# General Information

SEB Concept Biotechnology (the "Fund") is an open-ended common fund ("FCP" - "Fonds Commun de Placement") governed by Part I of the Luxembourg Law on Undertakings for Collective Investment of 17 December 2010, as amended, (the "Law"). The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS). The Fund was set up on 31 August 2000 for an undetermined duration. The Management Regulations lastly modified with effect from 31 January 2024, have been published in the *Recueil Electronique des Sociétés et Associations (RESA)* on 31 January 2024. The Fund is registered in Luxembourg with the Luxembourg Register of Commerce under the number K 2. The Management Company was established on 19 May 1978 in the form of a Swedish limited liability company (AB). The Management Company is authorised by Finansinspektionen for the management of UCITS and for the discretionary management of financial instruments and investment portfolios under the Swedish UCITS Act (SFS 2004:46). The Management Company is also authorised as an alternative investment fund manager to manage alternative investment funds under the Swedish AIFM Act (SFS 2013:561).

The Management Company has delegated parts of the Central Administration as further detailed hereafter, including the administrative, registrar and transfer agent functions - under its continued responsibility and control - at its own expenses to The Bank of New York Mellon SA/NV, Luxembourg Branch, 2-4, rue Eugène Ruppert, L-2453 Luxembourg. This branch was created in Luxembourg as a "succursale d'une société de droit étranger" on 15 December 1998 and is an indirect wholly-owned subsidiary of The Bank of New York Mellon Corporation. It is registered with the Luxembourg Trade and Companies' Register under Corporate Identity Number B 105087 (the "Administrative Agent" and "Registrar and Transfer Agent").

In the capacity of Administrative Agent, it carries out certain administrative duties related to the administration of the Fund, including the calculation of the NAV of the Units and the provision of account services for the Fund.

In its capacity as Registrar and Transfer Agent, it will process all subscriptions, redemptions and transfers of units, and will register these transactions in the Investors' register of the Fund.

The main objective of the Fund will be to invest directly and/or indirectly in transferable securities and other Eligible Assets, with the purpose of spreading investment risks and achieving long-term capital growth. The investment objectives of the Fund will be carried out in compliance with the investment restrictions set forth in the latest prospectus.

At present, one Fund is at the Investors' disposal

<b>Fund name:</b>	<b>Base currency:</b>
SEB Concept Biotechnology	EUR

The base currency of the Fund is EUR.

Unless otherwise laid down in the Prospectus, the Management Company may decide to issue, for the Fund, capitalisation Units ("C" Units) and distribution Units ("D" Units).

The "C" Units will reinvest their income, if any. The "D" Units may pay a dividend to its Investors, upon decision of the Management Company. Dividends are paid annually, except where the Management Company would decide on a monthly, quarterly or semi-annual dividend payment.

The unit classes offered for the Fund are disclosed in note 2 of this Semi-Annual Report.

The last known issue and redemption prices may be downloaded from the Website of the Branch and/or requested at any time at the registered offices of the Management Company and of the Depositary, at the address of its Branch as well as from the paying agents.

In addition, the Net Asset Value, fact sheets and other informational material is published on the SEB Luxembourg website [www.sebgroup.lu](http://www.sebgroup.lu) ("website"). When registered in other countries, the publication media might differ according to the regulatory requirements. Information about fund charges can be found in the Key Information Document ("KID").

The audited annual and unaudited semi-annual reports of the Fund may be obtained free of charge, at the registered office of the Management Company, at the address of its Branch and on the website. These reports as well as copies of the Prospectus, the Management Regulations and the KID are available, free of charge, at the registered office of the Management Company, at the address of the Branch and on the website.

# Management Report

## January – June 2024: Strong Equity market performance led by Technology stocks

Global economic growth remained relatively modest in the first half of 2024 but showed more balance, with Europe and emerging markets exhibiting signs of improvement. US growth slowed to below-trend levels after a very strong 2023, driven by robust consumption and expansionary fiscal policies. Europe is emerging from a prolonged slump following the Russian invasion of Ukraine, but the recovery is expected to be slow. Private consumers remain very cautious, with an elevated savings ratio, and key export markets have shown weak demand for European goods. The energy crisis continues to weigh on the overall economy. In China, the economy continues to suffer from challenges in the housing sector and the debt overhang associated with exuberant residential investments. Consumer demand is weak, and the country faces deflationary pressures. Looking forward, leading indicators and the Purchasing Managers' Index for developed economies moved into expansionary territory above 50, although disappointments were seen in late Q2. Overall, the growth outlook for 2024 is cautiously optimistic, but US growth appears to be weaker than the consensus estimate of 2.5%.

