WAVERTON INVESTMENT
FUNDS PLC

ANNUAL REPORT AND
AUDITED FINANCIAL
STATEMENTS

FOR THE FINANCIAL YEAR
ENDED 30 APRIL 2024

COUNTRY SUPPLEMENT ADDITIONAL INFORMATION FOR INVESTORS IN GERMANY

Dated: 15 January 2024

This document is supplemental to, forms part of and should be read in conjunction with the prospectus for Waverton Investment Funds plc (the "Company") dated 8 November 2023, as amended from time to time (the "Prospectus").

Terms used herein shall have the meanings attributed to them in the Prospectus, unless otherwise stated.

Right to market Shares in Germany

The Company has notified its intention to market Shares in Germany. Since completion of the notification process the Company has the right to market Shares in Germany.

No marketing notification has been submitted for:

**Waverton Absolute Return Fund
Waverton European Dividend Growth Fund
Waverton Multi-Asset Growth Fund (€ Denominated)
Waverton Multi-Asset Balanced Fund
Waverton Multi-Asset Cautious Fund
Waverton Multi-Asset Defensive Fund
Waverton Multi-Asset Growth
Waverton Multi-Asset Income Fund
Waverton Real Assets Fund
Waverton Sterling Bond Fund
Waverton Strategic Equity Fund
Waverton Southeast Asian Fund**

Consequently, these Funds must not be marketed in Germany.

Facility in Germany

Facility services according to Sec. 306a (1) no. 1. to 6. German Investment Code ("KAGB") are provided in Germany by:

**GerFIS - German Fund Information Service GmbH
Zum Eichhagen 4
21382 Brietlingen**

(the "German Facility Agent").

The Company has concluded a written agreement with the German Facility Agent stipulating that all functions referred to in Sec. 306a (1) no. 1. to 6. KAGB are to be performed by the German Facility Agent towards German Shareholders and that the German Facility Agent will receive all relevant information and documents from the Company.

Subscription, payment, redemption and conversion orders for Shares of German Shareholders may be processed by the German Facility Agent in accordance with the conditions set out in the sales documents referred to in Sec. 297 (4) sentence 1 KAGB.

The German Facility Agent provides Shareholders in Germany with information on how orders referred to above can be made and how redemption proceeds are paid.

Appropriate procedures and arrangements have been established by the Company to ensure that there are no restrictions on investors exercising their rights arising from their investment in the Funds of Company. For Shareholders in Germany the German Facility Agent facilitates the access to and provides information on procedures and arrangements referred to in Art. 15 Directive 2009/65/EC relating to the exercise of German Shareholders' rights arising from their investment in the Funds of the Company and provides detailed information thereon.

Copies of the certificate of incorporation and Memorandum and Articles of Association, the Prospectus, the Key Investor Information Documents and the annual and semi-annual reports may be obtained free of charge in paper form at the registered office of the German Facility Agent.

Furthermore, the following documents are available for inspection free of charge during normal business hours on weekdays (Saturdays and public holidays excepted) at the registered office of the German Facility Agent:-

- a) the UCITS Regulations and the UCITS Rules issued by the Central Bank thereunder;
and
- b) the worked example of the performance fee calculation submitted to the Central Bank.

The subscription, redemption and conversion prices are available free of charge at the German Facility Agent as well.

The German Facility Agent provides German Shareholders with information relevant to the tasks that it performs on a durable medium.

The German Facility Agent acts as the contact point for communication with the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin).

Publications

In Germany, the subscription and redemption prices will be published on www.fundinfo.com; Shareholder notifications, if any, will be published in the Federal Gazette.

In the cases enumerated in Sec. 298 (2) KAGB, Shareholders additionally will be notified by means of a durable medium in terms of Sec. 167 KAGB.

Fees and Expenses

Information relating to the fees and expenses payable by investors in each of the sub-funds is set out under the section headed "FEES AND EXPENSES" in the Prospectus. The attention of investors and/or prospective investors is drawn to the information relating to fees and expenses set out therein.

Taxation in Germany

The Waverton Asia Pacific Fund, Waverton European Capital Growth Fund and Waverton Global Equity Fund will invest more than 50% of its total assets within the meaning of Section 2, Article 6, 7 and 9a of the German Investment Tax Act in equity securities which constitute "equity participation" within the meaning of Section 2, Article 8 of the German Investment Tax Act. The equity securities in which the Fund will invest will be the shares of companies active in the equity markets included on the list in Schedule I to the Prospectus. For the purposes of this investment restriction, a company will be considered to be active in a country if the company carries out the predominant part (more than 51%) of its economic activities there or if the company is listed on a regulated market in the country.

There may be instances where the weighting of any constituent security of the Index could cause the Fund to breach the investment restrictions set out in the Prospectus. If such an event occurs, it is intended that the Fund will purchase other assets, the effect of which will seek to maintain, so far as is possible, the same economic exposure to and the same weighting of the security of that issuer in the Index without breaching its investment restrictions.

Our purpose is underpinned by three core values: Responsibility of Stewardship, Pursuit of Excellence and Value of Partnership.

REALISING PEOPLE'S PURPOSE

As responsible stewards of capital, we are committed to helping others achieve what matters most to them.

Responsibility of Stewardship

We take care of all that we are entrusted to protect and safeguard. Client relationships and assets, employees' careers and their wellbeing are at the heart of this.

We have a responsibility as a business to help achieve high social and environmental standards within our wider community.

Pursuit of Excellence

We strive to be extremely good or outstanding in all that we do.

We constantly challenge ourselves to learn, so we can improve what we do and adapt to the changing needs of our clients and staff.

Value of Partnership

We believe in an alignment of purpose with our clients and we work in partnership with them towards common objectives.

We share ownership of our company and we have a responsibility to each other and to our society.

DIRECTOR'S REPORT

Continued growth and consolidation

Against a challenging market backdrop, Waverton's funds have had another good year, with the majority outperforming their peer group; 8 in the first quartile of which 4 were top decile. Over the past three years, all the funds had performed in the top half of the peer group, with just over half of the funds in the top decile.

Through a combination of Net New Assets and performance growth the Assets Under Management of the Waverton umbrella grew by 30%, rising from £4.064bn at the end of April 2023 to £5,281bn to the end of April 2024.

During the year there was one personnel change following the departure of Charles Jones, with Benjamin Hall replacing Alena Isakova as lead-manager of the Waverton Asia Pacific Fund

The majority of this growth in fund AUM came from distribution via Waverton Investment Management Adviser Solutions team in the UK. The Institutional Solutions team have also contributed to the growth with the successful inclusion of the Waverton Sterling Bond Fund in the Managed Portfolio Service offering of a major research organisation. Additionally the team has made great strides with another prominent research institution and B2C platform, anticipating the

inclusion of the Waverton Multi-Asset offering on their platforms in the near future leading to significant flows. Further investment came from the Private Client team and Charity teams.

Waverton's strategic plans included the migration of some operational and technology functions including dealing to SEI and Northern Trust respectively. This was a significant event in 2023 to facilitate future growth and enhance further resilience for the business. We continue to cement and refine processes to improve automation and scalability. This is especially important following the exciting announcement that the proposed merger between London & Capital Group and Waverton Investment Management Group, which was disclosed in February 2024, has completed following approval from the Financial Conduct Authority in June 2024. The integration of the two businesses is now in progress and is a strategic combination of two strong and growing businesses to create an industry leading, independent wealth and asset manager, with AUM totalling over £19 billion.

During the reporting year, Waverton retained its signatory status to the UNPRI and the UK Stewardship Code. We value our inclusion in both, providing acknowledgement that our approach to responsible investment when managing assets for our clients meets UK regulatory requirements and industry standards, as well as being valued by our clients. The continually evolving regulatory landscape for sustainability dictated much of the agenda over the past year and saw Waverton publish its first climate report in line with the Task Force on Climate-related Financial Disclosures recommendations, setting out its approach to managing climate-related risk and opportunities. The long-awaited UK Sustainability Disclosure Regime (SDR), for which final guidance was published at the end of 2023, introduced a voluntary sustainability labelling regime, which has been, and continues to be monitored and

considered by the business. Part of SDR, the Anti-greenwashing rule came into force at the end of May of this year and was implemented by the business ahead of the deadline.

Four new multi-asset funds were successfully launched in November 2023 to compliment the Waverton Multi-Asset Growth Fund. These include a range of risk profiles (Balanced, Cautious and Defensive) as well as a Euro denominated Waverton Multi-Asset Growth Fund. These funds are particularly attractive to financial advisors who prefer a single fund solution. Their combined AUM at the end of April was c.£184m.

The acquisition of RBC Investor Services Bank S.A. by CACEIS officially completed in July 2023. The migration of the Waverton Funds to the CACEIS operating model is a hugely complex project and I'm pleased to confirm that the Waverton and CACEIS teams have been actively engaged throughout to deliver a successful migration. An extensive and robust project governance framework has been established to ensure a successful migration scheduled in Quarter 3 2024 for the Fund range. The primary objective is to ensure that shareholders are not impacted and the funds continue to operate without disruption.

With effect from 27 June 2023, our third party Management Company (ManCo), Bridge Fund Management Limited is now part of the Apex Group. The Apex Group is a privately owned global financial services provider with over 12,000 employees across 94 offices worldwide.

Waverton continue to invest in technology solutions to enhance service resiliency and security. All Waverton infrastructure has now been successfully migrated onto Microsoft Azure platforms which enhances our service continuation in the event of primary service failure allowing faster recovery

DIRECTOR'S REPORT CONTINUED

times during outages. The Waverton IT Security team are dedicated to continuously improving our cybersecurity measures and work with external security partners to protect client data through a series of Physical Security, Social Engineering and External/Internal Penetration testing. Continuous training for staff on phishing and Cyber Security awareness is also scheduled.

In 2023, Waverton commissioned an independent consultant to complete a fee benchmarking review of the Administration, Custody and Trustee fees provided by RBC Investor Services. I am pleased to report that the subsequent fee negotiation resulted in a reduction in fees for the financial period. Shareholders have benefitted from this as evidenced by lower ongoing charges figures which ultimately improves the performance of the Funds.

As part of a Board approved succession plan, Samantha McConnell and Louise McMorro have formally joined the Waverton Funds Board from the 1st January 2024 following approval from the Central Bank of Ireland. Samantha has taken over as Chair and Louise will chair the Financial Reporting Committee.

Lastly, we would like to acknowledge the resignation of Eanna McHugh from the Board as at the 30th April having served the Board for over two decades since its inception. Eanna's contribution over the years has been invaluable with special mention to his diligence and rigour by which he chaired the Financial Reporting Committee. It has been a pleasure, privilege and honour to serve with Eanna and we wish him well as he embarks on his retirement.

CIO REPORT

Navigating troubled markets

The financial year was neatly divided into almost exactly two halves. The global stock market at the end of October 2023 was at the same level it had been at the end of April 2023. Then from the end of October 2023 through April 2024 the global market rose 16% (in sterling terms) and at one point had been up 20%.

There had been no material corrections in the first six months of the financial year. The market had gone sideways. There were two headwinds. The first was the ongoing increase in policy rates by central bankers in the developed world and the resultant repricing of government bonds. US bond yields rose from 3.5% to 5.0% in the first six months of the financial year.

The second headwind was the widespread expectation that the rise in policy rates and bond yields would produce a significant slowdown or recession in many economies.

In the end, although the UK and the rest of western Europe experienced sluggish growth, the US economy powered ahead. For the calendar year 2023 the US economy grew 2.5% and in each quarter of the financial year growth fluctuated between +1.4% and +4.9% and averaged 3%.

In the second half of the financial year the market benefitted from some tailwinds. Central banks signaled that they were done with raising interest

rates in the summer of 2023. The US Federal Reserve made its last rate hike in July, the Bank of England in August and the Eurozone Central Bank in September. Bond yields peaked in the UK in August, and peaked in October in the US and in the euro area. That was a relief to equity markets.

The other tailwind was the perception of the transformative possibilities of generative Artificial Intelligence that became a major theme for markets from November 2023 onwards. The seven largest US technology, communications and consumer discretionary companies became fashionable market leaders and even gained their own grouping as the Magnificent Seven.

But the bull market run in the fourth quarter of 2023 and into the end of the financial year was broader than just those seven companies. The Japanese market, for example, reached an all-time high in March 2024, finally besting the December 1989 high that had marked the top of what has subsequently been recognised as an historically large asset bubble. The bull market in Japan is now much more solidly based and we continue to expect our Japanese equity holdings to contribute positively to the performance of our global funds this year as they did last.

Our equity team, led by Jen Fisher, did an excellent job with stock selection being positive across our equity funds.

For bond investors, the rising rate environment made life challenging. Over the whole financial year, the All-Gilt index gave a total return of -1.4%. That seemingly modest change belies the volatility in bond markets through the year. The monthly total return of the All-Gilt index ranged from -3.4% to +5.4%, unusually large swings for gilt market. Jeff Keen and the Fixed Income team navigated the challenging markets well relative to the competition and our bond funds continue to be market leading in their long-term performance records.

We maintain our belief in the benefits of alternative assets. These can offer a wider range of areas to seek investment opportunities, and a greater degree of diversification in a portfolio. Areas like infrastructure, commodities, and property are, in some cases, able to offer real returns with inflation-linked cashflows. Some, such as new energy technologies, benefit from secular demand tailwinds.

Led by Luke Hyde-Smith (Co-Head of Multi-Asset Strategies) our Real Assets Fund and Absolute Return Fund have continued to be an integral part of our offering, particularly within our Managed Portfolio Service. Finally, our multi-asset funds, with lead-manager James Mee (Co-Head of Multi-Asset Strategies), also had a successful year. The launch of new multi-asset funds in November has rounded out our range of funds which has gone down well with financial advisers and we are pleased with both the performance of the funds in their initial months, and with the market response to them.

“Amid these complex market conditions, we believe that our investment process will allow us to participate during periods of market strength and provide protection during times of weakness. By being active, global, and direct investors, we have the ability to understand, monitor and buy into the assets that we believe will provide holders of our funds the best risk-adjusted outcomes.”

William Dinning
CIO

OUR INVESTMENT PHILOSOPHY

Investment philosophy

Waverton's funds are managed to clear risk and return objectives, principally focused on outperforming inflation over a full market cycle. To achieve this, we have always adopted a global, active, high conviction and predominantly direct investment approach, reflecting a firm belief in the benefits of active management both in terms of asset allocation and disciplined security selection. We aim to better protect capital in periods of drawdown and capture the upside as markets rebound, thereby compounding superior risk-adjusted returns over the long term.

Our investment universe incorporates a wide range of asset classes, including equities, bonds, alternatives and third-party funds.

Bottom-up meets top-down

Waverton's investment process incorporates both bottom-up fundamental analysis and top-down macroeconomic research. Regular communication with companies has always been an integral part of our investment process, providing both a clearer understanding of individual businesses and industries, as well as important insights on real economic activity.

This bottom-up perspective has been particularly valuable in recent years, with the pandemic and then Russia's invasion of Ukraine impacting global supply chains, inventory levels, consumption patterns and government spending in a way that has created meaningful distortions to usual cyclical patterns.

We blend this with analysis of global macroeconomic data to give us as much visibility as possible regarding the outlook from a macroeconomic, regional, industry and consumer perspective.

The team

We continue to expand and strengthen the investment team, a reflection of Waverton's ongoing commitment to global and direct investment in a world of ongoing disruption and ever growing ESG scrutiny. The team is based out of our London office, facilitating frequent collaboration and short lines of communication. This enables members of the team to draw on the experience knowledge and skill set of the whole team when identifying trends and making investment decisions.

Fundamental research

Our bottom-up research is based on detailed fundamental analysis and the identification of selection criteria that we clearly define for each asset class.

Our investment process is rigorous, robust and repeatable, with proven results through market cycles and rotations.

Responsible investment

We are thoughtful, long-term investors and responsible stewardship of client capital is at the core of Waverton's business. Our objective is to provide clients with a carefully considered investment approach that not only creates value for them as shareholders, but also contributes to incremental improvements in ESG standards and positive real-world impact over time.

ESG integration

We firmly believe the consideration of ESG factors is an integral part of good fundamental research, rather than something new to accommodate. Governance is central to delivering a sustainable business in all its forms (durability, returns for shareholders, improving ESG standards) and is an essential part of our analysis. Similarly,

when considering other relevant factors that could impact a company's ability to generate free cash flow (FCF) over the long term, it is impossible to ignore material environmental and social factors that could have significant operational and financial consequences for its business.

ESG factors are, therefore, intrinsically linked to the long-term returns of an asset and we employ a bespoke framework that helps identify, prioritise and assess the most material issues of the companies in which we place our clients' capital. Focusing on material ESG issues when evaluating a company's performance with regards to ESG factors, is also a far more effective way to assess real-world environmental and social outcomes.

