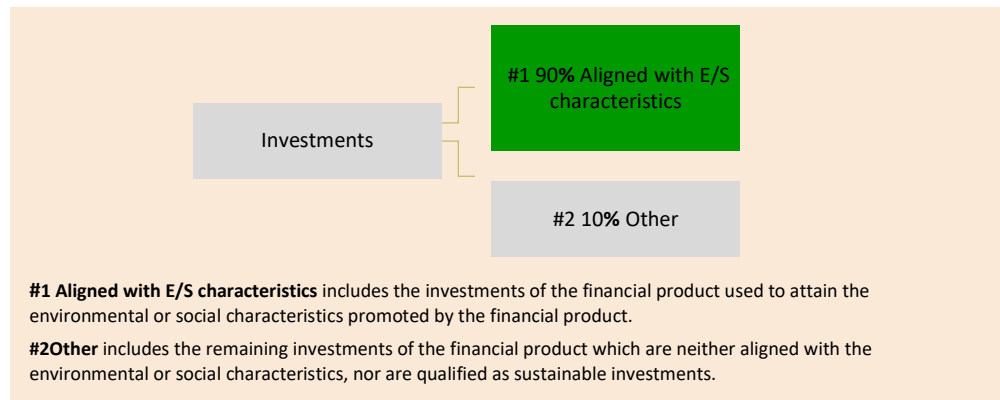

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 90%.

● *What was the asset allocation?*

As of December 31, 2023

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 90%

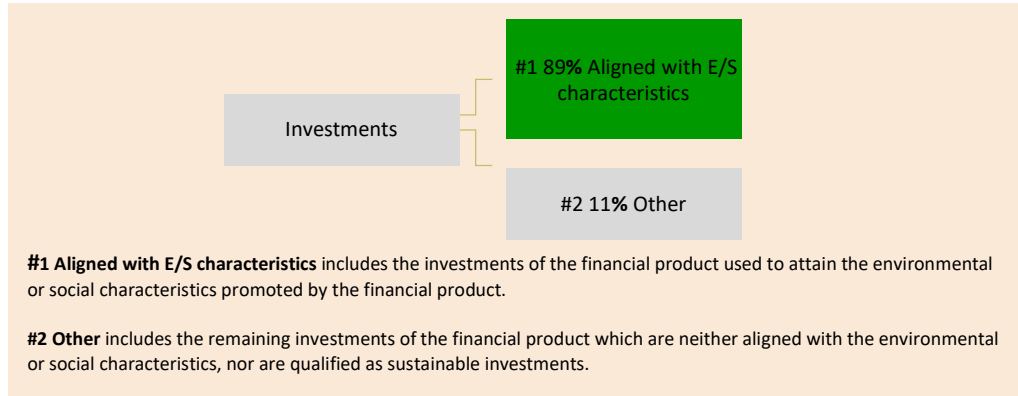

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 10%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Asset allocation describes the share of investments in specific assets.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 89%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 11%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Government / Govt Related	83.50%
Corporates	13.00%
Money Markets	3.50%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 3.42% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

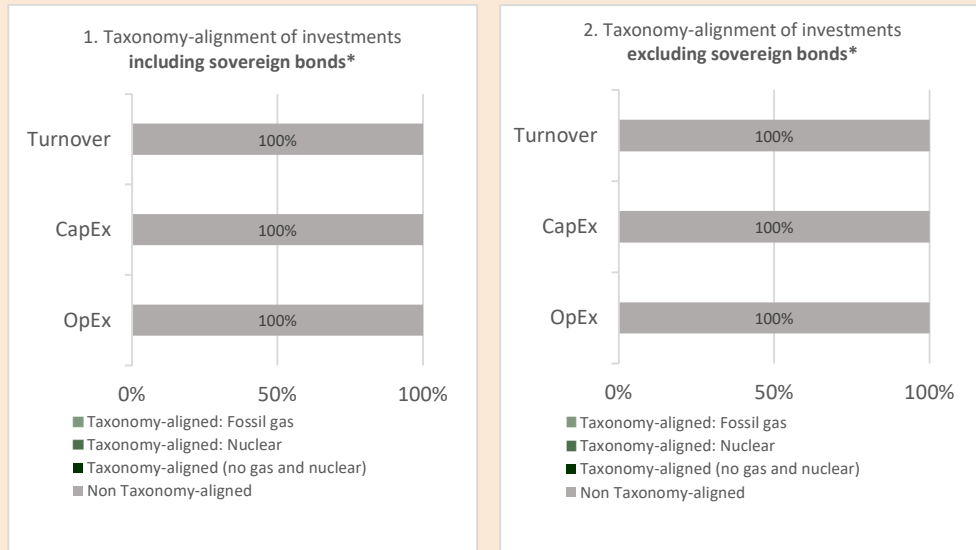

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● **Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?**

- Yes:**
- In fossil gas In nuclear energy
- No**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable. The Fund does not commit to making sustainable investments

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Global Emerging Markets Bond Fund (Hard Currency)
Legal entity identifier: 549300R2H1CKRHN2ZR97

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p style="margin: 0;"><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p style="margin: 0;"><input checked="" type="radio"/> <input type="radio"/> No</p> <p style="margin: 0;"><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p style="margin: 0;"><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden's assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund's sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is less than the Corporate GHG of the ESG Universe.	Portfolio is less than ESG Universe: Corporate GHG Intensity	1% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	5% Less

Theme	Exclusion Description	Metric	Performance for the Period
Environmental Screens			
Oil & Gas	▪ Companies that derive >5% of reported or estimated revenue from arctic oil and/or gas production.	# Active Breaches	No Active Breaches
	▪ Companies that derive >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas, and coal bed methane.	# Active Breaches	No Active Breaches
	▪ Companies that derive >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.	# Active Breaches	No Active Breaches
	▪ Companies with disclosed oil sands reserves who derive >5% of reported or estimated revenue from oil sands extraction.	# Active Breaches	No Active Breaches
Thermal Coal	▪ Companies that generate >1% of reported or estimated revenue from the mining of thermal coal.	# Active Breaches	No Active Breaches
	▪ For Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.	# Active Breaches	No Active Breaches
	▪ For Emerging Markets, companies that generate >25% of reported or estimated revenue from thermal coal-based power generation.	# Active Breaches	No Active Breaches

