## What is this product?

### Type

Janus Henderson Pan European Fund is a sub-fund of Janus Henderson Fund, an open-ended investment company organised under the laws of the Grand Duchy of Luxembourg. Janus Henderson Fund qualifies as an undertaking for collective investment in transferable securities (UCITS).

### Term

This investment has no maturity date. The Manufacturer has the right to terminate the product in a limited number of circumstances, as set out in the Prospectus.

### Objectives

The Fund aims to provide a return, from a combination of capital growth and income over the long term (5 years or more). The Fund invests at least two-thirds of its assets in shares (equities) and equity-related securities of companies, of any size, in any industry, in Europe (including UK). Companies will have their registered office in or do most of their business (directly or through subsidiaries) in this region. The Fund may also invest in other assets including cash and money market instruments. The Investment Manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently. The Fund is actively managed with reference to the MSCI Europe Index, which is broadly representative of the companies in which it may invest, as this can provide a useful comparator for assessing the Fund's performance. The Investment Manager has discretion

to choose investments for the Fund with weightings different to the index or not in the index. Depending on prevailing market conditions the Fund's portfolio may shift between 'high conviction' (whereby the manager will take significant risk relative to the index) and a more cautious stance. This means the performance of the Fund may at times differ significantly from the index, while at other times it may be more closely aligned. The Investment Manager will seek to promote environmental, social and/or governance (ESG) principles in managing the Fund, which may include the exclusion of issuers that the Investment Manager considers could contribute to significant ESG harm, as further described in the prospectus. The Fund promotes environmental and/or social characteristics as defined under Article 8 of the Sustainable Finance Disclosure Regulation (SFDR). This share class accumulates income which is retained within the price of the share class. You can buy, sell or switch shares in the Fund on any dealing day, as defined in the Fund's Prospectus. The Fund's Depository is BNP Paribas, Luxembourg Branch.

### Intended Retail Investor

Investors who understand the Fund's risks, would like a combination of income and growth from a European-focused investment, and intend to invest their money for at least five years. This Fund is designed to be used only as a component in a diversified investment portfolio and is not designed for investors who are unable to accept more than a minimal loss of their investment.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a

medium level, and poor market conditions could impact the capacity of the PRIIPs manufacturer to pay you.
