Background to the Trust

Putnam World Trust (the "Trust") is an umbrella Unit Trust authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") pursuant to the provisions of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The Trust was constituted on 18 February 2000 and commenced operations on 22 February 2000. The Trust has adopted specific policies and procedures in order to comply with its obligations under these Central Bank UCITS Regulations.

Carne Global Fund Managers (Ireland) Limited ("Carne") acts as the Manager of the Trust. For the purposes of these financial statements, all references to the "Manager" shall refer to Carne Global Fund Managers (Ireland) Limited throughout, unless otherwise stated. The Putnam Advisory Company, LLC (the "Investment Advisor" or "Putnam") acts as Investment Advisor to the Trust.

The Trust comprises Funds (each a "Fund", collectively the "Funds") in which different classes of Units may be issued from time to time. Each Fund represents interests in a trust comprising a separate and distinct portfolio of investments. The Manager may issue different classes of Units in each Fund. Each Fund will bear its own liabilities and shall not bear the liabilities of any other Fund.

As of 31 December 2023, the following Funds and classes of Units are in issue:

Fund	Classes of Units currently in issue	Fund's Functional Currency
Putnam Global High Yield Bond Fund	Classes A, B, C, E, E2, I, S and S3	U.S. Dollar
Putnam Global Technology Fund	Classes A, A2, E, E2, I, I2, I3, I4, S and S2	U.S. Dollar
Putnam Securitised Credit Fund	Classes E, E2, I and S	U.S. Dollar
Putnam U.S. Large Cap Growth Fund	Classes A, E and I	U.S. Dollar
Putnam Ultra Short Duration Income Fund	Classes A, A2, I and I2	U.S. Dollar

For Funds with Class E Units and Class E2 Units, unit values of these unit classes are stated in euro (€) throughout this report.

For Funds with Class S Units, Class S2 Units and Class S3 Units, unit values of these unit classes are stated in sterling (£) throughout this report.

Remaining classes as listed in the table are stated in U.S. Dollar throughout the report.

Investment Objectives

The assets of each Fund will be invested separately in accordance with the investment objectives and policies of the Fund. Each Fund has its own investment goal and strategy for pursuing it.

Putnam Global High Yield Bond Fund

The Fund seeks high current income. Capital growth is a secondary objective when consistent with the objective of high current income. The Fund is actively managed in reference to the ICE BofA Global High Yield Investment Grade Country Constrained Index, which is an unmanaged, USD-hedged index of high yield corporate bonds from those countries that issue investment-grade government bonds. The Fund is not limited to a specific geographic focus.

The Fund seeks to achieve its objective by investing at least two-thirds of its total assets (after deduction of ancillary liquid assets) in high-yielding, lower-rated debt securities worldwide such as those rated lower than S&P's BBB or Moody's Baa and listed or traded on Recognised Exchanges (including unleveraged freely transferable loan participations securitised and traded on a Recognised Exchange, zero-coupon bond and payment-in-kind bonds) constituting a portfolio which the Investment Advisor believes does not involve undue risk to income or principal. The Fund may also invest in 144A securities.

Putnam Global Technology Fund

The investment objective of the Fund is to seek capital appreciation. The Fund is actively managed in reference to the MSCI World Information Technology 10/40 Index. Although the Fund measures its performance against the benchmark, it is not an index tracker.

The Fund seeks to achieve its objective by investing at least two-thirds of its total assets (after deduction of ancillary liquid assets) in equity securities and equity-related securities such as warrants, convertible bonds or preferred stocks issued by large and midsize capitalisation companies worldwide that are listed or traded on Recognised Exchanges globally, with a focus on technology industries. Potential investments include companies that have, or will develop, products, processes or services that will provide advances and improvements through technology to consumers, enterprises and governments worldwide.

Under normal market conditions, the Fund intends to invest in at least five different countries and at least 40% of its net assets in securities of non-U.S. companies (or, if less, at least the percentage of net assets that is ten percentage points less than the percentage of the benchmark represented by non-U.S. companies, as determined by the providers of the benchmark), and 15-35% of its net assets in issuers located in emerging market countries.

The Fund's investments will be listed or traded on a Recognised Exchange, with the exception that up to 10% of the Fund's net assets may be invested in instruments that are not so listed or traded. The Fund is disclosing and reporting pursuant to Article 8 of the EU Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) ("SFDR").

Putnam Securitised Credit Fund

The Fund's objective is to achieve an average annual total return, gross of fees, that exceeds the ICE BofA U.S. Dollar 1-Month Constant Maturity Index (reported in the relevant currency of the unit class, where applicable) by 3.0-5.0%, as measured over a full market cycle (generally at least three years or more). The Fund is actively managed in reference to its benchmark.

The Fund's investments may include securitised debt instruments such as commercial and residential mortgage-backed securities and asset-backed securities, obligations of the U.S. government, its agencies and instrumentalities, which are backed by the full faith and credit of the United States (e.g., U.S. Treasury bonds and Ginnie Mae mortgage-backed bonds) or by only the credit of a federal agency or government-sponsored entity (e.g., Fannie Mae or Freddie Mac mortgage-backed bonds), collateralised mortgage obligations (including interest only ("IO"), principal only ("PO"), and other prepayment derivatives such as the example described in the Fund's Prospectus), collateralised debt obligations, U.S. and non-U.S. corporate debt obligations, to be announced securities ("TBAs") (forward delivery contracts for mortgage-backed securities) and taxable municipal debt securities. The Fund may also invest in 144A securities.

The Fund's investments will be listed or traded on a Recognised Exchange with the exception that up to 10% of the Fund's net assets may be invested in fixed-income securities, as set out in the Prospectus, that are not listed as aforesaid. The Fund may also hold assets, on a temporary basis, in cash or cash equivalents all of which must be rated at least A-1 or P-1 quality, at time of purchase, by S&P and Moody's, or deemed to be of equivalent quality by the Investment Advisor and listed or traded on Recognised Exchanges.

For cash management purposes, the Fund may invest, consistent with the requirements of the Regulations and subject to the limits set out under the heading "Investment Restrictions" in the Fund's supplement, in collective investment schemes (including money market funds) managed by the Investment Advisor or its affiliates, including other Funds of the Trust.

