\* As of 1 October 2024, UBS Fund Management (Luxembourg) S.A. was renamed UBS Asset Management (Europe) S.A.

The sales prospectus, the PRIIPs KID (Packaged Retail and Insurance-based Investment Products Key Information Document), the articles of association of the Company, the annual and semi-annual reports as well as the portfolio movements of the Company mentioned in this publication are available free of charge at the sales agencies and at the registered office of the Company.

# Features of the Company

Multi Manager Access (hereinafter called the “Company”) offers investors various subfunds (“umbrella construction”) which invest in accordance with the investment policy described in the sales prospectus. The sales prospectus, which contains specific details on each subfund, will be brought up to date on the inception of each new subfund or change to the list of eligible Portfolio Managers.

The Company was incorporated on 30 March 2006 as an open-end investment fund in the legal form of a “Société d’Investissement à Capital Variable” (SICAV) in accordance with Part I of the Luxembourg law relating to undertakings for collective investment enacted on 17 December 2010 (the “Law of 2010”), as amended.

The Company is entered under no. B 115 445 in the *Registre de Commerce et des Sociétés*. The Articles were published in the Luxembourg Official Gazette on 14 April 2006, and deposited at the *Registre de Commerce et des Sociétés* for inspection. Each amendment shall be published by way of a deposit notice in the Luxembourg Official Gazette. Such amendments become legally binding in respect of all shareholders subsequent to their approval by the general meeting of shareholders.

The entirety of the individual subfunds’ net assets forms the total net assets of the Company, which at any time correspond to the share capital of the Company and consist of fully paid-in and non-par value shares (the “shares”).

The Company is a single legal entity. However, each subfund corresponds to a distinct part of the assets and liabilities of the Company. For the purpose of the relations as between the shareholders, each subfund is deemed to be a separate entity, separate from the others. The assets of a subfund are exclusively available to satisfy the requests of that subfund and the right of creditors whose claims have arisen in connection with that subfund. Given that there is no segregation of liabilities between share classes, there is a risk that, under certain circumstances, currency hedging transactions in relation to hedged share classes could result in liabilities which might affect the net asset value of the other share classes of the same subfund.

The Board of Directors adheres to the ALFI Code of Conduct.

The Board of Directors is empowered at any time to establish new subfunds and/or to liquidate existing ones, as well as to establish different share classes with specific characteristics within these subfunds. The sales prospectus will be updated each time a new subfund is set up.

As at 31 July 2024, the following subfunds are active:

<b>Multi Manager Access</b>	<b>Currency of account</b>
– EMU Equities Sustainable	EUR
– European Equities	EUR
– Green, Social and Sustainable Bonds	USD
– US Equities	USD

Various classes may be issued for each of the subfunds. Information on which share classes are available for which subfund can be obtained from the Administrative Agent.

## “F”

Class F shares are reserved for (i) investors that have entered into a written discretionary management agreement with UBS; and (ii) UBS managed funds. No distributor is appointed for Class F shares. Class F shares no longer held by either (i) investors bound by the terms of a written discretionary management agreement with UBS or (ii) by UBS managed funds, may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

## “P”

Class P shares are reserved for investors that (i) have the shares held directly in a UBS account or (ii) are clients of UBS and have the shares held in an account pre-approved by the Management Company or (iii) as otherwise decided by the Management Company. Class P shares no longer held in a UBS account by investors may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

## “P-C”

Class “P-C” shares are exclusively reserved for investors who fulfil the criteria for Class P shares described above. Class “P-C” shares confer the right to an annual distribution. However, this distribution is not paid to the shareholder but is transferred in its entirety to the UBS Optimus Foundation. The UBS Optimus Foundation is a charitable, grant-making foundation established in 1999 in accordance with Swiss law and dedicated to improving the health and development of children in measurable, cost-effective and sustainable ways. Distributions for the Class “P-C” shares are paid in their entirety to the UBS Optimus Foundation which uses these for charitable purposes. The entire issuing commission for units in Class “P-C” shares is also paid to the UBS Optimus Foundation together with the total Flat Fee chargeable on the portion of the net assets attributable to Class “P-C” shares. Class P-C shares no longer held in a UBS account by investors may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

## “Q”

Class Q shares are reserved for investors that have entered into a written advisory agreement or agreements relating to investment fund saving schemes with UBS which specifically permits purchases of share classes with no retrocessions. Class Q shares held by investors no longer bound by the terms of such a written advisory agreement or agreements relating to investment fund saving schemes with UBS may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

## “Q-C”

Class “Q-C” shares are exclusively reserved for investors who fulfil the criteria for Class Q shares described above. Class “Q-C” shares confer the right to an annual distribution. However, this distribution is not paid to the shareholder but is transferred in its entirety to the UBS Optimus Foundation. The UBS Optimus Foundation is a charitable, grant-making foundation established in 1999 in accordance with Swiss law and dedicated to improving the health and development of children in measurable, cost-effective and sustainable ways. Distributions for the Class “Q-C” shares are paid in their entirety to the UBS Optimus Foundation which uses these for

charitable purposes. The entire issuing commission for units in Class "Q-C" shares is also paid to the UBS Optimus Foundation together with the total Flat Fee chargeable on the portion of the net assets attributable to Class "Q-C" shares. Class Q-C shares held by investors that are no longer bound by the terms of a written advisory agreement with UBS which specifically permits purchases of share classes with no retrocessions may be compulsorily redeemed at their then applicable net asset value or exchanged for another class of the subfund.

### **Additional characteristics of the share classes**

#### **"acc"**

The income of share classes with "-acc" in their name is not distributed unless the Company decides otherwise.

#### **"dist"**

The income of share classes with "-dist" in their name is distributed unless the Company decides otherwise.

