

Prospectus

27 January 2025

Principal Global Investors Funds

An open-ended umbrella fund constituted as a unit trust with segregated liability between Funds pursuant to the Unit Trusts Act 1990, as amended, and authorised by the Central Bank as a UCITS pursuant to the Regulations.

To the best of the knowledge and belief of the Directors (whose names appear under the heading "Management of the Unit Trust – Directors of the Manager" below and who have taken all reasonable care to ensure that such is the case) the information contained in this Prospectus is in accordance with the facts and does not omit anything likely to materially affect the import of the information. The Directors accept responsibility accordingly.

IMPORTANT INFORMATION

The Unit Trust is authorised and supervised by the Central Bank. The authorisation of the Unit Trust by the Central Bank is not an endorsement or guarantee of the Unit Trust nor is the Central Bank responsible for the contents of this Prospectus. The authorisation of the Unit Trust shall not constitute a warranty by the Central Bank as to the performance of the Unit Trust and the Central Bank shall not be liable for the performance or default of any Fund of the Unit Trust.

In deciding whether to invest in the Unit Trust, investors should rely on information in this Prospectus, the relevant Supplement, the relevant PRIIPs KID or KIID, and the relevant Fund's most recent annual and/or semi-annual reports. The Prospectus, the relevant Supplement and the relevant PRIIPs KID or KIID may be updated from time to time and therefore prospective investors should make sure they have the most recent versions of each these documents and review them in their entirety before making an investment decision.

Statements made in this Prospectus are based on the law and practice in force in the Republic of Ireland at the date of this Prospectus, which may be subject to change. This Prospectus will be updated to take into account material changes from time to time and any such amendments will be notified in advance to and cleared by the Central Bank.

If you are in any doubt about the contents of this Prospectus, the risks involved in investing in the Unit Trust or the suitability for you of investing in the Unit Trust, you should consult your stockbroker, bank manager, solicitor, accountant or other independent financial adviser.

The distribution of this Prospectus and the offering of Units may be restricted in certain jurisdictions. This Prospectus does not constitute an offer or solicitation in any jurisdiction in which such offer or solicitation is not authorised. It is the responsibility of any person wishing to apply for Units to inform himself of and to observe all applicable laws and regulations of the countries of his nationality, residence or domicile.

The Units have not been registered with the United States Securities and Exchange Commission under the United States Securities Act of 1933 and may not be directly or indirectly offered or sold in the United States or to any United States Person, except pursuant to an exemption from the registration requirements under that legislation. Neither the Unit Trust, nor any of the Funds, are registered with the United States Securities and Exchange Commission as an investment company under the United States Investment Company Act of 1940. This Prospectus does not constitute and should not be construed as an offer, invitation or recommendation by the Manager or its related companies to apply for Units in the Funds in the United States or in any state, country or jurisdiction where such an offer, invitation or recommendation may not be lawfully made. Applicants for Units will be required to certify that they are not United States Persons.

The Trust Deed gives powers to the Manager to redeem Units held by any individual under the age of 18 (or such other age as the Manager may think fit); any person or persons in circumstances (whether directly or indirectly affecting such person or persons and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Manager to be relevant) which, in the opinion of the Manager, might result in the Manager, the Trustee or the Unit Trust incurring any liability to taxation or suffering any other pecuniary disadvantage or would subject the Manager, the Trustee or the Unit Trust to any additional regulation which the Manager, the Trustee or the Unit Trust might not otherwise have incurred or suffered; any person in breach of the law or requirements of any country or governmental authority; any person whom the Manager considers to be associated with market timing activity; any person who holds less than the minimum number of units as may be specified for a Fund; any person in respect of whom the Manager or its delegate has not received all supporting anti-money laundering or related documentation and such other information as the Manager or its delegate may reasonably require by such time as may from time to time be specified in the Prospectus or otherwise determined; any person or entity who breached or falsified representations on subscription documents; or any person who is not eligible to invest in the relevant Fund or class in accordance with the Prospectus or is in breach of any terms or conditions applying to a class of Units as may be specified in the Prospectus.

Any information given or representations made, by any dealer, salesperson or other person not contained in this Prospectus, a Supplement or the accompanying documents should be regarded as unauthorised and should accordingly not be relied upon. Neither the delivery of the Prospectus or any Supplement nor the offer, issue or sale of Units shall, under any circumstances, constitute a representation that the information given in this Prospectus is correct as of any time subsequent to the date of this Prospectus.

Potential subscribers for Units should inform themselves as to (a) the possible tax consequences, (b) the legal requirements and (c) any foreign exchange restrictions or exchange control requirements which they

might encounter under the laws of the countries of their citizenship, residence or domicile and which might be relevant to the subscription, holding, transfer or disposal of Units.

Distribution of this Prospectus in certain jurisdictions will require that the Prospectus be translated into an appropriate language. Where such a translation is required, the translated version of the Prospectus will be a direct translation from the English version. In the event of any inconsistency or ambiguity in relation to the meaning of any word or phrase in any translation, the English version shall prevail. All disputes as to the terms thereof, regardless of the language version, shall be governed by, and construed in accordance with, the law of Ireland.

As the price of Units in each Fund may fall as well as rise, the Unit Trust shall not be a suitable investment for an investor who cannot sustain a loss on his investment.

The decision to invest in any Fund, and if so how much, should be based on a realistic analysis of the investor's own financial circumstances and tolerance for investment risk. As with any investment, future performance may differ from past performance, and Holders could lose money. There is no guarantee that any Fund will meet its objectives or achieve any particular level of future performance. These are investments, not bank deposits.

No Fund in this Prospectus is intended as a complete investment plan, nor are all Funds appropriate for all investors. Before investing in a Fund, each prospective investor should read the Prospectus and should understand the risks, costs and terms of investment in that Fund.

The price of Units and the income generated from them may go down as well as up meaning that an investment should be viewed as medium to long-term.

Where provided for in the relevant Supplement, (i) dividends may be declared out of the capital of the relevant Fund; and/or (ii) fees and expenses may be paid out of the capital of the relevant Fund, in each case in order to preserve cash flow to Holders. In any such cases, there is a greater risk that capital may be eroded (and also that the value of future returns may be diminished) and distribution will be achieved/fees will be paid in a manner that foregoes the potential for future capital growth of your investment. This cycle may continue until all capital is depleted. Distributions out of capital may have different tax consequences to distributions of income and it is recommended that you seek appropriate advice in this regard. The likelihood is that the value of future returns would also be diminished.

Article 25 of MiFID II sets out requirements in relation to the assessment of suitability and appropriateness of financial instruments for clients. Article 25(4) contains rules relating to the selling of financial instruments by a MiFID-authorized firm to clients in an execution only manner. Provided the financial instruments are comprised from the list contained in Article 25(4)(a) (referred to broadly as non-complex financial instruments for these purposes), a MiFID-authorized firm selling the instruments will not be required to also conduct what is referred to as an "appropriateness test" on its clients. An appropriateness test would involve requesting information on the client's knowledge and experience on the type of investment offered and, on this basis, assessing whether the investment is appropriate for the client. If the financial instruments fall outside the list contained in Article 25(4)(a) (i.e. are categorised as complex financial instruments), the MiFID-authorized firm selling the instruments will be required to also conduct an appropriateness test on its clients.

UCITS (other than structured UCITS) are specifically referenced in the list in Article 25(4)(a). Accordingly, each Fund is deemed to be a non-complex financial instrument for these purposes.

1 THE UNIT TRUST AND THE PRINCIPAL FINANCIAL GROUP

1.1 The Unit Trust

The Unit Trust is an open-ended umbrella unit trust which was authorised in Ireland as a UCITS on 13 October 1992. The Unit Trust has created a number of sub-funds (the "**Funds**"). The assets of each Fund will be invested separately on behalf of each Fund in accordance with the investment objective and policies of each Fund. The investment objective and policies and other details in relation to each Fund are set out in the relevant Supplement. Additional Funds (in respect of which a Supplement or Supplements will be issued) may be established from time to time with the prior approval of the Central Bank.

Different classes of Units in each Fund may be issued from time to time by the Manager. Each Unit represents one undivided share in the property of the relevant Fund and the nature of the right represented by a Unit is that of a beneficial interest under a trust. A separate pool of assets shall not be maintained in respect of each class. Additional classes in respect of which a Supplement or Supplements will be issued may be established by the Manager and notified to and cleared in advance with the Central Bank or otherwise must be created in accordance with the Central Bank Requirements. Separate books and records will be maintained for each Fund but not for each Unit.

At the date of this Prospectus, the Trust comprises the following Funds:

- (a) Asian Equity Fund*
- (b) European Responsible Equity Fund
- (c) Global Sustainable Equity Fund
- (d) Global Property Securities Fund
- (e) Global High Yield Fund
- (f) Origin Global Emerging Markets Fund
- (g) Origin Global Smaller Companies Fund
- (h) Post Short Duration High Yield Fund
- (i) Preferred Securities Fund
- (j) Emerging Markets Equity Fund*
- (k) Finisterre EM Debt Fund*
- (l) Real Estate Debt Fund*
- (m) Global Diversified Income Fund*
- (n) Finisterre Unconstrained Emerging Markets Fixed Income Fund
- (o) U.S Equity Fund**
- (p) Asian High Yield Fund*
- (q) Finisterre VAG Unconstrained EM Fixed Income Fund
- (r) Finisterre Emerging Markets Debt Euro Income Fund
- (s) China Opportunities Equity Fund*
- (t) Global Sustainable Listed Infrastructure Fund
- (u) CCB Principal China New Energy Innovation Fund
- (v) Principal Capital Securities Fund
- (w) Principal High Grade Capital Securities Fund
- (x) Global Sustainable Food and Biodiversity Fund
- (y) Global Sukuk Fund
- (z) Islamic Asia Pacific Dynamic Income & Growth Fund
- (aa) Islamic Global Multi-Asset Fund

(bb) Islamic Global Responsible Equity Fund

* The Fund is no longer available for subscription and an application will be made to the Central Bank for withdrawal of its approval in due course.

1.2 (a) Investment Manager

The Investment Manager for the Unit Trust is Principal Global Investors, LLC. The Investment Manager is a member of the Principal Financial Group®.

The Investment Manager may delegate investment management responsibility in respect of any of the Funds (with the exception of the Shariah Funds) in whole or in part to the Sub-Investment Managers. Details of any Sub-Investment Manager appointed by the Investment Manager in respect of a Fund but not paid directly out of the assets of the relevant Fund are available upon request and will be set out in the relevant Supplement and/or the periodic reports for that Fund.

(b) Shariah Investment Manager

The Shariah Investment Manager for the Unit Trust is Principal Islamic Asset Management Sdn Bhd. The Shariah Investment Manager is a member of the Principal Financial Group®.

The Shariah Investment Manager may delegate investment management responsibility in respect of any of the Shariah Funds in whole or in part to the Sub-Investment Managers. Details of any Sub-Investment Manager appointed by the Shariah Investment Manager in respect of a Shariah Fund but not paid directly out of the assets of the relevant Shariah Fund are available upon request and will be set out in the relevant Supplement and/or the periodic reports for that Shariah Fund.

1.3 The Principal Financial Group*

The Principal Financial Group® (**Principal**®) is a global investment management leader offering retirement services, insurance solutions and asset management. The Principal offers businesses, individuals and institutional clients a wide range of financial products and services, including retirement, asset management and insurance through its diverse family of financial services companies. Founded in 1879 and a member of the FORTUNE 500®, the Principal Financial Group has \$US694.5 billion in assets under management as of 31 December 2023 and serves some 62 million customers worldwide from offices in Asia, Australia, Europe, Latin America and the United States. Principal Financial Group, Inc. is traded on the Nasdaq Global Select Market under the ticker symbol PFG.

However, investors should note that investments in the Funds are neither insured nor guaranteed by the US Government or the Federal Deposit Insurance Corporation and are not deposits or obligations of, or guaranteed by, Principal Financial Group, Inc. or any affiliate thereof.

(*Principal®, Principal Financial Group®, Principal Asset Management, and Principal and the logomark design are registered trademarks and service marks of Principal Financial Services, Inc., a Principal Financial Group company, in various countries around the world and may be used only with the permission of Principal Financial Services, Inc. Principal Asset ManagementSM is a trade name of the Investment Manager.)

1.4 Principal Asset Management

Principal Asset Management leads global asset management at Principal®. As a multi-boutique firm, the firm brings a focused perspective and offers expertise across a host of investment capabilities: fixed income, equities, real estate, asset allocation, currency, stable value, and other structured investment strategies. As of 31 December 2023, the firm managed \$US540.4 billion of assets on behalf of a broad range of investors.

Commitment to Responsible Investing

Principal Asset Management's commitment to sustainable investing revolves around a key factor — its fiduciary responsibility to its clients. Acting in their best interests comes first and foremost. The approach to sustainable investing is at all times driven by that priority.

Principal Asset Management has been a United Nations Principles for Responsible Investment ("PRI") signatory since 2010, highlighting the firm's dedication to ESG issues. Its global investment teams are covered by the PRI signature. Consistent with a specialised investment team model, each team defines the scope and pace of its own implementation path, driven by what fits best with its investment process and the needs of its clients.

The Principles for Responsible Investing (the “**Principles**”) are based on the premise that ESG issues can affect the performance of investment portfolios and investors should give them appropriate consideration to fulfil their fiduciary duty. In signing these Principles, Principal Asset Management publicly commits, where consistent with its fiduciary responsibilities, to the following:

- (a) to incorporate ESG issues into its investment analysis and decision-making processes;
- (b) to be active owners and incorporate ESG issues into its ownership policies and practices;
- (c) to seek appropriate disclosure on ESG issues from the entities that it invests in;
- (d) to promote acceptance and implementation of the Principles within the investment industry;
- (e) to work with other signatories to enhance effectiveness in implementing the Principles; and
- (f) to report on its activities and progress towards implementing the Principles.

Principal Asset Management has issued a sustainable investing policy statement to outline how the tenets of sustainable investing are applied by its investment teams.

For further information, please refer to www.principalam.com/about-us/esg

2 GENERAL INFORMATION

2.1 Investment Objective and Policies

The investment objective and policies of each Fund are set out in the Supplements. Investors' attention is also drawn to the General Policies paragraph of the General Information section and to the Special Investment Considerations and Risks section set out below.

2.2 General Policies

Equity securities, for the purposes of the investment objective and policies set out in any Supplement include common stock, preferred securities, ADRs, GDRs, warrants or rights to subscribe to, or purchase, or convert into, such securities.

Debt securities, for the purposes of the investment objective and policies set out in any Supplement include sovereign, corporate and collateralised (i.e. asset and mortgage backed) debt securities and instruments with floating and fixed rates.

Preferred securities for the purposes of the investment objective and policies set out in any Supplement refer to securities with a claim to a company's earnings before payment can be made on common stock, and which are usually entitled to priority over common stock if a company liquidates. They are sometimes referred to as hybrid securities.

Investors' attention is also drawn to the fact that the references in each Supplement to ancillary liquid assets may include instruments with floating and fixed interest rates and short-term securities including treasury bills, certificates of deposit, bankers' acceptances and other forms of liquid investments as well as bank deposits.

With the exception of permitted investment in unlisted investments and over-the-counter FDI, investments by a Fund will be restricted to securities and FDI listed or traded on permitted markets as set out in Appendix E. Accordingly, each Fund may invest up to 10% of its Net Asset Value in unlisted securities/securities listed on markets other than those set out in Appendix E, provided this is consistent with its investment objective.

The formation of the investment policy for each Fund and any changes to such policy in the light of political and/or economic conditions is the responsibility of the Manager who may change the investment policy for any Fund accordingly. The Trust Deed does not restrict the investment policy or the investment of the Unit Trust's assets, save as described below under Appendix A: Investment Restrictions. Any change in the investment objective or material change in the investment policy of a Fund will require the approval of a majority of votes of the Holders of the relevant Fund cast at a general meeting or by means of a written resolution. In addition, any change in the investment objective or a material change to the investment policies of a Shariah Fund, may only be made once

the Shariah Adviser has advised that such change is in accordance with Shariah and, provided the necessary approvals have been sought from the Holders of the relevant Shariah Fund. Prior notice of any change in investment objective or material change in investment policy of a Fund must be given to Holders in order to enable them to request the redemption of their Units.

Liquidity risk management is an important part of the investment process and will be considered during portfolio construction. The liquidity profile of the Funds' investments may be changed if a period of reduced or heightened liquidity needs is anticipated. The Manager may also utilise the tools described in the sections entitled "**Restrictions on Redemptions**" and "**Anti-Dilution Levy in Relation to Redemption of Units**" to manage the Funds' liquidity risk.

2.3 Use of FDI

A Fund may use FDI including currency swaps, futures, forwards, options, warrants, equity options, credit default swaps ("**CDS**") and total return swaps ("**TRS**") for the purposes of efficient portfolio management ("**EPM**") if deemed advisable by the Investment Manager, subject to the Regulations and the Central Bank Requirements. A Fund may also use FDI for investment purposes where provided for in the relevant Supplement.

Use of such techniques and instruments should be in line with the best interests of Holders and will generally be made for one or more of the following reasons:

- (i) the reduction of risk;
- (ii) the reduction of cost; or
- (iii) the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the risk diversification rules set out in the Regulations.

In addition, the use of such techniques and instruments must be realised in a cost-effective way and must not result in a change to the investment objective of the Fund or add substantial supplementary risks not covered in this Prospectus. It is therefore the intention of the Manager, in employing such EPM techniques and instruments for these reasons, that their impact on the performance of the relevant Fund will be positive.

Such techniques and instruments include foreign exchange transactions, which are used principally for hedging purposes (to create hedged currency Unit classes (hedged back to the base currency of the Unit class), or to alter the currency exposure characteristics of portfolio investments). The Investment Manager may (but is not obliged to) seek to mitigate exchange rate risk by using FDI.

The Manager uses a risk management process ("**RMP**") which enables it to accurately measure, monitor and manage the various risks associated with the derivative instruments used by each Fund.

Supplementary information will be provided by or on behalf of a Fund to Holders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments held by a Fund.

Unless otherwise specified in the relevant Supplement, each Fund shall use the commitment approach to calculate its global exposure as a result of the use of FDI. Accordingly, global exposure and leverage as a result of its investment in FDI shall not exceed 100% of the Net Asset Value of the Fund.

A Fund may also, where indicated in the relevant Supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and securities lending agreements.

The Manager shall be free at its discretion to take advantage of any wider investment powers which may become permitted under the Regulations.

Where provided for in the relevant Supplement, a Fund may use techniques and instruments, including FDI, 'when issued' and 'forward commitment' securities (which securities are taken into account when calculating the limits in the investment restrictions set out in the Prospectus), for the purpose of EPM in accordance with the Central Bank Requirements. In particular, a Fund may enter into repurchase, reverse repurchase, sale and buyback agreements (together "**Repo Agreements**") and securities lending agreements, CDS and TRS and may enter into forward currency contracts to alter the currency exposure characteristics of portfolio investments. Further information on Repo

Agreements and securities lending agreements is set out in the section entitled "Securities Financing Transactions".

Repo Agreements - Repo Agreements are instruments where one party sells a security and simultaneously agrees to repurchase the securities at a particular time at a specified price. The price is equal to the sale proceeds plus repo interest. The proceeds from the repoed security can be reinvested in another investment with a yield which is greater than the repo rate and this should enable a Fund to obtain a return which is greater than that which the security alone can generate. A CDS is a type of over-the-counter traded derivative contract which allows one party to buy protection from another party in respect of potential losses arising from the default of a specified reference credit or credits. A CDS provides a Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk. CDSs may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. A TRS is a type of over-the-counter derivative contract which allows a Fund to achieve exposure to an asset or asset class on a synthetic basis. A Fund receives the total return of a reference asset or asset class for a specific period of time in return for a cost of financing. If the investment return is greater than the cost of financing the TRS, the Fund should receive an enhanced return which is greater than that which the underlying asset alone could generate.

The reference asset or asset class of any CDS or TRS will always comprise assets which a Fund itself is permitted to invest in directly under its current investment policy. Any such transaction cannot subject a Fund to a potential loss greater than that which it could obtain in the cash market and may only be carried out in accordance with the Central Bank Requirements.

Where provided for in the relevant Supplement, a Fund may also enter into currency forward contracts which may be used to alter the currency exposure characteristics of certain assets held by a Fund but will never be used for speculative purposes. Such contracts will generally be utilised to gain exposure to a currency in which a Fund may invest directly rather than to purchase the cash assets in that currency.

Futures - In purchasing a futures contract, the buyer agrees to purchase a specified underlying on a specified future date. In selling a futures contract, the seller agrees to sell a specified underlying on a specified future date. The price at which the purchase and sale will take place is fixed when the buyer and seller enter into the contract. Futures not calling for physical delivery of the underlying instrument will be settled through cash payments rather than through delivery of the underlying instrument. Futures can be held until their delivery dates or can be closed out by offsetting purchases or sales of futures contracts before then if a liquid market is available. A Fund may realise a gain or loss by closing out its futures contracts.

The value of a futures contract tends to increase and decrease in tandem with the value of its underlying. Therefore, purchasing futures contracts will tend to increase a Fund's exposure to positive and negative price fluctuations in the underlying, much as if it had purchased the underlying directly. When a Fund sells a futures contract, by contrast, the value of its futures position will tend to move in a direction contrary to the market. Selling futures contracts, therefore, will tend to offset both positive and negative market price changes, much as if the underlying had been sold.

The purchaser or seller of a futures contract is not required to deliver or pay for the underlying or the final cash settlement price, as applicable, unless the contract is held until the delivery date. However, both the purchaser and seller are required to deposit "initial margin" with a futures broker, known as a futures commission merchant (FCM), when the contract is entered into. If the value of either party's position declines, that party will be required to make additional "variation margin" payments to settle the change in value on a daily basis. The party that has a gain is entitled to receive all or a portion of this amount.

Because there are a limited number of types of exchange-traded futures contracts, it is likely that the standardised contracts available will not match a Fund's current or anticipated investments exactly. A Fund may invest in futures contracts based on securities with different issuers, maturities or other characteristics from the securities in which a Fund typically invests, which involves a risk that the futures position will not track the performance of a Fund's other investments.

Futures prices can also diverge from the prices of their underlying, even if the underlying match a Fund's investments well. Futures prices are affected by such factors as current and anticipated short-term interest rates, changes in volatility of the underlying and the time remaining until expiration of the contract, which may not affect security prices the same way. Imperfect correlation may also result from differing levels of demand in the futures markets and the securities markets, from structural differences in how futures and securities are traded or from imposition of daily price fluctuation limits or trading halts.

A Fund may use bond and interest rate futures contracts to efficiently manage the duration, or interest rate sensitivity, of the Fund. Frequently, using futures to achieve a particular strategy instead of using the underlying or related security results in lower transaction costs being incurred and less disruption to the underlying assets of a Fund. A Fund may also use futures contracts to hedge or gain exposure to currencies.

Forwards - A forward contract locks-in the price at which a bond or a specific currency may be purchased or sold on a future date. The contract holders are obliged to buy or sell the bond or currency at a specified price, at a specified quantity and on a specified future date. The party agreeing to buy the underlying in the future assumes the long position, and the party agreeing to sell the asset in the future assumes a short position. This reduces a Fund's exposure to changes in the value of the bond or currency it will deliver and increases its exposure to changes in the value of the bond or currency it will receive for the duration of the contract.

Currency forwards are used to hedge unwanted currency risk and may also be used for investment purposes to enhance the return of a Fund by achieving a specific currency exposure or to shift exposure to currency fluctuations from one currency to another. A Fund may use one currency (or a basket of currencies) to hedge against adverse changes in the value of another currency (or a basket of currencies) when exchange rates between the two currencies are positively correlated. Currency forwards have the risk of currency exposure in the same way as a regular currency spot transaction. Currency forwards are traded OTC and therefore have counterparty risk.

Bond forwards are used in the same manner as interest rate futures in markets or where futures contracts are not available or lack suitable liquidity. Bond forwards have the same duration risk as the bond as it is simply a forward settlement of a purchase or sale. In addition, there is counterparty risk associated with these instruments.

Such transactions may not be successful and may eliminate any chance for a Fund to benefit from favourable fluctuations in relevant foreign currencies or bond prices.

Options - Options are a contract which gives the owner the right, but not the obligation, to buy or sell an underlying at a specified strike price on or before a specified date. There are two forms of options, put and call options. Put options are contracts sold for a premium that gives one party (the buyer) the right, but not the obligation, to sell to the other party (the seller) of the contract, a specific quantity of an underlying at a specified price. The purchase of a put option would allow a Fund to benefit from a decrease in the price of the underlying asset, while also limiting the amount of loss it may sustain. Call options are similar contracts sold for a premium that gives the buyer the right, but not the obligation, to buy from the seller of the option at a specified price. These contracts can be used both to gain investment exposure and hedge exposures to the global fixed income markets and the currency markets.

Options can be both exchange traded as well as traded OTC. Options carry the risk of the underlying such as a bond or a currency pair. Options on a bond future also carry the same basis risk as that futures contract. In addition, OTC traded FDI have counterparty risk.

There are a number of reasons why a Fund may choose to use options. In the first instance, such options have a defined pay-out profile which may be attractive to a Fund versus an outright position in the underlying.

Additionally, instruments, such as options, can be used to take a positional view on volatility, which is the amount of uncertainty or risk about the size of changes in an instrument's value. For example, foreign exchange options may also be used to take a positional view on currency volatility whereby a Fund could buy or sell exposure to volatility on a daily basis across a range of currency pairs, irrespective of the direction of the price movements. To do this a Fund may utilise an options strategy called a 'straddle'. A straddle involves the simultaneous purchase of two options at the same strike

price and for the same expiry date. For example, exposure to volatility may be bought by buying a 'long straddle' which involves buying a call option and a put option on the same currency. A Fund would profit from any increase in market volatility. Similarly, exposure to volatility may be sold by selling a straddle which involves selling a call option and a put option on the same currency. A Fund would profit from any decline in market volatility.

Swaps - Swaps are individually negotiated and structured to include exposure to a variety of different types of investments or market factors and can vary in term like other fixed-income investments. Most swap agreements are traded over-the-counter. In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realised on particular predetermined investments or instruments. The gross returns to be exchanged or swapped between the parties are calculated with respect to a notional amount, which is the predetermined principal of the trade representing the hypothetical underlying quantity upon which payment obligations are computed.

Depending on how they are used, swap agreements may increase or decrease the overall volatility of a Fund's investments. Swap agreements are subject to liquidity risk, meaning that a Fund may be unable to sell a swap contract to a third party at a favourable price. A Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty.

Under a standard interest rate swap, two counterparties agree to exchange specified cash flows for a specified period of time. Generally, a floating rate cash flow is exchanged for a series of fixed interest rate payments. The counterparty that receives the fixed rate payments obtains interest rate exposure similar to buying a fixed rate bond and the other counterparty obtains floating rate interest exposure. The exchanged cash flows are based off a "notional" amount of principal that is not physically exchanged between counterparties. Interest rate swaps are customizable and frequently trade out to 10 years, making interest rate swaps a more flexible tool to be used in managing interest rate risk along the yield curve.

A TRS is a contract whereby one party (e.g. the total return payer) agrees to make a series of payments to another party (e.g. the receiver) based on the change in the market value of the assets underlying such contract (which can include the types of assets that the Fund can acquire directly as further described in the relevant Supplement) during the specified period. In exchange, the other party to the contract agrees to make a series of payments calculated by reference to an interest rate and/or some other agreed-upon amount (including the change in market value of other underlying assets). A Fund may use TRS to gain exposure to an asset without owning it or taking physical custody of it. For example, if a Fund invests in a TRS on an underlying security, it will receive the price appreciation of the underlying security in exchange for payment of an agreed-upon fee. A Fund will enter into TRS with institutions such as those described in Section 6.3 of Appendix A entitled **Investment Restrictions**.

In a CDS, the credit default protection buyer makes periodic payments, known as premiums, to the credit default protection seller. In return the credit default protection seller will make a payment to the credit default protection buyer upon the occurrence of a specified credit event. A CDS can refer to the types of assets that a Fund can acquire directly as described in the relevant Supplement, each known as the reference entity or underlying asset. A Fund may act as either the buyer or the seller of a CDS. A Fund may buy or sell credit default protection on the assets. In an unhedged CDS, a Fund buys credit default protection on the asset without owning the underlying asset. CDSs involve greater and different risks than investing directly in the reference asset, because, in addition to market risk, CDSs include liquidity, counterparty and operational risk.

CDSs allow a Fund to acquire or reduce credit exposure to a particular issuer or asset. If a swap agreement calls for payments by a Fund, a Fund must be prepared to make such payments when due. If a Fund is the credit default protection seller, the Fund will experience a loss if a credit event occurs and the credit of the reference entity or underlying asset has deteriorated. If a Fund is the credit default protection buyer, the Fund will be required to pay premiums to the credit default protection seller. In the case of a physically settled CDS in which a Fund is the protection seller, the Fund must be prepared to pay par for and take possession of debt of a defaulted issuer delivered to the Fund by the credit default protection buyer. Any loss would be offset by the premium payments a Fund receives as the seller of credit default protection.

Swaptions can be used, whereby one party receives a fee in return for agreeing to enter into a forward swap at a predetermined fixed rate if some contingency event occurs (normally where future rates are set in relation to a fixed benchmark). Swaptions may be used for hedging and investment purposes or, if sold, as a source of additional income in the form of a premium.

A Fund may use swaps for efficient portfolio management or as an alternative way to gain long or short exposure to the instruments as detailed in the relevant Supplement.

Asset Replication Strategy

In respect of certain Funds, the Manager, on the recommendation of the Investment Manager, may decide to avail of the range of techniques and instruments which Funds are permitted to use for the purpose of EPM in accordance with the Regulations to pursue an asset replication strategy (the "**Asset Replication Strategy**"). The Supplement for each Fund will disclose if that Fund is to utilise the Asset Replication Strategy and, in such cases, in addition to the techniques and instruments outlined above, the following additional provisions shall apply.

Each Fund may use techniques and instruments, including FDI, 'when issued' and 'forward commitment' securities (which securities are taken into account when calculating the limits in the investment restrictions set out in the Prospectus), for the purpose of EPM in accordance with the investment restrictions, conditions and limits laid down by the Central Bank. In particular, the Fund may enter into Repo Agreements and securities lending agreements, CDS and TRS and may enter into forward currency contracts to alter the currency exposure characteristics of portfolio investments.

Each Fund may also enter into currency forward contracts which may be used to alter the currency exposure characteristics of certain assets held by a Fund but will never be used for speculative purposes. Such contracts will generally be utilised to gain exposure to a currency in which a Fund may invest directly rather than to purchase the cash assets in that currency.

The use of the Asset Replication Strategy entails additional considerations for investors and these are disclosed in the relevant sub-section of the section of the Prospectus headed "**Special Investment Considerations and Risks**".

2.4 Securities Financing Transactions

A Fund may use Securities Financing Transactions in accordance with normal market practice and subject to the requirements of the SFTR and the Central Bank Requirements where provided for in the relevant Supplement. Such Securities Financing Transactions may be for any purpose that is consistent with the investment objective of the relevant Fund, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risks.

Any type of assets that may be held by each Fund in accordance with its investment objective and policies may be subject to such Securities Financing Transactions. Where provided for in the relevant Supplement, a Fund may also use TRS. Subject to each Fund's investment objective and policies, there is no limit on the proportion of assets that may be subject to Securities Financing Transactions and TRS and therefore the maximum and expected proportion of a Fund's assets that can be subject to Securities Financing Transactions or TRS can be as much as 100%, i.e. all of the assets of the relevant Fund. In any case the most recent semi-annual and annual accounts of each Fund will express the amount of the Fund's assets subject to Securities Financing Transactions and TRS.

Securities lending means transactions by which one party transfers securities to the other party subject to a commitment that the other party will return equivalent securities on a future date or when requested to do so by the party transferring the securities, that transaction being considered as securities lending for the party transferring the securities. Repurchase agreements are a type of securities lending transaction in which one party sells a security to the other party with a simultaneous agreement to repurchase the security at a fixed future date at a stipulated price reflecting a market rate of interest unrelated to the coupon rate of the securities. A reverse repurchase agreement is a transaction whereby a Fund purchases securities from a counterparty and simultaneously commits to resell the securities to the counterparty at an agreed upon date and price. Any Fund that seeks to engage in securities lending should ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.

Any Fund that enters into a reverse repurchase agreement should ensure that it is able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the Net Asset Value of the Fund.

A Fund that enters into a repurchase agreement should ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase and reverse repurchase agreements that do not exceed seven days shall be considered as arrangements on terms that allow the assets to be recalled at any time by the Fund.

All the revenues arising from Securities Financing Transactions and any other EPM techniques shall be returned to the relevant Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees (which are all fully transparent), which shall not include hidden revenue, shall include fees and expenses payable to counterparties engaged by the Manager from time to time. Such fees and expenses of any counterparties engaged by the Manager, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Unit Trust or the Fund in respect of which the relevant party has been engaged. Details of Fund revenues arising and attendant direct and indirect operational costs and fees as well as the identity of any specific Securities Financing Transactions counterparties engaged by the Unit Trust from time to time (including whether they are related to the Manager or the Trustee) shall be included in the relevant Fund's semi-annual and annual reports.

While the Manager will conduct appropriate due diligence in the selection of counterparties, including consideration of the legal status, country of origin, credit rating and minimum credit rating (where relevant), it is noted that the Central Bank Requirements do not prescribe any pre trade eligibility criteria for counterparties to a Fund's Securities Financing Transactions.

From time to time, a Fund may engage counterparties that are related parties to the Trustee or other service providers of the Unit Trust. Such engagement may on occasion cause a conflict of interest with the role of the Trustee or other service provider in respect of the Unit Trust. Please refer to Section 7.7 "Conflicts of Interest" for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the relevant Fund's semi-annual and annual reports.

Repurchase/reverse repurchase agreements or securities lending do not constitute borrowing or lending for the purposes of Regulation 103 and Regulation 111 of the Regulations respectively.

Please refer to **Risk Factors** Section 3.2 "FDI and Securities Financing Transactions Risk" in respect of the risks related to Securities Financing Transactions. The risks arising from the use of Securities Financing Transactions shall be adequately captured in the Unit Trust's risk management process.

