

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Lemanik Sicav - European Flexible Bond - Capitalisation Institutional EUR K Class

(ISIN: LU0340228369) European Flexible Bond (the 'Fund') is a Sub-Fund of Lemanik Sicav (the 'Company'). Lemanik Asset Management S.A. is the Management Company (the 'Management Company') to the Fund.

Objectives and Investment Policy

- The aim of the Fund is to maximise the return of the investor.
- This Fund will invest at least 70% of its net assets in fixed income debt securities, Money Market Instruments or assimilated instruments issued by governments, international agencies, supra-national entities or private companies, with a focus on European issuers and marginal exposure to non-European one without any limitation in duration or rating. The reference currency of the Fund will be EUR, it is not excluded to invest in bond denominated in various currencies different from EUR, to exploit opportunities in terms of potential market inefficiency.

The Fund's exposure to contingent convertible bonds is limited to 20% of its net assets.

- The Fund's strategy is also to invest in Financial Derivatives Instruments (instruments whose prices are dependent on one or more underlying assets 'FDIs'). The Investment Manager is free to manage the exposure to relevant exchange rates and may decide to hedge (an investment position intended to offset potential losses) or not to hedge exchange risks. The Fund may also invest in a wide range of securities. On an ancillary basis,

the Fund may hold cash and cash equivalents.

- The Fund is actively managed without any reference to a benchmark. The Investment Manager has discretion over the composition of its portfolio subject to this objective and investment policy.
- Sale of shares in the Fund can be made on any business day.
- The Fund does not intend to distribute dividends. Any income arising from the Fund's investments is reinvested and reflected in the value of your shares. However, the annual general meeting of shareholders may decide to distribute such income.
- The Fund may use FDIs in order to reduce the possibility of financial losses or to achieve higher gains.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.
- The Investment Manager may use a hedging strategy that aims to ensure returns for investors are consistent with the Fund's investment objective.

Risk and Reward Profile

Lower risk ← Higher risk
Potentially lower rewards Potentially higher rewards

- The lowest category does not mean a risk free investment.
- The risk and reward profile may change over time.
- Historical data may not be a reliable indication for the future.
- This Fund is in category 4, since the share price has a moderate volatility and therefore the risk of loss as well as the expected reward is generally medium.

The following risks may not be fully captured by the risk and reward indicator:

- Credit Risk: The Fund can invest a material part of its assets in bonds. Their issuers can become insolvent, thus their bonds can either partly or entirely diminish in value.
- Currency Risk: As the Fund invests in securities denominated in a number of different currencies, movements in exchange rates may, when not hedged, cause the value of the investments to increase or decrease.
- Derivative Risk: Derivative values can rise and fall at a greater rate than equities and debt instruments. Losses can be greater than the initial investment. This risk is minimised by holding a diverse selection of non derivative investments.
- Interest Risk: Risk that interest rates rise and reduce the market value of an investment.

A complete description of risk factors is set out in the Prospectus in the section entitled 'Special consideration on risks'.