#### **"qdist"**

Share classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) ("capital"). Distributions out of capital result in the reduction of an investor's original capital invested in the share class. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund shares. Some investors may therefore prefer to subscribe to accumulating share classes (-acc) rather than distributing (-dist, -qdist) share classes. Investors may be taxed at a later point in time on income and capital gains arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Prospective investors should consult qualified experts for tax advice regarding their individual situation.

#### **"mdist"**

Share classes with "-mdist" in their name may make monthly distributions, gross of fees and expenses. Distributions may also be made out of capital. Distributions out of capital result in the reduction of an investor's original capital invested in the share class. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund shares. Some investors may therefore prefer to invest in accumulating (-acc) rather than distributing (-dist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital gains arising on accumulating (-acc) share classes compared with distributing (-dist) share classes. Prospective investors should consult qualified experts for tax advice regarding their individual situation.

#### **"UKdist"**

Share classes may also include a reference to "-UKdist" in their name. In respect of each such share class which is labelled "-UKdist", it is intended that a sum corresponding to 100% of the reportable income within the meaning of the

UK reporting fund rules be distributed to the relevant shareholders when the share classes are subject to the reporting fund rules. The Company does not intend to make available taxable values in other countries for any such share class and any share class labelled "-UKdist" is exclusively intended for investors whose investment in the share class is liable to tax in the UK.

#### **"2%", "4%", "6%", "8%"**

Share classes with "2%" / "4%" / "6%" / "8%" in their name may make monthly (-mdist), quarterly (-qdist) or annual (-dist) distributions at the respective aforementioned annual percentage rates, gross of fees and expenses. The distribution amount is calculated based on the net asset value of the respective share class at the end of the month (in the case of monthly distributions), financial quarter (in the case of quarterly distributions) or financial year (in the case of annual distributions). These share classes are suitable for investors seeking more stable distributions, unrelated to past or expected returns or income of the relevant share class. Distributions may also be made from the capital. Distributions out of capital result in the reduction of an investor's original capital invested in the share class. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per share. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund shares. Some investors may therefore choose to invest in accumulating (-acc) rather than distributing (-dist, -qdist, -mdist) share classes. Investors may be taxed at a later point in time on income and capital gains arising on accumulating (-acc) share classes compared with distributing (-dist, -qdist, -mdist) share classes. Prospective investors should consult qualified experts for tax advice regarding their individual situation.

### **Currency**

Each of the above share class may be denominated in the following reference currencies: AUD, CAD, CHF, DKK, EUR, GBP, HKD, JPY, NOK, SEK, SGD, USD. For share classes where the reference currency is part of the name of the relevant subfund, the respective currency will not be included in the share class name.

### **Hedging**

Each of the above share class denominated in a currency other than the relevant subfund's currency of account may also be hedged, in which case, the relevant share class will include a reference to "-hedged" in its name. In relation to "-hedged" share classes, foreign exchange transactions and currency forwards are conducted in order to hedge the net asset value of the subfund, calculated in the subfund's currency of account, against the net asset values of the share classes denominated in other currencies. Provision is made for the amount of the hedging to be between 95% and 105% of the total net assets of the share class in foreign currency. Changes in the value of the hedged sections of the portfolio and the volume of subscription and redemption requests for shares not denominated in the currency of account may, however, result in the level of currency hedging temporarily surpassing the stated limits. The Currency Manager will take all the necessary steps to bring the hedging back within the aforementioned limits.

The Board of Directors can also issue the above mentioned classes in other currencies apart from the subfund's currency of account. For this reason, subscriptions and redemptions for these share classes are permitted in a currency other than the subfund's currency of account. In this case, the net asset value and the issue and redemption prices are expressed and published in the currency in which subscriptions and redemptions are carried out.

The Company is unlimited with regard to duration and total assets.

The financial year of the Company ends on 31 July.

The annual and semi-annual reports are prepared based on the information from the sales prospectus in force at the closing date of the report.

The ordinary general meeting takes place annually on 31 January at 11:00 a.m. at the registered office of the Company. If the 31 January is not a business day in Luxembourg, the ordinary general meeting will take place on the next business day.

At general meetings, the shareholder has the right to one vote per share held, irrespective of the difference in value of shares in the respective subfunds. Shares of a particular subfund carry the right of one vote per share held when voting at meetings affecting this subfund.

Information on whether a subfund of the Company is listed on the Luxembourg Stock Exchange can be obtained from the Administrative Agent or the Luxembourg Stock Exchange website ([www.bourse.lu](http://www.bourse.lu)).

Only the information contained in the sales prospectus and in any of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports shall be available free of charge to shareholders at the registered office of the Company and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current sales prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

# Report of the Portfolio Managers

For portfolios holding both equities and bonds, performance over the reporting period (1 August 2023 – 31 July 2024) was broadly positive. From August 1 until the end of October 2023, the portfolio achieved a negative result that was more than offset in 2024. The positive result was driven by equities, as bonds continued to go through a challenging period.

Global equity markets declined in August, following a month of gains in July. Chief among market drivers was contradictory evidence of economic data, the outlook for Fed policy and underwhelming Chinese growth data. In fixed income, US high grade (government) and investment grade bonds, as well as emerging market bonds, lost money in August. High yield and euro-denominated bonds performed well. While equity valuations are elevated, developed market economic data have proven better than expected. We see opportunity in stocks, markets, and sectors that have lagged.

Global equities and high-quality bonds fell in tandem in September, as central banks signaled rates may have to stay higher for longer to bring inflation back to their targets. The third quarter was broadly negative for equity markets, with only the UK and Japan ending the quarter in positive territory. Globally, government bonds retreated while high yield debt delivered a positive performance. While market conditions remain choppy for both equities and fixed income, we expect cash, bonds, stocks, and alternatives to all deliver reasonable returns – both over the next six to 12 months, and over the longer term.