2.5 Collateral Policy

In the context of efficient portfolio management techniques, including Securities Financing Transactions and/or the use of FDI for hedging or investment purposes, collateral may be received from a counterparty for the benefit of a Fund or posted to a counterparty by or on behalf of a Fund.

Any receipt or posting of collateral by a Fund will be conducted in accordance with the Central Bank Requirements and the terms of the collateral policy for the Unit Trust outlined below.

Collateral received by a Fund

Collateral posted by a counterparty for the benefit of a Fund may be taken into account as reducing the exposure to such counterparty. Each Fund will require receipt of the necessary level of collateral to cover daily variation margin calculations as required under EMIR and to ensure counterparty exposure limits are not breached. Counterparty risk may be reduced to the extent that the value of the collateral received corresponds with the value of the amount exposed to counterparty risk at any given time.

Risks linked to the management of collateral, such as operational and legal risks, shall be identified, managed and mitigated by the Manager's risk management processes. A Fund receiving collateral for at least 30% of its assets will have an appropriate stress testing policy in place to ensure regular

stress tests are carried out under normal and exceptional liquidity conditions to enable the Fund to assess the liquidity risk attached to the collateral. The liquidity stress testing policy will at least prescribe the components set out in Regulation 24 paragraph (8) of the Central Bank Requirements.

For the purpose of providing margin or collateral in respect of transactions in techniques and instruments, the Fund may transfer, mortgage, pledge, charge or encumber any assets or cash forming part of the Fund in accordance with normal market practice (including the transfer of daily variation margins) and the requirements outlined in the Central Bank Requirements.

Collateral received by a Fund from a counterparty on a title transfer basis shall be held by the Trustee or a duly appointed sub-custodian.

Collateral provided by a Fund on a title transfer basis shall no longer belong to the Fund and shall pass outside the custodial network. The counterparty may use those assets at its absolute discretion. Assets provided to a counterparty other than on a title transfer basis shall be held by the Trustee or a duly appointed sub-custodian. Investors' attention is drawn to the relevant risk disclosures in this respect set out in the Prospectus under the headings **Credit Risk and Counterparty Risk** and **Collateral Risk**.

Acceptable collateral

Collateral received from a counterparty for the benefit of the Fund may be in the form of cash or non-cash assets and non-cash assets must, at all times, meet with the specific criteria outlined in the Central Bank Requirements in relation to (i) liquidity; (ii) valuation; (iii) issuer credit quality; (iv) correlation; (v) diversification (asset concentration); and (vi) immediate availability:

- (i) **Liquidity:** Collateral received other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of Regulation 74 of the Regulations.
- (ii) **Valuation:** Collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts (as referred to below) are in place.
- (iii) **Issuer credit quality:** Collateral received should be of high quality.
- (iv) **Correlation:** Collateral received should be issued by an entity that is independent from the counterparty and is not expected to display a high correlation with the performance of the counterparty.
- (v) **Diversification (asset concentration):** Collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the Fund's Net Asset Value. When the Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer. Notwithstanding the foregoing, a Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by an EU Member State, one or more of its local authorities, non-EU Member States or a public international body to which one or more EU Member States belong, as disclosed at section 2.12. Such a Fund will receive securities from at least six different issues and securities from any single issue will not account for more than 30% of the Fund's Net Asset Value.
- (vi) **Immediate availability:** Collateral received should be capable of being fully enforced by the Fund at any time without reference to or approval from the counterparty.

There are no restrictions on maturity provided the collateral is sufficiently liquid.

Where appropriate, non-cash collateral held for the benefit of a Fund shall be valued in accordance with the valuation policies and principles applicable to the Unit Trust. Subject to any agreement on valuation made with the counterparty, collateral posted to a recipient counterparty will be valued daily at mark-to-market value.

The Investment Manager shall apply suitably conservative haircuts to assets received as collateral where appropriate on the basis of an assessment of the characteristics of the assets such as the credit standing, the price volatility, and, where relevant, the outcome of any stress tests, in accordance with the requirements of EMIR. EMIR does not require the application of a haircut for

cash variation margin. Accordingly, any haircut applied to cover currency risk will be as agreed with the relevant counterparty. The Investment Manager has determined that generally if issuer or issue credit quality of the collateral is not of the necessary quality or the collateral carries a significant level of price volatility with regard to residual maturity or other factors, a conservative haircut must be applied in accordance with more specific guidelines as will be maintained in writing by the Investment Manager on an ongoing basis. To the extent that a Fund avails of the increased issuer exposure facility in section 5(ii) of Schedule 3 of the Central Bank Requirements, such increased issuer exposure may be to any of the issuers listed in section 2.12 of Appendix A to this Prospectus.

Non-cash collateral cannot be sold, pledged or re-invested.

Cash collateral may not be invested other than in the following:

- (i) deposits with Relevant Institutions;
- (ii) high-quality government bonds;
- (iii) reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on an accrued basis;
- (iv) short-term money market funds as defined in the Article 2(14) of the Money Market Funds Regulation.

Re-invested cash collateral should be diversified in accordance with the Central Bank diversification requirements applicable to non-cash collateral. Cash collateral may not be placed on deposit with the relevant counterparty or a related entity. Exposure created through the reinvestment of collateral must be taken into account in determining risk exposures to a counterparty. Re-investment of cash collateral in accordance with the provisions above can still present additional risk for the Fund. Please refer to the section entitled "**Reinvestment of Cash Collateral Risk**" in section 3 of the Prospectus (**Special Investment Considerations and Risks**) for more details.

Collateral posted by a Fund

Collateral posted to a counterparty by or on behalf of a Fund must be taken into account when calculating counterparty risk exposure other than where it is protected by client money rules or similar arrangements. Collateral posted to a counterparty and collateral received by such counterparty may be taken into account on a net basis provided the Fund is able to legally enforce netting arrangements with the counterparty.

Collateral posted to a counterparty by or on behalf of a Fund will consist of such collateral as is agreed with the counterparty from time to time and may include any types of assets held by the Fund.

2.6 Borrowings

The Trust Deed enables borrowings to be undertaken on a temporary basis in accordance with the Regulations for the account of any Fund up to a limit of 10% of the net assets of the relevant Fund at the time of borrowing. The assets of the relevant Fund may be charged or pledged as security for any such borrowings.

2.7 Income Units, Income Plus Units and Accumulation Units

The Manager may issue Income Units, Income Plus Units and Accumulation Units in the Funds. Details of the classes of Units currently in issue for each Fund are set out in the applicable Supplement.

Income Units

Income Units entitle holders to receive at each Distribution Date payment of the net income earned and attributable to the Income Units. Payments of net income will either be reinvested in further Income Units in the relevant Fund, or paid out as cash. Please see the relevant Supplement for further information.

Income Plus Units

Income Plus Units are units that seek to distribute a stable and consistent amount of net income earned and attributable to the Income Plus Units at each Distribution Date. Further details on Income Plus Units are set out in the section entitled "Distribution Policy".

Accumulation Units

Accumulation Units carry no right to any distribution of income. The net income earned and attributable to Accumulation Units (if any) will be retained within the Fund on a daily basis, so increasing the value of the interest in the Fund of each Accumulation Unit relative to an Income Unit or an Income Plus Unit.

Investors who fail to nominate the type of Unit in a Fund, in which they wish to invest, will receive Accumulation Units for that Fund.

The Manager may issue the following classes: A, B, D, I, F, L, N, P, R, V, X, Z.

Each Fund may issue one or more classes of Units.

Classes may be issued as Income or Accumulation Units. The differences between these classes may be the different levels of fees, minimum application amounts applicable to each class, the denomination of the Units, details of which shall be set out in the relevant Supplement.

Unless provided otherwise in this Prospectus or the relevant Supplement, all classes may be offered to the retail sector and may be purchased by individual or institutional investors or distributors, paying agents, brokers or other financial intermediaries.

The N and I Class Units are suitable for investment only by investors which according to regulatory requirements, or based on individual fee arrangements with their clients, are not allowed to accept and keep trail commissions.

The X Class Units are only available at the discretion of the Manager, to investors who have agreed specific terms of business which may include an agreement covering a separate charging structure.

The Z Class Units have been established by the Manager for early investors coming into certain Funds. Z Class Units are solely available to investors meeting the Minimum Initial Subscription detailed in the relevant Supplement. These Units may not be available to investors or platforms that do not individually meet the Minimum Initial Subscription but are accessing the Fund via a pooled or aggregator account.

2.8 Hedged and Unhedged Units

Units in the relevant Fund may be denominated in the same or in different currencies. Where a class of Units is denominated in a currency other than the relevant Fund's Base Currency, the Manager shall determine whether such Units shall be constituted as hedged or unhedged Units. In the case of a hedged class of units ("**Hedged Units**"), the Fund shall enter into certain currency-related transactions through the use of EPM techniques (including exchange rate swap contracts, currency options, forward currency transactions and other instruments) in order to seek to hedge out currency risk of a hedged class of Units.

Unless otherwise disclosed in the relevant Supplement, this will involve a class designated in a currency other than the Base Currency being hedged against (i) exchange rate fluctuation risks between the designated currency of the class and the Base Currency of the relevant Fund; or (ii) exchange rate fluctuation risks between the designated currency of the class and the other denominated currencies of the Fund's assets.

To the extent that hedging is successful for a particular class, the performance of the class is likely to move in line with the performance of the underlying assets.

Any financial instruments used to implement such currency hedging strategies with respect to one or more classes shall be assets/liabilities of the Fund but will be attributable to the relevant class(es) and the profit and loss (realised and unrealised) on, and the costs of the currency hedging transactions (including any administrative costs arising from additional risk management) will accrue solely to the relevant class. However, investors should note that there is no segregation of liability between Unit classes. Although the costs, profits and losses of the currency hedging transactions will accrue solely to the relevant class, Holders are nonetheless exposed to the risk that hedging transactions undertaken in one class may impact negatively on the Net Asset Value of another class.

Please refer to the section entitled "**Special Investment Considerations and Risks; Currency Hedging at Units Class Level Risk**" for more details.

Any additional risk introduced to the Fund through the use of currency hedging for a given Unit class should be mitigated and monitored appropriately. Accordingly, in accordance with the Central Bank Requirements, the following operational provisions will apply to any currency hedging transactions:

- Counterparty exposure should be managed in accordance with the limits in the Regulations and the Central Bank Requirements.
- Over-hedged positions should not exceed 105% of the portion of the net assets of the relevant class which is to be hedged against currency risk.
- Under-hedged positions should not fall short of 95% of the portion of the net assets of the relevant class which is to be hedged against currency risk.
- Hedged positions will be kept under review on an ongoing basis, at least at the same valuation frequency of the Fund, to ensure that over hedged or under hedged positions do not exceed/fall short of the permitted levels disclosed above.
- Such review (referred to above) will incorporate a procedure to rebalance the hedging arrangements on a regular basis to ensure that any such position stays within the permitted position levels disclosed above and is not carried forward from month to month.
- The currency exposures of different currency classes may not be combined or offset and currency exposures of assets of the Fund may not be allocated to separate Unit classes.

Notwithstanding the above, there can be no guarantee that the hedging techniques will be successful and, while not intended, this activity could result in over-hedged or under-hedged positions due to external factors outside the control of the Fund. Further, these hedging techniques are designed to reduce a Holder's exposure to currency risk. The use of such class hedging techniques may therefore substantially limit holders of Units in the relevant classes from benefiting if the currency of that class falls against that of the Base Currency of the relevant Fund and/or the currency in which the assets of the relevant Fund are denominated. There are additional considerations for investors inherent in the use of Hedged Units and these are disclosed in the relevant section of the Prospectus headed "**Special Investment Considerations and Risks; Currency Risk**".

Details of any Hedged Units and the currency against which they are hedged are set out in the relevant Supplement.

2.9 Use of a Subscriptions/Redemptions Account

The Unit Trust operates a single, omnibus Subscriptions/Redemptions Account for all of the Funds, in accordance with the Central Bank's requirements. Accordingly, monies in the Subscriptions/Redemptions Account are deemed assets of the respective Funds and shall not have the protection of the Investor Money Regulations. It should be noted that the Trustee will monitor the Subscriptions/Redemptions Account in performing its cash monitoring obligations and ensuring effective and proper monitoring of the Unit Trust's cash flows in accordance with its obligations as prescribed under UCITS V. There nonetheless remains a risk for investors to the extent that monies are held by the Unit Trust in the Subscriptions/Redemptions Account for the account of a Fund at a point where such Fund (or other Fund of the Unit Trust) becomes insolvent. In respect of any claim by an investor in relation to monies held in the Subscriptions/Redemptions Account, the investor shall rank as an unsecured creditor of the Unit Trust.

The Manager in conjunction with the Trustee operates a policy to govern the operation of the Subscriptions/Redemptions Account, in accordance with the Central Bank's guidance in this area. This policy shall be reviewed by the Manager and the Trustee at least annually.

2.10 References to Benchmarks

Certain Funds may refer to indices within the Supplement of the relevant Funds. These indices may be referenced for various purposes including, but not limited to (i) operating as a reference benchmark which the Fund seeks to outperform; (ii) relative VaR measurement; and (iii) calculating performance fees. The particular purpose of the relevant index shall be clearly disclosed in the relevant Supplement. Where an index is used for the purposes of (i) above this will not constitute use of an index within the meaning of Article 3(1)(7)(e) of the Benchmark Regulation unless the

relevant Supplement (in particular as part of its investment policy or strategy) defines constraints on the asset allocation of the portfolio in relation to the index (e.g. an investment restriction that the Fund must invest only in components of the index or must be partially invested in line with index composition). Other references to indices, including for example for the purposes of relative VaR measurement as outlined at (ii) above, may not constitute use of an index within the meaning of Article 3(1)(7)(e) of the Benchmark Regulation. For classes designated in a currency other than the Base Currency of a Fund, the relevant index used, where applicable, shall be expressed in the currency of that class provided that an appropriate substitute, which the Investment Manager has deemed best represents the performance of the relevant class, shall be used if the index is not available in the local currency of the relevant class. Details of any such substitute index used by the Fund are available on request from the Investment Manager.

Holders should note that the Unit Trust and/or its distributors may from time to time refer to other indices in marketing literature or other communications purely for financial or risk comparison purposes. However, unless such indices are referred to as such in the Supplement of the Fund, they are not formal benchmarks against which the Fund is managed.

Where relevant, the Manager shall put in place written plans, in accordance with Article 28(2) of the Benchmark Regulation, detailing the actions it will take in the event that any index it uses for any Fund in accordance with Article 3(1)(7)(e) of the Benchmark Regulation materially changes or ceases to be provided. These written plans shall detail the steps the Manager will take to nominate a suitable alternative index.

Any index used by a Fund in accordance with Article 3(1)(7)(e) of the Benchmark Regulation shall be provided by an administrator included in the register referred to in Article 36 of the Benchmark Regulation.

2.11 Data Protection

Prospective investors should note that, by virtue of making an investment in the Unit Trust and the associated interactions with the Manager and its affiliates and delegates (including completing the Application Form, and including the recording of electronic communications or phone calls where applicable), or by virtue of providing the Manager on behalf of the Unit Trust with personal information on individuals connected with the investor (for example directors, trustees, employees, representatives, shareholders, investors, clients, beneficial owners or agents) such individuals will be providing the Manager on behalf of the Unit Trust and its affiliates and delegates with certain personal information which constitutes personal data within the meaning of the Data Protection Legislation. The Manager on behalf of the Unit Trust shall act as a data controller in respect of this personal data and its affiliates and delegates, such as the Administrator and the Investment Manager, may act as data processors (or data controllers in some circumstances).

The Manager has prepared a document outlining its data protection obligations on behalf of the Unit Trust and the data protection rights of individuals under the Data Protection Legislation (the "**Privacy Notice**").

All new investors shall receive a copy of the Privacy Notice (which is appended to the Application Form) as part of the process to subscribe for Units in the Unit Trust.

Given the specific purposes for which the Manager on behalf of the Unit Trust and its affiliates and delegates envisage using personal data, under the provisions of the Data Protection Legislation, it is not anticipated that individual consent will be required for such use. However, as outlined in the Privacy Notice, individuals have the right to object to the processing of their data where the Manager on behalf of the Unit Trust has considered this to be necessary for the purposes of its or a third party's legitimate interests.

2.12 Sustainable Finance Disclosures

The European Union has introduced a series of legal measures (the primary ones being SFDR and the Taxonomy Regulation) requiring firms that manage investment funds to provide transparency on how they integrate sustainability considerations into the investment process with respect to the investment funds they manage.

This section of the Prospectus has been prepared for the purpose of meeting the specific financial product level disclosure requirements contained in SFDR and the Taxonomy Regulation.

2.12.2 SFDR Disclosures

Part A - Fund Classification

For SFDR purposes each Fund is classified as either (i) a Mainstream Fund; (ii) an ESG Orientated Fund; or (iii) a Sustainable Objective Fund.

If a Fund is classified as either an ESG Orientated Fund or a Sustainable Objective Fund, a clear indication of this classification (along with additional SFDR-related disclosure) will be made in the Supplement for the relevant Fund.

As a default, and in the absence of such clear indication, each Fund will be classified as a Mainstream Fund and is therefore not subject to any additional disclosure requirements for financial products referred to in SFDR and does not take into account the EU criteria for environmentally sustainable economic activities as set out in SFDR.

The disclosures in Parts B and C below shall apply to a Fund (regardless of its classification) unless specifically disapplied for a Fund in the relevant Supplement. Where such disclosures are disapplied in the relevant Fund, please see the disclosures in the relevant Supplement for that Fund.

Part B - Sustainability Risks – Integration into investment decision making

All Funds to which this disclosure applies are managed in line with the Manager's Sustainability Risk policy which can be found at <https://www.principalam.com/about-us/esg>. The Sustainability Risk policy approaches Sustainability Risk from the perspective that environmental, social, and governance related risks ("**ESG events**") might cause a material negative impact on the value of a Fund's investments.

The Investment Manager or the Sub-Investment Manager of the Funds, as appropriate, will define the manner in which Sustainability Risks are integrated into their investment decisions. These processes aim to identify, measure, manage and monitor Sustainability Risks of the Funds, where relevant.

When making investment decisions, as part of their due diligence processes, the Investment Manager or the Sub-Investment Manager will continuously assess, including at the time of purchase, all relevant Sustainability Risks that might have a relevant material negative impact on the financial return of an investment.

The Manager has also implemented a shareholder engagement policy for the purposes of the revised Shareholders Rights Directive ("**SRD II**"). The Manager's engagement policy sets out how it integrates shareholder engagement in its investment strategies, including in relation to the Funds. The Manager's engagement policy can be found at <https://www.principalam.com/about-us/esg>.

Part C - Sustainability Risks – Assessment of likely impacts on Fund returns

The Manager has assessed the impact of Sustainability Risks on the returns of the Funds to which this disclosure applies, and sets out below a qualitative summary of those risks. The investments made by a Fund may expose it to Sustainability Risks. The extent that a Sustainability Risk occurs, or occurs in a manner that is not anticipated may result in a sudden, material negative impact on the value of an investment, and hence the returns of the Fund. Such negative impact may result in an entire loss of value of the relevant investment(s) and may have an equivalent negative impact on the returns of the Fund.

A non-exhaustive description of certain Sustainability Risks identified by the Manager as being potentially relevant to the investments made by each Fund to which this disclosure applies, is set out below.

- a) Environmental risks are associated with environmental events or conditions and their effect on the value of assets to which the relevant Fund may have exposure. Such risks may arise in respect of a company itself, its affiliates or in its supply chain and/or apply to a particular economic sector, geographical or political region. Environmental risks include, but are not limited to climate change, carbon emissions, air pollution, water pollution, harm to biodiversity, deforestation, energy inefficiency, poor waste management practices, increased water scarcity, rising sea levels and/or wildfires.
- b) Social risks may be internal or external to a business and are associated with employees, local communities and customers of companies in which a Fund may invest or otherwise have

exposure to. Social risks include, but are not limited to human rights violations, human trafficking, modern slavery, breaches of employee rights, child labour, discrimination, restrictions on or abuse of the rights of consumers, restricted access to clean water, to a reliable food supply, and/or to a sanitary living environment and/or infringements of rights of local communities.

- c) Governance risks are associated with the quality, effectiveness and process for the oversight of day-to-day management of companies in which a Fund may invest or otherwise have exposure to. Such risks may arise in respect of the company itself, its affiliates or in its supply chain. These risks include, but are not limited to; lack of diversity at board or governing body level, inadequate external or internal audit, infringement or curtailment of rights of (minority) shareholders, bribery and corruption, lack of scrutiny of executive pay, poor safeguards on personal data / IT security (of employees and/or customers), discriminatory employment practices, health and safety concerns for the workforce, poor sustainability practices in the supply chain, and/or appropriate and effective safeguards for employment related matters.

Part D - Mainstream Funds

The investments underlying the Mainstream Funds do not take into account the EU criteria for environmentally sustainable economic activities as set out on SFDR.

The classification of a Fund as a Mainstream Fund means that the Fund does not promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR or have Sustainable Investment as its objective in a way that meets the specific criteria contained in Article 9 of SFDR.

Part E - ESG Orientated Funds and Sustainable Objective Funds

For any Funds that are classified as ESG Orientated Funds or Sustainable Objective Funds additional disclosures required under SFDR for such Funds shall be provided in the relevant Supplement.

Part F - Risk Factors

Please refer to Section 3, entitled "Special Investment Considerations and Risks" and the section entitled "Sustainable Finance Disclosures Risks" in respect of the risks related to sustainable finance disclosures.

Part G – Exclusions Policy

The Manager has implemented an exclusions policy which sets out companies or issuers which may be excluded from a Fund, either in full or with exceptions (the "**Exclusions Policy**").

The exclusions are targeted toward companies or issuers participating in the following economic activity (the "**Exclusions**"):

- Production of controversial weapons, including cluster munitions, anti-personnel landmines, depleted uranium, incendiary weapons, weapons utilising non-detectable fragments, white phosphorous, blinding laser weapons, chemical weapons, biological weapons and nuclear weapons
- Production of assault-style weapons, including military-style assault weapons, semi-automatic firearms with detachable and/or high-capacity ammunition magazines
- Involvement in extreme breaches of international law & human rights, corruption & financial crime, and serious environmental damage, with no adequate remediation efforts

For more detailed information on the Exclusions and exceptions, refer to the Exclusions Policy: <https://www.principalam.com/eu/about-us/esg>.

The nature of categories chosen to be excluded in the Exclusions Policy may change over time as markets evolve, therefore the Exclusions may be amended from time to time at the Manager's discretion and such amendments may be implemented without notification to Holders. For avoidance of doubt, the Exclusions apply to all Funds notwithstanding the status of such Funds being Mainstream, ESG Orientated or Sustainable Objective Funds.

The Exclusions do not define all exclusions that may be adopted by a Fund. Each Fund may adopt additional exclusions that are specific and appropriate to that Fund's investment strategy, as agreed

between the Manager and the Investment Manager and/or the Sub-Investment Manager from time to time. Any Fund-specific exclusions will be disclosed in the relevant Fund's Supplement.

The creation, analysis and maintenance of the list of excluded companies or issuers ("**the Exclusions List**") is undertaken by the Manager, and may be reliant on both third-party and internal research. Considerations, taken into account in determining the Exclusions List, include the conclusions of third-party data providers, engagements with the companies, and the direct, in-direct or on-going nature of any involvement in a specific category or incident. Where existing research changes or new information becomes available on a company or issuer which may materially impact the Exclusions List, the Manager will review this updated information and update the Exclusions List, if deemed necessary.

2.12.2 Taxonomy Regulation Disclosures

The Taxonomy Regulation seeks to establish a framework to classify environmentally sustainable economic activities (otherwise known as Taxonomy-aligned activities), whilst also amending certain disclosure requirements of SFDR. It sets out harmonised criteria for determining whether an economic activity qualifies as environmentally sustainable and outlines a range of disclosure obligations to enhance transparency and to provide for an objective comparison of financial products regarding the proportion of their investments that contribute to environmentally sustainable economic activities.

The Taxonomy Regulation also builds on the SFDR requirements for Sustainable Objective Funds and ESG-Oriented Funds by placing additional disclosure obligations on such Funds that invest in economic activities that contribute to one or more of the environmental objectives as set out in the Taxonomy Regulation. The Taxonomy Regulation requires the Manager to disclose (i) how and to what extent it has used the Taxonomy Regulation to determine the sustainability of these Funds' underlying investments; and (ii) to what environmental objective(s) the underlying investments contribute.

For the purpose of the Taxonomy Regulation, the investments underlying all Mainstream Funds do not take into account the EU criteria for environmentally sustainable economic activities. Please refer to the Supplements for the ESG Orientated Funds and Sustainable Objective Funds for further information on the Taxonomy Regulation.

2.12.3 Principal Adverse Impacts

The Manager does not consider the principal adverse impacts of its investment decisions on sustainability factors at an entity level. In accordance with the discretion granted pursuant to Article 4(1)(b) of SFDR, the Manager does not currently consider the principal adverse impacts of investment decisions on sustainability factors or issue a statement on its website, in relation to the due diligence policies with respect to those impacts at the level of the Manager. The Manager is supportive of the policy aims of the principal adverse impacts regime, however, there are still a number of uncertainties regarding the obligation and data challenges to aggregate at the Manager's level. The Manager will keep its approach in this area under review and if it determines at a future date to provide such information, this Prospectus and the Manager's website shall be updated accordingly.

At a product level, where a Fund is categorised as an ESG Orientated Fund or a Sustainable Objective Fund, details of the consideration of principal adverse impacts of its investment decisions will be further specified in the Supplement.

Where a Fund is categorised as a Mainstream Fund, the principal adverse impacts of their investment decisions are not currently considered at Fund level as it may not be practicable or proportionate to do so depending on the investment strategy or due to the specific investment outcomes targeted by the strategy of or the specific Fund. This position will be kept under review by the Manager and may change over time.

3 SPECIAL INVESTMENT CONSIDERATIONS AND RISKS

3.1 General Risks

There are risks associated with investment in the Unit Trust and in the Units of each Fund.

The risks described in this Prospectus should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in a Fund. Potential investors should be aware that an investment in a Fund may be exposed to other risks from time to time.

Different risks may apply to different Funds and/or classes. Details of specific risks attaching to a particular Fund or class which are additional to those described in this section will be disclosed in the relevant Supplement.

The investments of each Fund are subject to normal market fluctuations and other risks inherent in investing in equity, debt or preferred securities. There can be no guarantee against loss, nor any assurance that a Fund's investment objective will be attained.

The value of investments and the income from them, and therefore the value of, and income from, the Units of each class can fall as well as rise and investors may not realise the same amount that they invest.

The following risk factors may apply in respect of any investment in the Unit Trust and in each of the Funds:

Valuation Risk: A Fund may invest some of its assets in unquoted securities. Such investment will be valued in accordance with the valuation techniques set out in Appendix B. The Manager may consult with the Investment Manager with respect to the valuation of unquoted investments. There is an inherent conflict of interest between the involvement of the Investment Manager in determining the valuation price of certain of a Fund's investments and the Investment Manager's other responsibilities. Estimates of the fair value of such investments are inherently difficult to establish and are subject to substantial uncertainty. Each Fund may, for the purpose of EPM, use FDI in which case there can be no assurance that the valuation as determined in accordance with the provisions set out in Appendix B reflects the exact amount at which the instrument may be closed out.

Volatility Risk: Prices of securities may be volatile. Price movements of securities are difficult to predict and are influenced by, among other things, speculation, changing supply and demand relationships, governmental trade, fiscal, monetary and exchange control programs and policies, national and international political and economic events, climate, changes in interest rates, and the inherent volatility of the market place. Volatility may also be due to the fluctuations in the exchange rate of currencies. Therefore, it is a probability measure of the threat that an exchange rate movement poses to an investor's portfolio in a foreign currency. During periods of uncertain market conditions the combination of price volatility and the less liquid nature of securities markets may, in certain cases, affect a Fund's ability to acquire or dispose of securities at the price and time it wishes to do so, and consequently may have an adverse impact on the investment performance of the Fund.

Currency Risk: Changes in exchange rates between currencies may cause the value of an investment to diminish or increase. In addition to favourable and unfavourable currency exchange rate developments, the Funds are subject to the possible imposition of exchange control regulations or currency blockages with respect to their investments. Additionally, investment decisions made on behalf of a Fund will not always prove to have been profitable.

Assets of a Fund may be denominated in a currency other than the Base Currency of the Fund and changes in the exchange rate between the Base Currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the Base Currency. The Investment Manager may, depending on the investment objective of the Fund, seek to mitigate this exchange rate risk by using FDI. No assurance, however, can be given that such mitigation will be successful.

Classes of Units in a Fund may be denominated in currencies other than the Base Currency of the Fund and a Fund may enter into currency exchange transactions and/or use FDI (at a Fund level or, in certain circumstances as described in this Prospectus, at a class level) to seek to protect against fluctuation as a result of changes in currency exchange rates. Although these transactions are intended to minimise the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might be realised should the value of the hedged currency increase. The precise matching of the relevant contract amounts and the value of the securities involved will not generally be possible because the future value of such securities will change as a consequence of market movements in the value of such securities between the date when the relevant contract is

entered into and the date when it matures. The successful execution of a hedging strategy cannot be assured. It may not be possible to hedge against generally anticipated exchange fluctuations at a price sufficient to protect the assets from the anticipated decline in value as a result of such fluctuations.

Currency Hedging at Unit Class Level Risk: Hedging activity at Unit class level may expose the Fund to cross contamination risk as it may not be possible to ensure (contractually or otherwise) that a counterparty's recourse in any such arrangements is limited to the assets of the relevant Unit class. Although the costs, gains and losses of the currency hedging transactions will accrue solely to the relevant Unit class, investors are nonetheless exposed to the risk that currency hedging transactions undertaken in one Unit class may impact negatively on another Unit class, particularly where (pursuant to EMIR) such currency hedging transactions require the Fund to post collateral (i.e. initial or variation margin). Any such collateral is posted by a Fund and at the Fund's risk (rather than by the Unit class and at the risk of the Unit class only because the Unit class does not represent a segregated portion of the Fund's assets) thus exposing investors in other Unit classes to a proportion of this risk.

Interest Rate Risk: The value of Units may be affected by substantial adverse movements in interest rates. When interest rates fall, the price of debt and preferred securities rises. During periods of falling interest rates, an issuer may also exercise its option to prepay principal earlier than scheduled, forcing a Fund to reinvest in lower yielding securities ('prepayment risk'). In relation to preferred securities, other circumstances, for example, a change in law may also cause an issuer to redeem securities earlier than scheduled.

When interest rates rise, the price of debt and preferred securities declines. In periods of rising interest rates, the average life of certain securities may be extended because of slower than expected principal payments. This may lock in a below market interest rate, increase the securities duration, and reduce the securities value ('extension risk').

To the extent that a Fund uses hedging and other transactions to reduce its exposure to increases in interest rates, it could result in poorer overall performance of the Fund, as it results in costs to the Fund, and is dependent on the Fund's ability to predict correctly changes in interest rate relationships.

Credit Risk: In addition, the value of debt and preferred securities held by a Fund may be affected by factors such as the credit rating of the entity that issued the security and its maturity. Lower quality and longer maturity securities will be subject to greater credit risk and price fluctuations than higher quality and shorter maturity securities.

Fixed income securities that are not investment grade are commonly referred to as high yield securities. These securities offer a potentially higher yield than other, higher rated securities, but they carry a greater degree of risk and are considered speculative by the major credit rating agencies.

In relation to preferred securities, credit risk may manifest itself not only as a decline in the security's price, or its failure, but also as a failure to make dividend payments when due. Preferred securities are subordinated borrowing to bonds and other debt instruments in a company's capital structure, in terms of priority to corporate income, and therefore will be subject to greater credit risk than those debt instruments.

There can be no assurance that issuers of the securities or other instruments in which a Fund invests will not be subject to credit difficulties leading to the loss of some or all of the sums invested in such securities or instruments or payments due on such securities or instruments (as well as any appreciation of sums invested in such securities). There is no certainty in the credit worthiness of issuers of debt securities. Unstable market conditions may mean there are increased instances of default amongst issuers.

Credit Ratings Risk: The ratings of fixed-income securities by Moody's and Standard & Poor's are a generally accepted barometer of credit risk. They are, however, subject to certain limitations from an investor's standpoint. The rating on an issuer or a security is heavily weighted by past performance and does not necessarily reflect probable future conditions. There is frequently a lag between the time the rating is assigned and the time it is updated. In addition, there may be varying degrees of difference in credit risk of securities within each rating category. In the event of a down-

grading of the credit rating of a security or an issuer relating to a security, the value of a Fund investing in such security may be adversely affected.

Convertible Bonds Risk: Convertible bonds, like any other fixed income security, are sensitive to changes in the rates of interest. Convertibles usually have call provisions and when market interest rates drop, there is an imminent risk that the issuing company will call the securities. The issuing company will then be able to refund convertibles with a cheaper debt. In addition to market risk, there are certain risks associated with an investment in a convertible bond such as default risk (risk that the company issuing a convertible security will be unable to repay principal and interest) and interest rate risk.

The Fund with convertible securities may not be able to control whether the issuer of a convertible security chooses to convert that security. If the issuer chooses to do so, this action could have an adverse effect on the Fund's ability to achieve its investment objective because the issuer may force conversion before the Fund would otherwise choose to do so. This may impact on the value of the Fund's investment and as a result, the Net Asset Value of the Fund may be adversely affected.

Equity Risks: A Fund may invest directly or indirectly in equity securities. The price of equity securities fluctuates based on changes in a company's financial condition and overall market and economic conditions. Prices of equities fluctuate daily dependent on market conditions. Markets can be influenced by a series of factors such as political and economic news, corporate earnings reports, demographic trends, catastrophic events and wider market expectations. The value of equities can fall as well as rise. Potentially a Fund investing in equities could incur significant losses.

