Portfolio Review - North American Fund

The North American Fund's outperformance versus the S&P 500 Index during the period was primarily due to the Fund's underweight allocation to Information Technology, the best performing sector for the period. Stock selection within Communication Services, Industrials and Financials also contributed to a drag on relative performance for the year. The Fund's stock selection within the Consumer Discretionary sector as well as allocation to Communication Services and Industrials slightly offset relative performance.

Portfolio Review - Global High Dividend Fund

The Global High Dividend Fund's performance versus the MSCI ACWI Index during the period was primarily due to allocation decisions in Information Technology and Health Care as well as stock selection within Communication Services. Stock selection in Energy, Information Technology and Financials partially offset relative performance.

Portfolio Review - Emerging Markets Fund

The Emerging Markets Fund's performance versus the MSCI Emerging Markets Index during the period was primarily due to strong stock selection within Financials, Information Technology and Real Estate. Primarily offsetting relative performance was stock selection within the Materials sector as well as an overweight allocation to Real Estate.

Portfolio Review - US Enhanced Fund

The US Enhanced Fund's performance versus the S&P 500 Index during the period was primarily due to the Fund's underweight allocation and stock selection in the Information Technology sector. Stock selection within Communication Services and Financials also contributed to relative performance. Slightly offsetting relative performance was the Fund's underweight exposure to Communication Services and stock selection within Industrials.

Outlook

While the US economy has exhibited pockets of weakness, it remains firmly in expansion territory. Inflation has decisively fallen, and both consumer spending and employment have shown resilience. The weaknesses first observed in housing and discretionary goods spending in 2022 have now stabilized while the services sector has surprised to the upside this year. Despite a growing list of recessionary indicators, the economy has for now defied expectations of a downturn.

Market performance this year has been primarily driven by expectations of the Federal Reserve's interest rate tightening cycle coming to an end. The performance of equities after peak Fed Funds rates has been markedly different in inflationary versus disinflationary periods. During inflationary cycles, the S&P 500 forward 12-month returns following the conclusion of a Fed tightening cycle have typically been negative. In contrast, during disinflationary cycles, S&P 500 forward 12-month returns have generally been positive.

The robust performance of Growth stocks in the first half of 2023 has contributed to significant market concentration. Positive growth expectations in an environment characterized by low growth, along with opportunities in artificial intelligence, have propelled technology stocks to extraordinarily high valuation levels, both in absolute and relative terms. This has caused a handful of stocks to trade at historically high valuation levels. History shows that any time a few popular stocks become so dominant in the S&P 500, it has eventually led to a long down period for those stocks.

The broader market presents more reasonably valued prospects. The S&P 500, excluding the top 50 stocks, trades at a reasonable 15x trailing P/E (price to earnings¹) multiple (Bank of America/Merrill Lynch, 06/23/2023). This offers opportunities for the remainder of the market to reduce its valuation gap with the top-heavy part of the market.

The prevailing market bifurcation has widened the valuation disparity between the highest and lowest valuation quintile in the S&P 500. The highest valuation quintile is trading at 29x while the lowest valuation quintile is trading at 11x, marking a spread nearly twice the historical valuation spread.

We believe for long-term investors, the value discipline, especially with a dividend yield², should be very competitive in the present market environment.

Sincerely,

James P. Cullen

Chairman and Chief Executive Officer

¹ A price to earnings multiple is a valuation ratio of a company's current share price compared to its per-share earnings and essentially shows how much one needs to pay per dollar of earnings - if a company were trading at a price/earnings multiple of 20, the interpretation is that an investor is willing to pay \$20 for \$1 of current earnings.

² A dividend yield is a financial ratio that indicates how much a company pays out in dividends each year relative to its share price.

2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the Company in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America ("US GAAP").

