Investment Manager's Report For the financial year ended 31 March 2024

Following the heightened market volatility of March, April brought some welcome relief for markets as the prospect of a broad based financial sector collapse similar to 2008 faded. There were still issues in the financial sector, with First Republic Bank stock ending the month down 97% from its end February level and waiting for the FDIC or a last minute buyer to step in. Worries over commercial real estate in the US also continued to dominate headlines, as the market focused in on the sheer volume of CRE lending that needs to be refinanced in the coming years, with low occupancy rates in the office sector in particular causing concern. Some softer economic data early in the month, particularly the ISM survey, had markets worried about an economic slowdown exacerbated by recent banking sector stress. A strong employment report alleviated some of those concerns and yields edged higher again as market pricing for additional interest rate hikes from the Federal Reserve firmed. CPI inflation data in the US came in a touch on the softer side, but the Fed's favoured PCE measure remained at a level the Fed would consider too high, even if it is starting to move in the right direction. Jobless claims began to move somewhat higher after months of resolute strength in the labour market, potentially a first sign that tighter policy is feeding through to the labour market.

The US Q1 GDP report was weaker than expected, but the miss was driven entirely by inventories, with underlying consumption remaining quite strong and prices coming in higher than expected. In Europe, preliminary April CPI data came in lower than expected in some regions, cementing calls for the ECB to slow its hiking pace to 25bp in May. The gap between market pricing for US rates and the Federal Reserve outlook remained. The market was pricing for one more 25bp hike and then 3 rate cuts by January 2024. Fed speakers indicated that one more hike and then a pause for an extended period was the most likely path for rates.

US 10y yields were lower by 5bp in April to 3.42% while German 10y yields rose by 2bp to 2.31%. Despite ongoing concerns over the health of US regional banks, risk assets fared reasonably well in April. The S&P 500 gained by 1.5% while Germany's DAX rose by 1.9%. The Shanghai Composite rose 1.5% and the FTSE 100 rose by 3.1%. The US Dollar was weaker as the DXY index fell by 1.8%. Oil jumped in early April as OPEC+ decided to cut production, but it unwound most of the gains over the course of the month to finish up by 1.5%. Markets were now looking ahead to Central Bank meetings in early May, with the Federal Reserve and ECB both expected to hike by 25bp, and much attention would be paid to The Fed's indications as to whether it had reached the end of its hiking cycle.

The US regional banking sector needed stabilisation once again in May, this time in the form of JP Morgan stepping in to acquire First Republic Bank to prevent its collapse. With the risk from this bank stabilised the Federal Reserve went ahead with its expected 25bp hike in early May with the ECB following suit with its own 25bp hike, also as expected. The messaging from the two central banks was different however, with the Federal Reserve indicating it can now be more data dependent and assess the impact of its tightening to date, whereas the ECB expected to continue its hiking cycle. The discussion for the ECB had moved to whether it would continue its hiking cycle into September with the market pricing a strong possibility of 25bp hikes in both June and July. For much of May the market was pricing only a small chance of another hike from the Federal Reserve in June, with the cuts later in the year also being priced out. The market priced Federal Funds rate for December 2023 rose from around 4.50% at the end of April to around 5.00% at the end of May, as continued strength in the economy reduced the likelihood of cuts this year.

Central to that economic strength was the labour market, with the US unemployment rate returning to a multi-decade low of 3.4%. Similarly in Europe, the Eurozone unemployment rate fell to a record low 6.5%, although this series has a much shorter history. Inflation data was mixed in the US, with CPI and PPI coming in line or lower than expected but PCE printed higher than expected and up on the previous month. In Europe the stubbornly high core inflation print come down a little. Concerns remained in the US around the regional bank sector and exposure to CRE, but market sentiment was relatively more benign over the course of the month. In Europe German GDP data was revised lower to show a recession in the country which weighed on sentiment somewhat.

US yields were higher with the 10y rising by 22bp to 3.64% and the front end moving more as rate cuts were priced out. In Germany the 10y yield was 3bp lower at 2.28%. The S&P 500 was up 0.25% but the notable mover in the US was the NASDAQ which gained 5.8%, led by AI stocks such as Nvidia as the demand for AI exposure ballooned. European equities fared less well as Germany's DAX fell by 1.6%. Chinese stocks were also down as the economic data disappointed, with the Shanghai Composite down by 3.6%. The USD regained some of its recent losses as the move higher in front end yields supported the currency, sending the DXY higher by 2.6%. Commodities were weak driven to a large extent by the weakening demand outlook from China. Oil fell by 11.3% and copper was down 6.0%. Looking ahead the market expected the ECB to hike by 25bp in June with the idea of the Federal Reserve skipping the June meeting to potentially hike again in July gaining traction. In addition to monetary policy the market was weighing up the strength in the labour market against a weakening economic outlook and the potential for bubble like valuations in AI stocks.

The outlook for monetary policy was once again top of the agenda in June as some of the recent risk factors stabilised and central banks assumed a somewhat more hawkish tone. The Federal Reserve paused its hiking cycle by leaving interest rates unchanged, but the commentary accompanying the pause indicated that it was likely a matter of when and not if there would be another hike. The ECB delivered its expected 25bp hike and remained likely to hike again in July, with any uncertainty sitting at the September meeting. The UK saw its inflation data come in higher than expected and the Bank of England delivered a higher than expected 50bp hike as a result.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Investment Manager's Report (continued) For the financial year ended 31 March 2024 (continued)

Over the course of June market pricing for the December 2023 Federal Reserve policy rate increased from 4.91% to 5.38%, pricing in almost two full additional 25bp hikes. Market pricing for the ECB also added rate hikes to the outlook, with just over 25bp added to the December rate expectations. In the UK, the market priced in additional hikes of 80bp by the December meeting, taking Bank Rate expectations above 6%. The resilience of the economy was the driving factor behind these additional rate hikes being priced. While inflation data in general showed continued improvement, the pace of inflation declines indicated that tighter monetary policy would be required for an extended period. Notably, PPI data had been coming in softer than expected, with the hope that easing in producer prices would eventually feed into consumer prices. The labour market also remained tight, despite the easing in some measures. In the US, non-farm payrolls remained strong, adding 339 thousand jobs, well above expectations, but the unemployment rate did increase to 3.7%. Initial jobless claims also started to move higher over the month although the final reading for the month came in well below expectations. In Europe the labour market also remained tight. PMI survey data had for the most part come in softer than expected, but not soft enough to indicate a significant economic weakening. US Q1 GDP was revised higher to 2.0% while Eurozone Q1 GDP was revised lower to -0.1%.

Risk assets in general benefited from the economic resilience indicated by the data while yield curves were higher and flatter. US 10y yields moved higher by 19bp to 3.84% while 2y yields were higher by 49bp to 4.90% as more hikes were priced in. German curves saw similar moves while the UK saw more extreme versions of the same theme. Equities in general rose with the S&P 500 higher by 6.5% and the NASDAQ continuing its gains to rise 6.6%. The German DAX gained 3.1% and the UK's FTSE 100 was up by 1.2%. Chinese equities underperformed as the economic outlook there remains cloudy, with the Shanghai Composite falling 0.1%. Credit spreads in general were tighter and commodities gained on the economic resilience. The US dollar was weaker as the DXY index fell by 1.4%. The market was pricing in more rate hikes at July central bank meetings with continued focus on labour and inflation data to assess the impact of tighter policy on the economic outlook.

July saw central bank actions take centre stage once again with the Federal Reserve and the ECB both delivering the expected 25bp rate hikes and outlining that future policy moves were now data dependent. The market took this cue to price little change over the course of the month for the Fed Funds peak rate, with around 40% probability of another hike priced in by November. The peak ECB rate pricing came a little lower, with the market pricing around 60% chance of another hike by December. The unexpected move in July came from the Bank of Japan, which tweaked its yield curve control policy to no longer provide a firm cap on 10y yields at 0.50%, instead moving the cap back to 1.00%. Japanese 10y yields rose sharply as a result, ending the month 21bp higher at 0.60%, the highest yield since 2014.

Economic data over the month broadly lent some support to the soft-landing outlook for the economy. US GDP growth for Q2 came in higher than expected while inflation came in mostly lower than expected. The labour market remained tight, and although non-farm payrolls came in lower than expected for the first time since March 2022, the unemployment rate ticked lower and other measures of the labour market such as initial jobless claims showed continued strength. In Europe, GDP also came in stronger than expected, the unemployment rate remained at record lows but although headline inflation continued to moderate, core inflation ticked higher in a setback for the ECB in its inflation fight. PMI survey data continued to warrant some concern for the global economy, with manufacturing remaining in the doldrums and services strength beginning to fade. In Latin America, where central banks moved early and aggressively to fight inflation, the impact of tighter policy has been felt and rate cuts were now coming into play. Chile cut its rate by 100bp in late July with Brazil also on track to cut in early August. While these economies are very different to the large developed markets, it could be an indication of what's to come when the monetary policy cycle turns.

Risk assets benefitted from the resilient economic data and equity markets were broadly higher on the month. The S&P gained 3.1%, briefly trading above the 4,600 level. In Germany the DAX was up 1.9%, hitting an all-time high along the way. The UK's FTSE 100 rose by 2.2% and even Chinese equities managed to gain despite the ongoing concerns over the economy there. The Shanghai Composite rose 2.8% while the Hang Seng index gained by 6.2%. Yields were broadly higher in the 10y space, with US treasury yields rising by 12bp to 3.96% and German 10y yields gaining 10bp to 2.49%. UK 10y Gilts outperformed as yields fell by 8bp to 4.31%. Credit spreads were broadly tighter and commodities rallied on the resilient economy, led by oil which rose an impressive 15.8%. US Dollar weakness continued with the DXY falling 1.0%. With future rate hikes now uncertain and data dependant, the market was looking to the impact of the Bank of Japan's policy tweak on global bond markets and to incoming economic data to guide policy expectations. There was also increased focus on the US treasury auction announcements as the amount of supply for the market to absorb to fund ongoing deficits rose.

August saw bond yields come under upward pressure as news-flow early in the month weighed on fixed income markets. Fitch downgraded the US credit rating from AAA to AA+ citing the medium-term fiscal outlook and concerns over rising deficits and government debt. This coincided with the US treasury announcing increased bond supply to fund the deficits about which Fitch is so concerned. The tweaks to Japanese YCC and relative unattractiveness of US treasuries for Japanese investors gave rise to concerns about the potential for a supply – demand imbalance in the treasury market right when supply was about to increase significantly and the Federal Reserve continued to engage in QT. Resilient economic data, particularly in the labour market and US consumer spending helped to drive support for the view that an economic reacceleg71ration was on the cards. In this context yields retested the cycle highs from October 2022 with the long end underperforming and curves steepening on the implications of economic resilience driving the higher for longer narrative and persistent inflation. Despite this narrative market implied pricing for the Fed funds rate didn't change dramatically, with the peak rising about 10bp to 5.50% at its height. ECB pricing for the next interest rate move also moved around with incoming economic data, rising as high as 60% probability for a September hike before falling to just a 20% probability by the end of the month.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Investment Manager's Report (continued) For the financial year ended 31 March 2024 (continued)

Economic data softened towards the end of the month and took away some of the credibility of the reacceleration viewpoint. Services PMIs came in weaker than expected in both Europe and the US, extending the longstanding weakness in the manufacturing sector to its services counterpart, which also constitutes the larger slice of the economy. US Q2 GDP was revised lower, with the contribution from personal consumption, the lynchpin of US economic resilience, also being revised lower. And on the labour market front, despite strength in the employment report and jobless claims data, the JOLTS job opening report came in significantly below expectations, indicating a sharp drop in labour demand. Inflation data was broadly in line with expectations over the month.

Yields recovered into the end of the month as the softer data supported demand for fixed income. 10y US treasury yields ended the month 15bp higher at 4.11% while German 10y yields were 3bp lower at 2.47%. Risk assets gave up some ground with equities having a down month following a strong run into the end of July. The S&P 500 fell by 1.8% while the German DAX was down by 3.0% and the UK's FTSE 100 fell 3.4%. China's ongoing economic issues weighed on its risk assets and equities underperformed, with the Shanghai composite falling 5.2%. Credit spreads were wider over the course of the month and commodities in general were lower on the demand outlook. The exception to the rule was oil, which gained 2.2% to consolidate its move above \$80 per barrel as tightening supply supported prices. The US dollar gained as the repricing higher of US yields and risk off sentiment supported the dollar against other currencies. With additional rate hikes now in the balance, the market would once again be focusing on incoming economic data to assess the potential for economic reacceleration or whether the softening in the labour market was the beginning of a shift to weaker economic performance.

September was a terrible month for fixed income as the higher for longer narrative took hold despite the apparent improvement in the inflation outlook. Global bond yields moved higher and in many cases set multi-year highs for yields. Some weakening in the economic data and a downward revision to Q2 GDP in the US led to some weakness in risk assets but were not enough to generate demand for haven assets such as government bonds. The Federal Reserve left rates unchanged at its policy meeting as was widely expected but emphasised the outlook for rates to remain at elevated levels for an extended period which saw markets reprice the expectation for rate cuts in 2024. The pricing for June 2024 moved higher by 25bp over the course of the month, taking out a full rate cut. In Europe the ECB delivered a 25bp hike in what was a 50/50 call by the time of the meeting and also emphasised the higher for longer narrative which similarly saw 2024 rate cuts priced out of the curve. The June 2024 meeting was priced 20bp higher. In the UK the Bank of England refrained from hiking as inflation data improved enough to give the Bank some leeway to allow already implemented tightening to take effect.