Investing in equity securities may offer a higher rate of return than those investing in short term and longer term debt securities. However, the risks associated with investments in equity securities may also be higher, because the investment performance of equity securities depends upon factors which are difficult to predict. As a result, the market value of the equity securities that it invests in may go down and the relevant Fund may suffer losses. Factors affecting the equity securities are numerous, including but not limited to changes in investment sentiment, political environment, economic environment, and the business and social conditions in local and global market place. Securities exchanges typically have the right to suspend or limit trading in any security traded on the relevant exchange; a suspension will render it impossible to liquidate positions and can thereby expose the relevant Fund to losses.

Equity Related Securities Risk: A Fund may invest in instruments such as ADRs and GDRs, which in addition to the risks of investments in foreign securities described herein, may not necessarily be denominated in the same currency as the underlying securities into which they may be converted. Ownership of unsponsored ADRs and GDRs may not entitle the Fund to financial or other reports from the issuer, to which they would be entitled as the owner of sponsored ADRs and GDRs.

Market Capitalisation Risk: Certain Funds may invest in the securities of small-to-medium-sized (by market capitalisation) companies, or FDI related to such securities. Such securities may have a more limited market than the securities of larger companies. Accordingly, it may be more difficult to effect sales of such securities at an advantageous time or without a substantial drop in price than securities of a company with a large market capitalisation and broad trading market. In addition, securities of small-to-medium-sized companies may have greater price volatility as they are generally more vulnerable to adverse market factors such as unfavourable economic reports. Additional risk factors associated with companies whose market capitalisation is small or mid-cap may include but are not limited to the following: limited or unproven operating history; weak or leveraged balance sheets, limited borrowing capacity; low or negative profit margins; high concentration of sales from limited number of customers; competition from more established companies; and key-man management risk.

Unlisted Securities Risk: A Fund may invest up to 10% of its Net Asset Value in unlisted securities. In general there is less governmental regulation and supervision of transactions in the unlisted securities markets than for transactions entered into on organised exchanges. In addition, many of the protections afforded to participants on some organised exchanges, such as the performance guarantee of an exchange clearing house, may not be available in connection with unlisted securities. Therefore, any Fund investing in unlisted securities will be subject to the risk that its direct counterparty will not perform its obligations under the transactions and that the Fund will sustain losses.

Restricted Securities Risk: The Fund may invest in securities purchased in private placements and/or pursuant to Rule 144A of the United States Securities Act of 1933 (as amended) (the **1933 Act**) (if available), including Rule 144A Securities which have not been issued with an undertaking to register them with the U.S. Securities and Exchanges Commission, provided that they are eligible investments for the Fund (i.e. they are not subject to the investment restriction outlined at paragraph 2.2 of Appendix A of this Prospectus). Where relevant, investment in Rule 144A securities will be subject to the investment restrictions set out in Appendix A of the Prospectus. Rule 144A securities are securities that are not registered under the 1933 Act but can be sold to institutional investors in accordance with Rule 144A under the 1933 Act. These restricted securities may be subject to limitations on resale or transfer as a matter of law or contract. They are normally resold only to institutional investors. There can be no assurance that the Fund will be able to dispose of such restricted securities readily.

Real Estate Risk: There are specific risks associated with investing in the securities of companies in the real estate industry such as declines in the value of real estate, economic conditions and variation in property taxes, operating expenses and rental income.

REITS Investment Risk: The Fund may invest in securities issued by companies whose activities are real estate related. Risks associated with investing in the securities of companies in the real estate industry include the following; declines in the value of real estate, risks related to general and local economic conditions, overbidding and increased competition, increases in property taxes and operating expenses, changes in zoning laws, casualty or condemnation losses, variations in rental income, changes in neighbourhood values, the appeal of properties to tenants and increases in interest rates.

In addition, equity REITS may be affected by changes in the value of the underlying property owned by the trusts, while mortgage REITS may be affected by the quality of credit extended. Equity and mortgage REITS are dependent upon management skills, may not be diversified and are subject to the risks of financing projects.

Such trusts are also subject to heavy cash flow dependency, defaults by borrowers, self-liquidation and the possibility of failing to qualify for tax-free pass-through of income under the U.S. Internal Revenue Code of 1986, as amended, and to maintain exemption from the U.S. Investment Trust Act of 1940, as amended.

The ability to trade REITS in the secondary market can be more limited than other stocks. The liquidity of REITS on the major US stock exchanges is on average less than the typical stock quoted on the S&P 500 Index.

Investment in Collective Investment Schemes (CIS) Risk: A Fund may invest in one or more CIS including schemes managed by the Investment Manager or its affiliates. There may be additional costs involved when investing into these underlying CIS. As a shareholder of another CIS, a Fund would bear, along with other shareholders, its pro rata portion of the expenses of the other CIS, including investment management and/or other fees. These fees would be in addition to the Investment Manager's fees and other expenses which a Fund bears directly in connection with its own operations. On the other hand, where a commission (including a rebated commission) or any quantifiable monetary benefits is received by the Manager or Investment Manager in connection with an investment in the units of another CIS, this commission must be paid into the property of the relevant Fund.

CIS may have different settlement cycles than that of the Funds. Thus, there may be mismatch between the two settlement cycles causing the Funds to use borrowing on a temporary basis to meet such obligations. This may result in charges being incurred by the relevant Fund. Any such borrowing will comply with the Regulations. Further, each CIS may not be valued at the same time or on the same day as the relevant Fund and accordingly the net asset value of such CIS used in the calculation of the Net Asset Value of the relevant Fund will be the latest available net asset value of such CIS (further details on the calculation of the Net Asset Value are set out in Appendix B).

CIS may be leveraged. This includes the use of borrowed funds and investments in FDI. Also, they may engage in short sales. While such strategies and techniques increase the opportunity to achieve higher returns on the amounts invested, they also increase the risk of loss. The level of interest rates generally, and the rates at which such funds may be borrowed in particular, could affect the operating results of the relevant Fund.

To the extent that the relevant Fund is invested in CIS, the success of the relevant Fund shall depend upon the ability of the CIS to develop and implement investment strategies that achieve the relevant Funds' investment objective. Subjective decisions made by the CIS may cause the relevant Fund to incur losses or to miss profit opportunities on which it could otherwise have capitalised. In addition, the overall performance of the relevant Fund will be dependent not only on the investment performance of the CIS, but also on the ability of the Investment Manager to select and allocate the Funds' assets among such CIS effectively on an ongoing basis. There can be no assurance that the allocations made by the Investment Manager will prove as successful as other allocations that might otherwise have been made, or as adopting a static approach in which CIS are not changed.

Liquidity Risk: Not all securities or instruments invested in by the Funds will be listed or rated and consequently liquidity may be low. Moreover, the accumulation and disposal of holdings in some investments may be time consuming and may need to be conducted at unfavourable prices. The Funds may also encounter difficulties in disposing of assets at their fair price due to adverse market conditions leading to limited liquidity. Some of the markets in which a Fund invests may be less liquid and more volatile than the world's leading stock markets and this may result in the fluctuation in the price of the securities. As a result, the Fund may suffer losses and the Net Asset Value of the Fund may be adversely affected. Due to market conditions the Funds may from time to time trade in transferable securities dealt on a permitted market that may become illiquid after they have been acquired or it may be difficult for a Fund to liquidate at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as a temporary disruption of a particular market. Certain securities may therefore be difficult or impossible to sell at the time that the seller would like or at the price that the seller believes the security is currently worth.

Concentration Risk: The investments of certain Funds may be concentrated in a single market or country. A Fund which pursues a concentrated investment strategy may be subject to a greater degree of volatility and risk than a Fund following a more diversified strategy. To the extent that a Fund concentrates its investments in a particular market or country, its investments may become more susceptible to fluctuations in value resulting from adverse economic or business conditions in that market or country. As a consequence, the aggregate return of the Fund may be adversely affected by the unfavourable developments in that particular market or country in which the Fund invests.

Financial Markets and Regulatory Change Risk: The laws and regulations affecting businesses continue to evolve in an unpredictable manner. Laws and regulations, particularly those involving taxation, investment and trade, applicable to the Unit Trust's activities can change quickly and unpredictably, and may at any time be amended, modified, repealed or replaced in a manner adverse to the interests of the Unit Trust. The Unit Trust and the Manager may be or may become subject to unduly burdensome and restrictive regulation. In particular, in response to significant recent events in international financial markets, governmental intervention and certain regulatory measures which have been or may be adopted in certain jurisdictions.

Changes in the UK Political Environment Risk: The UK withdrew from the EU on 31 January 2020. The negotiation of the UK's continuing relationship with the EU is likely to take a number of years. On 24 December 2020, the UK and the EU announced their agreement on a Trade and Cooperation Agreement (the "TCA") which provisionally applied from 1 January 2021 and entered into force on 1 May 2021. The conclusion of the TCA provides a structure for EU-UK cooperation in the future. It does not necessarily create a permanent set of rules, but is a basis for an evolving relationship, with scope for increasing divergence or closer cooperation which may vary between different areas. The UK and the EU are likely to continue to negotiate trading or other agreements for a number of years. Therefore, the UK's future economic and political relationship with the EU (and with other non-EU countries by agreement) continues to remain uncertain. This uncertainty means it is not possible to determine the full impact that the UK's departure from the EU and/or any related matters may have on the Trust and/or on a Fund or its investments. The uncertainty surrounding the UK's relationship with the EU and its withdrawal as a member state of the EU may adversely impact the Trust and/or a Fund and its investments (in particular those that relate to companies or assets based in, doing business in, or having services or other significant relationships in or with, the UK).

Accounting, Auditing and Financial Reporting Standards Risk: The accounting, auditing and financial reporting standards of many of the countries in which a Fund may invest may be less extensive than those applicable in the European Union.

Eurozone Risk: In light of ongoing concerns on the sovereign debt risk of certain countries within the Eurozone, a Fund's investments in the region may be subject to higher volatility, liquidity, currency and default risks. Any adverse events, such as credit downgrade of a sovereign or exit of a EU Member State from the Eurozone, may have a negative impact on the value of a Fund.

Epidemics and Pandemics Risk: Health crises caused by the outbreak of an infectious disease may exacerbate political, social and economic risks in certain countries. Outbreaks of infectious diseases may lead to changes in regional or global economic conditions and have a negative impact on the performance of the Funds. Such outbreaks may impact the markets in which a Fund invests or a Fund's investments more generally. This may also impact the timely calculation of a Fund's Net Asset Value, processing dealing in a Fund's Units or dealing in a Fund's underlying investments. The impact of infectious diseases in emerging developing or emerging markets may be greater due to less established health care systems.

Emergency Legislation Risk: Countries around the world may introduce emergency legislation to deal with the outbreak of epidemics and/or global pandemics to give governments wide-ranging powers to act in the best interest of their citizens in order to enforce public health measures. Many of these include the ability to order a "lock down" specific areas, cities or entire regions in order to enforce social distance measures or to isolation citizens in order to halt the spread of virus and disease. Such measures may have a severe impact on the ability of the Manager and its delegates, service providers, advisers and other third parties to whom tasks and actions have been outsourced to carry out their business.

Securities Lending Risk: There are risks associated with a Fund engaging in securities lending. As with any extensions of credit, there are risks of delay and recovery. Should the borrower of securities fail financially or default in any of its obligations under any securities lending transaction, the collateral provided in connection with such transaction will be called upon. A securities lending transaction will involve the receipt of collateral. However, there is a risk that the value of the collateral may fall and the Fund suffer loss as a result.

Repurchase/Reverse Repurchase Agreements: A Fund may enter into repurchase arrangements. Accordingly, the Fund will bear a risk of loss in the event that the other party to the transaction defaults on its obligation and the Fund is delayed or prevented from exercising its rights to dispose of the underlying securities. The Fund will, in particular, be subject to the risk of a possible decline in the value of the underlying securities during the period in which the Fund seeks to assert its right to them, the risk of incurring expenses associated with asserting those rights and the risk of losing all or a part of the income from the agreement.

Reinvestment of Cash Collateral Risk: As a Fund may reinvest cash collateral received, subject to the conditions and within the limits laid down by the Central Bank, a Fund reinvesting cash collateral will be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

Capital Erosion Risk: Certain Funds and Unit classes may have as the priority objective the generation of income rather than capital. Investors should note that the focus on income and the charging of Investment Management Fees and any other fees to capital may erode capital and diminish the Fund's ability to sustain future capital growth. In this regard, distributions made during the life of the Fund or an applicable Unit class should be understood as a type of capital reimbursement.

Distribution Risk - Income Plus Units: Income Plus Units (as further described in the section entitled "Distribution Policy") are available in some Funds. Investors who subscribe into Income Plus Units should note that there is a risk that the net income received in a distribution period by the relevant Fund is greater or lesser than the Target Income for the Income Plus Units. As a result, the Manager may, in its absolute discretion, reduce or forego the distribution payable on the Distribution Date and/or pay such distribution out of the capital of the Income Plus Units. It should be noted that if distribution is made out of capital, this could result in the erosion of capital of those Income Plus Units. Distributions out of capital may have different tax consequences to distributions of income and it is recommended that investor seek appropriate advice in this regard.

Charges and Income from Capital Risk: For certain Unit classes, as outlined in the supplement to each Fund, fees and expenses may be charged to the capital of the relevant Unit class rather than its income. Where such fees and expenses are charged to capital, this will result in an increase in distributions available to Holders but also may have the effect of lowering the capital value of their investment.

Investors who subscribe into Income Plus Units should note that the Manager may, in its absolute discretion, declare a portion of the class capital as dividend. It should be noted that this could result in the erosion of capital of those Income Plus Units. Distributions out of capital may have different tax consequences to distributions of income and it is recommended that Holders seek appropriate advice in this regard. In relation to investment in Income Plus Units, special consideration should also be given to the specific risk factors for this Unit class under the heading **Income Plus Units** of the Prospectus.

Redemption Risk: Large redemptions of Units in a Fund might result in a Fund being forced to sell assets at a time and price at which it would normally prefer not to dispose of those assets which may be materially adverse to the Fund.

Paying Agent Risk: Holders who choose or are obliged under local regulations to pay or receive subscription or redemption monies or dividends via an intermediate entity rather than directly to/from the relevant Fund (e.g. a Paying Agent in a local jurisdiction) bear a credit risk against that intermediate entity with respect to (a) subscription monies prior to the transmission of such monies to the relevant Fund and (b) redemption monies payable by such intermediate entity to the relevant Holder.

Subscription, Redemption and Conversion Currency Risks: Units in any Fund may be subscribed for or redeemed in any freely convertible currency not being the Base Currency of the Fund. Similarly, Holders may convert Units in one Fund to Units in another Fund and the Units in the two Funds may be denominated in different currencies. The costs of foreign currency exchange transactions and any related gains or losses in connection with any subscription, redemption or conversion will be borne by the Holder.

Unit Class Level Risk: While it is not intended to engage in any material investment management or trading activity at Unit class level within a Fund, other than for hedging purposes, it should be noted that any such activity may expose the Fund to cross contamination risk as it may not be possible to ensure (contractually or otherwise) that a counterparty's recourse in any such arrangements is limited to the assets of the relevant class.

No Secondary Market Risk: It is not anticipated that there will be an active secondary market for the Units, and it is not expected that such a market will develop. Subject to certain conditions outlined herein, including when redemptions or the registration of transfers of Units are suspended, Holders will, however, be able to realise their investment in a Fund by redeeming their Units or by a transfer to an investor who an eligible transferee.

Operational Risks (including Cyber Security and Identity Theft Risks): An investment in a Fund, like any fund, can involve operational risks arising from factors such as processing errors, human errors, inadequate or failed internal or external processes, failure in systems and technology, changes in personnel, infiltration by unauthorised persons and errors caused by service providers such as the Manager, the Investment Manager or the Administrator. While the Funds seek to minimise such events through controls and oversight, there may still be failures that could cause losses to a Fund.

As part of its management services, the Manager processes, stores and transmits large amounts of electronic information, including information relating to the transactions of the Funds and personally identifiable information of the Holders. Similarly, service providers of the Manager, especially the Administrator, may process, store and transmit such information. The Manager, the Investment Manager, the Administrator and the Trustee (and their respective groups) each maintain information technology systems which each service provider believes are reasonably designed to protect such information and prevent data loss and security breaches. However, like any other system, these systems cannot provide absolute security.

The techniques used to obtain unauthorised access to data, disable or degrade service, or sabotage systems change frequently and may be difficult to detect for long periods of time. Hardware or

software acquired from third parties may contain defects in design or manufacture or other problems that could unexpectedly compromise information security. Network connected services provided by third parties to the Manager may be susceptible to compromise, leading to a breach of the Manager's network. The Manager's systems or facilities may be susceptible to employee error or malfeasance, government surveillance, or other security threats. On-line services provided by the Manager to the Holders may also be susceptible to compromise.

The service providers of the Manager are subject to the same electronic information security threats as the Manager. If the Investment Manager or other service provider fails to adopt or adhere to adequate data security policies, or in the event of a breach of its networks, information relating to the transactions of the Unit Trust and personally identifiable information of the Holders may be lost or improperly accessed, used or disclosed.

Notwithstanding the existence of policies and procedures designed to detect and prevent such breaches and ensure the security, integrity and confidentiality of such information as well as the existence of business continuity and disaster recovery measures designed to mitigate any such breach or disruption at the level of the Manager and its delegates, the loss or improper access, use or disclosure of proprietary information may cause the Manager or a Fund to suffer, among other things, financial loss, the disruption of its business, liability to third parties, regulatory intervention or reputational damage. Any of the foregoing events could have a material adverse effect on the relevant Fund and the Holders' investments therein.

It should be noted that investors in the Unit Trust will be afforded all appropriate safeguards and rights in accordance with the Data Protection Legislation.

Settlement Risk: Each Fund will be exposed to credit risk on parties with which it trades and will bear the risk of settlement default. Market practices in relation to the settlement of securities transactions and the custody of assets could provide increased risks. A Fund will be exposed to a credit risk on parties with whom it trades and may also bear the risk of settlement default. The Trustee may be instructed by the Investment Manager to settle transactions on a delivery free of payment basis where the Investment Manager believes that this form of settlement is appropriate. Holders should be aware, however, that this may result in a loss to a Fund if a transaction fails to settle and the Trustee will not be liable to the Fund or the Holders for such a loss, provided the Trustee has acted in good faith in making any such delivery or payment.

Tax Risk: The income and/or gains of the Unit Trust or Fund from its securities and assets may suffer withholding tax in the countries where such income and/or gains arise. The Unit Trust or Fund may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in repayment to the Fund, the Net Asset Value or the relevant Fund will not be restated and the benefit will be allocated to the existing Holders at the time of repayment. Where a Fund invests in assets that are not subject to withholding tax at the time of acquisition, there can be no assurance that tax may not be withheld in the future as a result of any change in applicable laws, treaties, rules or regulations or the interpretation thereof. The Fund may not be able to recover such withheld tax and so any change may have an adverse effect on the Net Asset Value of the Units.

Potential investors' attention is drawn to the taxation risks associated with investing in the Fund. See "**Taxation**" below.

FATCA Risk: The United States and Ireland have entered into an intergovernmental agreement to implement FATCA (the "**IGA**"). Under the IGA, an entity classified as a reporting Foreign Financial Institution (an "**FFI**") that is treated as resident in Ireland is required to provide the Revenue Commissioners with certain information in respect of its "account" holders (i.e. Holders). The IGA provides for the automatic reporting and exchange of information between the Revenue Commissioners and the IRS in relation to accounts held in Irish reporting FFIs by U.S. persons, and the reciprocal exchange of information regarding U.S. financial accounts held by Irish residents. The Unit Trust expects to be treated as an FFI and provided it complies with the requirements of the IGA and the Irish legislation, it should not be subject to FATCA withholding on any payments it receives and may not be required to withhold on payments which it makes. Although the Unit Trust will attempt to satisfy any obligations imposed on it to avoid the imposition of the FATCA withholding tax, no assurance can be given that the Unit Trust will be able to satisfy these obligations. In order to satisfy

its FATCA obligations, the Unit Trust will require certain information from investors in respect of their FATCA status. If the Unit Trust becomes subject to a withholding tax as a result of the FATCA regime, the value of the Units held by all Holders may be materially affected. All prospective investors / Holders should consult with their own tax advisors regarding the possible implications of FATCA on an investment in the Unit Trust.

CRS Risk: Ireland has provided for the implementation of CRS through section 891F of the TCA and the enactment of the Returns of Certain Information by Reporting Financial Institutions Regulations 2015 (the "**CRS Regulations**"). The CRS, which has applied in Ireland since 1 January 2016, is a global OECD tax information exchange initiative which is aimed at encouraging a coordinated approach to disclosure of income earned by individuals and organisations. The Unit Trust is a Reporting Financial Institution for CRS purposes and will be required to comply with the Irish CRS obligations. In order to satisfy its CRS obligations, the Unit Trust will require its investors to provide certain information in respect of their tax residence and may, in some cases, require information in relation to the tax residence of the beneficial owners of the investor. The Unit Trust, or a person appointed by the Unit Trust, will report the information required to the Revenue Commissioners by 30 June in the year following the year of assessment for which a return is due. The Revenue Commissioners will share the appropriate information with the relevant tax authorities in participating jurisdictions. All prospective investors / Holders should consult with their own tax advisors regarding the possible CRS implications of an investment in the Unit Trust.

Subscriptions/Redemptions Account Risk: The Unit Trust operates a Subscriptions/Redemptions Account for all of the Funds. Monies in the Subscriptions/Redemptions Account are deemed assets of the respective Funds and shall not have the protection of the Investor Money Regulations. Investors are advised to promptly comply with any subscription requirements, such as the provision of the relevant anti-money laundering documentation, as monies due to an investor as a result of redemption or dividend activity cannot otherwise be transferred to the investor. There is a risk for investors to the extent that monies are held by the Unit Trust in the Subscriptions/Redemptions Account for the account of a Fund at a point where such Fund (or another Fund of the Unit Trust) becomes insolvent. In respect of any claim by an investor in relation to monies held in the Subscriptions/Redemptions Account, the investor shall rank as an unsecured creditor of the Unit Trust.

Depository Risk: If a Fund invests in assets that are financial instruments that can be held in custody ("**Custody Assets**"), the Trustee is required to perform full safekeeping functions and will be liable for any loss of such assets held in custody unless it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. In the event of such a loss (and the absence of proof of the loss being caused by such an external event), the Trustee is required to return identical assets to those lost or a corresponding amount to the Fund without undue delay.

If a Fund invests in assets that are not financial instruments that can be held in custody ("**Non-Custody Assets**"), the Trustee is only required to verify the Fund's ownership of such assets and to maintain a record of those assets which the Trustee is satisfied that the Fund holds ownership of. In the event of any loss of such assets, the Trustee will only be liable to the extent the loss has occurred due to its negligent or intentional failure to properly fulfil its obligations pursuant to the Trust Deed.

As it is likely that the Funds may each invest in both Custody Assets and Non-Custody Assets, it should be noted that the safekeeping functions of the Trustee in relation to the respective categories of assets and the corresponding standard of liability of the Trustee applicable to such functions differs significantly.

The Funds enjoy a strong level of protection in terms of Trustee's liability for the safekeeping of Custody Assets. However, the level of protection for Non-Custody Assets is significantly lower. Accordingly, the greater the proportion of a Fund invested in categories of Non-Custody Assets, the greater the risk that any loss of such assets that may occur may not be recoverable. While it will be determined on a case-by-case whether a specific investment by the Fund is a Custody Asset or a Non-Custody Asset, generally it should be noted that FDI traded by a Fund over-the-counter will be Non-Custody Assets. There may also be other asset types that a Fund invests in from time to time that would be treated similarly. Given the framework of depository liability under UCITS V, these

Non-Custody Assets, from a safekeeping perspective, expose the Fund to a greater degree of risk than Custody Assets, such as publicly traded equities and bonds.

3.2 FDI and Securities Financing Transactions Risks:

General Risks: The use of FDI and Securities Financing Transactions may result in greater returns but may entail greater risk for your investment. FDI may be used as a means of gaining indirect exposure to a specific asset, rate or index and/or as part of a strategy designed to reduce exposure to other risks, such as interest rate or currency risk. Use of FDI involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other investments. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of the FDI may not correlate perfectly with the underlying asset, rate or index.

Investing in a FDI could cause the Fund to lose more than the principal amount invested. Also, suitable FDI transactions may not be available in all circumstances and there can be no assurance that the Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial.

The prices of FDI are highly volatile. Price movements of FDI contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and policies of governments, national and international political and economic events, changes in local laws and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly markets in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations. The use of FDI also involves certain special risks, including (1) dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates; (2) imperfect correlation between the hedging instruments and the securities or market sectors being hedged; (3) the fact that skills needed to use these instruments are different from those needed to select the Fund's securities; and (4) the possible absence of a liquid market for any particular instrument at any particular time.

Securities Financing Transactions create several risks for the Unit Trust and its investors, including counterparty risk if the counterparty to a Securities Financing Transaction defaults on its obligation to return assets equivalent to the ones provided to it by the relevant Fund and liquidity risk if the Fund is unable to liquidate collateral provided to it to cover a counterparty default.

Absence of Regulation; Counterparty Risk: In general, there is less government regulation and supervision of transactions in the OTC markets (in which currencies, spot and option contracts, certain options on currencies and swaps are generally traded) than of transactions entered into on recognised exchanges. OTC FDI lack transparency as they are privately negotiated contracts and any information concerning them is usually only available to the contracting parties. While measures are being introduced under Regulation (EU) No 648/2012 of the European Parliament and of the Council on OTC derivatives, central counterparties and trade repositories ("**EMIR**") that aim to mitigate risks involved in investing in OTC FDI and improve transparency, these types of investments continue to present challenges in clearly understanding the nature and level of risks involved. In addition, many of the protections afforded to participants on some recognised exchanges, such as the performance guarantee of an exchange clearing house, might not be available in connection with OTC transactions.

The counterparty for an OTC FDI will be the specific firm involved in the transaction rather than a recognised exchange and accordingly the bankruptcy or default of a counterparty with which the Fund trades OTC FDI could result in substantial losses to the Fund. In addition, a counterparty may refrain from settling a transaction in accordance with its terms and conditions because the contract is not legally enforceable or because it does not accurately reflect the intention of the parties or because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. Regardless of the measures the Fund may implement to reduce counterparty credit risk, however, there can be no assurance that a counterparty will not

default or that the Fund will not sustain losses on the transactions as a result. Counterparty exposure will be in accordance with the Fund's investment restrictions.

Credit Risk and Counterparty Risk: The Funds will be exposed to a credit risk in relation to the counterparties with whom they transact or place margin or collateral in respect of transactions in FDI or Securities Financing Transactions. To the extent that a counterparty defaults on its obligation and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its position, lose income and incur costs associated with asserting its rights. Regardless of the measures the Fund may implement to reduce counterparty credit risk, however, there can be no assurance that a counterparty will not default or that the Fund will not sustain losses on the transactions as a result.

Necessity for Counterparty Trading Relationships Risk: Participants in the OTC currency market typically enter into transactions only with those counterparties which they believe to be sufficiently creditworthy, unless the counterparty provides margin, collateral, letters of credit or other credit enhancements. While the Investment Manager believes that it will be able to establish the necessary counterparty business relationships to permit a Fund to effect transactions in the OTC markets, there can be no assurance that it will be able to do so. An inability to establish such relationships would limit a Fund's activities and could require a Fund to conduct a more substantial portion of such activities in the cash or exchange traded markets. Moreover, the counterparties with which a Fund expects to establish such relationships will not be obligated to maintain the credit lines extended to a Fund, and such counterparties could decide to reduce or terminate such credit lines at their discretion.

Forward Trading Risk: Forward contracts and options thereon, unlike futures contracts, are not traded on exchanges and are not standardised. Rather, banks and dealers act as principals in these markets, negotiating each transaction on an individual basis. Forward and "cash" trading is substantially unregulated. There is no limitation on daily price movements and speculative position limits are not applicable. The principals who deal in the forward markets are not required to continue to make markets in the currencies or commodities they trade and these markets can experience periods of illiquidity, sometimes of significant duration. Market illiquidity or disruption could result in major losses to a Fund. Forward contracts also carry roll risk, which is the risk that when a forward contract expires, a new forward to replace the expired one cannot be put into place at the same cost or on the same hedge basis. This may occur due to changes in market liquidity or interest rates, resulting in a potential slippage or loss in the hedge position due to the contract expiration and roll.

Foreign Exchange Transactions Risk: Where a Fund utilises FDI which alter the currency exposure characteristics of securities held by the Fund the performance of the Fund may be strongly influenced by movements in foreign exchange rates because currency positions held by the Fund may not correspond with the securities positions held.

Futures and Options Trading is Speculative and Volatile Risk: Substantial risks are involved in trading futures, forward and option contracts and various other instruments in which a Fund may trade. Certain of the instruments in which a Fund may invest are sensitive to interest rates and foreign exchange rates, which means that their value and, consequently, the Net Asset Value, will fluctuate as interest and/or foreign exchange rates fluctuate. The Fund's performance, therefore, will depend in part on its ability to anticipate and respond to such fluctuations in market interest rates and foreign exchange rates, and to utilise appropriate strategies to maximise returns to the Fund, while attempting to minimise the associated risks to its investment capital. Variance in the degree of volatility of the market from the Fund's expectations may produce significant losses to the Fund.

The low initial margin deposits normally required to establish a futures position permit a high degree of leverage. As a result, a relatively small movement in the price of a futures contract may result in a profit or a loss which is high in proportion to the amount of funds actually placed as initial margin and may result in unquantifiable further loss exceeding any margin deposited. Further, when used for hedging purposes there may be an imperfect correlation between these instruments and the investments or market sectors being hedged. Transactions in over-the-counter FDI may involve additional risk as there is no exchange or market on which to close out an open position. It may be impossible to liquidate an existing position, to assess or value a position or to assess the exposure to risk. Warrants give a Fund the right to subscribe to or purchase securities in which a Fund may invest. The underlying security may be subject to market volatility thus rendering an investment in a

warrant a higher risk than an investment in an equity security. A Fund may purchase or sell futures contracts with a greater or lesser value than the securities it wishes to hedge or intends to purchase in order to attempt to compensate for differences in volatility between the contract and the securities, although this may not be successful in all cases. If price changes in a Fund's futures positions are poorly correlated with its other investments, the positions may fail to produce anticipated gains or result in losses that are not offset by gains in other investments.

Risks Associated with Swaps: A Fund may enter into swap agreements with respect to currencies, interest rates, credit defaults and financial indices. A Fund may use these techniques for investment purposes or for efficient portfolio management purposes to hedge against changes in interest rates, currency rates, securities prices, or as part of their overall investment strategies. Whether a Fund's use of swap agreements will be successful will depend on an Investment Manager's or a Sub-Investment Manager's ability to correctly predict whether certain types of investments are likely to produce greater returns than other investments.

Payments under a swap contract may be made at the conclusion of the contract or periodically during its term. If there is a default by the counterparty to a swap contract a Fund will be limited to contractual remedies pursuant to the agreements related to the transaction. There is no assurance that swap contract counterparties will be able to meet their obligations pursuant to swap contracts or that, in the event of default, the Fund will succeed in pursuing contractual remedies. As such, the Fund assumes the risk that it may be delayed in or prevented from obtaining payments owed to it pursuant to swap contracts.

Index Risk: If a FDI is linked to the performance of an index, it will be subject to the risks associated with changes to that index. If the index changes, a Fund could receive lower interest payments or experience a reduction in the value of the FDI below what the Fund paid. Certain indexed securities – including inverse securities (which move in the opposite direction to the index) – may create leverage, to the extent that the increase or decrease in value is at a rate that is a multiple of the changes in the applicable index.

Correlation Risk: The prices of FDI may be imperfectly correlated to the prices of the underlying securities, for example, because of transaction costs and interest rate movements.

Collateral Risk: Collateral or margin may be passed by the Fund to a counterparty or broker in respect of OTC FDI transactions or Securities Financing Transactions. Assets deposited as collateral or margin with brokers may not be held in segregated accounts by the brokers and may therefore become available to the creditors of such brokers in the event of their insolvency or bankruptcy. Where collateral is posted to a counterparty or broker by way of title transfer, the collateral may be re-used by such counterparty or broker for their own purpose, thus, exposing the Fund to additional risk.

Margin Risk: A Fund may be obliged to pay margin deposits and option premia to brokers in relation to futures and option contracts entered into for the relevant Fund. While exchange traded contracts are generally guaranteed by the relevant exchange, the relevant Fund may still be exposed to the fraud or insolvency of the broker through which the transaction is undertaken. The relevant Fund will seek to minimise this risk by trading only through high quality names.

Liquidity Risk: Liquidity risk exists when a particular FDI is difficult to purchase or sell. If a FDI transaction is particularly large or if the relevant market is illiquid (as is the case with many privately negotiated FDI), it may not be possible to initiate a transaction or liquidate a position at an advantageous time or price.

Liquidity of Futures Contracts Risk: Futures positions may be illiquid because certain exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as "daily price fluctuation limits" or "daily limits". Under such daily limits, during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a Fund from liquidating unfavourable positions.

Legal Risk: The use of OTC FDI, such as forward contracts, credit derivatives, swap agreements, contracts for difference and Securities Financing Transactions, will expose the Funds to the risk that

the legal documentation of the relevant contract may not accurately reflect the intention of the parties.

3.3 Emerging Markets Risks:

Where a Fund invests in securities in emerging markets, additional risks may be encountered. These include:

Accounting Standards Risk: In emerging markets, there is an absence of uniform accounting, auditing and financial reporting standards and practices.

Business Risks: In some emerging markets, crime and corruption, including extortion and fraud, pose a risk to businesses. Property and employees of underlying investments may become targets of theft, violence and/or extortion.

Country Risk: The value of the Fund's assets may be affected by political, legal, economic and fiscal uncertainties. Existing laws and regulations may not be consistently applied.

Currency Risk: The currencies in which investments are denominated may be unstable, may be subject to significant depreciation and may not be freely convertible.

Custody Risk: Custodians may not be able to offer the level of service and safe-keeping, settlement and administration of securities that is customary in more developed markets and there is a risk that the Fund will not be recognised as the owner of securities held on its behalf by a sub-custodian.

Disclosure Risk: Less complete and reliable fiscal and other information may be available to investors.

