GENERAL INFORMATION

The following information is derived from and should be read in conjunction with the full texts and definitions section of the prospectus of Lord Abbett Global Funds I plc (the "Company"), including any supplements (together, the "Prospectus"), a copy of which can be obtained from the Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") at the registered office address or available on Lord Abbett's website at www.lordabbett.com.

The Company was incorporated on 17 October 2013 and is an open-ended umbrella investment company with variable capital and segregated liability between its Funds and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014. The Company is authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 as amended (the "UCITS Regulations") and will comply with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The life of the Company is unlimited.

The activities of the Company are governed by its constitution (the "Constitution"), the Prospectus and the details concerning the Company contained herein.

The Constitution provides that the Company offer separate Classes of shares, each representing interests in a sub-fund of the Company (a "Fund"), with each Fund comprising a separate and distinct portfolio of investments. The assets of each Fund are invested separately on behalf of each Fund in accordance with the investment objective and policies of each Fund. The value of the shares of each Fund shall at all times equal their Net Asset Value ("NAV").

Additional Funds may be established by the Company with the prior approval of the Central Bank.

At 31 January 2024, the Company comprised fourteen active separate portfolios of investments, each of which is represented by a separate series of Redeemable Participating Shares. These Funds are:

- Lord Abbett Short Duration Income Fund ("Short Duration Income Fund"), Lord Abbett High Yield Fund ("High Yield Fund") and Lord Abbett Global Multi-Sector Bond Fund ("Global Multi-Sector Bond Fund") all of which commenced operations on 18 February 2014.
- Lord Abbett Climate Focused Bond Fund ("Climate Focused Bond Fund") which commenced operations on 14 October 2014.
- Lord Abbett Emerging Markets Corporate Debt Fund ("Emerging Markets Corporate Debt Fund") and Lord Abbett Multi-Sector Income Fund ("Multi-Sector Income Fund") – both of which commenced operations on 5 January 2015.
- Lord Abbett Innovation Growth Fund ("Innovation Growth Fund") which commenced operations on 2 March 2016.
- Lord Abbett Global High Yield Fund ("Global High Yield Fund") which commenced operations on 3 October 2016.
- Lord Abbett Global Equity Fund ("Global Equity Fund") which commenced operations on 4 October 2016.
- Lord Abbett Ultra Short Bond Fund ("Ultra Short Bond Fund") which commenced operations on 5 December 2017.
- Lord Abbett High Yield Core Fund ("High Yield Core Fund") which commenced operations on 5 March 2019.
- Lord Abbett Convertible Fund ("Convertible Fund") which commenced operations on 13 September 2021.
- Lord Abbett Short Duration High Yield Fund ("Short Duration High Yield Fund") which commenced
 operations on 16 May 2023.
- Lord Abbett Global Health Care Fund ("Global Health Care Fund") which commenced operations on 20 June 2023.

The Company has segregated liability between its Funds and accordingly any liability incurred on behalf of or attributable to any Fund shall be discharged solely out of the assets of that Fund.

DIRECTORS' REPORT

The Directors present their annual report and audited financial statements for Lord Abbett Global Funds I plc (the "Company") for the financial year ended 31 January 2024.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the audited financial statements in accordance with applicable Irish law and International Financial Reporting Standards ("IFRS"), as adopted by the European Union.

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company and of the profit or loss for that financial year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards
 and identify the standards in question, subject to any material departures from those standards being disclosed
 and explained in the notes to the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable
 those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. In carrying out this duty, the Directors have entrusted depositary of the Company's assets to Brown Brothers Harriman Trustee Services (Ireland) Limited.

Directors' Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. During the financial year, a review was undertaken of the arrangements and structures referred to above. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Accounting Records

The measures taken by the Directors to secure compliance with the Company's obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. To achieve this, the Directors have delegated the accounting function to Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator") to ensure that the requirements of Sections 281 to 286 of the Companies Act 2014 are complied with. The accounting records are kept at 30 Herbert Street, Dublin, D02 W329, Ireland.

DIRECTORS' REPORT (Continued)

Directors

The names of the persons who were Directors at any time during the financial year ended 31 January 2024 are set out below:

Adrian Waters (Chairman, Irish Resident)* David Conway (Irish Resident)* Andrew D. D'Souza (U.S. Resident) Jennifer Karam (U.S. Resident) Michael Naughton (U.S. Resident)**

- * Independent Non-Executive Director
- ** Michael Naughton replaced Stacy Allen effective 6 April 2023.

Dividends

The dividends for the financial year are set out in Note 10.

Directors' and Company Secretary's Interests in Shares and Contracts

None of the Directors nor their families, nor the Company Secretary, holds or held, at 31 January 2024 (31 January 2023: none) or during the financial year, any beneficial interest in the shares of the Company.

Transactions Involving Directors

There are no contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 at any time during the financial year ended 31 January 2024 (31 January 2023: none) other than those disclosed in Note 16 of these Financial Statements.

Review of Business Activities and Future Developments

A review of the business and future developments is given in the Investment Manager's Reports, on pages 13 to 26.

Risk Management - Objectives and Policies

Investment in the Company carries with it a degree of risk including, but not limited to, the risks referred to in Note 11 of these financial statements.

Corporate Governance Code

The Board of Directors have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds ("IF") in December 2011 (the "IF Code"). The Board has adopted all corporate governance practices and procedures in the IF Code for the financial year ended 31 January 2024.

DIRECTORS' REPORT (Continued)

Connected Persons

The UCITS Regulations states that, inter alia, any transaction carried out with a UCITS by the management company or depositary; and the delegates or sub-delegates of such a management company or depositary (excluding any non group company sub-custodians appointed by a depositary); and any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders of the Company.

The Directors of the Company are satisfied that (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the UCITS Regulation are applied to all transactions with connected persons; and (ii) transactions with connected persons entered into during the period complied with the obligations set out in the UCITS Regulation.

Results for the Financial Year and Assets, Liabilities and Financial Position as at 31 January 2024

Details of the assets, liabilities and financial position of the Company are set out in the Statement of Financial Position for the Company, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders of the Company and the Statement of Cash Flows for the Company.

Political Contributions

There were no political contributions made during the financial year ended 31 January 2024 (31 January 2023: none)

Material Events Affecting the Company during the Financial Year

Material Events affecting the Company during the Financial Year are set out in Note 17.

Material Events Affecting the Company after the Financial Year End

Material events affecting the Company after the Financial Year End are set out in Note 18.

Independent Auditors

The Independent Auditors, Deloitte Ireland LLP, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- as far as he/she is aware, there is no relevant audit information of which the Company's auditor is unaware;
- he/she has taken all the steps that he/she ought to have taken as a Director in order to make himself/herself
 aware of any relevant audit information and to establish that the Company's auditor is aware of that
 information.

Audit committee

The Board of Directors decided it was not necessary to constitute an audit committee given the frequency of the meetings of the Board of Directors throughout the year and given the size of the Board of Directors and the nature, scale and complexity of the Company and its activities.

DIRECTORS' REPORT (Continued)

Shareholders' meeting

The Directors may, in accordance with the Act, convene extraordinary general meetings of the Company at any time. The Directors shall convene an annual general meeting within six months of the end of each Accounting Period.

Not less than 21 days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and 14 days' notice must be given in the case of any other general meeting. Two Members present either in person or by proxy shall be a quorum for a general meeting provided that the quorum for a general meeting convened to consider any alteration to the rights of Shares in a Fund or Class shall be two Shareholders holding or representing by proxy Shares of the relevant Fund or Class. If within half an hour after the time appointed for a meeting a quorum is not present the meeting, if convened on the requisition of or by Shareholders, shall be dissolved. In any other case it shall stand adjourned to the same time, day and place in the next week or to such other day and at such other time and place as the Directors may determine and if at the adjourned meeting a quorum is not present within half an hour from the time appointed for the meeting, the Members present shall be a quorum and in the case of a meeting of a Fund or Class convened to consider the variation of rights of Shareholders in such Fund or Class the quorum shall be one Shareholder holding Shares of the Fund or Class in question or his proxy. All general meetings will be held in Ireland. The foregoing provisions with respect to the convening and conduct of meetings shall save as otherwise specified with respect to meetings of Funds or Classes and, subject to the Act, have effect with respect to separate meetings of each Fund or Class at which a resolution varying the rights of Shareholders in such Class is tabled.

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Lord Abbett Global Funds I plc ('the Company') for the financial year ended 31 January 2024, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Deloitte Ireland LLP Chartered Accountants & Statutory Audit Firm

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF LORD ABBETT GLOBAL FUNDS I PLC

Report on the audit of the financial statements

Opinion on the financial statements of Lord Abbett Global Funds I plc ("the company")

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the company as at 31 January 2024 and of the profit for the financial year then ended; and
- have been properly prepared in accordance with the relevant financial reporting framework, the applicable Regulations and, in particular, with the requirements of the Companies Act 2014.

The financial statements we have audited comprise:

- the Statements of Financial Position;
- the Statements of Comprehensive Income;
- the Statements of Changes in Net Assets attributable to Redeemable Participating Shareholders;
- the Statements of Cash Flows; and
- the related notes 1 to 19, including a summary of material accounting policy information as set out in note 1.

The relevant financial reporting framework that has been applied in their preparation is the Companies Act 2014 and International Financial Reporting Standards as adopted by the European Union ("IFRS") ("the relevant financial reporting framework").

The applicable regulations that have been applied in their preparation is the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 ("the applicable Regulations").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

/Continued from previous page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF LORD ABBETT GLOBAL FUNDS I PLC

Other information

The other information comprises the information included in the Annual Report and Audited Financial Statements, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the Annual Report and Audited Financial Statements. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view and otherwise comply with the Companies Act 2014, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on IAASA's website at: https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Opinion on other matters prescribed by the Companies Act 2014

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the directors' report is consistent with the financial statements and the directors' report has been prepared in accordance with the Companies Act 2014.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not

Continued on next page/

/Continued from previous page

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF LORD ABBETT GLOBAL FUNDS I PLC

identified material misstatements in the directors' report.

We have nothing to report in respect of the provisions in the Companies Act 2014 which require us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by law are not made.

Use of our report

This report is made solely to the company's shareholders, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Michael Hartwell

INVESTMENT MANAGER'S REPORT

SHORT DURATION INCOME FUND

For the fiscal year ended 31 January 2024, the Fund returned 3.94%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the ICE BofA 1-3 Year U.S. Corporate Index¹, which returned 5.14% over the same period.

Financial markets faced a complex landscape with opposing forces over the last twelve months. Positive factors included expectations of a gentle U.S. economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about artificial intelligence. The U.S. Federal Reserve's (the Fed) dovish shift in the latter half of the period, along with other factors, contributed to bullish sentiment in both fixed income and equity markets. Corporate earnings also exceeded expectations due to broadly successful cost-cutting measures and supply chain improvements. However, concerns arose over the Fed and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, and rising energy prices. Regulatory interventions in the banking sector added to uncertainty.

Consistent with the portfolio's mandate, the portfolio maintained exposure to a variety of short maturity bond market sectors beyond the investment grade corporate bonds represented in the benchmark. This broad opportunity set provides portfolio diversification and allows for the flexibility to pursue relative value opportunities across sectors.

Over the period, the U.S. Treasury yield curve steepened with longer-term yields rising most. Therefore, the portfolio's modest flattener positioning, specifically a slight overweight to intermediate maturities, detracted from relative performance throughout the period.

The commercial mortgage-backed securities (CMBS) allocation also detracted from relative performance, as concerns about fundamentals and the effects of higher interest rates continued to weigh on the asset class.

Security selection within investment grade corporate bonds was the primary contributor to relative performance over the period, particularly within the Financial and Consumer sectors. Within Financials, we favor large U.S. money center banks and European national champion banks. The bank debt the portfolio holds is focused on institutions that have strong deposit franchises with robust credit cultures and strong management teams.

The Fund's allocation to short-term asset-backed securities (ABS) and collateralized loan obligations (CLOs) also led to a positive impact on relative performance as these sectors outperformed short-term corporate bonds, partially due to the segments' greater carry.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The ICE BofA 1-3 Year U.S. Corporate Index is a U.S. dollar-denominated investment grade corporate debt securities publicly issued in the U.S. domestic market with between one and three years remaining to final maturity. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment.

INVESTMENT MANAGER'S REPORT

HIGH YIELD FUND

For the fiscal year ended 31 January 2024, the Fund returned 8.63%, reflecting performance at the net asset value (NAV) of Class I accumulating shares (USD), compared to its benchmark, the ICE BofA U.S. High Yield Constrained Index¹ which returned 9.30% over the same period.

Financial markets in the U.S. faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about the potential applications of artificial intelligence. Corporate earnings exceeded expectations due to successful cost-cutting measures and supply chain improvements. The dovish shift from the U.S. Federal Reserve (Fed) in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, rising energy prices, and regulatory interventions in the banking sector.

Against this backdrop, U.S. high yield credit delivered strong returns over the period as measured by the ICE BofA U.S. High Yield Constrained Index, which returned 9.30%. Performance was primarily driven by lower-rated credit, with CCCs outperforming BBs by more than 5%.3 Cyclical sectors also outperformed for the period as economic growth was more resilient than expected. The top performing sectors included Entertainment and Film, Specialty Retail and Printing/Publishing, while the worst performing sectors were Paper, Cable/Satellite TV and Air Transportation. While performance was strong for the period, defaults rose subtly with the trailing last 12-month default rate rising to 2.77%, albeit just below its long-term average.

During this period, security selection in the Healthcare and Leisure sectors detracted from relative performance. The Fund was underweight several issuers within these segments, mainly lower credit quality issuers that benefited from the improved fundamental and economic landscape. Security selection within the Real Estate sector also detracted as the Fund was overweight issuers that struggled amid the higher rate environment. A modest allocation to convertible bonds also detracted from relative performance, primarily companies within growth-oriented businesses where valuations were affected by the rate volatility over the period.

