Background to the ICAV

Description

The following information is derived from and should be read in conjunction with the full text and definitions section of the Prospectus and Supplements to the Prospectus.

GQG Global UCITS ICAV (the "ICAV") is an open-ended umbrella ICAV with segregated liability between its sub-funds. The ICAV was registered under the Irish Collective Asset-management Vehicles Act 2015 and 2021 (the "ICAV Act") on 27 October 2016 and received authorisation from the Central Bank of Ireland on 25 January 2017 as an Undertaking for Collective Investment in Transferable Securities ("UCITS") in accordance with the provisions of the European Communities (undertakings for collective investment in transferable securities) Regulation 2011, (as amended) (the "UCITS Regulations").

The instrument of incorporation ("Instrument") provides that the ICAV may offer separate classes of shares, each representing interests in a fund, with each fund comprising a separate and distinct portfolio of investments. The assets of each Fund will be invested separately on behalf of each fund in accordance with the investment objective and policies of each fund and the assets and liabilities of each fund are segregated as a matter of Irish law. The value of the shares of each Fund shall at all times equal their net asset value. The base currency of each fund will be determined by the Directors and will be set out in the Prospectus and/or Supplement for the relevant Fund.

As at 31 December 2023, the ICAV had three active funds. GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partner U.S. Equity Fund. Each a Fund, collectively the Funds:

	Approval Date	Launch Date
GQG Partners Emerging Markets Equity Fund	25 January 2017	15 February 2017
GQG Partners Global Equity Fund	3 December 2018	7 January 2019
GQG Partners U.S. Equity Fund	31 December 2020	2 February 2021

As at 31 December 2023, GQG Partners Emerging Markets Equity Fund (the "Fund") had the following share classes in issue:

Description (Continued)

See the relevant Supplement of the Fund for further details. The creation of further classes must be notified to, and cleared in advance with, the Central Bank.

Investment Objective and Policy

The investment objectives and policies for the Funds are formulated by the ICAV at the time of creation of the Funds and will be specified in the relevant Supplement to the Prospectus. The investment objectives for the Funds are set out below.

GQG Partners Emerging Markets Equity Fund

The Fund's investment objective is to provide capital appreciation over the long-term.

The investment policies of the Fund are as follows:

Under normal circumstances, the Fund will invest at least 80% of its net assets in equity and equity related securities of emerging market companies.

The equity securities in which the Fund will invest are primarily publicly traded common stocks. Equity and equity related securities include depositary receipts (including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs")), which are certificates typically issued by a bank or trust company that represent ownership interests in securities of non-U.S. companies, and Participatory Notes ("P-Notes"), which are derivative instruments designed to replicate equity exposure in certain foreign markets, for example Bangladesh, India, Pakistan, Saudi Arabia, South Korea and Taiwan. P-Notes will be used as a means of investment where direct investment is either impossible or unduly difficult due to local investment restrictions. Such P-Notes will not embed leverage. The Fund may invest in securities of companies with any market capitalisation. The Fund may also invest in securities listed on the Russian market as listed in the Prospectus without restriction. In addition, the Fund may gain exposure to Chinese securities by utilising the StockConnect Programme to purchase China A shares. The Fund may also invest in other UCITS and ETFs, up to 10% of its net assets, and equity and equity related securities that are issued by companies in developed countries.

The Fund may also retain up to 100% of its Net Asset Value in cash or cash equivalents which shall include, but shall not be limited to, short-term fixed income securities including Money Market Instruments, pending reinvestment or for use as collateral, arising from the Fund's use of Financial Derivative Instruments ("FDIs") if this is considered appropriate to the investment objective.

The Fund may engage in securities lending for efficient portfolio management only.

The Fund may invest in initial public offerings ("IPOs").

GQG Partners Global Equity Fund

The Fund's investment objective is to seek long term capital appreciation.

The investment policies of the Fund are as follows:

The Fund may invest in equity securities or equity-linked instruments, including common stock, preferred stock and options, of companies located anywhere in the world, including, but not limited to, Emerging Markets Countries and the United States. This Fund has no limitation on the capitalization size of the companies in which it invests, the industry focus of companies invested in nor on its ability to invest in securities issued from any country. The Fund will invest in various countries and various industries. The Fund will also invest in equity related securities including depositary receipts (including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs")), which are certificates typically issued by a bank or trust company that represent ownership interests in securities of non-U.S. companies.

The Fund may use the following derivative securities for investment purposes: P-Notes (as defined above) and/or Low Exercise Price Options ("LEPOs"), collectively known as "Synthetic Equities", where the use of such securities is consistent with the Fund's Strategies. The Fund may use Synthetic Equities primarily to gain access to securities which may be otherwise inaccessible to foreign investors or too costly for direct access to the underlying securities, such as due to market registration issues. For P-Notes, these countries include Bangladesh, China, India, Pakistan, Saudi Arabia, South Korea and Taiwan. Some Synthetic Equities are instruments that attempt to replicate ownership of an underlying equity security in foreign stock markets where non-resident shareholders are unable to own shares directly or find it advantageous to own shares through this indirect vehicle. Such Synthetic Equities will not embed leverage. The Fund's use of Synthetic Equities is subject to a limit of 15% of Net Asset Value.

Background to the ICAV (Continued)

Investment Objective and Policy (Continued)

GQG Partners Global Equity Fund (Continued)

The Fund may invest in securities listed on the Russian market as listed in the Prospectus without restriction. The Fund may invest in such securities, however under no circumstances will it exceed 30% of Net Asset Value. In addition, the Fund may gain exposure to Chinese securities by utilizing the Stock Connect program to purchase China A shares. The Fund may also invest in units of other UCITS and ETFs, up to 10% of its net assets, and equity and equity related securities that are issued by companies in developed countries.

The Fund may retain up to 100% of its Net Asset Value in cash or cash equivalents which shall include, but shall not be limited to, short-term fixed income securities (both sovereign and corporate) including Money Market Instruments, pending reinvestment or for use as collateral, arising from the Fund's use of FDIs if this is considered appropriate to the investment objective.

The Fund may engage in securities lending for efficient portfolio management only.

The Fund may invest in initial public offerings ("IPOs").

GQG Partners U.S. Equity Fund

The Fund's investment objective is to seek long term capital appreciation.

The investment policies of the Fund are as follows:

Under normal circumstances the Fund invests at least 80% of its net assets in equity securities or equity-linked instruments, including common stock, preferred stock and options, of U.S. companies. The Fund also may invest in equity securities of non-U.S. companies in both developed and Emerging Markets.

This Fund has no limitation on the capitalization size of the companies in which it invests nor the industry focus of companies invested in. The Fund will invest in various industries.

The Fund will also invest in equity related securities including depositary receipts (including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs")), which are certificates typically issued by a bank or trust company that represent ownership interests in securities of non-U.S. companies.

The Fund may use the following derivative securities for investment purposes: P-Notes (as defined above) and/or LEPOs (as defined above), collectively known as "Synthetic Equities," where the use of such securities is consistent with the Fund's strategies. The Fund may use Synthetic Equities primarily to gain access to securities which may be otherwise inaccessible to foreign investors or too costly or otherwise burdensome for direct access to the underlying securities, such as due to market registration issues. For P-Notes, these countries include Bangladesh, China, India, Pakistan, Saudi Arabia, South Korea and Taiwan. Some Synthetic Equities are instruments that attempt to replicate ownership of an underlying equity security in foreign stock markets where non-resident shareholders are unable to own shares directly or find it advantageous to own shares through this indirect vehicle. Such Synthetic Equities will not embed leverage. The Fund's use of Synthetic Equities is subject to a limit of 15% of Net Asset Value.

The Fund may invest in initial public offerings ("IPOs").

Ancillary Non-U.S. Investments.

The Fund may invest up to 20% of net assets in non-U.S. investments. For such investments, the Fund follows the following investment policies. In addition to its primary investments, the Fund may also invest in: units of other UCITS (subject to a limit of 10% of Net Asset Value); and real estate investment trusts (subject to a limit of 15% of Net Asset Value). The Fund's investments in collective investment schemes shall be in accordance with Central Bank requirements, the UCITS Regulations and subject to the limits set out in Schedule II of the Prospectus.