Putnam U.S. Large Cap Growth Fund

The investment objective of the Fund is to seek capital appreciation. The Fund seeks to achieve its objective by investing at least two-thirds of its total assets (after deduction of ancillary liquid assets) in equity securities and equity-related securities such as warrants, convertible stocks or preferred stocks issued by large capitalisation U.S. companies which are listed or traded on Recognised Exchanges globally, with a focus on growth stocks. Growth stocks are issued by companies whose earnings are expected to grow faster than those of similar firms, and whose business growth and other characteristics may lead to an increase in stock price. The Investment Advisor uses fundamental investment research to seek opportunities and may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in the industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments. The Fund is actively managed in reference to the Russell 1000 Growth Index. The Fund is disclosing and reporting pursuant to Article 8 of the EU Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) ("SFDR").

Investment Objectives *cont.*

Putnam Ultra Short Duration Income Fund

The Fund's investment objective is to seek capital preservation and a rate of current income higher than U.S. Treasury bills by investing in a diversified portfolio composed of short duration, investment-grade money market and other fixed-income securities. The Fund is actively managed in reference to the ICE BofA U.S. Treasury Bill Index.

The Fund's investments may include obligations of the U.S. government, its agencies and instrumentalities, which are backed by the full faith and credit of the United States (e.g., U.S. Treasury bonds and Ginnie Mae mortgage-backed bonds) or by only the credit of a federal agency or government-sponsored entity (e.g., Fannie Mae or Freddie Mac mortgage-backed bonds), U.S. corporate debt obligations, taxable municipal debt securities, securitised debt instruments (such as mortgage and asset-backed securities), certificates of deposit, commercial paper (including asset-backed commercial paper), time deposits, Yankee and Eurodollar securities and other money market instruments. The Fund may also invest in U.S. Dollar-denominated foreign securities of this type. The Fund may also invest in 144A securities. Under normal circumstances, the effective duration of the Fund's portfolio will generally not be greater than one year and the dollar-weighted average portfolio maturity of the Fund is not expected to exceed three and one-half years. The Fund is not limited to a specific geographic focus.

The Fund may use derivatives, including futures, forwards, options, swaps, and mortgage-related derivatives, for investment purposes or to hedge against risk. The Fund may also use forward foreign exchange contracts or other currency derivatives for managing and hedging the Fund's exposure to changes in currency exchange rates.

The Fund may use repurchase agreements or reverse repurchase agreements (the exchange of a security for an agreement to repurchase (or resell, if reverse) the security at a fixed future date and price) to generate additional income and capital for the Fund or for efficient portfolio management purposes.

Policies

Distribution Policy

Each of the Funds is certified (with respect to certain classes of Units) as a Reporting Fund under Regulation 51 of the Offshore Funds (Tax) Regulations 2009.

Each Fund has its own specific distribution policy. If the Manager decides to make a distribution, it will be paid at the Manager's discretion as set out in the relevant Prospectus supplement for the Fund. For certain Funds, the Manager will distribute all net investment income of a Fund at least annually and sometimes more frequently as specified in the relevant supplement. Distributions shall be made to the Unitholders on record on the date of distribution in accordance with the number of Units held in that particular Fund. The distributions payable to Unitholders will be reinvested in Classes of Units of the relevant Fund unless otherwise requested by the Unitholder.

Distributions are payable to Unitholders who have elected to receive distributions in cash by transfer of funds (any charges being at the expense of the Unitholder) unless the amount of such distribution is USD50 or less or such other amount as determined by the Manager from time to time. Such amount shall not be distributed but shall be retained and reinvested.

The Manager does not currently intend to distribute net investment income with respect to the following Funds and Classes; not all classes listed below are currently in issue, see the section entitled "Background to the Trust" for classes in issue:

- Class E2 Units, Class S2 Units and Class S3 Units of Putnam Global High Yield Bond Fund;
- Class A2 Units, Class E2 Units, Class E4 Units, Class I2 Units, Class I4 Units, Class S2 Units and Class S4 Units of Putnam Global Technology Fund;
- Class E2 Units of Putnam Securitised Credit Fund;
- Class A Units, Class E Units, Class I Units, Class M Units and Class S Units of Putnam U.S. Large Cap Growth Fund; and
- Class A2 Units and Class I2 Units of Putnam Ultra Short Duration Income Fund.

If, in the future, it is determined that these Classes will distribute net investment income, the amount to be distributed to Unitholders will be decided upon by the Manager.

Calculation of Net Asset Value

The Net Asset Value of each Fund will be expressed in the functional currency of the relevant Fund and will be calculated on each Dealing Day by ascertaining the value of the assets of the Fund on such Dealing Day and deducting, from such value, the liabilities of the Fund on such Dealing Day. The Net Asset Value per Unit is calculated by dividing the Net Asset Value of the relevant Fund by the number of Units then outstanding for that Fund, or the Net Asset Value of the relevant Fund attributable to the Class of Unit divided by the number of Units in that Class then in issue or deemed to be in issue on such Dealing Day and rounding the result to the nearest unit of currency.

The most recently available Net Asset Value per Unit by Class on each Dealing Day will be made public at the registered office of State Street Fund Services (Ireland) Limited (the "Administrator") and at the following website addresses: www.fundinfo.com for investors in Switzerland or www.putnam.com/ucits for all other investors and/or in such other publication that the Manager may from time to time determine. Investors should note that the Trust and the Manager are not responsible for any other content (other than Net Asset Value) provided on the foregoing non-Putnam websites, and do not guarantee or assume responsibility for their contents.

Calculation of Sales Charges

An initial sales charge of up to 6.25% of the Net Asset Value per Unit may be charged on certain classes or a contingent deferred sales charge ("CDSC") of up to 4% of the Net Asset Value per Unit may be charged at the discretion of the Manager.

Currently, Class A Units, Class M Units and Class T Units may be subject to a sales charge of up to 6.25% of the Net Asset Value per Unit except for Class A Units, Class M Units and Class T Units of Putnam Ultra Short Duration Income Fund. Class A Units, Class A2 Units, Class M Units and Class T Units of Putnam Global Technology Fund have an initial sales charge of up to 5%.

Currently, Class B Units and Class C Units are offered without an initial sales charge at the time of purchase but a higher ongoing management fee is paid out of assets allocated to the relevant Fund and Class. Unitholders who purchase Class B Units may incur a CDSC of up to 4% if Units are redeemed within four years as set out in the Prospectus. Unitholders who purchase Class C Units may incur a 1% CDSC if Units are redeemed within one year of purchase.