US yields took out the 2022 highs as the curve steepened and 10y yields hit levels not seen since 2007. The concern over treasury supply remained, despite decent demand metrics from the treasury auctions during the month. The German 10y yield also set new cycle highs, hitting the highest level since 2011. In the UK gilts outperformed as the better than expected improvement in inflation data and the Bank deciding not to hike rates supported the gilt market. On the data side US unemployment ticked higher to 3.8% but other labour market metrics such as jobless claims remained robust. On the inflation front core CPI and PCE was better than expected but headline numbers showed the impact of higher oil prices. In Europe the Eurozone flash CPI came in significantly lower than expected at 4.3%, down from the prior 5.2% and below the 4.5% expectation. This led some to question whether the latest ECB rate hike was a step too far given the evident disinflation. UK CPI also came in significantly lower than expectations, with the 6.2% core CPI print down from a 6.9% prior and missing expectations of 6.8%. This outcome, along with some weak economic data, justified the BOE decision not to hike.

Market moves over the month saw US 10y treasury yields rise by 46bp to 4.57% while German Bund yields gained 37bp to 2.84%. Gilts outperformed with 10y yields rising just 8bp to 4.44%. Risk assets ended the quarter on a sour note with the S&P 500 falling by 4.9% and the German DAX declining 3.5%. The UK's FTSE 100 gained 2.3%, aided by the GBP weakness. Chinese equities were also broadly weaker as the property sector continues to weigh on sentiment and broader economic activity, while stabilising somewhat, remains a concern. Credit spreads were modestly wider for the most part while commodities were mixed – overall commodity indices fell but the big talking point was the rise in oil prices, rising by 8.6% taking the quarterly gain to 28.5%. US dollar strength also continued, with the DXY rising 2.5% as higher US yields and weaker sentiment in EM supported the dollar. Looking ahead the market would be focusing on the higher for longer narrative and watching to see if the economic impact of higher rates became evident by way of weaker economic data prints.

October once again saw fixed income markets retreat as firm headline US economic data emboldened the view that rates would remain elevated for some time. US bond yields rose, global yield curves steepened, and risk assets sold off. Though a US government shutdown was avoided in an eleventh-hour agreement, conflict in the Middle East served as a reminder that markets are pushed from one risk event to another. Such were the woes of bond markets at the time that a flight to quality bid, which would normally see US Treasuries rally in times of such conflict, failed to materialise. From a data perspective 3Q GDP growth came in at a blistering 4.9%, exceeding expectations. Early month payrolls number printed at 336k, with an upward revision of 119k to previous month's numbers while the Fed's preferred inflation measure rose to a four-month high. This data pressured Treasury yields which rose across the curve. The thirty-year hit 5% for the first time since 2007, ending the month at 5.1%. This led to a sharp 35bp steepening of the 2s30s curve to finish the month upward sloping for the first time since the summer of 2022. The yield on the 10-year note rose 35bps in the month, ending at 4.93%. Conversely, in Europe, growth and inflation continued to trend down. The Eurozone's rate of inflation fell more than expected to 2.9%, from 4.3% in September. 3Q GDP unexpectedly contracted, highlighting the precarious position in which the bloc found itself. In the face of this weakening economic environment the ECB unsurprisingly held its deposit rate unchanged in the month. Considering these economic trends, the German Bund market rallied. Led by maturities between two and ten years, the yield curve steepened – with yields on shorter maturities falling and longer bond yields rising.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Investment Manager's Report (continued) For the financial year ended 31 March 2024 (continued)

The two-year Bund yield fell 19bps while the thirty-year rose 6bps in the month. Ten-year Bunds ended the month at 2.8%, falling from an intra-month 2.98% high, last experienced in 2011. Elsewhere the Bank of Japan announced a tweak to its Yield Curve Control framework by stating the 1% level for 10-year yields would now be a reference rather than its previously defined upper limit. Almost immediately after this announcement, the BoJ were unexpectedly forced to intervene in markets to stem the rising yields. Ten-year JGB yields ended the month 18bps higher at 0.94%.

With the pressure placed on rates markets, risk assets continue to weaken. The S&P500 fell into correction – down 10% from its recent peak. With its third consecutive month in the red, the index had endured its longest monthly losing streak since Q1 of 2020. German's DAX retreated 3.75%, also enduring three consecutive months of losses, while the UK's FTSE 100 reversed September's gain by losing 3.76% in October. Chinese equities were lower as both manufacturing and non-manufacturing PMI data were found to be in contraction territory. Embattled developer Country Garden defaulted on an offshore bond, something that had been long expected in the market. Credit spreads widened on the month – Global Investment Grade corporate bonds were 7bps wider while Global High Yield spreads ended October 40bps wider. Despite the Middle Eastern conflict, oil traded poorly, with WTI finishing the month at \$81, down 10.8% on the month. The US Dollar strengthened modestly in October and this, combined with rising US rates and higher global risk premia, saw EM markets suffer.

November saw a significant turnaround in performance for both risk-free and risky assets with market participants believing peak hawkishness and peak rates had passed. A benign economic outcome was priced in as global bond yields fell, credit spreads tightened, and equity markets halted a multi-month sell-off. After the US ten-year note began to fall from 5% in late October, early November data and events provided a foundation from which the rally could further accelerate. The Federal Reserve predictably left rates unchanged once again at the start of November. Greater focus was placed on the US Treasury's refunding announcement, which came in slightly lower than expected, ensuring unwanted pressure was not placed on the bond market. Capping off an eventful opening few days in November was a US payrolls report which showed a broad cooling of employment data and the second weakest level of jobs growth since December 2020. A soft 30-year bond auction, coinciding with a ransomware attack on China's biggest bank which disrupted trades in the US Treasury market, derailed the rally. Moody's, the last major rating agency to maintain a AAA on the US, threatened a downgrade. The disruption was only temporary, however, as inflation slowed, and rate cut euphoria returned with Fed speakers generally supporting the view. Markets were pricing in 114bps of cuts to be made by the Fed in 2024, up from 65bps at the start of the month.

In Europe the Eurozone unexpectedly contracted in Q3, while headline inflation fell from 2.9% in October to 2.4% in November. Signs of weakness in the single currency bloc were further affirmed as German industrial production fell for a fourth consecutive month. German pain was compounded as a court de-funded £60bn of spending and public spending froze for the rest of the year. In signs of a divergence vs core nations, the once-maligned periphery has been enjoying a better time – Moody's raised it's rating on Portugal by two notches, to A3, while also affirming Italy's rating and upgrading the outlook to stable. In Britain, Q3 GDP showed flat growth for Q3, avoiding analyst expectations of contraction, while the government announced both a cabinet reshuffle and an eye-catching number of tax cuts. The Bank of England left rates unchanged in November. Over the course of the month the yield on the US 10yr fell 60bps to finish at 4.33% while 10yr Bunds fell 36bps to finish at 2.45%. UK Gilts performed in line with Bunds to finish the month at a 4.17% yield, or 34bps lower. These yield moves led to performance in bond markets not seen in decades – the Bloomberg Global Aggregate index experienced its strongest monthly performance since 1995 while it was the best month for the US Agg since the mid-1980s.

Risk assets enjoyed their strongest month for some time. A three-month US equity market sell-off ceased with the highest month for stocks since mid-2022, while the Dow Jones reached its highest level since January 2022. Despite domestic weakness and political turmoil, Germany's DAX even benefitted from the everything-rally, up 9.5% on the month. Though up 1.8% for the month, the UK's FTSE100 was an underperformer having previously performed as a safe haven among equity markets and being correlated to commodity markets. Credit spreads tightened to levels not seen since Russia's invasion of Ukraine in February 2022. Global Investment grade spreads, led by the US, tightened 20bps to 122bps and Global High Yield spreads tightened 59bps. Oil served as an outlier in November, with WTI falling \$4.50 per barrel as a disrupted and delayed OPEC+ meeting resulted in only voluntary cuts.

The everything rally that kicked off in late October continued throughout December, with equity markets ending 2023 at, or near, record highs. Bond markets rallied and US treasuries completed their 2023 round trip – the 10 year yield ended 2023 precisely where it began. Though Fed chair Jay Powell indicated in early December that talk of rate cuts were "premature" and the central bank was "prepared to tighten" further if needed, a surprisingly dovish FOMC meeting mid-month provided the catalyst for strong end of year performance. With rates being left unchanged, as expected, the Fed's dot plot gave the clearest signal yet that 2024 would see rate cuts. Further to this, any investors expecting the chair would rein in market exuberance with a hawkish tone were caught off-guard. Powell spoke of the risks to the economy of leaving rates too high and that the focus had turned to the question of "when to cut".

Prior to the Fed meeting the December Nonfarm Payrolls report and November CPI pointed to an economy with a strong job market and stubbornly elevated inflation. This data did little to offset the direction of travel for markets in the month, particularly considering the subsequent Fed meeting. In Europe, December saw central bank activity of a less dovish variety than that in the US. While the BoE, ECB & SNB kept rates unchanged the Norges Bank delivered a surprise 25bp hike. ECB President Lagarde struck a more conservative tone than her US counterpart, stressing the need to bring inflation down despite highlighting downside risks to the economy.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Investment Manager's Report (continued) For the financial year ended 31 March 2024 (continued)

The central bank also announced an acceleration of the end of reinvestments under the PEPP program. Germany's coalition government agreed a revised 2024 fiscal plan, following the chaos caused November's court ruling that de-funded €60bn of spending. Rating agency actions continued to reflect the positive direction in the periphery: the Greek sovereign rating was upgraded to BBB- by Fitch, while Irish banks saw their outlooks at Moody's moved to positive. Elsewhere, the UK's economy contracted by 0.3% MoM, worse than expectations, and for the first time since July. In Japan, the BoJ pushed back against speculation that hikes to end the bank's policy of negative interest rates were imminent. 10yr JGBs ended the month 6bps lower.

Over the course of December, the yield on the 10yr US treasury fell 45bps to end the month at 3.88%, in line with the level at the beginning of the year. 10yr Bunds fell 42bps to 2.02% - a drop of 54bps over the year. 10yr Gilts outperformed on the month, driven by the weak GDP data, falling 64bps to 3.53%. Bond markets thus delivered positive performance, albeit unable to replicate the multi-decade returns seen in November. The Bloomberg Global Aggregate Index returned 3.2%, bringing the first year to generate positive performance since 2020. Risk assets similarly enjoyed a Santa Claus Rally to end 2023 on a high. The Dow Jones set a record high while the S&P500 closed fractionally off its January 2022 record level. Germany's DAX replicated the Dow by closing at a record, while France's CAC 40 touched a record mid-month before receding slightly to close the month. Unsurprisingly, credit spreads tightened further in December. Global Investment Grade Spreads tightened 7bps, led by both Euro and Sterling IG. Global High Yield spreads tightened by 38bps. Oil prices fell once again, despite disruption in major middle eastern shipping lanes.

As we moved into 2024 market participants continued to assess whether the Fed had truly averted a recession or merely delayed one. Politics were also set to come to the fore with more voters than ever in history likely to participate in national elections throughout the year.

After Q4 of 2023 delivered a stellar 'everything rally', 2024 began with a more diverse range of cross-market returns. Government bond yields rose as market belief that inflation had been tamed and interest rate cuts were imminent diminished through the month. DM equity markets eked out gains though Chinese equities softened materially as property sector weakness continues to weigh significantly on the economy.

Politics will be a key catalyst for financial markets in 2024 with record numbers globally voting in key elections. Taiwan's Presidential election was the first of these and it passed with the pro-independence party winning for an unprecedented third consecutive time. Though the US presidential election does not occur until November, the process began in January with primaries and the familiar sight of a victorious Donald Trump. Tensions continue to simmer in Ukraine while the situation in the Middle Easte escalated, impacting global trade. Cargo vessels were redirected around South Africa leading to delays and vastly increased freight rates – reminding markets of supply-chain induced inflation experienced throughout the pandemic.

Strong US data, as well as several Fed speakers attempting to temper Chair Powell's dovish December messaging, caused the market to reevaluate pricing for a rate cut in March. The market had priced an 85% probability of a cut at the start of January while we exited the month with that probability at just 35%. In terms of economic data, a robust payrolls number coupled with stronger than expected wage growth caught the eye as did December's retail sales release. The fatal blow to a Q1 rate cut was dealt by Powell himself at the Fed policy meeting on the last day of the month, all but ruling out such action. Despite this, the yield curve steepened - front end yields fell with 2-year yields 4bps lower to 4.21% while 10-year yields rose 3bps to finish the month at 3.91%.

Data releases in Europe showed that Germany narrowly escaped a recession last year - even though Q4 GDP fell 0.3%, the prior quarter's 0.1% drop was revised up to a 0% level, meaning Europe's largest economy avoided two straight quarters of contraction. France's economy also shows signs of stagnation. Like Germany, French Q3 GDP was revised to 0% in line with Q4. The ECB kept interest rates unchanged while President Lagarde spoke of rate cuts potentially beginning in the summer. Bond markets fared worse than the US with 2-year German Bund yields rising 2bps and 10-year yields rising 14bps.