The Fund may retain up to 100% of its Net Asset Value in cash or cash equivalents which shall include, but shall not be limited to, short-term fixed income securities (both sovereign and corporate) including Money Market Instruments, pending reinvestment or for use as collateral, arising from the Fund's use of FDIs if this is considered appropriate to the investment objective.

The Fund may engage in securities lending for efficient portfolio management only.

Background to the ICAV (Continued)

Investment Management

GQG Partners LLC serves as Investment Manager pursuant to an investment management agreement dated 25 January 2017.

Investment Manager's Report

2023 turned out to be a mirror image of 2022. While our GQG Partners Global Equity Fund and GQG Partners U.S. Equity Fund strategies outperformed their benchmarks in 2022, each underperformed in 2023. However, if performance is examined on a consolidated basis over the last two calendar years, GQG Partners Global Equity Fund, GQG Partners U.S. Equity Fund, and GQG Partners Emerging Markets Equity Fund delivered what we consider to be strong cumulative net returns. In 2023, the relative underperformance in the Global and US strategies was driven by our decision to maintain overweights to the energy and healthcare sectors, and an underweight to information technology, as we exited 2022 and entered 2023. While technology names exhibited a strong rally as soon as the calendar turned, energy lagged due to the slower than expected recovery in China while certain healthcare names were held back by concerns of rising medical costs due to a normalisation of elective surgeries post-COVID and the expected popularity and expense of anti-obesity drugs.

The turnarounds in our strategies were also driven by broad market changes. We believe 2022 was about the world discovering that fossil fuels are still much needed, zero interest rates are not sustainable, GAAP profits actually do matter, and the excess tech demand driven by the COVID environment could not last forever. 2023, however, was much more about the tech sector emerging out of the COVID hangover, aided by generative AI technologies becoming more tangible, further compounded at the end of the year by the increasing possibilities of central bank rate cuts.

Having said that, while we're never satisfied with underperformance across any time period, we're, of course, aware that this business is won and lost through time, and we remain quite proud that longer term outperformance is firmly intact.

Now, in keeping one eye on reflection and one eye on the future, we'll discuss a couple of crucial investment outcomes that occurred during the past year and highlight one new one that may unfold as we progress through 2024 and beyond.

INDIA IGNITES

We often talk about changing our views when the data changes, and it's hard to come up with an example that encapsulates this more so than our investment across a variety of Adani Group companies held in our Emerging Markets and Global strategies in 2023. We also think that making those investments reflects our view that consistency in the face of change is more stubborn than virtuous. In our opinion, large dislocations create large opportunities. We saw this in 2022 when contrasting opportunities in technology versus energy globally, and in 2023, we saw this post the large drawdown across the Adani complex in early 2023.

We previously passed on investing in some of the Adani companies in prior years, not because of anything we deemed nefarious but because we found names that we believed were better alternatives at those times, despite being impressed by the quality of the assets and the management team. However, there was a massive decline in price earlier in the year. Given our familiarity with the businesses, we were able to act quickly. Our traditional and non-traditional analysts conducted thorough work, leading us to the decision. We realised that our understanding of the businesses was at odds with the headlines. We recognised that the decline in price represented an opportunity.

Despite the ongoing negative media coverage, our various investments across the Adani companies have been among our most profitable outcomes for clients that had exposure. To be clear, we are not patting ourselves on the back, but I think the examples we highlighted in this letter show our dynamic approach to investing, where we believe it is crucial to adapt and act quickly after doing an independent assessment of the facts—even when that means going against consensus or the narratives in the press.

It is uncomfortable living this way, and we don't always get it right, as I always like to remind folks that I've found plenty of ways of losing money over the years, regardless of our overall level of Assets Under Management ("AUM") (but I did learn some valuable lessons along the way!).

But in the case of Adani, the more we assessed the data and the more research we did, it became rather obvious to us that if we tuned out all the noise, these appeared to be impressive assets to invest in—run by what we think is one of the most dynamic and competent management teams anywhere in the world! Thus, we sized our Adani exposure in a thoughtful manner in the strategies to help ensure the positions could make a meaningful difference to our returns for the disconnect we found. It may be worth noting that many of the accusations and issues that were highlighted by a few very vocal press outlets appeared to be highly politically motivated rather than focused on the fundamental drivers of the businesses' future earnings and, in our view, this was the case relative to the market price. The short seller's narrative in the press continued even after various governments around the world partnered with Adani on key projects, including the US government, which invested more than \$500 million in Adani's Sri Lanka port after examining and dismissing the claims, as noted in the below headlines. In our view, one big conclusion—social media and the press, in general, are creating a bigger impact on the narrative, but the underlying businesses are less affected. We believe this creates rather attractive investment opportunities for us—energy and Adani are two big examples. We promise to keep looking.

Investment Manager's Report (Continued)

INDIA IGNITES (Continued)

On a smaller scale, this was somewhat reminiscent of fourth quarter ("Q4") of 2022 when many investors looking at Brazil were worried about the horrors of the newly elected Lula regime and what policies might negatively impact equity markets. Fortunately for us, we thought those fears were far too overblown and that worked out okay as well. We held a large position in a state-owned oil company in an emerging market when many investors were spooked by the headlines. Again, in a politically tense environment where emotions often speak louder than logic, we stuck to our process and the facts.

CONTRAST WITH CHINESE CHARACTERISTICS – CHARTS THAT LOOK LIKE THE MATTERHORN

However, contrast what we just highlighted with the likes of China, where, in our view, you need to be an expert mountain climber if you're looking at the Matterhorn or an expert skier if you're deciding on what diamond slopes to tackle. From our perspective, many of the prior investment darlings in China resemble a giant hill of hope, as evidenced by the mountain-like characteristics in the photo below.

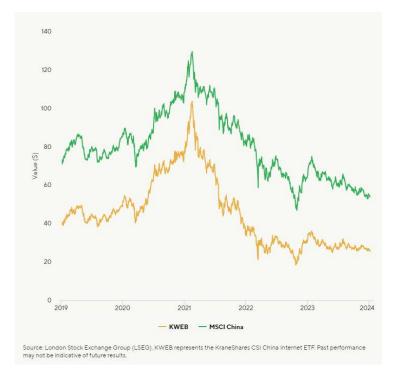

So, what gives? What's driving the mountain of hope? In our view, it's a couple of things, and again, these are in stark contrast to a country like Indonesia or India, where we remain overweight, or even Brazil, where we're also overweight. If we look at the Chinese stock chart overleaf, as a small example, we continue to witness an unpredictable regulatory environment, this time across gaming, where in roughly three days, policy went from uber negative to somewhat less negative. But this isn't new, as the non-stop recycled headlines of potential stimulus have given investors whiplash basically since the peak of the Matterhorn. This is also one of the primary drivers of our relatively persistent underweight China since the second half of 2021, where the regulatory whiplash has clouded the earnings trajectory of a whole host of "new economy" names and has driven us into more "old economy" names for what little exposure we maintain. In the US, the mantra of "don't fight the Fed" reigns somewhat supreme, while in China, it's "don't fight the CCP". This hasn't stopped investors from increasing their excitement for Chinese ETFs, which have grown at the "fastest pace on record," according to a recent Reuters article.¹

CONTRAST WITH CHINESE CHARACTERISTICS – CHARTS THAT LOOK LIKE THE MATTERHORN (Continued)

Classic Chinese Stock Chart

CHANGING ENVIRONMENTS

It is human nature to rely on your past experiences and the knowledge you have acquired over the years to make decisions. While often useful, this can become a trap in investing, which is why constant reassessment of the landscape and adaptability to changing environments is key. In fact, this willingness to change our minds and adapt to new waters is one of the hallmarks of our process and philosophy. While certain managers face headwinds during inflection points, we tend to thrive on change. Hence, our history shows that we often do better in a more dynamic environment than during stable periods. This is a daily exercise. It takes humility to say that what you thought you knew and what worked for a long time no longer applies.

