# Directors' Report

## Report of the Directors

The Directors present herewith their report and audited financial statements for UBS (Irl) Investor Selection PLC (the "Company") for the year ended 30 September 2024.

## Principal Activities

The Company is an open-ended investment company with segregated liability between its sub-funds and variable capital organised under the laws of Ireland.

The Directors have directed the affairs of the Company in accordance with the Companies Act 2014 (the "Act").

The Company comprises the following sub-funds:

### UBS (Irl) Investor Selection - Currency Allocation Return Strategy

The investment objective of the sub-fund is to seek to achieve a return in excess of the reference index. The reference index is the sterling component of the Citigroup World Money Market Index Series - GBP 1 Month Euro Deposit.

### UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund

The investment objective of the sub-fund is to seek to achieve risk-adjusted capital appreciation over a three year timeframe.

### UBS (Irl) Investor Selection - Global Equity Long Short Fund

The investment objective of the sub-fund is to seek to deliver a positive return, over a three year timeframe, by exploiting mispriced stocks in equity markets around the world, including emerging markets. This sub-fund aims to demonstrate low correlation with, and less volatility than, equity markets.

### UBS Global Emerging Markets Opportunity Fund

The investment objective of the sub-fund is to seek to achieve capital appreciation on a risk adjusted basis over the medium to long term.

### UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS

The investment objective of the sub-fund is to seek to achieve capital growth by investing in an equity portfolio focused on the alpha opportunities in the Chinese equity markets.

### UBS Global Emerging Markets Opportunity Reduced Carbon Fund

The investment objective of the sub-fund is to seek to achieve capital appreciation on a risk adjusted basis over the medium to long term.

There can be no guarantee that the sub-funds will be able to achieve their investment objectives or be profitable.

## Business Review, Results, Activities and Future Developments

The results of operations are set out on page 14. A review of activities is contained in the Investment Manager's Reports for each sub-fund of the Company. Key Performance Indicators ("KPIs") monitored by the Manager are included in the Investment Manager's Reports for each of the sub-funds.

## Structure

The Company is structured as an umbrella fund consisting of different sub-funds each comprising one or more share classes. Shares issued in each sub-fund will rank pari passu with each other in all respects except to the extent that they may differ in respect of certain matters including currency of denomination, hedging strategies, if any, applied to the currency of a particular class, dividend policy, voting rights, modifications on return of capital, the level of fees and expenses to be charged or the minimum subscription and minimum holding, if applicable. The assets of each sub-fund will be invested separately on behalf of each sub-fund in accordance with the investment objective and policies of each sub-fund. A separate portfolio of assets is not maintained for each class of share within a sub-fund.

As at 30 September 2024, the Company has established the sub-funds and classes which are set out in the supplements and the prospectus. Additional sub-funds in respect of which a supplement or supplements will be issued may be established by the Directors with the prior approval of the Central Bank of Ireland (the "Central Bank"). Additional classes in respect of which a supplement or supplements will be issued may be established by the Directors upon notification to, and clearance in advance by the Central Bank.

# Directors' Report (continued)

## Directors and Company Secretary

Claire Cawley<sup>1,3</sup> (Ireland)

Naomi Daly<sup>2,3</sup> (Ireland)

Thomas Stokes<sup>1</sup> (Ireland)

Ian Fitzpatrick<sup>1</sup> (Ireland) (Resigned 20 March 2024)

Julie Broadbent<sup>1</sup> (U.K. Resident) (Appointed 20 March 2024)

<sup>1</sup> Non-executive Director

<sup>2</sup> Non-Executive Director and Chairperson

<sup>3</sup> Independent Director.

Company Secretary details are disclosed on page 2.

In accordance with the Articles of Association, the Directors are not required to retire by rotation.

## Directors' and Secretary's Interests

The Directors and Company Secretary who held office at 30 September 2024 had no interests in the shares or debentures of the Company during the year (2023: no interests in the Company).

Ian Fitzpatrick a former Director of the Company is a director and employee of UBS Fund Management (Ireland) Limited (the "Manager").

Naomi Daly is an independent Director of UBS Fund Management (Ireland) Limited.

Julie Broadbent a Director of the Company, and an employee of the UBS Group.

Thomas Stokes and Claire Cawley are Directors of the Company.

## Political Donations

The Company made no political donations during the financial year ended 30 September 2024 (2023: Nil).

## Dividend Policy

The Directors will have absolute discretion as to the payment of dividends. No dividends were paid or payable for the years ended 30 September 2024 and 30 September 2023.

## Concentration of Investments

A sub-fund may at any one time be invested in a single industry or country and few issuers provided that such concentration complies with the UCITS Regulations. To the extent that a sub-fund's investments are concentrated in these ways, the overall adverse impact on a sub-fund could be considerably greater than if a sub-fund's investments were not concentrated to such an extent.

## Accounting Records

The measures taken by the Directors to ensure compliance with the requirements of Section 281 to 285 of the Act, regarding adequate accounting records are through the appointment of the administrator, the implementation of necessary policies and procedures for recording transactions, the employment of appropriately qualified accounting personnel and the provision of adequate resources, including appropriate computerised accounting systems, to the financial function.

The accounting records of the Company are maintained at Second Floor, 5 Earlsfort Terrace, Dublin 2, D02 CK83, Ireland.

## Risk Management

The role of the Board of Directors is to identify, monitor and manage risk on behalf of the Company. The Company has adopted procedures to ensure that material risks relating to the Company and its sub-funds have been identified and are managed.

The Directors of the Company have agreed that this process is suitable for adoption as the risk management process of the Company. UBS Fund Management (Ireland) Limited is the Manager and is responsible for the risk management process.

The Directors of the Company have appointed the depositary who provides the safe keeping of all the assets of the Company and is subject to regulations of the Central Bank.

## Going Concern

After making enquiries and considering relevant financial and other factors, the Directors have a reasonable expectation that the Company and its sub-funds have adequate resources to continue in operational existence for the foreseeable future. With the exception of UBS Global Emerging Markets Opportunity Reduced Carbon Fund which closed on 04 March 2024. Furthermore, the management is not aware of any material uncertainties that may cast doubt upon the Company's and the sub-fund's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

# Directors' Report (continued)

## Risk and Uncertainties

The Company is exposed to principal risks including market, credit and liquidity risk. The manner in which these risks have been dealt with is disclosed in Note 9 of the financial statements.

Geopolitical conflicts had and still have a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and is closely monitored by the Manager of the Company in order to quickly take appropriate action to protect the investor interest. The necessary measures were put in place to at all times comply with applicable laws and regulations, in particular but not limited to the most recently enacted sanction regimes in the EU, Switzerland, UK, US and United Nations (UN). As serious trading limitations beyond sanctioned Russian securities have been experienced, fair value pricing is applied for all relevant securities where price quotes (if available) are not considered reflective of their current market value. The sub-fund UBS Global Emerging Markets Opportunity Fund and UBS Global Emerging Markets Opportunity Reduced Carbon Fund were impacted by the fair value decision taken, further to the assessment made by the Management of the Company, neither the Company's and any of its sub-funds' going concern nor operations, at the date of this report, have been significantly impacted by the above.

The invasion of the Gaza Strip by the State of Israel has affected global energy, agricultural, metals and other markets and continues to pose a potential threat to financial and political stability not only in Europe and the Middle East but the world. The continued hostilities in the Middle East and their wider alliances have the potential to cause significant market volatility. The Manager of the Company continues to closely monitor the related market volatility and its impact on the Company and any of its sub-funds.

## Corporate Governance Code

The Board of Directors voluntarily adopted the Corporate Governance Code (the "IF Code") for Irish Domiciled Collective Investment Schemes as published by Irish Funds ("IF"), as the Company's corporate governance code. The Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and processes for the financial year.

## General Principles

The Company is subject to comply with the requirements of the Act, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (as amended) (the "UCITS Regulations") and the Central Bank UCITS Regulations 2019 (the "Central Bank UCITS Regulations"), and with effect from 1 November 2015, the Central Bank (Supervision and Enforcement) Act 2013 as applicable. The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

The Company is also subject to corporate governance practices imposed by:

- The Act, which is available for inspection at the registered office of the Company; and may also be obtained at: <http://www.irishstatutebook.ie/home.html>;
- The Articles of Association of the Company which are available for inspection at the registered office of the Company at Second Floor, 5 Earlsfort Terrace, Dublin 2, D02 CK83, Ireland and at the Companies Registration Office in Ireland; and
- The Central Bank in their UCITS Regulations which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/industrysectors/funds/Pages/default.aspx> and are available for inspection at the registered office of the Company.

## Control and Risk Management Systems in Relation to Financial Reporting

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems for the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable, and not absolute, assurance against material misstatement or loss. The Directors have procedures in place to ensure that all relevant accounting records are properly maintained and are readily available including production of annual and half yearly financial statements.

The Directors have appointed the Administrator to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Directors examine and evaluate the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Investment Manager and Manager. They are required to be approved by the Directors and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank. During the period of these financial statements, the Directors were responsible for the review and approval of the annual financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Directors on their findings.

The Directors monitor and evaluate the independent auditor's performance, qualifications, and independence. As part of its review procedures, the Directors receive presentations from relevant parties including consideration of applicable accounting standards and their impact on the annual financial statements, and presentations and reports on the audit process. The Directors evaluate and discuss significant accounting and reporting issues as the need arises.

# Directors' Report (continued)

## **Derivative Instruments and Effective Portfolio Management Techniques**

The Investment Manager's Reports contained in the Annual Report provide a general description of the use of derivative financial instruments and effective portfolio management techniques during the reporting period and the resulting amount of commitments. The notes to the financial statements also detail the purposes behind the use of various instruments together with the attendant risks.

The Value-at-Risk (the "VaR") tables report the exposure obtained through effective portfolio management techniques and derivative financial instruments.

The identity of the counterparties relating to these effective portfolio management techniques and derivative financial instruments, the type and amount of collateral received by the Company to reduce counterparty exposure are noted in the market risk tables for each sub-fund (Note 9 to the financial statements).

Income and expenditure related to all effective portfolio management techniques and derivative financial instruments are reflected in the Statement of Comprehensive Income of each sub-fund.

## **Restrictions on Transactions with Connected Persons**

The Central Bank UCITS Regulations, paragraph 43(1) – 'Dealings by promoter, manager, trustee, investment adviser and group companies' states in paragraph one that any transaction carried out with a UCITS by a promoter, manager, trustee, investment adviser and/or associated or group companies of these ("connected parties") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unit-holders of the UCITS.

The Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in paragraph 43(1) are applied to all transactions with connected parties; and the Board is satisfied that transactions with connected parties entered into during the period complied with the obligations set out in this paragraph.

## **Significant Events during the Reporting Period**

On 1 April 2024, UBS O'Connor LLC merged into UBS Asset Management (Americas) LLC. There will be no change to staffing or investment management/advisor teams as a result of this merger into UBS Asset Management (Americas) LLC.

On 20 March 2024, Ian Fitzpatrick a Director of the Company resigned and Julie Broadbent was appointed as Director of the Company.

UBS Global Emerging Markets Opportunity Reduced Carbon liquidated as at 4 March 2024.

On 2 November 2023 the Company's prospectus was updated to include US person definition and description and updates to the risk factor descriptions on securities lending, reverse repurchase agreements and liquidity risk was finalised and made available. The updated supplements for UBS Global Emerging Markets Opportunity Fund, UBS (Irl) Investor Selection PLC – Currency Allocation Return Strategy, UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS and UBS Global Emerging Markets Opportunity Reduced Carbon Fund were also made available at this date.

On 2 November 2023, the Investment Manager for UBS Global Emerging Markets Opportunity Fund changed from UBS Asset Management (Singapore) Ltd to UBS Asset Management Switzerland AG.

The Company entered into a securities lending arrangement on 2 November 2023 and commenced lending on 20 December 2023.

There were no other events during the period that require adjustment to or disclosure in the financial statements.

## **Events After the Reporting Period**

The Directors of the company took the decision to liquidate the sub-fund UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund in November 2024.

There were no other events after the reporting period that require adjustment to or disclosure in the financial statements.

# Directors' Report (continued)

## Directors' Compliance Statement

The Directors, in accordance with Section 225(2) of the Companies Act 2014, acknowledge that they are responsible for securing the Company's compliance with certain obligations specified in that section arising from the Companies Act 2014 and Tax laws ("relevant obligations"). The Directors confirm that:

- A Compliance Policy Statement has been drawn up by the Directors which sets out the Company's policies for compliance with its relevant obligations under the Irish Companies Act;
- Appropriate procedures have been put in place, which have been designed to secure material compliance with the Company's relevant obligations; and
- A review process has been put in place, the purpose of which to ensure that the aforementioned assurance measures regarding the Company's Compliance Policies are appropriate and operating effectively during each financial period.

## Statement of Relevant Audit Information

- So far as each Director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware; and
- Each Director has taken all steps (being that he/she has made such inquiries of his fellow Directors and of the Company's statutory auditors) that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.
- Section 167 (2) of the Companies Act 2014 requires the board of directors of a large company to establish an audit committee. The Directors have decided not to form an audit committee as the Board is formed of four non-executive Directors with two independent non-executive Directors and the Company complies with the provisions of the Corporate Governance Code.

## Statement of Establishment or otherwise of an Audit Committee

The Directors have decided not to establish an audit committee pursuant to section 167(2) of the Act based on (a) the nature, scale and complexity of the Company's business and the range of services and activities undertaken in the course of that business; (b) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company and carry out certain functions on its behalf; and (c) the procedures in place for the review, approval and circulation of the audited financial accounts and statements which are appropriate for an investment company pursuant to the UCITS Regulations.

## Independent Auditor

Ernst & Young have expressed their willingness to act as Auditor for the Company in accordance with Section 383 (2) of the Act.

On behalf of the Board

Director Naomi Daly

Date: 28 January 2025

Director Claire Cawley

Date: 28 January 2025

# Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its change in net assets attributable to holders of redeemable participating shares for that year. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that its financial statements comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

On behalf of the Board

Director Naomi Daly

Date: 28 January 2025

Director Claire Cawley

Date: 28 January 2025

# Depository's Report

## Report of the Depository to the Shareholders

We have enquired into the conduct of UBS (Irl) Investor Selection PLC (the "Company") for the period 1 October 2023 to 30 September 2024 in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) UCITS Regulations, 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

## Responsibilities of the Depository

Our duties and responsibilities are outlined in the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion the Company has been managed in that period, in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depository must state why this is the case and outline the steps which we have taken to ensure the situation is rectified.

## Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations and to ensure that, in all material respects, the Company has been managed;

- in accordance with the limitations imposed on the investment and borrowing powers of the Company by the provisions of its Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- otherwise in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

## Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- otherwise in accordance with the provisions of the Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) INVESTOR SELECTION PLC**

### **Report on the audit of the financial statements**

#### **Opinion**

We have audited the financial statements of UBS (Irl) Investor Selection PLC ("the Company") for the year ended 30 September 2024, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets, Statement of Cash Flows and notes to the financial statements, including the summary of material accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards ('IFRS') as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 30 September 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

**Building a better  
working world**

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) INVESTOR SELECTION PLC**

### **Other information**

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

### **Opinions on other matters prescribed by the Companies Act 2014**

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

### **Matters on which we are required to report by exception**

Based on the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures required by sections 305 to 312 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

Building a better  
working world

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) INVESTOR SELECTION PLC

### Respective responsibilities

#### Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: [https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description_of_auditors_responsibilities_for_audit.pdf). This description forms part of our auditor's report.

#### The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

## Investment Manager's Report – Unaudited

1<sup>st</sup> October 2023 to 30<sup>th</sup> September 2024

### Market environment

The period from October 2023 to September 2024 was characterised by a rally in global equities, widespread central bank action, optimism surrounding artificial intelligence, and general resilience across the global economy. Global policymakers signalled a shift away from policy tightening, leading markets to start pricing-in rate cuts. Upside US inflation surprises in Q1 2024 saw much of the policy easing for the year priced out, although the disinflation trend continued in Q2 and Q3 2024. Inflation progress and concern over a slowing labour market allowed for the US Federal Reserve to start its cutting cycle in September. The European Central Bank ("ECB") and the Bank of England ("BoE") cut rates comparatively earlier in the period, following similar disinflation trends but notably more tepid growth. In Japan, negative interest rates were abandoned in March as the Bank of Japan ("BoJ") increased short-term interest rates for the first time in 17 years, followed by an additional increase to policy rate in July to address inflation concerns in the economy. Elsewhere, China faced headwinds following its real-estate market crisis and a weaker-than-expected post-covid recovery, with growth expectations coming in below consensus across the period. As a result, comprehensive stimulus measures were introduced, most notably in September 2024. Geopolitical concerns also remained in focus during the period, with the Israel-Gaza conflict, the continuation of the war in Ukraine and a string of elections across the globe. Within currency markets, the US dollar (USD) weakened from the start of the period until the end of Q1 2024 before picking up again in Q2 2024 on the back of Fed policy repricing. As the disinflation narrative resumed, the USD softened for the remainder of the period in review. The Japanese Yen (JPY) depreciated significantly against the USD as a result of policy divergence, until a surprise hike from the BoJ in July strengthened the yen and triggered a significant unwinding in the popular carry trade. GBP rallied throughout the period on the back of resilient UK data and a more hawkish than expected stance from the BoE. Elsewhere, the Chinese renminbi (CNH) substantially weakened across the period on the back of a sluggish Chinese economy that has faced weak consumer demand and slowing export growth alongside headwinds in the property sector.