Non-exclusionary

At the corporate level, we have chosen not to implement "blanket exclusions" and prefer to engage actively with companies in all industries and focus on their direction of travel. Where we identify concerns, we use engagement and voting to help influence or encourage better corporate behaviours.

This approach provides us with the flexibility to invest not only in those companies with strong ESG credentials today, but also well-managed businesses that we believe will successfully adapt to and mitigate ESG risks over time, and/or those that form a critical part of the transition solution. This is often where most value is to be found and, importantly, where the contribution to achieving positive sustainability outcomes is often overlooked.

Engagement and Voting

Our approach to engagement and voting focuses on aspects where we believe we can be most effective in influencing or encouraging better behaviours, while enhancing or protecting shareholder value. This could be in relation to a company's management of specific ESG issues or improvements in public disclosures.

OUR INVESTMENT PHILOSOPHY *CONTINUED*

Direct and regular dialogue with company management has always formed a central part of our investment process and the Investment team undertakes 500+ meetings a year. As long-term investors, we aim to build constructive relationships that facilitate a deeper understanding of a company's business model and direction of travel.

We vote on all equities owned in our Dublin-listed funds, which amounts to over 200 stocks, reviewing each voting proposal individually.

The responsibility for voting decisions sits with the Investment team, who undertake all the fundamental analysis and are responsible for building and maintaining relationships with investee companies around the world. We believe this is an essential part of a genuinely integrated approach to ESG.

SUSTAINABILITY DISCLOSURES

We have chosen not to pursue alignment with Article 8 or 9 (for our Dublin-listed funds) and are instead focusing on our domestic regulatory environment and the UK Sustainability Disclosure Requirements (SDR) introduced in 2024. We are closely monitoring proposals by HM Treasury to expand the scope of the regime to include overseas funds, making it more relevant across our products and services.

Effectiveness of our stewardship activities

The investment returns we generate for clients, quality of our client service and longevity of our client relationships are the clearest measure of the effectiveness of our stewardship activities, and we outline these fully in our Stewardship Report.

Jennifer Fisher
Head of Equities

OUR PHILOSOPHY

Global multi-asset, direct

Provides the widest set of potential investment opportunities; direct approach facilitates greater control and transparency.

Active approach

Active management both in terms of asset allocation and security selection. What we avoid is as important as what we own.

High conviction

Concentrated in the best ideas across the global universe. Detailed knowledge of each holding enables better risk management.

Downside protection

Aim to better protect capital in periods of drawdown and capture the upside as markets rebound.

Superior real returns

Aim to achieve superior risk-adjusted, real returns over the cycle.

Integration of ESG

Assessment of material ESG factors and active engagement is an integral part of our fundamental research.

FUND MANAGERS REPORTS

1. Asia Pacific Fund Performance

The Waverton Asia Pacific Fund (the "Fund") returned -0.87% (net of fees) for the Sterling A share class over the twelve-month period ending 30 April 2024. This compares with 7.92% on the official benchmark, MSCI AC Asia ex Japan Index.

Review

Equity markets across Asia have seen a wide dispersion in performance over the last 12 months. China and Hong Kong continued to underperform, falling -5.6% and -18.4% respectively. Sentiment towards China remains subdued as the downturn of the real estate sector has weighed on consumer and investor confidence. In contrast, the Indian equity market returned +34.4% over the last 12 months as the country's focus on infrastructure and reform has provided an attractive backdrop for earnings growth. Taiwan also outperformed, returning +30.4%, led by the recovery in the semiconductor industry and the notably strong performance of TSMC. Information Technology was the strongest performing sector, returning +28.2%, supported by the cyclical upturn in semiconductor cycle and optimism over the structural growth opportunities from Artificial Intelligence. Real Estate was the worst performing sector, returning -20.2% driven by deterioration in the financial health of Chinese developers.

Fund underperformance during the period was caused by negative stock selection in China, the Fund's underweight to the strongly performing Indian market, and negative stock selection in India. JD Health (-2.3%) was the biggest detractor to returns, being negatively impacted by slowing topline growth and deterioration in market sentiment driving valuation de-rating. YUM China (-1.9%) saw consumer sentiment decline sharply as optimism on reopening post-lockdowns gave way to increasingly value-conscious behaviour.

The biggest positive contributor during the period was ICT (+1.6%) which demonstrated strong pricing power and volume growth across Asia and EM, helped by the trend of supply chain movements away from China to other emerging markets. SK Hynix (+1.3%) and Mediatek (+1.0%) were both beneficiaries of a cyclical rebound in demand, as well as AI euphoria as investors sought to gain exposure to semiconductors and equipment used to enable this new technology.

Outlook

In China economic activity remains subdued with the continued downturn in equity and real estate markets impacting consumer confidence and spending. The weak domestic demand environment has led to excess capacity, causing a deflationary environment which threatens to spill over into export markets, heightening tensions with trade partners. The government

has made additional policy responses in recent months to support the economy. While equity valuations there remain attractive, the market is likely to remain volatile in the coming year as domestic policy initiatives gradually take effect and the US election increases risks of geopolitical posturing. Indeed, the recent election in India (where Prime Minister Modi unexpectedly lost the parliamentary majority) highlight the unpredictability of major events even when relatively straightforward data, such as exit polls, is available. The Indian market offers attractive long-term structural growth, however amid elevated valuations we continue to be highly selective with our bottom up stock selection. South East Asia continues to benefit from significant growth in FDI as supply chains relocate out of China in response to tariffs, political uncertainty and rising production costs. Monetary conditions remain tight across much of Asia, with high real interest rates to support currencies in response to higher for-longer US rates. The anticipated monetary easing in the US over the next 12 months should therefore provide scope for lower interest rates in Asia, supporting economic activity and equity valuations.

Benjamin Hall Fund Manager

FUND MANAGERS REPORTS CONTINUED

2. Global Equity Fund Performance

The Waverton Global Equity Fund (the "Fund") returned 22.93% (net of fees) for the Sterling A share class over the twelve-month period ending 30 April 2024. This compares with 17.91% on the official benchmark, MSCI AC World Index.

Review

This was an extremely strong period of performance for Global Equities, with several themes contributing to market performance stabilising inflation and continued strength in the US labour market which appeared to be setting the US up for a "soft landing" scenario, in contrast to the consensus expectation of a recession by the end of 2024 (North America +21.9% within MSCI ACWI); the publication of new rules on capital efficiency and corporate governance requirements by the Tokyo Stock Exchange led investors to become optimistic about the value creation opportunity in the Japanese market (+19.0%); and lastly the significant momentum behind the AI theme which contributed to the substantial outperformance of the Information Technology segment (+34.7%).

The Fund's largest positive contributors to absolute performance were Hitachi (2.1%) and Microsoft (1.9%). Hitachi has been through portfolio restructuring initiatives aimed at unlocking shareholder

value with management electing to prioritise its higher growth and higher margin business lines while divesting or deemphasising the more capital intensive segments. Additionally, the market has given credence to the Tokyo Stock Exchange's drive to enhance capital returns for shareholders. Microsoft continues to be at the forefront of corporate cloud transformation and remains extremely well positioned to benefit from the ongoing wave of AI-related demand.

The largest detractors from performance were Diageo (-0.4%) and Alibaba (-0.2%). Diageo has underperformed as spirits distributors stockpiled to get ahead of inflation related price hikes and now need to work through these inventories. The long term growth prospects still appear compelling and are reinforced by premiumisation and higher growth Emerging Market exposure. Alibaba remained caught up in the negative Chinese sentiment and the position has since been exited on evidence of continued market share losses that undermine our assessment of the company's competitive advantage.

Outlook

The events of the last year, particularly that the US appears to have avoided a recession, highlight the importance of focusing on the long term opportunities for our investments over the ever-changing macroeconomic environment. Indeed, the recent

election results in India highlight the unpredictability of major events even when relatively straightforward data, such as exit polls, is available. With the upcoming elections in the UK and US already garnering headlines, it appears likely that there will be more market volatility as we progress through the year.

At the point of writing, commentary from management teams in the US indicates some slowing of revenue growth, but also a normalisation of business activity with respect to reinvestment and debt issuance, which supports the view that there could be a moderate economic slowdown this year. With inflation also normalising, there is growing consensus in the market that interest rates have peaked but predicting the timing of potential future rate cuts is challenging, versus the direction of travel over the medium-term.

With elevated uncertainty in the market still, we keep our focus on finding resilient business models that meet our criteria for Durability, Opportunity, Alignment, and Valuation.

Tommy Faber Fund Manager

References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform its benchmark.

FUND MANAGERS REPORTS *CONTINUED*

3. UK Fund Performance

The Waverton UK Fund (the "Fund") returned 6.73% (net of fees) on the Sterling A share class over the twelve-month period ending 30 April 2024. This compares with 7.38% on the official benchmark MSCI UK All Cap Index.

Review

The objective of the Fund is to achieve long-term capital growth and income through diversified investment in UK equities.

During the period, global equity markets focused on the pace of deceleration in inflation and economic growth and what this might mean for future changes in interest rates and corporate profits. UK's base rate increased from 4.25% in March 2023 to 5.25% in August 2023 where it stayed until the end of April 2024. 12-month core CPI (excluding energy, food, alcohol and tobacco) fell from 6.8% in April 2023 to 3.9% in April 2024. The post-covid recovery in China was much weaker than expected but global AI driven investment much stronger. The Ukraine-Russia war continued and in October 2023 the Israel-Gaza conflict started.

Higher interest rates drove value sectors to outperform, particularly aerospace & defence, mining, and banks. Defensive sectors underperformed, particularly

telecommunications, consumer staples and utilities.

The biggest positive relative contributor to the fund's performance was Melrose (+1%), that became an aerospace-only company following the demerger of their auto-division late April 2023. Post-covid demand for their civil aerospace products was much stronger than expected, driving a significant re-rating. Other strong performers were Associated British Foods (+0.7%), with retailer Primark showing good recovery, and galvanising, utilities and road structure firm Hill & Smith (+0.7%) that benefited from the increase in US infrastructure spending. Not owning underperformers British American Tobacco, Rentokil, Vodafone and Burberry was positive (+1.4% together).

The two biggest negative relative contributors to the fund's performance came from not owning HSBC (-1.2%) and Rolls Royce (-1%) as both reported better than expected results. Specialty chemicals firm Croda (-0.6%) suffered from post-covid destocking by their customers. Prudential (-0.6%) tracked negative sentiment on China exposed stocks. Not owning outperformers CRH, 3I and BAE Systems was negative (-1.4% together).

Outlook

Whilst inflation levels in the UK and Europe are getting close to central banks' target rates, this gap is wider

in the US. Higher growth in the US compared to other developed economies, has left markets to price in earlier interest rate cuts in the UK and Europe than in the US. The exact timing of the first cuts and the subsequent trends will be much debated. The July and November elections in the UK and the US respectively will capture much media attention, but we believe will have limited impact on the strategies and earnings of our holdings.

Recent UK company results have been robust and forward-looking guidance steady. We continue to like companies that benefit from the large step-up in investment in US infrastructure, the global energy transition and generative AI. Whilst the relative cheapness of the UK equity market gets most attention, we focus on a company level and seek an attractive balance between relative valuation, profitability and cash flow growth opportunities. With uncertainty over the future trajectory of interest rate cuts and economic growth, we will continue to maintain a balance between value and growth as well as between domestic and international exposures.

FUND MANAGERS REPORTS *CONTINUED*

4. Sterling Bond Fund Performance

The Waverton Sterling Bond Fund (the "Fund") returned 2.47% (net of fees) on the Sterling P share class over the twelve-month period ending 30 April 2024. This compares with -1.93% on the official benchmark, benchmark ICE BofA UK Gilt Index.

Review

We have seen a roller coaster in yields on government bonds over the last year. In the UK, the ICE BofA UK Gilt index yield rose from 3.87% to 4.52%, having peaked at 4.91% in August and reaching a low point of 3.71% just prior to the end of 2023. Financial markets celebrated a change of tone from central bankers (particularly the Federal Reserve Chairman Jay Powell) which suggested that interest rates had peaked. Forecasts of interest rate cuts soared, which helped all bonds to perform well during the final quarter of 2023. During 2024, however, those expectations have declined sharply due to the resilience of the global economy (particularly the US) and the stickiness of some elements of inflation. We can also point to fiscal largesse (again, mainly in the US) as an explanation for nervousness in bond markets – the US fiscal deficit exceeded 6% of GDP in 2023 and is not expected to fall very much over the next few years, irrespective of who might win the next US Presidential election in November.

The resilience of consumer demand and strength of corporate profits helped corporate bond markets to perform well over the year. The ICE BofA Sterling Corporate Index provided a return of 5%, outperforming the UK Gilt market by almost 7%, with credit spreads narrowing from 1.72% to 1.15%.

Outlook

We must acknowledge that the global economy has performed much better than we anticipated. However, now that we are in a period of "higher for longer" interest rates, the risks of an economic slowdown should not be discounted too readily. The effects of monetary policy can be lagged and we have only had a period of around 12 months during which interest rates have been above the level of inflation. Higher positive real interest rates are likely to dampen economic growth, just at the time when investors want to think about recovery. With credit markets almost priced for perfection, we continue to prefer a cautious stance, combining a low level of credit exposure with a healthy level of duration convexity from long dated government bonds. If there is any deterioration in the economic outlook, we expect government bonds to perform relatively well.

The exposure to credit within the portfolio is actively managed and is currently near the low end of the

range since we launched the fund in 2010. Within that exposure of around one-third of the fund we have allocated to issuers which we think are best placed to withstand more difficult credit conditions and in particular favour those businesses that have strong contracted cash flows, not closely related to the health of the economy.

Jeff Keen and James Carter
Fund Managers

References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform its benchmark.

FUND MANAGERS REPORTS *CONTINUED*

5. Strategic Equity Fund Performance

The Waverton Strategic Equity Fund (the "Fund") returned 18.47% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024. This compares with 6.45% on the official benchmark, UK CPI+4.5%.

Review

This was an extremely strong period of performance for Global Equities, with several themes contributing to market performance during the period: stabilising inflation and continued strength in the US labour market which appeared to be setting the US up for a "soft landing" scenario, in contrast to the consensus expectation of a recession by the end of 2024 (North America +21.9% within MSCI ACWI); the publication of new rules on capital efficiency and corporate governance requirements by the Tokyo Stock Exchange led investors to become optimistic about the value creation opportunity in the Japanese market (+19.0%); and lastly the significant momentum behind the AI theme which contributed to the substantial outperformance of the Information Technology segment (+34.7%).

In absolute terms, Alphabet (+1.9%) was the largest positive contributor to performance during this period. Despite some hiccups around the initial launch of their generative AI chatbot, Alphabet demonstrated resilient

underlying growth in its Search division and the management team solidified their commitment to shareholder returns by introducing a dividend policy. Hitachi (+1.6%) and Toyota Motor (+1.5%) were also meaningful contributors through a combination of strong operating results, restructuring initiatives to unlock value, as well as both being beneficiaries of rising investor interest in Japan.

The biggest detractors, AIA (-0.6%) and Yum China (-0.5%), both underperformed on disappointing growth numbers as the consumer sentiment in China deteriorated due to weak economic activity, ongoing pressure on the property sector, and a lack of significant support initiatives from the Government. The third largest detractor during this period was the Protection Strategy (Luminis), which was down 26.5% due to strong equity markets and detracted -0.3% from absolute performance during this period.

Outlook

The events of the last year, particularly that the US appears to have avoided a recession, highlight the importance in our view of focusing on the long-term opportunities for our investments over the ever-changing macroeconomic environment. Indeed, the recent election results in India (where Prime Minister Modi unexpectedly lost the parliamentary majority) highlight the unpredictability of major events even when relatively straightforward data,

such as exit polls, is available. With the upcoming elections in the UK and US already garnering headlines, it appears likely that there will be more market volatility as we progress through the year.

At the point of writing, commentary from management teams in the US indicates some slowing of revenue growth, but also a normalisation of business activity with respect to reinvestment and debt issuance, which supports the view that there could be a moderate economic slowdown this year. With inflation also normalising, there is growing consensus in the market that interest rates have peaked but predicting the timing of potential future rate cuts, versus the direction of travel over the medium-term.

With elevated uncertainty in the market still, we keep our focus on finding resilient business models that meet our criteria for Durability, Opportunity, Alignment, and Valuation. By selecting for names that can deliver Free Cash Flow growth despite interest rate and political volatility, we feel that the fund should be able to capture the long-term value creation opportunities from our investments.

