### Goldman Sachs Funds II Investment Adviser's Report For the Year Ended 30 November 2022

### **Dear Shareholders:**

Enclosed is the report for the year ended 30 November 2022.

### A. Market Review<sup>1</sup>

The global economy experienced a number of headwinds during the reporting period. In its October 2022 *World Economic Outlook*, the International Monetary Fund ("IMF") downgraded its expectation for 2022 GDP growth, saying, "The global economy is experiencing a number of turbulent challenges. Inflation higher than seen in several decades, tightening financial conditions in most regions, Russia's invasion of Ukraine, and the lingering COVID-19 pandemic all weigh heavily on the outlook. Normalisation of monetary and fiscal policies that delivered unprecedented support during the pandemic is cooling demand as policymakers aim to lower inflation back to target. But a growing share of economies are in a growth slowdown or outright contraction." From a regional perspective, the IMF projects U.S. GDP growth in 2022 will be 1.6%, compared to 5.7% in 2021. Elsewhere, the IMF expects 2022 GDP to grow 3.1% in the eurozone (from 5.2% in 2021), 3.6% in the U.K. (from 7.4% in 2021) and 1.7% in Japan (the same as in 2021).

Against this backdrop, global equities generated weak results. In the U.S., the market was negatively impacted by elevated inflation, aggressive Federal Reserve interest rate hikes and concerns over moderating global growth. For the 12 months ended 30 November 2022, the S&P 500 Index returned (9.65%). Equities outside the U.S. also fell sharply, as the war, surging inflation and other concerns weighed on investor sentiment. All told, international developed equities, as measured by the MSCI EAFE Index (net), returned (10.14%), while emerging markets equities, as measured by the MSCI Emerging Markets Index (net), returned (17.43%).\*

The overall global fixed income market was also weak over the reporting period. Most developed and emerging market central banks repeatedly raised interest rates to fight inflation, despite the possibility that this could result in a global recession. Both short and long-term U.S. Treasury yields moved sharply higher. Longer-term government yields in other developed countries also increased. For the 12 months ended 30 November 2022, the Bloomberg U.S Aggregate Bond Index and Bloomberg Global Aggregate Bond Index returned (12.84%) and (16.82%), respectively. Riskier fixed income securities also posted poor results. The U.S. high-yield bond market, as measured by the Bloomberg U.S. Corporate High Yield —2% Issuer Cap Index, returned (8.95%), whereas the emerging market debt asset class, as measured by the JPMorgan EMBI Global Index, returned (16.90%) during the 12 months ended 30 November 2022.\*

### December 2022

All index returns are shown with income re-invested and, in contrast to the Share Classes, without the deduction of any fees or expenses. Returns of the Share Classes are shown net of fees and expenses and after the reinvestment of dividends where applicable using month end NAVs. For Share Classes where performance is shown relative to the index, it is for comparative purposes only. Reference to these benchmarks does not imply that the Share Classes will achieve returns, volatility or other results similar to the benchmark.

\* All returns in United States Dollar terms.

### Audit report

To the Shareholders of **Goldman Sachs Funds II** 

### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Goldman Sachs Funds II (the "Fund") and of each of its sub-funds as at 30 November 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### What we have audited

The Fund's financial statements comprise:

- the schedule of investments as at 30 November 2022;
- the statement of operations for the year then ended;
- the statement of assets and liabilities as at 30 November 2022;
- the statement of changes in shareholders' equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

 $<sup>\</sup>label{eq:pricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T: +352 494848 1, F: +352 494848 2900, www.pwc.lu$ 

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256) R.C.S. Luxembourg B 65 477 - TVA LU25482518

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

### Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
  a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
  involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
  control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Goldman Sachs G Emerging Markets Debt Broad Portfolio where an intention to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Other matter

In addition to our responsibility to audit and express an opinion on the financial statements in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we have been requested by the Board of Directors of the Fund to express an opinion on the financial statements in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 of the US Investment Advisors Act of 1940. We have reported separately in this respect on Page 8.

PricewaterhouseCoopers, Société coopérative Represented by

Luxembourg, 20 March 2023

John Parkhouse

### **Report of Independent Auditors**

To the Shareholders of Goldman Sachs Funds II,

### Opinion

We have audited the accompanying financial statements of Goldman Sachs Funds II and each of its subfunds (the "Fund"), which comprise the statement of assets and liabilities and the schedule of investments as of 30 November 2022 and the related statements of operations and statements of changes in shareholders' equity for the year then ended, including the related notes (collectively referred to as the "Financial Statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of 30 November 2022, and the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern for at least, but not limited to, twelve months from the end of the reporting period, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a

 $\label{eq:pricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T:+352 494848 1, F:+352 494848 2900, www.pwc.lu$ 

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256) R.C.S. Luxembourg B 65 477 - TVA LU25482518

substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
  of the Fund's internal control. Accordingly, no such opinion is expressed;
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the Board of Directors of the Fund, as well as evaluate the overall presentation of the financial statements;
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Other Information

The Board of Directors of the Fund is responsible for the other information included in the annual report. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

(a) Refer to Report of the Management Company II.

### 1 Organisation

Goldman Sachs Funds II ("the Fund") was incorporated on 20 November 2007 under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" ("SICAV"), for an unlimited period of time. The Fund is registered in accordance with Part I of the Law of 17 December 2010, as amended. The Fund appointed Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") (the "Management Company") as its Management Company. GSAMFSL is authorised and regulated by the Central Bank of Ireland, and is a wholly owned indirect subsidiary of The Goldman Sachs Group, Inc.

Refer to Note 6 for details of functions the Management Company has delegated.

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch, (the "Depositary") to act as the Depositary of the Fund's assets.

As at 30 November 2022, the Fund is comprised of twelve different portfolios ("the Portfolios").

As at 30 November 2022, the Fund offered shares in the Portfolios as detailed in Report of the Management Company I.

Please refer to Report of the Management Company II for Portfolios and Share Classes that were launched, merged, closed or changed name during the year.

### 2 Investment Objective Policies

The primary investment objectives of the Portfolios are detailed in the Prospectus and in the relevant Supplements of the Prospectus.

Fund Name	Strategy Name
Global Multi-Manager Alternatives Portfolio	Specialist Portfolios

Income Multi-Sector Bond Portfolio I	Select Portfolios I
G Emerging Markets Debt Broad Portfolio	Select Portfolios II

### 3 Significant Accounting Policies

### (a) Basis of Preparation of Financial Statements

The financial statements of the individual Portfolios are presented in their base currency while the Combined Total of all the Portfolios is presented in United States Dollars. The Board of Directors considers that the Portfolios' base currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Portfolios.

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds. The financial statements have been prepared on a going concern basis as the Directors are of the view that the Fund can continue in operational existence for the foreseeable future.

The preparation of financial statements requires the Board of Directors to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Statement of Assets and Liabilities and Note 4 where the Board of Directors was required to make certain estimates and assumptions to determine value. Actual results may differ from those estimates.

### 3 Significant Accounting Policies (Continued)

### (b) Investment Transactions, Related Investment Income and Operating Expenses

Investment transactions are recorded on a trade date basis plus one in accounting. Realised gains and losses are based on the Weighted Average Cost Method. Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

### (c) Transaction Costs

Transaction costs are recognised in the Statement of Operations as part of net change in unrealised gain/(loss) on investment securities and net realised gain/(loss) on investment securities. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Please refer to Note 14 for details of the Portfolios that incurred separately identifiable transaction costs.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio.

### (d) Financial Investment in Securities and Valuation

### i. Recognition and Derecognition

The Portfolios recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Purchases and sales of financial assets and financial liabilities are recognised using trade date plus one accounting. From trade date plus one, any gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Portfolio has transferred substantially all risks and rewards of ownership.

### ii. Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

### (ii.1) Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official exchange listing or dealt in on any other regulated market that operates regularly, which comprise Common Stocks, Bonds, Real Estate Investment Trusts, Warrants, Mutual Funds, Options, Contracts for Difference and Futures Contracts, are valued based upon quoted market prices at the year end date without any deduction for estimated future transaction costs.

### (ii.2) Debt Securities

Debt securities, comprising Bonds and Non-Agencies Asset Backed Obligations are valued at mid or bid depending on fund methodology, by third party pricing service providers without any deduction for estimated future transaction costs.

When a debt security has been identified as being in default, the interest accrual on the defaulted security may be stopped, and upon confirmation from relevant parties, the amount receivable may be written off.

### (ii.3) Certificates of Deposit and Money Market Investments

Certificates of Deposit, Commercial Papers and Money Market Investments are valued at mid by third party service providers, or where such pricing service is unavailable, at amortised cost which approximates market value.

### 3 Significant Accounting Policies (Continued)

### (d) Financial Investment in Securities and Valuation (Continued)

### ii. Value Measurement Principles (Continued)

### (ii.4) Shares in Collective Investment Schemes

The value of investments in open-ended investment funds, comprising Mutual Funds, are valued based upon the official net asset values per share as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus.

### (ii.5) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at market value and recognised as assets and liabilities in the Statement of Assets and Liabilities. Gains and losses resulting from the change in the market value are reflected in the Statement of Operations as a component of net change in unrealised gain/(loss). Realised gains or losses are recorded on termination or from periodic cash flow payments.

### (ii.5) (a) Option Contracts

The Portfolios may enter into exchange traded and OTC option contracts with various counterparties. When the Portfolio purchases an option, an amount equal to market value which is based on the premium paid is recorded as an asset, the value of which is marked-to-market daily. When the Portfolio writes an option, an amount equal to market value which is based on the premium received by the Portfolio is recorded as a liability and is adjusted to the market value of the option written on each valuation date.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as realised gain or loss. The exercise of an option written by the Portfolio could result in the Portfolio buying or selling a financial instrument at a price different from the current market value.

The fair value of an OTC contract is determined by using counterparty supplied valuations, an independent pricing service or valuation models which use market data inputs supplied by a third party pricing service, and is typically valued at mid. Exchange traded options are valued based on the exchange settlement/last sale prices, or, if the last settlement price is not available for any reason, at the midpoint of the bid and ask prices (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions), or independent market quotes provided by a pricing service or counterparty.

### (ii.5) (b) Futures Contracts

Futures contracts are contracts to buy or sell a standardised quantity of a specified commodity, security or index and are valued based on exchange settlement/last sale prices, last bid or ask prices on the exchange, or independent market quotes. Initial margin deposits, in either cash or securities, are required to trade in the futures market. Unrealised gains or losses on futures contracts are recognised to reflect the market value of the contracts and are included as a component of the unrealised gains or losses on the Portfolio's Statement of Operations. Variation margin is received or paid, depending on whether unrealised gains or losses are incurred. When the contract is terminated, the Portfolio will recognise a realised gain or loss equal to the difference between the value of the contract at the time it was entered into and the time it is closed.

### (ii.5) (c) Swap Contracts

Swaps, comprising Interest Rate Swaps, Credit Default Swaps and Total Return Swaps, can be linked to any number of underlying investments and indices, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised or accreted over the

### 3 Significant Accounting Policies (Continued)

### (d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

- (ii.5) Derivatives (Continued)
- (ii.5) (c) Swap Contracts (Continued)

contract term. Swap agreements are carried at market value, typically valued at mid, and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. This collateral or margin is primarily denominated in base currency, and is paid from the custody account to the broker.

For the year ended 30 November 2022, collateral related to total return swaps was pledged in the form of cash and non-cash. Please refer to Note 13 and to Report of the Management Company VI for more information.