Developed markets technology is an area where we are more upbeat now, especially in semiconductors—the industry is still under-earning, and the frothiness of valuations is no longer there, in our opinion. Wafer fab equipment is still running at \$85 billion, and memory companies are just turning profitable again. We believe this, combined with long-term structural growth drivers for semiconductors, makes this an attractive space. And this is in contrast with our pessimism in the second half of 2021 when we were very nervous about valuations in technology. The fascinating aspect is that we understand that most US large-cap active managers are still underweight technology relative to their benchmarks. Talk about dogmatism!

Another area where our mindset has changed in 2023—for the time being—is alcohol. As we've discussed with the continued concerns around China, particularly from a growth perspective, whether at the top of the house or a variety of the underlying companies, is there an area that is likely to see a meaningful deceleration in earnings growth in the years ahead? In our minds, we think there is, and that area is alcohol.

Interestingly enough, the potential setbacks for alcohol, in general, are not unique to China as a whole host of companies in 2023, from LVMH to Rémy and, of course, AB InBev, discussed the challenges of the US market. We're sure many of our readers know of the struggles of AB InBev throughout the calendar year, and while revenue declines for AB InBev certainly weighed on the category in general, we think there is something larger here at play (and no, in this case, it's not the impact of GLP-1s). For beer specifically, it's about changing preferences, with a recent article in The Wall Street Journal denoting a more than 5 per cent drop in annual shipments through the first nine months of 2023, by far the worst since the Global Financial Crisis. With two booms and busts in the last 10+ years (first craft beer, then hard seltzers), it's been a difficult landscape for companies to navigate. Don't take our word for it, as the President of the National Beer Wholesalers Association put it back in October: "this is an industry-wide, five-alarm fire."²

Investment Manager's Report (Continued)

CHANGING ENVIRONMENTS (Continued)

But again, this isn't unique to beer, with Rémy Cointreau noting in its most recent earnings call from third quarter of 2023, that overall revenues plunged more than 20 per cent, with US sales falling nearly 50 per cent year over year! Talk about the diamond slopes. Citing a range of unfavorable factors, combined with competition from other spirits such as tequila, which was cited as being an issue for beer as well, and you've got the mix of a highly unfavorable (snow) storm.³

Lastly, and this is another reason for our current pessimism on the space, could these entire industries go ex-growth given challenges to the premiumisation thesis that has been a major growth driver for many years? We're seeing a lot of fragmentation across the landscape from increased introduction of brands across verticals, and with increasing economic stress now even weighing on some more luxury names, will the trade-down trend reverse many years of high-end growth? We shall see if this continues, but again, from Rémy's latest earnings call, the liqueurs and spirits division faced even more challenges than cognac, particularly at the high end, where they blamed the misfortunes of real estate millionaires that had typically underpinned that segment. So, time will tell.

Like all things, this view is certainly subject to change, for the one thing we can be sure of is that things constantly evolve, and our aim is to navigate those changes successfully, not stubbornly.

As always, thank you for your continued support.

Spirfain

Directors' Report

For the financial year ended 31 December 2023

The Directors of GQG Global UCITS ICAV (the "ICAV") present the Annual Report and Audited Financial Statements of GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partners U.S. Equity Fund (the "Funds") for the financial year ended 31 December 2023.

The Directors have opted to prepare financial statements for the Funds in accordance with the Irish Collective Asset-management Vehicles Acts 2015 to 2021 (the "ICAV Act"). Any reference hereafter to the financial statements will mean the financial statements of the Funds of the ICAV.

Principal Activities

A detailed review of the Funds' activities for the financial year ended 31 December 2023 is included in the Investment Manager Report on pages 7 to 10.

Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU and applicable law.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the Funds at the end of the financial year and of the changes in net assets attributable to holders of redeemable participating shares in the Funds for the financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Funds or to cease operations or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and increase in net assets attributable to holders of redeemable participating shares in the Funds and enable them to ensure that the financial statements comply with the ICAV Act and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Funds. In this regard they have entrusted the assets of the Funds to a depositary for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Review of business and future developments

A review of business and future developments is included in the Background to the ICAV on pages 3 to 6 and the Investment Manager's Report on pages 7 to 10.

Results and Dividends

The results of operations for the financial year are set out in the Statement of Comprehensive Income on pages 19 to 21. The classes of shares in issue are 42 accumulating classes, two of which are hedged, and 6 distributing share classes. There were dividends distributed for the financial year end 31 December 2023. Details in relation to dividends are disclosed in Note 12.

Directors' Report (Continued)

Risk management objectives and policies

The main risks arising from the Funds' financial instruments are market price, foreign currency, interest rate, liquidity and counterparty credit risks as detailed in Note 9 to these financial statements.

Directors who held office during the financial year

The Directors who held office at any time during the financial year were: Tom Coghlan, Jim Firn, Marie O'Connor, Mark Barker, Xavier Sement and Charles Falck.

Directors' and Secretary's interests in shares of the ICAV and Funds

Mark Barker held shares in the Funds of the ICAV as at the financial year end, details of which are disclosed in Note 14.

No other Directors, who held office at the financial year end, or the Secretary or their close family members had any interests in the Shares or debentures of the ICAV or its Funds at that date or at any time during the financial year.

Transactions involving Directors

Other than as disclosed in Note 14 to the financial statements, there were no contracts or agreements of any significance in relation to the business of the ICAV or its Funds in which the Directors had any interest, as defined in the ICAV Act, at any time during the financial year.

Transactions with Connected Persons

Persons are considered to be related if one person has the ability to control the other party or exercise significant influence over the other person in making financial or operational decisions.

The Manager of the ICAV is Bridge Fund Management Limited. Under the terms of the management agreement, the Manager is responsible for the general management and administration of the ICAV's affairs and for ensuring compliance with the Regulations, including investment and reinvestment of each Fund's assets, having regard to the investment objective and policies of each Fund. However, pursuant to the Administration Agreement, the Manager has delegated certain of its administration and transfer agency functions in respect of each Fund to the Administrator. The Manager receives fees in respect of its services to the ICAV for Management Company and MLRO services.

The Central Bank UCITS Regulations require in effect that any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Shareholders.

The Manager is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Soft Commissions and Directed Brokerage Services

The Investment Manager may place trades on behalf of the Funds with brokers that will, from time to time, provide or procure research products, specialised software or related services that assist the investment manager in the provision of investment services to its clients, including the Funds, provided that each broker has agreed to provide best execution with respect to such trades. The Investment Manager's use of soft commissions falls within the safe harbour created by Section 28(e) of the U.S. Securities Exchange Act of 1934. Where a product or service provides both eligible and non-eligible assistance, the Investment Manager will make a reasonable allocation of the cost that may be paid for with soft commissions.

Directors' Report (Continued)

Soft Commissions and Directed Brokerage Services (Continued)

Total soft commissions for the Funds for the financial year ended 31 December 2023 amounted to USD8,563. Commission share arrangements commenced on 26 December 2023. There were no soft commissions for the financial year ended 31 December 2022. Breakdown of soft commissions per Fund are listed below:

Date	Fund	Total Commission
1 Jan 2023 - 31 Dec 2023	GQG Partners Emerging Markets Equity Fund	USD6,521
1 Jan 2023 - 31 Dec 2023	GQG Partners Global Equity Fund	USD1,542
1 Jan 2023 - 31 Dec 2023	GQG Partners U.S. Equity Fund	USD500
		USD8,563

Accounting Records

The Directors believe that they have complied with the requirements of Sections 109 to 115 of the ICAV Act, with regard to keeping adequate accounting records. The Directors have appointed Northern Trust International Fund Administration Services (Ireland) Limited to maintain adequate accounting records. The address at which this business is located is as follows:

George's Court 54-62 Townsend Street Dublin 2, D02 R156 Ireland

Material Principal Changes to the Prospectus

The Prospectus for GQG Global UCITS ICAV was updated on 30 June 2023 to reflect changes related to requirements for removal of original signatures, an update to Board members, the removal of subsequent minimum investments and a clarification to the Environmental, Social and Governance disclosure.

The Prospectus for GQG Global UCITS ICAV was updated on 6 December 2023 to amend soft commission disclosures to reflect the intention to make use of soft commission arrangements, clarify the calculation methodology of performance fees, include GQG Partners Global Equity Select Fund, include Abu Dhabi Global Markets and update sub-custodians and regulated markets. Funds' Supplements were also issued on 6 December 2023 to update the existing share class information.

