What is this product?

Type

The Fund is an investment company incorporated as a société anonyme qualifying as a Société d'Investissement à Capital Variable. The Fund's value is dependent on the performance of the underlying assets and may go up as well as down. Any capital invested in the Fund may be at risk.

Objectives and Investment Policy

Investment Objective:

The Fund aims to provide growth and income by primarily investing in a diversified portfolio of Frontier Markets shares.

Investment Policy:

In normal market conditions, the Fund invests minimum of 90% of its assets in shares (or securities similar to shares) of companies of any size which have their registered office in, and with an official listing on a major stock exchange or other regulated market in Frontier Markets, as well as those companies with significant operations or carrying out a preponderant part of their business activities in these countries.

The Fund may invest up to 10% in eligible closed-ended Real Estate Investment Trusts (REITs).

Companies considered for inclusion within the Fund's portfolio will be subject to excluded activities in accordance with HSBC Asset Management's Responsible Investment Policies, which may change from time to time. Please refer to the Prospectus for further details on excluded activities.

The Fund may also invest up to 10% of its assets in other funds, and may invest in bank deposits and money market instruments for treasury purposes.

The Fund may use derivatives to manage exposure to these markets, gain exposure to other currencies, improve returns and help meet the Fund's objective. The Fund may use them for efficient portfolio management purposes.

- The Fund may enter into securities lending transactions for up to 29% of its assets. However, this is not expected to exceed 25%.
- The reference currency of the Fund is USD. The reference currency of this share class is USD.
- Income is reinvested.
- You may sell your investment on most working days.
- The Fund is actively managed and does not track a benchmark. The reference benchmark for the Fund is MSCI Select Frontier & Emerging Markets Capped Net.
- The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- The deviation of the Fund's performance relative to the benchmark is also monitored, but not constrained, to a defined range.

Intended Retail Investor

The Fund may be suitable for investors with a long term investment horizon. The Fund is intended for more experienced investors aiming to asset classes that have the potential to reduce liquidity and increase the volatility of return, or investors aiming for very active investment strategies which may result in a concentrated portfolio. The Fund may be suitable for investors looking for an investment to diversify an existing core portfolio.

An investment in the Fund is only suitable for investors who are capable of evaluating the risks and merits of such an investment, and who have sufficient resources to bear any loss as the Fund is not guaranteed and they may receive back less than the amount invested. The Fund is designed for use as part of a diversified investment portfolio. Prospective investors should consult with their financial advisor before making an investment.

Term:

The Fund does not have a maturity date.

The PRIIP Manufacturer cannot terminate the Fund unilaterally. The Board of Directors may furthermore decide to liquidate the Fund in certain circumstances set out in the prospectus and articles of incorporation of the Fund.

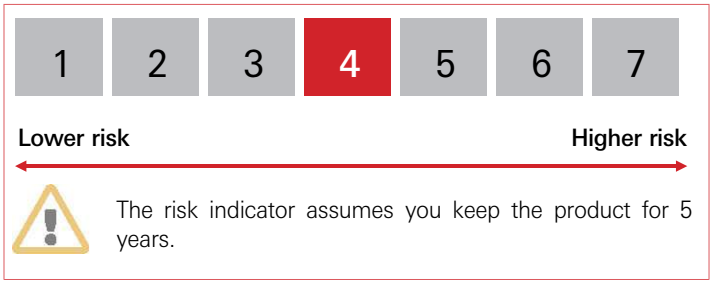
What are the risks and what could I get in return?

Risk Indicator



The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium, and poor market conditions are could impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Additional risks not included in the Summary Risk Indicator (SRI) include: Liquidity, Counterparty, Operational, Investment Leverage and Exchange Rate Risk. Please refer to the prospectus for other risks.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended Holding Period: 5 Years **Investment of USD 10,000**		**If you exit after 1 year**	**If you exit after 5 years**
Minimum	The Fund is not covered by an investor compensation or guarantee scheme, you may lose some or all of the amount invested.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between January 2018 and January 2023. The moderate scenario occurred for an investment between October 2018 and October 2023. The favourable scenario occurred for an investment between March 2020 and March 2025.

What happens if HSBC Investment Funds (Luxembourg) S.A. is unable to pay out?

The Fund's ability to pay out would not be affected by the default of HSBC Investment Funds (Luxembourg) S.A.. The Fund's assets are kept safe by the Depositary Bank and are segregated from the assets of other Funds. This means that the holdings of one Fund are kept separate from the holdings of the other Funds and your investment in the Fund cannot be used to pay the liabilities of any other Fund. There is a potential liability risk for the Depositary if the assets of the Fund are lost. The Depositary is liable in case of its negligent or intentional failure to properly fulfil its obligations pursuant to the 2010 Law.

In the event of a bankruptcy or insolvency of the Depositary Bank or other service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of shares) or other disruptions and there may be a risk of default. The Fund is not covered by an investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10,000 is invested.

Recommended Holding Period: 5 Years Investment of USD 10,000	If you exit after 1 year	If you exit after 5 years
Total Costs	790 USD	3,151 USD
Annual cost impact % *	7.9%	4.3% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.31% before costs and 8.03% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

These figures include the maximum distribution fee that the person selling you the product may charge up to 5.00%. This person will inform you of the actual distribution fee.