The UK Gilt market was the underperformer among DM peers in January, as CPI surprised rose vs the prior month despite expectations of a fall. Service inflation remaining stubbornly high and accelerated in January. Expectations of rate cuts faded and yields rose – 2-year yields rose 28bps to 4.26% while 10-year yields rose 25bps to 3.79%.

Risk assets generally delivered a positive month, but not as uniformly as in the late 2023. Germany's DAX and France's CAC 40 joined the S&P500 in setting new record levels, while Japan's Topix was the best performing DM index in January. The Chinese domestic economy continued to weaken as retail sales disappointed and concerns over the property sector dragging down the economy increase. Policy maker response underwhelmed markets, reflected in the CSI 300 and the Hang Seng falling 6.3% and 9.8% respectively.

Credit market supply began 2024 with record volumes in European and US IG. With this overhang spread performance was mixed in January. Global Investment Grade Spreads tightened 5bps, led by both Euro and Sterling IG. Global High Yield spreads rose 1bp to 567bps as the US HY market saw spreads widen by 21bps, led by CCCs.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Investment Manager's Report (continued) For the financial year ended 31 March 2024 (continued)

The major market themes which began the year continued to dominate financial markets in February as equity and fixed income market performance diverged. With the US economy continuing to prove its resilience, expectations for rate cuts continued to diminish and global bond yields rose. DM equity markets continued to set new highs while Chinese equities rebounded strongly after the Lunar New Year and government actions to support the ailing stock market.

Hopes for a Federal Funds rate cut in March all but evaporated while pricing for June moved higher by 42bps over the course of the month. Early in the month, a strong nonfarm payrolls report of 353k, almost double the expected increase, set the tone while later in the month PMIs indicated continued economic expansion. Inflation data was also stronger than expected, with headline CPI for January at 3.1% year on year, above the 2.9% consensus forecast. The US treasury curve bear flattened as 2 year yields rose 40bps, 10 year yields rose 34bps and 30 year yields rose 21bps.

The German Bund market fared little better than the US market with yields rising across the curve. 2 year Bunds rose 48bps in February while 10 and 30 year Bunds rose by 25 and 15bps, respectively. These moves came despite continued weakening of the German economy. Industrial production fell by 1.6% month-on-month in December, residential property fell by the sharpest level on record and prices for office buildings fell 13% in Q4 of 2023. Weakness in the US market also impacted Germany via the banking space as concerns emerged over Deutsche Pfandbriefbank's exposure to US commercial real estate. The bank's AT1 saw its price plummet to as low as 19.

In the UK, February began with the BoE keeping rates unchanged, though the bank delivered a slightly dovish tilt by dropping a reference to risk of further tightening. Later in the month, inflationary data served caution to the bank: wage growth fell less than anticipated to 5.8% year-on-year while CPI for January remained elevated at 4% - the same level as December and above November's level. Data revealed the economy fell into recession after a 0.3% contraction in Q4 of 2023, following a 0.1% decline the prior quarter.

Risk assets rallied in February. Earnings season generally yielded positive results, particularly those of the 'magnificent seven' US stocks to have reported. The S&P 500 rose 5.3% on the month, crossing the symbolic 5,000 level. Also of note were Japanese equities with the Nikkei 225 reaching an all-time high for the first time since 1989. As data revealed Japan fell into recession late last year, expectations of BoJ rate hikes were priced out. Chinese equities rebounded from five year lows as multiple support measures were announced by the government, including short selling restrictions and rate cuts.

After January's record-setting credit market supply, February volumes continued apace. Non-Financial IG supply was almost unchanged month-on-month in Europe, something of a rare occurrence, while the US saw just under \$200bn of IG issuance. Prominent in the US space were several jumbo deals, including a \$13bn multi-tranche issue from Bristol Myers Squibb which garnered over \$85bn of demand. Global IG spreads were 5bps tighter on the month, led by EUR & GBP IG. Global HY spreads were 38bps tighter, reflective of the risk on month with US CCCs outperforming.

Global equities continued to set new highs throughout March while government bond yields and credit spreads alike rallied. Though some central banks kept markets waiting for a change of direction, two key central banks moved interest rates in opposite directions.

While hopes for a March Federal Funds rate cut had been extinguished long before the meeting, market participants were focused on the mid-month policy update for clues of direction later this year and next. The updated dot plot, the central bank's interest rate projections, reiterated a median expectation of three rate cuts this year, though one rate cut was removed from 2025. The 2024 dot plot, combined with Powell's sanguine press conference eased investor concerns of unwanted monetary tightening, with the chair dismissive of recent hot CPI prints. The Fed also revised higher their economic growth and employment projections.

The US economy remained resilient in March with both the service and manufacturing sectors continuing to expand and the jobs market, illustrated by nonfarm payrolls at 275k, proving to be tight. Inflation was again stronger than expected with core CPI topping forecasts for a second consecutive month. The US treasury curve bull flattened over the month with the 2 year unchanged while 10 and 30 year bond yields fell 5 & 4 bps respectively.

The German Bund market fared even better than Treasuries with 2,10 and 30yr Bund yields falling 5, 11 and 8bps respectively in March. Eurozone inflation data continued to track below the ECB's expectations as pressure for a June rate cut mounts, after the central bank maintained rates at the March meeting. Manufacturing and construction sectors continued to struggle in Germany as data revealed construction orders plunged by 7.4% MM in January.

In the UK, inflation cooled more than expected to reach the slowest pace since 2021. Such easing of price pressures has allowed the BoE to cut rates later this year, after also holding rates steady at their March meeting. Gilts outperformed on this with the 10yr yield falling 19bps on the month.

Elsewhere, the Bank of Japan ended an eight-year experiment with negative interest rates with their first hike since 2007. The bank, also announcing an end to yield curve control and purchases of equity ETFs & REITs, struck a dovish tone and the Yen weakened in the aftermath of the announcement. 10 year JGBs were unchanged over the month with yields lower post the BOJ announcement.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Investment Manager's Report (continued) For the financial year ended 31 March 2024 (continued)

Of greater surprise to the market was the decision by the Swiss National Bank to cut interest rates by 25bps to 1.5%. This was the first rate cut among the world's ten most traded currencies and seen as a signal to the Fed and more so to the ECB of easier monetary policy ahead.

Economic resilience combined with optimism of central bank policy direction helped risk assets to rally in March. Performance was broad in terms of sectors and regions in equity markets as the S&P500 (+3.1%) outperformed the Nasdaq (+1.8%) while both major US indices lagged European peers such as the Dax (+4.6%) and FTSE 100 (+4.2%).

Primary volumes remained robust in credit markets, capping off a record quarter in some cases. The US IG market saw \$142bn of issuance, brining Q1s total to \$530bn, a 38% increase over the same period in 2023. Europe's Q1 aggregate supply of €680bn exceeded the previous post-covid era record quarterly volume by 12%. Global IG spreads were 6bps tighter on the month, led by EUR IG. Global HY spreads were 13bps tighter with US HY outperforming. Cracks began to appear in European junk market as Altice, Ardagh, Intrum & Grifols all saw bond prices plummet. The European CCC index reflected these moves, widening by almost 400bps on the month, effectively wiping out the 7% YTD gain.

With the Swiss National Bank leading the way for monetary easing and the Fed dot plot for 2024 remaining unchanged, the path looked set for key DM central banks to ease in 2024. Volatile data releases including job and inflation prints could, however, cause bumps in the road.

Sub-Fund Performance

Rubrics Global Fixed Income UCITS Fund

Rubrics Global Fixed Income (UCITS) Fund (Class A USD) returned +1.10% in the twelve months to 31 March 2024. The Sub-Fund's reference index, the Bloomberg Global Aggregate Index (USD Hedged), returned +4.14% over the same period.

Rubrics Global Credit UCITS Fund

Rubrics Global Credit UCITS Fund (Class A USD) returned +4.28% in the twelve months to 31 March 2024. By the way of comparison, the Sub-Fund's reference index, (SOFR + 2.5%) returned +8.03% over the same period.

Rubrics Emerging Markets Fixed Income UCITS Fund

Rubrics Emerging Markets Fixed Income UCITS Fund (Class A USD) returned +2.55% in the twelve months to 31 March 2024. The Sub-Fund's reference index, being comprised of 50% of the Bloomberg EM Local Currency Liquid Govt Index (local currency) and 50% of the Bloomberg EM USD Aggregate Total Return Index (hard currency), returned +6.23% over the same period.

Rubrics Enhanced Yield UCITS Fund

Rubrics Enhanced Yield (UCITS) Fund (Class D USD) returned +0.92% in the period to 31 March 2024. The Sub-Fund does not have a reference index.

Rubrics Asset Management (Ireland) Limited May 2024

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Directors' Report

The Directors present their annual report together with the audited financial statements for Rubrics Global UCITS Funds Plc (the "Company") for the financial year ended 31 March 2024.

Principal Activities

The Company is an open-ended variable capital umbrella investment company with segregated liability between sub-funds, incorporated with limited liability in Ireland with registration number 426263.

As at 31 March 2024, the Company has four active sub-funds (individually referred to as the "Sub-Fund" and collectively referred to as the "Sub-Funds") as follows: Rubrics Global Fixed Income UCITS Fund, Rubrics Global Credit UCITS Fund, Rubrics Emerging Markets Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund. Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were fully redeemed and ceased trading on 27 November 2020. Effective 21 July 2023, Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund was revoked by the Central Bank.

Business Review and Future Prospects

In the opinion of the Directors, this information is set out in the report of the Investment Manager on pages 3 to 9.

Within the existing range of currencies offered, new share classes were created for each of the sub-funds on 17 September 2021 but have not launched as at 31 March 2024.

Results and Dividends

The Statement of Financial Position and the Statement of Comprehensive Income are set out on pages 23 and 28.

Dividends declared and paid during the financial year ended 31 March 2024 are disclosed in Note 20 of the notes to the financial statements.

Directors

The names of the persons who were Directors at any time during the financial years ended 31 March 2024 and 31 March 2023 are set out below.

John Fitzpatrick Carol Mahon Caitriona O'Malley

Directors' Interests in Shares and in Contracts

Caitriona O'Malley, a Director of the Company, was an employee of the Investment Manager up to 31 August 2023 and up to this date she had not received a fee for acting as a Director. On 1 September 2023, Caitriona O'Malley was appointed as a non-executive director of the Investment Manager and from this date she began receiving a fee for acting as a Director.

The Directors will, where acting in such capacity as Director of a Company, act at all times in the best interests of that Company.

None of the Directors, Goodbody Secretarial Limited (the "Company Secretary") (Up to 30 September 2023, Carne Global Financial Services Limited) nor their families had an interest in the share capital of the Company or the Sub-Funds as at or during the financial years ended 31 March 2024 and 31 March 2023.

Transactions involving Directors

In respect of the financial years ended 31 March 2024 and 31 March 2023, the Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Company in which the Directors or their connected persons had any interest as defined by the Companies Act 2014, other than those disclosed in Note 11, "Related party transactions".

Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with the Companies Act 2014 and the applicable regulations.

Irish company law requires the Directors to prepare financial statements for each financial year. Under company law, the Directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted for use in the European Union ("relevant financial reporting framework").

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Directors' Report (continued)

Directors' Responsibilities Statement (continued)

Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss for the financial year and otherwise comply with the Companies Act 2014.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies for the Company financial statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that the Company keeps, or causes to keep, adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and Directors' Report comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertaking for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and the Listing Rules of Euronext Dublin, and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' Compliance Statement

The Directors acknowledge that they are responsible for securing compliance by the Company with its Relevant Obligations as defined in Section 225 of the Companies Act 2014 (hereinafter called the "Relevant Obligations").

The Directors confirm that they have drawn up and adopted a compliance policy statement setting out the Company's policies that, in the Directors' opinion, are appropriate to the Company in respect of its compliance with its Relevant Obligations.

The Directors further confirm that the Company has put in place appropriate arrangements or structures that are, in the Directors' opinion, designed to secure material compliance with its Relevant Obligations including reliance on the advice of persons employed by the Company and external legal and tax advisers as considered appropriate from time to time and that they have reviewed the effectiveness of these arrangements or structures during the financial year to which this report relates.

Accounting Records

The measures that the Directors have taken to secure compliance with the requirements of Sections 281 to 285 of the Companies Act 2014 with regard to the keeping of accounting records are the employment of a service organisation, BNY Mellon Fund Services (Ireland) Designated Activity Company ("BNY Mellon DAC"), the Administrator. The Company's accounting records were maintained at the office of BNY Mellon DAC at One Dockland Central, Guild Street, IFSC, Dublin 1, Ireland throughout the financial years ended 31 March 2024 and 31 March 2023.

Main Risks and Uncertainties

The main risks and uncertainties facing the Company are set out in Note 12 to the financial statements.

Significant Events

Please refer to Note 21 "Significant events" for material events during the financial year that have a material bearing on the understanding of the financial statements.

Subsequent Events

Please refer to Note 22 "Subsequent events" for material events after the financial year that have a material bearing on the understanding of the financial statements.

Independent Auditors

Grant Thornton Ireland have indicated their willingness to remain in office in accordance with Section 383 (2) of the Companies Act 2014.

