WHAT IS THIS PRODUCT?

Type: GAMCO Merger Arbitrage (the "Fund") is a sub-fund of GAMCO International SICAV, an investment company organised as a société anonyme under the laws of the Grand-Duchy of Luxembourg with registered number B155657 and qualifies as a société d'investissement à capital variable (SICAV) subject to Part I of the Law of 17 December 2010 on undertakings for collective investment. The assets and liabilities of each sub-fund are segregated from those of other sub-funds; there is no cross-liability, and a creditor of one fund has no recourse to the other sub-funds. The prospectus and periodic reports are prepared for GAMCO International SICAV at umbrella level. You may switch your shares in the Fund to shares of the same class in other sub-funds in which you are eligible to invest. Further information is available from RBC Investor Services Bank S.A. (the "Administrator").

Objectives: The Fund seeks to achieve long term capital growth by engaging in risk arbitrage strategies.

Investment policy and strategy: The Fund aims to achieve this objective by investing in announced equity merger and acquisition transactions and maintaining a diversified portfolio of transactions.

The investment manager will analyze and continuously monitor a pending transaction for all elements of potential risk, including: regulatory, terms, financing, and shareholder approval. Arbitrage on mergers and acquisitions consists in investing in listed securities of companies engaged in restructuring capital transactions as leveraged buyouts, mergers, or takeover bids. The arbitrageurs seek to benefit from the decrease arising from the difference between the exchange rate of the target company and its theoretical value as a result of methods used in the restructuring operation. The Fund may also use a variety of investment strategies and instruments, including but not limited to: convertible and nonconvertible debt securities; asset-backed and mortgage-backed securities; shares or units of other investment funds or UCITS; rights qualifying as transferable securities; when issued, delayed delivery transferable securities, recently issued transferable securities; repurchase agreements, money market instruments and warrants.

The Fund may also invest in, or be exposed to, the following instruments up to the percentage of net assets indicated:

- cash and cash equivalents, including money market instruments: 20%
- special purpose acquisition companies, qualifying as transferable securities: 10%

This Fund is actively managed. It makes reference to 13-Week Treasury Bills, for performance fee calculation only.

This Fund is actively managed. It makes reference to 13-Week Treasury Bills, for performance fee calculation only.

Hedging: The shares are denominated in Swiss Franc (CHF) and are hedged. The base currency of the Fund is USD. The Fund will enter into currency hedging in relation to this share class which aims to protect investors from movements in the CHF exchange rate in relation to the Fund's assets denominated in currencies other than the CHF.

The Fund may use derivatives for reducing risks (hedging), as an alternative to direct investment when direct investment is not possible or for efficient portfolio management. The Fund's expected use of total return swaps ("TRS") and securities lending is expected to be 0% of net assets but may be up to 5% of net assets. Leverage will not be employed by the Fund.

This share class is a distribution share class. Income from the Fund's investments may be paid as a dividend.

You may request redemption of your shares on any day which is a full banking day in both New York City and Luxembourg City and are ordinarily processed the following business day.

Intended Retail Investors: All investors who understand the risks of the fund, plan to invest for the medium to long term, and:

- are looking for investment growth
- are interested in an investment that favours equities
- have a medium risk profile
- can bear moderate temporary losses

Term: The Fund has no maturity date. The Management Company is not entitled to terminate the Fund unilaterally nor can the Fund be automatically terminated.

Depositary of the Fund: RBC Investor Services Bank S.A.

Copies of the prospectus, the latest annual and half-yearly reports, shareholder notices, and application forms may be obtained in [English/other languages] free of charge from the registered office of the Fund and the Management Company by contacting Waystone Management Company (Lux) S.A., 19 rue de Bitbourg, 1273, Luxembourg, or via <https://gabelli.com/funds/sicavs>

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our

capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator.

The Fund is subject to the following Risk Factors relating to (without limitation):

- Currency risk
- Merger Arbitrage risk
- Hedging risk
- Derivative and Ledger risk
- Mortgage/Asset-Backed Securities Risk
- Credit and Counterparty Risk
- Liquidity Risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

RECOMMENDED HOLDING PERIOD: 5 YEARS		1 YEAR	5 YEARS (RECOMMENDED PERIOD)	HOLDING PERIOD
INVESTMENT 10,000 CHF				
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	What you might get back after costs	5,070 CHF	4,780 CHF	
	Average return each year	-49.31%	-13.71%	
Unfavourable	What you might get back after costs	7,220 CHF	6,460 CHF	
	Average return each year	-27.83%	-8.38%	
Moderate	What you might get back after costs	8,760 CHF	8,000 CHF	
	Average return each year	-12.40%	-4.36%	
Favourable	What you might get back after costs	11,490 CHF	8,830 CHF	
	Average return each year	14.95%	-2.45%	

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF WAYSTONE MANAGEMENT COMPANY (LUX) S.A. IS UNABLE TO PAY OUT?

Although the assets of the Fund are held in safekeeping and segregated from the own assets of the Management Company or of the Depositary, in the event of the insolvency of either of those providers, you may suffer a financial loss. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- CHF 10,000 is invested.

INVESTMENT 10,000 CHF SCENARIOS	IF YOU EXIT AFTER 1 YEAR	IF YOU EXIT AFTER 5 YEARS
Total Costs	1,288 CHF	2,345 CHF
Annual Cost Impact (*)	12.88%	5.05% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.68% before costs and -4.36% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

WHAT ARE THE COSTS?

COMPOSITION OF COSTS

		IF YOU EXIT AFTER 1 YEAR
One-Off Costs upon entry or exit		
Entry Costs	Up to 5.0% of the amount you pay in when entering this investment.	500 CHF
Exit Costs	Up to 5.0% of your investment before it is paid out to you.	500 CHF
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.71% of the value of your investment per year. This is an estimate based on actual costs over the last year.	171 CHF
Transaction costs	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	12 CHF
Incidental costs taken under specific conditions		
Performance fees	15% of the total return conditional on both the total return and the NAV on last business day of the performance period (i.e., a calendar year) being in excess of the performance hurdle and the high water mark on the last business day of the performance period provided the Fund clawed back its relative loss to the performance hurdle over the last 5 years. The actual amount will vary depending on how well your investment performs. The estimated performance fee for this share class is 1.05%. The aggregated cost estimation above includes the average over the last 5 years.	105 CHF