There are no initial or deferred sales charges with respect to Class D Units, Class E Units, Class E2 Units, Class E3 Units, Class E4 Units, Class I Units, Class I2 Units, Class I3 Units, Class I4 Units, Class NK Units, Class S Units, Class SK Units, Class S2 Units, Class S3 Units, Class S4 Units and Class Y Units. In addition, there are no initial or deferred sales charges with respect to Class M Units and Class T Units of Putnam Ultra Short Duration Income Fund.

Any initial sales charges are accounted for before monies come into the Fund.

Financial Derivative Instruments

The Manager may, on behalf of each Fund, employ techniques and instruments relating to transferable securities and money market instruments under and in accordance with conditions or requirements imposed by the Central Bank. The derivatives used by the Funds may include futures, swaps, swaptions, options, TBA purchases and sales, forward contracts, and contracts for difference, and they may be used for hedging and for investment purposes, including as a substitute for direct investment in securities or to obtain additional exposure beyond that which might be obtained from a traditional securities portfolio, subject always to the restrictions and requirements of the Central Bank.

Details of the derivatives that may be used are set out in the derivatives risk management process filed with the Central Bank. The Funds may also use forward foreign exchange contracts and other currency instruments for hedging or to alter the currency exposure characteristics of transferable securities held by the Funds as an alternative currency exposure management strategy. The techniques and instruments that the Manager may use on behalf of the Trust or any Fund are set out in Appendix II of the Prospectus and, if applicable to a particular Fund, the relevant supplement.

For the purpose of providing margin or collateral in respect of the application of transactions in techniques and instruments, State Street Custodial Services (Ireland) Limited (the "Depository") may transfer, mortgage, charge, or encumber any assets or cash forming part of the relevant Fund, on proper instruction from the Investment Advisor.

Investment Advisor's Report

Dear Unitholder:

Markets rallied in the closing months of 2023 on optimism for a pivot in central bank policy. Inflation pressures declined in the United States and Europe, and the U.S. Federal Reserve communicated intentions to cut interest rates as early as the first half of 2024.

Performance in the earlier months of the semiannual period was weaker, as inflation posed more of a menace. In July, U.S. bond yields rose after the Fed raised interest rates by 0.25%, bringing the cost of borrowing to a 22-year high. In August, U.S. Treasury yields soared after Fitch Ratings downgraded U.S. government debt. Equity markets also declined from July to October due to uncertainty about the path of monetary tightening and the possibility of recession.

Amid the worries, optimism for the long-term potential of generative AI drove the leadership of a narrow range of large-cap growth stocks. Broader sentiment ultimately improved in November, and a wider range of sectors and global markets joined the rally.

In 2024, markets appear to be focused on when the Fed and the European Central Bank might begin cutting interest rates. Geopolitical risks also remain heightened amid warfare in Europe and the Middle East and elections on the calendar in many regions.

I would like to take this opportunity to thank you for your continued confidence in the Putnam World Trust family of funds.

Respectfully yours,

F. Peter Ferrelli

Total Return for the financial period ended 31 December 2023

The total return tables for the Funds are disclosed in each Investment Advisor's Report.

Total return is the change in unit value and assumes reinvestment of all distributions back into the Fund. Investment returns and principal value will fluctuate so an investor's units, when sold, may be worth more or less than their original cost. Fund performance data does not take into account any adjustment for taxes payable on reinvested distributions. All performance in this table is based on U.S. Dollar valuations.

Performance data represent past results. Past performance may not be a reliable guide to future performance. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Units. More recent returns may be less or more than those shown.

Investment return, Net Asset Value, and market price of investments will fluctuate, and you may have a gain or a loss when you sell your Units. Performance assumes reinvestment of distributions at Net Asset Value and does not account for any taxes or sales charges. The payment of any sales charges will reduce performance.

For Funds with income as an objective, income may fluctuate in accordance with market conditions and taxation arrangements. Changes in the exchange rates may have an adverse effect on the value, price, or income of the Funds.

The Funds are sub-funds of Putnam World Trust, an umbrella Unit Trust domiciled in Ireland. The Trust is established as an undertaking for collective investment in transferable securities pursuant to the Central Bank UCITS Regulations. Prior to 18 February 2000, Putnam Global High Yield Bond Fund was domiciled in the Cayman Islands and was subject to lower fees and expenses.

Putnam Global High Yield Bond Fund

For the six months ended 31 December 2023, the Fund's unit classes posted positive returns but had mixed results relative to their benchmarks. The Fund's benchmark, the ICE BofA Global High Yield Investment Grade Country Constrained Index, returned 7.65% in U.S. Dollar terms, 6.52% in euro terms, and 7.27% in sterling terms. See page 8 for the ICE BofA benchmark disclosure.

At the sector level, underweight positioning and security selection within financials, plus security selection within chemicals and paper & packaging were the top contributors to relative returns. On the other hand, security selection within energy and services, along with underweight positioning and security selection within cable & satellite, detracted from relative performance. At the issuer level, overweight exposure to Solenis International was the top contributor to relative returns following a strong fiscal Q4 report. Overweight exposure to Teva Pharmaceutical and ARD Holdings also added to relative returns. Meanwhile, overweight exposure to Mallinckrodt was the largest detractor from relative returns, as the company filed for bankruptcy in October. Overweight exposure to PetSmart and Chart Industries also detracted from relative returns.

The high-yield market performed strongly with other risk assets in 2023 as recession risks declined and inflation readings continued to recede. Corporate fundamentals have been resilient and technicals in the market have been supportive. We expect these trends to persist in 2024 in the context of slower economic growth. Valuation is somewhat less compelling after a particularly strong year-end rally. Macro forces remain in play, including slower growth, a tight labor market, and inflation that, while reduced, is elevated relative to central bank targets. Although rates may remain higher for longer, we are likely to see rate cuts in 2024 given dovish rhetoric from the Fed. We remain focused on industry and company fundamentals, the health of balance sheets, the generation and use of free cash flow, and the resiliency of credits to slower economic growth. The U.S. high-yield default rate (including distressed exchanges) declined marginally in 2023 and remains below long-term averages, ending December at 2.84%. Technicals have remained supportive as demand for risk assets has continued to improve since the start of 2023. Lower new issuance, coupled with high rising star volume, is also supportive to the technical backdrop. Yields are now near their long-term median while spreads have tightened to levels that are fair but not compelling. Historically, yields at their current level have been a good entry point for high yield. Risks to our outlook include further banking volatility, policy missteps from global central banks, a more severe slowdown or recession, and/or heightened geopolitical tension.

