OAKS Emerging and

Frontier Fund

The Fund was up by 12.2%.

The current environment in our selected Frontier & Emerging Markets is very positive and we are seeing a lot more interest in the universe we cover. The strength of the reforms currently taking place in our key markets is building momentum supporting sustainable economic growth rather than temporary excitement.

On the long side, the credit for this strong performance goes to the ongoing transformative reform process in Saudi Arabia, which has opened lucrative investment opportunities. Additionally, the UAE's real estate market is witnessing a continuous inflow of wealthy foreigners, further contributing to the fund's growth. The recent election in Greece has also improved the sustainable profile of the country and its banking system. Lastly, strong domestically driven economic growth in ASEAN has also played a significant role.

On the short side, the upward momentum in certain markets is causing further distortions in stock valuation, separating them from their fundamental values and potentially leading to more short selling opportunities. These stocks have positively contributed to the Fund's performance year-to-date. Large conviction names in the Middle Eastern mining and regional banking sectors have continued to underperform in absolute terms on weak fundamentals and high valuations. The Fund continues to add more short positions to the portfolio and has recently added a multinational telecom company with a large portion of revenues being generated from a country facing sizeable currency devaluations. We expect that the translation impact of that devaluation will ultimately impact the parent.

Overall, coupling the team's investment philosophy and process to the current environment, we see much more opportunities on the long and short side for the second half of the year, this being demonstrated in the Fund's attractive valuation. The long book trades on a relatively low price-to-earnings of 10.2x earnings with an expected earnings growth for 2023 of 19%. While on the short side, the portfolio trades at a 21.2x price-to-earnings while expecting negative earnings growth for the year.

The Fund's NAV increased by 20.2%, surpassing the custom benchmark by 14.4% and the MSCI Emerging Markets Index by 13.9%.

The two main contributors to this performance were Saudi Arabia and Greece, where we continue to see the strength of both country's reform process trickling into the equity market.

Saudi Arabia's Vision 2030 plan and the Vision Realization Programs ("VRP") overseen by the Public Investment Fund ("PIF") have led to more efficient policy implementation. The PIF acts as a representative of the state for all projects related to Vision 2030, coordinating with the private sector and global markets. It has set targets and KPIs for each industry and invests globally to acquire technology transfers and connect national and international opportunities. These efforts have created economic opportunities in new value chains, which, coupled with transformational social reforms, are expected to generate a 32% increase in the labour force, including at least 40% women.

In Europe, the market saw new highs in Greece following New Democracy's ("ND") overwhelming win in the second round of the elections. The highlight of this victory was that the party will benefit from a seat bonus offered under the new enhanced proportionality system giving them the overall majority in Parliament. This adds even more stability in the Greek market as New Democracy has the political mandate to streamline bureaucracy, enhance the business environment, and implement structural changes to attract domestic and foreign investment, especially considering the vast investment gap, with fixed assets still at <15% of GDP. While on the fiscal front, ND's commitment to fiscal discipline creates a sustainable budgetary framework instilling investor confidence. This laying the groundwork for the country's return to investment grade, most likely in October this year. The Greek Banks in the portfolio have seen a stellar performance, up 72% YTD against 8% and 9% for the Euro STOXX 600 Banks and the overall CEEMEA Banks, respectively. This was driven by consistent earnings beats and EPS upgrades, reflecting the sector's high-interest rate gearing and improved asset quality dynamics. With the election uncertainties cleared, the market now focuses towards the likely shift to the country's investment grade ("IG") upgrade of the sovereign, which will support the cost of equity and drive further interest and flows.

Regarding valuations, the Fund remains attractively trading at a price-to-earnings of 13.1x with 13% earnings growth for 2023(estimate) and 21% for 2024(estimate). In the broader Emerging Markets context, consensus estimates anticipate the MSCI Emerging Markets Index to generate negative earnings growth for this year and 18.7% for 2024(estimate) while trading on a similar 13.1x 1-year forward earnings as the Fund.

Notes to the Financial Statements

1. General

OAKS Emerging Umbrella Fund plc (the "Company") is an open-ended investment company with variable capital and segregated liability between funds, incorporated in Ireland on 8 February 2013 under the Companies Act 2014 with registration number 523604. As the Company is structured as an umbrella fund, it will comprise several funds each representing a separate portfolio of assets (each a "Fund", together the "Funds"). The share capital of the Company may also be divided into different classes with one or more classes of shares representing a Fund. OAKS Emerging Umbrella Fund plc is the reporting entity.

