2. SIGNIFICANT ACCOUNTING POLICIES

Presentation of Financial Statements

The Financial Statements are prepared in accordance with generally accepted accounting principles and legal and regulatory requirements related to undertakings for collective investments in the Grand Duchy of Luxembourg.

Financial Statements

The Statement of Net Assets, the Statement of Operations and Changes in Net Assets, and Statistical Information are expressed in USD.

The combined financial statements are expressed in USD and correspond to the sum of items in the financial statements of each Sub-Fund, converted into USD at the exchange rate prevailing at the closing date.

The Net Asset Value of each Sub-Fund is determined in accordance with the following rules to be applied in determining such value:

a) Valuation of Investments and Other Assets

The value of each Sub-Fund's assets and liabilities shall be determined as follows:

(i) the value of any cash on hand or on deposit, bills and demand notes payable and accounts receivable, prepaid expenses, cash dividends, and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board of Directors of the Fund (the "Board") may consider appropriate in such case to reflect the true value thereof;

(ii) securities, which are listed or dealt in on a stock exchange or dealt in on a Regulated Market, may be valued at the last available price; the value of Transferable Securities, Money Market Instruments, and any financial assets listed or dealt in on a Regulated Market, shall be based on the last available closing or settlement price in the relevant market prior to the time of valuation, or any other price deemed appropriate by the Board;

(iii) the value of any assets held in a Sub-Fund's portfolio which are not listed or dealt in on a Regulated market or on any other regulated market or if, with respect to assets quoted or dealt in on any stock exchange or dealt in on any such regulated markets, the last available closing or settlement price is not representative of their value, such assets are stated at fair market value or otherwise at the fair value at which it is expected they may be resold, as determined in good faith by or under the direction of the Board;

(iv) Money Market Instruments will be valued by the amortised cost method, which approximates market value. Under this valuation method, the relevant Sub-Fund's investments are valued at their acquisition cost as adjusted for amortisation of premium or accretion of discount, which approximates market value;

(v) units or shares of an open-ended undertaking for collective investment ("UCI") will be valued at their last determined and available official net asset value as reported or provided by such UCI or their agents, or, if such price is not representative of the fair market value of

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

such assets, then the price shall be determined by the Board on a fair and equitable basis. Units or shares of a closed-ended UCI will be valued in accordance with the valuation rules set out in items (ii) and (iii);

(vi) units or shares of an open-ended UCI may be valued by reference to estimated values for open-ended UCI which have not yet finalised their own net asset values by the relevant Valuation Day, provided that if no price as at the Valuation Day has been published or otherwise made available to an open-ended UCI by such time as determined by the Investment Manager from time to time, or if the Investment Manager is not satisfied that the valuation provided is representative of fair market value, the value of a holding in such an open-ended UCI is valued at its probable realisation value as at the Valuation Day estimated with care and good faith by the Board;

(vii) the liquidating value of forward or written option contracts not traded on a market shall mean their net liquidating value determined pursuant to the policies established prudently and in good faith by the Board on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forwards, or written option contracts traded on a market are based upon the last available settlement or closing prices as applicable to these contracts on a stock exchange or on the market on which the particular futures, forwards, or written option contracts are traded on behalf of the Fund; provided that if a future, forward, or written option contracts could not be liquidated on the day with respect to which assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board may deem fair and reasonable;

(viii) all other securities, instruments, and other assets will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board;

(ix) assets or liabilities denominated in a currency other than that in which the relevant Net Asset Value will be expressed, will be converted at the relevant foreign currency spot rate on the relevant Valuation Day. In that context account shall be taken of hedging instruments used to cover foreign exchange risks;

(x) contracts for difference are valued based on the closing market price of the underlying security, less any financing charges attributable to each contract. Upon entering into contracts for difference, the Fund may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ("initial margin"). Subsequently, payments known as "variation margin" are made or received by the Fund periodically, depending on fluctuations in the value of the underlying security. During the time contracts are open, changes in the value of contracts are recognised as unrealised gains and losses by "marking-to-market" at each valuation point in order to reflect the changes in the value of the underlying security. Realised gains or losses upon closure of the contract are equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The open contracts for difference are included in the Statement of Net Assets on the basis of the Unrealised gain/(loss) attributable to each contract as at the end of the period. The contracts are subject to a daily financing charge and income, usually applied at a previously agreed rate, which is accounted in the Statement of Operations and Changes in Net Assets and in Amount due to/from broker in the Statement of Net Assets; dividend income and expenses on contracts for difference are accounted for in the Statement of Operations under income and expenses respectively. Brokerage fees on contracts for difference are accounted for as Net realised gain on contracts for difference in the Statement of Operations and Changes in Net Assets.

b) Swing Pricing Adjustment

A Sub-Fund may suffer reduction of the Net Asset Value per Share due to investors buying or selling shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of shareholders of the Fund. If on any Valuation Day, the aggregate net transactions in shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Board of Directors of the Fund or its delegate, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows, respectively. The net inflows and net outflows will be determined by the Fund based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds of the Fund. The extent of the price adjustment will be set by the Fund to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and will not exceed 2% of the original Net Asset Value per Share.

