Barings Global Umbrella Fund

Introduction

Barings Global Umbrella Fund (the “Unit Trust”) is an umbrella fund constituted as a unit trust established pursuant to a Trust Deed dated 21 June 1993 (as amended from time to time) (the “Trust Deed”) made between Baring International Fund Managers (Ireland) Limited (the “Manager”) and Northern Trust Fiduciary Services (Ireland) Limited (the “Depositary”) and authorised by the Central Bank of Ireland (the “CBI”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”). The Unit Trust is also listed on Euronext Dublin Global Exchange Market.

As the Unit Trust is registered for sale in Hong Kong, it has also been authorised by the Hong Kong Securities and Futures Commission (“SFC”) pursuant to the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time. Further details of the Funds are contained in the supplement to the Prospectus.

The Unit Trust is organised in the form of an Umbrella Fund. The Trust Deed provides that the Unit Trust may offer separate series of units, each representing interest in a Trust Fund (“a Fund”) comprised of a distinct portfolio of investments. A separate Fund is maintained for each series of units and is invested in accordance with the investment objective applicable to such Fund to date. Each Fund may create more than one class of units in relation to a Fund (“a class”) and these separate classes of units may be denominated in different currencies. A unit represents a beneficial interest in the Fund (“a unit”).

The Unit Trust has two active Funds presented in financial statements as at 31 October 2023, which have been approved by the CBI. The Unit Trust has another active Fund, Barings Eastern Europe (SP) Fund (formerly Barings Eastern Europe Fund), which is presented for the period ended 31 October 2023 as a set of stand alone financial statements.

Fund	Fund launch date
Barings Developed and Emerging Markets High Yield Bond Fund (merged 2 December 2022)*	19/07/1993
Barings Global Leaders Fund	26/02/2001
Barings Global Resources Fund	12/12/1994

* Barings Developed and Emerging Markets High Yield Bond Fund merged into Barings Umbrella Fund Plc on 2 December 2022. However, the Investments listed in the Schedule of Investments were not transferred as part of the merger due to restrictions related to a corporate action disclosure event and the Russian asset was not transferred due to sanctions. As a result, the financial statements for this Fund have been prepared on a non-going concern basis.

Active Funds had several classes of units on offer at the financial period-end, which are outlined in note 10 to these financial statements. Further details of the Funds are contained in the individual supplements to the full Prospectus.

The financial statements include all the trades received up until 12:00p.m. (Irish time) on 31 October 2023, the valuation point for the Unit Trust.

Barings Global Umbrella Fund

Investment Objective and Policy

Barings Developed and Emerging Markets High Yield Bond Fund

The primary investment objective of the Barings Developed and Emerging Markets High Yield Bond Fund (the "Fund") was to produce a high level of current yield in US dollar terms, commensurate with an acceptable level of risk as determined by the Manager at its reasonable discretion. Any capital appreciation would have been incidental. The Fund sought to achieve its primary investment objective by investing at least 70% of its total assets at any one time in a combination of debt and loan securities (including credit-linked securities) of corporations and governments (including any agency of government or central bank) of any member state of the Organisation for Economic Co-operation and Development ("OECD"), and of any developing or emerging markets. The Fund may have invested in contingent convertible bond(s) up to a limit of 10% of Fund's NAV.

The Fund merged into Barings Umbrella Fund Plc on 2 December 2022. As a result, the financial statements for this Fund have been prepared on a non-going concern basis.

Barings Global Leaders Fund

The investment objective of the Barings Global Leaders Fund (the "Fund") is to achieve long-term capital growth by investing in equities listed or traded on a wide range of international markets.

The Fund will seek to achieve its investment objective by investing at least 70% of its Net Asset Value in equities and equity-related securities listed, quoted or traded on global markets, all of which could be in emerging markets.

The Fund will invest at least 50% of the Fund's Net Asset Value in equities of issuers that exhibit positive or improving environmental, social and governance ("ESG") characteristics.