Total return swaps and more specifically OTC derivative transactions are entered into by the Portfolio under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Portfolio and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties.

All returns from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

### (ii.5) (d) Contracts for Difference

Contracts for difference are contracts entered into between a broker and the Portfolio under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place. In contracts for difference the unrealised appreciation/(depreciation) is disclosed in the Statement of Assets and Liabilities under "unrealised gain on contracts for difference" and "unrealised loss on contracts for difference". Realised gains/(losses) and changes in unrealised appreciation/depreciation as a result thereof are included in the Statement of Operations respectively under "Net realised gain/(loss) on contracts for difference". The value of contracts for difference will be based on the value of the underlying assets and vary similarly to the value of such underlying assets. Contracts for difference will be valued.

### (ii.5) (e) Forward Foreign Currency Contracts

In a forward foreign currency contract, the Portfolio agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty and right to settle net are generally offset (which result in a net foreign currency position of zero with the counterparty) and any realised gains or losses are recognised on trade date plus one.

Forward foreign currency contracts are valued at mid by third party pricing service providers.

### (ii.6) All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their fair value as determined by the Valuer. Please refer to Note 4 for further details.

### 3 Significant Accounting Policies (Continued)

### (d) Financial Investment in Securities and Valuation (Continued)

*ii.* Value Measurement Principles (Continued)

### (ii.6) All Securities and Derivatives (Continued)

The investments have been valued in accordance with Luxembourg generally accepted accounting principles that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine fair value.

### (e) Cash

Cash is valued at cost, which approximates market value.

### (f) Due from/to Brokers

Due from brokers consists primarily of cash receivable for collateral from the Portfolios' clearing brokers and various counterparties. Due to brokers consists primarily of cash payable for collateral to the Portfolios' clearing brokers and various counterparties.

Due from/to broker balances are valued at cost, which approximates market value. Refer to Note 13 for further details.

### (g) Foreign Currency Translation

The books and records of all Portfolios are maintained in their base currency. Please refer to Report of the Management Company I for the base currency of each Portfolio. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into the base currency at the foreign currency closing exchange rate in effect at the year end date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

### (h) Expenses

Expenses incurred by the Fund that do not specifically relate to an individual Portfolio or Share Class of a Portfolio are allocated to the Portfolios based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Portfolio or Share Class are generally charged to that Portfolio or Share Class.

### (i) Income Equalisation Arrangements

Income equalisation arrangements may be applied in some or all of the Portfolios of the Fund. Where they are applied, these arrangements are intended to ensure that the income per share which is distributed or deemed distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period, and the amount of the first distribution received by a Shareholder in an impacted Portfolio following the purchase of shares in that Portfolio will represent partly participation in income received by the Portfolio and partly a return of capital (the "equalisation amount"). The equalisation amounts are included within the proceeds from shares issued and the payment for shares redeemed in the Statement of Changes in Shareholders' Equity.

### (j) Swing Pricing

On any Business Day the Management Company in consultation with its appointed delegate, Goldman Sachs Asset Management International ("GSAMI") as Investment Adviser, in conformity with guidelines established by the Board of Directors, may determine to apply swing pricing (to include such reasonable factors as they see fit) to the net asset value per share. This method of net asset value calculation is intended to pass the estimated

### 3 Significant Accounting Policies (Continued)

### (j) Swing Pricing (Continued)

costs of underlying investment activity of the Portfolio to the active Shareholders by adjusting the net asset value of the relevant share and thus to protect the Portfolio's long-term Shareholders from costs associated with ongoing redemption and subscription activity. This is processed as a capital adjustment.

Swing pricing may take account of trading spreads on the Portfolio's investments, the value of any duties and charges incurred as a result of trading and may include an estimate of market impact. Where GSAMI, based on the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the relevant Portfolio, have determined for a particular Portfolio to apply swing pricing, the Portfolio's net asset value may be valued either on a bid or offer basis.

Because the determination of whether to value the Portfolio's net asset value on a bid or offer basis is based on the net transaction activity of the relevant day, Shareholders transacting in the opposite direction of the Portfolio's net transaction activity may benefit at the expense of the other Shareholders in the Portfolio. In addition, the Portfolio's net asset value and short-term performance may experience greater volatility as a result of this swing pricing.

Investors should be aware that, the factor used to apply swing pricing ("swing factor") will under normal conditions not exceed 2% of the net asset value per share of the relevant Share Class of the Portfolio, unless otherwise stated in the relevant Supplement. Notwithstanding the above, where exceptional circumstances (including, but not limited to, widening bid offer spreads often as a result of high market volatility and/or illiquidity, exceptional market conditions market disruptions) the Management Company, in consultation with the Board of Directors, may decide, in the best interest of Shareholders and in respect of any particular Portfolio and on any Business Day, to apply a swing factor which is above 2%. Shareholders will be informed on such decision via a notice and/or a publication posted on www.gsam.com. The swing factor applied to individual Portfolios will be reviewed by the Investment Adviser on a periodic basis in order to verify their appropriateness in light of prevailing market conditions.

The following Portfolios are able to apply swing pricing:

Global Multi-Manager Alternatives Portfolio	Multi-Manager US Small Cap Equity Portfolio
Multi-Manager Emerging Markets Equity Portfolio	Balanced Allocation Portfolio
Multi-Manager Europe Equity Portfolio	Strategic Factor Allocation Portfolio
Multi-Manager Global Equity Portfolio	Tactical Tilt Overlay Portfolio
Multi-Manager US Equity Portfolio	Strategic Volatility Premium Portfolio

No reversal of the swing net asset calculation method was presented in the Statement of Changes in Shareholders' Equity since no swing net asset value calculation was applied to any of the Portfolios as at 30 November 2021.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Shareholders' Equity for the Portfolios that applied swing pricing as at 30 November 2022.

### 4 Valuation Determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the year ended 30 November 2022 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

The following table sets forth the assets where the Valuer was used to determine the fair value as at 30 November 2022:

### 4 Valuation Determined by the Valuer (Continued)

As at 30 November 2022										
Portfolios	Currency	Number of Assets valued	Value	% of Shareholders' Equity						
Global Multi-Manager Alternatives Portfolio	USD	5	0	0.00%						
Multi-Manager Emerging Markets Equity Portfolio	USD	15	7,084,236	1.56%						
Multi-Manager Global Equity Portfolio	USD	2	0	0.00%						
Multi-Manager US Small Cap Equity Portfolio	USD	1	18,396	0.00%						

Securities traded on certain Asia Pacific/Middle Eastern exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are not included in the above table.

### 5 Taxation

### Taxation - Luxembourg

The Fund is not liable for any Luxembourg tax on profits or income. However, the Fund is liable in Luxembourg to an annual subscription tax (taxe d'abonnement) of 0.05% per annum. The taxable basis of the subscription tax is the aggregate net assets of the Fund as valued on the last day of each quarter. This rate is however 0.01% per annum for each of the following:

- undertakings whose exclusive object is the collective investment in Money Market Instruments and the placing of deposits with credit institutions;
- · undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of undertakings for collective investment ("UCI") with multiple compartments referred to in the law dated 17 December 2010, as amended, as well as for individual classes of securities issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

### Taxation – Belgium

The Fund may incur a liability to subscription tax at the rate of 0.0925% in respect of subscriptions made through intermediaries situated in Belgium to the extent that net shares are outstanding as of 31 December of the previous year.

### Taxation – General

Each Portfolio may be subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Portfolio invests. It is the policy of each Portfolio to accrue for any such taxes on dividends and interest when the dividend is declared or interest is earned. At each valuation date, taxation on realised and unrealised appreciation of securities may be accrued for at statutory rates.

Prospective investors should consult their own taxation advisers regarding the tax implications of investing in the Fund in relation to their own individual circumstances as they may differ from the general statements that appear above.

### 6 Significant Agreements and Related Parties

### Management Company

As outlined in Note 1, the Fund appointed GSAMFSL, a wholly-owned indirect subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

### 6 Significant Agreements and Related Parties (Continued)

### Management Company (Continued)

The Portfolios pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears.

### Investment Adviser and Investment Sub-Advisers

The Management Company has appointed GSAMI (the "Investment Adviser"), a related party to the Fund, as its delegate to provide portfolio management services.

GSAMI has entered into sub-delegation agreements with each of the following affiliated Investment Sub-Advisers:

- Goldman Sachs Asset Management, L.P.
- Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.
- Goldman Sachs Asset Management Co., Ltd.
- Goldman Sachs Hedge Fund Strategies, LLC
- Goldman Sachs International
- GS Investment Strategies, LLC

GSAMI has entered into sub-advisory agreements with each of the following external Investment Sub-Advisers ("the External Managers"):

Portfolios	External Managers*
Global Multi-Manager Alternatives Portfolio	Algert Global LLC         Artisan Partners         Bardin Hill Arbitrage UCITS Management LP         Brigade Capital Management LP         Canyon Capital Advisors LLC         Crabel Capital Management LLC         First Pacific Advisors LLC         GQC Partners         Longfellow Investment Management LP         Mesirow         Sirios Capital Management LP         TCW Investment Management LP         Weslingtungthangement LP         TCW Investment Management Company LLC         Wellington Management Company LLP
Multi-Manager Emerging Markets Equity Portfolio	Axiom International Investors LLC J O Hambro Capital Management Ltd. Wellington Management Company LLP
Multi-Manager Europe Equity Portfolio	ELEVA Capital LLP Mandarine Gestion Wellington Management International Ltd.
Multi-Manager Global Equity Portfolio	Baillie Gifford & Co. Sanders Capital LLC Strategic Global Advisors LLC
Multi-Manager US Equity Portfolio	Diamond Hill Investments Fiera Capital Corporation Westfield Capital Management Co. LP
Multi-Manager US Small Cap Equity Portfolio	Boston Partners Brown Advisory Victory Capital Management, Inc.

<sup>\*</sup> None of these investment advisers are an affiliate of GSAMI. As compensation for the services rendered under the Investment Advisory Agreement, GSAMI receives a fee, payable monthly, at an annual rate. A portion of the Investment Adviser's fees may be remitted to the Investment Sub-Adviser.

### 6 Significant Agreements and Related Parties (Continued)

### Expense Cap

GSAMI has voluntarily agreed to limit total expenses in respect of certain Portfolios and certain Share Classes. Therefore, to the extent that total ordinary expenses would exceed the expense cap, GSAMI has voluntarily agreed to bear any actual operating expenses that exceed any expense cap, either directly by waiving a portion of its fees or by reimbursement to the account of the relevant Share Class. The Investment Adviser may, in its sole discretion, designate which expenses of the Fund will be subject to any such expense cap imposed by the Investment Adviser. The expense cap does not include the GSAMI fee portion paid to external Investment Sub-Advisers. There is no guarantee that the existence or level of these expense caps will continue in the future and no obligation on the part of GSAMI to agree to limit total expenses in this way. In addition, the Portfolios are not obliged to reimburse GSAMI for prior financial year expense reimbursement, if any.

Details of advisory fee rates and the expense caps as at 30 November 2022 are detailed in Report of the Management Company I.

### **Directors' Remuneration**

Ms. Grainne Alexander and Mr. Frank Ennis are independent Directors and have no executive function with the Investment Adviser or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund.

Mr. Jonathan Beinner, Mr. Glenn Thorpe and Ms. Katherine Uniacke are affiliated with the Investment Adviser and receive no compensation from the Fund.