The Fund's credit selection within CCC-rated issuers was a contributor to relative performance. The Fund was underweight several lower-rated issuers in the Telecommunications and Media sectors that were faced with idiosyncratic credit challenges. The Fund continued to be underweight select CCC issuers that we believe may face headwinds as a result of higher interest rates. The Fund was also underweight the BB rating tier, which contributed to relative performance as higher-rated credit trailed the lower-rated segment of the high yield universe. The Fund was underweight several issuers in the Specialty Retail space that underperformed due to earnings results that were below expectations. The Fund also benefited from allocations to several European companies in the Consumer Goods sector where the bonds benefitted from an improving outlook in their respective regions.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The ICE BofA U.S. High Yield Constrained Index is a capitalization-weighted index of all U.S. dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market. INVESTMENT MANAGER'S REPORT

GLOBAL MULTI-SECTOR BOND FUND

For the fiscal year ended 31 January 2024, the Fund returned 5.83%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the Bloomberg Barclays Global Aggregate Bond Index (USD Hedged), which returned 4.53% over the same period.

Financial markets in the U.S. faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about artificial intelligence. Corporate earnings also exceeded expectations due to broadly successful cost-cutting measures and supply chain improvements. The U.S. Federal Reserve's (Fed) dovish shift in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, rising energy prices, regulatory interventions in the banking sector.

While there was significant rate volatility throughout the year, the 2-year U.S. Treasury yield finished the period relatively unchanged, moving from 4.21% to 4.22%. This is contrast to the 10-year U.S. Treasury yield, which rose more than 40 basis points to 3.91%. Against this backdrop, credit outperformed during the period with high yield bond returns² outgaining investment grade corporate bonds³ by more than 500 basis points due in part to the higher yield and lower duration of the high yield market. Elsewhere, U.S. leverage loans gained 11.08%, outperforming fixed rate assets due in part to their lower duration sensitivity and higher starting yields.⁴ However, relatively higher yields ultimately acted as somewhat more of a headwind for convertible bonds, which rose 5.44%.⁵

There was also a risk-on sentiment in Europe, as European central banks, influenced by the Fed's policy pivot, experienced a notable shift in their policy outlook. European high yield bonds outperformed investment grade markets, returning 9.44% and 5.98%, respectively.⁶ Emerging Market high yield credit lagged both U.S. and European credit markets for the period, gaining 6.12%.⁷

The Fund maintains a flexible, multi-sector approach with the ability to have exposure to sectors outside of its benchmark, the Bloomberg Barclays Global Aggregate Bond Index. For the twelve-month period ended 31 January 2024, the Fund's overweight to credit was the largest contributor to relative performance as spreads compressed across global markets and economic environments become more supportive of risk assets as the period progressed. This was reflected in overweight allocations to both high yield and investment grade credit, both of which outperformed longer duration, government-related securities. An underweight to sovereign debt, specifically underweight core Japanese sovereign debt, also contributed to relative performance over the period.

Another contributor to relative performance over the period was the Fund's lower duration profile relative to the benchmark. Yields continued to exhibit meaningful volatility over the period, which negatively impacted longer duration securities.

Security selection within government-related securities was a primary detractor for the period. Within this segment, the Fund was underweight higher-coupon Treasuries and Agency MBS that performed well over the period. An underweight allocation to covered bonds, as well as security selection within non-agency commercial backed mortgage securities, also detracted from relative performance.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

Past performance does not predict future returns.

¹The Bloomberg Barclays Global Aggregate Bond Index (USD Hedged) is a broad-based measure of the global investment-grade, fixed-income markets. The three major components of this index are the U.S. Aggregate, the Pan-European Aggregate, and the Asian-Pacific Aggregate indexes. The index also includes euro dollar and euro/yen corporate bonds, Canadian government securities, and U.S. dollar investment-grade 144A securities. This and all other indexes referenced in this report are unmanaged, do not reflect the deduction of fees or expenses, and are not available for direct investment.

INVESTMENT MANAGER'S REPORT

CLIMATE FOCUSED BOND FUND

For the fiscal year ended 31 January 2024, the Fund returned 5.25%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the ICE BofA Green Bond Index Hedged (USD)¹, which returned 6.26% during the same period.

Financial markets faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle U.S. economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about artificial intelligence. The U.S. Federal Reserve's (the "Fed") dovish shift in the latter half of the period, along with other factors, contributed to bullish sentiment in both fixed income and equity markets. Corporate earnings also exceeded expectations due to broadly successful cost-cutting measures and supply chain improvements. However, concerns arose over the Fed and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, and rising energy prices. Regulatory interventions in the banking sector added to uncertainty.

For the twelve months period ended 31 January 2024, one of the primary detractors from relative performance was portfolio's allocation to emerging market corporate bonds.

Conversely, the portfolio's allocation to high yield corporate bonds contributed to relative performance. High yield credit spreads compressed meaningfully over the period amid a resilient U.S. economy which, combined with the sector's greater carry, led to a positive impact on relative performance. The portfolio was underweight duration throughout the period which also contributed to relative performance as yields rose.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The ICE BofA Green Bond Index tracks securities issued for qualified green purposes that promote climate change mitigation or adaptation. Qualifying bonds must have a clearly designated use of proceeds that is solely applied toward projects or activities that promote climate change mitigation or adaptation or other environmental sustainability purposes as outlined by the ICMA Green Bond Principles. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment.

INVESTMENT MANAGER'S REPORT

EMERGING MARKETS CORPORATE DEBT FUND

For the fiscal year ended 31 January 2024, the Fund returned 3.69%, reflecting performance at the net asset value ("NAV") of Class A accumulating shares (USD), compared to its benchmark, the J.P. Morgan Corporate Emerging Markets Bond Index Broad Diversified¹, which returned 6.49% over the same period.

Global financial markets faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about the potential applications of artificial intelligence. Corporate earnings exceeded expectations due to successful cost-cutting measures and supply chain improvements. The dovish shift from the U.S. Federal Reserve (Fed) in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, rising energy prices, and regulatory interventions in the banking sector.

Security selection within the Real Estate sector was a primary detractor of relative performance over the period. More specifically, the Fund's positioning in China real estate detracted from relative performance as consistent headwinds in the sector prevailed throughout 2023. Real estate developers in China continued to struggle with debt loads in the aftermath of the sector-volatility that made headlines beginning in 2020. Additionally, the Fund's positioning in the Industrial sector weighed on relative performance during the period, with China exposure generally detracting the most

While the Fund underperformed its benchmark for the period, there were several areas that contributed to relative performance. For example, the Fund had significant overweight positions in select issuers within the Energy sector, mainly in Latin American countries like Argentina and Peru, that outperformed due to idiosyncratic reasons. Separately, the Fund held several positions in the Communications sector contributed to relative performance, as the Fund held positions in several social network companies, predominately in Asia, that rallied during the period.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The J.P. Morgan Corporate Emerging Markets Bond Index Broad Diversified tracks the performance of US dollar-denominated bonds issued by emerging market corporate entities. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment.

INVESTMENT MANAGER'S REPORT

MULTI-SECTOR INCOME FUND

For the fiscal year ended 31 January 2024, the Fund returned 4.17%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the Bloomberg U.S. Aggregate Bond Index¹, which returned 2.10% over the same period.

Financial markets in the U.S. faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about the potential applications of artificial intelligence. Corporate earnings also exceeded expectations due to broadly successful cost-cutting measures and supply chain improvements. The U.S. Federal Reserve's (Fed) dovish shift in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, rising energy prices, and regulatory interventions in the banking sector.

While there was significant rate volatility throughout the year, the 2-year U.S. Treasury yield finished the period relatively unchanged, moving from 4.21% to 4.22%. This is in contrast to the 10-year U.S. Treasury yield, which rose more than 40 basis points to 3.91%. Against this backdrop, lower-rated credit outperformed investment grade corporate bonds³ by more than 500 basis points during the period due in part to the higher yield and lower duration of the high yield market. Elsewhere, U.S. leverage loans gained 11.08%, outperforming fixed rate bonds s due to their lower duration and higher starting yields.⁴ However, higher yields acted as a headwind for convertible bonds, which rose 5.44%.⁵

The Fund takes a flexible, multi-sector approach emphasizing credit sensitive sectors of the market compared to its benchmark, which is largely comprised of U.S. Treasuries and government-related securities. Notably, the Fund's allocation to high yield credit positively contributed to relative performance. This allocation outperformed the index due to a combination of tighter spreads and higher carry earned over the period. The Fund's overweight to and security selection within investment grade credit also positively contributed to relative performance, led by the allocation to BBB-rated credit which outperformed higher rated tiers. Security selection within Sovereigns was also a positive contributor to relative performance.

The Fund's exposure to convertible bonds detracted from relative performance over the period. While convertible bond markets were generally positive over the period, the Fund held positions in more growth-oriented companies that came under pressure amid higher interest rates. Security selection with commercial mortgage-backed securities (CMBS) also detracted from relative performance, due primarily to idiosyncratic reasons. Selection within agency MBS also dragged on relative performance as the Fund favored shorter duration MBS heading into the latter half of the period, which underperformed given the rally in bond yields during the fourth quarter.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The Bloomberg U.S. Aggregate Bond Index is an index of U.S dollar-denominated, investment-grade U.S. government and corporate securities, and mortgage pass-through securities, and asset-backed securities. INVESTMENT MANAGER'S REPORT

INNOVATION GROWTH FUND

For the fiscal year ended 31 January 2024, the Fund returned 30.30%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the Russell 1000[®] Growth Index, which returned 34.99% over the same period.

Markets had to endure a number of countervailing forces over the trailing twelve months, leading to periods of volatility and a wide dispersion of returns. On the positive side, market expectations of a soft landing in the U.S. economy were backed by falling inflation data, a tight labor market, a resilient consumer, and optimism regarding the potential impacts of artificial intelligence. Corporate earnings were better than expected as cost-cutting measures, strength in services sectors, and supply chain improvements generally benefitted companies.

Amid these positive trends, investors had concerns about aggressive U.S. Federal Reserve (Fed) monetary policy and fear of a potential policy mistake leading to a recession. Investor sentiment was also negatively impacted by several factors, including narrow market breadth, an underwhelming China recovery from the COVID-19 pandemic, geopolitical tensions, and rising energy prices. Markets also had to grapple with the ripple effects of the turmoil in the banking sector, which led to regulatory shutdowns and interventions by the Fed, FDIC, and U.S. Treasury.

Against this backdrop, U.S. equities delivered positive returns with the S&P 500 Index up 20.8% over the period, However, performance was primarily driven by a handful of large cap names, and there was a great deal of dispersion below the surface. For example, large cap stocks² outperformed small cap stocks³ (20.2% vs 2.4%, respectively), while growth stocks⁴ outperformed value stocks⁵ (33.1% vs 5.7%, respectively).

The Fund's underweight to prominent megacap companies detracted from relative performance as narrow, tech-focused market leadership was a dominant theme for much of the period.

Security selection within the Health Care sector was a primary detractor from relative performance over the period. Shares of Align Technology, Inc., a manufacturer of 3D digital scanners and Invisalign clear aligners used in orthodontics, fell in response to the company reporting quarterly earnings results that were below consensus estimates. Management's forward revenue guidance was also below estimates.

Security selection within the Consumer Discretionary sector also detracted from relative performance. The Fund's position in Airbnb, Inc., an online marketplace for short- and long-term homestays and experiences, was a detractor from relative performance. Despite displaying strong operating momentum throughout the period, shares of Airbnb entered a period of consolidation during the summer as investors became concerned of the stock's valuation.

Conversely, security selection within the Communication Services sector contributed to relative performance over the period. Shares of Spotify Technology SA, a digital music streaming service, benefitted from the company's ability to simultaneously grow its paid user base while expanding margins. However, we exited our position in the company in August given a breakdown in the stock's price momentum due to a somewhat disappointing earnings report relative to analyst expectations.

Within the Information Technology sector, the Fund's overweight position in NVIDIA Corporation, a manufacturer of computer graphics processors, chipsets, and related multimedia software, was a standout contributor. Shares of NVIDIA experienced strong price momentum for most of the period following its exceptionally strong earnings report in the first quarter of 2023. The stock has also benefitted from the general excitement surrounding the potential of generative artificial intelligence. As of the end of the period, NVIDIA is the Fund's largest active overweight.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The Russell 1000[®] Growth Index measures the performance of those Russell 1000[®] companies with higher price-to-book ratios and higher forecasted growth values. INVESTMENT MANAGER'S REPORT

GLOBAL HIGH YIELD FUND

For the fiscal year ended 31 January 2024, the Fund returned 8.76%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the ICE BofA Global High Yield USD Hedged Index¹, which returned 9.36% over the same period.

Financial markets in the U.S. faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about the potential applications of artificial intelligence. Corporate earnings also exceeded expectations due to broadly successful cost-cutting measures and supply chain improvements. However, concerns arose over the Fed and the risk of a recession The U.S. Federal Reserve's (Fed) dovish shift in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, rising energy prices, and regulatory interventions in the banking sector.

Against this backdrop, credit delivered strong returns over the period as measured by the ICE BofA Global High Yield Index, which returned 8.77%.² U.S. high yield returns were strong in particular, gaining 9.23% during the period as spreads exhibited meaningful compression amid an improving economic backdrop.³ Lower-rated bonds outperformed higher-rated credit, with CCCs exhibiting higher returns than Bs and BBs.⁴ This risk-on sentiment was similar in Europe, as European central banks, influenced by the Fed's policy pivot, also experienced a notable shift in the policy outlook. European high yield modestly outperformed U.S., returning 9.44%, paced again by strong returns in lower-rated credit.⁵ Emerging Market high yield credit lagged both U.S. and European high yield for the period, gaining 6.12%.⁶

During this period, the Fund underperformed its benchmark. Security selection in the Healthcare and Leisure sectors detracted from relative performance. The Fund was underweight several issuers within these segments, mainly lower credit quality issuers that benefited from the improved fundamental and economic landscape. Security selection within the Emerging Market sector also detracted as the Fund was overweight issuers within the Chinese real estate sector that underperformed due to lower-than-anticipated growth in the region coupled with minimal fiscal support from the Chinese government. Security selection within the Basic Industry sector also detracted, reflected by overweight positions in several Metals and Mining companies that underperformed.

