What is this product?

Type

The product is a share class of the sub-fund Franklin Natural Resources Fund (the "Fund") which is part of Franklin Templeton Investment Funds, an open-ended investment company with variable capital (SICAV), qualifying as a UCITS.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund aims to increase the value of its investments and to earn income over the medium to long term.

Investment Policy

The Fund pursues an actively managed investment strategy and invests mainly in:

- equity securities issued by companies that are involved in natural resources and related businesses; these companies may be of any size and located in any country, including emerging markets

The Fund can invest to a lesser extent in:

- other types of equity or debt securities issued by companies of any size located in any country
- securities issued by private companies and Private Investments in Public Equity (limited to 10% of assets) and special purpose acquisition companies (limited to 5% of assets)

The natural resources sector may include industries such as integrated oil, oil and gas exploration and production, energy services and technology, alternative energy sources and environmental services, forest products, farming products, paper products, and chemicals.

The investment team looks for equity securities that it believes will benefit from rising natural resources prices over the long term; it will usually invest more in the U.S. than in any other single country.

The benchmark of the Fund is the S&P North American Natural Resources Sector Index. The benchmark is used solely as a reference for Investors to compare against the Fund's performance, and the benchmark is neither used as a constraint on how the Fund's portfolio is to be constructed nor set as a target for the Fund's performance to beat. The Fund can deviate from the benchmark.

Share Class Policy

The income received from the Fund's investments is accumulated with the result of increasing the value of the shares.

Processing of subscription and redemption orders

You may request the sale of your shares on any Dealing Day (as defined in the current prospectus of the Fund).

Intended retail investor

The Fund may appeal to investors looking to capital appreciation and income by obtaining exposure to equity securities of companies involved in the natural resources sector and willing to hold their investment over the medium to long term for a minimum period of 3 to 5 years. The Fund is suitable for investors who do not need to have specific knowledge and/or experience of financial markets with the understanding that they may not get back the full amount invested in the Fund.

Depositary

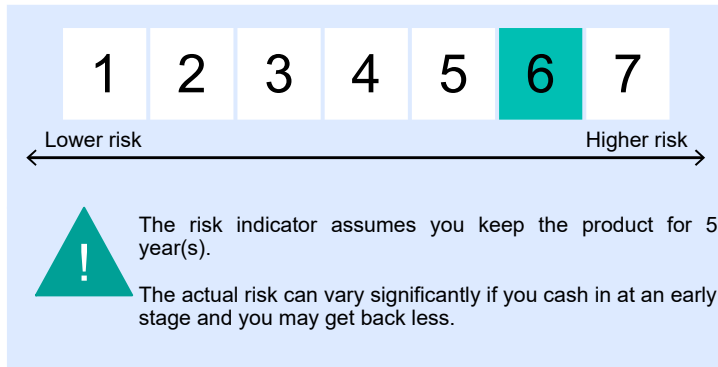

J.P. Morgan SE, Luxembourg Branch

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at high level, and poor market conditions are very likely to impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Currency risk

For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Considerations" section of the current prospectus of the Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:

5 years

Example Investment:

10,000 USD

If you exit after 1 year

If you exit after 5 years

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	310 USD	230 USD
	Average return each year	-96.90%	-52.97%
Unfavourable	What you might get back after costs	4,510 USD	3,680 USD
	Average return each year	-54.90%	-18.12%
Moderate	What you might get back after costs	9,820 USD	8,260 USD

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets of the Fund are held separately from FTIS by the depositary. J.P. Morgan SE, Luxembourg branch, as the appointed depositary, is liable to the Fund or its shareholders for losses caused by its negligent or intentional failure to fulfill its safekeeping or record-keeping obligations (cash could however be lost in case of default of the depositary or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	246 USD	1,110 USD
Annual cost impact (*)	2.5%	2.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -1.3% before costs and -3.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 USD
Exit costs	No entry charge is applied at the time of purchase. However, a contingent deferred sales charge of 1% will apply if you sell your shares within 1 year of purchase.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.39% of the value of your investment per year. This is an estimate based on actual costs over the last year.	239 USD
Transaction costs	0.07% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	7 USD
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette, L- 1246 Luxembourg, or send an e-mail to the client service department at lucs@franklintempleton.com.