Barings Global Resources Fund

The investment objective of the Barings Global Resources Fund (the "Fund") is to achieve long-term capital appreciation through investment in a diversified portfolio of the securities of commodity producers, being issuers engaged in the extraction, production, processing and/or trading of commodities e.g. oil, gold, aluminium, coffee and sugar. Baring Asset Management Limited (the "Investment Manager") will identify worldwide commodities experiencing, or expected to experience, strong demand growth, and select appropriate issuers for analysis and possible investment.

The Fund will invest at least 50% of the Fund's Net Asset Value in equities of issuers that exhibit positive or improving ESG characteristics.

Please refer to the Prospectus for the full investment objective and policy of all the Funds.

How the Funds are/were managed

The Manager of Barings Developed and Emerging Markets High Yield Bond Fund had appointed Baring Asset Management Limited as the Investment Manager of the Fund. Under the terms of the Sub-Investment Management Agreement, dated 22 February 2017, the Investment Manager appointed Barings LLC as Sub-Investment Manager to provide discretionary investment management and advisory services to the Fund. Barings LLC has extensive investment expertise in high-yield securities, which supported the Fund's strategy and enabled the Fund's investors to benefit from their extensive investment platforms.

The Fund invested in high yield bonds in both emerging and developed markets. When investing the Fund's assets, the Manager sought to take advantage of inefficiencies between geographic regions. For example, the Fund sought to take advantage of pricing anomalies across the entire capital structure (i.e. resources and experience across high-yield investment capabilities, secured, unsecured, and debt denominated in different currencies of the same issuer), potentially allowing the Fund to achieve a higher relative return for the same credit risk exposure. In addition, relative value decisions for geographic allocations across the high yield bond market were determined using top-down, macro views based upon the overall global macroeconomic and geopolitical landscape, corporate fundamentals, expected returns and default rates, fund flows, new issuance volume, interest rate trends, and relative value across geographies among other topics. Once geographic allocations had been determined, portfolio managers relied on Baring's global team of research analysts to select individual bonds based on its fundamental bottom-up approach to credit.

Investment Objective and Policy (continued)

How the Funds are/were managed (continued)

The Manager of Barings Global Leaders Fund and Barings Resources Fund have appointed Baring Asset Management Limited as the Investment Manager. The Funds are managed using a well-defined quality Growth at a Reasonable Price (“GARP”) investment style which aims to identify strong businesses with good expansion potential and attractive valuations. The Investment Manager draws on the research conducted by Barings’ centralised global equity platform to construct a high conviction, concentrated portfolio.

Barings Global Leaders Fund invests in leading global companies that exhibit industry excellence, superior returns and long growth paths. Barings Global Resources Fund is managed against a diversified performance comparator and has the flexibility to move in and out of sectors. The Fund has exposure to Next Generation Resources sectors, in addition to traditional commodity and consumer resources, which provide access to nascent growth super cycles.

Please refer to the Prospectus for the full risk profile for each of the Funds. Investors should read the Prospectus and carefully consider the potential risk factors as well as reward factors before investing.

Barings Developed and Emerging Markets High Yield Bond Fund

Performance

The Barings Developed and Emerging Markets High Yield Bond Fund (the "Fund") merged into Barings Umbrella Fund Plc on 2 December 2022, however, five Russian assets valued at US\$Nil held by the Fund were not merged due to sanctions and will continue to be held within the Fund. Therefore, there is no performance data for the reporting period.

Barings Global Umbrella Fund

Investment Managers' Report (continued)

For the financial period ended 31 October 2023

Barings Global Leaders Fund

Performance

The Barings Global Leaders Fund (the "Fund") generated a gross return of -5.64% on the Class A USD Inc unit class and underperformed the performance comparator which returned -1.93%* during the reporting period. The Fund generated a net return of -6.56% on the Class A USD Inc unit class.