### Performance

The Fund delivered a negative return of -5.30% over the twelve-month period to end September 2024.

The largest negative contributor to performance was long Japanese yen (JPY) positioning, which struggled for much of the period as a result of yield differentials and less tight Bank of Japan policy. Long positioning in the Norwegian krone (NOK) also contributed negatively over the period, with long Brazilian real (BRL) and Indonesian rupiah also detracting.

On the upside, short positioning in the Chinese renminbi (CNH) contributed positively, with CNH trending lower on the back of disappointment in economic activity. Short positioning in the Euro (EUR) and New Zealand dollar (NZD) also added value.

### Outlook

We view the Fed's move into its easing cycle as well as its apparent commitment to maintaining a solid labour market through rate cuts, should remove some of the supports that were prevalent earlier in 2024. In Europe, growth concerns have come into focus, with many leading indicators signalling a weak growth outlook for the region. Alongside moderating inflation, this has catalysed the European Central Bank ("ECB") to enter its cutting cycle and continue to signal further cuts as inflation nears its 2% target. Given these growth concerns and the more dovish ECB policy stance, we prefer to play our European currency exposure through the Norwegian krone (NOK). In China, the macro-economic case for easier economic policy continues to strengthen. Inflation remains highly subdued; consumer sentiment is weak and economic momentum has failed to take hold. As a part of potential stimulus measures, Chinese authorities are incentivised to allow renminbi weakness to persist and therefore, we continue to use the CNH as an attractive funding currency within the portfolio. Oppositely, further stimulus announcements from the PBoC could result in higher inflows into the economy and ultimately strengthen the currency. We are also cognisant of the risks facing China from US trade policy, which could escalate further as markets deal with the US presidential election in November.

## Investment Manager's Report – Unaudited (continued)

### **Outlook (continued)**

Going into Q4 2024, we continue to believe the US dollar could be challenged by a narrowing growth differentials and its expensive valuation. However, in the near term, the risk to this view is US data holds-up relatively well and the Fed does not deliver the already priced rate cuts, while we are also cognisant of some of the risks stemming from US politics. Given some of the proposed trade policies, there may be some volatility across FX markets including the USD. We remain constructive on Japanese yen (JPY) as from a valuation standpoint, the currency remains near its cheapest levels in real terms for several decades. Over the medium term, we have a high conviction in the valuation signal and while the timing of any move remains uncertain, there is historical precedence of JPY quickly reverting to fair value. Various inflation measures both realised and forecasted, indicates Japanese inflation will be above the inflation target, supported by structural factors such as tight labour markets. On the back of this, the Bank of Japan has hiked rates for the first time in 17 years and the next expected policy change remains a hike, while for most G10 central banks it remains a cut. While monetary policy could catalyse the move in JPY, we are also cognisant of the popularity of carry trades funded using the JPY over the past couple of years. Should we see a more material unwind of global carry trades in a global growth downdraft, similar to 1998 or 2008, we would expect this to further catalyse the JPY to revert back towards its fair value. Elsewhere, The Brazilian real (BRL) is our largest conviction within the region, given its recent weakness which, in our view, is not in line with the continued solid fundamentals. We also see strong fundamentals, attractive carry and cheap valuations in the Colombian peso (COP) and the Chilean peso (CLP) remains attractive on a valuation basis.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

# UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund

## Investment Manager’s Report – Unaudited

1<sup>st</sup> October 2023 to 30<sup>th</sup> September 2024

### Market environment

During the period from 01 October 2023 to 30 September 2024 global markets (MSCI World Index) delivered a strong return. Despite declining economic growth dynamics and increasing geopolitical uncertainties among investors, global equities continued to rise. In addition to robust corporate results, the leading central bank’s first interest rate cuts proved as a support for global equities. On a sector level most positive performance came from Information Technology, followed by Communication Services and Financials. Conversely, Energy, Consumer Staples and Health Care lagged the broader market significantly.

### Performance

The Equity Opportunity Long Short fund posted an absolute return of +3.12% (Q-PF share class, net of fee in EUR) from 1 October 2023 to 30 September 2024. On the long side, key contribution came from Financials, Industrials, Consumer Staples and Consumer Discretionary. On the short side, Health Care and Energy added positively. Conversely, on the long side Health Care and Communication Services added negatively, while Consumer Discretionary, Communication Services and Industrials were largest detractors on the short side.

### Outlook

Despite declining inflation rates and the first interest rate cuts by leading central banks, companies continue to face a higher interest rate backdrop. Simultaneously, light leading economic indicators and rising geopolitical risks are driving an increase in uncertainty among investors.

Against this market backdrop, we continue to search for fundamentally mispriced securities, and remain ready to take advantage of any opportunities presented by price/value dislocations caused by short term sentiment. We believe the fund is well positioned to face any market environment, as risk remains dominated by many diversified, idiosyncratic, stock-specific sources, driven by our fundamental analysts.

Following a change in lead portfolio management team, the fund is planned to be liquidated with target date November 2024.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

## Investment Manager's Report - Unaudited

1<sup>st</sup> October 2023 to 30<sup>th</sup> September 2024

### Market environment

During the period from 01 October 2023 to 30 September 2024 global markets (MSCI World Index) delivered a strong return. Despite declining economic growth dynamics and increasing geopolitical uncertainties among investors, global equities continued to rise. In addition to robust corporate results, the leading central bank's first interest rate cuts proved as a support for global equities. On a sector level most positive performance came from Information Technology, followed by Communication Services and Financials. Conversely, Energy, Consumer Staples and Health Care lagged the broader market significantly.

### Performance

During the reporting period, the Global Equity Long Short fund was up +2.55% (I-B share class, net of fee in EUR). Key contributor to performance was our exposure to Consumer Discretionary (long and short books), Financials (long book), Industrials (long book) and Materials (long book). Conversely, our long book and short books in Communication Services, the short book in Real Estate and short book in Utilities added negatively.

### Outlook

Despite declining inflation rates and the first interest rate cuts by leading central banks, companies continue to face a higher interest rate backdrop. Simultaneously, light leading economic indicators and rising geopolitical risks are driving an increase in uncertainty among investors.

Against this market backdrop, we continue to search for fundamentally mispriced securities, and remain ready to take advantage of any opportunities presented by price/value dislocations caused by short term sentiment. We believe the fund is well positioned to face any market environment, as risk remains dominated by many diversified, idiosyncratic, stock-specific sources, driven by our fundamental analysts.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

## Investment Manager's Report – Unaudited

1<sup>st</sup> October 2023 to 30<sup>th</sup> September 2024

### Market environment

Emerging markets (MSCI EM) equities returned (~26.1%) in USD terms over the 12 month-period ending September 30, 2024. Despite the volatile backdrop and geopolitical tensions the markets have exhibited strong performance.

### Performance

The strategy returned ~21.2%, underperforming the benchmark, the MSCI Emerging Marketing Index<sup>®</sup>, by ~4.9% over the 12 month period ending September 30, 2024, gross of fees. Financials was the key detractor, while Industrials contributed the most. Market-wise, India was the key detractor, while Taiwan contributed the most. Stock-wise TSMC, Mercadolibre and MediaTek contributed the most. TSMC outperformed, with the company well-positioned at the start of another multi-year semiconductor upturn, with rising Artificial Intelligence (AI) adoption being the key catalyst for growth, especially at the leading edge. TSMC is the key enabler for AI adoption, both in the datacenter and on the edge, with a nearly 100% market share in AI accelerators. The company's N3 and N5 technology saw strong demand supported by AI and smartphone and expects growth to resume in 2024. Mercadolibre outperformed on the back of better than expected results, combined with expectations of lower cost of capital ahead as the market prices in rate cuts in the US. MediaTek outperformed with the semiconductor sector. Investors expect the industry to be at the start of another multi-year upturn and positive sentiments were reaffirmed by Nvidia's recent quarter results which reflected strong demand for Artificial Intelligence (AI). Mediatek has been able to capture the market opportunities in each product cycle successfully and we believe networking, high performance computing and ASIC could be among key drivers for the company beyond 2024. On the other hand Meituan, Kweichow Moutai and China Mengniu detracted the most. Meituan initially underperformed as the management had indicated during Q3'23 that the company's food delivery order volume growth might face some pressure from macro headwinds. In addition, margins have been impacted by rising user subsidies. After selling the name, not holding Meituan detracted as the stock rose alongside Chinese equities due to a basket of policy stimulus measures and the company's issuance of US\$2.5bn in Senior Notes which is in-line with management's view on not issuing convertible bonds to avoid share dilution. Going forward, we think Meituan may face increasing competition and thus do not hold it. Moutai fell recently alongside a fall in its wholesale price, amid weak consumer demand environment in China. E-commerce platforms looking to clear their inventory pushed prices down. Prices have stabilized as Moutai has taken measures such as ceasing supply of 12-bottle cases, direct sales through enterprise group-buy channels and squeezing speculative demand. We are reconsidering the thesis as we believe economic growth will take longer to recover and weigh on high-end consumption. Mengniu underperformed as the stock trended lower over the period amid concerns about continued consumption weakness and low visibility of revenue growth acceleration. In addition, the unexpected change in CEO also caused concerns on the company's strategy. Going forward, we believe that consumption recovery will be more gradual than expected, though margin expansion thesis remains intact with valuations remaining attractive.

### Outlook

The Fed's 50bps rate cut and China's surprise stimulus package have rekindled interest in Asian and Emerging Markets (EM) equities. Barring a US hard landing and election risk, the Fed rate cut should support EM equities, with a rising possibility that the US dollar has peaked. Asian central banks now have greater bandwidth to cut rates following the Fed's move, amid a backdrop of their appreciating currencies and better inflation control, which some have already done, eg. Indonesia cut its benchmark policy rate by 25bps the same day the Fed did.

As for China's policy pivot, a languishing economy in many ways was forcing Beijing's hand. There was new urgency in the surprise policy pivot in September: the broad set of supportive measures were more comprehensive in scope and could have a more near-term and material impact than previous efforts. The fact that this was announced after an off-schedule Politburo meeting chaired by President Xi also lends some weight. Policymakers are taking action sooner than we had expected, but like other investors, we are asking if this round of policy moves are enough to revive consumer and business confidence and shake the property market out of its doldrums. For the market to continue rerating, we believe effective execution of plans is paramount. In the longer term, we are still looking forward to measures that target households, whether through social welfare spending or direct consumption support, in the country's push for a more sustainable, high quality development focused on consumption. We would also like to see policies that target businesses and help reestablish confidence among entrepreneurs. We believe they can be more effective to put an end to the downward spiral of consumer and business sentiment than those targeting investment and infrastructure.

Meanwhile the IT sector has underperformed. Recent results from global and Asian IT companies have generally been healthy, aside from disappointments from Intel – which could incidentally benefit other players, and thereby TSMC. The tech sector still has among the best fundamentals for the Asia universe, even after considering the risk of a global recession in 2025 and an AI capex drop off in 2026, neither of which is our base case currently. However the tech sector is still subject to the global economic cycle, which investors are gradually concerned about. Thus we are moderating our IT weight slightly as a risk measure, though we maintain an overweight as we believe that several of the stocks are still at attractive levels, especially after the fall.

## Investment Manager's Report – Unaudited (continued)

### Outlook (continued)

In Korea, the “corporate value-up programme” is taking a breather, having done well YTD. We followed Japan’s development over several years as the authorities worked to close the valuation gap, and believe Korea is sowing the same seeds, which will not happen overnight but over a period. Meanwhile the progress appears to be headed in the right direction.

Down south in India and Indonesia, domestic demand has shown relative strength. India’s economy has continued to produce robust broad-based momentum supported by cyclical and structural tailwinds. On the back of government capex on infrastructure, there is emerging evidence of a pick-up in private sector capex cycle and for the first time in a decade it appears that India’s economy is being driven incrementally by investment rather than consumption. Our boots-on-the-ground research recently uncovered some pick-up in rural demand and staples companies said demand is more visible now. However we find it challenging to find new ideas in India given valuations at their current levels. If Chinese equities start to recover, other regional equities may fall, including India’s, which may make entry levels more palatable.

Indonesia is the most interest-rate sensitive market in Asia, so the Fed’s rate cuts should have greater significance for that market. It now has a wider scope to ease policy rates, and has already done so as previously mentioned. In Indonesia, the macroeconomic environment remains stable given well-supported domestic demand and a healthy commodities trade surplus. We believe the economy will continue to be supported by reforms. Public finances in Indonesia are among the healthiest in key Emerging Markets economies, with low fiscal deficit and public debt to GDP. The political handover to President Prabowo will take place on 20 Oct and key ministerial positions are likely to be announced after. We are waiting to see the direction of the new administration.

Elsewhere in ASEAN, the political situation in Malaysia is stabilizing and economic growth is ratcheting up faster than expected. The market is the second-best performer in Asia YTD to September, and seeing increasing foreign investor interest. We own a bank in Malaysia that has benefitted from this uplift in sentiments.

Outside of Asia, while the macro backdrop for potential rate cuts is favorable given the level of high real rates, it hasn’t fully materialized yet. On the contrary, Brazil for instance has hiked rates by 25bps due to high fiscal deficit among others. On the positive side, there is some market expectation that the rate hiking cycle to pause or even to reverse already in 2025. Albeit for different reasons, rates in Mexico are expected to be higher for longer. The backdrop of political noises makes it difficult to cut rates in a meaningful way. Only market so far that has delivered on rate cuts is Hungary.

Beyond potential rate cuts, newsflow around past and upcoming election has been a key driving force behind the markets. Mexico's Senate has approved a controversial judicial reform, causing some concerns in the market. What is more, headline risk remains high because of the upcoming presidential election in the US and the (regular) USMCA review in 2026. In contrast, things have calmed a bit following the formation of the coalition government in South Africa. We are monitoring the situation closely as it’s important to distinguish what is sentiment and what is fundamentally driven.

Structurally speaking, we see changes happening in select markets. In Mexico, we see a trend of nearshoring, especially in the north, potentially resulting in higher investment and employment. In addition, the Middle East should continue benefiting from structural reforms, the volatility in oil price notwithstanding. At the same time, we are also monitoring the geopolitical risk around the current conflict in the Middle East.

Over the longer term, we see the following attractive drivers for Emerging Markets: 1) The evolution of Asian consumers: a rising middle class likely to drive higher consumption, premiumization and a shift towards discretionary spending and financial deepening, 2) De-globalization and geopolitics: reconfiguration of manufacturing and supply chains/“China Plus One” diversification, 3) Artificial intelligence and digital transformation: growing strategic importance of semiconductors with large parts of the value chain in Asia, 4) Energy transition: electric vehicle supply chain, from raw materials (e.g. nickel ore) to electric vehicles and 5) structural changes/reforms: better institutions, reforms and macro conditions in countries like India and Indonesia.

With respect to our portfolio, while we remain focused on medium term fundamental cash flow driven valuation methodology, the market is being driven by shorter term factors that are getting amplified by risk-off sentiment. We continue to believe that we are well-positioned to recover performance when the markets focus returns to company and sector specific fundamentals, and stock prices that are based on the intrinsic valuation of companies’ free-cash flows to its stakeholders.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

## Investment Manager’s Report - Unaudited

1<sup>st</sup> October 2023 – 30<sup>th</sup> September 2024

### Market Environment

After a relatively volatile Q4 2023 in the China equity market, it exhibited a more promising momentum in most of the first half of 2024. However, the Chinese equity market wobbled into the second half where it printed negative performance between June and August, as disappointing macro data and concerns around growth and getting more material support from the government started to rise further. However, a dramatic rebound was witnessed in September following the generous stimulus measures announced by the various Chinese regulators at the Politburo meeting which saw the key market indices closing the year above 20% on a YTD basis. Unlike the previous rounds of piecemeal policy introductions that disheartened many investors, this more coordinated approach between these regulatory bodies seems to indicate a stronger commitment to support growth which has given the investors a much-needed confidence boost which spurred the strong rally during the month.

