

## Franklin Global Real Estate Fund

**Class C (Qdis) USD • ISIN LU0229949648** • A sub-fund of Franklin Templeton Investment Funds  
The management company is Franklin Templeton International Services S.à r.l.

### Objectives and Investment Policy

Franklin Global Real Estate Fund (the "Fund") aims to maximise the investment return by achieving an increase in the value of its investments and earning income over the medium to long term.

The Fund pursues an actively managed investment strategy and invests mainly in:

- real estate investment trusts (REITs)
- equity securities issued by corporations of any size located in any country, including emerging markets, and whose business is financing, dealing, holding, developing or managing real estate

The Fund can invest to a lesser extent in:

- derivatives for hedging purposes and/or efficient portfolio management

The investment team looks for securities that present superior investment characteristics.

The Fund may distribute income gross of expenses. Whilst this might allow more income to be distributed, it may also have the effect of reducing capital.

The benchmark of the Fund is the FTSE EPRA/NAREIT Developed Index (the "Benchmark"). Although the Fund does not intend to track the performance of the benchmark, it is referenced for comparison purposes. Given the limited investment universe within the listed Real Estate sector, most of the Fund's assets are likely to be components of the Benchmark. While the Investment Manager is unconstrained in the active management of the Fund and has

absolute discretion to invest in companies not included in the Benchmark, the Fund's performance may, from time to time, present close similarities with it.

You may request the sale of your shares on any Luxembourg business day.

For the distribution share class shown in this document, dividend income is distributed to shareholders.

For further information on the Objectives and Investment Policy of the Fund, please refer to the section "Fund Information, Objectives and Investment Policies" of the current prospectus of Franklin Templeton Investment Funds.

#### Terms to Understand

**Emerging markets:** Countries whose economy, stock market, political situation and regulatory framework are not fully developed.

**Equity securities:** Securities that represent an ownership stake in a company.

**Real Estate Investment Trusts (REITs):** Tax-advantaged property investment companies that are listed and traded on a stock market.

**Derivatives:** Financial instruments whose characteristics and value depend on the performance of one or more underlying assets, typically securities, indexes, currencies or interest rates.

**Hedging:** A strategy for totally or partially offsetting particular risks such as those arising from fluctuations in share prices, currencies or interest rates.

### Risk and Reward Profile

#### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

#### Why is the Fund in this specific category?

The Fund invests mainly in REITs and other equity securities of the real estate

sector. Such REITs and securities have historically been subject to significant price movements that may occur suddenly due to market or real estate-specific factors. As a result, the performance of the Fund can fluctuate significantly over relatively short time periods.

#### Risks materially relevant not adequately captured by the indicator:

**Foreign Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

**Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Reduced liquidity may have a negative impact on the price of the assets.

**Derivative Instruments risk:** the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Considerations" section of the current prospectus of Franklin Templeton Investment Funds.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