The pandemic's effects on global inflation through disrupted supply chains and rising commodity prices have clearly abated. However, US inflation broke the strong downward trend seen at the end of last year, with the annual rate in core CPI and PCE inflation increasing at a faster pace again in H1 2024. Housing costs (rents) and transportation costs (car insurance) are the main items keeping US inflation well above the Federal Reserve's target. Most economists expect these items to develop in line with historical price increases, meaning that US inflation is still expected to be relatively close to target in 2025 and 2026. Slowing economic growth should ensure that the labour market cools and the upward pressure on wage growth slows. In Europe, inflation has been very sticky, considering that the economy has been in a prolonged period of zero growth. Swedish inflation developments have been very favourable, which will facilitate Riksbank rate cuts in H2 2024.

At the start of the year, interest rate markets were expecting almost seven rate cuts from the Federal Reserve in 2024. However, as the year progressed and central banks signalled 'higher for longer', markets had to reprice policy expectations. As short-term interest rates traded higher, yield curves remained deeply inverted. Despite this sign of economic caution, credit markets continued to show strength as spreads tightened to near-record levels. Strong aggregated corporate earnings also defied the revised and more hawkish outlook for monetary policy as interest rates and equities rose simultaneously.

Equity market development has not been uniform. Regions and sectors focused on technology, particularly AI and semiconductors, have outperformed, whereas regions with weak underlying growth and more traditional sectors have underperformed. The best-performing countries are found in emerging markets, including Taiwan and India, while the worst performers include Brazil and Mexico. The global market overall is heavily driven by US technology shares, with concentration levels like those seen in the early 2000s. The difference this time is that these companies are also very profitable.

In the last month, investors have been reminded that political risk plays a very important role in market developments in 2024. The French equity market fell after President Macron dissolved parliament following the EU elections. In November, the US will elect a new president, with Donald Trump the possible winner. His policy agenda is not clear yet but is expected to involve tax cuts and tariffs and these will potentially have a strong impact on markets. The US election and Federal Reserve policy will continue to be the most important drivers together with the US Technology shares. We continue to expect favourable development for equities as the rate of inflation weakens and interest rate cuts are delivered. Gains will not be as strong as in H1 2024 but will still be positive.

On behalf of SEB Investment Management AB and our board of directors, we thank you again for your continued commitment. As always, we are here to assist you should you have any concerns.

Luxembourg, 6 July 2024

# Notes to the Financial Statements

## As at 30 June 2024

### Note 1. Significant Accounting Policies

The financial statements have been prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment.

The financial statements have been prepared based on the last official Net Asset Value of the period which has been calculated on 28 June 2024 with the prices of that date.

Investments are valued as follows:

Investments	Last available price	Administrative Agent	Last available settlement prices	A price no lower than the bid price and no higher than the ask price	Latest available forward exchange rates
Listed Transferable securities and money markets instruments	X				
Units or shares of UCI(TS)		X			
Derivatives instruments			X		
Financial Futures Contracts <sup>*)</sup>	X				

<sup>\*)</sup> Financial Futures Contracts, which are not matured, are valued at valuation date at market rates prevailing at this date.

In the event that such prices are not in line with market conditions, or for securities and money market instruments other than those covered above for which there are no fixed prices, these securities and money market instruments, as well as other assets, will be valued at the current market value as determined in good faith by the Management Company, following generally accepted valuation principles.

Derivatives instruments not traded on regulated markets or on stock exchanges are valued at their net liquidating value determined, pursuant to the policies established in good faith by the Management Company on a basis consistently applied for each different variety of contracts, in accordance with generally recognised principles, taking into consideration the generally accepted accounting practices, the customary practices in line with the market and the interests of the Investors.

In the case that extraordinary circumstances occur which make it impossible or even wrong to make a valuation in accordance with the above-mentioned criteria, the Management Company is entitled to temporarily apply other generally accepted valuation procedures, which are determined by it in good faith, in order to make an appropriate valuation of the Fund's Assets.

Gains and losses on the sale of securities are determined using the average cost method.

#### Swing pricing:

When substantial sums flow in or out of a Fund, the Investment Manager has to make adjustments, such as trading on the market, in order to maintain the desired asset allocation for the Fund. Trading can incur costs that affect the Unit price of the Fund and the value of existing Investors' investments. Swing pricing is designed to protect Investors' investments in this kind of situation.