The Company is authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") in accordance with the provisions of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

As at 30 June 2023, the Company had two active Funds (31 December 2022: two active Funds).

Segregated liability between Funds

In accordance with the prospectus of the Company (the "Prospectus"), the assets of each Fund are separate from one another and are invested separately in accordance with the investment objective and policies of each Fund. Whilst there is segregated liability between the Funds, a separate portfolio of assets is not maintained for each class of share.

1.1. OAKS Emerging and Frontier Opportunities Fund

The investment objective of the Fund is to seek to maximise total return by investing in a diversified portfolio of Global Frontier Securities and Global Emerging Securities (as defined in the Prospectus of the Company).

In pursuit of its investment objective, the Fund invests primarily in both long and short positions in global frontier equities and global emerging equities which are listed or traded on recognised exchanges as defined or listed in the Prospectus and financial derivative instruments ("FDIs"), the underlying securities of which will be based on Global Frontier Securities and Global Emerging Securities and/or indices relating to the Global Frontier Securities and Global Emerging Securities. The Fund uses FDIs to gain any short exposure to equity securities and/or indices but it may also use FDIs to take long exposure to equity securities and/or indices. The Fund may also invest in financial instruments which are not traded in an active market. The Fund may use FDIs to hedge against changes in currency exchange rates.

The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies. The allocation of the Fund's assets will be determined by the Investment Manager at its sole discretion and may vary according to market conditions, the Fund is managed with a bottom-up stock picking investment style and is subject to rigorous risk management process.

1.2. Fiera Oaks EM Select Fund

The investment objective of the Fund is to seek to achieve capital growth by investing directly and indirectly in a diversified portfolio of financial instruments taking exposure to Global Frontier Countries and Global Emerging Countries securities (as defined in the Prospectus of the Company).

In pursuit of its investment objective, the Fund invests in long positions primarily in global frontier equities and global emerging equities which are listed or traded on recognised exchanges as defined or listed in the Prospectus and FDIs, the underlying securities of which are based on Global Frontier Securities and Global Emerging Securities. The Fund uses FDIs to take long exposure to global frontier equities and global emerging equities and/or indices relating to the Global Frontier Securities and Global Emerging Securities. The Fund may also invest in global frontier debt and global emerging debt, unlisted securities or in unit of other collective investments schemes with exposure to global frontier countries and global emerging countries and other liquid assets such as government bonds, time deposits, and money market instruments

The Fund is considered to be actively managed in reference to the MSCI EM+FM ex Select Countries Index (the "Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes. However, the Benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the Benchmark. The Fund is managed using a bottom-up fundamental stock selection process to look for pricing inefficiencies arising as a result of a difference in earnings expectations between the market and the Investment Manager's own expectation in relation to Global Frontier Securities and Global Emerging Securities.

2. Significant accounting policies

The following is a summary of the significant accounting policies adopted by the Company:

2.1. Basis of preparation

The interim report and unaudited financial statements for the financial period from 1 January 2023 to 30 June 2023 have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting", the UCITS Regulations and the Central Bank UCITS Regulations. The interim report and unaudited financial statements should be read in conjunction with the annual report and audited annual financial statements for the financial year ended 31 December 2022.

The significant accounting policies adopted by the Company for the financial period ended 30 June 2023 are consistent with those adopted for the financial year ended 31 December 2022.

The financial statements have been prepared under the historical cost basis, as modified by the revaluation of financial assets and financial liabilities classified at fair value through profit or loss.

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue its business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

All references to net assets throughout the financial statements refer to net assets attributable to holders of redeemable participating shares, unless otherwise stated.

New accounting standards, amendments and interpretations in issue and effective for the financial period beginning on or after 1 January 2022 Onerous Contracts - Cost of Fulfilling a Contract (Narrow-scope amendments to IAS 37)

The amendment to IAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognising a separate provision for an onerous contract, the entity recognises any impairment loss that has occurred on assets used in fulfilling the contract.

There are no other standards, amendments to standards or interpretations effective for annual period beginning on or after 1 January 2023 that have a material effect on the Company's financial statements.

Standards, amendments to existing standards and interpretations in issue but not yet effective

Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

The amendments clarify a criterion in IAS 1 for classifying a liability as non-current: the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period.