The Fund's underweight allocation to and credit selection within the BB rating tier was a contributor to relative performance as higher-rated credit trailed lower-rated segment of the high yield universe. The Fund was underweight several European and U.S. issuers that underperformed due to earnings results that were below expectations, in addition to being overweight several BB positions that outperformed the benchmark. Security selection within the Consumer Goods sector also contributed to relative performance, reflected by overweight positions in European companies that benefited from improving outlooks within their respective markets. The Fund also benefited from positive credit selection in the Energy sector, where overweight positions in select Exploration and Production issuers contributed to relative performance. An underweight allocation to several lower-rated issuers in the Media sector also contributed positively as these issuers faced idiosyncratic credit challenges and underperformed.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

INVESTMENT MANAGER'S REPORT

GLOBAL EQUITY FUND

For the fiscal year ended 31 January 2024, the Fund returned 17.01%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the MSCI All Country World Index¹, which returned 14.70% over the same period.

Markets had to endure a number of countervailing forces over the trailing twelve months, leading to periods of volatility and a wide dispersion of returns. On the positive side, market expectations of a soft landing in the U.S. economy were backed by falling inflation data, a tight labor market, a resilient consumer, and optimism regarding the potential impacts of artificial intelligence. While there were concerns corporate earnings could deteriorate, aggregate earnings results were better than expected as cost-cutting measures, strength in services sectors, and supply chain improvements generally benefitted companies.

Amid these positive trends, investors had concerns about aggressive U.S. Federal Reserve (Fed) monetary policy and fear of a potential policy mistake leading to a recession. Investor sentiment was also negatively impacted by several factors, including narrow market breadth, an underwhelming China recovery from the COVID-19 pandemic, geopolitical tensions, and rising energy prices. Markets also had to grapple with the ripple effects of the turmoil in the banking sector, which led to regulatory shutdowns and interventions by the Fed and U.S. Treasury.

Security selection within various technology sectors generally contributed to relative performance during the period, namely areas like Communication Services (Meta Platforms, Inc) and Information Technology (NVIDIA Corporation). Additionally, security selection within the Healthcare sector contributed to relative performance, especially in names like Novo Nordisk, the world's leading health care company in diabetes care. Shares of the stock have continued to experience tailwinds in recent months from headlines about the company's first-generation weight loss drug, Ozempic.

While the Fund outperformed its benchmark for the period, there were areas that detracted from relative performance. For example, the Fund held a position in names like Organon & Co, which specializes in fields like reproductive medicine and other women's health businesses. Shares of the stock fell after the company reported fourth-quarter and full-year financial results that came in below consensus expectations, which was partially driven by a decline in sales of NuvaRing as it continues to be impacted by generic alternatives. Another detractor for the period was in e-commerce company Alibaba Group Holding Limited. Alibaba has been impacted by the largely disappointing reopening in China, which was expected to be much more of a positive story in 2023.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The MSCI All Country World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment.

INVESTMENT MANAGER'S REPORT

ULTRA SHORT BOND FUND

For the fiscal year ended 31 January 2024, the Fund returned 5.37%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the ICE BofA U.S. Treasury Bill Index¹, which returned 5.20% over the same period.

Financial markets faced a complex landscape with opposing forces over the last twelve months. Positive factors included expectations of a gentle U.S. economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about artificial intelligence. The U.S. Federal Reserve's (the Fed) dovish shift in the latter half of the period, along with other factors, contributed to bullish sentiment in both fixed income and equity markets. Corporate earnings also exceeded expectations due to broadly successful cost-cutting measures and supply chain improvements. However, concerns arose over the Fed and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, and rising energy prices. Regulatory interventions in the banking sector added to uncertainty.

Consistent with the Fund's strategy, the Fund maintained exposure to a variety of short maturity, investment grade bond sectors in addition to the U.S. Treasury Bills represented in the benchmark. We believe this approach provides diversification and gives the potential for higher income and total return compared to short term U.S. government-related securities and money market funds.

The portfolio's allocation to fixed-rate corporate bonds and short-term floating rate corporate notes contributed to relative performance, due to their yield advantage over Treasury Bills, and a compression in credit spreads over the period.

Also contributing to relative performance were allocations to collateralized loan obligations (CLOs) and asset-backed securities (ABS) given their greater carry relative to Treasury Bills.

The primary detractor from relative performance was the portfolio's longer duration compared to the benchmark. While rates were volatile over the period, short-term rates rose modestly overall.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The ICE BofA US Treasury Bill Index tracks the performance of U.S. dollar denominated sovereign debt publicly issued by the US government in its domestic market. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment.

INVESTMENT MANAGER'S REPORT

HIGH YIELD CORE FUND

For the fiscal year ended 31 January 2024, the Fund returned 9.08%, reflecting performance at the net asset value (NAV) of Class I accumulating shares (USD), compared to its benchmark, the ICE BofA U.S. High Yield Constrained Index¹ which returned 9.30% over the same period.

Financial markets in the U.S. faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about the potential applications of artificial intelligence. Corporate earnings exceeded expectations due to successful cost-cutting measures and supply chain improvements. The dovish shift from the U.S. Federal Reserve (Fed) in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions rising energy prices and regulatory interventions in the banking sector.

Against this backdrop, U.S. high yield credit delivered strong returns over the period as measured by the ICE BofA U.S. High Yield Constrained Index, which returned 9.30%.² Performance was primarily driven by lower-rated credit, with CCCs outperforming BBs by more than 5%.³ Cyclical sectors also outperformed for the period as economic growth was more resilient than expected. The top performing sectors included Entertainment and Film, Specialty Retail and Printing/Publishing, while the worst performing sectors were Paper, Cable/Satellite TV and Air Transportation. While performance was strong for the period, defaults rose subtly with the trailing last 12-month default rate rising to 2.77%, albeit just below its long-term average.

Security selection in the Healthcare and Leisure sectors detracted from relative performance during the period. The Fund was underweight several issuers within these segments, mainly lower credit quality issuers in that benefited from the improved fundamental and economic landscape. Security selection within the Transportation sector also detracted as the Fund was overweight issuers that underperformed due to idiosyncratic drivers involving delayed corporate actions.

The Fund's credit selection within CCC rated issuers was a contributor to relative performance. The Fund was underweight allocations to several lower-rated issuers in the Telecommunications and Media sectors that were faced with idiosyncratic credit challenges. The Fund continued to be underweight select CCC issuers that we believe may face headwinds as a result of higher interest rates. The Fund was also underweight the BB rating tier, which contributed to relative performance as higher-rated credit trailed the lower-rated segment of the high yield universe. The Fund was underweight several issuers in the Specialty Retail space that underperformed due to earnings results that were below expectations.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The ICE BofA U.S. High Yield Constrained Index is a capitalization-weighted index of all U.S. dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market. This and all other indexes referenced in this report are unmanaged, do not reflect the deduction of fees or expenses, and are not available for direct investment.

INVESTMENT MANAGER'S REPORT

CONVERTIBLE FUND*

For the fiscal year ended 31 January 2024, the Fund returned 2.27%, reflecting performance at the net asset value (NAV) of Class I accumulating shares (USD), compared to its benchmark, the ICE BofA All Convertibles Index, which returned 5.61% over the same period.

Markets had to endure a number of countervailing forces over the trailing twelve months, leading to periods of volatility and a wide dispersion of returns. On the positive side, market expectations of a soft landing in the U.S. economy were backed by falling inflation data, a tight labor market, a resilient consumer, and optimism regarding the potential impacts of artificial intelligence. Corporate earnings were better than expected as cost-cutting measures, strength in services sectors, and supply chain improvements generally benefitted companies.

Amid these positive trends, investors had concerns about aggressive U.S. Federal Reserve (Fed) monetary policy and fear of a potential policy mistake leading to a recession. Investor sentiment was also negatively impacted by several factors, including narrow market breadth, an underwhelming China recovery from the COVID-19 pandemic, geopolitical tensions, and rising energy prices. Markets also had to grapple with the ripple effects of the turmoil in the banking sector, which led to regulatory shutdowns and interventions by the Fed, FDIC, and U.S. Treasury.

Against this backdrop, U.S. equities delivered positive returns with the S&P 500 Index up 20.8% over the period, However, performance was primarily driven by a handful of large cap names, and there was a great deal of dispersion below the surface. For example, large cap stocks² outperformed small cap stocks³ (20.2% vs 2.4%, respectively), while growth stocks⁴ outperformed value stocks⁵ (33.1% vs 5.7%, respectively).

Within the Health Care sector, shares of Apellis Pharmaceuticals, Inc., a commercial-stage biopharmaceutical company, fell in the third quarter of 2023 in response to a disappointing clinical trial, where a very small population of candidates being treated for eye disease experienced blindness.

Within the industrials sector, the Fund's position in Chart Industries, Inc., a global manufacturer of equipment in the clean energy and industrial gas markets, also detracted from relative performance over the period. Shares fell in reaction to the company's announcement to acquire Howden, a global provider of air and gas handling products and services, for \$4.4 billion. Management said it would create a new class of preferred stock to fund the deal, which raised concern.

Conversely, within the Consumer Discretionary sector, the Fund's position in MercadoLibre, Inc., Latin America's largest e-commerce company, contributed to relative performance. After suffering losses in recent years due to investments in fulfilment and distribution capabilities, the company has begun to see the benefits of those investments as profitability returned in recent quarters. Bottom line results have also been positively impacted by strength in their credit and advertising segments.

Also, within the Consumer Discretionary sector, the Fund's position in Royal Caribbean Cruises Ltd., an international cruise line, was a standout contributor over the period. Shares rallied on the back of the company reporting a much narrower-than-expected quarterly loss in the second quarter of 2023, while management raised its full-year profit outlook.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

^{*} The Fund was liquidated on 8 March 2024.

¹The ICE BofA All Convertibles Index contains issues that have a greater than \$50 million aggregate market value. The issues are U.S. dollar-denominated, sold into the U.S. market and publicly traded in the United States. This and all other indexes referenced in this report are unmanaged, do not reflect the deduction of fees or expenses, and are not available for direct investment.

INVESTMENT MANAGER'S REPORT

SHORT DURATION HIGH YIELD FUND

The Fund was incepted on 16 May 2023. For the period of 16 May 2023 through 31 January 2024, the Fund returned 8.90% reflecting performance at the net asset value (NAV) of Class IF accumulating shares (USD), compared to its benchmark, the ICE BofA High Yield U.S. Corporate Cash Pay BB-B (1-5yrs) USD Index¹, which returned 8.30% over the same period.

Financial markets in the U.S. faced a complex landscape with opposing forces over the last 12 months. Positive factors included expectations of a gentle economic slowdown, driven by falling inflation, a strong labor market, resilient consumer spending, and optimism about the potential applications of artificial intelligence. Corporate earnings exceeded expectations due to successful cost-cutting measures and supply chain improvements. The dovish shift from the U.S. Federal Reserve (Fed) in the latter half of the period also contributed to bullish sentiment in both fixed income and equity markets. However, concerns arose over Fed policy and the risk of a recession. Negative factors included China's slow recovery from COVID-19, geopolitical tensions, rising energy prices, and regulatory interventions in the banking sector.

Security selection within the Technology & Electronics and Capital Goods sectors were among the primary contributors to relative performance during the period. Within Technology & Electronics, the Fund held positions in several convertible bonds in subsectors like cybersecurity that outperformed over the period. Within the Capital Goods sector, the Fund was underweight a large benchmark issuer in the Aerospace and Defense subsector benefited relative performance.

While the Fund outperformed its benchmark for the period, there were several areas that detracted from relative performance. For example, the Fund's allocation to, and security selection, within the Media sector was a detractor from relative performance, as the Fund was underweight or void of exposure to several higher-beta issuers that outperformed during the period. Additionally, the Fund's security selection within the Basic Industry sector, specifically in the Metals & Mining and Electrical Equipment subsectors, was also a detractor from relative performance.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The ICE BofA High Yield U.S. Corporate Cash Pay BB-B (1-5yrs) USD Index is a subset of ICE BofA US Cash Pay High Yield Index including all securities with a remaining term to final maturity less than 5 years and rated BB1 through B3, inclusive. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment.

INVESTMENT MANAGER'S REPORT

GLOBAL HEALTH CARE FUND

The Fund was incepted on 20 June 2023. For the period of 20 June 2023 through 31 January 2024, the Fund returned -1.80%, reflecting performance at the net asset value (NAV) of Class A accumulating shares (USD), compared to its benchmark, the MSCI ACWI Health Care Index, which returned 5.68% over the same period.

Markets had to endure a number of countervailing forces over the trailing twelve months, leading to periods of volatility and a wide dispersion of returns. On the positive side, market expectations of a soft landing in the U.S. economy were backed by falling inflation data, a tight labor market, a resilient consumer, and optimism regarding the potential impacts of artificial intelligence. While there were concerns corporate earnings could deteriorate, aggregate earnings results were better than expected as cost-cutting measures, strength in services sectors, and supply chain improvements generally benefitted companies.

Amid these positive trends, investors had concerns about aggressive U.S. Federal Reserve (Fed) monetary policy and fear of a potential policy mistake leading to a recession. Investor sentiment was also negatively impacted by several factors, including narrow market breadth, an underwhelming China recovery from the COVID-19 pandemic, geopolitical tensions, and rising energy prices. Markets also had to grapple with the ripple effects of the turmoil in the banking sector, which led to regulatory shutdowns and interventions by the Fed, FDIC, and U.S. Treasury.

The portfolio's position in Ventyx Biosciences, Inc., a clinical-stage biopharmaceutical company, was a primary detractor from relative performance over the period. Shares of the stock fell after the company reported phase 2 trial results for their therapy to treat ulcerative colitis in October 2023. While the trial results were favorable, investors questioned whether the drug has an edge over rival drugs. The portfolio position in Apellis Pharmaceuticals, Inc., a commercial-stage biopharmaceutical company, detracted from relative performance. Shares fell in response to disappointing clinical trial results, where a very small population of candidates being treated for eye disease experienced blindness.

