What is this product?

Type

SANTANDER LATIN AMERICAN CORPORATE BOND (the "Sub-Fund") is sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The objective of the Sub-Fund (whose reference currency is USD) is to maximise medium to long term returns.

Investment policy: The Sub-Fund invests more than 50% in corporate bonds; the rest of the portfolio will be invested in sovereign and quasi sovereign debt instruments.

This Sub-Fund will invest a minimum of 60% of its net assets in securities denominated in USD.

Most of the Sub-Fund's assets will be invest in debt instruments issued by Mexican, Brazilian, Argentinean and Chilean companies or companies that derive more than 60% of their revenues from their operations in the region and by local sovereign or quasi-sovereign issuers.

Debt instruments issued by other Latin American issuers will also be held when advisable and where minimum liquidity of market is assured.

This Sub-Fund may invest up to 100% of its portfolio in so-called "non-grade investment".

Within the limits of the investment restrictions, this Sub-Fund may hold not listed debt instruments.

The Sub-Fund may use derivatives with a view to reduce the risk of investment positions or for efficient portfolio management or as a part of the investment strategy.

The Sub-Fund is actively managed in reference to the J.P. Morgan Corporate Broad Diversified EMBI Broad Latin America Index (the "Benchmark"). The reason for referring to the Benchmark in this investment policy is to indicate that it is used for performance comparison purposes. However, the Investment Manager uses its discretion to select holdings based on an analysis of market conditions and an analysis of a company's prospects and valuations. As such, the Investment Manager will not hold all of the Benchmark constituents.

Net asset value calculation frequency: Daily, any full Business day.

This is an accumulation share class in USD.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depository: J.P. Morgan SE, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Sub-Fund's capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you may get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		\$10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$5,530	\$6,330
	Average return each year	-44.70%	-14.14%
Unfavourable	What you might get back after costs	\$8,230	\$8,840
	Average return each year	-17.70%	-4.03%
Moderate	What you might get back after costs	\$10,230	\$11,100
	Average return each year	2.30%	3.54%
Favourable	What you might get back after costs	\$12,790	\$12,320
	Average return each year	27.90%	7.20%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2019 and 2022.

Moderate scenario: this type of scenario occurred for an investment between 2016 and 2019.

Favourable scenario: this type of scenario occurred for an investment between 2016 and 2019.

What happens if Santander Asset Management Luxembourg is unable to pay out?

In the event of the insolvency of our Company, the assets of the Sub-Fund deposited with the Depositary will not be affected. However, in the event of the insolvency of the depositary or a person acting on its behalf, the Sub-Fund could suffer a financial loss that is not covered by an investor compensation or protection scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	\$217	\$711
Annual cost impact (*)	2.2%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.7% before costs and 3.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