Global stocks and bonds both retreated in October, amid the outbreak of war in the Middle East, a mixed third-quarter earnings season, and continued concerns that US interest rates look likely to stay higher for longer. The 10-year U.S. Treasury yield hitting 5% for the first time in 16 years was the most significant market event in October, leading to negative performance especially for high quality bonds. But, despite a downbeat October, we believe the medium-term outlook for major asset classes remains positive, as earnings growth returns, the US economy is not heading for a recession, and inflationary pressures continue to subside.

Global equities and bonds both rallied strongly in November, as signs of cooling inflation reinforced expectations that rate cuts are on the way in the first half of next year. The MSCI All Country World Index returned 9.2%, the best monthly gain in three years – taking the gain for 2023 to 16.6%. The S&P 500 led the way, while also the Eurozone and emerging markets also gained ground. Optimism over cooling inflation and rate cuts expectations contributed to the best month for global bonds since 2008 and for US bonds since 1985.

In December, the rally in both stocks and bonds continued. This capped a year in which markets recovered from several setbacks, including a US banking crisis and rising geopolitical risks. Global stocks had their best year since 2019, lifted by optimism that the Federal Reserve will cut rates swiftly and that innovations in artificial intelligence will increase earnings. Despite plenty of volatility in 2023, it was also a positive year for fixed income, with gains in everything from government bonds and investment grade credit to high yield.

Global equities built on last year's rally in January even though a Fed meeting signalling willingness to allow interest rates to rise took the wind out of equity markets on the final day of the month. The picture of healthy growth has been reinforced by recent indications of strong consumer sentiment and a resilient labor market. Economic releases continued to reassure investors that inflation is moderating, and interest rate decreases are likely on the way. Returns in fixed income were mixed after a strong 2023, when hopes for swift rate cuts from the Fed were building, and returns were modestly negative to mildly positive due to the continued uncertainty over the pace of easing.

The equity rally gathered speed in February – gains continued to be driven by optimism over the rapid commercialization of AI, and broad strength in fourth-quarter earnings. Still solid US consumer sentiment and a robust labor market have continued to strengthen the outlook for healthy growth. Markets remained confident that inflation will continue to fall, despite disappointing price data for January. Bond markets came under pressure amid greater caution over the expected pace of US Central Bank interest rate cuts.

Global stocks had the best first quarter in five years, amid optimism over the outlook for the US economy and hopes that AI will boost corporate profits. While all major markets gained ground in March, developed markets led the way. The Swiss National Bank became the first developed-nation central bank to ease policy and the Bank of Japan enacted its first-rate hike in 17 years. Markets lowered their expectations for the Federal Reserve's rate cuts from as much as six in January to three in March. This reflected data suggesting that the improvement in inflation stalled in the first two months of the year, contributing to a mixed quarter for government bonds.

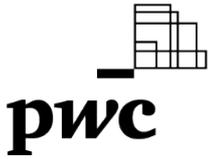

Global stocks fell in April, reducing year-to-date total returns. Renewed enthusiasm about the outlook for AI could not wholly offset worries that rate cuts from the Fed could be further delayed. Investors also contended with heightened geopolitical risks following an exchange of attacks between Israel and Iran. However, equity sentiment did improve later in the month, after strong first quarter earnings announcements from several top US tech companies helped dispel concerns that the pace of AI growth may weaken. US Treasuries sold off in April. Investors became more cautious on the outlook for Fed rate cuts, after a third consecutive month of higher-than-expected US inflation. Only high yield indexes have delivered positive total returns so far this year.

Global equities delivered a strong performance in May as confidence mounted that the US economy is headed for a soft landing while tech companies continued to ramp up investments in artificial intelligence. Although the backdrop for equities remains supportive, we now see modest overall upside and focus on capital preservation strategies and selectivity. Positive news on US inflation helped fixed income markets recover from losses in April, when US Treasuries lost momentum amid fears that rates would stay higher for longer. We expect quality bonds to perform as markets start to price a more convincing central bank rate-cutting cycle.

Global equities capped off a strong first half of 2024, with US stocks leading the advance, while in June the Eurozone was the worst performing major market amid political uncertainty in France. Artificial intelligence remained a major theme for markets, fueling the US stock rally while returns were boosted by further evidence that US inflation is moderating, paving the way for Fed rate cuts later this year. Improving inflation data also helped fixed income.

Global stocks gained ground in July, driven by strong earnings – especially in the United States – recovering from an earlier period of weakness. Equity market sentiment was also bolstered by signals from the Federal Reserve at its July policy meeting that interest rate cuts are imminent. Progress towards easier monetary policy around the world supported fixed income markets and contributed to positive returns for quality bonds.

Within 'MMA EMU Equities Sustainable' the manager composition remained unchanged. Within 'MMA European Equities', weights of JPM has been reduced, while weights of Liontrust has been increased. Goal of this change was to improve the risk/reward profile of the portfolio. Within 'MMA US Equities' Marshall Wace was sold, while weights of AB, D.E. Shaw and UBS have been increased. Goal of this change was to improve the risk/reward profile of the portfolio. Within 'MMA Green, Social and Sustainable', manager composition remained unchanged. Moreover, this addition further enhances diversification of this MMA.

### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Multi Manager Access (the “Fund”) and of each of its sub-funds as at 31 July 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *What we have audited*

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 31 July 2024;
- the statement of investments in securities and other net assets as at 31 July 2024;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

### **Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

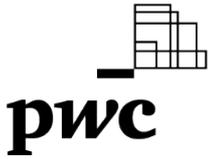

---

### **Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

# Notes to the Financial Statements

## Note 1 – Summary of significant accounting policies

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

### a) Calculation of the Net Asset Value

The Net Asset Value and the issue and redemption price per share in any subfund or share class are expressed in the currency of account of the subfund or share class concerned and are – unless stated otherwise in relation to a subfund – calculated on every day of business by dividing the overall net assets of the subfund attributable to each share class by the number of outstanding shares in the particular share class of the subfund.