The amendments:

- specify that an entity's right to defer settlement must exist at the end of the reporting period;
- clarify that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement.
- clarify how lending conditions affect classification; and
- · clarify requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

In its Primary Financial Statements project, the IASB is developing proposals to improve the way information is communicated in financial statements. The IASB proposes to issue requirements in a new IFRS Standard that would replace IAS 1. The amendments apply retrospectively for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted. The Company is currently evaluating the impact, if any, that this amendment will have on its financial statements.

A number of new standards and amendments to standards are yet to be effective for annual period beginning after 1 January 2023 and earlier application is permitted; however, the Company has not early adopted any of the forthcoming new or amended standards in preparing these interim report and unaudited financial statements as they are not expected to have a significant impact on the Company.

2. Significant accounting policies (continued)

2.2. Use of judgments and estimates

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date of the financial statements and the reported amounts of revenues and expenses during the financial period. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are made prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements largely relate to the translation into functional and presentation currencies. The Pricing Committee uses a variety of techniques and makes assumptions that are based on market conditions existing at each reporting date. This is a judgement used in preparing the financial statements.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the financial period are included in note 10 of the Notes to the Financial Statements and relate to the determination of fair value of financial instruments with significant unobservable inputs.

The Directors believe that the estimates utilised in preparing these financial statements are reasonable and prudent.

2.3. Fair value measurement principles

Financial instruments are measured initially at fair value (transaction price), plus, in the case of financial assets or financial liabilities not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their value recognised in the Statement of Comprehensive Income. Financial liabilities arising from the redeemable participating shares issued by the Company are carried at the redemption amount representing the investor's right to a residual interest in the Company's assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Funds has access at that date. The fair value of a liability reflects its non-performance risk.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices or, for non-exchange traded instruments, sourced from a reputable broker/counterparty, at the reporting date without any deduction for estimated future selling costs. A market is regarded as "active" if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Funds measure instruments quoted in an active market at the closing mid-market price, because this price provides a reasonable approximation of the exit price. If there is no quoted price in an active market, then the Funds use valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs.

The Funds may from time to time invest in financial instruments that are not traded in an active market (for example in unlisted securities). The fair value is estimated by using valuation techniques. The Board of Directors (the "Board") has authorised a pricing committee convened by Fiera Capital (UK) Limited (the "Investment Manager") and approved by The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") as the competent person (the "Pricing Committee") to recommend the fair value for such unlisted securities to BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator"). The Pricing Committee uses a variety of techniques and makes assumptions that are based on market conditions existing at each reporting date. The Pricing Committee consists of Mr. Anderson Whamond (Director), and representatives from each of the Investment Manager, its Compliance Department, and its Operations and Trading Departments. A minimum of two members meet at least once every month to review all unlisted securities and determine the valuation policy for these instruments. Minutes are taken by the secretary of all meetings which are circulated to the Administrator and are subsequently approved and ratified by the Board.

Included in the Funds' portfolios are investments in common stock whose country of risk is Vietnam. As a result of Vietnam's foreign ownership restrictions coupled with the maximum authorised shares in issue, shares in certain securities may trade in a local market and a foreign market. Owing to the limitation in the shares available, shares in the foreign market typically trade at a premium to the local price. At each reporting date, the price for positions subject to foreign ownership restrictions is estimated by identifying the principal market for the securities and in the absence of a single principal market, the most advantageous market. The price at each reporting date is based on observable inputs from those markets and is estimated by the Pricing Committee. Please refer to note 10 of the Notes to the Financial Statements for further details.

Notes to the Financial Statements (continued)

3. Share capital

The authorised share capital of the Company is 300,000 redeemable non-participating shares of no par value ("Subscriber shares") and 500,000,000,000,000 participating shares of no par value ("Redeemable Participating shares"). Non-participating shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the consideration paid thereof but do not otherwise entitle them to participate in the assets of the Company. The issued subscriber share capital is 2 shares of no par value (EUR) which are fully paid. The subscriber shares carry no voting rights while the Redeemable Participating shares carry voting rights and are entitled to all dividend and capital surplus rights. The Directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit. Further information on the rights, preferences and restrictions of each share class is available in the Prospectus. Note 6.1 of the Notes to the Financial Statements includes details of the different fee rates applicable to each share class. The Company's capital currently exceeds €300,000, being the capital required to establish a self-managed investment company under the UCITS Regulations.