Legal Risk: The legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Risks associated with many emerging market legal systems include (i) the untested nature of the independence of the judiciary and its immunity from economic, political or nationalistic influences; (ii) inconsistencies among laws, presidential decrees and governmental and ministerial orders and resolutions; (iii) the lack of judicial and administrative guidance on interpreting applicable laws; (iv) a high degree of discretion on the part of government authorities; (v) conflicting local, regional and federal laws and regulations; (vi) the relative inexperience of judges and courts in interpreting new legal norms; and (vii) the unpredictability of enforcement of foreign judgements and foreign arbitration awards. There is no guarantee that further judicial reform aimed at balancing the rights of private and governmental authorities in courts and reducing grounds for re-litigation of decided cases will be implemented and succeed in building a reliable and independent judicial system.

Market Characteristics/ Liquidity and Settlement Risks: In general, emerging markets are still in the early stages of their development, have less volume, are less liquid and experience greater volatility than more established markets and many emerging markets are not highly regulated. When seeking to sell emerging market securities, little or no market may exist for the securities. The combination of price volatility and the less liquid nature of securities markets in emerging markets may, in certain cases, affect a Fund's ability to acquire or dispose of securities at the price and time it wishes to do so, and consequently may have an adverse impact on the investment performance of the Fund. Settlement of transactions may be subject to delay and administrative uncertainties.

High Yield and Distressed Securities Risk: Below investment grade debt securities, and investments in obligations of stressed, distressed and bankrupt issuers, including debt obligations that are in default, are speculative and involve a greater risk of default and price changes due to changes in the issuer's creditworthiness. The market prices of these debt securities fluctuate more than investment grade debt securities and may decline significantly in periods of general economic difficulty. In addition, below investment grade securities are subject to a greater risk of potential illiquidity with the market for these types of securities typically being much less liquid than the market for investment grade debt securities.

Political Risk: The risk of government intervention is particularly high in the emerging markets because of both the political climate in many of these countries and the less developed character of their markets and economies. Government actions in the future could have a significant effect on economic conditions in such countries, which could affect private sector companies and the value of securities in a Fund's portfolio.

Tax Risk: The taxation system in some emerging market countries is subject to varying interpretations, frequent changes and inconsistent enforcement at the federal, regional and local levels. Tax laws and practices in some emerging market countries are at an initial stage of development and are not as clearly established as in more developed countries.

Frontier Markets Risk: Investing in the securities of issuers operating in frontier emerging markets carries a high degree of risk and special considerations not typically associated with investing in more traditional developed markets. In addition, the risks associated with investing in the securities of issuers operating in emerging market countries are magnified when investing in frontier emerging market countries. These types of investments could be affected by factors not usually associated with investments in more traditional developed markets, including risks associated with expropriation and/or nationalisation, political or social instability, pervasiveness of corruption and crime, armed conflict, the impact on the economy of civil war, religious or ethnic unrest and the withdrawal or non-renewal of any licence enabling a Fund to trade in securities of a particular country, confiscatory taxation, restrictions on transfers of assets, lack of uniform accounting, auditing and financial reporting standards, less publicly available financial and other information, diplomatic development which could affect investment in those countries and potential difficulties in enforcing contractual obligations. These risks and special considerations make investments in securities in frontier emerging market countries highly speculative in nature and, accordingly, an investment in a Fund's units must be viewed as highly speculative in nature and may not be suitable for an investor who is not able to afford the loss of their entire investment. To the extent that a Fund invests a significant percentage of its assets in a single frontier emerging market country, a Fund will be subject to heightened risk associated with investing in frontier emerging market countries and additional risks associated with that particular country.

Russia Investment Risk: Investments in Russia are currently subject to certain heightened risks with regard to the ownership and custody of securities. Ownership of Russian securities is evidenced by entries in the books of a company or its registrar (which is neither an agent of, nor responsible to, the Trustee). No certificates representing ownership of Russian companies will be held by the Trustee or any of its local correspondents or in an effective central depository system. As a result of this system, as well as the uncertainties around the efficacy and enforcement of state regulation, a Fund could lose its registration and ownership of Russian securities through fraud, negligence or otherwise. In addition, Russian securities have an increased custodial risk associated with them as such securities are, in accordance with market practice, held in custody with Russian institutions which may not have adequate insurance coverage to cover losses due to theft, destruction or default while such assets are in custody.

In addition, in light of the current ongoing regional conflict in Europe, Russia has been the subject of economic sanctions imposed by countries throughout the world. Such sanctions have included, among other things, freezing the assets of particular entities and persons. The imposition of sanctions and other similar measures could, among other things, cause a decline in the value and/or liquidity of securities issued by Russia or companies located in or economically tied to Russia, defaults and downgrades in the credit ratings of Russian securities or those of companies located in or economically tied to Russia, devaluation of Russia's currency, and increased market volatility and disruption in Russia and throughout the world. Sanctions and other similar measures, including banning Russia from global payments systems that facilitate cross-border payments, could limit or prevent a Fund from buying and selling securities (in Russia and other markets), significantly delay or prevent the settlement of securities transactions, and significantly impact a Fund's liquidity and performance. Sanctions and other similar measures could also be imposed by Russia which may further impair the value and liquidity of securities globally (including Russian securities). Moreover, disruptions caused by the current ongoing regional conflict in Europe, including cyberattacks on the Russian government, Russian companies or Russian individuals, including politicians, may impact Russia's economy and Russian issuers of securities in which a Fund invests.

Investing through Stock Connect Risks: If a Fund is permitted by its investment policy to invest on a regulated market in China, there are various means of the Fund creating exposure, including using ADR and H shares (which are shares of a company incorporated in the Chinese mainland that are listed on the Hong Kong Stock Exchange). A Fund may also invest in certain eligible securities ("**Stock Connect Securities**") that are listed and traded on the Shanghai Stock Exchange ("**SSE**") through the Hong Kong – Shanghai Stock Connect program or the Shenzhen Stock Exchange ("**SZSE**") through the Hong Kong - Shenzhen Stock Connect program ("**Stock Connect**"). Unlike

other means of foreign investment in Chinese securities, investors in Stock Connect Securities are not subject to individual investment quotas or licensing requirements. Additionally, no lock-up periods or restrictions apply to the repatriation of principal and profits.

However, a number of restrictions apply to Stock Connect trading that could affect a Fund's investments and returns. For example, the home market's laws and rules apply to investors in the Stock Connect program. This means that investors in Stock Connect Securities are generally subject to PRC securities regulations, disclosure requirements of the China A Shares market, and SSE or SZSE listing and trading rules as appropriate, among other restrictions. Any changes in laws, regulations, rules and policies of the China A Shares market may affect the trading of a Fund. Further, an investor may not dispose of its Stock Connect Securities which were purchased through the Stock Connect by any means other than through Stock Connect, in accordance with applicable rules. In addition, the following risks apply:

Quota limitations Risk

Although individual investment quotas do not apply, Stock Connect participants are subject to daily aggregate investment quotas, which could restrict or preclude a Fund's ability to invest in Stock Connect Securities.

Differences in trading day Risk

Stock Connect is generally only available on business days when both the China and Hong Kong markets are open and when banking services are available in both markets on the corresponding settlement days. As a result, a Fund may not be able to trade when it would be otherwise attractive to do so, and the Fund may not be able to dispose of its China A Shares in a timely manner.

Suspension Risk

Each of the Stock Exchange of Hong Kong Limited, SSE and SZSE (as appropriate) reserves the right to suspend trading if necessary for ensuring an orderly and fair market and that risks are managed prudently. Consent from the relevant regulator would be sought before a suspension is triggered. Where a suspension is effected, a Fund's ability to invest in China A Shares or access the PRC market (and hence its ability to pursue its investment strategy) will be adversely affected.

Clearing and settlement Risk

Trading in securities through the Stock Connect may be subject to clearing and settlement risk. In the unlikely event that China Securities Depository and Clearing Corporation Limited defaults on its obligation to deliver securities / make payment, a Fund may suffer delays in recovering its losses or may not be able to fully recover its losses.

A failure or delay by the HKSCC in the performance of its obligations may result in a failure of settlement, or the loss, of Stock Connect Securities and/or monies in connection with them and a Fund and its investors may suffer losses as a result. Neither a Fund nor the Investment Manager shall be responsible or liable for any such losses.

Legal / Beneficial ownership Risk

As HKSCC is only a nominee holder and not the beneficial owner of Stock Connect Shares, in the unlikely event that HKSCC becomes subject to winding up proceedings in Hong Kong, investors should note that Stock Connect Shares will not be regarded as part of the general assets of HKSCC available for distribution to creditors even under mainland China law.

HKSCC is the "nominee holder" of the Stock Connect Securities acquired by Hong Kong and overseas investors through the Stock Connect. Foreign Investors like a Fund investing through the Stock Connect holding the Stock Connect Shares through HKSCC are the beneficial owners of the assets and are therefore eligible to exercise their rights through the nominee. Stock Connect Shares are uncertificated and are held by HKSCC for its account holders. Physical deposit and withdrawal of Stock Connect Shares are not available currently for a Fund. Hong Kong and overseas investors such as a Fund can only hold Stock Connect Securities through their brokers/custodians. Their ownership of such is reflected in their brokers/custodians' own records such as client statements.

No protection by Hong Kong Investor Compensation Funds Risk

A Fund will benefit from access to Hong Kong investor compensation funds, which are set up to protect against defaults of trades, when investing through Stock Connect. Investments in China A

Shares may not be covered by the securities investor protection programs of the exchanges and, without the protection of such programs, will be subject to the risk of default by the broker. If the depository of the SSE and the SZSE defaulted, a Fund may not be able to recover fully its losses from the depository or may be delayed in receiving proceeds as part of any recovery process. A Fund's investments through Stock Connect will not benefit from access to the China Securities Investor Protection Fund.

According to existing mainland China practices, a Fund as a beneficial owner of China A Shares traded via Stock Connect cannot appoint proxies to attend Holders' meetings on its behalf.

Investing through Bond Connect: To the extent it is permitted by the investment policy of a Fund, it may also invest in the China Interbank Bond Market ("**CIBM**") via the arrangement between Hong Kong and the PRC that enables Chinese and overseas investors to trade various types of debt securities in each other's bond markets through connection between the relevant respective financial infrastructure institutions ("**Bond Connect**").

Investing in China is subject to the risks of investing in emerging markets and may expose investors to the following risks:

CIBM Risk: CIBM is an OTC market separate to the two main stock exchanges in China. On the CIBM institutional investors trade sovereign and corporate bonds on a one-to-one quote-driven basis. The CIBM accounts for more than 90% of outstanding bond values of total trading volume in China. The CIBM is regulated and supervised by the PRC. Investors should be aware that China's bond market is still in development and trading on the CIBM may expose Funds to increased:

Liquidity Risk: The bid and offer spread of fixed income securities trading on the CIBM may be high. Funds may therefore incur significant trading costs and may even suffer losses when selling such investments. In the absence of a regular and active secondary market, the Funds may not be able to sell their bond holdings at prices the Investment Manager considers advantageous and may need to hold the bonds until their maturity date.

Settlement Risk: The transaction settlement method in the CIBM is for delivery versus payment of security by the counterparty. Where the counterparty does not perform its obligations under a transaction, the Funds may sustain losses.

Bond Connect Risk: Bond Connect is a novel trading program in China. Because these laws, regulations and rules governing the Bond Connect program are recent, their interpretation and enforcement involve significant uncertainty. Any changes in laws, regulations and policies of the China bond market or rules in relation to Bond Connect may affect prices and liquidity of the relevant CIBM bonds and there is no assurance that the change will not be made in a way prejudicing the interests of the Fund. Moreover, Bond Connect and its technology and risk management capability have only a short operating history. There is no assurance that the systems and controls of the Bond Connect program will function as intended or whether they will be stable or adequate.

Investment in the CIBM under the Bond Connect programme is subject to different regulatory requirements and procedures from investment in the CIBM via a direct access. For example, unlike the investment via a direct access to the CIBM, the Fund's investment in the CIBM bonds under the Bond Connect will not involve an onshore settlement agent and will be held by the Central Money Markets Unit of the Hong Kong Monetary Authority ("**CMU**") as the nominee holder, opening nominee account(s) with the China Central Depository & Clearing Co., Ltd ("**CCDC**") and the Shanghai Clearing House ("**SHCH**") respectively. While the distinct concepts of "nominee holder" and "beneficial owner" are generally recognised under the relevant PRC laws and regulations, the application of such rules is untested, and there is no assurance that PRC courts will recognise such rules, e.g. in liquidation proceedings of PRC companies or other legal proceedings. In addition, CIBM bonds are uncertificated and are held by CMU for its account holders.

Investing through QFI Regime Risks

The QFI regime, which allows QFIs to invest directly in certain securities in mainland China, is governed by rules and regulations promulgated by the relevant authorities in mainland China, including the China Securities Regulatory Commission, the State Administration of Foreign Exchange and the People's Bank of China and/or other relevant authorities. Investments through the QFI regime are required to be made through holders of a QFI licence.

In the event that the Fund invests via the QFI regime, investors should note that the Fund's ability to make such investments or to fully implement or pursue its investment objective and strategy are subject to the applicable laws, rules and regulations (including the then prevailing exchange controls and other prevailing requirements of the PRC including rules on investment restrictions and repatriation and remittance of principal and profits) in the PRC, which are subject to change and any such changes may have potential retrospective effect. Any changes to the relevant rules may have a material adverse impact on Holder's investment in the Fund.

In addition, there can be no assurance that the QFI Regulations will not be abolished. The Fund, which invests in the PRC markets through the QFI regime, may be adversely affected as a result of such changes.

Where the Fund invests in China A Shares or other securities in the PRC through the QFI regime, such securities will be held by local custodian(s) ("**QFI Custodian**") appointed in accordance with QFI Regulations. The Fund investing via the QFI regime may incur losses where any of the key operators or parties (including QFI Custodian/brokers) is bankrupt/in default and/or is disqualified from performing its obligations (including execution or settlement of any transaction or transfer of monies or securities). In such event, the Fund investing via the QFI regime may be adversely affected in the execution or settlement of any transaction or in the transfer of any funds or securities.

Repatriations by QFIs are currently not subject to any lock-up periods, prior approval or other repatriation restrictions, although the repatriation process may be subject to certain requirements set out in the relevant regulations (e.g. review on authenticity, submission of certain documents in respect of the repatriation etc). Completion of the repatriation process may be subject to delay.

There is no assurance that QFI Regulations will not change or that repatriation restrictions will not be imposed in the future. Any restrictions on repatriation may impact on the Fund's ability to meet redemption requests. In extreme circumstances, the Fund may incur significant loss due to limited investment capabilities, or may not be able fully to implement or pursue its investment objectives or strategies, due to QFI investment restrictions, illiquidity of the PRC's securities market, and delay or disruption in execution of trades or in settlement of trades.

Further, the QFI licence of a QFI licence holder may be revoked or terminated or otherwise invalidated at any time by reason of a change in applicable law, regulations, policy, practice or other circumstances, an act or omission of the QFI licence holder or for any other reasons. The Fund may suffer losses if the approval of the QFI licence is being revoked/terminated or otherwise invalidated as the Fund may be prohibited from trading the relevant securities.

There are rules and restrictions under QFI Regulations, including rules on remittance of principal, investment restrictions and repatriation of funds which will apply to the QFI licence holder as a whole and not simply apply to the investment made for the account of the Fund. As parties other than the Fund may also invest through the QFI licence holder, investors should be aware that violations of the QFI Regulations on investments arising out of activities of such other parties could result in the revocation of or other regulatory action in respect of the QFI licence holder as a whole. Hence, the Fund may be adversely affected by other funds or clients investing through the same QFI licence holder.

PRC-Specific Risks

PRC Governmental, Economic and Related Consideration Risks

The PRC economy has been a planned economy since 1949. During the past 15 years, the PRC government has been reforming the economic systems of the PRC, and these reforms are expected to continue. Many of the reforms are unprecedented or experimental and are expected to be refined or changed. Other political, economic and social factors could also lead to further readjustments to the reform measures. The operations and financial results of a Fund investing in the PRC could be adversely affected by adjustments in the PRC's state plans, political, economic and social conditions, changes in the policies of the PRC government such as changes in laws and regulations (or the interpretation thereof), measures which may be introduced to control inflation, changes in the rate or method of taxation, imposition of additional restrictions on currency conversion and the imposition of additional import restrictions. Furthermore, a portion of the economic activity in the

PRC is export-driven and, therefore, is affected by developments in the economies of the PRC's principal trading partners.

Corporate Disclosure, Accounting and Regulatory Standards Risks

PRC's disclosure and regulatory standards are in many respects less stringent than standards in certain OECD countries. There may be less publicly available information about PRC companies than is regularly published by or about companies from OECD countries. Such information as is available may be less reliable than that published by or about companies in OECD countries. PRC companies are subject to accounting standards and requirements that differ in significant respects from those applicable to companies established or listed in OECD countries. This, if combined with a weak regulatory environment, could result in lower standards of corporate governance and less protection of minority shareholder rights of the companies in which a Fund will invest.

The lower level of disclosure, transparency and reliability of certain material information may impact on the value of investments made by a Fund and may lead the Investment Manager or other service providers of a Fund to an inaccurate conclusion about the value of the investments of the Fund.

Business Conditions and General Economy

The profitability of the issuers of the China A Shares could be adversely affected by the worsening of general economic conditions globally or in certain individual markets. Factors such as interest rates, inflation, investor sentiment, the availability and cost of credit, the liquidity of the global financial markets and the level and volatility of equity prices could significantly affect the activity level of customers. For example: (a) an economic downturn or significantly higher interest rates could adversely affect the credit quality of the on-balance sheet assets; and (b) a market downturn or worsening of the economy could reduce the income of such issuers.

Securities Markets

The PRC securities markets, including the SSE and the SZSE, are undergoing a period of growth and change which may lead to difficulties in the settlement and recording of transactions and interpreting and applying the relevant regulations. In addition, the regulation of, and enforcement activity in, the PRC securities markets may not be equivalent to markets in OECD countries. There may not be equivalent regulation and monitoring of the PRC securities market and activities by investors, brokers and other participants to that in certain OECD markets.

It is common for securities on PRC stock exchanges to suspend from trading or otherwise become an untradeable security as a result of routine corporate activity for a period of time. Where this occurs the affected securities may be fair value priced by the Investment Manager or its agent. In addition, in the case of a redemption, there may be additional delays in receiving cash proceeds in respect of any untradeable securities as at the relevant Dealing Day.

Volatility

The PRC stock market is still at its early stage of development and is still largely dominated by retail investors. Institutional investors contribute only a small percentage of the overall market turnover and investments. The A Share market is still very speculative where investors tend to trade frequently and have very short-term views. These factors have led to substantial price volatility in the PRC stock market and no assurance can be given that such volatility will not occur in the future. The above factors could negatively affect a Fund's Net Asset Value, the ability to redeem Units and the price at which the Units may be redeemed.

RMB Currency Risk

Renminbi is not a freely convertible currency and it is subject to foreign exchange control policies of and repatriation restrictions imposed by the PRC central government. If such policies or restrictions change in the future, the position of a Fund or its investors may be adversely affected.

PRC Tax Risks: The tax law and regulations of the PRC are constantly changing, and they may be changed with retrospective effect. The interpretation and applicability of the tax law and regulations by tax authorities are not as consistent and transparent as those of more developed nations, and may vary from region to region. Although the PRC has recently issued tax circulars to clarify how capital gains realised through Stock Connect should be taxed, there are still various detailed implementation issues not clarified or clarified without any published guidance. Given the uncertainty surrounding a Fund's potential PRC tax liabilities or reimbursement obligations, the Net Asset Value

on any Dealing Day may not accurately reflect such liabilities. In addition, investors should be aware that under-accrual or over-accrual for PRC tax liabilities may impact on the performance of the Fund during the period of such under-accrual or over-accrual and following any subsequent adjustments to the Net Asset Value. Redemption proceeds or distributions may be paid to Holders without taking full account of tax that may be suffered by a Fund, which tax will subsequently be borne by the Fund and affect the Net Asset Value of the Fund and the remaining Units in that Fund. In light of the uncertainty as to how gains or income that may be derived from investment in China will be taxed, the Manager reserves the right to provide for withholding tax on such gains or income and withhold tax for the account of the relevant Fund. Accordingly, the Net Asset Value and profitability of the Fund may be affected.

3.4 Asset Replication Strategy Funds Risks:

Utilisation of the Asset Replication Strategy involves certain considerations stemming from the inherent characteristics of the techniques and instruments used therein. These include:

- (a) The swaps market is a relatively new market and is largely unregulated. It is possible that developments in the swaps market, including potential government regulation, could adversely affect the Fund's ability to terminate existing swap agreements or to realise amounts to be received under such agreements. Whether the Fund's use of swap agreements for EPM purposes will be successful will depend on the Investment Manager's or any Sub-Investment Manager's ability to correctly predict whether certain types of investments are likely to produce greater returns than other investments. The Fund bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of swap agreement counterparty.
- (b) The Fund may act as both a protection buyer and seller in respect of a CDS. Where the Fund is the protection seller, the risk arises where a specified reference credit event occurs which obliges the Fund to pay the counterparty under the terms of the CDS. Where the Fund is the protection buyer, the risk arising is of counterparty default where a specified reference credit event occurs and the Fund looks to the counterparty for payment.
- (c) The risk arising to the Fund in a TRS is credit risk in the event that the counterparty is unable to meet its payment obligations to the Fund under the terms of the TRS.
- (d) If the other party to a repurchase agreement should default, the Fund might suffer a loss to the extent that the proceeds from the sale of the underlying securities and other collateral held by the Fund in connection with the refuted repurchase agreement are less than the repurchase price. In addition, in the event of bankruptcy or similar proceedings of the other party to the repurchase agreement or its failure to repurchase the securities as agreed, the Fund could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the repurchase agreement.
- (e) Securities lending involves the risk of loss of rights in the collateral or delay in recovery of the collateral should the borrower fail to return the securities loaned or become insolvent. The Fund may pay lending fees to the party arranging the loan.
- (f) Forward currency contracts will be entered into over-the-counter (OTC) directly between two counterparties acting as principals. Since an OTC contract is not guaranteed by an exchange or clearing house, a default on the contract would deprive the Fund of the benefits of the contract and force the Fund to cover its purchase or sale commitments, if any, at the current market price. The performance of the Fund may be strongly influenced by movements in foreign exchange rates because currency positions held by the Fund may not correspond with the securities positions held.

CoCo Risk: While CoCos have some of the same risks as convertible bonds, as outlined above, there are also risks that are specific to this category of investment as described below.

- (i) Unpredictable nature of the conversion events - the occurrence of a conversion event is inherently unpredictable and depends on a number of factors, many of which will be outside the issuer's control. Because of the inherent uncertainty regarding the determination of whether a conversion event will occur, it may be difficult to predict when, if at all, a CoCo will be converted. Accordingly, trading behaviour in the CoCos

is not necessarily expected to follow trading behaviour associated with other types of convertible or exchangeable debt securities;

- (ii) Subordinated instruments - CoCos will in the majority of circumstances be issued in the form of subordinated, convertible debt instruments in order to provide the appropriate regulatory capital treatment prior to a conversion. Accordingly, in the event of liquidation, dissolution or winding-up of an issuer prior to a conversion having occurred, the rights and claims of the holders of the CoCos against the issuer in respect of or arising under the terms of the CoCos shall generally rank junior to the claims of all holders of unsubordinated obligations of the issuer. In addition, if the CoCos are converted into the issuer's underlying equity securities following a conversion event, each holder will be subordinated due to their conversion from being the holder of a debt instrument to being the holder of an equity instrument.
- (iii) Market value will fluctuate based on unpredictable factors - the value of CoCos is unpredictable and will be influenced by many factors including, without limitation, (i) the trading price of the relevant issuer's underlying equity securities; (ii) the creditworthiness of the issuer and/or fluctuations in such issuer's applicable capital ratios; (iii) supply and demand for the CoCos; and (iv) economic, financial and political events that affect the issuer, its particular market or the financial markets in general.

A Fund may not be able to control whether the issuer of a CoCo chooses to convert that security. If the issuer chooses to do so, this action could have an adverse effect on a Fund's ability to achieve its investment objective because the issuer may force conversion before a Fund would otherwise choose to do so. This may impact on the value of the Fund's investment and as a result, the Net Asset Value of a Fund may be adversely affected.

There may for example be a conversion risk in the event of a change in an issuer's capital ratio below a predefined level. Conversion triggers and trigger levels for conversion for CoCos differ depending on the specific terms of issuance. The occurrence of a conversion trigger event is inherently unpredictable and depends on a number of factors, many of which will be outside the issuer's control. Further, in addition to the above and a possible call extension risk, CoCos are also subject to coupon cancellations. Coupon payments are entirely discretionary and may be cancelled by the issuer at any point, with any such cancelled payments being written off which can ultimately lead to a mispricing risk. CoCos may also be subject to regulatory or tax call provisions allowing the issuer to repurchase in the event of changes to the regulatory or tax environment. CoCos tend to have higher price volatility and greater liquidity risk than other securities which do not expose investors to the aforementioned risks.

The capital structure of CoCos is contrary to classic capital hierarchy and CoCo investors may suffer a loss of capital when equity holders do not. In certain scenarios, holders of CoCos will suffer losses ahead of equity holders, e.g., when a high trigger principal write-down CoCo is activated. This cuts against the normal order of capital structure hierarchy where equity holders are expected to suffer the first loss.

The structure of CoCos is innovative yet untested. In a stressed environment, when the underlying features of CoCos are put to the test, it is uncertain how they will perform.

3.5 Sustainable Finance Disclosures Risks

SFDR and Taxonomy Regulation - Legal risk

The series of legal measures (including SFDR and Taxonomy Regulation) requiring firms that manage investment funds to provide transparency on how they integrate sustainability considerations into the investment process with respect to the investment funds they manage (the EU sustainable finance action plan) is being introduced in the European Union on a phased basis and some elements (for example supporting regulatory technical standards) have been subject to implementation delays.

The Manager seeks to comply with all legal obligations applicable to it but notes there may be challenges in meeting all the requirements of these legal measures as they are introduced. The Manager may be required to incur costs in order to comply with these new requirements as part of the initial implementation phase and to incur further costs as the requirements change and further

elements are introduced. This could be the case in particular if there are adverse political developments or changes in government policies as the implementation phase progresses. These elements could impact on the viability of the Funds and their returns.

ESG Data reliance

The scope of SFDR and the Taxonomy Regulation covers a very wide range of financial products and financial market participants. It seeks to achieve additional transparency regarding how financial market participants integrate ESG risks into their investment decisions and consideration of adverse sustainability impacts in the investment process. Data constraint is one of the biggest challenges when it comes to sustainability related information to end-investors, especially in the case of principal adverse impacts of investment decisions, and there are limitations on sustainability and ESG-related data provided by market participants in relation to comparability. Disclosures in this Prospectus may develop and be subject to change due to ongoing improvements in the data provided to, and obtained from, financial market participants and financial advisers to achieve the objectives of SFDR and the Taxonomy Regulation in order to make sustainability-related information available.

Relative performance

An ESG Orientated Fund or a Sustainable Objective Fund may underperform or perform differently relative to other comparable funds that do not promote environmental and/or social characteristics or pursue a Sustainable Investment objective.

None of the Manager, the Investment Manager, the Sub-Investment Managers or any other company within the Principal Financial Group® or the Trustee guarantees the repayment of capital or the performance of the Unit Trust or of any Fund. Investment decisions made on behalf of a Fund will not always prove profitable. Neither the Unit Trust, the Manager nor the Investment Manager shall be liable to investors (or to any other persons) for any error of judgement in the selection of each Fund's investments.

3.6 Specific Risks applicable to the Shariah Funds

Reliance on Shariah Adviser

The Shariah Adviser does not monitor performance of the Shariah Funds.

The Shariah Adviser monitors the activities of the Shariah Funds to advise on the Shariah Fund's compliance with the Shariah Investment Guidelines. The Shariah Adviser has no discretionary, management or investment advisory responsibilities in respect of any Shariah Fund and shall only have the right or ability to require the Shariah Investment Manager to make changes in the portfolio of any Shariah Fund if such changes are required so that the Shariah Fund is in compliance with the Shariah Investment Guidelines. Since the Shariah Adviser's function is not to monitor performance of the Shariah Funds, prospective investors should be aware that compliance with the Shariah Investment Guidelines does not ensure that a Shariah Fund will not suffer a loss. The Depositary may need to rely on representations from the Shariah Investment Manager or the Shariah Adviser regarding a Shariah Fund's compliance with Shariah principles.

Shariah Compliance

The Shariah Funds and the investments for each Shariah Fund must be certified as "Shariah-compliant" based upon the determination of the Shariah Adviser. None of the Shariah Adviser, the Shariah Investment Manager, the Depositary or their principals and affiliates make any representation or warranty, express or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of such determination. In the event that the status of such Shariah compliance should change, none of the Shariah Adviser, the Shariah Investment Manager, the Depositary or its principals and affiliates accept liability in relation to such change.

Prospective investors should not rely on any pronouncement of the Shariah Adviser on the compliance with Shariah of each Shariah Fund thereof and the investments in deciding whether to become a Unitholder in a Shariah Fund. Prospective Unitholders should consult their own Shariah advisers as to whether the relevant Shariah Fund and the investments of that Shariah Fund are compliant with Shariah principles. By becoming a Unitholder in a Shariah Fund, each Unitholder shall be deemed to have represented that they are satisfied that the relevant Shariah Fund and the investments of that Shariah Fund will not contravene Shariah principles.

Although the Shariah Investment Manager intends to observe the Shariah Investment Guidelines at all times in relation to the Shariah Funds only, no such assurance can be given, as there may be occasions when a Shariah Fund's investments do not fully comply with such criteria for factors outside the control of the Shariah Investment Manager. In such instances, the Shariah Adviser will propose a remedial action to be implemented by the Shariah Investment Manager and investors will be informed of purification liabilities, if any, resulting from the Shariah non-compliant investments.

Sukuk Investment Risk

Price changes in Sukuk are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. Sukuk could suffer when capital market interest rates rise, while they could increase in value when capital market interest rates falls. The price changes also depend on the term or residual time to maturity of the Sukuk. In general, Sukuk with shorter terms have less price risks than Sukuk with longer terms. However, they generally have lower returns and, because of the more frequent due dates of the securities portfolios, involve higher re-investment costs. Sovereign Sukuk ("**Sovereign Sukuk**") are Sukuk issued or guaranteed by governments or government-related entities. Investment in Sovereign Sukuk issued or guaranteed by governments or their agencies and instrumentalities ("**governmental entities**") involves a high degree of risk. The governmental entity that controls the repayment of Sovereign Sukuk may not be able or willing to repay the principal and/or return when due in accordance with the terms of such debt due to specific factors, including, but not limited to (i) their foreign reserves, (ii) the available amount of their foreign exchange as at the date of repayment, (iii) their failure to implement political reforms, and (iv) their policy relating to the International Monetary Fund. Sovereign Sukuk holders may also be affected by additional constraints relating to sovereign issuers which may include: (i) the unilateral rescheduling of such debt by the issuer and (ii) the limited legal recourses available against the issuer (in case of failure of delay in repayment).

The foregoing Special Investment Considerations and Risks do not purport to be a complete explanation of all the risks and significant considerations in this Prospectus. Investors should seek professional financial advice before investing.

4 CHARGES AND EXPENSES

The Trustee will pay the management fee and the trustee fee described below from the assets of the Funds. Particulars of these fees, as well as any applicable preliminary charge, are disclosed in the Supplements and are more fully explained below.

Also disclosed below are details of other fees and expenses that may be paid by the Trustee from the assets of the Funds.

4.1 Management Fee

- (a) The management fee (including any performance fee) currently charged in respect of each Fund and class of Units is disclosed in the Supplements, but may be increased by the Manager to up to 2% per annum of the Net Asset Value of each Fund (in total) on giving Holders and the Trustee not less than three months' notice.
- (b) The management fee is currently calculated as a percentage of the Net Asset Value of each Fund, and is accrued every Business Day. The total management fee accrued in arrears at the end of each month is deducted from the Fund and paid to the Manager.
- (c) If units of funds are being acquired which are managed by the Manager either directly or indirectly, or which are managed by a company related to the Manager by virtue of common management, control, or a direct or indirect interest of more than 10% of the capital or the votes, the Manager may not charge a preliminary charge in respect of any such investment only and may only charge a management fee reduced to 0.25% per annum of the value of such investment in respect of that investment.
- (d) Notwithstanding Section 4.1 (a) and in relation to the Shariah Funds only, the Manager is entitled to a management fee which shall not exceed 0.03% per annum of the average Net Asset Value of the Shariah Funds, calculated as at each Valuation Point for the Shariah Funds and payable monthly in arrears. Where such management fee is charged, details will be set out in the Shariah Fund's relevant Supplement.

4.2 Administration Fee

In addition to the management fee, the Trust Deed permits the Manager to charge an administration fee of up to 0.15% per annum of the Value of the Units in the Funds for administering the Unit Trust. Please see the relevant Supplements for more information.

The fee is calculated as a percentage of the Net Asset Value of each relevant Class and is accrued every Business Day, and the total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager (see "**Management of the Unit Trust**" below) will be met by the Manager.

4.3 Shariah Adviser Fee

The Shariah Adviser is entitled to an annual fee of up to US\$3,000 per Shariah Fund (payable quarterly in arrears out of the assets of the relevant Shariah Fund).

4.4 Trustee Fee

Pursuant to the Trust Deed, the Trustee may retain for its own use out of each Fund a fee of up to 0.022% per annum of the Net Asset Value of the Units calculated on each Business Day during the month, accrued and deducted from the Fund the following month - subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant Supplement.

4.5 Preliminary Charge

The Manager may add a preliminary charge of up to 6% (or a higher amount approved by Extraordinary Resolution) to the issue price of Units. This amount may be retained by the Manager and used to pay commission to authorised intermediaries. It is the Manager's present intention that the preliminary charge will not, until further notice, exceed 5%. The Manager may differentiate between applicants as to the amount of the preliminary charge.

4.6 Sub-custody Fees

Sub-custodians will be paid a fee at normal commercial rates and such fee shall be paid out of the Fund. The level of sub-custodian fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the Net Asset Value of the Fund. The Manager will pay any fees that exceed this level.