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Cash	2.9%	United States
MEXICO 5/19/2033	Government / Govt Related	1.9%	Mexico
NIGERIA 9/28/2028	Government / Govt Related	1.8%	Nigeria
SOUTH AFRICA 2/28/2041	Government / Govt Related	1.3%	South Africa
ROMANIA 1/28/2050	Government / Govt Related	1.3%	Romania
DOMINICAN REPUBLIC 2/22/2029	Government / Govt Related	1.1%	Dominican Republic
ABU DHABI CRUDE 11/2/2047	Government / Govt Related	1.1%	United Arab Emirates
CZECH REPUBLIC 7/23/2029	Government / Govt Related	1.0%	Czech Republic
INDONESIA 2/15/2033	Government / Govt Related	1.0%	Indonesia
ANGOLA 4/14/2032	Government / Govt Related	1.0%	Angola
SAUDI INT 1/18/2053	Government / Govt Related	1.0%	Saudi Arabia
BRAZIL NTN-F 1/1/2029	Government / Govt Related	0.9%	Brazil
MEXICO CITY ARPT 7/31/2047	Government / Govt Related	0.8%	Mexico
COSTA RICA 4/30/2025	Government / Govt Related	0.8%	Costa Rica
BAHRAIN 1/25/2033	Government / Govt Related	0.8%	Bahrain

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

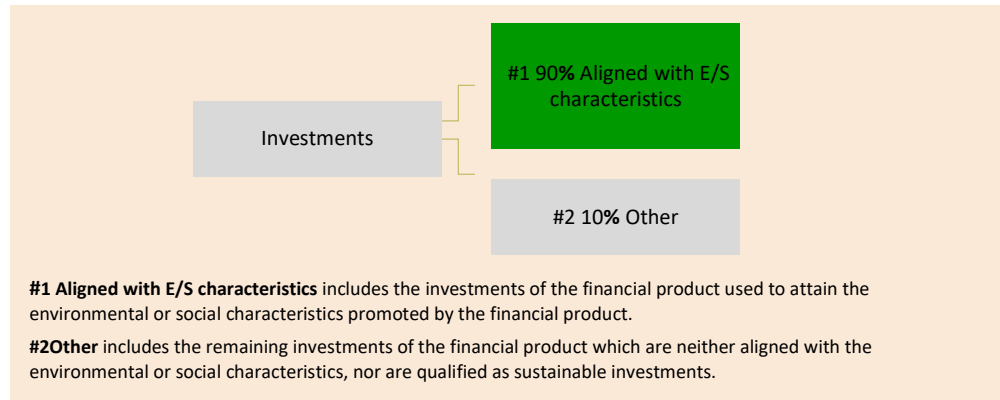

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 90%.

● *What was the asset allocation?*

As of December 31, 2023

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 90%

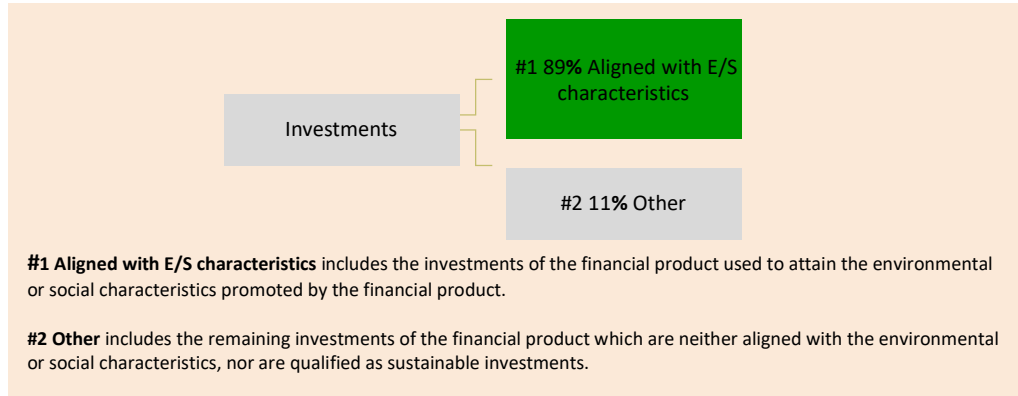

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 10%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Asset allocation describes the share of investments in specific assets.

As of December 31, 2022

The Fund’s asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 89%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 11%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Government / Govt Related	83.25%
Corporates	12.75%
Money Markets	4.00%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 4.32% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of

these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Global Equity Income Fund Legal entity identifier: 549300Z25JBWJCD93C66

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden's assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund's sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Money Markets	4.7%	United States
ASML HOLDING NV	Technology	2.4%	Netherlands
SHELL PLC	Energy	2.3%	United Kingdom
WILLIAMS COS	Energy	2.0%	United States
NIPPON TEL & TEL CORP	Communication Services	2.0%	Japan
MCDONALD'S	Consumer Discretionary	1.8%	United States
JPMORGAN CHASE	Financials	1.8%	United States
BROADCOM INC	Technology	1.8%	United States
BANCO BILBAO VIZCAYA ARGENTA	Financials	1.8%	Spain
SCHNEIDER ELECTRIC SA	Industrials	1.8%	France
ARTHUR J GALLAGHER & CO	Financials	1.7%	United States
LVMH MOET HENNESSY LOUIS VUI	Consumer Discretionary	1.5%	France
MITSUBISHI	Consumer Staples	1.5%	Japan
MICROSOFT	Technology	1.4%	United States
ABB LTD-REG	Industrials	1.3%	Switzerland

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

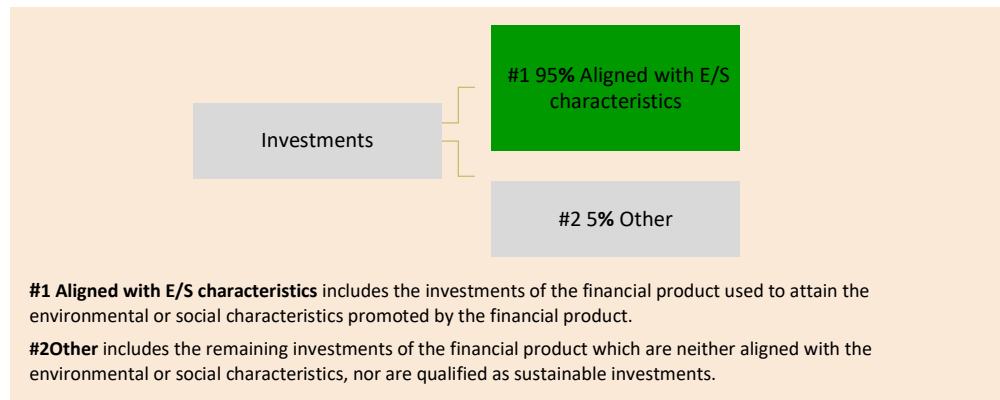

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 95%.

● What was the asset allocation?