### Performance

The Fund returned 19.90% net (share class P-PF-acc, in USD) between 1 October 2023 and 30 September 2024 amid a volatile market backdrop with positive attribution from both the long and short books. The pragmatic and dynamic approach to managing our portfolio exposures during this period had both enabled us to navigate the downside whilst also capturing the upside when market rebounded in the last week of September effectively. Our disciplined in keeping a conservative portfolio going into the year and through 1H through lower gross exposure of 120% and net exposure closer to neutral helped to minimize the downside risk without compromising the alpha hit rates across our long and short books. That said, as the functionality of the market showed improvement based on the alpha hit rate from both our long and short books, we turned more constructive and gradually added risk to the portfolio going into 2H 2024 where we rebalanced the book from net neutral to more net long and increased our gross exposure by 10%. However, going into the week of the Politburo meeting in September, we took the opportunity to further increase our exposures particularly in names and sectors which we believe will benefit from the policies, such as consumer, internet, banks/financials, insurance, industrials and utility. This quick action on the portfolio enabled us to capture the rebound and further added to performance. In September, our gross exposure increased by about 30% and our net (beta-adjusted) exposure close to our limit. However, we quickly reduced the exposures by month end ahead of the Golden Week as part of downside risk management as we were expecting some volatility when market reopens. In terms of key performance drivers, our exposures in internet names, consumers, utilities and financials were the highest contributors while healthcare detracted minimally as the sector continue to struggle amid the ongoing anti-corruption campaign.

### Outlook

Despite the dramatic turnaround in the Chinese equity market and generous stimulus measures announced in September 2024, our outlook has not changed where we believe that there will be a new growth paradigm in China as the government takes a refreshed approach to achieving its long-term economic growth. We are inclined to believe the worst is behind of us, not only due to recent stimulus, but more importantly, thanks to the transition progress China has made since early 2021, including derisking in property and financial sectors, stronger competitiveness by its manufacturing and export sectors, and more focus on addressing structural problems. With this as a possible backdrop, the team continues to focus on identifying emerging long term thematic opportunities for alpha generation going forward. That said, we will continue to watch the developments going forward, and position our portfolio accordingly. At this point, there is no change on our view of alpha opportunities in our longer-term themes around SOE reforms, generative AI, EV supply chain, healthcare and advanced manufacturing while we remain open minded to assess if upside risk is rising heading into the year end.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

# UBS Global Emerging Markets Opportunity Reduced Carbon Fund

## Investment Manager's Report - Unaudited

1<sup>st</sup> October 2023 to 1<sup>st</sup> March 2024 (the sub-fund liquidated on 4 March 2024)

### Market environment

Emerging markets (MSCI EM) equities returned (~8.2%) in USD terms over the reporting period. Markets continued to do well on the back of more benign inflation across many markets. On the sector level, IT was the best performing one on the back of the strong growth prospects thanks to the emergence of AI.

### Performance

The strategy returned ~5.8%, underperforming the benchmark, the MSCI Emerging Marketing Index (r), by ~2.4% over the reporting period. Our stock selection in Banorte, Mediatek and Credicorp contributed positively to performance. Banorte outperformed alongside the broader market in Mexico, driven by stronger-than-expected GDP growth and increasing near-shoring activities. In addition, the company reported solid results over the period. Mediatek has been able to capture the market opportunities in each product cycle successfully and we believe networking, high performance computing and ASIC could be among key drivers for the company beyond 2024. In addition, Nvidia's strong guidance reflects strong demand for Artificial Intelligence (AI). Credicorp outperformed on the back of better than expected results. In contrast, our holdings in HDFC Bank, Meituan and China Mengniu. HDFC underperformed on some disappointment over last quarter's results, including its bloated loan to deposit ratio. However the bank still outpaced the industry in terms of deposit growth and we believe it can continue to do so. The company remains a premier private bank focused on mortgages, auto and other personal loans, that continues to expand its footprint into rural India at a rapid pace. In addition, its merger with HDFC Ltd should be accretive with improved penetration and cross sell. Meituan underperformed, with the management indicating at the recent results announcement, that the company's food delivery order volume growth might face some pressure from macro headwinds. In addition, competition is intensifying and margins have been impacted by rising user subsidies. We have exited the stock as we believe Meituan may face increasing competition going forward. Mengniu underperformed as the stock trended lower over the period amid concerns about continued consumption weakness and low visibility of revenue growth acceleration. Going forward, we believe that consumption recovery will be more gradual than expected, though margin expansion thesis remains intact with valuations remaining attractive.

### Outlook

Please note though, that the fund has been liquidated on 4<sup>th</sup> of March 2024.

Historical performance is no indicator of current or future performance.

The performance data does not take into account of any commissions and costs charged when subscribing and redeeming shares.

# Notes to the Financial Statements

## Note 1 – Organisation

The Company was incorporated on 1 December 2009 as an open-ended investment company with variable capital organised under the laws of Ireland (registration number 478169) and has been authorised in Ireland by the Central Bank pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 as amended, the Central Bank UCITS Regulations, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”). The Company is structured as an umbrella fund consisting of different sub-funds, each comprising one or more share classes.

The Company has an appointed management company. As at 30 September 2024, the Company had no employees. The investment activities of UBS (Irl) Investor Selection – Currency Allocation Return Strategy and UBS Global Emerging Markets Opportunity Fund are managed by UBS Asset Management Switzerland AG, UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund and UBS (Irl) Investor Selection – Global Equity Long Short Fund are managed by UBS Asset Management (UK) Ltd., UBS Global Emerging Markets Opportunity Reduced Carbon Fund is managed by UBS Asset Management (Singapore) Ltd. and UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS is managed by UBS Asset Management (Americas) LLC (collectively, the “Investment Manager”). The registered office of the Company is situated at Second Floor, 5 Earlsfort Terrace, Dublin 2, D02 CK83, Ireland.

UBS Fund Management (Ireland) Limited acts as manager of the Company.

The sub-funds which were active as at 30 September 2024 and approved by the Central Bank are as follows:

<b>Sub-fund</b>	<b>Launched on</b>	<b>Commencement of operations</b>
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	30 June 2014	30 June 2014
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	29 October 2010	29 October 2010
UBS (Irl) Investor Selection - Global Equity Long Short Fund	28 August 2012	28 August 2012
UBS Global Emerging Markets Opportunity Fund	1 January 2010	1 January 2010
UBS (Irl) Investor Selection PLC - O’Connor China Long/Short Alpha Strategies UCITS	10 September 2021	10 September 2021

## Note 2 – Material accounting policies

### a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union (“EU”), interpretations adopted by the International Accounting Standards Board (“IASB”) and Irish Statute comprising the UCITS Regulations, Central Bank UCITS Regulations and Companies Act 2014. Changes to significant accounting policies are described in Note 2 (d). The financial statements were authorised for issue on 28 January 2025.

### b) Basis of preparation

The financial statements of the Company are presented in United States Dollars (“USD”) and rounded to the nearest USD. They are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss and derivative financial instruments. Other financial assets and financial liabilities are stated at amortised cost or redemption amount (redeemable participating shares).

### i) Going concern

After making enquiries and considering relevant financial and other factors, the Directors have a reasonable expectation that the Company have adequate resources to continue in operational existence for the foreseeable future. With the exception of UBS Global Emerging Markets Opportunity Reduced Carbon Fund which closed on March 2024. Furthermore, the management is not aware of any material uncertainties that may cast doubt upon the Company’s ability to continue as a going concern. Therefore, the financial statements of the Company continue to be prepared on a going concern basis.

### ii) Use of judgements and estimates

The preparation of financial statements, in conformity with International Financial Reporting Standards (“IFRS”) as adopted by the EU, requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of income, expenses, assets and liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods. Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial period, as well as critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in Notes 6 and 9.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### c) Foreign currency translation

Functional currency is the currency of the primary economic environment in which the Company operates. If indicators of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The majority of the Company's investments and transactions are denominated in USD. Investor subscriptions and redemptions are determined based on net asset value ("NAV"), and received and paid in the currency of the sub-fund. The expenses (including management fees, depositary fees and administration fees) are denominated and paid in USD. Accordingly, management has determined that the functional currency of the Company is USD.

Transactions in foreign currencies are translated into the reporting currency at exchange rates at the dates of the transactions. For practical reasons, a rate that approximates the actual rate at the date of the transaction is often used, for example, an average rate might be used for all transactions in each foreign currency occurring during the period. However, if exchange rates fluctuate significantly, the use of the average rate for the period will be inappropriate. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to USD at the exchange rate at the date that the fair value was determined. For income and expenses that are recognised in the Statement of Comprehensive Income, the use of average exchange rate is permitted under IFRS if they are a reasonable approximation of the actual exchange rates. Foreign currency exchange differences relating to investments at fair value through profit and loss and derivative financial instruments are included in the net loss on foreign exchange.

The Company operates a number of sub-funds, each with its separately determined functional currency as stated below.

	Functional Currency	Reporting Currency
<b>UBS (Irl) Investor Selection PLC</b>	USD	USD
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	GBP	GBP
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	EUR	EUR
UBS (Irl) Investor Selection - Global Equity Long Short Fund	EUR	EUR
UBS Global Emerging Markets Opportunity Fund	USD	USD
UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS	USD	USD
UBS Global Emerging Markets Opportunity Reduced Carbon Fund	USD	USD

The financial statements of each sub-fund are presented in the currency that it is primarily exposed to with the Company financial statements being presented in USD. The difference arising from translation of the primary statements at different exchange rates, for the purpose of producing the financial statements of the Company, is included as a foreign currency translation adjustment in total other comprehensive gain/(loss) in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

The following exchange rates were used for the conversion of the consolidated financial statements into USD as at 30 September 2024 and 30 September 2023:

	Closing Rates		Average Rates	
	30 September 2024	30 September 2023	30 September 2024	30 September 2023
GBP	1.3414	1.22055	1.2672	1.2270
EUR	1.1161	1.05875	1.0837	1.0679

### d) New standards, amendments and interpretations

There are no new standards, interpretations or amendments to existing standards that are effective for the period beginning on or after 30 September 2024, that would have had a material impact on these financial statements.

The following new standards, amendments to standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below:

Standards	Narrative	Effective date*
IAS 1 (amendments)	Classification of Liabilities as Current or Non-current	1 January 2024
IAS 7 Statement of Cash Flows	Supplier finance arrangements	1 January 2024
IFRS 7 (amendments)	Supplier finance arrangements	1 January 2024
IFRS 16	Leases	1 January 2024
IAS 21 The Effects of Changes in Foreign Exchange Rates	Lack of Exchangeability	1 January 2025
Amendments to IFRS 9 and IFRS 7	Classification and Measurement of financial instruments	1 January 2026
IFRS 18	Presentation and disclosure in financial statements	1 January 2027
IFRS 19	Subsidiaries without public statements	1 January 2027

\*Annual periods beginning on or after.

These amendments are not expected to have a material impact on the Company's financial statements.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### d) New standards, amendments and interpretations (continued)

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

### e) Financial instruments

#### i) Classification

On initial recognition, the Company classifies financial assets as measured at amortised cost or fair value through profit or loss (“FVTPL”). A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (“SPPI”).

All other financial assets and financial liabilities of the Company are measured at FVTPL including transferable securities, derivative financial assets and derivative liabilities.

#### Business model assessment

In making an assessment of the objective of the business model in which a financial asset is held, the Company considers all of the relevant information about how the business is managed, including:

- The documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- How the performance of the portfolio is evaluated and reported to the Company’s management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How the Investment Manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

The Company has determined that it has two business models.

- Held-to-collect business model: this includes interest and dividend receivables, due from brokers, deposits with credit institutions and other receivables. These financial assets are held to collect contractual cash flows.
- Other business model: this includes transferable securities and derivatives. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

#### Assessment whether contractual cash flows are SPPI

For the purpose of this assessment, ‘principal’ is defined as the fair value of the financial asset on initial recognition.

‘Interest’ is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- Contingent events that would change the amount or timing of cash flows;
- Leverage features;
- Prepayment and extension features;
- Terms that limit the Company’s claim to cash flows from specified assets (e.g. non-recourse features); and
- Features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

The Company has determined that the only financial assets classified at amortised cost are cash and cash equivalents due to the related contractual cashflows being solely payments of principal and interest.

#### Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Company were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### e) Financial instruments (continued)

#### i) Classification (continued)

##### Reclassifications (continued)

The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Company's debt securities are solely principle and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. Consequently, all investments are measured at fair value through profit or loss.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Company's policy requires the Manager and the Board of Directors to evaluate the information about these financial assets and financial liabilities on a fair value basis with other related financial information.

#### ii) Recognition

The Company recognised financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instruments. Transactions are recognised using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or liabilities are recorded.

#### iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and financial liabilities at fair value through profit and loss are expensed immediately to the Statement of Comprehensive Income.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets classified as receivables are carried at amortised cost using the effective interest rate method, less impairment losses, if any. Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable participating shares issued by the Company are carried at the redemption amount representing the investors' right to a residual interest in the Company's assets.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC options and forwards, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

#### iv) Fair value measurement principles

The fair value of financial instruments is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets and liabilities are priced at current mid-price.

Unlisted financial assets and financial liabilities (or traded on any stock exchange or over-the-counter market) are valued at their fair value estimated with care and in good faith by a stockbroker or other competent person, such as the Administrator, appointed by the Manager and approved by the Depositary.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

The carrying amounts of the financial assets and financial liabilities not classified as FVTPL at the reporting date approximated their fair values.

#### v) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or are extinguished or it transfers the financial asset and the transfer qualifies for derecognition in accordance with IFRS 9, *Financial Instruments* ("IFRS 9").

The Company uses the first in first out (the "FIFO") method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the Company's obligation specified in the contract is discharged, cancelled or the obligation expires.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### e) Financial instruments (continued)

#### vi) Specific instruments

##### Forwards

Forwards are commitments either to purchase or sell a designated financial instrument or currency amount at a specified future date for a specified price. Forwards may be settled in cash or in another financial asset. Forwards are individually traded over-the-counter contracts. Forwards result in credit exposure to the counterparty to the extent that the counterparty does not meet its obligations under the contract.

Forwards result in exposure to market risk based on changes in market prices relative to contracted amounts. Market risks arise due to the possible movement in foreign currency exchange rates and securities' values underlying these instruments. In addition, due to the low margin deposits normally required in relation to nominal contract sizes, a high degree of leverage may be typical of a forward trading account. As a result, a relatively small price/rate movement in the underlying security/currency of a forward may result in substantial losses to the Company.

Nominal amounts are the underlying reference amounts to foreign currencies upon which the fair value of the forward contracts traded by the Company are based. While nominal amounts do not represent the current fair value and are not necessarily indicative of the future cash flows of the forwards, the underlying price changes in relation to the variables specified by the nominal amounts affect the fair value of these derivative financial instruments.

##### Equity Swaps

Equity swaps allow a direct exposure to the market, to a sector or to an individual security. Swaps have a fixed maturity and naturally expire once the maturity reaches. However, the parties involved in a swap transaction may also terminate the contract before its expiry. Equity swaps are used to gain exposure to share price movements without buying the shares themselves. An equity swap on a company's shares will specify the price of the shares when the contract commences. The swap contract is an agreement to pay out cash on the difference between the starting share price and when the swap contract is closed.

Daily fluctuations in the value of a swap contract are recorded for financial reporting purposes as unrealised gains or losses and are recorded as a realised gain or loss when the position is closed.

##### Options

Premiums received on written call and put options are recorded as a liability and the premiums paid on the purchase of call and put options are recorded as an asset at inception. The fair values of unexpired option contracts are based upon the quoted market value of the option. Realised and the change in unrealised gains and losses are included in the Statement of Comprehensive Income. Premiums received from writing options and premiums paid on purchased options that expire unexercised are recognised as realised gains and realised losses, respectively within financial assets and liabilities at fair value through profit or loss.

##### Futures

Futures are commitments either to purchase or to sell a designated financial instrument or currency at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the futures contract values are settled daily. Futures contracts have little credit risk as counterparties are futures exchanges.

Futures result in exposure to market risk based on market prices relative to contracted amounts. In addition, due to the low margin deposits normally required in relation to nominal contract sizes, a high degree of leverage may be typical of a futures trading account. As a result, a relatively small price movement in the underlying security of a futures contract may result in substantial losses to the Company. Certain futures exchanges do not permit trading in particular futures contracts at prices that represent a fluctuation in price during a single day's trading beyond certain set limits. If prices fluctuate during a single day's trading beyond those limits, the Company could be prevented from promptly liquidating unfavourable positions and thus could be subject to substantial losses.