- a) Valuation of Securities Securities that are primarily traded on a national or foreign securities exchange are valued at the last traded price on the exchange on which they are primarily traded on the day of valuation. Any securities or other assets for which market quotations are not readily available are valued at such value as shall be certified with care and good faith as the probable realization value by a competent person, appointed for such purpose by the Directors in consultation with the Investment Manager and approved by the Depositary. The values for foreign securities are reported in local currency and converted to US Dollar using currency exchange rates at the time of valuation. Exchange rates are provided daily by recognized independent pricing agents.
- b) Distributions to Shareholders The Directors may declare dividends out of net income (including dividend and interest income) and the excess of realized and unrealized capital gains over realized and unrealized losses in respect of investments of the Company and/or such amount as the Directors shall determine in their discretion out of the capital of the Company. There will be no dividend distributions in respect of each of the Accumulating Class Shares of each Sub-Fund. The Directors anticipate making dividend distributions in respect of each of the Distributing Classes of the Sub-Funds. Dividends of each of the Distributing Classes will be calculated by the Directors for the periods ending March 31, June 30, September 30 and December 31.
- c) Basis of preparation The accompanying financial statements have been prepared on a going concern basis in conformity with US GAAP.

NOTES TO THE FINANCIAL STATEMENTS - Continued For the financial year ended June 30, 2023

2. Significant Accounting Policies (continued)

- d) Use of Estimates The preparation of the financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Management believes that the estimates utilized in preparing its financial statements are reasonable and prudent; however, actual results could differ from these estimates.
- e) Income and Expenses Dividends are recognized as income on the dates that the related investment is first quoted 'ex-dividend' to the extent information thereon is reasonably available. Interest income and interest expense are recognized on an accruals basis in line with the contractual terms. Interest is accrued on a daily basis.
- f) Guarantees and Indemnification In the normal course of business, the Company enters into contracts with service providers that contain general indemnification clauses. The Company's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Company that have not yet occurred. Based on experience, however, the Company expects the risk of loss to be remote.
- Investment transactions and related income and expenses Investment and Shareholder transactions are recorded on trade date. The Company determines the gain or loss realized from the investment transactions by comparing the original cost of the security lot sold with the net sales proceeds on a high cost basis. Within each Sub-Fund, dividend income is recognized on the ex-dividend date or as soon as information is available and interest income is recognized on an accrual basis. Income, expenses (other than expenses attributable to a specific Class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its respective shares outstanding.
- h) Cash and Cash Equivalents Cash and cash equivalents include cash in hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. All cash at bank balances are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day. A breakdown of the financial institutions where the cash was deposited at the financial year end is contained in note 12.
- i) Functional and Presentation Currency Items included in the financial statements are measured using the currency of the primary economic environment in which it operates (the "Functional Currency"). The Company's Functional and Presentation Currency is US Dollar.
- j) Foreign Exchange Translations Monetary assets and liabilities denominated in currencies other than the currency stated as the Company's Functional Currency are translated using the closing rates of exchange at each financial year end. Transactions during the financial year, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction.
- k) Foreign Exchange Contracts Transactions during the financial year denominated in foreign currencies have been translated at the rates of exchange ruling at the dates of the transactions. Assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the financial year end date. The results of operations due to fluctuations in foreign exchange rates on investments from gains or losses arising from the sales or changes in values of the portfolio securities are reported separately. Net realized gains (losses) and net change in unrealized gains (losses) on foreign currency related transactions arise for sales of foreign currencies and currency gains or losses between trade date or ex-date and settlement date on security or dividend transactions.
- Options The fair value of options contracts is based upon their closing market settlement prices with a default on last trade price. Changes
 in the value of open options contracts are recognized as unrealized gains or losses on options contracts until the contracts are terminated,
 at which time realized gains and losses are recognized. Gains or losses on open options contracts are shown in note 11.
- m) Operating Expenses The Company pays out of its assets all normal operating expenses including depositary fees, administration fees, transfer agent fees, Investment Manager fees, NAV publication and circulation fees, audit & other professional fees, and charges incurred on the acquisition and realization of investments. Such costs are generally expensed in the financial year incurred.

NOTES TO THE FINANCIAL STATEMENTS - Continued For the financial year ended June 30, 2023

2. Significant Accounting Policies (continued)

- n) Transaction Costs Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. Only transaction costs which are separately identifiable are disclosed. These include transaction costs paid to depositary and sub-custodians, identifiable brokerage charges and commissions, identifiable transaction related taxes and other market charges and separately identifiable transaction costs related to financial derivative instruments. These requirements are disclosed in note 8.
- o) Equalization In respect of the "Distributing Classes", each Sub-Fund may from time to time at the Directors' discretion operate equalization arrangements to reflect the pro rata payment of distributions based on the period of time the share has been owned by a Shareholder.

