The relevant legal documents are available free of charge from the representative agent in Switzerland.

For the subfunds UBS (Lux) Institutional Fund – Equities Europe (ex UK ex Switzerland) Passive and UBS (Lux) Institutional Fund – Equities Europe (ex UK ex Switzerland) Passive II no notification has been filed to the Bundesanstalt für Finanzdienstleistungsaufsicht and therefore units of these subfunds may not be publicly distributed in Germany.

The sales prospectus, the PRIIPs KID (Packaged Retail and Insurance-based Investment Products Key Information Document) management regulations, annual and semi-annual reports as well as the portfolio movements of the investment fund mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Management Company.

# Features of the Fund

UBS (Lux) Institutional Fund (hereinafter called the "Fund") offers investors a range of different subfunds ("umbrella construction"), which invest in accordance with the investment policy described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be updated upon the inception of each new subfund.

The Fund was established as an open-ended investment fund without legally independent status in the form of a collective investment fund (fonds commun de placement, FCP) pursuant to Part I of the Luxembourg law relating to Undertakings for Collective Investment of 17 December 2010. UBS (Lux) Institutional Fund originally established under the title UBS Brinson Portfolio has been approved on 28 December 1998. The activities of the UBS Institutional Fund Management Company S.A. in its function as Management Company of the UBS (Lux) Institutional Fund expired with effect as of 30 September 2010. On 1 October 2010 UBS Fund Management (Luxembourg) S.A. has taken over the function of the Management Company.

The Fund has no legal personality as an investment fund. The entire assets of each subfund are the undivided property of all investors who have equal rights in proportion to the number of units, which they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the fund are managed by UBS Fund Management (Luxembourg) S.A. as in-house funds in the interest and for the account of the unitholders.

The Management Regulations give the Management Company the authority to establish different subfunds for the Fund as well as different unit classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund or an additional unit class is issued.

There is no limit on the size of the net assets, the number of units, number of subfunds or the duration of the Fund.

The fund forms an indivisible legal entity. With respect to the unitholders, each subfund is regarded as being separate from the others. The assets of a subfund can only be used to offset the liabilities, which the subfund concerned has assumed.

Given that there is no segregation of liabilities between unit classes, there is a risk that, under certain circumstances, currency hedging transactions in relation to unit classes which hedge the foreign currency exposure of the respective subfund against their respective reference currency could result in liabilities which might affect the net asset value of the other unit classes of the same subfund.

Various unit classes may be offered for each subfund. Information on the unit classes available in each subfund can be obtained from the administrative agent or at [www.ubs.com/funds](http://www.ubs.com/funds).

## "I-A1"

Units in classes with "I-A1" in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, NZD 100, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

## "I-A2"

Units in classes with "I-A2" in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NZD 100, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000. The minimum subscription amount for these units is CHF 10 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or
- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 30 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 30 million within a specified period.

## "I-A3"

Units in classes with "I-A3" in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010. The maximum flat fee for this class does not include distribution costs. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NZD 100, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

The minimum subscription amount for these units is CHF 30 million (or foreign currency equivalent).

Upon subscription

- (i) a minimum subscription must be made in accordance with the list above; or

- (ii) based on a written agreement between the institutional investor and UBS Asset Management Switzerland AG (or one of its authorised contractual partners), the investor's total assets managed by UBS or its holdings in UBS collective investment schemes must be more than CHF 100 million (or foreign currency equivalent); or
- (iii) the institutional investor must be an institution for occupational retirement provision that is part of UBS Group AG or must be one of its wholly-owned group companies.

The management company may waive the minimum subscription if the total assets under management at UBS or the holdings of UBS collective investment schemes by institutional investors exceed CHF 100 million within a specified period.

#### **"I-B"**

Units in classes with "I-B" in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners. A fee covering the costs for fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) is charged directly to the subfund. The costs for asset management and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NZD 100, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

#### **"I-X"**

Units in classes with "I-X" in their name are exclusively reserved for institutional investors within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, administrative agent and the Depositary) and distribution are charged to investors under the aforementioned agreements. Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, BRL 400, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NZD 100, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100 or ZAR 1,000.