The changes in value of open future contracts are recognised as unrealised gains or losses by marking-to-market the value of the contract at the reporting date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded in the Statement of Comprehensive Income.

##### Swaps

Credit default swaps are contracts in which the Company pays or receives premium flows in return for the counterparty accepting or selling all or part of the risk of default or failure to pay off a reference entity for which the swap is written, where the Company has bought protection the maximum potential loss is the value of the premium flows the Company is contracted to pay until maturity of the contract.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### e) Financial instruments (continued)

#### vi) Specific instruments (continued)

##### Swaps (continued)

Where the Company has sold protection the maximum potential loss is the nominal value of the protection sold.

Interest rate swaps are contracts in which the Company exchanges interest rate cash flows for cash flows based on the return of a fixed income instrument, a securities index or another stream of cash flows.

These contracts allow the Company to manage its interest rate exposures. Interest rate swap returns are based on the movement of interest rates relative to a specified alternative as per the contract.

All swap contracts are stated at market value. The net income or expense in the swap agreements entered into by the Company is reflected in the Statement of Comprehensive Income. The unrealised gain or loss is reported as an asset or liability and changes in the market value are reflected in the Statement of Comprehensive Income in the year in which they occur.

##### Contracts for Difference

Contracts for difference allow a direct exposure to the market, a sector or an individual security. Unlike a forward contract, there is no final maturity, the position being closed out at the discretion of the position taker. Contracts for difference are used to gain exposure to share price movements without buying the shares themselves. A contract for difference on a company's shares will specify the price of the shares when the contract was started. The contract is an agreement to pay out cash on the difference between the starting share price and when the contract is closed. Daily fluctuations in the value of a swap contract are recorded for financial reporting purposes as unrealised gains or losses and are recorded as a realised gain or loss when the position is closed.

##### Warrants

Warrants are options to purchase additional securities from the issuer at a specified price during a specified period. Warrants are sometimes used to gain exposure to emerging market equities where custody, liquidity, or other issues make ownership of local shares sub-optimal. Risks associated with the use of warrants are generally similar to risks associated with the use of purchased options. However, warrants do not have standardised terms, and may have longer maturities and may be less liquid than exchange-traded options. In addition, the terms of warrants may limit the Company's ability to exercise the warrants at such times and in such quantities as the Company would otherwise wish. Warrants are measured at fair value through profit or loss and are designated as financial assets or financial liabilities at fair value through profit or loss.

### f) Interest income and expense

Interest income and expense on financial instruments at amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or financial liability (or, where appropriate, a shorter year) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial asset, future credit losses are not considered.

The calculation of the effective interest rate includes all fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Interest income and expense includes interest on cash and cash equivalents and on financial assets and financial liabilities.

### g) Gains and losses on financial assets and financial liabilities at fair value through profit or loss

Gains and losses on financial instruments at fair value through profit or loss include all realised gains/(losses) on transferable securities and derivative financial instruments, and unrealised gains/(losses) from fair value changes and foreign exchange differences. Realised gains and losses are based on the FIFO method.

### h) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or a financial liability.

An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, the Company shall measure the instrument at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### h) Transaction costs (continued)

Transaction costs on the purchase and sale of bonds, forwards and swaps are included in the purchase and sale price of the investment. Transaction costs cannot be practically or reliably estimated as they are embedded in the price of the investment and cannot be separately verified or disclosed.

Transaction costs on purchases and sales of equities, options and futures are included in net gain on financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

Custody transaction costs are separately identifiable transaction costs. The amounts incurred by each sub-fund during the year are disclosed in Note 15.

### i) Expenses

All expenses, including management fees, depositary fees, interest expense, bank charges, tax expenses and general and operating expenses are recognised in the Statement of Comprehensive Income on an accrual basis. Administrative costs include general and operating expenses, bank charges, miscellaneous expenses, commission expenses, depositary fees and tax expenses.

### j) NAV per share

NAV per share at year-end is calculated by dividing the NAV of the relevant class in each sub-fund at year-end by the number of redeemable participating shares of the relevant class in issue as at the year-end.

### k) Cash and cash equivalents

Cash comprises current deposits with banks. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

### l) Balance due to/from brokers

In accordance with the Company's policy of trade date accounting for regular way sale and purchase transactions, sales/purchases awaiting settlement represent amounts receivable/payable for securities sold/purchased but not yet settled as at the Statement of Financial Position date. Due from/to broker accounts include the settlement amounts and all of the collateral amounts.

### m) Foreign exchange gains and losses

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in the fair value in the Statement of Comprehensive Income. Included in the net loss on foreign exchange in the Statement of Comprehensive Income are net foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified at fair value through profit or loss. Foreign exchange differences arising on translation of the sub-funds' financial statements for the purpose of preparing the Company's financial statements are recognised in Other Comprehensive Income.

### n) Dividend income and expense

Dividend income and dividend expense are recorded on the ex-dividend date. Dividend income is recognised on a gross basis, before withholding tax.

### o) Distribution policy

Shares of a sub-fund may be issued as accumulating shares or distributing shares. The dividend policy and information on the declaration and payment of dividends for each sub-fund will be specified in the relevant supplement. The Constitution of the Company gives the Directors the right to declare dividends in respect of any Shares in the Company out of the net income of the relevant sub-fund (whether in the form of dividends, interests or otherwise) and/or net realised gains (i.e. realised gains net of realised and unrealised losses) or net realised and unrealised gains (i.e. realised and unrealised gains net of all realised and unrealised losses) subject to certain adjustments.

### p) Redeemable participating shares

All redeemable participating shares issued by the Company provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Company's net assets at the redemption date. In accordance with IAS 32, *Financial Instruments: Presentation* ("IAS 32") such instruments give rise to a financial liability for the present value of the redemption amount.

Applications for Shares may be made through the Administrator on behalf of the Company. Applications received and accepted by the Administrator prior to the subscription deadline for the relevant subscription day will be processed on that subscription day. Shareholders may redeem their shares on and with effect from any Redemption Day at the NAV per share calculated on or with respect to the relevant Redemption Day as described in the Prospectus. Subject to certain exceptions in relation to certain switches of shares from one class to another class in the same sub-fund, switching will generally amount to a disposal of the original shares for tax purposes and accordingly, a chargeable gain or an allowable loss may be realised.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### q) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when and only when, the Company has legal right to offset the amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS as adopted by the EU, e.g. for gains and losses arising from a group of similar transactions, such as gains and losses from financial instruments at fair value through profit or loss.

### r) Anti-dilution measures

The Company may use “swing pricing” as the method to adjust the price of shares to minimise the impact of “dilution” on Shareholders’ interests. Dilution occurs when the cost of purchasing or selling the assets of the Company is greater than the value of these assets due to taxes, dealing charges or any spread between the buying and selling prices of these assets. If the aggregate subscriptions and redemptions exceed a threshold then the NAV used to process all deals in the Company (or a sub-fund) is adjusted to reflect by a swing factor. The swing factor, which shall not exceed 2%, and the threshold are set by the Directors and/or the Investment Manager.

For the purpose of calculating any expenses of the Company (or a sub-fund) which are based on the NAV of the Company (or a relevant sub-fund), the Administrator will continue to use the un-swung NAV.

The anti-dilution levy (“ADL”) is booked onto each sub-fund every time there are net flows which exceed the threshold. All capital activity is booked onto each sub-fund using un-swung NAV and all capital is booked on the transfer agent’s system with swung information. The ADL is booked onto each sub-fund to make up the difference in the cash settlement of the capital trade and is booked as positive income to each sub-fund depending on net flows. The ADL is booked into each sub-fund the same time the capital trades are booked.

### s) Taxation

The Company is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company is not liable to tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally, a chargeable event arises on redemption, repurchase, cancellation, transfer of shares or on the ending of a ‘Relevant Period’. A ‘Relevant Period’ is an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- An exchange by a shareholder, effected by way of an arm’s length bargain where no payment is made to the shareholder, of shares in the Company for other shares in the Company;
- Any transactions (which might otherwise be considered a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners;
- A transfer by a shareholder of the entitlement to shares where the transfer is between spouses and former spouses, subject to certain conditions; or
- An exchange of shares arising on a qualifying amalgamation or reconstruction (within the meaning of Section 739H of the Taxes Act) of the Company with another investment undertaking.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event. Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

### t) Hedge classes

For the benefit of holders of classes of shares that are denominated in a currency other than the base currency, the Investment Manager may, but is not obliged to, seek, through the use of forwards and/or futures, to hedge the foreign exchange exposure arising as a result of fluctuations between the denominated currency of the class and the base currency. Hedged positions will be kept under review to ensure that over hedged positions do not exceed 105% of the NAV of the class. This review will also incorporate a procedure to ensure that positions in excess of 100% will not be carried forward from month to month.

Any financial instruments used to implement such strategies with respect to one or more classes shall be assets/liabilities of a sub-fund as a whole but will be attributable to the relevant Class(es) and the gains/(losses) on the relevant financial instrument and the costs of the relevant financial instruments will accrue solely to the relevant class. Where a class of shares is to be hedged this will be disclosed in the supplement for the sub-fund in which such class is issued. Any currency exposure of a class may not be combined with or offset against that of any other class of a sub-fund. The currency exposure of the assets attributable to a class may not be allocated to other classes. Hedge classes are currently operational in the UBS (Irl) Investor Selection - Currency Allocation Return Strategy, UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund sub-funds and UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS.

# Notes to the Financial Statements

## Note 2 – Material accounting policies (continued)

### t) Hedge classes (continued)

Investors should also note that, to the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the underlying assets and that investors in a hedged class will not benefit if the class currency falls against the base currency and/or the currency in which the assets of the Company are denominated and that this hedging strategy may substantially limit holders of these shares from benefiting if the base currency falls against the denominated currency of the class. Each sub-fund's currency hedging policy is set out in the relevant supplement of the Prospectus.

## Note 3 – Interest income and expense

The following tables detail the interest income earned and expense incurred by the Company during the year:

30 September 2024

## Note 6 – Fair value estimation

The following tables provide an analysis of financial instruments measured at fair value at the reporting date by the level in the fair value hierarchy into which each financial instruments' fair value measurement is categorised. The amounts are based on the values recognised in the Statement of Financial Position. All fair value measurements noted are recurring.

The fair value hierarchy is as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices);
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement of an instrument is categorised in its entirety is determined on the basis of the lowest level input, 1 being the highest level that is significant to the fair value measurement of that instrument in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, exchange traded derivatives, warrants, US government treasury bills and certain non-US sovereign obligations. Quoted market prices are primarily sourced from market leading financial data vendors. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include fund of funds investments, collective investment schemes, investment-grade convertible bonds and certain non-US sovereign obligations, and over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

The Company's level 2 investments primarily include collective investment schemes, forwards and equity swaps which are easily valued based on observable market data.

The Investment Manager took the decision to write down the investments in Yandex Nv-A and Sberbank which were transferred into level 3 at USD Nil in March 2022 due to the conflict in the Ukraine and the essential shutting down of the Russian market.

As at 30 September 2024, the Company had investments in equity swaps of USD Nil which were classified as Level 3 investments. The valuation of the equity swaps classified as Level 3 investments, namely Country Garden Holdings Co Ltd, New Horizon Health Ltd and Redco Properties Group Ltd is determined by the Valuation Committee.

The following table presents the movement in the Company's level 3 instruments for the year ended 30 September 2024.

Fair value measurement using Level 3 Inputs	
2024	
USD	
Opening balance at the beginning of the year	-
Purchases	-
Net transfer in	3,862
Change in unrealised depreciation	(3,862)
Realised	-
<b>Closing balance at the end of the year</b>	<b>-</b>

# Notes to the Financial Statements

## Note 6 – Fair value estimation (continued)

The following table presents the movement in the Company's level 3 instruments for the year ended 30 September 2023.

Fair value measurement using Level 3 Inputs	
2024	
USD	
Opening balance at the beginning of the year	-
Purchases	73,625
Net transfer in	(8,279)
Change in unrealised depreciation	8,279
Realised losses	(73,625)
<b>Closing balance at the end of the year</b>	<b>-</b>

During the year ended 30 September 2023 there was USD8,279 transfers in to level 3 investments. The investments were transferred to level 3 by the valuation committee due to the investment being valued at a stale/suspended price.

## Note 7 – Share capital

The authorised share capital of the Company is 500,000,000,000 shares of no par value and 300,000 redeemable non-participating shares of no par value. The minimum issued share capital of the Company is 2 redeemable non-participating shares of no par value. There are 300,000 non-participating shares currently in issue which are held by the Investment Managers of the sub-funds. Non-participating shares do not entitle the holders to any dividends and on a winding up entitle the holders to receive the amount paid up thereon but do not otherwise entitle them to participate in the net assets of the Company.

The Company is a daily dealing fund therefore an investor can subscribe and/or redeem as they wish. Both the Company and the investor have an option to redeem shares. No premium is payable on the redemption of shares.

The Directors reserve the right to impose “an anti-dilution levy” representing a provision for market spreads (the difference between the prices at which assets are valued and/or bought or sold) and other dealing costs relating to the acquisition or disposal of assets and top reserve the value of the underlying assets of the sub-fund.

\*Investors with existing investment management mandates with a UBS group company or proprietary capital to a UBS AG group company.

\*\*The fee of the Investment Manager, the Manager, the Depositary and the Administrator together with all custody and transaction costs, auditors’ fees, legal fees, registration fees and Directors’ fees.

The rights attaching to the redeemable participating shares issued in the Company or any class may, whether or not the Company is being wound up, be varied or abrogated with the consent in writing of the shareholders of three-quarters of the issued shares of the Company or the relevant class, or with the sanction of an ordinary resolution passed at a general meeting of the Shareholders of the Company or the relevant class.

The rights attaching to the shares shall not be deemed to be varied by the creation, allotment or issue of any further shares ranking pari passu with shares already in issue.

Redeemable participating shares may be redeemed on redemption days as set out in the Prospectus and will be redeemed at the NAV per share quoted on that day, calculated in accordance with the Prospectus.

Aggregate fees consist of both management fees and general operating fees. The Manager can change the general operating percentages during the year of any of the sub-funds. Sub-funds will be entitled to a reimbursement if the fee limit is breached, it is the responsibility of the manager to monitor the balances of each sub-fund.

## Note 8 – Cash and cash equivalents and balances due from/to brokers

When cash is pledged as collateral, it is derecognised from cash and cash equivalents and subsequently recognised in the balances due from broker account. Cash and cash equivalents are held with J.P. Morgan, UBS AG, Bank of America Merrill Lynch, Goldman Sachs, Morgan Stanley International, and MUFG (2023: J.P. Morgan, UBS AG, Bank of America Merrill Lynch, Barclays Bank PLC, Goldman Sachs, Morgan Stanley International, and MUFG).

The credit ratings of the banks as classified by Moody's are as follows: J.P. Morgan Aa2 (2023: Aa3), UBS AG Aa2 (2023: Aa2), Morgan Stanley A1 (2023: A1), Bank of America Merrill Lynch A1 (2023: A1), Goldman Sachs International A1 (2023: A2) and Bank of New York Mellon A1 (2023: Aa1). There are no restrictions on the cash and cash equivalents amounts held with these brokers.

## Note 9 – Financial instruments and associated risks

The Company maintains positions in a variety of derivative and non-derivative financial instruments as dictated by its investment management strategy.

The Company's investing activities expose it to various types of risk that are associated with the financial instruments and markets in which it invests. The most significant types of financial risk to which the Company is exposed are market risk, credit risk, liquidity risk and operational risk.

The Company employs derivative financial techniques and instruments for the purposes of investment and/or efficient portfolio management subject to the limits laid down by the Central Bank and subject to the terms of the supplement for the relevant sub-fund. These derivative financial techniques and instruments may include, but are not limited to, warrants, exchange traded futures and options, forwards and swap agreements.

The Manager uses a risk management process to measure, monitor and manage risks attached to the derivative financial positions and details of this process have been provided to the Central Bank.

The Manager employs a risk management process which enables it to measure, monitor and manage the risks within the sub-funds. The Company must calculate its global exposure on at least a daily basis. Global exposure is calculated using VaR for UBS (Irl) Investor Selection – Currency Allocation Return Strategy, UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund, UBS (Irl) Investor Selection – Global Equity Long Short Fund and UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS. Global exposure is calculated using the commitment approach for the UBS Global Emerging Markets Opportunity Fund and UBS Global Emerging Markets Opportunity Reduced Carbon Fund. Any techniques or instruments including repurchase agreements which are used by the sub-funds to generate additional leverage or exposure to market risk are taken into account when calculating the global exposure of the sub-fund. Leverage is calculated using the sum of the notionals of the derivatives used by the sub-fund. Through regular monitoring and review of risks related to the specific sub-funds, the Manager aims to quantify and analyse the current risk against the expected risk profile of the portfolio and performance targets of the sub-funds. Methods of measuring risk include, but are not limited to, VaR analysis, stress testing, sensitivity measures, leverage and relative risk. An ex-ante tracking error model is also used by the Manager to control risk. All sub-funds remain within the allotted parameters.