10. Financial Instruments and Associated Risks

The Company's activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and foreign currency risk), liquidity risk and credit risk. The Investment Manager seeks to minimize these risks through diversification of the investment portfolio and the selection of highly liquid investments in accordance with the specific investment policies and restrictions set out in the Prospectus. The nature and extent of the financial instruments outstanding at the Statement of Assets and Liabilities date and the risk management policies employed by the Company are discussed below.

Market Risk

Market risk is the risk that the value of a financial instrument will change as a result of exposure to market price, interest rate and foreign currency risks.

- Market Price Risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Company might suffer through holding market positions in the face of their price movements. A Sub-Fund's exposure to market price risk is driven by its investment objective. The Company's market price risk is managed by the Investment Manager on a daily basis. The Investment Manager considers the asset allocation of the portfolio in order to spread the risk associated with particular market sectors whilst continuing to follow the Sub-Funds' respective investment objectives.

The Investment Manager may sell any securities in the portfolio at any time when they no longer are attractive investments based on their growth potential, dividend yield or price.

- Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The majority of the Company's assets and liabilities are non-interest bearing. As a result the Sub-Funds are not subject to a significant amount of interest rate risk. Generally, excess cash or cash equivalents are invested at short-term market interest rates.

- Foreign Currency Risk

The value of the assets of the Company will be affected by fluctuations in the value of the currencies in which the Sub-Funds' portfolio securities are quoted or denominated relative to the Functional Currency. Currency exchange rates may fluctuate significantly over short periods of time causing, together with other factors, a Sub-Fund's net asset value to fluctuate.

The Investment Manager may use foreign exchange hedging transactions to hedge the foreign currency exposure of a hedged class not denominated in the base currency of a Sub-Fund in order to mitigate risk for hedged classes. Details of outstanding forward foreign currency contracts dealt for currency hedging purposes can be found in Schedule of Investments.

NOTES TO THE FINANCIAL STATEMENTS - Continued For the financial year ended June 30, 2023

10. Financial Instruments and Associated Risks (continued)

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities.

The main liquidity risk to the Company arises from the redemption requests of investors. The Company's Shareholders may redeem their shares on each dealing day for cash equal to a proportionate share of a respective Sub-Fund's net asset value and it is therefore potentially exposed to the liquidity risk of meeting the daily redemptions by its Shareholders. In order for the Company to meet these requests, the Company may need to dispose of the underlying assets at an inopportune time.

To help manage this risk, if the number of shares to be redeemed on any dealing day equals 10% or more of the total number of shares of a Sub-Fund in issue on that day the Directors or their delegate may at their discretion refuse to redeem any shares in excess of 10% of the total number of shares in issue. If the Directors so refuse, the requests for redemption on such dealing day shall be reduced rateably and the Directors shall not be obliged to redeem the remainder of the shares to which each request relates until the dealing day next following the refusal to redeem. At the expiry of any such period, the Company shall complete the redemption of the remaining shares in respect of which redemption requests were received prior to the relevant dealing day pro-rata with any subsequent requests and shall treat the redemption requests as if they were received on a subsequent dealing day until all the shares to which the original request related have been redeemed.

Each Sub-Fund's listed securities are considered readily realizable, as they are quoted on reputable stock exchanges. In accordance with each Sub-Fund's policy, the Investment Manager monitors the liquidity position on a daily basis.

Credit Risk

Credit risk is the risk that the Company may incur a loss if other parties fail to perform their obligations under the financial instruments which comprise a Sub-Fund's investment portfolio. The Company assumes credit risk on parties with whom it trades and it will also bear the risk of settlement default. The Company has a credit risk exposure in relation to its transactions with counterparties such as brokers, banks and other financial intermediaries. Each Sub-Fund minimizes concentrations of credit risk by undertaking transactions with a large number of reputable brokers on recognized and reputable exchanges.

The total credit risk for each Sub-Fund arising from recognized financial instruments is limited to the value of each Sub-Fund's investments shown on the Statements of Assets and Liabilities.

All derivative transactions are conducted through counterparties who are members of a recognized market exchange and are approved and monitored on an ongoing basis by the Investment Manager. As such the credit risk associated with the use of derivatives is low. Derivatives consist of forward foreign currency contracts and options at the financial year end, as detailed in Schedule of Investments.