4. Deposits with credit institutions, bank overdraft and margin cash (due from and to brokers)

As at 30 June 2023 and 31 December 2022, all cash balances and bank overdraft with the exception of some margin cash balances were held by the Depositary.

Margin cash was held for derivatives trading with the following counterparties and is disclosed within amounts due from and to brokers in the Statement of Financial Position. Please refer to note 14 of the Notes to the Financial Statements for details of charges against the assets of the OAKS Emerging and Frontier Opportunities Fund.

As at 30 June 2023, the Fiera Oaks EM Select Fund did not hold any Margin cash.

Class C USD Acc Series 4	USD	-	0.30%
Class C USD Acc Series 5	USD	-	1.95%
Class F USD Dist Series 1	USD	-	1.00%

For the financial period ended 30 June 2023, this fee amounted to €1,043,321 (30 June 2022: €1,101,303).

During the financial period ended 30 June 2023, the Investment Manager re-charged expenses to the Company amounting to €Nil (30 June 2022: €9,721). These expenses relate to travel, conference, legal, courier, translation, company secretary and other fees incurred by the Investment Manager and reimbursed by the Funds.

Performance fee

OAKS Emerging and Frontier Opportunities Fund

In addition, the Investment Manager shall be entitled to receive a performance fee in respect of the Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes, calculated and payable on the last business day of the accounting period.

The performance fee is payable annually in arrears in respect of each accounting period. Each accounting period will end on 31 December each period.

The performance fee for the Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes Class equals a rate of 20% of any excess of the relevant net asset value per class of share over the benchmark net asset value per Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes as at the calculation day, multiplied by the weighted average number of shares of each relevant class in issue as at the calculation day or, in the case of shares which are redeemed, the number of shares of each relevant class being redeemed during the period by reference to which the fee is payable.

The weighted average number of shares is calculated by taking the number of shares outstanding each day in the period divided by the total number of days in that period. Due to the use of averaging in calculating the performance fee the economic effect of performance fee in respect of the Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes on a per share basis may substantially differ from the effective rate.

The benchmark net asset value per Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes Class in respect of the first calculation period shall be the initial offer price of the shares. After the first calculation period, the benchmark net asset value per Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes shall be the higher of the net asset value per Class A EUR Acc Series 1 and 2, Class B USD Acc Series 1 and 2 and Class C GBP Acc Series 1 and 2 share classes share and the benchmark net asset value per Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes as at the last redemption day at the close of the previous accounting period in which a performance fee was payable. If no performance fee was payable in any previous accounting period, the benchmark net asset value per Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes Class shall be the initial offer price for that share at inception.

For the purpose of calculating the performance fee payable in respect of the Class A EUR Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class B USD Acc Series 1, 2, 3, Class C GBP Acc Series 1, 2, 3 and Class D CHF Dist Series 1 share classes Class, the net asset value per share will be calculated after deducting the management fees referred to above but without accounting for the relevant performance fee then payable.

Performance fee (continued)

Net realised and unrealised capital gains and net realised and unrealised capital losses will be included in the performance fee calculation as at the end of a payment date. As a result a performance fee may be paid on unrealised gains that may subsequently never be realised.

No performance fees are payable in respect of the Class A EUR Acc Series 4, Class B USD Acc Series 4 or Class C GBP Acc Series 4 Class Shares.

For the financial period ended 30 June 2023 and 30 June 2023, the performance fees were as follows:

6. Charges and fees (continued)

6.1 Investment Manager fees (continued)

Investment Manager Rebate

OAKS Emerging and Frontier Opportunities Fund

The operating expenses and fees payable out of the assets of the Fund may be reduced by a rebate from the Investment Manager. The Investment Manager has agreed with the Company that to the extent that certain operating expenses of the Fund (all the on-going charges and expenses referred to in the Prospectus and the supplement, other than any performance fees, the cost of buying and selling assets (including brokerage), interest and such other exceptional costs as may be agreed between the Company and the Investment Manager from time to time) exceed 1.8% of the net asset value of each of the Class C GBP Acc Series 3, Class B USD Acc Series 3, Class A EUR Acc Series 4, and Class D CHF Dist Series 1 Class, the Investment Manager shall be responsible for, and reimburse the Fund in the amount of such excess (the "Excess Amount"). Such Excess Amount will be accrued and be taken into account in the calculation of the net asset value of each of the relevant classes, but will only be payable by the Investment Manager to the Fund in arrears at the end of the twelve-month period following the first valuation point in relation to the relevant class. For the financial period ended 30 June 2023, the rebate amounted to €Nil (30 June 2022: €Nil).