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

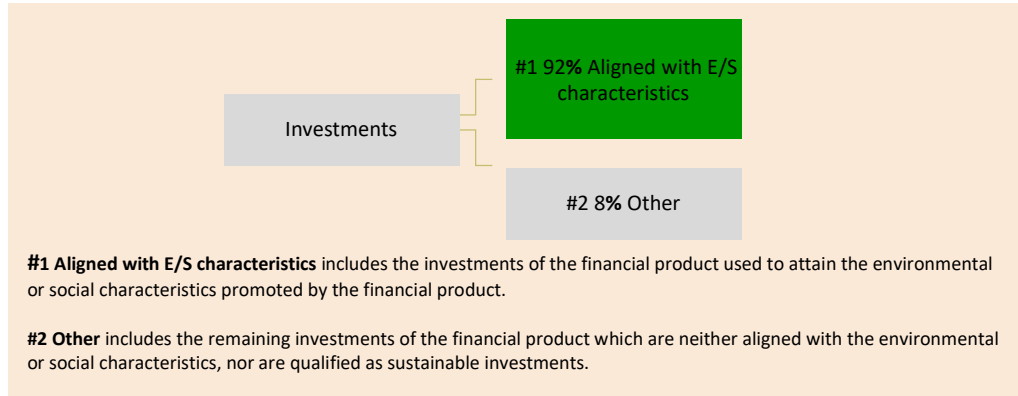

#1 Aligned with E/S characteristics: 95%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 5%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 92%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 8%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Financials	17.50%
Industrials	14.75%
Technology	12.50%
Health Care	11.00%
Consumer Staples	9.00%
Consumer Discretionary	8.75%
Communication Services	8.00%
Energy	6.50%
Money Markets	3.50%
Real Estate	3.25%
Materials	3.00%
Utilities	2.25%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 13.56% market value of holdings had more than zero percent revenue derived from fossil fuel

exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

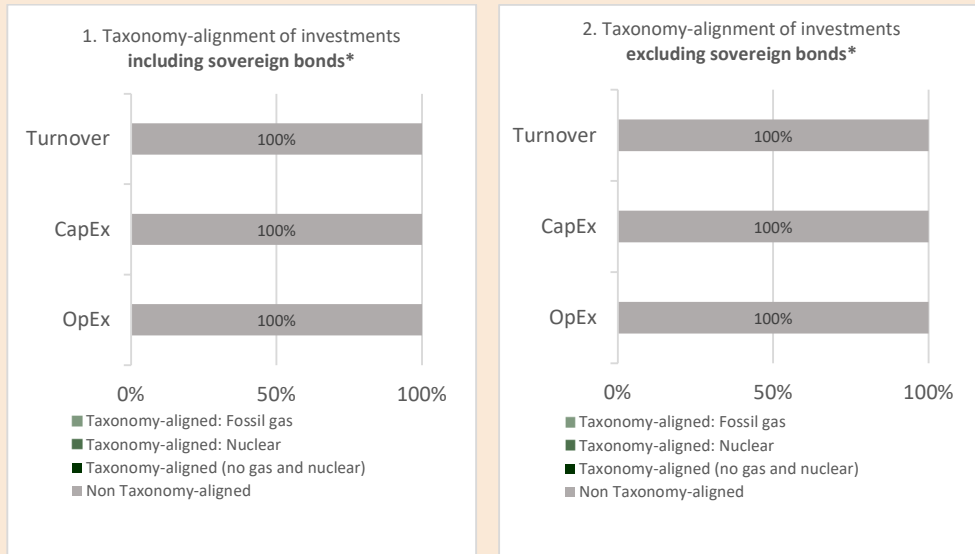

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Global High Yield Bond Fund Legal entity identifier: N3S2QQ8ZM0IMADIXCC63

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager ("Payden") used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden's assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund's sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is less than the Corporate GHG of the ESG Universe.	Portfolio is less than ESG Universe: Corporate GHG Intensity	24% Less

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Cash	10.7%	United States
U.S. TREASURY BILL 1/25/2024	Government	2.1%	United States
U.S. TREASURY BILL 5/18/2023	Government	1.3%	United States
SITIOS LATINOAMERICA 4/4/2032	Industrials	0.7%	Mexico
DELTA AIR LINES 10/28/2029	Consumer Cyclical	0.6%	United States
FAURECIA 2/15/2027	Consumer Cyclical	0.5%	France
CEMEX 26 3/19/2026	Industrials	0.5%	Mexico
CASH EUR	Cash	0.4%	European Union
TTM TECHNOLOGIES 3/1/2029	Industrials	0.4%	United States
YUM! BRANDS 1/15/2030	Consumer Non-Cyclical	0.4%	United States
TERRAFORM POWER 1/31/2028	Utilities	0.4%	United States
FORD MOTOR CREDIT 5/28/2027	Consumer Cyclical	0.4%	United States
MARB BONDCO 1/29/2031	Consumer Non-Cyclical	0.4%	Brazil
ENACT HOLDINGS 1/29/2031	Financials	0.4%	United States
INDOFOOD CBP SUKSES 1/29/2031	Consumer Non-Cyclical	0.3%	Indonesia

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

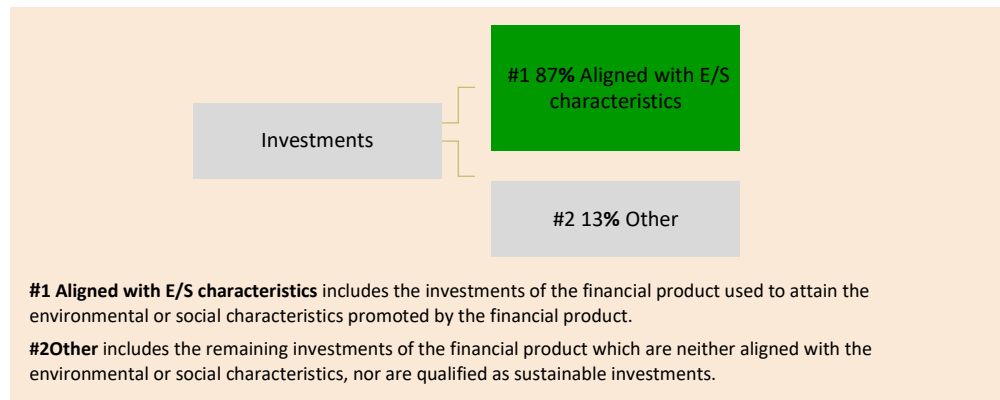

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 87%.