The Investment Manager will only enter into over-the-counter derivative contracts and securities lending arrangements with counterparties in accordance with the requirements of the Central Bank UCITS Regulations where a credit assessment has been undertaken. In that regard a Sub-Fund may enter into an over-the-counter derivative contract with (1) a credit institution authorized in the European Economic Area (EEA) (European Union Member States, Norway, Iceland, Liechtenstein); (2) a credit institution authorized within a signatory state, other than a Member State of the EEA, to the Basle Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States) and (3) a credit institution authorized in a third country deemed equivalent pursuant to

10. Financial Instruments and Associated Risks (continued)

Credit Risk (continued)

Article 107(4) of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012. A Sub-Fund may also enter into an overthe-counter derivative contract with (4) an investment firm authorized in accordance with MiFID or (5) a group company of an entity approved as a bank holding company by the Federal Reserve of the United States of America where that group company is subject to bank holding company consolidated supervision by the Federal Reserve.

However, where the counterparty at (4) or (5) above, or the counterparty to a securities lending arrangement, is (a) subject to a credit rating by any agency registered and supervised by the European Securities and Markets Authority, that rating shall be taken into account in the credit assessment process; and (b) where that counterparty is downgraded to A2 or below (or comparable rating) by such a credit rating agency, a new credit assessment in respect of the counterparty will be undertaken without delay. The counterparties to forward foreign currency contracts awaiting settlement as at June 30, 2023 are Brown Brothers Harriman & Co., which has a credit rating of A+ (June 30, 2022: A+), Barclays Bank PLC which has a credit rating of A+ (June 30, 2022: A+) and Standard Chartered Bank which has a credit rating of A+ (June 30, 2022: A+), according to Fitch Ratings.

The duties of the Depositary are to provide safekeeping, oversight and asset verification services in respect of the assets of the Company and each Sub-Fund in accordance with the provisions of the UCITS Regulations. The Depositary will also provide cash monitoring services in respect of each Sub-Fund's cash flows and subscriptions.

The Depositary will be liable to the relevant Sub-Fund and its Shareholders for loss of a financial instrument held in custody or in the custody of any sub-custodian appointed by the Depositary. However the Depositary shall not be liable for the loss of a financial instrument held in custody by the Depositary or any sub-custodian if it can prove that loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Depositary shall also be liable to the relevant Sub-Fund and its Shareholders for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations under the UCITS Regulations.

Fair Value of Financial Instruments

The Company follows the authoritative guidance for fair value measurements. The guidance establishes a framework for measuring fair value and a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. The guidance establishes three tiers of inputs that may be used to measure fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Various inputs are used in determining the value of the Company's investments. These inputs are summarized in the three broad levels listed below:

Level 1 – unadjusted quoted prices in active markets for identical securities.

Level 2 – inputs, other than quoted prices included in Level 1, that are observable either directly or indirectly. These inputs may include:

- o quoted prices for similar assets in active markets,
- o quoted prices for identical or similar assets in markets that are not active,
- inputs other than quoted prices that are observable for the asset, or
- o inputs derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

10. Financial Instruments and Associated Risks (continued)

Fair Value of Financial Instruments (continued)

As at June 30, 2023 there were following transfers of securities from level 2 to level 1 and no other transfers between levels.

Fund Value Emerging Markets High Dividend Fund \$1,413,776

As at June 30, 2022 there were no transfers between levels.

The Sub-Funds invest in listed transferable securities and options whose values are based on unadjusted quoted prices in active markets. Consequently, these investments are typically categorized as level 1. The value of forward foreign currency contracts is calculated by reference to the price at which a new forward contract of the same size, currency and maturity, as determined by the relevant recognized market, could be affected at the valuation point. Accordingly, forward foreign currency contracts are classified as level 2.

Participatory notes are purchased where access to an underlying security is difficult or more risk is involved in the local settlement process. The notes are only used to obtain access to a specific security, primarily in less liquid markets, including China and India. Normally such an investment will involve the purchase of the local security by a local branch of an internationally recognized investment bank/broker who will in turn issue a note on the underlying security and either list and trade that through a recognized exchange or sell to a counterparty such as a Sub-Fund. Accordingly, participatory notes are classified as level 2.

^{*} Launched on December 22, 2021.