### **Performance Fees**

GSAMI is entitled to a performance fee on certain Share Classes of the Portfolios. For the Global Multi-Manager Alternatives Portfolio the performance fee accrues daily and is paid annually out of the assets attributable to each applicable Share Class. The performance fee is equal to 10% of the amount by which the Class NAV per share exceeds such Class' Benchmark Value per share, as defined within the Prospectus.

For the year ended 30 November 2022, the performance fees charged per share class were:

		Amount	% of Shareholders
	Base Currency	in base currency	Equity*
Global Multi-Manager Alternatives Portfolio			
Other Currency Accumulation Share Class (EUR Hedged Class)	USD	17	0.00
"I" Accumulation Share Class (CHF Hedged Class)	USD	1	0.00
"I" Accumulation Share Class (EUR Hedged Class)	USD	9	0.00
"R" Accumulation Share Class	USD	2	0.00
"R" Accumulation Share Class (EUR Hedged Class)	USD	10	0.00
"R" Share Class (EUR Hedged Class)	USD	668	0.00
"R" Share Class (GBP Hedged Class)	USD	70	0.00

\* Percentage of the amount in fund base currency / Shareholders' Equity in fund base currency of the share class as at year end.

There were no performance fees charged to other Share Classes of the mentioned Portfolio for the year ended 30 November 2022.

### Fees earned on other Goldman Sachs Funds

To the extent permitted by applicable law and the terms of the Prospectus, any Portfolio may invest all or some of its short term cash investments in any money market fund advised or managed by Goldman Sachs and may invest in other investment funds advised or managed by Goldman Sachs (together "Goldman Sachs Funds"). Subject to applicable law and the terms of the Prospectus, the Fund may be required to bear its proportionate share of any fees (including investment advisory and management fees) applicable to its investment in such investment funds.

For further details on investments into other Goldman Sachs Funds please refer to the Schedule of Investments.

All Portfolios invested in the Goldman Sachs Funds were invested in non-investment advisory fee bearing share classes. As a result, for the year ended 30 November 2022, there were no investment advisory fees earned on each Portfolio's investment in the Goldman Sachs Funds.

### 6 Significant Agreements and Related Parties (Continued)

### Commissions

In the normal course of its operations, each Portfolio may enter into transactions on securities or futures contracts with the Goldman Sachs Funds or other Goldman Sachs affiliates (together "Goldman Sachs Affiliates"). For the year ended 30 November 2022, the following transactions were entered into with Goldman Sachs Affiliates with total brokerage commissions paid to Goldman Sachs Affiliates being split between commissions related to security transactions and futures contracts:

		Security Trar	sactions	Brokerage Co	ommissions	
Portfolios	Currency	Aggregate Value*	Percent of total security transactions	Aggregate Value	Percent of total brokerage commissions	Futures Commissions**
Global Multi-Manager Alternatives Portfolio	USD	32,826,668	2.19%	15,181	3.34%	_
Multi-Manager Emerging Markets Equity Portfolio	USD	3,868,712	0.39%	2,677	0.50%	_
Multi-Manager Europe Equity Portfolio	EUR	34,909,068	3.01%	18,171	3.63%	—
Multi-Manager Global Equity Portfolio	USD	14,143,543	1.25%	5,435	1.61%	_
Multi-Manager US Equity Portfolio	USD	41,784,150	4.73%	5,335	2.80%	—
Multi-Manager US Small Cap Equity Portfolio	USD	3,354,895	0.77%	4,046	1.18%	_
Total (in USD) ***		132,871,346		51,878		—

\* Represents the cost of securities (excluding futures transactions and investments in the Goldman Sachs Liquid Reserves Funds) for transactions entered into with Goldman Sachs Affiliates.

\*\* All portfolio futures transactions disclosed in this table were affected through Goldman Sachs.

\*\*\* The amount used is calculated using the average exchange rate disclosed in Note 10.

For all the remaining Portfolios there were no transactions with Goldman Sachs Affiliates, for the year ended 30 November 2022.

All such transactions with Goldman Sachs Affiliates were entered into in the ordinary course of business and on normal commercial terms.

### Securities Lending

The securities lending agent is Goldman Sachs Agency Lending ("GSAL"), an affiliate of Goldman Sachs. Approved borrowers of GSAL may include Goldman Sachs International ("GSI"), an affiliate of the Investment Adviser, as well as other third parties. The Portfolios may lend portions of investments to third parties. In return, the Portfolios receive a fee that is negotiated for each transaction. The Portfolios receive G-10 (excluding Italy, Japan and the United States) government securities as collateral against the securities loaned. G-10 is made of eleven industrial countries (Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States) which consult and co-operate on economic, monetary and financial matters. This collateral is maintained over the life of the loan for an amount not less than 105% of the value of lent securities, with any subsequent margin posted in the form of the aforementioned government securities or cash. In general, loans may be effected through the intermediary of prime financial institutions that specialise in such activities and in the way specified by them.

Collateral received by the Portfolios in the form of G-10 (excluding Italy, Japan and the United States) government securities or cash, denominated in their respective currencies, is held by the appointed tri-party collateral manager in segregated accounts.

The following summarises the securities lent as at 30 November 2022 and the income earned by each Portfolio and the fees earned by Securities Lending Agent that is part of the Securities Lending program:

Portfolios	Currency	Market Value of Securities Lent as at 30-Nov-2022	% of Shareholders' Equity	% of Total Lendable Assets*	Market Value of Collateral Received as at 30-Nov-2022	Collateral as a Percentage of the Market Value of Securities Lent as at 30-Nov-2022	Gross Income Earned for the Year Ended 30-Nov-2022	Fees Charged for the Year Ended 30-Nov-2022	Net Income Earned for the Year Ended 30-Nov-2022
Multi-Manager Emerging Markets Equity Portfolio	USD	379,246	0.08%	0.08%	460,144	121%	65,086	6,508	58,578

\* Lendable assets are defined as the aggregate market value of equities and bonds held in the portfolio.

\*\* The amount used is calculated using the average exchange rate disclosed in Note 10.

### Administrator, Domiciliary Agent and Listing Agent

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the central administration agent of the Fund. The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as its domiciliary and corporate agent, paying agent and as its listing agent in Luxembourg.

For its services as Administrator, Domiciliary Agent and Listing Agent, State Street Bank International GmbH, Luxembourg Branch receives a fee payable monthly in arrears and calculated on the Monthly Average Net Assets of each Portfolio.

For its Financial Reporting Services, State Street Bank International GmbH, Luxembourg Branch receives a fixed fee per annum per Portfolio payable monthly in arrears.

### Depositary

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as Depositary. For its services as Depositary, State Street Bank International GmbH, Luxembourg Branch charges a fee which is a combination of a basis point charge on assets and transaction-based charge which is dependent on the country of transaction.

In addition, the Global Multi-Manager Alternatives Portfolio has entered into certain offset arrangements with the custodian, which will result in a reduction of the Portfolio's gross expenses in subsequent periods.

### Distributor

The Fund has appointed the Management Company as principal distributor and the Management Company appoints sub-distributors and oversees them. GSAMFSL may receive a portion of the sales charge imposed on the sale of Portfolio shares.

For the year ended 30 November 2022, there were no retained sales charges for the Portfolios.

Please refer to the Prospectus for further details about distribution fees.

Out of its fees, the Distributor is responsible for remunerating third party sub-distributors.

### **Transfer Agent**

The Management Company has appointed RBC Investor Services Bank S.A. (the "Transfer Agent") to perform registrar and transfer agency functions in respect of the Fund pursuant to the Registrar and Transfer Agent Agreement between the Fund, the Management Company and the Transfer Agent.

The day-to-day services provided to the Fund by the Transfer Agent include receiving and processing subscription and redemption orders, allotting and issuing shares and maintaining the shareholder register for the shares. The Transfer Agent is paid a fee quarterly in arrears out of the net assets of the Portfolio. The Transfer Agent's fee consists of both a fixed and variable fee.

### 6 Significant Agreements and Related Parties (Continued)

### **Transfer Agent (Continued)**

The fixed portion consists of an annual charge for maintenance and shareholder account charges. Variable costs are determined by the level of transactions in each Portfolio.

### Valuer

The Management Company has appointed Goldman Sachs & Co. LLC as its delegate to act as the Valuer and the valuation function was performed by Controllers during the year ended 30 November 2022. Please also refer to Note 4.

### 8 Distributions

The Fund intends that substantially all the net investment income, if any, of each Portfolio will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the Portfolios. Net capital and currency gains realised on each Portfolio's investments and/or capital attributable to certain Share Classes may also be distributed to Shareholders of certain Distribution Share Classes of the Portfolios.

Generally no distributions will be paid in respect of the Accumulation Share Classes.

Please refer to the Prospectus for further details about distribution policies.

### 9 Financial Investments and Associated Risks

The Fund's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it and its underlying Portfolios invest (the "Investment Risks"). These may be both derivative and non-derivative financial investments. The Fund's underlying Portfolios' investments are comprised of debt, equity, derivative investments and investments in other funds at the year end. The Board of Directors has appointed the Management Company to be responsible for, among other things, investment management and risk management. The Management Company has delegated certain investment management functions to the Investment Adviser.

The main types of financial risks which the Fund is exposed to are market risk, liquidity risk and credit risk. The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements.

Asset allocation is determined by the Fund's Investment Adviser who manages the allocation of assets to achieve the investment objectives as detailed in the Prospectus. Achievement of the investment objectives involves taking risks. The Investment Adviser exercises judgment based on analysis, research and risk management techniques when making investment decisions. Divergence from the benchmark and/or the target asset allocations and the composition of the portfolio is monitored in accordance with the Fund's risk management policy.

The risk management policies employed in relation to the Fund are outlined below:

### 9 Financial Investments and Associated Risks (Continued)

### (a) Market Risk

The potential for changes in the market value of the Fund's underlying Portfolios' investments is referred to as market risk. Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

- (i) <u>Currency risks</u> may result from exposures to changes in spot prices, forward prices and volatilities of currency rates.
- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.
- (iii) <u>Other price risks</u> are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk or interest rate risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices, and commodities.

The Fund's market risk strategy is driven by the Fund's underlying Portfolios' investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

The AM Risk Management group at Goldman Sachs ("AM Risk") is responsible for overall risk governance structure and establishing appropriate risk management best practices. The risk governance structure includes identifying, measuring, monitoring, escalating and remediating applicable risks. AM Risk uses a number of risk metrics to monitor the risk profile of funds on a regular and ongoing basis. GSAMFSL's risk management function, in association with AM Risk Management team, will seek to ensure that the risk profile of funds remain consistent with applicable risk limits and internal thresholds which are established consistent with the risk profile disclosed to investors. Adherence with these risk thresholds is monitored on a weekly basis with exceptions promptly notified to the AM Chief Risk Officer and portfolio management teams. All governance exceptions are reported to the Risk Management function presents or provides written materials on the risks to the Board no less frequently than semi-annually.

### (i) Currency Risk

The Fund may invest in financial investments and enter into transactions denominated in currencies other than its Portfolios' base currency. Consequently, the Fund may be exposed to risk that the exchange rate of its base currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the base currency.

When an investor invests into a Share Class which is in a different currency to the base currency of the Portfolio in which it invests, the currency risk of the investor will be different to the currency risk of the Portfolio.

### (ii) Interest Rate Risk

The Fund may invest in fixed income securities and interest rate swaps contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect. All fixed income securities and floating rate securities, together with their interest rate and maturity date are disclosed in the Schedule of Investments. The Fund may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

### 9 Financial Investments and Associated Risks (Continued)

### (a) Market Risk (Continued)

(iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

The Fund's financial investments are carried at market value with market value changes recognised in the Statement of Operations, all changes in market conditions will directly affect Shareholders' Equity.