● **What was the asset allocation?**

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

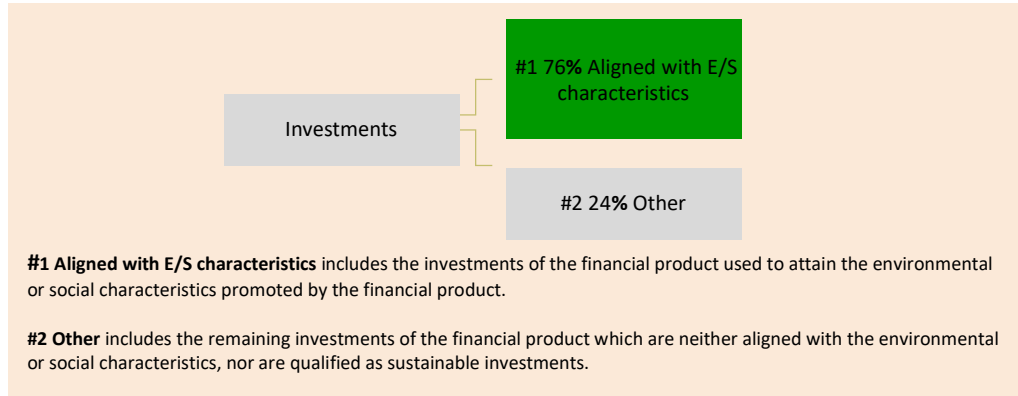

#1 Aligned with E/S characteristics: 87%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 13%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 76%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 24%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Communications	18.75%
Consumer Cyclical	16.25%
Financials	16.00%
Cash	13.50%
Industrials	12.50%
Consumer Non-Cyclical	9.25%
Energy	5.75%
Other	3.00%
Utilities	2.50%
Government	2.50%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 10.10% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Global Short Bond Fund Legal entity identifier: ZNWN8O9DHJXH605W2W59

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was at least 10% lower than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden’s assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund’s sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is at least 10% lower than the Corporate GHG of the ESG Universe.	Portfolio at least 10% less than ESG Universe: Corporate GHG Intensity	36% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	36% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	1%

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

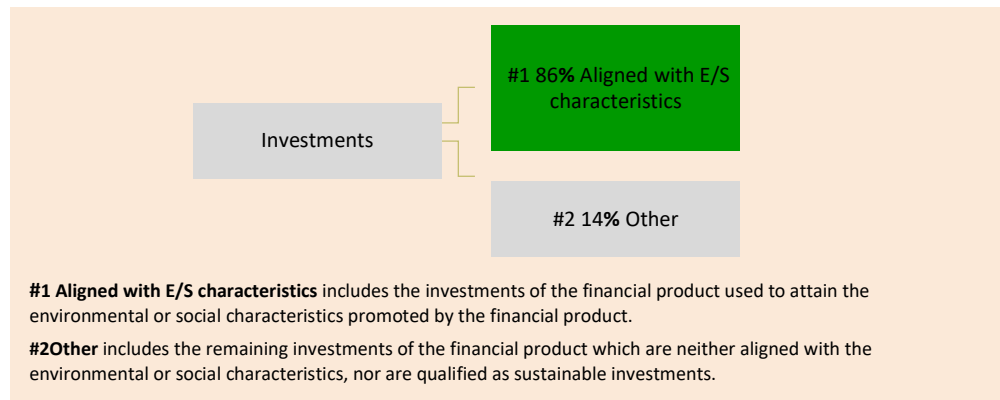

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 86%.

● *What was the asset allocation?*

As of December 31, 2023

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 86%

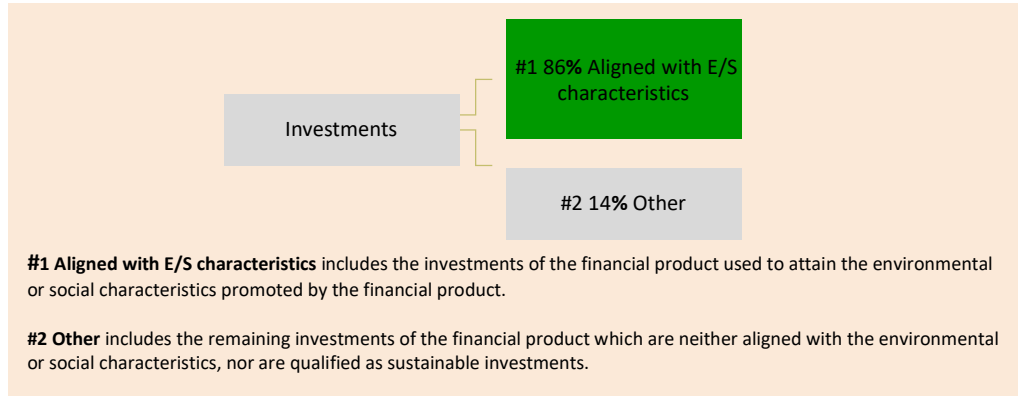

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 14%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Asset allocation describes the share of investments in specific assets.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 86%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 14%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Governments/Cash	58.75%
Corporates	30.75%
Asset-Backed	5.50%
Mortgage-Backed	2.00%
Government Related	1.75%
Other	1.25%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 1.07% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

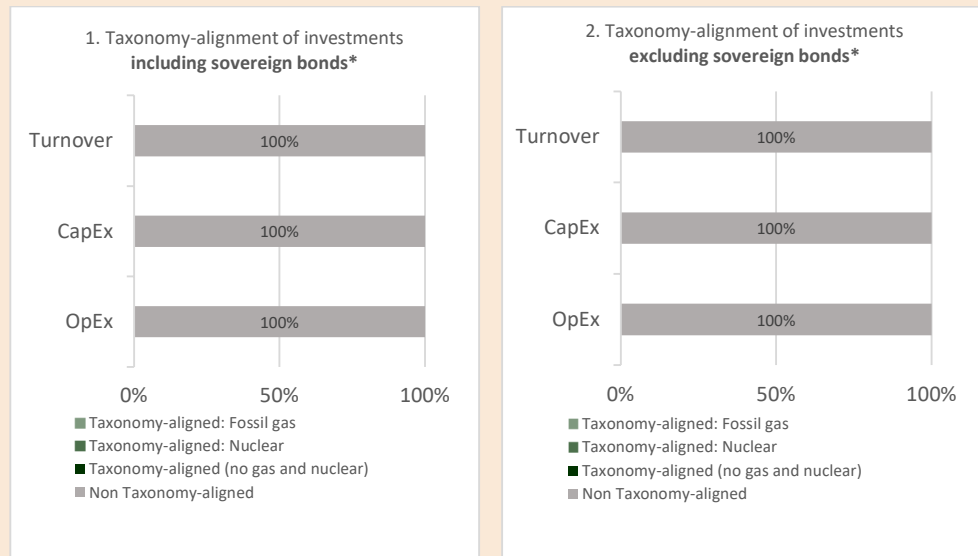

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden Sterling Reserve Fund **Legal entity identifier:** 54930003BDGLYTNFEH14

Environmental and/or social characteristics

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy

is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective: ___%**

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

No

It **promoted Environmental/Social (E/S) characteristics and** while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden’s assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund’s sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is less than the Corporate GHG of the ESG Universe.	Portfolio is less than ESG Universe: Corporate GHG Intensity	12% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	11% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	0%