In this context, “business day” refers to normal bank business days in Luxembourg (i.e. each day on which the banks are open during normal business hours) with the exception of individual non-statutory rest days in Luxembourg and days on which exchanges in the main countries in which a subfund invests are closed or 50% or more subfund investments cannot be adequately valued.

The percentage of the Net Asset Value which is attributable to each respective share class of a subfund is determined, taking into account the commission charged to that share class, by the ratio of the outstanding shares in each share class to the total number of outstanding shares in the subfund, and will change each time shares are issued or redeemed.

### b) Valuation principles

- The value of any cash – either in hand or on deposit as well as bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- Securities, derivatives and other investments listed on a stock exchange are valued at the last known market prices. If the same security, derivative or other investment is quoted on several stock exchanges, the last available quotation on the stock exchange that represents the major market for this investment will apply.
- In the case of securities, derivatives and other investments little traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments that are not listed on a stock exchange, but which are traded on another regulated market which is recognised, open to the public and operates in a due and orderly fashion, are valued at the last available price on this market.
- Securities and other investments that are not listed at a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, will be

- valued by the Company according to other principles chosen by it in good faith on the basis of the likely sales prices.
- The valuation of derivatives that are not listed on a stock exchange (OTC derivatives) is made by reference to independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by employing methods of calculation recognised by the Company, based on the market value of the underlying instrument from which the derivative is derived.
- Units or shares of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) will be valued at their last net asset value. Certain units or shares of other UCITS and/or UCIs may be valued based on an estimate of the value provided by a reliable price provider independent from the target fund’s investment manager or investment adviser (Estimated Pricing).
- For money market instruments, the valuation price will be gradually adjusted to the redemption price, based on the net acquisition price and retaining the ensuing yield. In the event of a significant change in market conditions, the basis for the valuation of different investments will be brought into line with the new market yields.
- Securities, money market instruments, derivatives and other investments that are denominated in a currency other than the currency of account of the relevant subfund and which are not hedged by means of currency transactions are valued at the middle currency rate (midway between the bid and offer rate) known in Luxembourg or, if not available, on the most representative market for this currency.
- Time deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swap transactions is calculated by an external service provider, and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the UBS Valuation Policy.

The Company is authorised to apply other generally recognised and auditable valuation criteria in good faith in order to achieve an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the above-mentioned regulations proves to be unfeasible or inaccurate.

In extraordinary circumstances, additional valuations can be carried out over the course of the day. These new valuations will then be valid for subsequent issues and redemptions of shares.

The actual costs of purchasing or selling assets and investments for a subfund may deviate from the latest available price or net asset value used, as appropriate, in calculating the net asset value per share due to duties and charges and spreads from buying and selling prices of the underlying investments. These costs have an adverse effect on the value of a subfund and are known as “dilution”. To mitigate the

effects of dilution, the Board of Directors may, at its discretion, make a dilution adjustment to the net asset value per share ("Swing Pricing").

Shares will in principle be issued and redeemed on the basis of a single price, i.e., the net asset value per share. However – to mitigate the effect of dilution – the net asset value per share will be adjusted on any valuation date in the manner set out below depending on whether or not a subfund is in a net subscription position or in a net redemption position on such valuation date. Where there is no dealing on a subfund or share class of a subfund on any valuation date, the applicable price will be the unadjusted net asset value per share. The Board of Directors retains the discretion in relation to the circumstances under which to make such a dilution adjustment. As a general rule, the requirement to make a dilution adjustment will depend upon the volume of subscriptions or redemptions of shares in the relevant subfund. The Board of Directors may make a dilution adjustment if, in its opinion, the existing shareholders (in case of subscriptions) or remaining shareholders (in case of redemptions) might otherwise be adversely affected. In particular, the dilution adjustment may be made where, for example but without limitation:

- (a) a subfund is in continual decline (i.e. is experiencing a net outflow of redemptions);
- (b) a subfund is experiencing large levels of net subscriptions relevant to its size;
- (c) a subfund is experiencing a net subscription position or a net redemption position on any valuation date; or
- (d) in any other case where the Board of Directors is of the opinion that the interests of shareholders require the imposition of a dilution adjustment.

The dilution adjustment will involve adding to, when the subfund is in a net subscription position, and deducting from, when the subfund is in a net redemption position, the net asset value per share such figure as the Board of Directors considers represents an appropriate figure to meet duties and charges and spreads. In particular, the net asset value per share of the relevant subfund will be adjusted (upwards or downwards) by an amount which reflects (i) the estimated fiscal charges, (ii) dealing costs that may be incurred by the subfund and (iii) the estimated bid/offer spread of the assets in which the subfund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Adjustments will however generally be limited to a maximum of 2% of the then applicable net asset value per share. The Board of Directors may decide, in respect of any subfund and/or valuation date, to apply on a temporary basis a dilution adjustment greater than 2% of the then applicable net asset value per share in exceptional circumstances (e.g. high market volatility and/or illiquidity, exceptional market conditions, market disruptions, etc.) where the Board of Directors can justify that this is representative of prevailing market conditions and that this is in the best interests of shareholders. Such dilution adjustment is calculated in conformity with the procedures established by the Board of Directors. Shareholders shall be notified at the introduction of

the temporary measures as well as at the end of the temporary measures via the usual communication channels.

The net asset value of each share class in the subfund will be calculated separately but any dilution adjustment will in percentage terms affect the net asset value of each share class in an identical manner. The dilution adjustment will be applied on the capital activity at the level of the subfund and will not address the specific circumstances of each individual investor transaction.

For all subfunds the swing pricing methodology is applied.