#### **"U-X"**

Units in classes with "U-X" in their name are exclusively reserved for institutional investors institutional within the meaning of Article 174 (2) (c) of the amended Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners. The costs for asset management, fund administration (comprising the costs of the Management Company, the administrative agent and the Depositary) and distribution

are charged to investors under the aforementioned agreements. This unit class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000, NZD 10,000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000 or ZAR 100,000.

Additional characteristics of unit classes:

#### **Currency**

The unit classes may be denominated in AUD, CAD, CHF, CZK, EUR, GBP, HKD, JPY, PLN, RMB, RUB, SEK, SGD or USD. For unit classes issued in the currency of account of the subfund, this currency will not be included in the unit class name.

#### **hedge**

For unit classes with "hedged" in their name and with reference currencies different to the subfund's currency of account ("**unit classes in foreign currencies**"), the fluctuation risk of the reference currency price for those unit classes is hedged against the currency of account of the subfund. Provision is made for the amount of the hedging to be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will then take all the necessary steps to bring the hedging back within the aforementioned limits. The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the subfund's currency of account.

#### **"portfolio hedged"**

For unit classes with "portfolio hedged" in their name, the currency risk of the subfund's investments is hedged against the reference currency of the unit class as follows: Systematically, between 95% and 105% of the proportion of investments in developed nation foreign currencies relative to the unit class' total net assets is hedged, except where this is unfeasible or not cost-effective. Emerging market foreign currency investments are not hedged. Changes in the market value of the subfund's investments, as well as subscriptions and redemptions of unit classes, can cause the hedge to temporarily exceed the range specified by the Portfolio Manager. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described is used to hedge the currency risk resulting from investments denominated in a currency other than the unit class' reference currency, as described above.

#### **RMB denominated unit classes**

Investors should note that the Renminbi (ISO 4217 currency code: CNY), abbreviated RMB, the official currency of the

People's Republic of China (the "**PRC**"), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China.

Unit classes denominated in RMB are units whose net asset value is calculated in offshore RMB (CNH).

Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair.

RMB convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore regulatory or governmental agencies (e.g. the Hong Kong Monetary Authority).

Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.

Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant subfunds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant subfund to make redemption payments in offshore RMB (CNH) would be subject to the subfund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company.

The hedging of the fluctuation risk will be carried out as described above under "hedging".

Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the reinvestment risk due to liquidation of a unit class and/or the subfund in accordance with the section "Liquidation and merging of the Fund and its subfunds or unit classes".

#### **"acc"**

The income of unit classes with "-acc" in their name is not distributed unless the Management Company decides otherwise.

#### **"dist"**

For unit classes with "-dist" in their name, income is distributed unless the Management Company decides otherwise.

#### **"seeding"**

Units in classes with "seeding" in their name are only offered for a limited period of time. At the end of this period, no further subscriptions are permitted unless the Management Company decides otherwise. However, these units may still be redeemed in accordance with the conditions for the redemption of units. Unless the Management Company decides otherwise, the smallest tradeable unit, the initial issue price and the minimum subscription amount are those of the aforementioned asset classes.

There is no provision in the Management Regulations for a meeting of the unitholders.

The financial year of the Fund ends on 31 December.

The acquisition of fund units implies acceptance of the Management Regulations by the unitholder.

Information on whether a subfund is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website ([www.bourse.lu](http://www.bourse.lu)).

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports shall be available free of charge to unitholders at the registered office of the Management Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current sales prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

# Notes to the Financial Statements

## Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

### a) Calculation of the Net Asset Value

The net asset value and the issue and redemption price per unit of the different classes of any subfund are expressed in the currency of account of the subfund or the unit class concerned and are calculated every bank business day by dividing the overall net assets of the subfund to which the respective unit class is assigned by the number of units in circulation in the relevant class of this subfund.

However, the net asset value of a unit may also be calculated on days on which no units are issued or redeemed in accordance with the preceding section. Such net asset value may be published but may only be used for performance calculations and statistics or fee calculations, but in no case as a basis for subscription and redemption orders.

The percentage of the overall net asset value to be assigned to a subfund's unit class is determined of the relationship between the units in circulation in each class and the total number of units in circulation of the subfund. This percentage rate changes in accordance with distributions made and the issue and redemption of units as follows:

- Each time units are issued or redeemed, the net asset value attributable to the unit class concerned is increased or reduced by the amount received or paid out.