The Fund's investments in mutual funds are based upon the net asset value as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its Prospectus. While it is expected that the assets of the mutual funds will generally be valued by an independent third party administrator or other service provider, there may be circumstances in which certain securities or other assets of a mutual fund may not have a readily ascertainable market price. In such circumstances, the manager of the relevant mutual fund may be required to value such securities or instruments.

The London Inter-bank Offered Rate ("LIBOR") is the average of interest rates estimated by leading banks in London, based on what they would be charged to borrow from other banks. The Funds may use LIBOR benchmarks, undertake transactions in instruments that are valued using LIBOR rates or enter into contracts which determine payment obligations by reference to LIBOR. Certain LIBORs ceased publication after 31 December 2021 and, in connection with those rates, the Funds have transitioned to successor or alternative reference rates as necessary. Other LIBORs will cease publication at dates announced or to be announced in the future. In some instances, regulators may restrict new use of LIBORs prior to the actual cessation date. Until then, Funds may continue to invest in instruments that reference LIBOR due to favourable liquidity or pricing. In advance of the expected future transition dates, regulators and market participants have worked to identify or develop successor reference rates and spreads (if any) to be utilised in existing contracts or instruments as part of the transition away from LIBOR. Nonetheless, the termination of LIBOR presents risks to the Funds. It is not possible to identify exhaustively those risks, but they include the risk that a suitable transition mechanism may not be found or may not be suitable for the Funds. In addition, any substitute reference rate and any pricing adjustments imposed unilaterally, by a regulator or by counterparties, may not be suitable for the Funds, resulting in costs incurred to close out positions and place replacement trades and the reduced effectiveness of any hedges.

### (b) Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral or violations of counterparty or prime broker terms or covenants. This situation may arise due to circumstances outside of the Fund's control, such as a general market disruption or an operational problem affecting the Fund or third parties. Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

The Fund's investments include mutual funds, which may impose greater restrictions on redemptions than those imposed by the Fund. This may include offering less frequent redemption dates than are offered by the Fund to its shareholders.

The Funds' financial investments include investments in derivative contracts traded over the counter, which are not traded in an organised public market and which may be illiquid and in investments which may represent a significant percentage of issue size. As a result, the Fund may not be able to liquidate quickly some of these investments at an amount close to its market value in order to meet requirements, or to respond to specific events such as deterioration in the credit-worthiness of any particular issuer. The forced liquidation of investment positions may cause financial losses.

The Fund provides for the subscription and redemption of shares and it is therefore exposed to the liquidity risk associated with shareholder redemptions in accordance with the terms in the prospectus. The Fund's underlying Portfolios are managed to include liquid investments which the Investment Adviser believes are sufficient to meet

## 9 Financial Investments and Associated Risks (Continued)

## (b) Liquidity Risk (Continued)

normal liquidity needs. Substantial redemptions of shares in the Fund could require the Fund to liquidate its investments more rapidly than otherwise desirable in order to raise cash for the redemptions, and changes in the liquidity of the Portfolio's underlying investments once acquired can adversely impact its position in this respect.

These factors could adversely affect the value of the shares redeemed and the valuation of the shares that remain outstanding and the liquidity of the Portfolios' remaining assets if more liquid assets have to be sold to meet redemptions.

Please refer to Report of the Management Company III for details of Shareholders with holdings greater than 10% of the Portfolios' net assets as at 30 November 2022.

Financing arrangements include reverse repurchase agreements, derivative transactions and lines of credit. Expiration or termination of available financing for leveraged positions, and the requirements to post collateral in respect of changes in the market value of leveraged exposures or changes in advance rates or other terms and conditions of the Fund's financing arrangements, can result in adverse effects to the Fund's access to liquidity and ability to maintain leveraged positions, and may cause the Fund to incur material losses.

However, there is no guarantee that any such arrangements for obtaining leverage will be available, or, if available, will be available on terms and conditions acceptable to the Fund. Unfavourable economic conditions also could increase funding costs, limit access to the capital markets or result in a decision by lenders not to extend credit to the Fund.

The use of leverage also increases risk as it magnifies the effect of any volatility in market values on the Fund's equity.

A decline in the market value of the Fund's assets may have particular adverse consequences in instances where they have borrowed money on the market value of those assets. A decrease in the market value of those assets may result in the lender (including derivative counterparties) requiring the Fund to post additional collateral or otherwise sell assets at a time when it may not be in the Fund's best interest to do so.

The redemption of Shares of a Portfolio may be temporarily suspended, or deferred, by the Board of Directors or the Management Company on behalf of the Fund upon certain circumstances, and where it is deemed in the best interests of Shareholders.

As of 30 November 2022, the Fund participated in a USD 450,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other sub-funds of Goldman Sachs Funds SICAV and Goldman Sachs Lux Investment Funds. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on a reference rate related to the drawn currency (e.g. Federal Funds Rate). The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilised. For the year ended 30 November 2022 the Fund did not have any borrowings under the facility.

## (c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to the Fund's dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its affiliates evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

In order to reduce exposure to credit losses, some over-the-counter derivative agreements entered into by the Fund permit netting of transactions arising under such agreements, excluding those with counterparties executing only spot foreign exchange contracts. These netting rights provide for the reduction of credit risk on

## 9 Financial Investments and Associated Risks (Continued)

## (c) Credit Risk (Continued)

favourable over-the-counter transactions with a single counterparty to the extent of the value of unfavourable over-the-counter transactions with the same counterparty upon the occurrence of an event of default or termination event as all over-the-counter transactions with the counterparty under such agreement are terminated and amounts owed from and amounts payable to the counterparty are settled on a net basis.

Debt securities are subject to the risk of an issuer's or a guarantor's inability to meet principal and interest payments on its obligations and are subject to price volatility due to factors such as interest rate sensitivity, market perception of the credit-worthiness of the issuer, and general market liquidity.

The Fund is subject to a number of risks relating to the insolvency, administration, liquidation or other formal protection from creditors ("Insolvency") of the Depositary or any sub-custodian. These risks include without limitation:

- 1. The loss of all cash held with the Depositary or sub-custodian which is not being treated as client money both at the level of the Depositary and any sub-custodians ("client money").
- 2. The loss of all cash which the Depositary or sub-custodian has failed to treat as client money in accordance with procedures (if any) agreed with the Fund.
- 3. The loss of some or all of any securities held on trust which have not been properly segregated and so identified both at the level of the Depositary and any sub-custodians ("trust assets") or client money held by or with the Depositary or sub-custodian.
- 4. The loss of some or all assets due to the incorrect operation of accounts by the Depositary or sub-custodian or due to the process of identifying and transferring the relevant Trust Assets and/or client money including any deduction to meet the administrative costs of an insolvency.
- 5. Losses caused by prolonged delays in receiving transfers of balances and regaining control over the relevant assets.

An insolvency could cause severe disruption to the Fund's investment activity. In some circumstances, this could cause the Directors to temporarily suspend the calculation of the Net Asset Value and dealings in shares.

## (d) Additional Risks

#### (i) Concentration Risk

The Fund may invest in a limited number of investments and investment themes. A consequence of a limited number of investments is that performance may be more favourably or unfavourably affected by the performance of an individual investment.

## (ii) Operational Risk

Operational risk is the potential for loss caused by a deficiency in information, communications, transaction processing and settlement, and accounting systems. The Fund's service providers, including sub-custodians, maintain controls and procedures for the purpose of helping to manage operational risk. Reviews of the service levels of service providers are performed on a regular basis by the Investment Adviser. No assurance is given that these measures will be 100% effective.

## (iii) Legal, Tax and Regulatory Risks

Legal, tax and regulatory changes could occur which may adversely affect the Fund.

With respect to tax, the Fund may be subject to taxation on capital gains, interest and dividends in certain jurisdictions where the Fund invests.

## 9 Financial Investments and Associated Risks (Continued)

## (d) Additional Risks (Continued)

## (iii) Legal, Tax and Regulatory Risks (Continued)

The interpretation and applicability of the tax law and regulations by tax authorities at times may not be clear or consistent. Tax obligations where probable and estimable are recorded as liabilities. However, some tax obligations are subject to uncertainty and may result in additional tax liabilities, interest and penalties based on future actions, interpretations or judgments of these authorities covering current and past tax positions. Accounting standards may also change, creating or removing an obligation for the Fund to accrue for a potential tax liability.

Consequently, it is possible that certain potential tax obligations which currently are not probable may become so which may result in additional tax liabilities for the Fund in the future and these additional liabilities may be material. Because of the foregoing uncertainties, the Net Asset Value may not reflect the tax liabilities ultimately borne by the Fund, including at the time of any subscriptions, redemptions or exchanges of interests in the Fund, which could have an adverse impact on investors at that time.

#### (iv) Non-Developed Markets Risk

The Fund may invest a portion of its capital in securities of companies based in non-developed or emerging markets or issued by governments of such countries. Investing in the securities of such companies and countries involves certain considerations not usually associated with investing in securities of developed market companies or countries, including, without limitation, less liquidity, greater price and foreign currency volatility, and greater legal, tax and regulatory risks.

### (v) Small Capitalisation Companies Risk

The Fund may invest a portion of its capital in securities of companies with smaller capitalisation. Smaller capitalisation companies are generally not as well known to the investing public and have less investor following than larger capitalisation companies. Investing in the securities of such companies may involve certain considerations, including, without limitation, less liquidity, greater price volatility, and risks associated with limited operating histories and/or the availability of information pertaining to the company and its operations.

#### (vi) Investment Sub-Adviser Selection Risk

The investment decisions in respect of each Multi-Manager Portfolio and Global Multi-Manager Alternatives Portfolio will be made by its External Managers. The Investment Adviser in a Multi-Manager Portfolio and Global Multi-Manager Alternatives Portfolio will not make decisions with respect to the purchase, management, disposition, or other realisation of the Multi-Manager and Global Multi-Manager Alternatives Portfolio's investments.

It is not intended that the External Managers will be selected from the Goldman Sachs Group or any of its affiliates. Consequently, the Investment Adviser has no control, directly or indirectly, over the business affairs or market conduct of the External Managers. In selecting the External Managers, the Investment Adviser has undertaken reasonable investigative and due diligence procedures but is nevertheless reliant on information supplied to it by each of the External Managers as well as information in relation to the External Managers obtained from independent sources and from the public domain.

## (vii) Sustainability Risk

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the "Sustainable Finance Disclosure Regulation") as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment.

Additional details of risks not disclosed in these Financial Statements can be found in the Prospectus.

## 10 Exchange Rates

The following exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Assets and Liabilities, for the year ended 30 November 2022:

Currency	30-Nov-2022
1 Euro (EUR)	1.038250 USD

The following average exchange rate (against USD) was used to calculate the Combined Total, in the Statement of Operations and in the Statement of Changes in Shareholders' Equity (except for Shareholders' Equity at the start and end of the year) for the year ended 30 November 2022:

Currency	
1 Euro (EUR)	1.056842 USD

The following exchange rates were used to convert amounts from local share class currencies to base Portfolios' currencies, for the year ended 30 November 2022:

Share Class Currency	Base Currency	
	United States Dollar (USD)	
1 Euro (EUR)	1.038250	
1 Swedish Krona (SEK)	0.094952	
1 Swiss Franc (CHF)	1.052410	
1 United Kingdom Pound (GBP)	1.200150	

## 11 Commission Recapture

All Portfolios may direct trades, subject to obtaining best price and execution, to various brokers who have agreed to rebate a portion of the commissions generated. Such rebates are made directly to the applicable Portfolio as cash payments and are included in net realised gain and loss on investments in the Statement of Operations.