Alena Isakova Fund Manager

FUND MANAGERS REPORTS *CONTINUED*

6. Global Strategic Bond Fund Performance

The Waverton Global Strategic Bond Fund (the "Fund") returned 3.97% (net of fees) on the USD A share class over the twelve-month period ending 30 April 2024. This compares with 5.36% on the official benchmark One Month Secured Overnight Financing Rate (SOFR) Index.

Review

We have seen a roller coaster in yields on government bonds over the last year. In the US, the 10-year US Treasury yield rose from 3.43% to 4.68%, having peaked at 4.99% during October and reaching a low point of 3.80% just prior to the end of 2023. Financial markets celebrated a change of tone from central bankers (particularly the Federal Reserve Chairman Jay Powell) which suggested that interest rates had peaked. Forecasts of interest rate cuts soared, which helped all bonds to perform well during the final quarter of 2023. During 2024, however, those expectations have declined sharply due to the resilience of the global economy (particularly the US) and the stickiness of some elements of inflation. We can also point to fiscal largesse (again mainly in the US) as an explanation for nervousness in bond markets – the US fiscal deficit exceeded 6% of GDP in 2023 and is not expected to fall very much over the next few years,

irrespective of who might win the next US Presidential election in November.

The US Dollar has also been volatile versus the other major world currencies but has generally remained strong, creating a headwind for global bond returns priced in US Dollars. Therefore, as well as duration being the major detriment to returns over the year, currency effects were also a headwind. This is reflected in the negative return of broad global bond indices. Therefore, the fund did well to generate a positive return against that backdrop.

Outlook

We have to acknowledge that the global economy has performed much better than we anticipated. However, now that we are in a period of "higher for longer" interest rates, the risks of an economic slowdown should not be discounted too readily. The effects of monetary policy can be lagged and we have only had a period of around 12 months during which interest rates have been above the level of inflation. Higher positive real interest rates are likely to dampen economic growth, just at the time when investors want to think about recovery. With credit markets almost priced for perfection, we continue to prefer a cautious stance, combining a low level of credit exposure with a healthy level of duration convexity from long dated government bonds. If there is any deterioration in the economic outlook, we expect government bonds to

perform relatively well. During the year we shifted the fund towards UK Gilts (away from US Treasuries), which was a profitable trade as yields rose much less in the UK than the US.

The exposure to credit within the portfolio is actively managed and is currently near the low end of the range since we launched the fund in 2010. Within that exposure of around 50%, the majority of issuers selected are those that we think are best placed to withstand more difficult credit conditions and in particular favour those businesses that have strong contracted cash flows, not closely related to the health of the economy. However, the fund has continued to invest in attractive themes which have created useful excess returns. Overall, the credit exposure is of investment grade quality, yielding 6.5% with a modest duration.

Jeff Keen and James Carter Fund Managers

FUND MANAGERS REPORTS *CONTINUED*

7. Absolute Return Fund Performance

The Waverton Absolute Return Fund (the "Fund") returned 5.29% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024. This compares with 5.23% on the official benchmark, ICE GBP SONIA 3 Month.

Review

It was positive to see all asset classes contributing positively to performance, to similar degrees – specialist fixed income (+2.2%), structured opportunities (+1.5%) and absolute return strategies (+1.5%).

We continue to construct the overall portfolio to ensure upside capture in conjunction to downside protection. In risk adjusted terms, the fund continues to perform strongly, having delivered a the +5.3% return over the last 12 months on just 1.5% annualised weekly volatility, and protected value in certain periods where both bonds and equities were weak in 2023.

Over the period, we have also enhanced our portfolio construction process and strategic weighting, to ensure the fund can continue to deliver attractive relative and risk adjusted returns.

Top performers over the period among absolute return strategies were Montlake Dunn (+11.8%), CT Real Estate Long/Short fund (+8.8%) and

Atlantic House Uncorrelated Strategies (+9.6%). All strategies benefited from the cash pick up at the underlying level. CT Real Estate performance was driven by good alpha from the team within the listed real estate market, while trending markets helped Dunn performance. Among structured opportunities, our JPM Global Equity Accelerator (+9.6%) and Citi US Rates Volatility (+16.6%) were the key positives. Some of the negative contributors included BH Macro (-13.9%) and our Goldman Sachs Convexity certificate (-25.1%) as we saw depressed equity market volatility.

Outlook

At the start of 2024, both the equity market and the bond market were positioned for an aggressive policy easing cycle. But with core inflation remaining sticky and the US economy so far proving resilient, markets are now reassessing how many rate cuts the central banks will deliver this year, negatively impacting medium to long duration government bond performance. In this environment, we would expect to see elevated volatility and we believe the portfolio is positioned well to continue to take advantage of this, as well as providing diversification benefits. It is also important to note that we receive underlying cash returns, on top of strategy returns across most of our absolute return and structured opportunities; this bodes well for forward looking returns.

While global government bond markets may have short term appeal from the lower inflationary backdrop, long term, there are plenty of reasons to remain wary of the US treasury market, be it quantitative tightening, lack of buying from China, large budget deficit, and US sovereign downgrade to name a few. In this environment, a defensive uncorrelated strategy has appeal, in particular for lower risk clients, assuming of course we can outperform cash on an ongoing basis.

Luke Hyde-Smith Fund Manager

FUND MANAGERS REPORTS *CONTINUED*

8. Multi-Asset Income Fund Performance

The Waverton Multi-Asset Income Fund (the "Fund") returned 8.85% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024. This compares to 4.47% on the official benchmark, UK CPI +2.5%.

Review

The fund began the period with 45% in equities, 5% below our long term average allocation and 7% below the equity allocation by the end of the period. We were cautious about the economic backdrop in early 2023, with a central thesis of recession at some point in the coming quarters. As our thesis was incrementally disproven, we added to equity risk. This is indicative of how we typically manage the fund's headline asset allocation: incremental changes determined by data. The Fund's asset allocation as of 30th April 2024 was 52% equities, 20% fixed income, 21% alternatives and 7% cash.

The main drivers of performance over the year were Hitachi (+72%), Alphabet (+52%), Inditex (+38%), American Express (+47%) and TSMC (+66%). The main detractors were YUM China (-35%), HICL Infrastructure (-15%), Diageo (-21%), Hong Kong Exchange (-19%) and the Waverton Sterling Bond Fund (-4.5%).

Over the year we made a number of substantive changes to the portfolio. New additions included Sequoia Economic infrastructure (a Real Asset providing debt capital to economic infrastructure assets trading at a double-digit discount to NAV), Zoetis (the global leader in animal health), United Health Group (the world's largest health insurer with a data-driven analytics and insights business helping to improve system productivity), Canadian Pacific (a North American Class 1 rail company, with a unique T-shaped network), UK Housebuilders Persimmon and Redrow, Ferguson (a distributor of plumbing, heating & other industrial products in the United States) and Empiric Student Living (a student property portfolio in the UK). We sold our position in Netflix (for sound fundamental reasons) and Costco (irrational pricing), as well as Supermarket Income REIT.

Outlook

We continue to see a mixed economic picture – the manufacturing and services sub-economies are dancing to different tunes. However, while the consumer has been well-supported by post-pandemic savings and rising nominal and real incomes (particularly in the US), the employment market is looking less rosy than it did twelve months ago, and the impact of high interest rates is cumulative: the longer economies live with higher rates the more significant the impact.

James Mee Fund Manager

References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform its benchmark.

FUND MANAGERS REPORTS *CONTINUED*

9. Real Assets Fund Performance

The Waverton Real Assets Fund (the "Fund") returned -0.62% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024. This compares with 5.96% on the official benchmark, UK CPI +4%.

Review

Many REITs and investment companies saw a weak start to the period, with higher than expected inflation resulted in yields pushing higher in the UK rate market and a repricing of UK interest rate expectations. US and UK yields reached a further high in the middle of August, which was then swiftly unwound during Q4 which saw strong performance. Since then, yields have retraced higher, negatively impacting sentiment on yield sensitive holdings, across both UK listed investment companies and utilities. Infrastructure holdings in the US were also driven down by higher US treasury yields.

Performance across the asset classes was mixed, with specialist lending providing a strong return contributor while infrastructure was negative.

Top performers over the period were Round Hill Music Royalties (+72.9%), Quanta Services (+53.1%), Shell (+21.7%) and Physical Gold (+15.7%). Round Hill Music Royalty was bought at a significant premium to the share price by music royalty specialist

Concord. Quanta Services was strong on good earnings momentum and a promising increase in their order pipeline as utilities look to invest in further grid and renewable infrastructure. Meanwhile, the gold price broke through all-time highs during Q1 2024 buoyed by large buying from global central banks and China.

The key detractors from the fund were Digital 9 Infrastructure (-66.3%) and Harmony Energy (-56.3%) Brookfield Infrastructure (-18.6%) and Brookfield Renewables (-28.7%). The two Brookfield holdings were caught up in the surge of US treasury yields, resulting in 'rate-sensitive' proxies in the Utility sector being sold down. Meanwhile, Digital 9 Infrastructure and Harmony Energy were both negatively impacted by portfolio specific issues, with both needing to postpone their dividends.

Through the period, we actively engaged with all our investment companies to ensure boards are acting in shareholder interests in effectively monitoring the investment advisor activities, in conjunction with a clear roadmap to closing discounts.

Outlook

UK market activity has shown signs of picking up, with more M&A within property and small to medium-sized companies. This is a positive environment for RAF, where investment companies (49% of the

fund) remain undervalued – private market players are seeing the value on offer and bidding accordingly, at sizeable share price premiums e.g. Brookfield considering an offer for Tritax EuroBox announced post-period end.

We would expect strong performance should duration rally, in particular UK Gilts yields, in conjunction with a more constructive UK equity market backdrop. We would expect performance to be predominantly driven by the property (19%) and infrastructure (39%) exposure. Valuations appear particularly robust within the infrastructure sector, in our view, justified by the recent asset disposals e.g. HICL selling Northwest Parkway at a c.30% premium to most recent valuation. Our commodity (15%), asset finance (3%) and specialist lending (20%) exposure provide a portfolio hedge and can perform in a range of market environments.

The portfolio continues to offer great value with growth potential, yielding 5.1% while the investment companies trade at a ~19% weighted discount.

Luke Hyde-Smith
Fund Manager

FUND MANAGERS REPORTS *CONTINUED*

10. European Capital Growth Fund Performance

The Waverton European Capital Growth Fund (the "Fund") returned of 16.12% (net of fees) for the Euro I share class over the twelve-month period ending 30 April 2024. This compares with 11.05% on the official benchmark, MSCI Europe ex UK Index.

Review

The Fund outperformed over the review period, despite having almost no exposure to Information Technology and Financials. Our investment process of investing in change early stops us investing in these well-developed investment themes.

The largest contributions to returns were; Kongsberg (+71%), Konecranes (45%), Zara owner Inditex (42%) and Autoliv (39%). The defence contractor, Kongsberg, has just responded that they want to achieve sales of 120bn NOK by 2033 with a 15% EBIT margin, compared to NOK 53bn sales and a 12% profit margin now. Should this be achieved, leading positioning in arming the newest US stealth warplane, the F35, the shares will continue to perform well. Margin improvement on increased sales is always a winner. At the other end of the scale our worst stock was GEA (-10%) that declined for no particular reason, and we think looks very cheap.

Deutsche Boerse and Fraport were poor performers on no significant news and we believe will perform better in due course. The largest detractors to relative performance were Novo and ASML.

Outlook

As the euro area's low GDP rate was beginning to become accepted, the recent elections to the European Parliament were a major success for the far right and in France president Emmanuel Macron's reaction was to call for snap parliamentary elections – three years earlier than scheduled. Macron has been struggling to pass legislation even with a relative majority in the parliament. There was widespread opposition on pension reform, for example. With the strong possibility he will lose seats, his ability to push through legislation will likely be reduced further. Finally, when it comes to the EU, potentially lower cohesion could make it more difficult to reach agreement on common programmes.

On a more positive note, Europe has now conceptionally recognised the advantage of share buyback schemes. For the first time ever aggregate share count is beginning to fall. There is also much clearer management discipline as to who are 'best owners' of assets rather than what we call 'stamp collecting' assets. There is no doubt about shareholder awareness in Scandinavia and Switzerland. Even Germany and France are seeing

meaningful change. As always, we manage the Fund on a 'bottom up' basis. That is looking to see which trading positions are changing for the better and if the stock market rating is acceptable, we buy. Fortunately, there are, as always, a number of very interesting situations.

Christopher Garsten
Fund Manager

References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform its benchmark.

FUND MANAGERS REPORTS *CONTINUED*

11. European Dividend Growth Fund Performance

The Waverton European Dividend Growth Fund (the "Fund") returned 13.79% (net of fees) for the Sterling A share class over the twelve-month period ended 30 April 2024. This compares with 7.79% on the official benchmark, MSCI Europe ex UK Index.

Review

The Fund outperformed over the review period, despite having almost no exposure to Information Technology and Financials. Our investment process of investing in change early stops us investing in these well-developed investment themes.

The largest contribution returns came from Kongsberg (+61% over 12 months), Galp (+85% on the discovery of a huge oil reserve in Namibian waters), Konecranes (45%), Zara owner Inditex (36%) and Autoliv (43%). The defence contractor, Kongsberg, has just responded that they want to achieve sales of 120bn NOK by 2033 with a 15% EBIT margin, compared to NOK 53bn sales and a 12% profit margin now. Should this be achieved, given their leading positioning in arming the newest US stealth warplane, the F35, the shares are going to continue to perform well. At the other end of the scale our worst stock was EDP (-31%) that declined

for no particular reason other than a widespread decline in electricity prices. The largest detractors to relative performance were from Novo and ASML.

Outlook

As the euro area's low GDP rate was beginning to become accepted, the recent elections to the European Parliament were a major success for the far right and in France president Emmanuel Macron's reaction was to call for snap parliamentary elections – three years earlier than scheduled. This increased policy uncertainty could weigh on French business sentiment (PMIs). Other factors to consider are that a far-right government will likely place less impetus on fiscal tightening and some recent structural reforms (e.g. pension reform) might come under scrutiny. Finally, when it comes to the EU, potentially lower cohesion could make it more difficult to reach agreement on common programmes.

On a more positive note, Europe has now conceptionally recognised the advantage of share buyback schemes. For the first time ever aggregate share count is beginning to fall. There is also much clearer management discipline as to who are 'best owners' of assets rather than what we call 'stamp collecting' assets. There is no doubt about shareholder awareness in Scandinavia and Switzerland. Even Germany and

France are seeing meaningful change. As always, we manage the Fund on a 'bottom up' basis. That is, we look to see which trading positions are materially changing for the better and if the stock market rating is acceptable, we buy. Fortunately, there are, as usual, a number of very interesting situations.

FUND MANAGERS REPORTS *CONTINUED*

12. Multi-Asset Growth Fund Performance

The Waverton Multi-Asset Growth Fund (the "Fund") returned 17.66% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024. This compares with 5.46% on the official benchmark, UK CPI +3.5%.

Review

Equities delivered the bulk of the performance over the period (+17.4%), Fixed Income (0.0%) and Alternatives (-0.5%). Stand out individual performance came from Hitachi (+72.0%), Amazon (+67.0%) and GE Aerospace (+63.0%). Hitachi has shown strength following its reorganisation aimed at structural growth and a focus on shareholder returns. Over time, the conglomerate discount is expected to narrow, supported by its leading position in digital solutions and energy. Amazon delivered solid results through the period, proving their profitability within the retail segment and continued momentum within their cloud computing division, Amazon Web Services (AWS). GE Aerospace (formerly General Electric) was a well-timed addition to the Fund in January and started strongly as a standalone aerospace business following the Vernova spin-off, losing its conglomerate tag. Its core commercial aircraft engine market is highly attractive given the long-term structural growth, high

barriers to entry and multi-year visibility from their order book.

Detractors were concentrated in the investment trust space; Urban Logistics (-13.6%), Taylor Maritime (-3.6%) and HICL Infrastructure (-15.2%), each of which are trading at significant discounts to their stated NAVs. The asset class in general has come under extreme pressure due to various factors, such as asset allocation shifts towards traditional fixed income and multi-manager selling pressures. Whilst there has been some NAV weakness over the course of the year as valuers take account of the higher cost of capital, income / rental growth has been strong which has helped to offset. Additionally, many vehicles continue to prove the robustness of their NAVs by selling assets at a premium, with HICL Infrastructure as an example. They sold Northway Parkway (4% of NAV), at a c.30% carrying value to its last valuation in March. We continue to see considerable value within the asset class on a 3-5 year time horizon and throughout the period, we have actively engaged with investment companies chairs to ensure boards are acting in shareholder interests in effectively monitoring the investment advisor activities, in conjunction with a clear roadmap to closing discounts.