If there were swing pricing adjustments to the net asset value at the end of the financial year, this can be seen from the Three year comparison of the net asset value information of the subfunds. The issue and redemption price per share/unit represents the adjusted net asset value.

When applicable, the swing pricing income is disclosed under the caption "Other income" in the statement of operations.

#### **c) Valuation of forward foreign exchange contracts**

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

#### **d) Valuation of financial futures contracts**

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

#### **e) Net realized gains (losses) on sales of securities**

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

#### **f) Valuation of options**

Outstanding options traded on a regulated market are valued on the settlement price or the last available market price of the instruments. OTC options are marked to market based upon daily prices obtained from Bloomberg option pricer functionality and checked against third party pricing agents. The realized gains or losses on options and the change in unrealized appreciation or depreciation on options are disclosed in the statement of operations and in the statement of changes in net assets respectively under the category realized gains (losses) on options and Unrealized appreciation (depreciation) on options.

#### **g) Conversion of foreign currencies**

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different subfunds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different subfunds are converted at

the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different subfunds is converted at the mid closing spot rate on the day of acquisition.

#### h) Accounting of securities' portfolio transactions

The securities' portfolio transactions are accounted for the bank business day following the transaction day.

#### i) Combined financial statements

The combined financial statements of the Company are expressed in EUR. The various items of the combined statement of net assets, combined statement of operations and the combined statement of changes in net assets as of 31 July 2024 of the Company are equal to the sum of the corresponding items in the financial statements of each subfund.

The following exchange rate was used for the conversion of the combined financial statements as of 31 July 2024:

#### Exchange rate

EUR 1 =	USD	1.082100
---------	-----	----------

#### j) Receivable on securities sales, Payable on securities purchases

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

#### k) Income recognition

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

#### l) Swaps

The Company may enter into interest rate swap contracts, forward rate agreements on interest rates swaptions and credit default swaps, if they are executed with first-class financial institutions that specialize in transactions of this kind.

Changes in unrealized profits and losses are reflected in the statement of operations under the changes in "Unrealized appreciation (depreciation) on swaps". Unrealized profits and losses include accrued interests payable or receivable.

Gains or losses on swaps incurred when closed-out or matured are recorded as "Realized gain (loss) on swaps" in the statement of operations.

## Note 2 – Fees and expenses

The Company and, more specifically, its different classes of shares, will bear a monthly flat fee calculated on the average net assets attributable to this share class and payable monthly (the "Flat Fee") as listed below:

Multi Manager Access	Maximum Flat Fee (per annum)	Effective Flat Fee (per annum)
– EMU Equities Sustainable F-acc	0.90%	0.70%
– EMU Equities Sustainable CHF-hedged F-acc	0.90%	0.73%

– US Equities GBP-hedged F-acc	1.30%	0.98%
– US Equities F-UKdist	1.30%	0.92%

In accordance with the table above, the Maximum Flat Fee covers the following fees, costs and expenses of the Company, each subfund and class:

- fees, costs and expenses of the Depositary;
- fees, costs and expenses of the Administrative Agent;
- fees, costs and expenses of the Management Company;
- fees, costs and expenses of the Investment Manager and the Currency Manager;
- fixed fees, costs and expenses of the Portfolio Manager and any delegate(s) of the Portfolio Manager (excluding any performance fee remuneration);
- fees, costs and expenses in relation to distribution activities relating to the shares of the Company (including the costs and fees incurred in maintaining registration of the Company in foreign countries with competent authorities).

Certain Portfolio Managers are authorised to open and maintain research payment accounts (each, a "Research Payment Account") established in the name of, and controlled by, the Portfolio Manager and/or its affiliates to be used for the purpose of purchasing investment research services from brokers or other third party research providers. The Research Payment Account will be funded by the research charge and payable out of the assets of the subfund. The research charge shall be subject to a maximum annual limit calculated by reference to the research budget agreed in writing between the Portfolio Manager and the Management Company on an annual basis. Shareholders may obtain information on the budgeted amount for research and the amount of the estimated research charge for each subfund from the Management Company upon request.

### Operation and administration expenses of the Company

In addition to the fees, costs and expenses covered by the Flat Fee, the Company bears all expenses which are operational and administrative expenses, which will include but not be limited to:

- all taxes which may be due on the assets and the income of the Company (including the applicable subscription tax);
- usual banking fees due on transactions involving securities or other assets (including derivatives) held in the portfolio of the Company (such fees to be included in the acquisition price and to be deducted from the selling price);
- the fees, expenses and all reasonable out-of-pocket expenses properly incurred by the Company;
- legal fees and expenses incurred by the Company, the Management Company, the Investment Manager or the Portfolio Managers while acting in the interests of the shareholders (including, for the avoidance of doubt, any legal fees and expenses relating to any re-structuring of the Company or any of its subfund(s));
- the costs of preparing, in such languages as are necessary for the benefit of the shareholders (including the beneficial holders of the Shares), and distributing (but not printing) annual and semi-annual reports and such other reports or documents as may be required under applicable laws or regulations;
- the cost of preparing notices to the shareholders and all costs of transactions (broker's normal commission, fees, taxes, etc.) connected with administration of the Company's assets;
- charges and costs of approvals and supervision of the Company in Luxembourg and abroad;
- costs and expenses of printing of the Articles of Incorporation, Prospectus, KID(s) and annual and semi-annual reports and of preparing and/or filing and printing the Articles of Incorporation and all other documents concerning the Company (in such languages as are necessary), including registration statements, prospectuses and explanatory memoranda with all authorities (including local securities dealers' associations) having jurisdiction over the Company or the offering of shares of the Company;
- costs and expenses related to the publications of the net asset value and the publication of notices to investors;
- fees and expenses charged in connection with listing the Company's shares on any stock exchange or regulated market;
- fees and other costs for the payment of dividends to shareholders;
- audit fees, costs and expenses (including the fees and expenses of the Auditor);
- fees and expenses in relation to KID production, translation and filing to regulators;
- fees, costs and expenses payable to the Board of Directors (including reasonable out-of-pocket expenses, insurance cover, and reasonable travelling costs in connection with Board meetings as well as the remuneration of the Board of Directors);
- fees, costs and expenses may be charged to a subfund in connection with registering, reporting, claiming relief, recovery, or exemption from foreign withholding tax.