Connected Person Transactions

The Central Bank UCITS Regulations states that any transaction carried out with a UCITS by a management company or depositary to a UCITS; and the delegates or sub-delegates of such a management company or depositary (excluding any nongroup company sub-custodians appointed by a depositary); and any associated or group company of such a management company, depositary, delegate or sub-delegate ("connected person") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the shareholders.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Directors' Report (continued)

Connected Person Transactions (continued)

Under the Central Bank UCITS Regulation 81(4), the Directors, as responsible persons, are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) are applied to all transactions with connected persons; and the Directors are satisfied that transactions with connected persons entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Corporate Governance Statement

Although there is no specific statutory corporate governance code applicable to Irish collective investment schemes whose shares are admitted to trading on Euronext Dublin, the Company is subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 which is available for inspection at the registered office of the Company and may also be obtained at http://www.irishstatutebook.ie/home.html;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company at 2nd Floor, Block E, Iveagh Court, Harcourt Road, Dublin 2, Ireland and at the Companies Registration Office in Ireland;
- (iii) The Central Bank of Ireland (the "Central Bank") in their Central Bank UCITS Regulations which can be obtained from the Central Bank's website at: www.centralbank.ie and are available for inspection at the registered office of the Company; and
- (iv) The Euronext Dublin through the Euronext Code of Listing Requirements and Procedures which can be obtained from the website at: www.euronext.com.

Irish Funds ("IF"), the industry association for investment funds in Ireland, published a corporate governance code ("IF code") in December 2011 that may be adopted on a voluntary basis by Irish authorised management companies. The IF Code has been adopted by the Company with an effective date of 31 December 2012.

The Board of Directors are responsible for ensuring the design and implementation of internal control systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. The annual and half-yearly financial statements of the Company are required to be approved by the Board of Directors of the Company and filed with the Central Bank. The statutory financial statements are required to be audited by an independent auditor who reports annually to the Board on their findings and are also filed with Euronext Dublin.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. As the Company has no employees, all functions, including the preparation of the financial statements, have been outsourced. The Company has appointed the Administrator consistent with the regulatory framework applicable to investment fund companies such as the Company. The Administrator has responsibility for the preparation of the Company's annual and half-yearly financial statements and the maintenance of the Company's accounting records.

The Board receives regular presentations and reviews reports from The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary"), Investment Manager, Manager and Administrator. The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board is advised by the Administrator and the Auditors as to changes in accounting rules and provides recommendations as to how these changes are best reflected in the Company's financial statements.

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene an extraordinary general meeting. Not less than twenty one day's notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting unless the Auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

Two members present either in person or by proxy constitute a quorum at a general meeting. The quorum for a general meeting convened to consider any alteration to the class rights of shares is two persons present in person or by proxy.

Every holder of participating shares or non-participating shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present in person or by proxy is entitled to one vote in respect of each share held by him and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him. The chairman of a general meeting of the Company or at least two members present in person or by proxy or any holder or holders of participating shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Directors' Report (continued)

Corporate Governance Statement (continued)

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company or of the shareholders of a particular fund or class requires a simple majority of the votes cast by the shareholders voting in person or by proxy at the meeting at which the resolution is proposed.

A special resolution of the Company or of the shareholders of a particular sub-fund or class requires a majority of not less than 75% of the shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Unless otherwise determined by an ordinary resolution of the Company in a general meeting, the number of Directors may not be less than two. Currently, the Board of Directors of the Company is composed of three Directors, being those listed in the General Information section of these financial statements.

The Directors exercise all powers of the Company as are noted by the Companies Act 2014 or by the Articles of Association of the Company and required to be exercised by the Company in a general meeting.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

There are no sub-committees of the Board.

Sustainable Financial Regulation Disclosure

The Funds are categorised as Article 6 fund under Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector. The investments underlying these Funds do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088.

Statement on Relevant Audit Information

In accordance with Section 330 of the Companies Act 2014, each of the persons who are Directors at the time the report is approved confirm the following:

- so far as the Director is aware, there is no relevant audit information of which the Company's statutory Auditors are unaware; and
- 2. the Director has taken all the steps that he or she ought to have taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the Company's statutory Auditors are aware of that information.

Approved on behalf of the Board of Directors:

John Fitzpatrick

REPORT FROM THE DEPOSITARY TO THE SHAREHOLDERS

For the period from 01 April 2023 to 31 March 2024 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary" "us", "we", or "our") has enquired into the conduct of Rubrics Global UCITS Funds Plc (the "Company") for the Period, in its capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as Depositary to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as Depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

For and on behalf of The Bank of New York Mellon SA/NV, Dublin Branch Riverside II,
Sir John Rogerson's Quay,
Grand Canal Dock,
Dublin 2

Date: 26 June 2024

Opinion

We have audited the financial statements of Rubrics Global UCITS Funds Plc (the "Company"), which comprise the Statement of Financial Position, the Company Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, the Statement of Cash Flows for the financial year ended 31 March 2024, and the related notes to the financial statements, including the summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion, the Company's financial statements:

- give a true and fair view in accordance with IFRS as adopted by the European Union of the assets, liabilities and financial position of the Company as at 31 March 2024 and of its financial performance for the financial year then ended; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the
 European Communities (Undertakings for Collective Investment in Transferable Securities)
 Regulations 2011 (as amended) (the "UCITS Regulations"), and the Central Bank (Supervision and
 Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable
 Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ('ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the 'Responsibilities of the audit of the financial statements' section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the Company. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue as a going concern basis of accounting included:

- Obtaining an understanding of the process and relevant controls over the Company's going concern assessment;
- Obtaining the directors' formal assessment of going concern and challenged key assumptions
 within the assessment. This included reviewing each of the sub-funds' liquidity analysis, post year
 end performance and business activities including post year end subscriptions and redemptions,
 post year distributions, and NAV movements in order to support the appropriateness of the
 Company's going concern assessment;

Conclusions relating to going concern (continued)

- Making enquiries and discussions with management, and reviewing the board minutes during the
 financial year up to date of approval of the financial statements, in order to understand the future
 plans for the company and to identify potential contradictory information; and
- Assessing the adequacy of the disclosures made in the financial statements with respect to the going concern assumption.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue. Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and the directing of efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and therefore we do not provide a separate opinion on these matters.

Overall audit strategy

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements. We also addressed the risk of management override of internal controls, including evaluating whether there was any evidence of potential bias that could result in a risk of material misstatement due to fraud.

Based on our considerations as set out below, our audit areas of focus included existence and valuation of financial assets and financial liabilities at fair value through profit or loss.

How we tailored the audit scope

The Company is incorporated as an open-ended umbrella investment company with segregated liability between sub-funds. As at 31 March 2024, there were four active sub-funds in existence. The directors control the affairs of the Company and they are responsible for the overall investment policy, which is determined by them. The Company engages Rubrics Asset Management (Ireland) Limited (or the "Investment Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company.

The directors have delegated certain responsibilities to BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") including maintenance of the accounting records. The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed the Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") to act as depositary of the Company's assets.

Key audit matters (continued)

How we tailored the audit scope (continued)

We tailored the scope of our audit taking into account the types of investments within the Company, the structure of the Company, the involvement of third party service providers, the accounting processes and controls, and the industry in which the Company operates.

In establishing the overall approach to our audit, we assessed the risk of material misstatement at a Sub-Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, Depositary, Manager and Investment Manager and we assessed the control environment in place at each.

Materiality and audit approach

The scope of our audit is influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, such as our understanding of the Company and its environment, history of misstatements, the complexity of the Company and the reliability of the control environment, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole.

Based on our professional judgement, we determined materiality for each of the Company's sub-funds as follows: 1% of Net Asset Value ("NAV") at 31 March 2024. We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a sub-fund level.

We have set performance materiality for each of the sub-funds at 75%, having considered business risks and fraud risks associated with the Company, its sub-funds, and its control environment. This is to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements in the financial statements exceeds materiality for the financial statements as a whole.

We agreed with the directors that we would report to them misstatements identified during our audit above 5% of each sub-fund's NAV, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Significant matters identified

The risks of material misstatement that had the greatest effect on our audit, including the allocation of our resources and effort, are set out below as significant matters together with an explanation of how we tailored our audit to address these specific areas in order to provide an opinion on the financial statements as a whole. This is not a complete list of all risks identified by our audit.

Key audit matters (continued)

Description of significant matter

value through profit or loss

Significant matters identified (continued)

Existence of Financial assets and liabilities at fair

Financial assets and liabilities at fair value through profit or loss represent a principal element of the financial statements. We considered the risk that the investment securities included in the Statement of Financial Position as at 31 March 2024 did not exist or that they were not held in the Company's name at the financial year-end, which could result in a material misstatement. As a result, we considered existence of these assets and liabilities as a key audit matter.

Notes 2 and 3 to the financial statements detail the accounting policies and balances of financial assets and liabilities at fair value through profit or loss held by the Company at the financial year-end.

Valuation of Financial assets and liabilities at fair value through profit or loss

There is a risk that the financial assets and liabilities at fair value through profit or loss included in the Statement of Financial Position as at 31 March 2024 are not valued at fair value in line with IFRS as adopted by the European Union due to use of inappropriate valuation methodology and assumptions, which could result in a material misstatement.

Significant auditor's attention was deemed appropriate because of the materiality of the financial assets and liabilities at fair value through profit or loss. In addition, the valuation is also a key contributor to the financial performance of the Company.

Notes 2, 3, 4 and 12 to the financial statements detail the accounting policies, valuation of the financial assets and liabilities at fair value through profit or loss held by the Company at the financial year-end and financial risk management.

Audit response to significant matter

The following audit work has been performed to address the risk:

- we obtained the Company's Administrator's internal control report, and assessed the design and implementation of internal controls relevant to the existence of financial assets and liabilities at fair value through profit or loss; and
- we obtained direct independent confirmation of the existence of instruments held at year end with the Depositary charged with safeguarding the Company's assets and liabilities and agreed to accounting records.

Our planned audit procedures were completed without material exception.

The following audit work has been performed to address the risk:

- we obtained and reviewed the Company's Administrator's internal control report, and assessed the design and implementation of internal controls relevant to the valuation of financial assets and liabilities at fair value through profit or loss;
- we re-performed the assigned valuation of each instrument using independent pricing source i.e. Bloomberg and Reuters; and
- we assessed the Company's valuation policy, fair value hierarchy classification and adequacy of related financial statements disclosures in accordance with the requirements of IFRS as adopted by the European Union.

Our planned audit procedures were completed without material exception.

Other information

Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon, including the Investment Manager's Report, Directors' Report, Report from the Depositary to the Shareholders, Unaudited Statement of Major Changes in Investments, Unaudited Other Financial Information, Unaudited UCITS V Remuneration Policy and Unaudited EU Sustainability Regulation. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If we identify such material inconsistencies in the financial statements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations, which we consider necessary for the purposes of our audit.
- In our opinion, the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion, the information given in the Directors' Report is consistent with the financial statements. Based solely on the work undertaken in the course of our audit, in our opinion, the Directors' Report has been prepared in accordance with the requirements of the Companies Act 2014.

Matters on which we are required to report by exception

Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' Report.

Under the Companies Act 2014, we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of the Act have not been made. We have no exceptions to report arising from this responsibility.

Corporate governance statement

In our opinion, based on the work undertaken in the course of our audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) and (d) of the Companies Act 2014.

Based on our knowledge and understanding of the Company and its environment obtained in the course of our audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.

In our opinion, based on the work undertaken during the course of our audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) is contained in the Corporate Governance Statement.

Responsibilities of management and those charged with governance for the financial statements

As explained more fully in the Directors' responsibilities statement, management is responsible for the preparation of the financial statements which give a true and fair view in accordance with IFRS as adopted by the European Union, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Responsibilities of the auditor for the audit of the financial statements

The objectives of an auditor are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Irish Auditing and Accounting Supervisory Authority's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf. This description forms part of our auditor's report.

Responsibilities of the auditor for the audit of the financial statements (continued)

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud (continued)

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatement in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (Ireland). The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of data privacy policy and non-compliance with laws and regulations related to compliance with European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"), and Euronext Dublin Listing Rules (Global Exchange Market), and we considered the extent to which non-compliance might have a material effect on the financial statements.

We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the local law i.e. Companies Act 2014 and the local tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial performance and management bias through judgements and assumptions in significant accounting estimates, in particular in relation to significant one-off or unusual transactions. We apply professional scepticism through the audit to consider potential deliberate omission or concealment of significant transactions, or incomplete/inaccurate disclosures in the financial statements.

In response to these principal risks, our audit procedures included but were not limited to:

- enquiries of management on the policies and procedures in place regarding compliance with laws
 and regulations, including consideration of known or suspected instances of non-compliance and
 whether they have knowledge of any actual, suspected or alleged fraud;
- inspection of the Company's regulatory and legal correspondence and review of minutes of directors' meetings during the year to corroborate inquiries made;
- gaining an understanding of the entity's current activities, the scope of authorisation and the effectiveness of its control environment to mitigate risks related to fraud;
- discussion amongst the engagement team in relation to the identified laws and regulations and regarding the risk of fraud, and remaining alert to any indications of non-compliance or opportunities for fraudulent manipulation of financial statements throughout the audit;
- identifying and testing journal entries to address the risk of inappropriate journals and management override of controls;
- designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing;

Responsibilities of the auditor for the audit of the financial statements (continued)

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud (continued)

- review of the financial statement disclosures to underlying supporting documentation and inquiries of management; and
- engagement partner's assessment of the engagement team's collective competence and capabilities to identify or recognise non-compliance with the laws and regulation.