10. Financial Instruments and Associated Risks (continued)

Fair Value of Financial Instruments (continued)

Rights are typically traded on a national securities exchange and to the extent they are actively traded and valuation adjustments are not applied, categorized as Level 1 of the fair value hierarchy. If prices from an independent pricing service are not available, rights may be valued in accordance with procedures adopted by the Management Company and classified as Level 2 or Level 3 depending on the observability of inputs.

Global Exposure to Financial Derivative Instruments

The Investment Manager's Risk Management department has assessed the risk profile of the Company and the related Sub-Funds on the basis of the investment policy, strategy and the use of financial derivative instruments. Based on the risk profile, Risk Management has determined that the method for the calculation of the global exposure to financial derivative instruments for all Sub-Funds will be the commitment approach, where the Sub-Fund holds financial derivative instruments.

11. Derivative Instruments

The Sub-Funds may utilize certain financial derivative instruments for the purposes of share class hedging, while the US Enhanced Equity Income Fund may write covered call options for hedging purposes and/or in order to generate additional income.

- a) A forward contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. All commitments are marked-to-market on each valuation date at the applicable foreign exchange rate and any resulting unrealized gain or loss is recorded on such date. Unrealized appreciation or depreciation is included in the Statement of Operations.
 - The Investment Manager may hedge the foreign currency exposure of a Class not denominated in the base currency of a Sub-Fund in order that investors in that Class receive a return in the currency in which that Class is denominated and not materially affected by changes between the value of the Class currency and the base currency of the relevant Sub-Fund. In this context, foreign exchange hedging will not be used for speculative purposes. Where the designation "Hedged" does not appear in the name of a Class denominated in a currency other than the base currency of a Sub-Fund it is not a hedged class and the Investment Manager will not seek to mitigate the risk of adverse exchange rate fluctuations between the base currency of the relevant Sub-Fund and the currency in which that Class is denominated.
 - The Investment Manager uses forward foreign currency contracts for hedging purposes only. This strategy may limit investors in hedged share classes from benefiting if the Class currency falls against the base currency of the Sub-Fund and/or the currency/currencies in which the assets of the Sub-Fund are denominated. Although hedging strategies may not necessarily be used in relation to each Class, the financial instruments used to implement such strategies shall be assets/liabilities of a Sub-Fund as a whole. However, the gains/losses and the costs of the relevant financial instruments used in hedging activities will accrue solely to the relevant hedged class.
- b) The Investment Manager selectively writes covered call options for hedging purposes and/or in order to generate additional income for the US Enhanced Equity Income Fund. Writing a covered call involves the Sub-Fund selling a call option for an equity security that is currently held in its portfolio. The purchaser of a call option has the right to buy, and the writer (in this case the Sub-Fund) of a call option has the obligation to sell, an underlying security at a specified exercise price during a specified option period. The advantage of writing covered calls is that the Sub-Fund receives a premium for writing the call, which is additional income. However, if the security rises in value and the call is exercised, the Sub-Fund may not participate fully in the market appreciation of the security. Generally, the Investment Manager does not expect the writing of covered call options to exceed 50% of either Sub-Fund's net asset value. In monitoring these limits, the market value of the call options' underlying securities will be measured as a percentage of the Sub-Fund's net asset value.

Details on counterparty credit risk are disclosed in detail in the credit risk section of note 10.

NOTES TO THE FINANCIAL STATEMENTS - Continued For the financial year ended June 30, 2023

16. Contingent Liabilities

The Directors are not aware of any material contingent liabilities as at June 30, 2023 and June 30, 2022.

17. Segregated Liability

The Company is structured as an umbrella fund with segregated liability between its Sub-Funds. As a matter of Irish law, the assets of one Sub-Fund are not available to meet the liabilities of another. However, the Company is still a single legal entity that may operate or have assets held on its behalf. While the provisions of the Companies Act 2014 provide for segregated liability between Sub-Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Sub-Fund of the Company may not be exposed to the liabilities of other Sub-Funds of the Company.

18. Significant Events During the Financial Year

Events arising as a result of military action being undertaken by Russia in Ukraine is impacting securities related to companies domiciled in or with links to Russia and/or listed on exchanges located in Russia. Of the Sub-Funds, only the Emerging Markets High Dividend Fund holds Russian securities and in that case this has been written down to \$0 (from less than 0.01% of NAV as originally held prior to the commencement of military action). The Directors are continuing to monitor developments in this regard.