Significant Events during the Financial Year

Significant events during the financial year are disclosed in Note 16 on pages 79 to 80.

Subsequent Events

Subsequent events after the financial year end are disclosed in Note 17 on pages 80 to 81.

Corporate Governance Code

Irish Funds, the association for the funds industry in Ireland, has published a corporate governance code that may be adopted on a voluntary basis by Irish authorised investment funds. The Board of Directors have adopted the Code, and the ICAV was in compliance with all elements of the Code during the financial year.

Directors' Report (Continued)

Manager

As the Fund Manager, Bridge Fund Management Limited is responsible for monitoring the below managerial functions:

- Operational Risk Management Monitoring of delegates so that there are appropriate effective operational risk procedures in place at the delegates.
- Fund Risk Management Monitoring through the delegates that the Funds risks are identified and managed.
- Investment Management Monitoring that the Investment Manager is in compliance with the approved investment approach and on an ongoing basis monitoring the investment process and performance.
- Capital and Financial Management Monitors that relevant accounting records are properly maintained and that the assets and liabilities of the Funds are valued appropriately. The Management Company also ensures that the Management Company is appropriately capitalised at all times.
- Regulatory Compliance Monitors that the Funds are incompliance with regulatory obligations.
- Distribution Monitors the approved distribution strategy and patterns of distribution as well as any local compliance issues as part of the Funds' distribution process.

Employees

There were no employees for the financial year ended 31 December 2023 (31 December 2022: none).

Statement of Relevant Audit Information

The following applies in the case of each person who was a Director of the ICAV, as disclosed on page 1, at the time this report is approved:

(a) so far as the Director is aware, there is no relevant audit information of which the ICAV's statutory auditors are unaware; and

(b) the Director has taken all the steps that he or she ought to have taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the company's statutory auditors are aware of that information ('all steps' means that a Director has made such enquiries of his or her fellow Directors (if any) and of the company's statutory auditors for that purpose, and, taken such other steps (if any) for that purpose).

Auditors

The independent auditors, KPMG, Chartered Accountants, have been re-appointed and expressed their willingness to continue in office in accordance with Section 125 of the ICAV Acts 2015 to 2021.

Signed on Behalf of the Board of Directors

Annual Depositary's Report to the Shareholders

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to GQG Global UCITS ICAV (the "ICAV") provide this report solely in favour of the shareholders of the ICAV for the financial year ended 31 December 2023 (the "Annual Accounting Period"). This report is provided in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011), as amended (the "Regulations"), which implemented Directive 2009/65/EU into Irish Law. We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the ICAV for this Annual Accounting Period and we hereby report thereon to the shareholders of the ICAV as follows;

We are of the opinion that the ICAV has been managed during the Annual Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documents and the Regulations.

Independent Auditor's Report to the Shareholders of GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partners U.S. Equity Fund

Report on the audit of the financial statements

Opinion

We have audited the financial statements of GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partners U.S. Equity Fund (collectively "the Sub-Funds"), each a sub-fund of GQG Global UCITS ICAV ('the ICAV') for the year ended 31 December 2023 set out on pages 19 to 81, which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, the Statement of Cash Flows and related notes, including the material accounting policies set out in note 1.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements of each of the Sub-Funds of the ICAV give a true and fair view of the assets, liabilities and financial position of each of the Sub-Funds of the ICAV as at 31 December 2023 and of their changes in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Acts 2015 to 2021 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on any of the Sub-Funds' ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Independent Auditor's Report to the Shareholders of GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partners U.S. Equity Fund (continued)

Other information

The Directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the Organisation, Background to the ICAV, Investment Manager's Report, Directors' Report, Annual Depositary's Report to the Shareholders, Schedule of Total Expense Ratios (Unaudited), Performance Data (Unaudited), Schedule of Investments (Unaudited), Schedule of Portfolio Changes (Unaudited) and Appendix (Unaudited). The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work undertaken during the course of the audit, we have not identified material misstatements in the other information.

Opinion on other matter prescribed by the Irish Collective Asset-management Vehicles Acts 2015 to 2021

In our opinion, the information given in the Directors' Report is consistent with the financial statements.

Matters on which we are required to report by exception

The Irish Collective Asset-management Vehicles Acts 2015 to 2021 requires us to report to you, if in our opinion, the disclosures of Directors' remuneration specified by law are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the Directors' Responsibilities Statement set out on page 11, the Directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing each of the Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate any of the Sub-Funds of the ICAV or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <u>https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/</u>.

Independent Auditor's Report to the Shareholders of GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partners U.S. Equity Fund (continued)

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the shareholders of each Sub-Fund of the ICAV, as a body, in accordance with the Section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the each of Sub-Funds' shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Sub-Funds of the ICAV and each of the Sub-Funds' shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

For the financial year ended 31 December 2023

1. Material Accounting Policies

a) Basis of Preparation

The Directors have opted to prepare separate financial statements for GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partner U.S. Equity Fund (each a "Fund", collectively the "Funds") in accordance with the Irish Collective Asset-management Vehicles Act 2015 to 2021. Any reference hereafter to the financial statements will mean the financial statements of the Funds of the ICAV.

The financial statements of the Funds have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and interpretations adopted by the International Accounting Standards Board ("IASB"), and Irish statute comprising the Irish Collective Asset-management Vehicles Act 2015 to 2021 and pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The preparation of financial statements in conformity with IFRS requires the ICAV to make use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

All references to Net Assets throughout this document refer to Net Assets Attributable to Holders of Redeemable Participating Shares, unless otherwise stated.

The financial statements have been prepared on a going concern basis and under the historical cost convention except for financial instruments classified at fair value through profit or loss that have been measured at fair value.

The financial statements are presented in US Dollar and rounded to the nearest US Dollar.

(i) Use of Estimates and Judgements

The preparation of financial statements in conformity with IFRS requires the Fund to make use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates. The areas involving a higher degree of judgement or complexity or areas where estimates and assumptions are significant to the financial statements are disclosed in Note 9. Determining the fair value of the financial instruments of the Funds is the main estimate for the Funds, and determining what constitutes 'observable' requires significant judgement by the Funds. Observable data is considered to be that market date which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the financial year in which the estimate is revised if the revision affects only that financial year or in the year of the revision and future years if the revision affects both current and future years.

The Directors have determined that the key judgement for the Funds is considered to be the assessment of each Fund's functional currency. This judgement has been detailed in Note 1i).

(ii) Accounting Standards

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning 1 January 2023 that have a material effect on the Financial Statements.

These financial statements have been prepared to existing standards and amendments to existing standards effective 1 January 2023.

A number of new standards, interpretations and amendments to published standards have been issued to date and are not yet effective for the financial statements for the Fund for the financial year and have not been applied nor early adopted in preparing the financial statements.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

1. Material Accounting Policies (Continued)

a) Basis of Preparation (Continued)

(ii) Accounting Standards (Continued)

The following standards are not expected to have a material impact on the entity in the current or future reporting periods or on foreseeable future transactions:

- Non-current Liabilities with Covenants (Amendments to IAS 1).
- Classification of Liabilities in a Sale and Leaseback (Amendments to IFRS 16).
- Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7).
- Lack of Exchangeability (Amendments to IAS 21).
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28).

The above standards are effective for periods beginning or after 1 January 2024.

The Directors anticipate that the adoption of the new standards, interpretations and amendments that were in issue at the date of authorization of these financial statements, but not yet effective, will have no material impact on the financial statements.

b) Financial Assets and Liabilities at Fair Value through Profit or Loss

(i) Classification, Recognition and Derecognition

The Funds recognise financial assets and financial liabilities when all significant rights and access to the benefits from the assets and the exposure to the risks inherent in those benefits are transferred to the Funds. The Funds derecognise financial assets and financial liabilities when all such benefits and risks are transferred from the Funds.

On initial recognition, the Funds classify financial assets as measured at amortised cost or fair value through profit or loss ("FVTPL").

A financial asset is measured at amortised cost only if both of the following criteria are met:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest.