6.2 Management Company Fee

Pursuant to the Management Agreement, the Manager is entitled to charge the Company an annual fee based on a combined AUM across the Company and another UCITS managed by the Investment Manager, namely, Magna Umbrella Fund ("Magna") as follows:

- 1.75 bps of AUM per annum €0 €500M
- 1.50 bps of AUM per annum €500M €1BN
- 0.75 bps of AUM per annum €1BN+

The above will be subject to a minimum annual fee not to exceed €80,000 across the Company and Magna. The Management Company's fee shall be subject to the imposition of VAT if required. The fee is calculated and accrued daily and is payable monthly in arrears. The Management Company's fee may be waived or reduced by the Manager, in consultation with the Directors.

The Manager is also entitled to be repaid all of its out-of-pocket expenses (including VAT thereon) out of the assets of the relevant Funds.

For the financial period ended 30 June 2023, total Management Company fees amounted to €28,410 (30 June 2022: €582).

The Company paid Bridge Fund Services Limited (formerly named Bridge Consulting Limited with change effective on 2 May 2023) for the provision of MLRO services. For the financial period ended 30 June 2023, total fees for these services amounted to €1,250 (30 June 2022: €1,250) which is disclosed within the statutory, professional and legal expenses in the Statement of Comprehensive Income. These fees are exclusive of VAT.

6.3 Depositary fees

The Funds pay the Depositary a fee of up to 0.01% per annum of the average net assets up to US\$1 billion, 0.0075% per annum of the next US\$1 billion of the average net assets and 0.0065% of the average net assets in excess of US\$2 billion. Such fees are accrued daily together with any VAT, if applicable. The Depositary is also entitled to reimbursement of all reasonable out-of-pocket expenses properly incurred by it in the performance of its duties and responsibilities. The Depositary also charges the Funds for all safekeeping charges incurred by its sub-custodian plus transaction fees, stamp duties, scrip charges, registration fees and special taxes plus any ad hoc administration costs. The minimum fee payable to the Depositary for global custody has been set at US\$6,250 per month, with account maintenance of US\$30 per custody account, effective 1 May 2020.

For the financial period ended 30 June 2023, total Depositary fees amounted to €196,744 (30 June 2022: €157,946).

6.4 Administrator fees

The Administrator is entitled to a fee, payable monthly in arrears, in relation to administration and accounting services at a rate of up to 0.0325% per annum of the first US\$1 billion of the average net assets, 0.0175% per annum of the next US\$1 billion of the average net assets, 0.0175% per annum of the next US\$1.5 billion of the average net assets and 0.0075% of the average net assets in excess of US\$3.5 billion. For the financial period ended 30 June 2023, this fee amounted to €48,593 (30 June 2022: €56,186).

Each Fund also pays to the Administrator an amount of US\$1,000 per share class per annum out of its own assets and for services provided in relation to shareholder and transfer agency services which shall be accrued daily for the relevant Fund together with any VAT, if applicable.

Each Fund also pays the Administrator a shareholder account administration fee, which is \$27.69 per investor per annum, with additional dealing fees charged for processing deals and wire transfer. The Administrator has also been entitled to be repaid all of its reasonable out-of-pocket expenses properly incurred by it in the performance of its duties and responsibilities, which included technology costs related to internet services provided to the Funds, transaction charges related to share purchases/redemptions, legal expenses, courier and telecommunication costs.

For the financial period ended 30 June 2023, this fee amounted to €15,198 (30 June 2022: €4,910).

Notes to the Financial Statements (continued)

6. Charges and fees (continued)

6.5 Directors fees

The Directors receive a fee for their services up to a total aggregate maximum fee of €160,000 per annum, or such other amount as may from time to time be disclosed in the annual report of the Company. Each Director may be entitled to special remuneration if called upon to perform any special or extra services to the Company, details of which will be set out in the financial statements of the Company. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties. For the financial period ended 30 June 2023, Director's fee amounted to €29,432 (30 June 2022: €42,655) and Director's expenses amounted to €603 (30 June 2022: €562). All expenses paid to the Directors were non-taxable in line with Section 305 of the Companies Act 2014.