In light of our outlook, we have kept a market level of risk in the portfolio by maintaining an underweight allocation to higher-quality split-BBB bonds and an overweight to B-rated credits. We are neutral to CCCs, as recession odds have decreased. At the industry level, we have underweights to financials, telecommunications, and automotive, and overweights to services, gaming, lodging & leisure, and housing.

Putnam Global Technology Fund

For the six months ended 31 December 2023, the Fund's unit classes posted solid absolute returns. The Fund's benchmark, the MSCI World Information Technology 10/40 Index (ND), returned 13.27% in U.S. Dollar terms, 11.59% in euro terms, and 12.18% in sterling terms. See page 8 for MSCI benchmark disclosure.

During the reporting period, top individual contributors included overweight positions in Fair Isaac, Seagate Technology, Advanced Micro Devices, Novatek Microelectronics, and Uber Technologies. Also helpful was our underweight position in Apple. Among the detractors from performance were overweight positions in Oracle and Renesas Electronics, and an out-of-benchmark position in Meituan.

We continue to be optimistic about opportunities in the technology sector, including the growth potential in artificial intelligence, and especially generative AI. Artificial intelligence describes the capability of computer systems to imitate human intelligence. Generative AI, including ChatGPT, can summarise massive quantities of information. We believe AI will be another revolutionary boost to global productivity growth, much like the internet has been in the past two decades. Once the initial buzz over ChatGPT fizzles, we expect to see real monetisation opportunities in the business-to-business category over the next two years. In line with that view, we believe the portfolio has positions in companies that are poised to benefit from this long-term trend.

We are also excited about another category of stocks, known as compounders. These are companies that can steadily grow their fundamental value over time before that value is reflected in their stock performance. These stocks tend to underperform big tech rallies like the one we've seen in calendar year 2023, as they are not as topical or exciting. We have gradually increased our exposure to this category of stocks, as the market has provided us opportunities to buy them at a discount.

For the portfolio, we maintain our focus on catalyst-driven opportunities that are generated from bottom-up fundamental analysis. We have a focus on small- and mid-cap stocks, which make up about one third of the portfolio. Particularly in the mid-cap space, we seek unique products and business models with long-term growth potential that is often underappreciated by the market.

For the period ended 31 December 2023, the Fund generated the following returns by unit class.

Putnam U.S. Large Cap Growth Fund

For the six months ended 31 December 2023, the Fund's unit classes generated positive absolute returns. The benchmark Russell 1000 Growth Index returned 10.59% in U.S. Dollar terms and 9.06% in euro terms. See page 8 for Russell benchmark disclosure.

Stock selection drove the Fund's relative strength and was strongest in the information technology, consumer staples, and consumer discretionary sectors. This strength was offset somewhat by stock selection in health care.

During the reporting period, top individual contributors included overweight positions in Lululemon Athletica, Broadcom, Advanced Micro Devices, Booking Holdings, and NVIDIA. Also helpful was our underweight position in Apple and our avoidance of PepsiCo. Among the holdings that detracted from performance were an overweight position in Oracle and out-of-benchmark positions in Johnson Controls and AstraZeneca.

It was a period of solid performance for U.S. large-cap growth stocks, and the Russell 1000 Growth Index recovered considerably from its drawdown in 2022. Looking ahead, we anticipate a reasonably slow-growth economy as we head into 2024. However, we believe our approach — seeking durable growth companies that can outperform in a variety of market conditions — can hold up well when growth becomes more scarce. That is when we see the benefit of businesses with strong competitive positions, high barriers to entry, healthy balance sheets, and a high margin structure.

Our thematic approach remains a critical part of our investment process and a distinct feature of the strategy. Together with a team of analysts, we examine global trends as well as problems and potential solutions. From this analysis, we identify which themes could drive sustained growth for businesses over a multiyear time horizon. We continue to see exciting trends, particularly within artificial intelligence, the experience economy, and cloud computing, that we believe can drive growth for many businesses we own.

For the period ended 31 December 2023, the Fund generated the following returns by unit class.

Putnam Ultra Short Duration Income Fund

For the six months ended 31 December 2023, the Fund's unit classes posted positive returns and outperformed the benchmark, the ICE BofA U.S. Treasury Bill Index, which gained 2.74% in U.S. Dollar terms. See page 8 for ICE BofA benchmark disclosure.

Corporate credit was the largest contributor to the Fund's relative performance during the three-month period. The Fund benefited from tighter short-term corporate credit spreads. Issuer selection in the banking sector, the largest sector allocation within the Fund, was the top contributor to performance.

Allocations to commercial paper contributed to returns as well. We keep a balance of short-maturity commercial paper for liquidity purposes. As interest rates increased, commercial paper yields rose. This performance allowed us to reinvest the maturing paper at higher interest rates.

Lastly, the Fund's allocation in securitised sectors, including non-agency residential mortgage-backed securities and asset-backed securities, augmented performance. The portfolio management team continues to focus allocations in this area on highly rated securities that are senior in the capital structure. We believe these holdings help broaden diversification within our corporate exposure.

In December, many central banks opened the door to rate cuts earlier than expected as the inflation outlook softened. This helped to spur a global bond rally, led by the Fed's communications and the direction of U.S. rates. The market has priced in a number of rate cuts in 2024, beginning as early as March. In the near term, Fed rate-cut expectations may be challenged with stronger data prints; however, rates are likely to trend downward as the Fed is planning to cut rates this year and reduce the pace of quantitative tightening (QT).

Within investment-grade corporate credit, we continue to seek out and find pockets of idiosyncratic opportunity, but we remain cautious on overall valuations. As it relates to the banking sector specifically, we expect overall credit fundamentals to remain stable, particularly within the larger systemically important banks, which dominate the Fund's exposure.

We have positioned the Fund to take advantage of the current higher interest-rate environment. The Fund holds a balanced allocation across fixed-rate securities and securities with a floating-rate coupon tied to the Secured Overnight Financing Rate. Additionally, given our belief that we are at the end of the Fed's hiking cycle, the Fund's duration posture remains at approximately 0.5 years; nearly double where it stood a year ago.

From a credit quality standpoint, the portfolio is structured with a combination of lower-tier investment-grade securities (BBB or equivalent), generally maturing in one year or less, and upper-tier investment-grade securities (A or AA rated), generally maturing in a range of one to four years. Within investment-grade corporates, we continue to focus on companies with improving or stable credit trajectories and strong downside protection.