Sector performance over the period saw a wide divergence with Information Technology the top performing sector by a large margin, whilst some of the more defensive areas of the market, notably Health Care and Consumer Staples, came under pressure. The Funds relatively low exposure to Technology vs the performance comparator, and higher exposure to Health Care and Consumer Staples, was a large headwind to relative performance.

At a stock level, the largest detractor to relative performance over the period was Dutch-listed payments company Adyen following an earnings update that missed investor expectations. Adyen has developed a world leading multicurrency, multi-region payments platform. Weakness in their recent results was caused by heightened price competition in the US market. Despite this, they retain a very compelling global, multicurrency growth opportunity, and we have retained our Adyen investment.

In contrast, Amazon, which is one of the portfolio's largest positions, closed the period as the top-performing contributor to relative returns. Shares reacted positively to signs of rapid adoption of new generative AI technologies, which should prove a material long-term demand driver.

Leading US health insurer, UnitedHealth, is another large position and also significantly contributed to positive performance in the period, and despite wider healthcare sector weakness. We view the US health insurance market as attractive due to its low economic cyclicality and high barriers to entry, as evidenced by the failed joint venture between Amazon, JP Morgan, and Berkshire Hathaway in recent years. This industry also benefits from structural growth tailwinds such as rising healthcare costs, an ageing population, and growing Medicare advantage penetration. UnitedHealth enjoys significant competitive advantages, thanks to its scale and vertical integration into healthcare provision and software.

Market outlook

Developed markets continue to see strong labour markets, however, there is a risk that high interest rates continue to pressure consumer spending. Core inflation is declining, though most developed market central banks, led by the US Federal Reserve, have maintained their mantra of "higher for longer" which may weigh on economic growth. The outlook for China also remains uncertain and depends, in part, on what level of further support the government will provide to help strengthen consumer confidence.

Amid this uncertain macro backdrop, the Fund remains focused on stock selection and owning high quality, growth companies where the current valuation does not fully reflect their long-term returns potential. Positively, at this stock specific level, we see a lot to be excited about.

For example, within the Healthcare space, alongside UnitedHealth which should perform well in any macro environment, the Fund also owns a position in Dutch pharmaceutical company Novo Nordisk. Novo Nordisk should deliver very strong earnings growth over the next decade thanks to its highly innovative GLP-1 weight loss drugs that have significant broader health benefits that should drive very strong adoption.

Within Industrials, the Fund holds a position in Johns Lyng Group, a small-cap Australian business that has carved out for itself an attractive niche in doing building services work on damaged property on behalf of insurers. It is a capital light, high returns business model with low economic and interest rate sensitivity. Having established itself as the Australian market leader, Johns Lyng Group is now beginning to enter and disrupt the US market which significantly expands its growth outlook.

Barings Global Leaders Fund (continued)

Market outlook (continued)

Within technology we find a number of exciting opportunities in both established leaders which are investing to extend their leadership positions such as Google, Microsoft and Nvidia. But we also see a number of very focused smaller companies which, somewhat regardless of market cycles, can continue to disrupt the status quo of their markets. Monolithic Power, which makes power semiconductors for a number of growing end markets appears, for example, to be very well positioned to benefit from the increasing power management requirements for running Artificial Intelligence infrastructure.

Barings Global Resources Fund

Performance

The Barings Global Resources Fund (the "Fund") generated a gross return of -2.56% on the Class A USD Inc unit class and overperformed the performance comparator, which returned -2.57 %* during the reporting period. The Fund generated a net return of -3.52% on the Class A USD Inc unit class.

Global resources equities were weaker in absolute terms over the period as concerns of a broader global economic slowdown weighed on the asset class.

Some of the strongest performers over the period were energy companies, whose share prices generally performed well in response to OPEC+ production cuts which provided support to the oil price. This benefitted the holdings in Suncor Energy, ConocoPhillips and Aker BP, which were the portfolio's top contributors to relative performance. All three companies released solid quarterly earnings over the period and continue to be high-conviction holdings for the portfolio.