For the financial periods ended 30 June 2023 and 30 June 2022, there were no other remuneration or expenses paid to the Directors, apart from as outlined above.

7. Distributions

The Funds are capital appreciation funds and it is not intended that they will pay dividends with the exception of the following distributing class: Class F USD Dist Series 1 (the "distributing share class"). The distributing share class shall, if applicable, pay distributions in respect of each financial year and half-yearly financial period as may from time to time be determined by the Directors, in their absolute discretion. Such distributions in respect of the distributing share class shall be paid within six months of the relevant accounting date or half-yearly accounting date as appropriate. The amount of the distribution (if any) for any financial year or half-yearly financial period as appropriate shall be determined by the Directors and any sums not distributed will be accumulated and reflected in the net asset value of the distributing share classes as appropriate. Any distribution paid will be out of net income, less accrued expenses.

It is intended that any distribution made in respect of the Class F USD Dist Series 1 share class, if applicable, shall be declared in general meeting, which will typically be called within four months from the end of the relevant accounting period and shall be paid within six months from the end of the relevant accounting period.

Any distributions, which remain unclaimed for six years from the date on which they become payable, shall be forfeited and shall become assets of the relevant Fund.

Equalisation is operated in relation to the distributing Funds so that the amount distributed is the same for all shares of the same type notwithstanding different dates of issue. Equalisation amounts on subscriptions and redemptions are included in the amounts attributable for distributions.

The tables below show details of distributions declared and paid on the Funds during the financial period.

Distributions from Fiera Oaks EM Select Fund per share class during the financial period ended 30 June 2023 were as follows:

Fund Class	Ex Date	Pay Date	Dividend per	Amount
		Rede	emable Participating Share	
Class F USD Dist Series 1	22/05/2023	21/06/2023	0.0121	\$291

8. Taxation

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. Therefore, it will not be liable to Irish tax on its income or gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of shares or the ending period for which the investment was held.

Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain or chargeable event does not arise in respect of:

- (i) a shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provide the necessary signed statutory declarations are held by the Company;
- (ii) certain exempted Irish tax resident investors who have provided the Company with the necessary signed statutory declarations;
- (iii) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another fund;
- $(iv) \ any \ transactions \ in \ relation \ to \ shares \ held \ in \ a \ recognised \ clearing \ system \ as \ designated \ by \ order \ of \ the \ Revenue \ Commissioners \ of \ Ireland;$
- (v) certain exchanges between spouses and former spouses on the occasion of judicial separation and/or divorce; or

Notes to the Financial Statements (continued)

8. Taxation (continued)

The Company is exposed to tax risks with regard to the imposition of taxes in the jurisdictions in which it invests (including but not limited to capital gains tax and withholding tax), and has put in place a process for the identification of its obligations in this regard including periodic updates to its tax database and external, third party validation of this database at regular intervals.

Capital gains, dividends and interest (if any) received on investment made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders. The dividend withholding tax charge for the financial period ended 30 June 2023 was €277,385 (30 June 2022: €758,617), of which €11,670 was outstanding as at 30 June 2023 (31 December: €Nil). The capital gains tax charge for the financial period ended 30 June 2023 was €65,351 (30 June 2022: Nil), of which €Nil was outstanding as at 30 June 2023 (31 December 2022: €Nil).

The Company may be subject to taxes imposed on realised and unrealised gains on securities of certain foreign countries in which the Company invests. The foreign tax expense, if any, is recorded on an accruals basis and is included in taxation in the Statement of Comprehensive Income. The amount of foreign tax owed, if any, is included in deferred tax payable in the Statement of Financial Position.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event, and the Company reserves its right to withhold such taxes from the relevant shareholders.

9. Related party transactions

According to IAS 24 Related Parties, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions or is a member of the key management personnel of the reporting entity or of a parent of the reporting entity. The following related party relationships and transactions have been identified.

The Directors, the Investment Manager and the Manager are considered as key management personnel. Details of fees charged during the current and prior financial periods are disclosed in note 6 of the Notes to the Financial Statements. Fiera Capital (Europe) Limited is the parent company of Fiera Capital (UK) Limited, the Investment Manager and Share Distributor. Fiera Capital (Europe) Limited, the Investment Manager and Share Distributor are considered related parties.