The primary responsibility for the prevention and detection of irregularities including fraud rests with those charged with governance and management. As with any audit, there remains a risk of non-detection or irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or override of internal controls.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose.

To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

[^] Investment in other Sub-Fund of the Company.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024

1. Organisation

Rubrics Global UCITS Funds Plc (the "Company") is an open-ended variable capital umbrella investment company with segregated liability between sub-funds and authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities Undertakings for Collective Investment in Transferable Securities Regulations 2011, (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company was incorporated on 11 September 2006 with limited liability in Ireland with registration number 426263.

As at 31 March 2024, the Company had four active sub-funds (individually referred to as the "Sub-Fund" and collectively referred to as the "Sub-Funds") as follows: Rubrics Global Fixed Income UCITS Fund, Rubrics Global Credit UCITS Fund, Rubrics Emerging Markets Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund. Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were fully redeemed and ceased trading on 27 November 2020. Effective 21 July 2023, Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were revoked by the Central Bank.

The investment objective of Rubrics Global Fixed Income UCITS Fund is to achieve positive total returns and long-term capital appreciation by investing primarily in global fixed income securities. The Sub-Fund seeks to achieve its investment objective by building a diversified portfolio of bonds and other fixed income securities which are traded on international bond markets, which will reflect both medium and long-term views of macro-economic themes such as global inflation, growth and credit cycles.

The investment objective of Rubrics Global Credit UCITS Fund is to invest in a diversified, global portfolio of high-quality credit securities over the long-term. The Sub-Fund seeks to achieve its investment objective by primarily investing directly in a combination of fixed and floating rate bonds issued by corporates and in other interest-bearing securities including loan stock, debenture bonds and notes and liquid assets.

The investment objective of Rubrics Emerging Markets Fixed Income UCITS Fund is to achieve positive total returns and long-term capital appreciation by investing primarily in global emerging market fixed income securities. The Sub-Fund seeks to achieve its investment objective by building a diversified portfolio of transferable securities, bonds and other fixed income securities.

The investment objective of Rubrics Enhanced Yield UCITS Fund is to invest in a diversified, global portfolio of fixed income securities with attractive income generating characteristics over the long-term.

As at 31 March 2024, the following issued share classes of the Sub-Funds were listed on the Global Exchange Market ("GEM") of Euronext Dublin:

Sub-Fund	Share Class	Sub-Fund	Share Class

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

2. Material accounting policies

(a) Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted for use in the European Union and Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

Effective 21 July 2023, Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund including its subsidiaries, IFI Rubrics Limited and Q IFI Rubrics Limited (collectively referred to as the "Subsidiaries"), were revoked by the Central Bank; hence, there are no consolidated financial statements as of 31 March 2024.

As at 31 March 2023, the Company's financial statements represent the financial statements of the Company and its Subsidiaries (the "Group") in accordance with IFRS 10 "Consolidated Financial Statements" ("IFRS 10"). The Company has not availed of the exemption provided by IFRS 10 for investment entities not to consolidate their interests in subsidiaries but has consolidated its interests in the Subsidiaries on the basis that it has the power to exercise control over their operations. In addition, the Subsidiaries provide services that relate to the Company's investment activities and the Subsidiaries themselves are not deemed to be investment entities. The Company owned 100% of the outstanding shares of both IFI Rubrics Limited, through Rubrics India Fixed Income UCITS Fund's investment in IFI Rubrics Limited and Q IFI Rubrics Limited, through Q Rubrics India Fixed Income UCITS Fund's investment in Q IFI Rubrics Limited. All transactions and balances between the Company and the Subsidiaries have been eliminated upon consolidation.

All transactions and balances between Sub-Funds of the Company have been eliminated. The net increase in net assets attributable to the Company for the financial year ended 31 March 2024 is US\$11,802,539 (31 March 2023: net decrease of US\$34,134,076). The Company Statement of Financial Position present assets and liabilities in order of liquidity and does not distinguish between current and non-current items.

Significant accounting judgments, estimates and assumptions

The preparation of financial statements in conformity with IFRS requires the use of accounting estimates and assumptions. It also requires management to exercise its judgement in the process of applying the Sub-Funds' accounting policies. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed within Note 2(d) "Investments - Fair value estimation".

Functional and presentation currency

The functional and presentation currency of each Sub-Fund is the US Dollar. The US Dollar is the currency noted in the prospectus of the Company (the "Prospectus"). It is the currency relevant to the initial investment policy and which most faithfully represents the economic effects of the underlying transactions, events and investor base of each Sub-Fund. The presentation currency of the Company is also the US Dollar.

(b) Statement of Cash Flows

The indirect method has been applied in the preparation of the Statement of Cash Flows.

(c) Accounting Standards

(i) New accounting standards, amendments and interpretations in issue and effective for the financial periods beginning on or after 1 April 2023

At the date of approval of these financial statements, the following standards, amendments and interpretations to existing standards were adopted by the Company effective from 1 April 2023:

Narrow-scope amendments to IAS 1, Practice statement 2 and IAS 8

The amendments aim to improve accounting policy disclosures and to help users of the financial statements to Distinguish between changes in accounting estimates and changes in accounting policies.

The amendments apply for annual reporting periods beginning on or after 1 January 2023.

Amendment to IAS 12 - deferred tax related to assets and liabilities arising from a single transaction

These amendments require companies to recognise deferred tax on transactions that, on initial recognition give rise to equal amounts of taxable and deductible temporary differences.

The amendments apply for annual reporting periods beginning on or after 1 January 2023.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

2. Material accounting policies (continued)

(c) Accounting Standards (continued)

(i) New accounting standards, amendments and interpretations in issue and effective for the financial periods beginning on or after 1 April 2023 (continued)

Amendment to IAS 12 - deferred tax related to assets and liabilities arising from a single transaction (continued)

The adoption of the amendments did not have a significant impact on the Company's financial statements. There are no other standards, amendments to standards or interpretations effective for annual period beginning on or after 1 April 2023 that have a material effect on the Company's financial statements.

(ii) Accounting standards, amendments and interpretations to existing standards in issue but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below, except for those standards which, in the opinion of the Board, will clearly not impact the Company. The Company intends to adopt these standards, if applicable, when they become effective.

IFRS S1 - General Requirements for Disclosure of Sustainability-related Financial Information

The objective of IFRS S1 is to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to users of general-purpose financial reports in making decisions relating to providing resources to the entity. IFRS S1 requires an entity to disclose information about all sustainability-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term (collectively referred to as 'sustainability-related risks and opportunities that could reasonably be expected to affect the entity's prospects'). IFRS S1 is effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted as long as IFRS S2 Climate-related Disclosures is also applied.

IFRS S2 - Climate-related Disclosures

The objective of IFRS S2 is to require an entity to disclose information about its climate-related risks and opportunities that is useful to users of general-purpose financial reports in making decisions relating to providing resources to the entity. IFRS S2 requires an entity to disclose information about climate-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term (collectively referred to as 'climate-related risks and opportunities that could reasonably be expected to affect the entity's prospects'). IFRS S2 is effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted as long as IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information is also applied.

(d) Investments

(i) Classification

The Sub-Funds classify their investments based on both its business model for managing financial assets and the contractual cash flow characteristics of the financial assets. The Sub-Funds' policies require Rubrics Asset Management (Ireland) Limited (the "Investment Manager") and the Board of Directors to evaluate the information about the portfolio of financial assets on a fair value basis together with other related financial information. Hence, the Sub-Funds are primarily focused on fair value information and use that information to assess the investments' performance and to make decisions. The contractual cash flows of the Sub-Funds' debt instruments are solely principal and interest, however, these securities are not held for the purpose of collecting contractual cash flows. The securities are mainly held for sale and the collection of contractual cash flows is only incidental to achieving the Sub-Fund's investment objective.

As such, the Sub-Funds classify their investments in bonds, treasury obligations, commercial paper, preferred stock, collective investment schemes and forward foreign currency contracts as financial assets or financial liabilities at fair value through profit and loss ("FVTPL").

Financial assets that are not at fair value through the profit or loss, include cash and cash equivalents, receivable from Investment Manager, subscriptions receivable, receivable for investments sold, interest receivable and other assets. Financial liabilities that are not at fair value through profit or loss include bank overdraft, redemptions payable, payable for investments purchased, expenses payable and other accrued expenses. These other financial assets and financial liabilities are held at amortised cost.

(ii) Recognition and measurement

The Company recognises financial assets and financial liabilities when all significant rights and access to the benefits from the assets and the exposure to the risks inherent in those benefits are transferred to the Company.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

2. Material accounting policies (continued)

(d) Investments (continued)

(ii) Recognition and measurement (continued)

Financial assets and financial liabilities at fair value through profit or loss are recognised initially on the trade date, which is the date the Sub- Funds become a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised on the date they are originated.

Financial assets and financial liabilities at fair value through profit or loss are recognised initially at fair value, with transaction cost recognised in the Statement of Comprehensive Income. Financial assets or financial liabilities (other than those classified as at FVTPL) are recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue. Realised gains and losses on financial assets and financial liabilities at fair value through profit or loss are calculated based on the first-in first-out ("FIFO") method.

(iii) Fair value estimation

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. The Sub-Funds utilise the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread.

The fair value of financial instruments not traded in active markets is determined using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at the reporting date. Valuation techniques used includes the use of discounted cash flow analysis and other valuation techniques used by market participants. The values assigned to these instruments are based upon the best available information and because of the uncertainty of the valuation, these values may differ significantly from the values that would have been realised had a readily available market for these instruments existed and the differences could be material.

Collective investment schemes are valued at the latest available net asset value per share as published by the relevant collective investment scheme or, if listed or traded on a recognised exchange is based on quoted market prices at the Statement of Financial Position date. When a Sub-Fund hold derivatives with offsetting market risks, it uses last traded prices as a basis for establishing fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities).

(iv) De-recognition

The Company de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of the ownership and does not retain control of the financial asset.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset that is de-recognised) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the Statement of Comprehensive Income. Any interest in such transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability. The Company de-recognises a financial liability when its contractual obligations are discharged or cancelled or expired.

(e) Cash and cash equivalents and Bank overdrafts

Cash and cash equivalents are valued at their face value together with interest accrued using the effective interest method, where applicable.

Bank overdrafts are shown separately in the Statement of Financial Position.

(f) Interest income and expenses

Interest income arising from investments is accounted for on an effective yield basis. Withholding tax is presented as a separate line item in the Statement of Comprehensive Income. Expenses are accounted for on an accruals basis. Interest income includes interest earned on investments in bonds and cash and cash equivalents.

(g) Net assets attributable to holders of redeemable shares

The Sub-Funds provide shareholders the right to redeem their interests in the Sub-Funds at any time for cash equal to their proportionate share of the net asset value of the Sub-Funds and accordingly share capital is classified as a liability in accordance with IAS 32 "Financial Instruments: Disclosure and Presentation". The liability to shareholders is presented in the Statement of Financial Position as "Net assets attributable to holders of redeemable shares" and is determined based on the residual assets of the Sub-Funds after deducting the Sub-Funds' other liabilities.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

2. Material accounting policies (continued)

(h) Foreign exchange

Foreign currency assets and liabilities, including investments, are translated at the exchange rate prevailing at the financial year end date. The foreign exchange gain or loss on the translation of assets and liabilities is included in "Net loss on financial assets and financial liabilities at fair value through profit or loss" in the Statement of Comprehensive Income. Transactions are translated at the rate of exchange ruling on the date of the transaction.

(i) Derivatives

Over-the-Counter ("OTC") derivatives, including forward foreign currency contracts are valued using quoted market prices, valuation models and broker quotations. In instances where models are used, the value of an OTC derivative depends upon the contractual terms of, and specific risks inherent in, the instrument as well as the availability and reliability of observable inputs. Such inputs include market prices for reference securities, yield curves, measures of volatility, prepayment rates and correlations of such inputs. There were no securities valued using valuation models during or at the financial year end. The unrealised gain or loss on forward foreign currency contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Realised gains or losses include net gains or losses on contracts which have been settled or offset by other contracts.

(j) Cash and securities received/pledged as collateral

Cash collateral received by Sub-Funds is identified in the Statement of Financial Position as "cash collateral received". Cash collateral received is restricted and does not form part of the Sub-Funds' cash and cash equivalents. The obligation to return the cash collateral is identified in the Statement of Financial Position as "cash collateral payable". Cash collateral provided by the Sub-Funds is identified in the Statement of Financial Position as "cash collateral pledged" and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Sub-Funds classify that asset in its Statement of Financial Position separately from other assets and identify the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the Schedule of Investments by way of an annotation.

(k) Structured entities

Pursuant to IFRS 12, "Disclosure of interests in other entities" the Company has concluded that the non-subsidiary structured entities, namely Collective Investment Schemes in which it invests, meet the definition of structured entities because:

- The voting rights in the structured entities are not dominant rights in deciding who controls them because they relate to administrative tasks only;
- Each structured entity's activities are restricted by its prospectus; and
- The structured entities have narrow and well-defined objectives to provide investment opportunities to investors.

Rubrics Global Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund invests in other Sub-Funds of the Company, each of which is also managed by the Investment Manager. These are classified under "Collective Investment Schemes" in the Schedule of Investments. Please refer to Note 11 for a summary of the Sub-Fund's investments in other Sub-Funds of the Company as at 31 March 2024 and 31 March 2023.

