## What is this product?

### Type

This is an investment fund established as an Irish Collective Asset-Management Vehicle (ICAV).

### Objectives

**Investment objective** The Sub-Fund's objective is to increase the value of your shares over the long term.

**Investment policies** The Sub-Fund will seek to achieve its objective by investing in the robotics and automation theme in different countries, sectors and markets. This theme includes not just companies involved in the production of robots and automated machinery, but also businesses that are developing or producing automation software and technology, artificial intelligence, 3D printing, autonomous vehicles, automated services, components and subsystems.

There are no restrictions on the amount the Sub-Fund can invest in any country or on the size of company in which the Sub-Fund can invest. However, there is an overall limit of 35% on investment in emerging markets, which are markets that are not considered to be as advanced in economic or market regulation terms as the major industrialised nations.

The Sub-Fund may invest directly in a company by buying equity securities, or may invest indirectly through equity related securities, collective investment schemes and derivatives.

The Sub-Fund may also use derivatives to hedge against market risk. Derivatives used may include warrants, swaps, options, contracts for difference, forwards and swaptions.

**Benchmark** The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to any benchmark.

**Redemption and Dealing** You may sell your shares on any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. five business days prior to the day on which you want to sell.

**Distribution Policy** Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

**Launch date** The Sub-Fund came into existence in 2016. This Share class was launched on 10/06/2016.

**Fund Currency** As your shares are denominated in EUR and the Sub-Fund is valued in USD, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.

**Conversion of units/shares** You may switch your shares to the shares of another sub-fund of MontLake UCITS Platform ICAV free of charge.

### Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium-high level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments for a professional investor.

### Term

The Sub-Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the ICAV as set forth in the ICAV prospectus, the Sub-Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

### Practical information

**Depository** The Sub-Fund's assets are held with its depository, Northern Trust Fiduciary Services (Ireland) Limited.

**Further information** Further information about MontLake UCITS Platform ICAV, copies of its prospectus, annual and half-yearly reports may be obtained free of charge in English. Write to the ICAV's Administrator, Northern Trust International Fund Administration Services (Ireland) Limited, at Georges Court, 54-62 Townsend Street, Dublin 2, Ireland or visit [www.waystone.com](http://www.waystone.com). Other practical information including the latest share prices are available at the registered office of the Management Company and the Administrator during normal business hours and will be published daily on the website [www.montlakeucits.com](http://www.montlakeucits.com).

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity of the Sub-Fund to pay you.

**Be aware of currency risk.** In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The performance scenarios described in this document are hypothetical and illustrative examples based on certain assumptions and do not represent actual or guaranteed outcomes; particularly in the case of the favourable scenario, actual performance may differ significantly.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the ICAV prospectus, available free of charge at [www.waystone.com](http://www.waystone.com).

### Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 29 October 2021 and 31 January 2024.

**Moderate:** this type of scenario occurred for an investment between 31 May 2017 and 31 May 2022.

**Favourable:** this type of scenario occurred for an investment between 29 October 2016 and 29 October 2021.

### What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Sub-Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Sub-Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

| Example Investment 10,000 EUR | if you exit after 1 year | if you exit after 5 years (recommended holding period) |
|-------------------------------|--------------------------|--|
| <b>Total Costs</b>            | <b>245 EUR</b>           | <b>1,802 EUR</b>                                       |
| <b>Annual cost impact*</b>    | <b>2.5%</b>              | <b>2.6%</b>  |

(\* ) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.5% before costs and 6.9% after costs.

## Composition of costs

| One-off costs upon entry or exit                                   |   | Annual cost impact if you exit after 1 year |
|--|---|---|
| <b>Entry costs</b>   | 0.00%, we do not charge an entry fee.   | 0 EUR                                       |
| <b>Exit costs</b>  | 0.00%, we do not charge an exit fee for this product, but the person selling you the product may do so.   | 0 EUR                                       |
| Ongoing costs taken each year                                      |   | Annual cost impact if you exit after 1 year |
| <b>Management fees and other administrative or operating costs</b> | 1.21% of the value of your investment per year. This is an estimate based on actual costs over the last year.   | 121 EUR                                     |
| <b>Transaction costs</b>   | 0.10% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 10 EUR                                      |
| Incidental costs taken under specific conditions                   |   | Annual cost impact if you exit after 1 year |
| <b>Performance fees</b>  | 1.14% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.  | 114 EUR                                     |

## How long should I hold it and can I take money out early?