Outlook

We continue to see a mixed economic picture – the manufacturing and services sub-economies are dancing

to different tunes. However, while the consumer has been well-supported by post-pandemic savings and rising nominal and real incomes (particularly in the US), the employment market is looking less rosy than it did twelve months ago, and the impact of high interest rates is cumulative: the longer economies live with higher rates, the more significant the impact. We continue to follow Waverton Investment Management asset guidance, ending the period with ~76% Equities, ~14% Fixed Income, ~8% Alternatives and the remainder in cash.

FUND MANAGERS REPORTS *CONTINUED*

13. Multi-Asset Balanced Fund

Performance

The Waverton Multi-Asset Balanced Fund (the "Fund") returned 10.48% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024 (note, inception of Fund was 14 November 2023). This compares with 2.11% on the official benchmark, UK CPI +3.0%.

Review

Equities delivered the bulk of the performance over the period (+8.8%), Fixed Income (+0.6%) and Alternatives (+0.6%). Stand out individual performance came from Hitachi (+39.7%), American Express (+49.0%) and GE Aerospace (+63.0%). Hitachi has shown strength following its reorganisation aimed at structural growth and a focus on shareholder returns. Over time, the conglomerate discount is expected to narrow, supported by its leading position in digital solutions and energy. American Express has produced solid earnings growth, as it continues to benefit from the structural shift from cash to card payments, whilst offering cardholders attractive value through reward schemes. Revenues over the period were supported by strong consumer spending both in the US and internationally. GE Aerospace (formerly General Electric) was a well-timed addition to the Fund in January, and started strongly as a standalone

aerospace business following the Vernova spin-off, losing its conglomerate tag. Its core commercial aircraft engine market is highly attractive given the long-term structural growth, high barriers to entry and multi-year visibility from their order book.

United Health (-10.6%) was a detractor, as it has faced headwinds following an announcement from the Department of Justice, who are launching an investigation to understand the possible effects of the relationship between UnitedHealth (their insurance unit) and Optum (their health services arm). Other detractors included investment trusts Supermarket Income REIT (-7.8%) and HICL Infrastructure (-7.1%), each of which are trading at significant discounts to their stated NAVs. This asset class in general has come under extreme pressure due to various factors, such as asset allocation shifts towards traditional fixed income and multi-manager selling pressures. Whilst there has been some NAV weakness over the course of the year as valuers take account of the higher cost of capital, income / rental growth has been strong which has helped to offset. Additionally, many vehicles continue to prove the robustness of their NAVs by selling assets at a premium, with HICL Infrastructure as an example. They sold Northway Parkway (4% of NAV), at a c.30% carrying value to its last valuation in March. 14. Multi-Asset Cautious Fund

Performance

The Waverton Multi-Asset Cautious Fund (the "Fund") returned 8.62% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024 (note, inception of Fund was 14 November 2023). This compares with 1.88% on the official benchmark, UK CPI +2.5%.

Review

Equities delivered the bulk of the performance over the period (+8.8%), Fixed Income (+0.6%) and Alternatives (+0.6%). Stand out individual performance came from Hitachi (+39.7%), American Express (+49.0%) and GE Aerospace (+63.0%). Hitachi has shown strength following its reorganisation aimed at structural growth and a focus on shareholder returns. Over time, the conglomerate discount is expected to narrow, supported by its leading position in digital solutions and energy. American Express has produced solid earnings growth, as it continues to benefit from the structural shift from cash to card payments, whilst offering cardholders attractive value through reward schemes. Revenues over the period were supported by strong consumer spending both in the US and internationally. GE Aerospace (formerly General Electric) was a well-timed addition to the Fund in January, and started strongly as a standalone

aerospace business following the Vernova spin-off, losing its conglomerate tag. Its core commercial aircraft engine market is highly attractive given the long-term structural growth, high barriers to entry and multi-year visibility from their order book.

United Health (-10.6%) was a detractor, as it has faced headwinds following an announcement from the Department of Justice, who are launching an investigation to understand the possible effects of the relationship between UnitedHealth (their insurance unit) and Optum (their health services arm). Other detractors included investment trusts Supermarket Income REIT (-7.8%) and HICL Infrastructure (-7.1%), each of which are trading at significant discounts to their stated NAVs. This asset class in general has come under extreme pressure due to various factors, such as asset allocation shifts towards traditional fixed income and multi-manager selling pressures. Whilst there has been some NAV weakness over the course of the year as valuers take account of the higher cost of capital, income / rental growth has been strong which has helped to offset. Additionally, many vehicles continue to prove the robustness of their NAVs by selling assets at a premium, with HICL Infrastructure as an example. They sold Northway Parkway (4% of NAV), at a c.30% carrying value to its last valuation in March. We continue to see considerable value within the asset class on a 3-5 year time horizon and throughout the period, we have actively

engaged with investment companies chairs to ensure boards are acting in shareholder interests in effectively monitoring the investment advisor activities, in conjunction with a clear roadmap to closing discounts.

Outlook

We continue to see a mixed economic picture – the manufacturing and services sub-economies are dancing to different tunes. However, while the consumer has been well-supported by post-pandemic savings and rising nominal and real incomes (particularly in the US), the employment market is looking less rosy than it did twelve months ago, and the impact of high interest rates is cumulative: the longer economies live with higher rates, the more significant the impact. We continue to follow Waverton Investment Management asset guidance, ending the period with ~47% Equities, ~26% Fixed Income, ~25% Alternatives and the remainder in cash.

James Mee Fund Manager

FUND MANAGERS REPORTS *CONTINUED*

15. Multi-Asset Defensive Fund

Performance

The Waverton Multi-Asset Defensive Fund (the "Fund") returned 7.28% (net of fees) for the Sterling P share class over the twelve-month period ending 30 April 2024 (note, inception of Fund was 14 November 2023). This compares with 1.66% on the official benchmark, UK CPI +2.0%.

Review

Equities delivered the bulk of the performance (+4.7%), Fixed Income (+1.1%) and Alternatives (+1.1%). Stand out individual contribution came from the Waverton Sterling Bond Fund (+2.8%), Waverton Global Strategic Bond Fund (+4%) and the trend following Montlake Dunn Fund (+12.7%). The Bond Funds have benefited from the decline in yields since the Fund's launch in November. Montlake Dunn has shown strength amidst the trending markets observed, and the fund continues to offer appealing performance and diversification advantages. Top performing Equities included Hitachi (+39%), American Express (+49%) and GE Aerospace (+63%). Hitachi has shown strength following its reorganisation aimed at structural growth and a focus on shareholder returns. Over time, the conglomerate discount is expected to narrow, supported by its leading position in digital solutions and energy.

American Express has produced solid earnings growth, as it continues to benefit from the structural shift from cash to card payments, whilst offering cardholders attractive value through reward schemes. Revenues over the period were supported by strong consumer spending both in the US and internationally. GE Aerospace (formerly General Electric) was a well-timed addition to the Fund in January, and started strongly as a standalone aerospace business following the Vernova spin-off, losing its conglomerate tag. Its core commercial aircraft engine market is highly attractive given the long-term structural growth, high barriers to entry and multi-year visibility from their order book.

Detractors included investment trusts PRS REIT (-7.4%), Supermarket Income REIT (-7.8%) and HICL Infrastructure (-7.1%). Investment trusts in general have come under extreme pressure due to various factors, such as asset allocation shifts towards traditional fixed income and multi-manager selling pressures. Whilst there has been some NAV weakness over the course of the year as valuers take account of the higher cost of capital, income / rental growth has been strong which has helped to offset. Additionally, many vehicles continue to prove the robustness of their NAVs by selling assets at a premium, with HICL Infrastructure as an example. They sold Northway Parkway (4% of NAV), at a c.30% carrying value to its last valuation in March. We continue to

see considerable value within the asset class on a 3-5 year time horizon and throughout the period, we have actively engaged with investment companies chairs to ensure boards are acting in shareholder interests in effectively monitoring the investment advisor activities, in conjunction with a clear roadmap to closing discounts.

Outlook

We continue to see a mixed economic picture – the manufacturing and services sub-economies are dancing to different tunes. However, while the consumer has been well-supported by post-pandemic savings and rising nominal and real incomes (particularly in the US), the employment market is looking less rosy than it did twelve months ago, and the impact of high interest rates is cumulative: the longer economies live with higher rates, the more significant the impact. We continue to follow Waverton Investment Management asset guidance, ending the period with ~35% Equities, ~33% Fixed Income, ~30% Alternatives and the remainder in cash.

James Mee Fund Manager

FUND MANAGERS REPORTS *CONTINUED*

16. Multi-Asset Growth Fund (€ Denominated)

Performance

The Waverton Multi-Asset Growth Fund (€ Denominated) (the "Fund") returned 14.10% (net of fees) for the Euro B share class over the twelve-month period ending 30 April 2024 (note, inception of Fund was 20 November 2023). This compares with 2.16% on the official benchmark, Eurozone CPI +3.5%.

Review

Equities delivered the bulk of the performance over the period (+12.3%), Fixed Income (+0.8%) and Alternatives (+0.6%). Stand out individual performance came from Hitachi (+38.3%), American Express (+46.7%) and GE Aerospace (+61.1%). Hitachi has shown strength following its reorganisation aimed at structural growth and a focus on shareholder returns. Over time, the conglomerate discount is expected to narrow, supported by its leading position in digital solutions and energy. American Express has produced solid earnings growth, as it continues to benefit from the structural shift from cash to card payments, whilst offering cardholders attractive value through reward schemes. Revenues over the period were supported by strong consumer spending both in the US and internationally. GE Aerospace (formerly General Electric) was a well-timed addition to the fund in January

and started strongly as a standalone aerospace business following the Vernova spin-off, losing its conglomerate tag. Its core commercial aircraft engine market is highly attractive given the long-term structural growth, high barriers to entry and multi-year visibility from their order book.

United Health (-7.1%) was a detractor, as it has faced headwinds following an announcement from the Department of Justice, who are launching an investigation to understand the possible effects of the relationship between UnitedHealth (their insurance unit) and Optum (their health services arm). Other detractors included KDDI Corporation (-2.5%), which has subsequently been sold from the Fund, following management's decision to buy convenience store Lawson, raising concerns over their capital allocation policy.

Outlook

We continue to see a mixed economic picture – the manufacturing and services sub-economies are dancing to different tunes. However, while the consumer has been well-supported by post-pandemic savings and rising nominal and real incomes (particularly in the US), the employment market is looking less rosy than it did twelve months ago, and the impact of high interest rates is cumulative: the longer economies live with higher rates, the more significant the impact. We continue to follow Waverton Investment Management asset guidance,

ending the period with ~77% Equities, ~13% Fixed Income, ~7% Alternatives and the remainder in cash.

James Mee Fund Manager

DIRECTORS' REPORT

CACEIS Investor Services Ireland Limited, (the "Administrator") determines the net asset value per share of each class of each Fund on each Dealing Day. The valuation point is 12 noon (Irish time) on each dealing day (except for the last dealing day of each calendar quarter when assets are valued at the close of the regular trading session of the London Stock Exchange and securities traded on the London Stock Exchange will be valued using post-auction prices, or such other time as the directors of the Company may decide and notify to its shareholders).

The most recent Prospectus of the Company is dated 8 November 2023.

Other information

The annual report and audited financial statements and the condensed interim financial statements will be made available to Shareholders by placing a copy of such document on the website of the Company (or alternatively by sending to the Shareholder by post, by electronic mail or any other means of electronic communication on request). The Directors submit this report together with the audited financial statements for the financial year ended 30 April 2024.

Directors' responsibilities

Irish company law requires the Directors to prepare financial statements for each financial year. The financial statements are prepared in accordance with the financial reporting standards issued by the Financial Reporting Council and promulgated by the Chartered Accountants Ireland including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland".

Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the result of the Company for the financial

year and otherwise comply with the Companies Act 2014.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the company or to cease the operations, or have no realistic alternative but to do so.

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and result of the Company to be determined with reasonable accuracy, ensure that the financial statements and Directors' Report comply with the Companies Act 2014 and with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (together the "UCITS Regulations") and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Accounting records

To ensure that adequate accounting records are kept in accordance with Section 281 to 285 of the Companies Act 2014, the Directors of the Company have employed a service provider, CACEIS Investor Services Ireland Limited. The books of account are located at the offices of the Administrator at 4th Floor, One George's Quay Plaza, George's Quay, Dublin 2.

Principal activities

The Company is organised as an investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014, and the UCITS Regulations. The Company is organised in the form of an umbrella fund with segregated liability between the Funds.

Statement of audit information

The Directors confirm that during the financial year ended 30 April 2024:

- a) So far as the Directors are aware, there is no relevant audit information of which the Company's statutory auditors are unaware, and
- b) The Directors have taken all steps that ought to have been taken by the Directors in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information in accordance with S332 of the Companies Acts 2014.

Significant events during the financial year

Please see Note 18.

Significant events post financial year end

Please see Note 19.

DIRECTORS' REPORT CONTINUED

Review of the business and future developments

The business of the Company is reviewed in detail in the Investment Manager's reports. The Company is to continue to act as an investment vehicle as set out in its Prospectus.

Principal risks and uncertainties

The Directors are responsible for management of risk. The Company has a Risk Management Policy which defines the Board's approach to risk appetite, risk tolerance and culture. The Risk Management Policy identifies the major risks to the Company and the Sub Funds. The Company, having identified the major risks, makes informed decisions on how to respond, mitigate, monitor and control these risks. The risk management and compliance units within the Investment Manager and the Manager, which are independent of the portfolio managers, monitor and report on the risks identified to each board meeting. A detailed analysis of the financial risks of the Company and how these are managed are set out in Note 11 to the financial statements.

Results and dividends

The results for the financial year are stated on Statement of Financial Position, Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares. Particulars relating to the issue and redemption of units of redeemable Shares are set out in Note 2, "Share Capital" of the financial statements. Distributions are set out in Note 16 "Distributions".

Manager

The Manager is responsible for monitoring the below managerial functions:

- Operational Risk Management - Monitoring of delegates so that there are appropriate and effective operational risk procedures in place at the delegates.

- Fund Risk Management - Monitoring through the delegates that the Funds risks are identified and managed.
- Investment Management - Monitoring that the Investment Manager is in compliance with the approved investment approach and on an ongoing basis monitoring the investment process and performance.
- Capital and Financial Management - Monitors that relevant accounting records are properly maintained and that the assets and liabilities of the Funds are valued appropriately. The Manager also ensures it is appropriately capitalised at all times.
- Regulatory Compliance - Monitors that the Funds are in compliance with regulatory obligations.
- Distribution - Monitors the approved distribution.

Directors

The names of the Directors of the Company during the financial year are set out below (* Independent):

Mrs. Samantha McConnell*
Mrs. Louise McMorro*
Mr. John McClintock*
Mr. Eanna McHugh*
Mr. Marc Geduldt
Mr. Michael Allen

¹ See Note 18 for further details.

Directors' & related parties' interests

Details of Directors' and related parties' interests as at 30 April 2024 and 30 April 2023 are listed in Note 17 of the financial statements.

Connected persons

The Manager is satisfied that: (i) there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in the Central Bank's UCITS Regulations 43 (i) are applied to all transactions with connected persons; and (ii) transactions with connected persons entered into during the financial year complied with the obligations

set out in the Central Bank's UCITS Regulations 43 (2).

Any transactions carried out with a Fund by connected persons will be carried out as if effected on normal commercial terms conducted at arm's length. Transactions must be in the best interests of the relevant Shareholder.

The Manager confirms they have complied with the above requirements during the financial year.

Auditors

The auditors, Grant Thornton, have indicated their willingness to continue in office in accordance with section 383(2) of the Companies Act 2014.

Corporate governance code

The Directors have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies published by Irish Funds ("IF") in December 2011 (the "Code"). The Directors adopted all corporate governance practices and procedures in the Code.

Directors compliance statement

Each of the persons who are Directors at the time when this Directors' Report is approved acknowledge that they are responsible for securing the Company's compliance with its relevant obligations.

To ensure that the Company has achieved material compliance with its relevant obligations, the Directors confirm that they have:

- a. Drawn up a compliance policy statement that sets out the Company's policies respecting compliance by the Company with its relevant obligations;
- b. Put in place appropriate arrangements or structures that are designed to secure material compliance with the Company's relevant obligations; and

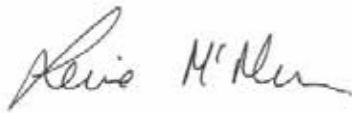

Financial statements

DIRECTORS' REPORT *CONTINUED*

- c. Conducted an annual review during the financial year of any arrangements or structures referred to in (b) that have been put into place.