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
U.K. GILT 6/7/2025	UK Gilts	3.2%	United Kingdom
UK TREASURY BILL 2/5/2024	UK Gilts	2.6%	United Kingdom
NEDER WATERSCHAPSBANK 12/16/2024	Government Related	2.0%	Netherlands
CPPIB CAPITAL 12/17/2024	Government Related	1.9%	Canada
COMMONWEALTH BANK OF AUSTRALIA 1/16/2025	Covered	1.8%	Australia
DEXIA CREDIT LOCAL 12/8/2023	Government Related	1.7%	France
KOMMUNALBANKEN 12/15/2023	Government Related	1.7%	Norway
UBS AG LONDON 12/18/2023	Financial Institutions	1.7%	Switzerland
WELLS FARGO 12/20/2023	Financial Institutions	1.5%	United States
RENTENBANK 12/15/2023	Government Related	1.5%	Germany
ROYAL BANK OF CANADA 7/13/2026	Financial Institutions	1.4%	Canada
BANK NEDERLANDSE GEMEENTEN 4/12/2024	Government Related	1.4%	Netherlands
TAURS 2021-UK1X A 5/17/2031	Asset-Backed	1.3%	Ireland
SGSHR 2021-1X A 11/17/2051	Asset-Backed	1.3%	United Kingdom
BANCO SANTANDER 7/31/2024	Financial Institutions	1.3%	Spain

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

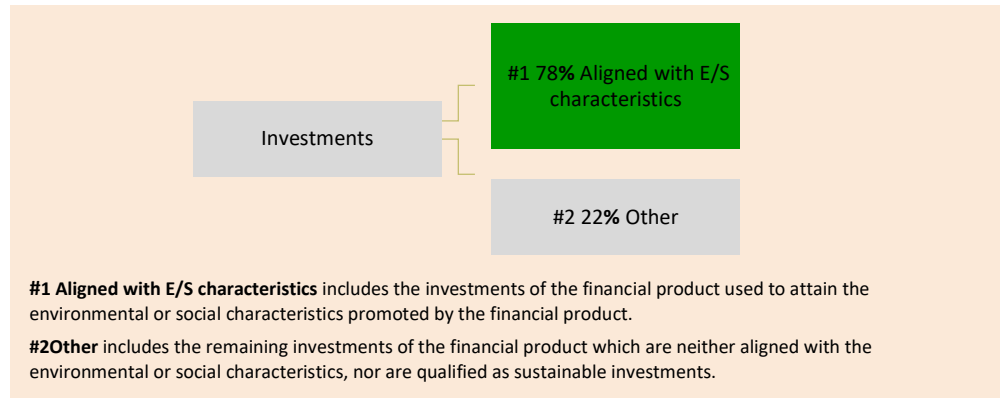

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 78%.

● *What was the asset allocation?*

As of December 31, 2023

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 78%

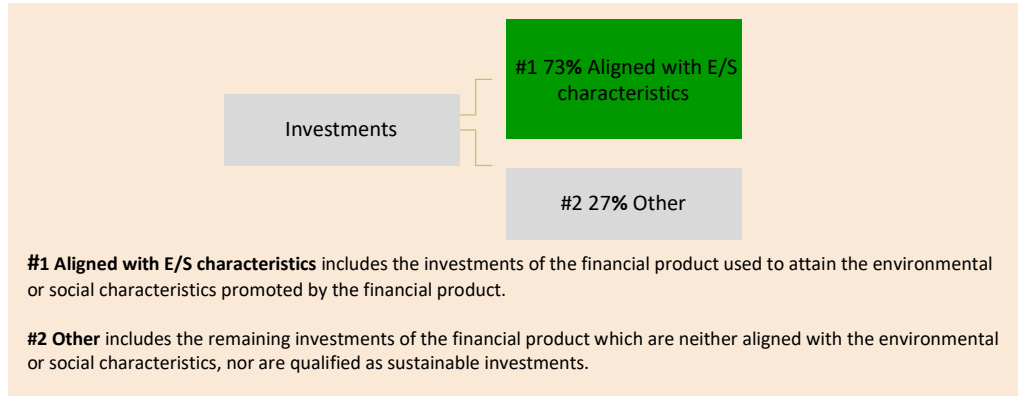

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 22%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Asset allocation describes the share of investments in specific assets.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 73%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 27%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Financial Institutions	24.25%
Government Related	22.75%
Covered	18.50%
Asset-Backed	11.50%
UK Gilts	9.25%
Industrials	8.50%
Mortgage-Backed	3.75%
Other	1.50%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 1.25% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden US Core Bond Fund Legal entity identifier: 5493003BTRNX18WJ6D22

Environmental and/or social characteristics

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective: ___%**

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

No

It **promoted Environmental/Social (E/S) characteristics and** while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was at least 25% lower than the Corporate GHG of the ESG Universe.

The Fund maintained a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden’s assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund’s sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is at least 25% lower than the Corporate GHG of the ESG Universe.	Portfolio at least 25% less than ESG Universe: Corporate GHG Intensity	55% Less
Sovereign Investments	The Fund sought to maintain a greenhouse gas intensity of investee countries that is no greater than the Sovereign GHG intensity of the ESG.	Portfolio is no greater than the ESG Universe: Sovereign GHG Intensity	19% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	24%

Theme	Exclusion Description	Metric	Performance for the Period

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
U.S. TREASURY BOND 11/15/2051	Government/Gov't Related	3.1%	United States
U.S. TREASURY NOTE 6/30/2025	Government/Gov't Related	3.1%	United States
U.S. TREASURY NOTE 10/15/2025	Government/Gov't Related	2.3%	United States
U.S. TREASURY BOND 11/15/2049	Government/Gov't Related	1.8%	United States
U.S. TREASURY NOTE 8/31/2024	Government/Gov't Related	1.7%	United States
U.S. TREASURY BILL 9/28/2023	Government/Gov't Related	1.4%	United States

U.S. TREASURY NOTE 7/31/2024	Government/Gov't Related	0.9%	United States
U.S. TREASURY NOTE 8/15/2033	Government/Gov't Related	0.9%	United States
CA STATE EARTHQUAKE AUTHORITY TAXABLE 7/1/2027	Municipal Bonds	0.9%	United States
GNMA II #MA7472 7/20/2051	Mortgage-Backed	0.8%	United States

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 88%.