During the six months ended June 30, 2023, three swing pricing adjustment were applied; two were applied to the Merger Arbitrage Sub-Fund, and one to All Cap Value. There was no swing pricing adjustments applied to Convertible Securities Sub-Funds. No swing pricing adjustment was applied on June 30, 2023.

c) Conversion of Foreign Currencies

The books and records of the Fund are denominated in USD. Amounts denominated in other currencies are translated into USD on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into USD using currency exchange rates prevailing on each such business day, and (ii) purchases and sales of foreign investments, income, and expenses are converted into USD using currency exchange rates prevailing on the respective dates of such transactions.

Net realised gains and losses on foreign exchange represent: (i) foreign exchange gains and losses from the holding and sale of foreign currencies, (ii) gains and losses between trade date and settlement date on forward currency exchange contracts transactions, and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received.

The resulting gains and losses on translation are included in "Net realised loss on foreign exchange on other net assets" and the "Net change in unrealised depreciation on foreign exchange on other net assets" in the Statement of Operations and Changes in Net Assets.

The exchange rates applied as at period end were as follows:

1 USD	=	1.502291	AUD

Under the management company services agreement, the Management Company is entitled to a variable fee based on the net assets of the Fund, calculated at a maximum rate of 0.04% per annum but subject to a minimum fee of up to EUR 20,000 per annum per Sub-Fund. The variable fees shall be calculated quarterly on the average of the month-end Net Asset Value of the previous quarter and paid quarterly in arrears.

In addition, the Management Company is entitled to a fee of EUR 12,500 per annum for the additional performance of risk management and investment compliance calculation services. In addition, the Management Company shall be entitled to receive from the Fund reimbursement for its reasonable disbursements, included but not limited to reasonable out-of-pocket expenses, incurred in the performance of its duties. The Management Company may receive additional fees for ancillary services provided in the context of changes in or new applicable laws and regulations. In addition, where applicable, any VAT associated with the above fees and reimbursements will be charged to the Fund.

b) Performance fees

The performance fee is calculated on the basis of the Net Asset Value after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions. For hedged class of shares, the performance fee is calculated on the basis of the Net Asset Value before results, costs and expenses associated with the use of any currency hedging techniques, and after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions. The performance fee is equal to the outperformance of the Net Asset Value per Share multiplied by the number of Shares in circulation during the calculation period. No performance fee will be due if the Net Asset Value per Share before performance fee turns out to be below the high water mark for the calculation period in question.

The high water mark is defined as the greater of the following two figures:

- The last highest Net Asset Value per Share on which a performance fee has been paid; and
- The initial Net Asset Value per Share.

For all share classes of the GAMCO Merger Arbitrage Sub-Fund, the performance fee to the Investment Manager is calculated daily and was accrued when the total return of a share class exceeded the hurdle rate, consisting of the rate of return on the 13 week U.S. Treasury Bill during the period, and the high water mark (as defined hereafter) at the rate of 15% of the total return of share classes not denominated in the base currency and at the rate of 20% of the total return of share classes denominated in the base currency. Thereafter the high water mark is the greater of the last highest net asset value per share on which a performance fee has been paid and the net asset value per share at the close of business on July 31, 2018. The high water mark will be decreased by the dividends paid to shareholders.

Notes to the Financial Statements

as at June 30, 2023 (continued)

3. FEES AND EXPENSES (continued)

Provisions will be made for this performance fee on each Valuation Day. If the Net Asset Value per Share decreases during the calculation period, the provisions made in respect of the performance fee will be reduced accordingly. If these provisions fall to zero, no performance fee will be payable.

If Shares are redeemed on a date other than that on which a performance fee is paid while provisions have been made for performance fees, the performance fees for which provisions have been made and which are attributable to the Shares redeemed will be paid monthly with the Investment Management fees even if provisions for performance fees are no longer made at that date. Gains which have not been realised may be taken into account in the calculation and payment of performance fees.

In the case of subscriptions, the performance fee calculation is adjusted to avoid a subscription impacting the amount of performance fee accruals. To perform this adjustment, the performance of the Net Asset Value per Share is compared against the high water mark until the subscription date is not taken into account in the performance fee calculation. This accumulated adjustment amount is used in the performance fee calculation until the end of the relevant period and is adjusted in case of subsequent redemptions during the period.