The Company may accrue in its accounts administrative and other expenses of a regular or recurring nature based on an estimated amount for yearly or other periods.

All costs which can be allocated accurately to individual subfunds and/or individual share classes will be charged to these subfunds and share classes. Costs pertaining to several or all subfunds or share classes will be charged to the subfunds or share classes concerned in proportion to their relative net asset values or on such other basis reasonably determined by the Company or the Management Company.

In the subfunds that may invest in Other UCI or UCITS under the terms of their investment policies, fees may be incurred both at the level of the subfund and at that of the relevant target fund. The upper limit for management fees of the target fund in which the assets of such are invested amounts to a maximum of 3%, taking into account any trail fees. In the case of investments in units of funds managed directly or indirectly by the Management Company itself or another company related to it by common management or control, or by a substantial direct or indirect holding, the subfund's making the investment may not be charged with any of the target fund's issue or redemption commissions.

Details on the costs (or ongoing charges) of the subfunds can be found in the KIDs.

The costs involved in launching new subfunds will be written off over a period of up to five years in the respective subfunds only.

The fees, costs and expenses in relation to distribution activities received by the Management Company and paid to the distributor and by the distributor to the sub-distributors and any intermediary in relation to the distribution of shares of the Company will satisfy any legal and regulatory restrictions and conditions applicable to the reception and the retention of such fees. Subject to applicable legal and regulatory restrictions and conditions, the distributor may pay retrocessions to cover the distribution activities of the Company.

### Note 3 – Taxe d'abonnement

The Company is subject to the Grand Duchy of Luxembourg's "taxe d'abonnement", which is payable at the end of every quarter. This tax is calculated on the total net assets of each class at the end of every quarter. The tax is levied at a rate of 0.05% p.a. of the total net assets. The rate is reduced to 0.01% p.a. in respect of classes reserved to institutional investors such as Class F shares. In the event that the conditions to benefit from the reduced 0.01% rate are no longer satisfied, all Class F shares may be taxed at the rate of 0.05% p.a.

The value of the assets represented by shares held in other Luxembourg undertakings for collective investment that already pay a taxe d'abonnement will be exempted from any taxe d'abonnement.

## Note 4 – Distribution Policy

The general meeting of shareholders of the respective subfund shall decide, upon the proposal of the Board of Directors and after closing the annual accounts per subfund, whether and to what extent distributions are to be paid out by each subfund and/or share class. The payment of distributions must not result in the net assets of the Company falling below the minimum volume of assets prescribed by law. If a distribution is made, payment will be effected no later than four months after the end of the financial year.

The Board of Directors is authorised to pay interim dividends and to suspend the payment of distributions.

## Note 5 – Commitments on Financial Futures, Options and Swaps

Commitments on Financial Futures, Options and Swaps per subfund and respective currency as of 31 July 2024 can be summarised as follows:

## Note 6 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

$$\frac{(\text{Total purchases} + \text{total sales}) - (\text{total subscriptions} + \text{total redemptions})}{\text{Average of net assets during the period under review}}$$

The portfolio turnover statistics are the following for the period under review:

<b>Multi Manager Access</b>	<b>PTR</b>
– EMU Equities Sustainable	46.75%
– European Equities	61.00%
– Green, Social and Sustainable Bonds	46.16%
– US Equities	508.60%

## Note 7 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

<b>Multi Manager Access</b>	<b>Total Expense Ratio (TER)</b>
– EMU Equities Sustainable F-acc	0.73%

TER for classes of shares which were active less than a 12 month period are annualised.

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

## Note 8 – Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 31 July 2024, the fund incurred transaction costs relating to purchase or sale of investments in securities and similar transactions as follows:

<b>Multi Manager Access</b>	<b>Transaction costs</b>
– EMU Equities Sustainable	2 299 444.68 EUR
– European Equities	326 170.74 EUR
– Green, Social and Sustainable Bonds	160 528.73 USD
– US Equities	1 214 104.68 USD

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Fund.

## Note 9 – Investment in other UCITS and/or UCIs

As at 31 July 2024 Multi Manager Access has investments in other UCITS and/or UCIs (“target funds”). Fees may be incurred both at the level of the subfund and at the level of the target funds. The maximum proportion of management fees charged to the target funds are as follows:

<b>Investment Fund</b>	<b>Management fees</b>
SPDR S&P 500 ETF TRUST-S1	0.09%

Management fees are not applied to holdings in Real Estate funds.

## Note 10 – Defaulted securities

In the event a bond is in default (hence not paying a coupon/principal as specified in the offering documents) but a pricing quote exists, a final payment is expected and the bond would therefore be kept in the portfolio.

Furthermore, there are securities that have defaulted in the past where no pricing quote exists. These securities have been fully written off by the fund. They are monitored by the management company that will allocate any return that might still arise (ie dividend) to the subfunds. They are not shown within the portfolio but separately in this note.

Multi Manager Access – US Equities

<b>Shares</b>	<b>Currency</b>	<b>Number</b>
COMMONWEALTH REIT	USD	75 000.00
FIRST HORIZON NATIONAL CORP-OR	USD	115 861.00

## Note 11 – Subsequent event

There were no events after the year-end that require adjustment to or disclosure in the Financial Statements.