Audit committee

The Company has not established an audit committee within the meaning of Section 167 of the Companies Act 2014. Given the internal organisation of the Company, the nature, scope and complexity of the Company's activities and the existing processes and procedures adopted by the Company (including, without limitation, the establishment of a committee responsible for supporting the Board in relation to the review of financial statements and cooperation with the external auditors of the Company), the Board does not consider that an audit committee within the meaning of Section 167 of the Companies Act 2014 is required.

**Report of the Depositary to the Shareholders
For the year ended 30 April 2024**

As required by the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) ("the Regulations") and solely within the context of our oversight duties as depositary, we are pleased to present our report as follows.

In our opinion, Waverton Investment Funds plc (the "Company") has been managed for the year ended 30 April 2024:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association and the Regulations; and
- (ii) Otherwise in accordance with the provisions of the Memorandum & Articles of Association and the Regulations.

Independent Auditor's Report to the Members of Waverton Investment Funds Plc

Opinion

We have audited the financial statements of Waverton Investment Funds Plc (the "Company"), which comprise the Statement of Financial Position and the Portfolio of Investments as at 30 April 2024 and the Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares for the financial year ended 30 April 2024, and the related notes to the financial statements, including the summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (Generally Accepted Accounting Practice in Ireland).

In our opinion, the Company's financial statements:

- give a true and fair view in accordance with Generally Accepted Accounting Practice in Ireland of the assets, liabilities and financial position of the Company as at 30 April 2024 and of financial performance for the financial year then ended; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law. Our responsibilities under those standards are further described in the 'Responsibilities of the auditor for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the entity. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Board of Directors (or the "Directors") use of going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Independent Auditor's Report to the Members of Waverton Investment Funds Plc (continued)

Other information

Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon, including the Fund Managers Reports, Background of the Company, Directors' Report, Report of the Depositary to the Shareholders, Top 5 Investments and Portfolio of Investments, Statements of Changes in Composition of Portfolio (unaudited) and the unaudited appendices. The Directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies in the financial statements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations, which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the Directors' report is consistent with the financial statements. Based solely on the work undertaken in the course of our audit, in our opinion, the Directors' report has been prepared in accordance with the requirements of the Companies Act 2014.

Matters on which we are required to report by exception

Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' report.

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of Directors' remuneration and transactions specified by sections 305 to 312 of the Act have not been made. We have no

Responsibilities of those charged with governance for the financial statements

As explained more fully in the Directors' Report, the Directors are responsible for the preparation of the financial statements which give a true and fair view in accordance with Generally Accepted Accounting Practice in Ireland, including FRS 102, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Report to the Members of Waverton Investment Funds Plc (continued)

Responsibilities of those charged with governance for the financial statements (continued)

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the Company's financial reporting process.

Responsibilities of the auditor for the audit of the financial statements

The auditor's objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes their opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (Ireland), the auditor will exercise professional judgment and maintain professional scepticism throughout the audit. The auditor will also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for their opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If they conclude that a material uncertainty exists, they are required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify their opinion. Their conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.

The auditor communicates with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that may be identified during the audit.

Independent Auditor's Report to the Members of Waverton Investment Funds Plc (continued)

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS

I. Accounting policies

The significant accounting policies and estimation techniques adopted by the Company are as follows:

Basis of presentation of financial statements

The financial statements are prepared in accordance with Financial Reporting Standard 102 ("FRS 102") applicable in the UK and Republic of Ireland and Irish Statute comprising the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (together the "UCITS Regulations").

The format and certain wordings of the financial statements have been adapted from those contained in the Companies Act 2014 so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an investment fund.

Under FRS 102 Section 7.1A 'Statement of Cash Flows', the Company has availed of the exemption available to open-ended investment funds and not prepared a cash flow statement as it meets the following criteria;

- (i) substantially all of the Company's investments are highly liquid;
- (ii) substantially all of the Company's investments are carried at fair value; and
- (iii) the Company provides a statement of changes in net assets.

The financial statements have been prepared on a going concern basis.

Historical cost convention

The financial statements are prepared under the historical cost convention as modified to include investments at fair value through profit or loss.

Financial assets at fair value through profit or loss

Valuation

Financial assets at fair value through profit or loss as current assets are stated at mid-market price at 12 noon (Irish time) on each Dealing Day except for the last Dealing Day of each calendar quarter in the Statement of Financial Position. This is in accordance with the Prospectus where the mid-market price at 12 noon (Irish time) on each Dealing Day except for the last Dealing Day of each calendar quarter, are incorporated into the Dealing NAV. Unrealised gains and losses arising from the

financial statements valuation are recorded in the Statement of Comprehensive Income and represent the difference between Fair Value and the cost of the investments. Under FRS 102, the best evidence of fair value is a quoted price for an identical asset in an active market. Usually the current bid price. A reconciliation between the net asset value as per the Financial Statements and the published net asset value can be seen in Note 12 "Net Asset Comparison".

Each security, which is listed or traded on a regulated market, is valued on the regulated market, which is normally the principal market for such security. For the ongoing valuations (i.e. valuations for the purpose of the calculation of the net asset value of the relevant Fund), the valuation is carried out by reference to the noon mid-market quotation on that regulated market. In the event that any investment is not listed or traded on any regulated market, such security is valued at the probable realisation value determined with care and in good faith by a competent person (which may be the Investment Manager) approved by CACEIS Investor Services Bank S.A. (Dublin Branch) (the "Depositary") as a competent person for such purpose in consultation with the Investment Manager. Such probable realisation value is determined: (i) by using the original purchase price; (ii) where there have been subsequent trades with substantial volumes, by using the latest trade price provided that the Administrator, in consultation with the Investment Manager, considers such trades to be at arm's length; (iii) where the Investment Manager believes the investment has suffered a diminution in value, by using the original purchase price that shall be discounted to reflect such a diminution; or (iv) if the Administrator in consultation with the Investment Manager believes a mid-quotation from brokers is reliable, by using such mid quotation or, if unavailable, a bid quotation. Due to the nature of such unquoted securities and the difficulty in obtaining a valuation from other sources, such competent professional may be related to the Investment Manager.

Valuations of unquoted securities in the Asia Pacific Fund amounted to USD Nil at 30 April 2024 (30 April 2023: USD Nil), Multi-Asset Income Fund amounted to GBP 253,721 at 30 April 2024 (30 April 2023: GBP 482,704) and Real Assets Fund amounted to GBP 1,583,218 at 30 April 2024 (30 April 2023: GBP 3,012,071). There were no other unquoted investments across the other funds.

Investments in an investment fund are valued on the basis of the latest available net asset value relevant to the investment fund. Certain Funds may invest in one or more investment funds. As a shareholder of another investment fund, a Fund would bear, along with other shareholders, its pro rata portion of the expenses of other investment funds, including management and/or other fees. These fees would be in

NOTES TO THE FINANCIAL STATEMENTS CONTINUED

addition to the management fees and other expenses which a Fund bears directly in connection with its own operations.

Exchange-traded derivative instruments, including futures, are valued as at the valuation point of the regular trading session of the London Stock Exchange on the Dealing Day at the settlement price for such instruments on the relevant exchange. If the settlement price of an exchange-traded derivative instrument is not available, the value of such instrument shall be the probable realisation value estimated with care and in good faith by a competent professional (which may be the Investment Manager) appointed by the Directors approved for that purpose by the Depositary in consultation with the Investment Manager. No such valuations were required at 30 April 2024 or 30 April 2023. Over-the-counter derivative instruments are valued as at 12.00 noon (Irish Time) of the regular trading session of the London Stock Exchange on the Dealing Day at the settlement price provided by the counterparty to such transactions daily.

Forward foreign exchange contracts are valued at the Valuation Point by reference to the prevailing market quotations, namely the price at which a new forward contract of the same size and maturity could be undertaken, or, if unavailable, at the settlement price as provided by the counterparty daily. The valuations of those securities which are valued at settlement price are verified at least weekly by an independent person approved for that purpose by the Depositary, who may be the Investment Manager.

The unrealised appreciation or depreciation on open forward foreign exchange contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Realised gains or losses include net gains on contracts, which have been settled or offset by other contracts. As at 30 April 2024, Company held forward currency contracts for all the Funds except UK Fund and Multi-Assets Growth Fund (€ Denominated). As at 30 April 2023, the Company held forward currency contracts for all the Funds.

For open futures contracts, changes in the fair value of the contract are recognised as unrealised appreciation or depreciation by "marking-to-market" the value of the contract at the Statement of Financial Position date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realised gain or loss. Futures contracts are held at fair value through profit or loss. Gains and losses arising from changes in the fair value of the futures contracts are included in the Statement of Comprehensive Income in the financial year in which they arise. As at 30 April 2024, the Company held futures for the Sterling Bond Fund, Global Strategic Bond Fund and Multi-Asset Income Fund. As at 30 April 2023, the

Company held futures for the Sterling Bond Fund, Global Strategic Bond Fund, Absolute Return Fund and Multi-Asset Income Fund.

Options held at fair value though profit or loss are fair valued daily based upon the quotation provided by counterparty on the principal exchange on which the option is traded. Realised and unrealised gains and losses arising from option contracts are included in the Statement of Comprehensive Income in the financial year in which they arise. As at 30 April 2024, the Company held options for the Sterling Bond Fund, Global Strategic Bond Fund, Absolute Return Fund and Multi-Asset Income Fund. As at 30 April 2023, the Company held options for the Sterling Bond Fund, Global Strategic Bond Fund and Multi-Asset Income Fund.

Measurement and recognition

The Company has elected to apply the recognition and measurement provisions of IFRS 9 Financial Instruments ("IFRS 9").

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Financial instruments categorised at fair value through profit or loss are measured initially at fair value, with transaction costs for such instruments being expensed immediately in the Statement of Comprehensive Income.

Financial assets and liabilities not at fair value through profit or loss are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition or issue.

Classification

The Company classifies its investment based on the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets, in accordance with IFRS 9. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Equity, bond and derivative instruments are measured at fair value through profit or loss unless, for equity and bond instruments not held for trading, an irrevocable option is taken to measure at fair value through other comprehensive income.

Subsequent measurement

After initial measurement, the Company measures financial instruments, which are classified as at fair value through profit or loss, at their fair values.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

I. Accounting policies (continued) Subsequent measurement (continued)

Subsequent changes in the fair value of financial instruments at fair value through profit or loss are recognised in the Statement of Comprehensive Income.

All investments in the Company's portfolios as at 30 April 2024 and 30 April 2023 were recorded at the fair value.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or the Company has transferred substantially all the risk and rewards of ownership and the transfer qualifies for derecognition in accordance with IFRS 9. The Company derecognises a financial liability when the obligation specified in the contract is discharged, cancelled or expires.

Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. There were no netting arrangements in place for the year ended 30 April 2024.

Cash and other liquid assets

Cash and other liquid assets are valued at their face value with interest accrued (if any) as at the valuation point.

Cash and cash equivalents include cash on hand, cash held as margin, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. In the statement of financial position, bank overdrafts are shown within current liabilities. Details sets out in note 11.

Investment transactions

Investment transactions are accounted for as of the date they are purchased or sold. During the financial years ended 30 April 2024 and 30 April 2023, realised gains and losses on the sale of investments are calculated using the weighted average cost method. Realised gains and losses on investment transactions are recorded in the Statement of Comprehensive Income.

Investment income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Bank interest income is accounted for on an accrued interest basis. Bond interest income is accrued daily on an effective yield basis. Income is shown gross of non-recoverable withholding tax, which is disclosed separately in the Statement of Comprehensive Income. The Company may benefit from a reduction in the rate of withholding tax by virtue of the double taxation agreements in operation

between Ireland and other countries. Consequently, the Company may be able to reclaim withholding tax suffered by it in particular countries. Withholding tax reclaims are accounted for on a cash receipts basis in the Statement of Comprehensive Income.

Distribution policy

The Company will declare dividends semi-annually on 30 April and 31 October in each financial year in respect of the following:

- Waverton Global Equity Fund
- Waverton Asia Pacific Fund
- Waverton UK Fund
- Waverton Strategic Equity Fund
- Waverton Absolute Return Fund

The Company will declare dividends quarterly on 31 January, 30 April, 31 July and 31 October in each financial year in respect of the following:

- Waverton Global Strategic Bond Fund
- Waverton Sterling Bond Fund
- Waverton Multi-Asset Income Fund
- Waverton Real Assets Fund
- Waverton Multi-Asset Growth Fund
- Waverton Multi-Asset Balanced Fund
- Waverton Multi-Asset Cautious Fund
- Waverton Multi-Asset Defensive Fund
- Waverton Multi-Asset Growth Fund (€ Denominated)

The Company will declare dividends semi-annually on 30 June and 31 December in each financial year in respect of the following:

- Waverton European Dividend Growth Fund

The Company will declare dividends annually on 30 April in each financial year in respect of the following:

- Waverton European Capital Growth Fund

It is proposed that dividends will not be declared in respect of the following:

- Class B US\$ Acc Shares and Class B Stg£ Acc Shares of the Global Equity Fund.
- Class I Euro Acc Shares of the Global Strategic Bond Fund.
- Class P Stg£ Acc Shares of Waverton Multi-Asset Income Fund.
- Class P Stg£ Acc Shares of Waverton Multi-Asset Growth Fund.

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

- Class P Stg£ Acc Shares of Waverton Real Assets Fund.
- Class I US\$ Acc Shares of Waverton European Capital Growth Fund.
- Class P Stg£ Acc Shares of Waverton Multi-Asset Balanced Fund.
- Class P Stg£ Acc Shares of Waverton Multi-Asset Cautious Fund.
- Class P Stg£ Acc Shares of Waverton Multi-Asset Defensive Fund.
- Class B Euro Acc Shares of Waverton Multi-Asset Growth Fund (€ Denominated).

Instead, any net investment income and realised and unrealised capital gains net of realised and unrealised capital losses attributable to each of these classes will be accumulated in net asset value per share of the relevant class and will be invested in accordance with the investment objective and policies of the relevant Fund. Shareholders should note that, in the case of Funds for which a performance fee may be charged as follows: (1) any performance fee is charged to capital of the relevant Fund; and (2) for those Classes of Shares identified in the column of the table in Schedule IV of the Prospectus headed "Fees and Expenses Charged to Income or Capital" as "Capital", 100% of the management fees, Administration fees, Depositary fees, operational expenses and borrowing expenses, where applicable is charged to capital of the relevant Fund for the purposes of the distribution calculation. Details of distributions made are included in Note 16.

Foreign exchange translation

Functional and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which each Fund operates (the "Functional Currency"). The Functional Currency is: Sterling ("GBP") for the Global Equity Fund, the UK Fund, the Sterling Bond Fund, the Strategic Equity Fund, the Absolute Return Fund, the Multi-Asset Income Fund, the Multi-Asset Growth Fund, the Real Assets Fund, the European Dividend Growth Fund, the Multi-Asset Balanced Fund, the Multi-Asset Cautious Fund and the Multi-Asset Defensive Fund; U.S. Dollar ("USD") for the Asia Pacific Fund and the Global Strategic Bond Fund; Euro ("EUR") for the European Capital Growth Fund and the Multi-Asset Growth Fund (€ Denominated). The presentation currency for financial statement purposes of each Fund is their Functional Currency. The Company has adopted EUR as its Functional Currency for the Company as a whole.

Transactions and balances

Assets and liabilities denominated in foreign currencies are translated into the Functional Currency of each Fund at the exchange rates ruling at the Statements of Financial Position date. Transactions in foreign currencies are translated into the

Functional Currency of each Fund at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the financial year. The Company's results and financial position are translated from the Funds' Functional Currency to EUR as follows: Assets and Liabilities, including Net Assets Attributable to Holders of Redeemable Shares are translated at the closing rate at each Statement of Financial Position date. Income and expenses for each Statement of Comprehensive Income are translated at the average exchange rate for the financial year. Notional Exchange gains or losses due to the presentation of these financial statements in EUR are included in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares.

Transaction costs

Transaction costs are accounted for as of the date securities are purchased or sold and are included in the Statement of Comprehensive Income as required by FRS 102.

Transaction costs include fees and commissions paid to agents (including employees acting as selling agents), advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative costs. For trades on bonds, the commissions are wrapped up in the price so we are unable to split out the transaction costs.

Operating expenses

The Company pays out of the assets of each of the Funds all normal operating expenses including depositary fees, administration fees, Investment Manager fees, Manager fees, Directors' remuneration, NAV publication and circulation fees, audit and other professional fees and stamp duties and charges incurred on the acquisition and realisation of investments. Performance fees are being paid out of the assets of designated Funds. Such costs are expensed in the financial year to which they relate. Any umbrella level expenses will be pro rated across the sub funds.