Business model assessment

In making an assessment of the objective of the business model in which a financial asset is held, the Funds consider all of the relevant information about how the business is managed, including:

- the documented investment strategy and the execution of this strategy in practice. This includes whether the investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Funds' management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how the investment manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Funds' continuing recognition of the assets.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

1. Material Accounting Policies (Continued)

b) Financial Assets and Liabilities at Fair Value through Profit or Loss (Continued)

(i) Classification, Recognition and Derecognition (Continued)

Business model assessment (Continued)

The ICAV has determined that it has two business models.

- Held-to-collect business model: this includes cash and cash equivalents, dividends receivables, subscriptions receivable, securities sold receivable and other receivables. These financial assets are held to collect contractual cash flows.
- Other business model: this includes equity investments and derivatives. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

Financial assets that are classified as amortised cost include cash and cash equivalents, dividends receivables, subscriptions receivable, securities sold receivable and other assets.

Financial liabilities that are classified as amortised cost include administration fees payable, audit and tax fees payable, capital gains tax payable, depositary fees payable, management company fees payable, investment management fees payable, securities purchased payable, redemptions payable and other payables.

Financial liabilities arising from the Redeemable Participating Shares issued by the Funds are carried at the redemption amount representing the Investors' right to a residual interest in the Funds' Net Assets.

A regular purchase of financial assets is recognised using trade date accounting. From this date, any gains and losses, arising from changes in fair value of the financial assets or financial liabilities, are recorded in the Statement of Comprehensive Income.

(ii) Measurement

Financial instruments at fair value through profit or loss are measured initially at fair value. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are included in operating expenses on financial assets and liabilities at fair value through profit or loss on the Statement of Comprehensive Income.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

(iii) Fair Value Measurement Principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date.

Securities listed on several Recognised Exchanges shall be valued on the basis of the closing mid-market price or (if this is not available) last available quoted bid-price as the Valuation Point for the relevant Valuation Day on the stock exchange or market which in the opinion of the Funds or its delegate constitutes the main market for such assets for the foregoing purposes.

Securities which are not listed or which are listed but in respect of which prices are not available or in respect of which the closing mid-market price or last available price does not in the opinion of the Directors of the ICAV or its delegate represent fair market value in the relevant market as at the Valuation Point for the relevant Valuation Day shall be valued at their probable realisation value estimated with care and in good faith by (i) the Funds or the External Valuer or (ii) a competent person, firm or corporation (including the Investment Manager) selected by the Funds. In order to minimize conflicts, the representatives on the committee may be persons not actively managing the Funds.

Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer. Realised gains and losses on investment disposals are calculated using the average cost method.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

1. Material Accounting Policies (Continued)

b) Financial Assets and Liabilities at Fair Value through Profit or Loss (Continued)

(iv) Forward Foreign Currency Contracts

Forward foreign currency transactions are measured based on the closing forward contract rates on the relevant foreign exchange market on a daily basis. Realised gains and losses and movements in unrealised gains and losses are reported in the Funds' Statement of Comprehensive Income.

Certain Spot FX transactions may be categorized as Forward FX transactions due to transactions that exceed 3 days settlement period.

(v) Impairment

The Funds recognise loss allowances for Expected Credit Loss ("ECLs") on financial assets measured at amortised cost.

The Funds measure loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- financial assets that are determined to have low credit risk at the reporting date; and
- other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Funds consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Funds' historical experience and informed credit assessment and including forward-looking information.

The Funds assume that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Funds consider a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Funds in full, without recourse by the Funds to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Funds consider a financial asset to have low credit risk when the credit rating of the counterparty is equivalent to the globally understood definition of 'investment grade'.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Fund is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Funds expect to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

1. Material Accounting Policies (Continued)

b) Financial Assets and Liabilities at Fair Value through Profit or Loss (Continued)

(vi) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. During the financial year, foreign currency contracts entered into for currency hedging purposes in Class I GBP Accumulating (hedged) in GQG Partners Global Equity Fund and Class R EUR Accumulating (hedged) in GQG Partners U.S. Equity Fund are subject to Master Netting Agreements in place.

c) Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances held at banks.

d) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

e) Income and Expense

Dividend income on long positions is recognised as income on the date the securities are first quoted as "ex-dividend". Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Interest income and expense are recorded on an effective yield basis. Other income and expense items are recorded on an accruals basis.

f) Net Gains/(Losses) on Financial Assets at Fair Value through Profit or Loss

Net gains/(losses) on financial assets at fair value through profit or loss include all realised and unrealised fair value changes and foreign exchange differences but excludes interest and dividend income and expenses. The Funds use the average cost method to determine realised gains and losses. Net gains or losses on financial assets and liabilities are included in net gains on financial assets and liabilities at fair value through profit or loss, in the Statement of Comprehensive Income.

g) Taxation

Dividend and interest income or capital gains received by the Funds may be subject to withholding and other taxes imposed in the country of origin. Investment income or capital gains are recorded gross of such taxes and the corresponding tax is recognised as a tax expense.

h) Redeemable Participating Shares

The Funds classify financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instrument.

All redeemable participating shares issued by the Funds provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Funds' net assets at the redemption date. In accordance with IAS 32 such instruments give rise to a financial liability for the present value of the redemption amount and have therefore been classified and presented as financial liabilities in the Funds' financial statements.

i) Functional Currency and Foreign Currency Translations

The functional currency of the Funds is US Dollar. The Directors have determined that this reflects the Funds' primary economic environment, as the majority of the Funds' Net Assets Attributable to Holders of Redeemable Participating Shares are denominated in US Dollar.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

1. Material Accounting Policies (Continued)

i) Functional Currency and Foreign Currency Translations (Continued)

Monetary assets and liabilities denominated in currencies other than US Dollar are translated into US Dollar at the closing rates of exchange at each financial year end. Transactions during the financial year, including purchases and sales of securities, income and expenses, are translated at the rate of exchange prevailing on the date of the transaction. Foreign currency gains and losses are included in net gains on financial assets and liabilities at fair value through profit or loss, in the Statement of Comprehensive Income.

2. Taxation

The ICAV is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended ("TCA"). The ICAV and its Funds will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- i) A shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event provided the necessary signed statutory declarations are held by the ICAV and its Funds;
- ii) Certain exempted Irish resident investors who have provided the ICAV and its Funds with the necessary signed statutory declaration;
- iii) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- iv) An exchange of shares representing one Fund for another Fund of the ICAV;
- v) An exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another ICAV; or
- vi) Certain exchanges of shares between spouses and former spouses.

In the absence of an appropriate declaration, the ICAV and its Funds will be liable to Irish tax on the occurrence of a chargeable event. There were no chargeable events during the financial year.

Capital gains, dividends, and interest received by the Funds may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Funds or its shareholders.

4. Fees

Management Company Fees

The Funds will pay to the Manager an annual management fee which will be payable monthly in arrears at the rate of:

- 0.04% of the Net Asset Value of each Fund on the first EUR 500 million;
- 0.02% of the Net Asset Value of each Fund on the next EUR 500 million;
- 0.01% of the Net Asset Value of each Fund for any amount in excess of EUR 1 billion;

as at the Valuation Point in respect of each Dealing Day subject to a minimum annual management fee of up to EUR 100,000 per annum.

The Manager may also recover out of pocket expenses reasonably incurred by it or its agents or delegates in the performance of their respective functions on behalf of the Funds.

Notes to the Financial Statements (Continued)

Investment Management Fees

Under the Investment Management Agreement, the Funds will pay to the Investment Manager a fee at an annual rate equal to the percentage of the daily Net Asset Value of the relevant Share Class of the Funds as set out below. The investment management fee shall accrue daily and be calculated and payable monthly in arrears.

The Investment Manager (or any related person) may from time to time and at its sole discretion and out of its own resources decide to waive some or all of its investment management fee and/or performance fee applicable to a specific Share Class or the Funds as a whole or it may share or rebate some or all of such fees with/to intermediaries or shareholders (any such resources or fee sharing will take place outside the Funds). Where the Investment Manager waives some or all of its investment management fee and/or performance fee applicable to a specific Share Class within the Share Class.

The Investment Manager shall be entitled to be reimbursed for its reasonable vouched out of pocket expenses.