Net realised loss and net change in unrealised loss incurred on the cross investments for the year ended 31 March 2024 were US\$509,870 (31 March 2023: US\$727,970) and US\$193,889 (31 March 2023: gain US\$1,705,253), respectively. These are accounted for within the line item "Net loss on financial assets and financial liabilities at fair value through profit or loss" in the Statement of Comprehensive Income.

(l) Transaction costs

Transaction costs are costs incurred to acquire financial assets or financial liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs on the purchase and sale of bonds and forward foreign currency contracts, are included in the purchase and sale price of the investment.

(m) Cross investment

As at the reporting date, Rubrics Global Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund held investments in other Sub-Funds of the Company. These cross investments have been eliminated in the financial statements of the Company and the Group. Where a Sub-Fund invests in another Sub-Fund or Sub-Funds of the Company, these cross investments have been deducted from the total net asset value when calculating the fund management fees payable. The realised gains and losses, including movements in unrealised gains and losses, on the cross investments have been eliminated in the total amounts disclosed in the Statement of Comprehensive Income. Please refer to Note 11 for details of cross investments held as at 31 March 2024 and 31 March 2023.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

2. Material accounting policies (continued)

(n) Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position where the Sub-Fund currently has a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty. Please refer to Note 14 for details in respect of offsetting and presentation in the financial statements.

(o) Distribution policy

Distribution to holders of redeemable shares, if any, are recognised in the Statement of Comprehensive Income as a "finance cost" when they are authorised by the Directors, as detailed in the Prospectus. For accumulating share classes, all income earned and realised net capital gains after the deduction of expenses are reinvested and reflected in the net asset value per share.

(p) Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements of the Company continue to be prepared on a going concern basis.

3. Fair value of financial instruments

IFRS 13 "Fair Value Measurement" requires a fair value hierarchy where financial instruments are recognised at fair value, based on the following levels:

- Quoted unadjusted prices in active markets for identical assets or liabilities (Level 1);
- Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (Level 2); and
- Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Rubrics Asset Management (Ireland) Limited (the "Investment Manager"). The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3. Fair value of financial instruments (continued)

The tables below analyse within the fair value hierarchy each Sub-Fund's financial assets and financial liabilities (by security type) measured at fair value as at 31 March 2024 and 31 March 2023:

^{^^}Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

As at 31 March 2024 and 31 March 2023, there were no securities held by Q Rubrics India Fixed Income UCITS Fund and Rubrics India Fixed Income UCITS Fund as the sub-funds were fully redeemed and ceased trading on 27 November 2020 and revoked by the Central Bank on 21 July 2023.

All other assets and liabilities including cash and cash equivalents as at 31 March 2024 and 31 March 2023 are carried at amortised cost; their carrying values are a reasonable approximation of fair value. As such, Level 2 is deemed to be the most appropriate categorisation for these financial instruments.

There were no Level 3 securities held as at 31 March 2024 and 31 March 2023, respectively.

During the financial year ended 31 March 2024 and financial year ended 31 March 2023, there were no transfers between levels of the fair value hierarchy. Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the financial year.

5. Shares in issue

The authorised share capital of the Company is €2 divided into 2 management shares of €1 each and 100 billion redeemable shares of no par value. Both of the management shares have been issued. As at 31 March 2024 and 31 March 2023, the management shares were held by S O'Hanlon Limited and the Investment Manager. None of the shares issued by the Company will carry preference rights or rights of pre-emption. The management shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the dividends or net assets of the Company except to the extent of the initial subscription and simple interest accrued thereon at normal commercial rates. The redeemable shares entitle the holders to attend and vote at general meetings of the Company and to participate equally on a pro rata basis in the dividends and net assets of the Company, save in the case of dividends declared prior to becoming a shareholder.

Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund including its subsidiaries, IFI Rubrics Limited and Q IFI Rubrics Limited, were fully redeemed and ceased trading on 27 November 2020.

Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

^{*} The consolidated total excludes transactions between Sub-Funds.

Shares in issue (continued)

The movement in number of redeemable shares during the financial years ended 31 March 2024 and 31 March 2023 was as follows:

6. Cash and cash equivalents and bank overdraft

As at 31 March 2024 and 31 March 2023, cash and cash equivalents and bank overdrafts of the Company and the Group are held with The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary"). As at 31 March 2023, cash accounts are also held with HSBC Bank (Mauritius) Limited on behalf of the Subsidiaries. As at 31 March 2024, there are no cash balances in relation to the Subsidiaries.

Cash account arrangements have been put in place in respect of the Company and the Sub-Funds as a consequence of the introduction of the requirements relating to the subscription and redemption collection accounts pursuant to the Central Bank of Ireland (Supervision and Enforcement) Act 2013 (Section 48 (i)) Investor Money Regulations 2015 for Fund Service Providers ("Investor Money Regulations"), which took effect from 1 July 2016.

These cash accounts, held with The Bank of New York Mellon SA/NV for collection of subscriptions and payment of redemptions and dividends for the Company, are deemed assets of the Company. The balance on these cash accounts, where material, is reflected on the Statement of Financial Position of the relevant Sub-Funds. As at 31 March 2024 and 31 March 2023, the balances in these cash accounts are deemed immaterial and not adjusted in these financial statements.

7. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities as at 31 March 2024 or 31 March 2023.

8. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On this basis, it is not chargeable to Irish tax on its income or gains.

However tax may arise on the happening of a chargeable event. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares. No Irish tax will arise on the Sub-Funds in respect of chargeable events in respect of:

- a shareholder who is not Irish resident and not ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided the appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Sub-Funds; and
- certain exempted Irish tax resident investors who have provided the Sub-Funds with the necessary signed statutory declarations.

Dividend income, interest and capital gains (if any) received on investments made by the Sub-Funds may be subject to withholding tax by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

9. Fees and expenses

The expenses incurred by IFI Rubrics Limited and Q IFI Rubrics Limited, the Subsidiaries, during the financial year ended 31 March 2023, are included in the Statement of Comprehensive Income as part of the expenses disclosed for Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund, respectively. The expenses payable of the Subsidiaries at the financial year end are included in the Consolidated Statement of Financial Position as part of the expenses payable disclosed for Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund.

Fund Management and Investment Management Fees

Carne Global Fund Managers (Ireland) Limited (the "Manager") receives an annual fund management fee of up to 0.0175% of the net asset value of each Sub-Fund subject to an annual minimum fee across all existing Sub-Funds of €75,000 or the USD equivalent amount (the "Fund Management Fee"). The Fund Management Fee is apportioned between the Sub-Funds on a pro rata basis to the net asset value of the Sub-Funds during the relevant period. In the event of the creation of additional Sub-Funds, this minimum amount may increase. The Fund Management Fee accrues as of each valuation point and is payable monthly in arrears. The Manager shall be entitled to be reimbursed by the Sub-Funds for reasonable out-of-pocket expenses incurred by it and any VAT on fees and expenses payable to or by it.

The Investment Manager receives out of the assets of each Sub-Fund an annual fee (the "Investment Management Fee") in respect of each class as detailed in the table below net of fees payable to the Manager (detailed above).

The Fund Management Fees in respect of each class are paid out of the Investment Management Fees.

Please refer to Note 11 for further details of fees paid to the Investment Manager during the financial years ended 31 March 2024 and 31 March 2023.

Administration Fees

BNY Mellon Fund Services (Ireland) Designated Activity Company has been appointed as administrator (the "Administrator") to the Sub-Funds.

The Administrator receives out of the assets of the Sub-Funds an annual fund accounting fee not exceeding 0.09% of the net asset value of the Sub-Funds (plus VAT, if any) subject to a minimum fee of US\$62,000 on aggregate assets of the Sub-Funds per annum. This annual fee excludes a transfer agency fee and a financial reporting fee (to include annual and half-yearly financial statements) which are charged separately to each Sub-Fund.

Additional transfer agency fees will be payable depending on the number of offered share classes, shareholder transactions and shareholder accounts with transactional dealing fees ranging in value from US\$12.50 to US\$25. The Administrator's fees shall accrue daily and be payable monthly in arrears.

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

9. Fees and expenses (continued)

Depositary Fees

A depositary fee is payable to the Depositary at an annual rate, which is calculated daily and payable monthly in arrears, based on the gross assets of each Sub-Fund at a rate not exceeding 0.01725% of the net asset value of the Sub-Fund (plus VAT, if any) subject to a minimum annual fee in respect of the Sub-Fund of US\$12,000. The Depositary also receives fixed investor money regulations fee of US\$1,000 per Sub-Fund per annum. These fees are exclusive of reasonable vouched out-of-pocket charges, which shall also be paid by the Sub-Fund.

The Depositary also receives out of the assets of the Sub-Funds a custody fee which will vary from 0.01% per annum of the value of the assets under custody. If the Sub-Fund invests in assets located in countries which attach a higher fee level, it will therefore pay a higher fee to the Depositary. Certain minimum fees may also apply. The Depositary shall also be entitled to be repaid out of the assets of each Sub-Fund all reasonable out-of-pocket expenses incurred by it on behalf of the relevant Sub-Fund including sub-custodians fees which will be at normal commercial rates

Depositary fees for the financial years ended 31 March 2024 and 31 March 2023 were as follows:

	31 March 2024	31 March 2023

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

10. Transaction costs

Transaction costs on the purchase and sale of fixed income securities and forward foreign currency contracts are included in the purchase and sale price of the investment and are not usually separately identifiable. Transaction costs are costs incurred to acquire financial assets or financial liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Identifiable transaction costs on the purchase and sale of bonds held by Rubrics Global Fixed Income UCITS Fund, Rubrics Global Credit UCITS Fund, Rubrics Emerging Markets Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund are detailed in the table below.

	Base		
Fund	Currency	31 March 2024	31 March 2023
Rubrics Global Fixed Income UCITS Fund	USD	_	-
Rubrics Global Credit UCITS Fund	USD	_	-
Rubrics Emerging Markets Fixed Income UCITS Fund	USD	=	=
Rubrics Enhanced Yield UCITS Fund^	USD	_	_

[^]Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

Transaction costs on the purchase and sale of bonds for all other Sub-Funds are included in the purchase and sale price of the investment, where they cannot be practically or reliably gathered or separated.

11. Related party transactions

According to IAS 24 Related Parties, parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions or is a member of the key management personnel of the reporting entity or of a parent of the reporting entity. The following related party relationships and transactions have been identified.

The Directors, Manager and Investment Manager are considered as key management personnel. Details of Directors' fees are disclosed in Note 18 to the Financial Statements.

The Company has appointed the Investment Manager to implement the investment strategy as specified in the Prospectus. Investment Management fees and Investment Management fees payable are included in "Investment Management fees" in the Statement of Comprehensive Income and "Investment Management fees payable" in the Statement of Financial Position, respectively.

During the financial year ended 31 March 2024, the Investment Management fees received by Rubrics Asset Management (Ireland) Limited was US\$4,446,699 (31 March 2023: US\$4,764,372) of which US\$321,646 was outstanding as at 31 March 2024 (31 March 2023: US\$410,063).

The Company has also appointed the Investment Manager to act as facilities agent in certain jurisdictions and from 1 January 2022, the Investment Manager is to charge a fee of up to \$3,000 (plus VAT) per year, per jurisdiction, for a total of three sub-funds with an additional \$1,000 per year, per jurisdiction for each additional sub-fund.

The Company has appointed the Investment Manager to provide additional operational services outside of the scope of the investment management agreement and fees charged for these services for the financial year ended 31 March 2024 amounted to US\$81,587 (31 March 2023: US\$100,626). The Company has appointed the Investment Manager to act as MLRO and the Investment Manager is to charge a fee of US\$8,000 (plus VAT) per year.

During the financial year ended 31 March 2024 and 31 March 2023, there were no investment management fees paid to the Sub-Investment Manager.

Some employees and shareholders of the Investment Manager held immaterial positions in the shares of some of the Sub-Funds of the Company as at 31 March 2024 and 31 March 2023.

Carne Global Fund Managers (Ireland) Limited (the "Manager") is considered a related party to the Company as it is considered to have significant influence over the Company in its role as Manager. During the financial year ended 31 March 2024, the Manager earned fees of US\$103,391 (31 March 2023: US\$113,517), of which US\$8,056 was outstanding as at 31 March 2024 (31 March 2023: US\$9,286). During the financial year ended 31 March 2024, Carne Global Financial Services Limited, the parent company of the Manager, earned fees of US\$nil (31 March 2023: US\$15,906) in respect of other governance services to the Company, of which US\$nil was outstanding as at 31 March 2024 (31 March 2023: US\$nil).

Caitriona O'Malley, a Director of the Company, was an employee of the Investment Manager up to 31 August 2023. Caitriona O'Malley was appointed non-executive Director on 1 September 2023 on the board of the Investment Manager.

11. Related party transactions (continued)

As at 31 March 2024 and 31 March 2023, the Investment Manager held one management share and S O'Hanlon Limited, a company related to an employee of the Investment Manager also held one management share.

Rubrics Global Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund invests in other Sub-Funds of the Company, each of which is also managed by the Investment Manager. The tables below detail the fair value of each Sub-Fund's investments in other Sub-Funds of the Company as at 31 March 2024 and 31 March 2023:

Rubrics Global Fixed Income UCITS Fund

^{^^}Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

The cross investments have been eliminated in the financial statements of the Company and the Group. Where a Sub-Fund invests in another Sub-Fund or Sub-Funds of the Company, these cross investments have been deducted from the total net asset value when calculating the fund management fees payable.

