## What is this product?

**Type:** Shares of a Sub-Fund of Amundi Funds, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** To achieve a combination of income and capital growth (total return). The sub-fund is managed in consideration to a number of ESG themes in such areas as community involvement and human rights, carbon footprint reduction and other such themes. The sub-fund aims to outperform its benchmark at least in two of those themes.

**Investments:** The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. The Sub-Fund invests at least 80% of net assets in corporate and government bonds of issuers in OECD countries, with at least 67% of its net assets in investment grade corporate bonds denominated in EUR.

The Sub-Fund may also invest in bonds in currencies other than the euro, provided that these are principally hedged back to euro.

While complying with the above policies, the Sub-Fund may also invest in other types of bonds, money market instruments, deposits and convertible bonds, and in the following up to the stated percentages of net assets: - equities and equity-linked instruments: 10%, - UCITS/UCIs: 10%.

The Sub-Fund's exposure to contingent convertible bonds is limited to 10% of net assets. The Sub-Fund may use derivatives for hedging and efficient portfolio management.

The Sub-Fund may use credit derivatives (up to 40% of net assets).

**Benchmark:** The Sub-Fund is actively managed by reference to and seeks to outperform (after applicable fees) the Bloomberg Euro-Agg Corporates (E) Index, over the recommended holding period. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be significant. The Benchmark is a broad market index, which does not assess or include its constituents according to environment characteristics and therefore is not aligned with the environmental characteristics promoted by the Sub-Fund.

**Management process:** The investment team analyses interest rate and economic trends (top-down) to identify geographic areas and sectors that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select sectors and securities (bottom-up) and to construct a highly diversified portfolio. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the Benchmark.