## Note 12 – Applicable Law, Place of Performance and Authoritative Language

The Luxembourg District Court is the place of performance for all legal disputes between the shareholders, the Company and the Depositary. Luxembourg law applies. However, in matters concerning the claims of investors from other countries, the Company and/or the Depositary can elect to make themselves subject to the jurisdiction of the countries in which Company shares were bought and sold.

The English version of these financial statements is the authoritative version and only this version was audited by the auditor. However, in the case of Company shares sold to investors from the other countries in which Company shares can be bought and sold, the Company and the Depositary may recognise approved translations (i.e. approved by the Company) into the languages concerned as binding upon itself.

## Note 13 – OTC-Derivatives and Securities Lending

If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or can not meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Company is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Company. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would force the Company to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Company may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

UBS Europe SE, Luxembourg Branch, acts as securities lending agent.

## Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is applied pursuant to the applicable laws and regulatory provisions.

## Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the nominal values of the derivatives used by the respective subfund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

## Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depository.

Service providers that provide securities lending services to the Company have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant subfund, while 30% of the gross revenue are retained as fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent, responsible for the transaction management, ongoing operational activities and collateral safekeeping. All fees for operating the securities lending programme are paid from the securities lending agents' portion of the gross income. This covers all direct and indirect costs incurred through the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

# Appendix 4 – Remuneration Policy (unaudited)

The Board of Directors of UBS Asset Management (Europe) S.A.\* (the “Management Company” or the “AIFM”) has adopted a remuneration framework (the “Framework”) whose objectives are on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under:

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the “UCITS Law”) transposing the UCITS Directive 2009/65/EC (the “UCITS Directive”) as amended by Directive 2014/91/EU (the “UCITS V Directive”);
- (ii) the Alternative Investment Fund Managers Directive (“AIFMD”) 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA’s guidelines on sound remuneration policies under the UCITS Directive - ESMA/2016/575 and ESMA’s guidelines on sound remuneration policies under the AIFMD - ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EU of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) Regulation (EU) 2019/2088 of the European parliament and of the council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”);
- (viii) the CSSF Circular 23/841, transposing the ESMA Guidelines on certain aspects of the MiFID II remuneration requirements (ESMA 35-43-3565) (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the “UBS Group”) Total Reward Principles.

The Framework is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Framework of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html>.

The Framework is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. Last approval by the Board of Directors took place on 4 October 2023. No material change was made to the Framework.

## Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration framework and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

\* As of 1 October 2024, UBS Fund Management (Luxembourg) S.A. was renamed UBS Asset Management (Europe) S.A.

# Appendix 4 – Remuneration Policy (unaudited)

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

## Remuneration of Management Company/AIFM staff

The aggregate amounts of total remuneration, split into fixed and variable, paid by the Management Company/the AIFM to its staff and its Identified Staff during the financial year ended as at 31 December 2023 are as follows:

EUR 1 000	Fixed remuneration	Variable remuneration	Total remuneration	No of beneficiaries
All staff	12 161	2 787	14 948	104
- whereof Identified Staff	6 794	2 159	8 953	44
- thereof Senior Management*	1 937	677	2 614	10
- thereof Other Identified Staff	4 857	1 482	6 339	34

\*Senior Management includes the CEO, the Conducting Officers, the Head of Compliance, the Branch Managers and the Independent Director.

## Remuneration of the delegates' identified staff

As market or regulatory practice develops the Portfolio Manager(s) may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made and in case of changes to the identified staff and/or in case of change in the number of sub-funds over the year, this may result in disclosures in relation to the Fund not being comparable to the disclosures made in the prior year.

For the year ending 31 December 2023, the aggregate total remuneration paid by the delegated Investment Managers\* to their Identified Staff in relation to the Fund amounted to EUR 3 680 601, of which EUR 2 126 021 represented the variable remuneration (2 947 beneficiaries).

## ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Multi Manager Access - EMU Equities Sustainable

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The sub-fund promotes environmental and/or social characteristics by targeting a higher proportion of investments in companies who have reduced their most material negative environmental and/or social risks, and/or those which create a positive environmental and/or social contribution. The sub-fund seeks to maintain a portfolio that has a measurable tilt towards companies with positive ESG attributes compared to the investment universe of the Reference Benchmark Index, and therefore targets a weighted average sustainability profile that exceeds the sustainability profile of its Reference Benchmark Index. The sub-fund follows a broad market strategy that invests across most major industries. As such, the most material environmental and social risks vary depending on each company's industry and activities.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The extent to which the environmental and/or social characteristics promoted by this financial product were met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

## ● **How did the sustainability indicators perform?**

The attainment of the environmental and/or social characteristics promoted by the sub-fund is measured by the weighted average sustainability profile, calculated using the MSCI ESG industry-adjusted score. The MSCI ESG industry-adjusted score of the financial product was higher than that of its benchmark. During the reference period 2023/24:

- MSCI ESG industry-adjusted score of the financial product: 8.10
- MSCI ESG industry-adjusted score of the benchmark: 8.00

## ● **...and compared to previous periods?**

During the previous reference period 2022/23:

- MSCI ESG industry-adjusted score of the financial product: 7.96
- MSCI ESG industry-adjusted score of the benchmark: 7.68

## ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The objectives of the sustainable investments that the sub-fund partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the sub-fund.

## ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

For the sustainable investments the sub-fund partially intends to make, the Portfolio Managers take into consideration the relevant indicators for principal adverse impacts on sustainability factors, and adherence to global norms, i.e. UN Global Compact (UNGC) Principles, OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

In addition, the sub-fund excludes companies or sectors that manufacture products or carry out business activities, which the research and investment decision making process highlights as entailing significant negative social or environmental risks. The sub-fund does not invest directly in companies generating a substantial proportion of their turnover from the production of tobacco, adult entertainment, gambling, arctic oil, oil sands or thermal coal, nor in companies generating a

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

substantial proportion of their turnover using coal-based power. In addition, the sub-fund shall exclude any exposure to companies involved in controversial weapons and war materials.