RUBRICS GLOBAL UCITS FUNDS PLC

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

12. Financial instruments and associated risks

The risks associated with the financial instruments of the Sub-Funds are set out below. The financial instruments held by the Sub-Funds are set out in the Schedule of Investments.

Market rick

Market risk includes market price risk, interest rate risk and currency risk.

a) Market price risk

The Sub-Funds' market price risk is managed through diversification of the investment portfolio as disclosed in the Schedule of Investments. The Sub-Funds' investments in securities are susceptible to market risk arising from uncertainties about future prices of the securities. The Sub-Funds' overall market positions are monitored on a daily basis by the Investment Manager and on a quarterly basis by the Board of Directors of the Company by monitoring the market value of the Sub-Funds' positions.

As the Sub-Funds use Value at Risk ("VaR") risk model, the market price risk sensitivity analysis has been incorporated into the calculation of VaR. Please refer to Note 13 to the Financial Statements for details of VaR risk model.

b) Interest rate risk

The Sub-Funds are exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial positions and cash flows.

The Sub-Funds' interest rate risk is managed on a daily basis by the Investment Manager and on a quarterly basis by the Board of Directors.

The Investment Manager does this by calculating the overall duration at Sub-Fund and security level and can measure at any time the interest rates sensitivity of the portfolio to any movements in interest rates. Through this methodology, the Investment Manager manages the portfolios sensitivity to interest rates by changing the overall portfolios duration composition.

As the Sub-Funds use VaR risk model, the interest rate risk sensitivity analysis has been incorporated into the calculation of VaR. Please refer to Note 13 to the Financial Statements for details of VaR risk model.

The following tables detail the Sub-Funds' exposure to interest rate risks as at 31 March 2024 and 31 March 2023. It includes the Sub-Funds' assets and liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity date measured by the carrying value of the assets and liabilities.

c) Currency risk

Consequently, the Sub-Funds are exposed to risks that the exchange rate of the US Dollar relative to other currencies may change in a manner that has an adverse effect on the reported value of that portion of the Sub-Funds' assets which are denominated in currencies other than the US Dollar. The Sub-Funds utilise forward foreign currency contracts and other foreign exchange transactions as part of its currency risk hedging in relation to the Sub-Funds' interests which are denominated in non-base currency share classes.

Forward foreign currency contracts are over-the-counter contracts for delayed delivery of currency in which the buyer agrees to buy and the seller agrees to deliver a specified currency at a specified price on a specified date.

Because the terms of forward foreign currency contracts are not standardised, they are not traded on organised exchanges and generally can be terminated or closed-out only by agreement of both parties to the contract. During the financial year, the Sub-Funds entered into forward foreign currency contracts. Changes in the value of the contracts are treated as unrealised gains or losses and reported in the Statement of Comprehensive Income.

12. Financial instruments and associated risks (continued)

Market risk (continued)

c) Currency risk (continued)

The table below summarises the Sub-Funds' exposure to currency risk as at 31 March 2024:

[^]Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

The currency risk exposures disclosed in the above tables do not include currency risk exposures related to forward foreign currency contracts entered into for the purposes of share class hedging.

As the Sub-Funds use VaR risk model, the currency risk sensitivity analysis has been incorporated into the calculation of Vap

In accordance with the Sub-Funds' policies, the Investment Manager monitors the Sub-Funds' currency positions on a daily basis, and the Board of Directors reviews it on a quarterly basis. The currency risk is managed by keeping track of developments in the currency markets and making decisions accordingly.

Credit risk

Credit risk represents the potential loss that the Sub-Funds would incur if the counterparties failed to perform pursuant to the terms of their obligations to the Sub-Funds. The Sub-Funds' exposure to credit risk associated with counterparty non-performance for derivatives is limited to the unrealised gains inherent in such contracts. All security transactions of the Sub-Funds are cleared by the Depositary or sub-custodian. As at 31 March 2024 and 31 March 2023, substantially all investments in securities and cash are held with the Depositary, with the exception of subscriptions and redemptions cash collection accounts which are held with The Bank of New York Mellon SA/NV, Dublin Branch and cash collateral received/pledged. As at 31 March 2023, cash accounts are also held with HSBC Bank (Mauritius) Limited on behalf of the Subsidiaries. As at 31 March 2024, there are no cash balances in relation to the Subsidiaries.

RUBRICS GLOBAL UCITS FUNDS PLC

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

12. Financial instruments and associated risks (continued)

Credit risk (continued)

Where possible the Company restricts its exposure to credit losses on the trading derivative instruments it holds by entering into master netting arrangements which is a bilateral agreement between the Funds and the counterparties (approved brokers) with whom the Funds undertake a significant volume of over-the-counter derivative transactions. Derivatives are held with counterparties on an unsegregated basis. Master netting arrangements do not result in an offset of financial assets and financial liabilities in the Statement of Financial Position, as transactions are usually settled on a gross basis. However, the credit risk associated with favourable contracts is reduced by a master netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Company's overall exposure to credit risk on derivative instruments subject to a master netting arrangement can change substantially within a short period, as it is affected by each transaction subject to the arrangement.

The Company employs a risk management process which will enable it to measure, monitor and manage the risks attached to financial derivative positions and details of this process have been provided to the Central Bank.

For the purpose of providing margin or collateral in respect of transactions in financial derivative instruments, the Sub-Funds of the Company may transfer, mortgage, charge or encumber any assets or cash forming part of the Sub-Funds. The Sub-Funds may also be exposed to a credit risk in relation to the counterparties with whom they transact or place margin or collateral in respect of transactions in financial derivative instruments and may bear the risk of counterparty default. The Sub-Funds may receive cash and eligible non-cash collateral in relation to derivative trading to reduce counterparty exposure. Cash collateral received by each Sub-Fund is shown as an asset in the Statement of Financial Position, which is offset by a corresponding liability.

As at 31 March 2024 and 31 March 2023, there were no non-cash collateral received in respect of over-the-counter financial derivative transactions.

Rubrics Global Fixed Income UCITS Fund, Rubrics Global Credit UCITS Fund, Rubrics Emerging Markets Fixed Income UCITS Fund and Rubrics Enhanced Yield UCITS Fund invest in markets which have investment grade securities as rated by a well-known rating agency. If the Investment Manager deems an investment as unrated, it is treated as non-investment grade and treated as high yield.

The tables below detail a summary of the credit exposure based on credit ratings of the debt securities held in the Sub-Funds as at 31 March 2024 and 31 March 2023.

As Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were fully redeemed on 27 November 2020, no investments were held via subsidiaries at 31 March 2024 and 31 March 2023.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation. In accordance with the Sub-Funds' policies, the Investment Manager monitors the Sub-Funds' credit positions on a daily basis, and the Board of Directors reviews it on a quarterly basis.

The Investment Manager measures the credit rating at both the portfolio and asset class level. The ratings are obtained from the leading rating agencies. The Investment Manager manages the portfolio credit risk by adjusting the different levels of investment and non-investment credit exposure.

12. Financial instruments and associated risks (continued)

Counterparty risk and concentration of credit risk

As at 31 March 2024 and 31 March 2023, the cash balances and financial assets and financial liabilities of the Sub-Funds and the Subsidiaries are held in a segregated account with the Depositary. The Bank of New York Mellon SA/NV, Dublin Branch has an S&P short-term deposit credit rating of A-1+ as at 31 March 2024 and 31 March 2023. Cash of the Subsidiaries is held with HSBC Bank (Mauritius) Limited, a subsidiary of HSBC Holdings Plc which has a S&P short-term deposit credit rating of A-1 as at 31 March 2023. At 31 March 2024 and 31 March 2023, the counterparty to forward foreign currency contracts and related cash collateral received/pledged is The Bank of New York Mellon, which has a S&P short-term deposit credit rating of A-1+. At 31 March 2024 and 31 March 2023, TD Global Finance Unlimited Company was also a counterparty for forward foreign currency contracts and has a S&P short-term deposit credit rating of A-1+.

Liquidity risk

Investments may be relatively illiquid making it difficult to acquire or dispose of them at the prices quoted on the various exchanges. Accordingly, a Sub-Fund's ability to respond to market movements may be impaired, and the Sub-Fund may experience adverse price movements upon liquidation of its investments. The majority of the Sub-Funds' securities are considered to be readily realisable as they are listed on the main world stock exchanges. The Sub-Funds have the ability to borrow in the short term to ensure settlement.

In accordance with the Sub-Funds' policies, the Investment Manager monitors the Sub-Funds' liquidity positions on a daily basis and the Board of Directors review them on a quarterly basis. The Investment Manager monitors the liquidity risk by monitoring whether the securities it has invested in are benchmark or non-benchmark issues.

The following tables summarise the financial liabilities of the Sub-Funds into relevant maturity groupings based on the remaining period as at 31 March 2024 and 31 March 2023 to the contractual maturity date.

Political risk

The value of the Sub-Funds' assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made. The Investment Manager has an in-house risk manager who oversees all potential risk exposure to the Sub-Funds and positions held.

[^]Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

RUBRICS GLOBAL UCITS FUNDS PLC

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

12. Financial instruments and associated risks (continued)

Capital risk management

The capital of the Sub-Funds is represented by the net assets at the end of the financial year. The amount of net assets can change significantly on a daily basis as the Sub-Funds are subject to daily subscriptions and redemptions at the discretion of shareholders. In order to safeguard the Sub-Funds' ability to continue as a going concern and to maintain a strong capital base, redeemable shares are issued and redeemed in accordance with the Prospectus and supplements of the Sub-Funds, which include the ability to restrict redemptions and the requirement for certain minimum holdings and subscription amounts. The Sub-Funds are not subject to externally imposed capital requirements.

Efficient portfolio management

The Investment Manager may employ for certain Sub-Funds, investment techniques and instruments for efficient portfolio management, subject to the conditions and within the limits from time to time laid down by the Central Bank. Furthermore, new techniques and instruments may be developed which may be suitable for use by a Sub-Fund in the future and a Sub-Fund may employ such techniques and instruments subject to the prior approval, and any restrictions imposed by the Central Bank.

During the financial year, forward foreign currency transactions were entered into for the purpose of efficient portfolio management in order to hedge currency and market exposure as well as increase capital and income returns. Details of all open forward foreign currency contracts at the financial year end are disclosed in the Schedule of Investments. Cash collateral received in respect of forward foreign currency contracts is shown as an asset in the Statement of Financial Position, which is offset by a corresponding liability.

Realised gains and losses and the net change in unrealised gains and losses on forward foreign currency contracts are included in "Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss" in the Statement of Comprehensive Income.

13. Value at Risk ("VaR")

The Investment Manager calculates VaR at a 99% confidence level for a one month horizon using historical data.

As at 31 March 2024, Rubrics Global Fixed Income UCITS Fund portfolio VaR (based on 99% probability over a one month period) was 3.70% (31 March 2023: 2.15%). That is to say that over a one month time horizon we would not expect losses to exceed 3.70% (31 March 2023: 2.15%) ninety-nine times out of a hundred.

As at 31 March 2024, Rubrics Global Credit UCITS Fund portfolio VaR (based on 99% probability over a one month period) was 2.10% (31 March 2023: 1.14%) That is to say that over a one month time horizon we would not expect losses to exceed 2.10% (31 March 2023: 1.14%) ninety-nine times out of a hundred.

As at 31 March 2024, Rubrics Emerging Markets Fixed Income UCITS Fund portfolio VaR (based on 99% probability over a one month period) was 3.18% (31 March 2023: 5.25%). That is to say that over a one month time horizon we would not expect losses to exceed 3.18% (31 March 2023: 5.25%) ninety-nine times out of a hundred.

As at 31 March 2024, Rubrics Enhanced Yield UCITS Fund portfolio VaR (based on 99% probability over a one month period) was 3.59% (31 March 2023: 1.77%). That is to say that over a one month time horizon we would not expect losses to exceed 3.59% (31 March 2023: 1.77%) ninety-nine times out of a hundred. Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022, hence, there were no VaR analysis as at 31 March 2023.

Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were fully redeemed on 27 November 2020, hence, there were no VaR analysis as at 31 March 2024 and 31 March 2023.

13. Value at Risk ("VaR") (continued)

The table below shows the minimum, maximum and average utilisation of VaR of each Sub-Fund as at 31 March 2024 and 31 March 2023:

	Rubrics Global Fixed Income UCITS Fund	Rubrics Global Credit UCITS Fund	Rubrics Emerging Markets Fixed Income UCITS Fund	Rubrics Enhanced Yield UCITS Fund
2024 maximum	3.85%	2.64%	5.59%	3.78%
2024 minimum	1.78%	1.06%	2.98%	1.47%
2024 average	3.25%	2.18%	3.73%	3.21%
2023 maximum	3.70%	3.65%	6.39%	3.93%
2023 minimum	1.52%	1.14%	2.29%	1.33%
2023 average	2.38%	2.65%	3.51%	2.72%

The standard deviation is based on historical observations and as such there is no guarantee that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns. There are inherent limitations to VaR. As with any forward-looking calculation, methods that calculate ex-ante tracking error and VaR are subject to error. Predicting future behaviour involves extracting patterns from past data and applying judgement and modelling to project forward. There is no guarantee that any particular combination of past data, modelling and judgement will accurately predict forward, especially during turbulent market conditions.

