What is this product?

Type:

This product is a UCITS fund which is structured as an umbrella investment company with segregated liability authorized by the Central Bank of Ireland.

Term:

The Fund is an open-ended UCITS and has an indefinite duration. The Fund may be terminated at any time upon two weeks' notice to shareholders.

Objectives: The Fund's investment objective is to seek capital appreciation.

The Fund invests principally in the equity securities of U.S. and non-U.S. domiciled companies that the Fund's portfolio managers believe demonstrate above-average, long-term growth potential in all market capitalization ranges.

The Fund will invest at least 50% of its net assets in companies having a market capitalization range within the range of companies included in the Russell 1000® Index. The Fund normally will invest the remainder of its assets in securities of mid-sized and small companies.

The Fund may invest up to 10% of its net assets in equity securities of non-U.S. (including emerging market) companies and depositary receipts such as American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”).

The Fund may invest in financial derivative instruments (“FDIs”) in order to seek to enhance returns, to attempt to hedge some of its investment or currency risk or as a substitute position for holding the underlying asset on which the FDI is based. Any income less expenses realised will be reinvested and accumulated in the net asset value per share.

The Fund is actively managed. It uses the Russell 1000 Growth Index GBP for performance comparison purposes.

Investors can redeem shares each day (except Saturdays, Sundays, and normal bank holidays) on which banks in Dublin and New York are open for regular business.

For full investment objective and policy details, please refer to the “Investment Objective” and “Investment Policies” sections of the Fund's

supplement to the Prospectus of the Company (the “Prospectus”). Unless otherwise expressly defined herein, defined terms have the same meaning assigned in the Prospectus.

This share class is an accumulating share class and the Directors intend to accumulate and to reinvest all earnings, dividends and other distributions.

Intended Retail Investor:

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years. The Fund is intended for investors: (i) with knowledge and/or experience of these types of products; (ii) that have obtained appropriate investment advice; and (iii) that have the ability to bear losses up to the amount they have invested in the Fund.

The Fund's assets are held through its depositary, which is Brown Brothers Harriman Trustee Services (Ireland) Limited (the “Depositary”).

The Fund is a sub-fund of the Company, an open-ended investment company with segregated liability between sub-funds. This means that the assets of the Fund cannot be used to pay the liabilities of other sub-funds of the Company.

Shares in the Fund may be switched for the shares of another share class of the Fund or another sub-fund of the Company, subject to certain conditions and meeting the requirements for investment in such other share classes or sub-funds. See the section titled “Conversion of Shares” of the Prospectus for more information.

Further information about the Fund and about the Company's other sub-funds/share classes including those marketed in your Member State may be obtained from the Prospectus (available in English), the annual and semi-annual reports which are prepared for the Company as a whole (available in English). These documents are available free of charge from Lord Abbett (Ireland) Ltd., 2nd Floor, 5 Earlsfort Terrace Dublin 2 Ireland or at www.lordabbett.com/LordAbbettGlobalFunds. Latest share prices of the Fund are also available at www.lordabbett.com/LordAbbettGlobalFunds.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for at least 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level and poor market conditions will likely impact the value of your investment. The risk category shown is not guaranteed and may shift over time.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the Prospectus available at www.lordabbett.com/LordAbbettGlobalFunds.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 5 years. What happens if Lord Abbett (Ireland) Ltd is unable to pay out?

You may face a financial loss should the Manager or Depository default on their obligations. There is no compensation or guarantee scheme in place which may offset all or any of this loss.

What are the costs?

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

	If you exit after 1 year	If you exit after 5 years
Total costs	£87	£550
Annual cost impact (*)	0.9%	0.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13% before costs and 12% after costs.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	None	£0
Exit costs	None	£0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.68% of the value of your investment per year.	£68
Transaction costs	0.18% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	£18
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	£0