The Board of Directors issues a risk management statement (Derivative Financial Instrument Report) to the Central Bank on an annual basis.

Asset allocation is determined by the Company's Investment Manager who manages the distribution of the assets to achieve the investment objectives. Divergence from target asset allocations and the composition of the portfolio is monitored by the Company's Investment Manager. The nature and extent of the financial instruments outstanding at the reporting date and the risk management policies employed by the Company are discussed below. However these are not all the risks involved. Investors should refer to the Prospectus to see the full list of risks.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### a) Market risk

Market risk is the risk that changes in currency risk, price risk and interest rates risk will affect the positions held by the Company.

The Company is exposed to market risk on investments in that the Company may not be able to readily dispose of its holdings when it chooses and also that the price obtained on disposal is below that at which the investment is included in the Company's financial statements. All trading financial instruments are recognised at fair value through profit or loss and all changes in market conditions directly affect net income.

The Investment Manager uses derivative financial instruments which may give rise to leverage within the portfolio, subject to the limits set out in the Prospectus, to increase the potential overall return on capital. Leverage may be created through the use of derivative financial instruments, subject to UCITS Regulations. The leverage created through the use of derivative financial instruments will be measured using either the commitment approach or VaR depending on the risk profile of the strategies pursued by each sub-fund.

The commitment approach calculates leverage by measuring the market value of the underlying exposures of derivative financial instruments. An overall risk monitoring structure is in place which sets risk and leverage limits for the Company, and prescribes action to be taken upon these limits being breached.

In pursuing each sub-fund's investment objectives, the Investment Manager seeks to allocate risk capital in the most appropriate way, given prevailing market opportunities, in order to achieve the desired compensation for the risk capital being expended.

Risk management is therefore at the forefront in setting investment strategy. Before entering into an investment, the Investment Manager will always take note of the investment's market price. Price is a required data point in assessing attractiveness. Similarly, the attractiveness of an investment cannot be estimated without a thorough analysis of the investment's potential risk.

Efficient risk capital allocation involves expending appropriate amounts of a Company's risk budget when it is desirable to do so in response to conditions in the market environment. It also involves separating and diversifying the decision dimensions available to the Investment Manager. The output of the Company's risk capital allocation system parallels investment decision-making by embodying and visually representing these characteristics.

The Investment Manager is able to use the risk capital allocation system to test and evaluate potential changes to investment strategy.

### i) Currency risk

The Company may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Company is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Company's assets or liabilities denominated in currencies other than the functional currency.

The Company's foreign currency exchange rate risk is managed on a daily basis by the Investment Manager.

The Company may employ strategies aimed at hedging against currency risk at the class level. When the Company enters into such currency transactions as part of the sub-fund's investment policy, the hedging transactions at the share class level will be considered distinct from the tactical currency transactions of the relevant sub-fund.

The Investment Manager may utilise hedging strategies in order to hedge the exposure of classes that are denominated in currencies other than the base currency of the relevant sub-fund. The hedging will typically be undertaken by means of forwards but may also include currency options.

The following tables set out the Company's total exposure to foreign currency risk and the net exposure to foreign currencies of monetary assets and monetary liabilities. Amounts in the above table are based on the carrying value of monetary assets and monetary liabilities.

\*The sub-fund launched on 11 October 2022.

Amounts in the above table are based on the carrying value of monetary assets and monetary liabilities.

#### Sensitivity Analysis

As at 30 September 2024, had the base currency strengthened by 5% in relation to all currencies, with all other variables held constant, net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares per the Statement of Comprehensive Income would have decreased by the amounts shown overleaf. Had the base currency weakened by 5% in relation to all other currencies it would have resulted in an equal but opposite effect. The analysis is performed on the same basis for 2023.

\*The sub-fund launched on 11 October 2022.

#### ii) Global exposure

##### Risk management

Global exposure in accordance with the applicable laws and regulatory provisions, is calculated using either the commitment approach or the VaR approach. The VaR of each sub-fund's portfolio is the estimated loss that may arise on the portfolio over a specified period of time (holding period) from an adverse market movement within a specified probability (confidence level).

##### Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective sub-fund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

#### VaR models

When global exposure is monitored using a VaR model, the following inputs are used for the models:

VaR model	Confidence level	Time horizon	Length of data history
Monte Carlo VaR	99%	20 days	5 years
Historical VaR	99%	20 days	2 years

The VaR consumption percentage, represented as "VaR/20%," indicates the proportion of the regulatory 20% limit utilised by the calculated VaR, serving as a key metric for assessing risk exposure in relation to the year-end VaR number.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### a) Market risk (continued)

#### ii) Global exposure (continued)

##### VaR models (continued)

Although VaR is an important tool for measuring market risk, the assumptions on which the model is based give rise to some limitations, including the following:

- A 20-day holding period assumes that it is possible to hedge or dispose of positions within that period. This may not be the case for certain highly illiquid assets or in situations in which there is severe general market illiquidity.
- A 99% confidence level does not reflect losses that may occur beyond this level, meaning that within the model used there is a 1% probability that losses could exceed the VaR.
- VaR is calculated on an end-of-day basis and does not reflect exposures that may arise on positions during the trading day.
- The use of historical data as a basis for determining the possible range of future outcomes may not always cover all possible scenarios, especially those of an exceptional nature.
- The VaR measure is dependent on the sub-fund's position and the volatility of market prices.
- The VaR of an unchanged position reduces if market price volatility declines, and vice versa.

The overall structure of VaR limits is subject to review and approval by the board of directors. VaR is measured daily.

#### iii) Price risk

Price risk is the risk that value of an instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

Price risk is mitigated by the Company's Investment Manager by constructing a diversified portfolio of instruments traded on various markets. Details of price risk exposure and concentrations by geographical area contained in the Schedule of Investments.

The following tables detail the breakdown of the investment assets and liabilities held as a percentage of the NAV of the sub-funds.

30 September 2024

\*The sub-fund liquidated as at 4 March 2024.

\*\*Sub-fund launched on 11 October 2022.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### a) Market risk (continued)

#### iii) Price risk (continued)

##### Sensitivity Analysis

A 5% increase in prices of the financial assets and financial liabilities at fair value through profit or loss as at 30 September 2024 and 30 September 2023 would have increased the net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares in the following funds by:

	30 September 2024	30 September 2023
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	GBP 12,648,705	GBP 17,709,518
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	EUR 1,696,566	EUR 3,607,796
UBS (Irl) Investor Selection - Global Equity Long Short Fund	EUR 20,713,643	EUR 3,275,957
UBS Global Emerging Markets Opportunity Fund	USD 57,176,181	USD 68,161,885
UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS	USD 12,039,403	USD 9,803,824
UBS Global Emerging Markets Opportunity Reduced Carbon Fund	-	USD 51,656
UBS (Irl) Investor Selection PLC	USD 111,192,838	USD 106,920,890

An equal change in the opposite direction would have decreased the net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares by an equal but opposite amount.

#### iv) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Company holds cash and cash equivalents and financial instruments that are interest earning and as a result the Company is subject to risk due to fluctuations in the prevailing levels of market interest rates in relation to this financial instrument.

The Company's hedging transactions using derivative instruments also involve the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in the contract. The counterparties to the Company's derivatives are financial institutions carefully selected by the Investment Manager.

The Company's interest rate risk is managed on a daily basis by the Investment Manager.

The following tables detail the Company's exposure to interest rate risks. This includes the Company's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity date measured by the carrying value of the assets and liabilities:

#### Sensitivity Analysis

An increase of 100 basis points in interest rates as at the reporting date would have increased the net assets attributable to holders of redeemable participating shares and changes in net assets attributable to holders of redeemable participating shares by UBS (Irl) Investor Selection - Currency Allocation Return Strategy GBP2,376,168 (2023: GBP3,695,929), UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund EUR43,726 (2023: EUR217,292), UBS (Irl) Investor Selection - Global Equity Long Short Fund EUR518,740 (2023 : EUR93,732), UBS Global Emerging Markets Opportunity Fund USD301,453 (2023: USD499,212), UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS USD3,166,111 (2023 : USD2,307,815), UBS Global Emerging Markets Opportunity Reduced Carbon Fund USDNil (2023: USD10,967) and UBS (Irl) Investor Selection PLC USD7,282,563 (2023: USD7,647,939). A decrease of 100 basis points would have had an equal but opposite effect.

#### b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. Credit risk associated with trading and investing activities is managed through the Company's market risk management process discussed above.

The amount of credit exposure is represented by the carrying amounts of the assets in the Statement of Financial Position. Substantially all financial instruments are cleared through and/or held in custody by J.P. Morgan Bank (Ireland) plc, the Depositary. The Company is therefore subject to credit risk to the extent that the Depositary may be unable to fulfil its obligations either to return the Company's securities or repay amounts owed. Details of credit risk exposure and concentration are contained in the Schedule of Investments.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### b) Credit risk (continued)

At the reporting date, the Company's financial assets exposed to credit risk amounted to the following:

\*The sub-fund liquidated as at 4 March 2024.

\*\*Sub-fund launched on 11 October 2022.

Transferable securities in the above tables contain equities which are not directly subject to credit risk, which include UBS(Irl) Investor Selection – Currency Allocation Return Strategy GBP21,887,293 (2023: GBPNil) UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund EUR34,047,872 (2023: EUR63,705,569), UBS (Irl) Investor Selection - Global Equity Long Short Fund EUR376,714,641 (2023: EUR65,934,163), UBS Global Emerging Markets Opportunity Fund USD1,143,523,615 (2023: USD1,363,237,698) and UBS Global Emerging Markets Opportunity Reduced Carbon Fund USDNil (2023: USD1,033,112).

Substantially all of the assets held by the Company are held by J.P. Morgan Bank (Ireland) plc, the Depository (the parent company J.P. Morgan Chase Bank N.A has a Credit rating of Aa2 at Moody's) (2023: Aa3). Bankruptcy or insolvency by J.P. Morgan Bank (Ireland) plc may cause the Company's rights with respect to the assets held by J.P. Morgan Bank (Ireland) plc to be delayed or limited. The Company monitors its risk by monitoring the credit ratings of J.P. Morgan Chase Bank N.A on a monthly basis, as reported by Standard and Poor's, Moody's or Fitch.

The Company will be exposed to the credit risk of the Depository or any depository used by the Depository regarding the cash balances held in unsegregated accounts with same. In the event of insolvency or bankruptcy of the Depository or any depository used by the Depository, the Company will be treated as a general creditor.

The risk that counterparties to both derivative and other instruments might default on their obligations is monitored on an ongoing basis. To manage the level of credit risk, the Company deals with counterparties of good credit standing as per credit rating agencies such as Moody's.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### b) Credit risk (continued)

The below table states the counterparties used by the Company and also states the collateral and collateral type held by counterparty for the sub-funds in relation to out of the money positions.

30 September 2024			
Counterparties	Ratings	Collateral Type	Base Value USD
JP Morgan (cost EUR19,243)	Aa2	USD denominated cash	19,111
Morgan Stanley (cost USD5,395,674)	A1	USD denominated cash	5,395,674
Goldman Sachs (cost USD6,260,000)	A1	USD denominated cash	6,260,000
<b>Total Collateral</b>			<b>11,674,785</b>

30 September 2023

JP Morgan (cost EUR268)	Aa3	USD denominated cash	215
Morgan Stanley (cost USD1,474,070)	A1	USD denominated cash	1,474,070
Goldman Sachs (cost USD2,267,250)	A2	USD denominated cash	2,267,250
<b>Total Collateral</b>			<b>3,741,535</b>

Offsetting and amounts subject to master netting agreements.

None of the financial assets and financial liabilities are offset in the Statement of Financial Position. The disclosures set out in the table below include the financial assets and financial liabilities that are subject to master netting arrangements.

The ISDA does not meet the criteria for offsetting in the Statement of Financial Position. This is because the Company and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

The financial assets and financial liabilities in the below table are subject to offsetting, enforceable master netting arrangements and similar agreements:

	A	B	C=A-B	D		E = C+D
	Gross amounts of recognised financial assets/(liabilities)	Gross amounts of recognised financial (liabilities)/ assets set-off in the statement of financial position	Net amounts of financial assets /(liabilities) presented in the statement of financial position	Related amounts not set-off in the statement of financial position		Net amount

### c) Liquidity risk

The Company's liquidity and cash flows are related to its market risks. Liquidity and cash flow risk may result from a significant decline in the market value of investments. The performance of the Company will therefore depend in part on the ability of the Investment Manager to anticipate and respond to such fluctuations in market interest rates and to utilise appropriate strategies to maximise returns while attempting to minimise the associated risks. The Company's Constitution provides for daily creation and cancellation of shares and it is therefore exposed to the liquidity risk associated with meeting shareholder redemptions at any time.

The Company invests in futures, options, and in a number of derivative financial instruments including but not limited to: credit default swaps, interest rate swaps, swaptions, currency swaps, total return swaps, forwards and warrants which are not exchange traded.

Financial liabilities of the Company comprise of investments in derivative financial instruments, redemptions payable, amounts due to broker, accounts payable and accrued expenses and net assets attributable to holders of redeemable participating shares. Investments in derivative financial instruments, redemptions payable, amounts due to broker, accounts payable and accrued expenses are typically settled within 30 days to 1 year from the transaction date.

The total NAV of the Company is considered to be a liability of the Company as investors may choose to redeem part or all of their outstanding shares at any time.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### c) Liquidity risk (continued)

The total NAV of the Company is considered to be a liability of the Company as investors may choose to redeem part or all of their outstanding shares at any time.

The carrying value of liabilities is the same as the contractual cash flow being short term in nature (except for the liabilities at FVTPL).

### d) Operational risk

The primary responsibility for the development and implementation of controls over operational risk rests with the Board of Directors. This responsibility is supported by the development of overall standards for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service levels with the service providers, in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risk faced, and the adequacy of controls and procedures to address the risks identified;
- contingency plans;
- ethical and business standards; and
- risk mitigation, including insurance if this is effective.

The Directors' assessment over the adequacy of the controls and processes in place at the service providers with respect to operational risk is carried out via regular discussions with the service providers and a review of the service providers' SOC 1/ISAE 3402 reports on the internal controls, if available.

Substantially all of the assets of the Company are held by the Depositary. Bankruptcy or insolvency of the Company's Depositary may cause the Company's rights with respect to the securities held by the Depositary to be delayed or limited.

The Manager monitors credit ratings and the capital adequacy of its depositary and reviews the findings documented in the SOC 1/ISAE 3402 report on the internal controls annually.

The Company has provided the Depositary a general lien over the financial assets held in custody for the purpose of covering the exposure from providing depositary services. The general lien is part of the standard contractual terms of the custody agreement.

### e) Capital management

The Company is required to maintain an authorised share capital of EUR300,000, or its foreign currency equivalent. If redemptions or decreases in the value of the Company's investment portfolio cause the value of the share capital to fall below the equivalent of EUR300,000, the Board of Directors will make a decision to seek the termination of the Company, the return of assets to shareholders and the revocation of the Company's authorisation.

The Administrator will notify the Board of Directors if during any particular month, the NAV of the Company falls below this level. As soon as the Board of Directors becomes aware that the capital of the Company is below the required level, the Board of Directors will inform the Depositary and the Central Bank.

### f) Leverage

The Company may be leveraged. The use of leverage creates special risks and may significantly increase the Company's investment risk. Leverage creates an opportunity for greater yield and total return but, at the same time, will increase the Company's exposure to capital risk and interest costs.

Any investment income and gains earned on investments made through the use of leverage that are in excess of the interest costs associated therewith may cause the NAV of the shares to increase more rapidly than would otherwise be the case. Conversely, where the associated interest costs are greater than such income and gains, the NAV of the shares may decrease more rapidly than would otherwise be the case.

### g) Depositary

The Company has appointed J.P. Morgan Bank (Ireland) plc as Depositary of all of its assets pursuant to the custodian agreement.

In accordance with and subject to the depositary agreement, the Depositary provides safe custody for all the assets of the Company under the control of its custodial network. The Depositary will be obliged, inter alia, to ensure that the issue and repurchase of shares in the Company is carried out in accordance with the relevant legislation and the Articles of Association. The Depositary will carry out the instructions of the Company unless they conflict with the UCITS Regulations or the Articles of Association. The Depositary is also obliged to enquire into the conduct of the Company in each financial year and report thereon to the shareholders.