The expenses relating to the establishment of Waverton Multi-Asset Balanced Fund, Waverton Multi-Asset Cautious Fund, Waverton Multi-Asset Defensive Fund, and Waverton Multi-Asset Growth Fund (€ Denominated) are not expected to exceed £35,000 in respect of each Fund. In each case, the allocable share of these expenses for each Fund will be amortised over the first five years of the operation of the relevant Fund or such shorter period as may be determined by the Directors.

All operating expenses are recognised in the Statement of Comprehensive Income on an accruals basis except Fees and Expenses charged to Capital.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

I. Accounting policies (continued)

Income equalisation

It is intended that all Funds will operate income equalisation. Income equalisation prevents the dilution of current shareholders' earnings by applying a portion of the proceeds from Shares issued or redeemed to undistributed income. When Shares are purchased or redeemed the price may include an element of income. Equalisation is this element of income paid out to shareholders who have purchased or redeemed during this period.

Receivables from investments sold and payables for investments purchased

Receivables from investments sold represent receivables for securities sold that have been contracted for but not yet settled or delivered on the reporting date. These amounts are recognised at cost and include all transaction costs and commissions due in relation to the trade. Payables for investments purchased represent payables for securities purchased that have been contracted for but not yet settled or delivered at the reporting date. These amounts are recognised at cost and include all transaction costs and commissions due in relation to the trade.

Receivables from subscriptions due and payables for redemptions due

Receivables from subscriptions due represent the amounts due from investors for subscriptions that have been contracted for but not yet received and therefore are shown as a receivable at the financial year end. Payables for redemptions due represent amounts due to investors for redemptions that have been contracted for but not yet paid and therefore are shown as a payable at the financial year end.

Swing pricing

In calculating the Net Asset Value per Share for a Fund on any Dealing Day, the Directors may, at their discretion, adjust the Net Asset Value per Share and/or initial subscription price per Share for each Class by applying a dilution adjustment: (1) if the cash-flows into or out of the Fund attributable to net subscriptions or repurchases exceed certain pre-determined percentage thresholds relating to the Fund's Net Asset Value (where such percentage thresholds have been pre-determined for the Fund from time to time by the Directors or by a committee established by the Directors); or (2) in any other cases where there are net subscriptions or repurchases in the Fund and the Directors reasonably believe that imposing a dilution adjustment is in the best interests of existing Shareholders. The Directors' intention is only to exercise this discretion to cover dealing costs and to preserve the value of the Fund's assets. In this regard, the Directors, with the approval of the Depositary, may adjust the value of

an asset or a basket of assets comprising all or part of an in specie subscription or repurchase where such an adjustment is considered necessary to track the dilution adjustment applied to the Net Asset Value per Share. It is expected that the adjustment factor applied to the in specie subscription or repurchase would match that applied to the Net Asset Value per Share.

The dilution adjustment amount for a Fund will be calculated from time to time and applied by reference to the spread costs and actual charges incurred in dealing in the underlying investments of the Fund. Where there are net cash-flows into the Fund in excess of the applicable pre-determined threshold (if any), the dilution adjustment will increase the Net Asset Value per Share. Where there are net cash-flows out of the Fund in excess of the applicable pre-determined threshold (if any), the dilution adjustment will decrease the Net Asset Value per Share and/or initial subscription price per Share. The Net Asset Value per Share and/or initial subscription price per Share, as adjusted by any dilution adjustment, will be applicable to all transactions in Shares in the Fund on the relevant Dealing Day. Therefore, for an investor who subscribes to the Fund on a Dealing Day when the dilution adjustment increases the Net Asset Value per Share and/or initial subscription price per Share, the cost per Share to the investor will be greater than it would have been absent the dilution adjustment. For an investor who repurchases a certain number of Shares from the Fund on a Dealing Day when the dilution adjustment decreases the Net Asset Value per Share, the amount received by the investor in repurchase proceeds for the Share redeemed will be less than it would have been absent the dilution adjustment. More information about the dilution adjustments applied on a particular Dealing Day can be obtained by Shareholders upon request from the Investment Manager.

As of 30 April 2024, there were no Net Asset Value adjustments for swing pricing (As of 30 April 2023: none).

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

2. Share capital

Authorised

The Company is authorised to issue up to 500 billion Shares of no par value.

Subscriber shares

The share capital of the Company shall at all times equal the Net Asset Value of the Company. The Directors are empowered to issue up to five hundred billion Shares of no par value in the Company at the Net Asset Value per Share on such terms as they may think fit. There are no rights of pre-emption upon the issue of Shares in the Company. As of the date of this document the Company has issued Subscriber Shares to the value of EUR 2. The Subscriber Shares do not participate in the assets of any Fund. The Company reserves the right to redeem some or all of the Subscriber Shares provided that the Company at all times has a minimum issued share capital to the value of EUR 300,000.

Each of the Shares entitles the holder to attend and vote at meetings of the Company and of the Fund represented by those Shares. No Class of Shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other Class of Shares or any voting rights in relation to matters relating solely to any other Class of Shares.

Any resolution to alter the Class rights of the Shares requires the approval of three quarters of the holders of the Shares represented or present and voting at a general meeting duly convened in accordance with the Articles of Association.

The Articles of Association of the Company empower the Directors to issue fractional Shares in the Company. Fractional Shares may be issued and shall not carry any voting rights at general meetings of the Company or of any Fund or Class and the net asset value of any fractional Share is the net asset value per Share adjusted in proportion to the fraction.

The Subscriber Shares entitle the Shareholders holding them to attend and vote at all meetings of the Company, but do not entitle the holders to participate in the dividends or net assets of any Fund or of the Company.

The Company issues redeemable shares, which can be put back to the Company at any time for cash equal to a proportionate share of the net asset value per share of the relevant Fund. This redeemable share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the Company at that date.

Investment management fees

The Company and Bridge Fund Management Limited have entered into an investment management agreement with Waverton

Investment Management Limited (the "Investment Manager"), pursuant to which the Investment Manager manages the Company's investments on a discretionary basis. The Investment Manager is a company incorporated under the laws of England and Wales and regulated by the Financial Conduct Authority ("FCA"). The Investment Manager is entitled to receive an investment management fee from the Company.

This fee is calculated and accrued on each Dealing Day and paid quarterly in arrears from the Net asset value of each Class of the respective Funds at the following rates. There are no investment management fees applicable for the Class A US\$ (on the Strategic Equity Fund) or Class M share classes in any of the Funds.

Under the Investment Management Agreement, the Company will pay to the Investment Manager a fee at the aggregate annual rate by each Fund as follows:

* Strategic Equity Fund A has 1.00% on the A Stg£ class and 0% on the A US\$ class.

In addition, the Investment Manager is entitled to be reimbursed its reasonable vouched out-of-pocket expenses. Each Fund bears pro rata its share of such out-of-pocket expenses.

It should be noted that the Investment Manager shall waive any subscription or redemption charges payable upon subscription for shares in underlying collective investment schemes that are managed by the Investment Manager. Where a commission is received by the Investment Manager by virtue of an investment in the shares in underlying collective investment schemes that commission shall be paid into the property of the Funds, as appropriate. The Fund will receive a rebate of any management fees paid to the Investment Manager in respect of any underlying collective investment scheme managed by the Investment Manager so that there is no duplication of management fees.

Details of fees payable to the Investment Manager as at 30 April 2024 and 30 April 2023 are included in the Statement of Financial Position and fees charged by the Investment Manager during the financial year ended 30 April 2024 and 30 April 2023 are included in the Statement of Comprehensive Income.

Expense Cap on European Capital Growth Fund, Multi-Asset Growth Fund, Multi-Asset Defensive Fund, Multi-Asset Cautious Fund, Multi-Asset Balanced Fund and Multi-Asset Growth Fund (€ Denominated)

The Investment Manager has voluntarily agreed to cap the total annual fees of their Net Asset Value and expenses as follows:

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

- Class S Shares of Waverton European Capital Growth Fund up to 0.65% of their Net Asset Value.
- The Class A Shares of Waverton Multi-Asset Defensive Fund, Waverton Multi-Asset Cautious Fund and Waverton Multi-Asset Balanced Fund up to 1.35% of their Net Asset Value.
- The Class B Shares of Waverton Multi-Asset Defensive Fund, Waverton Multi-Asset Cautious Fund and Waverton Multi-Asset Balanced Fund up to 1.10% of their Net Asset Value.
- The Class P Shares of Waverton Multi-Asset Defensive Fund, Waverton Multi-Asset Cautious Fund and Waverton Multi-Asset Balanced Fund up to 0.75% of their Net Asset Value.
- The Class M Shares of Waverton Multi-Asset Defensive Fund, Waverton Multi-Asset Cautious Fund and Waverton Multi-Asset Balanced Fund up to 0.35% of their Net Asset Value.
- The Class S Shares of Waverton Multi-Asset Growth Fund up to 0.95% of their Net Asset Value.

The Investment Manager may modify or terminate this arrangement at any time upon notice to Shareholders.

This expense cap covers all costs and expenses connected with the operating activities of the Funds, including the Investment Management Fee, administration, registration, transfer agency, depositary and trustee fees, and other operating expenses.

The expense cap does not cover: such non-recurring and extraordinary or exceptional costs and expenses (if any) as may arise from time to time; withholding taxes that may be deducted from interest; stamp duties or other documentary transfer taxes, or similar duties; and investment expenses arising with respect to the purchase or sale of securities by the Funds. The Investment Manager will absorb (directly or by way of a refund to the Funds) any difference that may arise between the actual cost of operations of the Funds and the relevant expense cap.

Details of amounts receivable from the Investment Manager and amounts payable to the Investment Manager as at 30 April 2024 and 30 April 2023 are included in the Statement of Financial Position. The Investment Manager Subsidy amounts during the financial year ended 30 April 2024 and 30 April 2023 are shown in the Statement of Comprehensive Income.

Management fees

The Company's manager, Bridge Fund Management Limited (the "Manager") will receive a management fee out of the assets of the Fund of either up to 2 basis points per annum of the Net Asset Value of the Fund or an annual minimum fee of €60,000 per annum, whichever is higher. The Management

Fee shall accrue on each Dealing Day and is payable monthly in arrears. The Management Fee may be waived or reduced by the Manager. The Manager shall be entitled to be reimbursed by the Company for all reasonable out of pocket expenses properly incurred.

Details of fees payable to the Manager as at 30 April 2024 and 30 April 2023 are included in the Statement of Financial Position and fees charged by the Manager during the financial year ended 30 April 2024 and 30 April 2023 are included in the Statement of Comprehensive Income.

Performance fee

The Investment Manager may receive a performance fee based on its investment management performance during a performance period ("Performance Period"). A Performance Period shall: (i) in the case of the first Performance Period, commence upon the close of the Initial Offer Period and end on the next following 31 December; and (ii) thereafter shall commence on the day immediately following the end of the prior Performance Period and shall end on the next following 31 December.

In the case of the Class A Stg£, Class A US\$ and Class B US\$ in Waverton Global Strategic Bond Fund, a performance fee shall be payable to the Investment Manager when: (i) the increase in the Net Asset Value per Share of the relevant Class of a Fund (as denominated in the Base Currency of the Fund to which the Class relates) over a Performance Period is greater than the increase in the Benchmark for that Fund over the same Performance Period; or (ii) when the decrease in the Net Asset Value per Share of the relevant Class of a Fund (as denominated in the Base Currency of the Fund to which the Class relates) over a Performance Period is less than the decrease in the Benchmark for that Fund over the same Performance Period. The performance fee shall be 10 per cent. in respect of Waverton Global Strategic Bond Fund of the amount by which the Net Asset Value per Share before the deduction of performance fees exceeds the Benchmark as aforesaid as at the end of a Performance Period, multiplied by the number of Shares in issue in that Class at the end of the period. The calculation of the performance fee payable shall be based upon the number of Shares in issue in the relevant Class during the Performance Period.

For the purpose of calculating the performance fee at the end of a Performance Period, the Net Asset Value per Share shall be calculated at the relevant Valuation Point. In the case of the first Performance Period, the Initial Offer Price per Share in a Class shall be the base price for the purpose of calculating the performance over the Performance Period.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

3. Significant agreements (continued)
Performance fee (continued)

The Benchmark shall always be denominated in the Base Currency of the relevant Fund. Because the Sterling denominated Class A of Waverton Global Strategic Bond Fund is intended to be fully hedged, the performance fee for this Class will be calculated using the Net Asset Value per Share in Sterling.

The performance fee shall be calculated and accrued on each Dealing Day and paid annually in arrears at the end of a Performance Period. When calculating the performance fee payable, the Net Asset Value will be adjusted, as appropriate, for subscriptions, redemptions, dividends paid and any accruals of performance fee and by the amount, if any, by which the Net Asset Value underperformed the Benchmark in any preceding Performance Period, and to reverse any antidilution adjustments. Any dividends which are to be added back in order to determine the performance fee will be added back as a per Share amount based on the number of Shares in issue when the dividends were paid.

Where a performance fee is payable it will be based on the Net Asset Value of a Class as at the end of each Performance Period. As a result, a performance fee may be paid in respect of unrealised gains, which may subsequently never be realised. Furthermore, because the performance fee is payable on the performance of a Fund relative to a Benchmark (outperformance), a performance fee may be payable in circumstances where the Net Asset Value of a Fund has declined. On the other hand, a prior relative underperformance must be recouped before a performance fee shall again be payable.

The performance fee calculation will be verified by the Depositary. Performance fee worked examples are available from the Administrator and the Investment Manager upon request.

The performance fee applicable to each Fund is set out in that Fund's Prospectus.

Currently, the Global Strategic Bond Fund is the only Fund that is entitled to a performance fee. A performance fee of USD 26,197 was charged during the financial year ended 30 April 2024 (30 April 2023: USD Nil). No performance fee was payable as at 30 April 2024 (30 April 2023: USD Nil).

Administration fees¹

CACEIS Investor Services Ireland Limited (the "Administrator")², is entitled to a fee payable out of the assets of each Fund in relation to the provision of its services as fund accountant, administrator and transfer agent, accruing daily and payable monthly in arrears at the end of each calendar month at a rate of up to 0.4 basis points of the net asset value of each

of the Funds, subject to a minimum annual fee for each Fund, exclusive of out-of-pocket expenses, of EUR 22,000 (which is based on two share classes) per Fund. The Funds shall also be subject to transaction charges, which shall not exceed normal commercial rates. The Administrator shall also be entitled to certain other fees for registrar and transfer agency subject to a minimum annual fee of EUR 24,000 per umbrella, annual financial statements production and other services and to reimbursement of all reasonable out-of-pocket expenses incurred out of the assets of the Fund in respect of which such expenses were incurred.

Administration and fund accounting services fees payable to the Administrator as at 30 April 2024 and 30 April 2023 and expenses incurred during the financial year ended 30 April 2024 and 30 April 2023 are shown on the Statement of Financial Position and Statement of Comprehensive Income, respectively.

¹ CACEIS fees are due to be updated in the prospectus.

² See Note 18 for further details.

Depositary and trustee fees

CACEIS Investor Services Bank S.A., Dublin Branch (the "Depositary")² is entitled to a trustee fee payable out of the assets of each Fund accruing daily and payable monthly in arrears at the end of each calendar month at an annual rate of up to 1.60 basis points of the Net Asset Value of each Fund, subject to a minimum annual fee for each Fund, exclusive of transaction charges and out-of-pocket expenses, of EUR 9,200. The Depositary shall also be entitled to: (a) a cash flow monitoring and reconciliation fee of EUR 4,000 payable by the Company, and reallocated to each Fund on a pro rata basis.

Safekeeping fees based on the market value of the assets of each Fund may also be charged which shall vary from 0.0025% to 0.90% depending on the country in which the security is traded and held. Each Fund shall also be subject to transaction charges, which shall not exceed normal commercial rates. The Depositary shall also be entitled to reimbursement of properly vouched out-of-pocket expenses incurred by the Depositary, or any sub-custodian, out of the assets of the Fund in respect of which such expenses were incurred.

Depositary and trustee fees payable to the Depositary as at 30 April 2024 and 30 April 2023 and expenses incurred during the financial year ended 30 April 2024 and 30 April 2023 are shown on the Statement of Financial Position and Statement of Comprehensive Income, respectively.

¹ CACEIS fees are due to be updated in the prospectus.

² See Note 19 for further details.