Conversely, the portfolio's position in Cytokinetics, Inc., a biopharmaceutical company, contributed to relative performance. Shares rallied after Cytokinetics announced positive Phase 3 data evaluating their lead drug, aficamten, in obstructive hypertrophic cardiomyopathy. Additionally, the portfolio's position in Arcellx, Inc., a clinical-stage biotechnology company, also contributed to relative performance. Shares rallied after they issued a press release with updated data from the Phase 1 trial evaluating their BCMA CAR-T in refractory multiple myeloma.

The Fund's portfolio is actively managed and, therefore, its holdings and the weightings of a particular issuer or particular sector as a percentage of portfolio assets are subject to change. Sectors may include many industries.

¹The MSCI ACWI Health Care Index includes large and mid cap securities across 23 Developed Markets (DM) and 24 Emerging Markets (EM) countries. The index referenced in this report is unmanaged, does not reflect the deduction of fees or expenses, and is not available for direct investment

Securities exempt from registration under Rule 144A (i) of the US Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

Variable Rate is Fixed to Float: Rate remains fixed until future date. The interest rate represents the rate as at 31 January 2024.

Security is perpetual in nature and has no stated maturity date. (5) (6)

To-be-announced ("TBA"). Security purchased on a forward commitment basis with an approximate principal and maturity date. Actual principal (7)and maturity will be determined upon settlement when the specific mortgage pools are assigned.

⁽⁸⁾ Short Term Investments are securities maturing in less than 365 days from issuance.

PIK Payment-in-Kind.

ZCP Indicates a zero coupon rate.

* Non income processing security.

- (1) Securities exempt from registration under Rule 144A (i) of the US Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.
- (2) Indicates a variable rate security. The interest rate shown reflects the rate as at 31 January 2024.
- (3) Variable Rate is Fixed to Float: Rate remains fixed until future date. The interest rate represents the rate as at 31 January 2024.
- (4) Security is fair valued by the Investment Manager at 31 January 2024.
- (5) Security is perpetual in nature and has no stated maturity date.
- (6) Default securities.
- (7) Indicates a multi-step security. The interest rate shown reflects the rate in effect at 31 January 2024.
- (8) To-be-announced ("TBA"). Security purchased on a forward commitment basis with an approximate principal and maturity date. Actual principal and maturity will be determined upon settlement when the specific mortgage pools are assigned.

ZCP

Indicates a zero coupon rate.
Securities exempt from registration under Rule 144A (i) of the US Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

Indicates a variable rate security. The interest rate shown reflects the rate as at 31 January 2024.

Variable Rate is Fixed to Float: Rate remains fixed until future date. The interest rate represents the rate as at 31 January 2024.

⁽²⁾ (3) (4) Short Term Investments are securities maturing in less than 365 days from issuance.

PIK Payment-in-Kind.

Payment-in-Kind.

Securities exempt from registration under Rule 144A (i) of the US Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

Indicates a variable rate security. The interest rate shown reflects the rate as at 31 January 2024.

Variable Rate is Fixed to Float: Rate remains fixed until future date. The interest rate represents the rate as at 31 January 2024.

Security is perpetual in nature and has no stated maturity date. (1)

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024

1. Summary of Material Accounting Policy Information

The material accounting policy information applied in the preparation of these financial statements are set out below.

a) Basis of Presentation

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as adopted by the European Union ("EU"), Irish statute comprising the Companies Act 2014 and the UCITS Regulations.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in the following notes.

There are no new standards or amendments to existing standards that are effective for the first time for the financial year beginning 1 February 2023.

During the financial year ended 31 January 2024, the Company did not early adopt any new or amended standards and does not plan to early adopt any of the standards issued not yet effective.

b) Financial Assets and Financial Liabilities at Fair Value through Profit or Loss

Investments are valued at the last traded price or if unavailable the probable realisation value on the principal exchange or market for such investments on the valuation day for the purpose of calculating the net asset value for subscriptions and redemptions and for various fee calculations. The valuation day in this instance is 31 January 2024.

Classification

The company classifies its financial assets and liabilities at fair value through profit or loss in accordance with IFRS 9.

Recognition/Derecognition

The Company recognises a financial asset or a financial liability when, and only when, it becomes a party to the contractual provisions of the instrument. Purchases and sales of financial assets at fair value through profit or loss are recognised on trade date – the date on which the Company commits to purchase or sell the financial instrument. Financial assets at fair value through profit or loss are derecognised when the rights to receive cash flows from the financial assets at fair value through profit or loss have expired or the Company has transferred substantially all risks and rewards of ownership.

A financial liability is derecognised when and only when the obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Comprehensive Income.

Measurement

Financial assets and financial liabilities at fair value through profit or loss are recorded in the Statement of Financial Position at fair value.

Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets and liabilities are presented in the Statement of Comprehensive Income in the period in which they arise.

Determination of fair value

Under IFRS 13 fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arm's length transaction. The fair value of an investment which is quoted, listed or normally dealt in on more than one Regulated Market shall be the last traded price (or if no last traded price is available, the last mid-market price). If an asset or a liability measured at fair value has a bid price and an ask price, the standard requires valuation to be based on a price within the bid-ask spread that is most representative of fair value and allows the use of mid-market or last traded price.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

1. Summary of Material Accounting Policy Information (Continued)

b) Financial Assets and Financial Liabilities at Fair Value through Profit or Loss (Continued)

Determination of fair value (Continued)

The value of any investment which is not quoted, listed or normally dealt in on a Regulated Market shall be the probable realisable value estimated with care and in good faith by a competent person, firm or association (including Lord, Abbett & Co. LLC, (the "Investment Manager")) appointed by the Directors and approved for the purpose by the Depositary.

The value of exchange traded Financial Derivative Instruments ("FDIs") shall be based on the settlement price, as determined by the market in question, provided that where it is not the practice for the relevant market to quote a settlement price or such settlement price is not available for any reason as at the Valuation Point, such value shall be the probable realisation value thereof estimated with care and in good faith by a competent person, firm or association (including the Investment Manager) appointed by the Directors and approved for the purpose by the Depositary.

Swaps are valued using independent pricing sources or quotations from brokers/dealers to the extent available.

The value of open forward foreign currency exchange contracts which are dealt on a Regulated Market shall be calculated by reference to freely available market prices at which a new forward contract of the same size, currency and maturity could be effected at the Valuation Point. Open forward foreign currency exchange contracts are valued using daily forward exchange rates. Where an alternative valuation is used (i.e., a valuation that is provided by a competent person, firm of association (including the Investment Manager) appointed by the Directors and approved for that purpose by the Depositary, the valuation principals employed will follow international practice established by bodies such as IOSCO (International Organisation for Securities Commission) and AIMA (the Alternative Investment Management Association)).

Floating Rate Loans

Certain Funds may invest in direct debt instruments which are interests in amounts owed by corporate, governmental, or other borrowers to lenders or lending syndicates. A Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. A loan is often administered by a bank or other financial institution (the "lender") that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. When investing in a loan participation, a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan agreement and only upon receipt by the lender of payments from the borrower. A Fund generally has no right to enforce compliance with the terms of the loan agreement with the borrower. As a result, a Fund may be subject to the credit risk of both the borrower and the lender that is selling the loan agreement. When a Fund purchases assignments from lenders it acquires direct rights against the borrower of the loan.

The Fund may have difficulty trading assignments and participations to third parties. There may be restrictions on transfers and only limited opportunities may exist to sell such securities in secondary markets. As a result, the Fund may be unable to sell assignments or participations at the desired time or may be able to sell only at a price less than fair value.

The Fund may enter into a loan agreement for a certain committed amount, however the full amount of this commitment may not be drawn down by the borrower. These unfunded commitments represent the remaining obligation of the Fund to the borrower. At any point in time, up to the maturity date of issue, the borrower may demand the unfunded portion. Floating Rate Loans held by the Fund are valued on a daily basis utilising an independent third party vendor.

As of 31 January 2024 and 31 January 2023, the Company had no unfunded loan commitments.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

1. Summary of Material Accounting Policy Information (Continued)

b) Financial Assets and Financial Liabilities at Fair Value through Profit or Loss (Continued)

Forward Foreign Currency Exchange Contracts

The Company may use forward foreign currency exchange contracts to hedge the risk to the portfolio of exchange price movements or for share class hedging purposes. Under some circumstances, the Company may commit a substantial portion or the entire value of its portfolio to the completion of forward foreign currency exchange contracts. Generally, these instruments allow the Company to lock in a specified exchange rate for a period of time. Net gains or losses on forward foreign currency exchange contracts which have been settled are included in the Statement of Comprehensive Income of each relevant Fund. Unrealised gains or losses on open forward foreign currency exchange contracts are reported as financial assets or liabilities at fair value through profit or loss as appropriate in the Statement of Financial Position of each relevant Fund.

Realised and change in unrealised gains or losses during the period are included in "Net Gains/(Losses) on Financial Assets and Financial Liabilities at Fair Value through Profit or Loss" in the Statement of Comprehensive Income of each relevant Fund.

Futures Contracts

The Company may enter into futures contracts, which involve the purchase or sale of a contract to buy or sell a specified security, index or other financial instrument at a specific future date and price on an exchange or the Overthe-Counter ("OTC") Market. The Company may enter into such contracts as a substitute for taking a position in an underlying asset or to increase returns.

Upon entering into a futures contract, the Company is required to deposit with its futures broker, an amount of cash in accordance with the initial margin requirements of the broker or exchange. Futures contracts are valued using quoted daily settlement prices established by the exchange on which they trade. The Company and the broker agree to exchange an amount of cash equal to the daily fluctuations in the value of the futures contract ("variation margin").

For open futures, changes in the value of the contract are recognised as unrealised gains or losses by "marking-to-market" the value of the contract at the Statement of Financial Position date. When the contract is closed, the difference between the proceeds (or cost) of the closing transactions and the original transaction is recorded as a realised gain or loss in the Statement of Comprehensive Income.

Swap Contracts

The Company may enter into interest rate, equity index, credit default, currency and total return swap agreements, and swaptions (options on swaps) and similar transactions. The Company may enter into these swap transactions for hedging purposes or in an attempt to obtain a particular return when it is considered desirable to do so. A swap transaction involves an agreement between two parties to exchange different cash flows based on a specified or "notional" amount. The cash flows exchanged in a specific transaction may be, among other things, payments that are the equivalent of interest on a principal amount, payments that would compensate the purchaser for losses on a defaulted security or basket of securities, or payments reflecting the performance of one or more specified currencies, securities or indices.

Unrealised gains or losses on open swap contract and initial upfront payment received or made upon entering into a swap contract are included in the fair value of the swap in the Statement of Financial Position. Investment interest payable on swap contract is recorded as "Interest Payable on Swaps" in the Statement of Financial Position.

Changes in unrealised gains or losses on swap contracts at the reporting period end are reported in the Statement of Comprehensive Income. A liquidation payment received or made at the termination of the swap contract is recorded as realised gain or loss in the Statement of Comprehensive Income. Investment interest expense on swap contract is included in "Net Gains/(Losses) on Financial Assets and Financial Liabilities at Fair Value through Profit or Loss" in the Statement of Comprehensive Income. Collateral in the form of cash or securities may be required to be held with the Depositary or broker in accordance with the swap agreement.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

1. Summary of Material Accounting Policy Information (Continued)

b) Financial Assets and Financial Liabilities at Fair Value through Profit or Loss (Continued)

Options

The Company may purchase call and put options and write (i.e. sell) covered call and put option contracts in accordance with its investment objective and policies. A "call option" is a contract sold for a price giving its holder the right to buy a specific number of securities at a specific price prior to a specified date. A "covered call option" is a call option issued on securities already owned by the writer of the call option for delivery to the holder upon the exercise of the option. A "put option" gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying securities at the exercise price at any time during the option period. A put option sold by a Company is covered when, among other things, a Company segregates permissible liquid assets having a value equal to or greater than the exercise price of the option to fulfil the obligation undertaken or otherwise covers the transaction. A Company may purchase and sell call and put options in respect of specific securities (or groups or "baskets" of specific securities) or securities indices, currencies or futures. A Company also may enter into OTC options contracts, which are available for a greater variety of securities, and a wider range of expiration dates and exercise prices, than are exchange-traded options. Successful use by a Company of options and options on futures will depend on the Investment Manager's ability to predict correctly movements in the prices of individual securities, the relevant securities market generally, currencies or interest rates.

Unrealised gains or losses on open option positions is calculated and recorded as the fair value of the option less the premium paid on that option. The fair value of the options which are dealt in on a securities market are the settlement price as determined by the market. Unrealised gains or losses on open option positions are included in the fair value of the option in the Statement of Financial Position.

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currency purchased. Premiums paid from the purchase of options, which expire unexercised, are treated as realised losses.

c) Foreign Currency Translation

In accordance with IAS 21 "The Effects of Changes in Foreign Exchange Rates", items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). This is considered to be U.S. Dollar (USD) due to the investment strategy of the individual Funds

The individual Funds have also adopted their functional currency as the presentation currency. Income and expenditure transactions are translated to the functional currency of the relevant Fund at the rate of exchange ruling on the date of the transaction. Assets and liabilities in foreign currencies are translated into USD at the rates of exchange ruling at the Statement of Financial Position date.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

1. Summary of Material Accounting Policy Information (Continued)

c) Foreign Currency Translation (Continued)

The financial statements are presented in USD. The following exchange rates at 31 January 2024 and 31 January 2023 have been used to translate assets and liabilities held in currencies other than USD:

	31 January 2024	31 January 2023
Australian Dollar	1.5127	1.4191
Brazilian Real	4.9411	5.0915
British Pound	0.7853	0.8123

South African Rand	18.5988	17.4275
Swedish Krona	10.3324	10.4698
Swiss Franc	0.8579	0.9188
Taiwan New Dollar	31.2995	30.0250
Uruguayan Peso	39.1150	38.6750

d) Offsetting Financial Instruments

Although ISDA Master netting arrangements meet the criteria for offsetting in the Statement of Financial Position, the Company does not offset financial assets and financial liabilities in the Statement of Financial Position. Note 11 provides detail of set off rights by counterparty for each Fund.

e) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held on call with banks and bank overdrafts.