### b) Valuation of the securities' portfolio

- The value of any cash – either in hand or on deposit – as well as bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- Securities, derivatives and other investments listed on an official stock exchange are valued at the last known market prices. If the same security, derivative or other investment is quoted on several stock exchanges, the last available quotation on the stock exchange that represents the major market for this investment will apply.

In the case of securities, derivatives and other investments where trading of these assets on the stock exchange is thin but which are traded between securities dealers on a secondary market using standard market price formation methods, the Management Company can use the prices on this secondary market as the basis for their valuation of these securities and other investments. Securities, derivatives and other investments that are not listed on a stock exchange, but that are traded on another regulated market which is recognised, open to the public and operates regularly, in a due and orderly fashion, are valued at the last available price on this market.

- Securities and other investments that are not listed on a stock exchange or traded on any other regulated market, and for which no reliable and appropriate price can be obtained, will be valued by the Management Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- Units or shares of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCI) will be valued at their last net asset value. Certain units or shares of other UCITS and/or UCI may be valued based on an estimate of the value provided by a reliable price provider independent from the target fund's investment manager or investment adviser (Estimated Pricing).
- The valuation of derivatives that are not listed on a stock exchange (OTC derivatives) is made by reference to independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by employing methods of calculation recognised by the Management Company and the Auditor, based on the market value of the underlying instrument from which the derivative has been derived.
- Securities, money market instruments, derivatives and other investments that are denominated in a currency other than the reference currency of account of the relevant subfund and which are not hedged by means of currency transactions are valued at the middle currency rate (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- The value of swap transactions is calculated by an external service provider, and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the applicable UBS Valuation Policy.
- Time deposits and fiduciary investments are valued at their nominal value plus accrued interest.
- The value of money market instruments which are not listed on a stock exchange or traded on another regulated market open to the public is based on the appropriate curves. The valuation based on the curves refers to the interest rate and credit spread components. The following principles are applied in this process: for each money market instrument, the interest rates nearest the residual maturity are interpolated. The interest rate calculated in this way is converted into a market price by adding a credit spread that reflects the underlying borrower. This credit spread is adjusted if there is a significant change in the credit rating of the borrower.

If valuation in accordance with the aforementioned regulations proves to be impossible or inaccurate, the Management Company is entitled to use other generally recognised and verifiable valuation criteria in good faith in order to achieve a suitable valuation of the net assets.

As some of the Fund's subfunds may be invested in markets that are closed at the time their assets are valued, the Management Company may – by way of derogation to the aforementioned provisions – allow the net asset value per unit to be adjusted in order to more accurately reflect the fair value of these subfunds' assets at the time of valuation. In practice, the securities in which the subfunds are invested are generally valued on the basis of the latest available prices at the time of calculating the net asset value per unit, as described in the prospectus. There may, however, be a substantial time difference between the close of the markets in which a subfund invests and the time of valuation.

As a result, developments that may influence the value of these securities and that occur between the closure of the markets and the time of valuation are not generally taken into account in the net asset value per unit of the subfund concerned. If, as a result of this, the Management Company deems that the most recently available prices of the securities in a subfund's portfolio do not reflect their fair value, it may allow the net asset value per unit to be adjusted in order to reflect the assumed fair value of the portfolio at the time of valuation. Such an adjustment is based on the investment policy determined by the Management Company and a number of practices. If the value is adjusted as described above, this will be applied consistently to all unit classes in the same subfund.

The Management Company reserves the right to apply this measure to the relevant subfunds of the Fund whenever it deems this to be appropriate.

Valuing assets at fair value calls for greater reliability of judgment than valuing assets for which readily available market quotations can be referred to. Fair-value calculations may also be based on quantitative models used by price reporting providers to determine the fair value. No guarantee can be given that the Fund will be in a position to accurately establish the fair value of an asset when it is about to sell the asset around the time at which the Fund determines the net asset value per unit. As a consequence, if the Fund sells or redeems units at the net asset value at a time when one or more participations are valued at fair value, this may lead to a dilution or increase in the economic participation of the existing unitholders.

