What is this product?

Type:

This product is a UCITS Fund.

Term:

This Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time in line with the constitutional documents of the Company. For full investment objectives and policy details, please refer to the Investment objectives and investment policy in the Fund's Supplement to the Prospectus, which are available at <https://web.gavekal-capital.com>

Objective:

The Fund is considered to be actively managed in reference to MSCI World Index (the "Index") by virtue of the fact that it seeks to outperform the Index. While certain of the Fund's securities may be components of and may have similar weightings to the Index, the Investment Adviser will use its discretion to invest in securities or sectors not included in the Index in order to take advantage of investment opportunities. The investment strategy does not restrict the extent to which the Fund's holdings may deviate from the Index and deviations may be significant. This is likely to increase the extent to which the Fund can outperform or under perform the Index.

Investment Policy:

The investment policy of the Fund is to identify, analyse and invest in companies representative of the market structure of 22 developed market countries in North America, Europe and the Asia/Pacific region. This is done using macro, valuation based and technical criteria used to identify companies whose performance should beat global equity markets performance over the coming quarters. To achieve its investment objective, the Fund will invest directly in equities listed on a Recognised Exchange, concentrating on OECD countries, Hong Kong and Singapore.

Dealing:

You may buy, sell or switch shares daily by submitting an application to the Fund's administrator before 4 p.m. (Irish time) falling 2 business days prior to the relevant valuation date. These classes do not use currency hedging.

Intended investor:

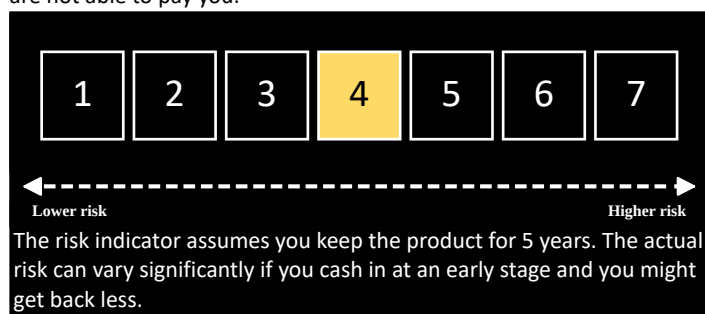

This Fund is appropriate for investors with a long-term investment horizon. The Investment Adviser recommends 3 years investment in the Fund.

The latest published prices of shares of each share class of the Fund are available from web.gavekal-capital.com and on Bloomberg.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is "a medium" risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you a positive return on your investment. Be aware of currency risk. This risk is not considered in the indicator shown above. For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at <https://web.gavekal-capital.com>. This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you may get less in extreme market circumstances.

Recommended holding period:		3 years	
Example Investment:		\$10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 3 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$2,350	\$3,430
	Average return each year	-76.48%	-30.03%
Unfavourable	What you might get back after costs	\$7,920	\$8,860
	Average return each year	-20.84%	-3.94%
Moderate	What you might get back after costs	\$10,610	\$12,040
	Average return each year	6.08%	6.38%
Favourable	What you might get back after costs	\$15,270	\$16,650
	Average return each year	52.70%	18.52%

For "Average return each year"- This type of scenario occurred for an investment between fund inception to the last update. While based on actual performance during this period, it was in exceptional circumstances that are not likely to be repeated in the foreseeable future either in Stress, Unfavourable, Moderate or Favourable environment.

What happens if Gavekal is unable to pay out?

You may face a financial loss should the Manufacturer, Gavekal Capital Limited, default on its obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

Costs over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed that the product performs as shown in the moderate scenario and USD 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	\$307	\$1,072
Annual cost impact (*)	3.1%	3.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.5% before costs and 6.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs		\$0
Exit costs	Not Applicable	\$0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	This figure may vary from year to year. The ongoing charges figure shown does not include transaction costs incurred when the Sub-Fund buys or sells assets.	\$199
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	\$111
Incidental costs taken under specific conditions		
Performance fees	Not Applicable	\$0

How long should I hold it and can I take money out early?

Recommended holding period: 3 years.

The Fund has daily liquidity. The Fund has no minimum required holding period. The recommended holding period of the Fund assumes the Fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The Fund is not intended for short term speculation purposes.

How can I complain?

As a shareholder in the Fund, you are entitled to make a complaint free of charge. Any such complaint must be handled by the manager of the Company promptly and effectively. You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received. Further information on the complaints policy relating to the Fund is available by emailing: marco@gavekal.com