The specified annual Investment Management Fee percentages, of the Net Asset Value of the Funds attributable to the various Classes, can be seen overleaf.

Investment management fees payable at the financial year end will be paid net of a receivable from the Investment Manager, disclosed in the table above, arising as a result of the implementation of the expense limitation detailed below.

The Investment Manager (or any related person) may from time to time and at its sole discretion and out of its own resources decide to waive some or all of its Investment Management Fee and/or performance fee applicable to a specific Class or the Fund as a whole or it may share, or rebate some or all of such fees with/to intermediaries or Shareholders (any such rebates or fee sharing will take place outside of the Fund). At this time, the Investment Manager has committed to waive fees and reimburse the Fund any expenses in order to keep each of the Fund's Share Classes' total operating expenses (excluding interest, taxes, brokerage commissions, transactional expenses, foreign exchange costs and non-routine expenses or share class specific expenses i.e. lending expenses (collectively, "Excluded Expenses")) from exceeding the below percentage per annum of the Net Asset Value of the Fund ("Expense Limitation").

For the financial year ended 31 December 2023

4. Fees (Continued)

Performance Fees

In addition to the Investment Management Fee, the Investment Manager is entitled to a performance fee (the "Performance Fee") in relation to certain Classes of the Funds. The Performance Fee will currently only be payable out of the net assets attributable to Class P of the Funds.

The Performance Fee shall be calculated and shall accrue at the valuation point and the accrual will be reflected in the Net Asset Value per Share of the Funds. The performance period of the Funds is every 12 months ending on the last business day of each calendar year (the "Performance Period"). The Performance Fee, if any, shall crystallise on the last valuation point of each Performance Period. The Performance Fee for all relevant Classes subject to such a Fee for each Performance Period shall be equal to 20% of the amount, if any, by which the Net Asset Value before Performance Fee accrual (to the extent it is in Shareholders' best interests) of the Class exceeds the indexed Net Asset Value of the Class on the last business day of the Performance Period. In addition, the Performance Fee with respect to any redemptions of Shares during the Performance Period will crystallise and typically become payable within 30 days from the end of the calendar quarter which the relevant redemptions have taken place.

For the avoidance of doubt any underperformance versus the benchmark must be recouped before any additional Performance Fee will accrue in subsequent Performance Periods. Furthermore, a Performance Fee will only be paid on the amount by which the Net Asset Value exceeds the indexed Net Asset Value of the Funds. Please refer to the Prospectus for further detail of the Performance Fee calculation.

On 6 December 2023, the Prospectus was updated to clarify that, for the purposes of the performance fee calculation, the Net Asset Value shall be calculated after the accrual of all other costs and net of any performance fee paid in respect of previous Performance Periods, but before the deduction of any accrual for Performance Fee for the Performance Period provided it is in Shareholders' best interests (i.e. it would result in Shareholders paying less fees), other than Performance Fees accrued in relation to the class in respect of redemptions during the Performance Period but not yet paid.

For the GQG Partners Global Equity Fund, the benchmark used to calculate the Performance Fee is the MSCI All Country World (Net) Index; ticker M1WD.

Performance fees for the Funds were as follows:

Expense	_	2,405,836
Payable	_	1,886,806

Administration Fees

The Funds are responsible for the continuing fees of the Administrator in accordance with the Prospectus dated 6 December 2023:

The Administrator is entitled to receive out of the assets of the Funds a fee at an annual rate:

- 0.04% of the Net Asset Value of the umbrella on the first EUR 200 million;
- 0.03% of the Net Asset Value of the umbrella on the next EUR 300 million;
- 0.02% of the Net Asset Value of the umbrella for any amount in excess of EUR 500 million;

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

4. Fees (Continued)

Administration Fees (Continued)

Each of the foregoing is subject to a monthly minimum fee of EUR 8,500 per Fund. In addition, each Fund shall be subject to a minimum of EUR 150 per month per live Share class in excess of three Share classes per Fund. The Administrator has voluntarily agreed to waive its minimum monthly fee for the first six months after Fund launch. The Funds have now been opened longer than six months and the waiver has expired.

The Administrator is also entitled to charge an annual fee to the Fund of up to EUR 7,500 for the preparation of the annual and semi-annual financial statements (to include one Fund). An additional fee of EUR 5,000 per annum will be charged for each additional Fund. In addition, the Administrator is also entitled to charge to the Fund all agreed fees and transaction charges, at normal commercial rates, together with reasonable out-of-pocket expenses (plus any applicable taxes), it incurs on behalf of the Fund in the performance of its duties under the Administration Agreement, which shall be payable monthly in arrears.

Depositary Fees

The Funds are responsible for paying the continuing fees of the Depositary in accordance with the Prospectus dated 6 December 2023.

The Depositary shall be entitled to receive out of the assets of the Funds an annual depositary fee, accrued at each Valuation Point and payable monthly in arrears, which shall not exceed 0.03% per annum of the Net Asset Value of the Fund subject to a minimum annual depositary fee of up to EUR 35,000 per annum (plus VAT, if any) thereon.

In addition, the Funds shall pay or reimburse the Depositary in respect of all reasonable and properly vouched out–ofpocket expenses incurred by it, including (without limitation) all charges for postage, telephone and faxing incurred by the Depositary in the performance of duties hereunder.

The Depositary shall also be entitled to be repaid the fees, transaction charges and expenses of any sub-custodian appointed by it which shall be at normal commercial rates and subject to minimum annual custody fee of EUR 30,000 per Fund (plus VAT, if any) thereon.

Directors' Fees

The Instrument provides that the Directors shall be entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. However, Directors affiliated with the Investment Manager are not entitled to a fee. The aggregate amount of Directors' remuneration in any one year shall not exceed EUR 120,000 without the approval of the Directors. All Directors will be entitled to reimbursement by the Funds of expenses properly incurred in connection with the business of the ICAV or its Funds or the discharge of their duties.

9. Financial Risk Management

Strategy in using Financial Instruments

The overall objective of the Funds is to provide capital appreciation over the long-term. The Funds are differentiated by their asset allocation and the investment instruments used.

The Funds' activities expose them to a variety of financial risks: market risk (including price risk, interest rate risk and foreign currency risk), credit risk and liquidity risk. The Funds' overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds may use derivative financial instruments to moderate certain risk exposures.

The Investment Manager assesses the risk profile of the Funds on the basis of the investment policy, strategy and the use made of financial derivative instruments. The Funds employ the commitment approach to measure its global exposure. The global exposure of the Funds will not exceed their total Net Asset Value at any time. The method used to calculate global exposure for each Fund is set out in the relevant Fund Supplement.

The Manager, as part of their risk management and monitoring obligations receives and relies on both regular and exception based risk reporting provided by the Investment Manager and the Administrator of the Funds ("Delegates"). The Investment Manager and the Administrator will provide reporting to the Manager and should an issue be noted in the reporting, the Manager will in the first instance liaise with the delegate responsible to try to establish a method for resolution of the issue and assist them where necessary. Any significant risk items which cannot be easily resolved may be required to be escalated to senior management of the delegate and further explanations from the delegate will be required to be provided to the Manager and the Board.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: foreign currency risk, interest rate risk and price risk.

The Investment Manager moderates market risk through careful selection of securities and other financial instruments within specified limits. The Fund has exposure to some of the above risks to generate investment returns on their portfolios, although these risks can also potentially result in a reduction in the Fund assets. The Funds' overall market position is monitored on a daily basis by the Funds' Investment Manager and is reviewed on a regular basis by the Board of Directors.

At 31 December 2023, the Funds' market risk is affected by three components:

- i) changes in actual equity prices ("price risk");
- ii) interest rate movements ("interest rate risk"); and
- iii) foreign currency movements ("foreign currency risk").

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

9. **Financial Risk Management (Continued)**

(i) Price Risk

Price risk is the risk that the value of an instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

The Funds' investments are susceptible to price risk arising from uncertainties about future prices of the instruments. The Funds' price risk is managed primarily by ensuring the portfolio is adequately diversified across a sufficiently high number of equity and equity-related securities.