4.7 Other Fund Expenses

The Trustee will pay other charges and expenses of operating the Funds directly from the assets of the Funds. Such expenses include the costs of acquiring and disposing of assets (including any taxes or stamp duty, and brokerage and commissions), transactional fees of the Trustee as may be agreed by the Manager in relation to transactions involving the whole or part of the Funds, legal and audit fees and expenses, Directors' fees, the cost of preparing, translating, printing and distributing Fund reports, accounts, the Prospectus, PRIIPs KIDs or KIIDs, or any supplementary information documentation, publishing of prices and other Funds' information, registration fees and other expenses due to supervisory authorities and local, regulatory and tax representatives appointed in various jurisdictions, and costs incurred as a result of periodic updates of the Prospectus or changes in the law or the introduction of any new law, as well as any other expenses incurred by the Manager and the Trustee wholly and exclusively in the performance of their duties under the Trust Deed and the Prospectus (including any fees payable to paying agents, representatives and other third parties which fees will be at normal commercial rates).

All administration and investment advisory fees will be paid by the Manager and will not be paid from the assets of the Funds. In addition, the Manager may choose to pay any amount of service brokerage or other commissions from its own assets (including management fees or preliminary charges) to distributors or other third parties.

For certain Funds, as disclosed in the Supplement for each Fund, the Manager is entitled to receive from the Fund a Performance Fee in addition to the other fees and expenses listed above.

4.8 Allocation of Fund Expenses

All fees, duties, charges and expenses will be charged to the Fund or class of Units of a Fund in respect of which they were incurred. Where an expense is not considered by the Trustee to be

attributable to any one Fund or class of Units of a Fund, the expense will normally be allocated by the Trustee to all Funds or classes of Units of a Fund pro rata to the Net Asset Values of the Funds or attributable to the classes of Units.

4.9 Commission and Brokerage

The Manager and Connected Persons of the Manager are entitled under the Trust Deed to charge commissions and/or brokerage on transactions effected by them as agents for the Unit Trust provided always that the Manager and any such Connected Person shall not retain the benefit of any cash commission rebate (being cash commission repayment made by a broker or dealer to the Manager and/or any Connected Person) paid or payable from any broker or dealer in respect of any business placed with a broker or dealer by the Manager or any Connected Person for or on behalf of the Unit Trust. Any such cash commission rebate received from such broker or dealer shall be paid into the assets of the relevant Fund. See Appendix C.

4.10 Fund Establishment Costs

The costs of establishment of, and the initial issue of Units in each Fund, to the extent that they are not borne by the Manager, will be borne by the relevant Fund and amortised over the first five years of the Fund.

4.11 This Prospectus

The costs incurred in preparing and printing this Prospectus and the Supplements will be allocated to all Funds pro rata to the Net Asset Values of the Funds.

4.12 Units Outstanding

Details of the Units in issue in each Fund are available from the Administrator and the Hong Kong Representative.

5 SUBSCRIPTION FOR UNITS

5.1 Investing in the Funds

To invest in the Funds, applicants should first send a completed Application Form to the Administrator (non-Hong Kong applicants), to the Hong Kong Representative (Hong Kong applicants¹), or to the Singapore Representative (Singapore applicants) by mail or facsimile. Where an original and valid Application Form has been received and is in order, subsequent applications for Units may be made using faxed instructions (without forwarding the original) or via straight-through processing ("**STP**").

If an instruction which relates to an initial investment into a Fund is sent by facsimile or STP, the original Application Form and supporting anti-money laundering documents must still be mailed promptly to the Administrator, the Hong Kong Representative or the Singapore Representative, as the case may be. However, all instructions received by facsimile will be treated as definitive orders, even if not subsequently confirmed in writing, and will not be capable of withdrawal after acceptance by the Administrator, the Hong Kong Representative or the Singapore Representative.

Application Forms that are incomplete will not be accepted until all the relevant information is obtained.

5.2 Adding to an Investment

The Administrator, the Hong Kong Representative or the Singapore Representative can accept additional subscriptions from Holders using the payment methods identified in "**Processing of Applications**" below when accompanied by a completed instruction. If an application is made by letter, the letter must be signed and dated by or on behalf of the Holder by appropriate authorised signatories and include all relevant details in respect of the additional investment (i.e. account number, name of Holder, the Fund(s) and class of Units selected for the additional subscription (name of fund, Unit class); the fund identifier of the Fund or Unit class to which subscription is to be made (i.e. ISIN), the amount to be invested in each Fund or the number of Units applied for, and the contact details of the person who should be contacted should the Administrator have any queries regarding the trade instruction.

¹ Hong Kong applicants may submit requests directly to the Administrator on public holidays in Hong Kong.

All applicants whose initial application to invest in the Funds was made pursuant to an Application Form attached to a prospectus for the Unit Trust dated 1 February 2011, or earlier, must also acknowledge in the letter that they:

- (i) have received this Prospectus and the relevant Supplement(s), and PRIIPs KID or KIID, and that they are investing pursuant to the terms of the Prospectus and subject to the Trust Deed; and
- (ii) have reached majority pursuant to the legislation of their country of usual residence; and
- (iii) that they are not;
 - (A) a person or entity to whom offers or sales of Units of the relevant Fund may not be made;
 - (B) prohibited from holding Units of the relevant Fund, as provided in this Prospectus; nor
 - (C) acting on behalf of any person or entity to whom offers or sales of Units of the relevant Fund may not be made or who is prohibited from holding Units of the relevant Fund as provided in this Prospectus.

Additional subscription requests received by facsimile or STP will be treated by the Administrator, the Hong Kong Representative or the Singapore Representative as definitive orders even if not subsequently confirmed in writing and will not be capable of withdrawal after acceptance by the Administrator, the Hong Kong Representative or the Singapore Representative. Requests that are incomplete will not be accepted until all the necessary information is obtained.

5.3 Distribution and Applications / Subscriptions

Applicants may also submit subscription requests to distributors authorised by the Manager to distribute Units in the Funds, for onward transmission to the Administrator, the Hong Kong Representative or the Singapore Representative.

Please note however that the Manager bears no responsibility for any failure, delay or default by a distributor in forwarding any such request to the Administrator, the Hong Kong Representative or the Singapore Representative. A request is not valid until it has been received by the Administrator, the Hong Kong Representative or the Singapore Representative on behalf of the Manager.

No money should be paid to any distributor or other salesman of Units or intermediary in Hong Kong who is not licensed or registered to carry on Type I regulated activity under Part V of the Hong Kong Securities and Futures Ordinance.

Investors making applications via dealing platforms or other electronic means are reminded that they must refer to the provider of the dealing platform or electronic means for the procedures that apply to such trading arrangements.

At the date of this Prospectus, only the Administrator, the Hong Kong Representative and the Singapore Representative are authorised to act as agent of the Manager to sell Units in the Funds.

5.4 Minimum Investment Amounts

The Manager may establish minimum initial and additional investment amounts that must be invested by an applicant or held by a Holder in each class of Units in a Fund. Where applicable, these minimum amounts are disclosed in the Supplements.

5.5 Processing of Applications / Subscriptions

Complete and valid subscription requests received by the Administrator (non-Hong Kong applicants), the Hong Kong Representative (Hong Kong applicants), or the Singapore Representative (Singapore applicants) before the Dealing Deadline on a Dealing Day will be processed by reference to the Net Asset Value per Unit plus any applicable preliminary charge for that Dealing Day. Subscription requests received after the Dealing Deadline will be processed by reference to the Net Asset Value per Unit issued on the next Dealing Day. Refer to "**Net Asset Value**" for more information. Refer to "**Charges and Expenses**" above and "**Net Asset Value**" below for more information.

Unless a Supplement specifies otherwise, the Dealing Deadline in relation to any particular place means such time or times of day in that place as the Manager may from time to time determine and, in relation to Hong Kong, shall until further notice, be 5:00 p.m. Hong Kong time, in relation to Singapore, shall until further notice, be 5:00 p.m. Singapore time, and in relation to Dublin shall, until further notice, be 10:00 a.m. Dublin time in each case on the relevant Dealing Day.

The Manager may, at its discretion, deem any trade instruction received after the Dealing Deadline to have been received before the Dealing Deadline, if the form was received after the Dealing Deadline, but before the Valuation Point, due to no fault of the applicant.

Subscription monies may be submitted by telegraphic transfer to the Subscriptions/Redemptions Account (see the Application Form for details). Upon receipt into the Subscriptions/Redemptions Account, subscription monies will become the property of the relevant Fund and accordingly an investor will be treated as a general creditor of the relevant Fund during the period between receipt of subscription monies into the Subscriptions/Redemptions Account and the issue of Units.

Payment in respect of subscription must be received in cleared funds into the Subscriptions/Redemptions Account on or before the Settlement Date as outlined in the Supplement for the relevant Fund.

Please note the account name from which payment is made must include that of the applicant. Payments by telegraphic transfer should quote the applicant's name, name of bank, bank account number and confirmation note number (if one has already been issued), as well as the name of the Fund into which they are investing. Applicants are liable for any charges incurred in effecting telegraphic transfers.

The Trust Deed also permits the Manager to issue Units in consideration of the vesting in the Trustee of investments approved by the Manager.

Units will be issued in increments of up to one thousandth of a Unit. Subscription monies representing smaller fractions of a Unit will not be returned to the applicant but will be retained as part of the relevant Fund's assets.

The Manager has the discretion to reject in whole or in part any application for Units. If an application is rejected, the Administrator will return the balance of the application monies to the Applicant by telegraphic transfer (at the Applicant's risk and cost) within five Business Days of the rejection.

The Manager may require the transfer or redemption of any Units if the Manager or Trustee becomes aware that the Holder or beneficial owner thereof is not permitted to hold Units pursuant to applicable law or the terms of this Prospectus.

Applicants may be required to provide such information as is necessary under relevant anti-money laundering laws. Refer to "**Anti-Money Laundering**" below for more information.

5.6 Anti-Money Laundering and Counter Terrorist Financing Measures

The Manager is regulated by the Central Bank, and must comply with the measures provided for in the Criminal Justice (Money Laundering and Terrorist Financing) Acts 2010 to 2021, as amended, and any guidance notes pursuant thereto (the "**Act**") which are aimed towards the prevention and detection of money laundering and terrorist financing.

The Act requires a detailed verification of the investor's identity including any persons purporting to act on the investor's behalf. This will include obtaining proof of address, source of funds or other additional information which may be requested from time to time, monitoring the business relationship on an on-going basis and where applicable, identifying and verifying the identity of the beneficial owner on a risk sensitive basis in order to comply with the obligations set out in Act and the European Union (Anti-Money Laundering: Beneficial Ownership Of Corporate Entities) Regulations 2019 (SI 110 of 2019), as may be amended. Politically exposed persons ("**PEPs**"), an individual who is or has, at any time in the preceding year, been entrusted with prominent public functions, their immediate family members and/or persons known to be close associates of such persons, must also be identified.

By way of example an individual may be required to produce an original certified copy of a passport or identification card together with evidence of his/her address such as two original copies of evidence of his/her address, i.e. utility bills or bank statements (not more than six months old), date of birth and tax residence.

In the case of corporate investors, such measures may require production of a certified copy of the certificate of incorporation (and any change of name), memorandum and articles of association (or equivalent), a certified copy of the corporate investor's authorised signatory list, the names, occupations, dates of birth and resident and business address of all directors.

The level of customer due diligence/verification documentation required will depend on the circumstances of each application following a risk based assessment of the applicant. For example, a detailed verification might not be required where the application is deemed low risk after consideration of a number of risk variables including jurisdiction, customer type and distribution channels. The Unit Trust will also take its business wide risk assessment into consideration when determining the risk categories of its investors.

The Manager or Administrator reserves the right to request whatever information is necessary to verify the identity of an applicant. In the event of any delay or failure by the applicant to produce any information required for verification purposes the Manager or the Administrator may refuse to accept the application and return all subscription monies to the bank account from which it was remitted, at the subscriber's expense and with no interest accruing thereon.

None of the Unit Trust, the Directors, the Manager, the Investment Manager or the Administrator shall be liable to the subscriber or Holder where an application for Units is not processed or Units are compulsorily repurchased or payment of redemption proceeds is delayed in such circumstances.

5.7 Settlement Period

Settlement of all subscription applications for all Funds must be made within three Business Days after the relevant Dealing Day (T+3).

Any Units issued prior to receipt of subscription monies will be cancelled at the discretion of the Manager if the subscription monies are not received by the Administrator on the required day. Notwithstanding the cancellation of the application, the Manager may charge the applicant for any resulting loss incurred by the relevant Fund.

Applicants should note that different settlement terms will apply where they purchase Investor Units in currencies other than the relevant Base Currency. Please see Dealing Currencies below.

5.8 Record of Investment

Units will be issued in non-certificated form. A purchase contract note will be issued and sent within thirty days of the Dealing Day on which the Units were issued. Registration of the Units comprised in the application will normally be effected within twenty-one days of the Administrator receiving cleared subscription monies and the relevant registration details. Ownership is recorded by an entry in the register for Units of the Fund and an account number is allocated to the investor. Regular statements setting out the Units held will be made available to investors, and will confirm ownership and entry in the register. The account number should be quoted in all communications relating to the Fund.

Contracts notes will be expressed in the currency of the Unit Class. Refer also to "**Reports and Accounts**" in Appendix D.

5.9 Anti-Dilution Levy in Relation to Applications for Units

The Manager may exercise its discretion to apply an anti-dilution levy in relation to applications for Units. The levy is an allowance for fiscal and other charges (estimated by the Administrator) that is added to the Net Asset Value per Unit of the relevant class to reflect the costs of investing application monies in underlying assets of the Fund.

The levy is intended to be used to ensure that all investors in the Funds are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs.

5.10 Redeeming Units

To redeem Units, Holders should send a written redemption request to the Administrator (non-Hong Kong Holders), the Hong Kong Representative (Hong Kong Holders), or to the Singapore Representative (Singapore Holders) by mail or facsimile.

All requests received by facsimile will be treated as definitive orders and will not be capable of withdrawal after acceptance by the Administrator, the Hong Kong Representative or the Singapore Representative.

Redemption requests that are incomplete or invalid will not be accepted until all the relevant information is obtained.

5.11 Distribution and Redemptions

Holders may also submit redemption requests to distributors authorised by the Manager to distribute Units in the Funds, for onward transmission to the Administrator, the Hong Kong Representative or the Singapore Representative.

Please note however that the Manager bears no responsibility for any failure, delay or default by a distributor in forwarding any such request to the Administrator, the Hong Kong Representative or the Singapore Representative. A request is not valid until it has been received by the Administrator, the Hong Kong Representative or the Singapore Representative on behalf of the Manager.

Holders making applications for redemption via dealing platforms or other electronic means are reminded that they must refer to the provider of the dealing platform or electronic means for the procedures that apply to such trading arrangements.

5.12 Processing of Redemptions

Complete and valid redemption requests received by the Administrator (non-Hong Kong applicants), the Hong Kong Representative (Hong Kong applicants) or the Singapore Representative (Singapore applicants) before the Dealing Deadline on a Dealing Day will be processed by reference to the Net Asset Value per Unit for that Dealing Day. Requests received after the Dealing Deadline will be processed by reference to the Net Asset Value per Unit issued on the next Dealing Day. Refer to "**Net Asset Value**" below for more information.

Unless a Supplement specifies otherwise, the Dealing Deadline for each Fund is 10.00 a.m. (Dublin time) for the Administrator, 5.00 p.m. (Hong Kong time) for the Hong Kong Representative and 5.00 p.m. (Singapore time) for the Singapore Representative).

The Manager may, at its discretion, deem any request received after the Dealing Deadline to have been received before the Dealing Deadline, if the request was received after the Dealing Deadline, but before the Valuation Point, due to no fault of the Holder.

The request should be signed by appropriate authorised signatories by or on behalf of the Holder and include details of the Holder's account number, the relevant name for the Fund, the class of Units to which the request relates, the Fund or Unit class identifier (i.e. ISIN), the amount or value of Units to be redeemed and the contact details of the person who should be contacted should the Administrator have any queries regarding the trade instruction. No redemption proceeds will be paid unless the original investor Application Form and anti-money laundering documentation has been received by the Administrator.

Redemption proceeds will be paid in accordance with the details provided in the original Application Form provided by the Holder, unless the Holder otherwise advises the Administrator, the Hong Kong Representative or the Singapore Representative by written notice signed by the Holder or all joint Holders and certified by a bank, broker or other person acceptable to the Administrator.

Investors should note that any redemption proceeds being paid out by a Fund and held for any time in the Subscriptions/Redemptions Account shall remain an asset of the relevant Fund until such time as the proceeds are released to the investor. This would include, for example, cases where redemption proceeds are temporarily withheld pending the receipt of any outstanding identity verification documents as may be required by the Manager or the Administrator – enhancing the need to address these issues promptly so that the proceeds may be released. It should also be noted that the investor shall have ceased being considered an investor and instead will rank as a general unsecured creditor of the Unit Trust.

Subject to the other terms of this Prospectus, payments of redemption proceeds in the Base Currency will normally be settled on the third Business Day following the relevant Dealing Day (T+3), but in any event within ten Business Days of the relevant Dealing Deadline (T+10). Payment will only be made to an account in the name of the registered Holder. No payments to third parties will be made.

A redemption contract note confirming Units redeemed will be sent to the Holder within twenty one days of the relevant Dealing Day, once the Net Asset Value for the relevant Unit class has been published.

Anti-money laundering procedures prevent the Administrator issuing third party cheques to Holders.

Account details should be kept confidential at all times, as the Hong Kong Representative, the Singapore Representative, the Administrator and the Manager are authorised to act on redemption instructions from any person purporting to be a Holder, and quoting the correct account number.

When a redemption request has been submitted by a Holder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in respect of the relevant transaction.

5.13 Partial Redemptions and Minimum Investment Amounts

If a Holder requests a partial redemption which would reduce the value of the Holder's remaining investment below the minimum investment amount, the Manager may, at its discretion, decide to permit the partial redemption.

5.14 Restrictions on Redemptions

In certain circumstances, the Manager has the discretion to implement measures to ensure the Funds are sufficiently liquid to meet redemption requests.

The Manager is entitled, with the approval of the Trustee, to limit the total number of Units of a particular Fund redeemed on any Dealing Day (whether by sale to the Manager or by cancellation by the Trustee) to Units representing 10% of the Net Asset Value of the relevant Fund.

In this event, the limitation will apply pro rata so that all Holders wishing to redeem Units of a particular Fund on that Dealing Day redeem the same proportion of such Units. Units not redeemed, but which would otherwise have been redeemed, will be carried forward for redemption on the next Dealing Day.

The Trust Deed also contains provisions that permit the Manager to make an in specie distribution of investments to a Holder whose redemption request represents 5% or more of the Net Asset Value of a Fund. Any such distribution shall not be prejudicial to other Holders. However, the Holder may require the Manager to sell such investments on its behalf and pay it the proceeds of sale less any costs incurred in connection with such sale.

Further, the Manager may at its discretion, require up to 4 days' notice of each redemption request in respect of Institutional Units where such request (or series of requests from the one Holder) would result in the payment of an amount to that Holder which would in aggregate represent more than 5% of the Net Asset Value of the relevant Fund.

5.15 Anti-Dilution Levy in Relation to Redemption of Units

The Manager may exercise its discretion to apply an anti-dilution levy in relation to redemptions of Units. The levy is an allowance for fiscal and other charges, estimated by the Administrator, that may be deducted from the Net Asset Value per Unit of the relevant class to reflect the costs of disposing of underlying assets to fund redemptions from the Fund.

The levy is intended to be used to ensure that all investors in the Funds are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs.

5.16 Required Redemptions and Market Timing

The Funds are intended to be long-term investment vehicles and are not designed to provide Holders with a means of speculating on short-term market movements. Frequent purchases and redemptions by a Holder can disrupt the management of the Fund, negatively affect the Fund's performance, and increase expenses for all Holders. In particular, frequent trading (i) can force a Fund to hold larger cash positions than desired instead of fully investing the funds, which can result in lost investment opportunities; (ii) can cause unplanned and inopportune portfolio turnover in order to meet redemption requests, and; (iii) can increase broker-dealer commissions and other transaction costs as well as administrative costs for the Fund.

If an investor intends to trade frequently or use market timing investment strategies, they should not purchase Units in the Funds.

The Manager's policy is to discourage Holders from trading in a Fund's Units in an excessive manner that would be harmful to long-term Holders and to make reasonable efforts to detect and deter excessive trading.

Accordingly, the Manager, whenever it deems it to be appropriate and in the interests of Holders, reserves the right to reject any application for exchange and/or subscription of Units from Holders whom it considers to be associated with market timing activity at any time for any reason without prior notice. In this connection the Manager may combine Units which are under common ownership or control for the purposes of ascertaining whether Holders can be deemed to be involved in such activities. In addition, the Manager reserves the right to require any Holder to redeem all Units held in any Fund where the Manager is of the opinion that the Holder's trading in that Fund is designed to take advantage of short-term market movements.

In circumstances where a Fund is primarily invested in markets which are closed for business at the time a Fund is valued the Manager may allow for the Net Asset Value per Unit to be adjusted to reflect more accurately the fair value of the Fund's assets at the point of valuation during periods of market volatility in accordance with the procedures as outlined below in Appendix B. Investment schemes are usually valued on the basis of the last available price as at the time when the Net Asset Value of the property in the Fund is calculated. The time difference between the close of the Market developments which could affect the value of these assets can occur between the close of the relevant markets and the point of valuation.

The Funds' policies for deterring frequent purchases and redemptions of Units by Holders are intended to be applied uniformly to all Holders to the extent practicable. Some financial intermediaries, however, maintain omnibus accounts in which they aggregate orders of multiple investors and forward aggregated orders. Because these are received on an aggregated basis and because these omnibus accounts may trade with numerous fund families with differing market timing policies, the Funds are substantially limited in their ability to identify or deter excessive traders or other abusive traders. The Manager will use its best efforts to obtain the cooperation of intermediaries to identify excessive traders and to prevent or limit abusive trading activity, to the extent practicable. Nonetheless, the Funds' ability to identify and deter frequent purchases and redemptions of a Fund's Units through omnibus accounts is limited, and the Funds' success in accomplishing the objectives of the policies concerning frequent purchases and redemptions of Fund units in this context depends significantly upon the cooperation of the financial intermediaries.

5.17 Suspension of Redemption of Units

The Manager may at any time, with the approval of the Trustee, temporarily suspend the right of Holders to require the redemption of Units of any class and/or may temporarily delay the payment of any monies in respect of any such redemption during the following periods:

- (i) any period when any Market on which a substantial part of the investments or other property for the time being comprised in the relevant Fund are quoted, listed or dealt in is closed otherwise than for ordinary holidays;
- (ii) any period when dealings on any such Market are restricted or suspended;
- (iii) the existence of any state of affairs as a result of which disposal of some or all investments or other property for the time being comprised in the relevant Fund cannot, in the opinion of the Manager, be effected normally or without seriously prejudicing the interests of Holders of that class;
- (iv) any breakdown in the means of communications normally employed in determining the Net Asset Value of the relevant Fund or when, for any other reason, the value of any investments or other property for the time being comprised in that Fund cannot be promptly and accurately ascertained;
- (v) any period when the redemption of investments or other property for the time being comprised in that Fund or the transfer of funds involved in such redemption cannot, in the opinion of the Manager, be effected at normal prices or normal rates of exchange.

Holders who have requested redemptions of any Units will be notified of any such suspension and, unless withdrawn (but subject to the limitation referred to above), their requests will be dealt with on the first Dealing Day after the suspension is lifted. Any such suspension will be notified to the Central Bank and to the competent authorities in the Member States where Units of the relevant class or classes are marketed immediately. Where feasible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

5.18 Dealing Currencies

Transactions may be effected in each Fund in the Base Currency, as well as in Euros, Hong Kong Dollars, US Dollars, and Sterling. Other currencies may also be available, and applicants should contact the Administrator, the Hong Kong Representative or the Singapore Representative, for further information if required.

Where an applicant wishes to invest non-Base Currency amounts in a Fund, the Manager will arrange for the application monies to be converted into the Fund's Base Currency, so that Units can be purchased in the Fund. If a Holder wishes to receive redemption proceeds from a Fund in a non-Base Currency, the Manager will arrange for the proceeds to be converted into the currency selected, so that they can be paid as requested.

All non-Base Currency amounts received from applicants or to be paid on redemption will be converted at the expense and risk of the applicant or Holder, and the Manager is not responsible for the actual exchange rate that applies upon such conversion. Holders should be aware that gains and losses can occur on currency conversions, and that an exchange risk will arise over the period of the investment.

Investors in Hedged Units should be aware that the exchange rate used for the purpose of converting the proceeds of their trade to or from the relevant Base Currency is likely to be the rate prevailing at the time the necessary currency hedging contracts are put in place which means that this exchange rate risk is borne by those transacting investors rather than by the other investors in the relevant Hedged Unit class.

Applications from persons wishing to purchase Units using non-Base Currency amounts will be processed on the date of receipt of the application in the same way as applications received in the Base Currency.

5.19 Conversion of Units

Holders will be able to apply to convert on any Dealing Day all or part of their holding of Units in any Fund (the original class) into a class of Units in another Fund which are being offered at that time (the new class) by giving notice to the Administrator, the Hong Kong Representative or the Singapore Representative. The general provisions and procedures relating to redemptions will apply equally to conversions. No conversion will be made, however, if it would result in the Holder holding a number of Units of the original class and/or the new class of a value which in aggregate is less than the minimum investment amount for the relevant class or classes of Units. Holders of Units of one class in a Fund may not, unless the Manager otherwise agrees, convert those Units into Units of another class in the same Fund.

The Manager has the power at its absolute discretion to convert a Holder's Units from one class to another in the same Fund, in the event that as a result of redemptions or conversions the value of the Holder's investment falls below the minimum investment amount specified by the Manager as attaching to that class of Unit.

As regards conversion of Units from one class to another the number of Units of the new class to be issued will be calculated in accordance with the following formula:

$$N = \frac{P(R \times CF)}{S}$$

S

Where:

N is the number of Units of the new class to be allocated

P is the number of Units of the original class to be converted

R is the redemption price per Unit of the original class for the relevant Dealing Day

CF is the currency conversion factor determined by the Administrator as representing the applicable rate of exchange on the relevant Business Day between the Base Currencies of the original class and the new class (where the Base Currencies are different)

S is the issue price per Unit of the new class for the relevant Dealing Day

A Holder of either Accumulation Units, Income Units or Income Plus Units may, upon notice to the Manager, elect to convert the whole or part of such Units into Units of the other type in the relevant Fund on the Dealing Day next following receipt of such notice by the Manager, at such rate of conversion as the Manager may decide based on the Net Asset Value per Unit of both types of Units in the relevant Fund on the relevant Dealing Day.

In addition, whereas the preliminary charge (current maximum 5%) and any other charges normally made on the issue of Units will not normally be made on a conversion, (unless the Fund the Holder is converting into has a higher preliminary charge than the Fund the Holder is converting from in which case the difference in preliminary charge will be the charge), the Manager is entitled to make any such charges at its discretion. In particular, if more than four conversions are made during a twelve month period, the Manager may, at its discretion, impose a service fee of up to 1% of the value of the Units converted into another class of Units, or Units of another Fund, for any subsequent conversions during the subsequent twelve month period.

The conversion facility is not intended for short-term trading or excessive conversion activity, which may interfere with portfolio management and have an adverse impact on all Holders. In order to limit any excessive conversion activity and to promote the best interests of the Funds, the Manager may reject a conversion request, and reserves the right to require any Holder to redeem all Units held in the Funds where the Manager is of the opinion that the Holder's trading in the Funds is designed to take advantage of short term market movements. The Manager may also decline to accept any further applications for Units from such persons.

5.20 Transfer of Units

Units will be transferable by instrument in writing signed by (or, in the case of a transfer by a body corporate, signed on behalf of or sealed by) the transferor provided that:

- (i) the transfer does not result in the transferor or the transferee holding a number of Units of a value which is less than the minimum investment amount for Units of the relevant class, unless the Manager at its absolute discretion specifically consents to such holding falling below the minimum investment amount for such Units;
- (ii) the transferee is a person who is entitled to make an application for Units; and
- (iii) the transferee (unless already a Holder) completes and furnishes an Application Form to the Administrator, the Hong Kong Representative or the Singapore Representative.

Every instrument of transfer shall relate to one class of Unit only.

In the case of the death of one of joint Holders, the survivor or survivors will be the only person or persons recognised by the Trustee and the Manager as having any title to or interest in the Units registered in the names of such joint Holders.

If the transferor is or is deemed to be or is acting on behalf of an Irish resident, the Manager is entitled to redeem and cancel a sufficient portion of a transferor's Units as will enable the Unit Trust to pay the tax payable in respect of the transfer to the Revenue Commissioners in Ireland.

5.21 Distribution Policy

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each Distribution Date to make, distributions among Holders of Income Units and Income Plus Units in each Fund described herein out of:

- (i) Net income (i.e. income less expenses); and/or
- (ii) Realised gains net of realised and unrealised losses; and/or
- (iii) Capital;

In addition to distributions made on a Distribution Date, for each Fund, the Manager has the power under the Trust Deed to decide to make interim distributions. Each distribution shall be in such amount (if any) as the Manager may determine to distribute in respect of the relevant Accounting Period, less the amount, if any, of any interim distribution already made in respect of such Accounting Period. Net income includes all interest, dividends and other amounts deemed by the Manager to be in the nature of income less the estimated expenses of the Fund applicable to that dividend period.

Distributions will normally only be paid to the extent that they are covered by net income received from underlying investments.

The Manager will reinvest any net income distribution to which a Holder of Income Units is entitled in the application for further Income Units of the relevant Fund unless distributions can be paid in cash in respect of those Units, and the Holder had previously made an effective request for any distributions be paid to them in cash. In order to be effective any such prior request must have been made at the time the Holder was applying for Units or by serving notice in writing on the Manager and the Trustee, which notice must have been received by the Manager and the Trustee at least seven Business Days before the next following Distribution Date to be effective in respect of distributions paid on that date. Investors should contact the Administrator, The Hong Kong Representative or the Singapore Representative to find out whether distributions can be paid in cash in respect of any given Fund or class of Units and the manner in which they are payable. In the event that the distribution is to be reinvested, further Income Units will be issued on the Distribution Date or, if that is not a Dealing Day, on the next Dealing Day at a price calculated in the same way as for other issues of Income Units of the relevant class on this date but without incurring any preliminary charge. There is, however, no minimum of such further Income Units which may be so subscribed. Accumulation Units make no declarations or distributions. All income earned proportionately by the Accumulation Unit holders is reinvested within the relevant Fund and its impact reflected each day in the price of Accumulation Units.

Where the amount of any distribution payable to an individual Holder is between 0 .01 and 10 US Dollars (or the equivalent in other currencies), that amount shall not be distributed but shall be automatically reinvested in the relevant Class of Units.

It is intended, although not guaranteed, that Income Plus Units will distribute a set level of net income (the "**Target Income**") on each Distribution Date. In order to calculate the Target Income the Manager and/or its delegates will, on a best efforts basis, calculate the amount of net income to be received by the relevant Fund over the course of the Accounting Period and calculate a pro-rated amount to be distributed to the Income Plus Units on each Distribution Date.

Investors should note the Manager may, in its absolute discretion, limit fluctuations in the level of distributions in an Accounting Period from one interim distributions to another so that Holders of Income Plus Units receive smoothed income distributions of roughly equal levels with the balance being paid up in the final distribution (if any).

To that end, the Manager may, in its absolute discretion, reduce or forego the distribution payable on the Distribution Date and/or pay such distribution out of the capital of the Income Plus Units in the event that the pro rata net income attributable to the Income Plus Units is less than the Target Income as at the Distribution Date. It should be noted that if distribution is made out of capital, this could result in the erosion of capital in those Income Plus Units. Net income attributable to Income Plus Units in excess of any Target Income shall not be distributed on the interim Distribution Date but shall be accumulated and retained as part of the relevant Fund.

The Manager is obliged and entitled to deduct an amount in respect of Irish taxation from any dividend payable to an investor in the Unit Trust who is or is deemed to be an Irish resident or is acting on behalf of such a person and pay such sum to the Revenue Commissioners in Ireland.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

5.22 Net Asset Value

Applications for Units, redemptions of Units and conversions of Units are processed by reference to the Net Asset Value per Unit on the relevant Dealing Day. A preliminary charge may apply to

applications for Units and an anti-dilution levy may apply to applications for, or redemptions of, Units (refer to "**Subscription for Units**" and "**Redemption of Units**" above for more information).

The Net Asset Value per Unit of each Fund is calculated on every Dealing Day as of the Valuation Point for that Fund. It is calculated by valuing the assets of the Fund, less all liabilities and attributing the relevant proportion of the Fund represented by one Unit of the class concerned. Units of each Fund will be issued and redeemed by reference to the Net Asset Value per Unit as described above. The assets of each Fund are valued according to the valuation techniques set out in Appendix B.

6 TAXATION

The following statements are by way of a general guide to potential investors and Holders only and do not constitute tax advice. Holders and potential investors are therefore advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Units under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

Holders and potential investors should note that the following statements on taxation are based on advice received by the Manager regarding the law and practice in force in the relevant jurisdiction at the date of this Prospectus and proposed regulations and legislation in draft form. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Unit Trust will endure indefinitely.

6.1 Ireland

Ireland

The following is a summary of certain Irish tax consequences of the purchase, ownership and disposal of Units. The summary does not purport to be a comprehensive description of all of the Irish tax considerations that may be relevant. The summary relates only to the position of persons who are the absolute beneficial owners of Units and may not apply to certain other classes of persons.

The summary is based on Irish tax laws and the practice of the Irish Revenue Commissioners in effect on the date of this Prospectus (and is subject to any prospective or retroactive change). Potential investors in Units should consult their own advisors as to the Irish or other tax consequences of the purchase, ownership and disposal of Units.

Taxation of the Unit Trust

The Manager intends to conduct its affairs so that the Unit Trust is an Irish tax resident. On the basis that the Unit Trust is Irish tax resident, the Unit Trust qualifies as an 'investment undertaking' for Irish tax purposes and, consequently, is exempt from Irish corporation tax on its income and gains.