For the period ended 31 December 2023, the Fund generated the following returns by unit class.

Notes to the Financial Statements

for the period ended 31 December 2023

1. Basis of Preparation

The condensed interim unaudited financial statements (the “Financial Statements”) have been prepared for the six months ended 31 December 2023.

All references to net assets throughout the documents refers to Net assets attributable to holders of Redeemable Participating Units unless otherwise stated.

Statement of compliance

These financial statements have been prepared on a going concern basis and in accordance with Financial Reporting Standard 104: “Interim Financial Reporting” (“FRS 104”), and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended, (the “UCITS Regulations”). Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those issued by the Financial Reporting Council (“FRC”). The financial statements should be read in conjunction with the Annual Audited Financial Statements, on which the auditors’ opinion was unqualified, and which were prepared in accordance with FRS 102: the Financial Reporting Standard applicable in the UK and Republic of Ireland (“FRS 102”).

The Trust has continued to avail of the exemption available to open-ended investment funds under FRS 102 and is not presenting a Cash Flow Statement.

Critical accounting estimates and assumptions

The critical accounting estimates and assumptions applied in preparing the Financial Statements are consistent with those applied and disclosed in the Trust’s annual audited Financial Statements as at and for the year ended 30 June 2023.

Fair Value Hierarchy

FRS 102 Section 11.27 on “Fair Value: Disclosure” requires disclosure relating to the fair valuation hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

2. Accounting Policies

The accounting policies set out in this note have, unless otherwise stated, been applied consistently to all financial years/periods presented in these financial statements.

Functional and Presentation Currency

The Board of Directors of the Manager considers the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions to be U.S. Dollar for all Funds. The U.S. Dollar is the currency in which each Fund measures its performance and reports its results.

Assets and liabilities, including net assets attributable to redeemable participating Unitholders, are translated at the closing rate at each Statement of Financial Position date. Exchange differences arising between the rate of translation of subscriptions and redemptions are also attributed to the redeemable participating Unitholders. The units of all Funds are classified as financial liabilities.

Notes to the Financial Statements

for the period ended 31 December 2023 *cont.*

3. Number of Units in Issue and Net Assets attributable to redeemable Participating Unitholder

Each of the units entitles the holder to participate equally on a pro rata basis in the profits and dividends of the Funds attributable to such Class of units and to attend and vote at meetings of the Fund represented by those units. No class of units confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other class of units or any voting rights in relation to matters relating solely to any other class of units. Each unit represents an undivided beneficial interest in the relevant Fund.

The return on an investment in the Funds will depend solely upon the investment performance of the assets and liabilities in that Fund and the increase or decrease (as the case may be) in the Net Asset Value of the Units. The amount payable to a Unitholder in respect of each unit upon liquidation of the relevant Funds will equal the Net Asset Value of the Units of that Fund.

Net Assets attributable to Unitholders represent a liability on the Statement of Financial Position, carried at the redemption amount that would be payable at the Statement of Financial Position date if the Unitholder exercised the right to redeem his/her Units to the Fund.

If the number of Units in a Fund falling to be redeemed on any Dealing Day is equal to 10% or more of the total number of Units in issue or deemed to be in issue in that Fund on such Dealing Day, the Manager may in its discretion refuse to redeem any Units in that Fund in excess of 10% of the total number of Units in issue or deemed to be in issue in that Fund as aforesaid and, if the Manager so refuses, upon notification to the relevant Unitholders, the requests for redemption of Units in that Fund on such Dealing Day shall be reduced rateably and the Units in that Fund to which each request relates which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all the Units in that Fund to which the original request related have been redeemed provided, however, that the Manager may at its discretion, redeem in full the Units of smaller redemption requests (that represent 1% or less of Units in issue or deemed to be in issue) rather than including them in the pro rata calculation with the larger redemption requests received on such Dealing Day. Redemption requests will be dealt with fairly in accordance with the above.

The Manager may also apply a provision for market spreads and duties and charges in any other case where it considers such a provision to be in the best interests of a Fund. Any such provision may be deducted from the subscription amount received from an investor in the case of subscriptions or deducted from the redemption proceeds to be paid to such Unitholder in the case of redemption proceeds to be paid to such Unitholder in the case of a redemption. Any such sum will be paid into the account of the relevant Fund. Notwithstanding the foregoing, the levy with respect to Putnam Global High Yield Bond Fund will not exceed 1% of the Net Asset Value of that Fund under normal market conditions.

Distributions Payable to Redeemable Participating Unitholders

Distributions to holders of redeemable units are recognised in the Statement of Comprehensive Income when the Funds incur a legal or constructive obligation to pay such a distribution. The distribution on these redeemable units is recognised in the Statement of Comprehensive Income as a finance cost. Certain classes of the Funds were certified as reporting funds by HM Revenue & Customs in the UK for the period ending 31 December 2023. The Trust has been approved for the UK reporting regime for the period ending 31 December 2023. There was no change in the nature of the Trust's business during the period.

During the period ended 31 December 2023, distributions of USD 301,913 were declared from Putnam Global High Yield Bond Fund (period ended 31 December 2022: USD 498,121) and USD 2,026,181 from Putnam Ultra Short Duration Income Fund (period ended 31 December 2022: USD 1,677,134). There were no distributions declared from any of the other Funds for the periods ended 31 December 2023 and 31 December 2022.

5. Risks Associated with Financial Instruments

As defined in FRS 102 Financial Instruments, risk can be separated into the following components: market risk (which includes market price risk, foreign currency risk and interest rate risk), liquidity risk and credit or default risk. The Trust's risk management process consists of a multi-layered and cross functional review that provides a system of checks and balances. The Investment Advisor performs reviews at least monthly and agrees on policies for managing each of these risks which are summarised below. The Board of Directors of the Manager of the Trust receives monthly reporting on risk matters and reviews the risk management process on an annual basis. These policies have remained substantially unchanged since the beginning of the period to which these financial statements relate.

Market conditions

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the contracting party to the transaction to perform (credit risk). The Funds may be exposed to additional credit risk that an institution or other entity with which the Funds have unsettled or open transactions will default as discussed in previous notes.