In contrast, stock selection in the Materials sector had a negative impact on relative performance. Speciality chemicals business Croda was weak following some lacklustre corporate earnings and a profit warning, as volumes were reduced by customers using up existing inventory as opposed to purchasing new products. Whilst this has been a tougher period for Croda, we believe this period of inventory destocking is reaching an inflection point and the outlook for the business is improving. The holding in AngloGold also underperformed following softer quarterly earnings that were negatively impacted by some one-off costs because of a mine closure in Brazil.

New holdings over the period included Norwegian energy company Equinor, which is a highly cash generative business run by a disciplined management team that has the potential for further growth via its renewables business and low carbon fuels. Fertiliser company Nutrien was sold from the portfolio as the company's earnings in the near-term have been impacted by inventory destocking and we believe there are better opportunities elsewhere.

Market outlook

Looking ahead, the macro environment for the natural resources sector remains dynamic. Concerns around a recession in some form globally are weighing heavily on the Energy and Materials sectors which are being buffeted by sometimes contradictory economic data.

We are mindful that valuations are attractive and returns to shareholders secured by unlevered balance sheets, but that with economic growth slowing in key economies the sector will be prone to periods of weakness.

The economic outlook remains uncertain as talk of a recession refuses to subside. Expectations of broad stimulus from the Chinese government now appear optimistic, with policymakers looking set to favour a more targeted approach. A growing risk of an El Nino weather event which generally leads to hotter global temperatures is making the energy transition thematic increasingly important.

Fundamentals on a longer-term basis remain very compelling underpinned by the energy transition and the need to feed a growing population. As such we will look for periods of weakness to add to key holdings and sectors.

We are positive on the outlook for gold and the industrial gas names which are defensive in nature, positive on certain aluminium and copper names, and neutral on agriculture and energy.

* The Fund return uses the midday prices, whereas the return of the comparator is calculated using global close prices.

Barings Global Umbrella Fund

Notes to the financial statements

For the financial period ended 31 October 2023

1. Basis of measurement

The financial statements presented are unaudited condensed interim financial statements for the financial period ended 31 October 2023 that have been prepared in accordance with Financial Reporting Standard 104 ("FRS 104") "Interim Financial Reporting".

The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 30 April 2023, which have been prepared in accordance with accounting standards generally accepted in Ireland, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish statute, comprising the Unit Trusts Act, 1990, and the provisions of the Hong Kong Code on Unit Trusts and Mutual Funds, supplemented or consolidated from time to time.

The accounting policies applied in these condensed interim financial statements are consistent with those used in the Unit Trust most recent annual financial statements for the financial year ended 30 April 2023.

The condensed interim financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. These financial statements were prepared on the going concern basis.

The Unit Trust meets all the conditions set out in FRS 102, section 7 and consequently has availed of the exemption available to certain funds not to prepare a statement of cash flows.

The comparative figures included for the Statement of Financial Position relate to the previous financial year ended 30 April 2023, while the comparative figures included for the Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares relate to the six month period ended 31 October 2022.

Barings Developed and Emerging Markets High Yield Bond Fund merged into Barings Umbrella Fund Plc on 2 December 2022. As a result, the financial statements for this Fund have been prepared on a non-going concern basis. The financial statements for the Barings Global Leaders Fund and Barings Global Resources Fund have been prepared on a going concern basis.

2. Significant accounting policies

Fair value measurement

By fully adopting FRS 102, in accounting for its financial instruments, a reporting entity is required to apply either a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, or c) the recognition and measurement provisions of IFRS 9 Financial Instruments and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Unit Trust has chosen to implement (b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

The use of the IAS 39 recognition and measurement provisions is in line with the pricing policy, which outlines that the fair value of financial assets and financial liabilities be valued at the last traded prices. The financial statements include all the trades received up until 12:00p.m. (Irish time) on 31 October 2023, the valuation point for the Unit Trust.

