What is this product?

Type

This product is a UCITS Investment Fund.

Term

This product has no fixed end date. However the Sub-Fund, at its absolute discretion, can redeem all the shares of the Sub-Fund under the circumstances set out in the prospectus.

Objectives

To seek long term growth of capital and income.

Investment Policy

Strategy The Sub-Fund pursues a passively managed (index-tracking) global equity strategy. The Sub-Fund seeks to replicate the risk and return profile of the Benchmark by holding all or close to all of its component securities in similar weightings to those used in the Benchmark.

Sustainability approach The Sub-Fund promotes environmental and social characteristics through the exclusion of companies that:

- generate more than 1% of their revenue from thermal coal extraction, arctic drilling or oil tar sand mining;
- are involved in the manufacture, distribution or sales of controversial weapons and nuclear weapons (outside of the Nuclear Non-Proliferation Treaty);
- manufacture tobacco products or generate more than 50% of their revenue from tobacco distribution or sales; or
- are involved in adult entertainment production or associated serves.

The Sub-Fund achieves these characteristics by investing in the component securities of the Benchmark that applies a negative environmental and social screen.
The Sub-Fund commits to having a minimum proportion of 20% in sustainable investments, based on the Investment Manager's framework.

Benchmark(s) MSCI World ex Selected Securities Net Tax Total Return Index (USD), unhedged (the "Benchmark"), a sub-index of the MSCI World Index (the "Parent Index"). The Benchmark is used for index-tracking.

The Benchmark:

- represents the performance of a subset of component securities from the Parent Index, an equity index representing the performance of large and mid-cap companies from a range of developed markets globally
- consists of component securities which are weighted according to their free float adjusted market capitalisation
- applies the environmental and social screens described above to exclude certain companies included within the Parent Index
- is scheduled to rebalance quarterly.

More information on the Benchmark (including its component securities) is available at www.msci.com/constituents.
Under normal market conditions, the tracking error is not expected to exceed 0.50%. There are a number of factors that can impact the level of tracking error, such as the size of the Sub-Fund, the frequency and timing of cash flows, the Sub-Fund's costs and the rebalancing frequency.

Investments The Sub-Fund invests in a portfolio of global equity securities that, as far as possible and practicable, reflect the component securities of the Benchmark, such as common stocks, preferred shares, real estate investment trusts and depositary receipts.
The Sub-Fund may invest in assets denominated in any developed market currency and currency exposure is typically unhedged.

Derivatives and techniques The Sub-Fund may use Derivatives and technique(s) for efficient portfolio management to reduce risks (hedging), to reduce costs or to seek additional capital or income in line with its risk profile.

Base currency USD.

Dealing information Every day that is a bank business day in Ireland or the UK ("Business Day") will be a Dealing Day for the Sub-Fund. Requests to subscribe or redeem Shares of the Sub-Fund that are received and accepted by the Administrator on behalf of the Sub-Fund before 1:00 pm Irish time on any Dealing Day are processed that day.

Distribution policy The Share Class will not distribute dividends. Income and capital gains from the Sub-Fund are reinvested.

Intended retail investor

The Sub-Fund is suitable for investors with at least basic knowledge of, and experience with, financial products, who understand the risks of the Sub-Fund including potential capital loss and who:

- seek to achieve investment objectives aligned with that of the Sub-Fund
- have a long-term investment horizon
- seek a product that promotes environmental and/or social characteristics

Practical information

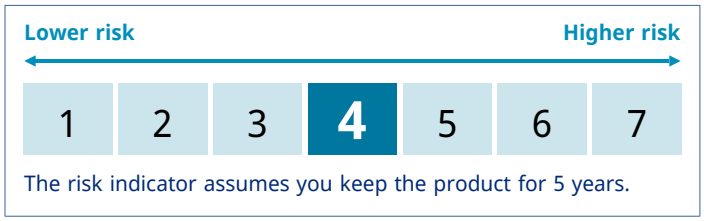
Depositary The Sub-Fund's assets are held through its depositary, State Street Custodial Services (Ireland) Limited.

Further information The Umbrella is constituted as an investment company with variable capital with segregated liability between sub-funds under Irish law. This means that the Sub-Fund's assets are maintained separately from the assets of other sub-funds and your investment in the Sub-Fund will not be affected by claims against any other sub-fund of the Umbrella. You may request the exchange of shares in this Sub-Fund for shares available in other Sub-Funds of MGI Funds plc on each Dealing Day. Additional information on exchanges is available in the prospectus. The prospectus, latest annual and semi-annual reports, which are prepared for the entire

Umbrella, and information on other share classes are available free of charge in English on https://investment-solutions.mercer.com. The net asset value per share is published on www.bloomberg.com.

What are the risks and what could I get in return?

Risk Indicator



The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator other risks may affect the Sub-Fund's performance. Please refer to the supplement available free of charge at https://investment-solutions.mercer.com

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment tracked against the Benchmark between November 2024 and November 2025.

Moderate: this type of scenario occurred for an investment tracked against the Benchmark between September 2016 and September 2021.

Favourable: this type of scenario occurred for an investment tracked against the Benchmark between October 2020 and October 2025.

What happens if Mercer Global Investments Management Limited is unable to pay out?

The Sub-Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Sub-Fund to investors from its own assets. The Sub-Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Sub-Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in UCITS, such as the Sub-Fund, are not covered under the terms of the Irish statutory investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 SEK is invested.

Example Investment 10,000 SEK	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	**46 SEK**	**228 SEK**
Annual cost impact*	**0.5%**	**0.5% each year**

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.5% before costs and 14.0% after costs.

Composition of costs