# Notes to the Financial Statements

## Note 9 – Financial instruments and associated risks (continued)

### h) Use of derivative instruments

Each sub-fund may invest in derivative instruments. The types and degrees of risk vary depending upon the characteristics of the particular instrument and the assets of a Company as a whole. Use of these instruments may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in derivatives could have a large impact on a Company's performance.

### i) Involvement with unconsolidated structures

The Company has concluded that listed open-ended investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because of contractual cash flows being short term in nature. The following funds hold investments in open ended money market funds.

30 September 2024	Strategy	Market Value (EUR)	Total Assets of Holding (millions)	% of Total Assets

## Note 10 – Taxation

The Company is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company is not liable to tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally a chargeable event arises on redemption, repurchase, cancellation, transfer of shares or the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another Company;
- certain exchanges of shares between spouses and former spouses;
- an exchange of shares representing one sub-fund for another sub-fund of the Company;
- shareholders who are neither Irish resident nor Irish ordinarily resident for tax purposes at the time of the chargeable event and who have provided the Company with a relevant declaration to that effect; or
- certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event.

There were no chargeable events for the year under review.

Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders.

# Notes to the Financial Statements

## Note 11 – Segregation of liabilities between sub-funds

As a matter of Irish law, the assets of one sub-fund will not be available to meet the liabilities of another. However, the Company is a single legal entity which may operate or have assets held on behalf of or be subject to claims in other jurisdictions (such as the United Kingdom) which may not necessarily recognise such ring-fencing and, in such circumstances, the assets of one sub-fund may be exposed to the liabilities of another.

Shareholders who choose or are obliged under local regulations to pay or receive subscription or redemption monies or dividends via an intermediate entity rather than directly to or from the Administrator (e.g. a Paying Agent in a local jurisdiction) bear a credit risk against that intermediate entity with respect to (a) subscription monies prior to the transmission of such monies to the Administrator for the account of the Company, and (b) redemption monies payable by such intermediate entity to the relevant Shareholder.

## Note 12 – Cross investments

There were no cross investments made by the sub-funds during the year (2023: None).

## Note 13 – Fees and expenses

The aggregate fees of the Investment Manager and the administrative costs (being, generally, the fees of the Manager, the Depositary and the Administrator together with auditors' fees, legal fees, registration fees and Directors' fees) equal the percentage of the NAV of the sub-fund as set out in the table below:

### a) Manager and Investment Manager's fees

The Company has appointed UBS Asset Management (UK) Ltd. as Investment Manager for UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund and UBS (Irl) Investor Selection - Global Equity Long Short Fund. The Company has appointed UBS Asset Management Switzerland AG as Investment Manager for UBS (Irl) Investor Selection - Currency Allocation Return Strategy and UBS Global Emerging Markets Opportunity Fund. The Company has appointed UBS Asset Management (Singapore) Ltd. as Investment Manager for UBS Global Emerging Markets Opportunity Reduced Carbon Fund. The Company has appointed UBS Asset Management (Americas) LLC as Investment Manager for UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS. All appointments are in accordance with the relevant Investment Manager Agreement. The fees are accrued daily and payable monthly in arrears out of the assets of the Company with properly vouched expenses.

The Manager is paid out of the aggregate fee rates listed on previous page. This is included within administrative costs on the Statement of Comprehensive Income. The fees charged per sub-fund are as follows:

	30 September 2024

### b) Performance fees

The Investment Manager may be entitled to receive a performance fee payable out of the individual sub-fund's assets in respect of individual classes. The Investment Manager is also entitled to receive a performance fee equal to 20% of the excess gain of the performance (the "Net Outperformance") of the NAV over the High Water Mark NAV.

The tables below show the sub-funds from which performance fees were earned for during the year. The method of calculation and accrual is also stated.

30 September 2024

\*The crystallisation point for performance fees for UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund and UBS (Irl) Investor Selection - Global Equity Long Short Fund is 30 September. The crystallisation point for performance fees for UBS Emerging Markets Opportunity Fund is 31 December. The performance fees payable by UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund, UBS (Irl) Investor Selection - Global Equity Long Short Fund and UBS Global Emerging Markets Opportunity Fund amount are subject to Depositary approval and are payable as at 30 September 2024.

\*\*The sub-fund liquidated as at 4 March 2024.

\*\*\*Sub-fund launched on 11 October 2022.

The performance fees will be calculated and accrued as at each Valuation Point. The performance fees will be calculated in respect of each financial year (a "Calculation Period"). However, the first Calculation Period in respect of any Class of Shares will be the period commencing on the Business Day immediately following the close of the Initial Offer Period for that Class and ending on 30 September in that same year. The first value used in determining the first performance fees shall be the Initial Price.

# Notes to the Financial Statements

## Note 13 – Fees and expenses (continued)

### c) Administration fees

The Company and/or the Manager, on behalf of the Company, shall pay to the Administrator out of the assets of the Company an annual fee, accrued at each valuation point and payable quarterly in arrears at a rate which shall not exceed 0.075% per annum of the NAV of each sub-fund (before calculation of the Investment Manager's fees, Manager fees or the Administration fees) per sub-fund and to a fee of EUR3,000 plus VAT, if any, in respect of the preparation by the Administrator of each set of financial statements required to be prepared in respect of the Company.

The Administrator shall also be entitled to be repaid out of the assets of the Company all of such government or similar fees (including but not limited to filing fees and annual return fees to the extent payable by the Administrator), charges, taxes, duties and imposts whatsoever levied on or in respect of the Company or business of the Company as it may properly pay.

The fees and charges of the Administrator are subject to variation and renegotiation from time to time provided that any increase in the Administrator's fee is subject to prior notification to Shareholders.

\*\*Sub-fund launched on 11 October 2022.

### d) Directors' fees

The Constitution authorises the Directors to charge a fee for their services at a rate determined by the Directors. All Directors, are non-executive Directors. Ian Fitzpatrick is a director and employee of UBS Fund Management (Ireland) Limited, an entity within the UBS Group. He resigned as a Director of the Company on 20 March 2024 and Julie Broadbent was appointed as Director of the Company. The fees of any Director in any accounting period shall not in any event exceed EUR50,000 (plus VAT, if any) without the approval of the Board. Any increase in Directors' remuneration above that figure will be notified in advance to Shareholders and Shareholders will be given sufficient time to redeem their Shares prior to the implementation of any such increase. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties.

During the year ended 30 September 2024, the Directors charged fees of EUR65,000 (2023: EUR65,000) for UBS (Irl) Investor Selection PLC, Ian Fitzpatrick and Julie Broadbent Directors of the Company did not receive a fee. As at 30 September 2024, EUR31,277 (2023: EUR16,250) was payable. The fee charged by Carne, for provision of Money Laundering Reporting Officer ("MLRO") and Beneficial Ownership Services was EUR4,375 (2023: EUR4,375). As at 30 September 2024, EUR2,188 (2023: EUR2,188) was payable.

### e) Auditor fees

During the year ended 30 September 2024, the auditor's charged statutory audit fees of EUR95,743 (2023: EUR67,720) to the Company. As at 30 September 2024, EUR95,743 (2023: EUR67,720) was payable. During the year ended 30 September 2024, the auditor's charged other non-audit services fees (tax advisory fees related to European investor tax reporting) of EUR54,775 (2023: EUR53,023) to the Company. During the year ended 30 September 2024, the auditor's charged ad hoc audit service fees of EUR23,630 (2023: EUR22,500) to the Company.

Cap fee expense	-	-	2,893	-	-	-	3,090
General and operating fee*	586,553	165,193	134,506	2,482,029	637,521	3,304	4,162,574
	587,576	966,586	611,866	2,576,349	4,064,122	9,307	9,056,279

\*General and operating fee is composed of the Depositary and the Administrator fees together with auditors' fees, legal fees, registration fees and Directors' fees. The Investment Managers have undertaken to limit the general and operating expenses attributable to each class of share, as set out at the beginning of this note, for each sub-fund and for each share class that has launched. Each figure is expressed as a percentage per annum of the net assets of the particular share class. The general and operating expenses accrue daily and are generally paid monthly in arrears. To achieve this, the relevant Investment Manager absorbs, either directly by waiving a portion of its Investment Management fee or by reimbursement to the account of the relevant class of the sub-fund, any general and operating expenses over the applicable limit that may arise.

\*\*The sub-fund liquidated as at 4 March 2024.

\*\*\*Sub-fund launched on 11 October 2022.

## Note 14 – Accounting estimates and judgements

As indicated in Note 2(e) many of the Company's financial instruments are measured at fair value in the Statement of Financial Position and it is usually possible to determine their fair values within a reasonable range of estimates. For the majority of the Company's financial instruments, quoted market prices are readily available.

Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgement (e.g., interest rates, volatility, estimated cash flows etc.) and therefore, cannot be determined with precision.

## Note 15 – Transaction costs

The below table shows the transaction costs incurred by the sub-funds during the year. The equity costs comprise trade commissions and miscellaneous trade fees required at a country level and are charged separately from the trade price. The derivative transaction costs comprise of future and option commissions that are charged separately from the trade price and also swap trade fees that are included in the trade price.

# Notes to the Financial Statements

## Note 15 – Transaction costs (continued)

	30 September 2024	30 September 2023
UBS (Irl) Investor Selection - Currency Allocation Return Strategy - GBP	-	-
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund - EUR	89,411	99,020
UBS (Irl) Investor Selection - Global Equity Long Short Fund - EUR	810,336	87,300
UBS Global Emerging Markets Opportunity Fund - USD	2,435,822	3,391,794
UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS - USD	1,557,105	2,509,092
UBS Global Emerging Markets Opportunity Reduced Carbon Fund - USD	1,696	1,488
UBS (Irl) Investor Selection PLC - USD	4,969,713	6,101,338

## Note 16 – Portfolio Turnover Rate (“PTR”)

The portfolio turnover rate is calculated by adding total purchases and sales, subtracting total subscriptions plus total redemptions and dividing the total by the average of net assets during the period under review.

The portfolio turnover statistics are the following for the period under review:

	30 September 2024	30 September 2023
UBS (Irl) Investor Selection - Currency Allocation Return Strategy - GBP	212.61%	83.63%
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund - EUR	248.28%	215.69%
UBS (Irl) Investor Selection - Global Equity Long Short Fund - EUR	157.38%	120.82%
UBS Global Emerging Markets Opportunity Fund - USD	51.34%	49.59%
UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS - USD	37.02%	8.20%
UBS Global Emerging Markets Opportunity Reduced Carbon Fund - USD	(64.79)%	36.26%

## Note 17 – Distributions

No distributions were made during the year ended 30 September 2024 (2023: Nil).

## Note 18 – Stock lending

The Company engaged in an agreement to lend securities in its portfolio on 2 November 2023 and commenced lending on 20 December 2023 as detailed below.

Securities lending is the temporary transfer of securities from the lender (the Company) to a third party borrower through an appointed lending agent. In exchange for the lent security the borrower provides collateral, prior to the delivery of securities, and pays a fee over the financial period of the loan. All loans within the lending program are open and rolled daily such that they can be terminated on demand.

The Company engages in securities lending for selected, physically replicated sub-funds with the aim of reducing the investor's net costs. Securities lending with the Company is always overcollateralised with at least 105% margin across all asset classes. An additional safeguard is that loan balances are capped at 50% of each sub-fund’s Asset Under Management. Sub-funds tracking a “socially responsible” index, an ESG, Gender Equality Index or Paris aligned Indices are not in the lending program.

The following sub-funds are in the securities lending program as at 30 September 2024:

UBS (Irl) Investor Selection - Currency Allocation Return Strategy  
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund  
UBS (Irl) Investor Selection - Global Equity Long Short Fund

The following sub-funds were not in the securities lending program as at 30 September 2024:

UBS Global Emerging Markets Opportunity Fund  
UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS  
UBS Global Emerging Markets Opportunity Reduced Carbon Fund

In general, lending may only be effected via the Securities Lending Agent (Mitsubishi UFJ Investor Services and Banking (Luxembourg) S.A.) with the protection of an indemnity against borrower default provided for by Mitsubishi UFJ Trust and Banking Corporation, London Branch. Collateral is held in a depositary account that is ring-fenced from the lending agent’s Balance Sheet. Mark to markets take place on a daily basis to ensure that the required margin levels are consistently maintained. Whilst Mitsubishi UFJ Investor Services and Banking (Luxembourg) S.A provides a borrower indemnity and carefully selects its underlying list of borrowers, an additional level of oversight is provided for by UBS Credit & Risk to structure a bespoke approved borrower list.

Non-cash collateral received by way of the title transfer collateral arrangements in relation to securities lending transactions cannot be sold, re-invested or pledged.

# Notes to the Financial Statements

## Note 18 – Stock lending (continued)

It should be noted that securities lending is subject to a certain risk where the borrower does not return the borrowed securities according to their obligation, and where the value of the collateral provided does not cover the costs of repurchase of the securities. In such cases, Mitsubishi UFJ Investor Services and Banking (Luxembourg) S.A, under the terms of the borrower default indemnity, shall cover the cost of purchasing the replacement securities, subject to certain conditions.

The fees charged by the Manager and the Investment Managers, who form part of the UBS group of companies, are disclosed in Note 13. The Investment Managers have undertaken to limit the general and operating expenses attributable to each class of share, as set out at the beginning of Note 13, for each sub-fund and for each share class that has launched. Each figure is expressed as a percentage per annum of the NAV of the particular share class. The general and operating expenses accrue daily and are generally paid monthly in arrears. To achieve this, the relevant Investment Manager absorbs, either directly by waiving a portion of its Investment Management fee or by reimbursement to the account of the relevant class of the sub-fund, any general and operating expenses over the applicable limit that may arise.

The fees charged by the Swiss Representative, Swiss Paying Agent and Distributor, who are affiliated to the Investment Manager and form part of the UBS group of companies, are part of general and operating fee amount.

UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund, UBS (Irl) Investor Selection – Global Equity Long Short Fund and UBS (Irl) Investor Selection – Currency Allocation Return Strategy hold investments in open ended money market funds which are managed by the Manager of the Company, refer to Note 9 (i) for further details.

## Note 20 – Commitments and contingent liabilities

As at 30 September 2024, the Company did not have any significant commitments or contingent liabilities (2023: Nil).

## Note 21 – Significant events during the reporting period

On 1 April, UBS O’Connor LLC merged into UBS Asset Management (Americas) LLC. There will be no change to staffing or investment management/advisor teams as a result of this merger into UBS Asset Management (Americas) LLC.

On 20 March 2024, Ian Fitzpatrick a Director of the Company resigned and Julie Broadbent was appointed as Director of the Company.

UBS Global Emerging markets Reduced Carbon Fund, liquidated as at 4 March 2024.

On 2 November 2023 the Company’s prospectus was updated to include US person definition and description and updates to the risk factor descriptions on securities lending, reverse repurchase agreements and liquidity risk was finalised and made available. The updated supplements for UBS Global Emerging Markets Opportunity Fund, UBS(Irl) Investor Selection PLC – Currency Allocation Return Strategy, UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS and UBS Global Emerging Markets Opportunity Reduced Carbon Fund were also made available at this date.

On 2 November 2023, the Investment Manager for UBS Global Emerging Markets Opportunity Fund changed from UBS Asset Management (Singapore) Ltd to UBS Asset Management Switzerland AG.

The Company entered into a securities lending arrangement on 2 November 2023 and commenced lending on 20 December 2023.

There were no other events during the period that require adjustment to or disclosure in the financial statements.

# Notes to the Financial Statements

## Note 22 – Subsequent events

Subsequent to the year ended 30 September 2024 and until approval of these financial statements by the Board, the Company incurred the following net subscriptions and redemptions:

	<b>30 September 2024</b>
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	GBP(116,295,786)
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	EUR(37,721,365)
UBS (Irl) Investor Selection - Global Equity Long Short Fund	EUR33,480,194
UBS Global Emerging Markets Opportunity Fund	USD(549,575,176)
UBS (Irl) Investor Selection PLC – O'Connor China Long/Short Alpha Strategies UCITS	USD27,248,180

The Directors of the company took the decision to liquidate the sub-fund UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund in November 2024.

There were no other events after the year-end that require adjustment to or disclosure in the financial statements.

## Note 23 – Approval of the financial statements

The accounts were approved by the Board on 28 January 2025.

# Supplemental Unaudited Information

## Soft Commissions

The Investment Manager may make use of arrangements to enable it to obtain execution and research services which are beneficial to the sub-funds, both from counterparties and third parties. All transactions undertaken and the services provided under these arrangements in respect of the sub-funds will be subject to Financial Conduct Authority rules and to the fundamental rule of providing best execution to the sub-funds, being the best price available in the market, exclusive of any charges, but taking into account any exceptional circumstances such as counterparty risk, order size or client instructions.