3. Cash and cash equivalents and collateral cash

Cash and cash equivalents and collateral cash are valued at fair value with interest accrued, where applicable. Barings Developed and Emerging Markets High Yield Bond Fund held cash deposits of US\$290 (30 April 2023: US\$Nil), Barings Global Leaders Fund held cash deposits of US\$1,090,495 (30 April 2023: US\$2,509,492) and Barings Global Resources Fund held cash deposits of US\$5,504,740 (30 April 2023: US\$10,777,973). Cash deposits are maintained with The Northern Trust Company ("TNTC"), London branch, with uninvested cash balances being swept daily into the Northern Trust Global Funds. Any collateral cash is held by the broker as this is restricted cash.

* Barings Developed and Emerging Markets High Yield Bond Fund merged into Barings Umbrella Fund Plc on 2 December 2022.

The Unit Trust is managed by the Manager, who has delegated investment responsibility to Baring Asset Management Limited (the “Investment Manager”). The Investment Manager is an investment management company incorporated in London on 6 April 1994. The Investment Manager is part of the Barings LLC Group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company (“MassMutual”). The Investment Manager has appointed Barings LLC as the Sub-Investment Manager to the relevant Funds. The outstanding amounts payable as at the end of the financial period-end for management fees are disclosed on each Fund’s Statement of Financial Position. The management fees charged during the financial period are disclosed on each Fund’s Statement of Comprehensive Income.

The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The Investment Manager will discharge the fees and expenses of the Sub-Investment Manager out of its own fee. The management fee is payable monthly in arrears and is calculated by reference to the Net Asset Value of each Fund as at each business day (“valuation day”).

Where the Net Asset Value of any Fund includes interests in any Investment Fund managed by a subsidiary of the parent company (“a Barings Fund”), the fee payable to the Manager relating to the holding will be reduced by the percentage rate (if any) charged to the Barings Fund for comparable management services.

Barings Global Umbrella Fund

Notes to the financial statements (continued)

For the financial period ended 31 October 2023

6. Significant agreements and fees (continued)

Administration, Depositary and Operating fees

The Manager is entitled to receive an Administration, Depositary and Operating Expenses fee. The fee payable is a percentage of the Net Asset Value of each class and is accrued daily and paid monthly in arrears. The Manager will pay the aggregate fees and expenses of the Administrator and Depositary, in addition to certain other fees and ongoing expenses.

For all Funds, the Manager is entitled to receive a fee of 0.45% per annum for all A unit classes (A Hedged classes 0.4625%) and 0.25% per annum for all I unit classes (I Hedged classes 0.2625%).

Please refer to the Prospectus for full details of the fees payable.

Trailer fees and reimbursements

Trailer fees (commissions for the marketing of the Funds) are paid to distribution, commission and sales agents out of the management fees. Reimbursements to institutional investors, who, from a commercial perspective, are holding the Funds' redeemable participating units for third parties, are also paid out of the management fees.

Transaction costs

The Funds' transaction costs at 31 October 2023 and 31 October 2022 are included in the Net fair value loss on financial assets at fair value through profit or loss under the Statement of Comprehensive Income.

The transaction costs incurred by the Funds for the financial period ended 31 October 2023 and financial period ended 31 October 2022 respectively, were as follows:

	31 October 2023	31 October 2022
	US\$	US\$
Barings Developed and Emerging Markets High Yield Bond Fund	–	1,598
Barings Global Leaders Fund	26,324	19,572
Barings Global Resources Fund	85,468	78,633

7. Related party transactions

Julian Swayne who resigned effective 4 August 2023 and Rhian Williams who was appointed on 14 August 2023 are employed by Barings Investment Services Limited. Alan Behen and Paul Smyth are employees of the Manager. Syl O'Byrne and Barbara Healy are non-executive Directors, independent of the Investment Manager. The Manager will discharge the fees and expenses of the Investment Manager out of its own fee. The Investment Manager is part of the Barings LLC group and is a wholly owned subsidiary of Massachusetts Mutual Life Insurance Company ("MassMutual"). Barings LLC acts as the Sub-Investment Manager for the relevant Funds. The Investment Manager will discharge the fees and expenses of the Sub-Investment Manager out of its own fee. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

