## What is this product?

### Type

This product is a UCITS Investment Fund.

### Term

This product has no fixed end date. However the Fund, at its absolute discretion, can redeem all the shares of the Fund under the circumstances set out in the prospectus.

### Objectives

**Investment objective** The investment objective of the Fund is to seek long term growth of capital and income.

**Investment policies** The Fund is an index tracking fund. It is passively managed and will seek to achieve its objective by investing predominantly in equity and equity related securities of emerging markets issuers (as outlined further below) that as far as possible and practicable reflect the component emerging markets equity securities of the MSCI EM (Emerging Markets) ex Selected Securities Index, unhedged in USD (the "Index").

The Fund will seek to promote environmental and social characteristics within the meaning of Article 8 of the Sustainable Finance Disclosure Regulation ("SFDR").

The Fund will seek to promote environmental characteristics by investing in the component securities of the Index which avoids investment in companies that generate more than 1% of their revenue from thermal coal extraction, arctic drilling or oil tar sand mining.

The Fund will seek to promote social characteristics by investing in the component securities of the Index which avoids investment in companies which are involved in the manufacture, distribution or sales of controversial weapons, or which manufacture tobacco products or generate more than 50% of their revenue from tobacco distribution or sales. Further, the Fund will invest at least 10% in sustainable investments, being investments which, according to the Investment Manager's framework: (a) contribute positively to UN Sustainable Development Goals ("SDGs"); (b) do no significant harm to any environmental or social objective; and (c) follow good governance practices.

The Fund follows good governance standards in the selection of securities for investment and seeks to engage with any companies that are deemed to be in breach of UN Global Compact Principles ("UNGC"), to remediate where possible. UNGC is a set of globally accepted standards on human rights, labour, the environment and anti-corruption.

The Index represents the performance of large and mid-cap securities in 24 emerging markets except for those companies which the index provider excludes based on negative environmental and social screens.

The Fund may use optimisation techniques in order to achieve a similar return to the Index; this strategy seeks to build a representative portfolio that matches the risk and return characteristics of the Index without the expectation that the Fund will hold every underlying constituent of the Index. This approach may result in the Fund investing in only a relatively small number of Index constituents where such instruments provide similar performance. Certain indices may also be used in the management of the Fund, including for investment purposes, as detailed in the supplement.

Equity securities of emerging markets issuers in which the Fund will invest may include, without limitation, common stocks, warrants, new issues and units/shares of equity-related investment funds which fall within the categories of funds which are permissible investments for UCITS.

The Fund may invest and have direct access to eligible China A-Shares traded on the Shanghai Stock Exchange via the Shanghai-Hong Kong Stock Connect scheme, the Shenzhen Stock Exchange via the Shenzhen-Hong Kong Stock Connect scheme and/or the QFI regime.

The Fund will invest at least 90% of its net assets in securities issued in markets which are listed as emerging markets under the rules of the Index and/or constitute recognised markets. No more than 10% of the net assets of the Fund may be invested in aggregate in securities issued in markets other than those listed as emerging markets under the rules of the Index.

The Fund may, on an ancillary basis, invest in debt securities issued or guaranteed by EU Member States and non-EU Member States.

The Fund may invest in cash, money market instruments and/or liquid instruments such as bank deposits, certificates of deposit, fixed and floating rate instruments, commercial paper, floating rate notes and freely transferable promissory notes which may be listed on recognised markets for liquidity purposes and for paying expenses due by it.

No more than 10% of the net asset value of the Fund will be invested in the debt securities including, without limitation, commercial paper, promissory notes, floating rate notes and certificates of deposit, of companies, other than banks, with a credit rating of less than A1/P1.

The Fund may use financial derivative instruments (instruments for which the price is dependent on one or more underlying asset, "FDI") for the purposes of hedging and/or efficient portfolio management. The Fund is not intended to be leveraged. The Fund may not invest in FDI that would result in losses exceeding the net asset value of the Fund.

**Redemption and Dealing** You can buy and sell shares in the Fund on demand each day which is a bank business day in Ireland or the United Kingdom ("Dealing Day").

**Distribution Policy** The Share Class will not distribute dividends. Income and capital gains from the Fund are reinvested.

### Intended retail investor

Investors who have at least a basic understanding of financial markets and the underlying investment instruments, who understand the risk of the Fund including the risk of capital loss and that the product should not constitute a complete investment plan and:

- have a long term investment horizon
- seek a product which promotes environmental and/or social characteristics

### Practical information

**Depository** The Fund's assets are held through its depository, State Street Custodial Services (Ireland) Limited.

**Further information** This document describes a Share Class of the Fund, which is a sub-fund of MGI Funds plc constituted as an umbrella, comprising a number of sub-funds (including the Fund), each having a separate portfolio of assets. As a matter of Irish law, the assets of one

sub-fund will not be available to meet the liabilities of another. However, MGI Funds plc is a single legal entity that may operate, have assets held on its behalf, or be subject to claims in other jurisdictions that may not necessarily recognise such segregation. Accordingly, there is no absolute certainty that the assets of a sub-fund will not be exposed to the liabilities of other sub-funds of MGI Funds plc. Investors do not have the right to exchange shares in one sub-fund for shares in another sub-fund. The

prospectus, latest annual and semi-annual reports, which are prepared for the entire Umbrella, and information on other share classes are available free of charge in English on <https://investment-solutions.mercer.com>.

The net asset value per share is published on [www.bloomberg.com](http://www.bloomberg.com).

## What happens if Mercer Global Investments Management Limited is unable to pay out?

The Fund is responsible for paying redemptions and any other payment obligations due to investors. The Manager is not responsible for meeting the obligations of the Fund to investors from its own assets. The Fund's assets are safeguarded by the Depositary in accordance with applicable law. If the Fund is unable to pay out to investors due to its insolvency, investors will be unsecured creditors in the insolvency process and are likely to suffer a financial loss. Investors may also suffer a financial loss in the event of the Depositary's insolvency or default (or that of any custody delegate). Investors in UCITS, such as the Fund, are not covered under the terms of the Irish statutory investor compensation scheme.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

## Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>44 EUR</b>	<b>218 EUR</b>
<b>Annual cost impact*</b>	<b>0.4%</b>	<b>0.5%</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.8% before costs and 6.3% after costs.
