What is this product?**Type**

The Financial Opportunities Fund (the "Fund") is an investment fund. The Fund is a sub-fund of Polar Capital Funds plc (the "Company"), an umbrella type open-ended investment company with variable capital and segregated liability between funds, incorporated with limited liability under the laws of Ireland. This is an Undertaking for the Collective Investment in Transferable Securities (UCITS) product.

Objectives

The objective of the Fund is to achieve long term capital growth, by investing worldwide in the shares of financial sector companies.

Investment Policy

The Fund invests in financial companies (to include banks, life and non-life insurance and reinsurance companies, asset management and brokerage companies), and companies related to the financial sector worldwide (to include property and real estate companies, companies which provide support services to the financial sector and companies that own financial sector related assets). The Fund may invest in financial derivatives (complex instruments based upon the value of underlying assets) for hedging, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way. The Fund is actively managed and uses the MSCI ACWI Financials Net Total Return Index (GBP) benchmark for performance comparison purposes and to calculate the performance fee. The currency of the Fund is US Dollar and the currency of this share class is British Pounds (GBP).

There is no intention to pay dividends in respect of the Accumulation Share Classes.

Sustainable Finance Disclosure Regulation

This Fund promotes environmental and/or social characteristics and is classified as an Article 8 fund under the EU's Sustainable Finance Disclosure Regulation ("SFDR"). For more information please see the Fund's prospectus or by visiting www.polarcapital.co.uk.

Intended Retail Investor

This product is intended for all investors (including those with a basic level of investment knowledge) who are seeking a return on their investment and who can accept the risk of losing some or all of their original investment. The product should be considered a medium to long-term investment, defined as three years or more.

Term

This product does not have a maturity date.

Additional Information

The product's administrator is Northern Trust International Fund Administration Services (Ireland) Limited and the depositary is Northern Trust Fiduciary Services (Ireland) Limited, both of Georges Court, 54-62 Townsend Street, Dublin, Ireland D02 R156. Please speak to your financial adviser for further information.

Share prices will be published on www.polarcapital.co.uk on each valuation day. Please refer to the Company's prospectus for information on buying, switching and selling shares in the Fund. Shares can be bought and sold on any dealing day, where banks are normally open for business in the United Kingdom and Ireland, before 15:00 (Irish time) on that relevant day. Further information can be found under How long should I hold it and can I take money out early? The product manufacturer can cancel or redeem shares at the discretion of the Directors, by giving not less than 30 days' notice in writing to the relevant Shareholders. Please refer to Prospectus for more information. Please refer to 'Compulsory Redemption' and 'Foreign Account Tax Compliance Act' sections of the Prospectus for further information on compulsory redemptions.

What are the risks and what could I get in return?

Risk Indicator

Lower Risk

Higher Risk

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

If the product currency differs from your investment currency, the following applies: Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Due to effects of unusual market conditions, other risks could be triggered. Please see below for more detail.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower. In particular, the figures quoted for the favourable performance, while based on actual performance, relate to performance during a period of exceptional circumstances that are not likely to be repeated. Markets could develop very differently in the future and past performance is not a guarantee or a reliable guide to future performance. The value of your investment may go down as well as up, and may vary.

Recommended holding period: 5 years Example Investment: GBP 10,000.		If you exit after 1 year	If you exit after 5 years
Minimum There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs	1,340 GBP	1,170 GBP
	Average return each year	-86.58 %	-34.94 %
Unfavourable	What you might get back after costs	7,330 GBP	9,040 GBP
	Average return each year	-26.68 %	-2.01 %
Moderate	What you might get back after costs	9,880 GBP	12,060 GBP
	Average return each year	-1.17 %	3.82 %
Favourable	What you might get back after costs	14,340 GBP	15,340 GBP
	Average return each year	43.44 %	8.94 %

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between March 2015 and March 2020.

The moderate scenario occurred for an investment between November 2015 and November 2020.

The favourable scenario occurred for an investment between July 2014 and July 2019.

What happens if Bridge Fund Management Limited is unable to pay out?

For the protection of investors the Fund's assets are held by an independent depository, so the Fund's ability to pay out would not be affected by the insolvency of Bridge Fund Management Limited. If the Fund is terminated or wound up, the assets will be liquidated, and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. There is no compensation scheme protecting you from this scenario.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	699 GBP	1,951 GBP
Annual cost impact (*)	7.0%	3.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.0% before costs and 3.8% after costs.

Figures may not sum due to rounding

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

Investment in this Fund may be appropriate for investors who plan to invest over the medium to long term (3 to 5 years). The recommended holding period is shown for illustrative purposes only. There are no penalties if you wish to redeem your investment prior to the recommended holding period. The Shares can be sold by ordinary investors using an intermediary (e.g. a stockbroker) when the markets on which they trade are open. Redemption requests must be received by 15:00 (Irish time). Any requests received after this time will be treated as having been received the following dealing day. Please contact your broker, financial advisor or distributor for information on any costs and charges relating to the sale of shares. An intermediary is likely to apply a commission to purchases and sales. The above mentioned period has been defined in accordance to the product characteristics. Please refer to the Prospectus for further information regarding redemption or switching requests.