On July 26, 2022 the Central Bank noted an Addendum to the Prospectus for the Company (the "Addendum"). The Addendum updated the Prospectus of the Company and provided for the appointment of Zeidler Legal Services (UK) Ltd. as UK Facilities Agent to the Company.

On 19 December 2022, Jeff Battaglia resigned from the Board of the Company.

On 23 May 2023, Jeff Cullen was appointed to the Board of the Company.

There were no other significant events during the financial year.

19. Subsequent Events

On September 27, 2023, the Central Bank noted the updated Prospectus of the Company which reflected the creation of new Hong Kong and Singapore share classes for the sub-funds of the Company.

Dividends in respect of Distributing Share Classes were declared since the financial year ended and are shown below:

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Cullen Funds PLC ('the Company') for the year ended June 30, 2023, which comprise the Statements of Assets and Liabilities, Statements of Operations, Statements of Changes in Net Assets, Financial Highlights and related notes, including the summary of significant accounting policies set out in note 2.

The financial reporting framework that has been applied in their preparation is Irish Law and U.S. Generally Accepted Accounting Principles, as permitted by regulation 89(4) of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at June 30, 2023 and of its increase in net assets resulting from operations for the year then ended;
- the financial statements have been properly prepared in accordance with US GAAP; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities Regulations) 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the Directors' Report, Shareholder Letter, Report of the Depositary to the Shareholders, Schedule of Investments, Significant Portfolio Changes (unaudited), Directory, Appendix 1 (unaudited), and Appendix 2 (unaudited). The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements; and
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CULLEN FUNDS PLC (continued)

Our opinions on other matters prescribed by the Companies Act 2014 are unmodified

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 4, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to **fraud** or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless liquidation is imminent, except for a liquidation plan that was specified in the Company's governing documents at the Company's inception.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

UCITS V REMUNERATION DISCLOSURE

The European Union Directive 2014/91/EU as implemented in Ireland by S.I. No. 143/2016 - European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, requires management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

To that effect, Carne Global Fund Managers (Ireland) Limited ("the Manager"), has implemented a remuneration policy that applies to all UCITS for which the Manager acts as manager (the "Remuneration Policy") and covers all staff whose professional activities have a material impact on the risk profile of the Manager or the UCITS it manages ("Identified Staff of the Manager"). The Remuneration Policy also applies to all alternative investment funds for which the Manager acts as alternative investment fund manager. In accordance with the Remuneration Policy, all remuneration paid to Identified Staff of the Manager can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

The Manager has designated the following persons as Identified Staff of the Manager:

- 1. The Designated Persons;
- 2. Each of the Manager's directors;
- 3. Head of Compliance;
- 4. Risk Officer;
- 5. Head of Anti-Money Laundering and Counter Terrorist Financing Compliance
- 6. Money Laundering Reporting Officer;
- 7. Chief Executive Officer;
- 8. Chief Operating Officer; and
- 9. All members of the investment committee.

The Manager has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager has determined not to constitute a separate remuneration committee and for remuneration matters to be determined through the Manager's Compliance and AML Committee, a Committee of the Manager's Board.

The Manager's Compliance and AML Committee is responsible for the ongoing implementation of the Manager's remuneration matters and will assess, oversee, and review the remuneration arrangements of the Manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

The Manager has a number of directly employed staff. The Manager's parent company is Carne Global Financial Services Limited ("Carne"). In addition, Carne also operates through a shared services organisational model which provides that Carne employs staff and further enters into inter-group agreements with other Carne Group entities within the group to ensure such entities are resourced appropriately. As at 31 December 2022, 10 of the Identified Staff are employed directly by the Manager. The remainder of the Identified Staff are employees of Carne, or employees of another entity within the Carne Group, and are remunerated directly based on their contribution to Carne Group as a whole. In return for the services of each of the Carne Identified Staff, the Manager pays an annual staff recharge to Carne (the "Staff Recharge").

The independent non-executive directors are paid a fixed remuneration. The Other Identified Staff member's remuneration is linked to their overall individual contribution to the Manager or the Carne Group, with reference to both financial and non-financial criteria and not directly linked to the performance of specific business units or targets reached or the performance of the UCITS.

The aggregate of the total Staff Recharge, remuneration of the directly employed identified staff of the Manager and the remuneration of the independent non-executive directors is €2,502,802 paid to 16 Identified Staff* for the year ended 31 December 2022.