Anderson Whamond is a Director of the Investment Manager and Fiera Capital (Europe) Limited.

As at 30 June 2023 and 31 December 2022, the Investment Manager held one Subscriber share and an employee of the Investment Manager also held one Subscriber share in trust for the Investment Manager.

10. Connected person transactions

In accordance with the requirements of the Central Bank UCITS Regulations, any transaction carried out with the Company by a management company, depositary, delegates or sub-delegates and/or associated or group companies of these entities ("connected persons") must be carried out as if negotiated at arm's length. Such transaction must be in the best interests of the shareholders. In addition to those transactions, there are also transactions carried out by connected persons on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from its delegates that the connected persons carrying out these transactions do carry them out on a similar basis. As required under the Central Bank UCITS Regulations, the Directors, as responsible persons are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by the Central Bank UCITS Regulations are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the financial period to which the report relates complied with the obligations that are prescribed by the Central Bank UCITS Regulations.

Note 8 of the Notes to the Financial Statements details related party transactions in the financial period as required by IAS 24. However, shareholders should understand that not all "connected persons" are related parties as such latter expression is defined by IAS 24. Details of fees paid to related parties and certain connected persons are set out in notes 6 and 8 of the Notes to the Financial Statements.

Related party transactions were made on terms equivalent to those that prevail in arm's length transactions.

11. Fair value estimation

IFRS 13 requires the Company to classify fair value measurement using a fair value hierarchy that reflects the significance of the input used in making the measurements.

Investments measured and reported at fair value are classified and disclosed in one of the following fair value hierarchy levels based on the significance of the inputs used in measuring its fair value:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the valuation date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices in active markets included within Level 1 that are observable for the asset or liability, either directly or indirectly. Fair value is determined through the use of models, other valuation methodologies or where quoted prices are used but the market is not active.

- a. Quoted prices for similar assets or liabilities in active markets.
- b. Quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly.
- c. Inputs other than quoted prices that are observable for the asset or liability (e.g. interest rate and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates).
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Notes to the Financial Statements (continued)

11. Fair value estimation (continued)

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the Pricing Committee's assumptions about how market participants would be expected to value the asset or liability. Unobservable inputs are developed based on the best information available in the circumstances, other than market data obtained from sources independent of the Funds and might include a Fund's own data.

An investment is always categorised as Level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and is specific to the investment.

The fair values of investments valued under Levels 1 to 3 are as follows:

For all other assets and liabilities including cash and cash equivalents and net assets attributable to holders of redeemable participating shares, their carrying values are a reasonable approximation of fair value. As such, Level 1 is deemed to be the most appropriate categorisation for cash and Level 2 is deemed to be the most appropriate level for all other assets and liabilities.

Investments in the Funds include common stock whose country of risk is Vietnam (31 December 2022: common stock). As a result of Vietnam's foreign ownership restrictions coupled with the maximum authorised shares in issue, shares in certain securities may trade in a local market and a foreign market. Owing to the limitation in the shares available, shares in the foreign market typically trade at a premium to the local price. At each reporting date, the price for positions subject to foreign ownership restrictions is estimated by identifying the principal market for the securities and in the absence of a single principal market, the most advantageous market. The price at each reporting date is based on observable inputs from those markets and is estimated by the Pricing Committee. As at 30 June 2023 and 31 December 2022, no premium over the local price was applied to the positions in the Financial Statements.

Unobservable inputs are used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, i.e. an exit price from the perspective of a market participant that holds the asset or owes the liability. Therefore, unobservable inputs shall reflect the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk.

There were no Level 3 investments held in OAKS Emerging and Frontier Opportunities Fund and Fiera Oaks EM Select Fund.

Notes to the Financial Statements (continued)

11. Fair value estimation (continued)

The tables below present the movement in Level 3 instruments for the financial period ended 30 June 2023 and financial year ended 31 December 2022:

As at 30 June 2023

	OAKS Emerging and Frontiers Opportunity Fund	Fiera Oaks EM Select Fund
	€	\$
Opening Balance	660,653	174,017
Sales	(813,911)	(227,649)
Movement in gains and losses recognised in the profit and loss account	153,258	53,632
Closing Balance	-	•

As at 31 December 2022

	OAKS Emerging and Frontiers Opportunity Fund	Fiera Oaks EM Select Fund
	€	\$
Opening Balance	-	-
Purchases	112,325	22,909
Transfer into Level 3	1,280,676	397,256
Movement in gains and losses recognised in the profit and loss account	(732,348)	(246,148)
Closing Balance	660,653	174,017

The classification of a financial instrument within Level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

Transfers between Level 1 and Level 2

There were no transfers between the levels during the financial period ended 30 June 2023 and financial year ended 31 December 2022.