● **What was the asset allocation?**

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

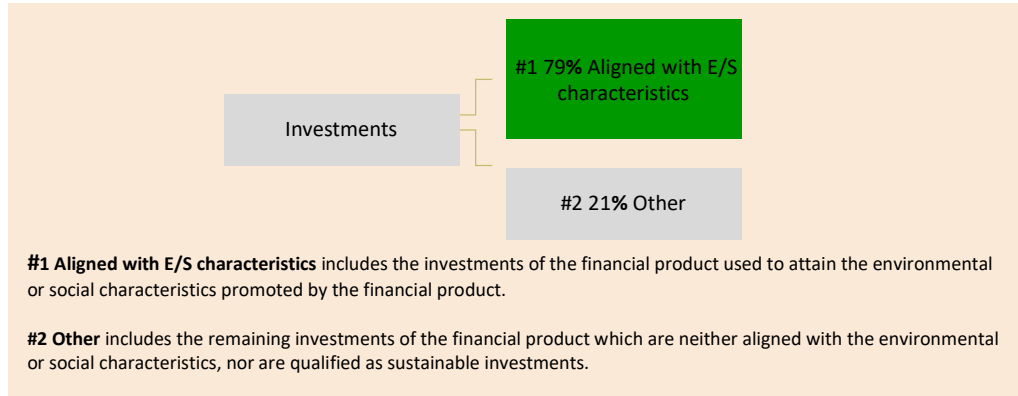

#1 Aligned with E/S characteristics: 88%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 12%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 79%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 21%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Mortgage-Backed	36.00%
Government/Gov't Related	31.50%
Corporates	25.25%
Asset-Backed	4.00%
Municipal Bonds	3.25%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 2.67% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

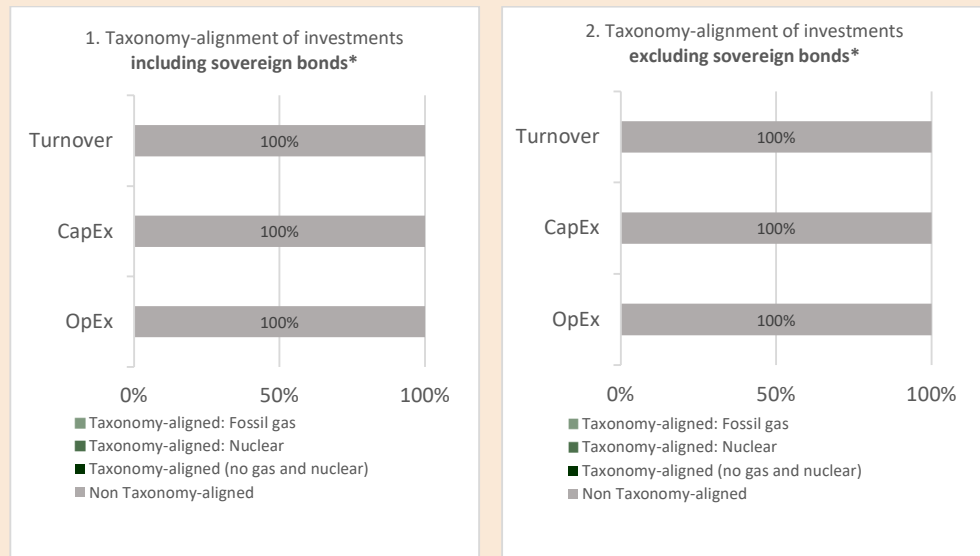

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Payden US Dollar Liquidity Bond Fund Legal entity identifier: 5493003BC0P4IOHC4X17

Environmental and/or social characteristics

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective: ___%**

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

No

It **promoted Environmental/Social (E/S) characteristics and** while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics and climate scores, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below-average "Climate Score."

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden's assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund's sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is less than the Corporate GHG of the ESG Universe.	Portfolio is less than ESG Universe: Corporate GHG Intensity	29% Less
Securitized Investments	US Commercial Mortgage Backed (CMBS) and Residential Mortgage Backed (RMBS) were considered to promote Climate Change Mitigation if they have a below average "Climate Score."	% CMBS and RMBS with a below average Climate Risk Score	15%

Theme	Exclusion Description	Metric	Performance for the Period
Environmental Screens			
Oil & Gas	▪ Companies that derive >5% of reported or estimated revenue from arctic oil and/or gas production.	# Active Breaches	No Active Breaches
	▪ Companies that derive >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas, and coal bed methane.	# Active Breaches	No Active Breaches
	▪ Companies that derive >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.	# Active Breaches	No Active Breaches

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
U.S. TREASURY BILL 12/21/2023	Money Markets	2.7%	United States

CIFC 2018-1A A 4/18/2031	Asset-Backed	0.9%	Cayman Islands
FHLB DISCOUNT NOTE 7/14/2023	Government/Gov't Related	0.9%	United States

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

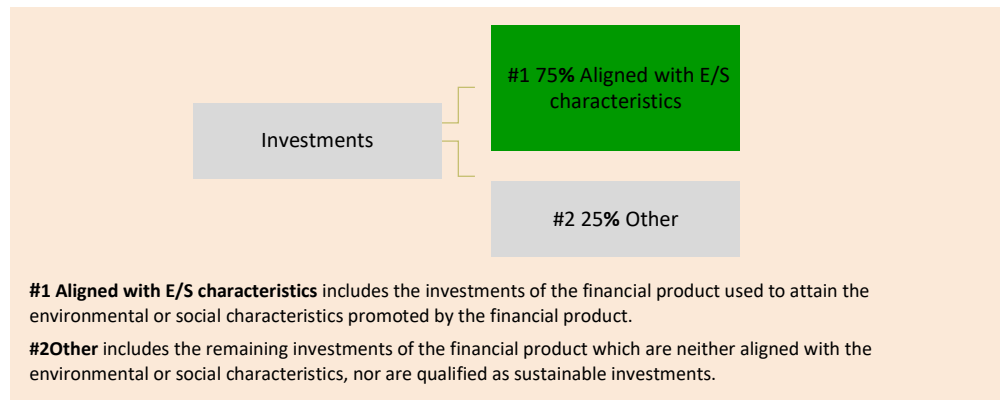

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 75%.

● **What was the asset allocation?**

As of December 31, 2023

Asset allocation describes the share of investments in specific assets.

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

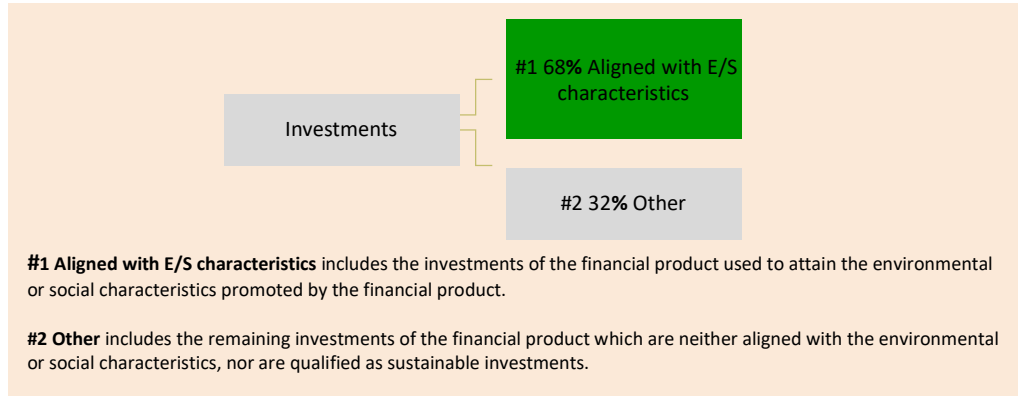

#1 Aligned with E/S characteristics: 75%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 25%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 68%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 32%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Money Markets	32.75%
Corporates	28.00%
Asset-Backed	17.75%
Government/Gov't Related	13.00%
Mortgage-Backed	7.00%
Municipal Bonds	1.50%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 1.59% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
Not applicable

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name Payden USD Low Duration Credit Fund Legal entity identifier: 549300NYCG2Q5B5KVVW94

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted during the period (i) the goal of climate change mitigation through the application of carbon metrics, (ii) restrictions on activities that could be deemed harmful to society or the environment through the application of the Payden ESG Investment Exclusion Policy, and (iii) Good Governance through the application of the Payden ESG Good Governance Policy.