The Unit Trust will be obliged to account for Irish income tax to the Irish Revenue Commissioners if Units are held by non-exempt Irish resident Holders (and in certain other circumstances), as described below. Explanations of the terms 'resident' and 'ordinarily resident' are set out at the end of this summary.

Taxation of non-Irish Holders

Where a Holder is not resident (or ordinarily resident) in Ireland for Irish tax purposes, the Unit Trust will not deduct any Irish tax in respect of the Holder's Units once the declaration set out in the Account Opening Form has been received by the Unit Trust confirming the Holder's non-resident status. The declaration may be provided by an Intermediary who holds Units on behalf of investors who are not resident (or ordinarily resident) in Ireland, provided that, to the best of the Intermediary's knowledge, the investors are not resident (or ordinarily resident) in Ireland.

If this declaration is not received by the Unit Trust, the Unit Trust will deduct Irish tax in respect of the Holder's Units as if the Holder was a non-exempt Irish resident Holder (see below). The Unit Trust will also deduct Irish tax if the Unit Trust has information which reasonably suggests that a Holder's declaration is incorrect. A Holder will generally have no entitlement to recover such Irish tax, unless the Holder is a company and holds the Units through an Irish branch and in certain other limited circumstances. The Unit Trust must be informed if a Holder becomes Irish tax resident.

Generally, Holders who are not Irish tax resident will have no other Irish tax liability with respect to their Units. However, if a Holder is a company which holds its Units through an Irish branch or agency, the Holder may be liable to Irish corporation tax in respect of profits and gains arising in respect of the Units (on a self-assessment basis).

Taxation of exempt Irish Holders

Where a Holder is resident (or ordinarily resident) in Ireland for Irish tax purposes and falls within any of the categories listed in section 739D(6) Taxes Consolidation Act of Ireland (“TCA”), the Unit Trust will not deduct Irish tax in respect of the Holder’s Units once the declaration set out in the Account Opening Form has been received by the Unit Trust confirming the Holder’s exempt status.

The categories listed in section 739D(6) TCA can be summarised as follows:

1. Pension schemes (within the meaning of section 774, section 784 or section 785 TCA).
2. Companies carrying on life assurance business (within the meaning of section 706 TCA).
3. Investment undertakings (within the meaning of section 739B TCA).
4. Investment limited partnerships (within the meaning of section 739J TCA).
5. Special investment schemes (within the meaning of section 737 TCA).
6. Unauthorised unit trust schemes (to which section 731(5)(a) TCA applies).
7. Charities (within the meaning of section 739D(6)(f)(i) TCA).
8. Qualifying managing companies (within the meaning of section 734(1) TCA).
9. Specified companies (within the meaning of section 734(1) TCA).
10. Qualifying fund and savings managers (within the meaning of section 739D(6)(h) TCA).
11. Personal Retirement Savings Account (PRSA) administrators (within the meaning of section 739D(6)(i) TCA).
12. Irish credit unions (within the meaning of section 2 of the Credit Union Act 1997).
13. The National Asset Management Agency.
14. The National Treasury Management Agency or a Fund Investment Vehicle (within the meaning of section 37 of the National Treasury Management Agency (Amendment) Act 2014) of which the Minister for Finance is the sole beneficial owner, or Ireland acting through the National Treasury Management Agency.
15. Qualifying companies (within the meaning of section 110 TCA).
16. Any other person resident in Ireland who is permitted (whether by legislation or by the express concession of the Irish Revenue Commissioners) to hold Units in the Unit Trust without requiring the Unit Trust to deduct or account for Irish tax.

Irish resident Holders who claim exempt status will be obliged to account for any Irish tax due in respect of Units on a self-assessment basis.

If this declaration is not received by the Unit Trust in respect of a Holder, the Unit Trust will deduct Irish tax in respect of the Holder’s Units as if the Holder was a non-exempt Irish resident Holder (see below). A Holder will generally have no entitlement to recover such Irish tax, unless the Holder is a company within the charge to Irish corporation tax and in certain other limited circumstances.

Taxation of other Irish Holders

Where a Holder is resident (or ordinarily resident) in Ireland for Irish tax purposes and is not an ‘exempt’ Holder (see above), the Unit Trust will deduct Irish tax on distributions, redemptions and transfers and, additionally, on ‘eighth anniversary’ events, as described below.

Distributions by the Unit Trust

If the Unit Trust pays a distribution to a non-exempt Irish resident Holder, the Unit Trust will deduct Irish tax from the distribution. The amount of Irish tax deducted will be:

1. 25% of the distribution, where the distributions are paid to a Holder who is a company which has made the appropriate declaration for the 25% rate to apply; and
2. 41% of the distribution, in all other cases.

The Unit Trust will pay this deducted tax to the Irish Revenue Commissioners.

Generally, a Holder will have no further Irish tax liability in respect of the distribution. However, if the Holder is a company for which the distribution is a trading receipt, the gross distribution (including the Irish tax deducted) will form part of its taxable income for self-assessment purposes and the Holder may set off the deducted tax against its corporation tax liability.

Redemptions and transfers of Units

If the Unit Trust redeems Units held by a non-exempt Irish resident holder, the Unit Trust will deduct Irish tax from the redemption payment made to the Holder. Similarly, if such an Irish resident Holder transfers (by sale or otherwise) an entitlement to Units, the Unit Trust will account for Irish tax in respect of that transfer. The amount of Irish tax deducted or accounted for will be calculated by reference to the gain (if any) which has accrued to the Holder on the Units being redeemed or transferred and will be equal to:

1. 25% of such gain, where the Holder is a company which has made the appropriate declaration for the 25% rate to apply; and
2. 41% of the gain, in all other cases.

The Unit Trust will pay this deducted tax to the Irish Revenue Commissioners. In the case of a transfer of Units, to fund this Irish tax liability the Unit Trust may appropriate or cancel other Units held by the holder. This may result in further Irish tax becoming due.

Generally, a Holder will have no further Irish tax liability in respect of the redemption or transfer. However, if the Holder is a company for which the redemption or transfer payment is a trading receipt, the gross payment (including the Irish tax deducted) less the cost of acquiring the Units will form part of its taxable income for self-assessment purposes and the Holder may set off the deducted tax against its corporation tax liability.

A Holder may be liable (on a self-assessment basis) to Irish capital gains taxation on any currency gain arising on the redemption or transfer of the Units.

'Eighth Anniversary' Events

If a non-exempt Irish resident Holder does not dispose of Units within eight years of acquiring them, the Holder will be deemed for Irish tax purposes to have disposed of the Units on the eighth anniversary of their acquisition (and any subsequent eighth anniversary). On such deemed disposal, the Unit Trust will account for Irish tax in respect of the increase in value (if any) of those Units over that eight year period. The amount of Irish tax accounted for will be equal to:

1. 25% of such increase in value, where the Holder is a company which has made the appropriate declaration for the 25% rate to apply; and
2. 41% of the increase in value, in all other cases.

The Unit Trust will pay this tax to the Irish Revenue Commissioners. To fund the Irish tax liability, the Unit Trust may appropriate or cancel Units held by the Holder.

However, if less than 10% of the Units (by value) in the relevant Fund are held by non-exempt Irish resident Holders, the Unit Trust may elect not to account for Irish tax on this deemed disposal. To claim this election, the Unit Trust must:

1. confirm to the Irish Revenue Commissioners, on an annual basis, that this 10% requirement is satisfied and provide the Irish Revenue Commissioners with details of any non-exempt Irish resident Holders (including the value of their Units and their Irish tax reference numbers); and
2. notify any non-exempt Irish resident Holders that the Unit Trust is electing to claim this exemption.

If the exemption is claimed by the Unit Trust, any non-exempt Irish resident Holders must pay to the Irish Revenue Commissioners on a self-assessment basis the Irish tax which would otherwise have been payable by the Unit Trust on the eighth anniversary (and any subsequent eighth anniversary).

Any Irish tax paid in respect of the increase in value of Units over the eight year period may be set off on a proportionate basis against any future Irish tax which would otherwise be payable in respect of those Units and any excess may be recovered on an ultimate disposal of the Units.

Unit exchanges

Where a Holder exchanges Units on arm's length terms for other Units in the Unit Trust or for Units in another Fund and no payment is received by the Holder, the Unit Trust will not deduct Irish tax in respect of the exchange.

Automatic exchange of information

Irish reporting financial institutions, which may include the Unit Trust have reporting obligations in respect of certain investors under FATCA as implemented pursuant to the IGA and/or CRS (see below). The Unit Trust may request information from Holders from time to time as necessary for the Unit Trust to comply with its requirements under FATCA and the CRS, as the case may be, and such Holders are similarly obligated to inform the Holders of any change in circumstance that may subsequently impact any information previously provided.

FATCA

The Unit Trust is obliged to report certain information in respect of U.S. investors in the Unit Trust to the Revenue Commissioners who will then share that information with the U.S. tax authorities.

FATCA imposes a 30% US withholding tax on certain 'withholdable payments' made on or after 1 July 2014 unless the payee enters into and complies with an agreement with the U.S. Internal Revenue Service (IRS) to collect and provide to the IRS substantial information regarding direct and indirect owners and account holders.

On 21 December 2012 the governments of Ireland and the U.S. signed the IGA. Under the IGA, Ireland agreed to implement legislation to collect certain information in connection with FATCA and the Irish and U.S. tax authorities have agreed to automatically exchange this information. The IGA provides for the annual automatic exchange of information in relation to accounts and investments held by certain U.S. investors in a broad category of Irish financial institutions and vice versa.

Under the IGA and the Financial Accounts Reporting (United States of America) Regulations 2014 (as amended) implementing the information disclosure obligations, Irish financial institutions such as the Unit Trust are required to report certain information with respect to U.S. account holders to the Revenue Commissioners. The Revenue Commissioners will automatically provide that information annually to the IRS. The Unit Trust (and/or the Manager or Administrator or Investment Manager on behalf of the Unit Trust) must obtain the necessary information from investors required to satisfy the reporting requirements whether under the IGA, the Irish Regulations or any other applicable legislation published in connection with FATCA and such information is being sought as part of the application process for Units in the Unit Trust. It should be noted that the Irish Regulations require the collection of information and filing of returns with the Revenue Commissioners regardless as to whether the Unit Trust holds any U.S. assets or has any U.S. investors.

If a Holder causes the Unit Trust to suffer a withholding for or on account of FATCA (FATCA Deduction) or other financial penalty, cost, expense or liability, the Manager may compulsorily redeem any Units of such Holder and/or take any actions required to ensure that such FATCA Deduction or other financial penalty, cost, expense or liability is economically borne by such Holder. While the IGA and the Irish Regulations should serve to reduce the burden of compliance with FATCA, and accordingly the risk of a FATCA withholding on payments to the Unit Trust in respect of its assets, no assurance can be given in this regard. As such, Holders should obtain independent tax advice in relation to the potential impact of FATCA before investing.

Common Reporting Standard (CRS)

CRS is a global OECD tax information exchange initiative which is aimed at encouraging a coordinated approach to disclosure of income earned by individuals and organisations.

Ireland is a signatory jurisdiction to a Multilateral Competent Authority Agreement on the automatic exchange of financial account information in respect of CRS while the sections 891F and 891G of the TCA contain measures necessary to implement the CRS internationally and across the European Union, respectively. Regulations, the Returns of Certain Information by Reporting Financial Institutions Regulations 2015 (the **CRS Regulations**), giving effect to the CRS from 1 January 2016 came into operation on 31 December 2015.

Directive 2014/107/EU on Administrative Cooperation in the Field of Taxation ("**DAC II**") implements CRS in a European context and creates a mandatory obligation for all EU Member States to exchange financial account information in respect of residents in other EU Member States on an annual basis. The Irish Finance Act 2015 contained measures necessary to implement the DAC II. Regulations, the Mandatory Automatic Exchange of Information in the Field of Taxation Regulations 2015 (together with the CRS Regulations, the "**Regulations**"), giving effect to DAC II from 1 January 2016, came into operation on 31 December 2015.

Under the Regulations, reporting financial institutions, which include the Unit Trust, are required to collect certain information on accountholders and on certain controlling persons in the case of the accountholder(s) being an entity, as defined for CRS purposes, (e.g. name, address, jurisdiction of residence, TIN, date and place of birth (as appropriate), the account number and the account balance or value at the end of each calendar year) to identify accounts which are reportable to the Revenue Commissioners. The Revenue Commissioners shall in turn exchange such information with their counterparts in participating jurisdictions. Further information in relation to CRS and DAC II can be found on the Automatic Exchange of Information (AEOI) webpage on www.revenue.ie

Stamp duty

No Irish stamp duty (or other Irish transfer tax) will apply to the issue, transfer or redemption of Units. If a Holder receives a distribution in specie of assets from the Unit Trust, a charge to Irish stamp duty could potentially arise.

Gift and Inheritance tax

Irish capital acquisitions tax (at a rate of 33%) can apply to gifts or inheritances of Irish situate assets or where either the person from whom the gift or inheritance is taken is Irish domiciled, resident or ordinarily resident or the person taking the gift or inheritance is Irish resident or ordinarily resident.

The Units could be treated as Irish situate assets because they have been issued by an Irish company. However, any gift or inheritance of Units will be exempt from Irish gift or inheritance tax once:

1. the Units are comprised in the gift or inheritance both at the date of the gift or inheritance and at the 'valuation date' (as defined for Irish capital acquisitions tax purposes);
2. the person from whom the gift or inheritance is taken is neither domiciled nor ordinarily resident in Ireland at the date of the disposition; and
3. the person taking the gift or inheritance is neither domiciled nor ordinarily resident in Ireland at the date of the gift or inheritance.

Meaning of terms

Meaning of 'residence' for companies

A company which has its central management and control in Ireland is tax resident in Ireland irrespective of where it is incorporated. A company which does not have its central management and control in Ireland but which is incorporated in Ireland is tax resident in Ireland except where the company is regarded as not resident in Ireland under a double taxation treaty between Ireland and another country.

Meaning of 'residence' for individuals

An individual will be regarded as being tax resident in Ireland for a calendar year if the individual:

1. spends 183 days or more in Ireland in that calendar year; or
2. has a combined presence of 280 days in Ireland, taking into account the number of days spent in Ireland in that calendar year together with the number of days spent in Ireland in

the preceding year. Presence in Ireland by an individual of not more than 30 days in a calendar year will not be reckoned for the purposes of applying this 'two year' test.

An individual is treated as present in Ireland for a day if that individual is personally present in Ireland at any time during that day.

Meaning of 'ordinary residence' for individuals

The term 'ordinary residence' (as distinct from 'residence') relates to a person's normal pattern of life and denotes residence in a place with some degree of continuity. An individual who has been resident in Ireland for three consecutive tax years becomes ordinarily resident with effect from the commencement of the fourth tax year. An individual who has been ordinarily resident in Ireland ceases to be ordinarily resident at the end of the third consecutive tax year in which the individual is not resident. For example, an individual who is resident and ordinarily resident in Ireland in 2024 and departs Ireland in that year will remain ordinarily resident in Ireland up to the end of the tax year in 2027.

Meaning of 'Intermediary'

An 'intermediary' means a person who:

1. carries on a business which consists of, or includes, the receipt of payments from a regulated investment undertaking resident in Ireland on behalf of other persons; or
2. holds units in such an investment undertaking on behalf of other persons.

Foreign taxes

The Unit Trust may be liable to taxes (including withholding taxes) in countries other than Ireland on income earned and capital gains arising on its investments. The Unit Trust may not be able to benefit from a reduction in the rate of such foreign tax by virtue of the double taxation treaties between Ireland and other countries. The Unit Trust may not, therefore, be able to reclaim any foreign withholding tax suffered by it in particular countries. If this position changes and the Unit Trust obtains a repayment of foreign tax, the Net Asset Value of the Unit Trust will not be restated and the benefit will be allocated to the then-existing Holders rateably at the time of repayment.

6.2 United States

The Unit Trust intends to conduct its affairs such that neither it nor its investors will be subject to United States federal income tax solely as a result of the activities of, or investments in, the Unit Trust. The Unit Trust may, however, be subject to United States federal withholding tax upon its receipt of United States source interest or dividends, and the Unit Trust is not required to consider the effect of such withholding tax in making its investments.

Special rules may apply to investors that are former citizens of the United States, controlled foreign corporations as to the United States, foreign insurance companies that hold or are deemed to hold Units in connection with their United States businesses, foreign personal holding companies and corporations which accumulate earnings to avoid United States federal income tax. In particular, special rules govern the indirect ownership, through a controlled foreign corporation, of units in a **passive foreign investment company**.

6.3 Other Jurisdictions

As Holders are no doubt aware, the tax consequences of any investment can vary considerably from one jurisdiction to another, and ultimately will depend on the tax regime of the jurisdictions within which a person is tax resident. Therefore the Directors strongly recommend that Holders obtain tax advice from an appropriate source in relation to the tax liability arising from the holding of Units in a Fund and any investment returns from those Units. It is the Director's intention to manage the affairs of each Fund so that it does not become resident outside of Ireland for tax purposes.

The Unit Trust may be subject to withholding, VAT, transfer taxes or other similar taxes based on the investments made or the income or gains received by the Unit Trust and the Unit Trust is not required to consider the effect of such withholding tax in making investments. The Unit Trust makes no representation that the Unit Trust is eligible for or obligation to obtain treaty benefits for any investment in any country.

The above statements, which are intended as a general guide only, reflect the Manager's understanding of current tax law, regulation and practice applicable to investors beneficially holding their Units as investments in the above named jurisdictions. All investors should seek their own professional advice as to tax matters before investing.

7 MANAGEMENT OF THE UNIT TRUST

7.1 Manager

The Manager was incorporated in Ireland on 22 March 1999 and is ultimately a wholly-owned subsidiary of Principal Financial Group Inc. The authorised share capital of the Manager is €2,000,000. The issued and paid up share capital of the Manager is €950,002. The Manager has the right under the Trust Deed to retire at any time upon the appointment of a successor as provided in the Trust Deed. It may be removed by the Trustee in certain circumstances, including where the Holders of not less than 50% of the Units in the Unit Trust for the time being in issue so request. The company secretary of the Manager is Matsack Trust Limited.

The Trust Deed contains provisions governing the responsibilities of the Manager and provides for its indemnification in certain circumstances, subject to exclusions in the case of fraud or negligence of which it may be guilty in relation to its duties.

The Manager has delegated certain duties to the Administrator, the Investment Manager and other parties, subject to the supervision and direction by the Directors of the Manager and subject to compliance with the requirements of the Central Bank. It is intended that the Unit Trust will be centrally managed and controlled in Ireland.

7.2 Directors of the Manager

Barbara Wenig

Barbara Wenig is the Executive Managing Director and Global Head of Client Experience, Operations & Technology for Principal Asset Management, the global investment management division for Principal Financial Group, based in New York. Barbara has responsibility for advancing strategic initiatives, managing relationships with board members, clients, and industry constituents, and engaging in new business efforts in support of Principal Asset Management globally. She also oversees operations, client experience, and technology for Principal Asset Management and chairs its operating committee. Prior to joining Principal, Barbara held a number of leadership roles within asset management, most recently as managing director, head of client platform for Neuberger Berman, where she oversaw the operating platform and led strategic initiatives for the global client coverage organisation and sat on the firm's operating committee. She started her career in finance within the insurance industry.

Barbara earned a BA from Mercyhurst University in Erie, PA, majoring in finance and business administration. She also earned an MBA from The Ohio State University in Columbus, OH, and is a Chartered Financial Analyst charter holder. She serves on the board of Mercyhurst University as well as on The Ohio State University Fisher College of Business Finance Advisory Board.

Bronwyn Wright

Bronwyn Wright is an independent non-executive Director and former Managing Director for a global financial institution having worked in Capital Markets and Banking, where she was Head of Securities and Fund Services for Ireland with responsibility for the management, growth and strategic direction of the securities and fund services business, which included funds, custody, depositary, security finance and global agency and trust.

Due to her role in managing, leading and growing the European depositary business, Bronwyn has extensive knowledge of regulatory requirements and best market practice in the UK, Luxembourg, Jersey, Ireland and the Cayman Islands. She has sat and chaired the boards of the applicable legal vehicles for the depositary businesses in each jurisdiction. Due to her engagement in due diligence exercises she also understands the Nordics, Germany and Asia. She has also been engaged in pre-acquisition due diligence in Asia and has led a post-acquisition integration across EMEA. Bronwyn holds a degree in Economics and Politics as well as a Master's degree in Economics from University College Dublin. Bronwyn is past chairperson of the Irish Funds Industry Association committee for Depositary Services. She is a former lecturer for the Institute of Bankers in the Certificate and Diploma in Mutual Funds. She is co-author of the Institute of Bankers Diploma in Legal and

Regulatory Studies. She has written numerous industry articles, chaired and participated in industry seminars in Europe and the US. She was on an Executive Committee for the Technological University Dublin School of Accounting and Finance postgraduate doctorate programme.

Donnacha Loughrey

Donnacha Loughrey is Chief Executive Officer (PCF-8) for the Manager with overall responsibility for the day-to-day management and steering of the business activities of the Manager. Prior to joining the Manager, Donnacha established and successfully scaled up Crossroads Capital Management (“**CCM**”) as a reputable, independent third party alternative investment fund manager and UCITS management company in Ireland. Donnacha has held several pre-approval controlled functions (“**PCF**”) under the Central Bank’s fitness and probity regime and has held numerous fund board directorships. Prior to setting up CCM, Donnacha was Head of Alternative Investments and Third-Party Funds at KBC Fund Management Ltd and was a founding member of the alternative investments business. Previously he was employed an Associate Director at Goldman Sachs International within their highly regarded Global Strategy team and he began his career as an analyst within the Global Asset Allocation team at Merrill Lynch Asset Management. His professional qualifications include Chartered Alternative Investment Analyst Association and he is also a member of the Global Association of Risk Professionals. He has been an Associate member of the Chartered Financial Analyst Institute, formerly as an Associate member of the Institute of Investment Management and Research since 1994. He received his Bachelor Business Studies from Trinity College Dublin in 1991 and holds a MSc in Investment & Treasury (Hons.) from Dublin City University Business School in 1994. He has established a large network of relationships with a variety of global asset managers and service providers and has been a regular contributor and presenter at funds industry conferences.

James Bowers

James Bowers is the Managing Director and Head of Global Wealth Platforms for Principal Asset Management. James is responsible for driving growth and managing operations for the international wealth business, and engages in all aspects of new business initiatives to deliver platform scale and profitability. He manages teams in London and Dublin. Prior to joining Principal in July 2022, James was Global Head of Product and Distribution Services with Janus Henderson Investors and has also held executive roles at several other global asset managers including Aviva Global Investors and NPI Asset Management. He has also held various fund board directorships in the UK and Luxembourg and been a contributing member to several fund industry bodies and committees.

James Firn

James Firn is an independent non-executive Director and was an employee of Russell Investments from 1988 until his retirement in June 2014. He spent eight years advising Russell Investment’s US investment advisory, mutual fund, and ERISA businesses before relocating to London in 1996. During his 18 years with Russell Investments in London he managed several departments, including all the assurance functions, product development and marketing teams. He was the principal liaison with government, regulatory and industry groups in EMEA, and advised members of senior management in other regions in which the Russell Group operates on business, product, and legal matters. Currently James is a non-executive director on the boards of fund management, fund and MiFID companies authorised by the Central Bank, the Financial Conduct Authority in the UK and CIMA in the Cayman Islands. He holds a law degree from Southern Methodist University, Dallas, Texas, and is a member of the Washington State, American and International Bar Associations as well as the UK’s Institute of Directors.

Joel Pitz

Joel Pitz is senior vice president and interim chief financial officer for Principal Financial Group®. Joel leads the company’s global finance functions including investor relations, corporate accounting, tax, treasury, procurement, corporate segment activities, and enterprise worksite functions. Joel joined the company in 1995 and has held several leadership positions. Most recently, he served as senior vice president and controller, and prior to that, served as vice president and chief financial officer for Principal International where he was responsible for overseeing global finance and strategy for operations across Asia and Latin America.

Joel currently serves on several boards, including Principal International Asia, Principal Global Investors Ireland, Elevate by Principal, University of Iowa Professional Accounting Council, and the Greater Des Moines Partnership Economic Development Board. He earned his bachelor's degree in accounting from the University of Iowa and is licensed in the state of Iowa as a certified public accountant.

John O'Connell

John O'Connell is an independent non-executive Director and the current Chairman of the Board. He has almost thirty years' experience in international investment and funds governance. John has sat on the boards of investment funds and banks in Ireland, the UK and mainland Europe and currently acts as director to a number of Irish domiciled funds and management companies. He has run multi-billion dollar portfolios across all global asset classes for an international client base and managed investment fund businesses operating in European markets. Having worked with a variety of fund promoters such as Citigroup, Bank of Tokyo and Irish Life (both as an executive and non-executive), he has a keen insight into the pressures and opportunities presented by the global funds industry. John is an honours graduate of Trinity College Dublin (Economics), a Fellow of the Chartered Institute of Securities and Investment (FCSI) and a qualified Member (IoD Dip) of the Institute of Directors.

7.3 Trustee

The Manager has appointed The Bank of New York Mellon SA/NV, Dublin Branch to act as the trustee and depositary to the Unit Trust. The Trustee is incorporated in Belgium as a credit institution. The Trustee holds a Belgian banking license and has nine branch offices in London, Dublin, Frankfurt, Amsterdam, Luxembourg, Milan, Paris, Copenhagen, and Madrid. The Trustee is authorised by the National Bank of Belgium ("**NBB**"), and since 4 November 2014 is regulated by the European Central Bank ("**ECB**"). The NBB has categorised the Trustee as a significant credit institution under the Single Supervisory Mechanism ("**SSM**").

The Bank of New York Mellon is a principal banking subsidiary of The Bank of New York Mellon Corporation. The Bank of New York Mellon is a New York state-chartered bank, which houses investment services businesses, including asset servicing, alternative investment services, treasury services, broker-dealer services and wealth management.

The Bank of New York Mellon Corporation is a publicly owned company whose stock ("**BK**") is traded on the New York Stock Exchange. The Bank of New York Mellon and The Bank of New York Mellon SA/NV are both wholly owned by The Bank of New York Mellon Corporation. The Bank of New York Mellon Corporation is incorporated in the state of Delaware with corporate headquarters at 240 Greenwich Street New York, NY 10286, United States. Together, the BNY group of companies are present in 35 countries and serve more than 100 markets. BNY is a leading provider of financial services for institutions, corporations and high-net-worth individuals. As of quarter two 2024, BNY group had US\$49.5 trillion in assets under custody and/or administration.

The duty of the Trustee is to provide safekeeping, oversight and asset verification services in respect of the assets of the Unit Trust and each Fund, and in accordance with the terms of the Trust Deed and the provisions of UCITS V, the Trustee shall carry out functions in respect of the Unit Trust including but not limited to the following:

- (i) the Trustee shall, in respect of each Fund, hold in custody all financial instruments capable of being registered or held in a financial instruments account opened in the Trustee's books and all financial instruments capable of being physically delivered to the Trustee;
- (ii) the Trustee shall verify each Fund's ownership of all or any assets (other than those referred to in (i) above) and maintain and keep up-to-date a record of such assets it is satisfied are owned by the Funds;
- (iii) the Trustee shall ensure effective and proper monitoring of each Funds' cash flows;
- (iv) the Trustee shall be responsible for certain oversight obligations in respect of the Unit Trust – see "Summary of Oversight Obligations" below.

In accordance with the Trust Deed, the Trustee may delegate duties and functions in relation to (i) and (ii) above, subject to certain conditions. A list of the Trustee's delegates can be found at Appendix F. The liability of the Trustee will not be affected by virtue of any such delegation.

Duties and functions in relation to (iii) and (iv) above may not be delegated by the Trustee.

Summary of Oversight Obligations

The Trustee is obliged to ensure, among other things, that:

- (i) the sale, issue, redemption and cancellation of Units effected on behalf of the Funds are carried out in accordance with the conditions imposed by the Central Bank and the Trust Deed;
- (ii) the value of Units is calculated in accordance with the Regulations and the Trust Deed;
- (iii) in transactions involving the assets of the Funds, any consideration is remitted to it within the usual time limits;
- (iv) each Fund's income is applied in accordance with the Regulations and the Trust Deed;
- (v) the instructions of the Manager are carried out unless they conflict with the Regulations or the Trust Deed; and
- (vi) it has enquired into the conduct of the Unit Trust in each Accounting Period and reports thereon to the Holders. The Trustee's report will be delivered to the Manager in good time to enable the Manager to include a copy of the report in the annual report of the Unit Trust. The Trustee's report will state whether in the Trustee's opinion each Fund has been managed in that period:
 - (A) in accordance with the limitations imposed on the investment and borrowing powers of the Fund imposed by the Trust Deed or the Regulations; and
 - (B) otherwise in accordance with the provisions of the Trust Deed.
 - (C) If the Unit Trust has not complied with a) or b) above, the Trustee will state why this is the case and will outline the steps that the Trustee has taken to rectify the situation. The oversight duties provided for above may not be delegated by the Trustee to a third party.
 - (D) In discharging its role, the Trustee shall act honestly, fairly, professionally, independently and in the interests of the Unit Trust, the Funds and the Holders.

7.4 Investment Manager

Pursuant to an investment advisers agreement (as amended and novated) dated 21 October 2019, and further amended by way of an amendment agreement dated 20 November 2024 (the "**Investment Manager Agreement**"), the Manager has appointed Principal Global Investors, LLC to manage all of the assets in the Funds (save for those Funds which have been classified as Shariah Funds). The Investment Manager is also the primary entity that promotes the Unit Trust.

7.5 Shariah Investment Manager

Pursuant to an Investment Management Agreement (as amended) dated 1 March 2024 (the "**Shariah Investment Manager Agreement**"), the Manager has appointed Principal Islamic Asset Management Sdn Bhd to manage all of the assets in the Shariah Funds.

7.6 Sub-Investment Managers

The Investment Manager and the Shariah Investment Manager may delegate some or all of their investment management responsibilities for any of the Funds they manage to Sub-Investment Managers. Details of any Sub-Investment Manager appointed by the Investment Manager or Shariah Investment Manager in respect of a Fund but not paid directly out of the assets of the relevant Fund are available upon request and will be set out in the Supplement and/or periodic reports for that Fund.

7.7 Shariah Adviser

The Manager has appointed Amanie Advisors Sdn Bhd as its Shariah Adviser pursuant to Shariah Adviser Agreement.

Amanie Advisors Sdn Bhd is a Shariah advisory, consultancy, training and research and development boutique for institutional and corporate clientele focusing on Islamic financial services. It has been established with the aim of addressing the global needs for experts and Shariah scholars' pro-active input. One of the first global boutique Shariah advisory houses for Islamic Finance, Amanie Advisors Sdn Bhd was founded in 2005 by internationally renowned Shariah scholar Tan Sri Dr Mohd Daud Bakar. The company is led by Tan Sri Dr. Mohd Daud Bakar and teamed by an active and established panel of consultants covering every aspect related to the Islamic banking and finance industry both in Malaysia and the global market. Currently the team comprises of eight (8) full-time consultants who represent dynamic and experienced professionals with a mixture of Shariah law, corporate finance, accounting, product development, and education. Amanie Advisors Sdn Bhd is also a registered Shariah Advisers (Corporation) with the Securities Commission. Since 2005, Amanie Advisors Sdn Bhd has acquired nineteen (19) years of experience in the advisory role of unit trusts and as at 30 September 2024 it had advised more than 170 funds locally and globally.

Dr. Mohamed Ali Elgari (Chairman)

Dr. Mohamed Ali Elgari is a Professor of Islamic Economics and the former Director of the Centre for Research in Islamic Economics at King Abdul Aziz University in Saudi Arabia. Dr Elgari is the recipient of the Islamic Development Bank Prize in Islamic Banking and Finance and holds the KLIFF Islamic Finance Award for Most Outstanding Contribution to Islamic Finance (Individual).

He is a member on the editorial board of several academic publications in the field of Islamic Finance and Jurisprudence, among them Journal of the Jurisprudence Academy (of the IWL), Journal of Islamic Economic Studies (IDB), Journal of Islamic Economic (IAIE, London), and the advisory board of Harvard Series in Islamic Law, Harvard Law School.

Dr. Elgari is also an advisor to numerous Islamic financial institutions throughout the world and is notably on the Shariah board of the Dow Jones Islamic index as well as a member of the Islamic Fiqh Academy and the Islamic Accounting & Auditing Organisation for Islamic Financial Institution (AAIOFI). He obtained his PhD in Economics from the University of California, USA.

Dr. Mohd Daud Bakar (Executive Member)

Dr. Mohd Daud Bakar is the Chairman of the Amanie Group and was previously the Deputy Vice-Chancellor at the International Islamic University Malaysia. He is currently the Chairman of the Shariah Advisory Council at the Central Bank of Malaysia, the Securities Commission of Malaysia, Labuan Financial Services Authority and the First Abu Dhabi Bank.

Dr. Mohd Daud is a Shariah board member of the Dow Jones Islamic Market Index (New York), Muzn Islamic Banking (The National Bank of Oman), BNP Paribas (Bahrain), Bank of London and Middle East (London), amongst other financial institutions. In the corporate world, he sits as a member of the PNB Investment Committee. Previously, he served as a Board Director at Sime Darby Property Berhad and Chairman to Malaysia Islamic Economic Development Foundation (YaPEIM). He is also the third Chair Professor in Islamic Banking and Finance of Yayasan Tun Ismail Mohamed Ali Berdaftar (YTI) PNB at Faculty of Economics and Muamalat, Universiti Sains Islam Malaysia (USIM). He holds two degrees namely Bachelor of Shariah (Fiqh wa Usuluhu) from Kuwait University and Bachelor of Jurisprudence (external) from University of Malaya, Malaysia and PhD from University of St. Andrews, Scotland.

Dr. Muhammad Amin Ali Qattan

Dr. Qattan is a highly regarded Shariah Scholar and is currently the Director of Islamic Economics Unit, Centre of Excellence in Management at Kuwait University.