In the case of extraordinary circumstances, additional valuations, which will affect the prices of the units to be subsequently issued or redeemed, may be carried out within one day. In this case, only the last valuation is taken into consideration.

The actual costs of purchasing or selling assets and investments for a subfund may deviate from the latest available price or net asset value used, as appropriate, in calculating the net asset value per unit due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of a subfund and are known as "dilution". To mitigate the effects of dilution, the Board may, at its discretion, make a dilution adjustment to the net asset value per unit ("swing pricing").

Units will in principle be issued and redeemed on the basis of a single price, i.e., the net asset value per unit. However – to mitigate the effect of dilution – the net asset value per Unit will be adjusted on any Valuation Day in the manner set out below depending on whether or not a Subfund is in a net subscription position or in a net redemption position on such Valuation Day. Where there is no dealing on a Subfund or Class of a Subfund on any Valuation Day, the applicable price will be the unadjusted net asset value per Unit. The Board retains the discretion in relation to the circumstances under which to make such a dilution adjustment. As a general rule, the requirement to make a dilution adjustment will depend upon the volume of subscriptions or redemptions of units in the relevant subfund. The Board may make a dilution adjustment if, in its opinion, the existing unitholders (in case of subscriptions) or remaining unitholders (in case of redemptions) might otherwise be adversely affected. In particular, the dilution adjustment may be made where, for example but without limitation:

- (a) a subfund is in continual decline (i.e. is experiencing a net outflow of redemptions);
- (b) a subfund is experiencing large levels of net subscriptions relevant to its size;
- (c) a subfund is experiencing a net subscription position or a net redemption position on any Valuation Day; or
- (d) in any other case where the Board is of the opinion that the interests of unitholders require the imposition of a dilution adjustment.

The dilution adjustment will involve adding to, when the subfund is in a net subscription position, and deducting from, when the subfund is in a net redemption position, the net asset value per unit such figure as the Board considers represents an appropriate figure to meet duties and charges and spreads. In particular, the net asset value of the relevant subfund will be adjusted (upwards or downwards) by an amount which reflects (i) the estimated fiscal charges, (ii) dealing costs that may be incurred by the subfund and (iii) the estimated bid/offer spread of the assets in which the subfund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Adjustments will generally be limited to a maximum of 2% of the then applicable net asset value per unit. The Board may decide, in respect of any subfund and/or Valuation Day, to apply on a temporary basis a dilution adjustment greater than 2% of the then applicable net asset value per unit in exceptional circumstances (e.g. high market volatility and/or illiquidity, exceptional market conditions, market disruptions, etc.) where the Board can justify that this is representative of prevailing market conditions and that this is in the Board. Unitholders shall be notified at the introduction of the temporary measures as well as at the end of the temporary measures via the usual communication channels.

For UBS (Lux) Institutional Fund – Equities Europe (ex UK ex Switzerland) Passive and UBS (Lux) Institutional Fund – Equities Europe (ex UK ex Switzerland) Passive II instead of a swing pricing the investors are subject to a dilution levy of maximum 2% of all purchases and redemptions of units. The proceeds of the dilution levy are retained by the subfund to

offset trading costs associated with purchases and redemptions to protect the other investors from asset dilution.

When purchasing units, trading costs (in particular, brokerage at standard market rates, commissions, taxes and duties) are incurred on average by the respective subfund in connection with the investment of the amount paid in. These are added to the net asset value. When redeeming units, trading costs incurred on average by the respective subfund in connection with the sale of a portion of investments corresponding to the units redeemed are deducted from the net asset value. The dilution levy applied will be the same for every subscription in a subfund on any day. The dilution levy applied will be the same for every redemption in a subfund on any day. However, the levy for subscriptions will not necessarily be the same as for redemptions because the related trading cost may differ. The Board of Directors may decide to temporarily apply a dilution levy of more than 2% in exceptional circumstances (e.g. high market volatility and/or liquidity, exceptional market conditions, market disruption, etc.), provided the Board of Directors can justify that this is representative of the prevailing market conditions and that it is in the best interest of the unitholders. This dilution levy adjustment will be calculated in accordance with the method determined by the Board of Directors. Unitholders will be informed via the usual communication channels when the temporary measures are introduced and when they end. No dilution levy is charged for subscriptions and redemptions made the same day in the same subfund that have an evident, direct economic link and that therefore entail no transaction costs for the purchase and sale of investments.

