What is this product?

Type:

This product is a type of collective investment scheme, specifically, a sub-fund of an Irish authorised undertaking for collective investment in transferable securities (or "UCITS") constituted as an investment company under Irish company law. Your investment will take the form of shares in the Fund.

Term:

The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

Objectives:

The Fund's investment objective is to achieve long term capital growth.

To achieve this objective, the Fund will invest at least 70% of its assets in equities and securities with equity type features of emerging market based companies, or companies that carry out a majority of their business in emerging markets (developing countries). The Fund is broadly diversified across different countries and industry sectors.

Normally, the Fund will invest at least 80% of its assets in equities of issuers that (i) have their principal securities trading market in an emerging country, (ii) alone or on a consolidated basis derive 50% or more of annual revenue from goods produced, sales made or services performed in emerging countries and/or (iii) are organised under the laws of, and have a principal office in, an emerging country.

The equity securities in which the Fund invests will principally be securities listed and/or traded on regulated markets worldwide although up to 10% of the Fund's assets may be invested in securities listed on exchanges that are not regulated markets.

The Fund may invest up to 10% of its assets in the shares of eligible open-ended collective investment schemes, including exchange traded funds, which have similar investment objectives, policies, investment restrictions and requirements to those of the Fund.

The Fund may borrow up to 10% of its assets on a temporary basis.

The Fund invests in securities which on average will have no more than 90% scope 1 and 2 CO2 emissions versus the securities contained in the Index.

The Fund may use specialist financial techniques (known as derivatives) to manage the funds risk exposures or to manage the fund more efficiently.

The Fund may buy and sell securities frequently as part of the investment strategy. This may lead to greater transaction costs for the Fund.

The Fund is actively managed with reference to the MSCI Emerging Markets Index (USD) - Net Returns (the "Index"). The Fund may invest in securities that are components of and/or have similar weightings to the Index although the money manager may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities. The deviation away from the Index may be significant.

The Fund seeks to outperform the Index by 2.5% over the medium to long term.

Acadian Asset Management LLC has been appointed as the Money Manager of the Fund.

As your shares are in British Pounds and the Fund is in US Dollars, fluctuating currency exchange rates may affect the value of your investment. Income of the Fund will be declared as a dividend and then re-invested to increase the value of your investment.

You may sell your shares in the Fund on any day on which banks are normally open for business in Ireland. For further information please refer to the "Repurchases of Shares" section of the prospectus.

The Fund may be terminated at the discretion of the directors of the Company, provided that a minimum of twenty-one days' written notice has been provided to Shareholders. The Fund may also be terminated by the Shareholders in the Fund, if voted for by at least 75% of the Shareholders in the Fund.

The Fund's depository is State Street Custodial Services (Ireland) Limited (the "Depository").

The share price is published on each business day and is available online at www.bloomberg.com.

Further information about the Fund, copies of the prospectus and the latest annual and semi-annual reports in English may be obtained free of charge by writing to Russell Investments, Rex House, 10 Regent Street, London SW1Y 4PE, England. They are also available online at <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

Intended retail investor:

The Fund is designed primarily for investors seeking capital growth. It should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. The Fund is intended for investors with a long term investment horizon and with a preference towards the promotion of environmental characteristics. The Fund may be subject to increased volatility as a consequence of the Fund's investment in the securities of issuers located in emerging markets. Investors in the Fund should be prepared to take on a relatively high level of risk of loss to their original capital. For a basic investor, the Fund should be purchased with advice or on an execution only basis.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level and poor market conditions could impact the value of your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator only takes market and credit risk into account. For a full list of the risks materially relevant to the Fund, please see the Prospectus at: <https://microsite.fundassist.com/RussellEMEA/Home/RegulatorView>.

This product does not include any protection from future market performance so you could lose some or all of your investment, however, your liability will be limited to the amount invested and you will not be liable for any additional financial commitments beyond the amount you have invested.

Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 12 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 7 years			
Investment: GBP 10,000			
Scenarios		If you exit after 1 year	If you exit after 7 years (recommended holding period)

What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Fund are segregated from those of the other sub-funds and from those of PRIIP Manufacturer and the Depository. The assets of the Fund are held in safekeeping by its Depository. In the event of the insolvency of the PRIIPs Manufacturer, the Fund's assets in the safekeeping of the Depository will not be affected. In the event of the insolvency of the Depository, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is GBP 10,000.

Investment: GBP 10,000	If you exit after 1 year	If you exit after 7 years
Total costs	140 GBP	1,460 GBP
Annual cost impact (*)	1.4%	1.4%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.4% before costs and 7.0% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 7 years

The Fund is designed to be held over the long term.

You can request to take out some or all of your money at any time.

If you sell your shares at an early stage, this will increase the risk of lower investment returns or a loss.

You may exchange shares of one sub-fund for shares in another sub-fund by selling the shares of the first sub-fund and purchasing shares of the other sub-fund as further described in the Prospectus.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

- i. E-mail: complaints@carnegroup.com
- ii. Mail: 3rd Floor, 55 Charlemont Place, Dublin, D02 F985 – Ireland

In the event that you are not satisfied with our response to your complaint you can refer the matter to the Irish Financial Services and Pensions Ombudsman by writing to the Financial Services Ombudsman's Bureau at 3rd Floor, Lincoln House, Lincoln Place, Dublin 2, Ireland who may be able to provide an independent assessment of your complaint.
