## What is this product?

### Type

This is an investment fund established as a Company With Variable Capital (SICAV).

### Objectives

**Investment objective** The objective of the Sub-Fund is to achieve above-average long-term capital growth respecting adequate diversification.

**Investment policies** The Sub-Fund will mainly invest in the following assets:

- Shares and other equities of companies listed on Global Stock exchanges;
- Fixed interest and floating-rate securities, debt securities with a minimum average rating of BBB- or claims as well as other interest-bearing investments (including money-market instruments and, in particular, convertible bonds with warrants)
- Sight deposits and deposits repayable on demand; and
- Time deposits and money market instruments.

No more than 10% of the Sub-fund's assets may be invested in other UCITS eligible funds (including money market funds). It may invest up to 10% of its net assets in eligible assets with underlying commodities that qualify as transferable securities.

On an ancillary basis, the Sub-fund may also invest, directly and/or indirectly through other UCITS or UCIs, up to 10% of its net assets in equities and/or debt securities issued by issuers domiciled in or having an exposure to China.

Ancillary liquid assets (i.e. bank deposits at sight) will be limited to 20% of the Sub-Fund's net assets.

Furthermore, the Sub-Fund may make reasonable use of derivatives financial instruments (derivatives), for efficient portfolio management purposes, hedging purposes including currency hedging and investment purposes, via active investment providing exposure to securities and money market. The range of possible derivatives includes both exchange-traded and OTC instruments and in particular call and put options, futures, forwards, warrants, contracts for difference and swaps on securities, interest rates and currencies as well as on other derivative financial instruments and financial indices.

Based on the commitment approach, the Sub-Fund's risk exposure (including the risk exposure through the use of financial derivative instruments) amounts to a maximum of 210%.

The investment strategy is also carried out opportunistically, that is, the emphasis of investment may vary greatly depending on the current market assessment.

Up to 100% of the Sub-Fund's net assets may be invested in short-term negotiable debt securities, money market instruments, time deposits and/or money market funds, under very specific market conditions such as the 2008 Lehman Brothers bankruptcy, understanding these investments will comply with all applicable investment restrictions in terms of eligibility and legal and/ or specific risk diversification.

For full investment objectives and policy details please refer to the Prospectus and the Prospectus Supplement.

**Benchmark** The Sub-fund is actively managed. 50% MSCI World 100% Hedged to EUR Index + 50% €STR is used only for the purpose of calculating the performance fee as fully described in the Prospectus.

**Redemption and Dealing** Investors may purchase or sell shares of the Sub-Fund on any business day in Luxembourg.

**Distribution Policy** Any income generated by the Sub-Fund is reinvested to grow the value of the shares.

**Launch date** The Sub-Fund was launched on 28/02/2003 and the share class was launched on 21/10/2009.

**Fund Currency** The base currency of the Sub-Fund is EUR.

**Conversion of units/shares** Shareholders are allowed to request the conversion of all or part of their shares into shares of another class/sub-fund subject to the conditions and fees detailed in the prospectus of the Fund.

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 31 March 2021 and 31 October 2023.

**Moderate:** this type of scenario occurred for an investment between 30 November 2015 and 30 November 2020.

**Favourable:** this type of scenario occurred for an investment between 26 February 2016 and 26 February 2021.

## What happens if Compass Asset Management S.A. is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Sub-Fund to pay you.

**Be aware of currency risk.** In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <https://funds.waystone.com/public>.