The dilution levy will be waived in case of a subscriptions or redemptions in kind.

The net asset value of each class in the subfund will be calculated separately but any dilution adjustment will in percentage terms affect the net asset value of each class in an identical manner. The dilution adjustment will be applied on the capital activity at the level of the subfund and will not address the specific circumstances of each individual investor transaction.

For all subfunds the Swing Pricing methodology is applied, except for UBS (Lux) Institutional Fund – Equities Europe (ex UK ex Switzerland) Passive and UBS (Lux) Institutional Fund – Equities Europe (ex UK ex Switzerland) Passive II (as mentioned above).

If there were Swing Pricing adjustments to the net asset value at the end of the financial period, this can be seen from the most important figures section of the net asset value information of the subfunds. The issue and redemption price per unit represents the adjusted net asset value.

In the case of extraordinary circumstances, additional valuations, which will affect the prices of the units to be subsequently issued or redeemed, may be carried out within one day.

#### **c) Valuation of forward foreign exchange contracts**

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

#### **d) Valuation of financial futures contracts**

Financial futures contracts are valued based on the latest available published price applicable on the valuation date.

Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

#### **e) Net realized profit (loss) on sales of securities**

The realized profits or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

#### **f) Swaps**

The Fund may enter into interest rate swap contracts, forward rate agreements on interest rate swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under “Unrealized appreciation (depreciation) on Swaps”.

Gains or losses on swaps incurred when closed-out or matured are recorded as “Realized gain (loss) on Swaps” in the statement of operations.

The Management Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate determination of the valuation of the net asset value if, due to extraordinary circumstances, a valuation in accordance with the aforementioned regulations proves to be unfeasible or inaccurate.

#### **g) Conversion of foreign currencies**

Bank accounts, other net assets and the valuation of the investments in securities, derivatives and other investments held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates prevailing on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at the mid closing spot rates prevailing at payment date. Profit or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate prevailing on the day of acquisition.

#### **h) Accounting for securities' portfolio transactions**

The securities' portfolio transactions are accounted for the bank business day following the transaction date.

### i) Combined financial statements

The combined financial statements are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations and the combined statement of changes in net assets at 30 June 2024 of the investment company are equal to the sum of the corresponding items in the financial statements of each subfund converted into EUR at the following exchange rates.

The following exchange rates were used for the conversion of the Combined financial statements as of 30 June 2024:

#### Exchange rates

EUR 1	=	CHF	0.963075
EUR 1	=	USD	1.071750

### j) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

### k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

The Fund pays a maximum monthly flat fee for unit classes "I-A1", "I-A2", "I-A3", "I-B", calculated on the average net asset value of the subfunds.

This shall be used as follows:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the fund is paid from the Fund's assets for the management, administration, portfolio management, investment advice, and

distribution of the Fund (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Fund's assets, the processing of payment transactions and all other tasks listed in the "Depositary and Main Paying Agent" section: This fee is charged to the Fund's assets on a pro rata basis upon every calculation of the net asset value and is paid on a monthly basis (maximum flat fee). The maximum flat fee for unit classes with "hedged" in their name may include foreign exchange risk hedging charges. The relevant maximum flat fee will not be charged until the corresponding unit classes have been launched.