There were no soft commissions arrangements during the year ended 30 September 2024 and 30 September 2023.

## Foreign exchange rates

The following foreign exchange rates were used to translate assets and liabilities into the reporting currency USD as at 30 September 2024 and 30 September 2023.

# Supplemental Unaudited Information

## Remuneration of the Alternative Investment Fund Manager

### **Background**

UBS Fund Management (Ireland) Limited (the "Manager") has been authorised by the Central Bank of Ireland ("CBI") as UCITS Management Company under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "Regulations"). The Manager is subject to the relevant articles of the Regulations dealing with remuneration, including the Guidelines on Sound Remuneration Policies under the UCITS Directive (the "Guidelines") published by the European Securities and Markets Authority (ESMA/2016/575).

The Manager is a wholly owned subsidiary of UBS AG and is part of the UBS group. The Manager has a remuneration policy in place which is consistent with the UBS group remuneration policy. The Manager's policy was developed by senior management of the Manager, reviewed by the Human Resources function of UBS and approved by the Manager's board of directors. A summary of the key aspects of the UBS group remuneration practices is described in the following paragraphs.

### **UBS Compensation Governance and Philosophy**

As determined in the Articles of Association and UBS's Organization Regulations, the UBS Group Compensation Committee supports the board of directors of UBS (the "BoD") in its duties to set guidelines on compensation and benefits, to oversee implementation thereof, to approve certain compensation and to scrutinize executive performance. The Compensation Committee consists of independent BoD members, who are elected annually by UBS shareholders at the Annual General Meeting (the AGM), and is responsible for governance and oversight of the UBS compensation process and practices. This includes the alignment between pay and performance, and ensuring that the compensation framework supports appropriate risk awareness and management, as well as appropriate risk-taking. In 2023, to additionally support the connection between the Compensation Committee and the Risk Committee, the Compensation Committee Chairperson was also a member of the Risk Committee. The Risk Committee, a committee of the BoD, works closely with the Compensation Committee with the goal of ensuring that the compensation framework appropriately reflects risk awareness and management, and supports appropriate risk-taking. It supervises and sets appropriate risk management and risk control principles and is regularly briefed on how risk is factored into the compensation process. It also monitors the involvement of Group Risk Control and Compliance and Operational Risk in compensation and reviews risk-related aspects of the compensation process.

All elements of pay are considered when making UBS compensation decisions. UBS regularly review its principles and compensation framework in order to remain competitive and aligned with stakeholders' interests. In 2023, the UBS compensation framework remained broadly unchanged. UBS will continue to review our approach to salaries and performance awards, considering market developments, our performance and our commitment to deliver sustainable returns to shareholders.

UBS's compensation approach supports the firm's purpose and strategy, fosters engagement among employees and aligns their long-term interests with those of clients and stakeholders. The compensation structure encourages employees to have a focus on risk management and behave consistently with the firm's risk framework and appetite, thereby anticipating and managing risks effectively to protect UBS's capital and reputation. Compensation is appropriately balanced between fixed and variable elements and delivered over an appropriate period to support UBS's growth ambitions and sustainable performance. Compensation for each employee is based on individual, team, business division and Group performance, within the context of the markets in which UBS operates. At UBS, a holistic Total Reward approach is applied, generally consisting of fixed compensation (base salary and role-based allowances, if applicable), performance awards, pension contributions and benefits. UBS's Total Reward approach is structured to support sustainable results and growth ambitions. The Total Reward Principles apply to all employees globally, but may vary in certain locations due to local legal requirements, regulations and practices.

UBS's compensation philosophy focuses on balancing performance with appropriate risk-taking, retaining talented employees and shareholder returns. Its overall performance award pool funding percentage reduces as financial performance increases. In years of strong financial performance, this prevents excessive compensation and results in an increased proportion of profit before performance awards being available for distribution to shareholders or growing the Group's capital. In years where performance declines, the performance award pool will generally decrease; however, the funding percentage may increase. UBS's performance award pool funding framework is based on Group and business division performance, including achievements against defined performance measures. For the avoidance of doubt, UBS have excluded the positive and negative financial impacts generated by the acquisition of the Credit Suisse Group (such as the negative goodwill of USD 27.7bn) from consideration in the UBS performance award pool determination process. In assessing performance, UBS consider relative performance versus peers, market competitiveness of its pay position, as well as progress against strategic and integration objectives, including returns, risk-weighted assets and cost efficiency.

The Risk and Compliance functions support UBS's holistic reflection and consideration of the financial and non-financial impact (including reputation) of risk matters. UBS further considers the firm's risk profile and culture, the extent to which operational risks and audit issues have been identified and resolved, and the success of risk reduction initiatives including accountability for significant events. The funding for Group Functions is linked to overall Group performance and reflects headcount, workforce location and demographics. For each functional area, quantitative and qualitative assessments evaluate service quality, risk management and financial achievements.

# Supplemental Unaudited Information

## Remuneration of the Alternative Investment Fund Manager (continued)

### **UBS Compensation Governance and Philosophy (continued)**

UBS's decisions regarding the performance award pool also balance consideration of financial performance with a range of factors, including diversity, equity and inclusion ("DE&I") and other environmental, social and governance ("ESG") metrics, the impact of litigation, regulatory costs, the effect of changes in financial accounting standards, capital returns, and relative total shareholder return.

### **UBS Material Risk Takers and Key Risk Takers**

For relevant EU- or UK-regulated entities, UBS identifies individuals who are deemed to be Material Risk Takers (MRTs) based on sectorial and / or local regulatory requirements, including the respective EU Commission Delegated Regulation, the fifth iteration of the EU Capital Requirements Directive (CRD V) and equivalent UK requirements, as applicable. This group consists of senior management, risk takers, selected staff in control or support functions and certain highly compensated employees. For 2023, UBS identified 1,321 MRTs in relation to its relevant EU or UK entities. The increase in the number of MRTs compared with last year has been driven by the MRT population identified in relation to Credit Suisse legal entities. Subject to individual or legal-entity level proportionality considerations, variable compensation awarded to MRTs is subject to additional deferral and other requirements. For CRD-relevant entities, these include a minimum deferral rate of 40% or 60% (depending on role / variable compensation level) on performance awards and delivery of at least 50% of any upfront performance award in UBS shares that are vested but blocked for 12 months after grant. Deferred awards granted to MRTs under UBS's deferred compensation plans for their performance in 2023 are subject to 6- or 12-month blocking periods post vesting and do not pay out dividends or interest during the deferral period. Additionally, MRTs are subject to a maximum ratio between fixed and variable pay. Across EU locations, the maximum variable to fixed compensation ratio is set to 200%, based on approval through relevant shareholder votes. For UK-regulated MRTs, the maximum ratio was set by UBS taking into account the business activities and prudential and conduct risks of the relevant legal entities. In addition, the maximum ratios were set considering the scenario that the relevant legal entities might exceed their financial objectives. The maximum ratio for all UK-regulated MRTs was approved by the compensation committees of the relevant entities in December 2023. For up to seven years after grant, performance awards granted to MRTs are subject to clawback provisions, which allow UBS to claim repayment of both the upfront and the vested deferred element of any performance award if an individual is found to have contributed substantially to significant financial losses for the UBS Group or UBS corporate structure in scope, a material downward restatement of disclosed results, or engaged in misconduct and / or failed to take expected actions, thus contributing to significant reputational harm.

Key Risk Takers (KRTs) are defined as those employees that, by the nature of their roles, have been determined to materially set, commit or control significant amounts of the firm's resources and / or exert significant influence over its risk profile. This includes employees working in front-office roles, logistics and control functions. Identifying KRTs globally is part of our risk control framework and an important element in ensuring we incentivize only appropriate risk-taking. For 2023, in addition to the Group Executive Board ("GEB") members, 1,038 employees were classified as KRTs throughout the UBS Group globally, including all employees with a total compensation exceeding USD / CHF 2.5m (Highly Paid Employees), who may not have been identified as KRTs during the performance year. Compared with 2022, the increase in the number of KRTs has been driven by the inclusion of Credit Suisse employees in the identification process. In line with regulatory requirements, the performance of employees identified as KRTs during the performance year is evaluated by the control functions. In addition, KRTs' performance awards are subject to a mandatory deferral rate of at least 50%, regardless of whether the deferral threshold has been met (excluding KRTs with de minimis performance awards below a predetermined threshold where standard deferral rates apply). Consistent with all other employees, the deferred portion of a KRT's compensation is also subject to forfeiture or reduction if the KRT commits harmful acts.

### **UBS Fixed compensation**

Employees' fixed compensation (e.g., base salary) reflects their level of skill, role and experience, as well as local market practice. Base salaries are usually paid monthly or fortnightly, in line with local market practice. UBS offers competitive base salaries that reflect location, function and role. Salary increases generally consider promotions, skill set, performance and overall responsibility. In addition to base salary, and as part of fixed compensation, some employees may receive a role-based allowance. This allowance is a shift in the compensation mix between fixed and variable compensation, not an increase in total compensation. It reflects the market value of a specific role and is fixed, nonforfeitable compensation. Unlike salary, a role-based allowance is paid only if the employee is in a specific role. Similar to previous years, 2023 role-based allowances consisted of a cash portion and, where applicable, a blocked UBS share award.

UBS provides a range of benefit plans, such as retirement benefits and health insurance, aiming to provide financial protection in case of significant life events, and support its employees' well-being and diverse needs. Retirement and other benefits are set in the context of local market practice and regularly reviewed for competitiveness. Pension plan rules in any one location are generally the same for all employees, including GEB members and other management. There are no enhanced or supplementary pension contributions for the GEB.

# Supplemental Unaudited Information

## Remuneration of the Alternative Investment Fund Manager (continued)

### **UBS Variable compensation**

Most of UBS's employees are eligible for an annual performance award. The level of this award, where applicable, generally depends on the firm's overall performance, the employee's business division, team and individual performance, and behaviour, reflecting their overall contribution to the firm's results. These awards are in line with applicable local employment conditions and at the discretion of the firm.

In addition to the firm's Pillars (capital strength, simplification/efficiency and risk management) and Principles (client centricity, connectivity, sustainable impact), Behaviours related to accountability with integrity, collaboration and innovation are part of the performance management approach. Therefore, when assessing performance, UBS considers not only what was achieved but also how it was achieved.

Underlining UBS's emphasis on sustainable performance and risk management, and its focus on achieving its growth ambitions, UBS delivers part of the employees' annual variable compensation through deferred compensation plans. UBS believes that its approach, with a single incentive decision and a mandatory deferral, is transparent and well suited to implementing its compensation philosophy and delivering sustainable performance. This aligns the interests of its employees and shareholders and appropriately links compensation to longer-term sustainable performance.

Deferred compensation is delivered through a combination of equity-based plans and a contingent capital plan. The equity-based plans are (i) the Long-Term Incentive Plan (LTIP) which is for UBS's GEB members, and (ii) the Equity Ownership Plan (EOP), which is for all other employees and which primarily aligns employee interest with those of UBS's shareholders. The Deferred Contingent Capital Plan (DCCP) aligns employees' interests with the interests of debt holders.

The mandatory deferral approach applies to all employees with regulatory-driven deferral requirements or total compensation greater than USD / CHF 300,000. Certain regulated employees, such as Senior Management Functions (SMFs) and Material Risk Takers (MRTs), are subject to additional requirements (e.g., more stringent deferral requirements, additional blocking periods). In addition, SMFs and MRTs receive 50% of their non-deferred portion in the form of immediately vested shares, which are blocked for 12 months after grant.

The deferred amount increases at higher marginal rates in line with the value of the performance award. The effective deferral rate therefore depends on the amount of the performance award and the amount of total compensation. UBS believes its deferral regime has one of the longest vesting periods in the industry. The weighted average deferral period for non-regulated employees is 4.4 years for GEB members, 3.8 years for MDs receiving Long Term Incentive Plan ("LTIP") and 3.5 years for other employees. Additionally, from time to time, UBS may utilize alternative deferred compensation arrangements to remain competitive in specific business areas. To further promote sustainable performance, all of UBS's deferred compensation plans include employment conditions and malus conditions. These enable the firm to reduce or fully forfeit unvested deferred awards under certain circumstances, pursuant to performance and harmful acts provisions. In addition, forfeiture is triggered in cases where employment has been terminated for cause. UBS's share delivery obligations related to notional share awards are satisfied by delivering treasury shares, which are purchased in the market, to employees at vesting.

The Equity Ownership Plan (the "EOP") is the deferred compensation plan for employees that are subject to deferral requirements but do not receive LTIP awards. For the 2023 performance year, we granted EOP awards to 4,661 employees. Delivering sustainable results is a key objective for UBS. EOP creates a direct link with shareholder returns as a notional equity award and has no upward leverage. This approach promotes growth and sustainable performance. EOP awards generally vest over three years.

## Remuneration of the Alternative Investment Fund Manager (continued)

### **UBS Variable compensation (continued)**

The Deferred Contingent Capital Plan (“DCCP”) is a key component of UBS’s compensation framework and supports alignment of the interests of senior employees with those of UBS’s stakeholders. All employees subject to deferral requirements receive DCCP awards. For the 2023 performance year, UBS granted DCCP awards to 5,562 (2022 – 4,326) employees. DCCP is consistent with many of the features of the loss-absorbing bonds that UBS issues to investors and may be paid at vesting in cash or, at the discretion of the firm, a perpetual, marketable additional tier 1 (AT1) capital instrument. Employees can elect to have their DCCP awards denominated in Swiss francs or US dollars. DCCP awards vest in full after five years (longer deferral periods may apply for regulated employees). DCCP awards bear notional interest paid annually (except as limited by regulation for MRTs), subject to review and confirmation by the Compensation Committee. The notional interest rate for grants in 2024 was 4.60% for awards denominated in Swiss francs and 8.30% for awards denominated in US dollars. These interest rates are based on the current market rates for similar AT1 capital instruments issued by UBS Group. Awards are forfeited if a viability event occurs, i.e., if FINMA notifies the firm that the DCCP awards must be written down to mitigate the risk of an insolvency, bankruptcy or failure of UBS or if the firm receives a commitment of extraordinary support from the public sector that is necessary to prevent such an event. DCCP awards are also written down for GEB members if the Group’s CET1 capital ratio falls below 10% and for all other employees if it falls below 7%.

### **UBS Control Functions**

UBS control functions must be independent in order to monitor risk effectively. Therefore, their compensation is determined separately from the revenue areas that they oversee, supervise or monitor. Their performance award pool is based not on the performance of these businesses, but on the performance of the Group as a whole. UBS also considers other factors, such as how effectively the function has performed, and UBS’s market position. Decisions on individual compensation for the senior managers of the control functions are made by the function heads and approved by the Group CEO. Decisions on individual compensation for the members of Group Internal Audit (GIA) are made by the Head GIA and approved by the Chairman. Following a proposal by the Chairman, total compensation for the Head GIA is approved by the Compensation Committee.

### **Environmental, Social and Governance**

UBS compensation determination process considers environmental, social and governance (“ESG”) objectives in objective setting, performance award pool funding, performance evaluation and individual compensation decisions. ESG-related objectives have been embedded in our Pillars and Principles since they were established in 2011. In 2021, UBS introduced explicit sustainability objectives in the non-financial goal category of the Group CEO and GEB performance scorecards. In 2023, UBS further enhanced the GEB performance scorecard framework by establishing separate Environmental & Sustainability and People & Governance categories. The objectives in these categories are linked to the UBS sustainability priorities, and their progress is measured via robust quantitative metrics and qualitative criteria. Sustainability objectives are assessed for each GEB member on an individual basis, directly impacting their respective performance assessments and compensation decisions. The determination of the Group performance award pool funding also takes into account ESG factors. Aside from financial performance, an assessment of progress is made against objectives linked to the UBS focus areas of Planet, People (including progress made against the UBS diversity aspirations) and Partnerships, alongside other key non-financial considerations. Therefore, ESG is taken into consideration when the Compensation Committee assesses performance and compensation of each GEB member. Additionally, the assessment impacts the overall performance award pool for the Group. Going forward, UBS will continue to review and refine the role of ESG considerations in the UBS performance and compensation framework, to ensure they remain aligned to our strategic priorities and the sustainable growth of shareholder value.