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

The sub-fund considers adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, and exclusion of companies or sectors associated with controversial conduct or activities.

The indicators for adverse impacts on sustainability factors that the sub-fund focuses on include (but are not limited to) exposure to controversial weapons and violation of UN Global Compact Principles.

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Companies violating the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights and who do not demonstrate credible corrective action do not qualify as sustainable investments within the portfolio.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption, and anti-bribery matters. The portfolio manager integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

1.4 “Exposure to companies active in the fossil fuel sector”: - Companies that exceed 5% revenue threshold from thermal coal mining, exploration and generation are excluded.

1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”: - Companies with severe violations of the United Nations Global Compact (UNGC) and the OECD Guidelines are excluded, with exceptions for a cure

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## In which economic sectors were the investments made?

Please refer to the section “Structure of the Securities Portfolio” of the relevant sub-fund of this Annual report to review the breakdown of the economic sectors where the investments were made.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The sub-fund has 0% Taxonomy Aligned Investments.

## Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
- In fossil gas
  - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds,

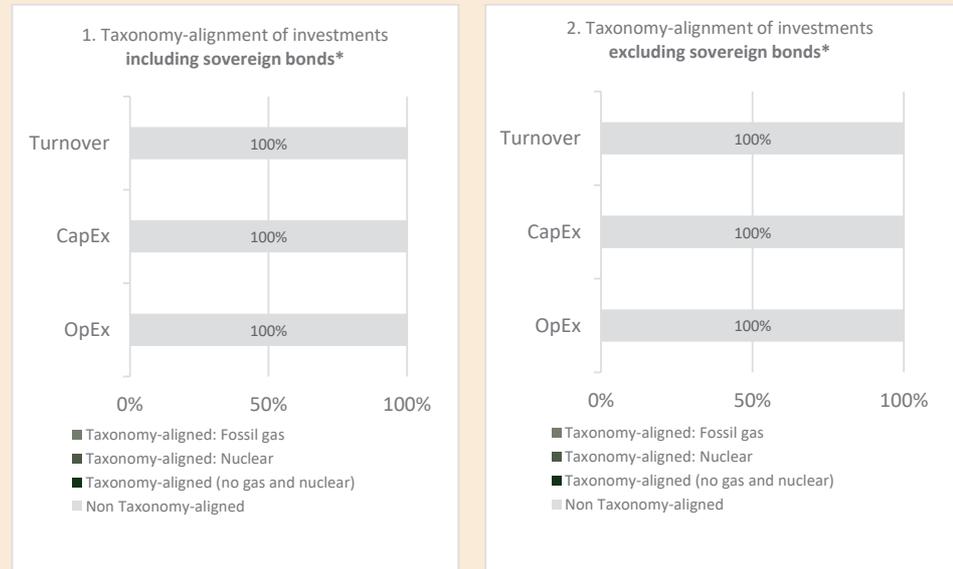

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic is promoted by the sub-fund:

The sub-fund invests primarily in fixed income instruments which have a clearly designated use of proceeds applied towards projects with direct environmental and/or social and/or sustainability benefits such as mitigating the effects of climate change, energy transition, reducing inequality and improving access to, and the quality of, basic life essentials. The investment universe of the sub-fund includes the following:

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

- 1) Green, Social and Sustainability (“GSS”) Bonds, i.e. fixed income instruments where the proceeds (or an equivalent amount) will be exclusively applied to finance or re-finance, in part or in full, new and/or existing eligible environmental and/or social projects/activities which adhere to industry standards (e.g. ICMA) to validate GSS Bonds.
- 2) Fixed income instruments with a strong link to sustainability such as sustainability-linked bonds, i.e. bonds which have a selection of Key Performance Indicators (KPIs) or sustainability performance targets.
- 3) Climate-aligned bonds, which finance or re-finance climate activities and/or promote a low-carbon economy.
- 4) Bonds meeting Science-Based Targets Initiative (SBTi) criteria, i.e. science-based targets to align the lending and investment activities with the Paris Agreement.
- 5) Fixed income instruments financing climate solution providers.
- 6) Fixed income instruments with high ESG credentials, i.e. those with positive environmental and/or social characteristics, including those that can be linked to the United Nations Sustainable Development Goals.

The extent to which the environmental and/or social characteristics promoted by the sub-fund is met is stated in the answer to the question “How did the sustainability indicators perform?” of this annex.

## ● **How did the sustainability indicators perform?**

During the reference period 2023/24, 97.55% of the sub-fund’s assets was invested in Green, Social and Sustainability (“GSS”) Bonds, i.e. fixed income instruments where the proceeds (or an equivalent amount) will be exclusively applied to finance or re-finance, in part or in full, new and/or existing eligible environmental and/or social projects/activities which adhere to industry standards to validate GSS bonds.

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity, efficient portfolio management and hedging. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

## How did this financial product perform compared to the reference benchmark?

The sub-fund references its performance against the Reference Benchmark Index, ICE Green, Social and Sustainable Bonds customised USDh Index. A minimum of 70% of the investments held by the sub-fund are components of the Reference Benchmark Index. The Reference Benchmark Index offers investors a measure of the USD and Euro-denominated market for fixed income securities issued for qualified green, social or sustainable purposes, which have a clearly designated use of proceeds that is solely applied towards projects with direct environmental and/or social and/or sustainability benefits as outlined by ICMA guidelines and principles.

### ● How does the reference benchmark differ from a broad market index?

The Reference Benchmark Index covers only qualified green, social or sustainable bonds, whereas the broad market index measures investment grade debt publicly issued in major domestic and eurobond markets, which do not need to have a clearly designated use of proceeds

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
