This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

# AMUNDI FUNDS EMERGING MARKETS HARD CURRENCY BOND - O EUR A Sub-Fund of the SICAV AMUNDI FUNDS

ISIN code: (A) LU0907913114

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

### Objectives and Investment Policy

To achieve a combination of income and capital growth (total return). Specifically, the Sub-Fund seeks to outperform (after applicable fees) the JP Morgan EMBI Global Diversified Hedged Euro index over the recommended holding period.

The Sub-Fund invests at least 50% of net assets in bonds and convertible bonds that are:

- issued or guaranteed by emerging country governments or
- issued by companies that are headquartered, or do substantial business, in emerging countries.

There are no rating constraints on these investments.

The Sub-Fund may invest up to 25% of net assets in bonds issued by companies that are not 100% government-owned.

The Sub-Fund makes extensive use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates, and volatility). The Sub-Fund may use derivatives on foreign exchange for hedging only. The Sub-Fund may use credit derivatives (up to 40% of net assets).

**Benchmark** : The Sub-Fund is actively managed by reference to and seeks to outperform the JP MORGAN EMBI Global Diversified Hedged Euro Index. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material.

**Management Process** : The investment team analyses interest rate and long-term macroeconomic trends (top-down) to identify the geographic areas that appear likely to offer the best risk-adjusted returns. The investment team then uses both technical and fundamental analysis, including credit analysis, to select issuers and securities (bottom-up) and to construct a highly diversified portfolio.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 3 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

### Risk and Reward Profile

The risk level of this Sub-Fund mainly reflects the market risk arising from investments in emerging markets bonds.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean 'risk free'.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Credit risk: represents the risks associated with an issuer's sudden downgrading of its signature's quality or its default.

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/fluctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulfil its contractual obligations vis-à-vis your portfolio.
- Operational risk: this is the risk of default or error within the different service providers involved in managing and valuing your portfolio.
- Emerging Markets risk : Some of the countries invested in may carry higher political, legal, economic and liquidity risks than investments in more developed countries.

The use of complex products such as financial derivative instruments might increase market movements in your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