The calculation period shall correspond to each calendar year.

Performance fees are payable within 15 business days following the closing of the year end accounts.

For the period ended June 30, 2023, performance fees charged for the Sub-Fund GAMCO Merger Arbitrage are USD 110,136 as recorded in the Statement of Operations and Changes in Net Assets. GAMCO All Cap Value Sub-Fund and GAMCO Convertible Securities Sub-Fund are not subject to performance fees.

c) Depositary fees

Under the Depositary Agreement, the Depositary receives annual custody and settlement fees, according to the agreed schedule with the Fund in respect of each Sub-Fund, the rates for which vary according to the country of investment. The custody and safekeeping fees are calculated at the end of each month based on the market value of the assets and the transaction fee is calculated based on the volume of transactions received from the Fund during a month. These fees vary depending upon the markets in which the assets of the Sub-Fund are invested and typically ranges from 0.0050% of the net assets of the Fund in developed markets to a maximum of 0.10% of the net assets of the Fund in less developed markets (excluding transaction charges and reasonable disbursements and out-of-pocket expenses). These fees may be raised or lowered from time to time to reflect current market practice if agreed between the Fund and the Depositary.

In addition, the Depositary receives a fee for providing fiduciary services to the Fund. These fiduciary fees are calculated at an ad valorem rate on the aggregate Net Asset Value of each Sub-Fund and are proportionally allocated to each Sub-Fund in accordance with the Net Asset Value of such Sub-Fund, subject to a minimum annual fee of EUR 3,000 per Sub-Fund. On aggregate Net Asset Value for a Sub-Fund of lesser than or equal to EUR 50,000,000, a fee of 0.0080% will be payable to the Depositary by the Fund. On aggregate Net Asset Value for a Sub-Fund of greater than EUR 50,000,000 up to EUR 200,000,000, a fee of 0.0060% will be payable to the Depositary by the Fund. On aggregate Net Asset Value for a Sub-Fund of greater than EUR 50,000,000 up to EUR 200,000,000, a fee of 0.0040% will be payable to the Depositary by the Fund. Such fees will be payable on a monthly basis to the Depositary.

For the period ended June 30, 2023, depositary fees charged for the Sub-Fund GAMCO All Cap Value are USD 3,831, for the Sub-Fund GAMCO Merger Arbitrage are USD 42,796 and for the Sub-Fund GAMCO Convertible Securities are USD 3,851 as recorded in the Statement of Operations and Changes in Net Assets.

4. TAXATION

Under current law and practice in the Grand Duchy of Luxembourg, the Fund is not liable for any Luxembourg income tax, nor are dividends distributed by the Fund liable to any Luxembourg withholding tax.

The Fund is as a rule liable in Luxembourg to a subscription tax (taxe d'abonnement) of 0.05% per annum of its net asset value, such tax being payable quarterly on the basis of the net asset value of the Sub-Funds at the end of the relevant calendar quarter.

A reduced tax rate of 0.01% per annum of the net asset value will be applicable to Classes F, I, and X dedicated to Institutional Investors.

5. DISTRIBUTION POLICY

The Fund may issue Distributing Share classes and Capitalisation Share classes within each Sub-Fund.

Capitalisation Share classes capitalise their entire earnings whereas Distributing Share classes pay dividends.

The general meeting of Shareholders of the class or classes of Shares issued in respect of any Sub-Fund, upon proposal of the Board shall determine how the income of the relevant classes of Shares of the relevant Sub-Funds shall be disposed of and the Fund may declare from time to time, at such time and in relation to such periods as the Board of Directors of the Fund may determine, distributions in the form of cash or Fund's Shares for the class of Shares entitled to distribution.

Should the Shareholders elect the distribution of a cash dividend, all such distributions will be paid out of the net investment income available for distribution.

For certain classes of Shares, the Board of Directors of the Fund may decide from time to time to distribute net realised capital gains, unrealised capital gains, or capital. Unless otherwise specifically requested, dividends will be reinvested further in Shares within the same class of Shares of the same Sub-Fund and investors will be advised of the details by a dividend statement. No sales charge will be imposed on reinvestments of dividends or other distributions.

For classes of Shares entitled to distribution, dividends, if any, will be declared and distributed from time to time at a frequency decided by the Board of Directors of the Fund in compliance with the conditions set forth by law.

However, no distribution may be made if, as a result, the Net Asset Value of the Fund would fall below EUR 1,250,000.

No dividends were paid during the period ended June 30, 2023.