Portfolios	Commissions paid on securities in the program (USD)	Commissions reimbursed to the portfolio (USD)	Percentage reimbursed in the program
Multi-Manager Europe Equity Portfolio	15	6	40.00%
Multi-Manager US Equity Portfolio	74,144	42,119	56.81%
Multi-Manager US Small Cap Equity Portfolio	18,273	11,277	61.71%

## 14 Transaction Costs

Transaction costs have been defined as broker commission fees, commission on futures contracts, market fees and taxes relating to purchase or sale of equity and investments in other funds. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Details of broker commissions with Goldman Sachs Affiliates can be found under Note 6 Significant Agreements and Related Parties – Commissions.

For the year ended 30 November 2022, the following Portfolios incurred separately identifiable transaction costs:

Portfolios	Currency	Transaction Costs*	% of average Shareholders' Equity
Global Multi-Manager Alternatives Portfolio	USD	497,015	0.16%
Multi-Manager Emerging Markets Equity Portfolio	USD	1,397,810	0.25%
Multi-Manager Europe Equity Portfolio	EUR	1,755,576	0.40%
Multi-Manager Global Equity Portfolio	USD	625,990	0.05%
Multi-Manager US Equity Portfolio	USD	195,015	0.02%
Multi-Manager US Small Cap Equity Portfolio	USD	404,951	0.09%
Balanced Allocation Portfolio	USD	7,215	0.00%
Tactical Tilt Overlay Portfolio	USD	57,689	0.00%
Total (in USD)**		5,041,052	

\* Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. Portfolios that invest solely in those investments are not disclosed in the table above.

\*\* The amount used is calculated using the average exchange rate disclosed in Note 10.

## 14 Transaction Costs (Continued)

Note: benchmark returns, with the exception of taxes at times, do not incorporate transaction costs.

## 15 Commissions for Research and/or Execution

Certain Portfolios pay commission for execution only and/or execution and investment research. The commissions for execution are recognised in the transaction price. The Fund did not otherwise enter into any third party commission arrangements for the year ended 30 November 2022.

#### 16 Prospectus

As at 30 November 2022, the latest Prospectus of the Fund was issued in June 2022.

## 17 Currency Adjustment

In the Statement of Changes in Shareholders' Equity, the opening value of the Fund has been restated at the exchange rates ruling at 30 November 2021, and the combined figures have been calculated using the average exchange rates throughout the year. The resulting loss of USD 132,528,452 represents the movement in exchange rates between 1 December 2021 and 30 November 2022. This is a notional loss, which has no impact on the Net Asset Value of the individual Portfolios.

## 18 Cross Liabilities

In accordance with Luxembourg law, each Portfolio is "ring-fenced" and considered to constitute a single pool of assets and liabilities, so that the rights of Shareholders and creditors in relation to each Portfolio should be limited to the assets of that Portfolio.

## 19 Contingent Liabilities

There were no contingent liabilities as at 30 November 2022.

### 20 Subsequent Events

From 1 December 2022 to 17 March 2023, the following Portfolio had movements greater than 25% in Shareholders' Equity:

Portfolio	Currency	% Movement in AUM	% Movement in Performance
G Emerging Markets Debt Broad Portfolio	EUR	(50.19%)	0.44%

Mr. Glenn Thorpe has resigned from the Board of Directors as of 13 December 2022.

The Prospectus of the Fund has been issued in December 2022.

There is a firm intention to close the G Emerging Markets Debt Broad Portfolio. The portfolio has limited market value in Russian securities. These assets are being valued to reflect the limited liquidity and transferability in the current environment. With the closure of local Russian markets and imposition of sanctions last year, there are currently limited portfolio management actions possible as many of these assets are either sanctioned and/or cannot be transferred or settled.

There were no other subsequent events to note.

## 21 Indemnifications

The Fund may enter into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts.

## 22 Approval of Financial Statements

The Board of Directors approved the audited Annual Financial Statements on 20 March 2023.

#### 23 Supplemental Information

The Investment Adviser is subject to the Securities and Exchange Commission's amended Rule 206(4)-2 under the Investment Advisers Act of 1940 ("the Act"). The Investment Adviser has determined that they are required to provide the following information to all investors and has determined which Portfolios are to provide this information in accordance with the Act. The Investment Adviser has requested that the Board of Directors includes this information in the Board of Directors' financial statements.

The following is a summary of total return, expense and investment income results for the year ended 30 November 2022:

Tactical Tilt Overlay Portfolio	Currency	Total return <sup>1</sup>	Expense before waivers/ reimbursements to average net assets <sup>2,3</sup>	Expense after waivers/ reimbursements to average net assets <sup>2,3</sup>	Net investment income/(loss) to average net assets <sup>2,3</sup>

"R" Share Class (GBP Hedged Class)	GBP	1.00%	0.38%	0.38%	0.93%

<sup>1</sup> Total returns are calculated by dividing the change in the per share value for the year by the net asset value per share at the beginning of the year. An individual shareholder's return may vary from these returns due the timing of capital transactions.

<sup>2</sup> The expense and net investment income ratios are calculated for each group of shareholders taken as a whole. Under rules required for SEC 206(4)-2 this ratio does not include realised gains and losses and change in unrealised gains and losses in net investment income. The computation of such ratios based on the amount of income and expenses assessed to an individual shareholder's capital may vary from these ratios based on the timing of capital transactions.

<sup>3</sup> Refer to Note 6 Significant Agreements – Investment Adviser and Investment Sub-Advisers for further details on expense waivers/ reimbursement amounts.

## Financial Assets and Financial Liabilities at Value

The three levels of the fair value hierarchy under the Accounting Standards Codification ("ASC") 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

## 23 Supplemental Information (Continued)

### Financial Assets and Financial Liabilities at Value (Continued)

Level 2 – Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including but not limited to quoted prices for similar securities, interest rates, foreign exchange rates, volatility and credit risk spreads), either directly or indirectly;

Level 3 – Prices or valuations that require significant unobservable inputs (including the Valuer's assumptions in determining fair value measurement).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The following tables show financial assets and financial liabilities recognised at fair value, analysed between the three levels described above:

Tactical Tilt Overlay Portfolio	Level 1 USD	Level 2 USD	Level 3 USD	Total USD

## 24 Cross Sub-Fund investments

As at 30 November 2022, there was no cross sub-fund investment within the Fund.

### 25 Sustainable Finance Disclosure Regulation ("SFDR")

The EU Sustainable Finance Disclosure Regulation ("SFDR") (Regulation (EU) 2019/2088) has applied since 10 March 2021. Pursuant to Article 11 of SFDR (Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports), Goldman Sachs Asset Management Fund Services Limited is required to provide a description of the extent to which environmental or social characteristics have been met with reference to Portfolios providing disclosures pursuant to Article 8(1) of SFDR, and to the extent applicable, Article 9 of SFDR.

## 25 Sustainable Finance Disclosure Regulation ("SFDR") (Continued)

In addition, the EU Taxonomy Regulation ("Taxonomy Regulation") (Regulation (EU) 2020/852) establishes a framework for identifying economic activities as environmentally sustainable within the European Economic Area and requires the Portfolios to additionally disclose whether the EU criteria for environmentally sustainable economic activities has been taken into account.

Please see this information disclosed for each of the Portfolios in Report of the Management Company VII.

The Futures Commission Merchants were Deutsche Bank AG and Morgan Stanley & Co., Inc.

The counterparties for forward currency contracts were Deutsche Bank AG, Morgan Stanley and Morgan Stanley & Co. LLC.

The counterparties for options contracts were Morgan Stanley and Morgan Stanley & Co., Inc.

The counterparty for contracts for difference was Morgan Stanley.

The counterparty for swap contracts was Bank of America NA.

The maximum individual counterparty exposure as at 30 November 2022 is 4.92% of the NAV.

(a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.

(b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.

<sup>(c)</sup> Security holding is traded/held in USD. (ADR: American Depositary Receipt/GDR: Global Depositary Receipt).

<sup>(d)</sup> Valuation of this security is determined by the Valuer. See Note 4.

(e) 144A: This security is issued to qualified institutional investors, pursuant to private placements, and is transferable as stated in rule 144A of the US Securities Act of 1933.

<sup>(f)</sup> A related party to Goldman Sachs Funds II.

 $^{\rm (g)}\,$  The yield for this fund as at 30 November 2022 was 4.050%.

The Futures Commission Merchant was Barclays Capital, Inc.

The counterparty for forward currency contracts was JP Morgan Chase Bank NA.

The counterparties for options contracts were Barclays Capital, Inc. and Morgan Stanley & Co. International PLC.

The maximum individual counterparty exposure as at 30 November 2022 is 2.80% of the NAV.

(a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.

(b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.

<sup>(c)</sup> Variable and floating coupon rates are those quoted as of 30 November 2022.

<sup>(d)</sup> A related party to Goldman Sachs Funds II.

(e) The yield for this fund as at 30 November 2022 was 4.050%.

<sup>(f)</sup> The yield for this fund as at 30 November 2022 was 3.848%.

The Futures Commission Merchant was Morgan Stanley & Co., Inc.

The counterparty for forward currency contracts was Morgan Stanley & Co. LLC.

The counterparties for options contracts were Bank of America NA, Barclays Bank PLC, Citibank NA and Morgan Stanley & Co. International PLC.

The counterparty for swap contracts was Bank of America NA.

The maximum individual counterparty exposure as at 30 November 2022 is 1.87% of the NAV.

(a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.

(b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.

 $^{\rm (c)}\,$  Variable and floating coupon rates are those quoted as of 30 November 2022.

<sup>(d)</sup> A related party to Goldman Sachs Funds II.

 $^{\rm (e)}\,$  The yield for this fund as at 30 November 2022 was 4.050%.

<sup>(f)</sup> The yield for this fund as at 30 November 2022 was 3.848%.

#### Goldman Sachs Funds II—Strategic Volatility Premium Portfolio Schedule of Investments As at 30 November 2022

The Futures Commission Merchant was Barclays Capital, Inc.

The counterparty for forward currency contracts was BNP Paribas SA.

The counterparty for options contracts was Morgan Stanley & Co. International PLC.

The maximum individual counterparty exposure as at 30 November 2022 is 0.40% of the NAV.

(a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.

(b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.

<sup>(c)</sup> Variable and floating coupon rates are those quoted as of 30 November 2022.

<sup>(d)</sup> A related party to Goldman Sachs Funds II.

(e) The yield for this fund as at 30 November 2022 was 3.848%.

The counterparties for forward currency contracts were HSBC Bank PLC, JP Morgan Chase Bank NA, Morgan Stanley & Co. International PLC, Natwest Markets PLC and Westpac Banking Corp.

The counterparty for swap contracts was Merrill Lynch International.

The maximum individual counterparty exposure as at 30 November 2022 is 7.31% of the NAV.

(a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.

(b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.

 $^{\rm (c)}\,$  Variable and floating coupon rates are those quoted as of 30 November 2022.

(d) 144A: This security is issued to qualified institutional investors, pursuant to private placements, and is transferable as stated in rule 144A of the US Securities Act of 1933.

(e) A related party to Goldman Sachs Funds II.

<sup>(f)</sup> The yield for this fund as at 30 November 2022 was 4.050%.