Leverage is calculated as the aggregate notional value of the Sub-Fund's net long financial derivative instrument positions and the absolute value of the Sub-Fund's net short financial derivative instrument positions, excluding the notional amounts of the forward foreign currency contracts used for share class hedging with the sum expressed as a percentage of the Sub-Fund's net assets. Such use of financial derivative instruments does not result in investment exposure exceeding 100% of invested capital, therefore does not produce a leverage type effect.

Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were fully redeemed on 27 November 2020, hence, no leverage was employed on these funds as at 31 March 2024 and 31 March 2023.

The level of leverage employed was as per the table below:

	Rubrics Global Fixed Income UCITS Fund	Rubrics Global Credit UCITS Fund	Rubrics Emerging Markets Fixed Income UCITS Fund	Rubrics Enhanced Yield UCITS Fund
As at 31 March 2024	6.5%	16.2%	14.0%	9.4%
As at 31 March 2023	11.4%	19.1%	48.8%	15.2%

Global exposure

In calculating its global exposure, the Sub-Funds use the Absolute VaR model, thereby ensuring that the VaR of the Sub-Funds' portfolios may not exceed 20% of the net asset value of the Sub-Funds, the one-tailed confidence interval shall not be less than 99% and the holding period shall not be less than 20 days. The historical period will typically be one year or greater but a shorter observation period may be used in instances of recent significant price volatility.

RUBRICS GLOBAL UCITS FUNDS PLC

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

14. Offsetting and amounts subject to master netting arrangements and similar agreements

The Company entered into an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement") with The Bank of New York Mellon on 21 September 2020 and TD Global Finance Unlimited Company on 21 July 2021 in relation to forward foreign currency contracts. This provided for a legally enforceable right of set off for any of the financial assets and financial liabilities held during the financial years ended 31 March 2024 and 31 March 2023.

The Funds and their counterparty have elected to settle all transactions on a gross basis; however, each party has the option to settle all open contracts on a net basis in the event of default of the other party. Per the terms of the ISDA Master Agreement, an event of default includes the following:

- failure by a party to make payment when due;
- failure by a party to perform any obligation required by the agreement (other than payment) if such failure is not remedied within 30 days after notice of such failure is given to the party; and
- bankruptcy.

14. Offsetting and amounts subject to master netting arrangements and similar agreements (continued)

As at 31 March 2024, the following tables present the Sub-Funds' financial assets and financial liabilities subject to offsetting, master netting arrangements and similar arrangements per counterparty.

Swiss Franc	0.9007	0.9135	0.8858	0.9552	

16. Segregated liability

The Company is an umbrella fund with segregated liability between Sub-Funds. As a result, as a matter of Irish company law, any liability attributable to a particular Sub-Fund may only be discharged out of the assets of that Sub-Fund and the assets of other Sub-Funds may not be used to satisfy the liability. In addition, any contract entered into by the Company will by operation of law include an implied term to the effect that the counterparty to the contract may not have any recourse to assets of any of the Sub-Funds other than the Sub-Fund in respect of which the contract was entered into. These provisions are binding both on creditors and in any insolvency.

17. Soft commissions

The Company does not deal in soft commission arrangements.

18. Directors' and Auditors' fees

The remuneration of the Directors in respect of services rendered or to be rendered to the Company shall not exceed £85,000 in the aggregate per annum. The Directors may also be paid all other expenses properly incurred by them in the performance of their duties in connection with the business of the Company. The Directors' remuneration and expenses are paid pro rata out of the assets of the Sub-Funds, to include the deduction and payment of all taxes payable on remuneration earned from the Sub-Funds.

The Directors' aggregate emoluments in respect of qualifying services for the financial year ended 31 March 2024 were US\$66,180 (31 March 2023: US\$51,632) and all other amounts in relation to the Companies Act 2014, Sections 305 and 306 were US\$nil (31 March 2023: US\$nil).

As at 31 March 2024, Directors' fees payable were US\$nil (31 March 2023: US\$nil).

The Independent Auditors, Grant Thornton Ireland, earned a fee (exclusive of VAT) of ϵ 40,000 from the Company in respect of the statutory audit of the Company for the financial year. The audit fee stated in the Statement of Comprehensive Income is inclusive of VAT.

The auditor shall be entitled to be reimbursed by the Company for any reasonable out-of-pocket expenses incurred by it.

There are no tax advisory, other assurance or non-audit services provided by Grant Thornton Ireland to the Company during the financial year ended 31 March 2024 and 31 March 2023.

[^]Rubrics Enhanced Yield UCITS Fund was launched on 1 June 2022.

20. Distributions

Accumulating Share Classes

No income or capital gains attributable to the relevant class will be distributed by the Sub-Funds by way of dividend. All such income or capital gains are reinvested in accordance with the investment objectives and investment policies of the Sub-Funds.

Distributing Share Classes

Dividends in respect of Class AD, Class ACD, Class BD (Hedged), Class BCD (Hedged), Class CD (Hedged), Class CD (Hedged), Class BCD (Hedged), Clas

It is the intention of the Directors that dividends will be paid from the relevant Sub-Fund's net income. As the Sub-Funds currently charge fees and expenses to the capital of the Distributing Share Classes, the income available for distribution will in practice be a gross rather than net income figure. Gross income shall generally consist of interest, dividends and other investment income less withholding and other taxes or adjustments as applicable. In any distribution period, if the calculation of distributable income results in a net deficit, there will be no distribution for that period.

Shareholders may elect to reinvest dividends for additional shares. Reinvestments will be subject to the minimum transaction amount of the relevant class.

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

20. **Distributions (continued)**

During the financial years ended 31 March 2024 and 31 March 2023 distributions were paid on the following class of shares:

		31 March 2024		31 March 2023

21. Significant events

Effective 21 July 2023, Rubrics India Fixed Income UCITS Fund and Q Rubrics India Fixed Income UCITS Fund were revoked by the Central Bank.

The supplement for the Rubrics Enhanced Yield UCITS Fund was updated whereby the sub-fund is no longer considered actively managed relative to the Bloomberg Global High Yield Index for performance comparison purposes. Additionally, four new hedged South African Rand denominated share classes were created. The updated supplement was noted by the Central Bank on 11 August 2023 and all associated documents were also updated to mirror the change.

Class PA, Class PB (Hedged), Class PC (Hedged), Class PD, Class PE (Hedged), Class PG (Hedged), Class PG (Hedged) and Class PH (Hedged) on Rubrics Global Credit UCITS Fund were fully redeemed on 11 August 2023.

Class PA, Class PC (Hedged), Class PD, Class PF (Hedged) and Class PH (Hedged) on Rubrics Global Fixed Income UCITS Fund were fully redeemed on 18 August 2023. Class PE (Hedged) on Rubrics Global Fixed Income UCITS Fund was fully redeemed on 26 October 2023.

Effective 1 October 2023, the Company Secretary changed from Carne Global Financial Services Limited to Goodbody Secretarial Limited.

Effective 1 October 2023, the registered address of the Company changed from 2nd floor, Block E, Iveagh Court, Harcourt Road, Dublin 2, Ireland to 3 Dublin Landings, North Wall Quay, Dublin 1, Ireland.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Notes to the Financial Statements for the financial year ended 31 March 2024 (continued)

21. Significant events (continued)

Effective 1 November 2023, the address of Carne Global Fund Managers (Ireland) Limited and Carne Global Financial Services Limited changed from 2nd Floor, Block E, Iveagh Court, Harcourt Road, Dublin 2, D02 YT22, Ireland to 3rd Floor, 55 Charlemont Place, Dublin 2, D02 F985, Ireland.

Class Z (Hedged) on Rubrics Enhanced Yield UCITS Fund was launched on 7 November 2023.

The maximum remuneration payable to the Directors in respect of services rendered or to be rendered to the Company has increased to €85,000 in the aggregate per annum.

There were no other events during the financial year that have a material bearing on the understanding of the financial statements, except for those mentioned above.

22. Subsequent events

Effective 1 May 2024, Universal-Investment Ireland Fund Management Limited replaced Carne Global Fund Managers (Ireland) Limited as Manager of the Company.

On 31 May 2024, Caitriona O'Malley resigned as non-executive Director of the Investment Manager.

There were no other material events after the reporting date that have a material bearing on the understanding of the financial statements.

23. Approval of the annual report and audited financial statements

The annual report and audited financial statements were authorised for issue by the Board of Directors on 26 June 2024.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Statements of Major Changes in Investments (Unaudited) For the financial year ended 31 March 2024

In accordance with the Central Bank UCITS Regulations, a statement of the largest changes in the composition of the Schedule of Investments during the financial year is provided. These are defined as the aggregate purchases and sales of an investment exceeding 1% of the total value of purchases and sales for the year, respectively. At a minimum the largest 20 purchases and sales are listed. The following tables show the purchases and sales exceeding 1% of the total value of purchases and sales for the year.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Other Financial Information (Unaudited) (continued)

Transaction and tax costs for the financial year ended 31 March 2024

Transaction costs include fees and commissions paid to agents, brokers and dealers and are reported in the Statement of Comprehensive Income as "Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss". Tax costs include non-reclaimable withholding taxes and are reported in the Statement of Comprehensive Income as "Withholding tax and other taxation". These costs are not included in the calculation of the TER in accordance with the provisions set out in the "Guidelines on the calculation and disclosures of the TER of collective investment schemes" published by the SFAMA on 16 May 2008 (version of 20 April 2015) and the Directive OAK BV "Reporting Asset Management Costs" issued on 28 April 2013.

Supplementary costs for the financial year ended 31 March 2024

Supplementary costs are all institutional costs which cannot be allocated to a single investment, such as internal costs for asset management or expenses for strategy advice, investment monitoring or global custody. These fees are included in the Statement of Comprehensive Income as "Consultancy fees" and are included in the calculation of the TER.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Appendix 1: UCITS V Remuneration Policy (Unaudited)

The European Union Directive 2014/91/EU as implemented in Ireland by S.I. No. 143/2016 - European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, requires management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

To that effect, Carne Global Fund Managers (Ireland) Limited ("the Manager"), has implemented a remuneration policy that applies to all UCITS for which the Manager acts as manager (the "Remuneration Policy") and covers all staff whose professional activities have a material impact on the risk profile of the Manager or the UCITS it manages ("Identified Staff of the Manager"). The Remuneration Policy also applies to all alternative investment funds for which the Manager acts as alternative investment fund manager. In accordance with the Remuneration Policy, all remuneration paid to Identified Staff of the Manager can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

The Manager has designated the following persons as Identified Staff of the Manager:

- The Designated Persons;
- 2. Each of the Manager's directors;
- 3. Head of Compliance;
- 4. Risk Officer;
- 5. Head of Anti-Money Laundering and Counter Terrorist Financing Compliance
- 6. Money Laundering Reporting Officer;
- 7. Chief Executive Officer:
- 8. Chief Operating Officer;
- 9. All members of the investment committee;
- 10. All members of the risk committee and
- 11. All members of the valuation committee.

The Manager has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager has determined not to constitute a separate remuneration committee and for remuneration matters to be determined through the Manager's Compliance and AML Committee, a Committee of the Manager's Board.

The Manager's Compliance and AML Committee is responsible for the ongoing implementation of the Manager's remuneration matters and will assess, oversee, and review the remuneration arrangements of the Manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

The Manager employs the majority of staff directly. The Manager's parent company is Carne Global Financial Services Limited ("Carne"). In addition, Carne also operates through a shared services organisational model which provides that Carne employs a number of staff and further enters into inter-group agreements with other Carne Group entities to ensure such entities are resourced appropriately. As at 31 December 2023, 12 of the Identified Staff are employed directly by the Manager. The remainder of the Identified Staff are employees of Carne, or employees of another entity within the Carne Group, and are remunerated directly based on their contribution to Carne Group as a whole. In return for the services of each of the Carne Identified Staff, the Manager pays an annual staff recharge to Carne (the "Staff Recharge").

The independent non-executive directors are paid a fixed remuneration. The Other Identified Staff members' remuneration is linked to their overall individual contribution to the Manager or the Carne Group, with reference to both financial and non-financial criteria and not directly linked to the performance of specific business units or targets reached or the performance of the UCITS.

The aggregate of the total Staff Recharge, remuneration of the directly employed identified staff of the Manager and the remuneration of the independent non-executive directors for the year ended 31 December 2023 is €2,424,932 paid to 22 Identified Staff* for the year ended 31 December 2023.

The Manager has also determined that, on the basis of number of sub-funds / net asset value of the UCITS relative to the number of sub-funds / assets under management, the portion of this figure attributable to the UCITS is EUR $\pm 9,098$.

^{*} This number represents the number of Identified Staff as at 31 December 2023.

(An Open-Ended Variable Capital Umbrella Investment Company with Segregated Liability between Sub-Funds)

Appendix 2: EU Sustainability Regulation (Unaudited)

The Sub-Funds are categorised as an Article 6 fund under Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

The investments underlying the Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088.

Furthermore, when assessing the sustainability risk associated with underlying investments, the Investment Manager is assessing the risk that the value of such underlying investments could be materially negatively impacted by an ESG event or condition ("ESG Event"). In order to assist with the identification and assessment of sustainability risks, the Company engages the services of a third-party data provider of ESG metrics and information and ESG ratings. Sustainability risk is identified, monitored and managed by the Investment Manager in the manner described in the relevant Sub-Fund supplement.