The Funds' underlying investments which consist of equities in the prior year are subject to price risk. The sectoral breakdown of these securities as a percentage of the Net Asset Value is disclosed within the Schedule of Investments on pages 86 to 98.

The tables below document the Funds' exposure to price risks as at 31 December 2023 and 31 December 2022 if the price of the Funds' underlying investments to which the Fund had exposure increased by 5% with all other variables held constant. Conversely, if the price of the Funds' underlying investments to which the Fund had exposure decreased by 5% this would have had an equal but opposite effect on the net assets attributable to holders of redeemable participating shares of the Fund:

GQG Partners Emerging Markets Equity Fund

	31 December 2023 USD	31 December 2022 USD
5% increase	126,118,821	85,117,372
GQG Partners Global Equity Fund	As at 31 December 2023 USD	As at 31 December 2022 USD
5% increase	113,850,442	80,057,885
GQG Partners U.S. Equity Fund	As at 31 December 2023 USD	As at 31 December 2022 USD
5% increase	54,062,463	38,450,624

(ii) Interest Rate Risk

The Funds' interest bearing financial assets and liabilities expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows.

Interest rate risk is managed, in part, by the security selection process of the Investment Manager which includes predictions of future events and their impact on interest rates, diversification and duration. In accordance with Funds' policy, the Investment Manager monitors the Funds' overall interest sensitivity on a daily basis. The Directors rely on the Investment Manager to keep them informed of any material event. There were no material changes to the Funds' policies and processes for managing interest rate risk and the methods used to measure risk since the date of authorisation.

Interest risk exposure is not material as the cash is immediately available to invest and is not subject to any restrictions which would create interest rate risk movement for each of the Funds and therefore no sensitivity analysis presented as at 31 December 2023 (31 December 2022: same).

(iii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain assets, liabilities and income of the Funds are denominated in currencies other than US Dollar. The Funds are, therefore, exposed to currency risk as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates.

In accordance with the Funds policy, the Investment Manager monitors the currency position of the Funds on a daily basis and the Board of Directors reviews it on a regular basis.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

9. Financial Risk Management (Continued)

Credit Risk, Depositary and Title Risk

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Funds, responsible for the safe-keeping of assets. NTFSIL has appointed TNTC as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC").

NTC had a long term Standard & Poor's credit rating as follows:

	As at	As at
	31 December 2023	31 December 2022
Standard & Poor's	A+	A+

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Funds' ownership of Other Assets (Art 22(5) of UCITS V Directive 2014/91/EU), by assessing whether the Funds hold the ownership based on information or documents provided by the Funds or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Funds, clearly identifiable as belonging to the Funds, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds the cash of the Fund on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Funds will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian/financial institution in the market.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Fund's rights with respect to its assets to be delayed.

The Responsible Party (the "Board of Directors or its delegate(s)"), manages risk by monitoring the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

Liquidity Risk

Liquidity risk is the risk that the Funds may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The Investment Manager manages the Funds' liquidity risk. The ICAV may borrow monies on behalf of the Funds and may leverage the assets of each of the Funds. Leverage may be obtained for the Funds through borrowing for general liquidity purposes. The Funds may be leveraged up to 10% of its Net Asset Value calculated in accordance with commitment methodology.

The main liability of the Funds is the redemption of any redeemable participating shares that investors wish to sell. The Funds' supplements provide for the daily creation and cancellation of Shares and it is therefore exposed to the liquidity risk of meeting Shareholder redemptions at any time. The Funds' financial instruments include investments in equities, which can normally be easily liquidated at an amount close to fair value in order to meet liquidity requirements.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

9. Financial Risk Management (Continued)

Liquidity Risk (Continued)

The Funds may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Funds may not be able to liquidate quickly its investments in these instruments at an amount close to their fair value to meet its liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer.

In accordance with the Funds' policy, the Investment Manager and the Directors monitor the Funds' liquidity risk on a periodic basis. If the environment/portfolio changed whereby the portfolios were nearing the 10% limit, then the Investment Manager would begin daily calculations.

As at 31 December 2023, there was one significant shareholding on the GQG Partners U.S. Equity Fund of 29.32% that consisted of several underlying shareholders investing through a number of nominee accounts.

The tables below analyse the Funds' financial liabilities on the basis of earliest possible maturity based on the remaining period at the reporting date to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant:

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the date of measurement. Investments held by the Funds are measured at fair value through profit or loss and are therefore affected by inputs to valuation techniques used in arriving at that fair value.

Most of the Funds' financial instruments are carried at fair value through profit or loss on the Statement of Financial Position. Usually the fair value of the financial instruments can be reliably determined within a reasonable range of estimates. For certain other financial instruments, including amounts for other assets, accrued expenses and payable for securities purchased, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments. The carrying value of all the Funds' financial assets and liabilities at the Statement of Financial Position date approximate their fair values.

In order to evaluate the nature and extent of risk arising from the valuation of these investments they have been arranged, in accordance with IFRS, into a hierarchy giving the highest priority to unadjusted prices in active markets (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

9. Financial Risk Management (Continued)

Fair Value Measurement (Continued)

The three levels of the fair value hierarchy are as follows:

- Level 1: Quoted price (unadjusted) in an active market for an identical instrument;
- Level 2: Valuation techniques based on observable inputs, either directly (for example as prices) or indirectly (for example derived from prices). This category includes instruments valued using: quoted prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or valuation techniques for which all significant inputs are directly or indirectly observable from market data; and
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the investment's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The determination of what constitutes 'observable' requires significant judgement by the Funds. The Funds consider observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Funds' perceived risk of that instrument.

Financial instruments whose values are based on quoted market prices in active markets, are therefore classified within Level 1.

Financial instruments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include certain Financial Derivative Instruments where the price is calculated internally using observable data. Financial instruments classified as Level 2 traded in markets may be adjusted to reflect illiquidity, such adjustments are based on available market information. All other unquoted instruments are classified into Level 3 by default.

Transfers are deemed to occur at financial year end.

		2.319	_

*Market value was written down by the Investment Manager.

As at 31 December 2023 and 31 December 2022, the GQG Partners Emerging Markets Equity Fund held the above Russian securities.

In response to western sanctions, the Central Bank of Russia closed local markets to all foreign investors on 25 February 2022. This closure effectively precluded foreign investors, including GQG Partners, from buying or selling Russian securities or receiving dividends on Russian securities. Under these circumstances, the Russian securities in the GQG Partners Emerging Markets Equity Fund are now being "fair valued" in the absences of true market value.

Effective 15 March 2022, all fair valuation prices were reduced by the Investment Manager's Valuation Committee to 0.01 RUB per share. These positions were reclassified from Level 1 to Level 3 at the end of the financial year ended 31 December 2022. This discount was based on the lack of marketability due to the closure of the Russian markets to foreign investors which is considered to be the unobservable input for these Level 3 securities.

The table below reconciles the movement during the financial year ended 31 December 2023 and 31 December 2022 in equities which have been classified into Level 3.

As at 31 December 2023

	Beginning balance	Realised gain or losses		between level 1	Purchases, sales, other settlements, and instruments net	Ending balance
Assets Equities	USD	USD	USD	USD	USD	USD
Equities Total	2,319 2,319		(403) (403)			<u>1,916</u> 1,916

As at 31 December 2022

	Beginning balance	Realised gain or losses	Unrealised gain or losses	between level 1	Purchases, sales, other settlements, and instruments net	Ending balance
Assets Equities	USD	USD	USD	USD 2.319	USD	USD 2,319
Total		_	_	2,319	—	2,319

There were no transfers between Level 1 and Level 2 or Level 2 and Level 3 assets held during the financial years ended 31 December 2023 and 31 December 2022.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

9. Financial Risk Management (Continued)

Sensitivity analysis

If the market price of the Level 3 investments held by the Funds as at 31 December 2023 was to increase or decrease by 10%, with all other factors remaining constant, this would result in an increase or decrease in net assets attributable to holders of redeemable ordinary shares from operations of USD192 (approximately nil% of net assets attributable to holders of redeemable shares) (31 December 2022: USD232 (approximately nil% of net assets attributable to holders of redeemable shares)).