All cash at bank balances are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit or directly with a sub-custodian. All deposits held on call with banks are returned to the Depositary the following day. A breakdown of the financial institutions where the cash was deposited at the financial year end is contained in Note 2.

f) Accrued Expenses

All expenses, including management fees are recognised in the Statement of Comprehensive Income on an accrual basis.

g) Redeemable Participating Shares

The Company issues redeemable participating shares, which are redeemable at the holder's option and are classified as financial liabilities. Redeemable participating shares can be put back to the Company at any time for cash equal to a proportionate share of the particular Fund's NAV. The redeemable participating share is carried at the redemption amount that is payable at the statement of financial position date if the holder exercises the right to put the share back to the Fund.

Redeemable participating shares are issued and redeemed at the holder's option at prices based on the Fund's NAV per share at the time of issue or redemption. The Fund's NAV per share is calculated by dividing the net assets attributable to the holders of redeemable participating shares with the total number of outstanding redeemable participating shares.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

1. Summary of Material Accounting Policy Information (Continued)

h) Investment Income Policy

Dividends, investment interest income, amortisation of premium, call account interest income and term loan interest income are recognised in the Statement of Comprehensive Income within "Income from Financial Assets at Fair Value through Profit or Loss". Investment interest income is recognised using an effective interest rate. Dividend income is recorded on the ex-dividend date.

Dividends, interest and other income as well as capital gains received by the Company may be subject to withholding taxes or similar taxes imposed by the country in which such dividend, interest, other income or capital gain originated.

Dividend and interest income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income net of any tax credits.

i) Distribution Policy

Distributions to holders of Redeemable Participating Shares are recognised as Finance Costs in the Statement of Comprehensive Income.

j) Equalisation

The Company utilised equalisation during the period with the view of ensuring that the level of dividends payable on distributing shares was not affected by the issue and redemption of such shares during an accounting period. The subscription price of such shares will therefore be deemed to include an equalisation payment calculated by reference to the accrued income of the Fund and the first distribution in respect of any share will include a payment of capital usually equal to the amount of such equalisation payment.

The redemption price of each share will also include an equalisation payment in respect of the accrued income of the Fund up to the date of redemption. Equalisation is accounted for through the Statement of Comprehensive Income as part of Finance Costs.

k) Transaction Costs

Transaction costs are the costs incurred in the acquisition, issue or disposal of financial assets and liabilities. Transaction costs include fees and commissions paid to brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are accounted for as they are incurred and are recognised as an expense for financial reporting purposes in the Statement of Comprehensive Income.

l) Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or capital gains. However, Irish tax can arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of shares. A chargeable event can also include a deemed disposal of shares every eight years beginning from the date of acquisition of those shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidated Act, 1997 as amended, are held by the Company; and
- certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Capital gains, dividends, and interest received (if any) by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

2. Cash at Bank

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

5. Management Fee

The Manager earned a fee of USD 68,433,062 for the financial year ended 31 January 2024 (31 January 2023: USD 77,868,614) of which USD 5,566,165 (31 January 2023: 6,045,583) was outstanding at the financial year end.

Under the Management Agreement, the Company pays to the Manager a maximum fee at an annual rate equal to the percentage of the average daily NAV of the relevant Class of the Fund as set out in the table below. These fees are accrued daily and calculated and payable monthly in arrears. The Manager will remunerate the Investment Manager from its management fee, together with any reasonable vouched out of pocket expenses. The Manager or the Investment Manager may from time to time at its sole discretion, use part of its fee to remunerate the Distributors. Any changes in management fee during the year are disclosed in Note 17.

⁴Share Class launched on 16 May 2023 for Short Duration High Yield Fund.

The Manager has committed to waive its management fee and, if necessary, reimburse the Funds' operating expenses, in order to keep the Funds' total operating expenses (including the fees of the Manager, Administrator and Depositary) from exceeding the expense limitation of the Fund as set out in the Prospectus. Operating expenses do not include the cost of buying and selling investments, withholding tax, stamp duty or other taxes on investments, commissions and brokerage fees incurred with respect to investments, and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Company as may be determined by the Directors in their discretion. The expenses subject to the expense limitation shall include the management fee. The Manager may renew or discontinue this agreement at any time upon prior notification to shareholders.

To the extent that the Manager waives its fee or reimburses the Fund's operating expenses under the expense limitation, the Fund's overall expense ratio will be lower than it would have been without the expense limitation. The expense ratio relevant to each Share Class can be found in the supplement for each Fund. This reduction in operating expenses may increase the Fund's investment return and such returns may not be achieved without the benefit of the expense limitation. The Manager reimbursed an amount of USD 1,926,772 (31 January 2023: USD 1,640,740) during the financial year of which USD 155,831 (31 January 2023: USD 220,613) was receivable at the financial year end.

⁵Share Class launched on 20 June 2023 for Global Health Care Fund.

⁶Share Class launched on 7 September 2023 for Ultra Short Bond Fund.

⁷Share Class launched on 27 September 2023 for Ultra Short Bond Fund.

⁸Share Class re-launched on 21 December 2023 for Ultra Short Bond Fund.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

6. Administration Fee

Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator, Registrar, and Transfer Agent") is entitled to receive a fee out of the assets of the Fund. This fee accrues on each Dealing Day and payable monthly in arrears. The Administrator earned a fee of USD 5,679,979 (31 January 2023: USD 6,053,531) for administration, fund accounting, and transfer agency services for the financial year ended 31 January 2024 of which USD 1,871,952 (31 January 2023: USD 1,936,872) was outstanding at the financial year end.

7. Depositary and Trustee Fees

Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") is entitled to receive a fee out of the assets of the Fund. This fee accrues and is calculated on each Dealing Day and payable monthly in arrears. The Depositary earned a fee of USD 1,848,531 (31 January 2023: USD 1,988,891) for Depositary and trustee services for the financial year ended 31 January 2024 of which USD 584,596 (31 January 2023: USD 617,352) was outstanding at financial year end.

8. Directors' Fees and Expenses

Each Director is entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. However, Directors affiliated with the Investment Manager are not entitled to a fee. The aggregate amount of Directors' remuneration in any one year shall not exceed EUR 100,000 without the approval of the Directors. All Directors are entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or discharge of their duties.

The aggregate payments to the Directors (including expenses) for the financial year ended 31 January 2024 were USD 108,211 (31 January 2023: USD 93,067) of which USD 8,493 (31 January 2023: USD 6,582) was outstanding at the financial year end. Outstanding Directors' fee payable are included within Other Payables in the Statement of Financial Position.

9. Audit Fees

The tables below outline the remuneration (excluding VAT) charged by the statutory auditors for the financial year ended 31 January 2024 and comparative figures for the financial year ended 31 January 2023:

**Tax Services and Other Assurance Services are included within Legal and Professional Fees in the Statement of Comprehensive Income.

Other Non-audit Services fees for the financial year ended 31 January 2024 were USD Nil (31 January 2023: USD Nil).

10. Finance Costs

For all Distributing Share Classes, dividends are declared and paid monthly with the exception of Ultra Short Bond Fund for which dividends are declared daily and paid monthly (except for Class AZM for which dividends are declared and paid monthly) and Convertible Fund for which dividends are declared and paid quarterly. As set out in the relevant Fund Supplement, dividend distributions may be declared out of:

- (i) Net investment income which consists of interest and dividends;
- (ii) or for the AM, AZM, IM, and ZM share classes (including capital) as may be lawfully distributed from the relevant Fund or Share Class of the relevant Fund.

During the financial year ended 31 January 2024 and 31 January 2023, the Company declared and paid the following dividends:

¹⁰Share Class launched on 16 May 2023.

A portion of the dividend distribution above and included within the Statement of Comprehensive Income for Class AM, AZM, IM, and ZM Shares was paid out of capital. The rationale for providing for payment of distributions out of capital is to allow for the ability to consistently provide distributions to investors seeking an income-oriented investment. Each of these share classes may also charge fees and expenses (including management fees), or a portion thereof, to capital. The rationale for charging fees and expenses to capital is to maximize the amount of distributions to Shareholders. The amount of distributions paid out of capital for the year ended 31 January 2024 and 31 January 2023 were as follows:

11. Financial Risk Management

Strategy in Using Financial Instruments

Each Fund aims to achieve its investment objective while spreading investment risks through investment in transferable securities or liquid financial assets or collective investment schemes or other permitted investments in accordance with the UCITS Regulations. The transferable securities and liquid financial assets in which a Fund may invest generally must be listed and/or traded on a Regulated Market except that up to 10% of the NAV of a Fund may be invested in transferable securities and liquid financial assets which are not so listed, traded or dealt.

Market Price Risk

Market price risk is the risk of loss for the Fund resulting from fluctuation in the market value of positions in the Fund portfolio attributable to changes in market variables, such as interest rates, foreign exchange rates, equity and commodity prices or an issuer's credit worthiness. The market risk associated with the use of derivatives is assessed in the context of the risk profile of the total portfolio. Some of the strategies using FDIs will be risk reducing such as open forward foreign currency contracts used for hedging currency risk. Some strategies may add to market risk but at all times the regulatory limits for FDIs applying to UCITS funds will be adhered to.

Common stocks and other equity securities, as well as equity-like securities such as convertible debt securities, may experience significant volatility. Such securities may fall sharply in response to adverse events affecting overall markets, a particular industry or sector, or an individual company's financial condition.

Market/leverage risk is mitigated in the Funds through the global exposure and leverage limits imposed under the UCITS rules. These are monitored by the Investment Manager on a daily basis. The Investment Manager's internal risk management function utilises a range of systems to measure and monitor market risk.

The Funds' concentrations in market price exposures at 31 January 2024 and 31 January 2023 are detailed in their Schedules of Investments, the Statement of Financial Position and in Note 3.

¹⁴Share Class launched on 7 September 2023.¹⁵Share Class launched on 27 September 2023.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

11. Financial Risk Management (Continued)

Market Price Risk (Continued)

At 31 January 2024 and 31 January 2023, had the market price increased or decreased by 5% with all other variables held constant, the increase or decrease respectively in Net Assets Attributable to Redeemable Participating Shareholders would amount to:

	31 January 2024	31 January 2023		
Innovation Growth Fund	8,560,397	8,189,668		
Global Equity Fund	332,954	261,779		
Convertible Fund	18,032	575,011		
Global Health Care Fund	97,683			

There was limited exposure of market price risk in Short Duration Income Fund, High Yield Fund, Global Multi-Sector Bond Fund, Climate Focused Bond Fund, Emerging Markets Corporate Debt Fund, Multi-Sector Income Fund, Global High Yield Fund, Ultra Short Bond Fund, High Yield Core Fund and Short Duration High Yield Fund at 31 January 2024 and 31 January 2023.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. A portion of each Fund's assets, liabilities and income may be denominated in currencies other than the Fund's functional currency. They could, therefore be exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. Currency exchange rates also can be affected unpredictably by intervention (or failure to intervene) by U.S. or non-U.S. governments or central banks, or by currency controls or political developments. Income denominated in foreign currencies is converted to the Fund's functional currency on receipt.

A Fund's use of currency-related transactions involves the risk that the Investment Manager will not accurately predict currency movements, and a Fund's returns could be reduced as a result. Investments in non-U.S. currencies are subject to the risk that those currencies will decline in value relative to the U.S. dollar, or, in the case of hedged positions, that the U.S. dollar will decline relative to the currency being hedged. If the Investment Manager is not accurate in its predictions of currency movements, a Fund will lose money, in addition to a Fund incurring transaction costs. Also, it may be difficult or impractical to hedge currency risk in many developing or emerging countries. The risks associated with exposure to emerging market currencies may be heightened in comparison to those associated with exposure to developed market currencies. Performance may be strongly influenced by movements in currency exchange rates because currency positions held by a Fund may not correspond with the securities positions held. In the case of unhedged Class Currencies, a currency conversion will take place on subscription, redemption, switching and payments of dividends at prevailing exchange rates. Accordingly, the value of the shares expressed in the Class Currency will be subject to exchange rate risk in relation to the Base Currency of the relevant Fund.

The following tables set out the Fund's total exposure to foreign currency risk (all amounts in USD) and the effect on the Net Assets Attributable to Holders of Redeemable Participating Shares of the Fund had the exchange rate between the USD and the relevant currency increased or decreased by 5% with all other variables held constant.

Emerging Markets Corporate Debt Fund, Innovation Growth Fund and Ultra Short Bond Fund do not have material currency exposure for the financial year ended 31 January 2023.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

11. Financial Risk Management (Continued)

Interest Rate Risk

A rise in prevailing interest rates generally will cause the price of fixed income securities to fall. Generally, the longer the maturity of a security or weighted average maturity of a Fund, the more sensitive its price is to a rise in interest rates. The interest rates on certain debt securities in which a Fund invests may adjust periodically and may not correlate to prevailing interest rates during the periods between rate adjustments. The Funds may invest in futures contracts which bear the risk of interest rates moving unexpectedly, in which case the Funds may not achieve the anticipated benefits of futures contracts and realize a loss.

The following tables present exposure to interest rate risk by duration for the financial year ended 31 January 2024 and comparative figures for the financial year ended 31 January 2023. It includes financial assets at fair value, categorised by the earlier of contractual re-pricing or maturity dates.

At 31 January 2023, had the interest rate increased or decreased by 1% with all other variables held constant, the increase or decrease respectively in the fair value of fixed rate fixed income securities of the Ultra Short Bond Fund would amount to approximately USD 5,009,958.

High Yield Core Fund

At 31 January 2023, had the interest rate increased or decreased by 1% with all other variables held constant, the increase or decrease respectively in the fair value of fixed rate fixed income securities of the High Yield Core Fund would amount to approximately USD 14,740,391.

Convertible Fund

At 31 January 2023, had the interest rate increased or decreased by 1% with all other variables held constant, the increase or decrease respectively in the fair value of fixed rate fixed income securities of the Convertible Fund would amount to approximately USD 8,689.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

11. Financial Risk Management (Continued)

Credit Risk

The value of a debt security may decline based on adverse conditions of the relevant issuer, such as management performance, financial difficulties, or reduced demand for the goods and services provided by the relevant issuer. As a result, the issuer of a debt security owned by a Fund may fail to make timely payments of principal or interest, or may default on such payments. If an issuer becomes less creditworthy or is perceived to become less creditworthy, a debt security may decline in value, even when interest rates are falling. This risk is greatest for high yield debt securities, particularly those of emerging market issuers, which have lower credit ratings. Debt securities of emerging market issuers generally are subject to greater credit risk than debt securities of U.S. issuers. The risks associated with Credit Default Swaps include counterparty risk, liquidity risk (i.e., the inability to enter into closing transactions), interest-rate risk, risk of default of the underlying reference obligation and risk of disproportionate loss are the principal risks of engaging in transactions involving credit.