### **UBS's commitment to pay fairness, diversity, equity and inclusion**

Pay equity and equal opportunity are fundamental to achieving UBS's purpose. The diversity of UBS's employees in terms of experiences, perspectives and backgrounds is critical to UBS's success. Factors such as gender, race, ethnicity or part-time status should not impact opportunities available to UBS employees. Fair and consistent pay practices are designed to ensure that employees are appropriately rewarded for their contribution. UBS pay for performance, and it takes pay equity seriously. UBS have embedded clear commitments in our global compensation policies and practices. UBS regularly conduct internal reviews and independent external audits on pay equity, and its statistical analyses show a differential between men and women in similar roles across our major locations of less than 1%. In 2020, UBS completed an equal pay analysis in Switzerland, as required by the Swiss Federal Act on Gender Equality. The results confirmed that UBS are fully compliant with Swiss equal pay standards. Beginning in 2020, UBS was certified (through 2023) by the EQUAL-SALARY Foundation for our HR practices, including compensation, in Switzerland, the US, UK, the Hong Kong SAR and Singapore, covering more than two-thirds of the UBS global employee population. All of the UBS HR policies are global, and UBS apply the same standards across all locations. Furthermore, UBS reviews our approach and policies annually to support our continuous improvement. In 2023, UBS fully integrated former Credit Suisse Group employees into all of its fair pay practices and continued to monitor and improve its pay equity position in our leading countries. UBS also aim to ensure that all employees are paid at least a living wage. UBS regularly assess employees' salaries against local living wages, using benchmarks defined by the Fair Wage Network. Excluding the UBS US financial advisor staff (as their compensation is primarily based on a formulaic approach), its analysis in 2023 showed that employees' salaries were at or above the respective benchmarks.

Increasing the UBS gender and ethnic diversity is a strategic priority. UBS want to support and enable more women to build long and satisfying careers with UBS, and UBS is committed to increasing the representation of women at senior levels. Equally, investing in attracting, supporting and advancing its ethnically diverse employees is a key focus for UBS. UBS takes a multi-pronged approach, examining the process, culture and organization design elements around hiring, promoting and retaining women and ethnic minority background employees at all levels, and senior management are accountable for driving change.

### **Further information**

Further details on the UBS policy and practices can be found in the 2023 Compensation Report and the 2023 Annual Report of UBS Group AG, both of which are available on [www.ubs.com](http://www.ubs.com).

### **Proportionality**

Given the small size and non-complex nature of the Manager, it has applied the proportionality provisions of the Guidelines. The below information provides the total remuneration paid by the Manager during the year to 31 December 2023. There is no allocation made by the Manager to each UCITS and as such the disclosure reflects the remuneration paid by the Manager in relation to work performed on all UCITS, as well as the remuneration paid by the Manager in relation to work performed on non-UCITS (e.g. AIF funds).

Of the total remuneration paid of EUR 3,524,231 for the year ended 31 December 2023 to 24 beneficiaries, EUR 2,573,031 (73%) has been paid as fixed remuneration. The remainder (27%) is variable remuneration. Remuneration code staff consists of those whom the Manager has determined undertake professional activities which have a material impact on the risk profiles of the Manager or of the AIFs, namely the board of directors of the Manager, senior management, material risk takers, control function staff, as well as high-earning staff members (i.e. whose total remuneration falls into the remuneration bracket of senior managers and risk takers who are not already in the above categories and who have a material impact on the risk profile of the Company or of the funds it manages). There are 16 individuals who meet this definition and their total remuneration was EUR 2,833,731, split EUR 1,941,730 (69%) as fixed remuneration and the remainder (31%) as variable remuneration.

For the period ended 30 September 2024, the aggregate total remuneration paid by the Investment Managers UBS Asset Management Switzerland AG, UBS Asset Management (Singapore) Ltd and UBS Asset Management (UK) Ltd (excluding UBS O'Connor LLC) to their Identified Staff in relation to the Fund amounted to USD150,669 and USD116,409 represented the variable remuneration (5 beneficiaries).

## Securities financing transactions regulation

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (“SFTs”) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information on the use made of SFTs.

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) (“SFTR”) came into force on 12 January 2016 and, amongst other requirements, introduces new disclosure requirements in the Company’s financial statements published after 13 January 2017 detailing the sub-fund’s use of securities financing transactions and total return swaps. As a result, additional disclosures have been included in this appendix.

Below is the market value of assets engaged in securities financing transactions as at 30 September 2024. The assets which are engaged in securities financing transactions at this date are total return swaps, in the form of Contracts for Difference (“CFDs”) and Equity Swaps. The sub-funds do not engage in securities lending, or repo transactions.

Below is the market value of assets engaged in securities financing transactions as at 30 September 2024 based on a commitment amount of EUR 315 in absolute terms.

Fund Name	Amount EUR	% of net assets as at 30 September 2024
UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund	(315)	0.00%

## **Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088)**

Article 6:

UBS (Irl) Investor Selection – Equity Opportunity Long Short Fund

UBS (Irl) Investor Selection – Global Equity Long Short Fund

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

The investment process integrates material sustainability and/or Environmental, Social and Governance (“ESG”) considerations. ESG integration is driven by taking into account material ESG risks, which could impact investment returns, and implementing ESG strategies that enhance returns rather than being driven by specific ethical principles or norms. The analysis of material sustainability/ESG considerations can include many different aspects, for example; the carbon footprint, reducing consumption and waste, employee [and/or tenant] health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Portfolio Manager may still make investments with a higher ESG risk profile where the Portfolio Manager believes the potential compensation and ability to mitigate outweighs the risks identified. Therefore, ESG Integrated Funds do not have a sustainable focus as the primary objective, but they are investment funds that primarily aim at maximizing financial performance whereby ESG aspects are an important factor incorporated into the investment process and ongoing asset management.

The sub-fund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).”

UBS (Irl) Investor Selection – Currency Allocation Return Strategy

UBS (Irl) Investor Selection PLC – O’Connor China Long/Short Alpha Strategies UCITS

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

Consideration of sustainability risks are not integrated due to the investment strategy and the nature of the underlying investments (SFDR Art. 6). Sustainability risks are not currently expected to have a material impact on achieving the return objectives of the sub-fund.

The sub-fund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

Consult the next pages for the periodic disclosure of the sub-fund referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852, and/or (if any) the sub-funds referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852.

# Supplemental Unaudited Information

## ANNEX IV

### Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** UBS (Irl) Investor Selection PLC - UBS Global Emerging Markets Opportunity Fund  
**Legal entity identifier:** 1S1756XPRIL6XC77R209

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

**The EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Did this financial product have a sustainable investment objective?

**Yes**

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

**No**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic was promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

# Supplemental Unaudited Information

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

## ● **How did the sustainability indicators perform?**

For Characteristic 1:

- During the reference period, the UBS consensus ESG score of the financial product was higher than that of its benchmark.
  - UBS consensus ESG score of the financial product: 5.97
  - UBS consensus ESG score of the benchmark: 5.60
- 85.44% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

For Characteristic 2:

- During the reference period, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
  - Weighted Average Carbon Intensity (WACI) of the financial product: 113.85 tons CO2 per million dollars revenues.
  - Weighted Average Carbon Intensity (WACI) of the benchmark: 339.26 tons CO2 per million dollars revenues.
- A low absolute carbon profile is achieved, as a low absolute carbon profile is defined as below 100 tons of CO2 emissions per million US dollars of revenues.

## ● **...and compared to previous periods?**

**2022/2023:** For Characteristic 1:

- During the previous reference period, the UBS consensus ESG score of the financial product was higher than that of its benchmark.
  - UBS consensus ESG score of the financial product: 5.69
  - UBS consensus ESG score of the benchmark: 5.40
- 91.18% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

**2022/2023:** For Characteristic 2:

- During the previous reference period, the Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
  - Weighted Average Carbon Intensity (WACI) of the financial product: 120.87 tons CO2 per million dollars revenues.
  - Weighted Average Carbon Intensity (WACI) of the benchmark: 315.23 tons CO2 per million dollars revenues.

# Supplemental Unaudited Information

- No low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tons of CO2 emissions per million US dollars of revenues.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

— — **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

— — **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

## How did this financial product consider principal adverse impacts on sustainability factors?

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

Not applicable.

# Supplemental Unaudited Information

## What were the top investments of this financial product?

**Asset allocation** describes the share of investments in specific assets.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30.09.2024

Largest Investments	Sector	% Net Assets*	Country
Taiwan Semiconductor Manufac	Technology	9.25%	Taiwan
Tencent Holdings Ltd	Financial	7.68%	Hong Kong
Ping An Insurance Group Co-H	Consumer, cyclical	5.54%	Hong Kong
Samsung Electronics Co Ltd	Financial	5.10%	South Korea
HDFC Bank Limited	Consumer, cyclical	4.93%	India
Pdd Holdings Inc	Consumer, non-cyclical	4.22%	United states
Reliance Industries Ltd	Financial	4.06%	India
Axis Bank Ltd	Financial	3.42%	India
China Mengniu Dairy Co	Communications	2.98%	Hong Kong
SK Hynix Inc	Technology	2.89%	South Korea
Kia Corp	Technology	2.80%	South Korea
Contemporary Amperex Techn-A	Basic materials	2.54%	China
Naspers Ltd-N SHS	Financial	2.41%	South Africa
Eicher Motors Ltd	Financial	2.31%	India
Bank Central Asia TBK PT	Energy	2.31%	Indonesia

\*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

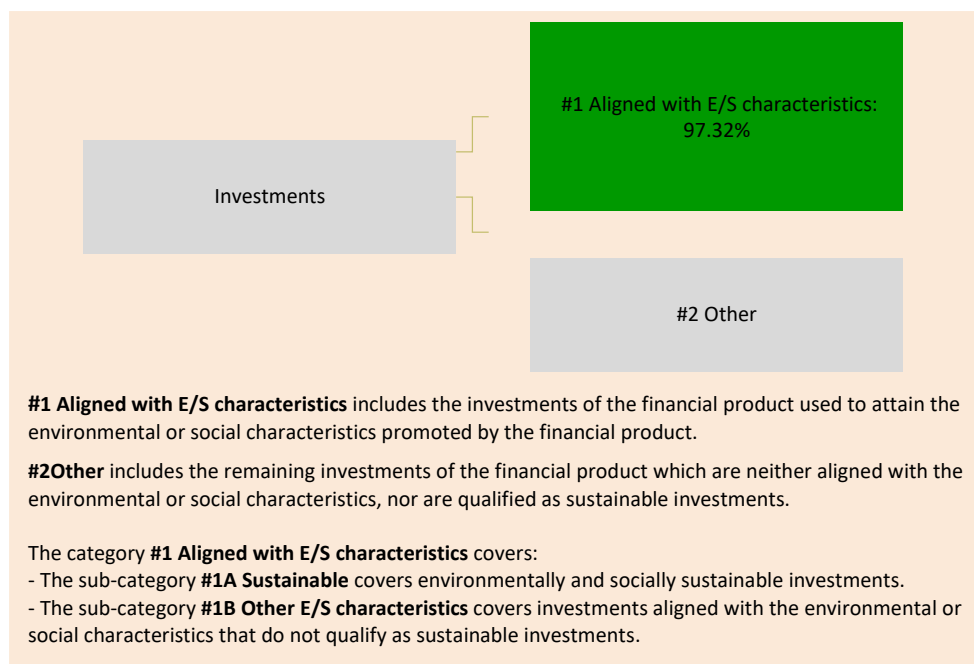

## What was the proportion of sustainability-related investments?

Not applicable.

### ● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 30.09.2024.

# Supplemental Unaudited Information

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities are** activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## ● In which economic sectors were the investments made?

Sub-sectors	% of Net Assets
Financial	32.89%
Technology	18.63%
Consumer, Cyclical	11.18%
Communications	10.92%
Consumer, Non-Cyclical	10.56%
Cash And Equivalents	6.50%
Energy	3.71%
Basic Materials	3.52%
Industrial	1.97%
SpotFxPayable	0.12%

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

# Supplemental Unaudited Information

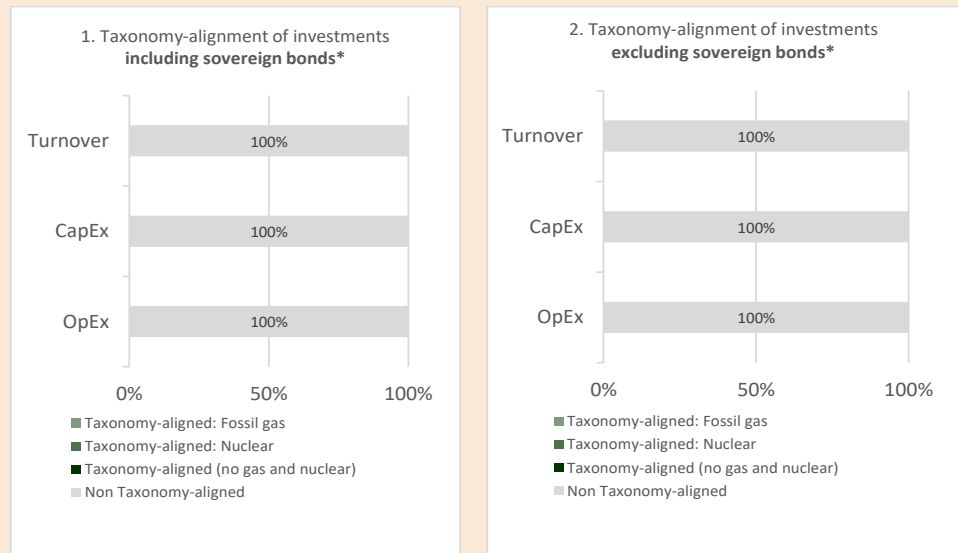

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

# Supplemental Unaudited Information

Not applicable.

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

## What was the share of socially sustainable investments?

Not applicable.

## What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

## How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

### ● *How does the reference benchmark differ from a broad market index?*

Not applicable.

### ● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

Not applicable.

### ● *How did this financial product perform compared with the reference benchmark?*

Not applicable.

### ● *How did this financial product perform compared with the broad market index?*

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

# Supplemental Unaudited Information

## ANNEX IV

### Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** UBS (Irl) Investor Selection PLC – UBS Global Emerging Markets Opportunity Reduced Carbon Fund

**Legal entity identifier:** 549300480637KJJWGX98

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Did this financial product have a sustainable investment objective?

**Yes**

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

**No**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

This financial product was terminated on 04 March 2024. The following characteristic was promoted by the financial product:

- 1) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.
- 2) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

# Supplemental Unaudited Information

The extent to which the environmental and/ or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

● ***How did the sustainability indicators perform?***

Not applicable. This financial product was terminated on 04 March 2024.

● ***...and compared to previous periods?***

Not applicable. This financial product was terminated on 04 March 2024.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

# Supplemental Unaudited Information

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

## What were the top investments of this financial product?

Not applicable. This financial product was terminated on 04 March 2024.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 30.09.2024

## What was the proportion of sustainability-related investments?

Not applicable.

### ● **What was the asset allocation?**

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 30.09.2024.

**Asset allocation** describes the share of investments in specific assets.

# Supplemental Unaudited Information

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Not applicable. This financial product was terminated on 04 March 2024.

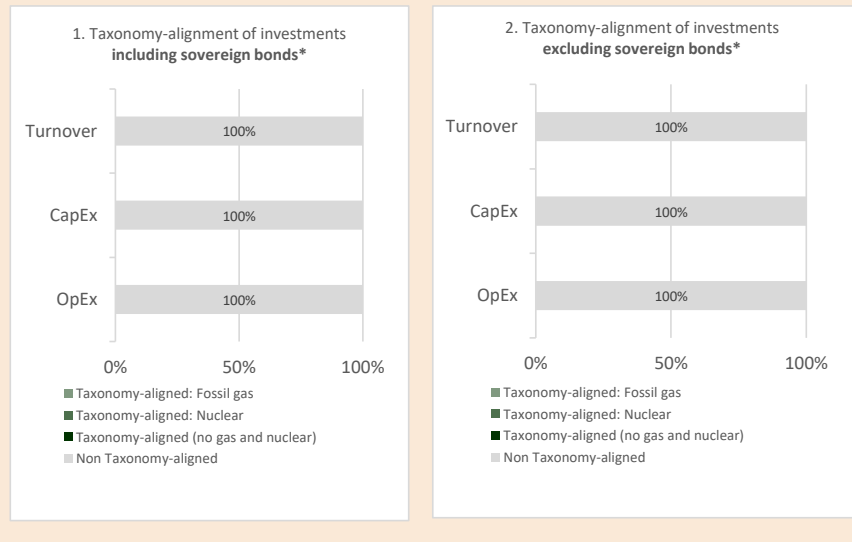

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
  - In fossil gas
  - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

# Supplemental Unaudited Information

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

There is no commitment to a minimum proportion of investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

**What was the share of socially sustainable investments?**

Not applicable.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

# Supplemental Unaudited Information

## How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

### Reference

**benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

● ***How did this financial product perform compared with the broad market index?***

Not applicable.