The investment manager (“Payden”) used the below sustainability indicators to measure the attainment by the Fund of the environmental and/or social characteristics promoted by the Fund. The measurement of the attainment of binding criteria demonstrates the extent to which the Fund met the targets described below:

Climate Change Mitigation Criteria

The Fund maintained a greenhouse gas intensity of investee companies that was less than the Corporate GHG of the ESG Universe.

Exclusion Criteria

The Fund did not invest in any companies:

- (a) which derived >5% of reported or estimated revenue from arctic oil and/or gas production.
- (b) which derived >5% of reported or estimated revenue from unconventional oil and gas; examples include oil shale, shale gas, shale oil, coal seam gas and coal bed methane.
- (c) which derived >5% of reported or estimated revenue from oil sands extraction for a set of companies that own oil sands reserves and disclose evidence of deriving revenue from oil sands extraction.
- (d) with disclosed oil sands reserves which derived >5% of reported or estimated revenue from oil sands extraction.
- (e) for Developed Markets, companies that generate >10% of reported or estimated revenue from thermal coal-based power generation.
- (f) for Emerging Markets, companies that generated >25% of reported or estimated revenue from thermal coal-based power generation.
- (g) that generated >1% of reported or estimated revenue from the mining of thermal coal.
- (h) that manufactured nuclear warheads and/or whole nuclear missiles.
- (i) that had ownership, manufactured, or invested in cluster munitions, landmines, biological/chemical weapons, depleted uranium weapons, blinding laser weapons, incendiary weapons, and/or non-detectable fragments.
- (j) that have derived revenue from activities directly related to for profit prisons.
- (k) which generated more than 5% of revenue from the manufacture and retail of civilian firearms and ammunition.
- (l) that manufactured tobacco products, such as cigars, blunts, cigarettes, e-cigarettes, inhalers, beedis, kreteks, smokeless tobacco, snuff, snus, dissolvable and chewing tobacco, and companies that grew or processed raw tobacco leaves.
- (m) where the recent-year percent of revenue was >5% derived from tobacco-related business activities.

The Fund did not invest in any issuers:

- (n) that were the subject of European External Action Service (EEAS) trade sanctions.
- (o) that were the subject of United Nations Security Council (UNSC) trade sanctions.

Good Governance Criteria

Corporate issuers disclosed information in relation to their governance practices to permit Payden's assessment of data-driven standards.

Corporate issuers had either sufficient independent directors or did not have a combined role of Chairman and CEO.

No corporate issuers were in violation of the United Nations Global Compact.

No corporate issuer was subject to an accounting investigation.

● **How did the sustainability indicators perform?**

As of 31 December 2023, the Fund's sustainability indicators were:

Climate Change Mitigation	Description	Metric	Performance for the Period
Corporate Investments	The fund sought to maintain a greenhouse gas intensity of investee companies that is less than the Corporate GHG of the ESG Universe.	Portfolio is less than ESG Universe: Corporate GHG Intensity	18% Less

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund does not commit to making sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund does not commit to making sustainable investments.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund does not commit to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts on sustainability factors in various ways, including (i) the application of the Payden ESG Investment Exclusion Policy, (ii) the promotion of E/S characteristics, and (iii) the application of the Payden ESG Engagement Policy which outlines Payden’s engagements with issuers. In addition, Payden periodically reviewed data sources and methodologies used to assess and mitigate principal adverse impacts. The Principal Adverse Impacts considered in the fund are outlined in the [Principal Adverse Impact Statement](#).

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

Largest Investment	Sector	% Assets	Country
CASH USD	Money Markets	4.0%	United States
CITIGROUP 2/24/2028	Corporates	1.1%	United States
DEUTSCHE BANK 5/30/2024	Corporates	0.7%	United States
BANK OF AMERICA 7/22/2027	Corporates	0.7%	United States
JPMORGAN CHASE 4/22/2027	Corporates	0.7%	United States
REGAL REXNORD 4/15/2028	Corporates	0.6%	United States
ALLY FINANCIAL 10/2/2023	Corporates	0.6%	United States
KEY BANK 8/8/2025	Corporates	0.6%	United States
JPMORGAN CHASE 2/24/2026	Corporates	0.6%	United States
VBTEL 2022-1A D DATA 2/15/2052	Asset-Backed	0.6%	United States
MANUFACTURERS & TRADERS TRUST 11/21/2025	Corporates	0.6%	United States
ICAHN ENTERPRISES 9/15/2024	Corporates	0.6%	United States
ROYAL BANK OF CANADA 11/1/2027	Corporates	0.6%	Canada Cayman Islands
KREF 2022-FL3 A 2/17/2039	Mortgage-Backed	0.5%	United States
GENERAL MOTORS FINANCIAL 4/7/2025	Corporates	0.5%	United States

The top investments in the Fund were selected based on the largest holdings as calculated by the weighted average market value of securities, based on quarter-end holdings of the total portfolio over the reporting period. The largest investments include securities allocated to both #1 Aligned with E/S characteristics and #2 Other.

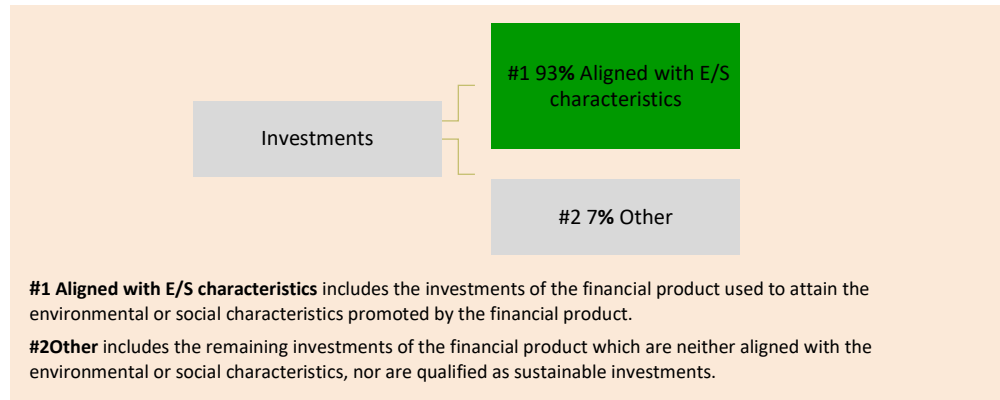

What was the proportion of sustainability-related investments?