The Depositary must ensure that there is legal separation of non-cash assets held in depositary, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under depositary. As Depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited ("BBHTS") must ensure the ownership of each asset and the location of documents of title for each asset.

All securities that BBH & Co. ("BBH") holds in depositary (as global sub-custodian for and on behalf of BBHTS for further benefit of its underlying clients) are segregated from BBH's own assets, whether they are held in BBH's vault, in segregated accounts on the books of their sub-custodians, or in an account maintained at a central securities depository. BBHTS, as Depositary to the Company, maintains segregated accounts in a manner consistent with provisions set forth in the UCITS Notices both on its own books and on the books of the global depositary including its network of sub-custodians where possible. As Depositary, BBHTS must also ensure non-cash assets are held on a fiduciary basis through BBH's network of global sub-custodians. BBH's sub-custodians are required by contract with BBH and generally by operation of law to segregate the securities of depositary clients from the general banking assets of the sub-custodian.

BBH performs both initial and ongoing due diligence reviews on the sub-custodians within its global depositary network through its Network Management group. Such reviews include an assessment of service level standards, management expertise, market information, depositary operations, reporting and technology capabilities at the sub-custodian, as well as reviews in relation to their reputation and standing in the market and their ongoing commitment to providing depositary services.

Service level agreements are put in place with each sub-custodian, as well as the usual contractual arrangements, and these are reviewed on a regular basis through service review meetings, including on-site due diligence meetings.

Regular financial analysis of all sub-custodians is carried out by BBH's Risk and Credit Group and is focused on the sub-custodian bank's capital adequacy, asset quality, earnings, liquidity and credit ratings as key indicators, amongst others. These reviews form part of BBH's routine assessment of a sub-custodian's financial strength and standing.

In addition, as the Company may invest in markets where custodial and/or settlement systems are not fully developed, the assets of the Company which are traded in such markets and which have been entrusted to sub-custodians, in the circumstances where the use of such sub-custodians is necessary, may be exposed to risk in circumstances whereby the Depositary will have no liability. While cash held by the sub-custodian is identifiable as belonging to the Company, the Company will be exposed to the credit risk of the financial institution where cash is deposited. In the event of insolvency of the financial institution, the Company will be treated as a general creditor of the financial institution in relation to cash holdings of the Company.

Innovation Growth Fund and Global Equity Fund do not hold investments associated with Credit Risk.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

^{*} Ratings (other than U.S. Treasury securities or securities issued or backed by U.S. agencies) provided by Standard & Poor's, Moody's, and Fitch.

^{**} Prior year figures have been updated with current year methodology.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

11. Financial Risk Management (Continued)

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Funds are exposed to daily cash redemptions of Redeemable Participating Shares. The Funds generally retain a certain portion of their assets in cash, which is available to satisfy redemptions. In addition, in accordance with their Prospectus, only a limited portion of the assets of each Fund is invested in transferable securities or money market instruments that are not readily tradable.

The Company may invest in derivative contracts traded over-the-counter, which are not traded in an organised market and may be illiquid. As a result, the Company may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

There may be few available buyers or sellers for a security, preventing a Fund from transacting in a timely manner or at an advantageous price, and subjecting the security to greater price fluctuations. These securities may be more difficult to sell, particularly in times of market turmoil, and may be more difficult to value. If a Fund is forced to sell an illiquid security to fund redemptions or other cash needs, a Fund may be forced to sell the security at a loss. A Fund may experience heightened redemptions during periods of market turmoil. These risks are greater for a Fund's high yield investments because the high yield market generally is less liquid than the investment grade market.

The Investment Manager has determined the assets are substantially liquid and liabilities are expected to be satisfied within 90 days or less.

Fair Value Estimation

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and futures. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These generally include investment-grade corporate bonds, U.S. government obligations and certain non-U.S. sovereign obligations, listed equities and over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Level 3 instruments may include certain common stocks, asset backed securities, corporate debt securities and floating rate loans. As observable prices are not available for these securities, the Funds have used valuation techniques to derive the fair value.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Directors. The Directors have delegated this task to the Investment Manager. The Investment Manager, in consultation with the Administrator, considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

^{*} Transfers in or out utilize the market value presented at 31 January 2024.

Equity and Fixed income Instruments categorized as Level 3 are valued based on either; the probable realizable value estimated with care and in good faith by a competent person, firm or association (including the Investment Manager) appointed by the Directors and approved for the purposes by the Depositary, or; using third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in significantly lower or higher value of such Level 3 investments.

Floating Rate Loans categorised as Level 3 are valued based on a single quotation obtained from a dealer. Therefore, the Fund does not have access to unobservable inputs and cannot disclose such inputs in the valuation.

¹Includes securities with zero fair value.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

11. Financial Risk Management (Continued)

Fair Value Estimation (Continued)

Equity and Fixed income Instruments categorized as Level 3 are valued based on either; the probable realizable value estimated with care and in good faith by a competent person, firm or association (including the Investment Manager) appointed by the Directors and approved for the purposes by the Depositary, or; using third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information could result in significantly lower or higher value of such Level 3 investments.

Floating Rate Loans categorised as Level 3 are valued based on a single quotation obtained from a dealer. Therefore, the Fund does not have access to unobservable inputs and cannot disclose such inputs in the valuation.

For all other financial assets and liabilities not measured at fair value, the directors consider that the carrying amount of the financial assets and financial liabilities recognised in the Statement of Financial Position approximate their fair value.

Offsetting

The tables below include financial assets and financial liabilities that are subject to an enforceable master netting agreement by the counterparty. A master netting agreement is an agreement between a fund and a counterparty which provides for the net settlement of amounts owed under all contracts traded under that agreement including cash collateral in the event of default or termination of any one contract.

At 31 January 2024, the Funds' derivative assets and liabilities are as follows:

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

12. Efficient Portfolio Management

The Company may employ investment techniques and use financial derivative instruments (such as futures contracts, forward foreign currency contracts, options and swaps) for efficient portfolio management of the assets of any Fund including hedging against market movements, currency exchange or interest rate risks subject to the conditions and within the limits laid down by the Central Bank and the Prospectus. The efficient portfolio management purposes for which the Company intends to employ financial derivative instruments and such investment techniques are the reduction of risk, reduction of cost and the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the general UCITS Regulations. Any such investment technique or use of financial derivative instruments must be one which is reasonably believed by the Manager to be economically appropriate in that they are realised in a cost-effective way. The Company did not employ any efficient portfolio management techniques in the form of securities lending or investment in repurchase or reverse repurchase agreements during the financial year ended 31 January 2024 (31 January 2023: none).

13. Swing Pricing

A Fund may experience reductions of the Net Asset Value per Share due to investors purchasing, selling and/or switching in and out of a Fund at a price that does not reflect the dealing costs associated with the trading of the underlying assets of the Fund necessary to accommodate associated cash inflows or outflows. In order to counter this dilution effect and protect Shareholders' interests, a swing pricing mechanism has been adopted by the Company to counter the impact of such trading. Accordingly, if the aggregate of net investor transactions in Shares of a Fund on any given Valuation Day exceed a predetermined threshold for such Fund (determined as a percentage of the net assets of that Fund by the Investment Manager), then the Net Asset Value per Share may be adjusted upwards or downwards to reflect the costs attributable to such net inflows or outflows, respectively. The relevant threshold for swing pricing shall be calculated based on objective criteria and may be adjusted from time to time. The Directors have delegated responsibility for the determination of such threshold and criteria to the Investment Manager.

The Swing Pricing Policy provides that any determination to apply swing pricing will be based on the latest available information pertaining to the aggregate level of relevant transactions at the time of calculation of the Net Asset Value. The swing pricing mechanism may be applied across all Funds. The extent of the price adjustment will be revised by the Investment Manager on a periodic basis to reflect an approximation of current dealing and other relevant costs, as well as market spreads. Such adjustment may vary from Fund to Fund and will not exceed 2% of the original Net Asset Value per Share. The Net Asset Value per Share of each Share Class in a Fund will be calculated separately but any adjustment will affect the Net Asset Value per Share of each Share Class in a Fund identically in percentage terms. Details of any such price adjustments are available on request from the Company at its registered office.

During the year ended 31 January 2024, only the Ultra Short Bond Fund utilized the swing pricing mechanism (31 January 2023: the Ultra Short Bond Fund).

14. Soft Commissions

The Investment Manager may effect transactions with or through the agency of another person with whom it has arrangements under which that person will, from time to time, provide to or procure for the Investment Manager goods, services or other benefits such as research and advisory services, specialised computer hardware or software. No direct payment may be made for such goods or services but the Investment Manager may undertake to place business with that person provided that person has agreed to provide best execution with respect to such business and the services provided must be of a type which assists in the provision of investment services to the Fund.

There were no soft commission arrangements entered into by the Investment Manager, on behalf of the Company during the financial year ended 31 January 2024 (31 January 2023: none).

15. Line of Credit

During the financial year ended 31 January 2024, the Company on behalf of the Funds ("the Borrowers") entered into a credit facility agreement with Citibank N.A. ("Administrative Agent"), Brown Brothers Harriman & Co., and BNP Paribas (the "Lenders"). Each Fund is subject to a borrowing limit of 10% of Net Assets or the maximum borrowing amount allowable by the credit facility agreement of USD 130 million, whichever is lower.

For the year ended 31 January 2024 none of the borrowers utilized the credit facility.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

16. Related Party Transactions

Under IAS 24 "Related Party Disclosures" parties are related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

- (i) Jennifer Karam, Andrew D. D'Souza and Michael Naughton are Partners of the Investment Manager.
- (ii) Lord Abbett (Ireland) Ltd. ("the Manager") acts as the Manager of the Company. Details of the fee paid to the Manager are listed in Note 5.
- (iii) Lord Abbett Distributor LLC and Lord Abbett (UK) Ltd. act as a Distributor of the Fund. There were no distribution fees charged during the financial year ended 31 January 2024 (31 January 2023: none).
- (iv) Directors who are associated with the Investment Manager are not entitled to Directors fees for the financial year ended 31 January 2024. Details of the fee paid to the Directors are listed in Note 8 (31 January 2023: none).

The Board of Directors is not aware of any other transactions with related parties during the financial year ended 31 January 2024 (31 January 2023: none).

The directors' fees for the financial year are set out in Note 8.

As of 31 January 2024 the Investment Manager's holdings in the Company are as follows:

- Short Duration Income Fund 43,588 shares.
- High Yield Fund 2,750 shares.
- Global Multi-Sector Bond Fund 958 shares.
- Climate Focused Bond Fund 249,256 shares.
- Emerging Markets Corporate Debt Fund 510,240 shares.
- Innovation Growth Fund 1,785 shares.
- Global High Yield Fund 698,796 shares.
- Global Equity Fund 196,170 shares.
- Ultra Short Bond Fund 6,313 shares.
- Convertible Fund 20,000 shares.
- Short Duration High Yield Fund 473,278 shares.
- Global Health Care Fund 184,200 shares.

As of 31 January 2023 the Investment Manager's holdings in the Company are as follows:

- Short Duration Income Fund 27,230 shares.
- High Yield Fund 3,000 shares.
- Global Multi-Sector Bond Fund 958 shares.
- Climate Focused Bond Fund 291,647 shares.
- Emerging Markets Corporate Debt Fund 688,621 shares.
- Global High Yield Fund 698,796 shares.
- Global Equity Fund 209,211 shares.
- Convertible Fund 25,000 shares.

17. Material Events Affecting the Company during the Financial Year

A revised prospectus of the Company was filed with the Central Bank for noting on 15 February 2023.

The Class IF CHF Accumulating (Hedged) and Class IF EUR Accumulating (Hedged) Share Classes of the Global Equity Fund were launched on 7 March 2023.

Effective 6 April 2023, Michael Naughton, a partner of the Investment Manager, replaced Stacy Allen on the Board of Directors of the Company and the Manager.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

17. Material Events Affecting the Company during the Financial Year (Continued)

A revised prospectus of the Company was filed with the Central Bank for noting on 18 April 2023.

The Class IM USD Distributing, Class IM EUR Distributing (Hedged), Class IM GBP Distributing (Hedged), Class IM HKD Distributing, Class IM SGD Distributing (Hedged), Class ZM AUD Distributing (Hedged), Class ZM CHF Distributing (Hedged), Class ZM CNH Distributing (Hedged), Class ZM EUR Distributing (Hedged), Class ZM GBP Distributing (Hedged) and Class ZM NZD Distributing (Hedged) Share Classes of the Short Duration Income Fund were launched on 2 May 2023.

Short Duration High Yield Fund commenced operations on 16 May 2023 with Class A USD Accumulating, Class A USD Distributing, Class I USD Distributing, Class I USD Distributing, Class I CHF Distributing (Hedged), Class I EUR Accumulating (Hedged), Class I GBP Accumulating, Class IF USD Accumulating, Class IF USD Distributing, Class IF CHF Distributing (Hedged), Class IF EUR Accumulating (Hedged), Class IF GBP Accumulating, Class IF GBP Accumulating, Class N USD Distributing, Class Z USD Accumulating and Class Z USD Distributing Share Classes.

Global Health Care Fund commenced operations on 20 June 2023 with Class A USD Accumulating, Class I USD Accumulating, Class IF USD Accumulating, Class IF CHF Accumulating (Hedged), Class IF EUR Accumulating (Hedged), Class IF GBP Accumulating and Class IF GBP Accumulating (Hedged) Share Classes.

Effective 1 September 2023, the Investment Management Fees charged on Class IF shares of the Short Duration High Yield Fund and Global High Yield Fund were reduced to 0.20%. The expense limitation was also reduced to 0.30% for Class IF shares. The expense ratio relevant to each Share Class can be found in the supplement of Short Duration High Yield Fund and Global High Yield Fund, respectively.