Significant unitholdings

The following table details significant concentrations in unitholdings of the Funds, or instances where the units were beneficially held by other Investment Funds managed by the Manager or one of its affiliates. As at 31 October 2023, the following had significant unitholdings in the Funds:

Barings Global Resources Fund	Nil (30 April 2023: Nil)	Nil (30 April 2023: Nil)	Nil (30 April 2023: 0.17%)

8. Fair value hierarchy

FRS 102 requires the Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that is not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input was assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Manager. The Manager considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables analyse within the fair value hierarchy, the Funds' financial assets and financial liabilities measured at fair value.

9. Efficient portfolio management

The Funds may use Financial Derivative Instruments (“FDIs”) for efficient portfolio management. The efficient portfolio management purposes for which the Unit Trust intends to employ FDIs are reduction of risk, reduction of cost and the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general provisions of the UCITS Regulations. The Unit Trust may use various types of derivatives for these purposes, including, without limitation, forwards, futures, options, swaps (including but not limited to total return swaps, credit default swaps, and IRSs) and contracts for differences for these purposes.

Risk Monitoring of Global Exposure

The Funds have been classified as a non-sophisticated user of FDI and, as permitted by the UCITS Regulations, the Unit Trust has adopted a commitment approach (the “Commitment Approach”) in the calculation of global exposure for the Unit Trust during the financial period.

In accordance with the UCITS Regulations, the Commitment Approach has been calculated, in the case of forward currency contracts (“FCCTs”), by converting the FCCT position into an equivalent position based on the market value of the underlying asset. As the FDI are used for hedging purposes, the exposure of the FDI has been calculated and then netted against the instrument being hedged. The Global Exposure calculation is performed on a daily basis.

In no circumstances will the global exposure of a Fund exceed 100% of its Net Asset Value.

12. Soft commission arrangements

The Investment Manager will pay for research from their own books, as commission paid on trades will be "execution only", which is the agreed cost for the broker to settle the trade (31 October 2022: same).

13. Contingent liabilities

There were no contingent liabilities at financial period-end 31 October 2023 and financial year-end 30 April 2023.

14. Transactions with connected persons

The UCITS Regulations require that any transaction carried out with the Manager by a Promoter, Manager, Depositary, Investment Manager and/or associate of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unitholders.

The Board of Directors of the Manager are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

15. Taxation

Under current law and practice, the Unit Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, it is not chargeable to Irish tax on its income or capital gains.

However, Irish tax may arise if a "chargeable event" occurs. A chargeable event includes any distribution payments to unitholders, or any encashment, redemption, transfer or cancellation of units and any deemed disposal of units for Irish tax purposes arising as a result of holding units in the Unit Trust for a period of eight years or more, or the appropriation or cancellation of units of a unitholder by the Unit Trust for the purposes of meeting the amount of tax payable on a gain arising on a transfer.

Barings Global Umbrella Fund

Notes to the financial statements (continued)

For the financial period ended 31 October 2023

15. Taxation (continued)

No Irish tax will arise on the Unit Trust in respect of chargeable events due to:

(a) a unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided that a relevant declaration is in place (in accordance with Schedule 2b of the TCA) and the Unit Trust is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct; or

(b) a unitholder who is an exempt Irish investor (as defined in Section 739D TCA).

Dividends, interest and capital gains (if any) received on investments made by the Unit Trust may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Unit Trust or its unitholders.

