

Key Information Document

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Russell Investments Global High Yield Fund (the "Fund") a sub-fund of Russell Investment Company plc (the "Company") Class B Income (IE00B9721T72)

Manufacturer: Russell Investments Limited, a member of Russell Investments Group, Ltd.

The Central Bank of Ireland is responsible for supervising Russell Investments Limited in relation to this Key Information Document. This Company is authorised in Ireland. The Fund, as a sub-fund of the Company, has been approved by the Central Bank of Ireland. Carne Global Fund Managers (Ireland) Limited ("Carne"), the UCITS management company of the Company, is authorised in Ireland and regulated by the Central Bank of Ireland.

For more information about the Fund, please refer to www.russellinvestments.com or call us at +44 20 7024 6000.

This document was produced on 15 November 2023.

What is this product?

Type:

This product is a type of collective investment scheme, specifically, a sub-fund of an Irish authorised undertaking for collective investment in transferable securities (or "UCITS") constituted as an investment company under Irish company law. Your investment will take the form of shares in the Fund.

Term:

The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

Objectives:

The objective of the Fund is to achieve income and capital growth on your investment over the long-term.

The Fund aims to achieve its objective by investing at least 70% of its assets in high yield corporate bonds issued by companies in both emerging and developed markets. High yield bonds are bonds with a lower credit rating, higher risk of default and hence usually pay a higher rate of return than government bonds or investment-grade corporate bonds.

At least 80% of the Fund's investments are bonds which are rated non-investment grade (lower quality). The Fund invests in bonds which pay either a fixed or variable rate of interest.

The Fund may invest up to 20% of its assets in convertible bonds (being a type of bond which can be converted to common stock or cash) and other debt instruments.

The Fund may invest up to 10% of its assets in short-term instruments, unlisted securities and equities or securities with equity type features listed on regulated markets worldwide.

The Fund is broadly diversified across countries worldwide and across currencies and with varying maturities (defined holding term for a bond). The Fund may invest in emerging markets (developing countries).

The Fund may gain market exposure indirectly through the use of specialist financial techniques (known as derivatives). Derivatives may be used to reduce the Fund's exposures to currency and interest rate risk, or to manage the Fund more efficiently.

The Fund aims to reduce its carbon exposure relative to the Index. This is primarily achieved using an exclusions policy, whereby, the Fund excludes from investment companies that derive more than 10 per cent. of their revenue from coal (with certain exceptions).

Russell Investments may employ a variety of management styles. This may include delegating investment management to money managers or managing

strategies in-house. Each money manager or Russell Investments-managed strategy will have a complementary investment style, with a focus on bonds issued by companies traded worldwide.

The Fund is actively managed with reference to the ICE BofA Developed Markets HY Constrained Index (EUR Hdg) (the "Index").

The Fund's performance will be measured against the Index which it seeks to outperform by 0.75% over the medium to long term. Russell Investments and/or the money managers may manage a portion of the Fund with reference to an index which is not the Index. Any such indexes used will be relevant to each Russell Investments and/or money manager strategy and may be used as the basis for portfolio constraints or for performance measurement purposes. Any such constraints are not expected to materially constrain the relevant portfolio from being managed on a fully discretionary basis.

Income of the Fund will be paid out in the form of a dividend.

You may sell your shares in the Fund on any day on which banks are normally open for business in Ireland. For further information please refer to the "Repurchases of Shares" section of the prospectus.

The Fund may be terminated at the discretion of the directors of the Company, provided that a minimum of twenty-one days' written notice has been provided to Shareholders. The Fund may also be terminated by the Shareholders in the Fund, if voted for by at least 75% of the Shareholders in the Fund.

The Fund's depository is State Street Custodial Services (Ireland) Limited (the "Depository").

The share price is published on each business day and is available online at www.bloomberg.com.

Further information about the Fund, copies of the English, German, French and Italian prospectus and the latest annual and semi-annual reports in English may be obtained free of charge by writing to Russell Investments, Rex House, 10 Regent Street, London SW1Y 4PE, England. They are also available online at <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

Intended retail investor:

The Fund is designed primarily for investors seeking to generate income and capital growth. It should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. The Fund is intended for investors with a medium to long term investment horizon, with a preference towards the promotion of environmental characteristics, who are prepared to take on a relatively high level of risk of loss to their original capital. The Fund may be subject to increased volatility as a consequence of the Fund's investment in the securities of issuers located in emerging markets. For a basic investor, the Fund should be purchased with advice or on an execution only basis.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact the value of your investment.

The summary risk indicator only takes market and credit risk into account. For a full list of the risks materially relevant to the Fund, please see the Prospectus at: <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

This product does not include any protection from future market performance so you could lose some or all of your investment, however, your liability will be limited to the amount invested and you will not be liable for any additional financial commitments beyond the amount you have invested.

Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years			
Investment: EUR 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years			
Stress	What you might get back after costs Average return each year	4,810 EUR -51.85%	5,270 EUR -12.01%
Unfavourable¹	What you might get back after costs Average return each year	7,920 EUR -20.82%	8,020 EUR -4.31%
Moderate²	What you might get back after costs Average return each year	10,080 EUR 0.80%	11,130 EUR 2.17%
Favourable³	What you might get back after costs Average return each year	12,330 EUR 23.31%	12,900 EUR 5.23%

¹ This type of scenario occurred for an investment between September 2021 and June 2023.

² This type of scenario occurred for an investment between October 2014 and October 2019.

³ This type of scenario occurred for an investment between January 2016 and January 2021.

What happens if Russell Investments Limited is unable to pay out?

The Depositary has been appointed as the Fund's depositary and ensures the safekeeping of the Fund's assets, as required by regulation. In the event of the insolvency of Carne, the Fund's assets in the safekeeping of the Depositary, will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss and there is no compensation or guarantee scheme in place to aid in the recovery of this loss. This risk of loss is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is EUR 10,000.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	197 EUR	1,044 EUR
Annual cost impact (*)	2.0%	2.0%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.2% before costs and 2.2% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee for this product.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.7% of the value of your investment per year. This is an estimate based on actual costs over the last year.	170 EUR
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	27 EUR
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	None	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund is designed to be held over the medium to long term.

You can request to take out some or all of your money at any time.

If you sell your shares at an early stage, this will increase the risk of lower investment returns or a loss.

You may exchange shares of one sub-fund for shares in another sub-fund by selling the shares of the first sub-fund and purchasing shares of the other sub-fund as further described in the Prospectus.

How can I complain?

If you wish to make a complaint in relation to the Fund, please contact us at:

- i. Mail: EMEA Client Service Team, Russell Investments Limited, Rex House, 10 Regent Street, St James, London, SW1Y 4PE, United Kingdom.
- ii. Email: clientservice@russellinvestments.com.

In the event that you are not satisfied with our response to your complaint you can refer the matter to the Irish Financial Services and Pensions Ombudsman by writing to the Financial Services Ombudsman's Bureau at 3rd Floor, Lincoln House, Lincoln Place, Dublin 2, Ireland who may be able to provide an independent assessment of your complaint.

Other relevant information