Russian invasion of Ukraine

On 24 February 2022, Russia initiated unprovoked military actions in the sovereign territory of Ukraine. The Manager of the Trust is closely monitoring developments that may impact financial markets including sanctions, actions by governments and developments of the crisis. The Manager of the Trust will further assess the impact on the Funds' portfolio operations and valuation and will take any potential actions needed, as facts and circumstances are subject to change and may be specific to investment strategies and jurisdictions. In light of the ongoing conflict, a decision was made for the directly held Russian based equity positions to be fair valued at zero.

Notes to the Financial Statements

6. Fair Valuation Hierarchy

FRS 102 Section 11.27 on “Fair Value: Disclosure” requires disclosure relating to the fair valuation hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair valuation hierarchy as required under the amendment to FRS 102 is based on the valuation inputs used to fair value the financial assets and liabilities and consideration of the market activity for each individual financial asset and liability. The definition for levels 1, 2 and 3 are set out below.

- Level 1: The best evidence of fair value is a quoted price for an identical asset in an active market. Quoted in an active market in this context means quoted prices are readily and regularly available and those prices represent actual and regularly occurring market transactions on an arm’s length basis. The quoted price is usually the last traded market value price.
- Level 2: When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the entity can demonstrate that the last transaction price is not a good estimate of fair value (e.g., because it reflects the amount that an entity would receive or pay in a forced transaction, involuntary liquidation or distress sale), that price is adjusted.
- Level 3: If the market for the asset is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, an entity estimates the fair value by using a valuation technique. The objective of using a valuation technique is to estimate what the transaction price would have been on the measurement date in an arm’s length exchange motivated by normal business considerations.

Investments typically classified within level 1 include active listed equities, exchange traded derivatives and exchange traded investment funds/companies. Investments typically classified as level 2 include investments in fixed income securities, rights and warrants, certain listed equities, repurchases agreements and over-the-counter derivatives. Investment funds/companies are also considered level 2 investments if there is evidence that redemptions occurred during the period and there were no restrictions preventing redemptions at the period end. Investments typically classified within level 3 include certain corporate bonds and certain equities.

Some equities have been classified as Level 2 and Level 3. These are securities which the Investment Advisor has fair valued taking into account several factors, which are outlined in Note 2 (A) (i) of the annual audited Financial Statements as at 30 June 2023, under “Fair Value Estimation”. Many securities markets and exchanges outside the U.S. closed prior to the scheduled close of the New York Stock Exchange and therefore the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the scheduled close of the New York Stock Exchange. Accordingly, on certain days, the Investment Advisor will fair value certain foreign equity securities taking into account multiple factors including movements in the U.S. securities markets, currency valuations and comparisons to the valuation of American Depositary Receipts, exchange-traded funds and futures contracts. The foreign equity securities, which would generally be classified as Level 1 securities, will be transferred to Level 2 of the fair value hierarchy when they are valued at fair value. The number of days on which fair value prices will be used will depend on market activity and it is possible that fair value prices will be used by the Funds to a significant extent. As at 31 December 2023, fair value pricing was not applied for foreign securities on Putnam Global Technology Fund in the Schedules of Investments. As at 30 June 2023, fair value pricing was applied for foreign securities on Putnam Global Technology Fund in the Schedules of Investments.

7. Taxation

Under current law and practice, the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended ("TCA"). On that basis, it is not chargeable to Irish tax on its income or capital gains provided that the Trust is resident for tax purposes in Ireland. The Trust shall be regarded as resident in Ireland for tax purposes provided that it is authorised by the Central Bank of Ireland.

However, Irish tax can arise on the happening of a "chargeable event" in the Trust. A chargeable event includes any distribution payments to Unitholders or any encashment, redemption, cancellation or transfer of Units and any deemed disposal of units arising as a result of holding units in the Trust for a period of eight years or more. An eight year period begins with the acquisition of the units by the unitholder and each subsequent period of eight years begins immediately after the preceding eight year period.

No Irish tax will arise on the Trust in respect of "chargeable events" in respect of a unitholder who is an Exempt Irish Investor (as defined in Section 739D of the TCA) or who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided, in each case, that an appropriate valid declaration in accordance with Schedule 2B of the TCA is held by the Trust and the Trust is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct, or where the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations. In the absence of an appropriate declaration or Irish Revenue authorisation the Trust will be liable for Irish tax on the occurrence of a chargeable event.

Dividends, interest and capital gains received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

The Trust intends to comply with any regulations issued by the Irish government to give effect to the Ireland/U.S. Intergovernmental Agreement ("IGA") (signed in December 2012) and to implement the terms of the U.S. Foreign Account Tax Compliance Act ("FATCA"). The Trust also intends to comply with any applicable regulations issued with respect to the Common Reporting Standard ("CRS") and to implement the terms of the CRS in line with OECD guidance, where applicable. There are significant similarities between both reporting regimes and under the CRS, the Trust has similar obligations in terms of account onboarding and annual reporting. The Trust, in conjunction with assistance from its service providers where necessary, will endeavour to ensure that it satisfies any applicable obligations imposed on it in relation to the CRS.

Under the IGA and any related Irish regulations, Irish financial institutions (as defined under the IGA) are required to report annually to the Irish Revenue Commissioners details of its U.S. account holders including the name, address and taxpayer identification number ("TIN") and certain other details. The Trust was also required to amend its account on-boarding procedures with effect from 1 July 2014 in order to identify new U.S. account holders and report this information to the Irish Revenue. The Trust, in conjunction with assistance from its service providers where necessary, will endeavour to ensure that it satisfies any obligations imposed on it in relation to FATCA.

Unitholders are encouraged to consult with their own tax advisors regarding the possible implications of FATCA and CRS on their interest in the Trust.

8. Fees

The fees of the Manager, the Administrator and the Depositary are borne individually by each of the Funds.

Administrator, Depositary and Transfer Agent

The Administrator, Depositary and Transfer Agent together shall each be entitled to receive out of the assets of each Fund annual fees, and those fees will generally not in total exceed 0.40% of the average Net Asset Value of each Fund calculated on the last Dealing Day of each month (plus VAT if any thereon). The Depositary shall also be entitled to receive out of the assets of each Fund an annual safekeeping (depositary) fee not to exceed 0.50% of the average Net Asset Value of each Fund. The Administrator and the Depositary shall also be entitled to be paid any transaction charges and expenses and any sub-depositary fees, which shall be at normal commercial rates. The Administrator shall also be entitled to an annual fee of US\$10,000 out of the assets of the relevant Funds for general administration services. This shall be apportioned pro rata among the Funds. The "Average Net Asset Value" shall refer to the average monthly Net Asset Value. Citibank Europe plc, the Transfer Agent for all Funds, received its fees out of the assets of the relevant Funds. Please note that the foregoing fees, along with other operating expenses of certain of the Funds, are currently subject to an overall expense cap, as described in Note 11.