The Futures Commission Merchant was Bank of America NA.

The counterparties for forward currency contracts were Credit Suisse International, Deutsche Bank AG, HSBC Bank PLC, JP Morgan Chase Bank NA, Natwest Markets PLC, Standard Chartered Bank and Westpace Banking Corp.

The counterparty for swap contracts was Merrill Lynch International.

The maximum individual counterparty exposure as at 30 November 2022 is 11.71% of the NAV.

(a) Interest rates represent either the stated coupon rate, annualised discounted yield on date of purchase for discounted securities, or, for floating rate securities, the current reset rate which is based upon interest rates indices.

(b) Maturity dates represent either the stated date on the security, or the next interest reset date for floating rate securities or the prerefunded date for those type of securities.

(c) 144A: This security is issued to qualified institutional investors, pursuant to private placements, and is transferable as stated in rule 144A of the US Securities Act of 1933.

<sup>(d)</sup> Variable and floating coupon rates are those quoted as of 30 November 2022.

<sup>(e)</sup> A related party to Goldman Sachs Funds II.

<sup>(f)</sup> The yield for this fund as at 30 November 2022 was 3.848%.

(a) Refer to Note 6.

(b) The Total cybense Ratio ("TER") expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Portfolios' assets (operating net expenses) taken retrospectively as a percentage of the Portfolios' assets, and is calculated using the following formula: Total operating net expenses in CU" /Average portfolios' assets in CU" x 100 = TER %. The TER is calculated for the Period from 1 December 2021 to 30 November 2022. TER's are annualised for Portfolios operating less than one year.

(c) The expense cap does not include performance fees.

<sup>(d)</sup> The expense cap does not include the GSAMI fee portion paid to external Sub-Investment Advisers.

(e) Refer to Report of the Management Company II.

<sup>(f)</sup> An Expense Cap was not applicable for this Share Class as at 30 November 2022.

The above expense ratios are an average throughout the year to 30 November 2022. The above Expense Caps represent the expense cap levels at year end 30 November 2022.

#### Goldman Sachs Funds II Report of the Management Company IV—Calculation Method Used for Global Exposure (Unaudited) For the Year Ended 30 November 2022

The Undertakings for Collective Investment in Transferable Securities ("UCITS") IV directive, as amended, requires disclosure of how global exposure on financial derivatives investments are managed. There are three management approaches used:

- 1. The Commitment Approach. This approach is generally for those Portfolios that hold less complex positions on financial derivatives investments and for the purposes of hedging or efficient portfolio management.
- 2. Relative Value at Risk ("Relative VaR") approach. This approach is generally for those Portfolios where it is possible to identify an appropriate reference benchmark. This method compares the global exposure of the Portfolio relative to that of a reference benchmark.
- 3. Absolute Value at Risk ("Absolute VaR") approach. This approach is generally for those Portfolios for which it is not appropriate or possible to determine a reference benchmark (for example, an absolute return portfolio).

The following sections indicate which approach is used for the Portfolios.

For Portfolios managed under a VaR approach, additional information is provided on the VaR model, being the VaR reference Portfolio / Benchmark, the regulatory VaR limit usage and the level of leverage reached.

#### I. Commitment Approach

The following Portfolios use the commitment approach for calculating global exposure:

Multi-Manager Emerging Markets Equity Portfolio	Multi-Manager Global Equity Portfolio
Multi-Manager Europe Equity Portfolio	Multi-Manager US Equity Portfolio
Multi-Manager US Small Cap Equity Portfolio	

#### Goldman Sachs Funds II Report of the Management Company IV—Calculation Method Used for Global Exposure (Unaudited) For the Year Ended 30 November 2022

#### II. VaR Approach

The following Portfolios use a VaR approach for calculating global exposure:

Portfolios	VaR	Regulatory	VaR Limit Utilisation as % of Regulatory VaR Limit <sup>1</sup>			Reference Portfolio /		Confidence	Holding	Observation

Income Multi-Sector Bond		20/0011140	576	-070	1070	01033/		00/0	~0 00y3	i youi	5070
Portfolio I	Absolute VaR	20% of NAV	8%	20%	13%		Historical VaR	99%	20 days	1 year	426%
G Emerging Markets Debt		2,0 2, 0,0	070	_0/0	.070					.,	
Broad Portfolio	Absolute VaR	20% of NAV	8%	31%	17%		Historical VaR	99%	20 days	1 year	335%

<sup>1</sup> The utilisation percentage represents the lowest, highest and average proportion of the maximum limit used in the reporting period. For example a Portfolio with an average utilisation of 25% and a maximum limit of 200% (Relative VaR), represents an average VaR ratio (Portfolio VaR divided by benchmark VaR) of 50%. A Portfolio with an average utilisation of 25% and a maximum limit of 20% (Absolute VaR), represents an average Portfolio VaR of 5%.

<sup>2</sup> The sum of notionals approach for financial derivative instruments is used to determine the maximum expected Portfolio leverage. This calculation incorporates the Portfolio's financial derivative instruments, the reinvestment of collateral received (in cash) in relation to operations of efficient portfolio management and any use of collateral in the context of any other operation of efficient portfolio management, e.g. securities lending.

#### Goldman Sachs Funds II Report of the Management Company V—Management Company Annual Report Disclosures (Unaudited) For the Year Ended 30 November 2022

The UCITS management company (the "Company") is required to make available an Annual Report for the financial year for each of its UCITS, containing certain disclosures as set out in Article 69 of the European Commission Directive 2009/65/EU, as amended by Article 1 (13)(b) of the European Commission Directive 2014/91/EU (the "Directive"). The disclosures set out below fulfill the requirements of the Directive.

#### I. Remuneration

The Company has 29<sup>1</sup> staff based in Dublin and London who are assigned to one or more of the following broad functions and teams: Risk Management, Compliance, Investor Services, Vendor Oversight and Controllers. The Company has outsourced the portfolio management function to GSAMI. The Company has identified staff members whose professional activities have a material impact on the Company's risk profile ("UCITS Identified Staff"), including senior management, risk takers and control function heads.

The following disclosures are made in accordance with the Directive in respect of the Company, which is part of The Goldman Sachs Group, Inc. ("GS Group"). GS Group's global remuneration philosophy, structure and process for setting remuneration generally applies to employees of the Company in the same manner as to other employees globally. References to the "firm" and "we" throughout this disclosure include GS Group and the Company and any subsidiaries and affiliates.

#### a. Remuneration Program Philosophy

The remuneration philosophy and the objectives of the remuneration program for the Company are reflected in the Compensation Policy Statement as adopted by the Board of Directors of the Company, which includes the following:

- 1. We pay for performance this is an absolute requirement under our compensation program and inherent in our culture.
- 2. We structure compensation, especially at senior levels, to align with GS Group's shareholders' long-term interests and the interests of the funds that the firm manages.
- 3. We use compensation as an important tool to attract, retain and motivate talent.
- 4. We align total compensation with corporate performance over the period.

The Company's remuneration program is intended to be flexible enough to allow responses to changes in market conditions, but grounded in a framework that maintains effective remuneration practices.

#### b. Remuneration Governance

The Board of Directors of the Company is responsible for supervising the planning, implementation and revision of the compensation policy of the Company, subject to the oversight of the Compensation Committee of the Board of Directors of GS Group (the "GS Group Compensation Committee"), the ultimate parent of the Company.

The members of the GS Group Compensation Committee at the end of 2021 were M. Michele Burns (Chair), Drew G. Faust, Kimberley D. Harris, Ellen J. Kullman, Lakshmi N. Mittal, and Adebayo O. Ogunlesi (ex-officio). None of the members of the GS Group Compensation Committee was an employee of the firm. All members of the GS Group Compensation Committee were "independent" within the meaning of the New York Stock Exchange Rules and the firm's Director Independence Policy.

The GS Group Compensation Committee has for several years recognised the importance of using an independent remuneration consultant that is appropriately qualified and that provides services solely to the GS Group Compensation Committee and not to the firm. The Compensation Committee continued to retain an independent remuneration consultant in 2021.

GS Group's global process for setting variable remuneration (including the requirement to consider risk and compliance issues) applies to employees of the Company in the same way as to employees of other entities and in other regions and is subject to oversight by the senior management of the firm in the region.

#### c. Link Between Pay and Performance

Annual remuneration for employees is generally comprised of fixed and variable remuneration. The Company's remuneration practices provide for variable remuneration determinations to be made on a discretionary basis. Variable remuneration is based on multiple factors and is not set as a fixed percentage of revenue or by reference to any other formula. Firmwide performance is a key factor in determining variable remuneration.

#### Goldman Sachs Funds II Report of the Management Company V—Management Company Annual Report Disclosures (Unaudited) For the Year Ended 30 November 2022

#### I. Remuneration (Continued)

#### d. Performance Measurement

Year-end variable remuneration is determined through a discretionary process that relies on certain qualitative and quantitative metrics (amongst other factors) against which we assess performance at year-end. We do not set specific goals, targets or other objectives for purposes of determining year-end variable remuneration nor do we set an initial remuneration pool that is adjusted for any such goals, targets or other objectives. Such metrics are not formulaic nor given any specific weight. In addition, employees are evaluated annually as part of the annual performance review process.

#### e. Risk Adjustment

Prudent risk management is a hallmark of both the firm and the Company's culture and sensitivity to risk and risk management are key elements in assessing employee performance, including as part of the annual performance review process noted above.

We take risk into account in setting the amount and form of variable remuneration for employees. We provide guidelines to assist compensation managers when applying discretion during the remuneration process to promote consistent consideration of the different metrics / factors considered during the remuneration process. Further, to ensure the independence of control function employees, remuneration for those employees is not determined by individuals in revenue-producing positions but rather by the management of the relevant control function.

#### f. Structure of Remuneration

- 1. Fixed Remuneration: Comprised of base salary and, where applicable, role-based allowances.
- 2. Variable Remuneration: For employees with total and variable remuneration above a specific threshold, variable remuneration is generally paid in a combination of cash and equity-based remuneration. In general, the portion paid in the form of an equity-based award increases as variable remuneration increases and, for UCITS Identified Staff, is set to ensure compliance with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### g. Remuneration

Staff remuneration for the financial year ending 31 December 2021<sup>2</sup>:

Total remuneration for the financial year ending 31 December 2021 paid to staff <sup>3</sup> of the Company and to staff of appointed portfolio management delegate of the Company, in respect of the management of the UCITS	US\$ 2,783,547, made up of: • US\$ 2,026,855 fixed remuneration • US\$ 756,692 variable remuneration
Which includes:	
(a) Remuneration paid to senior management	US\$ 1,077,038
(b) Remuneration paid to other staff members whose actions have a material impact on the risk profile of the UCITS	US\$ 830,488

The remuneration figures above:

- 1. represent the proportion of the fixed remuneration of staff related to the time spent in relation to UCITS work; and
- 2. have not been broken down in relation to each individual UCITS in respect of the Company because staff of the Company provide their services to all UCITS collectively rather than on a UCITS by UCITS basis and therefore such breakdown is not readily available, whereas for delegated portfolio management services provided by GSAMI, the services provided by portfolio managers have been considered on a UCITS by UCITS basis and an estimated split for each UCITS has been incorporated into the calculations above.

<sup>1</sup>As of 30 November 2022 in respect of the Company only (excludes staff from the appointed portfolio management delegate)

<sup>2</sup> The Goldman Sachs Group, Inc. financial year for remuneration purposes does not align with the UCITS financial year. As such, 2021 remuneration figures are disclosed.