The Finance Act 2010 provides that the Revenue Commissioners may grant approval for Unit Trust Investment Undertakings marketed outside of Ireland to make payments to non-resident investors without deduction of Irish tax where no relevant declaration is in place, subject to meeting "equivalent measures". The Unit Trust Investment Undertakings wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

16. Bank facilities

There is a bank overdraft facility in place with The Northern Trust Company ("TNTC"). An "uncommitted" multi-currency loan facility has been made available by TNTC to the Funds. During the financial period ended 31 October 2023 and financial year ended 30 April 2023, Barings Global Leaders Fund and Barings Global Resources Fund have not drawn down on this facility.

17. Material changes to the Prospectus

An updated Prospectus of the Unit Trust was issued on 1 September 2023. The following are the material changes made:

- Updates have been made as part of a general refresh and for the purposes of the Sustainable Finance Disclosure ("SFDR"), namely to update the relevant disclosures (such as ESG good governance language) and also to include the new EU Taxonomy nuclear and gas related disclosure in the SFDR annexes.

There are other immaterial changes to the Prospectus that are not listed above.

18. Significant events

Effective 21 July 2023, a side pocket solution to re-establish a degree of liquidity for Barings Eastern Europe Fund was launched, in the best interests of the Unitholders. The non-impacted liquid assets of Barings Eastern Europe Fund were transferred to a new fund, Barings Eastern Europe Fund, a sub-fund of Barings International Umbrella Fund. Effective 21 July 2023, the name of Barings Eastern Europe Fund (the sub-fund of Barings Global Umbrella Fund) was changed to Barings Eastern Europe (SP) Fund. The impacted Belarusian, Russian and Ukrainian assets remained in Barings Eastern Europe (SP) Fund. When restrictions are lifted, the intention is to sell the impacted assets and liquidate the Fund, therefore the financial statements for this Fund have been prepared on a non-going concern basis.

The First Addendum to the Prospectus of the Unit Trust was issued on 21 July 2023, where the name of Barings Eastern Europe Fund was changed to Barings Eastern Europe (SP) Fund.

Mr. Julian Swayne resigned as a Director of the Manager with effect from 4 August 2023.

Ms. Rhian Williams was appointed as a Director of the Manager with effect from 14 August 2023.

The Prospectus of the Unit Trust was updated on 1 September 2023. The material changes to the Prospectus are outlined in note 17.

18. Significant events (continued)

Russia/Ukraine Conflict

The ongoing conflict between Russia and Ukraine has led to significant disruption and volatility in the global stock market. As a result of this, the fair value of Russian securities held within the Funds experienced a sharp decline. As a consequence of this management made the determination to value Russian Equities (local/ADR/GDR) at nil, all Russian, Ukrainian and Belarusian sovereign local bonds, sovereign hard currency debt (USD / EUR) and corporate bonds on a bid basis and all Ukrainian positions also on a bid basis. This was based on the current restrictions on trading due to sanctions and market liquidity. The ongoing ramifications of the evolving conflict may not be limited to Russia and Russian companies or Ukraine but may spill over to other regional and global economic marks, and the extent of the resulting impact is uncertain. Barings continues to monitor the situation in Ukraine and consider appropriate measures for the affected Funds. The Barings Global Leaders Fund had a holding in 2 Russian securities, both of which had a zero fair value. The Barings Developed and Emerging Markets High Yield Bond Fund had a holding in one Russian security which had a zero fair value. The Barings Global Resources Fund did not have any holdings in Russian securities.

There have been no other significant events to the financial period-end that, in the opinion of the Directors of the Manager, that may have had an impact on the financial statements for the financial period ended 31 October 2023.

19. Subsequent events

There have been no events subsequent to the financial period-end which, in the opinion of the Directors of the Manager, may have had a material impact on the financial statements for the financial period ended 31 October 2023.

20. Approval of financial statements

The financial statements were approved by the Directors of the Manager on 12 December 2023.