4. Directors' remuneration

The total Director Remuneration in any one financial year shall not exceed EUR 200,000. In addition, all of the Directors are entitled to be reimbursed by the Company for reasonable out of pocket expenses. Fees payable to the Directors as at 30 April 2024 and 30 April 2023 and fees charged during the financial year ended 30 April 2024 and 30 April 2023 are shown on the Statement of Financial Position and Statement of Comprehensive Income, respectively. Marc Geduldt and Michael Allen were not paid fees for the financial year ended 30 April 2024 and 30 April 2023.

5. Audit fee

Fees and expenses paid including VAT to our statutory auditors, Grant Thornton, in respect of the financial year are as follows:

	30 APRIL 2023 EUR	30 APRIL 2023 EUR
Audit	166,975	92,575
	166,975	92,575

6. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a chargeable event.

A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight-year period beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

7. Soft commission arrangements

The Investment Manager does not receive or enter into soft commissions arrangements in respect of the Sub -Funds.

Under MiFID II changes implemented in 2018, the Investment Manager ensures all research received is fully accounted for or any costs associated with research received is transparent and disclosed to clients.

Research received under COBS 2.3B (Inducements and research) is paid in full by the Investment Manager. Costs associated with research are not passed onto clients.

8. Cash & cash held as margin

Cash balances are held with CACEIS Investor Services Bank S.A., Dublin Branch (30 April 2023: RBC Investor Services Bank S.A., Dublin Branch).

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

10. Financial derivative instruments and efficient portfolio management

A Fund may employ financial derivative instruments for protection against exchange risks (including foreign exchange transactions, which alter the currency characteristics of transferable securities held by the relevant Fund) and to alter the currency exposure characteristics of transferable securities in accordance with the conditions and limits set down by the Central Bank of Ireland. Forward currency contracts may, at the Company's sole discretion, be used to hedge some or all of the exchange risk/currency exposure arising as a result of the fluctuation between the currency in which the net asset value per share is computed, and the currencies in which a Fund's investments are denominated.

In addition, each Fund may also purchase foreign currency forwards or other contracts in order to switch the underlying currency exposure of assets within the Fund's portfolio into alternative currencies, whereby the characteristics of the assets are tailored to seek to provide the desired balance between risk and return in keeping with the strategy pursued by the relevant Fund. Accordingly, the Fund may take material positions in currencies other than currencies of denomination of the underlying assets of the Fund.

Subject to the conditions and within the limits from time to time laid down by the Central Bank of Ireland, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Manager may employ, for certain Funds, investment techniques and instruments such as futures, options, forward foreign currency contracts and other derivatives for investment and/or efficient portfolio management ("EPM") purposes. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank of Ireland.

UCITS Regulations permits Funds to invest in financial derivative instruments ("FDI") both for investment purposes and for efficient portfolio management/hedging purposes, in each case subject to the conditions and within the limits laid down by the Central Bank of Ireland and the Company's investment policies. The Investment Manager of the Funds has identified all financial derivative instruments, which are forward currency contracts, options and futures. The counterparties for the FDIs are disclosed in Note 11 under Credit Risk.

During the financial year, futures, options and forward foreign currency transactions were entered into for the purpose of efficient portfolio management in order to hedge currency and market exposure and/or for investment purposes. The notional amounts are detailed in the Portfolio of Investments.

The realised and unrealised gains or losses arising from the use of FDIs are shown in Note 13.

The relevant Funds may have entered into currency forwards and other foreign currency derivative transactions for the purposes of limiting the foreign currency exposure arising out of the non-functional currency denomination of the investments of the Fund or the currency exposure arising between the Functional Currency and the currency of denomination of each Class of shares. In addition, certain Funds may also have purchased foreign currency forwards or other contracts in order to switch the underlying currency exposure of assets within the relevant Fund's portfolio into alternative currencies, whereby the characteristics of the assets are tailored to seek to provide the desired balance between risk and return in keeping with the strategy pursued by the relevant Fund.

The relevant Funds may have entered into futures contracts to take long or short positions in, or to increase or reduce the relevant Fund's exposure to, an underlying security, currency, market or index. For example, purchased futures may serve as a long hedge of the investments of the relevant Funds and sold futures may have served as limited short hedge equities of the investments of the relevant Funds. Futures may also be used, for example, to equitise cash balances, both pending investment of a cash flow and with respect to fixed cash targets.

The relevant Funds may have purchased and sold put and call options. Call options may be purchased by certain Funds: (i) to provide exposure to increases in the market (e.g. with respect to temporary cash positions); and (ii) to hedge against an increase in the price of securities or other investments that a Fund intends to purchase. Put options may have been purchased by the relevant Funds to (i) hedge against a decrease in the market generally; and (ii) hedge against the price of securities or other investments held by certain Funds. The purpose behind a Fund writing covered call options is typically to seek enhanced returns and when in the opinion of the Investment Manager the exercise price together with the option premium received (unless the written calls are repurchased) would represent an acceptable sale price for some or all of the holding. Put options, covered by cash, may be written when in the opinion of the Investment Manager the exercise price less the option premium received (unless the written puts are repurchased) would represent an acceptable purchase price for a holding.

The Funds did not engage in the efficient portfolio management techniques of repurchase, reverse repurchase and stock lending arrangements.

Details of all open transactions at the financial year end are disclosed in the Portfolio of Investments.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

10. Financial derivative instruments and efficient portfolio management (continued)

Details of open forward currency contracts, options and futures held as at 30 April 2024 are shown in the Portfolio of Investments.

Notional exchange gains or losses due to the presentation of these financial statements in EUR are included in the Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares.

Associated risk for derivative instruments

The Company may use derivative instruments traded on an organised exchange and/or on over-the-counter markets for investment purposes and/or efficient portfolio management in accordance with the investment objective and the policy of the Fund.

The use of these strategies involves certain special risks, including but not limited to: (i) dependence on the ability to predict movements in the prices of securities being hedged and movement in interest rates; (ii) imperfect correlation between the hedging instruments and the securities or market sectors being hedged; (iii) the possible absence of a liquid market for any particular instrument; (iv) possible impediments to effective portfolio management or the ability to meet repurchase requests or other short-term obligations because of the percentage of a Fund's assets segregated to cover its obligations; (v) the risk of counterparty default delaying or impeding the recovery of a Fund's assets; (vi) the fact that skills needed to use these instruments are different from those needed to select the Fund's securities; and (vii) the potential loss arising from the use of FDI or EPM may not be predictable and may even exceed the margin or other collateral paid.

A Fund's ability to use these strategies may be limited by market conditions, regulatory limits and tax considerations and these strategies may be used only in accordance with the investment objectives of the Fund.

Derivative instruments are only utilised within the Company for the purposes of reducing risk either by hedging exposure or reducing volatility. Derivative exposures are monitored on a daily basis by the Investment Manager's Legal and Compliance Committee. Details of derivative contracts held by the Company as 30 April 2024 are included in the Portfolio of Investments.

11. Financial instruments disclosure

In accordance with FRS 102 ("Financial Instruments: Disclosure"), this note details the way in which the Company identifies and manages risks associated with the use of financial instruments.

The Company's activities involve identification, analysis, evaluation and acceptance of risk or a combination of risks. The most significant types of risk to the Funds are market risk,

credit risk and liquidity risk. The Company's risk management policies are designed to identify and analyse these risks, set risk limits and controls and to monitor these continuously by means of a reliable and up to date risk monitoring system.

Based on the nature and magnitude of the risks that are being entered into, rules are established for the type and frequency of ongoing risk monitoring. Monitoring of the ex-ante risk of a Fund is conducted in accordance to the Fund's risk assessment, which details the Fund's strategy and objectives.

Market risk

FRS 102 identifies that this risk comprises of three types of risk; currency risk, interest rate risk and other price risk. The risk monitoring system and stress testing are used to monitor these risks.

The Investment Manager is responsible on a day-to-day basis for measuring and monitoring market risk arising from all sources, including derivatives, counterparties, and general market movements. This control is documented in a daily risk report, which incorporates VaR among other measures. This report is distributed to the Fund manager, the Portfolio Risk Review Committee and the compliance team of the Investment Manager. The Investment Manager is responsible for managing that risk.

The Manager, as part of their risk management and monitoring obligations receives and relies on both regular and exception based risk reporting provided by the Investment Manager and the Administrator of the Funds ("Delegates"). The Investment Manager and the Administrator will provide reporting to the Manager and should an issue be noted in the reporting, the Manager will in the first instance liaise with the delegate responsible to try to establish a method for resolution of the issue and assist them where necessary. Any significant risk items which cannot be easily resolved may be required to be escalated to senior management of the delegate and further explanations from the delegate will be required to be provided to the Manager and the Board.

Market price risk

This is the potential for change in the market value of instruments due to adverse movements in equity, bond, commodity, currency and other market prices, indices or rates or changes in the anticipated or calculated volatility of these movements. Also pricing/valuation risk has been identified as the risk that the valuation/price of a specific transaction may not be accurate. The majority of the Funds' financial assets at fair value through profit and loss consist of listed investments.

Each portfolio manager of a Fund is responsible for the investment decisions relating to his Fund and uses appropriate investment experience, research and the risk reports to assist in the decision making process. The composition

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

of each Fund is reviewed by the Board of Directors on a quarterly basis. The Compliance function of the Investment Manager and the Manager independently perform investment restriction monitoring.

By way of a quarterly Portfolio Risk Review Committee, the committee formally reviews the risk of each of the Funds using a 6 Pillar risk management framework against the firm's risk parameters and internally set limits. On a periodic basis, each Fund is reviewed in detail with appropriate feedback being provided to the respective Fund manager. The chairman of the Portfolio Risk Review Committee reports into the firm's overall Risk Committee and provides regular updates to the Board of Directors.

Global exposure

Global exposure is calculated using Value at Risk ("VaR"). The Funds apply a VaR methodology to assess the market risk positions held and to estimate the potential economic loss based upon a number of parameters and assumptions for various changes in market conditions. VaR is a method used in measuring financial risk by estimating the potential negative change in a Fund not to be exceeded given a certain confidence level and over a specified time horizon.

The Funds use a Monte Carlo simulation to calculate VaR, creating 5,000 scenarios for all model factors based on the joint distribution of the factor returns that is described by the covariance matrix. Under each simulated scenario, every security is repriced and a portfolio return is calculated. VaR is calculated as 1 day and then scaled to a 1 month VaR.

Objectives and limitations of the VaR Methodology

The Funds use simulation models to assess possible changes in the market value of each Fund. The default time horizon for the simulation model is 570 days, although this can be amended to 1 year if deemed appropriate. The VaR models are designed to measure market risk in a normal market environment. The models assume that any changes occurring in the risk factors affecting the normal market environment will follow a lognormal distribution. The distribution is calculated by using exponentially weighted historical data. The use of VaR has limitations because it is based on historical correlations and volatilities in market prices and assumes that future price movements will follow a statistical distribution.

Due to the fact that VaR relies significantly on historical data to provide information and may not clearly predict the future changes and modifications of the risk factors, the probability of large market moves may be underestimated if changes in risk factors fail to align with the normal distribution assumption. VaR may also be under or overestimated due to assumptions placed on risk factors and the relationship between such factors for specific instruments. Even though positions may change throughout the day, the VaR only represents the risk of

a Fund at the close of each business day and it does not account for any losses that may occur beyond the 99% confidence level.

In practice, the actual trading results will differ from the VaR calculation and, in particular, the calculation does not provide a meaningful indication of profits and losses in stressed market conditions. Stress tests are carried out on a number of predefined scenarios that form part of a separate calculation. To determine the reliability of the VaR model, actual outcomes are monitored regularly to test validity of the assumptions and the parameters used in the VaR calculation.

Average level of leverage is calculated as the sum of the notionals of the derivatives used.

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

VaR assumptions

The VaR that the Funds measure is an estimate, using a confidence level of 99%, of the potential loss that is not expected to be exceeded if the current market risk positions were to be held unchanged for one day and two weeks. The use of a 99% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur on average, not more than once every hundred days.

Other price risk

Other price risk is managed by monitoring the schedule of investments and the Investment Manager's legal and compliance team monitoring program, which incorporates a review of the investment restrictions.

Currency risk

Currency risk is defined by FRS 102 as the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises on financial instruments that are denominated in a currency other than the Functional Currency in which they are measured. The Funds have exposures to currencies other than their Functional Currency and their main investment area. This risk is considered to be normal market exposure and consistent with the benchmark which is set for each Fund.

The Investment Manager has the ability within their investment powers to hedge any significant exposure to one particular currency that may result from the bottom-up stock selection process. This was exercised on the Global Strategic Bond Fund and European Capital Growth Fund during the financial year ended 30 April 2024.

The Global Strategic Bond Fund also utilises share class hedging to reduce the exposure of the GBP share class to fluctuations in the Functional Currency of the Fund, which is USD. The European Capital Growth Fund also utilises share class hedging to reduce the exposure of the GBP share class to fluctuations in the Functional Currency of the Fund, which is EUR. The Real Assets Fund also utilises share class hedging to reduce the exposure of the EUR share class and USD share class to fluctuations in the Functional Currency of the Fund, which is GBP. The European Dividend Growth Fund also utilises share class hedging to reduce the exposure of the USD share class to fluctuations in the Functional Currency of the Fund, which is GBP. Forward currency contracts held as at 30 April 2024 are included in the Portfolios of Investments.

The ongoing risk relating to foreign exchange rate fluctuations is reviewed by the Investment Manager's Legal and Compliance team, in line with the underlying investments.

The following table sets out the total exposure to foreign currency risk for each Fund, possible currency movement and the impact on the Net Assets Attributable to Holders of Redeemable Shares of each Fund of these possible currency movements. This exposure can result in an equal increase or decrease in Net Assets. The forward contracts in the following tables do not include share class hedging.

Limitations of sensitivity analysis on foreign currency risk

The above analysis is included for the purposes of FRS 102 only and is not used by management in managing risk. This currency risk sensitivity analysis is based on an estimate of the impact on the Net Assets Attributable to Holders of Redeemable Shares of each Fund, assuming a hypothetical 5% movement in exchange rates. Actual trading results could differ from the above sensitivity analysis, and the difference could be material.

Interest rate risk

Interest rate risk is defined by FRS 102 as the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The value of investments in interest bearing securities may be subject to price volatility due to changes in interest rates. An increase in interest rates will generally reduce the value of debt securities

that are issued and outstanding, while a decline in interest rates will generally increase the value of debt securities that are issued and outstanding.

The magnitude of these price fluctuations will be greater when the maturity of the outstanding securities is longer. Changes in the value of securities held by a Fund due to interest rate changes may cause the net asset value per Share of the Fund to go up or down. The Investment Manager monitors the exposure within the Funds on an ongoing basis whilst observing the investments objectives of the Funds.

This risk is managed actively using both cash bonds across major currencies and derivatives. Specifically, the Investment Manager may employ interest rate swaps, futures, and options to achieve the desired duration for the Funds. Additionally, the Investment Manager continuously assesses market conditions and adjusts the strategies as needed to ensure effective risk management.

FUND	30 APRIL 2024 DURATION	30 APRIL 2023 DURATION

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

Duration is a measure of the sensitivity of the price of a fixed -income investment to a change in interest rates and is expressed in financial years. Funds with higher duration have a greater interest rate risk. Generally, the value of debt securities will tend to decrease in value when interest rates rise and vice versa. Shorter term securities are less sensitive to interest rates

changes than longer term securities, but they also usually offer lower yield.

The interest rate profile of the Funds' financial assets as at 30 April 2024 is as follows:

AS AT 30 APRIL 2024	FLOATING RATE FINANCIAL ASSETS	FIXED RATE FINANCIAL ASSETS	FINANCIAL ASSETS ON WHICH NO INTEREST IS PAID	TOTAL
Sterling Bond Fund	141,281,726	790,503,086	48,202,842	979,987,654

Credit Risk

Credit risk is defined by FRS 102 as the risk of loss arising if a counterparty fails to perform its obligations subsequent to the provision of credit facilities (either on or off balance sheet). The Company will be exposed to a credit risk on parties with whom it trades and will also bear the risk of settlement default. The Company seeks to minimise concentrations of credit risk by undertaking transactions with a large number of counterparties on recognised and reputable exchanges.

The Investment Manager monitors the credit risk of the issuing of shares in the Funds. All brokers used are approved for trading purposes by the Investment Manager's Legal and Compliance team.

Liquidity risk

Liquidity risk is defined by FRS 102 as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity is assessed by taking the weighted average number of trading days of each position in each Fund, assuming that each position has at least 20% participation rate of the trading volume. The main liability of the Funds tends to be outstanding payables on the purchase of investments and the redemption of any Shares that

investors wish to sell. All financial liabilities are due to mature within one financial year. While the funds have a contractual obligation to redeem shares within 3 days of submission, historical experience indicates that these shares are typically held by the shareholders on a medium or longer term basis. The Investment Manager monitors the volume and turnover of the portfolio on a monthly basis and carries out quarterly stress testing of liquidity.