The Unit price of the Fund may thus be adjusted upwards in case of large inflows and downwards in case of large outflows on a certain Business Day. The thresholds that trigger swing pricing as well as the size of the adjustments ("swing factor") are set by the board of directors of the Management Company or by a swing price committee appointed by the board of directors of the Management Company.

The Board of Directors of the Management Company or swing price committee may also decide a maximum swing factor to apply to a Fund. The list of Funds that currently apply swing pricing, including the size of a maximum swing factor, is available on SEB Investment Management's website. Investors may also request this information, free of charge.

<b>Fund</b>	<b>Maximum applied adjustment</b>
SEB Concept Biotechnology	0.99% of the NAV

No swing pricing adjustment has been applied on the Net Asset Value per unit calculated on 28 June 2024.

#### **Currency translation:**

All assets denominated in a different currency to the Funds' currency are converted into the Funds' currency at the last available exchange rate.

Separate accounts are maintained for the Fund in the currency in which the Net Asset Value per unit to which it relates is expressed (the "accounting currency").

Transactions denominated in a currency other than the accounting currency are recorded on the basis of exchange rates prevailing on the date they occur or accrue to the Fund.

Assets and liabilities, expressed in a currency other than the accounting currency, are translated on the basis of exchange rates ruling at the balance sheet date.

As at 28 June 2024, the exchange rates were as follows:

1 CHF	=	1.038293939 EUR	1 SEK	=	0.088104131 EUR
1 DKK	=	0.134090883 EUR	1 USD	=	0.933035361 EUR
1 GBP	=	1.179450000 EUR			

#### **Income:**

Interest income and bank interest income are recognised on an accrual basis. Dividends are recorded on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

#### **Note 2. Management Fees**

The unit classes currently offered for the Fund are listed below. In payment of its services, the Management Company receives a management fee at an annual rate as follows:

<b>Fund name:</b>	<b>ISIN</b>	<b>Unit Class</b>	<b>Effective rate %</b>
SEB Concept Biotechnology	LU0385485148	C (EUR)	1.50
SEB Concept Biotechnology	LU0118405827	D (EUR)	1.50
SEB Concept Biotechnology	LU2553409058	D (USD)	1.50
SEB Concept Biotechnology	LU2249630927	UC (EUR)	0.75
SEB Concept Biotechnology	LU2553409132	UD (USD)	0.75

A twelfth of this rate is being payable at the end of each month and based on the average Net Assets of the Fund calculated daily during the relevant month.

The Management Company pays accounting, administration and depositary fees on behalf of the Fund.

### **Note 3. Taxation**

The Fund is liable in Luxembourg to a subscription tax ("taxe d'abonnement") of 0.05% per annum of its NAV, such tax being payable quarterly on the basis of the value of the aggregate Net Assets of the Fund at the end of the relevant calendar quarter. Investments by a Fund in shares or units of another Luxembourg undertaking for collective investment which are also subject to the taxe d'abonnement are excluded from the NAV of the Fund serving as basis for the calculation of this tax to be paid by the Fund.

No stamp duty or other tax is payable in Luxembourg on the issue of units.

Interest, dividend and other income realised by the Fund on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied by the jurisdictions in which the income is sourced.

### **Note 4. Transaction Fees**

Transaction fees incurred by the Fund relating to the purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets are mainly composed of depositary fees and broker fees. Most of the transaction fees are included in the transaction price used to calculate the realised and unrealised gain/(loss) on securities.

As at 30 June 2024, the transaction fees were as follows:

SEB Concept Biotechnology	12,598.10	EUR
---------------------------	-----------	-----

### **Note 5. Significant Events during the period**

A new prospectus was issued in January 2024, and a further new prospectus was issued in April 2024.

As of 1 April 2024, SEB Asset Management Sales (AMS) and SEB Asset Management Products and Solutions (AMPS) legally moved from Skandinaviska Enskilda Banken AB (publ) ("SEB AB") into the newly formed SEB Asset Management AB ("SEB AM"). As a result, the global distributor of SEB funds has now changed from SEB AB to SEB AM.

There were no other significant events during the period.

### **Note 6. Subsequent Events after the period end**

There were no subsequent events after the period end.

# Sustainable Finance Transaction Regulation (SFTR)

The Fund did not engage in any Securities Financing Transactions during the financial period ended 30 June 2024.