Not only is he an accredited trainer in Islamic Economics, he is also a lecturer as well as a prolific author of texts and articles on Islamic economics and finance. He also serves as the Shariah advisor to many reputable institutions such as Ratings Intelligence, Standard & Poors Shariah Indices, Al Fajer Retakaful amongst others. He obtained B.A. Islamic Economics from Al-Imam University, Riyadh, Saudi Arabia and Ph.D. Islamic Banking, Birmingham University, United Kingdom

Dr. Osama Al Dereai

Dr Osama Al Dereai is a renowned Shariah scholar and has extensive experience in teaching, consulting and research in the field of Islamic finance.

Dr Al Dereai is a Shariah board member of various financial institutions which include the First Leasing Company, Barwa Bank, First Investment Company and Ghanim Al Saad Group of Companies amongst others. He received his B.Sc. Hadith Al Sharif, International Islamic University of Medina, MA from International Islamic University Malaysia and he also holds PhD in Islamic Transactions from University of Malaya, Malaysia.

7.8 Administrator

The Administrator is a designated activity company incorporated in Ireland on 31 May 1994 and is engaged in the provision of fund administration, accounting, registration, transfer agency and related shareholders services to collective investment schemes and investment funds. The Administrator is authorised by the Central Bank under the Investment Intermediaries Act 1995. The Administrator is a wholly-owned indirect subsidiary of The Bank of New York Mellon Corporation.

The duties and functions of the Administrator, will include, inter alia, the calculation of the Net Asset Value and Net Asset Value per Unit of each Fund, the provision of facilities for the certification and registration of Unit, the keeping of all relevant records and accounts of the Unit Trust as may be required with respect to the obligations assumed by it pursuant to the Administration Agreement, assisting the Auditors in relation to the audit of the financial statements of the Unit Trust and preparing such other reports, accounts and documents as may from time to time be required in relation to the Unit Trust and the Funds of the Unit Trust.

7.9 Conflicts of Interest

Each of the Manager, the Administrator, the Trustee, the Investment Manager and the Sub-Investment Managers (each a "**Connected Person**") may in the course of their businesses have conflicts of interest with the Unit Trust. Each Connected Person will, however, have regard in such event to its obligations to act in the best interests of Holders when undertaking any investments where conflicts of interest may arise and will seek to resolve such conflicts fairly.

The Investment Manager will have regard in such event to its obligations under the Investment Manager Agreement and, in particular, to its obligations to act in the best interests of the Unit Trust and of the relevant Fund when undertaking any investments where potential conflicts of interests may arise. Each of the Sub-Investment Managers will have regard in such event to its obligations under the Sub-Investment Investment Manager Agreement and, in particular, to its obligations to act in the best interests of the Unit Trust and of the relevant Fund when undertaking any investments where potential conflicts of interests may arise. The Administrator will have regard in such event to its obligations under the Administration Agreement. The Trustee will have regard in such event to its obligations under the Trust Deed.

Please also refer to the section in Appendix C entitled "Portfolio Transactions, Manager's Unit Dealing and Manager's Remuneration Policy".

The preceding list of potential conflicts of interest does not purport to be a complete enumeration or explanation of all of the conflicts of interest that may be involved in an investment in the Unit Trust.

APPENDIX A: INVESTMENT RESTRICTIONS

Investments may only be made as permitted by this Prospectus and the Regulations and subject to any restrictions and limits set out in this Prospectus and the Regulations. These restrictions include the following provisions:

1 Permitted Investments

Investments of each Fund are confined to:

- 1.1 Transferable securities and money market instruments which are either admitted to official listing on a stock exchange in an Member State or non-Member State or which are dealt on a market which is regulated, operates regularly, is recognised and open to the public in an Member State or non-Member State (and which in each case is listed in Appendix E).
- 1.2 Recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year.
- 1.3 Money market instruments other than those dealt on a regulated market.
- 1.4 Units or shares of UCITS.
- 1.5 Units or shares of AIFs.
- 1.6 Deposits with credit institutions.
- 1.7 FDI.

2 Investment Limits

- 2.1 A Fund may invest no more than 10% of its Net Asset Value in transferable securities and money market instruments other than those referred to in paragraph 1 above.
- 2.2 A Fund shall not invest any more than 10% of its Net Asset Value in securities of the type to which Regulations 68(1)(d) of the Regulations apply. This restriction will not apply in relation to investment by each Fund in certain U.S. securities known as Rule 144A securities provided that:
 - (a) The relevant securities have been issued with an undertaking to register the securities with the U.S. Securities and Exchanges Commission within one year of issue; and
 - (b) the securities are not illiquid securities i.e. they may be realised by each Fund within seven days at the price, or approximately at the price, at which they are valued by the Fund.
- 2.3 A Fund may invest no more than 10% of its Net Asset Value in transferable securities or money market instruments issued by the same body provided that the total value of transferable securities and money market instruments held in the issuing bodies in each of which it invests more than 5% is less than 40%.
- 2.4 Subject to the prior approval of the Central Bank, the limit of 10% in 2.3 is raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. If a Fund invests more than 5% of its Net Asset Value in these bonds issued by one issuer, the total value of these investments may not exceed 80% of the Net Asset Value of the Fund.
- 2.5 The limit of 10% in 2.3 is raised to 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State or its local authorities or by a non-Member State or public international body of which one or more Member States are members.
- 2.6 The transferable securities and money market instruments referred to in 2.4 and 2.5 shall not be taken into account for the purpose of applying the limit of 40% referred to in 2.3
- 2.7 A Fund shall not invest more than 20% of its assets in deposits made with the same body.
- 2.8 The risk exposure of each Fund to a counterparty to an OTC derivative may not exceed 5% of its Net Asset Value. This limit is raised to 10% in the case of a credit institution authorised in the EEA, a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988, or a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

- 2.9 Notwithstanding paragraphs 2.3, 2.7 and 2.8 above, a combination of two or more of the following issued by, or made or undertaken with, the same body may not exceed 20% of the Net Asset Value of a Fund:
- (a) investments in transferable securities or money market instruments;
 - (b) deposits, and/or
 - (c) counterparty risk exposures arising from OTC derivative transactions.
- 2.10 The limits referred to in 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9 above may not be combined, so that exposure to a single body shall not exceed 35% of the Net Asset Value of a Fund.
- 2.11 Group companies are regarded as a single issuer for the purposes of 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9. However, a limit of 20% of the Net Asset Value of a Fund may be applied to investment in transferable securities and money market instruments within the same group.
- 2.12 A Fund may invest up to 100% of its Net Asset Value in different transferable securities and money market instruments issued or guaranteed by any Member State, its local authorities, Non-Member States or public international bodies of which one or more Member States are members or any of the following:

OECD Governments (provided the relevant issues are investment grade), Government of the People's Republic of China, Government of Brazil (provided the issues are investment grade), Government of India (provided the issues are investment grade), Government of Singapore, European Investment Bank, European Bank for Reconstruction and Development, International Finance Corporation, International Monetary Fund, Euratom, The Asian Development Bank, European Central Bank, Council of Europe, Eurofima, African Development Bank, International Bank for Reconstruction and Development, (the World Bank), The Inter-American Development Bank, European Union, Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Government National Mortgage Association (Ginnie Mae), Student Loan Marketing Association (Sallie Mae), Federal Home Loan Bank, Federal Farm Credit Bank, Tennessee Valley Authority, Straight-A Funding LLC and Export-Import Bank.

Where a Fund invests in accordance with this provision, the Fund must hold securities from at least 6 different issues, with securities from any one issue not exceeding 30% of its Net Asset Value.

3 Investment in Collective Investment Schemes (CIS)

- 3.1 A Fund may not invest more than 20% of its Net Asset Value in any one CIS.
- 3.2 Investment in AIFs may not, in aggregate, exceed 30% of its Net Asset Value.
- 3.3 The CIS are prohibited from investing in more than 10% of net assets in other open-ended CIS.
- 3.4 When a Fund invests in the units of other CIS that are managed, directly or by delegation, by the Manager or by any other company with which the Manager is linked by common management or control, or by a substantial direct or indirect holding, that Manager, or other company may not charge subscription, conversion or redemption fees on account of that Fund's investment in the units of such other CIS.
- 3.5 Where by virtue of an investment in the units of another CIS, the Manager or Investment Manager receives a commission on behalf of the Fund (including a rebated commission) the Manager or Investment Manager shall ensure that the relevant commission is paid into the property of the Fund.

4 Index Tracking UCITS

- 4.1 A Fund may invest up to 20% of its Net Asset Value in shares and/or debt securities issued by the same body where the investment policy of the Fund is to replicate an index which satisfies the criteria set out in the Central Bank Requirements and is recognised by the Central Bank.
- 4.2 The limit in 4.1 may be raised to 35% of the Net Asset Value of the Fund, and applied to a single issuer, where this is justified by exceptional market conditions.

5 General Provisions

- 5.1 The Manager acting in connection with all of the CISs it manages, may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.

5.2 Each Fund may acquire no more than:

- (a) 10% of the non-voting shares of any single issuing body;
- (b) 10% of the debt securities of any single issuing body;
- (c) 25% of the units of any single CIS;
- (d) 10% of the money market instruments of any single issuing body.

NOTE: The limits laid down in 5.2(b) to 5.2(d) above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the money market instruments or the net amount of the securities in issue cannot be calculated.

5.3 5.1 and 5.2 shall not be applicable to:

- (a) transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities;
- (b) transferable securities and money market instruments issued or guaranteed by a non-Member State;
- (c) transferable securities and money market instruments issued by public international bodies of which one or more Member States are members;
- (d) shares held by each Fund in the capital of a company incorporated in a non-member State which invests its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State. This waiver is applicable only if in its investment policies the company from the non-Member State complies with the limits laid down in 2.3 to 2.11, 3.1, 3.2, 5.1, 5.1, 5.4, 5.5 and 5.6 and provided that where these limits are exceeded, 5.5 and 5.6 are observed;
- (e) shares held by a Fund in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the redemption of Units at Holders' request exclusively on their behalf.

5.4 A Fund need not comply with the investment restrictions herein when exercising subscription rights attaching to transferable securities or money market instruments which form part of their assets.

5.5 The Central Bank may allow a recently authorised Fund to derogate from the provisions of 2.3 to 2.12, 3.1, 3.2, 4.1 and 4.2 for six months following the date of its authorisation, provided it observes the principle of risk spreading.

5.6 If the limits laid down herein are exceeded for reasons beyond the control of a Fund, or as a result of the exercise of subscription rights, the Fund must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its Holders.

5.7 A Fund may not carry out uncovered sales of: transferable securities; money market instruments; units of CIS; or FDI.

5.8 A Fund may hold ancillary liquid assets.

6 **Financial Derivative Instruments (FDIs)**

6.1 A Fund's global exposure relating to FDI must not exceed its total Net Asset Value.

6.2 Position exposure to the underlying assets of FDI, including embedded FDI in transferable securities or money market instruments, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank Requirements. (This provision does not apply in the case of index based FDI provided the underlying index is one which meets with the criteria set out in the Central Bank Requirements).

6.3 A Fund may invest in OTC FDI provided that the counterparties to the OTC FDI are institutions subject to prudential supervision and belonging to categories approved by the Central Bank.

6.4 Investment in FDI is subject to the conditions and limits laid down by the Central Bank.

APPENDIX B: VALUATION TECHNIQUES

- 1 The Net Asset Value of the Funds shall be calculated by or on behalf of the Manager on each Dealing Day by ascertaining the value of the assets of the Funds at the Valuation Point on such Dealing Day and deducting from such amount the liabilities of the Funds on such Dealing Day.
- 2 The assets of the Funds will be valued as follows:
 - (a) assets listed or traded on a stock exchange or over-the-counter market (other than those referred to at (g) and (h) below) for which market quotations are readily available shall be valued at the closing or last known market price which for the purposes of the Unit Trust shall be understood to mean the mid-price or, if unavailable or unrepresentative, the last quoted trade price on the principal exchange or market for such investment at the Valuation Point provided that the value of any investment listed on a stock exchange or over-the-counter market but acquired or traded at a premium or at a discount outside or off the relevant stock exchange or on an over-the-counter market may, with the approval of the Trustee, be valued taking into account the level of premium or discount as at the date of valuation of the investment.
 - (b) If for specific assets the mid-prices or the last quoted trade prices do not, in the opinion of the Manager, reflect their fair value, or are not available the value of the security is its probable realisation value which must be estimated in care and good faith. The asset may be valued by the Manager or alternatively valued by a competent person appointed by the Manager and approved for the purpose by the Trustee, or alternatively to that, the asset can be valued by any other means provided that the value is approved by the Trustee.
 - (c) if the assets are listed or traded on several stock exchanges or over-the-counter markets, the mid-price on the stock exchange or over-the-counter market which, in the opinion of the Manager, constitutes the main market for such assets will be used;
 - (d) in the event that any of the investments are not listed or traded on any stock exchange or over-the-counter market, such securities shall be valued at their probable realisation value which must be estimated in care and good faith. The asset may be valued by the Manager or alternatively valued by a competent person appointed by the Manager and approved for the purpose by the Trustee, or alternatively to that, the asset can be valued by any other means provided that the value is approved by the Trustee. Such probable realisation value will be determined;
 - (i) by using the original purchase price;
 - (ii) where there have been subsequent trades with substantial volumes, by using the last traded price provided the Manager in consultation with the Investment Manager considers such trades to be at arm's length;
 - (iii) where the Manager in consultation with the Investment Manager believes the investment has suffered a diminution in value, by using the original purchase price which shall be discounted to reflect such a diminution;
 - (iv) if the Manager in consultation with the Investment Manager believes a mid-quotation from a broker is reliable, by using such a mid-quotation or, if unavailable, a bid quotation.
 - (e) Due to the nature of such unquoted securities and the difficulty in obtaining a valuation from other sources, such competent professional may be related to the Investment Manager;
 - (f) cash and other liquid assets will be valued at their face value with interest accrued, or less debit interest, where applicable;
 - (g) units or shares in open-ended collective investment schemes will be valued at the latest available net asset value; units or shares in other collective investment schemes will, if listed or traded on a stock exchange or over the counter market, be valued at a mid-quotation from a broker (or if unavailable, a bid quotation, or, if unavailable, the latest quoted trade price,) or, if unavailable or unrepresentative, (as determined by the Manager in its absolute discretion,) the latest available net asset value as deemed relevant to the collective investment scheme;

- (h) listed securities which are traded at a premium or discount on an over-the-counter market shall be valued, with the approval of the Trustee, by taking such premia/discounts thereon which shall be provided by an independent broker or market maker. However, the Manager may adjust the value of such investments if it considers such adjustment is required to reflect the fair value thereof;
- (i) any value expressed otherwise than in the Base Currency of the Fund (whether of an investment or cash) and any non-Base Currency borrowing shall be converted into the Base Currency at the rate (whether official or otherwise) which the Manager deems appropriate in the circumstances;
- (j) exchange traded FDI will be valued at the settlement price as determined by the market where the instrument is traded. If such settlement price is not available, such value shall be calculated in accordance with (d) above, i.e. being the probable realisation value estimated with care and in good faith by the Manager or alternatively valued by a competent person appointed by the Manager and approved for the purpose by the Trustee, or alternatively to that, the security can be valued by any other means provided that the value is approved by the Trustee. Forward foreign exchange contracts shall be valued with reference to the prevailing market maker quotations, namely, the price at which a new forward contract of the same maturity could be undertaken, or, if unavailable, at the settlement price provided by the counterparty.
- (k) Notwithstanding the provisions of paragraphs (a) to (j) above:-
 - (i) The Directors or their delegate may, at its discretion in relation to any particular Fund which is a short-term money market fund, value any investment using the amortised cost method of valuation where such collective investment schemes comply with the Central Bank's Requirements for short-term money market funds and where a review of the amortised cost valuation vis-à-vis market valuation will be carried out in accordance with the Central Bank Requirements.
 - (ii) Where it is not the intention or objective of the Directors to apply amortised cost valuation to the portfolio of the Fund as a whole, a money market instrument within such a portfolio shall only be valued on an amortised basis if the money market instrument has a residual maturity of less than 3 months and does not have any specific sensitivity to market parameters, including credit risk.
- (l) Notwithstanding the generality of the foregoing, the Directors may with the approval of the Trustee adjust the value of any investment if they consider that such adjustment is required to reflect the fair value in the context of currency, marketability, dealing costs and/or such other considerations which are deemed relevant. The rationale for adjusting the value must be clearly documented.
- (m) If the Directors deem it necessary, a specific investment may be valued under an alternative method of valuation approved by the Trustee and the rationale/methodologies used must be clearly documented.

3 Foreign exchange rates used to value the assets of the relevant Fund shall be rates taken at 4.00 p.m. London time on the relevant Dealing Day.

APPENDIX C: PORTFOLIO TRANSACTIONS, MANAGER'S UNIT DEALING AND MANAGER'S REMUNERATION POLICY

The Manager, the Trustee, the Investment Manager and any Connected Person of any of them may, but are not obligated to purchase, sell, or deal in securities and other investments from, to, or with the Unit Trust provided such transactions are conducted at arm's length and in the best interest of Holders.

In connection with the selection of dealers and counterparties, the Investment Manager primarily seeks to obtain the best overall terms. In pursuing this objective, the Investment Manager considers all matters it deems relevant, including the breadth of the market in the security, the price of the security, the financial condition and executing capability of the broker or dealer and the reasonableness of the compensation, if any, received by the broker, dealer or underwriter (for the specific transaction or on a continuing basis.) Such transactions may not always result in the best net price available to the Manager in the securities market.

In effecting portfolio transactions, the Investment Manager will use its best efforts to select the dealer or counterparty most capable of providing the services necessary to obtain the best available terms. The full range and quality of services available will be considered in making these determinations. In those instances in which it is reasonably determined that more than one dealer or counterparty can offer the services needed to obtain the best available terms, consideration may be given to those dealers or counterparties that supply investment research to the Investment Manager. The Investment Manager may deem certain of these services useful in the performance of its obligations, but may be unable and will not attempt to determine the amount by which such services may reduce the expenses of the Funds. Not all of these services may be useful to the Funds.

The personnel of the Investment Manager who will be making the investment decisions on behalf of the Funds may manage money for other customers, employing investment strategies which may or may not be similar to those to be employed on behalf of the Funds.

The Investment Manager may, but shall not be required to, aggregate orders for the Funds with those of other customers and allocate an average purchase or sale price thereto. Different customers may have different tax, economic and other considerations which are applicable in determining whether a particular transaction is in their best interests. Accordingly, a decision by the Investment Manager to engage in a transaction on behalf of the Funds does not mean that a similar decision would be made by it on behalf of another customer.

Dealing Commission Arrangements

The Manager, Investment Manager, the Trustee and any of their Connected Persons may effect transactions by or through the agency of another person with whom the Manager, the Investment Manager, the Trustee or any of their Connected Persons have an arrangement under which that party will from time to time provide to or procure for the Manager, the Investment Manager and any of their Connected Persons goods, services or other benefits, such as research and advisory services, computer hardware associated with specialised software or research services and performance measures etc. The benefits provided under such arrangements must be those which assist in the provision of investment services to the Unit Trust and the nature of these benefits is such that their provision can reasonably be expected to benefit a Fund as a whole and may contribute to an improvement in a Fund's performance and that of the Manager, the Investment Manager or any of their Connected Persons in providing services to a Fund but no direct payment is made for them but instead are provided as a result of trades placed by the Manager, the Investment Manager and any of their Connected Persons with that party. For the avoidance of doubt, such goods and services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payments. In any event, the execution of transactions will be on best execution standards and brokerage rates will not be in excess of customary institutional full-service brokerage rates. Details of any such dealing commission arrangements will be disclosed in the periodic reports of the Funds.

To the extent services and other benefits are provided to any entity within the European Union as a result of trades placed by it, the arrangements will be consistent with the rules promulgated under MiFID II and MiFIR regarding the use of dealing commission.

Rebates

The Manager and any of its Connected Persons shall not retain the benefit of any cash commission or rebate (being cash commission repayment made by a broker or dealer to the Manager and/or any of its

Connected Persons) paid or payable by any such broker or dealer in respect of any business placed with such broker or dealer by the Manager or any of its Connected Persons for or on behalf of any Fund. Any such cash commission rebate received from any such broker or dealer shall be held for the account of the relevant Fund.

Remuneration Policy

The Manager has a remuneration policy in place to ensure compliance with the relevant requirements under UCITS V and SFDR. This remuneration policy imposes remuneration rules on staff and senior management within the Manager whose activities have a material impact on the risk profile of the Funds. The Manager will ensure that its remuneration policies and practices are consistent with sound and effective risk management, will not encourage risk-taking which is inconsistent with the risk profile of the Funds and the Trust Deed, and will be consistent with the requirements UCITS V and SFDR. The Manager will ensure that the remuneration policy is at all times consistent with the business strategy, objectives, values and interests of the Unit Trust, the Funds and Holders, and includes measures to ensure that all relevant conflicts of interest may be managed appropriately at all times. Further details with regard to the remuneration policy are available at the following website: <https://www.principalam.com/eu/investment-products/ucits-funds> . A copy of the remuneration policy may be obtained free of charge on request from the Manager.

Connected Persons

Connected Persons in relation to a company means:

- (a) any person or company beneficially owning, directly or indirectly, 20% or more of the ordinary share capital of that company or able to exercise, directly or indirectly, 20% or more of the total votes of that company; or
- (b) any person or company controlled by a person who or which meets one or both of the descriptions given in (a); or
- (c) any member of the group of which that company forms part; or
- (d) any director or officer of that company or any of its connected persons as defined in (a), (b) or (c).

Transactions with Connected Persons

The Investment Manager may, but will be under no obligation to, make purchases, as agent on behalf of the Unit Trust, from Connected Persons of it. Any such transactions with a Connected Person will be effected in compliance with applicable law and at a price that reflects such person's normal mark-up or commission, which will be no less favourable to the Funds than the prices paid by other customers of such person.

The Investment Manager also may, but will be under no obligation to, effect hedging and other risk-management contracts on behalf of the Unit Trust with the Trustee or Connected Persons of the Trustee. Any such contracts will be consistent with the Trustee's or the relevant Connected Person's established investment policies and guidelines and on terms no less advantageous to the relevant Fund than those conducted at arm's length transaction with an unconnected third party and in the best interests of Holders.

In addition, any cash of the Unit Trust may be deposited, subject to the provisions of the Central Bank Acts 1942, as amended, with the Trustee or any Connected Person thereof or invested in certificates of deposit or banking instruments issued by the Trustee or any Connected Person thereof. Banking and similar transactions may also be undertaken with or through the Trustee or any Connected Person thereof.

There is no prohibition on transactions with the Unit Trust and the Manager, the Trustee, the Administrator, the Investment Manager, their delegates or sub-delegates and any associated or group company of any of them and none of them shall have any obligation to account to the Holders for any benefits so arising and any such benefits may be retained by the relevant party PROVIDED THAT any such transaction is made on terms no less favourable to the Unit Trust than could reasonably have been obtained by the Unit Trust if the transaction had been conducted at arm's length and, in the case of a sale or purchase of investments, is in the best interests of Holders and:

- (a) a certificate has been obtained by the Manager, from a person approved by the Trustee as being independent and competent to give such certificate, to the effect that the terms of the transaction are no less favourable to the Unit Trust than could reasonably have been obtained by the Unit Trust if the transaction had been conducted at arm's length and in the best interests of Holders; or

- (b) such transaction has been executed on an organised investment exchange on the best terms reasonably obtainable; or
- (c) where (a) and (b) are not practical such transaction has been executed on the terms which the Trustee (or in the case of any such transaction entered into by the Trustee, the Manager) is satisfied confirm with the principle that such transaction be conducted at arm's length in the best interests of Holders.

PROVIDED FURTHER that where the Manager, the Trustee, the Investment Manager, the Administrator, their delegates or sub-delegates and any associated or group company of any of them acts as agent for the Unit Trust in respect of any such sale or purchase it shall only be entitled to receive from the Unit Trust such compensation or other benefit as it would be usual to receive for such transaction had it been conducted at arm's length and in the best interests of Holders.

The Trustee (or in the case of a transaction involving the Trustee, the Directors) shall document how it complied with paragraphs (a), (b) and (c) above and where transactions are conducted in accordance with paragraph (c), the Trustee (or in the case of a transaction involving the Trustee, the Directors), must document the rationale for being satisfied that the transaction conformed to the principles outlined above.

Potential conflicts of interest may arise from time to time from the provision by the Trustee and/or its affiliates of other services to the Unit Trust and/or other parties. For example, the Trustee and/or its affiliates may act as the depositary, trustee, custodian and/or administrator of other funds. It is therefore possible that the Trustee (or any of its affiliates) may in the course of its business have conflicts or potential conflicts of interest with those of the Unit Trust and/or other funds for which the Trustee (or any of its affiliates) act.

Where a conflict or potential conflict of interest arises, the Trustee will have regard to its obligations to the Unit Trust and will treat the Unit Trust and the other funds for which it acts fairly and such that, so far as is practicable, any transactions are effected on terms which are not materially less favourable to the Unit Trust than if the conflict or potential conflict had not existed. Such potential conflicts of interest are identified, managed and monitored in various other ways including, without limitation, the hierarchical and functional separation of the Trustee's functions from its other potentially conflicting tasks and by the Trustee adhering to its "Conflicts of Interest Policy" (a copy of which can be obtained on request from the head of compliance for the Trustee).

Subject to compliance with any relevant law or regulation the Manager is entitled, but is under no obligation, to deal as principal in Units of the Unit Trust. Requests to subscribe or redeem Units may be executed as sales or, as the case may be, purchases by the Manager provided that the prices quoted by the Manager are not less favourable to the investor or redeeming Holder than would otherwise be the case.

APPENDIX D: GENERAL INFORMATION ON THE UNIT TRUST

Classes of Units within a Fund

A Fund may be maintained for more than one class of Units and additional classes of Units may be created relating to a previously established Fund. Holders and potential investors should refer to the most recent Supplement and/or class Supplement for details of the existing classes which will also be included in the Unit Trust's semi-annual and annual reports. The Manager and the Trustee may charge their services at different rates for different classes of Units within a Fund. The Manager may issue Accumulation Units, Income Units or Income Plus Units and classes may be hedged or unhedged. The details applicable to each class will be pre-determined and as described in the relevant Supplement.

Segregation of Assets

The assets of each Fund shall belong exclusively to that Fund, shall be segregated from the assets of each other Fund, shall not be used to discharge directly or indirectly the liabilities of or claims against any other Fund and shall not be available for any such purpose.

Valuation of a Fund

Each Fund will be valued on each Dealing Day at the Valuation Point (being such time as is determined by the Manager and notified to the Trustee and as set out in the relevant Supplement) and Units may normally be purchased or realised by application to the Administrator, the Hong Kong Representative or the Singapore Representative on a Dealing Day.

Reports and Accounts

The Unit Trust's year end is 30 September in each year. Audited accounts and a report in relation to the Unit Trust will be made available within four months after the conclusion of each annual Accounting Period. The Manager will also make available unaudited semi-annual reports within two months after the end of the six-month period ending 31 March for the Unit Trust in each year. The audited accounts and report and unaudited semi-annual reports can be downloaded from the website <https://www.principalam.com/eu/investment-products/ucits-funds> or may be obtained, free of charge, on request from the Manager, the distributors or the representatives of the Unit Trust. Such accounts and reports will contain a statement of the value of the net assets of each Fund and of the investments comprised therein as at the year-end or the end of such six-month period.

Publication of Prices

The Net Asset Value per Unit will be published daily. Such prices may be obtained from the Manager on request and further information including details of any other relevant publication will be available at the following website: <https://www.principalam.com/eu/investment-products/ucits-funds>. They will usually be the prices applicable to the previous day's trades and are therefore only indicative. The Manager accepts no responsibility for prices being incorrectly printed.

From time to time the Manager may also decide to publish, together with the Net Asset Values of Units, prices in currencies other than the Base Currency for Units in a Fund. However, such prices will be indicative only, being a function of an exchange rate determined by the Manager and the Net Asset Value per Unit that applies at the relevant time. The exchange rate will not necessarily represent an exchange rate that an investor has received, or could be expected to receive.

Publication of indicative prices in any particular currency does not mean that the Manager will accept applications for the issue or redemption of Units in that currency (refer to Subscription for Units and Redemption of Units sections above).

Jurisdiction

The Unit Trust is governed by the laws of Ireland and the Manager and Trustee submit to the jurisdiction of the Courts of Ireland.

Trust Deed

Copies of the Trust Deed (and the supplements thereto) may be obtained from the Manager or the Trustee or may be inspected during normal working hours at the offices of the Manager or the Trustee, free of charge. Subject to the prior approval of the Central Bank, the Trustee and the Manager may modify or add to the provisions of the Trust Deed if the Trustee is satisfied that the modification or addition either; (i) does not materially prejudice the interests of the Holders, does not operate to release to any material extent the

Trustee or the Manager or any other person from any responsibility to the Holders and will not increase the costs and charges payable out of the Unit Trust; or (ii) is necessary for compliance with any fiscal, statutory or official requirements, or (iii) is made to correct a manifest error, or (iv) is made to amend the definition of Market, or (v) is made to amend the definition of Specific Investment.

The Trustee shall act as depositary of each Fund's assets and shall be responsible for the oversight of the Unit Trust to the extent required by and in accordance with applicable law, rules and regulations. The Trustee shall exercise the supervisory duties in accordance with applicable law, rules and regulations as well as the Trust Deed.

The Trustee shall perform its obligations with due skill, care and diligence as determined in accordance with the standards and practices of a professional depositary for hire in the markets or jurisdictions in which the Trustee performs services under the Trust Deed.

The Trustee shall be liable to the Manager, or to the Holders, for all losses suffered by them as a result of the Trustee's negligent or intentional failure to properly fulfil its obligations as set out in the Trust Deed and UCITS V. The Trustee shall be liable to the Manager and to the Holders, for the loss by the Trustee or a duly appointed third party of any financial instruments held in custody (determined in accordance with UCITS V) and shall be responsible for the return of financial instruments or corresponding amount to the Fund of the Unit Trust without undue delay. The Trust Deed shall contain indemnities in favour of the Trustee for certain losses incurred but excluding circumstances where the Trustee is liable for the losses incurred.

The Trust Deed shall continue in force unless and until terminated by either party giving not less than six months' notice in writing to the other party, although termination may be immediate in certain circumstances, such as the insolvency of the Trustee.

If a decision is made to terminate a Fund in accordance with the provisions of the Trust Deed, the Manager shall give notice thereof to the Holders in the relevant Fund and by such notice fix the date at which such termination is to take effect, which date shall be for such period after the service of such notice as the Manager shall in its sole and absolute discretion determine,

Upon an (envisaged) removal or resignation of the Trustee, the Manager shall with due observance of the applicable requirements of the Central Bank, appoint a successor Trustee. The Trustee may not be replaced without the approval of the Central Bank.

The Trust Deed shall be governed by the laws of Ireland and the courts of Ireland shall have non-exclusive jurisdiction to hear any disputes or claims arising out of or in connection with the Trust Deed.

Meetings of Holders

The Trust Deed contains detailed provisions for meetings of Holders. Meetings of Holders of the Unit Trust may be convened by the Trustee, the Manager or the Holders of at least 10% in value of the Units in issue on not less than twenty-one days' notice. Notices of meetings will be posted to Holders. Holders may appoint proxies, who need not themselves be Holders. The quorum for a meeting to pass an Extraordinary Resolution will be Holders present in person or by proxy and holding or representing not less than 10% of the Units for the time being in issue or, for an adjourned meeting, Holders present in person or by proxy whatever their number or the number of Units held by them.

On a show of hands every Holder who (being an individual) is present in person or by proxy or (being a corporation) is present by a representative or one of its officers as its proxy shall have one vote. On a poll every Holder present in person or by representative or proxy shall have one vote for every Income Unit or Income Plus Unit for which they are registered as the Holder and such number of votes (including fractions) for every Accumulation Unit for which they are registered as the Holder as reflects the relative value of an Accumulation Unit to an Income Unit. Such voting rights may be amended in the same manner as any other provision of the Trust Deed.

An Extraordinary Resolution is a resolution proposed as such at a meeting of Holders at which a quorum is present and passed by a majority of 75% of the total number of votes cast.

The Trust Deed provides that a resolution which in the opinion of the Trustee affects one class or sub-class only of Units will be duly passed if passed at a separate meeting of the Holders of that class or sub-class of Units. If, in the opinion of the Trustee, the resolution affects more than one class or sub-class of Units but does not give rise to a conflict of interest between the Holders of the Units of the relevant classes or sub-classes, the resolution will be duly passed at a single meeting of the holders of the Units of those classes or sub-classes. If the resolution affects, in the opinion of the Trustee, more than one class or sub-class of

Units and gives or may give rise to a conflict of interests between the holders of Units of the respective classes or sub-classes the resolution will only be duly passed if in lieu of being passed at a single meeting of the holders of Units of those classes or sub-classes, it is passed at separate meetings of the holders of Units of those classes or sub-classes.

Duration of the Unit Trust

The Unit Trust will continue indefinitely until terminated in accordance with the Trust Deed either (a) by the Manager on the date one year following the date of the Trust Deed or on any date thereafter if the value of net assets of the Unit Trust amounts, at such date, to less than US \$20,000,000 or its equivalent or (b) by either the Manager or the Trustee at any time in certain circumstances (e.g. if any law is passed which renders it illegal or, in the opinion of the Manager or the Trustee, impracticable or inadvisable to continue the Trust), or (c) by Extraordinary Resolution of a meeting of Holders passed at any time, or (d) by either the Trustee or the Manager giving at least six months' notice to the other.

The Manager has the power to terminate any particular Fund on the date one year following the date of the Trust Deed or at any date thereafter if the Net Asset Value of the Fund amounts to less than US \$10,000,000 or its equivalent.