Financial Assets and Liabilities not measured at Fair Value

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. Cash and cash equivalents are classified as Level 1 and all other financial assets and liabilities not measured at fair value through profit or loss are classified as Level 2 in the fair value hierarchy.

10. Exchange Rates

The exchange rates used to translate foreign currency balances and foreign currency-denominated assets and liabilities to US Dollar as at 31 December 2023 and 31 December 2022 were as follows:

	As at	As at
	31 December 2023	31 December 2022
Brazilian Real	4.86	5.28
Swiss Franc	0.84	0.92
Chinese Yuan	7.09	6.95
Euro	0.91	0.93
British Sterling Pound	0.78	0.83

Taiwan Dollar	30.69	30.74
South African Rand	18.29	16.99

11. Share Capital

The authorised share capital of the ICAV is 500,000,000,000 redeemable Shares of no par value and 300,002 redeemable Management Shares of EUR 1.00 each. Management shares are disclosed by way of this note only and are not included anywhere else within these Financial Statements. The Directors have the power to allot Shares in the capital of the Funds on such terms and in such manner as they may think fit.

Management Shares do not entitle the holders thereof to any dividend. On a winding up of the Funds, the Management Shares entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the ICAV. Only two of these shares have been issued at the date of incorporation to the Directors and are held on behalf of GQG Partners LLC.

14. Related Party Transactions

IAS 24 'Related Party Transactions' requires the disclosure of information relating to material transactions with parties who are deemed to be related to the Funds.

The Investment Manager of the ICAV is GQG Partners LLC. Under the terms of the investment management agreement the Investment Manager is responsible, subject to the overall supervision and control of the Directors, for the day to day investment management of the portfolio attributable to each Fund for which it is investment manager. Investment Management Fees are disclosed in Note 4.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

14. Related Party Transactions (Continued)

Mark Barker, Partner of GQG Partners LLC holds: In the GQG Partners Emerging Markets Equity Fund the following units:

- 9 units of F EUR Accumulating Share Class
- 8 units of F GBP Accumulating Share Class
- 10 units of F USD Accumulating Share Class

- 94 units of R EUR Distributing Share Class
- 82 units of R GBP Accumulating Share Class

Other key contracts

The fees charged by all service providers are also disclosed in Note 4 and Note 5 to the financial statements.

15. Efficient Portfolio Management

The Investment Manager may utilise derivatives and other techniques and instruments (including, but not limited to, options, swaps, futures and forwards) whether the intention of providing protection against risks of gaining exposure to certain markets, sectors or securities, or otherwise of increasing the return on the Assets of each Fund. Such derivatives and other techniques and instruments will only be used for efficient portfolio management purposes in accordance with the conditions and limits laid down by the Central Bank of Ireland. The Investment Manager may also, when facilities become available in the relevant markets, lend the Portfolio securities and/or purchase securities subject to repurchase agreements. No securities lending occurred and no securities were purchased subject to repurchase agreements during the financial year.

As at 31 December 2023, there were open derivative contracts held at the Statement of Financial Position date of the Funds. The notional amount of a forward currency contract is the underlying amount that an investor has contracted to buy and sell. As at 31 December 2023, the notional value of forwards currency contracts was USD394,343 for GQG Partners Emerging Markets Equity Fund, USD737,320 for GQG Partners Global Equity Fund, and USD4,875,203 for GQG Partners U.S. Equity Fund.

As at 31 December 2022, there were no open derivative contracts held at the Statement of Financial Position date of GQG Partners Emerging Markets Equity Fund, GQG Partners Global Equity Fund and GQG Partner U.S. Equity Fund.

16. Significant Events During the Financial Year

Ukraine/Russia Crisis

The invasion of Ukraine initiated by Russia in February 2022 remained an active military conflict between the two countries through the end of 2023. In addition to the unnecessary loss of life, we believe that the war has impacted global supply chains and the production and distribution of energy and agricultural commodities, among other ancillary effects.

Notes to the Financial Statements (Continued)

For the financial year ended 31 December 2023

16. Significant Events During the Financial Year (Continued)

The total impact of the Russian securities that were written down at the start of the conflict was 3.39% of the net asset value of GQG Partners Emerging Markets Equity Fund. After marking down the value of our Russian held securities to RUB 0.01 per share, the GQG Partners Emerging Markets Equity Fund's direct exposure to the securities issued by companies domiciled in Russia or Ukraine is de minimis, unless and until such time the Russian investments return to normal market value. Meanwhile, the Investment Manager will continue to monitor the conflict in Ukraine and its impact on commodity prices, inflation, and the earnings power of companies that issue publicly traded equities suitable for inclusion in the Funds regardless of where those companies are domiciled.

The Board, the Manager and the Investment Manager continue to monitor the sanctions activity globally to ensure the Fund is in adherence. We continue to rely on the Administrator to monitor the investor base with respect to sanctions and, if any sanctioned investors are identified, to remediate following their appropriate policies and procedures.

The following share classes launched during the financial year for GQG Partners Emerging Markets Equity Fund:

UCITS V Remuneration Disclosure

The below disclosure is made in respect of the remuneration policies of Bridge Fund Management Limited ("Manager") in accordance with the European Union Directive 2014/91/EU as implemented in Ireland by European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016. This requires UCITS management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the Funds.

The Manager has designated the following persons as Identified Staff:

1. Executive and Non-Executive members of the management body of the Manager e.g. CEO, Directors, Executive and Non-Executive partners;

2. Senior management;

3. Risk takers - staff who can exert material influence on the Manager or on the UCITS or AIFs it manages;

4. Those in control functions: Operations, HR, Compliance, Finance where applicable;

5. Staff whose total remuneration takes them into the bracket of senior management and risk takers, whose professional activities have a material impact on the Manager's risk position or those of the UCITS and/or AIFs it manages; and

6. Categories of staff of the entities to which portfolio management or risk management activities have been delegated whose professional activities have a material impact on the Manager's risk position or those of the UCITS and/or AIFs it manages.

The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the Funds and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager is required under UCITS regulations to make quantitative disclosures of remuneration. Disclosures are provided in relation to Identified Staff who are employed directly by the Manager and Identified Staff who have the ability to materially impact the risk profile of the Funds including individuals who, although not directly employed by the Manager, are assigned by their employer to carry out services directly by the Manager.

All remuneration paid to Identified Staff can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

Remuneration details for the Manager are disclosed below:

Description	Number of	Total remuneration	Fixed remuneration	Variable
	beneficiaries	paid	paid	remuneration paid
Total Staff Remuneration	45	€3,948,284	€3,503,284	€445,000
Senior Management (including	8	€1,194,440	€952,440	€242,000
executives), risk takers and other				
identified staff				

Details of the Remuneration Policy, including, but not limited to, a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits is available at the following website: <u>https://bridgefundservices.com/media/ceupd4jd/remuneration-policy.pdf</u>

GQG PARTNERS LLC

Analysis of UCITS and AIF assets under management (AUM) as a proportion of total AUM

As of 31 December 2023

Based on an analysis of GQG's UCITS and AIF fund client assets under management as a proportion of GQG's total assets under management, and the determination that GQG's AUM attributable to such European fund clients is 7.34% of its total AUM, it is reasonable for GQG to rely on a proportionate application of EU remuneration requirements and a disapplication of the Payout Process Rules and the requirement to establish a GQG Remuneration Committee under:

- the AIFMD and the UCITS Directives (specifically Directive 2014/91/EU of the European Parliament and of the Council);
- guidance published by the European Securities and Markets Authority ("ESMA"), including the "Guidelines on sound remuneration policies under the UCITS Directive" and the "Guidelines on sound remuneration policies under the AIFMD" published by the ESMA; and
- guidance published by Member State regulatory authorities and industry associations.

Sustainable Finance Disclosure Regulation ("SFDR")

Under the SFDR, as noted under Article 7 of Taxonomy Regulation – Financial Products Qualifying under Article 6 of the SFDR, Financial Market Participants who manufacture financial products must disclose specific information regarding their approach to the integration of sustainability risks and the consideration of adverse sustainability impacts.

The investments underlying the GQG Global UCITS ICAV do not take into account the EU criteria for environmentally sustainable economic activities.