Effective 1 September 2023, the Investment Management Fees charged on Class AZ shares of the Ultra Short Bond Fund were reduced to 0.30%. The expense limitation was also reduced to 0.40% for Class AZ shares. The expense ratio relevant to each Share Class can be found in the supplement of Ultra Short Bond Fund.

A revised prospectus of the Company and supplement for each Fund were filed with the Central Bank for noting on 1 September 2023.

The Class IM AUD Distributing (Hedged) Share Class of the Short Duration Income Fund was launched on 7 September 2023.

The Class IF GBP Accumulating and Class IF GBP Accumulating (Hedged) Share Classes of the Climate Focused Bond Fund were launched on 7 September 2023.

The Class IF USD Accumulating Share Class of the Emerging Markets Corporate Debt Fund was launched on 7 September 2023.

The Class I CHF Accumulating (Hedged) Share Class of the Innovation Growth Fund was launched on 7 September 2023.

The Class AZM USD Distributing Share Class of the Ultra Short Bond Fund was launched on 7 September 2023.

The Class AZM HKD Distributing and Class AZM SGD Distributing (Hedged) Share Classes of the Ultra Short Bond Fund were launched on 27 September 2023.

The Class I USD Distributing Share Class of the Ultra Short Bond Fund was re-launched on 21 December 2023.

Geopolitical and other events (e.g., wars, terrorism, natural disasters, epidemics or pandemics) may disrupt securities markets and adversely affect global economies and markets, thereby decreasing the value of each Fund's investments. Market disruptions can also prevent the Funds from implementing their investment strategies and achieving their investment objective.

In March 2023, the shut-down of certain financial institutions raised economic concerns over disruption in the U.S. banking system. There can be no certainty that the actions taken by the U.S. government to strengthen public confidence in the U.S. banking system will be effective in mitigating the effects of financial institution failures on the economy and restoring public confidence in the U.S. banking system objective.

NOTES TO THE FINANCIAL STATEMENTS AS AT 31 JANUARY 2024 (Continued)

17. Material Events Affecting the Company during the Financial Year (Continued)

The impact of the COVID-19 outbreak, and the effects of other infectious illness outbreaks, epidemics, or pandemics, may be short term or may continue for an extended period of time. For example, a global pandemic or other widespread health crises could negatively affect the global economy, the economies of individual countries, and the financial performance of individual issuers, sectors, industries, asset classes, and markets in significant and unforeseen ways. Health crises caused by outbreaks of disease may also exacerbate other pre-existing political, social, and economic risks in certain countries or globally. The foregoing could disrupt the operations of each Fund and its service providers, adversely affect the value and liquidity of each Fund's investments, and negatively impact each Fund's performance and your investment in each Fund.

There were no other material events affecting the Company during the financial year.

18. Material Events Affecting the Company after Financial Year End

Convertible Fund was liquidated on 8 March 2024.

The Class AZM CNH Distributing (Hedged), Class I GBP Accumulating (Hedged) and Class I GBP Distributing (Hedged) Share Classes of the Ultra Short Bond Fund were launched on 3 April 2024.

The Class C USD Distributing Share Class of the High Yield Fund was liquidated on 17 April 2024.

There were no other material events affecting the Company after the financial year end.

19. Approval of the Financial Statements

The Directors approved the financial statements on 15 May 2024.

SCHEDULE OF PORTFOLIO CHANGES (Unaudited)

SHORT DURATION INCOME FUND

The following Statements of Changes in Composition of Portfolio reflect the aggregate purchases of a security exceeding one percent of the total value of purchases and aggregate disposals greater than one percent of the total sales for the financial year. At a minimum, the largest twenty purchases and twenty sales are presented.

APPENDIX I - REMUNERATION DISCLOSURE (Unaudited)

Remuneration Disclosure

Lord Abbett (Ireland) Limited (the "Manager") has adopted a remuneration policy that is consistent with the principles outlined in the European Securities and Markets Authority guidelines on sound remuneration policies under the UCITS Directive (the "Remuneration Guidelines"). The remuneration policy is appropriate to the Manager's size, internal organisation and the nature, scope and complexity of its activities. No material changes have been made to the remuneration policy during the financial year. The remuneration policy is available at www.lordabbett.com or a paper copy is available free of charge upon request from the Investment Manager.

The Manager's remuneration policy applies to the Manager's management body (i.e. the Directors) and any identified staff whose professional activities have a material impact on the risk profile of the Manager. The Directors who are not affiliated with the Investment Manager receive a fixed annual fee as set out in note 5 to these financial statements which is in line with the fees paid by other Irish funds and compensates the Directors for their duties, expertise and responsibilities. Directors who are employees of the Investment Manager (or an affiliate) are not paid any fees for their services as directors. None of the Directors are entitled to receive any variable remuneration for their services as directors from the Manager.

The Manager has not paid remuneration to staff of any non-EU delegate to whom investment management functions have been delegated by the Manager. Instead, the Investment Manager receives an investment management fee as referred to in note 5 to these financial statements. The Investment Manager has appropriate arrangements in place to ensure that there is no circumvention of the remuneration rules set forth in the Remuneration Guidelines.

The Manager is required pursuant to the UCITS Regulations to provide quantitative disclosure of remuneration which is attributed to the Company. Such disclosure is made in accordance the Manager's interpretation of currently available regulatory guidance on quantitative remuneration disclosure and in accordance with the remuneration policy as summarised above. As market or regulatory practice develops the Manager may consider it appropriate to alter the method by which the quantitative remuneration disclosure is calculated. Where such changes are made, this may result in the remuneration disclosure not being comparable to disclosure made in previous years.

Quantitative disclosures are provided in relation to (a) the staff of the Manager; (b) identified staff who are senior management; and (c) identified staff who have the ability to materially affect the risk profile of the Manager or the Company. All individuals included in the aggregated figures disclosed are rewarded in line with the Manager's remuneration policy for their responsibilities across the relevant fund business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Manager is included in the aggregate figures disclosed. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Manager and the Company according to an objective apportionment methodology. Accordingly, the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Manager to (1) its staff, and (2) identified staff who are senior management and/or who have the ability to materially affect the risk profile of the Manager or the Company which has been attributed to the Company in respect of the financial period ended 31 January 2024 is respectively EUR 2,307,930 and EUR 1,347,784. These figures are comprised entirely of fixed remuneration as no variable remuneration was paid by the Manager in respect of the Company. There were respectively 17 and 5 beneficiaries of the remuneration described above for (1) the Manager's staff, and (2) identified staff as defined above.

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited)

The underlying investments of all Funds, with the exception of Climate Focused Bond Fund and Global Health Care Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Sustainability-related disclosures in respect of Lord Abbett Climate Focused Bond Fund (the "Fund")

ANNEX V

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Lord Abbett Climate Focused Bond Fund Legal entity identifier: 5493000WHD2SG8Y1SG02

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee

companies follow good governance practices.

Sustainable

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation

list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

does not include a

Sustainable investment objective

Did this financial product have a sustain	nable investment objective?
•• X Yes	• No
It made sustainable investments with an environmental objective: 100% in economic activities that qualify as environmentally sustainable under the EU Taxonomy x in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of
It made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments

The Investment Manager has determined that 100% of the Fund's investments were Sustainable Investments (as defined below) (31 January 2023: 100%). When considering the investments of the Fund during the financial year ending 31 January 2024 (the "period"), the Investment Manager excludes those instruments that were only used for specific purposes such as hedging or liquidity. Accordingly, the 100% figure stated above does not represent a percentage of the Fund's net asset value ("NAV").

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

To what extent was the sustainable investment objective of this financial product met?

The investment objective of the Lord Abbett Climate Focused Bond Fund (the "**Fund**") is to seek income and capital appreciation to produce a high total return while pursuing Sustainable Investments.

"Sustainable Investments" are investments (i) in economic activities that Lord Abbett & Co LLC (the "Investment Manager") believes contribute to at least one of the following themes: clean energy, energy efficiency, water (e.g., water quality, water resource management or wastewater treatment), low carbon transportation and other environmental objectives (e.g., waste management and recycling and circular economy), (ii) that do not significantly harm any other environmental and/or social objectives (as provided for in the SFDR), and (iii) where the issuer of each investment follows, in the Investment Manager's view, good governance practices.

The investment objective of the Fund was met through investment in securities of issuers that the Investment Manager has determined are Sustainable Investments. This is further detailed in the sub-sections below.

How did the sustainability indicators perform?

1. Environmentally Sustainable Objectives

In order to determine whether, and if so, how the Fund's investments were Sustainable Investments for the period and, as a consequence, the extent to which the Fund contributed to its environmental objectives, the Investment Manager used sustainability indicators relevant to each environmental objective in order to assess such contribution. Examples of such indicators are outlined below.

(a) Clean Energy

The sustainability indicators used to measure Clean Energy included:

- Gigawatts ("GW") renewable energy;
- Carbon intensity; and
- GW renewables used.

After analysing the Fund's investments using relevant sustainability indicators, the Investment Manager has determined that, on average, 23% of the Fund's Sustainable Investments (31 January 2023: 19%) (22% of the Fund's NAV) (31 January 2023: 17%) contributed to Clean Energy during the period.

(b) Energy Efficiency

The sustainability indicators used to measure Energy Efficiency included:

• Green bond use of proceeds.

After analysing the Fund's investments using relevant sustainability indicators, the Investment Manager has determined that, on average, 14% of the Fund's Sustainable Investments (31 January 2023: 13%) (13% of the Fund's NAV) (31 January 2023: 12%) contributed to Energy Efficiency during the period.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

(c) Water

The sustainability indicators used to measure Water (e.g., water quality, water resource management or wastewater treatment) included:

- Gallons of water treated; and
- Number of individuals getting access to clean water.

After analysing the Fund's investments using relevant sustainability indicators, the Investment Manager has determined that, on average, 7% of the Fund's Sustainable Investments (31 January 2023: 10%) (7% of the Fund's NAV) (31 January 2023: 9%) contributed to Water during the period.

(d) Low Carbon Transportation

The sustainability indicators used to measure Low Carbon Transportation included:

Green bond use of proceeds.

After analysing the Fund's investments using relevant sustainability indicators, the Investment Manager has determined that, on average, 15% of the Fund's Sustainable Investments (31 January 2023: 9%) (15% of the Fund's NAV) (31 January 2023: 8%) contributed to Low Carbon Transportation during the period.

(e) Other Environmental Objectives

The sustainability indicators used to measure Other Environmental Objectives included:

- · Green bond use of proceeds;
- Recycling and waste management;
- Amount of waste recycled.

The Investment Manager has determined that, on average, 40% of the Fund's Sustainable Investments (31 January 2023: 49%) (39% of the Fund's NAV) (31 January 2023: 45%) were securities of issuers that the Investment Manager believes had a positive impact on another environmental objective (e.g., waste management and recycling and circular economy) during the period.

...and compared to previous periods?

The historical comparative data pertaining to the sustainability indicators is outlined above. Please note, the aforementioned comparative data has not been subject to independent verification.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Investment Manager is satisfied that these Sustainable Investments did not cause significant harm to any of the above environmental objectives and that the issuer of each Sustainable Investment followed, in the Investment Manager's view, good governance practices.

The Investment Manager is satisfied that the Sustainable Investments did not significantly harm any environmental or social sustainable investment objective by

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

considering the sustainability indicators of principal adverse impacts and aligning with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The Investment Manager also implements Proprietary Quantitative Risk Reporting whereby it measures and monitors interest rate and credit exposures and uses proprietary ratings and sector adjusted duration metrics.

This reporting encompasses a multitude of metrics including aggregate and relative Scope 1 and Scope 2 emissions, aggregate and relative ESG risk ratings, the identification of companies with high or severe risk ratings and controversy scores and the identification of the highest carbon-emitting companies in the Fund's portfolio.

The Investment Manager uses a mix of metrics including the PAIs, UNGC, OECD Guidelines for Multinational, Enterprises and the UN Guiding Principles on Business and Human Rights. The Investment Manager uses Sustainalytics "product involvement" data to screen for operations in excluded sectors like alcohol and oil and gas. PAI data is taken from MSCI and used to screen for outliers before purchasing a new security. For every issuer, the Investment Manager calculates the % of revenues derived from both positive and negative industries — this is done by analysts using company reporting and information gathered from the Investment Manager's engagement with issuer.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund must consider the principal adverse impacts of investment decisions on sustainability factors (being environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters) as part of the "do no significant harm" principle within SFDR. In addition, the Investment Manager has decided to voluntarily comply with and seeks to monitor the adverse impacts on sustainability factors in accordance with a principles-based approach.

For the Fund, the Investment Manager considers the principal adverse indicators by including relevant data, to the extent readily available, in research reports and/or other investment related documentation. In its evaluation of environmental, social and governance factors, the Investment Manager utilizes its internal research, materials from third party research and data providers, its assessment of an issuer's alignment with international commitments deemed relevant by the Investment Manager, and information made available by the issuer. The Investment Manager uses its own assessments of environmental, social and governance issues and also references standards as set forth by recognized global organizations.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund excludes companies engaged principally in fossil fuels and natural gas, controversial weapons, alcohol, tobacco, military equipment, gambling and

Taxonomy-aligned activities are expressed as a share of:

 a transition to a
 green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

pornography. Further, the Investment Manager utilizes recognized and reputable third-party data sources to monitor investee companies for violations of:

- the Fund's principal adverse impact indicators;
- the UN Global Compact Principles (UNGC);
- the OECD Guidelines for Multinational Enterprises; and
- UN Guiding Principles on Business and Human Rights.

