Carne Global Fund Managers (Ireland) Limited is authorised in Ireland and regulated by the Central Bank of Ireland.

The key information document is accurate as at 1 January 2023.

➤ What is this product?

Type: This product is an OEIC.

Term: No fixed term.

Objectives: The Fund aims to generate a positive return for investors regardless of market movements. To achieve this objective, the Fund will employ various risk/reward-based investment strategies with an opportunistic trading approach. These strategies include those that seek to find discrepancies between market value and fair value of securities or the value of different types of securities from the same issuer; fundamental analysis of a market, industrial or geographic sector; macro-level trends in credit markets and FDI (contracts between two or more parties whose value depends on the rise and fall of an underlying asset)-based strategy.

The Fund will invest primarily in listed credit instruments, including (but not limited to) fixed or floating interest rate corporate and/or government bonds, debt securities and obligations, transferable loans and loan participations and collateralised obligations (including loan, debt and mortgage obligations). The credit instruments in which the Fund invests may be of any credit rating or unrated and may be issued by entities located in any global jurisdiction, including emerging markets.

In addition, the Fund may from time to time invest in or take exposure through FDI (contracts between two or more parties whose value depends on the rise and fall of an underlying asset), to other instruments, such as equities (e.g., shares or preferred stock) or currencies to take advantage of market conditions. The Fund may take long positions (buying and holding a security to benefit from a growth in value over the long term) or, through FDI, take short positions (exposure to a security to benefit from a fall in its value) in respect of the instruments in which it invests. The Fund may use FDI for efficient portfolio management purposes, to help manage risks and for investment purposes. The Fund may, on a temporary basis, employ leverage using FDI. Leverage may have the effect of producing gains or losses larger than the amount paid for the FDI used.

The Fund is actively managed and is not managed in reference to a benchmark.

Any income less expenses realised will not be distributed to investors but will be accumulated in the net asset value per share. Investors can redeem Shares every Friday when the banks in Dublin and London are open for business (a "Business Day") and if such day is not a Business Day, the preceding Business Day.

Portfolio transaction costs are likely to impact materially on the return on your investment due to nature of the Fund's investment strategy. These costs are paid from the assets of the Fund in addition to those costs set out in the "Charges" section below.

For full investment objective and policy details, please refer to the "Investment Objectives and Policies" section of the Fund's supplement.

Intended retail investor: As the Fund may have high volatility due to its investment policies, it may be suitable for investors who are more concerned with maximising long term (>5 years) returns rather than minimising possible short term (0-3 years) losses, having a risk tolerance broadly similar to that found in the global credit market. The Fund may be suitable for investors seeking an investment horizon of at least twelve months. Investors should have knowledge and/or experience of these types of products, or seek appropriate investment advice.

Depository: The Fund's assets are held through its Depository, which is J.P. Morgan SE – Dublin Branch.

Distribution type: The product is accumulating.

➤ What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product/benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Example investment: EUR 10,000		1 year	3 years
Minimum There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress Scenario	What you might get back after costs	EUR 3,330	EUR 4,560
	Average return each year	-66.69%	-23.02%
Unfavourable Scenario ¹	What you might get back after costs	EUR 8,720	EUR 8,990
	Average return each year	-12.76%	-3.47%
Moderate Scenario ²	What you might get back after costs	EUR 9,800	EUR 10,350
	Average return each year	-1.99%	1.14%
Favourable Scenario ³	What you might get back after costs	EUR 13,090	EUR 12,690
	Average return each year	30.85%	8.27%

¹ This type of scenario occurred for an investment from September 2021 to September 2022

² This type of scenario occurred for an investment from October 2017 to October 2020

³ This type of scenario occurred for an investment from April 2019 to April 2022

➤ What happens if Hedge Invest SGRpA is unable to pay out?

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Investment Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Company or the Depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset all or any of this loss.

➤ What are the costs?

Cost over time

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return)
- For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

Example investment: EUR 10,000	If you cash in after 1 year	If you cash in after 3 years
Total costs	EUR 629	EUR 1,057
Annual cost impact(*)	6.30%	3.34%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.48% before costs and 1.14% after costs.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

The table shows the impact on return per year		If you exit after 1 year	
One-off costs upon entry or exit	Entry costs	We do not charge an entry fee.	EUR 0
	Exit costs	3.00% of your investment before it is paid out to you.	EUR 300
Ongoing costs taken each year	Management fees and other administrative or operating costs	1.97% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 197
	Transaction costs	0.27% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 27.48
Incidental costs taken under specific conditions	Performance fees and carried interest	0.95% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. For additional information please refer to the "Fees and Expenses" section of prospectus and supplement.	EUR 94.80

➤ How long should I hold it and can I take my money out early?

The recommended minimum holding period: 3 years.

This Fund has no required minimum holding period but is designed for medium term (1-3 years) investment. This Fund may not be appropriate for investors who plan to withdraw their money within 1 year. The Fund is open-ended and, accordingly investors will have the right to request the redemption (whether in whole or in part) of their shares by contacting the Administrator of the Fund, J.P. Morgan Administration Services (Ireland) Ltd., as per the terms of the Prospectus. While it is not currently the intention of the Company, the Fund may, at the discretion of the Directors or the Manager, impose a Redemption Fee of up to 3% of the redemption proceeds in respect of Share classes.

➤ How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be made by contacting Hedge Invest SGR via email to investorsupport@hedgeinvest.it or by post to Hedge Invest SGR, c/o Investor Support, via Filippo Turati 40, 20121 Milan (Italy).