2. The maximum flat fee does not include the following fees and additional expenses, which are also charged to the Fund's assets:
  - a) all additional expenses related to the management of the Fund's assets for the sale and purchase of assets (bid/offer spread, brokerage fees in line with the market, commissions, fees, taxes, levies, etc.). These expenses are generally calculated upon the purchase or sale of the respective assets. In derogation hereto, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the single swing pricing principle;
  - b) fees of the supervisory authority for the establishment, amendment, liquidation and merger of the Fund, as well as all fees of the supervisory authorities and any stock exchanges on which the subfunds are listed;
  - c) auditor's fees for the annual audit and certification in connection with the establishment, amendment, liquidation and merger of the Fund, as well as any other fees paid to the auditor for the services it provides in relation to the administration of the Fund and as permissible by law;
  - d) fees for legal and tax advisers, as well as notaries, in connection with the establishment, registration in distribution countries, amendment, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
  - e) costs for the publication of the Fund's net asset value and all costs for notices to investors, including translation costs;
  - f) costs for the Fund's legal documents (prospectuses, KID, annual and semi-annual reports, as well as all other documents legally required in the countries of domiciliation and distribution);
  - g) costs for the Fund's registration with any foreign supervisory authorities, if applicable, including fees, translation costs and fees for the foreign representative or paying agent;
  - h) expenses incurred through use of voting or creditors' rights by the Fund, including fees for external advisers;
  - i) costs and fees related to any intellectual property registered in the Fund's name or usufructuary rights of the Fund;
  - j) all expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary for protecting the interests of the investors;
  - k) if the Management Company participates in class-action suits in the interests of investors, it may charge

the Fund's assets for the expenses arising in connection with third parties (e.g. legal and Depositary costs). Furthermore, the Management Company may charge for all administrative costs, provided these are verifiable and disclosed, and taken into account in the disclosure of the Fund's total expense ratio.

3. The Management Company may pay retrocessions in order to cover the distribution activities of the Fund.

For unit class "I-B", a fee is charged to cover the costs of fund administration (comprising the costs of the Fund, the administrative agent and the Depositary). The costs for asset management and distribution are charged outside of the Fund under a separate contract concluded directly between the unitholder and UBS Asset Management or one of its authorised representatives.

Costs relating to the services performed for unit classes I-X, and U-X for asset management, fund administration (comprising the costs of the Fund, the administrative agent and the Depositary) and distribution are covered by the compensation to which UBS AG is entitled to under a separate contract with the unitholder.

All costs that can be attributed to individual subfunds will be charged to these subfunds. Costs that can be attributed to individual unit classes will be charged to these unit classes. If costs are incurred in connection with several or all subfunds/unit classes, however, these costs will be charged to these subfunds/unit classes in proportion to their relative net asset values.

All taxes levied on the income and assets of the Fund, particularly the *taxe d'abonnement*, will also be borne by the Fund.

Operational and administrative expenses are allocated among the subfunds, the categories and the classes of units pro rata to their respective net assets (or in a fair and reasonable manner as determined by the Management Company).

When investing in shares of Funds which are managed by UBS AG or a company it controls, no issue or redemption commission is chargeable on subscription to or redemption of these shares. The upper limit for management fees (excluding performance fees) of target funds in which the subfunds' assets are invested amounts to a maximum of 3%, taking into account any trail fees.

If a subfund invests in funds which refund either entirely or partly the fees charged to their assets by means of payment, such payments will be added in full to the assets of the subfunds concerned.

The details of expenses paid by the relevant subfund are disclosed in the KID.

### Note 3 – *Taxe d'abonnement*

The Fund is subject to Luxembourg legislation. In accordance with current legislation in the Grand Duchy of Luxembourg,

the Fund is not subject to any Luxembourg withholding, income, capital-gains or wealth taxes.

From the total net assets of each subfund, however, a tax of 0.01% p.a. ("*taxe d'abonnement*") payable to the Grand Duchy of Luxembourg is due at the end of every quarter. This tax is calculated on the net assets of each subfund at the end of every quarter.

The following are exempt from this "*taxe d'abonnement*":  
- subfunds, categories and/or classes:

- (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and
- (ii) whose exclusive object is to replicate the performance of one or more indices.

Where several classes of securities exist within the subfund, the exemption only applies to classes fulfilling the conditions as above.

The taxable values shown are based on the most recently available data at the time they were calculated.

The unitholders are not required, under current tax law, to pay any income, gift, inheritance or other tax in Luxembourg unless they are domiciled in Luxembourg, have a residence in Luxembourg or maintain a permanent establishment there, or were previously domiciled in Luxembourg and hold more than 10% of the units in the Fund.

The aforementioned represents a summary of the fiscal effects and makes no claim to be exhaustive. It is the responsibility of purchasers of units to seek information on the laws and regulations governing the purchase, possession and sale of units in connection with their place of residence and their nationality.