The table below analyses the liquidity of the Funds' liabilities as at 30 April 2024 and 30 April 2023:

II. Financial instruments disclosure (continued)

Fair value estimation

The Funds utilise various methods to value investments measured at fair value on a recurring and non-recurring basis.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement (lowest being level 3).

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Company's assumptions, made in good faith, about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The determination of what constitutes "observable" requires significant judgment by the Company. The Company considers observable data to be that market data, which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Company's perceived risk of that instrument.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Company uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The three levels of inputs are defined as follows:

Level 1 - The unadjusted quoted price in active markets for identical assets or liabilities that the entity can access at the measurement date (level 1);

Level 2 - Inputs other than quoted prices included within level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly (level 2); and

Level 3 - Inputs that are unobservable (i.e. for which market data is unavailable) for the asset or liability.

There were no significant transfers between level 1 and level 2 for investments held during the financial year ended 30 April 2024 or the year ended 30 April 2023.

Level 3 Assets

(a) Sound Global Ltd is held by the Asia Pacific Fund and valued at HKD 0 per share following a delisting in September 2022.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

II. Financial instruments disclosure (continued)

Fair value estimation (continued)

The latest announcement dated 18 June 2024 indicates that Mr. Wen (the Founder, Executive Director, and Chairman of Sound Global) has been ordered by the High Court of Hong Kong Special Administrative Region and the Court of Appeal to make an offer to purchase shares held by the other members of the Company at the Share Purchase Price that will be determined at a substantive hearing to be held on 9 April 2025 and 10 April 2025.

The Potential Offeror that was previously considering making a Takeover offer for Sound Global announced in May that they would not proceed with this offer (announcement made on 18th May 2024), meaning the judgement against Mr. Wen is the only remaining potential resolution.

The Board and Manager have agreed to continue to price the shares at HKD 0 per share due to Waverton Investment Management's view that the timing and value related to a potential resolution is unclear, particularly noting the substantial periods between hearing dates.

(b) The following table presents the movement for Home REIT in level 3 for the financial year ended 30 April 2024 and year ended 30 April 2023 by class of financial instrument.

	UNQUOTED SECURITIES AT FAIR VALUE THROUGH PROFIT OR LOSS 30 APRIL 2024 GBP	UNQUOTED SECURITIES AT FAIR VALUE THROUGH PROFIT OR LOSS 30 APRIL 2023 GBP

Closing balance	-	3,012,071

Home REIT Plc was suspended from listing on 3 January 2023.

Waverton Investment Management, in collaboration with the board of Directors and the Manager, applied a discount to the share price of Home REIT Plc on 22 February 2024 to GBP 0.20. A further discount was applied on 17 July 2024 to mark the price down to GBP 0.00.

The latest markdown to GBP 0.00 follows news of Home REIT's Board announcing that it is in the best interests of shareholders to propose a managed wind-down strategy for the Company.

The Board, the Manager and Waverton Investment Management Limited will continue to monitor the situation.

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

12. Net asset comparison

In accordance with the provisions of the Prospectus, financial assets at fair value through profit or loss are valued at the latest mid-market quotation on its regulated market as at the Valuation Point for the purpose of calculating the net asset value.

14. Cross portfolio investment

When a Fund holds an investment in another Fund within the Company, this must be eliminated from the combined Company totals. This does not affect the NAV per share of any of the individual Funds. As at 30 April 2024, four Funds had invested in another fund of the company and the fair value was EUR 68,000,227 (30 April 2023: EUR 53,357,706).

Below outlined the percentage of its NAV invested in another Funds :

	30 APRIL 2024 % NET ASSETS	30 APRIL 2023 % NET ASSETS
MULTI-ASSET INCOME FUND		
Sterling Bond Fund	-	5.21%
MULTI-ASSET GROWTH FUND		
Global Strategic Bond Fund	4.18%	5.02%

MULTI-ASSET DEFENSIVE FUND		
Global Strategic Bond Fund	10.25%	-
Sterling Bond Fund	16.12%	-

15. Umbrella structure of the company and cross-liability risk

Each Fund will be responsible for paying its fees and expenses regardless of the level of its profitability. The Company is a n umbrella Fund with segregated liability between Funds. The adoption of segregated liability ensures that the liabilities incurred on behalf of a Fund will generally be discharged

solely out of the assets of that Fund and there can generally be no recourse to the other Funds to satisfy those liabilities, notwithstanding the foregoing, there can be no assurance that, should an action be brought against the Company in the courts of another jurisdiction that the segregated nature of the Funds would necessarily be upheld.

* For these share classes, 100 per cent. of the Management fees, Administrator fees, Depositary fees, operational expenses and borrowing expenses, where applicable, will be charged to the capital of the relevant Fund for the purposes of the distribution calculation. Thus, on redemption of the Shares, Shareholders may not receive back the full amount invested. The reason for charging these fees and expenses to capital is to increase the amount of income that can be distributed by the relevant Funds. It should be noted that the distribution of income in Funds which charge fees and expenses to capital may result in the erosion of capital and that increased income will be achieved by foregoing some of the potential for future capital growth.
** On 16 October 2023, the Waverton Real Assets Fund terminated share class P US\$ Hedged Shares
*** These sub-funds were launched on 14 November 2023.

Outstanding shares issued by the Multi-Asset Growth Fund (€ Denominated) compose of shares with accumulative distribution policy. No distribution pay-outs were paid during the period for the sub-fund.

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

17. Directors' & related parties interests

In the opinion of the Directors, the Manager and the Investment Manager are related parties under FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Fees payable to the Manager and the Investment Manager as at 30 April 2024 and 30 April 2023 and expenses incurred during the financial year ended 30 April 2024 and 30 April 2023 are shown on the Statement of Financial Position, as well as the Statement of Comprehensive Income, respectively.

Amounts receivable from the Investment Manager are detailed in the Statement of Financial Position. Amounts earned by the Investment Manager as well as Investment Manager subsidiaries during the financial year ended 30 April 2024 and 30 April 2023 are shown in the Statement of Comprehensive Income.

Cross Portfolio Investments are outlined in Note 14.

The Investment Manager holds one Subscriber Share in the Company as outlined in Note 2 of these financial statements.

Details of fees payable to the Manager as at 30 April 2024 and 30 April 2023 are included in the Statement of Financial Position and fees charged by the Manager during the financial year ended 30 April 2024 and 30 April 2023 are included in the Statement of Comprehensive Income.

Marc Geduldt is Head of Operations at the Investment Manager.

Michael Allen is Chief Operating Officer at the Investment Manager. Michael Allen currently hold 13,470 units of shares in the Multi-Asset Growth Fund as of 30 April 2024.

18. Significant events during the financial year

In October 2022, CACEIS and Royal Bank of Canada (RBC) announced they had signed a memorandum of understanding for the intended acquisition by CACEIS of the European asset servicing business of RBC. As part of this acquisition, CACEIS would acquire the entire issued share capital of RBC Investor Services Bank S.A. (IS Bank).

Completion of the sale of IS Bank occurred 3 July 2023, following regulatory approval. As a result RBC Investor Services Ireland Limited has become CACEIS Investor Services Ireland Limited and RBC Investor Services Bank S.A., Dublin Branch has become CACEIS Investor Services Bank S.A., Dublin Branch.

On 8 November 2023, the Company issued an updated prospectus in respect of the following:

- (i) Administrator/Custodian/Depository name change from RBC Investor Services to CACEIS Investor Services.

- (ii) Manager name change from MJ Hudson Fund Management to Bridge Fund Management.
- (iii) Share class minimum initial and subsequent subscription changes.
- (iv) Addition of four new Waverton Sub Funds:
 - a. Waverton Multi-Asset Balanced Fund.
 - b. Waverton Multi-Asset Cautious Fund.
 - c. Waverton Multi-Asset Defensive Fund.
 - d. Waverton Multi-Asset Growth Fund (€ Denominated).
- (v) Waverton Absolute Return Fund
 - increase in Structured Products exposure to 40%.
- (vi) Waverton Global Strategic Bond Fund
 - Change to a relative VaR methodology
 - PI £, PI € and PI\$ new share classes added.
- (vii) Waverton Multi-Asset Growth Fund
 - Distribution frequency change to Quarterly.
- (viii) Waverton Multi-Asset Income Fund
 - Reduction in Collective Investment Scheme exposure to 10%.
 - AI £ new share class added (fees and expenses charged to Income).
- (ix) Waverton Real-Assets Fund
 - Reduction in Collective Investment Scheme exposure to 10%.
 - AI £ new share class added (fees and expenses charged to Income).
 - P € Hedged new share class added.

On 14 November 2023, the following three sub-funds were launched:

Waverton Multi-Asset Balanced Fund
Waverton Multi-Asset Cautious Fund
Waverton Multi-Asset Defensive Fund

On 20 November 2023, the following sub-fund was launched:

Waverton Multi-Asset Growth Fund (€ Denominated)

On 1 January 2024, Louise McMorrow and Samantha McConnell were appointed as independent directors of the Board. Samantha McConnell joined as Chair of the Board, taking over from Johnny McClintock.

On 30 April 2024, Eanna McHugh resigned from the Board and Louise McMorrow assumed responsibility as Chair of the Financial Review Committee.

There were no other significant events that occurred during the financial year end.

Financial statements

NOTES TO THE FINANCIAL STATEMENTS *CONTINUED*

19. Significant events post financial year end

On 29 February 2024, an announcement was released to the market advising that the UK-based wealth management companies London & Capital and Waverton Investment Management have reached an agreement to merge their businesses. This strategic move, will bring together the exceptional international advice and planning expertise of London & Capital with the investment performance and wealth solutions of Waverton Investment Management to create a leading independent wealth management business.

The new combined entity will have an AUM in excess of £17 billion and bring together the two groups' similar client-focused cultures, retaining their complementary investment styles focused on access to global markets and active and direct investment approaches. London & Capital and Waverton Investment Management have both seen strong growth in recent years and this merger will expand client offerings and international footprints with enhanced investment opportunities, financial planning expertise and broader client propositions.

Following the legal merger on 31 May 2024, CACEIS allocated all of its shares in CACEIS Investor Service Bank S.A. to CACEIS Bank. As a result all assets and liabilities of CACEIS IS Bank (providing its services through Irish branch, CACEIS Investor Services Bank S.A, Dublin Branch) were transferred to CACEIS Bank (providing its services through Irish branch, CACEIS Bank, Ireland Branch).

On 22 July 2024, the Company submitted a draft prospectus to the Central Bank of Ireland ("CBI") for consideration and approval of the following changes:

- (i) The ability for the following Funds to invest in Contingent Convertible Securities:
Waverton Global Strategic Bond Fund
Waverton Sterling Bond Fund
Waverton Absolute Return Fund
Waverton Multi-Asset Balanced Fund
Waverton Multi-Asset Cautious Fund
Waverton Multi-Asset Defensive Fund
Waverton Multi-Asset Growth Fund
Waverton Multi-Asset Income Fund
- (ii) Updated performance comparison tables
- (iii) Updated Sustainable Finance Disclosures Regulation ("SFDR") disclosure.
- (iv) Distribution Policy Frequency changes to semi-annual distributions on 30 April and 31 October each year in respect to the following funds:
Waverton European Capital Growth Fund
Waverton European Dividend Growth Fund

- (v) New Share Classes
- (vi) Updated Risk Disclosures
- (vii) Update of the registered address of the Company and,
- (viii) Update of the legal name and address of CACEIS as Administrator and Depositary.

These changes will not take effect until CBI approval has been granted.

There were no other significant events that occurred post financial year end.

20. Approval of financial statements

The financial statements were approved by the Directors on 28 August 2024.

APPENDIX 2

REMUNERATION POLICY (UNAUDITED)

The Company has adopted a remuneration policy as required by the UCITS Regulations (the "Remuneration Policy"). The Remuneration Policy seeks: (a) to be consistent with, and promote, sound and effective risk management; (b) to be in line with the business strategy, objectives, values and interests of the Company; (c) not to encourage excessive risk-taking as compared to the investment policy of the relevant sub-funds of the Company (each, a "Fund"); (d) to provide a framework for remuneration to attract, motivate and retain staff (including directors) to which the policy applies in order to achieve the objectives of the Company; and (e) to ensure that any relevant conflicts of interest can be managed appropriately at all times. The Remuneration Policy applies to those categories of staff of the Company whose professional activities have a material impact on the risk profile of the Company or the Funds ("Identified Staff"). As at the date of the most recent Prospectus, the Identified Staff comprise the Directors and Manager (see Manager Remuneration policy). While certain Directors are paid a fixed annual fee for their services to the Company, Directors that are employees of the Investment Manager or an affiliate are not paid any fees for their services as Director.

Due to the size and internal organisation of the Company and the nature, scope and complexity of its activities, it is not considered appropriate for the Company to establish a remuneration committee.

Please see Note 3, 4 and 17 for details of the total remuneration for the financial year paid by the Company to the Directors and Manager. For further information on the current remuneration policy of the Company, please contact the Investment Manager. A paper copy of this information is available free of charge upon request from the Investment Manager.

In accordance with Regulation 89(3A) (e) of the UCITS Regulations, it is confirmed that no material changes have been made to the Remuneration Policy since its adoption. On 2 February 2017, the Company adopted an updated remuneration policy to reflect the provisions of ESMA's Guidelines on Sound Remuneration Policies under the UCITS Regulations and other general non-material updates.

The Company has delegated investment management (including risk management) to the Investment Manager. No remuneration has been paid to the staff of the Investment Manager by the Company. The Investment Manager pays remuneration to its staff in accordance with its own remuneration policy. The Company has requested, and the Investment Manager has provided, confirmation that, being subject to the remuneration rules under the Capital Requirements Directive (Directive 2013/36/EU), the Investment Manager has a remuneration policy in place that is consistent with the ESMA guidelines on sound remuneration policies under the UCITS Regulations, and which is equally as effective as the requirements under the UCITS Regulations. The disclosure relating to the Investment Manager's remuneration policy can be viewed at https://www.waverton.co.uk/assets/legal/_regulatory/pillar_iii/pillar_iii_disclosures_ye_30_9_18.pdf.

APPENDIX 2

REMUNERATION POLICY (UNAUDITED) CONTINUED

UCITS V Remuneration Disclosure - Manager

The below disclosure is made in respect of the remuneration policies of Bridge Fund Management Limited ("Manager") in accordance with the European Union Directive 2014/91/EU as implemented in Ireland by European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016. This requires UCITS management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

The Manager has designated the following persons as Identified Staff:

1. Executive and Non-Executive members of the management body of the Manager e.g. CEO, Directors, Executive and Non-Executive partners
2. Senior management
3. Risk takers – staff who can exert material influence on the Manager or on the UCITS or AIFs it manages
4. Those in control functions: Operations, HR, Compliance, Finance where applicable
5. Staff whose total remuneration takes them into the bracket of senior management and risk takers, whose professional activities have a material impact on the Manager's risk position or those of the UCITS and/or AIFs it manages and
6. Categories of staff of the entities to which portfolio management or risk management activities have been delegated whose professional activities have a material impact on the Manager's risk position or those of the UCITS and/or AIFs it manages.

The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager is required under UCITS regulations to make quantitative disclosures of remuneration. Disclosures are provided in relation to Identified Staff who are employed directly by the Manager and Identified Staff who have the ability to materially impact the risk profile of the UCITS including individuals who, although not directly employed by the Manager, are assigned by their employer to carry out services directly by the Manager:

All remuneration paid to Identified Staff can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

Remuneration details for the Manager are disclosed below:

DESCRIPTION	NUMBER OF BENEFICIARIES	TOTAL REMUNERATION PAID	FIXED REMUNERATION PAID	VARIABLE REMUNERATION PAID
Total Staff Remuneration	45	€3,948,284	€3,503,284	€445,000
Senior Management (including executives), risk takers and other identified staff	8	€1,194,440	€952,440	€242,000

Details of the Remuneration Policy, including, but not limited to, a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits is available at the following website:

<https://bridgefundservices.com/disclosures/>

APPENDIX 3

SFDR DISCLOSURE (UNAUDITED)

All the Sub-funds have been classified as Article 6 Funds under the Sustainable Finance Disclosure Regulation (SFDR). The Investment Manager has integrated sustainability risks, as a sub-set of risks generally that could cause an actual or potential material negative impact on the value of an investment, as part of its investment decision-making process for the Sub-funds.

For the purposes of Article 7 of the Taxonomy Regulation, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