<sup>3</sup> Excludes 3 staff of the Company that joined during the course of 2022 and therefore did not receive remuneration for the financial year ending 31 December 2021 as staff of the Company.

#### Goldman Sachs Funds II Report of the Management Company VI—Securities Financing Transactions Regulation ("SFTR") Disclosures (Unaudited) For the Year Ended 30 November 2022

The Management Company is required to make available a Annual Report for the financial year for each of its Funds, containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse (the "Regulation"). The disclosures set out below are included to meet the requirements of the Regulation.

#### I. Global Data

Please refer to Note 6 Securities lending for details on the amount of securities lent expressed as an absolute amount, as a proportion of total lendable assets and as a proportion of the Shareholders' Equity.

Please refer to the different Schedule of Investments for details on the amount of Total Return Swap ("TRS") an absolute amount and as a proportion of the Shareholders' Equity.

#### II. Concentration Data

The table below shows the 10 largest issuers of total non-cash collateral received by Portfolio that is outstanding as at 30 November 2022. Please refer to Note 13 for cash collateral information.

Portfolio	Portfolio currency	Non-cash collateral Issuer	Market value of collateral received	% of Shareholders' Equity
Multi-Manager Emerging Markets Equity Portfolio	USD	Federal Republic of Germany	460,144	0.10%
Multi Mananan Furana Furita Darttalia	5115	Federal Republic of Germany	4,920,309	1.03%

<sup>1</sup> Total return swaps are typically traded under ISDA master agreements ("ISDAs") which govern various types of swap and FX transactions executed between the Portfolio and each swap counterparty. Under the ISDAs, collateral is calculated daily on an aggregate, net basis across all transactions and therefore, a portion of such collateral is related to derivative transactions which are not in scope for SFTR.

Please refer to Note 6 Securities lending for details on the quality of the non-cash collateral received.

Article 8	134
Article 8	141
Article 8	149
	Article 8 Article 8 Article 8 Article 8 Article 8 Article 8

The following information has been provided in accordance with Article 11 of Regulation (EU) 2019/2088 (the **"Sustainable Finance Disclosure Regulation"** or **"SFDR"**.) For Portfolios of Goldman Sachs Asset Management ("GSAM") that promoted environmental and/or social characteristics during the reference period, information has been made available via the SFDR regulatory technical standards (RTS) (2022/1288) template.

The disclosures provided below refer to a reference period of 1st December 2021 to 30th November 2022 in alignment to the annual reporting period.

Supplementary information as it pertains to the periodic disclosures provided has been made available below.

#### I European Commission new additions to reporting requirements - fossil gas and/or nuclear energy

On 17 February 2023, the Commission Delegated Regulation (EU) 2023/363 (CDR 2023/363) amending and correcting the RTS to include reference to fossil gas and nuclear related activities in the EU Taxonomy section of the pre-contractual and periodic reporting Annexes of the RTS was published.

The CDR 2023/363 entered into force on 20 February 2023.

The following periodic disclosures have been prepared in accordance with the previous RTS (CDR 2022/1288). Further information pertaining to fossil gas and/or nuclear energy can be found below.

The Portfolio's below did not make any investments aligned with the "EU Taxonomy" – a classification system under Regulation (EU) 2020/852 for environmentally sustainable economic activities. By extension, the Portfolios did not invest in EU Taxonomy-aligned fossil gas and / or nuclear energy related activities.

#### II Sector and sub-sector classification

The periodic disclosures refer to a combination of sector and sub-sector classification using information from both proprietary sources and third-party data providers.

All investment strategies except Fixed Income and Liquidity Solutions use the statistical classification of economic activities in the European community, commonly referred to as NACE in which to classify sectors and sub-sectors. Fixed Income and Liquidity Solutions strategies use a proprietary sector classification methodology.

Information pertaining to sector and sub-sector classifications has been taken as of 30 November 2022.

#### III Top investments of the financial products and economic sectors

For the 1st December 2021 to 30th November 2022 reference period, all the calculations in the disclosures below are based on the respective Portfolio's holdings as of 30 November 2022. With the SFDR RTS coming into force on 1 January 2023, the Portfolios updated their approaches and commitments per the SFDR RTS only towards the end of the reference period and hence this reporting approach is representative of this update. For subsequent reporting periods, the calculations are expected to be based on the average figure using four quarterly snapshots, such that the figures are representative of the reference period they relate to. Percentage of assets disclosed in the periodic disclosures may not agree to the schedule of investments in the annual report, primarily due to accrued interests and differences in aggregation methodology of investments.

#### IV Reference Portfolio/Benchmark

### Goldman Sachs Funds II Report of the Management Company VII—Sustainable Finance Disclosure Regulation ("SFDR") Disclosures (Unaudited) As at 30 November 2022

Certain Portfolios commit to portfolio level targets relative to a Reference Portfolio/Benchmark as defined within the Prospectus. Please note, these are not indices that have been designated as reference benchmarks for the purposes of attaining the environmental or social characteristics promoted by the Portfolios pursuant to Article 8(b) of SFDR, unless otherwise stated within the report.

Portfolios	SFDR Category	Taxonomy Regulation
Global Multi-Manager Alternatives Portfolio	6 (positive)	The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.
Balanced Allocation Portfolio	6 (positive)	The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.
Strategic Factor Allocation Portfolio	6 (negative)	The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.
Tactical Tilt Overlay Portfolio	6 (positive)	The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.
Strategic Volatility Premium Portfolio	6 (negative)	The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.
Income Multi-Sector Bond Portfolio I	6 (positive)	The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities.

Periodic disclosure for Portfolios that are not subject to Article 8 or Article 9 of SFDR:

# Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### **Product name:**

Goldman Sachs Multi-Manager Emerging Markets Equity Portfolio Legal entity identifier: 549300KYDSVINDGPKQ75

### **Environmental and/or social characteristics**

Doe	s this ▶ □	financial product have a sustainable inv Yes	vestn	nent o ▶ ⊠	bjective ? No
		de sustainable investments with an ronmental objective:%		chara objec	moted Environmental/Social (E/S) acteristics and while it did not have as its tive a sustainable investment, it had a ortion of_% of sustainable investments

		in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective
		de sustainable investments with a al objective:%	×		moted E/S characteristics, but <b>did not make</b> ustainable investments

To m

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 31 December 2021, the Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- alcohol;
- adult entertainment;
- for-profit prisons;
- civilian firearms;
- gambling

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

#### How did the sustainability indicators perform?

From 31 December 2021, the Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

• 0% of the companies in the Portfolio were directly engaged in, and/or derived significant revenues from:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- alcohol;
- adult entertainment;
- for-profit prisons;
- · civilian firearms;
- gambling

• 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### Principal adverse ... and compared to previous periods ?

Not applicable, the Portfolio did not disclose the use of the sustainability indicators noted above during previous reference periods.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

**How did this financial product consider principal adverse impacts on sustainability factors?** During the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis. PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

PAI CATEGORY	PAI
Mandatory PAIs	<ul> <li>Exposure to companies active in the fossil fuel industry</li> <li>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul>

What were the top investments of this financial product?

impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

Largest investments	Sector	% Assets	Country

Asset allocation describes the share of investments in specific assets.

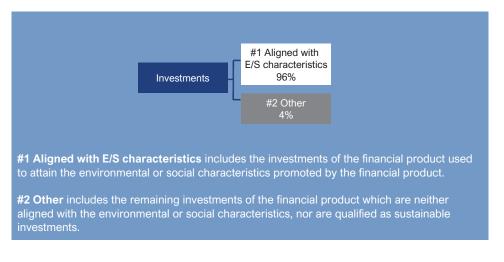

#### What was the proportion of sustainability-related investments?

As at 30 November 2022, 96% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio.

The Fund was exposed to a range of economic sectors over the reference period, as further disclosed below.

#### What was the asset allocation?

As at 30 November 2022, 96% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio. 4% were held in cash and derivatives.

In which economic sectors were the investments made?

#### Taxonomy-aligned activities are expressed as a share of: -turnover reflecting the share of revenue from green activities of investee companies - capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy. - operational expenditure (OpEx)

reflecting green

 $\mathbf{m}$ 

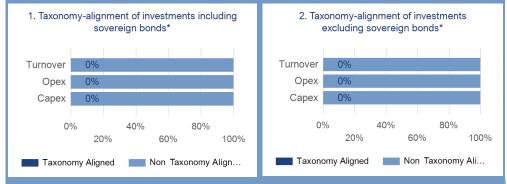

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

#### investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmenal objective. Transitional activities are economic activities for which lowcarbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance. The two graphs below show in blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

# How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Tayonomy

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments.

These financial instruments were not subject to any minimum environmental or social safeguards.

# What actions have been taken to meet environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

### How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

?

Reference

benchmarks are indexes to measure whether financial products attain the environmental or social characteristics that they promote.

# Periodic disclosure for the finan

#### Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

# Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 20 June 2022, the Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- alcohol;
- adult entertainment;
- for-profit prisons;
- civilian firearms;
- gambling

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

#### How did the sustainability indicators perform?

From 20 June 2022, the Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies in the Portfolio were directly engaged in, and/or derived significant revenues from:
  - controversial weapons (including nuclear weapons);
  - extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
  - tobacco;
  - alcohol;
  - adult entertainment;
  - for-profit prisons;
  - · civilian firearms;
  - gambling

• 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### Principal adverse

impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### ... and compared to previous periods ?

Not applicable, the Portfolio did not disclose the use of the sustainability indicators noted above during previous reference periods.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

During the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

PAI CATEGORY	PAI
Mandatory PAIs	<ul> <li>Exposure to companies active in the fossil fuel industry</li> <li>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul>

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2021-12-01 / 2022-11-30

Asset allocation describes the share of investments in specific assets

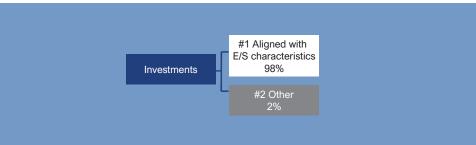

#### What was the proportion of sustainability-related investments?

As at 30 November 2022, 98% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio.

The Fund was exposed to a range of economic sectors over the reference period, as further disclosed below.

#### What was the asset allocation?

As at 30 November 2022, 98% of investments were aligned to the environmental and/or social characteristics promoted by this Portfolio. 2% were held in cash and derivatives.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

#### In which economic sectors were the investments made?

Sector		% of NAV as at November 30, 2022
	Restaurants and mobile food service activities	1.71%

Administrative and support service activities	Renting and leasing of other machinery, equipment and tangible goods	0.99%
	Security systems service activities	0.55%
	Temporary employment agency activities	0.52%
Construction	Construction of other civil engineering projects	0.64%

	Wholesale of household goods	1.22%

Taxonomy-aligned activities are expressed as a share of: -turnover reflecting the share of revenue from green activities of investee companies - capital expenditure (CapEx) showing the

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

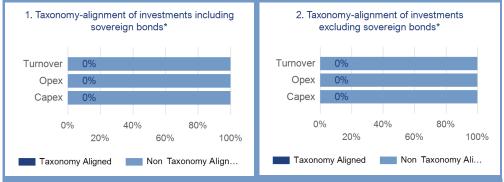

#### green investments made by investee companies, e.g. for a transition to a green economy. - operational expenditure (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmenal objective. Transitional activities are economic activities for which lowcarbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy. The two graphs below show in blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

# How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments.

These financial instruments were not subject to any minimum environmental or social safeguards.