The Fund does not commit to making sustainable investments. The proportion of the investments of the Fund used to meet the characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 93%.

● *What was the asset allocation?*

As of December 31, 2023

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 93%

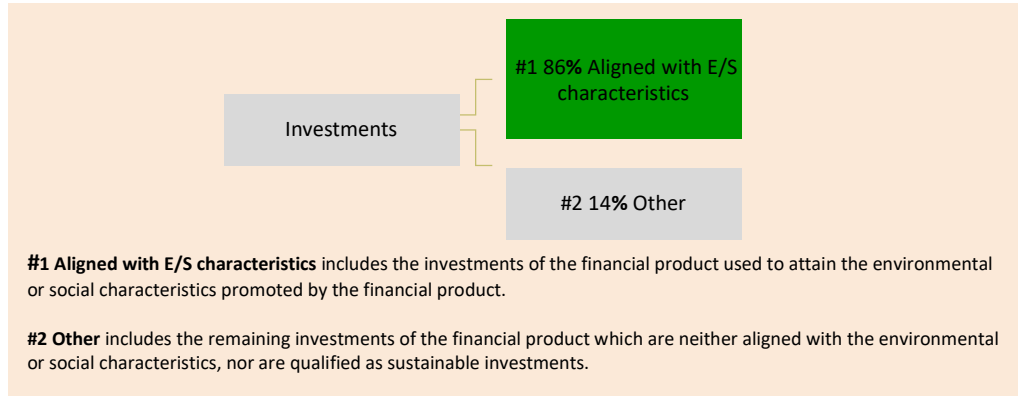

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 7%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Asset allocation describes the share of investments in specific assets.

As of December 31, 2022

The Fund's asset allocation was as follows based on the market value of holdings at end of the period:

#1 Aligned with E/S characteristics: 86%

This is the portion of assets in the Fund promoted E/S Characteristics through (i) the goal of Climate Change Mitigation, (ii) the application of the Payden ESG Investment Exclusion Policy, and (iii) the application of the Payden ESG Good Governance Policy.

#2 Other: 14%

Securities within the #2 Other category were held for various reasons. Examples of included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant E/S Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below table details the economic sectors that the Fund invested in during the reference period:

Economic Sector	Exposure
Corporates	93.00%
Money Markets	4.25%
Mortgage-Backed	1.00%
Asset-Backed	0.75%
Government/Gov't Related	0.75%
Municipal Bonds	0.25%

The proportionate allocation to each economic sector of the Fund was calculated by the weighted average market value of securities in each sector, based on quarter-end holdings over the reporting period. Within the above economic sectors, on average over the period, according to the available MSCI data 8.39% market value of holdings had more than zero percent revenue derived from fossil fuel exploration, mining, extraction, production, processing, storage, refining or distribution.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments. The Fund does not carry out EU Taxonomy aligned screening and any EU Taxonomy alignment is only incidental.

● Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

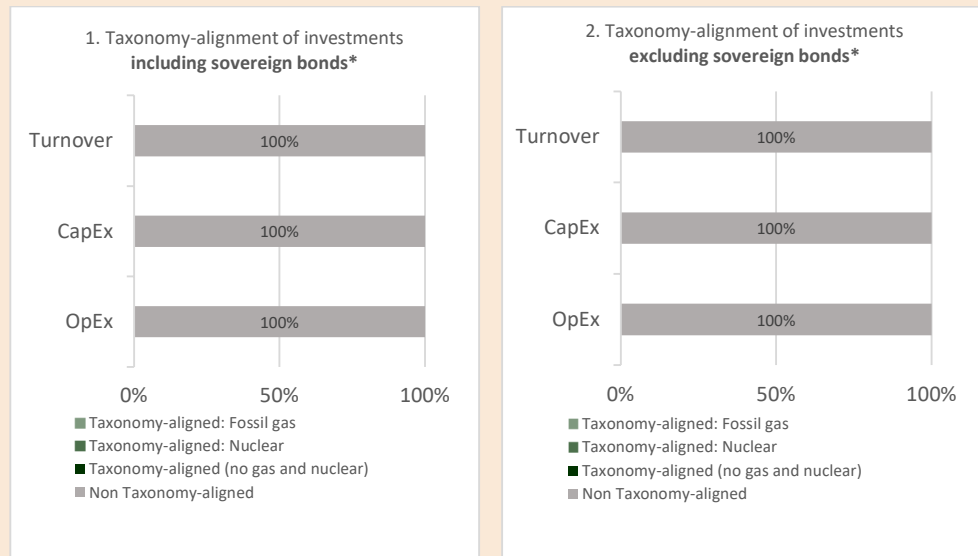

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund does not commit to making sustainable investments

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable. The Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund does not commit to making sustainable investments

What was the share of socially sustainable investments?

Not applicable. The Fund does not commit to making sustainable investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Securities within the #2 Other category were held for various reasons. Examples of such holdings included, but were not limited to, investments in (i) securities that lack ESG data, (ii) securities without a relevant ESG Universe comparator, (iii) cash or cash equivalents, or (iv) derivatives.

Payden used cash and derivatives in the management of the Fund. Cash was used for liquidity purposes and not used to promote E/S Characteristics. In addition, the use of derivatives did not promote an E/S Characteristic. Rather, derivatives were typically used to hedge positions from time to time. As such, cash and derivatives were not included in the portfolio market value calculation of securities aligned with environmental or social objectives.

The Fund’s minimum safeguards are the ESG Investment Exclusions and Governance Assessment outlined in the Payden ESG Investment Exclusion Policy and Payden ESG Good Governance Policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- 1) Compliance controls were used to monitor binding elements of the Fund. The Payden ESG-Compliance Sub-Committee is responsible for the monitoring and testing of this ESG Investment Exclusion Policy. Guidelines are coded in Payden’s internal trade compliance systems to ensure Fund adherence.
- 2) Payden’s portfolio management systems were further evolved to manage and monitor the above guidelines. This includes a detailed view of portfolio ESG exposures, and sourcing data in accordance with the Payden ESG Data Policy. These enhancements further bolstered Payden’s ESG management capabilities.
- 3) Payden conducted engagement with portfolio holding companies on ESG issues through targeted engagements that seek specific outcomes related to ESG objectives. These objectives align with behaviours Payden believes support long-term value creation/protection and/or reflect the values of those on whose behalf Payden invests.
- 4) Further detail relating to Payden’s ESG Good Governance Policy, ESG Investment Exclusion Policy, Principal Adverse Impact Statement, and ESG Engagement Policy are available here: [Payden & Rygel Investment Management](#). The combination of these documents provides further details on the promotion of the environmental and/or social characteristics of the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

- ***How does the reference benchmark differ from a broad market index?***
Not applicable
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable
- ***How did this financial product perform compared with the broad market index?***