### Note 4 – Other income

Other income mainly consist of income resulting from swing pricing and transaction fee on subscription and redemption of units.

### Note 5 – Income Distribution

In accordance with article 10 of the Management Regulations, once the annual accounts are closed the Management Company will decide whether and to what extent distributions are to be paid out by each subfund. The payment of distributions must not result in the net assets of the Fund falling below the minimum amount of Fund assets prescribed by law. If a distribution is made, payment will be effected no later than two months after the end of the financial year.

The Management Company is authorized to pay interim dividends and to suspend the payment of distributions.

Distributions are made upon submission of the relevant coupons. The Management Company determines the method of payment.

## Note 6 – Commitments on Financial Futures

Commitments on Financial Futures per subfund and respective currency as of 30 June 2024 can be summarised as follows:

<b>UBS (Lux) Institutional Fund</b>	<b>Financial Futures on Indices (bought)</b>	<b>Financial Futures on Indices (sold)</b>
– Equities Europe (ex UK ex Switzerland) Passive	8 539 389.42 CHF	- CHF
– Equities Europe (ex UK ex Switzerland) Passive II	14 849 049.38 CHF	- CHF
– Key Selection Global Equity	10 466 220.00 USD	- USD

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts\*notional contract size\*market price of the futures).

## Note 7 – Event

The war in Ukraine had and still has a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and is closely monitored by the Management of the Fund in order to quickly take appropriate action to protect the investor interest.

The necessary measures were put in place to at all times comply with applicable laws and regulations, in particular but not limited to the most recently enacted sanction regimes in the EU, Switzerland, UK, US and United Nations (UN). As serious trading limitations beyond sanctioned Russian securities have been experienced, fair value pricing is applied for all relevant securities where price quotes (if available) are not considered reflective of their current market value. Also, further to the assessment made by the Management of the Fund, neither the Fund's and any of its subfunds' performance and going concern nor operations, at the date of this report, have been significantly impacted by the above.

## Note 8 – Subsequent event

There were no events after the period-end that require adjustment to or disclosure in the Financial Statements.

## Note 9 – Applicable law, place of performance and authoritative language

The Luxembourg District Court is the place of performance for all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary can elect to make themselves and the fund subject to the jurisdiction of the countries in which the fund units were bought and sold.

The English version of these financial statements is the authoritative version. However, in the case of units sold to investors from the other countries in which Fund units can be bought and sold, the Management Company and the Depositary may recognize approved translations (i.e. approved by the Management Company and the Depositary) into the languages concerned as binding upon themselves and the Fund.

## Note 10 – Securities Lending

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch acts as securities lending agent.

UBS (Lux) Institutional Fund	Counterparty Exposure from Securities Lending as of 30 June 2024*				Collateral Breakdown (Weight in %) as of 30 June 2024		
	Market value of securities lent		Collateral (UBS Switzerland AG)		Equities	Bonds	Cash
– Emerging Markets Equity	8 247 676.48	USD	8 640 700.88	USD	43.08	56.92	0.00

# Appendix 2 – Securities Financing Transaction Regulation (SFTR)

The Fund engages in Securities Financing Transactions (hereafter “SFT”) (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

## Global Data

The following table details the value of securities lending as a proportion of the subfund’s Net Assets Value as well as a proportion of the total lendable securities, as at 30 June 2024.

UBS (Lux) Institutional Fund	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
– Emerging Markets Equity	4.12%	4.31%
– Equities Europe (ex UK ex Switzerland) Passive	13.05%	13.21%
– Euro Bonds	22.65%	22.88%
– Key Selection European Equity	9.15%	8.22%
– Key Selection Global Equity	3.43%	3.50%

The total amount (absolute value) of the securities lent is disclosed in Note 10 – Securities Lending.

## Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None

Cash collateral reinvestment income to the Fund: None

## Concentration Data

Ten largest collateral issuers of SFTs per subfund:

## Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depository.

Service providers that provide services to the Fund in the field of securities lending have the right to receive a fee in return for their services that is in line with the market standards. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received from securities lending transactions negotiated at arm's length is credited to the relevant subfund, while 30% of the gross revenue are retained as costs / fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch as the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. All fees of running for operating the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs generated by incurred through the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.