# What actions have been taken to meet environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

### How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 31 December 2021, the Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco:
- alcohol:
- adult entertainment;
- for-profit prisons;
- civilian firearms:
- gambling

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

#### How did the sustainability indicators perform?

From 31 December 2021, the Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

• 0% of the companies in the Portfolio were directly engaged in, and/or derived significant revenues from:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- alcohol;
- adult entertainment;
- for-profit prisons;
- civilian firearms;
- gambling

• 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### Principal adverse

impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters

#### ... and compared to previous periods ?

Not applicable, the Portfolio did not disclose the use of the sustainability indicators noted above during previous reference periods.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

**How did this financial product consider principal adverse impacts on sustainability factors?** During the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

#### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

#### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments.

These financial instruments were not subject to any minimum environmental or social safeguards.

#### What actions have been taken to meet environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

#### How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether financial products attain the environmental or social promote.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

# Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable

investment means an economic activity that contributes to an objective, provided that the investment does not significantly harm any environmental or social investee companies follow good

The EU Taxonomy is a establishing a list of environmentally sustainable economic activities. That sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability** Indicators measure how the environmental or social characteristics promoted by the

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 20 June 2022, the Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consisted of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Portfolio has adhered to the ESG Criteria by making no investments in companies that were, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenue from the following activities:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco:
- alcohol:
- adult entertainment;
- for-profit prisons;
- civilian firearms:
- gambling

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

#### How did the sustainability indicators perform?

From 20 June 2022, the Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

- 0% of the companies in the Portfolio were directly engaged in, and/or derived significant revenues from:
  - controversial weapons (including nuclear weapons);
  - extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
  - tobacco;
  - alcohol;
  - adult entertainment;
  - for-profit prisons;
  - · civilian firearms;
  - gambling

• 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### Principal adverse

impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

#### ... and compared to previous periods ?

Not applicable, the Portfolio did not disclose the use of the sustainability indicators noted above during previous reference periods.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

During the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

PAI CATEGORY	PAI
Mandatory PAIs	<ul> <li>Exposure to companies active in the fossil fuel industry</li> <li>Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul>

Taxonomy-aligned activities are expressed as a share of: -turnover reflecting the share of revenue from green activities of investee companies - capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy. - operational expenditure (OpEx) reflecting green operational activities of investee companies.

#### **Enabling activities**

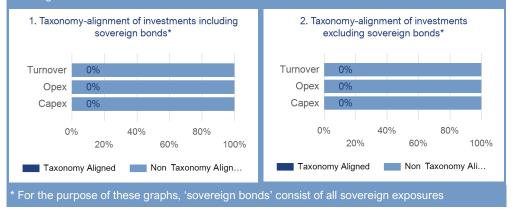

directly enable other activities to make a substantial contribution to an environmenal objective. **Transitional activities** are economic activities for which lowcarbon alternatives are not yet available and that have greenhouse gas emission levels

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

The two graphs below show in blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds<sup>\*</sup>, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the 138

Asset Management

corresponding to the best performance.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

#### meaning of the EU Taxonomy was therefore also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments.

These financial instruments were not subject to any minimum environmental or social safeguards.

# What actions have been taken to meet environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

Management

### How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Reference benchmarks are environmental or social characteristics that they promote.

#### Sustainable

investment means an economic activity that contributes to an objective, provided that the investment does not significantly harm any environmental or social investee companies follow good

The EU Taxonomy is a environmentally sustainable economic activities. That Regulation does not lay sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability** Indicators measure how the environmental or social characteristics promoted by the

- adult entertainment;
- for-profit prisons;
- civilian firearms:
- gambling

The Portfolio has also excluded from its investment universe companies the Investment Adviser believed to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

#### How did the sustainability indicators perform?

From 20 June 2022, the Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio.

The sustainability indicators have performed as follows save for one instance where the ESG Criteria was not adhered to temporarily by one of the Portfolio's third party managers at the time of the implementation of the ESG Criteria. This was rectified in accordance with firm policies on breaches and errors.

- 0% of the companies in the Portfolio were directly engaged in, and/or derived significant revenues from:
  - controversial weapons (including nuclear weapons);
  - extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
  - tobacco;
  - alcohol;
  - adult entertainment;
  - for-profit prisons;
  - civilian firearms;
  - gambling

• 0% of the companies in the Portfolio were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

#### Principal adverse

impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters

#### ... and compared to previous periods ?

Not applicable, the Portfolio did not disclose the use of the sustainability indicators noted above during previous reference periods.

# What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

During the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

PAI CATEGORY	PAI

Taxonomy-aligned activities are expressed as a share of: -turnover reflecting the share of revenue from green activities of investee companies - capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy. - operational expenditure (OpEx) reflecting green operational activities of

investee companies. Enabling activities

directly enable other activities to make a substantial contribution to an environmenal objective. **Transitional** activities are economic activities for which lowcarbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance

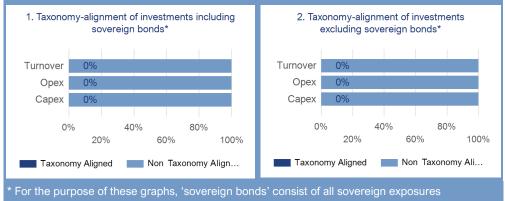

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

The two graphs below show in blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds<sup>\*</sup>, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

# How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

## What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include derviatives and cash, allocated at the discretion of the underlying managers. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments.

These financial instruments were not subject to any minimum environmental or social safeguards.

## What actions have been taken to meet environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the investee companies represented in the multi-managed Portfolio was a key part of the investment process. Given the multi-manager Portfolio nature, the Investment Adviser assessed the level of active engagement the external managers had with underlying portfolio companies on ESG issues as reflected in each manager's stewardship resources, activities, and reports. On an annual basis a due diligence questionnaire was sent to underlying managers which included questions focused on engagement activities and their results.

#### How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

Reference benchmarks are indexes to measure whether financial products attain the environmental or social characteristics that they promote

### Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

#### Sustainable

investment means an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance.

The EU Taxonomy is a classification system laid down in Regulation establishing a list of environmentally sustainable economic activities. That Regulation does not lay activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability** Indicators measure how the environmental or social characteristics promoted by the financial product are

		de sustainable investments with a al objective:%	×		noted E/S characteristics, but <b>did not make</b> ustainable investments

#### To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 30 May 2022, The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process as set forth below (the "ESG Criteria") over the reference period. This consisted of: (i) exclusions based on proprietary ESG ratings; (ii) portfolio level targets as set forth below.

Additionally, the screening process for the Portfolio has excluded government and corporate issuers that have the lowest category of ESG ratings according to the Investment Adviser's proprietary internal scoring system.

The Portfolio has achieved a higher environmental score (E-score) relative to the Reference Portfolio/Benchmark.

#### How did the sustainability indicators perform?

The Portfolio used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Portfolio. These sustainability indicators have performed as follows:

• 0.0% of corporate and sovereign issuers in the Portfolio with an ESG rating according to the Investment Adviser's proprietary internal scoring system had an ESG rating of less than or equal to 1 as at 30 November 2022.

• As at 30 November 2022, the E-score of the Portfolio according to the Investment Adviser's proprietary ESG scoring system for each sovereign issuer was 2.55. The E-score of the Reference Portfolio/Benchmark was 2.25. Over the reference period, the Portfolio consistently achieved a higher environmental score (E-score) relative to the Reference Portfolio/Benchmark.

#### ... and compared to previous periods ?

Not applicable, the Portfolio did not disclose the use of the sustainability indicators noted above during previous reference periods.

#### Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Portfolio did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

During the reference period, the Portfolio considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Portfolio included:

PAICATEGORY	PAI
Mandatory PAIs	<ul> <li>Green house gas emissions</li> <li>Carbon footprint</li> <li>Green house gas intensity of investee companies</li> <li>Unadjusted gender pay gap</li> </ul>
Non-mandatory Climate PAIs	<ul> <li>Emissions to inorganic pollutants</li> <li>Emissions of air pollutants</li> <li>Investing in companies without carbon emission reduction initiatives</li> <li>Water usage and recycling</li> <li>Deforestation</li> <li>Emissions of ozone depletion substances</li> </ul>

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2021-12-01 / 2022-11-30

#### What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Goldman Sachs US\$ Treasury Liquid Reserves Fund X Class	Mutual fund	19.47%	Ireland
SOLD USD/BOUGHT EUR	Financial and insurance activities	11.86%

	insurance and pension funding	

Taxonomy-aligned activities are expressed as a share of: -turnover reflecting the share of revenue from green activities of investee companies - capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy. - operational expenditure (OpEx) reflecting green

reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmenal objective. Transitional activities are economic activities for which lowcarbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

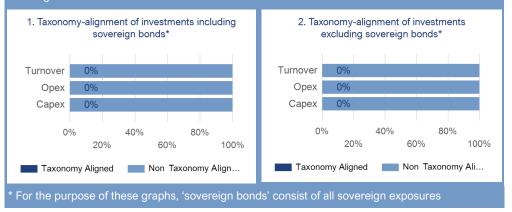

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was0%.

The two graphs below show in blue the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds<sup>\*</sup>, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### What was the share of investments made in transitional and enabling activities?

As the Portfolio did not invest in any "sustainable investments" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

# How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Over the reference period, the Portfolio has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Portfolio did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

#### What was the share of socially sustainable investments?

This question is not applicable as the Portfolio did not make socially sustainable investments.

### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include cash for liquidity purposes, derivatives, cash, mutual funds, collateralised securities and fixed income securities issued by companies for efficient portfolio management purposes and issuers for which data is lacking. These investments were used to achieve the investment objective of the Portfolio but neither promote the environmental or social characteristics of the Portfolio, nor qualify as sustainable investments.

These financial instruments were not subject to any minimum environmental or social safeguards.

### What actions have been taken to meet environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Portfolio were met during the reference period. The sustainability indicators of the Portfolio were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Portfolio contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Portfolio) were handled in accordance with the Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Portfolio was a key part of the investment process.

The Investment Adviser has engaged with corporate issuers in this Portfolio that the Investment Adviser believed to have low ESG credentials or involvement in sustainability-related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Investment Adviser is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. The Investment Adviser has engaged with sovereign issuers in this Portfolio that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Investment Adviser is permitted to invest in a sovereign issuer prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Investment Adviser believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagements, the Global Stewardship Team creates an annual Focus List, which reflects thematic priorities and guided voting and engagement efforts and included environmental, social and governance matters that were considered to be principal in terms of potential adverse impacts.

#### How did this financial product perform compared with the reference benchmark?

Reference benchmarks are

benchmarks are indexes to measure whether financial products attain the environmental or social characteristics that they promote No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Portfolio.

### Goldman Sachs Funds II Additional Information (Unaudited)

#### **Offering Documents**

This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the Fund and does not constitute an offer to buy shares in the Fund. Prior to an investment, prospective investors should carefully read the latest Key Investor Information Document (KIID) as well as the offering documentation, including but not limited to the Fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KIID and latest annual/semi-annual report are available free of charge from the Fund's paying and information agent and/or from your financial adviser.

#### **Distribution of Shares**

Shares of the Fund may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or Asian countries). Therefore, the shares of the Fund must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

#### **Investment Advice and Potential Loss**

Financial advisers generally suggest a diversified portfolio of investments. The Fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them. An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

#### Index Benchmarks

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

#### Confidentiality

No part of this material may, without Goldman Sachs' prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorised agent of the recipient.

#### Important information for Swiss Investors