If the Investment Manager was considering the purchase of a particular security and discovered that the relevant security was in violation of any of the above, the Investment Manager did not complete the purchase. However, if a violation occured in respect of an existing investment, the Investment Manager examined the specific details of the violation and attempted to engage with the issuer in order to get further information. The Investment Manager then determined, as a result of that process, whether the violation was accurate and therefore had the effect of nullifying the initial investment thesis, then it sought to sell the relevant security in accordance with the best interests of the Shareholders.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager takes the principal adverse impacts of its investment decisions on sustainability factors into account as part of its investment analysis, alongside other fundamental investment considerations. As referenced above, the Investment Manager considers the principal adverse indicators by including relevant data, to the extent readily available, in research reports used by portfolio managers. In its evaluation of environmental, social and governance factors, the Investment Manager utilizes its internal research, materials from third party research and data providers, its assessment of an issuer's alignment with international commitments deemed relevant by the Investment Manager, and information made available by the issuer. The Investment Manager uses its own assessments of environmental, social and governance issues and also references standards as set forth by recognized global organizations.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:

	Largest investments	Sector	% Assets	Country
1.	French Republic Government Bond OAT	Government	2.19	France
2.	Transport for London	Government	1.56	United Kingdom
3.	Standard Chartered PLC	Financial	1.45	United Kingdom

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

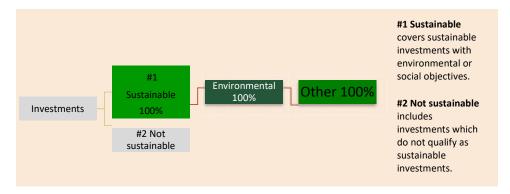

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 January 2024 have been used.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

When considering the investments of the Fund during the period, the Investment Manager excludes those instruments that were only used for specific purposes such as hedging or liquidity. Accordingly, the above figure reflects the percentage of Sustainable Investments and does not represent a percentage of the Fund's NAV:

In which economic sectors were the investments made?

Sector	% NAV
Basic Materials	0.82
Communications	0.85
Consumer Cyclical	3.94
Consumer Non-cyclical	3.34
Energy	6.36
Financial	21.99
Government	17.97
Industrial	21.32
Technology	0.17
Utilities	19.94
Other	1.07

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 January 2024 have been used.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% (31 January 2023: 0%)

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

are
sustainable
investments with an
environmental
objective that do not
take into account
the criteria for
environmentally
sustainable
economic activities
under the EU
Taxonomy.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

What was the share of investments made in transitional and enabling activities?

How did the percentage of investments aligned with the EU Taxonomy compare

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The historical comparative data pertaining to investments aligned with the EU Taxonomy is outlined above.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

100% of the Fund's Sustainable Investments were not aligned with the EU Taxonomy. On average, 95% of the Fund's NAV was comprised of Sustainable Investments during the period. Of that 95%, 100% was not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0%

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

On average, 5% of the Fund's NAV was not invested in Sustainable Investments during the period. The type of investments included in this portion of the Fund's NAV included cash and cash equivalents and derivatives used to manage currency and duration exposures in a cost-effective manner. However, as these investments were not utilised for investment purposes and were not used to attain the sustainable investment objective of the Fund in accordance with the binding elements of the strategy, these assets did not impact the Fund's asset allocation and minimum share of Sustainable Investments as disclosed above. In this regard, the Investment Manager considers these to be neutral investments that are ancillary in nature. The Investment Manager does not consider minimum environmental or social safeguards to be applicable to this class of investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

What actions have been taken to attain the sustainable investment objective during the reference period?

To ensure that investments met the definition of Sustainable Investments during the period, the Investment Manager conducted on-going monitoring of investee companies for violations of PAIs, UNGC, OECD Guidelines for Multinational, Enterprises and the UN Guiding Principles on Business and Human Rights. This monitoring was carried out by the Investment Manager's analysts on an on-going basis. This regular review of both securities and the issuers by the analysts was carried out to ensure there were no significant deviations from the initial analysis that determined the securities as appropriate constituent parts of the Fund.

How did this financial product perform compared to the reference sustainable benchmark?

How did the reference benchmark differ from a broad market index?

The Fund used ICE BofA Green Bond Index (GREN) (the "Benchmark") as a reference benchmark for comparison purposes. This benchmark differed from a broad market index as it tracks securities issued for qualified "green" purposes. Whereas, the Bloomberg Barclays Global Aggregate Bond Index, the index used by the Fund as a comparator benchmark, is a broad-based measure of the global investment-grade fixed income markets.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

The Benchmark tracks the performance of securities issued for qualified "green" purposes. Qualifying bonds must have a clearly designated use of proceeds that is solely applied toward projects or activities that promote climate change mitigation or adaptation or other environmental sustainability purposes as outlined by the "ICMA Green Bond Principles".

Given the sustainable investment objective of the Fund of pursuing Sustainable Investments, the Fund performed in line with Benchmark during the period, as it tracks the performance of securities issued for qualified "green" purposes fitting the aforementioned definition of Sustainable Investments.

- How did this financial product perform compared with the reference benchmark?
 N/A
- How did this financial product perform compared with the broad market index?
 N/A

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

Sustainability-related disclosures in respect of Lord Abbett Global Health Care Fund (the "Fund")

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:

Sustainable investment means

an investment in an

economic activity that contributes to an environmental or social objective,

provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852,

establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Lord Abbett Global Health Care Fund

Legal entity identifier: 5493000IXD1XP4PCDZ82

Environmental and/or social characteristics

Did	this fir	nancial product have a sustai	nable	inve	stment objective?
••		Yes	••	×	No
		de sustainable investments an environmental objective: in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	X	cha obje	promoted Environmental/Social (E/S) practeristics and while it did not have as its active a sustainable investment, it had a portion of 72% of sustainable investments as 1 January 2024. with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective
		de sustainable investments a social objective:%		•	omoted E/S characteristics, but did not e any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Lord Abbett Global Health Care Fund (the "Fund") promotes social, rather than environmental, characteristics. This was met through investment in the securities of issuers which the Investment Manager determined contributed to one or more of the following health care and well-being Sustainable Themes:

the development of drugs or medical equipment seeking the treatment of major diseases ("Sustainable Theme 1");

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

- the development of treatment of rare and orphan diseases; ("Sustainable Theme2");
- (iii) investment in the research and/or the development of vaccines and medicines for communicable and non-communicable diseases primarily affecting developing countries; ("Sustainable Theme 3");
- (iv) affordability and accessibility of healthcare services and improving the efficiency of delivering such healthcare services ("Sustainable Theme 4"); and
- (v) the pursuit of other health care and well-being objectives ("Sustainable Theme 5") (each a "Sustainable Theme" and together the "Sustainable Themes").

The extent to which each Sustainable Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indictators perform?"

How did the sustainability indicators perform?

In order to determine whether the Fund's investments contributed to one of more of the Sustainability Themes, the Investment Manager utilised the following indicators to measure the attainment of the Sustainable Themes:

- (i) any revenue of an issuer tied to a Sustainable Theme; and
- (ii) any research and development expense of an issuer tied to a Sustainable Theme.

Based upon the sustainability indicators, the Investment Manager considers that, as at 31 January 2024:

- (a) 55% of the Fund promoted Sustainable Theme 1;
- (b) 11% of the Fund promoted Sustainable Theme 2;
- (c) 4% of the Fund promoted Sustainable Theme 3;
- (d) 5% of the Fund promoted Sustainable Theme 4; and
- (e) 14 % of the Fund promoted Sustainable Theme 5.

Accordingly, all Sustainable Themes were considered attained for the reference period.

...and compared to previous periods?

The Fund has not yet been in operation for more than one financial period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Sustainable Investments made by the Fund contributed positively to one or more of the Sustainable Themes. A Sustainable Investment contributed to a Sustainable Theme where: (i) the issuer derived at least 20% of revenue from the Sustainable Theme and/or at least 20% of the issuer's research and development expense was tied to a Sustainable Theme, (ii) the investment did not significantly harm any other environmental and/or social objectives (as provided for in the SFDR), and (iii) the issuer met the Investment Manager's requirements for good governance practices.

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager is satisfied that the Sustainable Investments did not cause significantly harm to any of the above social sustainable investment objectives by considering the sustainability indicators of principal adverse impacts and aligning with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, together with the Investment Manager's proprietary quantitative risk reporting. The Investment Manager uses Sustainalytics "product involvement" data to screen for operations in excluded sectors like alcohol and oil and gas. PAI data is taken from MSCI and used to screen for outliers before purchasing a new security.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund must consider the principal adverse impacts of investment decisions on sustainability factors (being environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters) as part of the "do no significant harm" principle within SFDR. In addition, the Investment Manager has decided to voluntarily comply and will seek to monitor the adverse impacts on sustainability factors in accordance with a principles-based approach.

The Investment Manager takes the principal adverse impacts of its investment decisions on sustainability factors into account as part of its investment analysis, alongside other fundamental investment considerations. The Investment Manager considers the principal adverse indicators by including relevant data, to the extent readily available, in research reports and/or other investment related documentation and/or investment meeting material reviewed periodically by portfolio managers. In its evaluation of environmental, social and governance factors, the Investment Manager may utilize its internal research, materials from third party research and data providers, its assessment of an issuer's alignment with international commitments deemed relevant by the Investment Manager, and information made available by the issuer. The Investment Manager will use its own assessments of environmental, social and governance issues and may also reference standards as set forth by recognized global organizations.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Manager utilizes recognized and reputable third-party data sources to monitor investee companies for violations of, including:

- the Fund's principal adverse impact indicators;
- the UN Global Compact Principles (UNGC);
- the OECD Guidelines for Multinational Enterprises; and
- UN Guiding Principles on Business and Human Rights.

APPENDIX II – SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

If the Investment Manager was considering the purchase of a particular security and discovered that the relevant security was in violation of any of the above, the Investment Manager did not complete the purchase. However, if a violation occurred in respect of an existing investment, the Investment Manager examined the specific details of the violation and attempted to engage with the issuer in order to get further information. The Investment Manager then determined, as a result of that process, whether the violation was accurate and therefore had the effect of nullifying the initial investment thesis, and if so then it sought to sell the relevant security in accordance with the best interests of the Shareholders.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager takes the principal adverse impacts of its investment decisions on sustainability factors into account as part of its investment analysis, alongside other fundamental investment considerations. The Investment Manager considers the principal adverse indicators by including relevant data, to the extent readily available, in research reports and/or other investment related documentation and/or investment meeting material reviewed periodically by portfolio managers. In its evaluation of environmental, social and governance factors, the Investment Manager may utilize its internal research, materials from third party research and data providers, its assessment of an issuer's alignment with international commitments deemed relevant by the Investment Manager, and information made available by the issuer. The Investment Manager will use its own assessments of environmental, social and governance issues and may also reference standards as set forth by recognized global organizations.

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:

	Largest investments	Sector	% Assets	Country
1.	Eli Lilly & Co.	Consumer Non-cyclical	7.13	United States
2.	Novo Nordisk A/S	Consumer Non-cyclical	5.90	Denmark
3.	Intuitive Surgical, Inc.	Consumer Non-cyclical	3.35	United States
4.	AstraZeneca PLC	Consumer Non-cyclical	2.65	United Kingdom
5.	Stryker Corp.	Consumer Non-cyclical	2.61	United States
6.	UnitedHealth Group, Inc.	Consumer Non-cyclical	2.42	United States
7.	DexCom, Inc.	Consumer Non-cyclical	2.25	United States
8.	Regeneron Pharmaceuticals, Inc.	Consumer Non-cyclical	2.16	United States
9.	Boston Scientific Corp.	Consumer Non-cyclical	2.15	United States
10.	Neurocrine Biosciences, Inc.	Consumer Non-cyclical	2.11	United States
11.	TransMedics Group, Inc.	Consumer Non-cyclical	1.95	United States
12.	Vertex Pharmaceuticals, Inc.	Consumer Non-cyclical	1.94	United States
13.	Blueprint Medicines Corp.	Consumer Non-cyclical	1.79	United States
14.	Arcellx, Inc.	Consumer Non-cyclical	1.76	United States
15.	Glaukos Corp.	Consumer Non-cyclical	1.75	United States

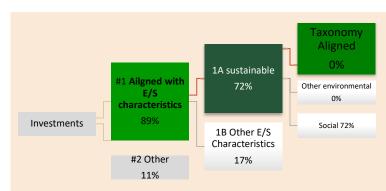

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 January 2024 have been used.

What was the proportion of sustainability-related investments?

As at 31 January 2024, 89% of the Fund's assets were invested in issuers promoting the Sustainable Themes; and (ii) 72% of the Fund's assets were invested in Sustainable Investments. The remaining investments of the Fund were comprised of investments which meet the investment policy of the Fund.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Asset allocation describes the

share of investments in specific assets.

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy. operational expenditure (OpEx) reflects the green operational

activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental

objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

In which economic sectors were the investments made?

Sector	% NAV
Consumer Non-cyclical	98.02
Industrial	0.94

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 January 2024 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

	financial product invest in fossil gas and/or nuclear energy related complying with the EU Taxonomy ² ?
	es:
	In fossil gas In nuclear energy
\boxtimes	lo
What v	s the share of investments made in transitional and enabling activities?
0%	
	the percentage of investments that were aligned with the EU Taxonomy with previous reference periods?

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%

N/A

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

APPENDIX II - SUSTAINABLE FINANCE DISCLOSURE REGULATION ("SFDR") (Unaudited) (Continued)

What was the share of socially sustainable investments?

As at 31 January 2024, 72% of the Fund's assets were invested in Sustainable Investments with a social objective.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The remaining investments of the Fund were comprised of investments which meet the investment policy of the Fund. Other investments also included: derivative financial instruments for hedging purposes, cash held as ancillary liquidity, or money market instruments or bank deposits for treasury purposes. There were no minimum environmental or social safeguards applicable to these investments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To ensure that the Fund had a positive impact on the Sustainable Themes, the Investment Manager undertook an assessment based on internal and external research and third party data of (i) the issuer's revenue derived from the relevant activity, (ii) the issuer's research and development expense in the relevant subsector, or (iii) analysis of the issuer's involvement in the objective of the Sustainable Theme(s).

How did this financial product perform compared to the reference benchmark?

N/A. No reference benchmark has been designated for the purpose of attaining the social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whetherthe financial product attains the environmental or social characteristics that they promote.

- How does the reference benchmark differ from a broad market index?
 N/A
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark?
 N/A
- How did this financial product perform compared with the broad market index?