General information

For the financial period ended 31 October 2023

Market timing

Repeatedly purchasing and selling units in the Funds in response to short-term market fluctuations – known as ‘market timing’ – can disrupt Baring Asset Management Limited’s (the “Investment Manager’s”) investment strategy and increase the Funds’ expenses to the prejudice of all unitholders. The Funds are not intended for market timing or excessive trading. To deter these activities, the Directors of Baring International Fund Managers (Ireland) Limited (the “Manager”) may refuse to accept an application for units from persons that it reasonably believes are engaged in market timing or are otherwise excessive or potentially disruptive to the Funds.

The Directors of the Manager reserve the right to redeem units from a unitholder, on the basis of the circumstances of the unitholder concerned, or if they have reasonable grounds to believe that the unitholder is engaging in any activity which might result in the Funds or their unitholders as a whole suffering any legal, regulatory, reputational or other material disadvantage which the Funds or their unitholders as a whole might not otherwise have suffered.

UK reporting fund status

UK taxable investors in UK reporting funds are subject to tax on their units of the UK reporting funds’ income attributable to their holdings in the Funds, whether or not distributed, while typically any gains on disposal of their holdings are subject to capital gains tax.

Details of the unit classes which currently have UK reporting fund status are available at the His Majesty’s Revenue and Customs (“HMRC”) Collective Investment Schemes Centre website:

<http://www.hmrc.gov.uk/cisc/offshore-funds.htm>.

As stated above, UK tax payers should note that for each unit class with reporting fund status, their unit of any amounts of income, if any, that have not been distributed will be subject to tax. Further details will be made available on the Barings website:

www.barings.com.

*Barings Developed and Emerging Markets High Yield Bond Fund merged into Barings Umbrella Fund Plc on 2 December 2022.

This information was established by the Manager, Baring International Fund Managers (Ireland) Limited, based on the data contained in the Statement of Comprehensive Income for the above reference period (Fund management fees, administration fees, depositary fees, taxes and duties, and all other commissions and expenses appearing as per the breakdown of the Statement of Comprehensive Income and not already included in any of the foregoing categories). The TER is calculated using the average daily Net Asset Value for the period/year.

Trailer fees and reimbursements

Trailer fees (Bestandespflegekommissionen) may only be paid to the sales agents/partners indicated below:

- authorised sales agents (distributors) within the meaning of Article 19, Para 1, Collective Investment Scheme Act ("CISA");
- sales agents (distributors) exempted from the authorisation requirement within the meaning of Article 13, Para 4 CISA and Article 8, Collective Investment Schemes Ordinance ("CISO");
- sales partners who place Fund units exclusively with institutional investors with professional treasury facilities; and/or
- sales partners who place Fund units with their clients exclusively on the basis of a written commission-based asset management mandate.

Reimbursements (Rückvergütungen) may only be paid to the institutional investors detailed below who, from a commercial perspective, are holding the Fund units for third parties:

- life insurance companies (in respect of Fund units held for the account of insured persons or to cover obligations towards insured persons);
- pension funds and other retirement provision institutions (in respect of Fund units held for the account of beneficiaries);
- investment foundations (in respect of Fund units held for the account of in-house funds);
- Swiss fund management companies (in respect of Fund units held for the account of the funds managed);
- foreign fund management companies and providers (in respect of Fund units held for the account of managed funds and investing unitholders); and/or
- investment companies (in respect of the investment of the company assets).

Special risks resulting from tax publication requirements in Germany

Foreign investment companies (such as Baring International Fund Managers (Ireland) Limited (the “Manager”)) must provide documentation to the German fiscal authorities upon request, e.g. in order to verify the accuracy of the published tax information. The basis upon which such figures are calculated is open to interpretation and it cannot be guaranteed that the German fiscal authorities will accept the Manager’s calculation methodology in every material respect. In addition, if it transpires that these publications are incorrect, any subsequent correction will, as a general rule, not have retrospective effect and will, as a general rule, only take effect during the current period. Consequently, the correction may positively or negatively affect the investors who receive a distribution or an attribution of deemed income distributions in the current period.