9. Soft Commission Arrangements and Directed Brokerage

During the period, there were no soft dollar transactions in the Funds. Soft dollar transactions occur when the Investment Advisor used certain investment research services which assisted in the management of the Funds' portfolio investments, which were paid for by certain brokers. These services could include, for example, research and analysis of the relative merits of individual shares or markets. In return, the Investment Advisor placed a proportion of business with these brokers including transactions relating to the Funds' investments. The Investment Advisor has satisfied itself that it obtained best execution on behalf of the Funds and that these arrangements were to the benefit of the Funds. There were no directed brokerage arrangements entered into by the Funds during the periods ended 31 December 2023 and 31 December 2022.

10. Master Agreements

Each Fund is a party to International Swap and Derivatives Association, Inc. ("ISDA") Master Agreements that govern OTC derivative and foreign exchange contracts and Master Securities Forward Transaction Agreements ("Master Agreements") that govern transactions involving mortgage-backed and other asset-backed securities that may result in delayed delivery with certain counterparties entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the Funds and the applicable counterparty. Collateral requirements are determined based on the Funds' net position with each counterparty. With respect to ISDA Master Agreements, termination events applicable to the Funds may occur upon a decline in the Funds' net assets below a specified threshold over a certain period of time. Termination events applicable to counterparties may occur upon a decline in the counterparty's long-term and short-term credit ratings below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the Funds' counterparties to elect early termination could impact the Funds' future derivative activity.

Under the terms of ISDA Master Agreements with certain brokers, the Funds allow certain counterparties the right to hold and re-register collateral in the name of the counterparty or in another name other than the Funds, to pledge, repledge, hypothecate, rehypothecate, sell, lend, or otherwise transfer or use any amount of the collateral, and to use or invest cash collateral at its own risk.

11. Significant Agreements and Related Party Transactions

Transactions with entities who have significant influence

Fees charged to the Funds by the Manager and/or Investment Advisor and the amount due at the period end are shown in the Statement of Comprehensive Income and the Statement of Financial Position (as part of Expenses Payable), respectively.

Management and Investment Advisory fees

The fees of Putnam, as Investment Advisor, were borne individually by each of the Funds.

Putnam, as Investment Advisor, was entitled to receive a fee out of the assets of each Fund at the same annual rate below. Such fees shall accrue daily and be payable monthly in arrears. All management fee rates as disclosed in the following table are the same as at 30 June 2023, unless otherwise stated in the footnotes to the table, or where a unit class launched or fully redeemed during the period (refer to Note 14 for details).

The fees charged to the Funds by the Investment Advisor are shown as "Management and Investment Advisor Fees" in the Statement of Comprehensive Income with the associated payable disclosed within "Expenses Payable" in the Statement of Financial Position.

Carne, as the Manager, shall be paid a fee out of the assets of the Funds, calculated and accrued on each Dealing Day and payable monthly in arrears, up to a maximum of 0.05% of the Net Asset Value of the relevant Fund, subject to a monthly minimum fee up to €1,500 per Fund. The Manager is also entitled to receive out of the assets of the Funds reasonable and properly vouched expenses.

The fees charged to the Funds by Carne are shown as "Fees to the Manager" in the Statement of Comprehensive Income with the associated payable disclosed within "Expenses Payable" in the Statement of Financial Position.

The Manager and Investment Advisor have currently agreed to cap any fee expenses beyond those charged by any Putnam entity at 0.30% for all Classes of Units of Putnam Securitised Credit Fund and 0.05% for all Classes of Units of Putnam Ultra Short Duration Income Fund. For Classes E, E2, I, I2, S, and S2 of the Putnam Global Technology Fund, the Manager or Investment Advisor will waive all or such part of its management fee as is required to ensure that overall operating expenses of Classes E, E2, I, I2, S and S2 do not exceed 0.60% per annum, overall operating expenses of Class A and Class A2 do not exceed 1.75% per annum, and that overall operating expenses of each other Class do not exceed 1.00% per annum. With respect to Class E2 Units and Class S2 Units of Putnam Global High Yield Bond Fund, the Manager and the Investment Advisor have currently agreed to waive all or such part of any management or investment advisory fee as is required to ensure that overall Class E2 Units and Class S2 Units' operating expenses do not exceed 0.35% per annum. The Manager and/or the Investment Advisor may terminate these caps at any time. They are currently expected to continue through 30 June 2024 and may be extended at the Manager's and/or the Investment Advisor's discretion. There were no expense caps in place in the Putnam U.S. Large Cap Growth Fund for the periods ended 31 December 2023 and 31 December 2022.

The expense reimbursement due to the Funds from the Manager or the Investment Advisor and the associated period end receivable balance are shown as "Expense reimbursement from Management" in the Statement of Comprehensive Income and "Receivable for Expense Reimbursement from Management" in the Statement of Financial Position, respectively.

The Manager is not aware of any other transactions with related parties during the period, other than those disclosed in these financial statements.

Dealings with Connected Persons

Regulation 43(1) of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person conducted a) at arm's length; and b) in the best interest of the unitholders of the UCITS".

As required under Central Bank UCITS Regulation 81(4), the Directors of the Manager, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

12. Efficient Portfolio Management

Each Fund utilises Financial Derivative Instruments ("FDI") for investment purposes and/or for efficient portfolio management purposes. In addition to the investments in FDI set down in the Prospectus and subject to the conditions and within the limits laid down by the Central Bank, each Fund may employ techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund and may not be speculative in nature. These techniques and instruments may include investments in FDI. New techniques and instruments may be developed which may be suitable for use by a Fund and the Manager may employ such techniques and instruments. Techniques and instruments which relate to transferable securities and money market instruments and which are used for the purpose of efficient portfolio management, including FDI which are not used for direct investment purposes, shall be understood as a reference to techniques and instruments which fulfil the following criteria:

- (a) they are economically appropriate in that they are realised in a cost-effective way;
- (b) they are entered into for one or more of the following specific aims:
 - (i) reduction of risk;
 - (ii) reduction of cost;

12. Efficient Portfolio Management *cont.*

Investment in FDI are subject to the conditions and limits laid down by the Central Bank.