The Trustee has power at its absolute discretion to terminate the Unit Trust or any particular Fund or any class of Units within a Fund:

- (a) if the Manager shall go into liquidation (save voluntary liquidation) or a receiver is appointed over the assets of the Manager and is not discharged within 60 days; or
- (b) if, in the opinion of the Trustee, the Manager is incapable of performing its duties satisfactorily or shall bring the Unit Trust or any Fund or any class of Units into disrepute; or
- (c) if the Unit Trust or any Fund or any class of Units shall cease to be authorised or otherwise officially approved pursuant to the Regulations; or
- (d) if within such time as the Trustee considers a reasonable time after the removal of the Manager pursuant to the Trust Deed the Trustee is unable to find a corporation acceptable to the Trustee and the Central Bank to act as the new manager of the Unit Trust.

The Trust Deed provides that upon the Unit Trust or any Fund therein or class of Units within a Fund being terminated the Trustee shall:

- (a) sell all investments held for the Unit Trust or the relevant Fund or all or part of the investments held for the relevant Fund which proportionately relate to the relevant class of Units and in the latter case the Trustee shall have regard to the interests of continuing Holders; and
- (b) distribute all net cash proceeds derived from the redemption of the assets of the Unit Trust or the relevant Fund or of the part of the relevant Fund to Holders of the relevant classes or class in proportion to their respective interests.

The Trustee shall not be bound (except in the case of final distribution) to distribute any monies for the time being in its hands the amount of which is insufficient to pay the equivalent of one cent in respect of each Unit. In addition the Trustee shall be entitled to retain out of any monies in its hands as part of the property of the Unit Trust or of the relevant Fund, full provision for all costs, charges, expenses, claims and demands incurred or made in connection with or arising out of the termination of the Trust or the relevant Fund or the relevant class of Units. The costs associated with the termination of any Fund are borne by that Fund prior to the proceeds of the Fund being distributed to Holders in that Fund.

Any unclaimed proceeds or other cash held by the Trustee at the end of the expiration of twelve months from the date on which the same were payable will be paid into Court subject to the right of the Trustee to deduct therefrom any expenses that the Trustee may incur in making such payments.

Litigation

The Unit Trust is not involved in any litigation nor are the Directors of the Manager aware of any pending or threatened litigation.

Documents available for inspection

Copies of the Trust Deed, the Prospectus, the Supplements, the PRIIPs KIDs and the KIIDs, and, after publication thereof, the periodic reports and accounts may be obtained free of charge on request from the Manager and the Hong Kong Representative. They are also available on www.principalglobal.com.

The following documents may also be inspected at the registered office of the Manager during usual business hours on weekdays, except public holidays:

- (a) A list of all past and present directorships and partnerships held by each Director over the last 5 years.
- (b) The Material Contracts.
- (c) Trust Deed.
- (d) The Regulations.
- (e) The periodic reports and accounts.

To the extent not captured in this Prospectus or in the event such details have changed and have not been reflected in a revised version of this Prospectus, up-to-date information will be provided to Holders on request, free of charge regarding:

- the identity of the Trustee and a description of its duties and of conflicts of interest that may arise; and
- a description of any safe-keeping functions delegated by the Trustee, a list of delegates and sub-delegates and any conflicts of interest that may arise from such delegation.

Unless otherwise disclosed to investors, where a Fund is marketed in another Member State, the Manager shall make available facilities to perform the following tasks directly or through one or more third parties ("**Facility Agent**"):

- (a) process subscription, repurchase and redemption orders and make other payments to Holders relating to the Units of the Fund;
- (b) provide Holders with information on how orders referred to in point (a) can be made and how repurchase and redemption proceeds are paid;
- (c) facilitate the handling of information and access to procedures and arrangements relating to the Holders' exercise of their rights arising from their investment in the Fund in the Member State where the Fund is marketed;
- (d) make the information and documents required pursuant to Chapter IX of the UCITS Directive available to Holders under the conditions laid down in Article 94 of the UCITS Directive, for the purposes of inspection and obtaining copies thereof;
- (e) provide Holders with information relevant to the tasks that the facilities perform in a durable medium;
- (f) act as a contact point for communicating with the competent authorities.

The facilities to perform the tasks referred to above shall be provided in the official language or one of the official languages of the Member State where the Fund is marketed or in a language approved by the competent authorities of that Member State.

Material Contracts

The following contracts have been entered into and are or may be material:

- (a) The Investment Management Agreement (as amended and novated) dated 21 October 2019 and further amended by way of an amendment agreement dated 20 November 2024 made between the Manager and the Investment Manager pursuant to which the Investment Manager agreed to provide investment management services to the Manager in respect of each Fund of the Unit Trust (with the exception of the Shariah Funds). This agreement may be terminated by either party on giving 6 months' written notice to the other although, in certain circumstances, the agreement may be terminated forthwith by notice in writing by either party to the other or upon the occurrence of certain events as specified in the agreement such as the liquidation of the other party. The Agreement contains certain indemnities in favour of the Investment Manager (which are restricted to exclude matters to the extent that they are attributable to the fraud, bad faith, negligent act or commission or wilful misconduct of the Investment Manager).

- (b) The Shariah Investment Manager Agreement (as amended) dated 1 March 2024 made between the Manager and the Shariah Investment Manager pursuant to which the Shariah Investment Manager agreed to provide investment management services to the Manager in respect of each Shariah Fund of the Unit Trust. This agreement may be terminated by either party on giving 3 months' written notice to the other although, in certain circumstances, the agreement may be terminated forthwith by notice in writing by either party to the other or upon the occurrence of certain events as specified in the agreement such as the liquidation of the other party.
- (c) The Administration Agreement dated 31 January 2011 pursuant to which the Manager has appointed the Administrator to carry out the day to day administration of each of the Funds. This agreement may be terminated by either party on giving 90 days' written notice to the other although, in certain circumstances as set out in the Administration Agreement, the agreement may be terminated forthwith by notice in writing by either party to the other.

The Administration Agreement contains certain indemnities in favour of the Administrator which are restricted to exclude matters arising by reason of the negligence, wilful default or fraud of the Administrator or any of its directors, officers, employees and agents in the performance of its functions and services under the Administration Agreement.
- (d) The Amended and Restated Marketing and Distribution Services Agreement (as amended) dated 3 December 2024 made between the Manager and Principal Global Investors (Europe) Limited pursuant to which Principal Global Investors (Europe) Limited has been appointed as global distributor of the Funds (with the exception of the Shariah Funds).
- (e) The Shariah Adviser Agreement dated 24 November 2023 between the Manager and the Shariah Adviser pursuant to which the Shariah Adviser agreed to provide investment advisory services to the Manager and the Shariah Investment Manager in respect of the Shariah Funds as listed in Appendix 1 to that agreement.

Please refer to each Supplement for details of relevant material contracts (if any) in respect of a Fund.

Holder Communications

The Directors, the Manager, the Trustee and the Administrator will not be liable for any interception of Account Communications. "**Account Communications**" means all current and future account statements; Unit Trust documents (including all supplements and amendments thereto); notices (including privacy notices); letters to Holders; annual audited financial statements; regulatory communications and other information, documents, data and records regarding investments in the Unit Trust.

The Administrator and its respective directors, officers, employees and agents shall be fully indemnified and shall not be liable to any Holder in the Unit Trust for any loss, damage, expense (including without limitation, legal counsel and professional fees and other costs and expenses incurred in connection with the defence of any claim, action or proceedings) occasioned by act or omission of the Administrator and/or its respective directors, officers and employees in connection with the electronic delivery of Account Communications other than as a result of the negligence, wilful default or fraud of the Administrator in the performance of its duties as Administrator of the Unit Trust.

The Administrator and its respective directors, officers, employees and agents shall be fully indemnified and shall not be liable to any Holder in the Unit Trust for any loss, damage, expense (including without limitation, legal counsel and professional fees and other costs and expenses incurred in connection with the defence of any claim, action or proceedings) occasioned by act or omission of the Administrator and/or its respective directors, officers and employees in connection with any transactions sent and received by way of facsimile or other electronic medium other than as a result of the negligence, wilful default or fraud of the Administrator in the performance of its duties as Administrator of the Unit Trust.

APPENDIX E: MARKETS

With the exception of permitted investments in unlisted securities and FDI, investments will be restricted to the following stock exchanges and markets listed below in accordance with the Central Bank Requirements. For the purposes of this Appendix, reference to "unlisted securities" may include securities that are listed on a market or exchange where such exchange is not set out in the below list in accordance with Regulation 68(1)(c) and 68(2)(a) of the Regulations. The Central Bank does not issue a list of approved stock exchanges or markets.

Stock Exchanges

- (i) Any stock exchange which is:
 - (A) located in any Member State; or
 - (B) located in any of the following countries:
 - Canada
 - Japan
 - New Zealand
 - Norway
 - Liechtenstein
 - Switzerland
 - United Kingdom
 - United States of America; or
- (ii) any stock exchange included in the following list:

Argentina	the stock exchanges in Buenos Aires;
Australia	the Australian stock exchange;
Bermuda	the Bermuda Stock Exchange Limited
Botswana	the stock exchange in Botswana
Brazil	the stock exchanges in Sao Paulo and Rio de Janeiro;
Brunei	the Brunei Stock Exchange;
Cambodia	the Cambodia Securities Exchange;
Cayman Islands	the Cayman Islands Stock Exchange;
Chile	the stock exchange in Santiago;
China	the stock exchanges in Shanghai and Shenzhen;
Colombia	the stock exchanges in Bogota, Medellin and Cali;
Croatia	the Zagreb Stock and Commodities Exchange;
Egypt	the stock exchanges in Cairo and Alexandria;
Ghana	the stock exchange in Ghana;
Hong Kong	the stock exchange in Hong Kong;
Hungary	the stock exchange in Budapest;
Iceland	the stock exchange in Reykjavik;
India	the stock exchanges in Bombay, Madras, Delhi, Ahmedabad, Bangalore, Cochin, Gauhati, Magadh, Pune, Hyderabad, Ludhiana, Uttar Pradesh and Calcutta;

Indonesia	the stock exchanges in Jakarta and Surabaya;
Israel	the stock exchange in Tel Aviv;
Jordan	the stock exchange in Amman;
Kuwait	the Kuwait Stock Exchange;
Laos	the Lao Securities Exchange;
Malaysia	the stock exchanges in Kuala Lumpur (including the BURSA Malaysia Berhad) and Bumiputra;
Mexico	the stock exchange in Mexico City;
Morocco	the stock exchange in Casablanca;
Myanmar	the Yangon Stock Exchange;
Nigeria	the stock exchange in Lagos, Kaduna and Port Harcourt;
Pakistan	the stock exchanges in Karachi, Lahore and Islamabad;
Peru	the stock exchange in Lima;
Philippines	the stock exchanges in Manila and Makati;
Qatar	the Qatar Exchange
Russia	RTS Stock Exchange and MICEX;
Saudi Arabia	the Saudi Stock Exchange
Singapore	the stock exchange in Singapore;
South Africa	the stock exchange in Johannesburg;
South Korea	the stock exchange in Seoul;
Sri Lanka	the stock exchange in Colombo;
Taiwan	the stock exchange in Taipei;
Thailand	the stock exchange in Bangkok;
Tunisia	the Tunisia Stock Exchange;
Turkey	the stock exchange in Istanbul;
Uruguay	the stock exchange in Montevideo;
United Arab Emirates	the Abu Dhabi Securities Exchange, Dubai Financial Market and NASDAQ Dubai;
Venezuela	the stock exchanges in Caracas and Maracaibo;
Vietnam	the stock exchange in Ho Chi Minh; and
Zimbabwe	the Zimbabwe Stock Exchange.

(iii) Markets

The market organised by the International Capital Market Association;

The (i) market conducted by banks and other institutions regulated by the Prudential Regulation Authority (PRA); and (ii) market in non-investment products which is subject to the guidance contained in the "**Non-Investment Products Code**" drawn up by the participants in the London market, including the PRA and the Bank of England;

The market in U.S. government securities conducted by primary dealers regulated by the Federal Reserve Bank of New York and the US Securities and Exchange Commission;

The over-the-counter market in the United States regulated by the Financial Industry Regulatory Authority Inc. ("**FINRA**"), also described as the over-the-counter market in the United States conducted by primary and secondary dealers regulated by the Securities and Exchanges Commission and by FINRA (and by banking institutions regulated by the U.S. Comptroller of the Currency, the Federal Reserve System or Federal Deposit Insurance Corporation);

NASDAQ

The over-the-counter market in Japan regulated by the Securities Dealers Association of Japan;

AIM – the Alternative Investment Market in the United Kingdom which is regulated and operated by the London Stock Exchange;

The French market for "**Titres de Creance Negotiable**" (over-the-counter market in negotiable debt instruments);

The over-the-counter market in Canadian Government Bonds, regulated by the Investment Dealers Association of Canada.

In relation to any exchange traded FDI contract, any stock exchange on which such contract may be acquired or sold and which is regulated, operates regularly, is recognised and open to the public and which is (a) located in any jurisdiction listed in (i) above, (b) listed in (ii) or (iii) above, or included in the following list:

Bourse de Montreal

The Channel Islands Stock Exchange;

The Chicago Board of Trade;

The Chicago Mercantile Exchange;

The Chicago Board Options Exchange;

EDX London;

New York Board of Trade;

New York Mercantile Exchange;

New Zealand Futures and Options Exchange;

Hong Kong Futures Exchange;

Osaka Securities Exchange;

Singapore Commodity Exchange;

Tokyo International Financial Futures Exchange.

APPENDIX G: THE SHARIAH FUNDS

The Shariah Funds shall, at all times, invest in activities and instruments that are allowed under Shariah principles and in accordance with the requirements of the Central Bank and shall not invest in activities and instruments that are prohibited under Shariah principles based on the Shariah Adviser's established parameters. This Appendix outlines the Shariah investment guidelines and restrictions applicable to the Shariah Funds only, while the relevant Supplement of each Shariah Fund will detail additional specific investment guidelines and restrictions relating to that Shariah Fund which will also apply.

1 **Shariah Investment Guidelines**

The Shariah Funds' securities and other investments will be subject to strict Shariah investment guidelines. These are set out in the Supplement for the relevant Shariah Fund. The Shariah Investment Manager and any Sub-Investment Managers, where applicable, shall observe these criteria when considering securities for investment by the relevant Shariah Fund.

At all times and in addition to any other investment restrictions set out here or in the relevant Supplement, a Shariah Fund shall only invest in activities and instruments allowed under Shariah and shall not be invested in activities and instruments that are prohibited under Shariah.

1.1 **Rules of divestment of Shariah non-compliant investment assets in relation to securities.**

The following guidelines will be applicable to the Shariah Investment Manager and/or any applicable Sub-Investment Manager where any of the following instances occur in respect of the securities held by a Shariah Fund.

"Shariah-compliant" securities which are subsequently considered "Shariah non-compliant"

This section refers to those securities which have been earlier classified as Shariah-compliant but due to certain reasons, such as changes in the operation of the securities in question, are subsequently recognised as Shariah non-compliant. In this regard, if on the date the securities become Shariah non-compliant, the value of the securities held exceeds the original investment costs, a Shariah Fund must liquidate them. Any capital gains arising from the disposal of the Shariah non-compliant securities may be kept by a Shariah Fund. However, any excess capital gains derived from the disposal after the announcement day at a market price that is higher than the closing price on the announcement day shall be channelled to charitable bodies approved by the Shariah Adviser.

A Shariah Fund is allowed to hold its investment in the Shariah non-compliant securities if the market price of the said securities is below the original investment cost for a maximum holding period of 3 months. It is also permissible for the Shariah Fund to keep dividends received during the holding period, subject to purification.

In addition, during the holding period of the Shariah non-compliant securities, a Shariah Fund is permitted to subscribe to Shariah-compliant securities of other companies offered by the company whose non Shariah-compliant securities are held by the Shariah Fund.

"Shariah non-compliant securities"

If the Shariah Investment Manager and/or, if applicable, any Sub-Investment Manager mistakenly invests in Shariah non-compliant securities, the Shariah Investment Manager must dispose of any non Shariah-compliant securities within one month of becoming aware of the status of such securities. Any gain made in the form of capital gain or dividend received during or after the disposal of these securities must be channelled to charitable bodies approved by the Shariah Adviser. A Shariah Fund has a right to retain only the original investment costs, which may include brokerage fee and other transaction costs.

1.2 **"Cleansing Process"**

Any income or distribution received by a Shariah Fund from securities which relate to income from Shariah non-compliant investments assets are considered impure income. The level of the impure income which relates to such dividends shall be determined by the provider of the index specified in the relevant Supplement. This impure income is subject to an income purification process as determined by the Shariah Adviser, from time to time, whereby the impure income will be channelled to charitable organisations, which are approved by the Shariah Adviser.

1.3 **Periodic Review**

The Shariah Adviser will review and screen the details of each of the Shariah Fund's portfolio submitted to it on a monthly basis to ensure compliance with the prescribed investment policies and guideline approved by the Shariah Adviser.

1.4 **Borrowing**

In relation to the Shariah Funds, the Shariah Adviser must advise that any borrowing carried out pursuant to the terms set out in section 2.5 of the General Information section of this Prospectus is Shariah compliant.

1.5 **Valuation**

In relation to the Shariah Funds and the valuation techniques set out in Appendix B of this Prospectus, the following additional provisions shall apply to the Shariah Funds, where relevant:

Certificates of deposit, treasury bills, bank acceptances, trade bills and other negotiable instruments which are in accordance with Shariah shall be valued at the closing price, or if unavailable, the last known market price for such certificates of deposit, treasury bills, bank acceptances, trade bills and other negotiable instruments.

The value of any exchange traded futures contracts, share price index futures contracts, options and other quoted derivatives, which are in accordance with Shariah shall be based on the settlement price as determined by the market in question as at the Valuation Point. Where the settlement price is not available the value of such contract shall be its probable realisation value which must be estimated with care and in good faith by a competent person appointed by the Manager and approved for the purpose by the Depository.

1.6 **OTC Counterparties**

The counterparties to OTC derivatives will be also subject to the following requirements:

- (a) The counterparty is a financial institution with a minimum long-term rating provided by any domestic or international rating agency that indicates a strong capacity for timely payment of financial obligations.
- (b) The Investment Manager has determined it is able to value the investment concerned to ensure that the pricing is reasonable.
- (c) The counterparty is able to provide a reliable and verifiable valuation on a regular basis (preferably every business day) or at any time as may be requested by the Investment Manager.
- (d) The counterparty must be ready to unwind, buy-back or close out the transaction upon request of the Investment Manager at a fair value based on methods or bases which have established.

1.7 **Additional Investment Limits Applicable to the Shariah Funds**

In respect of Shariah Funds investing in transferable securities, the investment limit as in 2.3 of Appendix A is (subject to the prior approval of the Central Bank) raised to 25% in the case of Sukuk that are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect Sukuk-holders. If a Shariah Fund invests more than 5% of its Net Asset Value in these Sukuk issued by one issuer, the total value of these investments may not exceed 80% of the Net Asset Value of the Shariah Fund.

Shariah Funds may only acquire 10% of the Sukuk of any single issuing body. This limit as well as the other limits set out in section 5.2 of the Appendix A, where applicable, may be disregarded at the time of acquisition if at that time the gross amount of the Sukuk or of the money market instruments, or the net amount of the securities in issue cannot be calculated.

The limit in relation to the investment in index tracking funds in 4 of Appendix A also applies to Sukuk.

APPENDIX H: DEFINITIONS

For the purposes of this Prospectus the following expressions shall have the following meanings:

"A Class Holder"	means a Holder of A Class Units.
"A Class Units"	means the Units named A Class Units in a Fund.
"Accounting Period"	means a calendar year ending 30 September.
"Accumulation Units"	means Units of a Class of a Fund designated as an Accumulation Class.
"Administration Agreement"	means the administration agreement dated 31 January 2011 between the Manager and the Administrator, as may be amended from time to time.
"Administrator"	means BNY Mellon Fund Services (Ireland) Designated Activity Company or any successor thereto duly appointed administrator in succession to the said BNY Mellon Fund Services (Ireland) Designated Activity Company in accordance with the requirements of the Central Bank;
"ADR"	means an American depository receipt.
"AIF"	means an alternative investment fund as defined in regulation 5(1) of the European Union (Alternative Investment Fund Managers) Regulations 2013 (S.I. No. 257 of 2013) and/or any other collective investment undertaking meeting the criteria outlined in Regulation 68(e) of the Regulations.
"Application Form"	means the form used to establish an account for purchases, redemptions and switches of Units issued in respect of the Unit Trust from time to time.
"B Class Holder"	means a Holder of B Class Units.
"B Class Units"	means the Units named B Class Units in a Fund.
"Benchmark Regulation"	means Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds.
"Base Currency"	means the US Dollar for each of the Funds unless otherwise stated in the relevant Supplement.
"Business Day"	means any day, other than a Saturday or Sunday, on which banks in Ireland are open for business.
"Central Bank Requirements"	means the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 as may be amended, supplemented, consolidated, substituted in any form or otherwise from time to time, and any other statutory instrument, regulations, rules, conditions, notices, requirements or guidance of the Central Bank issued from time to time applicable to the Unit Trust, the Manager on behalf of the Unit Trust and/or the Trustee.

"Central Bank"	means the Central Bank of Ireland or any successor regulatory authority with responsibility for authorising and supervising the Unit Trust.
"CIS"	means an open-ended collective investment scheme within the meaning of Regulation 68(1)(e) of the Regulations and which is prohibited from investing more than 10% of its assets in other such collective investment schemes;
"Connected Persons"	has the meaning attributed to it in Appendix C, PORTFOLIO TRANSACTIONS, MANAGER'S UNIT DEALING AND MANAGER'S REMUNERATION POLICY.
"CoCos"	means contingent convertible securities which are a form of convertible debt security that are intended to automatically and permanently convert into equity securities of the issuing entity upon the occurrence of certain 'triggers' linked to regulatory capital thresholds or where the continued viability of the entity as a going-concern is in question. CoCos will have unique conversion features which are tailored to the issuing entity and its regulatory requirements.
"CRS"	means the Standard for Automatic Exchange of Financial Account Information approved on 15 July 2014 by the Council of the Organisation for Economic Cooperation and Development, also known as the Common Reporting Standard, and any bilateral or multilateral competent authority agreements, intergovernmental agreements and treaties, laws, regulations, official guidance or other instrument facilitating the implementation thereof and any law implementing the Common Reporting Standard.
"D Class Holder"	means a Holder of D Class Units.
"D Class Units"	means the Units named D Class Units in a Fund.
"Data Protection Legislation"	means the EU data protection regime introduced by the General Data Protection Regulation (Regulation 2016/679).
"Dealing Day"	means a Business Day and/or such other day or days as the Manager may with prior notification to the Holders determine provided that there shall be at least one per fortnight.
"Dealing Deadline"	in relation to Hong Kong, shall until further notice, be 5:00 p.m. Hong Kong time, in relation to Singapore, shall until further notice, be 5:00 p.m. Singapore time, and in relation to Dublin shall, until further notice, be 10:00 a.m. Dublin time in each case on the relevant Dealing Day.
"Directors"	means the directors of the Manager or any duly authorised committee or delegate thereof, each a Director.
"Distribution Date"	means for any Fund a date as determined by the Manager on which income distributions for that Fund are to be made. Such date shall be no later than 30th November in respect of annual distributions in each year.
"EEA"	means the European Economic Area.
"EMIR"	means Regulation (EU) No 648/2012 on OTC derivatives, central counterparties and trade repositories.

"ESG"	means environmental, social and governance.
"ESG Orientated Fund"	means a Fund of the Unit Trust that, in accordance with the criteria outlined in Article 8 of SFDR, promotes environmental or social characteristics provided that the companies that the Fund invests in follow good governance practices.
"Euro", "cent" and "€"	(where the context permits) refer to the lawful currency of the Republic of Ireland.
"Extraordinary Resolution"	has the meaning attributed to it in the Trust Deed.
"F Class Holder"	means a Holder of F Class Units.
"F Class Units"	means the Units named F Class Units in a Fund.
"FATCA"	means: (a) Sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986 or any associated regulations or other official guidance; (b) any treaty, law, regulation of any other jurisdiction, or relating to an intergovernmental agreement between the U.S. and any other jurisdiction, which (in either case) facilitates the implementation of any law or regulation referred to in paragraph (a) above; or (c) any agreement pursuant to the implementation of any treaty, law or regulation in Ireland that give effect to the matters referred to in paragraphs (a) or (b) above.
"FDI"	means a financial derivative instrument.
"Foreign Person"	means (i) a person who is neither resident nor ordinarily resident in Ireland for tax purposes who has provided the Manager with the appropriate declaration under Schedule 2B TCA and the Manager is not in possession of any information that would reasonably suggest that the declaration is incorrect or has at any time been incorrect, or (ii) the Manager is in possession of written notice of approval from the Revenue Commissioners to the effect that the requirement to have been provided with such declaration is deemed to have been complied with in respect of that person or class of Holder to which that person belongs, and that approval has not been withdrawn and any conditions to which that approval is subject have been satisfied.
"Fund"	means any sub-fund of the Unit Trust established as a separate trust within the Unit Trust from time to time.
"GDR"	means a global depository receipt.
"Group Companies"	means companies which are included in the same group for the purposes of consolidated accounts, as defined in accordance with Directive 83/349/EEC or in accordance with international accounting rules.
"HK dollars"	refers to the currency of Hong Kong.
"Holder"	means any holder of Units in the Unit Trust.
"Hong Kong Business Day"	means any day, other than a Saturday or Sunday, on which banks in Hong Kong are open for business.

"Hong Kong Representative"	means Principal Investment & Retirement Services Limited.
"I Class Holder"	means a Holder of I Class Units.
"I Class Units"	means the Units named I Units in a Fund.
"Income Units"	means Units of a Class of a Fund designated as an Income Class.
"Income Plus Units"	Means Units of a Class of a Fund designated as Income Plus Class.
"Investment Manager"	means Principal Global Investors, LLC and/or such other entity that may be appointed by the Manager to provide discretionary investment management services to a Fund and such appointment shall be disclosed in the relevant Supplement, where relevant. Where the context so permits, the term Investment Manager shall also mean any Sub-Investment Manager appointed by Principal Global Investors, LLC and/or such other entity that may be appointed by the Manager to provide discretionary investment management services in respect of any Fund, particularly in the context of Appendix C, PORTFOLIO TRANSACTIONS AND MANAGER'S UNIT DEALING.
"Investor Money Regulations"	means the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) Investor Money Regulations 2015 for Fund Service Providers, as may be amended from time to time.
"Irish Taxable Person"	means any person other than: <ul style="list-style-type: none"> (a) a Foreign Person; (b) an intermediary, including a nominee, for a Foreign Person; (c) a qualifying management company within the meaning of section 739B(1) TCA; (d) an investment undertaking within the meaning of section 739B(1) of the TCA; (e) an investment limited partnership within the meaning of section 739J TCA; (f) an exempt approved scheme or a retirement annuity contract or trust scheme within the provisions of sections 774, 784 or 785 TCA; (g) a company carrying on life business within the meaning of section 706 TCA; (h) a special investment scheme within the meaning of section 737 TCA; (i) a unit trust to which section 731(5)(a) TCA applies; (j) a charity being a person referred to in section 739D(6)(F)(i) TCA; (k) a person entitled to exemption from income tax and capital gains tax under section 784A(2) TCA, section 787I TCA or section 848B TCA and the units held are assets of an approved retirement fund, an approved minimum retirement fund, a special savings incentive account or a personal retirement savings account (as defined in section 787A TCA); (l) the Courts Service; (m) a Credit Union within the meaning of section 2 of the Credit Union Act 1997;

- (n) an Irish resident company within the charge to corporation tax under section 739G(2) TCA, but only where the fund is a money market fund;
- (o) a company within the charge to corporation tax under section 110(2) TCA in respect of payments made to it by the Unit Trust;
- (p) the National Treasury Management Agency or a fund investment vehicle within the meaning of section 739D(6)(kb) TCA;
- (q) the National Asset Management Agency; and
- (r) any other person as may be approved by the Directors from time to time provided the holding of Units by such person does not result in a potential liability to tax arising to the Unit Trust in respect of that Holder under Part 27 Chapter 1A TCA;

in respect of each of which the appropriate declaration set out in Schedule 2B TCA or otherwise and such other information evidencing such status is in the possession of the Unit Trust on the appropriate date.

"Japanese Yen", "Yen", "JPY" and "¥"	means the lawful currency of Japan or any successor currency.
"KIID"	means key investor information document prepared pursuant to the requirements under the UCITS Directive.
"Mainstream Fund"	means a Fund of the Unit Trust which does not meet the criteria to qualify as either an ESG Orientated Fund pursuant to Article 8 of SFDR or a Sustainable Objective Fund pursuant to Article 9 of SFDR;
"Manager"	means Principal Global Investors (Ireland) Limited.
"Market"	means any of the markets and exchanges listed in Appendix E.
"Member State"	means any member state of the European Union.
"MiFID II"	means the Markets in Financial Instruments Directive (recast) (Directive 2014/65/EU).
"Money market instruments"	shall have the meaning prescribed to it in the Regulations.
"Money Market Funds Regulation"	means Regulation (EU) 2017/1131 of the European Parliament and of the Council as amended or supplemented from time to time, including any delegated acts adopted thereunder and any implementing rules or conditions that may from time to time be imposed thereunder by the Central Bank or ESMA.
"N Class Holder"	means a Holder of N Class Units.
"N Class Units"	means the Units named N Class Units in a Fund.
"Net Asset Value per Unit"	for any Dealing Day is calculated by dividing the assets of the relevant Fund, less its liabilities, by the total number of Units of the relevant class in issue at the Valuation Point on that Dealing Day (adjusted to reflect the proportion of the Net Asset Value of the relevant Fund attributable to Units of the relevant class in that Fund).
"Net Asset Value"	of a Fund for any Dealing Day means the value of the assets of the relevant Fund, less its liabilities.

"OECD"	means the Organisation for Economic Co-operation and Development.
"P Class Holder"	means a Holder of P Class Units
"P Class Units"	means the Units named P Class Units in a Fund
"PRIIPs KID"	means the key information document prepared pursuant to the requirements of Regulation (EU) No 1286/2014 on key information documents for packaged retail and insurance-based investment products, as amended.
"Prospectus"	means this document and, where the context so requires, means this document together with the Supplements thereto in relation to each of the Funds.
"PRC" or "China"	means the People's Republic of China (excluding for the purposes of this Prospectus the Hong Kong and Macau Special Administration Regions and Taiwan) and the term "Chinese" shall be construed accordingly.
"QFI"	means the qualified foreign investor(s) approved pursuant to the relevant PRC laws and regulations, as may be promulgated and/or amended from time to time, including qualified foreign institutional investors (QFII) and Renminbi (RMB) qualified foreign institutional investors (RQFII).
"QFI Regulations"	means the measures issued by the relevant authorities in the PRC with respect to the QFI, as may be amended.
"Rating Agency"	means a recognised agency who provide credit quality ratings of fixed income securities, such as Moody's, Fitch or Standard & Poor's.
"R Class Holder"	means a Holder of R Class Units.
"R Class Units"	means the Units named R Class Units in a Fund.
"Regulations"	means the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352) as may be amended, supplemented or consolidated from time to time, and includes any conditions that may from time to time be imposed thereunder by the Central Bank affecting the Unit Trust.
"REITS"	A REIT is typically established as a trust, corporation, or partnership structure that uses pooled capital of many investors to purchase and manage income property and/or mortgage loans.
"Related Companies"	has the meaning assigned thereto in section 2(10) of the Companies Act 2014. In general this states that companies are related where 50% of the paid up share capital of, or 50% of the voting rights in, one company are owned directly or indirectly by another company.
"Relevant Institution"	means a credit institution as specified in Regulation 7 of the Central Bank Requirements, being a credit institution authorised in the EEA, a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988, or a credit institution in a third country deemed equivalent pursuant to Article 107(4) of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential

requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012.

"Revenue Commissioners"	means the Irish Revenue Commissioners.
"Securities Financing Transactions"	means repurchase agreements, reverse repurchase agreements, securities lending agreements and any other transactions within the scope of SFTR that a Fund is permitted to engage in.
"SFDR" or "Disclosure Regulation"	means Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector, as may be amended, supplemented, consolidated, substituted in any form or otherwise modified from time to time.
"SFT Regulations or SFTR"	means Regulation 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 as may be amended, supplemented, consolidated, substituted in any form or otherwise modified from time to time.
"Shariah"	means Islamic Jurisprudence and Islamic Law.
"Shariah Fund(s)"	Any Fund(s) that proposes to make Shariah compliant investments where disclosed in the relevant Supplement.
"Shariah Investment Manager"	means any person for the time being duly appointed by the Manager as an investment manager of a Shariah Fund.
"Shariah Adviser"	means Amanie Advisors Sdn Bhd.
"Shariah Adviser Agreement"	means the consultancy agreement effective 24 November 2023 between the Manager and the Shariah Adviser as substituted, amended, supplemented, novated or otherwise modified from time to time.
"Shariah Investment Guidelines"	means the investment guidance issues in accordance with Shariah principles by the Shariah Investment Manager.
"Sukuk"	A document or certificate, documenting the undivided pro-rated ownership of underlying assets. The sakk (singular of sukuk) is freely traded at par, premium or discount. Commonly, the term sukuk is used for fixed income securities and debt securities which comply with Shariah.
"Sterling", "pence" and the sign "£"	refer to the currency of the United Kingdom of Great Britain and Northern Ireland.
"Sub-Investment Manager"	means any person for the time being duly appointed by the Investment Manager as a sub-investment manager of a Fund.
"Subscriptions/Redemptions Account"	means the account in the name of the Unit Trust through which subscription monies and redemption proceeds and dividend income (if any) for each Fund are channelled, the details of which are specified in the Application Form.
"Supplement"	means any supplement to the Prospectus issued on behalf of the Unit Trust specifying certain information in relation to a Fund and/or one or

more classes from time to time, noting that any such supplement may be issued with an information card, annex or addendum containing supplemental information on the relevant Fund or Class.

"Sustainable Investment"	means, in accordance with the definition set out in SFDR, an investment in an economic activity that contributes to an environmental or social objective, provided that such investment does not significantly harm any of those objectives and that the investee companies follow good governance practices.
"Sustainable Objective Fund"	means a Fund of the Unit Trust that, in accordance with the criteria outlined in Article 9 of SFDR has Sustainable Investment as its objective.
"Sustainability Risk"	means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment.