12. Use of financial derivative instruments ("FDIs")

Where considered appropriate, the Company may utilise instruments such as futures, options, contracts for difference, swaps and forward currency contracts for efficient portfolio management and/or to protect against exchange risks within the conditions and limits laid down by the Central Bank from time to time. For UCITS which have engaged in efficient portfolio management techniques, disclosures are required in accordance with the requirements of the Central Bank UCITS Regulations. A UCITS is required to disclose the revenues arising from repurchase agreements and stock lending transactions for the entire reporting period together with the direct and indirect operational costs and fees incurred. During the financial period ended 30 June 2023 and financial year ended 31 December 2022, the Funds did not enter into repurchase agreements and did not engage in stock lending activities. A description of the use of FDIs is set out below.

The Funds may enter into forward currency contracts to purchase or sell a specific currency at a future date at a price set at the time of the contract. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Funds may use one currency (or a basket of currencies) to hedge against adverse changes in the value of another currency (or a basket of currencies) when exchange rates between the two currencies are positively correlated. The underlying exposure on forward currency contracts as at 30 June 2023 and the corresponding counterparty are contained in the Schedule of Investments.

The Investment Manager may take a temporary defensive position when the securities trading markets or the economy are experiencing excessive volatility, a prolonged general decline, or other adverse conditions. The Funds may invest in different transferable securities such as U.S. government securities, short term indebtedness, and money market instruments issued or guaranteed by any Member State, its local authorities, non-Member States or public international body of which one or more Member States are members subject to and in accordance with the requirements of the Central Bank and the Regulations or other investment grade cash equivalents. When the Funds are in a defensive investment position, it may not achieve its investment objective

The Funds enter into contracts with a market maker whereby the market maker notionally buys or sells a specified security from/to the Funds. An unfunded contract for difference is an agreement between the Funds and third party which allows the Funds to acquire an exposure to the price movement of specific securities without actually purchasing the securities. Upon entering into an unfunded contract for difference, the Funds are required to deposit with a broker an initial cash margin equal to a certain percentage of the contract amount. Variation margin payments are made or received by the Funds depending upon the fluctuation in the value of the underlying securities. Price movements against contract values are recorded as unrealised gains or losses while the contract is open and the Funds crystallise a realised gain or loss when the contract is closed. The underlying exposure on contracts for difference as at 30 June 2023 and the corresponding counterparty are disclosed in the Schedule of Investments.

Realised and unrealised gains and losses arising from the use of financial derivative instruments are included in the Statement of Comprehensive Income. Transaction costs, including commissions, on contracts for difference are not separately identifiable and are included in the Statement of Comprehensive Income within net realised gain/(loss) on investment transactions. Finance charges on contracts for difference are included in the Statement of Comprehensive Income within interest expense.

13. Commission sharing arrangements

Supplementary Information

Key Investor Information Document ("KIID")

A KIID for each share class of the Company in compliance with the Regulations is available from the Share Distributor and on the websites of www.fundinfo.com and https://uk.fieracapital.com.

Anti-dilution Levy

The Company reserves the right to impose an 'anti-dilution levy' representing a provision for market spreads (the differences between the prices at which assets are valued and/or bought or sold), duties and charges and other dealing costs relating to the acquisition or disposal of assets and to preserve the value of the underlying assets of a Fund, in the event of receipt for processing of net subscriptions and/or redemptions, including subscriptions and redemptions which would be effected as a result of requests for conversion from one Fund into another Fund. Unless otherwise disclosed in the relevant supplement, any such provision may be added to the price at which shares will be issued in the case of net subscription requests exceeding 1% of the net asset value of a Fund and deducted from the price at which shares will be redeemed in the case of net redemption requests exceeding 1% of the net asset value of a Fund, including the price of shares issued or redeemed as a result of requests for conversion. The application of any provision will be subject to the overall direction and discretion of the Company.