The direct and indirect operational costs and fees are not readily identifiable and therefore are not split out separately on the face of the Statements of Comprehensive Income.

All of the Trust's Funds are actively managed in reference to either LIBOR or a specific index, as highlighted in the "Investment Objectives" section.

Set out below are details of the efficient portfolio management techniques and instruments currently used across the following Funds (which may change over time); Putnam Global High Yield Bond Fund, Putnam Securitised Credit Fund and Putnam Ultra Short Duration Income Fund.

Repurchase Agreements: The Funds listed above entered into repurchase agreements, which are used as short-term cash management vehicles. The interest income earned on repurchase agreements is disclosed as part of interest income in the Statement of Comprehensive Income. Repurchase agreements are secured by collateral, typically U.S. government or agency securities. It is the Funds' policy that the Depository take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. In the event of default by the counterparty, a Fund has the contractual right to liquidate the collateral securities and to apply the proceeds in satisfaction of the obligation.

14. Significant Events during the Period

Russian invasion of Ukraine

Events arising in Ukraine, as a result of military action being undertaken by Russia in Ukraine, may impact on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia ("Russian Securities"). None of the Funds, other than Putnam Global Technology Fund (which has de minimis exposure to one Russian Security, which is currently valued at \$0), have direct exposure to Russian Securities. The Directors are monitoring developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions.

Class S2 Units of Putnam Global High Yield Bond Fund fully redeemed on 3 July 2023.

A new Prospectus dated 17 October 2023 was approved by the Central Bank and is available at www.putnam.com/ucits and for investors in Switzerland at www.fundinfo.com.

Notes to the Financial Statements

15. Subsequent Events

On 1 January, 2024, a subsidiary of Franklin Resources, Inc. ("Franklin Resources") acquired Putnam U.S. Holdings I, LLC ("Putnam Holdings"), the indirect parent company of The Putnam Advisory Company, LLC ("PAC"), in a stock and cash transaction (the "Transaction"). As a result of the Transaction, PAC became an indirect, wholly-owned subsidiary of Franklin Resources, which is publicly traded on the NYSE. PAC continues to provide uninterrupted services as Investment Advisor with respect to the Trust and its sub-funds.

There were no other significant events since the period end which would require disclosures in the financial statements.

16. Availability of Portfolio Information

Unitholders may obtain information about certain Funds' portfolio holdings on www.putnam.com/institutional/ucits or by contacting the Investment Advisor. Portfolio holdings information will only be provided for legitimate purposes as determined by the Investment Advisor, and will be subject to a reasonable delay intended to protect the Funds. Unitholders may also request information about each Fund's management team and other relevant information relating to the Trust.

17. Availability of the Annual and Semi-Annual Reports

The Trust is no longer mailing copies of its annual or semi-annual reports to Unitholders. The most recent versions of these reports will continue to be available at www.putnam.com/ucits and for investors in Switzerland at www.fundinfo.com.

18. Approval of the Financial Statements

The financial statements were approved by the Directors of the Manager on 22 February 2024.

Appendix 2 - Important Information for Investors in Germany

1. The role of facility agent in Germany in accordance with section 306a of the German Investment Code (“Kapitalanlagegesetzbuch” or “Investment Code”) has been undertaken by J.P. Morgan SE, Taunus Turm, Taunustor 1, 60310 Frankfurt, Germany (Physical/Visiting Address) (“JP Morgan”).
2. Exchange requests for Units (which may be distributed in Germany) and redemption requests for the Units can be submitted to JP Morgan. Upon request, the redemption proceeds, distributions or other payments, if any, to the Unitholders are paid via JP Morgan.
3. The following documents can be obtained free of charge, in electronic format and/or hard copy at the offices of JP Morgan:
 - (a) Prospectus;
 - (b) Most recent Key Information Documents;
 - (c) Semi-Annual and Annual Reports;
 - (d) Trust Deed pursuant to which the Depository acts as depository to the Trust and its Funds;
 - (e) Investment Advisory Agreement pursuant to which the Investment Advisor will manage the investment, realisation and re-investment of the assets of the Trust on a fully discretionary basis;
 - (f) Administration Agreement pursuant to which the Administrator will act as administrator to the Trust;
 - (g) Transfer Agency Agreement pursuant to which the Transfer Agent was appointed to act as transfer agent to the relevant Funds of the Trust; and
 - (h) Distribution Agreement between the Manager and Putnam Investments Limited, a corporation registered under the laws of England and Wales pursuant to which Putnam Investments Limited was appointed as Distributor.

Further Unitholder information, if any, is available free of charge from the office of JP Morgan.

4. The Net Asset Value per Unit of each Fund, the purchase and redemption prices as well as the interim profit and the aggregate amount of income deemed to be received by the holder for the foreign investment units are available free of charge, on any Business Day at the office of JP Morgan.
5. The purchase and redemption prices and the interim profit of each Fund shall be published on www.putnam.com/ucits. Further information for investors, if any, shall be sent to Unitholders by way of letters.

In the following cases, in addition to the provision of the information to investors in Germany by way of letters, the following information will also be published in the German language on www.putnam.com/ucits in accordance with section 167 of the Investment Code:

- (a) any suspension of the redemption of an investment undertaking’s units;
- (b) any termination of an investment undertaking’s management or the liquidation of an investment undertaking;
- (c) amendments to the Fund rules that are inconsistent with existing investment principles, affect material investor rights, or relate to remuneration or the reimbursement of expenses that may be taken out of the investment undertaking’s assets, including the reasons for the amendments and the rights of investors, the information must be communicated in an easily understandable form and manner and must indicate where and how further information may be obtained;
- (d) the merger of investment undertakings in the form of information on the proposed merger, which must be drawn up in accordance with Article 43 of Directive 2009/65/EC; and
- (e) the conversion of an investment undertaking into a feeder fund or any change to a master fund in the form of information, which must be drawn up in accordance with Article 64 of Directive 2009/65/EC.

6. Complaints

Any Unitholder who has a complaint to make about the operation of the Trust can submit the complaint in writing, for transmission to the Manager on behalf of the Trust, to JP Morgan at its principal office.

7. The Fund will not invest in other collective investment schemes unless they meet the requirements of sec 26 no. 1 to 7 of the German Investment Tax Act (GITA).
